TWO DULUTH TAILORS MEET DEATH IN THE WATERS OF RICE LAKE

Boat Overturns While Men Are Fishing on the Lake.

Believed to Have Been Intoxicated When Accident Occurred.

Bodies Found By Man From Whom They Rented Boat.

Olaf Johanson, 28 years old, a resident of Duluth for but two weeks, coming here from St. Paul, and Theadore Okeson, about 30 years old, living on East First street, both tailors in the employ of Duluth tailoring establishments, were drowned yesterday while fishing on Rice lake, about twelve miles north of the city.

It is supposed that the men had been drinking at the time of the accident, the lake being perfectly smooth. It is known that they had a quantity of liquor with them, and it was noticed before they went out in the boat that they were more or less under the influence of liquor, but both were quiet and orderly and no one thought of it being unsafe for them to venture out on the lake in a broad, flat-bottomed boat.

The bodies were found this morning by A. A. Miller who keeps the boat house at the lake. When they did not show up this morning Mr. Miller became alarmed and in spite of the fact that the lake was very rough, he started out to find the men. He found the boat overturned and the bodies floating in the high weeds which bor-

WANTS TO GIVE TAFT AN ISLAND

Willing Citizen Adds to Offers of Summer Capital for President.

Washington, May 22.—The proposal of certain Minnesota citizens to establish a summer White House on Lake Minnetonka seems to have started an "open season" for summer White House offers to President Taft. Two such offers from widely separated parts of the country came today.

One man, whose name was not made public, expressed a wish to give the president full title to one of the Thousand Island in the St. Lawrence river, provided Mr. Taft would establish a summer capital on it. The writer stated that he owned so many islands he did not really know what to do with them. He would be glad if the president would take one off his hands. Secretary Hilles replied that the president could not very well use an island at this time.

Representative Austin and a delegation of Tennesseans from Berryville offered the president a fully equipped summer home on Bald Knob in the Smoky Mountains, about sixty miles from Knoxville. The offer probably will not be accepted.

REVIVE TRAFFIC ON MISSISSIPPI

Steamer Starts From New Orleans With Cargo for Kansas City.

New Orleans, La., May 22.—Carrying several carloads of freight consigned to Kansas City merchants, the steamer Chester left here today for the Missouri city. It is intended as a revival of river traffic between New Orleans and Kansas City. The trade was abandoned twenty years ago. Merchants of the two cities believe the inauguration of river traffic will make for an adjustment of disputed freight rates between the two points.

VIRGINIA TO GET POSTAL BANK

Hitchcock Will Add 100 Offices to List Every Week.

Washington, May 22.—Postmaster General Hitchcock, impressed by the reports of the successful operation of the postal savings system, has decided to designate hereafter, for a considerable time, 100 additional postal depositories each week instead of fifty, as announced a month ago.

Announcement is made of the designation of fifty additional depositories, twenty-three of them to be located in states west of the Missouri river, where the heaviest deposits heretofore have been made, and where the department feels banking facilities are comparatively limited.

Among the postoffices selected as depositories which will be open for postal savings business on June 19 are: Calumet, Mich.; Virginia, Minn.; Williston, N. D.; Lead, S. D.; Cudahy and Chippewa Falls, Wis.

KEEPS FEDERAL JOB; DECLINES BANK OFFER

LAWRENCE O. MURRAY, Comptroller of the United States Treasury.

Washington, May 22.—Comptroller of the Treasury Lawrence O. Murray today declined the presidency of the First National Bank of Pittsburg. He announced that he would serve out his term as comptroller, which expires in 1913. It is reported that some other treasury official may be tendered the place.

FIVE ACES; THREE DEAD

Fourth Man Is Mortally Wounded at Kayler, Pa.

Another Poker Player Is Killed in Quarrel at Uniontown.

Kittanning, Pa., May 22.—Three men were murdered and one shot during a quarrel over a game of cards at Kayler last night. Dick Sendrio, a miner, it is alleged, shot and killed his brother, Charles, and Andrew and Rocco Leopold Bratlis, two brothers, and also fatally wounded Walter Spilish.

It is claimed that during the game five aces were found in a deck of cards with which the men were playing poker. Dick was suspected and was given a beating. He revenged himself by firing into the crowd, and then fled.

A large band of angry miners today is hunting the fugitive.

Held Out Four Aces.

Uniontown, Pa., May 23.—A quarrel over a poker game resulted in one man being killed and another wounded at the Sunshine Coke works No. 1, last night. Three brothers named Logwabaca were playing with Frank Pecan and Frank Rinlte. The latter charged, one of the brothers with holding out four aces and it is alleged Logwabaca drew a revolver and killed Pecan and shot Rinlte in the right leg. The three brothers escaped.

CARNEGIE NOT TO BE SUBPOENAED

Laird of Skibo Will Testify Willingly as to Steel Trust.

Washington, May 22.—Andrew Carnegie has notified the house "steel trust" investigating committee that he is willing to appear before it and that no subpoena or legal document is necessary to insure his presence in Washington when desired.

Mr. Carnegie called Representative Stanley of Kentucky, chairman of the committee, over the long distance telephone. A subpoena which had been issued for Mr. Carnegie was destroyed.

The committee has not yet fixed a date for the hearing.

TWO WISCONSIN TRAINMEN KILLED

Third May Die as Result of Collision on the Soo Line.

Waukegan, Ill., May 22.—Two trainmen were killed and a third was so seriously injured he probably will die when two freight trains on the Soo Line, Wisconsin Central branch, met head-on early today at Dolittle Crossing at Gray's Lake. The dead.

JAMES CAREY of Fond du Lac, Wis., a fireman; scalded to death.

FRED MILLER of Fond du Lac, conductor; buried beneath debris.

A brakeman, Ray Davis, jumped, but was so severely injured it is believed he will die.

NELSON SCORES TAFT FOR PRESSING PACT WITH THE DOMINION

NEW CHARGES TO BE MADE

Lorimer Must Face Immediate Investigation, Say Senators.

Regular Republicans and Democrats Agree on Proposal.

Washington, May 22.—A prompt and sweeping inquiry into new charges against Senator Lorimer of Illinois, growing out of the investigation by the Illinois state legislature was assured today when the regular Republicans decided to present in the senate late today a resolution calling for the conduct of such an inquiry under the direction of the senate committee on privileges and elections.

The Democratic senators will support the resolution, which will be a substitute for the LaFollette resolution naming a special committee of new senators to take up the inquiry. The Democrats held a caucus this morning and decided in favor of a resolution directing the immediate inquiry by the regular senate committee.

Substitute Resolution.

Senator LaFollette had given notice last week that he would call up his resolution today. Senator Dillingham, chairman of the committee on privileges and elections, will introduce the substitute agreed on today. It is probable that the committee on elections will be directed to conduct the investigation through a sub-committee to be chosen from its own members, but affirmed by the senate.

Says President Is Evading Constitution and Trifling With Senate.

Offers Amendments Retaining Duties on Farm Products.

Cites Amendments to Treaties as Reason for Action Now.

Washington, May 22.—Senator Nelson of Minnesota attacked President Taft today before the senate finance committee for seeking to prevent the senate from amending the Canadian reciprocity bill. He declared that the Constitution made the senate part of the treaty-making power of the country, and offered several amendments to the measure.

Senator Nelson's amendments would reduce about one-half the existing tariff rates on most farm products. To put farm products on the free list, he declared, was legislating directly against the farmers.

"President Taft is evading the Constitution of the United States," he asserted, "when he tries to force the senate to accept this agreement as it was presented. He is trifling with the senate of the United States."

Senator Nelson urged the committee to consider carefully his proposed amendments. He said the senate had amended previous treaties and that there was no valid reason why it should not amend the Canadian agreement.

NEGRO LYNCHED BY GEORGIA MOB

Crawfordsville, Ga., May 22.—Joe Moore, a negro, who yesterday confessed to having murdered Henry Googher, a wealthy farmer, Saturday night, was taken from the jail here early this morning and hanged to a tree by a mob.

OLDEST HOUSE IN AMERICA BURNED

Hampton, Va., May 22.—"Chesterville," the original home of George Wythe, signer of the Declaration of Independence, and said to be the oldest residence in America, was destroyed by fire early today. The dwelling was owned by Mrs. Robert S. Hudgins and occupied a site on Black river. Local historians say the house was more than 175 years old.

STIMSON TAKES OATH OF OFFICE

Washington, May 22.—Henry L. Stimson of New York today was sworn in as secretary of war, succeeding Jacob M. Dickinson, resigned. The ceremony took place in the office of the secretary.

Following a call upon the president, the new secretary proceeded to the war department, accompanied by Senator Root and Representative Dwight, where they were received by Secretary Dickinson. The oath was administered by John Randolph, who has performed similar functions for many secretaries.

Secretary Stimson, standing beside Former Secretary Dickinson, then received the army officers on duty in Washington. All were in uniform, many in white duck suits, and the scene was marked by martial brilliancy as they passed in review. The various civil officers of the war department also were presented.

Former Secretary Dickinson, in planning his departure, has arranged to be in Nashville, Tenn., Friday. He will stop at Louisville en route.

DRAMATIC SETTING ATTENDS THE SIGNING OF THE MEXICAN PEACE AGREEMENT---COUNTRY IS QUIET

Envoys Meet on Steps of Custom House at Juarez.

Flaring Matches and Auto Lamps Furnish Light for Gathering.

Messages of Good Cheer Sent to All States---The Agreement.

Juarez, Mex., May 22.—By the light of matches that flared in the fingers of eager newspaper men who gathered about the envoys as they sat on the steps of the local custom house, a peace pact was signed last night by the representatives of the government and the revolutionists. As a result, tranquillity of an officially declared variety, not unlike the quietude of the erstwhile general armistice, but possessing more of the normal atmoshpere of real peace, reigned in Mexico today for the first time in six months. Messages were flashed today over all wires and sent by courier to remote parts of the country that a peace agreement had definitely ended the hostilities between the revolutionists and the federal government.

Judge Carbajal Joyful.

Undisguised joy beamed in the face of Judge Carbajal, the federal peace envoy, today, as he prepared to depart for the City of Mexico, his mission here being accomplished after nearly four weeks of parleys. Francisco I. Madero, Jr., triumphant leader of the revolt, will await the resignation of President Diaz, starting for City of Mexico within a week when it is expected to become an established fact.

Senor Madero smiled this morning as he heard the story of how the peace agreement was signed last night. His callers told and retold the humorous sidelight that was thrown on the signing of the document.

Peace Envoys Locked Out.

Francisco Madero, Sr., had called on Judge Carbajal at El Paso about 9:30 o'clock last night and after a tedious half hour wait for Senor Pino Suarez,

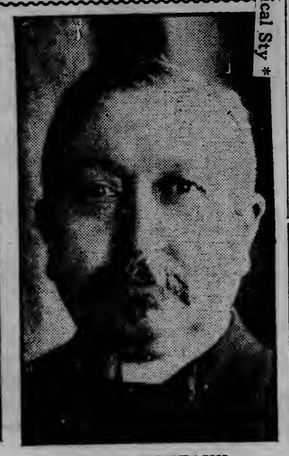
NOTED VICTIMS OF AEROPLANE DISASTER

ANTOINE MONIS, Premier of France, Who Was Seriously Injured by Being Struck by a Monoplane.



HENRI BERTEAUX, French Minister of War, Who Was Killed by the Machine That Injured Premier Monis.

MOTOR VEHICLES IN FATAL SMASH

One Man Killed and Seven Hurt When Motor Hits Auto Truck.

Chicago, May 22.—One man was killed and seven were injured here today in a collision between an automobile and an auto truck. Two of the injured may not recover.

The automobile, containing seven men, leaped in the air and then turned turtle, crushing the occupants beneath. The auto truck was overturned and the driver hurled against the pavement.

Michael Halpert, one of the seven men under the pleasure car, was taken out dead.

GEN. REYES' WIFE IS SERIOUSLY ILL.

Paris, May 22.—Senora Reyes, wife of Gen. Bernardo Reyes, the Mexican ex-secretary of war, is seriously ill at her home in Neuilly-Sur-Seine, a suburb of Paris. Her son and daughter are apprehensive and send cablegrams frequently to their father, whose journey to the Mexican capital has been interrupted at Havana pending developments in the Mexican revolutionary situation. The malady from which Senora Reyes is suffering is diagnosed as inflammation of the liver.

PREMIER IS RECOVERING

French Statesman's Condition Is Satisfactory, Say Physicians.

Minister of War Dead as Result of Aeroplane Disaster.

Paris, May 22.—Physicians today reported as satisfactory the condition of Antoine E. Monis, the Fench premier and minister of the interior, who was seriously injured yesterday when an aeroplane, piloted by M. Train, dashed into a group of government officials on the military field at Issy-Les-Moulineaux to witness the start of the Paris to Madrid race, killing Henri M. Berteaux, the French minister of war, and injuring two other men.

Premier Monis, who was buried beneath the wreckage, sustained compound fractures of two bones in the right leg, had his nose broken, his face badly contused, and received bruises on the breast and abdomen. He passed a quiet night. No complications have set in.

Vedrine Resumes Flight.

Pierre Vedrine, undismayed by his own accident yesterday, when, just prior to the disaster in which the French minister of war was killed, his machine suddenly capsized and wrecked, again started in the Paris-to-Madrid race early this morning.

A thick haze covered the Issy-les-Moulineaux aviation field and comparatively few spectators were on hand to

(Continued on page 4, third column.)

CLAIM SLEEPER SHOT HIMSELF

Relatives Say He Fired Revolver While in a Dream.

New York, May 22.—The danger of sleeping with a pistol under one's pillow was illustrated today when John McAleenan died from a self-inflicted bullet wound through the head.

Members of the family said McAleenan slept with a revolver at the head of the bed, and shot himself during a dream. The police could not find the weapon, but were told that it had been taken away by relatives, who found the young man dying in bed.

The coroner reported the case as an accident.

SERIOUS DROUTH IN KANSAS ENDS

General Rain Is Reported Throughout the Wheat Belt.

Topeka, Kan., May 22.—Rain began falling early this morning and is continuing. The indications are that the rain is general and that it covers the wheat belt, where it was greatly needed.

The Rock Island reports that the rain extended to the western end of the state and the Santa Fe telegraph department makes a similar report.

In this locality of Eastern Kansas the small fruit and gardens were suffering greatly from lack of moisture and it is feared that the oat crop has been greatly damaged.

REBELS KILL 225 CHINESE.

Eagle Pass, Tex., May 22.—In a desperate fight between Mexican insurrectos and Chinamen at Torreon, 225 Chinamen were killed. This information was received here today by Sam Wah, owner of the International hotel at Ciaudad Porfirio Diaz, across the river from here. Details of the slaughter have not reached here except that among the Chinamen killed were fifty of Wah's ranchmen. Wah has telegraphed the Chinese minister at Washington asking for protection.

PAROLE BREAKING LAID TO BIGAMIST

Charles R. Drummond Is Accused By Missouri Sheriff.

St. Louis, Mo., May 22.—Telegrams have been sent to the police of Los Angeles, Long Beach and San Francisco by Sheriff Grueninger of St. Louis county, asking for the arrest of Charles R. Drummond, member of a wealthy St. Louis family. Drummond is wanted for alleged violation of a parole, granted after he was fined and sentenced to jail on a plea of guilty of bigamy. The sheriff said today he has learned that Drummond is in California living under the name of Charles R. Dunbar.

MANY PREACHING ON LOW SALARIES

Presbyterian Ministerial Relief Committee Makes Its Report.

Atlantic City, N. J., May 22.—The report of the committee on ministerial relief, submitted today to the Presbyterian general assembly makes a strong plea for the needy clergyman.

"Less than half of our 9,073 ministers," says the report, "are settled pastors of churches, and many of these who are receiving very small salaries. Of the 9,073 ministers only about 2,500 have salaries of $1,000 and upwards. Over 6,000 ministers either have no salaries at all, or where they do have salaries, they are less than $1,000 a year, and many of them have salaries of less than $500 a year. Experience has taught us that only 5,000 of our ministers are able to carry life insurance, leaving 4,000 ministers who are unable to buy any insurance whatever."

ALLEGED TRAIN ROBBERS FREED BY MAGISTRATE.

Ogden, Utah, May 22.—Committing Magistrate Murphy today ordered the discharge of Bryan O'Hare and Victor Clore, accused of robbing a Southern Pacific overland train on Jan. 2 last, there being "no sufficient cause to believe the men guilty of the offense."

NO CONSERVATION OF THIS TREE.

TURNED BOTH CLUBS DOWN

Duluth Boy Created Sensation at Yale Tap Day Exercises.

Declined Election to Scroll and Key and Wolf's Head.

Elmer W. McDevitt of Duluth, guard on the Yale football team and one of the most popular men in the junior class at New Haven, declined election to both Wolf's Head and Scroll and Key, two of the three exclusive senior societies. He failed of election to Skull and Bones, to which Cavour Hartley was elected. McDevitt's refusal of election to the two societies is most unusual, and was one of the surprises of the annual tap day at Yale last week.

The following account of the tap day ceremonies is from the New York Herald:

"Tap day, the day the juniors of Yale deem the most important of the year, was celebrated on the campus this afternoon. As the chapel clock struck 5 there tipped across the campus representatives of the senior societies of Scroll and Key, Skull and Bones and Wolf's Head to slap members of the junior class on the back with the significant 'Go to your room.'

"This is the manner of conferred

ELMER W. McDEVITT.

election to the senior societies, and the slapping and cheering continued until forty-five expectant jurors were honored. The ceremonies were prolonged, for there were more refusals than ever before. Five men 'turned down' Wolf's Head and one of these refusals was coupled with a refusal to Scroll and Key. The student to refuse election to these two societies was Elmer W. McDevitt of Duluth, Minn., who was guard on the football team last year and one of the most popular men in the class. He failed of election to Skull and Bones, but started the cheering for Arthur Howe, captain of the football team, the last man chosen by Skull and Bones. The greatest surprise was in the case of Pete Francis, who was overlooked by all three societies.

"Skull and Bones, as usual, chose the majority of the prominent athletes of the junior class, while the leaders in social, literary and dramatic circles went to Key. Esmond O'Brien, son of Judge Morgan J. O'Brien of New York, went to Key. The campus was alive with academic men, and in the windows of Durfee, Lawrence and Connecticut halls were scores of women of the city. There was more enthusiasm than usual and much more uncertainty as to how the election would turn out."

WEATHER: Generally fair and cool weather tonight and Tuesday; probably frost tonight in low places.

TREMYLOFF TOO ACCOMMODATING

His Good Nature Caused His Arrest on Forgery Charge.

James Tremyloff learned yesterday that it isn't always a good idea to be too accommodating. It cost him several anxious hours in the police station, where he had been booked on a charge of forgery.

Ho was accused of forging the name of F. Wirth of West Duluth to a check for $12. He admitted it and the circumstances were such that as soon as his story had been corroborated he was released. He said that he had been asked by Wirth's wife to cash the check for her at a nearby store. It called for $12, and as it had not been indorsed, he signed Wirth's name on the reverse side. Wirth didn't known what had become of the check and reported its loss to the police. When it turned up it was learned that Tremyloff had cashed it and was placed under arrest. Mrs. Wirth told the police the same facts that Tremyloff had related, after which he was given his liberty.

WISCONSIN COW IS A RECORD BREAKER.

Madison, Wis., May 22. — The world's record for milk and butter fat production for one year has just been broken by the grade Guernsey, Bessie, owned by R. W. Rowlands, Waukesha, according to the official test conducted by the college of agriculture of the University of Wisconsin.

Her production for the year just closed was 12,195 pounds of milk, containing 1,755 pounds of milk solids and 695.3 pounds of butter fat. The handicap allowed because she was 3 years old increases the actual butter fat production to 777.9 pounds for the year.

WATSON MOORE SPEAKS AT CALUMET MEETING.

Calumet, Mich., May 22.—(Special to The Herald.)—Watson S. Moore, president of the Duluth Y. M. C. A., addressed a large audience here Friday night, among whom were many of the leading business men and professional men of Calumet, Laurium, and vicinity, at the postponed annual meeting and banquet of the Calumet Y. M. C. A. on "Just Men."

Mr. Moore stated that the only aim of the institution is to get after the men and to develop them bodily, mentally and spiritually. He reviewed very briefly the steady growth of the association and the ideals that are being realized through its work. He felt that the institution is one for men only and that it is developing a better class of human beings through its varied activities.

The association, he said, has many means of reaching the men, but its first care is to find work for those it is trying to help, to give them a chance to become self-providing. After they have the means of earning a livelihood the association takes care that they enjoy life in the fullest sense, through the social, athletic and other fields of association work. After they have a perception of the great joy of living, of living rightly, honestly and cleanly, they are taught that "man shall not live for bread alone," but that there are other and higher experiences and nobler work for him to do.

Mr. Moore stated that the association is becoming the medium for the greatest governments of the present day, the greatest of which is the laymen's missionary movement.

COX DECISION NOT ENTERED

Judge Dickson Orders Prosecutor From Court—Hunt Refuses to Go.

Cincinati, Ohio, May 22. — Although this was the day scheduled for the formal entry of the decision of Judge Dickson freeing George B. Cox from the charges of perjury preferred by the January grand jury, the entry was not made. An alternative writ of mandamus, issued by the circuit court, halted the proceedings and caused a clash between the judge and prosecutor, Henry T. Hunt.

At one stage in the argument Judge Dickson, incensed at the prosecutor's words, ordered him to leave the room. Hunt's answer being: "I refuse."

Both Present Entries.

The clash started when attorneys for Cox and the prosecution presented entries by which each side sought to have Saturday's decision recorded according to a particular interpretation. The entry for Cox was that both indictments were quashed; that for the county that one was quashed, one holds good and that the prosecutor has the right to elect which indictment shall be quashed.

The last phase is covered by the writ of mandamus issued by the circuit court, which ordered Judge Dickson to put on an entry permitting the prosecutor to elect upon which of the indictments he will proceed. It is returnable next Saturday.

Without passing on either entry today Judge Dickson accepted both, pending a ruling from the circuit court of the effect of the writ of mandamus.

OIL REBATING CASE CALLED

Maximum Penalty Possible Is Nearly Four Million Dollars.

Rochester, N. Y., May 22.—The case of the government against the Standard Oil company was called for trial before Judge Hazel in the United States district court this morning. In the indictment, which charges the oil company with having accepted railroad rebates on shipments of oil from Olean to Burlington, Vt., there are 188 counts. The minimum penalty for conviction upon each count is $1,000 and the maximum is $20,000.

It is the contention of the defendant company that there should be but ten counts in the indictment, as it claims there were but ten shipments in question. The government bases its counts on the separate carloads, counting each one as a shipment and each shipment as a count.

The indictment is of several years' standing, but the trial has been delayed.

DELAY IN CHANGING SCHOOL YEAR DATE.

Grand Forks, N. D., May 22.—(Special to The Herald.)—Delay of one year will be taken in the proposition of recommending changes in the school year in North Dakota so far as the state high school conference is concerned. That organization has launched a movement looking to a change in the time of opening and closing the public schools, being in favor of opening agout two weeks later in the fall, and continuing two weeks longer in the spring of the year. The purposes of the plan is to bring about, if possible, better attendance upon the part of farm children, many of whom are not able to go to school during the first part of the fall term because of farm work.

Minneapolis received the endorsement of the conference for the next annual meeting of the National Educational association.

ALLEGED WILLISTON THIEF IS CAUGHT IN MONTANA.

Williston, N. D., May 22.—(Special to The Herald.)—Harry Williams is accused of cutting a hole in the plate glass show window of the Hartstein jewelry store, securing about twenty watches and a good sized collection of rare coins. He was arrested at Culbertson, Mont., while engaged, it is charged, in selling the stolen watches.

DULUTHIAN'S DAUGHTER IS IN BRAINERD HOSPITAL

Brainerd, Minn., May 22.—(Special to The Herald.)—Assistant Superintendent of Superior Division W. H. Strachan and wife of Duluth arrived yesterday in the private car of Supt. K. M. Nicoles to visit their 10-year-old daughter, Lucile, who is sick at the Northern Pacific Railway sanitarium here.

ASSESSING JEWELS AND MOTOR BOATS NO TASK FOR WEAKLING

Two large, heartrending tears glistened in the eyes of a certain housewife when a deputy assessor—how could he—demanded to know the value of her jewels.

Being rather a young man it hurt him to do it—but also, being under ironclad instructions and aiming to make a record for himself, he felt that he had to do it. Steeling himself and risking the chance that the flood gates

would be opened wide, he repeated the demand. It hurt him, but he had learned well the lesson in the public school which went somewhat in this way: "When duty says thou must, the youth replies, 'I can.'"

Again he asks, but in a mollified tone. The housewife, afraid of making a scene before a mere man, a mere stripling at that, only looked at him, with the two tears gradually welling to the brink where they were in imminent danger of spoiling her complexion. She was actually speechless. She didn't talk because she didn't want to—she simply couldn't. The audacity of the thing, to think that she had any jewels. Why, the very thought was almost enough to send her into a towering rage. But all she could do was to look, just look at the beardless one who had the "nerve" to ask such a question. So she just shook her head and the deputy went on down the list, leaving the space where jewels should be entered a blank. He couldn't figure out whether she felt so bad about the question because she had such a stack of them, or whether it was the thought of being almost accused of having what she didn't have, but craved, that so nearly caused him to be squelched with coplous sobs. Anyhow, the space where jewels should be entered remained a blank.

The gasoline deputy has also been having his troubles. Motor boat owners have had a most discouraging way of dodging him. Also, he has been disconcerted by the fact that the boat houses have been locked by the owners, which makes it hard for him to arrive at the value of the boats which are inside them. But being an owner in a small way himself—and he says the others are also owners in a small way when he asks them what their boats are worth—he can sympathize with them to some extent. He realizes that the assessor is not the only enemy of

the unfortunate who possesses a motor boat. He knows that he has to protect himself against thieves as well. So he goes on his way with hope in his breast, sure that the next time he comes around he will catch the man who owns the boat tinkering with the engine or starting or coming in from a spin.

ALL THAT GOES INTO MAIL BOXES IS NOT MAILABLE MATTER

All that goes into the mail box is not addressed, prepaid mail, and much of it is not mail at all. The discoveries that collectors make in street corner mail boxes are often amusing and more often annoying. In fact, sometimes the discoveries are so annoying that postoffice inspectors are called in into the case to investigate. It is necessary to station men to watch mail boxes at times when destructive boys carry on a campaign of mutilation that is punishable by law.

The unstamped letter and the unaddressed letter find their way into mail boxes regularly. Absentmindedness comes out there as strongly as anywhere. Sometimes the absent-minded one discovers after the letter is gone that the stamp was not affixed, and then he drops a loose stamp, or two cents in coin, into the box to pay postage. When the collector finds an unstamped envelope in the box, and two cents in coin, he draws the natural conclusion and puts a stamp on the envelope. But if there are two unstamped envelopes and postage for only one, the letters and money go to the postoffice and each letter must go through the course of an unstamped letter.

Mischievous boys give the postoffice department a great deal of trouble. Sticks, stones, mud and refuse are thrown into the mail boxes and the letters sometimes arrive at the postoffice in condition that would pain the senders if they knew. In those cases, vacations are placed near the boxes and the boys find themselves on the carpet.

A mail carrier discovered a particularly annoying condition a few days ago. Somebody had taken pitch and had filled the key hole of the lock on the mail box. The lock had to be cut off before the mail could be secured.

Mutilation of mail boxes is a serious offense and the postoffice officials are always on the look-out for offenders. The mutilation goes on, however, and the boys who are mostly responsible seem to have a happy faculty of getting away.

NORTH DAKOTA CROP CONDITIONS VERY FINE.

Devils Lake, N. D., May 22.—North Dakota has been enjoying some splendid growing weather during the past two weeks, and from all over the state come most encouraging reports. The wheat is shooting up at a rapid rate and there is plenty of moisture in practically every corner of the state. Continued bright warm weather is all that is needed to insure a bumper crop in the state. The farmers are jubilant and with so propitious weather at the present time, it looks like a big year in North Dakota.

FORT FRANCES MAY SECURE PAPER MILL.

Fort Frances, Ont., May 22.—(Special to The Herald.)—Mr. Leech, business representative of the Hearst newspaper syndicate, was here last week looking over the power plant and investigating the paper-making possibilities, and from his talk it is believed that he will recommend the establishment of a paper mill here, if sufficient power can be secured. On this account the town council has made application to the board of railway commissioners at Ottawa for a price on 15,000-horse power of electric and hydraulic energy.

HOUSE KEEPS UP ITS STATEHOOD DEBATE.

Washington, May 22.—The house today resumed debate on the resolution providing statehood for Arizona and New Mexico. Representative Roberts of Nevada contended that as a majority of the people of both territories had approved the new Constitutions, they should not be compelled to vote again.

Representative Crumpacker of Indiana approved the New Mexican Constitution, but denounced the judicial recall plan by Arizona.

Brainerd Beats Deerwood.

Brainerd, Minn., May 22.—(Special to The Herald.)—The Brainerd Brewsters in a fast game of baseball defeated the Deerwood All Stars Sunday afternoon by the score of 13 to 1. It was a regular batting fest for the Brainerd team. Deerwood's left fielder, Guy Cunningham nearly had his jaw smashed by a fly ball which he caught in his face instead of his hands.

STEPHENS IS READY TO ACT

Has Complaint All Ready to File Against Whittier.

Supreme Court May Decline to Take Up the Matter.

St. Paul, Minn., May 22.—(Special to The Herald.)—Charging F. A. Whittier, superintendent of the state training school for boys at Red Wing, with incompetency, brutal treatment of inmates and with a personal assault upon one of the boys, Attorney General Simpson has drawn a formal complaint at the request of A. D. Stephens of Crookston, ready for filing with the board of control.

If the state supreme court this afternoon does not consent to act as a board of arbitration in the controversy between Whittier and the governor, the Stephens charge will be ready for transmission.

In case the complaint is filed with the board, much of the great mass of evidence taken by the legislative investigating committee will have to be gone over again and the hearing will last for days.

Doubt Action by Court.

Few persons at the capitol believed this morning that the supreme court would consent to act as arbiter in a case in which its opinion would not necessarily have to be construed as law. The supreme court, they argued, is an appellate court, and not one in which original action is instituted.

The court has its hands full of cases which came in regular order and it is unlikely it will take time from them to enter into the consideration of a controversy in which it is disinterested. However, there is a possibility that the court might go into the merits of the affair, in deference to the governor.

Request From Governor.

Following the receipt of an opinion from Attorney General Simpson that Governor Eberhart has no authority to summarily discharge the superintendent. Governor Eberhart wrote to the justices of the supreme court asking them to appoint a commissioner to take evidence of the conduct of the school and asking the supreme court to judge from that evidence whether Mr. Whittier should retain his position.

All parties to the controversy agreed to abide by the decision of the court.

RAILROADS

FULL FLEDGED RAILROAD NOW

State Railroad Commission Approves 22-Mile Long Line.

International Falls, Minn., May 22.—(Special to The Herald.)—The Minnesota, Dakota & Western railroad, between here and Loman and the property of the Backus interests, is now a full-fledged railroad, having been inspected by the state railroad commissioners on last Wednesday and approved by them for general traffic. The line is twenty-two miles in length, has three engines and considerable other rolling stock. Having both a passenger and freight tariff it is now doing business the same as other standard gauge roads. That it is a real railroad is shown by the fact that it has already had a wreck, a box car or two on one of its mixed trains having been tumbled into the ditch.

Big Brainerd Church Event.

Brainerd, Minn., May 22.—(Special to The Herald.)—One of the largest classes in the history of the Brainerd parish made their first communion at St. Francis Catholic church Sunday morning. The class numbered ninety-eight children, forty-seven boys and fifty-one girls. The church was crowded with friends and relatives and the parishioners listened to an eloquent sermon preached by Rev. Fr. O'Mahoney. During the afternoon there was an exhibition of fancy work, pencil and crayon drawings at the parochial school and many visited and inspected the work of the pupils.

NOVEL EYEGLASSES.

A German inventor has devised what he calls telescope eyeglasses. They are intended for the use of short-sighted persons by the very simple means of enlarging the image of the retina. They are especially designed for that class of near-sighted people who cannot wear the ordinary simply corrected glasses.

The monocle combination consists of two parts united in a single metal frame, a front objective lens or collector and a second nearer the eye to disperse the rays at the proper angle to make the correction for the degree of myopy in question. When properly prescribed and made, says the Scientific American, the two lenses have such relation to each other that there is no distortion, astigmatism or colored border to the image obtained.

Another German has invented what he calls police eyeglasses. On the side next the face they have tiny concave mirrors which may be extended sidewise or be folded back so as not to show. They give the wearer, if he has normal sight, an image of what is going on almost directly behind him. They are proposed for the German secret police. Whether adopted or not is not to be ascertained from headquarters.

In Stripes, Changeable Silks and Plain Colors.

Complete lines of Umbrellas in Gloria Silk, Taffeta and Serge Silk, at all prices from $1 to $15.

Special Lot of Umbrellas at ½ Price.

DEFECTIVE PAGE

LAND MUST BE COLONIZED

Duluthians Believe That Is Solution of Logging Road Problem.

Hearing Will Be Held Before Commission Here Friday.

That a land colonization plan must be evolved in connection with the taking over of the Brooks-Scanlon road, is the opinion of Duluthians who have investigated it.

At the hearing to be held at the Spalding hotel next Friday, representatives of the Duluth Commercial club and the settlers along the line of the Minnesota & North Wisconsin railway will ask the Minnesota railroad and warehouse commission to deny the petition of the Brooks-Scanlon Lumber company for permission to abandon the road.

A showing will be made that the country through which the railroad runs is partially settled, that the prospect is bright for many new settlers going into the district in the next few years, that the development of the country depends upon the retention of the road, and that an opportunity should be given the people interested in the development to form a syndicate to take over the road before the Brooks-Scanlon people are allowed to take it up.

The people who have investigated the matter are convinced that the road should be retained, that it should be operated by gasoline-electric cars generating their own power, and that it should be operated in connection with a land development and colonization plan.

The first step to be taken is to obtain the denial of the railroad and warehouse commission to the petition of the lumber company for the right to tear up the road. It is pointed out that the road cost considerable money to lay, that it would cost more money to be relaid after being torn up, and that since it has possibilities as a common carrier it should not be torn up. It is believed that when the matter is put before the railroad and warehouse commissioners in proper form they will deny the permission requested.

Must Colonize.

Once the abandonment of the road is prevented, steps will be taken to form a syndicate to take it over. There are varied ideas as to the nature of the syndicate, but the one that appeals most to those who have looked into the proposition is the plan to form a syndicate that will buy the road outright, and that will have control of enough land to allow active development and colonization steps.

Without further settlement, the road would not be a paying proposition. The railroad will be a stimulus to settlement and settlement will stimulate traffic on the railroad. The two go together and it is believed that the syndicate should take over both development plans, the operation of the road and the colonization of the land.

It is believed the railroad can be purchased at less than the scrap value of the steel. If the railroad and warehouse commission declines to allow the lumber company to abandon the road, it will naturally impose the obligation of operating it. That obligation will be a losing proposition for a time at least, and it is believed the lumber company officials will consider it in fixing a price on the road.

Three or four months will be needed to work out the details of the syndicate, which will entail the purchase or obtaining of selling rights of large tracts of land along the line of the railroad. In connection with a plan of development, the railroad will be an alluring investment proposition. Without the land, it will be harder to interest capital.

All people who have looked into the matter are agreed that the road should be retained. There is no desire to penalize the Brooks-Scanlon company, and an honest effort will be made to relieve the company of the necessity of operating the road if the railroad and warehouse commission does not grant the company permission to tear it up.

D. H., 5-22-11.

A line of endorsement.

Our wash suits do not shrink from or in the water.

It's a line you can depend on to pull your boy thru the summer days.

A great variety of qualities and prices—all the way from 50c, $1, $1.50, $2, $2.50, $3 and $3.50 up to $6.50.

For older boys—7 to 16—washable Khaki and linens in stylish Norfolks, at $5 and at $6.50. These are made by Sampeck and much better tailored than suits of this kind usually are.

For dress-up occasions, right good suits at $5.

BOARD OF REGENTS MAY IGNORE BOYLE

May Pay No Attention to Remarks Professor Made in Washington.

Grand Forks, May 22.—(Special to The Herald.)—When the board of regents met today at the state university it was understood that no action would be taken with reference to the Prof. James E. Boyle matter, which has received so much attention

PROF. JAMES E. BOYLE.

in the last few days. Prof. Boyle will reach Grand Forks tonight from Washington to resume his classes tomorrow morning.

Prof. Boyle, of economics, at a hearing before the senate finance committee, spoke in favor of reciprocity and since then North Dakota has been agog over the matter.

MRS. ASH IS GIVEN DIVORCE

Josephine C. Ash, 34 years old, was granted a divorce from her husband, Charles Ralph Ash, 41 years old, by Judge J. D. Ensign of the district court, after he had heard the evidence in the case Saturday. Mrs. Ash was given the custody of the children. She based her action on desertion, claiming that her husband left her in October, 1907.

BOY THROWS STONES; MOTHER IS SHOT.

Knoxville, Tenn., May 22.—A 7-year-old boy throwing stones at Fred Newton, a young man calling on his sister, resulted in Newton's killing Mrs. Bettie Baldwin, mother of the boy, Sunday afternoon at Harriman, Tenn. Newton remonstrated with the boy for throwing stones and finally slapped him. The boy told his mother, and when Newton appeared at the house after taking a walk with Miss Baldwin, Mrs. Baldwin met him at the door with a pistol in her hand, it is said. Newton, it is charged, drew his pistol and fired three shots, killing Mrs. Baldwin instantly. The girl ineffectually tried to interfere. Newton was released on bond.

Taft Names Bertholdt.

CITY AWARDS CONTRACTS

P. McDonnell Is Lowest Bidder on Two Street Improvements.

Grand Avenue to Be Paved and Fifth Street Will Be Graded.

The board of public works this morning awarded two important contracts. P. McDonnell being the successful bidder on both jobs. Grand avenue west between Fifty-fourth and Fifty-ninth avenues will be paved with vitrified brick, with a granite curb and an asphalt filler. The lowest bid was $50,500. East Fifth street, between Fourteenth avenue east and Woodland avenue will be graded and graveled. The contractor's price is $16,447.

The two pieces of work are among the biggest which will be done in the city the present season. They have been under consideration for a long time and affect a large number of property owners. The board of public works held two meetings at the city hall this morning to hear expressions of opinion from the property owners as to the kind of paving which should be put down. The Grand avenue owners were heard at 10 o'clock and the Fifth street people at 11 o'clock. Several kinds of paving were urged, but in each case the board followed the wishes of the majority.

BROUGHT ABOUT HIS OWN ARREST

George Custon Too Anxious to Have Woman Placed in Custody.

George M. Custon complained to the police Saturday that a woman had broken into his trunk and taken some of his property. He wanted her arrested and Detectives Schulte and Irvine left the station with him for his rooming place on West Second street.

On the way he told them that the woman was his wife, and the officers informed him that she couldn't be arrested, as she had a legal right to go into his trunk. In his anxiety to have her arrested it came out that she had been living with him but that they were not married. The result was that both Custon and the woman, who gave her name as Minnie Boardman, were arrested on a statutory charge. They forfeited $50 bail each when their names were called in police court this morning. The money was put up by Custon, who was as anxious to get out as he had been to have the woman arrested.

SIX PER CENTS WILL BE RETIRED

City Will Take Up $100,000 Issue of West Duluth Bonds.

During July the city will pay off $100,000 of the old West Duluth bonds, which were taken over when the village in the western part of the city was incorporated. They will have run twenty years July 15, 1911, and have been costing 6 per cent interest, the highest of any bonds which have been issued by the city.

With the payment of $67,000 on bonds in 1914 the last of the 6 per cent bonds will have been paid. These are West Duluth and New Duluth bonds. The sinking fund will be big enough to meet the payment, which will mean a saving of $6,000 a year.

SELF DEFENSE IS HIS PLEA

Charles Hill on Trial Before Judge Dancer for Manslaughter.

Charles Hill is on trial before Judge Dancer of the district court, on a charge of manslaughter in the first degree. He is accused of having killed Axel Hill on March 28, after a card game at an Austrian boarding house on West Michigan street.

The defendant in the action claims that he acted in self defense, claiming that the other Hill attacked him with an ice cutter. He claims also that he did not mean to kill the man, but thought that he was shooting between him and the door to frighten him.

Attorney Edward Kenny is defending and County Attorney John H. Norton appears for the state.

STEVENS NOT GOING WITH MORGAN & CO.

New York, May 22.—"There's not a word of truth in it," declared John F. Stevens, former president of the Hill lines in Oregon, when asked to confirm a report that he had been offered a position as fiscal agent with Kuhn, Loeb & Co. and J. P. Morgan & Co. "I have not received such an offer and don't expect to, and am loafing around now, taking things easy on a vacation."

Mr. Stevens said he had no plans for the immediate future.

FIVE OF FAMILY ARE DROWNED IN ARKANSAS.

Arkansas City, Ark., May 22.—The sudden capsizing of a small bateau only fifty feet from the Mississippi river landing at Arkansas City caused the drowning of five persons, all of one family. The dead:

PARMA WILSON.
IRMA WILSON.
MRS. ANNIE WILSON.
EDNA WILSON.
VIOLA WILSON, all of Eutaw, Miss.

Nine members of the Wilson family were on the bateau with several other passengers when it capsized.

SALESMAN HAS DISAPPEARED; RELATIVE FEARS FOUL PLAY

Where is Owen McAteer, salesman?

McAteer came to Duluth about three weeks ago from Minneapolis with his cousin, Michael Faron. The two men were employed as traveling salesmen for the George J. Molloy company of 388 Broadway, New York city, selling dry goods and notions. Last Wednesday McAteer left the Hotel Frederick, where he and his cousin were rooming.

He had only $3 or $4 in his pocket at the time and did not take his samples or any of his personal belongings, except the clothes he wore, with him. Since then he has not been seen by his cousin, who fears that McAteer has met with some accident.

"He must have met with an accident or some foul play," said Mr. Faron this morning. "He was not a man who drank heavily and he did not have enough money to get out of the city. He could not have gone on business and he had no reason for leaving suddenly. If he is alive and well he would have let me know where he is and would have sent after his baggage."

OWEN McATEER.

MAY BE LYNCHING IN NORTH DAKOTA

Tramp Assaults School Teacher Near Plaza—Posse on Man-Hunt.

Minot, N. D., May 22.—(Special to The Herald.)—Dragged from a carriage, beaten almost into insensibility and assaulted, Miss Grace Dougherty, a pretty school teacher, was overcome by a tramp late Saturday afternoon five miles from Plaza. A posse of citizens is hunting for the criminal and it is likely that if the man is caught he will be lynched.

Miss Dougherty was driving to the home of her parents, north of Plaza, thirty-five miles southwest of this city, when she was stopped by a rough looking man, who said he was going to Berthold, twenty miles distant, and wanted to ride. He pulled her out of the carriage. For several minutes the tramp and school teacher engaged in a desperate struggle, during which the tramp beat her until she was helpless. He finally left her by the roadside.

MINERAL TAX CASE.

Important Action Scheduled for Trial at Brainerd.

Brainerd, Minn., May 22.—(Special to The Herald.)—The May term of district court will commence tomorrow, Judge B. F. Wright presiding. The grand jury meets Tuesday and the roll of the petit jury will be called on Wednesday. On the civil calendar are fifty-five cases and on the criminal calendar twenty-two. In addition to several personal injury cases is the important case brought against the Pine Tree Lumber company to test the question of taxing mineral reserves, a case of particular interest to the state and all mining and real estate men and inventors.

Another important case is that of the Torrens application of David Williams, Will C. Brown and Alice P. Waite of Duluth to register title to certain lands in Crow Wing county. The Northern Water Power company and the Northwest Paper company are interested in this.

MONTANA MAN BURIED.

Victim of Great Falls Accident Interred at Brainerd.

Brainerd, Minn., May 22.—(Special to The Herald.)—Funeral services were held here today for A. M. Jones of Great Falls, Mont., whose skull was fractured by a flying bolt from a revolving belt at the Boston & Montana smelter, where he was employed.

He was formerly for twelve years a blacksmith in the Northern Pacific railway shops here. Among the relatives in attendance at the funeral are his mother, Mrs. Lucy Jones; a brother, Webster Jones, and Mr. and Mrs. G. H. Powers of Minneapolis. Mr. and Mrs. A. A. Roff of Little Falls, Mrs. George Kimball of Champlin, Eugene Jones, Great Falls, Mont.

TWO KILLED IN WRECK.

Freight Cars Roll Down Bank Near Sherwood, Minn.

Moorhead, Minn., May 22.—Traffic on the Northern Pacific near Sherwood, Minn., was delayed from last night until this afternoon as a result of fifteen freight cars rolling down an embankment near Sherwood.

Two unknown men were killed and Brakeman Isvl Platek, was so badly injured he is expected to die in a Fargo hospital.

Five strangers were carried down the bank and two were pinned under a car of ties. They were stealing a ride. Platek has concussion of the brain.

BRAINERD MEN GOING THROUGH HUDSON BAY.

Brainerd, Minn., May 27.—(Special to The Herald.)—Carl Zapffe, president of the Commercial club and a geologist of the Northwestern Improvement company, and W. A. Barrows, a prominent mining man, will take a canoe trip through the wilderness of the old Hudson Bay country and during their voyage will make a mineral investigation of the country through which they pass. From Duluth they went to Port Arthur, Can., and thence via the Canadian Pacific railway to the Hudson Bay district, where several weeks will be spent making the journey of exploration.

WILL CLOSE FOR SUMMER

Only One More Bill at Orpheum Until Next August.

The Orpheum theater will close for the summer months on June 3, according to a notice by H. W. Pierong, the manager, today.

Next week's bill will be the last of the season in the Duluth house, which will close for the remainder of June and July. The theater will be reopened early in August.

The Duluth theater has had a very successful season, and is said to have returned a good profit to the owners on the first year of operation. In spite of the dull year in the theatrical business in all parts of the country, the local theater is said to have been a consistent money maker, and a much better season is looked forward to next year.

The Heimbach rubber heel has its first enemy to make.

MOTHER AND CHILD VICTIMS OF WHIP

Bantry, N. D., Farmer Alleged to Have Struck Mother and Daughter.

Towner, N. D., May 22.—(Special to The Herald.)—A mother and her daughter were horsewhipped by George L. Smith of Bantry, this county, admission of that fact being made by Smith when he was arraigned in justice court, entering a plea of guilty.

Mrs. Ella Street of Bantry was the complaining witness, and she charged that the affair occurred on the Smith farm. Two of her children were sent to drive some cows home, and the girls cut across a piece of ground that had already been sown. This enraged Smith who came out with a rawhide whip, and he had given the younger of the girls several blows when the mother arrived on the scene, only to have Smith's attention turned to her. When she appeared in justice court she exhibited several cuts on her arms and face. The daughter was not injured by reason of the fact that she was wearing a heavy coat at the time.

Kahn Is Promoted.

Fargo, N. D., May 22.—(Special to The Herald.)—The H. M. Byllesby company has promoted Samuel Kahn, local manager, to a similar position at Bluefields, W. Va., where he will have charge of a 90,000-horse power plant, which will light a number of towns of that section. Mr. Kahn came here about three years ago from San Antonio, Texas.

TAXES ARE BEING PAID

Treasurer's Office Is Buried Under an Avalanche of Money.

First Half of 1910 Real Estate Tax Due June 1.

The first half of the real estate tax for 1910, called at the county treasurer's office, the current year tax, is now being paid.

The rush is so great at the treasurer's office that six extra clerks have been put at work and the whole office force is kept busy waiting on the counter. Many may wonder why they have not received their receipts for remittances sent through the mail The mail is being sorted and laid away each day unopened. The force is so busy caring for those who come to the office that it is not possible to take care of the mail business. It is expected that the work of the office will not be straightened out for at least six weeks.

The tax must be paid before June 1. After that date there is a penalty of 10 per cent added. As June 1 is but a few days off, there is a general rush to pay up.

There is in all $5,836,595.52 to be collected. This is the entire amount for the year. At this time only one half of it is being paid.

WANT TO BUILD ROAD.

Cloquet Interested in New Highway to Experimental Station.

Cloquet, Minn., May 22.—(Special to The Herald.)—Since the arrival of the new forester, Mr. Detwiler, from the state university, there has been a new agitation of the building of the road from the city to the state forestry experimental station. Last summer part of the road was built, in fact to within a half mile of the state forestry tract, but funds ran out and the work was not completed. That which was built last year will have to be regraded, and it will cost about $300 to do this and finish the road.

The committee consists of three business men of Cloquet, Joseph Loisel, T. G. McWithy and Fred Vibert, and they are making an effort to raise the balance of the funds. The town of Twin Lakes has built a road running north from the county road to a point near Ivarson, and Ivarson has agreed to extend this road for a distance of three-quarters of a mile to connect with a road which will be built in the state tract. This, with the road from Cloquet to the forestry station, will make an excellent drive for people in this vicinity.

Joe McMillan and family of Thomson are soon to move to Duluth. The McMillan family has lived at Thomson for about twenty-five years.

The grade school at Thomson this year will have eight students who will finish the eighth grade work.

William Todd, the manual training instructor in the city schools, and Miss Clara Clausen, the teacher in domestic science, will take the teachers' summer course at the Stout training school at Menomonie, Wis.

The Baseball league of the boys' department of the Y. M. C. A. held its first practice game preparatory to the beginning of the summer schedule Saturday night. The men's league will begin next week.

Thirty men attended the banquet of the Men's Baseball league at the Y. M. C. A.

Among the new teachers who have been secured for the schools next year are Miss Charlotte Wunderlirch of Red Wing, Miss Eugenia Stapleton of Cloquet, who is now teaching in the kindergarten at Eveleth; Miss Anna B. Green of Anoka, and Miss Edith Currie of Worthington.

The grandstand at the baseball park, which was recently blown to splinters in a hard wind, will be rebuilt at once, and E. E. Durkee is already at work on it. The loss was a heavy one, as the team has been handicapped for funds this year, and it came at a time when they were making every effort to be able to compass other needed repairs. Public-spirited citizens took hold of the matter and in a few hours sufficient funds were raised to cover the cost of construction.

ADOLPH SCHOOL EXERCISES.

Teacher Complimented on Her Work and Presented With Gift.

Adolph, Minn., May 22.—(Special to The Herald.—The pupils of the Adolph school rendered a play entitled "The Life of Hiawatha" in a most creditable manner Saturday evening. Miss Alma Ulsrud and George Dombrowski gave vocal and instrumental music. A. Nordstrom, clerk of the district board, made a few remarks bearing on the interest shown by the patrons of the schools in the district, after which L. A. Ink, assistant superintendent of county schools, made some remarks in connection with the award of county diplomas to the graduats, who are as follows: Eileen Hanks, Lambert Almquist and Alder Nordstrom.

The exercises were well attended and all present were free in their expression of the creditable manner in which Miss Lenora Ulsrud, teacher of the school, had prepared the pupils for their part in the exercises. A. Hanks, in behalf of the patrons and pupils, presented Miss Ulsrud with a handsome camera.

BEGOLE SYNDICATE WINS

In Litigation Over Mining Location Near Goldfield, Nev.

Marquette, Mich., May 22.—Special to The Herald.)—Official notice has been received that on Saturday at Washington the secretary of the interior handed down a decision in favor of the Begole Mines syndicate of this city and adverse to the Goldfield Townsite company. The litigation involved valuable mining locations at the edge of Goldfield. New patents to the land will now be issued to the Begole syndicate.

WOMEN'S CLUBS TO GATHER AT BEMIDJI.

Bemidji, Minn., May 22.—(Special to The Herald.)—At a convention of the Ninth District State Federation of Women's clubs to be held here Tuesday and Wednesday, Mrs. C. G. Higbee of St. Paul, president of the State Federation, Mary D. McFadden, representing the Woman's Suffrage association, and other women of prominence in the state will be present.

The two days will be devoted to various programs and a launch ride, while a banquet by the Bemidji club will be given at the Markham hotel Wednesday evening.

St. Paulite Buys Berthold Bank.

Berthold, N. D., May 22.—(Special to The Herald.)—Harold Thorson of St. Paul has purchased the Bank of Berthold, taking immediate possession. The former owners of the institution were M. L. Myers, president, and H. A. Sampson, cashier, and both retire from the bank. President Myers, however, will remain in the city and maintain connections with the institution until the new St. Paul owner completes the reorganization.

Silberstein & Bondy Company.

RAIN COATS
HALF PRICE

Our entire stock included—regular prices $15 to $29.50—tans. Oxfords, blacks and mixtures, rubberized and cravenetted—capes, slip-ons and ulsters, in fact, any style wanted.

Tailored Suits for Women.

An Opportunity Exceptional.

About 50 women who come looking for finely tailored suits for every-day wear will be delighted by the group at the following extraordinary savings:

Women's $35 and $45 Suits at $19.50.

Selected Suits from our own stocks, all in excellent spring weights and a wide variety of colors, materials and sizes. Every coat beautifully lined with peau de cygne.

Continuation of Sale of Tailored Hats—$7.50 for $10 and $12 Models

We are closing out an even hundred early tailored models, some from our own work rooms, others from such noted makers as Burgesser, Castle and Gage, at $7.50, where $10 and $12 were the prices up to now. You may be sure of an unusually attractive hat made by the same milliners as our better hats, with the advantage of their superior taste and art. No more for this kind of a hat here than the commonplace kinds elsewhere.

Silk Umbrellas One-third Off

A number of fine all-silk umbrellas, in black and navy, wood or gun metal handles; that sell regularly from $3.50 to $8, offered for Tuesday at One-Third Off.

THE MAN WHO KNOWS

What better evidence could any one ask than the signed statement of a well known citizen as to a particular thing? Here is what Mr. C. Bissett, of 2412 Oakes avenue, Superior, Wis., has to say of his experience with the Loughney Bake Oven treatment for rheumatism: "Did it do me good? Yes, more than that; after taking a few treatments, it cured me, and I have suffered from rheumatism for the past year, off and on. I took the treatment given me by the Bake Oven Specialists and from the very start I got relief. I am permanently cured, I am sure. No man, woman or child who is suffering from rheumatism or kindred ills needs to suffer any longer. The Bake Oven will cure, I know. I would like to have rheumatic sufferers read my experience and profit thereby, hence this statement. Signed.

"CLARENCE BISSETT,
"2412 Oakes Ave., Superior, Wis."

The Bake Oven Institute is located at 301 Christie Bldg., Duluth, Minn. They have lady nurses to care for lady patients. Their hours are from 8 a. m. to 6 p. m.; Sunday, from 9 to 12 only.

FORTY-SIX CARS ENTERED FOR GREATEST AUTO RACE EVER HELD IN AMERICA

Drivers All Ready for 500-Mile Sweepstakes at Indianapolis.

Army of Men Needed to Time Cars and Police Grounds.

Indianapolis, Ind., May 22.—Highly "tuned" and mechanically as perfect as the skill of the modern motor car-maker can produce, forty-six of the fastest racing automobiles ever assembled are at the Indianapolis Motor Speedway awaiting the elimination trials next Friday which will determine whether they are eligible to start in the 500-mile international sweepstake race on Memorial day, May 30.

Every car must show speed of seventy-five miles an hour to quality for one of the greatest races in the history of the motor contest sport. When the entries to this event were closed May 1, there were forty-six cars entered, manned by a list of drivers which includes every well-known pilot in America, as well as several who made their reputations in Europe before coming to the United States.

It has been nine months since the initial announcement of this contest was made by the promoters, and each month has witnessed an increase of interest on the part of the public as well as the manufacturers. Almost six months ago the first entry was made, when a Case car, with Lewis Strang as the driver, was entered. From that time on the entries were sent in steadily until the largest field ever drawn together for one event was announced when the entries were closed. The greatest number of entries in any one contest previous to this time was twenty-six.

The Prizes.

The long race has assumed even greater proportions than the promoters had anticipated when the purse of $25,000 in gold was offered for the winners of the first ten places. A capital prize of $10,000 headed a list of nine others, as follows: Second, $5,000; third, $3,000; fourth, $2,000; fifth, $1,500; sixth, $1,000; seventh, $800; eighth, $700; ninth, $600; tenth, $500. In addition to this small fortune there have been added side prizes by various accessory makers, which bring the total to be won up to about $40,000. Supplementing the cash prizes are ten bronze plaques which will be given to the entrants of the ten winning cars. It long has been the rule in motor car racing that the drivers shall receive the cash prizes and the makers the trophies.

The conditions of the race, which is a Class E event, are that each car shall weigh at least 2,300 pounds and have no more than 600 cubic inches piston displacement. This makes cars up to about 120-horse power eligible. The forty-six cars have a total of 20,150 cubic inches of piston displacement, giving an average of 438 cubic inches per car, according to its motor construction. The majority of the cars in the race in their tryout have averaged about 95 to 100 miles per hour, while many of them are capable of doing two miles per minute. The entry fee paid by the entrants was $500 per car.

Estimates on the average speed which will be attained in the long race have varied widely, but experts express a belief that the winner will travel the 500 miles at a rate of about seventy-five miles per hour.

The race will start at ten o'clock in the morning and probably the winner will cross the tape on his last lap about five o'clock in the afternoon.

The officials for the race have been chosen from all over the United States, most of them having been officials at many of the other great race meets of the country. Fred J. Wagner of New York will act as starter, while George Robertson, the former racing driver, will be an assistant. A. R. Pardington of New York will referee, while R. P. Hooper, president of the American Automobile association is the honorary official in that capacity. Judges and other officials have been chosen from among the most prominent manufacturers and automobile men in the Middle West.

The method which would be employed to start this event has been difficult for the promoters to decide. The speedway management finally adopted the plan of firing daylight bombs, which explode 250 feet in the air and give forth a dense cloud of smoke. One of these will be fired every minute for five minutes before ten o'clock and at the stroke of ten a special starting bomb will give the signal that will send the entire field into one of the greatest races ever known. After the start the contestants are signaled along the course by means of colored flags, each of which bears some special meaning which the drivers understand. The cars will be started in nine lines of five cars each, placed at intervals of 100 feet back of the wire.

Timing the Cars.

Scoring and timing of forty-six fast cars on a course but two and a half miles in length means the devising of an entirely new system. In order to score and time the race accurately more than 100 men will be used throughout the seven hours, with 50 others as relief men to the regular scorers. The eye is the only part of man depended upon to aid in this task, while mechanical and electrical devices have been called upon to perform the greater part of the work. An electrical timing machine, which divides the seconds into hundredths, will catch each car as it passes the wire on every lap, while a battery of four adding machines will be used to record the number of cars as they pass. Two dictaphones will carry the record of the car numbers in the order in which they flit by the stand. This last record will have the story of the entire reace in human voice, the first time this has ever been attempted.

Reinforcing this squad of mechanical workers will be four score boards, each 100 feet in length and each employing more than 20 men to operate it. These will catch each car as it passes the wire and credit it with a lap each time it crosses. A telephone system, which has more than twenty instruments attached, will convey information to a score of announcers in all parts of the grounds and the visiting throng will be informed of the status of the race every ten miles of its progress.

Preparations have been made for handling a crowd of 100,000. Parking space for 10,000 automobiles has been provided.

"Fool Proof" Track.

In order to prevent accidents to the spectators, 300 men are employed. A military organization, known as the Speedway Guard, is composed of 200 men. These militiamen guard every roadway and gate so that the track has been termed "fool proof." In addition, 100 police and plain clothes men watch the throng throughout tue day. A mounted squad aids in directing the crowds to their proper places.

Known as "The Greatest Race Course in the World," the Speedway has been a great center of attraction for motorists even when there was no event in progress. The grounds contain 328 acres, all enclosed within a high board fence, and every corner attended by landscape gardeners. There are forty-nine buildings on the grounds, including garages and grandstands. Flower gardens and shrubbery dot the entire tract. The track is two and one-half miles in length and required six months to construct, at a cost of more than $150,000. The entire racing plant, as it stands today, cost more than $800,000.

GIRL WOUNDED BY STRAY BULLET

Clara White Has Narrow Escape From Death—Boys Are Responsible.

While picking flowers with some girl friends at the Ski club grounds near the boulevard yesterday afternoon, Clara White, 323 First avenue east, was shot through the mouth and cheek by a small boy with a 22-caliber rifle.

Three small boys are said to have been shooting in the neighborhood. One of the girls says that she heard a bullet whiz past her head. A little later Clara White fell to the ground with a cry of pain. A passing automobile picked her up and hurried her to the home of Dr. H. Hovde, who dressed the wound.

An examination showed that the girl had a most fortunate escape. Had the bullet gone a little more to one side it is probable that she would have been killed. It entered one side of her mouth, broke a tooth, cut her tongue and came out the check a short distance from the ear.

Hearing the scream and realizing that they had shot some one, the boys with the rifle made off into the woods. The police were notified and secured the names of the boys who are said to have had the gun. All of them are under 14 years of age and will likely be brought before the juvenile court.

PREMIER IS RECOVERING

(Continued from page 1.)

witness the resumption of the race.

M. Train, who in trying to avoid crashing into a squad of cuirosseurs galloping across the military field, caused yesterday's lamentable tragedy, and who was entitled under the conditions of the race to make another start in the international flight contest, announced that he had no heart to do so because of his terrible mishap of yesterday.

Four other aviators, MM. Weymann, Frey, Garnier and Ferrept, also retired from the race.

No Cheers for Flyer.

Vedrine at 3:30 o'clock this morning took a preliminary flight around the field for the purpose of testing his motor, and then, at 4:11 o'clock, arose high in the air and disappeared swiftly in the fog towards Angouleme, the first stage of the race. There were no cheers when the aviator started on his flight, the people seemingly being stunned by the accident attending the opening of the event. The crowd and the judges, however, remained on the aviation field throughout the morning and received telegrams from the official timekeepers along the route of the flight.

Vedrine arrived at Angouleme at 7:50 o'clock, having covered the 279 miles in three hours and 39 minutes. The running of the Southern express between Paris and Angouleme is five hours and 18 minutes.

Record Is Broken.

The judges announced that Vedrine had broken the record for the long distance cross-country flight. His time was all the more extraordinary when it was considered that the airman had a stop at Etampes, thirty-five miles from Paris, to regulate his motor. The aviator arrived at Angouleme in good condition, though he suffered considerably from the cold.

M. Garros was the only other contestant out of yesterday's four starters to reach Angouleme. Gibert reached Pentlevoy, but learning of the catastrophe on the Issy field, decided to proceed no further. Le Taseur landed near Cosen, having lost his way in a fog. Beaumont descended at Azay-sur-Imbre and on attempting to resume his flight damaged the left wing of his aeroplane by dashing against a tree.

Nation Mourns Minister.

The disaster yesterday at the commencement of an international contest which promised to be one of the principal aviation events of the season, has plunged the whole French nation into grief and the death of Minister of War Berteaux is mourned without political distinction, throughout the republic, as a national loss.

Today the body of the minister is lying in state at the ministry of war. The funeral, which is expected to take place on Friday, will be conducted with full national honors. The army will go into mourning for thirty days.

It is the general belief that as a result of the catastrophe the rule prohibiting spectators on the aviation field will be rigidly enforced in the future.

Seen by 200,000 People.

The accident occurred on the aviation field at Issy-les-Molineaux, where 200,000 persons had gathered to see the start of the race. M. Train was piloting the monoplane that wrought such havoc. With him in the car was M. Bounier, a passenger. Neither of these men was injured. The machine was wrecked.

Minister of War Berteaux was horribly mangled. The swiftly revolving propeller cut off his left arm cleanly, and it was found ten feet away from the spot where he was struck; the back of his head was crushed in, his throat gashed and the whole of his left side cut and lacerated.

Premier Monis was buried beneath the wreckage of the monoplane. He was taken out as quickly as possible and examined by military surgeons, who found that he had sustained a compound fracture of two bones in the right leg that his nose was broken, his face badly contused, and that there were bruises on the breast and abdomen.

M. Deutsch and M. Monis were not seriously hurt.

Among those who had narrow escapes from injury was M. Lepine, the prefect of police.

Early on the Field.

Premier Monis and Minister Berteaux and their party arrived at the aviation field about 6 o'clock in the morning, shortly after Roland Garros, M. Beaumont and M. Gilbert had started in the race.

The great line of spectators bordering the flying field was held rigid by a large force of soldiers. They, however, permitted the ministerial party and some half hundred other persons of distinction to walk across the field to a point where they could get a better view down the course and see the air men as they rose from the starting point and flew in their direction.

While the great assemblage cheered, the ministers saw Pierre Vedrine, who had been picked by many as the probable winner of the race, mount easily from the ground and head down the aerodrome. Suddenly his aeroplane capsized and fell, but the aviator emerged unhurt from the wreckage of his machine. Aviator Train, whose monoplane caused the accident, meanwhile had taken his position at the starting line, levers in hand and with M. Bounier beside him. The breeze had been steadily freshening and the meterological observer in the Eiffel tower telephoned that his gauge showed a velocity of close to thirty miles an hour.

Ascended in Gusty Wind.

Train, however, left the ground. Ascending swiftly, he circled the great field, curving round to the starting line, and then flying down the course at a forty miles an hour gait, the machine rocking in the gusty winds.

At this moment it was observed by the commandant of the troops that the crowds were breaking the line formation on one side of the field, and he dispatched a troop of cuirassiers to get them back in order.

The cuirassiers galloped across the field, breaking into double lines as they went.

Train's monoplane swooped toward the earth under the impulse of the air current and it appeared as though the aviator was about to dash into the cavalry. The pilot's attention seemed momentarily to have been diverted from his course and he made a quick turn to the left, toward where the party of officials were standing. Then he lost control of the craft altogether and dashed violently into the ministerial group.

Was Distinguished Man.

Henri Berteaux was one of the most distinguished men in France engaged in poltical life. He had held the portfolio of minister of war once before, but though he relinquished this he had devoted himself to army affairs. He accepted that office again in the Monis cabinet which was formed March 2 of this year. He acquired a fortune in finance and it was no secret that he cherished an ambition to become candidate for president in 1913. His death is especially untimely for France, as with M. Cruppi he was directing the present delicate Moroccan question, which is still far from settlement.

DRAMATIC SETTING ATTENDS SIGNING OF THE MEXICAN PEACE AGREEMENT

(Continued from page 1.)

the party started, for Juarez in a big automobile, thinking Senor Suarez previously had gone to the customs house here. When the peace automobile, followed by three machines filled with newspaper men, dashed up to the customs house shortly after 10 o'clock, neither Senor Suarez nor anyone else was there to receive them. The customs door was safely barred by a huge grating.

Senor Suarez failed to appear and after a brief conference, it was decided, as the document already had been drafted, to sign the pact on the steps of the building, agreeing to allow Senor Suarez to sign it today. There under the stars, typewritten copies of the peace agreement were signed and exchanged while four automobiles on the opposite side of the street turned their glaring searchlights on the customs house steps.

Lighted By Burning Matches.

The newspaper men contributed their hard pads and some matches and huddled together to keep the matches from being extinguished by the evening breeze. It was Francisco Madero, Sr.'s, fountain pen that was used.

In watching the commissioners sign their names one of the by-standers forgot the burning match he held and nearly spoiled one of the signatures when he suddenly dropped the match while the pact was being signed. The commissioners enjoyed the situation, and declared that never was a peace treaty signed under more extraordinary conditions.

When it was all over, they embraced in true Spanish fashion, reaching over each other's shoulders and clapping the palms of their hands on their respective spines.

Express Great Relief.

The commissioners expressed great relief that the task for which they so long had labored had been accomplished without the introduction of disagreeable conditions and without injuring the national prestige or dignity of their country.

Though the peace agreement provides for the gradual dispersing of the troops, it is not believed any counter revolts or disturbances will occur. The object of the gradual disbanding of the insurrectos, it is explained, is to maintain for a short time a good fighting force by which to keep order among the small scattered bands who might feel inclined to disregard the peace agreement.

Trouble in Lower California.

Trouble is expected with the rebels in Lower California. Though the rebels there have never been allied with the Madero movement, the rebel chiefs here will send envoys or messages to Lower California, urging the acceptance of the conditions agreed upon here. Should they refuse, an armed expedition which probably will be led by Pascual Orozco will be sent to subdue them.

Senor Madero in his victory feels that he will now be responsible for the restoration of complete tranquillity and will attempt to demonstrate that if he is not in control of some of the bands, he at least can subjugate them.

Text of the Agreement.

The agreement follows:

"In the city of Juarez, on the twenty-first day of May, 1911, in the customs house, Senor Don Francisco Carbajal, representing the government of Gen. Porfirio Diaz; Dr. Francisco E. Vasquez Gomez, Don Francisco I. Madero, Sr., and Don Jose Maria Pino Suarez, as the representatives of the revolutionary forces, having gathered to treat about the method of effecting a cessation of hostilities in the entire national territory, and considering:

"First—That Senor Gen. Porfirio Diaz has manifested his resolution to resign the presidency of the republic before the end of the present month, and,

"Second—That bona fide news is at hand that Ramon Corral will resign the vice presidency of the republic within the same period, and,

"Third—That by the administration of law, Senor Francisco Leon de la Barra, at present minister of foreign relations of the government of Senor Gen. Diaz will assume, for the interim, the power of the executive of the nation and will call the general elections according to the terms of the Constitution, and,

"Fourth—That the national government will study the conditions of public opinion in the actuality to satisfy these conditions with the provisions of a Constitution and will come to an agreement conducive to indemnifying the losses directly caused by the revolution, therefore, the two parties represented in this conference, in view of the previous considerations, have agreed to formulate the following agreement:

"From today on, hostilities which have existed in the entire national territory of the republic, shall cease between the forces of the government and those of the revolutionists, these forces to be dismissed in proportion as in each state the necessary steps are taken to re-establish and guarantee tranquility and public order.

"Transitory provision:

"As soon as possible the reconstruction or repair of telegraph and railway lines hitherto interrupted shall be begun.

"Agreed and signed in duplicate by:
"SENOR FRANCISCO S. CARBAJAL,
"DON FRANCISCO VASQUEZ GOMEZ,
"DON FRANCISCO I. MADERO, SR.,
"DON JOSE MARIA PINO SUAREZ."

Three Days of Delay.

The agreement was signed after three days of indecision, Francisco I. Madero, Jr., leader of the revolution, expressing the view that peace could be declared only when Senor De La Barra became provisional president and the new cabinet was installed. Some of his chiefs expressed a fear that armed forces in the field in the interim might precipitate trouble. It was suggested too, that in deference to the wish of President Diaz to retire when tranquility was restored, the peace agreement be made immediately effective, as his resignation is expected within four or five days. The latter view prevailed.

Senor Madero's hesitancy was based on the idea that a peace agreement could have no regal effect, inasmuch as one of the parties, the revolutionists, would cease to exist when peace was declared. It was pointed out, however, that a peace treaty, in the legal sense of the word, was not desired, but merely a signed declaration recording what had been done toward satisfying the demands of the revolutionists.

Troops to Disband.

The troops, it is provided in the agreement, will be disbanded proportionately as each state is restored to tranquility. As the revolution in many states has been incited by the opposition to the governors, the retention of the armed forces until the new governors are installed, constituted a practical guarantee that the issue will not be evaded.

Francisco I. Madero, Jr., will remain here for at least five or six days more. He will start for the city of Mexico, via Chihuahua and Torreon immediately after President Diaz has resigned.

In this city he will confer with Senor De La Barra about the question of governor, the new cabinet and the laws covering disputed points for which legislation is the only remedy. These, it is hoped, can be enacted before congress adjourns.

Dr. Vasquez Gomez will leave here at once for San Antonio, Tex., to meet his family and proceed to City of Mexico. He also will confer with Senor De La Barra about details of the demand of the revolutionists.

Violence at Torreon.

Laerdo, Tex., May 22.——At the end of a rope which had been tied around his neck, Dr. J. W. Lim, a Chinese banker, was dragged around the plaza at Torreon, Mex., until his body was a mass of broken bones, and bleeding wounds, according to reports reaching here.

From the same source of information details of a three-days' battle at Torreon between revolutionists and federals were received. The battle is said to have occurred May 13, 14 and 15, resulting in a rebel victory.

Dr. Lim was one of the wealthiest and most prominent Chinese in North Mexico and was at the head of a banking institution controlled by Chinese capitalists.

After dragging Lim around the plaza until life was almost extinct, it is reported the rebels shot him a number of times. He died within a few minutes.

Hotel Proprietor Lynched.

Another report said that one of the Sternau brothers, hotel proprietors at Torreon, was hanged by rebels after a number of Spaniards had fired at revolutionists from doors and windows in the hotel. This cannot be verified.

The reports of the Torreon incidents were brought from the town by an American locomotive engineer who escaped on a horse and later secured a hand car on which he reached Jaral, and a conductor who managed to get away and proceed to San Luis Ptosi. Wire and railroad communication with Torreon has been cut off for over two weeks.

To Prevent Bilious

Attacks is better than to cure them. When you are warned by dull headache, furred tongue, inactive bowels, don't delay an hour; take a dose of the mild effective cathartic, Hood's Pills, and you will soon feel well again. Sold by druggists everywhere. 25c.

FIVE SISTERS PERISH IN FIRE

Mother Puts Gasoline in Lamp and Explosion Follows.

Utica, Kan., May 22.—Five daughters of Mr. and Mrs. Harve Roach of this place, ranging in ages from 7 to 16 years, were burned to death in a fire which started in the Roach restaurant. The parents were badly burned.

The mother of the girls filled a lamp with gasoline by mistake. Preparatory to ascending a stairway leading to the second floor room, where her daughters were asleep, she applied a match to the lamp. An explosion followed, the fire being communicated to a two-gallon can of gasoline, sending a burst of flames up the narrow stairway.

The woman's dress caught fire, but the flames were extinguished by her husband, who had been asleep in an adjoining room. He rushed up the burning stairs and caught his youngest daughter, 5 years old, in h's arme. Calling to the other girls to follow him and leap into his arms, he ran to a rear window and jumped to the ground, the little girl safe in his arms.

For some reason the others failed to follow him, and a few minutes later, when another window was broken into, the bedroom in which the girls were sleeping was a seething mass of flames. Half an hour later the bodies of the five were taken from their charred beds. All had died where they lay.

The dead are:

Bessie, aged 16 years; Leah, aged 14 years; Ruth, aged 12 years; Hazel, aged 9 years; Fern, aged 7 years.

The dead girls will be buried together in one grave.

BODY OF UNKNOWN MAN IS FOUND

Man Evidently Died Last Fall —Little Hope of Identification.

The body of an unidentified man about 45 years of age was found in the bay at the foot of the Northern Pacific Dock No. 6 yesterday afternoon by boatmen who were working in the vicinity. It was removed to the undertaking rooms of Flood & Hergan. The body was in a badly decomposed state, having evidently been in the bay since last fall. The police and the coroner are making an investigation, but as there was nothing in the pockets and as the features are practically unrecognizable they have small hopes of learning the man's identity.

Aviator Has Bad Fall.

Rheims, France, May 22.—Airman Bardot, while making a flight over the aviation field here today fell to the ground. His shoulder was broken and he sustained many contusions about the body. The aeroplane was reduced to splinters.

ON THE IRON RANGES

DULUTHIAN WILL DELIVER ADDRESS

Dr. M. S. Rice to Speak on Lincoln at Virginia Memorial Exercises.

Virginia, Minn., May 22.—(Special to The Herald.)—Elaborate plans are being perfected for the observance of Memorial day here next Tuesday, to be participated in by the pupils of the schools. There will be a parade in the morning and speaking in the evening.

All the pupils will assemble at 9 o'clock in the morning in their own buildings as usual. Outside schools will march to the Roosevelt so as to be on the Roosevelt grounds at 10:30 o'clock.

Make-up of Parade.

The line of march will be formed in the following order: Marshal of the day, Commercial band, veterans of the Civil war, veterans of the Spanish war; teachers and pupils of these schools: technical high school, Roosevelt, Johnson and primary; boys' military band; teachers and pupils of these schools: Central, Franklin, South Side, North Side, Higgins, Homestead, Farmstead and night school, and citizens.

The line of march will be from the Technical, south on Central avenue to Cedar street, east on Cedar street to Mesabi avenue, north on Mesabi avenue to Chestnut street, west on Chestnut street to Central avenue and south on Central avenue to the Roosevelt.

Early in the morning a committee will decorate the graves of soldiers and sailors who are buried in the local cemeteries.

The schools will reassemble at the Roosevelt grounds and give the flag salute, after which they will be dismissed until 8 o'clock in the evening.

Program in the Auditorium.

The general public, the high school, eighth, seventh, sixth and fifth grades, with the teachers of all the schools, are invited to the evening exercises in the Auditorium. The schools will assemble in their own buildings and march to the Roosevelt. The program will consist of an address by Dr. M. S. Rice of Duluth on "Abraham Lincoln, American"; stereopticon views of battles and incidents relative to the Civil war, patriotic recitations, singing by the pupils and music by the bands.

EXHIBIT WORK OF CHISHOLM PUPILS

Art Work, Domestic Drawing and Other Handiwork Are Shown.

Chisholm, Minn., May 22.—(Special to The Herald.)—The public schools gave an exhibition Friday afternoon and evening of the art-work, domestic science work and manual training work done by the pupils from the eighth grade down to the children in the kindergarten school.

A feature during the afternoon's exercises was a flag drill given by the children of the second and third grades on the play-grounds of the old school building, during which drill the school band furnished the music. Over 300 children participated in the exercises, and the crowd looking on from the sidewalks surrounding, numbered 250.

At night it seemed that almost all the English-speaking people of the village had come to see the exhibit of domestic science work and of the manual training, and all were pleased with the work done by the boys and girls in the departments.

The purpose in all this kind of work as taught in the Chisholm schools is that while they must not detract from the usual work for which every public school stands, they shall be a valuable corollary to the regular curriculum, emphasizing by the practice of the hand what has been taught in the pages of the books, thus doubly impressing the pupil with the facts about which he studies.

Organizing Yeomen.

Mrs. Clara Lane, of the American Order of Yeomen, is in Chisholm for the purpose of organizing a branch of the order in this village. She has succeeded in gaining a number of applicants for membership.

Mr. and Mrs. A. Morse of Buhl, accompanied by Mrs. E. Barrett of the same village, attended the exhibit of the public schools here.

The Ladies' Aid Society of the Lutheran church held an ice cream social on Saturday in the store building on Lake street, lately vacated by the Mack Clothing company.

J. E. James, formerly of the Tribune-Herald staff, has given up newspaper work to enter the employ of the Oliver Iron Mining company as locomotive engineer. Mr. James had worked for nine years as locomotive engineer in North Dakota before coming to Chisholm.

The city engineers of Chisholm are surveying for a team road between this village and the Du Pont Powder works which are located on the other side of Nilpin, out some six miles from Chisholm.

Miss Esther Sapero left Chisholm on Thursday for Chicago, where she will visit friends for two months.

SETTLER FINALLY GIVEN HIS TITLE

Jens Rasmussen After Thirteen Years, Acquires Deed to Land Near Cook.

Virginia, Minn., May 22.—(Special to The Herald.)—Jens Rasmussen, who has a homestead near Cook, has gone through considerable trouble in securing title to his land, but after thirteen years is assured of ultimate success in his fight for his rights. He has about twelve acres under cultivation, has substantial buildings upon his place, and stated while here yesterday that when he left home he had a crew of five men and a team putting in his 1911 crop. He will clear a considerable additional area this season and feels that his efforts will be amply rewarded by increasing values and crop returns.

M. A. Murphy and D. T. Murphy are on a fishing trip near Two Harbors. W. E. Hannaford and J. W. Murphy were to have joined them at Two Harbors yesterday, but after being there three hours they abandoned the trip because of their inability to catch a boat out of Duluth for the former place.

A daughter was born unto Attorney and Mrs. N. B. Arnold Saturday night.

VIRGINIA CLERK MADE PRESIDENT

A. E. Bickford Heads Association of Range City and Village Clerks.

Virginia, Minn., May 22.—(Special to The Herald.)—Albert E. Bickford of Virginia was chosen president, F. L. Austin of Chisholm, vice president, and D. P. McIntyre, secretary of the City and Village Clerks' association, formed here Saturday afternoon.

The object of the association is to advance the interests of the clerks of the range towns, adopt uniform systems of accounting and labor saving devices of benefit to the work in the offices of the clerks. Virginia, Hibbing, Eveleth, Biwabik, Aurora, Chisholm and McKinley were represented at this meeting. Another meeting of the association will be held here on June 10.

LOOKING FOR HOGS; FINDS MAN'S BODY

Fred Belander Comes Across Badly Decomposed Unknown Remains Near Hibbing.

Hibbing, Minn., May 22.—(Special to The Herald.)—The decomposed body of an unknown man was brought here last night and turned over to Coroner Pengelly. The body was found in a clump of thick brush, thirty rods north of the house on Anton Newberg's farm, just five miles south of Hibbing, by Fred Belander, while searching for some strayed hogs.

The remains are in such a terribly decomposed condition that identification will be impossible unless some further light can be found from the book on the body.

Wore Miner's Garb.

The man was wearing thick miner's boots of good grade and a coat and vest of fairly good material, indicating that the man had died in the summer time, and the state of the body when found indicates that he had lain for many months where he fell, long before the winter freeze up. A cheap watch and equally cheap chain and a sodden pocket book were found on the body. The body was found lying near a fallen log. The stature was about the average, probably 5 feet 9 or 10 inches, and the hair appeared to have been dark. Endeavor will be made by the authorities here to discover who the man was, and it is just barely possible that the pocket-book found may contain some readable matter that will help in the identification when it has been carefully dried out. No possible knowledge can be gained as to how the man met his death.

VIRGINIA'S NEW BANK.

Well-Known Citizens Interested in State Bank of Virginia.

Virginia, Minn., May 22.—(Special to The Herald.)—The State Bank of Virginia, just incorporated, will be located in the Backus building, now occupied by Larson & Larson as a saloon. The building will be remodeled and the bank expects to be open for business about Sept. 1. The stockholders are: S. J. Cusson, manager of the Virginia & Rainy Lake company; C. H. Rogers, superintendent of the plant of the Virginia & Rainy Lake company; P. R. Vail, ex-senator and president of the Virginia Brewing company; W. B. Shaver, building contractor; C. E. Hendrick, general superintendent of the Hanna interests on the range; W. E. Pratt, city treasurer and grocer; M. E. Fanning, grocer; H. E. Pribnow, head filer for the Virginia & Rainy Lake company; C. E. Moore, superintendent of the Pitt Iron Mining company; F. W. Welcome, banker of Minneapolis; and Douglas Greeley, banker of Pine City. The directors and officers are: Douglas Greeley, president and cashier; C. E. Hendrick, vice president; C. H. Rogers, C. E. Moore and F. W. Welcome. The assistant cashier will be John Barton of Two Harbors. The new bank is capitalized at $50,000.

NEXT MEET IN DULUTH.

Eighth District Women's Clubs to Meet in Zenith City.

Hibbing, Minn., May 22.—(Special to The Herald.)—The Eighth district federations of women's clubs before adjourning here Saturday voted to accept the invitation of the Duluth club and meet there next year.

The reports of district clubs presented at the meeting showed great progress and much beneficial work done; Lester Park club, Duluth, reported planting 125 apple trees on boulevard during year and much other educational work done; Saturday club, Duluth, doing much to upraise and educate members; Twentieth Century club, Duluth, established three boys' clubs and planted 800 trees and shrubs for children to cultivate; Eveleth Art club reported much good civic work, was first town to invite Mrs. Crane on municipal matters; Grand Rapids Woman's club, did much civic work and helped to have pound ordinance enforced; Hibbing Saturday club, done much civic work and educational enforcement of curfew ordinance and many other civic matters done by club, established rest room for women, and worked hard to get trees planted by council; Virginia club, got council to pass smoke ordinance, aided planting of three and hope to get new and bigger library building.

The delegates who attended in convention here were: Mrs. C. G. Higbee, St. Paul, state president; Mrs. A. D. Stephens, state auditor; Mrs. William J. Smith, Eveleth, president Eighth district; Miss Wilson, member state library commission, St. Paul; Mrs. E. B. Simons, Mrs. Hannaford, Mrs. Doorway, all of Virginia; Mrs. H. J. Grannis, Mrs. R. Spiegel, Duluth; Mrs. Tomlinson, St. Peter, Minn., president-at-large; Mrs. T. F. Kinney, Minneapolis, president Fifth district; Mrs. F. L. Barrows, Minneapolis, state treasurer; Mrs. L. W. Huntley, Mrs. C. C. McCarthy, Grand Rapids; Mrs. R. P. Borington, Duluth; Mrs. J. O. Smith, Cloquet; Mrs. Thomas Martin, Mrs. O. A. Oredson, Mrs. Cora Stephenson, Mrs. Earhart, Duluth, and Mrs. Moore, Eveleth.

VIRGINIA CLASS PLAY.

"Maneuvers of Jane" to Be Presented By Graduates.

Virginia, Minn., May 22.—(Special to The Herald.)—The senior class play this year is entitled the "Maneuvers of Jane," by Henry Arthur Jones. It is an English society play of the present time. The class have the play well in hand, and it will be put on the week following the Memorial day exercises. The plot has a fascination about it from start to finish, so that the friends and patrons of the school are assured an evening of entertainment and pleasure on class play night. The play will be put on under the direction of Prof. L. Bliss, assisted by Miss Zudia McDonald, and the high school teachers.

The play has four acts, as follows:

ACT I.—Scene—The River Parlor at Lord Bapchild's, Chaney court, on an October afternoon. ACT II. Scene—Drawing room at Chaney court on an April afternoon, six months later. ACT III. Scene I.—Room in the "Magpie" at Southwich at 11 o'clock on the same evening. Scene II.—Miss Dodd's parlor at Pliistow-on-sea at 7 o'clock the next morning. ACT IV. Scene—Drawing room at Chaney court. The same morning. Time, the present.

GILBERT GIRL GRADUATES.

Receives Diploma at Newton, Mass., Institution.

Boston, Mass., May 22.—Miss May Louise Turner of Gilbert, Minn., was graduated last evening from the Gordon training school of the Newton Theological seminary. The exercises were held in the auditorium of the Clarendon Street Baptist church, Boston. Diplomas were presented and Dean Dood delivered the oration.

MUNGER NOTES.

Munger, Minn., May 22.—(Special to The Herald.)—Mrs. J. Rallon of Chicago is visiting Mr. and Mrs. A. Leader.

Mrs. E. Hellen and Miss Tyvan were Duluth visitors last week.

Mr. and Mrs. J. Lapage are visiting J. Miller.

Misses Bonnie and Genevieve Stransky and A. Leader spent Sunday fishing at Twig.

Preparations are being made for the opening of the Munger sawmill.

Miss Ida Schmelling spent Saturday visiting friends in Proctor.

HIBBING BRIEFS.

Hibbing, Minn., May 22.—(Special to The Herald.)—W. C. Barret has returned to the city after a brief visit to Michigan.

W. L. Winans, secretary-treasurer of the Itasca Bazar company will return to the city from Chicago on Tuesday.

Arthur Conklin was brought to the Hibbing police station on Saturday night and locked up for safe keeping. His condition showed every indication of his having delirium tremens.

Nick Janick was arrested on Sunday evening for being drunk and starting a rough house in a restaurant.

Helen Milton was arrested on Saturday night for occupying the same room as Corwin Barker. Barker was also arrested for the same cause.

Hibbing Lecture.

Hibbing, Minn., May 22.—(Special to The Herald.)—The Rev. Thomas Clary of New York, one of the most famous lecturers, addressed a special sermon to railroad men at the Methodist church on Sunday. Mr. Clary has made a special feature of railroad work for many years and is one of the best informed preachers in the country on railroad matters. He will also give a special lecture in the Methodist church this evening.

Eveleth Elks Beat Virginia.

Virginia, Minn., May 22.—(Special to The Herald.)—The Virginia Elks were defeated by the Eveleth Elks in a well played game at Oliver park yesterday afternoon by a score of 14 to 16. The battery for Virginia were Dr. Bailey and Anthony and for Eveleth Burns aned Boyle. The feature of the playing for Virginia was the first base work of Harry Gillespie and the poor playing of Davy Cuppernull on third. The Eveleth Elks sprung a few ringers into the game and that's what defeated Virginia.

TWO PLAYERS HURT IN OPENING GAME

Biwabik's Catcher Breaks Thumb; Gilbert's Catcher Wrenches Knee.

Gilbert, Minn., May 22.—(Special to The Herald.)—The opening game here Sunday of the Eastern Mesaba league drew a large crowd. Biwabik defeated Gilbert, 3 to 0, in a fast game. Carey, Biwabik catcher, had his thumb broken on his left hand so that the bone pushed through the flesh and retired in the sixth inning. Batteries: Biwabik—Benson, Schoeder and Carey and Benson. Gilbert—Vervile, Bundy and Stevens and Sullivan.

Stevens, catcher for Gilbert, wrenched his knee in second and gave way to Sullivan.

Aurora defeated Elba at Elba, 7 to 8. Batteries: Aurora—Graham and Beecroft. Elba—Carr and Derrick.

IS DROWNED WHILE WASHING CLOTHES

Laborer at Two Harbors Dock Loses Life Between Two Docks.

Two Harbors, Minn., May 22.—(Special to The Herald.)—Edward S. Olson, aged 27, single, employed by Whitney Bros. & Hill in building the new ore docks here, was drowned between the two docks Saturday evening while washing his clothes. He was on a scow and fell into the water, drowning before he could be rescued, although a line was thrown to him. The body was recovered.

"BELSHAZZAR" IS TREAT.

Tower People Enjoy Production By Local Talent.

Tower, Minn., May 22.—(Special to The Herald.)—The cantata, "Belshazzar," was rendered Friday evening at the Vermilion opera house, under the direction of F. E. Kolb. The seating capacity of the house was taxed.

Following is the cast: Belshazzar, king of Babylon, F. E. Kolb; Cyrus, king of Persia, J. B. Sexton; Zerubbabel, governor of the Jews, C. L. Welnmann; Daniel, prophet of Israel, J. E. Robertson; Nitocris, queen regent, Mrs. T. Taylor; Antonia, queen of Belshazzar, Helen Benson; Shelomith, wife of Zerubbabel, Mrs. Ed Mahar; child of Zerubbabel, Melville Hill; angel, Lavina Guthrie; lords and ladies of the court, chorus, Mesdames, Gallien, Hill, Hickey, Benson, Misses Campaigne, Carlisle, Eikrem, Fraleigh, Ida Gordon, Rose Gordon, Graham, Hanid, Belle Kitzo, Elsie Martin, Pfeiffer, Stephenson, Strand, Swanson, Williman, Josephine Holster, Irene Colberg; Messrs, G. D. Lizer, Axel Lofgren, Walter Quandt.

The soloists from out of town were: Miss Helen Benson of Duluth, and Mrs. Ed Mahar of Virginia.

The production was effectively staged and the costumes gorgeous, as was befitting scenes in a king's court, and the beauty of the various scenes was heightened by the floods of colored lights thrown upon the stage.

The various parts were effectively rendered and especially those of the king and queen, the latter looking very queenly in her royal robes and profusion of jewels. The chorus work was well done and would reflect just credit for a town many times the size of Tower. The choral numbers especially effective were: "By the Rivers We Weep," "We Will Give Thanks," "Hail to Belshazzar," and "Away With Care, Away."

During his two years' residence, Mr. Kolb has done much to awaken musical talent in this city.

MANY ATTEND LECTURES.

Sunday Evening Illustrated Addresses Please Two Harbors.

Two Harbors, Minn., May 22.—(Special to The Herald.)—The Sunday evening illustrated songs and picture sermons given by Rev. T. Stanley Oadams every Sunday evening at the First M. E. church attract large audiences.

Last night, Glen A. Locker sang "The Holy City," and Mrs. Oadams, who manages the stereopticon, illustrated it with some excellent views. The sermon last night by the pastor, was entitled "Temples, Churches and Worship," showing the greatest efforts of Jew, Catholic and Protestant to build worthy habitations for the Divine Presence on earth in communion with man. The sermon was highly instructive.

Mr. Oadams has had marked success with these services for over fifteen years in former pastorates and next Sunday evening with a subject suitable to the Memorial day of our nation, the seating capacity of the church will not meet the demand for seats.

NEW EVELETH FIRE HALL.

Proposed Structure Will Mean Changes in the City Hall.

Eveleth, Minn., May 22.—(Special to The Herald.)—Eveleth will have a new fire hall by Nov. 1, two stories in height, to cost about $10,000, if present plans do not miscarry. Many sites are being considered and a final choice will be made June 6, by the council.

The city hall in which the fire department is now located, will be greatly changed with the removal of the firemen. The first floor will be devoted soley to municipal court purposes. The municipal court and municipal court clerk's office, will be moved from the second floor to the first floor, now used to house the department's apparatus and horses. The city jail which is also located on the first floor will be enlarged. The municipal court room on the second floor will be used solely for the city council, while the city clerk and attorney offices will be enlarged.

FINES ARE FREQUENT IN THE HIBBING COURT.

Hibbing, Minn., May 22.—(Special to The Herald.)—Ole Olson pleaded guilty to taking $18.45 from the a savings bank and was sentenced to pay $75 and costs or spend eighty days in jail.

Henry Lutz, charged with assault on P. Burk, was fined $50 and costs with the option of fifty days in jail.

Helen Millon was fined $50 with an option of fifty days, for plying an illegal trade.

NINETEEN VOTES FAVOR NEW EVELETH SCHOOL.

Eveleth, Minn., May 22.—(Special to The Herald.)—At the school election held Saturday evening, to bond the district for $60,000 for the erection of a ten-room brick school to replace the burned Fayal school, nineteen votes were cast, all in the affirmative. B. C. Prout and W. J. Davey aacted as clerks.

EVELETH CHURCH NOTES.

Eveleth, Minn., May 22.—(Special to The Herald.)—Rev. Mr. Drews of the St. Matthew's church, Duluth, who has been conducting German Lutheran services here during the winter preached his farewell sermon at the Swedish Mission church last evening. He resigned the Duluth pastorate to remove to Canada where he will continue in the ministry.

Rev. B. D. Hanscom gave two interesting sermons to large congregations yesterday at the Methodist Episcopal church, speaking in the morning on "Solomon's Estimate of Woman," and in the evening on "The Uncertainties of an Uncertain Man."

Eveleth Needs Pest House.

Eveleth, Minn., May 22.—(Special to The Herald.)—The need for a pest house is becoming very evident as cases of contagious disease, which arise here or in this vicinity, cannot be cared for by the city, as the old pest house has been sold, and the new one planned has yet not been started, because of the site question. A lumberjack employed by the Northern Plumbing company, in this vicinity, was unable to be cared for here, because of the absence of a pest house.

Drilling Near Fayal.

Eveleth, Minn., May 22.—(Special to The Herald.)—The drilling crews at work in the Fayal district opposite the Fayal road have as yet not encountered ore. The drill in the rear of the Owens residence has been sunk ninety-seven feet. A drill was installed Saturday opposite the First Presbyterian church, while another was erected today near the corner of Chandler avenue and Fayal road.

WILL ASK TO HAVE LAW ENFORCED

Duluth Grocers' Association Wants All Grocery Stores Closed on Sundays.

The Duluth Grocers' association will try to have the law prohibiting the sale of groceries on Sunday enforced.

George M. Peterson, who is secretary of the association, has been instructed to ascertain who the violators are. The grocery men of the city claim that the law allows only the saic of drugs, tobacco, fruits and candies on Sunday and that meats and groceries can only be sold at hotels and cafes.

It is claimed that many grocers keep their places of business open on Sunday because their neighborhood demands it.

The association will also ask Mayor Cullum to appoint some one whose duty it will be to inspect the licenses of fruit venders and to investigate where they purchase their stock.

Many of them, claim the grocers, get the supply on Michigan street, buying stock which has been left over and cannot be disposed of to the grocery stores.

TWENTY-SEVEN WILL GRADUATE

Largest Class in History of Cloquet High to Receive Diplomas.

Cloquet, Minn., May 22.—(Special to The Herald.)—Twenty-seven girls and boys will completo the high school course in Cloquet this year, the largest class in the history of the school. The graduation exercises will be held in the Nelson opera house Saturday evening, June 3. T. S. Devitt, D. D., of Winona, has been selected to deliver the commencement address. The class day will be celebrated at the opera house Friday evening, June 2, and on Sunday, May 28, Rev. C. W. Lowrie, the pastor of the First Presbyterian church will deliver the baccalaureate sermon. Eighth grade graduation will take place June 1 at the opera house.

Contrary to the system which has obtained in the past in the matter of instructors in the high school, there will be six men on the faculty next year, instead of so many women. Among the new teachers are R. C. Shifflet, a graduate of Oklahoma agricultural college, with five years' experience, who will be in charge of the agricultural work, the appropriation of $2,500 for which was recently granted by the state high school board; Benjamin F. Fairbrother of Taunton, Mass., a graduate of Trinity college, Connecticut, and a post graduate of Harvard, who will teach English in the high school; Clarence E. Bloomer, a graduate of the Wesleyan university of Ohio, who will teach history and geography, and J. D. Hargrave of Webster, S. D., who will be principal of the high school. Mr. Hargrave has been principal at Webster for several years.

GROCERS WANT HALF HOLIDAY

Stores May Close Thursday Afternoons During Summer Months.

At their next meeting Duluth grocers will vote on a proposition to give employes a half holiday weekly by closing shops on Thursday afternoons in the summer months. Union butchers recently made a request of shop proprietors for a weekly half holiday.

Grocery employes say they want a half a day on which to recuperate before the rush of Friday and Saturday. They say their hours are long and they think they should get a half holiday weekly in the summer.

GOVERNMENT BONDS ON SALE

Local Banks Have Subscription Blanks for Panama Issue.

Local banks have received subscription blanks for the government's new $50,000,000 bond issue of Panama 3 per cents. The money will partially reimburse the government for its expenditures on the Panama canal. It is the first government bond issue since the days of the 1907 panic. The bonds are the first issued since the establishment of the national banking system that have not been available as security for national bank circulation.

The bonds will be issued in denomination of $100, $500 and $1,000 and will bear 3 per cent interest. They are dated Jan. 1, 1911 and are payable at the option of the government on June 1, 1961.

The government is endeavoring to sell the bonds to the general public and is making it easy for the public to subscribe. For the first time in the history of federal bond subscriptions anybody can go to his bank and subscribe for a portion of the bonds by tendering his personal check, postal, telegraph or express order. Interest begins on the date the government collects the payment for the bonds. The first regular dividend will be Dec. 1.

The bonds will be exempt from all taxes and duties, both federal, state and local. Bids must be submitted to the secretary of the treasury on or before 4 p. m., June 17. Each bid for more than $1,000 must be accompanied by a certified check drawn or indorsed to the order of the secretary of the treasury equal in amount to 2 per cent of the face value of the bonds desired. Payment for the bonds must be made by July 15. Small bidders will be given preference.

Larger Cloquet Hospital.

Cloquet, Minn., May 22.—(Special to The Herald.)—Work has been begun on an extension to the Barclay hospital. Dr. Alex Barclay came to Cloquet about three years ago from Atkin and bought the present property from Dr. Sewell, who is now located at Deerwood. He has made many improvements. A concrete basement will be put in, in which will be located a laundry, and there will be two stories above ground, containing kitchen, baths and bedrooms.

BRITISH LAUNCH NAVAL AIRSHIP

First Craft of the Kind for That Nation Named "Mayfly."

Barrow-in-Furness, Eng., May 22.—Great Britain's first naval airship, the construction of which has been surrounded by much secrecy, was successfully launched here today and is now anchored behind wind screens erected in the harbor. The airship was christened the Mayfly.

The airship, which is 502 feet in length, is of the rigid type with a blunt nose tapering to a pointed stern. The feature of the construction is the provision for two separate gondalas for the engines. The airship is specially designed for naval purposes and can be moored on the water.

The outer covering of the upper half of the dirigible, which is forty-eight feet in diameter, consists of silk treated with a special waterproof dressing, over which aluminum dust has been sprinkled. The lower part of the bag is of yellow silk treated with the same waterproofing material, but without the aluminum. The frame work contains eighteen gas bags, filled with hydrogen.

WISCONSIN DELEGATES

To Two National Gatherings Named By the Governor.

Madison, Wis., May 22. — Before leaving for Vicksburg Governor McGovern named these delegates to the annual meeting of the American Prison association at Omaha Oct. 14 to 19: William H. Graebner, Milwaukee; Dr. P. H. Lindley, Chippewa Falls; Ralph E. Smith, Merrill; Daniel Woodward, Omro; Dr. Almah J. Frisbee, Milwaukee; C. W. Bowron, Green Bay; Henry Town, Waupun; A. J. Hutton, Waukesha; Miss Mary J. Berry, Milwaukee.

Also these delegates to the convention of the American Association of Workers for the Blind in Philadelphia June 20 to 23: Oscar Kustermann, Milwaukee; Dr. J. F. Brown, Janesville; Miss Alice K. McGregor, Janesville; Miss Ada M. Turner, Janesville.

MINNESOTA HAS IT.

Most Northern Postoffice in United States Outside of Alaska.

Roseau, Minn., May 22.—A postoffice has been authorized in the Northwest Angle to be known as Sugar Point with Charles R. Gould as postmaster. Service will begin as soon as the postmaster's bonds are sent in and the supplies reach here. The mail will go out from Warrood, and in a few months a regular mail carrying route will be in force. Sugar Point is the most northerly postoffice in the United States outside of Alaska.

HOLDUPS SENTENCED.

Pair That Held Up Hurley Man Are Given Three Years.

Ironwood, Mich., May 22.—(Special to The Herald.)—Antonio Ferro and Sam Gentile of Hurley, who held up John Nunzio here on March 12, were convicted of larceny from the person in the Gogebic county court, and were sentenced to serve three years in Marquette prison. The authorities believe they were the same men who robbed and beat up the Duluth traveling man, near the street car barn, about the same time as the assault on Nunzio.

Panton & White Company

WOMAN'S REALM.

Some interesting rules on how to take a good picture and what to wear to be photographed in have been given by Miss Helen Loewe, who was the leading model at the Milwaukee national convention. She says:

"Many women regard having their pictures taken in the light of a real calamity. A woman of my acquaintance met me on State street recently and said: 'Condole with me. I am on my way to have an operation performed.' Immediately I was sympathetic and insisted on accompany her, when, to my amazement, she entered a photograph gallery and said: 'Here's the hospital—right this way for the operating room.'

"Men may doubt the truth of this statement, because they are always in a hurry, because they are always are photographed and out again before they think about it a second time. With women it is a different proposition. They know from many sad experiences that the picture will probably be impossible and will necessitate a second or third sitting, with all the fussing and inconvenience over again. They are determined each time that this picture shall be the last, and so they are doubly anxious to secure good results.

"I who have been photographed 2,757 times and have posed for more than 2,000 paintings and statues, have the deepest sympathy for the average woman bent on getting a good picture.

"For the benefit of the woman who really desires a good picture and does not know the art of posing and preparation I have compiled a few rules.

"First of all, select a first-class photographer, being sure to choose one who is known for his effects gained with drapery. Draperies form no period, and in later years it is impossible to tell whether the picture was taken early or late in life. This is a practically pleasing feature if one has given up having birthday anniversaries. The widow who took a stunning picture five years ago is a trifle passe now, so if she is wise she will seek the drapery effects. She will also avoid wearing a hat unless it is of the lingerie or baby style, which changes but little as the years go by. The lingerie hat is not typical of any period and changes so little each year that it would be impossible to label a photograph by it.

"Large rolling picture hats may be used with good effect if they are becoming to the sitter. They have been fashionable since the time of Gainsborough and probably always will be. Extreme styles should be avoided assiduously. Think today of presenting a picture of yourself to a masculine friend in which your head is adorned with a peach basket hat. Avoid style in photographs and follow your own individuality."

Afternoon Tea.

Mrs. Parker Paine will be hostess at a tea Wednesday afternoon at her home for the benefit of the new tuberculosis hospital. This is a link in the chain of teas which was started last week by ten women, each planning to entertain ten other guests in turn.

Church Meetings.

Trinity Guild will hold an all-day session tomorrow in the guild hall of the church. This is the last regular meeting until fall and every member is requested to be present.

First Party.

The Duluth Homestead, No. 3131, Brotherhood of American Yeomen, have issued invitations for their first dancing party to be given next Monday evening, May 29, at the Knights of Pythias hall. The committee in charge is composed of: Mabel Bordeleau, chairman; Martha Onsgard, Marguerite Pierson, Ella Brossard, Rose Cartier.

AGED OFFICER HAS FOURTH BRIDE

GEN. THOMAS L. JAMES AND WIFE.

New York, May 20.—Any woman hater would say that Gen. Thomas L. James is old enough to know better. But in spite of age and a good deal of experience, Gen. James got married for the fourth time a day or two ago. Gen. James is 80 years of age. He was postmaster general under Garfield, following a term of service as postmaster at New York city. His bride, who is about 40, was formerly the wife of J. A. Gaffney, a Utica capitalist.

Irish-American Club.

The Irish-American Literary club will hold its regular meeting in the Cathedral club rooms tomorrow evening at 8:15 o'clock with Miss Lydon as leader.

Piano selection ..... Mrs. H. Brown,
Recitation ..... Mary Quinn.
Vocal solo ..... Grace La Vaque.
Address ..... Frank McNally.
Violin solo ..... Edward Dillon.
Paper on the "Milesians" ..... Miss Driscoll.
Talk ..... Bishop McGolrick.
Vocal solo ..... Mr. Coates.
Social hour ..... Katherine Driscoll, hostess.

Surprise Party.

Percy Hoad of 121 East Eighth street was pleasantly surprised Saturday evening at his home by a number of friends. The evening was spent with cards and dancing by the following guests:

Mr. and Mrs. Hoad.
Mrs. Grunau.
Misses—
Rachael McLeod, Bessie Enger, Hawkins, Selma Erickson, Lillian Grunau, Edith Hawkenson, Anna Erickson, Signa Sapola, Lillian Berbig, Lillian Nelson, Kathleen Kilgore.
Messrs.—
Anton Whitson, Fred Berbig, Shandoss Hoad, Percy Hoad, William Berbig, Block, Walter Kilgore, Avid Sapola, Otto Kalkbrenner.

De War-Amos.

The wedding of Miss Grace M. De War and Harold S. Amos took place this morning at the St. Clemmens church. Father Gustifson performed the ceremony. Miss De War was attended by her cousin, Katherine McInnis. Mr. Amos was attended by Max Klien. Mr. and Mrs. Amos left for Virginia.

Y. W. C. A. Affairs.

An interesting musical will be given Friday afternoon of this week at the home of Mrs. C. A. Congdon, Thirty-second avenue east and London road for the benefit of the Young Women's Christian association. The program for the afternoon will consist of piano numbers by Mrs. Mark Baldwin, readings by Mrs. Robert Bruce Liggett and vocal numbers by Miss Mary Syer Bradshaw.

This affair is the first of a number of social affairs being planned for the benefit of the association.

This evening the girls of the junior gymnasium classes will give an exhibition of dancing and apparatus work which is open to their friends.

An apple blossom reception, too, is being planned by some of the women at Glen Avon for the benefit of the association. It will be given in the apple orchard of R. M. Hunter at his home in Hunter's Park, where tea will be served and a program of dances and games will be given. The date for this reception depends upon the weather and the apple blossoms.

Military Ball.

The military ball at the Spalding hotel this evening will be perhaps the largest social affair of the week. Full dress military uniform will be worn by the officers and a large number of visiting officers from the Twin Cities are expected.

The committee in charge has made elaborate arrangements for the guests and a large attendance is anticipated.

Kennedy-Beckman.

The wedding of Miss Katherine Kennedy, daughter of Mr. and Mrs. F. E. Kennedy of 3517 Lake Avenue south, Park Point, and August Christopher Beckman of Hammond, Ind., will take place on Monday, June 5, at the Cathedral. The ceremony will be performed at 8 o'clock in the presence of only immediate relatives and friends.

Business Meeting.

The Philathea Class of the First Presbyterian church will hold its regular monthly business meeting this evening at the home of Mrs. Freeman Randall, Coney Island cottage, Park Point.

May Queen.

Miss Dale Montgomery of this city has been chosen queen of the May day festivities of the Grinnell college in Iowa. Over two-thirds of the girls of the school will be participants in the affair, for which elaborate preparations are being made.

Visits Actors.

Mrs. W. P. Lardner of 1901 East Superior street returned yesterday from a two weeks' trip to Niles, Mich., and Chicago. Her mother, Mrs. Finley, of the former city returned with her.

In Chicago Mrs. Finley spent several days with Mr. and Mrs. Jay Quigley, who were formerly in stock work here at the Lyceum theater. Mrs. Quigley has been very ill, but is improving now and Mr. Quigley is with Ethel Barrymore and has been offered the position as understudy to her leading man.

Engagements Announced.

J. G. Nettleton of 5709 Cody street announces the engagement of his daughter, Annabelle, to Frank M. Ashley of this city. The wedding will take place on June 14.

• • •

Mrs. J. A. Baker of No. 2 Munger row announces the engagement of her daughter, Ella Marie, to Albert Forest Delbert. The wedding will take place tomorrow.

• • •

The engagement of Miss Jeannettte Wagner to Edmund F. Zimmerman has been announced and the wedding will take place June 20. Mr. Zimmerman is a member of the firm of Cowan & Zimmerman.

Personal Mention.

Mr. and Mrs. Frank M. Warren of Minneapolis spent the week-end here as the guests of relatives.

• • •

Miss Margaret Clark of Hunter's Park returned today from Minneapolis, where she has been visiting at the home of her sister, Mrs. W. J. Ryan.

• • •

Mrs. Percy Anneke, Miss Margaret Anneke and Mrs. Margaret Lawitzsky, who have been spending several months in California, are expected home June 1.

• • •

Mr. and Mrs. John McAlpine of 1610 East First street, have returned from Chicago, where they spent the last week on their way home from a ten weeks' stay in California.

• • •

Mrs. F. E. Kennedy and Miss Katherine Kennedy are visiting friends in Mankato and Minneapolis for a short time, but will be home Wednesday.

• • •

John Koneczny, who has been studying vocal music this winter with Victor Morrell in New York city, has returned to Duluth for the summer.

• • •

Mr. and Mrs. M. H. Alworth and son, R. D. Alworth, of 1928 East First street have returned from Tarpon Springs, Fla., where they have been spending the past ten weeks.

• • •

Mrs. F. W. Paine of 1007 London Road will leave the last of this week for the East, where she will visit for a while before sailing for a trip abroad.

• • •

Miss Hannah Lee of 1119 East Third street left today for a month's visit in Iowa.

For active youngsters

Your growing young people need a lot of nourishment for their active bodies and brains. And they will find exactly the diet they need in

Campbell's SOUPS

These pure wholesome soups are rich in body-building nerve-making properties; and extremely easy to digest and assimilate.

Try them specially for the evening meal in place of heavy meat. And see how much better the youngsters sleep and work and play.

21 kinds 10c a can

Just add hot water, bring to a boil, and serve.

The "Helpful" Who Hinder

By CARA REESE

Well, that will help some, to ring up and say that you will be there for lunch and to say "goodby" before they leave. They are at their wits' end now gathering the final apparel into the suit cases and valises and had incidentally made up their minds to do without food until the station was reached.

But that will help some. Always be friendly. That will help some, to interrupt a stampede of an acquaintance toward the bank with a sympathetic whisper, "How have you fixed the matter?" It lacks a quarter of a second of bank closing time and the acquaintance has his hands full of tightly clutched greenbacks. But that will help some to have you hold on coat lapel or sleeve. Always be sympathetic.

That will help some, to crowd around when an accident happens or some street disturbance occurs. The policemen and firemen have some extra difficulty in clearing a breathing or hoisting space and the patrol and ambulance are obliged to slow up in speed and to accelerate in bell clanging. But that will help some, your presence on the spot. Always be ready.

And that will help some, to show vociferously by your applause at the wrong time the side of the question you advocate. It may give the ushers a hustle for their titles, or disturb the train or argument in the speaker's mind, or fling the good will of your personal enemies over to the opposite side. But you will help some. Always be in earnest in your support of a cause.

That will help some, to hand out advice concerning the running of other folks' business, to rush in any lay hold on the affairs of the children, to chime in, butt in, neb in, when your heart is warm in the cause and the desire is as overpowering as the desire to "pluck a brand from the burning." That will help some. Always be zealous. That will help some, the fee to the wrong person, the offer of assistance to the wrong traveler, the obliging and willing service to the wrong public.

If only there might be a conservation of the friendliness, zeal and service which are so generously disbursed as retail or wholesale attributes in the "help and save" departments of life, if only a useful conservation, what great results might be achieved. But, alas, expenditure is enormous. The worst feature is that those who misplace their friendliness, sympathy and service, rarely are awake to the fact. They keep on with handing down of opinions and the rushing in where angels fear to tread. They keep tumbling over themselves directly in front of the wheels of progress and in the blissful belief that they are helping.

Well, they do help. They help to while away many a tedious hour for other folks when these are at leisure and are casting about for some of the interesting details of reminiscence. There are ever tender, loyal words, and a retrospective twinkle of the eye as the subject is introduced with, "then to cap the climax who should appear"—and so it goes. Blessed are the helpful.

A Children's Party

By MARGARET E. SANGSTER

Dorothy is six years old. On her birthday she wishes to have a party. So Gladys, Barbara, Margaret, Helen, Lucy and Eleanor are invited, and also Francis, Johnny, Edwin, Max, Hans and the other little boys who live in Dorothy's neighborhood. If there are small cousins, they are asked, too.

Dorothy's mother probably writes the little notes of invitation, as fingers that have only been taught in kindergarten have not learned to hold a pen. The notes may be rather formal, thus:

Dorothy Prentiss
Asks the Pleasure of
Gladys Martin's
Company at Her Birthday Party
Monday Afternoon, April Tenth,
From Three Until Six o'Clock.
Or her mother—and this is prettier—may write to Gladys' mother, and to the other mothers, saying:

Dear Mrs.—
My little Dorothy will be six years old next Monday, and she is to have a little party. May Gladys come? The hours will be from 3 until 6.

Truly yours,
Eleanor Prentiss.

A child a little older, who has learned to write, may send her own notes. She should have her stationery with a little picture in the upper left-hand corner, and may say: "Please come to my party," or something else just as simple.

Children should be daintily dressed to go to a party, but should never be over-dressed or have anything on that they must worry about or take special care of.

Fastidious Palates

By MRS. GEORGE BRANDT WINTHROP.

I often receive letters from mothers of grown-up sons and daughters, and also from disheartened wives, who complain of the difficulty in pleasing the palates or tastes of those for whom they cater.

One mother wrote me some months ago telling me that she has so much trouble in the matter, and there is so large a quantity of good food actually wasted that were her time to come over again she would be more strict with her little ones, and she would train them to eat what was put before them. There are many cases like this, and all are the result of pandering to children's tastes and fancies regarding food.

They are allowed to pick over the contents of their dinner plate, with "I don't like this," or "I can't eat that," or "I don't want it."

If the child is ill or bilious the sight of much food is distasteful and even harmful, but in usual health no regard should be paid to such discontented remarks; or, if the child obstinately refuses to eat what is prepared, it should be removed entirely, and no other kind of food given until the next meal, when hunger will have taught the child a little lesson.

Too often the parents, for the sake of peace, give way, and something more tempting is given, with the result that the same scene is gone through day after day, until it is quite an understood thing to indulge the little "epicures's" fads and fancies.

The trouble, however, comes when the child has grown up, and perhaps has a struggle to make ends meet. He cannot, or will not, eat anything of an economical kind. Stews, hashes, or any made dish will not be tolerated. Nothing but roast joints, or grilled chops and steaks will suit him. Cold meat may be eaten once in a way, but only as a snack or for supper.

This must be exceedingly trying for the wife, when housekeeping allowance is not nearly sufficient for such extravagance, and as a natural result, debt, with all its accompanying horrors, very quickly catches them in its web from which it is almost impossible to escape.

I have seen a great deal of this, and cannot help thinking that such trouble could have been avoided if the parents had been more thrifty, and less indulgent.

THE EVENING STORY

THE LOVE LETTER

By Mary McLennan.

Barbara Hall paused for a moment as she stood in the doorway of her friend's sitting room. Then she closed the door noiselessly behind her, and advanced to where Grace Jessop was sobbing on the couch. A gleam of satisfaction, almost of hope, came into Barbara's gray-green eyes as she looked down on her friend, but there was nothing but friendly solicitude in her soft voice as she spoke.

"Grace, my dear Grace, whatever is the matter? Tell me about it, dear." She lifted Grace's dark head on to her lap, and stroked her cheek caressingly. "I had a feeling that you were in trouble, my dear," she went on slowly. "Somehow, I couldn't resist coming to see. Tell me what it is all about."

Grace dried her eyes, and flung impulsive arms around her friend.

"You are a dear, Barbara!" she exclaimed. "I am a lucky girl to have a friend like you. I can always rely on your sympathy."

"Of course you can. But tell me, what is the trouble? Is it about Mr. Bishop?"

"Yes, it is about Vivian," she confessed. "You don't like him, do you, Barbara?"

She asked the question innocently, but Barbara cast a sharp glance of suspicion at her. Did she suspect that the girl who pretended to be her friend was plotting how she might best win her love from her?

But Grace's face was full of confiding trust, and Barbara was reassured.

"The little fool trusts me as blindly as ever," she told herself; but what she said to Grace was: "He is well enough, but if he is going to bring tears to those pretty eyes, I shall begin to dislike him in real earnest."

Grace slipped a confiding hand into hers.

"It was about the Newhall dance we disagreed," she told her. "You know I promised to go, and now that Vivian isn't invited he thinks I shouldn't go without him. Of course, mother can't go, but Mrs. Newhall said she would chaperon me, and I would so enjoy it."

"Of course you would, dear, Barbara agreed. "I must say, I think it is selfish of Mr. Bishop. Either that, or he doesn't trust you."

"He knows he can trust me," Grace replied in a low tone. "He thinks it is insulting to him not to be asked, and that I ought to show that I resent it by not going. Mrs. Newhall knows that we are engaged."

"Yes, my dear, but you must allow Mrs. Newhall to choose her own guests. I happen to know that she has spent hours in thought about this question."

"Then why hasn't she invited him" Grace asked.

But her friend only shook her head.

She changed the subject then; but when she left Grace she left behind her the impression that there was some secret reason why Vivian Bishop should not be invited, some reason which did not redound to his credit.

"I will ask Vivian about it when he comes tomorrow," Grace decided. But Vivian did not come on the morrow. The day after again, he did not come, and there was no note from him to explain his non-appearance.

Barbara found her once more in tears when she came to see her, and this time she expressed her indignation. "I think Mr. Bishop is treating you shamefully," she declared. "No girl with any spirit would stand it"

"It's never missed coming to tea on a Sunday," Grace sobbed. "He must be vexed about that dance."

"You have more reason to be vexed,' Barbara said. "He is placing you in a very humiliating position."

Grace flushed scarlet.

"Barbara, dear," she whispered, "do you think he wants to give me up, and doesn't quite like to say so? If I thought that—"

Barbara hesitated.

"I'm afraid it looks like it," she confessed, with apparent reluctance.

"What would you do if you were in my place?" Grace went on.

"I would give him up without waiting for him to give me up," Barbara replied promptly. "But, of course, dear, I am not presuming to advise you."

Grace seized and pressed her friend's hand.

"What should I do without you?" she murmured. "You always advise the right thing. I will write to him now, and send his ring back."

"Really, Grace, I think you are right," Barbara said. "No girl would stand such treatment. It shows that he doesn't think much of you."

Grace winced, and a sudden pallor overspread her face. But she pressed back the hot tears that rose to her eyes, and got out her writing materials.

"I don't really care," she said. "I don't know why I promised to marry him."

Barbara watched her in silence while she wrote. Her task had been astonishingly easy, and she had not expected to effect a rupture so quickly. The green tint in her eyes was very evident as she looked at the letter that was to destroy her friend's happiness. For she knew well that Grace still loved Vivian Bishop. More than that, she knew that he was ill, unable to leave his room, and the letter that would have informed Grace of the fact was at present reposing in her pocket.

"Do you think perhaps I ought to register the letter?" Grace asked presently. "You see, there is the ring in it?"

"Perhaps so," Barbara said. "I will post it if you like."

Grace murmured her thanks and declined somewhat wearily Barbara's invitation to a concert that evening. She wanted to be alone to wonder if she really had, as she had told Vivian, "lost her love for him."

The letter had been written on a sudden impulse, fostered by Barbara's careful encouragement, and it had not been gone half an hour before she bitterly repented the sending of it. If she only had written apologizing for her part in Saturday's disagreement! But it was all over now. Vivian was proud; she knew he would ask her to take his ring back, and she could never, never risk a rebuff by explaining to him.

• • •

"That was the postman, Jack. Is there anything for me?" Vivian asked, eagerly.

"Yes, there's a letter. I suppose it is from Grace. Must I open it and read it to you? Perhaps you'd better not take these bandages off just yet."

"If you will, Jack. It's a nuisance that that piece of steel made a hole so near my eyes that I have to be in darkness. But never mind, proceed with the letter. I wondered why she hadn't written yesterday. I though perhaps she would have come to see me, when she heard about the accident at the works."

Jack opened the letter, and a curious expression came into his eyes, as he read:

"Dear Mr. Bishop," it ran—"You will perhaps not be surprised to learn that I have decided that our engagement must cease. I find that I have lost my love for you. Indeed, it was all a mistake from the beginning. Enclosed you will please find the ring you gave me.

"Yours sincerely,
"Grace Jessop."

Jack sat staring at it, then he glanced at the man on the bed. The accident was not very serious, but it necessitated that Vivian should lie in bed for a few weeks. Jack knew how the thought of Grace haw buoyed him up so far. How would he take the news of her defection?

"Fire away, Jack!" Vivian said. "I know how she has started, anyway. See how much of the letter I can guess. She starts, 'My dear Vivian.' She is sure to say how very sorry she is for my accident, and hopes it will turn out not to be so bad. She always looks on the bright side. Then she finishes up, "Your own Grace," Am I not right?"

Jack groaned as he heard the happy expectancy in his brother's voice, and then looked at the formal "Dear Mr. Bishop." Could he dash his brother's hopes so cruelly? Not just now at any rate—not until he was better.

"Evidently this is not the first love letter you have received," he said, with forced brightness. "My dear Vivian," she starts,—'I was so very sorry to hear about your accident. I would have written yesterday, but I was out when your letter came, and would have just missed the post. I hope you will let me know today how you are, and I do hope that things will turn out better than you expect. They generally do, you know."

"'Well, goodby for the present,
"'From your own, GRACE.'

"I knew she would say that," Vivian chuckled; and his brother wiped the sweat from his brow, though the day was cold. His inventive faculty would not carry him much farther.

"Isn't it sweet of her?" Vivian said. "Jack, old chap, I know I'm an awful bother, but would you mind just writing a line in reply?"

"I think I will go round and see her," Jack said. He was turning the half hoop of diamonds absently around his finger. He must return it, and beg Miss Jessop to allow the engagement to stand—for the present.

"I wish you would. Give her all my love, and if she would like to see me—" The wistfulness in his voice almost brought tears to Jack's eyes. "I will bring her back with me," he promised hastily.

Half an hour later he was standing in Miss Jessop's drawing room, recounting with white face and stern eyes the scene in his brother's room through which he had just passed.

"So I want you to take back your ring for the present," he concluded, as he held it out. Grace snatched it, and eagerly placed it on her finger.

"How can I thank you?" she cried. "But I didn't know that Jack was ill—I didn't really; You surely don't think I would be so cruel?"

"I wrote to you myself," Jack said.

Grace rang for the housemaid, and asked her if any letter had been mislaid which should have been delivered to her.

"There was a leter came for you, miss," the girl said. "Miss Hall was going upstairs, and she said she'd give it to you."

"Thank you, Jane," Grace said. Then, as the girl retired she turned to Jack. "I never received the letter," she said slowly. "And it was Miss Hall who advised me to give him up. I never wanted to, really."

"I should certainly draw the obvious conclusion," Jack said. "Would you like to come back with me to see Vivian? I think the old boy rather wants to see you."

"I will come now," Grace said. "And, Jack, you will let me burn that horrid letter, and write another to replace it?"

"With the greatest pleasure," was Jack's emphatic reply.

"I have brought you a visitor," he said to Vivian a little later. "Can you guess who it is?"

"I should rather think I can" Vivian said. "Thanks awfully, Jack. You wouldn't believe, Grace darling, what a comfort that brother of mine is to me. By the way, dear, I hope you don't mind but he has to read your letters to me. He read the letter that came today."

Grace stroked his hand, then watched with an odd thrill while his hand sought and found the ring on hers.

"Indeed no," she said; "I am very grateful to Jack!"

HOUSEHOLD ECONOMY

Remember to wash all good pocket handkerchiefs by themselves, quite apart from everything else. Soak them over night in cold water, then wash in hot water, using the best white soap. Rinse in clear cold water, squeeze the water out of them, rub well with white soap, and boil for twenty minutes with a little dissolved borax in the water. Then rinse again, and if any spots remain, wash them. Blue in the usual manner and iron before they are quite dry with a well polished hot iron. Handkerchiefs treated in this way will keep their color and wear well.

Two Good Hints.

Instead of using No. 40 or No. 50 thread when sewing calicoes, etc., on the machine, use No. 60 or No. 70, and it will look better and wear better. The two threads give sufficient strength, and the finer thread embeds itself in the material and becomes almost like a part of it, while the coarse thread, being raised above the surface, is subjected to more wear.

Any part of a wall that is inclined to be damp may be made impervious by applying a varnish of one part of shellac and two of naphtha. The disagreeable odor soon wears off, and the wall may be papered as soon as dry.

THE DULUTH HERALD

AN INDEPENDENT NEWSPAPER.
—ESTABLISHED APRIL 9, 1883—
Published every evening except Sunday by
THE HERALD COMPANY,
Herald Building, Opposite Postoffice Square,
422 and 424 West First St., Duluth, Minn.

Entered as second-class matter at the Duluth postoffice under the act of congress of March 3, 1879.

TELEPHONES—Bell and Zenith.
Business Office, 324. Editorial Rooms, 1126.

OFFICIAL PAPER CITY OF DULUTH.

SUBSCRIPTION RATES:

(By mail payable in advance.)

Daily, three months....$1.00 Daily, six months.....$2.00
Daily, one month..... .35 Daily, one year..... 4.00
Saturday Herald, one year.....$1.00
Weekly Herald, one year.....1.00

Remittances may be made by check, postoffice order, registered letter or express order. Make all remittances payable to The Herald company. Give postoffice address in full, including state and county.

BY CARRIER—CITY OR SUBURBS.

Daily, one week.....$ .10
Daily, one month..... .45
Daily, one year..... 5.00

Subscribers will confer a favor on the circulation department by calling 324, either 'phone, and making known any complaint of service.
It is important when desiring the address of your paper changed to give both the old and new addresses.

The Duluth Herald accepts advertising contracts with the distinct guarantee that it has the largest circulation of any newspaper published in Minnesota outside the Twin Cities. Its value as an advertising medium is apparent.

Truth crushed to earth shall rise again—
The eternal years of God are hers;
But Error, wounded, writhes with pain,
And dies among his worshippers.
William Cullen Bryant.

A CITY OF HOMES.

Local real estate men were quoted in The Herald Saturday night as saying that Duluth is rapidly earning the title of "city of homes." There is no title it can earn that will be so good for it as that. A city of homes is a city of citizens with a direct interest in its public affairs and a direct incentive to keep that interest alive and intelligent. There is an atmosphere of permanence and solidity about a city whose people own their own homes that no other kind of city can imitate.

It would be hard to imagine a better thing for Duluth than to have it earn, as it is now rapidly earning, the title of "city of homes."

THOSE LESTER PARK BILLBOARDS.

Stretched brazenly across the entrance to the most beautiful public park in the city—Lester—there lately appeared a line of billboards, thriftily but ill-advisedly erected there by men who were seeking a license to run an amusement enterprise in the park.

Everybody who has seen this intolerable blemish will rejoice at the news in The Herald Saturday evening that it is to be removed. The Herald several days ago printed a protest from residents of Lakeside which accurately voiced the sentiment of that section, and it is a sentiment in which the entire city undoubtedly joined.

Mayor Cullum is to be congratulated on his firmness in insisting on the removal of these unsightly billboards. The incident should be a warning to others who might rashly spend their money in destroying the natural beauty of the parks in this way, only to find, as these men found, that that is a thing which this community will not tolerate.

FAIR PLAY FOR WHITTIER.

It is a good thing for the good name of the state—and a good thing for Governor Eberhart if he could realize it—that Attorney General Simpson has held that the governor can't remove Supt. Whittier of the Red Wing training school without a trial. The governor's zeal to offer Whittier as a sacrifice to a deliberately manufactured public sentiment without even the formality of a trial may have seemed to him a pleasing diversion between railway trips; but it would have been a blot on the state and a reproach to the administration from which it would not soon have recovered.

The present plan, to have a commissioner appointed by the supreme court hear the evidence and then to have the supreme court pass upon it, seems a likely way to settle the matter. Whittier is entitled to a fair trial, and it would have been an outrage to railroad him out of his place to please his personal enemies and the political enemies of the board of control.

UNNECESSARY AND UNLAWFUL.

It appears that the express business is not only unnecessary, because either the postoffice or the railroads should have done its work, but unlawful, because it is prohibited by Federal statute.

Sixty-five years ago congress passed this law, which is still in effect: "Whoever shall establish any private express for the conveyance of letters or packets, or in any manner cause or provide for the same by regular trips or at stated periods over any post route which is or may be established by law, or from any city, town or place to any other city, town or place, between which the mail is regularly carried, or whoever shall aid or assist therein, shall be fined not more than $500 or imprisoned not more than six months, or both."

For thirty-five years that law, the purpose of which was to prevent private competition with the mail service, was enforced. For the last thirty years it has not been enforced.

What made the difference was a legal juggle of the word "packet." Webster says it means "a small pack or package; a little bundle or parcel." An attorney general of the United States, thirty years ago, held that it means "a packet of letters," not what the dictionary says it means. The law had already covered letters. That attorney general held that after providing for letters the law in the next word provided for letters again.

That ruling from a government official is on a par with the steady refusal of congress to provide a parcels post system. The express companies may not have dictated that holding and the policy of congress; certainly both have pleased the express companies mightily.

Though the law, to a layman, seems clearly to provide that the postoffice shall have a monopoly of parcel-carrying as well as of letter-carrying, for thirty years the monopoly of parcel-carrying has been turned over to private concerns which have piled up enormous profits without much of any investment, and have been permitted to charge whatever they pleased.

Meanwhile, though it costs you 16 cents a pound to send a parcel by mail between points in this country, and you cannot send more than four pounds in a package, you can send up to eleven pounds to almost any place in the world at 12 cents a pound. The postoffice will carry eleven pounds for you to any place in the world outside this country for 12 cents a pound, but it will not carry more than four pounds to any point in this country, and for that it charges you 16 cents a pound.

Nine years ago, it has lately been discovered, the British government made a secret contract with an express company in this country by which an eleven-pound package mailed in Great Britain can be sent to any point in this country for 60 cents. You can't send an eleven-pound package anywhere in this country except by express, and you will pay a great deal more than 60 cents for it. If you wish to mail it from Duluth to Two Harbors you can split it into three packages and pay $1.76.

If the government had secretly conspired to make the express business a private monopoly it would have done exactly what it has done: it would have an attorney general hold that "packet" means a parcel of letters and not what the dictionary says it means; it would keep mail rates on parcels up so that nobody could use the mails for parcels; and it would refuse to provide a parcels post system such as every other civilized country in the world enjoys except the United States.

A REVENUE TARIFF ON WOOL.

The Democratic majority in congress has decided that instead of free wool it will urge a cut in the wool duty from 11 cents a pound to 5 or 6 cents a pound. If the country can't have free wool, clearly 5-cent wool is vastly better than 11-cent wool.

The decision is due, apparently, to two things: the need of consideration of the revenues, and local demands for the continuance of some measure of protection on raw wool. In this light, the incident teaches that a tariff for revenue can be made to yield all the protection any industry needs, and that the Democrats, like the Republicans, are not exempt from the pressure of local considerations. Administered politically, the tariff is so much a local question, and there is therefore so little chance for the general welfare to get considered, that it is quite clear that it ought not to be left subject to political administration.

LIVE AND LET LIVE.

Said Howard Elliott, president of the Northern Pacific railroad, in his address to the National Association of Manufacturers in New York the other day: "The welfare of the people of this country, of the manufacturers, and of all business, including the railroad business, are all interdependent, and in the long run there must be proper relations between them and the government and fair and reasonable treatment of and by each to permit that progress in this country which its marvelous resources and intelligent population justify."

That's fair enough, and its truth is beyond cavil. The sooner everybody concerned realizes it, the better for all concerned. The welfare of the people, of the railroads and of industry are all bound up together, and when one suffers all suffer. When one gains unfairly at the expense of the rest, there is dissatisfaction, unrest, agitation, disorder. What is most desirable in this country is some arrangement whereby there shall be "proper relations between them and the government and fair and reasonable treatment of and by each."

The trouble with railroad managers and with the captains of industry who have welded together and controlled the great combinations in command of the nation's industries has been that they recognized no reciprocal relationship between themselves and the public. It was all one-sided, in their view. The public was a source of profit, a serf to be made the most of, and not a master to be served faithfully, honestly and well. "The people be damned" and "charge what the traffic will bear" have expressed the attitude of too many of them, and it is this attitude that has made all the trouble.

That situation is getting better. It has been borne in upon the consciousness of the average captain of industry that there is a power higher than his, and that it is going to be exerted. Where a few years ago the captain of industry was arrogant and defiant, now he is recognizing that the people have rights that must be respected, and he is saying so.

These great aggregations of capital must be either the masters of the people or their servants. It ought to be clear enough now to anybody that they are going to be masters no longer. How shall they be made servants? There are but two ways. Either the people will regulate them, through their government, or they will own them, through their government.

Whatever the future may bring, the people are not yet ready for ownership. They are ready for regulation, and regulation will have a fair trial.

Mr. Elliott also said in his New York speech: "Publicity of corporation affairs and reasonable regulation of the great business institutions of the country are desirable, but attempting to manage in detail such concerns and continual and foolish interference with the judgment of men trained in that management is unwise and un-American." As to that, there will be difference of opinion between the people and the managers. Regulation will go just as far as it needs to go to insure justice and fair play. It will do the managers no good to quibble about the meaning of the word "reasonable." The people are going to get fair dealing from the corporations, and they are going just as far with their program of regulation as they need to go in order to get that fair dealing.

A CONFIRMED MISUNDERSTANDER.

The gentleman who was excited the other day because The Herald printed the news about a man who committed suicide rather than join a union, and who thought its publication an affront to unionism, seems to be confirmed in the habit of misunderstanding. We said that it was the novelty of the incident that made it news, and that if it wasn't novel it wouldn't be so important as news. To which he replies: "Accordingly, then, a condition of affairs that caused a man to blow out his brains today, and another tomorrow and so on every day, would not be worth mentioning or investigating. It would simply be left to the record of vital statistics."

We said nothing of the sort, of course. When such cases became so frequent that they ceased to be novel, the cases themselves would lose news value, but the condition that occasioned them would gain great news value and would clamor for investigation and exposure. In the case in point it was the incident that made news; in the case suggested it would be a condition that would make news, and it would be news that a newspaper's duty to society would compel it to get and print.

Don't forget—Duluth, June 1 and 2.

Well, you asked for rain didn't you? Well, you're getting it, aren't you? Well?

An enterprising reporter has succeeded in interviewing the Lhama of Tibet, hitherto unapproachable. The Lhama probably said in part: "Umph wow dig uh."

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest. Letters should not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.)

RECIPROCITY WITH CANADA.

To the Editor of The Herald:

Farming the farmers seems to be quite the rage with a few publishers who apparently have more regard for a full pocket book than they have for the best interest of the people as a whole. It is gratifying to consumers of food stuff, as well as to the unselfish producer, to see The Herald stand up and fight square-toed for the Canadian reciprocity agreement as advocated by President Taft. That the agreement is perfect, no one will claim, but that it's a long step in the right direction is the contention of most unbiased students of political economy.

Every careful observer knows that the top wave of the wheat producing belt gradually wears away from civilization, thus forcing wheat growers to move on and on into new fields of conquest when the yield per acre is more than it is on old land, while the labor of caring for the crop is less, thus incurring greater profits. Illinois, Iowa, Minnesota, Dakotas and Montana are witnesses to this truth. For the last few years farmers from these states have been selling their old farms for $100 to $150 an acre and rushing over into Canada for cheap land and open fields where wheat yields are veritable gold reserves. Railroads have been pushed along into the wilderness to properly take care of the immense crops of wheat and other small grains which are sure to be produced. Millions of toilers in shops, mines, factories and hundreds of other occupations have seen in this movement going on for some relief from the "high cost of living," providing the old tariff wall between the United States and Canada could be leveled. This reciprocity agreement opens the way for a general leveling process and woe be to the buildozing politicians and grafting publishers who get in the way of the great wave of public sentiment which is more sweeping over the land demanding a revision of the tariff downward. P. V. Collins' little army of 35,000 farmers and others who are opposed to the reciprocity pact will stand before that many millions who are demanding that all monopoly and trust made prices be cut down to a "live and let live" point, about as long as a school boy would stand up before Frank Gotch in a wrestling contest. "Flirting with the Democrats," as threatened by a Dakota bonanza farmer, will not even attract attention if President Taft's wise measure is defeated, because the great combination of progressive Republicans, progressive Democrats and progressive Independents from other political parties will defeat every candidate for a legislative or executive office who dares to speak up in favor of monopoly prices that the "flirters" will be few and very quiet.

Freedom of exchange is the great heart power of trade which forces action through every artery of human activity and monopoly interferance with fair prices are like blood clots in the circulation of the human system; they must be removed or death will follow. A uniform lowering of prices all along the line to correspond with the actual cost of production of all commodities, will harm no one except the "hogs" of trade who always insist on more than their share of the profits. The grunts, squeels, dye tusk thrusts even of these fellows will not deter active opposition to remove them from the trough long enough for the little fellows to get a square meal. I believe it is time to take action, when we see a "hog" keep his snoot in the trough until he is ten times fatter than his fellows.

The proper action, both lawful and certain to produce results, is by a graduated tax system which will collect a higher percent as the property owners assessment increases beyond the $10,000 mark. No man ever yet made a million dollars without taking undue advantage of his fellows and when the public sees what that advantage is, it is high time to tax the advantage. Increased wealth is the leverage leading to greater wealth. For the leverage in proportion to its lifting power is my remedy for monopoly.

CHARLES B. MABEN.
Wealthwood, Minn., May 20.

"MORE INTOLERANCE."

To the Editor of The Herald:

Allow me to intrude once more upon your courtesy to say a few words to those critics, who, while making free use of the writer's name lack the courage to back up their assertions with their own identity.

Thoughts expressed, engender in their turn other thoughts, and ideas: understandings and misunderstandings, all of which is good, however widely may the views differ. Criticism, though sometimes brutal, is good for each and every one, even the infallible daily press.

It is agreed with The Herald that the Philadelphia incident was absurd and unusual, but let us quote: "If unions habitually conducted themselves so that it was a common thing for them to drive non-union men to suicide, the story wouldn't be nearly so vital a bit of news." Accordingly, then, a condition of affairs that caused a man to blow out his brains today, and another man tomorrow and so on every day would not be worth mentioning or investigating, it would simply be left to the record of vital statistics.

To "R. E. M.," who is ashamed of all the rest of his name except his initials, also to The Herald, let me say that it was not for suppression nor against the publication of such news items, but rather against the manner of featuring an incident that causes a great many people, who misunderstand and are misinformed, to exclaim: "Those awful unions, driving people to death!" Another wrong impression clinched in minds of the public. All that is asked of The Herald is to give, once in a while, to the good points of the labor movement, a "feature."

The woeful wail of the choleric "skeptic" from Chisholm, who had "sather be known as an exponent of skepticism than an individual, is a choice sample of the ideas derived of unionism from "News items." The "skeptic" errs in assuming that a request was made for the elimination of articles unfavorable to organized labor. Read the "wallop" again.

The real facts of the McNamara case were not touched upon nor disposed of by the writer. The men of organized labor who have the inside knowledge of the case have just as good a title to their convictions as have the skeptical.

No one comprehends the errors, follies and defects of unionism better than the writer. But in recognizing, before the public, what is good, is no reason that at the same time he should enumerate the detriments. That is for the "skeptical."

The so-called unfair principle of the closed shop is much to be preferred to the madhouse conditions of the "open shop." Sooner or later non-union men seek admission to the union and employers who have had experience recognize that efficiency is easier had when union men find an "untrammeled disposal" of their labor in closed shops. The production of the daily papers stands as a tribute to the efficiency of the closed shop.

In time of strikes, and a strike is war, radicals and hotheads have turned to violence, oftentimes instigated by hired spies of those who want to bust the unions. When men see those hungry, human wolves grabbing work under the very same conditions that they are fighting to eliminate, with hope and bread and money gone they turn skeptics too, and strike, in a blind rage, with the energy of despair.

The labor organizations and employers too are rapidly learning that compulsory conciliation on both sides is preferable to war. The writer recognizes the fact that unionism is not the last word in the movement to get for toilers their rights and dues, it is only a present economic factor in the social evolution.

The "Literary effort of Mr. Towne," was not written to pass the censorship of a "skeptic." Neither was it intended to please even those who hold the same views. Those who agree have nothing to say, and those who don't agree, can sputter in the vein of the "skeptic" of Chisholm.

WILLIAM E. TOWNE,
Duluth, May 22.

THANKS TO ROOSEVELT.

Kansas City Star: In the McKinley administration the Standard Oil case would not have been brought. If it had been brought nobody knows what the court's decision would have been.

No body of men, not even a supreme court, can escape the influence of public opinion, and public opinion a decade ago was very different from what it is today.

To the tremendous evolution that has taken place many causes have contributed. Chief among them has been the powerfully aggressive personality of Theodore Roosevelt.

Roosevelt came to the presidency in 1901 at the very height of the era when great wealth was widely regarded as above law and captains of industry were objects of worship.

"Give 'em what they want and they will make us prosperous," was the dominating sentiment.

Joseph H. Choate's plea to the supreme court against the income tax, for example, was a stump speech. The great lawyer urged the court to stop the march of communism and protect private property. In editing a standard edition of "The Federalist" in 1898 Paul Leicester Ford denounced the inheritance tax of New York as a gross injustice perpetrated on the well-to-do by the mob.

With thinking men holding such views, attempts at trust regulation were regarded as "anarchistic." The corporations were given a free hand. Unscrupulous men did not fail to use their chance. It was a time of franchise-grabbing, of manipulation for the benefit of "insiders," of all the activities that afterward came to be known ironically as "high finance."

Into this atmosphere of easy complacency, which nobody thought of disturbing, burst Roosevelt, preaching the doctrine of the square deal. And not only preaching.

Without warning his attorney general went into court for an injunction against the beef trust, restraining the packers from raising or lowering prices in collusion. Before the country had recovered from its surprise the government was seeking—again without serving notice—to dissolve the latest form of trust, the Northern Securities company.

It is difficult at this day to recall the anger and amazement which these proceedings awakened among the large interests of the country, and the bitterness of the denunciation of the president who had dared to interfere with business.

After the easy-going tolerance of McKinley, the strenuous activity of Roosevelt shocked the country wide awake.

The president was quick to take advantage of the opportunity. He toured the country talking of the subject on which his court proceedings had focussed public attention. For those days it was revolutionary doctrine which he preached:

"The state not only has the right to control the trusts, but it is in duty bound to control them wherever the need of such control is shown. . . . It is idle to say there is no need for such supervision. There is; and a sufficient warrant for it is to be found in any one of the admitted evils appertaining to them. . . . The immediate necessity in dealing with the trusts is to place them under the real and not the nominal control of some sovereign to which they shall owe allegiance. . . . We do not wish to destroy corporations but we do wish to make them subserve the public good."

It must be remembered that when Roosevelt began his campaign there was hardly an industrial manager or a financier in the land who did not utterly repudiate the idea that the public had any concern in the management of any sort of business. Railroads, and every other form of industry, were regarded as private affairs. The interstate commerce law was a dead letter; the interstate commerce commission a lifeless body. A manufacturer might market all the impure food he could induce the public to buy. Any big corporation felt at liberty to do exactly as it pleased. It could plunder without interference, whether its victims were the minority stockholders or the public at large.

The general attitude of business was reflected in the insolent retort made by the presidents of the coal roads when Roosevelt interfered to end the great anthracite coal strike. "None of your business" was in effect their reply to the president of the United States. Only an outburst of public indignation induced them to submit the dispute to arbitration.

The country has traveled a long road since then. It was in the mood for an awakening. What was needed was a man who could get the attention of the nation and point out the tremendous possibilities for evil in the tendencies then controlling American life.

Roosevelt was the man.

Largely as the result of the sentiment his vigorous preaching created, the interstate commerce commission was given authority to end the worst of the transportation abuses; the pure food law was enacted; a beginning was made in the control of trusts by the establishing of a bureau of corporations; and most important of all a new idea became dominant—the idea of the square deal.

Today, thanks to Roosevelt, hardly a man of importance denies that nation-wide business is a matter of public concern. Everywhere the need and the right of supervision is being more and more recognized.

Special privilege is still reeling under the blows he gave. It is due to Roosevelt that President Taft has been able to call a special session of congress to cut off tariff privileges; that corporations are more fully recognizing their obligations to minority stockholders and to the general public; that franchise grabbing is a thing of the past.

The fine legislative program that Governor Wilson has recently put through in New Jersey, and the speeches which he is making through the country today, are built on the work of this remarkable man.

In a thousand ways, indirect as well as direct, the influence of Roosevelt has permeated this country. His splendid courage and devotion to the square deal have constituted a lever that has raised the whole body of public sentiment to a higher level.

At this time, out of the heat of any campaign, with Roosevelt himself an aspirant for no office, such an estimate of his services to the nation may fittingly be made.

Reflections of a Bachelor.

New York Press: Conscience is never very much bother when other people don't know about it, too.

Pushing a lawn mower does much more for a man's liver than writing poetry.

The poor we have always with us, and when they're relations we are very irritable about it.

What a woman can't understand is what big shoes it takes for such little feet as she has.

A man has to have a mighty generous nature to admit the reason his house is run well is his wife.

Pointed Paragraphs.

Chicago News: The fool's money has other affinities.

He that gives freely expects but little in return.

Often a handsome man can make a living despite it.

To the fat lady life should be anything but a dreary waist.

It takes more than a daily bath to keep a man's record clean.

The best of men are sometimes worsted—and that's no idle yarn.

Why Stamps Are Perforated.

Answers: From one point of view it is the little things that have made the greatest inventions. There are people living who can remember when stamps were carefully cut out with scissors. It was not until a hunting man was in a hurry one day that the perforation idea was hit upon. No knife or scissors being handy, he used his spurs to cut out the stamp by running the rowel along. Then he tore off the stamp—and saved future generations a considerable amount of trouble!

TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1891.

***The bottom has dropped clean out of the lake freight situation and there is no prospect of an improvement. This morning considerable wheat tonnage was offered by Duluth vessel agents at 1¼ cents and there were no takers. This is equivalent to 47 cents on ore. Only once has the rate dropped so low as this, and that was in 1883.

***B. J. Mallory of Coburg, Ont., has arrived at West Duluth and will spend the summer with his brother there.

***George Holeman of West Duluth left yesterday for his homestead up the St. Louis river, where he will do his spring planting.

***Considerable commotion was caused on the street today by the appearance of a man who wore $20 gold pieces for vest buttons.

***James Seville, formerly alderman from the Second ward, has made application for the postmastership at Pike Lake.

***Percy Anneke of Duluth has been chosen one of the three delegates from the Minnesota district to attend the circuit convention of the Turnverein at St. Paul on June 20. The other two delegates are William Pfaender of New Ulm and Titus Marreck of Minneapolis.

***At a special meeting of the Duluth Typographical union last night it was decided to take part in the exercises of Memorial day. W. D. Dean was chosen marshal and Messrs. McDowell, Waynack and Webb were made a committee to take charge of the arrangements.

***The Duluth-Superior football game will be played at the West end tomorrow evening. The Duluth team will be chosen from Dr. Walker, Crombie, C. E. Brown, Hickey, H. Walker, Hogan, A. S. Wilson, Nicholson, Scott, W. Brown, McBean, Thomson and Swindell.

***Station Agent McLennan of the St. Paul & Duluth road at Cloquet was accidentally shot through the left hand yesterday while placing a charged cylinder in a 38-caliber revolver. It was found necessary to amputate the third finger.

***The standing committee of the Albany Episcopal diocese has approved the election of Rev. Phillips Brooks as bishop of Massachusetts.

***Considerable damage was caused at West Duluth by yesterday's storm. George Coleman's residence on Broadway was badly wrecked by lightning. Mrs. Coleman and little boy were the only inmates and escaped uninjured. The new Borland residence on Second avenue was slightly damaged and the men at work there badly shocked. The heavy rains washed out block paving in Grand avenue in several places and the new paving on North Central avenue will have to be relaid. The telephone system was burned out by the lightning.

DULUTH, JUNE 1 AND 2.

Try It and See.

Bemidji Pioneer: Two days at Duluth be worth a dozen at home.

Come and Boost.

Laporte News: The next meeting of the Northern Minnesota Development association will be held in Duluth, June 1 and 2. Each of the prevous meetings of this association have resulted in great good to the northern part of the state, and it is confidently believed that the one in Duluth next month will result in clinching some things which have not yet been achieved, and in reaching out for still greater fields to conquer. All who can do so should go and boost for Northern Minnesota.

A Live Place for Live Wires.

Deer River News: Duluth, June 1 and 2 will be the live center for all live wires of state progress.

Everybody is Boosting.

Gheen Record: The fourth convention of the Northern Minnesota Development association will be held at Duluth, June 1 and 2. The good work this association has already done for Northern Minnesota should prompt every citizen to boost for this convention, and in so doing to boost for Minnesota.

Only Politics is Barred.

Clearwater Crystal: Nearly every subject from reclamation to crops will be discussed at the Duluth convention of the Northern Minnesota Development association. Only politics is barred, according to W. R. Mackenzie, secretary.

While the northern boosters are listening to recitals of their wealth and resources, the land men from all parts of the Gopher state will also be there in convention.

Boosting for Minnesota.

Brainerd Despatch: Duluth will boost for Minnesota on June 1 and every city, village and hamlet in the northern part of the state should have its representatives there to help the good work along.

Every Town Should Be There.

Ada Index: Ada should be represented at the Northern Minnesota Development association convention which will hold their fourth convention in Duluth, June 1 and 2, at which plans will be perfected for carrying on a campaign of education, to place before prospective homeseekers the advantage of our state, and also to further advertise our northern resources.

That's the Idea.

Royalton Banner: This meeting will be widely represented from every part of the state and also from Wisconsin, Michigan and other states. The boosters are back of Secretary W. R. Mackenzie in an effort to make this the greatest thing Minnesota has ever known in the way of an attraction for homeseekers and outlining plans that will bring more settlers into Minnesota.

Make It a Hummer.

Bemidji Sentinel: Those fellows over at the "Zenith City" are putting forth their very best efforts to make the meeting a "hummer;" and in this very meritorious undertaking they are being given good assistance by W. R. Mackenzie of this city, who is the secretary of the association.

The Duluth hustlers are going to have lots of light and decorations, entertainment and hospitality, and the "glad hand" and welcoming smile will be in evidence on all sides. In fact, visitors to Duluth June 1 and 2 will be given the times of their lives, and everything will be done to assist in the advancement of the matters in which the members of the association are vitally interested.

That there will be a large attendance is also certain; and many will go from Bemidji besides the delegates.

Voice From the Plains.

Do I look like a city-bred creature—
A woman skimmed tight at the hips,
With an inch of white flour on each feature
And a daub of red paint on my lips?
Is my head weighed down with a cargo
Of horse hair, or oakum, or tow,
That you ask me if I'm from Chicago,
Ore one of the set that you know?

Do I look like a girl that would wobble
When nature has given me feet,
Or tie myself up in a hobble
To make me a sight on the street?
Is my hat a ridiculous jummux
Of heathenish color and shape
That would sicken the sight and the stomach
Of even the foolishest ape?

Do I talk with an edge like a parrot,
Or giggle, or simper, or flirt?
Is my hair bleached the shade of a carrot?
Do I wear a man's trousers or shirt?
Am I rigged up to strut like a dummy
In duds unbecoming and loud,
Or swaddled to look like a mummy—
My forming showing clear in the crowd?

No, I'm not a city-bred woman;
I come from a place in the West
Where women intend to stay human,
Because they consider it best.
We have use for our brains and our bodies,
And something to live for but style—
We are genuine women—not shoddies—
And life to our kind is worth while.

We are here for the good of creation;
We're women, not clothes signs or birds;
We're working for human salvation
And value good deeds and good words.
Oh, yes, we have heard that you pity
Such badly gowned creatures as I,
But, thank God, I am no child of the city—
I'm dressed for the plains and the sky!

—Laurana Sheldon in New York Times.

The White Woman's Burden.

Galveston News: Of course men have a lot of small worries, but they don't have to carry a chamois skin and a little satchel around with them wherever they go.

A MOMENT WITH THE WITS.

"Houston Post: "Is your wife a good cook?"

"Is she a good cook? Say, I believe the woman could make something good to eat out of prunes."

Judge: Customer—See here! Didn't you guarantee that this watch would keep good time for a whole year?

Storekeeper—Certainly.

Customer—Well, you're a fraud! The blamed thing ran down after two days.

Toledo Blade: "This contributor stole his poem from Shakespeare."

"We'll fix that fellow. Just print it and then send Shakespeare a marked copy."

Louisville Courier-Journal: "Who gets the custody of the automobile?"

"I told my wife she might have it. I can't keep up a machine and pay alimony, too."

Cleveland Plain Dealer: Coyote Ike—I ee th' Polkdot Saloon folks has let th' long-haired pounder go an' got one of these yer mechan'cal pianny players.

Alfalfa Pete—Yep, an' it's a dum good idea.

Coyote Ike—I thought y' didn't like no kind o' music?

Alfalfa Pete—No more I don't. An' when I don't like th' machan'cal player I kin shoot it full o' holes, can't I?"

Philadelphia Record: Nell—Men are such helpless things.

Belle—Yes, they can't even fall in love without a good bit of assistance.

Philadelphia Bulletin: "Have you any unanimity in your family, Mrs. Jobbs?"

"Not yet, ma'am; but we'll ketch it. We get everything that's a-goin'."

Pittsburg Post: "John, the janitor's son whipped Jimmy today."

"Well, that's no great calamity. Suppose Jimmy had whipped the janitor's son!"

COMEDY BILL AT THE ORPHEUM

Six of Seven Acts Are Built for Laughing Purposes Only.

If comedy is what vaudeville audiences want, this week's Orpheum bill ought to be popular.

Nobody would get a laugh out of the first act on the bill—a contortionist number, but the audience begins to titter in the second act, giggles through the third and fourth, and guffaws for the next three.

It is the last bill but one of the present season, and the booking offices evidently intended it to be a bargain week in merriment. Six straight comedy acts follow each other in rapid succession, and the last three of them kept the audience last evening in almost one continuous roar.

The best features of the bill are the English satire, "Motoring," Ben Welch and his Hebrew monologue, and the Ahearn cycling troupe.

"Motoring," is a delightful comedy or satire on the popular notion of how an automobile is supposed to act, but doesn't. An Englishman and his idiotic son, accompanied by a chauffeur push a stage property automobile on to the center of the stage, where it breaks down, and their conversation and experiences with passersby, among whom is an inquisitive country boy who is one of the chief fun makers, furnish the comedy. It is a pretty good class of comedy, and the actors are all capable comedians, of a decidedly English type.

Ben Welch's quaint little figure gets a big laugh and a big "hand" as soon as it appears on the stage. Mr. Welch is one of the best known Hebrew impersonators in America, and one of the best liked by vaudeville audiences. There is nothing of the burlesque type about his impersonation, and nothing that could be objected to. He gives a bright, new monologue that averages about ten laughs a minute, for five minutes; sings two Hebrew songs, and then makes a lightning change to an Italian role. His Italian role, after the first song, is in a more serious vein. Mr. Welch was easily the hit of the new bill.

By long odds the best and most amusing comedy cycling act yet presented at the Duluth Orpheum, is the turn of the Charles Ahearn Cycling troupe. It is pure comedy, and the act is full of little surprises and new comedy stunts that kept the audience in an uproar last evening. It is different from anything in the cycling line yet shown in the Duluth theater, and the climax of a motor cycle paced race against time is a real hit.

The other four acts on the bill are fully up to the Orpheum standard. John Neff and Carrie Starr have a good little comedy turn, introducing some singing, some dancing, and some novelties that took well yesterday. Walter Lawrence and Lillian Fitzgerald present a charming and dainty little sketch called "Just Landed." The person who "just landed" is Miss Lillian Fitzgerald, who plays the role of a young Irish girl in a delightful way. Mr. Lawrence's old Irish songs are another good feature of the act.

Some new ideas in ventriloquism are introduced by McCormack and Wallace in their sketch called "At the Seashore." Both are clever ventriloquists and they have a new setting for this kind of act, which is most attractive.

The contortionist act which opens the show, is as good as anything offered in this line of amusement. The act is presented by a man and a woman, Russell and De Virne, the man impersonating a dragon, and the woman a frog.

The moving pictures and the overture complete a first-class bill.

PAUL CONCHAS AT THE EMPRESS

Strong Man's Act Heads Well-Balanced Bill at Popular Theater.

Headed by Paul Conchas, in a remarkable athletic act, the new bill which began at the Empress theater yesterday, pleasing three large audiences, by the way, is one of the best and most evenly balanced vaudeville programs presented recently in this theater.

Conchas has a wonderful act that made a big hit with the first nighters. He seems to have the power to balance anything that he can lift on his head or neck and heavy weights which the ordinary man could lift off the floor only with great difficulty. Conchas handles with the greatest ease. He uses cannon balls and other weapons of war in his act. He claims to be the strongest man living. He satisfied yesterday's audiences that he was at least in the first rank. Besides his great strength he is quick, active and his tricks are accomplished in an easy and pleasing manner. This act was brought from Germany, and is, new, spectacular, interesting and entertaining.

The Flying Russels have an Indian club and hoop act which seems to please. All manner of tricks are done with the clubs and hoops by the Russels. They have eliminated the tricks that have become known through hard usage and age and have substituted new and original ideas in their stead. The act is well dressed and is enjoyable.

Many might guess that Mabel Wayne is "vaudeville's prettiest piano maid" without the notation on the program. Miss Wayne sings and plays on the piano. She has a neat, cheerful little parlor act of the kind that is thoroughly enjoyable all the way through. She wouldn't stay out in front half as long as the people wanted her yesterday. She has a lot of pretty songs and she knows how to sing them. In addition she has a telephone stunt in which she sings over the wire that was a distinct hit in itself.

Florence Modena and company have a humorous little playlet called "The Widow and His Wife." In it there are five characters. The scene is in a hotel and the complications affords good amusement.

Ben Smith has a blackface act with lots of talk in it. It is mostly funny and if the applause is to be taken as any criticism of the act, it was well liked. Ben has a lot of new ones, some old ones that could be older and they all are of the kind to make people laugh, new or old.

The performance is concluded with the usual moving pictures. There will be three performances daily, one each afternoon and two each evening during the remainder of the week.

OFFICIAL MAP OF THE WEATHER

High ..... 35 to 50
Gale ..... 50 to 65
Hurricane ..... 65 and above
H. W. RICHARDSON, Local Forecaster.

FAIR

Saturday was beautiful. Sunday was chilly. Today is the extreme limit of the opposite of beautiful, whatever that may be. A mist developed last night; it increased to a rain during the night, and was back at the mist stage again this morning, with a 42 deg. temperature that was anything but comfortable. The weather man is kind enough to promise fair weather for tonight and tomorrow, with a continuation of the low temperatures.

Fair, chilly weather prevailed a year ago today.

The sun rose this morning at 4:24 and it will set at 7:44 this evening, giving fifteen hours and twenty minutes of sunlight.

Mr. Richardson makes the following comment on weather conditions:

"Areas of low barometer centered over Eastern Kansas and Arizona caused light to heavy showers over the Western Lake region, Upper Mississippi Lower Missouri and Ohio valleys and Eastern Gulf states during the last twenty-four hours. Very warm weather prevails in the Southeastern Lake region. Upper St. Lawrence valley and North Atlantic states. Temperatures are cool over the Western Lake region, the West and Northwest. At the Head of the Lakes the present northeaster will probably diminish by tonight and there is a good chance of clearing weather during Tuesday."

General Forecasts.

Chicago, May 22.—Forecasts for twenty-four hours ending at 7 p. m., Tuesday:

Iowa—Threatening and probably occasional showers tonight and Tuesday.

Upper Michigan—Showers tonight or Tuesday.

Wisconsin — Threatening weather with local showers tonight and in east portion Tuesday.

Minnesota—Fair in north, showers in south portions tonight; Tuesday fair; light frost tonight and in exposed places in northern portion.

North Dakota—Fair tonight and Tuesday; cooler in east portion tonight; frost tonight.

South Dakota—Fair tonight and Tuesday; cooler in east and central portion tonight; light frost in exposed places tonight.

Montana—Fair tonight and Tuesday; frost tonight.

Upper Lakes—Moderate variable winds; unsettled tonight and Tuesday; with showers.

"MADAME SHERRY" COMING TO LYCEUM.

"Madame Sherry," the biggest musical comedy success of the last two seasons, will open its engagement at the Lyceum theater Friday.

The advance sale for the attraction is probably the largest on record, and everyone is looking forward to a performance of unusual excellence. That they will not be disappointed is a foregone conclusion, for without a dissenting voice the critics of every city where "Madame Sherry" has appeared since its performance in Chicago last spring, have declared it to be a thing of beauty and a refreshing daintiness, well constructed, perfectly staged and delightfully acted.

The cast which will appear in it contains the names of Oscar Figman, Tessa Kosta, Cheridah Simpson, Mary Quive, Lottie Kendall, William Cameron, Harry Benham, Harold Rekill, Edward Elkas and a host of others, and the scenery and costumes are in keeping with the importance of the production. The producers of "Madame Sherry" are giving the playgoers of the cities outside of New York a square deal, not only by sending them this big success so soon, but by sending it out in the very best shape money and experience can make it.

SEARCHING FOR MARTIN SWANSON

Said to Have Disappeared in Duluth Three Years Ago.

The police have been asked to aid in a search which has been instituted by relatives for Martin Swanson, who is said to have been last heard of in Duluth about three years ago. He left his home at Hillyard, Wash., for his former home in Sweden, and as far as can be learned Duluth is the last place he reached. He is said to have left his bank book, baggage and some papers pertaining to his mother's property in Sweden in a local hotel, after which he disappeared.

It is claimed that he had a considerable sum of money on his person at the time. His sister, Anna Swanson, it is stated, is on her way to Duluth to conduct a personal investigation. The police say that they know of no such case and that the records do not show that it had ever been reported to them.

GEORGE LONSTORF WEDS IN CHICAGO

Bride Was Clerk in a Milwaukee Department Store.

A Chicago dispatch says that George Lonstorf of Milwaukee, who is well known in Duluth, being one of the fee owners of the famous Section 30 mine, married, in St. Mel's Roman's Catholic church, North Forty-second avenue and Washington boulevard, on Saturday, Margaret E. McGarry, a clerk in a Milwaukee department store. Members of both families were present.

The bride came to Chicago several weeks ago with a sister, ostensibly on a vacation. Mr. and Mrs. Lonstorf left Chicago Saturday evening for Europe.

In 1908 Lonstorf paid $100,000 to settle a suit in which his mother and himself were defendants for the alienation of the affection of his brother Otto from his wife, who was the daughter of a school janitor.

The guardians of Mrs. Otto Lonstorf sued for $750,000, alleging that the mother, aided by George J. Lonstorf, conspired to separate the young couple by sending the husband to Europe for a year.

While Otto was enjoying the pleasures of the Old world his wife was in an insane asylum in Wauwatosa, Wis., made insane, it was alleged, by grief and privation. It was charged in the trial which preceded the payment of $100,000 that the Lonstorfs influenced merchants and others to discharge the young woman when she was earning a pittance while her husband was in Europe. Otto never returned to Milwaukee.

Powerful Weapon of Peace.

The greatest weapon of modern times is the cement gun, recently invented by a builder. It is attached to a small hose carrying water and a larger one carrying the pulverized cement and stone. These two meet in the "gun" in proper quantities and are forced in a mixed stream upon the skeleton of the building, making solid stone when dry. It is said to supercede the famous Edison moulded houses, and can be used to transform an ordinary frame house to one of stone exterior. Golden grain belt beers have long been used to transform weak human structure to one of strength. Get supplied by your nearest dealer, or minneapolis brewing company duluth branch.

MONSTER DAM TO BE BUILT

Great Western Power Company Announces Its Plans.

San Francisco, May 22.—Announcement is made here that the Great Western Power company will build, at Big Meadows, in Northern California, a reservoir that will surpass in capacity the Roosevelt dam and reservoir in Arizona, and the Assouan dam in Egypt. Sufficient water will be stored for the irrigation of 300,000 acres.

Among the Eastern stockholders are Edwin Hawley, president of the company; A. W. Burchard of the General Electric company, and A. B. Bedford, treasurer and director of the Standard Oil company.

TAFT PRAISES Y. M. C. A.

Talks to More Than 1,000 Washington Negroes.

Washington, May 22.—Speaking to more than 1,000 negroes here Sunday, President Taft congratulated the race in Washington upon the consummation of the movement for the erection of a $100,000 home for a colored Young Men's Christian association. The president paid a high tribute to the work of the Y. M. C. A. and praised the generosity and broad philanthropy of Julius Rosenwald of Chicago, who, although barred from any part in the management of the association by the rule limiting the directorate to certain religious denominations, recently agreed to give $25,000 to the Washington negro branch building fund. Mr. Taft mentioned that his own denomination is not on the list of those from whom directors are drawn.

Says It Is Not a Trust.

Wichita, Kan., May 22. — Howard F. Case of this city, president of the Southwestern Lumber Dealers' association, said that agents of the government have investigated the Southwestern association and pronounced it guiltless of any violation of the anti-trust laws.

To Get Yale Degree.

New Haven, Conn., May 22. — Among the successful candidates for the bachelor of science degree at Sheffield scientific school, Yale university, is Adam Gentles Thomson of Duluth, who will receive the degree June 21, at commencement.

PLAY DUEL MAY PROVE FATAL AFFAIR.

Thompson, N. D., May 22.—A play duel Saturday afternoon probably will cost Lloyd Smith of this place, aged 10, his life. The lad was hit by a bullet from a .22-caliber rifle near the bridge of his nose, the rifle being held in the hands of his companion, August Buth, aged 15.

UNCLE SAM TAKES HAND.

After Negro Alleged to Have Sold Indians Liquor.

Devils Lake, N. D., May 22.—(Special to The Herald.)—Marked coins used by Superintendent C. M. Zeibach of the Fort Totten Indian agency to catch the illegal seller of liquor to Indians, may get William Jones, colored, into trouble. He is in the hands of United States Marshal Shea with a charge of selling liquor to Indians lodged against him. Jones had previously been arrested on Zeibach's complaint and was turned over to the county authorities, but at a hearing before a local justice was dismissed on a showing that the marked coins had been used on other occasions, and that they were not in fact conclusive proof that Jones had secured the money through the sale of liquor. Zeibach claims to have given the marked coin to Indians with requests that they purchase liquor for him, he having detected the fact that the redskins had in some manner obtained too much firewater.

New Dickinson Hospital.

Dickinson, N. D., May 22.—(Special to The Herald.)—Eight thousand dollars will be the cost of the Catholic hospital to be erected here, the control of which will be placed in the hands of the Sisters of Ohio. Decision to that effect was made at a conference in this city between a number of the business men and Bishop Wehrle of the Bismarck diocese.

S.S.S. CURES ALL BLOOD INFECTIONS

Contagious Blood Poison, as the name indicates, is an infectious blood disease, of such intense nature that once the virus gets into the circulation, no portion of the body is free from its destructive force unless it is promptly checked.

It usually begins with a tiny sore or pimple as the only outward evidence of its presence. But in a short while its many symptoms begin to make their unwelcome appearance. The mouth and throat ulcerate, itching rashes appear on the body, the hair comes out easily, brown splotches appear on the limbs, etc. So highly contagious is the disease that it is sometimes communicated from one person to another by the use of the same toilet articles or handling the clothes of an infected person. It is a dangerous poison and should not be trifled with; the blood should be cleansed as quickly as possible of the destructive virus.

Some eight years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot. I was advised to use S. S. S. We got some, and I improved from the start, and a complete and perfect cure was the result. S. S. S. is the only blood remedy which reaches desperate cases.
MRS. T. W. LEE.
Box 300, Savannah, Ga.

I was afflicted with a terrible blood disease, which was in spots at first, but afterwards spread all over my body. These broke out into sores, and it is easy to imagine the suffering I endured. When I had finished my first bottle of S. S. S. I was greatly improved, and was delighted with the result. I was soon entirely well, and my skin was as clear as a piece of glass.
H. L. MEYERS.
58 Clinton St., Newark, N. J.

S. S. S. has been curing Contagious Blood Poison for more than forty years. It goes right down into the circulation, and removes every particle of the poison. While curing the disease S. S. S. adds richness and nourishing powers to the blood, and a person who is cured by the use of S. S. S. will find that every portion of the system has been benefited by the treatment. S. S. S. cures so perfectly that there is never any return of the old symptoms; it drives the poison completely out by purifying the blood. S. S. S. is known everywhere as the greatest of all blood purifiers, and for this reason it is a sure cure for Contagious Blood Poison. CREDIT TO AMERICANS

Given By English Writer for the Sanitary Conditions in Cuba.

Island Is Prosperous and Offers Splendid Field for Capital.

New York, May 22.—"A British View of Cuba" is given by Sydney Brooks of London, the well known English publicist, who is now in New York after spending several months in Cuba in behalf of the Lodon Times. Mr. Brooks summarizes some of his impressions of the island and its problem as follows:

"What most surprised me was to find Cuba one of the cleanest and healthiest countries I have ever come across. Its death rate is the lowest but one in the world and it was almost bewildering to be forced to realize that Havana, with the terror of whose name all Europe and America have rung for 300 years, is now no longer a fever den, but one of the choicest and best patronized health resorts and tourist resorts in the West Indies. American energy and example and Cuban doolilty and good sense are to be thanked for that. If Americans had never done anything else for Cuba they would deserve her lasting gratitude for having put the fear of dirt into the Cuban people. It is not the Platt amendment that keeps the Cubans scouring and flushing their streets and installing water supplies and sewage systems. It is simply that they have learned that such things pay for themselves a thousand times over. Yellow fever has become not merely absolete, but virtually impossible and I do not belive that any questions of sanitation will ever again oblige the United States to take an active interest in Cuban affairs.

Island Prosperous.

"The island is prosperous and going rapidly ahead. Mr. Bryce, the British ambassador at Washington, declared a few years ago that no better field for the expenditure of capital could be wished for and the statement is even truer today than when it was first made. Cuba is one of the most accessible and potentially one of the richest spots on earth, yet at the same time one of the least developed and the most sparsely populated. Only about one twentieth of its area is under any kind of cultivation and its people number not more than two millions. The eastern end of the island, especially, and it is there that the agricultural and industrial future of Cuba lies, is a storehouse of natural wealth clamoring for men, highways and capital to unlock it. It is possible for any well organized concern to go into what is now an uncleared wilderness, and in five or six years to build up a great and prosperous industry in sugar, timber and fruit. Sir William Van Horne by driving his railroad through the heart of the island has opened up districts that were previously as remote from one another and as inaccessible as though they had been separated by continents, instead of kilometres and it is only a question of time before Neuritas and Andilla on the north coast and Santiago on the south begin to dispute the ascendency of Havana.

"The material future of Cuba, in short, I take to be a thing assured. There will be moments of comparative depression, of course—there is one now, due to a short sugar crop, a long drouth and low prices—but on the whole nothing, not even politics, can stop the rapid upward movement of Cuban prosperity. Much on the other hand might be done to facilitate it. Men, railroads and highways are the crying needs; a supply of cheap credit is hardly less essential—the normal rate of interest in Cubar today is 10 per cent; means should be found to break up the unimproved estates that at present do no good to anyone; titles are by no means as clear as they might be; the lottery, in my judgment, is a source of unmitigated evil; and the system of indirect taxation fails, as usual, harder on those who are least able to bear it. The social and political reformer, in fact, will find plenty to keep him busy in Cuba for some years to come; but the material foundations of the island's welfare are not merely sound but indestructible, and whether reforms come quickly or slowly will prove in the long run to be of little consequence.

Politically Tranquil.

"As for politics, the first thing to be said of the Cuba of today is that it is absolutely tranquil. The few men who have it in their power to make trouble are too busy with their mills and plantations to think of politics; and those who would like to make trouble have not the power. The country is admirably policed; the fear of another American intervention like that of 1906 operates as an abiding restraint, and pretty nearly everybody I cross-examined simply laughed at the suggestion of a revolution. Cuba has found in President Gomez a ruler she knows, likes and respects, a shrewd engaging man of the people who thoroughly understands his countrymen, who has surrounded himself with strong and able advisers, and who will stamp with both feet on the slightest attempt at insurrection. One hears, of course, a great deal of talk about corruption and graft; Havana, indeed, talks of little else. But when one remembers that Cuba's past has been, how absolute is her political inexperience, and how ingrained is the disposition of the Cuban people to suspect their rulers and to take it for granted that every franchise and concession represented bribery in some form and that every politician is feathering his own nest, I cannot say that either the gossip of the streets and cafes or the amount of foundation that it possessed in fact, at all surprised me.

"It is absurd to expect from Cuba, in her present stage of development, the same political methods and principles that one looks for, without, however, always finding, in English-speaking countries. Such a test is much too severe. Judged in the light of her past and by comparison with other Spanish-American countries, judged, that is to say, by the only standards that are really applicable to her case, Cuba is making a valorous effort to keep a decent, progressive, self-governing republic in being. The task is an extremely difficult one but I am very far from despairing of its success. Indeed the most gratifying result of a tour of observation through the island today is that it leaves one seeing no definite reason why the United States should ever again be troubled with Cuba's affairs."

PROTEST MADE BY THE HINDUS

Appeal From Canadian Order Restricting Their Entry Into Dominion.

London, May 22.—The peculiar disadvantage at which Hindus who wish to emigrate to Canada find themselves is set forth in a petition from the Hindu Friends society of Victoria, B. C., and addressed to the imperial conference which will open in this city next week.

The petitioners point out that the Dominion emigration laws make it more difficult for a British citizen to emigrate from India to Canada than it is for a Japanese or Chinese to become a resident of the Canadian part of the empire. They quote a Canadian order-in-council effective since May, 1910, as follows:

"From and after the date hereof, the landing in Canada shall be and the same is hereby prohibited of any immigrants who have come to Canada otherwise than by continuous journey from the country of which they are natives or citizens, and upon through tickets purchased in that country or purchased or prepaid in Canada."

It is noted that this order-in-council No. 920 has been suspended in the case of aliens, and the petitioners respectfully submit to the imperial conference, why it should not be rescinded on behalf of fellow subjects.

The hardship entailed by this law is explained by the statement that there is no direct steamship communication between Indian ports and Canada and that the Hindus cannot purchase steamship tickets from India for any point in Canada as the steamship companies will not take the risk of being compelled to carry them back in the event that they are for any reason refused admission to that country. The petition continues:

"As long as they (Hindus) are British subjects, British territory is the land of their citizenship from the interpretation of the imperial and parental government. It is needless to point out that that narrow interpretation of the Dominion government about the land of citizenship do not allow them to enter Canada from Great Britain, Hong Kong, Shanghai and other parts of the British empire. These men can travel unhampered in China, Germany or the Sahara.

"The present Dominion immigration laws are quite inconsistent with the Imperial policy because they discriminate against the people of India who are British subjects, as compared with other British subjects."

According to the petitioners there are some 6,000 Hindus resident in Canada most of them in the province of British Columbia, all working steadily but as a result of the objectionable restriction, "not a single Hindu whether merchant, student or tourist coming to Canada during the last two years has been allowed to remain here."

It is stated that while a Japanese wishing to enter Canada is required to show only $50 in his possession, a Hindu must have $200. Many Hindus wish to make Canada their home and that this may be made possible, the petitioners in conclusion submit:

"That, with due respect to the Dominion government at Ottawa, that the disgraceful conditions of these, our fellow citizens may be brought up before the imperial conference and the whole question of Hindu immigration may be put on a proper basis with the help and co-operation of Sir Wilfrid Laurier and his majesty's government."

GEORGE B. COX DROPS REINS

Retires From His Position as Republican Leader in Ohio.

Cincinnati, May 22.—In an offcial statement, George B. Cox announces his retirement from politics.

The Enquirer says: "Affirming his unalterable faith in Republican principles and leaders, George B. Cox Saturday laid down the reins of leadership of the Republican party in Hamilton county, a leadership that for more than a quarter of a century he has held with none to dispute his power and authority, and incidentally resigned a commanding place in the councils of that party in the state of Ohio.

"Mr. Cox, spurred by the conviction that the supremacy of the Republican party in Hamilton county and possibly in the state of Ohio required his retirement, has resolved to remove himself as an issue and a factor of contention not alone in his own party, but between the two great rival parties."

SEVEN NEGROES ARE LYNCHED

Six Taken From Florida Jail By Mob—One Hanged in Georgia.

Lake City, May 22.—Six negroes were lynched here early Sunday morning after a party of more than a dozen men, masquerading as officers, appeared at the county jail, secured possession of the men by presenting a forged telegram to the 16-year-old son of the sheriff, ordering the release of the blacks to the alleged posse of officers. The negroes were being held here for safe keeping on the charge of murdering B. B. Smith of Wadesborough and wounding another man named Register on May 12.

The lynchers, who had come from Tallahassee to Lake City in automobiles, took the negroes about a mile outside of Lake City, where they compelled them to stand abreast. Ten men then fired rifles and pistols at the negroes until every one of the six had been riddled with bullets.

Citizens, at daybreak, found the dead bodies just after the automobiles containing the lynchers had left the scene.

Residents of Lake City knew nothing of the lynching until a fusillade of shots were heard. A few citizens went in the direction of the firing and found the bodies, but the lynchers had disappeared.

The crime for which the negroes were held created strong feeling in Leon county as the men shot were prominent and a general race war was threatened at the time of the preliminary hearing given the prisoners. It was alleged that the negroes had gathered together guns and were prepared for trouble.

CONFESSED DYNAMITER IS ADJUDGED INSANE.

Pittsburg, Pa., May 22.—Following an examination by alienists, James Elliott, the structural steel worker, who alleged that he was hired to assist in wrecking some of the property in connection with which the McNamara brothers are under arrest in California, was adjudged insane and sent to the county asylum at Marshalsea.

WEATHER BUREAU'S WORK IS UNDER FIRE.

Washington, May 22.—Complaints by farmers and apple growers in the West that the weather bureau's forecasts cannot be depended on and that disastrous results to crops often have followed erroneous predictions, form the basis of the decision reached by the house committee on expenditures in the agricultural department to investigate the weather bureau.

The committee also will look into charges against the management of the bureau.

Lynching in Georgia.

Swainsboro, Ga., May 22.—Ben Smith, an old negro preacher, was lynched late Sunday night after he had shot his wife and fatally wounded Deputy Marshall Neal Canady, who was called to the scene. A crowd pursued the negro, caught him in a swamp, hanged him and filled his body with bullets.

This is the second lynching in Swainsboro within ten days. Excitement is running high in this (Emmanuel) county and many negroes are planning to leave the country. The blacks are diyided into factions and late Saturday night one faction dynamited the Odd Fellows hall of an opposing faction at Aldrian, demolishing the building.

HEARS MOTHER'S APPEAL.

Boston, Mass., May 22.—Moved by the appeal of the prisoner's aged mother, Governor Foss has taken under consideration the removal of some of the restrictions that make Jesse Pomeroy, the famous Charlestown "lifer," a modern counterpart of "the man in the iron mask." The executive told Mrs. Pomeroy that he would try to make less severe the solitary confinement to which Pomeroy is doomed. At present the prisoner never sees nor is seen by any of the other convicts.

Our Kitchen Is Your Kitchen

We offer you our two-million dollar sunlit kitchen in the cleanest, finest, most hygienic food factory in the world, in which we bake every day in the year, two million crisp, golden brown Shredded Wheat Biscuits. Our kitchen is your kitchen when you eat

SHREDDED WHEAT BISCUIT

the food that contains all the strengthening, body-building material in the whole wheat grain made digestible by steam cooking, shredding and baking. It is the one cereal food that has survived the ups and downs of public fancy—always clean, always pure, always the same price.

Always heat the biscuit in oven to restore its crispness; then pour hot milk over it, adding a little cream. Salt or sweeten to suit the taste. Being in Biscuit form it makes delicious and wholesome combinations with stewed prunes, apple sauce, sliced bananas or other stewed or fresh fruits. Try it for breakfast for ten days and see how much better you feel. Your grocer sells it.

TRISCUIT is the Shredded Wheat wafer—a crisp, tasty, nourishing whole wheat Toast, delicious for any meal with butter, cheese or marmalades. Always toast it in the oven before serving.

The Beverage For All Classes

THERE is no prepared beverage of such general popularity as beer.

Rich and Poor alike are its patrons and are offered equal advantage when ordering Fitger's Beer, as there is but one quality and that the very highest in the brewers' art.

Fitger's Beer

Best By Over 25 Years Test

is absolutely pure, nourishing and appetizing. Its mild and delicate flavor, together with its refreshing and medicinal qualities make it ideal for the home. Drink it with your meals. It will quiet your nerves, aid digestion and keep your body and brain in good trim to work.

Gladstone Said:

"How can I, who drink good wine and bitter beer all my life, in a comfortable room and among friends, coolly stand up and advise hard-working fellow creatures to take the pledge?"

Fitger Brewing Company

Duluth, Minn.

WEST DULUTH NEWS

BRANCH OFFICES:
A. Jensen, 330 North 57th Ave. W. J. J. Moran, 316½ North Central Ave.

TRAVEL WILL BE LIGHTER

Fewer Scandinavian-Americans Will Visit Old Country This Year.

Two Parties of West Duluthians Will Leave This Month.

According to A. J. Lindgren, a local representative of a number of Eastern steamship companies, the summer exodus of West Duluth people to the Old Country will not be as noticeable this season as in former years.

A party of West Duluthians will leave Wednesday for New York to sail for Sweden and another party will leave the latter part of the month. L. P. Thornberg, a well known Midway farmer, and Arvid Peterson, employed at the Mattson feed store, are among those who will leave Wednesday for Sweden. Sigrud Witzoe will go at the same time, but his destination is Norway. Mr. Witzoe will be married in Norway this summer and will bring his bride back with him. The other two will also return in the fall.

Mr. and Mrs. John A. Eklund expect to sail for Sweden the latter part of the month. Mr. Ecklund is a member of the firm of Olin & Eklund, feed dealers on Central avenue. They will sail on the Baltic. Other West Duluth passengers on this boat will be John Wennberg, his two daughters, Alice and Signa, and Alex Rost, a dairyman residing at Sixty-first avenue west and Highland street.

RAISE $100 FOR FOURTH OF JULY

About $100 has been pledged in subscriptions for the West Duluth Fourth of July celebration. The soliciting committmee of the Fourth of July association has secured promises for this amount during the past week. It is planned to raise $700.

The soliciting committee will be permanently organized tomorrow afternoon at a meeting which will be held at the West Duluth Commercial club rooms. The present members of the committee are Ed Warner, chairman; J. A. McDonald, T. F. Fitzgerald, Otto Haller, Roy Baker, Hugh Vieu, Henry Fedi, A. L. Murray, L. A. Barnes and Rev. H. J. P. Sellnger.

A report will be heard tomorrow afternoon from the committee which was selected to interview the merchants on the prospects of turning out for a monster parade. This committee consists of: L. A. Barnes, chairman; T. F. Olsen, M. J. Fillatrault, J. A. McDonald, C. F. Beier, J. Abraham, Otto Haller and Leo Hannot.

WEST DULUTH CONCERT THURSDAY EVENING.

A concert which is expected to appeal to the music lovers of West Duluth will be given Thursday evening at Great Eastern hall, Central avenue, under the direction of Walter Sievers. Selections will be given by a string quartet consisting of Fred Frederici and Walter Sievers, violinists; George Tupper, viola, and Harold R. White, 'cello. Prof. E. Lussky of St. Paul, who is connected with Concordia college of that city, will sing a baritone solo, and Mr. Sievers will be heard in a violin solo.

The program is announced as follows:

Quartet—
a. Quartet No. 5 ..... Haydn
First Movement, Allegro Spiritoso.
b. Lorga ..... Haendel
Baritone—"Fear Not Ye, O Israel" ..... Buck
Quartet—
a. Kaiser Quartet ..... Haydn
Second Movement. Adagio Cantabile.
b. Terzetto ..... Dvorak
Introduction, Allegro Scherzo.
Violin—
a. Air ..... Bach
b. Romanze ..... Wilhelmj
c. "Liebesfreund" ..... Kreisler
Baritone—
a. "Der Erlkoenig" ..... Schubert
b. "Der Wanderer" ..... Schubert
Quartet—
a. Minuett ..... Dittersdorf
b. Lourne ..... Bach
c. Andante Cantabile..Tschaikowsky

ANOTHER STORY FOR MACCABEE HALL.

Another story will be added to the Maccabee hall at New Duluth at a cost of about $5,000. John Berger has the contract and work has already started. The building is a one-story structure and was erected a number of years ago by the New Duluth lodge of Maccabees.

The new Sweeney block is nearly completed. It has been in course of construction for the past few weeks. It is of brick and stone and is one story high, having a frontage of twenty-five feet and a depth of sixty feet.

WEST DULUTH MAN HONORED

George J. Mallory Installed as Past Great Commander of State Maccabees.

George J. Mallory of West Duluth was installed as past great commander of the Minnesota Knights of the Maccabees, following the election of officers at the state convention which closed Saturday at St. Paul.

J. A. Bethune of West Duluth tent, No. 2, K. O. T. M., was the West Duluth delegate to the convention. He said today that the convention was the most successful one ever held in the state and that the St. Paul people were good entertainers.

The following officers were elected and installed: George J. Mallory, West Duluth, past great commander; Dr. Edwin J. Haas, St. Paul, great commander; George F. Schakcel, Fergus Falls, lieutenant great commander; E. M. Sutherland, Minneapolis, record keeper; Dr. Young, Becker county, examiner; J. F. Gorman, St. Paul, chaplain; J. W. Grerock, Little Falls, sergeant; H. M. Yates, Albert Lea, master-at-arms; J. A. Bethune, West Duluth, first guard; William Fowl, Two Harbors, second guard; F. C. Freer, Duluth, sentinel; T. W. Hanley, Benson, picket.

SERVICES FIRST TIME FOR FOURTEEN YEARS.

For the first time in fourteen years services were held yesterday in the New Duluth Congregational church, a structure which was erected twenty years ago in the "boom days," and abandoned after seven years. The church was recently remodeled and Rev. Allen Clark, who conducted services yesterday, is making an attempt to reorganize the congregation.

West Duluth Briefs.

The Young Ladies' Sodality of St. James Catholic church will meet tomorrow evening at the church on Fifty-seventh avenue west.

David Gibbons, who has just completed a new livery stable at 302 North Fifty-fourth avenue has returned after purchasing a new outfit of horses and rigs and will be pleased to have the public give him a call and visit his place.

Rev. M. S. Rice, pastor of the First M. E. church, will lecture Friday evening at Asbury M. E. church, Sixtieth avenue west and Raleigh street. His subject will be "My Ramble Through the Holy Land." His lecture will be illustrated with stereopticon views.

The Ladies' Aid Society of Asbury M. E. church will be entertained by Mrs. E. D. Abbott at her home, 5609 Grand avenue, Wednesday afternoon.

The wedding of Ella Marie Baker, daughter of Mrs. J. A. Baker, of 2 Munger row, to Albert Forest Deibert will take place tomorrow at the home of the bride's mother.

Miss Esther Grantholm of 4816 Grand avenue had two of her fingers crushed in a mangling machine in a local laundry Saturday.

A. L. Stevenson has returned from Split Rock, where he has been on a fishing trip.

Rev. W. G. Boyle, pastor of Asbury M. E. church, who has been visiting his old home in Ireland, sailed Saturday on the Lusitania. He is expected to return to Duluth next week.

Rev. J. J. Krantz, D. D., pastor of Elim Swedish Lutheran church, conducted services at Proctor yesterday.

Miss Beda Carlson has returned to her home in Minneapolis after a visit with friends in West Duluth.

W. F. Ries, a Socialist author and lecturer, gave an address last evening at Great Eastern hall before a good-sized crowd. His talk was an exposition of Socialism.

Watch repairing. Hurst, W. Duluth.

HAS NEVER DANCED OR ATTENDED A THEATER.

Probation Officer Col. F. E. Resche has discovered a girl, 20 years old, who has lived in Duluth since her birth and has never been to a dance, a theater or any other place of amusement.

She has worked ever since she was able to work and her sole recreation comes once each week when she goes to choir practice.

Col. Resche says that it is very unusual these days to find a person of that age who is not familiar with all the amusement places of the city.

It was in connection with his work as an officer of the juvenile court that Col. Resche found the girl and learned of her life when she told him her story.

HOTEL STANDING ON RIGHT-OF-WAY

If Aitkin Boniface Moves Structure Back Will Land in River.

Aitkin, Minn., May 22.—(Special to The Herald.)—An important case on the civil calendar of the district court is brought by William Allis against Amanda C. Foley and D. R. Foley. It is alleged that Allis purchased the three-story brick hotel known as the Foley hotel by warranty deed and later ascertained that 40 feet of his hotel had been resting for years on the Northern Pacific railway right of way. For fifteen or more years it is said the hotel has stood on the right of way, but adverse possession in the case of railway land does not pass title. If Allis moves the hotel back forty feet he will land in Mud river.

CHANGE OF VENUE FOR G. L. BICKFORD.

Bismarck, N. D., May 22.—Judge Winchester has announced that he will grant the change of venue asked for by Former State Treasurer G. L. Bickford, who is charged with embezzlement of $60,000 of the state funds, and will call in another judge. He has not announced whom he will call in or where the trial will be held.

IS OPEN TO GERMANY, TOO

American Arbitration Proposal May Be Made to Berlin.

Matter Also Has Been Discussed With the Japanese.

Washington, May 22.—The German government has been made aware by the United States that the same general arbitration proposition submitted to Great Britain and France is open to Germany if that country is interested.

This was learned at the state department today, where it was reiterated that the tentative draft now in the hands of Great Britain and France constitutes a basis upon which this country is prepared to enter into negotiations with any power desiring to do so. The draft, it was added, was sent to Great Britain and France simply because those governments had indicated their desire to discuss the question of negotiating a broad convention along the lines laid down by President Taft in his speech last December.

There have been informal discussions between the United States and Japan on the new arbitration, but Japan has not yet denitely made known her intentions in the matter.

FIRE DESTROYS CAN COMPANY'S BUILDING.

Chicago, May 22.—Fire today destroyed the Northwestern Can company's building, a five-story brick structure, causing a loss of $100,000. Two floors of the structure were occupied by the Davidson Bros. Marble company.

TWO DULUTH TAILORS MEET DEATH IN THE WATERS OF RICE LAKE

(Continued from page 1.)

der the lake. One body was face up. Mr. Miller left the bodies just as he found them and came to Duluth in the rig in which the men made the trip to the lake.

Olaf Johanson had been in the city only two weeks. He had worked in St. Paul before coming to the city. He was employed here by August Milek, a tailor, who has a shop in the Metropolitan building. Theodore Okeson has been for a long time in the employ of J. Frank Burrows, who has a shop on Third avenue west. So far as is known both were single men.

This morning Mr. Burrows became alarmed, as Okeson was a very steady man, and he sent Peter Rood, employed in his shop, to Rice Lake.

A. A. Miller brought the news to the city this morning after he had found the bodies. He notified the coroner and the chief of police, and the authorities went to the lake this afternoon.

Were Fishing.

The men started out early Sunday morning on a fishing trip. They hired the horse and a light wagon at Ken-

OLAF JOHANSON,
One of the Victims.

dall's livery barn. When Mr. Miller came to the city this morning the horse wanted to turn in there. Inquiry at the barn disclosed the fact that the two men mentioned had hired the rig early Sunday morning and had not returned. The owners had become anxious and were on the point of sending to the lake for their horse.

Mr. Miller says that the men appeared at the lake fairly early Sunday morning and asked for a boat. He gave them one and they started out. At noon they came back and reported that they had no luck. They asked Mr. Miller, who was at the landing, if he had a deck of cards and he told them to go to the house and ask Mrs. Miller.

Mrs. Miller noticed that the men talked rather thickly as she had to ask them several times to repeat what they wanted. She finally found a deck of cards, which she gave them. For some time they played cards on the shore of the lake near the house.

After some time had been passed in this way, they again went out in the boat and were seen no more alive.

Mr. Miller says that it was an unusually busy day at the lake and that he was so busy for a long time that he did not notice that all others had come in.

Later in the evening when he counted his boats he found that one was missing. He knew then that the men had not returned.

This morning Mr. Miller was up at daybreak and still the men had not returned. He at once started out to search for them and as the lake was very rough it was with great difficulty that he rowed around the edge. On the opposite side of the lake, in the weeds and close to the shore, he found the overturned boat and near it both bodies were floating in the weeds.

He hitched up their rig and started for the city. He went first to Clerk J. O. Walker of the county board at the courthouse, who is an old friend. The authorities were then notified.

So far as is known no relatives of the men live in Duluth.

How to Gain Flesh.

A simple but sure way to increase the weight, it is asserted by several well known physicians, is to take regularly for several months, one or two 3 grain hypo-nuclane tablets after each meal. These little tablets have the distinguished merit of increasing the red and white blood corpuscles, aiding digestion and promoting assimilation and absorption of the elements in the food which go to make blood and solid tissues. They are obtainable in sealed packages from physicians and well stocked apothecary shops.

Blackburn's Pain-Away-Pills relieve severest headache, neuralgia, etc. All druggists.

PARENTS HELD AT ELLIS ISLAND

South St. Paul Man Asks Governor to Intercede for Them.

St. Paul, Minn., May 22.—(Special to The Herald.) — The intervention of Governor Eberhart was asked this morning to prevent the deportation from Ellis Island of Axel Goramson, his wife and four children, bound for St. Paul, but detained because they did not bring to America sufficient funds to entitle them to land. A son of Goramson is employed by W. L. Converse, an attorney in South St. Paul, and the entire family came to America at his suggestion to carve out a home.

Attend the

DANCE

given by the Jefferson Athletic association, Tuesday evening, May 23rd, at Lester Park. Admission 50c. Good music.

COPPERS ADVANCE; VALUES ERRATIC

Metal Up and Leading Stocks Walk Forward—Trading Heavy.

The copper market today resembled an old-time market. Trading was moderately heavy and values walked forward. The action of the market was erratic as on each bulge there was considerable realizing. Electrolytic copper sold at 12½c for 30 days delivery.

There was considerable weakness toward the close in sympathy with selling in Missouri Pacific but the leading coppers rallied slightly and closed higher than yesterday. North Butte was the strongest issue in Boston, selling at $32.75 to $34.12½ to $33.75, Amalgamated at $67.25, $67.52½, $66.87½ and then at $67.12½, Ojibway at $8 to $7.75, Butte Ballaklava at $5.25 to $4.87½, Giroux at $6.25 to $6.37½ to $6.25, Superior & Pittsburg at $15, Butte Coalition at $19.25 to $20.25, Greene at $7.06¼, $7 and $7.12½, Calumet & Arizona at $52.50 to $53.75 to $52.75.

Keating was the feature of the local market, which was active, though specialized. Keating sold from $3.75 to $4 to $4.25 and then at $4.50, closing strong at that bid figure. Calumet & Montana sold at 37c, 29c and 40c. Red Warrior was strong, selling at $1.12½ to $1.25.

* * *

The Hubbard-Elliott Copper company has employed M. D. Draper of Denver, Col., as general superintendent. He will leave for Alaska June 1 to take charge of the property. The mine will be extensively developed and a large tonnage of ore blocked out, to make it worth while for the Copper River & Northwestern railroad to build to the property. For purposes of development 100,000 shares of treasury stock are being offered at 25c a share, 10c down and 15c before Oct. 1.

* * *

Little is given out concerning the work in the North Butte mine, but it is learned that a station has been cut on the 2,800-foot level of the Speculator shaft which was reached a few weeks ago, and that the shaft is now down nearly another 100 feet, which is to provide a sump. Drifting on the 2,800-foot level has been started, and the drift should be within the fault planes within a couple of months, 400 feet below present workings.

* * *

The North Lake company is reported to have $200,000 in cash in its treasury and to have cut two lodes with its diamond drills, known locally as the No. 2 and No. 3 Adventure lodes.

* * *

Boston Transcript: One of the leading corporation lawyers in Boston is quoted as declaring that under the decision permitting a "reasonable restrant of trade" there is nothing now to prevent a combination of copper companies, and that such a combination, preserving one of our national resources, would be regarded as a "reasonable" combination not in restraint of trade.

* * *

A report from Butte says that the 2,400-foot level of the Edith May vein at the North Butte property has been averaging better than 5 per cent copper over a width of ten feet. No distance is given, but judging from the progress being made, the drift has probably advanced thirty to forty feet.

GIVES MORTALITY FIGURES.

Census Bureau Reports on Chief Cities in Minnesota.

St. Paul, Minn., May 22.— (Special to The Herald.) — According to census bureau figures received by the state board of health today, the death rate in Minneapolis is 12.4 to the 1,000 population. In St. Paul it is 11.9. In Duluth it is 13.4.

The death rate per thousand in Hennepin county, outside of the city of Minneapolis is 7.9. In Ramsey county, outside of St. Paul, it is 9.3, and in St. Louis county outside of Duluth it is 12.1.

Traverse county has the lowest death rate per thousand in the state, the government's figures showing it to be only 6.2. Olmstead county is given as the highest, but this probably is because of the big hospitals located therein. The death rate there is given as 22.4.

MILL CITY BOOSTERS AT INTERNATIONAL FALLS

International Falls, Minn., May 22.—(Special to The Herald.)—A delegation of Minneapolis jobbers arrived here early this morning on a special train over the M. & I. road and spent about four hours here looking over the big paper mill and other industries.

SUPERIOR

DEPUTY GAME WARDEN CRAIG IS REMOVED.

Deputy Game Warden John S. Craig of Superior, a senatorial appointee, has been asked by the state game warden to resign. Beginning today, Mr. Craig has no more power over the district. Peter Waterbury, another deputy warden of Solon Springs was also removed a short time ago for political reasons. James McNaunton and Dwight Kennedy are the only two deputy wardens left in the district and they are special men. It is claimed that Kennedy will be appointed to the vacancy caused by the removal of Mr. Craig.

Delegates Chosen.

Peter Skamser, John A. Hobe, Charles Flagstad and Chirist Miller will represent the Superior lodge of the Sons of Norway at the state convention of the order, which will be held June 9, 10 and 11 at Hudson, where plans are being made for a big celebration. Hudson is the first Wisconsin city under 10,000 that has been able to secure the convention.

New Building.

A $12,000 brick and stone store building, with a fifty foot frontage on Tower avenue and running back 100 feet on North Fifth street will be built at the northwest corner of Tower and Fifth by Ole Severson. Bids are now being received for the construction work.

Gumbert Funeral.

Funeral services for Daniel Gumbert, 74 years old, who died Saturday at his home, 2016 Banks avenue, was held this afternoon from the Downs undertaking rooms with interment in Greenwood cemetery. Members of the Alonzo Palmer post, G. A. R., of which Mr. Gumbert was a member acted as pallbearers. Mr. Gumbert was a resident of Superior for twenty years.

Bridge Nearly Completed.

The West Fourth street bridge over the Nemadji river, which has been rebuilt by contractors this spring, will be opened to team and traffic Saturday evening. This week the roadway is being paved with creosoted blocks. The structure has been in the hands of the contractors, the Interstate Dredge & Dock company, since March.

Larson-Ballard.

The wedding of Miss A. Rose Larson of Superior and Dr. Ray Frederick Ballard of Whitehall, Ill., took place yesterday afternoon at 2 o'clock at the home of the bride's parents, Judge and Mrs. L. S. Larson, 1212 North Seventeenth street. Rev. Harry F. Burns read the service. They will live at Whitehall, where Dr. Ballard has a practice.

Superior Boy Graduates.

Edward T. Martin of Superior graduated in medicine from Marquette university, Milwaukee, today.

STORY OF THE MISTLETOE.

The custom of kissing under the mistletoe goes back to the days when Thor and Odin and all the other gods of the Northland walked and talked with men.

Baldur, the son of Odin and Frigga, the Apollo of Scandinavian mythology, the flaxen-haired god of sunshine and its attendant blessings, was loved by all earthly and heavenly beings save one—Loki, the god of earthly fire and its attendant evils.

Naturally Loki would hate him, for in the spring when Baldur came forth with his bright and warm sunlight the world's people deserted Loki's hearth fires and did not return to them until the golden faced god chose to depart in the fall. But Baldur with his happy nature cared little for the other's jealousy and in the love of his wife, Nanna (blossom), lived for years a joyous existence.

At length, however, says a writer in Uncle Remus' Magazine, he began to have troublesome dreams—visions of disaster and of death. What could it mean? It was all so new to him, this lover of light and pleasure. He consulted the mother, Frigga, and she in her distress sent word to Odin.

Long Frigga thought and then she devised a plan; she sent messengers far and wide through the universe and had every creature, animate or inanimate, swear to do her son no harm. Willingly all promised, for did not all love the sunlight god? All? No, the mistletoe refused to swear, and that was the cause of great future sorrow. But what injury could a bit of mistletoe do? Frigga was all joy; her darling was safe from anything sprung from earth, air, fire or water!

Now as the years passed and the gods learned how absolutely safe Baldur was from any wound whatever they frequently amused themselves by using him for a target for all sorts of missiles—stones, clubs and weapons. One day as they were playing thus and shouting with laughter at their failures Frigga, sitting at her spinning wheel, asked an old woman who was passing what was the cause of all the merriment.

"The gods," answered the old woman, "are amusing themselves trying to hurt your son."

"Ah!" said Frigga, with a boastful smile, "they can never do it, for all things have promised not to harm him."

"All things?" inquired the old woman.

"Yes, all things, except the frail mistletoe, who of course, is too insignificant to trouble any one." The old woman was Loki in disguise.

Hastening away, the evil god went straight to the mistletoe that grew on the oak outside the gates of Valhalla and breaking off a piece turned it by magic art into a hard, sharp dart. Then hurrying back he found the gods still playing the game—all except Baldur's blind brother, Hodur, who leaned gloomily against a tree and listened in silence to the laughter.

"Why do you not play, Hodur?" said Loki.

"How can I?" answered Hodur. "Am I not blind?"

"Ah," laughed Loki. "I will show you how. Stand thus and throw this dart with all your strength."

The mistletoe shaft hissed through the air, and Baldur, the god of life giving light, fell dead.

Tenderly the guards placed his body upon his favorite ship, the Ringhorn, and prepared to give both to the sea. Then all the heavenly ones came to gaze upon the beloved face; but Nanna, bending over him, could not bear the sight, and her heart broke, and she was laid beside him on the vessel. Then the great ship was set afire and floated, a sheet of flame, out on the distant waters. And even yet we may see at sunset the burning vessel of Baldur far in the west.

Now the guards felt that some show of justice must be made, and in conciliation, hoping to soothe the passionate sorrow of the mother, Frigga, they dedicated the mistletoe to her; and to this day it is under her care and control. And now sin and sorrow had hallowed it; for henceforth it was to grow, not as a symbol of bitterness and hatred, but as a sign of tenderness and love.

But the gods decreed that it was to stand for these things only so long as it touched not Loki's kingdom, the soil; and for this reason it is never seen growing on the ground and we ourselves always hang it high on the rafters or chandeliers. And now that it was the plant of love, the custom arose for enemies to become friends under the mistletoe; for lovers to pledge their troth beneath it; and for those who met there to kiss as a sign of affectionate fellowship.

ARDENT IN HIS SYMPATHY.

Tit-Bits: Naturally Dr. Macnamara gets some extraordinary letters. He is rather proud of one which he received from an old country clergyman not long after he had found occasion to criticise the clergy as a body somewhat severely.

Apparently it had struck a sympathetic chord in this particular personage, for the reverend gentleman wrote the following warm invitation: "If you like a day with the hounds, I can mount you; we have a capital billiard table at the vicarage; I am a good judge of whisky, and I smoke like a furnace!"

DWARF ELEPHANTS TO UGANDA.

Forest and Stream: Capt. C. Graham of the Fourth King's African Rifles, reports from Uganda a herd of dwarf elephants which to him seem to differ remarkably from the ordinary elephants of Africa.

They are notable for their small tusks, those of an old well grown bull weighing only sixteen pounds apiece. The animals are notable for their small size, and especially for their small feet and very tiny head. Unfortunately no measurements are given, but now that the existence of these animals has been reported specimens will undoubtedly be measured and brought in.

Living Room Furnishings

Are you doubtful about rugs and curtains for your living room—and the color effects to use? If so, we can be of assistance to you in considering whatever colors you may already have, or if you desire to decorate entirely anew.

We wish to show you the many pleasing harmonies to be had from our stock and we recommend using the following:

For the Floor:

Finest Wilton Rugs—the pile of which is strictly all Asiatic yarn, woven fifteen loops to the inch. This gives you goods of this Oriental quality at a fourth the price of the real Oriental rugs. On a 9 by 12 size we offer a saving of just $7.00 on the price usually asked for rugs of this quality!

Fine Special Axminster 9x12 Rugs $55.00

Recommended for hard usage, in plain two-tone effects and small all-over designs, in all sizes and seamless— will not curl—9 by 12 size, priced at..... $55.00 $55.00

For the Arches—Silk Velours

An elegant doorway may be had by using our silk velours. Colors to be had—reds, greens, browns, blue and rose. Prices $30.00 to $50.00 the pair.

A more modestly priced portiere may be had in all shades of solid color striped mercerized Khirkil—the best dyes used and priced at $10.75 pair. Or you may buy the material at $1.50 the yard.

For the Windows—Thread Laces

The newest and most artistic Arabian curtains on the market—not a cheap article, for the work is all by hand and mounted on imported nets. Priced from $7.50 to $24.50.

We especially recommend two qualities—our $12.50 and $14.50.

Sunfast Overhangings

Guaranteed fast dyes, in the popular colors of today—36 to 50 inches wide. Priced at 85c to $1.35 yard.

300 PIECES UP TO 39c LINWEAVES On Bargain Square at 25c Yd.

You cannot believe your eyes—you'll think you seeing some of the loveliest, fine, pure linen waistings when you see these Linweaves tomorrow—but we tell you frankly they are not linen!

But they look like it—they have the appearance of pure linen—and the finish is permanent. Why, they even feel like linens.

The goods are practically confined to us—and we show you a wonderful variety of both plain and fancies. There are plain Linweaves especially nice for embroidering, and in the fancy weaves there are over fifteen different checks—and stripes and lace effects galore! 25c

Linweaves will not muss like linen and look every bit as nice!

Duluth's first big showing will be on the Bargain Square on Tuesday and Wednesday—and qualities intended to sell at up to 35c and 39c yard will all go at 25c yard!

Usual Retail Price $3.50 to $4.

For Tuesday's Sale 98c

These Hammocks measure 10 feet 6 inches from ring to ring. The full width from side to side, including valance, without fringe, 56 inches; and inside length 6 feet 6 inches; these come with spreader and pillow in assorted colors. The firm who took our order informed us that it was the largest order they had taken for any single number of hammocks in the Twin Cities or Twin Ports. The quantity enabled us to get this high-grade hammock to sell for only..... 98c

The greatest bargain on Hammocks ever offered the people. Limit, one to a customer. No phone orders. Mail orders accepted from out-of-town customers.

NEWS OF THE NORTHWEST

GATHER AT HILLSBORO

Annual Meeting of the Fargo Association of Congregational Churches.

Session Begins Tuesday and Concludes With Banquet Wednesday Evening.

Hillsboro, N. D., May 22.—(Special to The Herald.)—The annual meeting of the Fargo Association of Congregational Churches will begin here Tuesday. Delegates will be in attendance from each of the churches in the territory embraced by the district organization. Tuesday afternoon will be given over to the perfection of the preliminary organization, while in the evening the annual sermon will be delivered by Rev. Samuel Hitchcock of Hope, N. D.

Wednesday morning's program includes the regular business session, a report on the year's work by Rev. Willard Crosby Lyon of Valley City, a conference on church problems, a discussion of the question of reaching outlying districts led by Rev. Rudolph C. Mueller of Harwood, and Rev. L. F. Slangenberg of Oriska will discuss the work of the Congregational Brotherhood. In the fore part of the afternoon home mission and Sunday school work in North Dakota will be discussed; the next period will be given over to the state organization, while the closing period will be given over to the women's work. In the evening there will be a banquet with James Buchanan, Rev. R. A. Beard, D. D., and Dr. C. C. Creegan as the speakers.

SUES FOR INJURY GOT IN MONTANA

Dickinson, N. D., Man Wants $15,000 for Being Hurt While Boarding Train.

Dickinson, N. D., May 22.—(Special to The Herald.) — John Hostetter seeks $15,000 damages from the Northern Pacific railroad company for injuries claimed to have been received in an accident at Miles City, in a case on trial before Judge Crawford of the district court. The plaintiff claims that no warning was given that the train was about to start and that he was just stepping aboard when it started. The railrond company, as defense, has advanced the claim that Hostetter was at the time under the influence of liquor.

Frank Smith, a Mexican, was sentenced to three years in the state penitentiary for grand larceny. Smith was accused of thefts from a farm home south of the city about a year ago, but was acquitted in the district court at that time. He pleaded guilty to a new charge of larceny.

Richardton, Stark county, is the defendant in an action for $5,000 damages. Peter Dirkes is the plaintiff and he alleges that the condition of the streets in the town was such that he was thrown from his wagon and seriously injured.

This term of the district court will continue till June 6, at which time Judge Crawford goes to Billings county to open the regular summer term.

Many New Citizens.

When T. S. Griffing of St. Paul, connected with the naturalization department, found that the knowledge possessed by Jacob Wolberg, a 25-year old application for citizenship papers before the district court of Stark county, was somewhat hazy on the proposition of who was governor of North Dakota and who was president of the United States, he advised him to go home and "study up." The applicant's father, aged about 78, was passed as a new citizen, his showing being somewhat better. In all, forty new citizens were made during the citizenship day session.

SHERIDAN COUNTY MAN IS ACCUSED

Former Editor of McClusky, N. D., Charged With School Money Theft.

McClusky, N. D., May 22.—(Special to The Herald.)—E. R. Adelman, president of the board of education and former editor of the McClusky Independent, is charged with the embezzlement of $450 of the funds of the school district. The complaint against him was sworn out by Mayor P. R. Thelan, and it has occasioned no little surprise throughout this section, the accused being a well known resident of Sheridan, promient in the politics of this district for some time.

FORT FRANCES NEWS.

Fort Frances, Ont., May 22.—(Special to The Herald.)—Mrs. J. B. Mosher has been called to her home at Iowa City, by news of the serious illness of her mother.

Marshall Murray, whose home is here, but who is a linotype operator on the Winnipeg Free Press, was here last week to get acquainted with a son, who was born on May 10.

Miss Damm has returned from Minneapolis, where she had been studying elocution.

Magistrate Hollands has gone to West Baden, Ind., to seek relief from his ailments at the celebrated mineral baths.

Dr. D. C. McKenzie and other members of the committee which went to Ottawa several weeks ago to work for the passage of a bill which is expected to remedy their power troubles, have returned with the news that while the prospects of the bill are good, that the matter has been postponed until fall, on account of the coronation of King George causing an adjournment of parliament.

Complaint has been made to the fishery commission at Toronto that chemicals from the paper mills are killing fish in the river below the falls and that on this account and because of fish being taken out of the lake by the wholesale by fishermen, that both bodies of water will soon be fishless, so to speak.

The anniversary of ex-Queen Victoria's birthday will be properly celebrated here on May 24. A splendid program is being arranged under the auspices of the lacrosse club.

Postmaster W. J. Clark, sergeant of Company A, Ninety-eighth regiment, has been selected as one of the soldiers who will represent Canada at the coronation of King George.

Mark Means, the manager of the Palace theater, will divide the receipts of his house this week with the lacrosse club.

NORWEGIAN VISITING FORT TOTTEN INDIANS

CASS COUNTY HAS CHOSEN DELEGATES

Well-Known Citizens Selected to Attend Duluth Development Meet.

Cass Lake, Minn., May 22.—(Special to The Herald.)—An enthusiastic meeting of the Cass County Development association was held here Saturday night with a great number of delegates from all sections of the county.

President Charles La Due having removed from the county, Dr. D. F. Dumas was elected president pro tem and later was elected president of the association.

The meeting was a very enthusiastic one. The main business was the election of degates to attend the big meeting at Duluth on June 1 and 2. The following delegates and alternates were elected:

Delegates — C. E. Marshall, Cass Lake; E. L. Forbes, Pine River; George Lydick, Cass Lake; John King, Walker; Chris Burns, Cass Lake. Alternates—Dr. D. F. Dumas, Cass Lake; Charles Kinkle, Walker; George J. Silk, Pine River; Lester Bartlett, Cass Lake; W. B. Jones, Sylvan.

M. N. Koll, who is a member of the executive committee of the Northern Minnesota Development association, as well as all other charter members of the association in Cass county, will be present in full force.

The next meeting of the association will be held at Walker on June 28.

To Represent Koochiching.

International Falls, Minn., May 22.—(Special to The Herald.—The following citizens will represent Koochiching county at the Northern Minnesota Development association meeting at Duluth: F. J. McPartlin and George P. Watson, International Falls; Franz Jevne, Big Falls; C. S. Jameson, Littlefork; William Durrin, Northome.

START WAHKON CREAMERY.

Duluth Concern Furnishes Cream Market for Adjacent Farmers.

Wakon, Minn., May 22.—(Special to The Herald.)—J. E. Anderson, manager of the Bridgeman-Russell company's creamery at Duluth, arrived here a few days ago with George Miller, who has been placed in charge of the Wahkon creamery. They got up steam and the rest of the week was spent in getting the plant ready for business. The creamery will be opened up today and cream will now be received there. The company regrets that unavoidable circumstances had prevented an earlier opening.

The Wahkon creamery has one of the best equipped plants in Northeastern Minnesota, being planned to handle a much larger output than present needs require. Last year showed a great increase in the dairy industry of this section, despite the unfavorable season. This year starts out with brighter prospects, copious showers having given the pastures a good start.

Hunt's Perfect Baking Powder and Flavoring Extracts
are used and recommended by Domestic Science Teachers and Pure Food Experts.

TRYING TO FIX ON NORMAL SITE

North Dakota State Normal Board to Adjust the Minot Squabble.

Valley City, N. D., May 22.—(Special to The Herald.)—A meeting of the state normal board of control is being held here to approve the plans of the new building to be erected at the local normal school.

Tomorrow the board goes to Minot, where another meeting will be held, the purpose of that meeting being the selection of a site for the new Minot normal school. Tenders of sites have been received by the board already and these will be opened. It was made provisional by the state legislative assembly that the city of Minot must donate a suitable site for the school before any public moneys are to be expended in the construction of any buildings.

OSHKOSH FIRE ALARM TURNED IN BY BIRD.

Oshkosh, Wis., May 22.—The fire department responded to an odd alarm Friday morning in the lumber yard of Radford Bros. & Co. When the apparatus arrived on the scene it was discovered the box had not been opened and no one was about. Investigation showed the glass in the box had been broken and a bird had built a nest in it. In stepping on the chain to get to the nest, the bird released the spring and sent in the call.

St. Paul Laborer Killed.

St. Paul, Minn., May 22.—Pat Lynch, a street laborer in the employ of the city, was killed Saturday afternoon by a cave-in of a twenty-foot sandbank under which he with two other men were working at Concord street, near Annapolis. William Selmke and Lawrence Gogen, fellow workmen, were badly bruised and taken to the City hospital. Lynch was about 55 and married, but had not been living with his wife for some time.

Women's Clubs at Lidgerwood.

Lidgerwood, N. D., May 22.—(Special to The Herald.)—The fourth annual meeting of the Women's Federated clubs of the Fourth judicial district will be held here Wednesday. Program for the entertainment of the visitors on that day is in the hands of the Lidgerwood Civic Improvement league and the Lidgerwood Study club, which organizations will unite in an effort to give the visiting ladies a real welcome.

Livestock and Chickens Perish.

Sherbrooke, N. D., May 22.—(Special to The Herald.)—Four horses, eleven head of cattle and eighty chickens were killed by a bolt of lightning that struck the Harold Johnson barn in Sharon. The structure was destroyed by the flames started by the bolt.

PENINSULA BRIEFS

Calumet—John Magnetti, aged 23, single, was injured at noon Tuesday, and died that night in the C. & H. hospital, as the result of his injuries. The decedent was a trammer, and was engaged in loading dirt at the Sixty-third level of the Red Jacket shaft branch of the C. & H. mine, when a fall of ground occurred, pinning Magnetti beneath the rock.

Houghton—A May pole dance will be given under the auspices of Columbia lodge, Knights of Pythias at the Citizens' bank hall on May 23. The proceeds will be used to help defray the cost of the third rank team to the Upper Peninsula Pythian league meeting at Menominee in June.

Calumet—Special Officer August Beck, of the C. & H. staff, has received word of the death of his grandmother, Mrs. Mary Kohlberg, which occurred at Skarvola, Sweden, on April 25. The decedent was slightly over 100 years old. She is survived by one son, Swan Beck of Champion, himself 72 years old, and father of August Beck of this city.

Lake Linden—Mrs. Virginia Belair, who has made Lake Linden her home for a number of years, died Wednesday. Two sons, Alfred and Archie, survive. The funeral took place Saturday morning from St. Joseph's church.

Calumet—M. H. Young, editor of the Calumet News is rejoicing over the arrival of a little girl at his home. This gives him three children, two girls and a boy.

Ontonagon—Friends here have received word from Duluth that Raymond Dirr is in the hospital there. He is undergoing an operation. Ray was formerly employed in the Ontonagon Herald office.

Hancock—A petition is being circulated for presentation to the council by residents of West Hancock, asking the city to negotiate for the purchase of a strip of fifteen feet of the right-of-way of the Mineral Range railroad, for the purpose of widening Railroad avenue between Ethel avenue and Elevation streets.

Houghton—Saturday was the twenty-fourth anniversary of the Lake Linden fire. On Friday, May 20, 1887, the village was practically wiped out and hundreds of residents were made homeless. The total fire loss amounted to about $500,000.

Laurium—The Palestra of Laurium will be the scene on July 22, of one of the biggest reunions of Copper country Italians ever held. The annual mid-summer convention of the Italian-America Federation will be held on that date, with lodges in attendance from Trimountain, Hancock, Franklin, Laurium, Baltic, South Range and Calumet.

Iron Mountain—C. F. Peterson, manager of the Bird & Wells Lumber company's store at Wausaukee for the last four years, has been appointed general manager of the Iron Mountain Merchantile company's store.

Escanaba—The stock of Alfred Nelson, bankrupt grocer, will be disposed of at private sale.

WISCONSIN BRIEFS

Milwaukee—Arthur Shutkin of the marriage license bureau at the county court house has issued a permit to wed to Fritz Dorstlen, aged 66 years, a peddler, residing in South Milwaukee, and Louisa Tunnemann, aged 64 years, residing at 409 Seely street.

Two Rivers—Although life savers pulled William Weber, aged 17, from the water shortly after he went under for the last time, efforts at resciation proved unavailing. This is the first drowning of the season in this vicinity.

Eau Claire—At a joint meeting of the officers of Bethel and Washington Baptist churches it was unianimously voted to ask Rev. E. B. Earle ti contiue his services as pastor of the two churches for another year.

Ashland—Presidents M. J. Fenenga of Northland college has been chosen president of the Ashland Y. M. C. A. The man who has made the phenomenal record in money raising for Northland college is expected to duplicate his performance for the Ashland Y. M. C. A.

Mayville—John A. Barney, ex-county judge of Dodge county, died at his home here Friday afternoon at the age of 70 years. He was judge of Dodge county for twelve years and held many other offices. He was a member of the Tenth Wisconsin volunteer regiment in 1864 and was in some of the southern battles. Lost his left arm in the Chicamauga battle.

Appleton—Miss Gladys Parker of Fennimore was crowned "Queen of the May" in the annual May festival at Lawrence college when the May pole was wound by sixteen of the prettiest co-eds at Lawrence. This ceremony was followed by the "garland dance."

Ashland—A party of paper manufacturers have been in the city inspecting the paper mills here. Among former Lieut. Gov. John Strange of former Liept. Gov. John Srtrange of Neenah.

Marinette—Judge Hastings has appointed Attorney James H. McGillan of Green Bay to assist District Attorney J. C. Morgan in the prosecution of the Schwittay criminal libel cases.

La Crosse—La Crosse won the oratorical contest at Sparta Friday night by defeating the Sparta and Viroqua high schools. Edward Mable of La Crosse capturing first place, his subject being "The Race Problem in the South."

Eau Claire—Frank Cody died May 14 at North Yakima, Wash. Mr. Cody left Eau Claire with his family four years ago this summer, which place he had since that time made his home. He was an old resident of Eau Claire, having worked as a saw filer in many of the sawmills in this vicinity. Mr. Cody was a cousin of William F. Cody, better known as Buffalo Bill.

MINNESOTA BRIEFS

Red Lake Falls—The presentation of the class play, always one of the interesting commencement events, will occur on Friday and Saturday evenings May 26 and 27. The members of the class of 1911 of the Red Lake Falls high school have been rehearsing for several weeks and on two evenings will give "Mr. Bob," a comedy in two acts.

Walker—Forty-six large cans of pike fry were dumped off the village dock into Leech lake last Thursday evening, Executive Agent Rider stopping off here with his car Glenwood, to deliver the spawn.

Staples—The Junction City (Kan.) Union recently contained an account of the death of Charles Rhoades, who had a stroke of apoplexy at Leavenworth, Kan., on Tuesday night, May 9. He was a so nof Mr. and Mrs. Jesse J. Rhoades, former residents of this place and he was born in Staples July 2, 1892.

Fosston—A large gang of railroad men have been stationed here the past week, engaged in transplanting trees upon the tracts picked by the company two years ago along their right-of-way for this purpose. The extreme weather of last summer dried out a portion of the first planting.

Blackduck—The first can of cream shipped from Blackduck to a creamery was shipped to Duluth recently by the Summit Mercantile company of this village. The capacity of the can was ten gallons and the cream was brought to town by a number of farmers the largest quantity being furnished by A. Gustafson whose farm—one of the best in the county—is four miles east of town.

Milaca—A summer school for the counties of Mille Lacs and Kanabec county teachers will be held at Milaca, beginning June 19. This school will be of six weeks duration and will be supplied with the best of instructors.

Wahkon—The frame work of the M. E. church was blown down during the high wind recently. As the new plans for the completion of the building call for the removal of that particular portion, the loss is practically nothing.

Onamia—Fred Berglund, living a short distance west of Onamia, had the misfortune to lose his house and contents from fire Wednesday. The family were absent from home at the time. There was only a small insurance.

Bemidji—Trout and pike fry, to the number of 175 cans, were distributed by the Minnesota game and fish commission from their private car the Glenwood, Thursday. The fish were put in the rivers and lakes at Park Rapids, Bagley and other points between Bemidji and Crookston.

Fergus Falls—Halvor Norman, aged 71, an old resident of Dane Prairie, died at the home of his neighbor, Martin Johnson, in that township Thursday evening from old age and intestinal trouble. Mr. Norman has been a resident of Dane Prairie for the past twenty-two years, and owns a farm there. He has a wife and a large family of children, but his wife left for Dakota some years ago and the children scattered, leaving him alone.

Bagley—Christ A. Larson of Shevlin is starting an egg association at Shevlin and he and his fellow members are just about ready to start to ship. They will ship in cartons and cater to the fancy trade at Duluth.

Minneapolis—After three hours of dellberation a jury in the case of George O. Hart, accused of running down Wallace G. Folsom with an automobile Feb. 3, inflicting injuries from which Folsom later died, returned a verdict of not guilty.

Stillwater—The St. Croix boom will start the sorting of logs on Monday with a prospect of operating all summer and that means that local sawmills will have a steady run both day and night. Good rains on the upper St. Croix have caused logs to move. Here are 100,000,000 left over last season that were driven into the main St. Croix. Back of them are 60,000,000 feet cut last winter and they are also moving.

DAKOTA BRIEFS

Minot, N. D.—The bricklayers on the Lexington hotel, which is to be raised to a four-story building, have started work on the third story. A large crew is at work on the building, and if the present good speed is kept up, the hotel will be finished by early fall.

Fargo, N. D.—Senator Wesley C. McDowell of Marion has been in the city arranging for the 1911 convention of the North Dakota State Bankers' association, of which he is president, and which will be held in this city June 27, 28 and 29.

Bismarck, N. D.—Articles of incorporation for the Bowbells Commercial club were filed with the secretary of state this morning. The incorporators are George H. Phelps, Jerry Donovan, B. M. Wohlwend and others.

Grand Forks, N. D.—A special term of the supreme court has been called for June 10 to be held at Grand Forks. This term is held each year to consider applications for admission to the bar and is arranged especially for university graduates.

Bismarck, N. D.—Following a conference between the governor, adjutant general and Col. Fraino, commanding the infantry regiment, a decision was made that the National Guard will go to Devils Lake for the annual encampment and not to Winnipeg as had been rumored.

Jamestown, N. D.—Saturday, May 27, will be aviation day at Jamestown. The Jamestown Commercial club last night closed a contract under which the daring bird man, Robert C. St. Henry, will fly from the fair grounds in this city in a Curtiss bi-blane, and give a complete demonstration of the wonder of the age. St. Henry is a spectacular aviator.

Grand Forks, N. D.—Edward Preble, charged with forging an indorsement on a check was dismissed from custody when he was arraigned in municipal court before Judge Purcell. Conductor Hill of the Great Northern, upon whom the check was passed, was not positive of the identity of the man.

Jamestown, N. D.—Plans are already being laid by the Jamestown W. C. T. U. for the annual convention of the state organization to be held in this city during the latter part of September. Appointment of committees to take charge of various features of the work has been made, while a number of other matters have also been cared for.

Minot, N. D.—Petitions are being circulated, asking that Philip Conroy, convicted of burglary and sentenced to twenty years in the state penitentiary, be pardoned. Conroy was sentenced two and a half years ago, his case being one of the noted ones in Northwestern North Dakota criminology. In the burglary, Conroy was accused of securing only $17, so that his time in the penitentiary is at the rate of about one year for each dollar that he was convicted of stealing.

Minot, N. D.—Paul Schiewek, the 3-year-old son of E. C. Schiewek, had a narrow escape from death Friday evening when he was struck by an automobile on South Main street and knocked about fifteen feet.

Aberdeen, S. D.—Alex Lanudry, 80 years old and a resident of the northwestern part of the state for thirty-five years, is a patient at St. Luke's hospital where he has undergone an operation in which one of his legs was removed just below the knee in hope of relieving him of an advanced attack of gout.

Grand Forks, N. D.—Mrs. Julia Thompson died Saturday morning at the county hospital at Manvel, death being due to old age, and the funeral was held at 4 o'clock Sunday afternoon from the Trinity Lutheran church in this city. Rev. G. O. Mona officiated.

"FORCE"

A real breakfast—the right sort of nourishment for the morning's work. Looks good, tastes good and gives the stomach genuine food. That's FORCE.

Made of whole wheat—the only food that alone sustains every function of the human body. We prepare it for you—in the most digestible and appetizing form—steam-cooked and blended with barley malt to supply you a food that is partially digested before you eat it.

Force gives you the most nutriment for the least money with the least tax upon your stomach.

LATEST SPORTING NEWS OF THE DAY

ALL IN READINESS FOR OPENING GAME OF SEASON

Fans Will Parade From City Hall to Athletic Park.

Mayor Will Deliver a Speech and Toss First Ball Across.

The big event of the season is near at hand; tomorrow the Minnesota-Wisconsin league season will be officially opened at Athletic park with appropriate festivities that promise to make the 1911 opening bigger and more imposing than any baseball getaway in the history of Duluth.

Mayor Cullum and the city officials have accepted the invitation of the Duluth Baseball association and will be on hand to lend dignity to the occasion. Two baseball teams, the Third Regiment band, the presence of a howling, cheering mob of fans, a string of automobiles and carriages, and some nice warm sunshine are also expected to furnish local color.

Promptly at 2 o'clock the parade will leave the city hall. Every owner of an automobile is asked to get in line and make the parade the biggest baseball demonstration that has ever been held in this city. The Third Regiment band, the two baseball teams and the mayor and city officials will form the vanguard, the long list of autos and carriages bringing up the rear.

At the ball park the mayor will deliver a speech appropriate to the occasion and will, following dear and honored old precedent, heave the pellet over the pan, or somewhere in the vicinity of the plate.

Team Has Good Record.

In other years the homecoming of the team has been somewhat dampened from the fact that the team has generally made a very poor showing on the road. Not so the present season. The team has won five games out of the ten played on the trip, out of the five lost, two being of the hard luck variety. Both the long game at La Crosse and the 1 to 0 defeat at Winona might have gone to the Sox, with a split in the luck.

However, there is no need of making excuses for the team. An even break on the first road trip of the season is all the fans could ask, and is more than the majority hoped for. The O'Brienites have been playing swell baseball and the fans are convinced that the present season Duluth is to be represented by one of the best teams the city has ever had.

Fred Cook's Commanches will be the opponents of the White Sox in the opening game on the home ground. Red Wing has been playing good baseball, and the team has been strengthened since the opening of the season by the return of Third Baseman Allan Black, one of the best players in the league, and additions to the hurling force.

The Sox are out to take three straight from the Indians. They are due to get off to a flying start tomorrow, and Woodburn, the young man who has been doing some sensational heaving on the trip, is scheduled to mount the mound.

Interest in White Sox.

Not since the Minnesota-Wisconsin league was organized, has there been so much interest in the team. The officials of the Duluth Baseball association have done all that the fans have asked, have spent good money to put a fast team in the field, and are out to give this city baseball of the best grade.

With a fine new park being constructed, with the prospects of the best all around team that has represented this city for years, and with a live, hustling management behind the team, the prospects are bright for a very prosperous season. With the team returning home after a good record on the initial road trip, the opening day promises to eclipse all former records, both in the matter of attendance and enthusiasm.

Tomorrow will be in the nature of a half holiday. Many of the business men have promised to give their employes the afternoon off to take in the game. Everybody is also expected to turn out, and with good weather conditions it is expected that the attendance will break all records at the park.

The game will be called at 3:30. The festivities preceding the game will start just as soon as the parade reaches the grounds. The band concert, the speech of the mayor and the throwing of the first ball, will start the game. The automobile horn brigade is also expected to take a prominent part in the demonstration.

J. J. Desmond will order the booster club buttons in a few days. The charter members of the club will be on hand tomorrow, including the man who sits back of home plate and tells the players what to do. Every detail has been looked after, and if the weather man will come out of the grouch, everything points to the biggest baseball day ever celebrated at the Head of the Lakes.

COMMENTS AND OPINIONS ON THE SPORTING PARADE

The Hydroplane the Coming Hobby of Speed Fiends—The Village Cutup—Sullivan Drops in—Britt and Nelson Once More.

(BY BRUCE.)

"BILLY" JONES is deeply and thoroughly convinced that the hydroplane is the coming boat; that in the next year we will be having hydroplane races on St. Louis bay, and believes also that there is a possibility that a hydroplane speeder may be seen at the coming carnival.

"A little over thirty miles an hour is the limit with the style of boat we are familiar with up here," says Mister Jones. "Compare this prosaic performance with the 57 miles per shining hour that they are doing in Merrie England. Can we stand that?"

Mister Jones was informed by interested bystanders that America was too proud a country to ever submit to speed humiliation.

"There is no doubt that the hydroplane is the racing boat of the future," continued "Bill." "They are making them now so that they can run in rougher water conditions and they are being improved all the time. They have proved a thorough success in England and have made motor boat racing in that country the rage. With a speed of over fifty miles an hour you can easily see where motor boat racing is going to take rank with the great interest that the wonderful speed of the automobile has excited.

"Speed is what the people want today, and the hydroplane appears to supply that craving. The water resistance of the hydroplane style of boat is so much less than that of the present make, that it is possible to secure the added speed. They are building the fastest boats in England with double screw propellers. With a single screw the boats would tip over. The driving power is something awful, and it has required years of study and experiment to perfect the hydroplane to its present stage of practical utility.

"In the future they should even improve upon the present manufacture, and may even increase the wonderful speed that is being made. Speed is making motor boat racing one of the greatest sports in the world, and when hydroplane racing becomes general in this country, the sport will draw even a large amount of general interest from thousands of sport lovers throughout the country."

Right Back to the Village Cutup.

TRYING to arrive at some conception of the meaning of "Jed," the name of the pesky gent who warbles sleepily at La Crosse, Wis., where the cits go down to the station to watch with languid air the arrival and departure of the rattler, we find that jedding in the dictionary means something with a flat surface and is naturally obtuse. Going further on our deduction, we come to the conclusion that "Jed" is also obtuse, and even more so.

Any one who would compare that collection of players from the city where they don't even know a baseball game is going on half the time, judging from the attendance records, with a nice, sprightly team such as the Irish Orator has gathered under his wing, should not be allowed out of sight of a guardian.

The old men's home yawns for some of the players on that team. It must be mortifying and humiliating to chronicle their doings. If the "Jed" person has suddenly gone batty, screaming in a mild delirium, shouting impossible things and in general going some toward proving that Old Man Darwin was on the right track, he must not be blamed, for the poor chap has been put to sore trial, and together with the village gossip notes and that terrible, terrible team, is, like the girl in the song, more to be pitied than censured.

He Raves and Violently Perspires.

A CERTAIN gent on the job of making us a brand new ball park has railed with picturesque language at the insinuation that at the present state of progress the park would not be completed before 1912. As long as he continues to perspire and doesn't linger too long over the picturesque language indulgence, progress will very likely be more satisfactory in the future.

Regarding that 30-cent an hour offer, is may be taken up, and if any one is drowned it will most likely be the gent who is on the job at the present time, and not the intruder.

In the meantime, Chauncey, wouldst thou hurry and allow progress to become thy pacemaker.

Ted Sullivan Just Slipped One Over.

TED SULLIVAN was here for a while Saturday afternoon. He had in his possession the swell solid gold watch and chain the citizens of Mineral Wells, Tex., presented to him in gracious gratitude for putting the place on the map.

It was Ted who scouted out the place and told Comiskey that it would be a great place for the Chicago White Sox to train at. The war correspondent proceeded to place the Texas resort on the sport map, and the citizens were duly grateful.

In presenting the watch to his royal Ted, the committee of citizens made it understood that it was not because Sullivan was a baseball man, or associated with baseball players, that he was given the watch, but because he was a sportsman and a man of good parts.

The Texas citizens entirely overlooked the fact that Ted had starred two leagues in Texas and has been known in the Lone Star state by several names ever since baseball was started down there. In Texas they have had some experiences with baseball men that have not been to their liking. That was the reason for stating that it was not because Sullivan was identified with baseball players. And Sullivan the man who taught the Texans the game!

Fight the Rubber Contest.

THE proposed fight between Battling Nelson and James Edward Britt will be somewhat in the nature of a rubber contest. Looking back over the records of the two men it will be found that Britt won the first fight between the pair on a decision that was a robbery, nevertheless the decision going in the records.

Then came the affair at Colma, which the little Dane took by the knockout route. Then came another twenty-round fight in San Francisco in which Britt was given the decision. That was the time Nelson ate the "$50,000 beefsteak." The last meeting between the famous pair took place at Los Angeles and was one of those no decision affairs.

This gives Britt two doubtful wins and Nelson a smashing knockout, which about balances things, counting the no decision affair as even. The fight in Philadelphia, if they do really fight, will most likely be the last, and it is a cinch that both of the boys will fight their heads off to get the verdict of the spectators, which is the only kind they have in Philadelphia.

CENTRAL WINS EASY VICTORY

Duluth Students Have No Trouble Defeating Nelson Dewey Team.

	Won.	Lost.	Pct.
Superior Normal	2	0	1000
D. C. H. S.	3	1	.750
S. C. H. S.	2	2	.500
Nelson-Dewey	1	2	.500
Irving H. S.	0	3	.000

Duluth Central easily defeated the Nelson-Dewey school of Superior Saturday in the High School league. The victory puts Central in second place.

Harris pitched a good game for Duluth and was given snappy support. After the third inning the outcome was never in doubt.

The Central team will meet Superior Normal, the league leaders, Wednesday. The score:

Duluth—	AB.	R.	H.	PO.	A.	E.
Waldon, 1b	6	0	2	8	0	0
Spencer, rf	5	4	3	4	2	1

"MOOSE LAKE RUBES" WIN

Moose Lake, Minn., May 22.—The Moose Lake Giants defeated the Columbias of Duluth, on the local grounds in a well played game by the score of 7 to 1. The visiting team came recommended as the best team in Duluth and the players were sure of defeating the "rubes of Moose Lake" as they called them. Two features of the game were a home run by Friedman and Brennen in the fifth inning. George Nevers was in the box for the locals and pitched a good game allowing five hits and striking out ten men. Following is the line-up and score by innings:

Columbias—	AB.	R.	H.	PO.	A.	E.

Bases on balls—Off McKenna, 1; off Nerver, 2. Hit by pitched ball—By Nerver, 3. Left on bases—Moose Lake, 5; Columbias, 6. Stolen bases—McKenzie. Scorer—E. H. Johnson.

CLOQUET WINS FROM FITWELLS

Talbot and Johnson Clouted Hard in the Lumber Town.

Cloquet, Minn., May 22.—(Special to The Herald.)—Talbot and Johnson, the Fitwells' star twirlers, held no terrors for the local aggregation in the game played here yesterday, Cloquet gathering a total of twelve hits, netting eleven runs, while the Fitwells secured six hits off Carlson and scored once on a wild throw to second. Loisel playing first base for Cloquet made a number of spectacular put-outs.

Cloquet is more than satisfied with a victory over their rivals, but the size of the score was a surprise to all. The local team has been putting up a fine article of ball this year, and hopes to capture the amateur championship in this section of the state. Score:

CORNELL WINS THREE-CORNERED RACE.

Princeton, N. J., May 22.—Cornell Saturday won the three-cornered boat race with Yale and Princeton. Cornell finished the mile and three-quarters in 9 min. 1 sec. Princeton was second and Yale third.

It was the renewal of aquatics between Yale and Cornell, these two institutions having severed rowing relations more than twelve years ago, when Harvard, Yale and Cornell contested at New London, Conn.

The surprise of the race was the splendid oarsmanship of Princeton.

COLONELS AND BLUES EACH TAKE A GAME.

Louisville, Ky., May 21.—Kansas City and Louisville broke even yesterday in a double-header, Louisville winning the first game by 9 to 2 and Kansas City taking the second, 5 to 4. Home runs by Hayden and Hughes, and catches by Grimshaw and Hayden were the features. Pfeister, the ex-Chicago National pitcher, joined the locals yesterday and will be in today's game. President Chivington of the American association and Owner George Tebeau of the Kansas City club saw yesterday's double-header.

First game—

Score:			R.	H.	E.
Louisville	0	0	1	0	0	3	2	x	—9	6	3
Kansas City	2	0	0	0	0	0	0	0	—2	9	3

Batteries—Siagle and Hughes; Rhoades and James. Umpires—Hayes and Handiboe.

Second game—

Score:									R.	H.	E.
Louisville	0	0	0	0	0	0	3	1	0—4	13	0
Kansas City	2	0	0	1	1	0	1	0	0—5	11	1

Batteries—Lindaman and Orendorf; Altrock, Brandom and O'Connor. Umpires—Hayes and Handiboe.

MINNEAPOLIS BREAKS TOLEDO'S WINNING STREAK

Toledo, Ohio, May 22.—Minneapolis broke Toledo's winning streak yesterday, hitting James hard and taking the contest, 7 to 1. Cavet kept the locals' hits well scattered. Score:

	R.	H.	E.
Toledo	0 0 0 1 0 0 0 0 0—1	5	6
Minneapolis	2 1 0 0 1 0 0 3 x—7	8	0

Batteries—W. James and Rapp and Adams; Cavet and Owens. Umpires—Owens and Eddinger.

STEINFELDT PLAYS FIRST GAME WITH SAINTS.

Indianapolis, Ind., May 22.—After a rain storm put an end to the first game of a scheduled double-header in the third inning with the score 4 to 0 against them, the locals easily defeated St. Paul in the second, 10 to 1. Steinfeldt, formerly of the Chicago Nationals, played his first game with St. Paul yesterday. During the progress of the storm, a section of the roof of the grandstand was blown down, but no one was seriously hurt.

Score:									R.	H.	E.
St. Paul	0	0	0	0	0	1	0	0	0—1	7	4
Indianapolis	1	0	0	2	3	3	3	x	—10	18	0

Batteries—Chech and Spencer; Webb and Ritter. Umpires—Ferguson and Chill.

BREWERS PULL GAME OUT OF THE FIRE.

Columbus, Ohio, May 22.—On six hits, two passed balls and errors by Mahling and Perring, Milwaukee secured seven runs in the last two innings and won yesterday's game, 11 to 10 Sensational plays by Bonnin and Mahling in the ninth kept the score from mounting higher. Score: R. H. E.

Milwaukee	0	0	0	0	0	0	0	3	4	—11	12	3
Columbus	4	2	0	0	2	1	1	0	1	—10	13	2

Batteries—Gilligan, Marion, McGlynn and Marshall; Packard and Arbogast. Umpires—Bierhalter and Weddige.

WEST END

COMPROMISE ON CAR LINE

Rival Factions in West End Expected to Get Together.

Although the old feeling against the Twenty-first avenue west street car line "cut-off" has been revived to some extent by the members of the old Sixth Ward Business Men's club, which was organized two years ago to oppose the proposition, a compromise my be agreed upon, which will be satisfactory both to the merchants on Superior street and the hillsiders.

This compromise is that the cut-off line shall be built and the schedule of Third street cars divided between the Piedmont avenue hill and the cut-off. For instance, East Fourth and Fifty-seventh avenue west cars could run over the hill and the East Fourth and Grand avenue line, via the "cut-off."

With the added assurance of better service on the Piedmont avenue line, a ten minute service replacing the twenty minute service schedule, and the compromise arrangement suggested, it is possible that the fight which has been brewing, may not develop.

STILL SEARCHING FOR RELATIVES.

Funeral arrangements have not been made for Dan Conway, the millworker, who committed suicide Saturday by drowning in the boom of the Alger-Smith mill, foot of Garfield avenue. As yet none of his relatives have been located. He is supposed to have a brother residing at Kenton, Mich., and a sister and mother in Canada.

Conway had worked for the Alger-Smith company for twenty-seven years. For the past eleven years he boarded with Joe Landry, 1131 Garfield avenue. The body is held at the undertaking establishment of Olsen & Crawford, 2118 West First street.

Surprise Party.

Bert Broadbridge was pleasantly surprised Saturday evening by a number of friends at his home in the West end. Cards were played, refreshments were served and the occasion was an enjoyable one. Those present were: Misses Edna Nelson, Evelyn Eckholm, Emily Essen, Mabel Olson, Elizabeth Shoshie, Amelia Berg, Hannah Erickson, Minnie Leslie, Elvina Thibideau, Cecil Rosan, Esther Mork, Gertrude Miller, Mary Novack, Lucy Gardner, Jordina Seiseth, Gladys Broadbridge, Jessie Broadbridge and Esther Ackerman and Messrs John Donavan, Ray St. Germain, Harry Ross, Irving Thompson, Sylvester Hamilton, Jack Holter, Earl Edwards, Clifton Holmes and Paul Essen.

Will Present Comedy.

The young people of the St. Jean Baptiste Catholic parish will present a comedy entitled "Next Door" this evening at the school hall, on West Third street between Twenty-fourth and Twenty-fifth avenue west. Miss Delia Cheverette is in charge of the play. Rehearsals have been held for the past three weeks.

Ostenson-Baker.

The wedding of Miss Edith Marie Ostenson, daughter of Mrs. C. Ostenson of the West end to Harry Wallace Baker of this city, will take place Thursday evening at 8 o'clock at the home of the bride's mother, 21 North Twenty-seventh avenue west.

West End Briefs.

J. Merrick will return this evening to his home at Elkhorn, Wis., after a visit at the home of his daughter, Mrs. George Jewell of the United States block. Mrs. Jewell will accompany him for a few days' visit.

The funeral of Percy Armstrong, 6-year-old son of Mr. and Mrs. J. T. Armstrong, 933 Garfield avenue, who died Saturday afternoon of appendicitis, was held this afternoon from the home to Forest Hill cemetery.

Mr. and Mrs. E. A. Thompson and family have moved from the East end to No. 2311 West Fourth street.

John Geistman and Albert Anderson left yesterday morning for a few days' fishing at Pike Lake.

Herman Osterburg has returned to his home at Roseau, Minn., after a visit at the home of his brother, Dr. A. Osterburg.

Mrs. J. W. Eckblad of 2301 West Third street has gone to Scandia, Kansas, where she will visit with relatives.

Mrs. James Maghan of 1819 Piedmont avenue, will entertain the Ladies Aid society of the Second Presbyterian church, at her home, Wednesday afternoon.

Mrs. Cotton Mather of Colorado Springs, Colo., general secretary of the Women's Home and Foreign Missionary socvieties, preached last evening at Grace M. E. church, Twenty-second avenue west and Third street.

Mr. and Mrs. Joseph Olson of 2118 West First street have gone to Lake Nebagamon, Wis., for a few days' visit.

D. C. L. Haney returned this morning from a trip to the southern part of the state.

The trustee board of the First Swedish M. E. church will meet this evening at the church, Twentieth avenue west and Third street.

IN HONOR OF WISCONSIN MEN

State Memorial at Vicksburg National Military Park Is Unveiled.

Vicksburg, Miss., May 23.—Wisconsin's memorial to her soldiers of the Civil war, erected in the Vicksburg National Military park, was unveiled today with impressive ceremonies. Governor Francis E. McGovern of Wisconsin and a party of state officials and Union veterans witnessed the unveiling. The Warren Light artilery of this city fired a salute as the governor's party assembled around the monument.

Chairman H. P. Bird of the Wisconsin Park commission presented the memorial to Governor McGovern, and Miss Florence Weissert released the cord, allowing the flags to fall from the monument.

Governor McGovern, in a brief address, accepted the memorial and immediately afterward presented it to the keeping of the United States. Maj. Gen. Fred D. Grant, U. S. A., accepted the monument on the part of the United States, and Governor Noel of Mississippi delivered an address which was followed by "Dixie."

Address by J. L. Jones.

The dedicatory addresses were delivered by Rev. Jenkin Lloyd Jones. The exercises were closed by the entire assemblage singing the chorus of the "Star Spangled Banner."

The memorial, a towering shaft of granite surrounded by equestrian figures of bronze, presents an artistic appearance. It is situated on a prominent height and is surrounded by a number of impressive monuments erected by the states to their departed soldiers.

SOME SCENES IN JUAREZ, MEXICO, AFTER THE BATTLE

THE PUBLIC LIBRARY.

ONE OF THE ADOBE BUILDINGS.

A large part of the buildings in Juarez, Mex., are built of adobe, and the bullets and heavier missiles fired during the battle, in which the insurrectos captured the city recently, worked havoc with the walls. The fight in that city was exceedingly hot at times. The place finally was captured by the insurrectos, and was made the seat of government of the Madero forces.

EFFORT TO SAVE WOMAN DROPPED

Murderess at Canadian Soo Says She Is Ready to Be Hanged.

Sault Ste. Marie, Mich., May 22.—(Special to The Herald)—Whether Mrs. Angelina Neopolitana will be hanged for the cold blooded murder of her husband in Sault Ste. Marie, Ont., is still a question. Apparently the bottom has fallen out of the movement that was launched to secure the commutation of the death sentence recently imposed upon her. The petitions have disappeared and no one appears to be working in her behalf in the city where she is held a prisoner.

The woman refuses to talk with any one and declares she is ready and wants to die. No application has been made for the adoption of her unborn babe, but the four other children have been taken in at the Childrens' Aid Shelter home. The self-confessed murderess if 28 years old and immigrated direct to Sault Ste. Marie, Ont., when she was only 18 years old. Her relatives still are in Italy. Experts who have watched the actions of the woman but who have not officially examined her, declare that she was sane when she killed her husband, Peter, a laborer, with an ax, because he had wounded her with a knife six months before.

Unless the movement now on foot in Toronto is successful in securing the commutation of her sentence, the woman will surely be hanged as sentenced.

WORK IS CURTAILED.

Oliver Mining Company Reduces Working Time at Ironwood.

Ironwood, Mich., May 22.—(Special to The Herald.)—Beginning today the night shifts at the Puritan, Pabts, Aurora, East Norrie and Norrie properties of the Oliver Iron Mining company on this range, will be dispensed with for an indefinite period. These mines will be worked only day shift after today and the men kept at work will only work four shifts one week and five shifts the next week. The Tilden mine at Bessemer will work full force as will also the Atlantic mine at Iron Belt and also the company's explorations, the New Davis Geneva, east of Ironwood and the Plummer mine at Pence.

Married men will be retained as far as possible, following the usual custom of letting off the single men first. A great number of surface men have been left off and the remaining men following the same rule as the miners, four shifts one week and five the next.

This curtailment means the letting out of employ of about 400 men.

It is the expectation that all the stock piles in Ironwood will be shipped by next fall. The slow movement of iron ore sent down last year from the docks to the furnaces is the probable reason for the curtailment just at this time. This effects all the mines of the company on the Lake Superior ranges, many of which have been working with reduced forces for some time past.

TO WED IN KANSAS.

Ironwood Young Man to Marry Former School Teacher.

Ironwood, Mich., May 22.—(Special to The Herald.)—Howard Snyder left last week for Bucklin, Kan., where he will be married this week to Miss Mary Duncan, a former teacher of the North side school. After a wedding trip they will return to Ironwood and reside on Gogebic street. Mr. Snyder is the second son of William D. Snyder, Ironwood's city clerk, and a graduate of the Luther L. Wright high school. He held a position for a long time with the People's Banking company, later accepting a position as bookkeeper with the Scott & Howe Lumber company.

Mrs. George Brewer and her brother, Joseph Smith, have gone to Ormsby, Ontario to settle up the estate of their brother, Samuel Stanlake, who died there last January.

Miss Florence Sutherland, whose injuries were noted in this paper Saturday, was brought home in a special car by her parents, Supt. and Mrs. D. E. Sutherland, accompanied by Dr. Whiteside.

The funeral of Giovanni Strazzabosco was held Saturday morning from St. Ambrose Catholic church, and was largely attended. Deceased was an experienced miner, having worked at other mines in this city and being employed at the Pabts mine for the past year. He was 38 years old and leaves a wife and two children in Italy.

IRON AND STEEL REVIEW

New York, May 22.—The promise of larger business in the iron and steel trade is yet to be fulfilled. Railroad buying last week was more contracted. Car and locomotive orders were insignificant and railroad buying last week was more contracted. Car and locomotive orders were insignificant and rail contracts aggregated only 30,000 tons.

A temporary flurry in soft steel bars was caused by aggressive selling of hard steel and iron bars on a basis of 1.20c to 1.25c at the mill, but after canvassing the situation, the mills rolling soft steel bars refused to meet the competition, holding prices firmly at 1.40c base. The result, however, was to check the placing of important new contracts for soft steel.

Transactions in fabricated steel for buildings and bridges, were large in number but not in tonnage. Orders were placed calling for 20,000 tons of steel shapes and bids were submitted of 15,000 tons additional.

RUSHING WORK ON NEW PLANT

International Falls Big Sawmill Expected to Be Running By July 1.

International Falls, Minn., May 22.—(Special to The Herald.)—The crew of men working on the sawmill is putting in strenuous hours these days, word having been given the superintendent to rush the work to completion. The log slip has been completed and now the interior carpenter work is under way, while millwrights have commenced the task of placing the machinery. It is thought that there will be no trouble in having the mill in operation by July 1.

Mrs. George Holler attended the state convention of the Lady Maccabees of the World at St. Paul as a delegate from International Falls Hive No. 21.

Miss Katherine Riley will arrive soon from Hibbing, where she has been employed for several years as head nurse in a hospital, to make her home with her sister, Mrs. John Infelt, and to accept a position as cashier in Mr. Infelt's meat market and grocery store.

Miss May Simmons, teacher of the public school at Indus, has sufficiently recovered from a combined attack of scarlet and typhoid fever to be removed to her home at Minneapolis.

P. S. Pendergast has established his boxball bowling alley on the Clark lot between Burton's and the International bakery.

Neighboring town are busy with the preliminary arrangements for Fourth of July celebrations, but by the same token we presume that the business men of International Falls are going to take a vacation on the Fourth this year.

Norwegian Celebration Success.

The first Norwegian independence day celebration here was a splendid success, a considerable degree of the latter being due to the activity of the committee in charge. A large number of citizens joined in the festivities, while many Scandinavians from points throughout the county took a day off and enjoyed the speeches, sports and music. The International Falls band made its first appearance in uniform and added much to the pleasure of the day by their splendid music. Mayor Colburn delivered an address of welcome at the baseball park. City Attorney McFarlin spoke on "The History of Norwegian Independence," and Aad A. Tone on "The Great Achievements of the Norwegian People." Following the speeches, which proved highly interesting, Northome and the local team played a game of ball, the locals making seven scores and shutting out the visitors.

A dance for the benefit of the International Falls band will be given at the city hall on next Friday evening.

Master's band made its first public appearance last Friday evening, on the occasion of the baseball dance, and much favorable comment upon the quality of the music was heard.

Lockout in Prussia.

Munster, Westphalia, Prussia, May 22.—A lockout in the textile manufacturing district was declared today. Ten thousand operatives are affected.

CLAIMS REPORTED UPON.

Seven Hundred From Alaska Have Been Concluded.

Seattle, Wash., May 22.—Final report has been made by the field division of the general land office on 700 of the 1,100 Alaska coal claims. The report has not been made public, but so far as known, none of the claims has been found valid. In the Tanana field all these locations have been cancelled because no application for patent was made. In the Cape Lisburne field, where a bluff of coal overhangs the shore of the Arctic ocean, all but two of the locations have been cancelled. The remaining 400 entries are now under investigation.

This condition of affairs, land officials say, is sufficient reply to the charge that the government is delaying the opening of the Alaska coal claims.

In the indictments returned by federal grand juries in Detroit, Chicago, Spokane and Tacoma against the promoters of various Alaska coal groups charges are made that large groups of coal claims in Alaska, are controlled by a few persons and that individual locators have no interest whatever in the claims.

WHOLE FAMILY IS KILLED BY TROLLEY.

Newark, Ohio, May 22.—The entire family of D. W. Dodson of Hebron was killed Sunday when an interurban car on the Newark division of the Ohio Electric railway struck their buggy and killed Dodson, aged 30; Mrs. Dodson of the same age, and their two little girls, aged 7 and 4.

According to officials of the railway, the Dodsons were passing a west-bound car, when their horse became frightened and plunged across the track. Motorman Bell was unable to stop in time to prevent the accident.

LEGAL NOTICES.

SHERIFF'S EXECUTION SALE—

Under and by virtue of an Execution issued out of and under the seal of the District Court of the State of Minnesota, in and for the Eleventh Judicial District, and County of St. Louis, on the 20th day of April, 1911, upon a judgment rendered and docketed in said Court and County in an action therein, wherein Frerker Bros. & Co. was Plaintiff, and A. L. Hoverson was Defendant, in favor of said Plaintiff and against said Defendant, for the sum of Four hundred thirty-one and 93-100 dollars, and Seventy cents increas'd costs, and whereas the property hereinafter described was on the 8th day of February, 1911, duly attached in said action, which said execution has to me, as sheriff of said St. Louis county, been duly directed and delivered, I have levied upon and will sell at public auction to the highest cash bidder, at the Sheriff's Office in the Court House, in the City of Duluth, in said County of St. Louis, on the 10th day of June, 1911, at ten o'clock in the forenoon of that day, all the right, title and interest that the above named judgment debtor had in and to the real estate hereinafter described on the eighth day of February, 1911, that being the date of the attachment of said real estate, or any interest therein which said judgment debtor may have since that day acquired. The description of the property being as follows, to-wit: Lot numbered ten (10) in block numbered one hundred fifty-eight (158), Portland Division of Duluth, according to the plat thereof on file and of record in the office of the register of deeds of St. Louis County, Minnesota, said real estate being in said county.

Dated, Duluth, Minn., April 20th, 1911.

JOHN R. MEINING,
Sheriff, St. Louis County, Minn.

Sale of School and Other State Lands

STATE OF MINNESOTA, State Auditor's Office.

St. Paul, May 5, 1911.

Notice is hereby given that on June 21, 1911, at 10 o'clock A. M., in the office of the County Auditor, at Duluth, St. Louis County, in the State of Minnesota, I will offer for sale certain unsold state lands, and also those state lands which have reverted to the State by reason of the non-payment of interest.

Terms: Fifteen per cent of the purchase price and interest on the unpaid balance from date of sale to June 1st, 1912, must be paid at the time of sale. The balance of purchase money is payable in whole or in part on or before forty years from date of sale; the rate of interest on the unpaid balance is four per cent per annum, payable in advance on June 1st of each year, provided, the principal remains unpaid for ten years; but if the principal if paid within ten years from date of sale, the rate of interest will be computed at five per cent per annum.

Appraised value of timber, if any, must also be paid at time of sale.

Lands on which the interest is delinquent may be redeemed at any time up to the hour of sale, or before resale to an actual purchaser.

All mineral rights are reserved by the laws of the State.

Lists of lands to be offered may be obtained of the State Auditor or the State Commissioner of Immigration at St. Paul, and of the County Auditor at above address.

SAMUEL G. IVERSON,
State Auditor.
D. H., May 8, 15, 22, 29, 1911.

NOTICE is hereby given that the name of the steamer "Mascotte," built in 1885, official number 91,772, measuring 162 gross tons, has been changed to Columbia, pursuant to application made and granted in accordance with the provisions of the navigation laws of the United States, and the rules and regulations now in force under such laws.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND—

State of Minnesota, County of St. Louis ss.

District Court, Eleventh Judicial District.

In the matter of the application of Mary Bunnell, to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: Lots Two Hundred and Seventeen (217) and Two Hundred and Nineteen (219), on Lake avenue, Lower Duluth, according to the recorded plat thereof on file and of record in the office of the Register of Deeds for said St. Louis County, Minnesota,

Applicant,

vs.

Stella M. Young, Carl A. George, Verne Olney, Oatka Methodist Episcopal Church of Duluth, Minn. and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein,

Defendants.

The State of Minnesota to the above named Defendants:

You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the Clerk of said Court, in said County, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and, if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the court for the relief demanded therein.

Witness, J. P. Johnson, Clerk of said Court, and the seal thereof, at Duluth, in said County, this 20th day of May, A. D., 1911.

J. P. JOHNSON,
Clerk.
By B. G. RILLING,
Deputy.

CERTIFICATE OF INCORPORATION —OF— AMERICAN LAND & TIMBER COMPANY.

KNOW ALL MEN BY THESE PRESENTS, That we whose names are hereunto subscribed do hereby associate ourselves together under the Constitution and General Laws of the State of Minnesota, and more particularly under the provisions of Chapter 58 of the Revised Laws of said state for the year 1905, as a corporation, under the name and for the purposes hereinafter set forth, and to that end do hereby subscribe and acknowledge this Certificate of Incorporation.

ARTICLE I.

The name of this corporation shall be AMERICAN LAND & TIMBER COMPANY, and the general nature of its business shall be the buying and selling of timber, timber lands and other lands; the acquiring, owning and improving of lands, tenements and hereditaments and selling the same; the colonization and selling of lands to actual settlers; the cutting and logging of timber and selling the same, and the manufacture and sale of lumber and other timber products, and the acquisition, construction and operation of any mills or factories and power plants necessary or suitable to effectuate such purpose; the business of this corporation to be carried on in the State of Minnesota and in any other state or country where this corporation may be or become qualified and entitled to engage in such business or any thereof. The principal place of transacting the business of this corporation shall be in the city of Duluth in the County of St. Louis and State of Minnesota, and it may have such branch offices as may be determined by the Board of Directors of such corporation.

ARTICLE II.

The time of the commencement of this corporation shall be the tenth day of June, A. D. 1911, and the period of its duration shall be thirty (30) years.

ARTICLE III.

The names and places of residence of the incorporators of this corporation are as follows: J. L. Washburn, John G. Williams and A. McC. Washburn, all residing at Duluth, Minnesota.

ARTICLE IV.

The government of this corporation and the conduct of its affairs shall be vested in a board of three (3) directors, who shall all be stockholders, and except as herein provided, shall be elected by the stockholders at their annual meeting, which shall be held on the last Monday in June of each year, and who shall, within ten days after their election, elect the following officers, to-wit: a President, a Vice President, a Secretary and a Treasurer. The office of Treasurer may be held by any other officer, and the offices of Secretary and Treasurer may be held by persons who are not members of the Board of Directors.

The Board of Directors may appoint such additional officers or agents as it may deem necessary to aid in the conduct of the business of the corporation, prescribe the duties thereof and discharge the same at will.

The first annual meeting of this corporation shall be held on the last Monday in June, 1912, and until such time the following persons shall constitute the Board of Directors of this corporation, to-wit: J. L. Washburn, John G. Williams and A. McC. Washburn, and until the directors chosen at such annual meeting shall elect officers and such officers shall qualify, the officers of this corporation shall be as follows, to-wit: J. L. Washburn, President; John G. Williams, Vice President; Lillian I. Feetham, Secretary, and J. L. Washburn, Treasurer. The regular officers of this corporation shall hold office for the period of one year, or until their successors are elected and qualify; but vacancies occuring either in the membership of the Board of Directors or in any of the offices of this corporation, shall be filled by the Board of Directors until successors shall be elected at the succeeding annual meeting and shall qualify.

The Board of Directors of this corporation may adopt such By-Laws as it deems needful for the conduct of the affairs of this corporation.

ARTICLE V.

The amount of the capital stock of this corporation shall be Five Hundred Thousand Dollars ($500,000), and the same shall be divided into five thousand (5,000) shares of one hundred dollars each. The same shall be sold only at par, either for cash or property deemed by the Board of Directors to be equivalent thereto, and the same shall be paid in as called for by the Board of Directors.

ARTICLE VI.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be the sum of Six Hundred Thousand Dollars ($600,000), and it shall be lawful at any time for this corporation to issue its notes, bonds or other obligations, within the limitations above prescribed, upon such terms as may be determined by the Board of Directors or the stockholders, and to secure the same by mortgage deed or mortgage upon any of the property which it may acquire, in such form as may likewise be determined.

IN TESTIMONY WHEREOF, The said incorporators have hereunto set their hands and seals this 15th day of May, A. D. 1911.

J. L. WASHBURN. (Seal)
JOHN G. WILLIAMS. (Seal)
A. McC. WASHBURN. (Seal)

Signed, Sealed and Delivered in Presence of:
JOHN A. SINCLAIR.
CHESTER WRIGHT.

State of Minnesota, County of St. Louis —ss.

On this 15th day of May, 1911, before me, a Notary Public within and for said County, personally appeared J. L. Washburn, John G. Williams and A. McC. Washburn, to me known to be the identical persons described in and who executed the foregoing Certificate of Incorporation as incorporators, and they acknowledged that they executed the same as their free act and deed.

MINNESOTA POWER COMPANY HAS COMPLETED ITS PLANS

After Seventeen Years It Is in Possession of Valuable Properties.

Will Have Complete System of Reservoirs and 600-Foot Fall.

George Brauning, president of the Minnesota Canal & Power company, writing to a Duluth man, says that after seventeen years of labor the power company is about prepared to announce its plans for the supplying of power and light to Duluth and its citizens. He says the company has sufficient lands to develop many reservoirs and a 600-foot fall of water.

A part of his letter follows:

"Individually, and as president of the Minnesota Canal & Power company, I am, and in fact have been for many years interested in the progress of Duluth and its industries.

"After seventeen years of most assiduous labor, in conjunction with the late Mr. O. H. Simonds and other gentlemen of Duluth and Chicago, the Minnesota Canal & Power company, because of the merits of its enterprise and the worth of its project has overcome the temporary set backs, and prospered to the point where it finds itself in possession of many lands, rights and invaluable governmental permits, which will permit us to build and control an unparalleled reservoir system, which with a 600-foot fall, will enable us to supply Duluth, its citizens and industries with continuous power at a reasonable rate.

"As Duluth and its surroundings advance, the company will be able to keep pace with the development, and furnish all of the continuous power required by the activities and exigencies of the hour. We will do our best to help make Duluth one of the greatest cities of the Northwest by attracting to its borders such industries as will be anxious to use power at a reasonable rate. Day in and day out; year in and year out, continuous power will be supplied.

"Before long, we will announce our plans, in detail and we have no doubt that the public will be attracted to us. We will earn their confidence and then keep it by fulfilling our promises in supplying all the power that can be used by Duluth for many years to come."

CITY BRIEFS

Printing and Bookbinding
Thwing-Stewart Co. Both 'phones, 114.

Civil Service Application.
Applications are being received by Ruben Johnson, secretary of the civil service commission for rodmen, chainmen and axmen for the city engineer's office. The positions have been under civil service for more than a year.

Pleads Not Guilty.
Mike J. Brown pleaded not guilty when arraigned in police court this morning on a charge of having assaulted his wife. He will be tried Thursday morning. He is a farmer working a short distance from the city.

New Contracting Firm.
W. H. Tischer and B. Kribsback have formed a partnership for the purpose of doing contract work. At present they are building a concrete bridge near the Jean du Luth stock farm.

Buys Savoy Theater.
W. M. Abrahamson today bought the Savoy theater. It will be closed for a week to redecorate, remodel and provide new exits, etc., and will open next Sunday as a vaudeville and picture theater of the high class. Mr. Abrahamson will spare no expense to make the new Savoy the model family theater of Duluth.

County Board Meeting.
The county board will meet June 6 at the county board room at the courthouse. Only routine business has up to this time been filed with Clerk J. O. Walker.

New Soda Fountain.
Victor Hout has put in a handsome new fountain and counter in his confectionery store. The top of the counter is of a new composition of glass, as white as marble but much harder and with a surface which will not stain. The fountain and water connections are all of German silver and the vats for the ices and creams are of the same metal. A new ice box has also been put in with white doors ornamented with silver.

Decision Is Withheld.
The hearing in the appeal of N. F. Nelson and other property owners on Grand avenue, whose property was recently condemned by the board of public works that Ramsey street might be opened, came before Judge Cant of the district court Saturday afternoon. There was no decision. Eight lots footing on Grand avenue are affected by the opening of the street. A part of each lot was taken and the owners object.

Petition in Bankruptcy.
Don M. D. McGraw, an insurance solicitor, has filed a petition in voluntary bankruptcy in United States court. He places his liabilities at $1,496.04 and his assets at $115, all claimed exempt.

Girl Is Deported.
Pauline Christenson, aged 20 years, was taken in charge today by immigration officials from the Minneapolis office and she will be deported to Norway. She came to this country about two years ago and has tuberculosis of the throat.

New Sewer System.
Work on the new sewerage system at the county poor farm was begun today. The improvement will cost in the neighborhood of $900.

Falls Through Window.
F. Claybo, aged 33, woodsman, fell through a plate glass window in the North Star saloon on the Bowery this afternoon and cut his throat. It is not thought that his injuries will prove fatal. Clarbo was removed to St. Mary's hospital. He is employed by the Alger-Smith Lumber company.

Police Secretary Ill.
Fred S. Johnson, secretary to Chief of Police Troyer, is seriously ill at his home on Lake avenue south. He will be unable to attend to his duties for some weeks.

Saloonkeeper Fined.
Lewis Lenisher pleaded guilty in police court this morning to keeping the saloon at 216 Central avenue open on Sunday. He admitted that he had been pushing foaming beakers over the mahogany yesterday, despite the fact that it was Sunday. He paid a fine of $100.

Admits Disorderly Conduct.
Louis Di Giacomo was arraigned in police court this morning on a charge of disorderly conduct. It is alleged that he drew a knife after he got into trouble with another man in a West Superior street pool room. He pleaded guilty, but his case was set over until this afternoon for further investigation.

Public Accountant and Auditor.
James S. Matteson has removed his office to Suite 703, Alworth building. Telephone, Melrose 4700.

FOR RENT—SIX-ROOM BRICK FLAT all conveniences except heat; $26 per months; 620 East Fifth street; inquire 412 East Fourth street.

WE MAKE SWITCHES FROM COMBings, repair and dye the old one. Mail orders prompt attention. Marinello parlors, 301 Fidelity building.

BIRTHS.

LOGAN—A son was born to Mr. and Mrs. M. Logan of 132 South Twenty-eighth avenue west, May 20.

NATORNEY—A son was born to Mr. and Mrs. P. Natorney of 1922 West Michigan street, May 17.

TYSKLING—A son was born to Mr. and Mrs. G. Tyskling of 1125½ West First street, May 17.

ANDERSON—A daughter was born to Mr. and Mrs. A. Anderson of 3912 West Seventh street, May 15.

PETERSON—A son was born to Mr. and Mrs. J. E. Petereon of 1726 New street, May 12.

ERICKSON—A son was born to Mr. and Mrs. E. Erickson of 1016 West First street, May 20.

DEATHS AND FUNERALS

Monuments direct from factory, no store rent, no agents; you save 25 per cent. Charles Benson, cut stone contractor, 2301 West Second street, or 'phone me, Lincoln 334, new 'phone.

MONUMENTS—Hundreds in stock. P. N. Peterson Granite Co., 332 E. Sup. St.

BUILDING PERMITS.

To P. Berg, frame dwelling, Minnesota avenue between Twenty-seventh and Twenty-eighth streets south....	$800
To C. Hall, shooting gallery, St. Croix avenue	200
To E. B. Gates, frame dwelling, Sixtieth avenue east and Glenwood street	1,500
To A. Reinke, stone basement, East Fourth street, between First and Second avenues...	300
To J. D. Molitor, alterations, West Superior street between Lake and First avenues	400

A. O. U. W.

Joint meeting of Workmen lodges Thursday evening, May 25, at Maccabee hall, 23 Lake avenue north. All workmen should attend. See notice tomorrow.

PERSONAL

R. J. Meining of Los Angeles, a brother to Sheriff John R. Meining, is in the city.

John Stanford and wife are at the McKay.

Gust Carlson and wife of Hibbing are at the McKay.

Robert Murray of Hibbing is at the McKay.

Mrs. B. O. Straham of Ely is at the McKay.

Clifford Marr of Hill City is at the McKay.

J. F. Willie of Hibbing is at the St. Louis.

Martin Hughes of Hibbing is at the St. Louis.

Carl Thiel of Hibbing is at the St. Louis.

G. Williams of Virginia is at the St. Louis.

W. Marsella of Two Harbors is at the St. Louis.

A. Paulson of Gilbert is at the Holland.

F. S. Adams of Deerwood is at the Holland.

Conductors' Dance

Given at the Auditorium, Third avenue east and First street, Wednesday evening, May 24. Lunch served in building. Tickets $1.00.

OSBORNE IS TO SERVE MICHIGAN

Scouts Report He Will Resign Governorship for Cabinet Office.

Sault Ste. Marie, Mich., May 22.—(Special to The Herald.)—When asked concerning Washington rumors that he had been tendered a place in President Taft's cabinet, or would be offered such a place, in the near future. Governor Osborn, who spent today and Sunday here with his family said:

"I am going to serve the state of Michigan as governor for the next two years. My duty lies at the head of the state's government and I am going to give my time in that direction."

The governor will leave here this evening for Lansing.

Postmaster at Rush City.
Washington, May 22.—(Special to The Herald.)—The president today nominated Samuel C. Johnson to be postmaster at Rush City, Minn.

Mrs. O. H. P. Belmont Has Established Model Farm School for Girls at Estate on Long Island

THE BELMONT FARM FOR GIRLS.

HOME OF PUPILS ON MRS. BELMONT'S FARM FOR GIRLS.

Following the example of some English philanthropists, Mrs. O. H. P. Belmont has established a farm school for girls on her estate of Brookholt, near Hempstead, L. I. Around a model farm house, fitted up much like the dormitories of a school, Mrs. Belmont has laid out 200 acres in the form of a model farm. Here nine young women are learning how to grow vegetables, trim fruit trees, pick worms off plants, train vines in the way they should go, hoe, rake, plant and harvest. The pupils, at present, eat most of the products of the farm and they are having a perfectly good time living on fresh spring vegetables. Later the farm produce will be marketed. Mrs. Belmont comes over from her home at Hempstead to supervise the work of her instructor, Mrs. Laura D. Williams. Most of the girls have discarded skirts and can climb a tree or a fence as easily as any boy. The farm course is to be one year, but there is no obligation on the pupil to remain so long.

REPORT BY MINORITY

Six Senators Oppose Direct Election to That Body.

Principal Objection Rests on Question of Federal Control.

Washington, May 22.—No popular demand exists for a change in the Constitution so as to deprive congress of the right to supervise the election of United States senators.

So asserted a minority of the members of the senate committee on the judiciary in a report filed today. The report opposes the withdrawal of such right of supervision from congress as is contemplated in the plan for the selection of senators by direct vote of the people.

It was signed by Senators Clark of Wyoming, Nelson, Dillingham, Sutherland, Brandegee and Root, all Republicans.

The report ignores the question of direct election and deals entirely with that of supervision, which is declared to be the more important feature of the house election resolution which is now before the senate on a report from the majrity of the judiciary committee.

Many Points of View.
The subject is presented from many points of view, but is fairly summarized in the first exception, in which it is contended that there is no reason why the ultimate authority of the national government over the time and manner of electing senators by direct, popular vote should not continue to be exercised just as it has always been exercised over the direct election of representatives by popular vote.

"The exercise of that national power over the popular election of representatives meets now," it is argued, "with no objection, and under the proposed amendment is to continue. The proposed change from legislative election of senators to popular election of senators, furnishes no reason whatever for destroying the ultimate power of control over the election of senators which the national congress now has under the Constitution."

Will Settle Differences.
It is probable that the trouble between the village of Chisholm and the Range Power company will be settled outside of court. A consultation was held yesterday at the office of Baldwin & Baldwin, at which all concerned seemed agreeable to a form of franchise to be given the copmany by the village.

On account of alleged poor service the village recently started suit against the company to secure a dissolution of the franchise. A compromise will probably be effected.

CONTRACT FOR SANITARIUM

Emil Zauft Will Erect the Main Building for $34,622.

At a meeting of the St. Louis County Sanitarium commission held this morning at the office of Dr. Hart at the courthouse, the president and secretary were authorized to award the contract for the general or administration building to Emil Zauft on his bid of $34,622, providing he can furnish a satisfactory bond and sign a contract which will be satisfactory to Special County Attorney Charles E. Adams.

The bids for the heating and the plumbing in the building will be let to Stack Brothers and the electrical work to the Burgess Electric company under the same conditions. Stack Brothers on the plumbing and heating offered to do the work and furnish the equipment for $9,200. The bid of the Burgess Electric company was $1,800.

It is expected that within a few days the contracts will be drawn, signed and the bonds given. The work will begin at once.

There were a number of bids on the work. The successful firms in each case were the lowest bidders. They were not accepted, however, until the Saranac Lake, N. Y., architect, who drew the plans had been consulted on the matter.

TEHUANTEPEC RISES IN REVOLT

Government Officials Escape and Report Much Shooting.

Salina Cruz, Oaxaca, Mex., May 22.—The river port of Tehuantepec has risen in popular revolt. The jefe politico arrived at Salina Cruz today on foot. The other government officials escaped.

There was much shooting before the revolutionaries succeeded in getting control of the city, but the casualties were few if any.

NOTED CHEMIST IS DEAD IN CHICAGO.

Chicago, May 2.—Marcus A. De La Fontaine, a noted chemist, who for twenty-five years appeared as an expert witness in celebrated poison cases, died here yesterday. He was born in Geneva, France, and was 73 years old.

KILLED IN SIMILAR MANNER AS BROTHER.

Calumet, Mich., May 22.—(Special to The Herald.)—John Kestner, aged 25, married, was killed in the Red Jacket shaft of the Calumet & Hecla, Saturday in the same manner as his brother, Joseph Kestner, lost his life in the same mine three weeks previously—by a fall of rock. John Kestner was employed as a timberman and was barring down rock in the sixty-seventh level, south of No. 4, when a mass of rock crushed him.

CLUB EXPLAINS ITS ATTITUDE

Sixth Warders Explain Their Stand on Street Railway Cut-off.

To the Editor of The Herald:

We are oposed to the proposed Twenty-first avenue west cut-off for the following reasons:

It would impair the service and cause no end of inconvenience to some locality, no matter what avenue to cut off would be chosen east of the car house. We firmly believe that people living east of the car house on Third street and above would not walk down to Third street to take a car a distance of three to five blocks, to go to and from their work or do their shopping in the West end.

Turning the cars around corners where churches are located would cause no end of annoyances to the priests, ministers and congregations who are already protesting against it. Laying the cut-off on the proposed route would probably cause the street railway company to discontinue the service on the isolated blocks and possibly take up its tracks. No reasons are given for wanting to deprive them of the service they now enjoy.

If the service is to be diverted, we firmly believe, as we always did, that the proper place for the cut is about Twenty-seventh or Twenty-eighth avenue west, where the street car company can use the line to pull out its cars in the morning; rush hours at noon and night and pull them in by the same track in the evening instead of by way of Garfield avenue and Third avenue west.

Also, by having the cut-off at about Twenty-eighth avenue, a good service will be maintained on West Third street and Piedmont avenue, as presently conducted, giving a chance to transfer west at Piedmont and Third street as at present and still maintain the present service of transfer and lines.

It had been suggested to divert the Grand avenue lines by way of the cut-off at Twenty-seventh and maintain the Fifty-seventh avenue and Thirty-ninth avenue lines as at present, giving the people living at present beyond Twenty-seventh avenue west and Third street and above, who are employed at the ore docks (500), breweries (200), Red Cliff Lumber company (200), Elliot Packing company (75), Scott-Graff Lumber company (200), Boston Coal company (100), about 1,500 men almost all depending on street car service, a chance to go to and from their work, and ride within one block of same and the people living in that western part of the city a chance to do their shopping on Superior street.

F. R. LA BROSSE, Secy.

REDUCING WEIGHT IS WHAT FIGHTERS DREAD

New York, May 20.—Taking off weight in order to make the beam tip at a certain notch has long been one of the hardest tasks undertaken by pugilists in training. There is so much at stake in modern glove contests that first-class boxers generally stick close to their weight limits rather than concede avoirdupois to challengers, who cannot reduce. The dispute between Packey McFarland, the great Chicago lightweight, and Freddie Welsh of England, is a case in point. Probably the best boxers in this class, they have been wrangling over a difference of two pounds. McFarland has insisted upon 135, weighing seven hours before entering the ring, while Welsh has demanded 133 eight hours before the handshake. Mutual friends have tried to induce them to agree upon a compromise to no purpose, the men being so bitterly personal in their feelings that arbitration has been impossible.

Welsh, who is a vegetarian and a student of physical culture, admitted recently that he could not beat McFarland in a 10-round bout at 135 pounds, but he declared that he would have an even chance at 133. By that he meant that McFarland would have to work so hard to make 133 pounds at 2 o'clock that he might lose some of his vitality which he could hardly recover before he climbed into his corner. McFarland, on the other hand, said that he wanted to be sure of his condition so that he would administer a proper beating in order to settle an old score, but at the same time he stated that for Ad Wolgast, the lightweight champion, he would readily do 133 pounds at 3 o'clock in the afternoon.

Wolgast, when informed of McFarland's ultimatum, stated that the only weight at which Packey could have a match was 133 pounds ringside, the same terms named by K. O. Brown. But everybody interested in boxing knows that if McFarland agreed to ringside scaling he would weaken himself in such a manner that he would be inviting certain defeat. It is not a bit strange that these boxers know the weight at which they do their best work. They go entirely by the way they feel. It is necessary to be strong as well as fast, and they can easily tell how heavy they must be to possess these qualities. There is such a thing as being too light and too heavy, and it requires much close study of a man's physique to make him scale at exactly the proper notch.

Various methods are employed to get off weight. A time-honored custom has been long runs on the rough country roads in all sorts of weather. Bundled up in heavy sweaters, many boxers have run six, eight or ten miles at a clip to return to their quarters for a brisk rubdown.

When Tom Sharkey was in his prime he thought nothing of running around Central park at a fast pace. He insisted that this form of exercise opened the pores and also strengthened his lungs. He took off weight while on the road, but after reaching the gymnasium he stripped off his clothing and quickly dried out after an alcohol rub. Sharkey's plan of action is still followed by many pugilists. "One Round" Hogan is among them. He believes that running does more good than anything else and he has been known to cover a dozen miles at a fast gait.

But McFarland, who is strictly modern on his ideas, has methods peculiarly his own. In the first place he lives regularly an does not overeat. He never drinks liquor and doesn't allow himself to take on too much flesh when out of training. When it becomes necessary to get rid of several pounds, McFarland goes about the task in a systematic manner. He takes three baths a week just before going to bed, with the water at 80 deg. He scrubs his body to open the pores and after ten minutes in the tub he is rubbed down and put to bed. In the morning, after a light breakfast, he dons heavy sweaters and goes out for a brisk walk of a mile or more. Coming back to quarters, he sits down in a warm room without removing his clothing and cap and for half an hour he perspires freely. A tepid bath follows, the water being gradually cooled until he can stand a shock, after which he is rubbed down and dried out.

McFarland's boxing is the really strenuous part of his work. It is done in a warm room, with the windows tightly closed. He wears thick trunks and a Jersey and takes on half a dozen sparring partners, each for three rounds. By the time this work is half over, Packey is bathed in perspiration, and his lungs are fully expanded. Another rubdown follows and then he jumps on the scales. He can tell beforehand just how much weight he has removed, and he is seldom an ounce out of the way. As the scales show a daily reduction, McFarland expresses satisfaction with his work.

Welsh thinks as much of one pound as he would if he lost a diamond ring. He weighs himself several times each day and is generally able to make 132. Warm baths, plenty of exercise indoors, and long, fast walks keep down his weight to the best fighting notch. He is on a diet at all times. No meat or fish, no pastry or sweets, no hard liquors, but plenty of vegetables, toast, creackers and now and then a mug of ale. Like McFarland, he is a firm believer in speed. He says swiftness of foot means everything. It enable him to avoid the attack of an opponent and to step in suddenly with rapid fire blows. Able to move about quickly, Welsh says it isn't necessary to set himself before dellvering a blow, and for that reason his punches appear to lack force, when, as a matter of fact, he can hit as hard as the average. In spite of the fact that the English lightweight limit is 135 pounds at 2 o'clock, Welsh believes that the American limit, 133 pounds, should govern all contests in this class. That is why he made McFarland weigh 133 at 2 o'clock in England a year ago, and he says he would have insisted on ringside scaling if there had been a chance of forcing Packey to accept.

Wolgast doesn't have to do much hard work to keep down his weight. He does not weigh much more than 130 pounds when at his best, and all he needs is constant boxing. He must have several rough fellows with whom he can slug and wrestle, however, for he doesn't believe in fancy work.

Owen Moran is another boxer When he begins training he does road work to perfect his breathing apparatus, but he doesn't over-exert himself to get up a sweat. Moran doesn't weigh more than 128 pounds when he tackles lightweights, but in a pinch he says he could reduce to 124 with the use of sweaters and a red-hot stove. Training is a strenuous life.

FIVE TEAMS ARE ENTERED

Boat Club Will Have Sixteen Men in Y. M. C. A. Track Meet.

The Adams association, Central high school, Y. M. C. A., Two Harbors and the Duluth Boat club are the entries for the big track meet that will be held tomorrow evening at the Y. M. C. A. gymnasium.

The events to be contested are the 100-yard dash, one-half mile run, high jump, pole vault, shot-put and relay race. The events are expected to be closely contested. The Duluth Boat club has a team of about sixteen men entered, and it is expected to give a very good account of itself in the various events.

Two Harbors is expected to send a very strong team, and Central has a number of good men entered. A great deal of interest is being shown in the meet, and it is expected that a large crowd will be on hand.

BOXING BOUTS AT MILWAUKEE POSTPONED.

Milwaukee, Wis., May 22.—The National A. C. announced today the indefinite postponement of the boxing card of contests headed by Jimmy Clabby of Milwaukee and Mike Gibbons of St. Paul. The bouts were scheduled for tonight.

PEORIA FRANCHISE WILL NOT BE TRANSFERRED.

Peoria, Ill., May 22.—There is no intention of transferring the Peoria franchise to Bloomington, in the Three I league as was announced in this morning's newspapers. President R. H. Johnson says he has placed Second Baseman Stis in charge, following the resignation of Manager Rowan. If Stis makes good he will be retained, if not some one else will be nominated. There will be no transfer at present, at least, although Bloomington seems to be in a receptive mood.

Cloquet Cubs Win.
The Cloquet Cubs defeated the Brookston team at the latter place by a score of 8 to 7 Sunday. The game was the most interesting seen in Brookston, the feature being a home run by Bob Guarin of the Cubs. Batteries: Cubs—Mickelson and Boyer, Brookston—Hoole and La Prairie.

Beavers Win.
Yesterday the Beavers defeated the Gustafsons by the score of 15 to 10. The game was played on the Twelfth avenue east grounds and was one of the best games of the present season in the Clover Leaf league. The victory of yesterday places the Beavers second in the league race.

The score by innings of yesterday's game:

	R.	H.	E.
Gustafsons ....2 1 0 1 4 0 0 0 2—10	4	8	
Beavers .... ..5 1 2 1 3 1 0 2 x—15	16	4	

No Matter What You Want

A Want Ad in this paper will meet the eye of some one who can supply it.

THE LIQUOR DRINKER AND HIS BUSINESS

Absolute Importance of His Brain Being Cleared Up

It is frequently very important that a person under the influence of alcoholic stimulants should become sober as soon as possible. Business affairs may be neglected or social engagements forgotten during the period of drunkenness, and it often devolves upon friends of the drinking man to assist him to possession of an uncluded brain and clear intellect and see to it that his appearance is at least respectable. Experience has taught that no institute extant other than the Neal Institute in Superior has ever been successful in treating drunkenness in less than four weeks' time. It makes no difference how long a man has been drinking or how little he drinks, or what he drinks, the Neal treatment has never failed to cure **in three days' time and without the use of dangerous hypodermic injections or injurious drugs.** Just bear in mind that there is no such thing as a "secret cure" for drunkenness, and you are taking a great risk in administering a "secret" remedy.

Call, write, 'phone or wire for free booket and copy of contract.

RAINFALL IN SOUTHWEST

Precipitation in Winter Wheat Belt—Large World's Shipments.

Values Decline—Trade Small—Linseed Market Falls Sharply.

Duluth Board of Trade, May 22.—Wheat declined today. May lost ⅞@¾c and July slumped a similar distance. September lost ¾c. Cash wheat was ½c over July. Durum was weaker, July losing ¾c. Rye was unchanged. The new crop was quoted for the first time. Oats lost ⅜c. Barley was not quoted.

Linseed slumped sharply. May declined 11c to $2.34, a total fall of 22c before a trade was registered. July declined similarly. September fell 7c to $2 and October lost 12c to $1.88. The decline was caused by the offering of the May and July deliveries representative of seed left over after seeding operations in the countries.

The crushing demand is absolutely dead and there was no support to the market. There is no oil business and in the face of moderate offerings there was no demand. The weakness in October was due to the skillful manipulation of values by a buyer who had no difficulty in jamming down the price to a basis satisfactory to him on which he bought 1,000 bu. The September debenture was sold at the bottom price. It looked as though the September trade was a hedge against the October purchase.

Foreign linseed markets were lower, May-June Plata seed at Antwerp selling off ¼ franc per quarter or at $2.17 a bu, a decline of about 1.3 cents a bu. This includes an allowance of 4 per cent for impurities. The world's oil situation is not dissimilar in the various countries where oil is bought and sold. The Indian shipments are so large that the premiums on foreign oil are lessening and more people expect them to disappear. While the market is without support it should be remembered that the time will soon be at hand when crushers will begin to book oil contracts for delivery in September and October and they must of necessity come into the market. Until that period the market both here and abroad is likely to be devoid of support unless speculative activity appears, which is not likely.

Reports to the writer from Europe indicate that linseed is going into the ground in the Northern Russia belt under circumstances which might be more favorable as the weather is cold and frost is being reported nightly. In the Caucasian region the plant suffered from drouth but recent rains have placed in good shape.

The rains throughout the Northwest in this country will make the linseed acreage larger than had been expected as territory will be broken that otherwise would not have been put under the plow.

The wheat market was soft today on account of bearish foreign advices and general rains in the Southwest, which will help materially in the filling out of the grain. There was some strength toward the close of the foreign markets on account of reports of frost in Northern Russia, where the wheat is just above ground.

World's shipments last week were especially heavy, amounting to 16,280,000 bu, of which Russia shipped 6,696,000 bu. Wheat on passage increased nearly 4,000,000 bu.

In mid-May the wheat situation is extremely favorable. There is no legitimate reason for present prices. It is seldom that the winter wheat crop has been so favorable in promise at this season of the year. There are only five or six weeks until harvest and there is not a flaw in the situation worth considering. Last year a part of the winter wheat territory was declared to be an arid belt entirely desolated. Compare the situation existing then with now. Consider also the condition of the crop in the American and Canadian Northwest, where even with a deficiency of moisture the crop is above criticism. Exporting countries are shipping prodigally. The immense output of wheat from Russia contradicts every assertion of crop failure in that country or even impairment of consequence. The acreages of spring wheat in this country and the Northwest in Canada are much larger than ever before. The acreage in Argentina where the crop is coming along in good shape is the largest in the history of that country.

The cash demand for wheat today was only fair. Millers paid ½c over July. Supplies of first-class wheat are low. The Eastern demand has lapsed and the foreign demand has practically disappeared.

That the new oat crop is going through a period of trial from which it may come out in bad shape is the opinion of some traders in view of the recent unpromising reports from Texas, Oklahoma and sections of Illinois, where the plant is suffering from extreme heat and protracted drouth.

The late demand from the East has been excellent and with the largest aggregate volume in months. This demand, it is said, has been stimulated both by depletion of Eastern supplies and by apprehension of higher values through impaired outlook for the new crop.

Flour Situation.

While underlying conditions are believed to be slowly improving the trading in flour fails to expand, buyers still limiting their purchases to actual requirements and refusing to buy for future delivery. It is a fact, however, that business on the whole has been moderately active during the last two or three weeks and that while the demand is not of the dimensions it usually is at this season of the year it is steady. There is absolutly no speculative interest, but there is a steady run of business for prompt shipment, most of it calling for delivery of single carlots of some particular brand while shipping directions on old contracts are coming in with fair freedom. Millers would like to have business expand, but say that the situation is healthier than if dealers were buying in excess of their requirements.

Almost all mills have advanced quotations to correspond with the recent advance in wheat. There is no uniformity to prices, however, and practically all millers will make concessions more or less liberal. For instance, a prominent spring wheat miller asking $5.60 per barrel for first patent will accept a bid of $5.40. There is plenty of good flour that can be bought at $5.30, $5.35, and $5.40 per barrel, and it is probable that leading mills in Minneapolis and elsewhere would accept $5.50, if not less, on a firm bid calling for prompt delivery.

Buyers do not believe that the price of wheat are justifiable on an actual supply and demand basis. However, the statistical situation in this country is becoming increasingly strong. The visible supply is now smaller than a year ago. The foreign situation is also generally strong and the sharp advance last week was due to a considerable extent to European firmness.

The new crop situation continues in the main satisfactorily. The season so far has been unusually devoid of any very disturbing reports. The rainfall in some places in the Northwest has been deficient, but there has been a good wetting down in most of the territory indicated. General prospects in the winter wheat section are favorable, but there is no assurance that present contintions will be maintained until harvest.

May Export Wheat.

The rapid decrease in the world's supply of breadstuffs points to an unusually large consumption and it is reasonable to assume that this country will have goon prospects of a fair business with Europe, both in wheat and flour on the new crop, providing, of course, present prospects are maintained to harvest and the enthusiasm of the speculators do not boost prices too high. Attention is focussed now on the May wheat deal in Chicago and the atmosphere will be greatly cleared when the deal is out of the way.

In some instances millers of soft winter wheat flour are asking extremely high prices, one Indiana producer quoting $4.90 for patent and correspondingly high prices for the other grades, while $4.60 and $4.70 are quoted by others. It is not easy to make sales of even the very best patent at $4.50 and good pastry flour is offered quite freely at $4.20 to $4.25 per barrel. There is less pressure to sell on the part of winter wheat mills than spring wheat and the market for the product of the former is, therefore, steadier and prices do not cover as wide a range. There are also much smaller offerings from second hands at below mill prices. This feature still interferes to a limited extent with the booking of new contracts by millers' agents. Some jobbers are in a position to supply the demand at prices 10 to 15 cents less than the miller asks for similar goods. The instances are not numerous, however, as most of the supply on hand was bought at higher prices than mills now quote.

Millers interested in the export flour trade are not sanguine of a resumption of foreign business in the immediate future, though admiting that there are possibilities of its revival, should the coming wheat crop enable millers to make prices on flour that would commend it to European importers.

A Glasgow letter says: "There is a distinct inclination to come back to American and Canadian flours among bakers. The blending and bleaching by home millers has been carried to such an extent that makers find this flour produces a tasteless bread of a dull, deadly color. Where flour of a distinct character is wanted, the Canadian, American and Australian flour comes in with the distinct character of the various states, etc., which it represents. This is producing along with the good prospects in America and Canada, a much more hopeful feeling in the importing trade. If America produces a bumper crop, the home millers here will have their work cut out for themselves if they are to show a profit."

REMARKS—Light to heavy showers fell over all districts.

H. W. RICHARDSON, Local Forecaster.

T—Indicates inappreciable rainfall. *—Maximum for yesterday. †—Minimum for twenty-four hours, ending 8 a. m. 75th meridian time. ‡—Minimum temperature for 12-hour period ending at 8 a. m.

NOTE—The average maximum and minimum temperatures are made up at each center from the actual number of reports received. The average rainfall is made from the number of stations reporting .1 inch or more. The "state of weather" is that prevailing at time of observation.

MINNEAPOLIS MARKET.

Wheat Prices Are Depressed Owing to Good Crop Prospects.

Minneapolis, Minn., May 22.—Wheat prices were depressed today on account of the brilliant crop prospects, favorable weather with more rain over Sunday, an easier cash demand, liberal receipts and heavy world's shipments. Trading was of moderate volume, with the short side popular. May closed ½c lower than Saturday, July ¾c lower, September ½@⅝c lower and December ⅜c lower. Local elevator stocks of wheat decreased 175,000 bu for two days. Minneapolis today received 274 cars of wheat against 399 a year ago; Duluth 34 against 16, and Winnipeg 130 against 171.

May opened 95¾c, high 95¾c, low 95c closed 95¼c. July opened 96⅝c, 96¾c, low 95⅝@95¾c, closed 96⅛c. September opened 90⅞c, high 91c, low 90¼c, closed 90½@90⅝c. Decemter opened 90⅝c, high 90¾c, low 90½@90⅝c, closed 90⅜c.

Cash wheat was slightly easier on account of increased receipts. Active demand for choice hard grades. No. 1 northern sold for 1@2½c above July contract. Closing: No. 1 hard, 99¼c; No. 1 northern, 96⅝@98¾c; to arrive, 96⅝@98¾c; No. 2 northern, 94¼@97⅛c; to arrive, 94¼@96⅞c; No. 3 wheat, 92½@95c. No. 3 yellow corn, 51½@52c. N. 3 white oats, 32@32¼c. No. 2 rye, 90c.

Millstuffs—Shipments, 2,102 tons. Market quoted strong and steady. Excellent demand for near shipments. Bran in 100-lb sacks, $21.50@22.00.

Flour—Demand very slow and the market was steady and dull. Prices unchanged. Shipments, 41,444 bbl. First patents in wood, f. o. b. Minneapolis, $4.60@4.90; second patents, $4.50@4.80; first clears, $3.20@3.65; second clears, $2.20@2.85.

Flax—Receipts, 16 cars; year ago, 19; shipments, 6. Demand slow and prices quoted same as Duluth July. Closing price, $2.34.

Barley—Receipts, 42 cars; year ago, 71; shipments, 21. Barley market easier; demand for more liberal offerings not as active and prices unchanged to 3c lower. Closing range, 60@94c.

New York Grain.

New York, May 22.—Close: Wheat—May, 97½c; July, 94½@94⅝c. Corn—May, 60c; July, 59⅝c.

Liverpool Grain.

Liverpool, May 22.—Closing: Wheat—Spot steady, No. 2 Manitoba, 7s 4d; No. 3 Manitoba, 7s 4½d; futures firm; May, 6s 10¾d; July, 6s 9¾d; October, 6s 8d.

Corn—Spot new American mixed no stock; old American mixed quite, 5s 3d; New American kiln dried, easy, 4s 10d; futures easy; July, 4s 7¾; September, 4s 8⅞d.

Midway Horse Market.

Minnesota Transfer, St. Paul, Minn., May 22.—Barrett & Zimmerman report: Narrow outlet for all useful classes. Pleasure horses such as gaited saddlers and broke drivers found a number of takers. Receipt light. Values rule somewhat lower.

Drafters, extra	$195@240
Drafters, choice	125@190
Drafters, common to good	95@120
Farm mares and horses, extra	150@185
Farm mares and horses, choice	120@145
Farm mares, common to good	75@115
Delivery	140@205
Drivers and saddlers	130@210
Mules, according to size	150@245

London Stocks.

London, May 22.—American Securities opened steady and about unchanged today. Trading was light during the first hour but prices advanced a fraction. At noon the market was steady and half higher than Saturday's New York closing.

South St. Paul Live Stock.

South St. Paul, Minn., May 22.—Cattle—Receipts, 900; market light; fat steers, $4.50@5.50; cows and heifers, $2.40@5.25; veal calves, $2.75@5.00; feeding steers, $3.50@5.35; stockers, $3.25@5.00.

Hogs.—Receipts, 2,700; market 10c down; range, $5.40@5.80; bulk of sales, $5.65@5.70. Sheep—Receipts, 100; market strong; sheep, $1.00@4.75; lambs, $2.50@6.25.

Cars of wheat received:	Today.	Last year

Forecast: Illinois and Iowa—Threatening and probably occasional showers tonight and Tuesday. Indiana—Local thunder storms tonight or Tuesday. Missouri—Threatening with showers tonight and in east Tuesday. Minnesota—Fair in north, showers in south tonight; Tuesday fair, light frost tonight and in exposed places in northern portion. North Dakota—Fair tonight and Tuesday; cooler in east tonight; frost tonight. South Dakota—Fair tonight and Tuesday; cooler in east and central portion tonight; light frost in exposed places tonight. Nebraska and Kansas—Threatening and probably showers in extreme east tonight; Tuesday fair.

B. W. Snow is back from a ten days' trip from the Southwest for Bartlett, Frazier Co. and says: "The wheat crop in Kansas and Oklahoma is approaching maturity with increasing promises of yield. Local rains, coming in the aggregate the greater part of the southwestern fields, were practically coincident with the recent period of high temperatures, so that the heat instead of wrong damage merely served to favor growth. Generally there is plenty of moisture to aid in filling the heads, and the crop promise is fully as high as at any time this season. Rains Saturday and Sunday through Missouri and Illinois leave crop conditions in those states all that can be desired."

Closing wheat cables: Paris ¼@¾c higher; flour, ¼c lower to ¼c up. Antwerp unchanged. Berlin higher. Buda Pest wheat, ½c higher. Liverpool ⅜@½d up; corn, ⅛@¼d up.

Linseed stores last week decreased 19,279 bu to 120,990 bu, and wheat decreased 399,466 bu to 3,052,873 bu.

CHICAGO MARKET.

Vigorous Bidding Runs Up Price of May Wheat.

Chicago, May 22.—Vigorous bidding for May wheat ran up the price of that option this morning, and made sellers of other months timid, notwithstanding the bearish effect of widespread rain. In favor of the bull side was the fact that Liverpool showed firmness because of smaller Danubian shipments than expected and on account of unfavorable weather in Russia. However, the bountiful supply of moisture during the last two days all the way from Kansas and Nebraska east resulted in sending new crop deliveries downward, although not nearly as much doubtless as would have been the case except for the unsettlement of sentiment developing from the unlooked for operations in the May option. The opening was ⅞@⅞c lower to 1⅛c higher, the latter for the current month. July started at 87¾@87⅞c to 87⅞c, a decline of ⅜c to ⅞@½c and sagged to 87⅝@87¾c.

Increasing receipts Southwest led to a further backset in prices here. The close, however, was firm with July ½c net lower at 87¾c.

Corn eased off in view of the fact that demand appeared quite limited. Offerings, though, were not large. July opened ⅛c to ¼c lower at 51⅝c to 51¾c, and seemed inclined to keep within that range.

Subsequently the market hardened a little. Closing prices were firm at 51⅞@52c for July, a net gain of a shade.

Wet weather weakened oats. Country houses were good sellers. July started ⅛@⅜c to ¼@⅜c down at 33¼c to 33½c, but steadied at 33⅜c.

A fairly active call for provisions helped that market in the face of a decline at the stockyards. First sales were 5c off to 5c up with July $14.50 for pork, $8.00 @8.02½ to $8.05 for lard and $7.72½ to $7.75 for ribs.

ADVANCES WIPED OUT

Stocks Start With Considerable Strength and Business Expands Largely.

Profit-Taking Sales Undermine Prices and Gains Generally Cancelled.

New York, May 22.—Considerable strength developed in the early transactions on the stock exchange today. Trading was active and moderate advances were made by a majority of the stocks. Reading and United States Rubber gained a point, Northern Pacific and Western Maryland ¾ and United States Steel, Western Union and American Telegraph and Telephone ⅝. Virginia-Carolina Chemical and National Lead lost ½.

Business expanded largely, a wide variety of stocks being dealt in at improving prices. Sustained inquiry for the usual market leaders encouraged pool operations in various issues. Western Railroad stocks were helped by further glowing reports of crop conditions. Some of the important advances were: Union Pacific, Atchison and Southern Railway preferred 1, General Electric and Pittsburg Coal preferred 1½, Western Union 2 and Texas company 4 points. Virginia-Carolina broke 1⅜ on a continuance of recent pressure.

Transactions in stocks this morning were on the same large scale as last week and the market displayed decided strength. The small losses of Saturday were made up at the opening and in response to unusually large volume of buying orders which had accumulated over the week-end, further substantial gains were made before noon. Reading was the feature of the market and prices hardened steadily on large transactions. One block of 5,000 shares changed hands at 161¾, the highest price of the current movement and ⅜ of its best figure of the year. All of the Harriman and Hill stocks and Atchison were in large demand, and there was a marked revival of speculation in the railroad equipment stocks. Reports of probable judicial proceedings against International Harvester cost the stock a point. Toward noon activity decreased but the prices held firm. Bonds were firm.

Profit-taking sales undermined the rise in the important stocks and they fell back a fraction and became quiet. The advance, however, continued at other points, a large number of the less active stocks rising briskly, including Central Leather, American preferred and Pittsburg Coal preferred.

Realization further made price changes, with the decline assisted by pressure against St. Paul and Missouri Pacific which sold off ½ and a point respectively. Reactions from the best prices of the day ran to about a half for the favorite stocks. The check to the rise in the standard stocks caused a abandonment of the bidding up of the obscure issues which was a feature of the early dealings.

The market closed steady. The market generally still a lower level in the last hour and the earlier advances were either cancelled or largely reduced. Effective pressure against American Cotton Oil sent it nearly 2 below last week's closing and there was also a decline of 2½ in Bethlehem Steel preferred. Prices hardened a trifle toward the end.

LEGAL NOTICES.

ORDER LIMITING TIME TO FILE CLAIMS, AND FOR HEARING THEREON—
State of Minnesota, County of St. Louis.—ss.
In Probate Court.
In the matter of the estate of Samuel Brooks, Decedent.
Letters of administration with the will annexed this day having been granted to Helen B. Mahon of Duluth, Minnesota.
IT IS ORDERED, That the time within which all creditors of the above named decedent may present claims against his estate in this court, be, and the same hereby is, limited to three months from and after the date hereof; and that Monday the 14th day of August, 1911, at Ten o'clock A. M., in the Probate Court Rooms at the Court House at Duluth in said county, be, and the same hereby is, fixed and appointed as the time and place for hearing upon the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.
Let notice hereof be given by the publication of this order in The Duluth Herald, as provided by law.
Dated Duluth, Minn., May 11th, 1911.
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
ALFORD & HUNT,
Attorneys.
D. H., May 15, 22, and 29, 1911.

ORDER TO EXAMINE FINAL ACCOUNT—
State of Minnesota, County of St. Louis—ss.
In Probate Court.
In the Matter of the Estate of Serafino Salfanelli, Decedent.
THE PETITION OF Enrico Salfanelli as representative of the above named decedent, together with his final account of the administration of said estate, having been filed in this court, representing, among other things, that he has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the Court, and that the Court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto, and for the discharge of the representative and the sureties on his bond.
IT IS ORDERED, That said petition be heard, and said final account examined, adjusted and allowed by the Court, at the Probate Court Rooms in the Court House, in the City of Duluth in said County, on Monday, the 5th day of June, 1911, at 10 o'clock a. m., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.
ORDERED FURTHER, That this order be served by publication in The Duluth Herald according to law.
Dated at Duluth, Minn., May 8, 1911.
By the Court,
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
D. H., May 8, 15, 22, 1911.

MINNESOTA HISTORICAL SOCIETY

CORRAL RESIGNS AS VICE PRESIDENT OF MEXICAN REPUBLIC

Diaz Is Expected to Retire Within Twenty-Fonr Hours.

Chamber of Deputies Passes Bill for Amnesty to Prisoners.

Details of Battle With Chinese at Torreon Are Told.

Juarez, Mex., May 23.—A telegram was received by Francisco I. Madero, Jr., today from Alfred Robles Dominguez, special peace envoy in City of Mexico, stating that the resignation of Vice President Corral had been tendered.

The news was taken to mean that the vice president's resignation was requested to precede that of President Diaz, which is expected today or tomorrow. When President Diaz resigns Senor Madero and his party immediately will leave for City of Mexico to advise with Senor De La Barra in the political reorganization of Mexico.

The exodus of political chiefs continued today and the town was quiet and peaceful.

Amnesty Bill Passed.

City of Mexico, Mex., May 23.—By an immense majority the chamber of deputies last night passed the bill providing amnesty to political prisoners. It becomes effective immediately.

George Vera Estanol, acting minister of the interior, presented to the

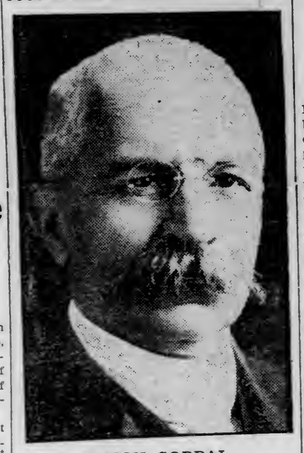
HAS RESIGNED VICE PRESIDENCY OF MEXICO



RAMON CORRAL.

TWO FAMILIES BLOWN FROM BEDS

Black Hand Outrage Is Perpetrated in Pittsburg.

Pittsburg, Pa., May 23.—A dynamite explosion, charged to members of the "Black Hand," destroyed the grocery store and meat shop of Belisario and Orazio Mariana, two brothers, 4613 Lorigan avenue, early today, and twelve persons narrowly escaped death. The two men and their families, consisting each of a wife and four children, were blown from their beds, but not injured. Bruno Fostario and Charles Bundatha were arrested on suspicion of knowing something of the explosion.

The two brothers recently received two "Black Hand" letters demanding that an agent of the society be given $2,000 or their home would be destroyed and their families killed.

GOOD ROADS MEN IN BIRMINGHAM

Fourth National Convention Is Begun in Southern City.

Birmingham, Ala., May 23.—The fourth national good roads congress began its sessions here today with nearly 4,000 accredited delegates from all parts of the country in attendance. Arthur C. Jackson of Chicago, president of the National Good Roads association, presided.

Addresses were made by Governor Emmett O'Neal, Mayor Culpepper Exum and others interested in the good roads movement.

At this afternoon's meeting speeches will be made by commissioners of agriculture from Alabama, Arkansas, South Carolina and Mississippi. M. V. Richards of the Southern railway will read a paper on the effects of good roads on immigration.

BOUTELL GREETED AS NEW MINISTER

Chicago Man Praises Swiss Republic in Speech at Berne.

Berne, Switzerland, May 23.—Henry Sherman Boutell of Chicago, on presenting his credentials as minister to Switzerland to President Ruchet today, paid a tribute to the Swiss republic. During the course of his remarks the new minister said:

"In the development of civil liberty, of self-government and of popular education, Switzerland has been the inspiration of all the world, and the people of our two countries have always had sympathies and aspirations in common."

Vice President Forrer and other members of the government participated in the reception. The president of the federal consolidation, shortly after the reception, called on the new American minister.

Wholesale Grocers Meet.

Indianapolis, Ind., May 23.—The National Wholesale Grocers' association began a three-day session here today and arrangements have been made by local committees for 3,000 delegates and visitors.

DRINKING ON THE INCREASE

Presbyterian Committee Says It Is Wrong to Deny It.

Heresy Trial in Progress at Atlantic City Meeting.

Atlantic City, N. J., May 23.—While interest in the trial of Rev. William D. Grant of Northumberland, Pa., who is accused of heresy, is intense, the trial is not interfering with the proceedings of the Presbyterian general assembly, and today the reports of three important committees were taken up for discussion.

The committee on freedmen, the committee on college boards and the committee on temperance reported. The latter report says:

"When all allowances are made for false and garbled statements, deliberate falsehoods and misleading charges, the fact remains that there is an alarming increase in the use of alcoholic liquors in the United States as a whole. Only harm can result from deceiving the public by charts which indicate a rapid advance in temperance legislation and by boastful statements about making 'the map all white,' while we are doing nothing of the kind.

"Cost of the Curse."

"The bright spots of the year are the election of a reform governor in Tennessee against the efforts of the

(Continued on page 9, first column.)

DICTATES USE OF HALF MILLION

Du Pont Has Placed Restrictions on Gift to Education.

Boston, May 23.—Announcement was made today that the half million dollar gift to the Massachusetts Institute of Technology from T. Coleman Du Pont, the millionaire powder manufacturer, is either for the erection of a new scientific building and its equipment or for a new site for the institute, the donor to approve the locality selected, which must be in the vicinity of Boston.

In making his gift Mr. Du Pont stipulates that ample provisions should be made for carrying on the educational development plans. This condition has been fulfilled, it is felt, by the state grant of $1,000,000 to be supplied during the next ten years from the treasury of the commonwealth.

Mr. Du Pont graduated from Technology in 1884 and is a life member of the institute's corporation.

PRESBYTERIAN MEN IN ANNUAL MEETING.

Pittsburg, Pa., May 23.—One thousand or more delegates today attended the fourth national convention of the United Presbyterian men's movement in the First Presbyterian church. Ways and means for carrying on a campaign for the winning of 25,000 souls and the securing of $1,000,000 for missions during the ensuing year were discussed.

TAFT GOES TO NEW YORK FOR LIBRARY DEDICATION.

Washington, May 23.—President Taft left early today for New York, accompanied by Senator Bacon, Secretary Hilles and Maj. Butt. He will make an address this afternoon at the dedication of the New York public library. At dinner tonight he will be the guest of J. W. Cadwalader. Attorney General Wickersham also will be present, but the dinner will be informal.

LA FOLLETTE THE SPEAKER

Wisconsin Senator Continues His Attack Upon Lorimer.

Kenyon, Kern and Lea May Be on Investigating Committee.

Washington, May 23.—Senator La Follette, armed with the new evidence brought out by the special committee of the Illinois legislature, still held the privilege of the floor today to present to the senate his further reasons why that body should adopt his resolution of inquiry into the right of Senator William Lorimer to retain his seat. Yesterday, in a speech that lasted for several hours, the Wisconsin senator recounted testimony taken in the former investigation into the Lorimer matter by the senate committee on privileges and elections.

Before the senate convened it was generally believed that Senator Dillingham's resolution of inquiry, intended as a substitute for that of Mr. La Follette, would be adopted.

On the Committee.

It is thought the new investigating committee will be Senators Dillingham, chairman: Sutherland and Kenyon, Republicans, and Kern and Lea, Democrats. The last three are serving their first senatorial terms.

The joint resolution providing for

(Continued on page 9, first column.)

TWO ARRESTED IN DYNAMITE CASE

Attempt to Blow Up Los Angeles Building Alleged.

Los Angeles, Cal., May 23.—Bert H. Connors and J. Mansel Parks, both said to be members and the latter a former officer in the Los Angeles union of the structural iron and bridge workers, have been arrested charged with being implicated in an attempt to dynamite the new county hall of records last September, some weeks before the blowing up of the Times building.

Connors was taken into custody as he was on the point of buying a ticket to Seattle. Parks was arrested in the home of Connors.

The finding of dynamite in a rear alleyway of the $1,000,000 hall of records in September was accepted at the time as evidence of an attempt to destroy the building. Prior to this Connors, it is alleged, was seen around the building.

Months of Surveillance.

The detectives say the arrest of Connors and Parks is the culmination of months of close surveillance.

The district attorney, when asked whether there would be any effort to connect J. J. McNamara, J. B. McNamara or Ortie McManigal with the alleged attempt of Connor and Parks, said that his office had no evidence showing that the prisoners charged with the dynamiting of the Times had anything to do with Connors or Parks or that they had any hand in the placing of the dynamite in the alley of the hall of records.

DENOUNCES RECALL OF THE JUDICIARY

MARTIN W. LITTLETON, Representative From New York.

DISCONTENT IN PORTUGAL

Some Arrests Are Made for Starting Alarmist Reports.

Lisbon, Portugal, May 23.—According to an official statement issued today, a number of persons in various walks of life have been arrested in the northern provinces of Portugal charged with circulating alarmist reports. The prisoners were sent on board the Portuguese cruiser Adamastor, lying off Oporto. Marines from the cruiser have been landed to help the police guard the banks in the province of Entre Minho E Douro, bordering on the Spanish frontier.

Current of Discontent.

Madrid, May 23.—Advices received here through official channels from Lisbon are to the effect that the political situation in Portugal is unsatisfactory. Much apprehension is felt over the deep current of discontent reigning throughout the Portuguese nation.

FOUNDRY MEN AT PITTSBURG

Big Exhibition of Equipment Is Feature of Conventions.

Pittsburg, Pa., May 23.—Foundry men and their friends, at least 6,000 strong, are in Pittsburg for the sessions of the sixteenth annual convention of the American Foundrymen's association, which opened in the exposition building today. The American Brass Founders' association and the Associated Foundry Foremen, attached to the parent association, also opened their conventions today. The exhibition of foundry equipment is said to be the largest in the history of the world.

ATTACKS THE RECALL PLAN

Martin W. Littleton Makes Maiden Speech in the House.

Denounces Feature of Arizona Constitution During Debate.

Washington, May 23.—With the resolution providing statehood for Arizona and New Mexico scheduled for passage before adjournment tonight, the closing hours of the long debate on the measure were given over in large part to speeches denouncing the judiciary recall feature of the Arizona Constitution. The resolution on Arizona provides that this feature shall be voted on by the people as a condition to statehood.

Representative Houston of Tennessee, a Democrat, opened the debate today. The recall of judges, he said, would be not only an innovation, but a source of danger to the integrity of the courts.

Mr. Houston was followed by Representative Martin W. Littleton of New York, Democrat, who made his maiden speech in the house.

"It will strike from the splendid structure of free government the arch upon which it has come to rest with unshaken confidence," Representative Martin W. Littleton of New York de-

(Continued on page 9, second column.)

JOINS "COLONY OF BANKERS"

E. H. Steinman of Pennsylvania Enters Leavenworth Prison.

Leavenworth, Kan., May 23.—E. H. Steinman of Mount Pleasant, Pa., formerly vice president of the Farmers' & Drovers' bank of that city, arrived at the federal prison here today to join the "bankers' colony" on a five-year sentence. Steinman was convicted on a charge of making excessive loans on insufficient security.

EBERHART GUEST OF DETROIT MEN

Minnesota Governor Talks About State Development.

Detroit, Mich., May 23.—Governor Adolph O. Eberhart of Minnesota was the guest of honor at a luncheon given today by the Detroit board of commerce. Governor Eberhart delivered an address on "Most Important Phases of State Development."

SUPREME COURT HAS NO POWER TO ACT IN THE WHITTIER CASE

Chief Justice Start Sends Note to Governor Eberhart.

Says Action Would Establish an Undesirable Precedent.

Board of Control Does Not Want to Hear the Charges.

St. Paul, Minn., May 23.—(Special to The Herald.)—In a brief but courteous note this morning, the supreme court declined to act as a board of arbitration in the controversy between the governor and F. A. Whittier, superintendent of the state training school for boys at Red Wing. The note was signed by Chief Justice C. M. Start, and said:

"Your request of May 20 that the justices of the supreme court act as arbiters in the matter of charges to be preferred against the superintendent of the state training school for boys at Red Wing, has been duly considered and the conclusion reached that we cannot comply with the request.

Have No Jurisdiction.

"We have no jurisdiction of the matter as a court, and if we should consent to act as arbitrators it would establish an undesirable precedent, which would embarrass the court and

(Continued on page 6, seventh column.)

NEW YORK MAN BACK IN SECRET SERVICE

WILLIAM J. FLYNN.

Washington, May 23.—William J. Flynn, former deputy police commissioner of New York, has re-entered the secret service and today was ordered to take charge of the service in New York city which position he formerly held. Flynn recently had been mentioned in connection with the commissionership in New York, but said he preferred his old place in the secret service.

FORM PLANS FOR EMPIRE

Premiers of British Colonies at Council in London.

Constitution for the Empire Among Themes for Discussion.

London, May 23.—The imperial conference, which has now practically assumed the functions of a grand council of the British empire, opened the third series of its quadriennial deliberations today, under the chairmanship of Premier Asquith, at the foreign office.

Besides the members of the imperial cabinet, fifteen premiers and ministers from the over-the-sea dominions of the empire settled down to discuss such knotty problems as the co-ordination of the navies and land forces for imperial defense; the declaration of London; an imperial court of appeal, an "all red" transportation line to encircle the globe, and a future constitution of the British empire. The hope is expressed that out of the discussion of the last topic may come some defi-

(Continued on page 9, second column.)

FRENCH PREMIER IS IMPROVING

He Is Told for First Time of the Death of Berteaux.

Paris, May 23.—Premier Monis, who so narrowly escaped death at the opening of the Paris-to-Madrid aviation race on Sunday, when Train's monoplane dashed into a group of official spectators, and killed Minister of War Berteaux, passed a good night. In fact, the premier's condition was regarded so satisfactory this morning that he was informed of M. Berteaux's death. When he asked as to the condition of M. Berteaux a member of the cabinet replied:

"All is over."

For a moment it was feared that the shock was too much for the aged premier. He fell back in the bed, tears filling his eyes. Later, however, M. Monis recovered and talked of the quality of M. Berteaux, who was an intimate friend of the premier as well as his associate in the cabinet.

HILLES HAS 'EM GUESSING.

President's Secretary Writes Governor Eberhart "of Idaho."

St. Paul, Minn., May 23.—(Special to The Herald.)—In a letter addressed to "A. O. Eberhart, Governor of Idaho, Pocatello, Idaho," Charles D. Hilles, secretary to President Taft says:

"The president requests me to acknowledge receipt of your telegram of May 15, and to thank you for sending it. He feels that he is to be congratulated on securing Mr. Stimson for the cabinet and is glad you so cordially approve the appointment."

In view of the fact that Governor Eberhart, at the last writing, was still governor of Minnesota and that Boise is still the capital of Idaho instead of Pocatello, the letter appears somewhat odd.

DR. NYE PUT ON TRIAL IN OHIO

More Than Forty to Testify in Legislative Bribery Case.

Columbus, Ohio, May 23.—State Representative George B. Nye of Pike county, who is a physician at Waverly, was placed on trial today before Judge Kinkead in the criminal court on the charge of soliciting a bribe of $500 from State Printer Edward A. Crawford to vote for the Kimble bill, which reapportioned common pleas judicial districts.

The bill, it was said, was aimed at Judge A. Z. Blair, of Scioto county, who was instrumental in exposing the wholesale frauds and vote buying in Adams and Scioto counties.

Nye is under indictment on two other charges of soliciting bribes and is the first of the half dozen or more members of the Ohio legislature to be placed on trial.

More than forty witnesses have been summoned in the Nye case, including Judge Blair.

STEEL BARGE LINE ON THE MISSISSIPPI

New Service Will Be Put Into Effect Next Week.

New Orleans, La., May 23.—Another step in reviving traffic on the Mississippi river will be taken next week by the inauguration of a fifteen-day service between Cairo, St. Louis, Memphis and New Orleans with a fleet of modern steel barges.

The first barge will reach New Orleans next Sunday and will return north with a cargo of sugar, molasses, rice, canned goods and oil.

The barge rates are so much less than railroad rates that the promoters believe more tonnage will be offered than can be readily cared for. A weekly service will be inaugurated as soon as other barges are added.

PLAN FIGHT TO FREE PHILIPPINES

Members of House Prepare for Active Campaign Next Session.

Washington, May 23.—Members of the house are loading the committee on foreign relations with resolutions providing for the neutrality and the ultimate independence of the Philippine islands. While no action by congress is expected at this session, a determined effort will be made in the regular session to sever the islands from United States possession.

DREAMING FIREMAN FALLS AND MAY DIE.

St. Paul, Minn., May 23.—(Special to The Herald.)—Responding to an alarm of fire he dreamed was being sounded, William Flaherty, a pipeman connected with Engine Company No. 2 of the St. Paul fire department, fell through the pole-hole this morning and sustained injuries that may result in his death. He is now at Bethesda hospital with a fractured skull.

Chauffeur Is Arrested and Fined for Running Car Without Permit.

Clifford J. Denyer was arrested by Patrolman Sundstrom this morning on a charge of operating an automobile without a state license. He pleaded guilty in police court and was fined $5 and costs or five days.

It is claimed that there are numerous cars in the city which are not carrying a state tag. John O'Neil, another chauffeur, was brought in this forenoon on the same charge, but was released when he showed that he had sent for his state license. The police say that they will round up all persons who are running automobiles without a state license.

French & Bassett are selling the Duluth Music company's stock of pianos at tremendous reductions, including Steinway, Weber, Steck, Ivers & Pond, Kranich & Bach and many other makes.

WEATHER: Unsettled and cool weather tonight and Wednesday; moderate easterly winds.

DO IT FOR DULUTH

Every citizen of Duluth that is interested—and every one of us should be—in the industrial growth of Duluth, ought not to miss the opportunity afforded through the efforts of the publicity committee of the Commercial club to visit the Minnesota Steel company's site tomorrow.

The city of Duluth and its people are to be congratulated that it has an organization of business and professional men who are enterprising enough to take the initiative in a matter of this kind, a Commercial club committee that will plan and carry out an excursion for the people to go out and view personally the site where the steel company is now constructing an immense steel plant, one that will surely revolutionize things in Duluth. The excursion will be one of enlightment for, no matter how much we may hear or read in the papers about a big industrial plant to locate in our city, there is nothing like first-hand information when we see and examine for ourselves.

This excursion should be appreciated by every loyal citizens of Duluth. Let us show our appreciation by participating in it tomorrow.

PISTOL DUEL IN SUBURB

Two Unknown Men Fire on Policeman Who Returns Shots.

Burglars Are Chased for Two Blocks By Officer Brouillette.

Thwarted in an attempt to burglarize the saloon of Charles Strand, Commonwealth avenue, New Duluth, early today, two unknown men turned a gun on Patrolman Henry Brouillette, fired once and ran. Fortunately for the officer, the shot went wild.

Brouillette started in pursuit. He fired six times after them, but four of the shots missed fire and the other two were unproductive of results. The would-be burglars headed for the brush near the railroad tracks and the policeman lost them after he had chased them for two blocks.

Owing to the absence of any street lights after the midnight hour at New Duluth, Patrolman Brouillette was obliged to give up the chase. He did not get a good look at his assailants and cannot give a good description of them.

Officer Brouillette was passing by the Strand saloon on Commonwealth avenue about 1:30 o'clock, when he heard voices. As he stopped to listen, two men jumped out in front of him and one of them fired at him. Both turned and run when Brouillette joined in with the gun play.

Officer Brouillette believes that the men were planning to enter the Strand saloon, and that their plans were spoiled when he passed by.

ARM CRUSHED BY FALLING STONE

Workman Has Narrow Escape From Death at Fifty-Seventh Avenue Quarry.

Mike Badovich, aged 30, lost an arm in an accident which nearly cost him his life, while at work yesterday afternoon at the stone crusher at the head of Fifty-seventh avenue west.

Badovich was working on the cliff. A huge boulder gave way and struck the ledge, upon which he was resting his arm, while holding a drill. The stone crushed the arm terribly and it was necessary to amputate it. Had Badovich been standing nearer to the ledge, he probably would have been killed.

The injured man was hurried to St. Mary's hospital. Badovich lives on South Fifty-seventh avenue west and is a single man. He has been employed by the Duluth Crushed Stone company for several months.

FORMER WEST DULUTH GIRL DIES IN CANADA.

Word was received in West Duluth yesterday afternoon of the death of Elena Hanchett, 13-year-old daughter of Mr. and Mrs. Sidney Hanchett, former residents of West Duluth, at Barrows, Sask., Can. The Hanchetts lived in West Duluth up to three years ago, when they moved to Canada. Mr. Hanchett was for a number of years, superintendent of the Merrill & Ring mill at West Duluth.

West Duluth Girl Dies.

Dagny Stabenfeldt, 13-year-old daughter of Mr. and Mrs. Toben Stabenfeldt, died this morning at the family residence, 6303 Highland street, following a short illness. Death was due to heart trouble. The girl's father is a dairyman. The funeral will be held Saturday afternoon.

West Duluth Briefs.

Rev. C. W. Shevenius, pastor of Bethany Norweglan-Danish M. E. church, will conduct services at Proctor this evening.

A patriotic concert and play will be given under the auspices of the Sunday school classes of Merritt Memorial M. E. church this evening at Great Eastern hall. About fifty young people will take part.

Fire which broke out last evening in a small clothing store at 310 Central avenue, causing about $200 damage, was caused by an explosion of a tank of carbon used for generating gas for lighting purposes.

Bernard N. Nelson of 626 North Fifty-ninth avenue west, who has been ill at St. Luke's hospital, is said to be improving.

The Ladies' Aid Society of Immanuel Lutheran church will be entertained by Mrs. G. Drovdahl of 816 North Sixty-third avenue west, Thursday afternoon.

Miss Mary Franz of 215 North Sixty-second avenue west has returned from a visit in Minneapolis.

Mr. and Mrs. Fred Talbot of 5112 Polk street are parents of a daughter, born yesterday.

Mr. and Mrs. Herman Kringle and family, who have spent the past two years at Houston, Tex., have returned to West Duluth to live.

Watch repairing. Hurst, W. Duluth.

Mrs. Henry Clark of 426 North Fifty-second avenue west has returned from a visit at Barnum.

J. F. Lee of 618 North Fifty-seventh avenue west, who has been visiting at the home of his daughter, Mrs. Archie Nelson, at Marble, returned to West Duluth yesterday.

Miss Freda Benson of 220 North Forty-sixth avenue west, has returned from St. Paul, where she was the guest of her sister, Mrs. Josephine Benson.

The Ladies' Guild of Holy Apostle's Episcopal church will hold a business meeting tomorrow afternoon at the rectory, 634 North Fifty-eighth avenue west.

Bernhardt's Seat Sale Opens

Thursday morning at 10 o'clock.

Attend the

DANCE

given by the Jefferson Athletic association, Tuesday evening, May 23rd, at Lester Park. Admission 50c. Good music.

CLUB WOMEN AT BEMIDJI MEETING

More Than 100 Gather at Ninth District Convention.

Bemidji, Minn., May 23.—(Special to The Herald.)—More than a hundred club women, headed by Mrs. Highbee, president of the Minnesota Federation of Women's Clubs, and Mrs. Pomlinson of St. Peter, vice president at large, are in Bemidji to attend the opening session, this afternoon, of a two days' convention of the Ninth district club women.

It is said that the Whittier-Red Wing affair will come up for discussion.

The program opened at 2:30 this afternoon and tonight at a public meeting at the high school auditorium, Miss Mary McFadden will speak on "Woman Suffrage," Mrs. W. C. Cobb on the "Commission Plan of Government" and Mrs. Highbee on "The Federation and Its Part in Progressive State Work."

Citizens, Attention!

All fraternal orders that have not yet sent in their names are invited to participate in the Memorial Day exercises to be held next Tuesday, in honor of the soldiers and sailors of the Union.

The ladies' organizations are invited to go at once to the Auditorium, while the men are invited to join in the parade and places in line will be assigned to all societies sending in their names to

S. S. WILLIAMSON,
President Citizens' Staff, G. A. R.
Room 515 Torrey Building.

TWIN CITIES ARE INTERESTED

Will Be Well Represented at Meeting of Development Association.

W. R. Mackenzie, secretary of the Northern Minnesota Development association, returned today from the Twin Cities. He says the coming convention of the association has attracted attention in the Twins and they will be well represented here by people interested in matters applying to Northern Minnesota.

In advertising the convention, Mr. Mackenzie has maintained an office in Minneapolis as well as in Duluth and Southern Minnesota has been flooded with advertising matter, and invitations to the meeting. The people of the Twin Cities and of Southern Minnesota know that the Northern Minnesota Development association is working for projects of great state importance, and the Duluth meeting is getting its full share of attention.

The daily mail brings innumerable enthusiastic letters and press clippings from Northern Minnesota and the impression that the Duluth meeting will be greater than any previously held by the association has not been dispelled. Every county in Northern Minnesota will be represented by its full quota of delegates, and there will be hundreds of visitors, not of but at the convention.

INSPECT LINE OF NEW RAILROAD

A party of railroad builders went over the new line of the Canadian Northern today, between Duluth and Virginia. In the party were: Timothy Foley of the firm of Foley, Welsh & Stewart of St. Paul and P. F. McCarthy, T. F. Walsh and F. Davis of Davenport, Iowa, of the Walsh-Hogan Construction company and the McGrath Construction company, H. T. Hazen, chief engineer of the Duluth, Winnipeg & Pacific and Frank Anderson, superintendent for Foley, Welsh & Stewart.

The Walsh-Hogan and the McGrath companies are sub-contractors from Foley, Welsh & Stewart. Mr. McCarthy said that he was making his first visit to Duluth. He said the two companies have steam shovels at work about twenty miles south of Virginia, the objective point of the party.

WET GROUND NO OBSTACLE

But Duluthians Should Prepare for Mud on Steel Plant Trip.

Will Cost Just Forty-Six Cents to Inspect New Industry.

If no hard rain falls before 1:30 tomorrow afternoon, the "Seeing Duluth" excursion to the steel plant will be damp and the publicity committee recommends that the excursionists wear foot covering more substantial than dancing pumps, but even if a little mud should be encountered, the inconvenience will be well compensated for by what the excursionists will see.

The special train over the Northern Pacific railroad will leave the Union station at 1:30 tomorrow afternoon and is expected to return about 4:30. The fare for the round trip will be 46 cents and that will be the total expense of the trip for each traveler. It will be cheap education.

The Minnesota Steel company, through Vice President George L. Reis, has joined with the public affairs committee of the Commercial club, in the invitation to Duluth people to visit the plant. Although the Commercial club is sponsor for the excursion, the invitation is general and if it were possible for every resident of Duluth to make the trip, everybody would be happy. The Commercial club officers recommend that everyone who can get away from his business for a few hours make the trip and learn just what is being done at the steel plant.

The steel plant here will be the most up-to-date plant in the United States. The lands were acquired at a cost of $1,000,000, and about $3,000,000 more is included in the docks, transfer railroad and bridge. The building permit for the plant calls for an expenditure of $10,000,000, which is only for the first unit. The first unit will include two blast furnaces, blooming mill, two bar mills, six open hearth furnaces, rail and shape mill, by-produce coke ovens, cement plant, repair and pattern shops. The expenditures on the plant in 1910 were $1,715,000. The work this year is on an even larger scale, and the time is now opportune for a visit to the plant.

The following statistics on what has already been accomplished have been compiled for the Commercial club:

Excavation and filling, 150,000 cubic yards.

Concrete foundation, 40,000 cubic yards.

Concrete sewer, 700 feet of 80-inch, 2,400 feet of 48-inch.

Tile sewer, 3,000 feet of 24-inch. Sewers laid thirty feet below general level.

Railroad tracks, seven miles.

Copper power wire, twelve miles.

Water supply, 1,000,000-gallon centrifugal pump.

Power plant, 800-horse power boilers, 500-kilowatt generator.

Air compressor, 1,000 cubic feet per minute.

Building material, 250,000 concrete building blocks.

Buildings erected, machine shop, 280 by 140, forge shop 140 by 65, plate shop 140 by 80, power house 100 by 40, storage building 300 by 40.

Plant includes four large derricks and electric hoists, built in Duluth by Clyde Iron works.

SENATE AFTER STANDARD OIL

Wants to Know What Is Being Done to Prosecute Magnates.

Washington, May 23.—Information as to what steps had been taken for the criminal prosecution of the officers of the Standard Oil company under the recent decision of the supreme court was demanded of the attorney general today by the senate, which adopted without debate a resolution of inquiry offered by Senator Pomerene. The resolution names specifically John D. Rockefeller, Henry H. Rogers, Henry M. Flagler, John D. Archbold, Oliver H. Payne and Charles M. Pratt.

On Trial at Rochester.

Rochester, N. Y., May 23.—The trial of the Standard Oil company on an indictment charging acceptance of rebates on oil shipments from Olean, N. Y., to Burlington, Vt., was resumed here before Judge Hazel in the United States district court this morning.

The special plea made yesterday afternoon by ex-Judge Daniel J. Kenefick in support of his motion to quash indictments was something of a surprise to the attorneys for the government, and at that time court adjourned to enable the attorneys to get together on the subject if possible.

Claims One Conviction.

Judge Kenefick's plea was that the Standard Oil company had been convicted of the crimes charged in the indictment and had paid a fine following conviction, and that it is unlawful and unconstitutional to punish a man or corporation a second time for the same offense.

When court convened today United States District Attorney O'Brian was prepared to attack the special plea, having filed a replication yesterday afternoon, and Judge Kenefick presented a rejoinder.

WANTS TO LOOK INTO JACKPOT

Democratic Minority in Senate Acts in Lorimer Matter.

Washington, May 23.—The Lorimer situation in the senate was further complicated late today by the introduction of a third resolution calling for an investigation of the charges of bribery in connection with the election of the junior senator from Illinois. The resolution was offered on behalf of the Democratic minority by Senator Martin. It goes further than the La Follette and Dillingham resolutions in that it provides specifically for an inquiry into the "jackpot" fund in the Illinois legislature and its connection with Lorimer.

Foley Kidney Pills are a true medicine. They are healing, strengthening, antiseptic and tonic. They act quickly. For sale by all druggists.

START WORK SOON ON HUDSON BAY RAILROAD.

Ottawa, Ont., May 23.—Work will start this summer on the Hudson Bay railroad, which is expected to be the shortest and quickest route from the Northwestern wheat fields to tidewater. The department of railways is now preparing specifications for bids for the construction of the first 120 miles from Hudson bay eastward. Surveys for the first 250 miles have been practically completed, but the remainder of the route cannot be determined until it is definitely settled whether the terminus will be at Fort Churchill or Port Nelson.

FOR INDIGESTION.

Take Horsford's Acid Phosphate.

Half teaspoonful in water before meals recommended as grateful relief from distress after eating.

J. M. Gidding & Co.

"Gidding Corner"—Superior St. at First Ave. W.

NOTICE! Consistent with the progressive policy of this store, we will begin Thursday, June 1st, to close our store during the summer months at 5:30 p. m. excepting Saturdays—Beginning with July 1st we will close at 6 p. m. on Saturdays.

We believe this early closing movement will be for the best interest of our employes, whose interest we must consider as our own, and we believe our patrons will willingly govern themselves accordingly.

ARE YOU A MAN?

Or Are You So Weakened By Neglect and Disease That You Have Lost All Virility?

Many people are going around now-a-days under a misapprehension. It is not sufficient to look like a man to be a man — manhood is something by itself—the virile look, the athletic step, the sharp, incisive word, all these go to prove that a man is a man. Many are content to drag through life deadened by lassitude and worn out in the prime of youth—why? Because they do not know, or shut their eyes to the fact that in this decadent state of twentieth century manhood, no man is perfect and those who are fairly so, will retrograde rapidly unless they take some active steps to retain their virility.

The seeds of disease are in your system, and neglect will encourage them to multiply until they are more powerful than your constitution. One little trouble neglected leads to a greater one, and so on to the natural termination—death.

Careful and above all, scientific treatment will, if taken in time, conquer even that being of men's diseases—blood poison, while unnatural discharges and its next steps, Bright's disease and kidney disease, yield readily to skilful treatment.

Remember though, the treatment must be skillful, it must be prescribed by a specialist, or it is liable to do you irreparable harm. The Progressive Medical Specialists, whose offices are at No. 1 West Superior street, have devoted their lives to the study of the diseases of men, both in the colleges of this country and of those of Germany—the most famous in the world. They have effected thousands of cures where ordinary practitioners have pronounced the case hopeless, because they are **Specialists.** If you are afflicted with any chronic disease, do not fail to consult them, their methods are marvelous and thousands of Duluthians are now praising their science and skill. You are cordially invited to consult them free of charge and they will explain how they can cure any of the diseases of man regardless of age or complications. They have practiced here for more than 20 years and spent more than $10,000 on scientific instruments. If they guarantee to cure a man that man can cetrainly be happy, for their word is like their skill.

Their offices are crowded from 9 a. m. to 8 p. m. No. 1 West Superior street.

Lighting Talks

NUMBER 14 **DULUTH, MAY 23, 1911**

A Few More Comparisons

The Duluth-Edison Electric Company offers to light Duluth for $45 a year for each arc light, and to give the City FREE $1,500 worth of Electric Light each year for ten years.

The following are the prices per arc light per year at prseent paid by the cities named:

City—	Population.	Price Per Arc Light.	City—	Population.	Price Per Arc Light.
San Diego, Cal.	42,000	$60.00	Terre Haute, Ind.	60,000	$70.00
Sandusky, Ohio	30,000	77.00	Toledo, Ohio	170,00	45.00
San Francisco, Cal.	412,000	72.00	Trenton, N. J.	96,000	80.00
Savannah, Ga	65,000	72.00	Troy, N. Y.	81,000	95.00
Schenectady, N. Y.	75,000	60.00	Vincennes, Ind	15,000	53.62
Scranton, Pa.	130,000	50.00	Washington, D. C.	343,000	85.00
Shreveport, La.	20,000	75.00	Waterbury, Conn.	80,000	79.00
Sioux City, Iowa	50,000	75.00	Watertown, N. Y.	30,000	66.00
South Bend, Ind.	60,000	78.00	Wilkesbarre, Pa	70,000	54.00
Spokane, Wash	105,000	48.00	Winona, Minn	18,000	68.00
Springfield, Ill	52,000	60.00	Wichita, Kan	53,000	66.00
Springfield, Mass	90,000	71.50	Worcester, Mass	140,000	91.00
Springfield, Ohio	50,000	68.00	Yonkers, N. Y.	80,000	92.00
Stubenville, Ohio	30,000	60.00	York, Pa	45,000	60.00
Superior, Wis	40,000	58.00	Youngstown, Ohio	79,000	68.00
Syracuse, N. Y.	138,000	68.00	Zanesville, Ohio	28,000	57.00
Tampa, Fla	45,000	87.50			

This table completes the alphabetical list of the leading cities in their respective States. These figures on city arc lighting are officially certified. But if you doubt their correctness YOU can get them direct from each city by writing for them, just as we did.

We have now shown you in the tables printed in these "Lighting Talks" the prices paid today for their lighting by 148 other American cities—because we want YOU to understand the exact meaning—the REAL ADVANTAGE TO DULUTH—of our offer to light the City for only $45 PER ARC LIGHT PER YEAR.

Study these tables of lighting figures and make your own comparisons.

We believe our offer means for Duluth the best city lighting at the LOWEST PRICE ANYWHERE IN THE WORLD.

We know that if the City builds a Municipal Light Plant it will cost the taxpayers a great deal more than $45 a year for each arc light.

There is more to tell you about this. Watch for the next "Lighting Talk," in next Thursday's Herald.

DULUTH-EDISON ELECTRIC CO.

HEAR COMPLAINTS ON RAIL SERVICE

State Commission Will Visit Several Northern Towns.

St. Paul, Minn., May 23.—(Special to The Herald.)—Members of the board of railroad and warehouse commissioners will leave tonight for Duluth and tomorrow will visit the little stations of Paupores, Goodland and Iroquois, to investigate complaints of inadequate station facilities.

On May 25 the commission will go over the Minnesota & Northern Wisconsin railroad to view the country and conditions of development, in order that they may pass on the request made by owners of the line that they be allowed to abandon business and tear up the tracks.

The Minnesota & Northern Wisconsin is a logging railroad, built into the north woods a number of years ago. It runs from Scanlon to Alden Lake Junction, a distance of forty miles. The road is owned by the Backus-Brooks company of Minneapolis.

Talk on Arbitration.

New York, May 23.—Baron d'Estournelles de Constant of the French senate, George Von L. Meyer, secretary of the navy; Hamilton Holt, editor of the Independent, and Hudson Maxim, the inventor, spoke to 600 men and women at a banquet of the Economic club last night on international arbitration and allied subjects. Baron de Constant spoke mournfully of the loss his country had sustained in the death of M. Berteaux, the minister of war. Secretary Meyer made the principal speech.

MURDERS CHILDREN AND KILLS HERSELF.

Brambach, Saxony, May 23.—Driven temporarily insane by an accusation of theft, a woman here today killed her five children and then committed suicide.

Bernhardt's Seat Sale Opens

Green Room Gossip.

While society women in the East are interesting themselves in aviation and other ultra-modern sports, Mary Quive who, by the way is a younger sister of Grace Van Studdiford, and herself appearing in "Madame Sherry," has turned the calendar back a few centuries to find a unique form of diversion. She has taken up the ancient royal sport of falconry, and is the possessor of a genuine Persian hawk trained to bring down birds, rabbits and other quarry.

Miss Quive is coming here to the Lyceum theater and the game laws permitting, she will probably take a

MARY QUIVE,
With "Madame Sherry."

day or two on the outskirts of the town to indulge in what she declares to be the finest and most exhilirating sport in the world. Miss Quive first became interested in falconry through a well known English comedian, who appeared in the same company with her last season, and who had formerly belonged to the Old English Hawking Club of London. When a bird fancier in New York, a friend of the actress, learned of her eagerness to try her hand at fanconry, he secured a trained Persian hawk and presented it to Miss Quive. That was early last fall and since then Miss Quive has become quite expert in the art of flying a hawk. The ancient style of hawking required the rider to be mounted on a charger in order to follow the swift bird of prey as it circled and swooped through the air. But Miss Quive has modernized the sport and uses an automobile in which to follow the bird. Quite a few of her friends have become interested in the sport and it is probable that by next summer falconry will be very popular in America.

* * *

"There is no reason why the Jewish race cannot be portrayed on the stage in an amusing manner without being offensive," said Ben Welch, who is at the Orpheum this week. Mr. Welch comes of a prominent Jewish family. One brother is a rabbi in Sydney, Australia. Another is a well-known oil painter, and a third is a real estate dealer in New York. His brother, Joe Welch, is as famous as himself in vaudeville work.

"The trouble was that Jewish characters, like the Irish characters, were always burlesqued, and both races have objected. The result is that the burlesque type of Irishman or Jew on the stage is now a rare specimen. First-class theaters won't tolerate it, and in place of these burlesque types, performers are trying to give a real impersonation of these characters. Every race of people has some amusing characteristic, and no race objects to seeing them portrayed when there is no sting in the portrayal."

Mr. Welch is one of the most popular performers on the circuit, owing to the manner in which he befriends performers less well established than himself, and many an actor now in vaudeville has Mr. Welch to thank for his "start."

* * *

"Seeing is believing," is an old saying that has been handed down for generations and one would almost have to see the wonderful feats that are performed by Paul Conchas at the Empress in order to believe them. Conchas is the feature attraction of a very good bill, which is being presented at the Empress this week. Not only is the man a wonder for strength, but he is also a very clever juggler. He lifts and juggles everything from a paper

BEN WELCH,
At the Orpheum.

PAUL CONCHAS.

ball to an enormous torpedo. During the course of his act, he juggles cannon balls, Krupp shells of tremendous weight, and torpedoes. He is a wonderfully developed man and is making a great hit with the patrons of the Empress. Conchas has an assistant who presents the comedy of the act. This man is one of the cleverest pantomime comedians who has ever visited the Empress and his funny antics keep the audience in screams of laughter.

* * *

Mme. Bernhardt will appear in "L'Aiglon," at the Lyceum theater, on Monday, May 29.

In "L'Aiglon" Madame Bernhardt has a drama of five acts, which demand practically her constant presence on the stage. The portrayal is that of the young duke of Reichstadt wasting away in the fires of an hereditary ambition, which he can neither control nor gratify. There are three scenes in the play that are considered really great. The first is when Aiglon finds with childish delight that his little toy soldiers have been turned as by magic into Napleonic grenadiers, the famous mirror scene when the relentless Metternich forces the young duke to look into the glass and see the sullen sadness of his face, the racial melancholy in his eyes and the grim portrayal in his complexion of the taint of generations in his blood, and lastly the death of Flambeau on the field of Wagram, when L'Aiglon alone in the dark with the grenadier, his last bond with France, his final tie with a glorious past, invokes Napoleon's victory and hears in the deep silence the myriad voices of soldiers on the battlefield, the moans and supplications of those about to die, the cries of Vive l'Empereur, the bugles and the drums.

The box office sale will open at 10 a. m., on Thursday morning.

* * *

The new films at the Odeum and Lyric theaters this week are causing much favorable comment. One of the best photoplays on the two bills is "The Loyalty of Don Luis Verdugo" at the Odeum. The story of the photoplay follows:

"Lieut. Malcolm of the United States army arrives at the Casa Verdugo and reads the proclamation authorizing the occupation of Southern California by the United States government. The lieutenant orders all Mexican flags lowered and the United States' emblem hoisted instead. Don Luis Verdugo, a feeble old Spanish grandee, unreconciled to the American occupation, refuses to allow the lowering of the Mexican flag. His daughter, Dona Maria, intercedes with the American officer who temporarily allows the flag to wave. Struck with the brilliant beauty of the little signorita the Union officer falls a slave to her charms and the attachment seems mutual. Don Luis, however, refuses to allow his daughter to receive the attentions of the American officer.

"Six months later Cohuilla Indians attack the hacienda of the Verdugo's and while the family and servant are hard pressed Dona Maria rides to the Union post for help. Lieut. Malcolm and a company promptly respond, easily beating the Indians off and effecting a rescue. Don Luis recognizing his obligation to the gallant lieutenant surrenders to the Star and Stripes."

Do You Have the Right Kind of Help?

Foley Kidney Pills furnish you the right kind of help to neutralize and remove the poisons that cause backache, headache, nervousness, and other kidney and bladder ailments." For sale by all druggists.

CURTAILMENT OF LUMBER SHOWN

Testimony Taken in Missouri Suit to Oust the Trust.

St. Louis, Mo., May 23.—That the big lumber companies agreed on the curtailment of production, that prices were fixed by a committee, and that printed price lists were sent to all the firms as a means of controlling the market, were facts established in the initial hearing yesterday of the state's ouster suit against the alleged lumber trust.

Asked about a meeting of the Southern Lumber manufacturers' association (which later was renamed the Yellow Pine Manufacturers' association) in the Hoo Hoo building at the World's fair in 1904, George K. Smith, secretary of the Yellow Pine Manufacturers' association, testified that the price list committee met in executive session at that time in conjunction with the regular semi-annual gathering of the association.

Testified From Records.

He testified from his records that the price list committee reported the lumber was being cut faster than it was being shipped, and that a large surplus resulted, and that so long as the surplus should continue, "staple or advancing values would be impossible."

"A way must be found," the report continued, "to reduce the surplus and keep the supply in proportion to the demand."

The secretary's minutes of an executive session read:

"It was thought advisable to recommend to all manufacturers a reduction of 33 1-3 per cent in the output of all sawmills until such time as the demand should more nearly absorb the supply."

He said notices were sent to all members to reduce their output for ninety days, and that again, before the expiration of the ninety days' period, he sent another notice that curtailment should continue for ninety days more. He testified to the holding of seven committee meetings between June, 1904, and January, 1906.

"Gave Its Opinion."

Asked whether these meetings all were held to raise prices, he said:

"There were that many meetings of the committee, at which the committee gave its opinion as to what prices ought to be."

Later, he testified, the price committee's activities were discontinued by a vote of the association. The state tried to obtain an admission that this change was made to avoid possible prosecution, and Smith partially admitted this, saying it was desired "to avoid the charge of collusion to fix prices."

\$175 new upright pianos for $87 in the great piano sale at French & Bassett's. The entire stock of the Duluth Music company is being sacrificed at prices heretofore unheard of in Duluth or elsewhere.

Cohalan in O'Gorman's Place.

Albany, N. Y., May 23.—By a vote of 28 to 9, the senate last night confirmed the nomination by Governor Dix of Daniel Cohalan as supreme court justice in New York city to fill the vacancy caused by the election of James A. O'Gorman to the United States senate.

Silberstein & Bondy Company.

First in Store Progress

Have you ever stopped to think of the many things this store has been first in introducing to this city. Well, there's no harm recalling some of them, lest you or our store friends forget.

There used to be a time when all stores kept open every night until 10. The S. & B. Co. changed all that, was in fact the first store to inaugurate early closing hours, including the present custom of closing at 5:30 during the summer months.

Last summer we began closing our store at 6 p. m. on Saturdays, during July and August, and we are glad to see other stores already following in line this summer with another S. & B. Co. innovation.

Nor are we going to stop there! We are continually striving to make this (as it always has been) Duluth's "Best" Store, an example that other stores may well emulate, and in this effort we are encouraged by the cordial support of a never increasing and appreciative public.

The Sale of Undermuslins Reinforced

New shipments arrived last week to augment this important undermuslin sale. New Paris lingerie, new tailored combinations, new children's undermuslins.

Among the underclothes are lovely night gowns trimmed with fine linen or Valenciennes laces, corset covers with an incredible amount of hand-embroidery for the money, and combinations, all fashioned to do away with bunchiness.

Their prices are $1 to $3.50 for night gowns, $1 to $2.25 for corset covers, $1.50 to $3.00 for combinations, $1 to $5 for chemises and 50c to $1.50 for drawers.

Among the Novelties

be sure to see the peasant smock night gowns, eleven different styles, between $1 and $5; the kimono night gowns and the new silk-and-cotton garments, the serpentine laces and short circular skirts.

Among the Thousands of Regular Priced Garments

you will notice how sheer the materials are and how everything is planned to be cool and practical as well as fashionable and becoming. There are any number of night gowns with slashed sleeves and the peasant or one-piece sleeves, so easy to iron; there are corset covers with sleevelets to wear inside thin blouses, and lovely fluffy skirts to go with dresses. There are wonderful eyelet embroideries which wash so well.

Paris Lingerie

The exquisite hand-embroidery, the hand-sewing throughout, in the case of all but the smallest priced garments, and the moderate prices are things to convince one without argument.

Children's Undermuslins

Night Gowns—For girls 6 to 16 years of age, 50c, 75c, $1.00, with either high or low neck, embroidery trimmed.
Drawers—2 to 12-year sizes, embroidery trimmed, 25c; bloomer drawers, 2 to 6-year sizes, 25c; girls' drawers, 12 to 16-year sizes, 35c and 50c.
Petticoats—1 to 3-year sizes, lace trimmed, 50c.
Princess Petticoats—2 to 6-year, $1.00.
Petticoats—32, 34, 36-inch lengths, $1, $1.50 and $2.

Tailored Suits for Women

An Opportunity Exceptional.

Women who come looking for finely tailored suits for every day wear will be delighted by the group at the following extraordinary savings:

Women's $35 and $45 Suits at $19.50.

Selected Suits from our own stocks, all in excellent spring weights and a wide variety of colors, materials and sizes. Every coat beautifully lined with peau de cygne.

QUALITY CLOTHES — "Fitwell" CLOTHING COMPANY 112 W. SUPERIOR ST. — DULUTH, MINN.

There's Not a Man

in this community whose taste in clothes is too critical, too exacting, to be wholly satisfied with

FITWELL CLOTHES

The fabrics are all-wool, the weaves are chosen from the markets of the world, wherever good cloth is woven.

The fine English worsteds, hand woven tweeds and the crofter looms of Scotland, and the prefect product of our own American mills. All these are represented in Fitwell Clothes.

Spring Suits at $15--$20--$25

They're beyond any question the best clothes made. If you don't wear them, you're making a mistake.

"The Flexotone" at Kreidler's

All the world's music is at your service, and you can play it just as YOU want it played.

Until you hear the "Flexotone" player-piano you cannot realize how perfectly it imitates the performance of an accomplished pianist.

None of the "canned music," that awful "thump-thump" that characterizes some player-pianos. The "FLEXOTONE" devices enable you to accentuate any one note, any chord—in short, YOU can play any composition of the masters the way HE played it, or the way YOU want to play it.

And it is not hard to play—but you must see and hear it to understand fully that it is a masterpiece.

KREIDLER PIANO CO.
106 EAST SUPERIOR STREET.

Loyal Followers of Mrs. Eddy Withdraw From the Mother Church

At a meeting of the members of Second Church of Christ, Scientist, of Duluth, on May 22nd, 1911 the following resolution was offered and was adopted. There was a large attendance and only one dissenting vote. The same action was taken on the same date by Fourth Church of Christ, Scientist, Minneapolis, Minn., and was carried by a vote of 93 to 3.

Whereas church organization is only a material framework and is not the Church Universal; and whereas, forgetful of this truth, when a church organization becomes large, rich and powerful, its members magnify and worship their particular church organization, instead of using the church organization merely as a temporal help whereby those humbly seeking to follow Jesus may, with perfect freedom, co-operate in his spirit to bless and to save their fellow beings; and

Whereas, Mary Baker Eddy founded and established Christian Science, and hence Christian Science is what she has defined it to be; and

Whereas, since the death of Mrs. Eddy The Christian Science Board of Directors of the Mother Church has absolute and final authority to control the teaching and the practice of Christian Science in the Mother Church and in its branch churches, there being no appeal from the decisions of the Board, whose members hold office for life, with power to remove any of their own number and to fill all vacancies on the Board, and

Whereas, one of the first acts of The Christian Science Board of Directors of the Mother Church after the death of Mrs. Eddy has been to condemn Christian Science as taught by Abbot Edes Smith, C. S. D., who is a personal and loyal student of Mrs. Eddy herself; and whereas, under this decision Christian Science as taught and practiced by Mr. Smith and by his loyal students and friends everywhere is not permitted to be taught or practiced within the Mother Church or within its branch churches; and

Whereas, we are firmly convinced that Mr. Smith's teachings are absolutely logical and rational and in strict accord with the letter and with the spirit of the Bible as explained by Mrs. Eddy; and whereas, we cannot surrender the Truth nor accept that which is contrary to the Truth as we see it; and

Whereas, by reason of the above facts we, the students and friends of Mr. Smith and loyal adherents of Christian Science as declared to the world by Mrs. Eddy, recognize with regret that the tie which lovingly bound us to the Mother Church during Mrs. Eddy's lifetime must now, in loyalty to Mrs. Eddy and in obedience to our own conscience, be severed:

Therefore, Be It Resolved, That this church hereby severs its connection with the Mother Church and ceases to be a branch Church of Christ, Scientist; that its card be forthwith removed from The Christian Science Journal; and that this church shall, as soon as may be, amend its Articles of Association so as to become a Christian Science Reformed Church.

The services of these Churches will continue as heretofore on Sundays at 10:45, and on Wednesday evenings at 8 o'clock.

DON'T

Neglect Your Opportunities

Newbro's Herpicide is the one remedy on your druggist's shelves which may always be depended upon.

Instead of complaining to your friends and mourning over your loss of hair, call upon your local druggist and purchase a bottle of Newbro's Herpicide.

It is the first and original remedy, guaranteed to kill dandruff, stop itching and check falling hair.

You can save the hair you have much easier than you can grow new. The time to save your hair is now. The remedy for doing it is Newbro's Herpicide.

The same opportunity never comes but once. One dollar size bottles sold and guaranteed by all druggists.

Applications at good barber shops. Lyceum pharmacy and Lenox drug store, special agents for Duluth.

D. H., May 23, 1911.

Kindness to animals is one of the fundamental teachings of the Boy Scouts organization.

"The school that best helps to form character is not always shut in by the four walls of an academy."

Here are all the trappings and fixings for the Boy Scouts.

Official Outfits for enlisted boys are on sale here only.

Iron-Clad Shoes for Boys.

GOPHER WILL TAKE PART

Naval Reserves Will Give Exhibition During Midsummer Carnival.

Will Try to Make Landing Against Opposition of Militia Companies.

Commander Guy A. Eaton of the Minnesota Naval Reserve forces and his officers have given the carnival committee a big boost in its task of providing entertainment for the three days and nights of the carnival, by cordially tendering the assistance of the Naval Reserve companies and their ship "Gopher" for a spectacular exhibition of drills, exercises and maneuvers, to be given on the second afternoon and evening of the carnival, and in addition the officers of the local companies of the Third Minnesota Regiment have promised co-operation in such joint maneuvers as may be proposed between land and sea forces.

The program as proposed by the reserves is as follows:

Twelve-oar cutter race.

Five-oar whaleboat race.

Sailing race, including putting up masts and sails and getting away.

Small boat drills with signals from flagship.

Man overboard—abandon ship fire drills.

Landing forces against opposition from National Guard companies.

Various signal drills.

The work at night will consist of the various illuminated night signal exercises; the illumination of ship by outlining of hull and spars, possibly a spectacular night attack and a reception on board.

It will be seemingly gratifying to the Duluth people to be able to show off to their visiting neighbors what the naval reserves and local battalion of National Guard companies have accomplished in efficiency, discipline and smartness of execution.

ST. PAUL ELKS TO PLAY HERE

Duluth Men to Meet Brothers in a Baseball Game.

Duluth and St. Paul Elks will meet at baseball at Athletic Park Sunday, June 18. A return game will be played in St. Paul on July 18.

Al Kuehnow will allow the Elks the use of the park free of charge, as the proceeds of the game will be for charity.

The line-up of the Duluth team has not been decided upon as yet, but the members of the antlered tribe say that from all their local membership they can pick a team which will make the herd from down St. Paul way pull off some classy batting and fielding to win.

The money taken in at Duluth will go to the Duluth lodge to be used in charitable work and the game in St. Paul will be for the benefit of the charitable fund there.

The members of both teams will all be Elks. This is one of the requirements decided upon by both clubs.

The Duluth Elks are planning on making a great event of the ball game. The St. Paul men will be entertained both before and after the contest and several novel forms of entertainment will be provided for them.

L. H. Filiatrault is chairman of the baseball committee for the local Elks.

MRS. LAWRENCE ASKS DIVORCE

Claims She Was Treated in a Cruel and Inhuman Manner.

Mrs. Minnie Lawrence, 29 years old, has petitioned the district court for a divorce from her husband, William Lawrence, also 29 years old. She charges cruel and inhuman treatment. She alleges in her complaint that on one occasion he drew a razor and threatened to kill her. She claims that he drove her from the house which they occupied and at other times he slapped her and choked her. They have four children and, claiming that he is not a fit person to have their custody, she asks it. The papers in the action were filed with the clerk of the district court this morning. The case will be heard at the September term of court.

HOW TO SUCCEED

During the last few years, conditions in all lines of business, even professional life, have changed so completely that every man is waking up to the fact that in order to win success he must specialize and learn to do some one thing and do it well.

So it is with any article that is sold to the people. It must have genuine merit or no amount of advertising will maintain the demand for the article.

For many years we have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy. From the very beginning the proprietors had so much confidence in it that they invited every one to test it, free of cost, before purchasing.

It is a physician's prescription.

They have on file thousands of letters received from former sufferers who are now enjoying good health as a result of its use.

However, if you wish first to try a sample bottle, address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper. They will gladly forward you a sample bottle by mail, absolutely free.

Regular sizes for sale at all druggists—fifty-cents and one-dollar.

NEW TYPE OF ROLLER MAY BE USED ON DULUTH STREETS

THE PETROLITHIC ROLLER TAMPER, RIDING ENTIRELY ON SURFACE OF COMPLETED ROAD.

A move has been started in the city to purchase what is known as a "sheep track roller," said to be the most efficient implement ever invented for packing a roadway.

It is a heavy roller studded with numerous prongs and is dragged by four or six horses. The projections find all the loose spots in the road and pack them down, whereas the ordinary roller would ride on the higher places, not giving nearly as satisfactory results. A prominent man in the city has stated that he would be willing to pay part of the cost of such a roller to be tried here as an experiment, if the city and the county will pay the balance. They cost $800 or $900 and have proved a decided success wherever they have been tried. Roads which have been packed with these rollers are as hard as the face of a boulder and when finished make the best highways in the country.

BOOSTS PRICE OF MAY WHEAT

Buying Stampede Is Feature of the Chicago Market.

Shorts Who Try to Cover Find Selling Orders Scarce.

Chicago, May 23.—A buying stampede in the wheat crowd on change today resulted in putting up the price of the May delivery more than 2 cents a bushel. Although the bulk of business was in other options, the advance in them was much less.

The rush started because of continued purchases in the face of bearish news. Popular opinion finally decided that the buying was for a famous speculator who has not recently been prominent in the pit. Startled shorts tried to cover and found a decided scarcity of selling orders.

May offerings were particularly scant. It was not until that month had been run up 2 cents that supplies were forthcoming.

While the excitement was at its height, the president of a leading concern which has been generally credited with being at the head of the bulls in the May deal here, authorized a formal denial that this company was "long" one bushel or that any of his customers were so either. The idea that the contrary was the case has had a good deal to do with an inquiry by the board of trade directors into charges of irregularity which threatened to result in expulsions of more than one trader of wide prominence.

HUSTON MUST GO TO PRISON

Architect of Pennsylvania Capitol Loses on His Appeal.

Harrisburg, Pa., May 23.—The state supreme court today affirmed the lower court in the matter of the appeal of Joseph M. Huston of Philadelphia,

JOSEPH M. HUSTON.

architect of the new state capitol, who was sentenced to serve not less than six months nor more than two years' imprisonment for conspiring with state officials to defraud the state in the erection and furnishing of the capital. This ends a long legal battle and Huston will now go to prison to serve his sentence.

FIND TWENTY DEAD HOGS

Health Inspectors Looking for Man Who Left Animals Near Roadside.

The health department officials are looking for the person who dumped twenty dead hogs near Twentieth avenue west and Fifth street. They are not productive of the best odor and are no decoration to the neighborhood. They were reprted to the department by a passing farmer. The department this morning hired a team to haul them to the incinerator.

DUVEEN BROTHERS ADMIT GUILT

Sentence for Customs Frauds Delayed Twenty-Four Hours.

New York, May 23.—Henry J. and Benjamin Duveen, international art dealers, appeared today in the United States district court and pleaded guilty to an indictment charging them with undervaluation of imports. The district attorney asked for a jail term, but the court postponed sentence until tomorrow.

Joseph J. and Louis J. Duveen, brothers, and also members of the firm, pleaded guilty to similar indictments last March and were fined $10,000. The firm has already made a cash settlement of $1,200,000 with the government, but at that time the district attorney said the possibility of criminal proceedings still impended.

FARMER HAS FOUND FOUNTAIN OF YOUTH

Says He Feels Younger Since Being Treated By the United Doctors.

Nels P. Larson, a prominent and prosperous farmer, who for twenty-five years has lived on R. R. No. 3, Lyons, Nebr., says that while he has lived fifty-four years in this world, he does not feel that old, nor does he feel nearly as old as he did a few years ago.

Mr. Larson attributes his returning youth and vigor entirely to the treatment he received from the United Doctors, those expert medical specialists who have their Duluth offices located on the third floor of the Columbia building.

In a letter written for publication he says:

"Lyons, Nebr., Apr. 27, 1911.

"I wish to make a statement as to how much the United Doctors have done for me for my rheumatism. I had this painful disease off and on for twelve years and when I went to the United Doctors last December I could not bend one of my legs at all and the pain in my arm and shoulder was almost unbearable.

"I had tried many things for rheumatism, with very little, or at most, only temporary benefit, but I have certainly found the treatment this time that is making a cure. With only four months' treatment I now have no pain at all in my arm and shoulder and can use my leg about as well as ever. The United Doctors surely understood my case from the start and are removing the disease from my body in a most remarkable way.

"I am a farmer of 54 years and have worked hard all my life and until I found the United Doctors I had about made up my mind that I was getting old and that it wasn't much use to doctor anyway, but I have changed my mind since I begun doctoring with the United Doctors for they are making me young again. I am well known in this part of the country, having lived for 25 years near Lyons, where I now reside on Rural Route No. 3.

"NELS P. LARSON."

MORE SALOONS CLOSED.

Two Additional East Grand Forks Places Shut Up.

East Grand Forks, Minn., May 23.—(Special to The Herald.)—Two more East Grand Forks saloons have been closed through the action of the city council on the strength of the recent resolution covering the question of unconditional lessees. The Skaren & Olson and the Ole Mybren places of business are the latest to receive the aldermanic sign of "close up." Both of these firms had made leases from the John Miller Brewing company and at first blush were accepted by the city council. That body, however, reconsidered when some changes were made in the lessees by the brewing company, and issued orders that the two saloons close up.

CIVIL WAR VETERANS ARE ASSIGNED TO SCHOOLS

List of Speakers Who Will Address the Children Friday.

Veterans Will Be Accompanied By Members of Citizens' Staff.

Members of the two posts of the Grand Army, of the two camps of the United Spanish War Veterans, of the Sons of Veterans and of the Citizens' Staff will visit the schools of the city Friday and will talk to the children on the subject of Memorial day and the events commemorated by it.

The exercises at the Central high school, the normal school and the parochial high school will be held at 9 o'clock in the afternoon.

Following are the details made by the different organizations:

CENTRAL HIGH SCHOOL.
Comrades S. F. White and Henry Cleveland, Willis A. Gorman post; G. A. R.; J. H. LaVaque, W. H. Smallwood and T. H. Pressnell, Joshua R. Culver post, G. A. R.; M. J. Murray and W. H. Smith, Camp Maj A. M. Diggles, U. S. W. V.; Clarence B. Miller and John F. Norton, Duluth Camp Sons of Veterans; E. B. Dunning and J. W. Powell, Citizens Staff.

NORMAL SCHOOL.
Comrades D. W. Scott and M. C. Palmer, Gorman post; M. W. Bates, C. E. Holt and C. M. Wilson, Culver post; C. V. McCoy and D. D. Kreidler, Camp Diggles; W. L. Pierce and William C. McCormick, Camp Ewen; Rev. E. F. Stidd, Sons of Veterans. H. L. Dresser, Citizen's Staff.

PAROCHIAL HIGH SCHOOL.
Comrades Leonidas W. Merritt and W. W. Wood, Gorman post; M. S. Mead and F. G. Hanson, Camp Diggles; J. A. Barron and J. E. Lawrence, Camp McEwen; H. A. Wing, Sons of Veterans. H. F. Sheppack, Citizen's Staff.

BAY VIEW HEIGTHS SCHOOL.
Comrades Asa Dalley, Gorman post; R. M. Weaver, Camp Diggles; Martin Rude, Camp McEwen; J. C. Wessenberg, Sons of Veterans. F. W. Jolitz, Citizen's Staff.

ADAMS SCHOOL.
Comrades A. N Hopkins, E. B. Force and M. H. Stamford, Culver post; J. E. MacGregor and George W. Stiles, Camp Diggles; Alva G. Catlin, Camp McEwen; Joseph Busha and W. G. Holcomb, Sons of Veterans. E. R. Cobb, Citizen's Staff.

BRYANT SCHOOL.
Comrades James B Flack, Amasa H. Merriam and W. Brulette, Gorman post; J. P. Burnett and W. G. Studley, Camp Diggles; J. T. Watson, Camp McEwen; Charles Holm, Charles C. Irvine and George E. Mann, Sons of Veterans. R. W. Bowden, Citizen's Staff.

ELY SCHOOL.
Comrades W. F. Bailey, S. M. Kielley and W. P. Strickland, Culver post; H. A. Hanson and L. S. Larson, Camp Diggles; Charles E. Teare, Camp McEwen; C. R. Fassett, John Harrison and Herald G. House, Sons of Veterans. W. B. Getchell, Citizen's Staff.

FAIRMOUNT SCHOOL.
Comrades John Dimond, Frank E. Miller and William J. Strong, Gorman post; Edward Blackwood, Camp Diggles; A. M. Rabshaw, Camp McEwen; W. F. Kilgore and C. M. Phillips, Sons of Veterans. A. J. Meldahl, Citizen's Staff.

ENDION SCHOOL.
Comrades W. H. Smallwood and J. H. La Vaque, Culver post; W. O. Flodin and W. C. Robinson, Camp Diggles; E. C. Clemans, Camp McEwen; H. C. Foster, Daniel W. Riesland and W. S. McCormick, Sons of Veterans. B. P. Neff and E. B. Gridley, Citizen's Staff.

FOND DU LAC SCHOOL.
Comrades D. L. Bishop, Gorman post; F. Carlson and Louis Lohman, Camp Diggles.

ENSIGN SCHOOL.
Comrades E. B. Ryan and F. Knowlton, Culver post; C. C. Salter and J. C. La Vaque, Camp Diggles; H. M. Hutchings, Camp McEwen; M. E. Heller, Sons of Veterans. W. L. Seaton, Citizen's Staff.

FRANKLIN SCHOOL.
Comrades Jacob Laux, Samuel F. Boyce, Amasa Macomber, John G. Rakowsky and James C. Ferguson, Gorman post; A. Klock and J. D. Schweiger, Camp Diggles; George A. Demo, Fred N. Burrall, R. E. Hurd and William E. Shatto, Sons of Veterans, B. G. Segog, Citizen's Staff.

JACKSON SCHOOL.
Comrades C. E. Holt and L. N. Case, Culver post; William Pfitzermeier and E. G. Simpson, Camp Diggles; W. A. Abbott, I. M. Flack and E. F. Heller, Sons of Veterans. W. H. Rattenbury, Citizen's Staff.

IRVING SCHOOL.
Comrades D. G. Cash, S. F. White, Louis Wolfrom, Henry Champlin and V. S. Wilkinson, Gorman post; F. D. Knowlton and W. C. Kimball, Camp Diggles; Laurence E. Gilley, Charles E. Roswold and James F. Keene, Sons of Veterans. L. A. Barnes, Citizen's Staff.

LAKESIDE SCHOOL.
Comrades F. Paine and M. W. Goodrich, Culver post; C. G. Howard and J. Boettcher, Camp Diggles; George M. Nubson, Logan T. Wood and E. H. Robinson, Sons of Veterans. M. F. Bates, Citizen's Staff.

JEFFERSON SCHOOL.
Comrades John H. Baker, John Harrington and Nels O. Roswold, Gorman post; Don Carlos W. Musser and M. M. Walsh, Camp Diggles; E. W. Beaton and E. O. Hurd, Sons of Veterans. E. F. Barker, Citizen's Staff.

LINCOLN SCHOOL.
Comrades Austin Moody, James E. Goodman and T. H. Pressnell, Culver post; C. Briand and J. O. Gray, Camp Diggles; Albert R. Turner and Charles E. Merritt, Sons of Veterans. H. V. Eva, Citizen's Staff.

LESTER PARK SCHOOL.
Comrades John Orr, Yewell P. Eaton, Elbridge L. Gregg and Robert Payne, Gorman post; Charles E. Johnson and W. H. Brickley, Camp Diggles; George B. Wood and Edward L. Wood, Sons of Veterans. C. E. Evans, Citizen's Staff.

MONROE SCHOOL.
Comrades S. W. Clark and S. C. McCormick, Culver post; John Martin and H. Ahl, Camp Diggles; Charles Williams and N. O. Nubson, Sons of Veterans. A. D. Goodman, Citizen's Staff.

LONGFELLOW SCHOOL.
Comrades John R. Randall, Leonard Keller, R. S. Cowden, John Gates and Cornelius W. Donohue, Gorman post; J. H. Koors and S. A. Thompson, Camp Diggles; Thomas E. Irvine and F. M. Helmick and H. W. Lawners, Citizen's Staff.

NETTLETON SCHOOL.
Comrades Nelson Hoople, A. B. Chapin and E. A. Tyler, Culver post; R. H. Long, Camp Diggles; W. C. Baker and John J. Clark, Sons of Veterans. J. H. Hawkes, Citizen's Staff.

LOWELL SCHOOL.
Comrades Lorin W. Palmer, John Donovan and Christ Ottinger, Gorman post; A. Coons and F. H. Wood, Camp Diggles; Tilford M. Honnald and N. P. Hurd, Sons of Veterans. T. W. Hugo, Citizen's Staff.

PROCTOR SCHOOL.
Comrades William McCollum, Culver post; T. L. Chisholm and F. H. Wood, Camp Diggles.

MADISON SCHOOL.
Comrades W. W. Wood, Harry S. Sawyer, Christian Stuss, Alvin O. Strickland, Charles Coya and John Ahair, Gorman post; Joseph Carhart, Jr., Camp Diggles; James L. McPhee and James Manson, Sons of Veterans; W. A. Holgate, Citizen's Staff.

C. C. SALTER SCHOOL.
Comrades L. Mendenhall and C. E. Bostwick, Culver Post; C. G. Howard, Camp Diggles; J. B. Gibson, Camp McEwen; Dr. W. H. Salter, Sons of Veterans. W. H. Hoyt, Citizen's Staff.

ONEOTA SCHOOL.
Comrades Leonidas W. Merritt, William C. M. Kennedy, John B. Thomas and Alvin White, Gorman post; O. S. Buell, Sons of Veterans. C. F. How, Sr., Citizen's Staff.

WASHINGTON SCHOOL.
Comrades M. W. Bates, R. S. Lerch and J. H. McLaren, Culver post; Charles V. McCoy, Camp Diggles; W. L. Pierce, Camp McEwen; John A. Blackwood, A. O. Foster and Fred McElroy, Sons of Veterans. L. C. Harris, Citizen's Staff.

WASHBURN SCHOOL.
Comrades Daniel W. Scott, Ira Coburn, Peter St. George, James Sheridan and Uriah S. Ayres, Gorman post; W. H. Smith, Camp Diggles; Thoe T. Simon, Camp McEwen; W. W. Huntley and C. J. Stewart, Sons of Veterans. S. S. Williamson, Citizen's Staff.

WHITTIER SCHOOL.
Comrades W. B. Phelps, Cook Ely and H. Cleveland, Culver post; M. J. Murray, Camp Diggles; Dill Heath and Thomas Robinson, Sons of Veterans. J. W. Marvin, Citizen's Staff.

WEBSTER SCHOOL.
Comrades Amos Frankinfield and Samuel Anderson, Gorman post; F. G. Hanson, Camp Diggles; J. E. Lawrence, Camp McEwen; H. A. Wing, sons of Veterans. Thomas McGilvary, Citizen's Staff.

KUGLER.
Comrade J. Kimball, Culver post.

Warning to Railroad Men.

E. S. Bacon, 11 Bast street, Bath, Me., sends out this warning to railroaders: "A conductor on the railroad, my work caused a chronic inflammation of the kidneys, and I was miserable and all played out. A friend advised Foley Kidney Pills and from the day I commenced taking them, I began to regain my strength. The inflammation cleared and I am far better than I have been for twenty years. The weakness and dizzy spells are a thing of the past and I highly recommend Foley Kidney Pills." For sale by all druggists.

IS DROWNED AT BRIMSON

Rinar Person Falls From High Bank Into the River.

Rinar F. Person, 28 years of age, an employe of the St. Louis River Dam & Improvement company, was drowned yesterday at Brimson, Minn.

Person stepped too close to the edge of a fairly high bank and fell into the water. He was unable to swim and lost his life. The body was brought to the undertaking rooms of Flood & Horgan last evening by William McGregor, the company foreman, who lives at Superior. He gave the authorities their first account of the drowning. Person's address is said to have been at 2824 Twenty-eighth street south, Minneapolis, and the police of that city have been asked to notify any one at that address who may have been interested in Person. If relatives or friends are not located who wish to take charge of the funeral, the expenses will be paid by the company for which he was working.

DULUTH MASONS WILL CROSS BAY

Ionic Lodge Members Will Visit Superior Brothers on Saturday Evening.

About 100 Duluth Masons will journey across the bay Saturday night and partake of the hospitality of the Superior lodge. Third degree work will be exemplified by the Superior Masons and other entertainment features have also been promised.

One or more street cars will be chartered by the members of Ionic lodge, No. 186, A. F. & A. M. Arrangements have been made to meet at the Masonic temple, Lake avenue and Second street, at 7:15 p. m. sharp, when the special car will leave.

Ionic lodge held a smoker and business meeting last evening. An informal program was given, which consisted of several selections by Anderson's mandolin club, and short talks by N. H. Wilson, M. Geary and A. P. Allensworth.

DISAGREEMENT IN IOWA BOY'S MURDER TRIAL.

Davenport, Iowa, May 23. — The jury in the Randolph Brandenburg murder case failed to agree after a 56-hour session and was dismissed at 11 o'clock last night. Brandenburg, who is 21 years old, shot and killed his stepfather, Claus Muenter, Feb. 27 last, following a quarrel about the alleged abuse of the boy's mother. The trial lasted for more than a week. It is possible the boy will be given another trial during the June term.

CHILDREN OF SCHOOL AGE

Often Need a Safe Tonic for the Nerves.

Overstudy May Otherwise Bring on Some Severe Nervous Disorder as This Case Shows.

School children, who become restless, cannot sit still, drop things, are confused in their speech and otherwise show nervousness, need a tonic and, at their age, it must be a safe one.

Miss Stella Coffield, a farmer's daughter, whose address is R. F. D. No. 2, Centerburg, Ohio, was a helpless cripple when she started taking Dr. Williams' Pink Pills and the wonderful benefit she received from them has led her to give an account of her case for the benefit of other sufferers.

"About twelve years ago," she says, "I was taken sick at school and had to be carried home. I vomited blood and was very low. The physicians, who attended me, did not know what ailed me but called it Bright's disease. I was bloated and had severe pains in my limbs. I was sick for six months and in bed for ten weeks. I doctored faithfully for two months and kept getting worse and finally had a stroke of paralysis which affected my right leg and arm and my speech. I could not talk for two weeks and I had no use whatever of my leg and arm. My illness affected my head and I was very nervous. My people thought I would never be anything but a helpless cripple.

"It was through my father that I commenced taking Dr. Williams' Pink Pills for the paralysis. He was discouraged in paying out so much money to doctors and, when he saw that Dr. Williams' Pink Pills had helped several cases of paralysis, he decided to have me try them. I could soon see a change and gave the pills a thorough trial. The numbness in my leg disappeared and after a time I could walk. I grew stronger and really think that if it had not been for Dr. Williams' Pink Pills I would still be a helpless cripple."

Dr. Williams' Pink Pills contain no stimulant, opiate or narcotic and cannot injure the most delicate constitution. They are sold by all druggists, or sent postpaid, on receipt of price, 50c. per box; six boxes for $2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y. Every nervous sufferer should write for a copy of our free booklet, "Nervous Disorders."

UNVEIL MEMORIAL TO MAJ. L'ENFANT.

Washington, May 23.—On a green knoll in front of the old Lee mansion in Arlington cemetery, overlooking the broad Potomac and the capital, a memorial was unveiled yesterday to Maj. Pierre Charles l'Enfant, the French engineer, to whose prophetic vision Washington owes its broad avenues and its symmetrical design.

President Taft, Ambassador Jusserand of France and Senator Root of New York spoke in eulogy of Maj. l'Enfant. The ribbons of red, white and blue that bound the American flag to the marble face of the memorial were lifted by Miss Eleanor Carroll Morgan, great-granddaughter of William Dudley Digges, in whom l'Enfant found refuge when he was dismissed from the service of this government. Monsignor Russell of St. Patrick's Catholic church made the invocation and said the benediction.

COPENHAGEN SNUFF

GUARANTEE OF QUALITY AND PURITY

Copenhagen Snuff is made of the best, old, rich, high-flavored leaf tobacco, to which is added only such ingredients as are component parts of natural leaf tobacco and absolutely pure flavoring extracts. The Snuff Process retains the good of the tobacco and expels the bitter and acid of natural leaf tobacco.

AMERICAN SNUFF COMPANY, 111 Fifth Avenue, New York, N. Y.

ONE CANOEIST AND ONE RESCUER DROWN.

Cedar Rapids, Iowa, May 23.—A canoe, in which two boys, brothers, were paddling about the river, was swept over a 20-foot dam here yesterday and one of the boys was drowned. His brother, carried far down the river, was rescued.

While a party of men was attempting to get to the body of the drowned boy, which could be seen in the vortex beneath the dam, their boat was overturned, and Henry Warren, who came here three weeks ago from Joliet, Ill., was drowned.

The boy who was drowned was Walter Kelly, 11 years old. His brother, Leo, 13 years old, was saved.

The drowning of Warren was witnessed by several hundred people who had gathered along the shore.

Lee Again Heads Trainmen.

Harrisburg, Pa., May 23.—The Brotherhood of Railroad Trainmen yesterday re-elected W. G. Lee of Cleveland president by a vote of 579 to 169, over George M. Sharkey of Del Rio, Tex. The name of A. A. Roe, Wichita, Kan., was not presented. T. R. Dodge was re-elected assistant to the president.

That Tired Feeling

That comes to you every spring is a sign that your blood is wanting in vitality, just as pimples and other eruptions are signs that it is impure.

One of the great facts of experience and observation is that Hood's Sarsaparilla always removes That Tired Feeling, gives new life and courage.

Do not delay treatment, but begin at once to take

Hood's Sarsaparilla

Get it today in usual liquid form or chocolated tablets called Sarsatabs.

Sour Stomach, Bowel Trouble, Dizziness

Letters like the one recently received from Mr. Rader are convincing proof that Duffy's Pure Malt Whiskey is the world's greatest tonic stimulant and medicine, and that it does all and more than is claimed.

"For the past two years I suffered indescribable misery from a complication of troubles, especially in my stomach and bowels, and I had spells of dizziness, which frequently caused me to fall from my chair or off my feet.

"Two months ago I started using Duffy's Pure Malt Whiskey and I owe my life to its use. It has built up my weakened system and prevents sour or sick stomach. It gives me the most natural appetite I have had in my life, and since I began using it I have gained 12 pounds, over one pound a week. I shall always praise it and do all I can to advance its use by suffering humanity."—C. B. Rader, Lewisburg, W. Va.

Duffy's Pure Malt Whiskey

is willing to stand on its record of 50 years and on what the people who have tried it say about it.

Pause and think: it is the only medicine or remedy that has been before the people more than 50 years and has stood the most searching analysis and tests, yet always been found absolutely pure and the standard of excellence.

Duffy's Pure Malt Whiskey is the only whiskey that was taxed by the Government as a medicine during the Spanish-American war.

Sold IN SEALED BOTTLES ONLY by druggists, grocers and dealers everywhere, or shipped direct for $1.00 per large bottle.

The Duffy Malt Whiskey Co, Rochester, N. Y.

ON THE IRON RANGES

LOG DRIVERS FIRED UPON

Stubborn Homesteader Resists Passages of Logs Through His Property.

Officers Leave Biwabik With Warrants for Peter Vorbanich and Wife.

Biwabik, Minn., May 23.—(Special to The Herald.)—Armed with warrants for the arrest of Peter Vorbanich, a homesteader, and his wife, living on Mudhen creek, about eighteen miles south of here, Deputy Sheriffs McGee and King of St. Louis county, John Saari of Eveleth, Assistant General Manager Taylor of the Northern Lumber company of Cloquet and Walter Irwin, foreman of logging for the Northern Lumber company, left this morning about 11 o'clock in an automobile for Vorbanich's place for the purpose of arresting Vorbanich and his wife on the charges of felonious assault.

It is claimed that last Sunday the accused fired two shots at Irwin and Saari and a crew of men that was trying to drive lumber through the Vorbanich place on the Mudhen.

Say Vorbanich Wanted $1,000.

Vorbanich claimed the operation would damage his meadow land and refused to permit the drive to pass unless the lumbermen settled with him, wanting, it is said, $1,000. The lumbermen declined to settle on such a basis and ordered a crew to proceed with the drive. Then it is claimed two shots were fired and the leaden missiles flew pretty close to Mr. Irwin. All efforts at a settlement on any but a financial basis failing, the lumbermen decided to appeal to the law and secured warrants which the officers and lumbermen left today to serve. It is expected that the party will make a quick trip to Mudhen and that something will develop late this afternoon. If the accused pair refuse to surrender it is predicted there will ensue a repetition of the famous Dietz case of Cameron Dam, as the officers are determined to arrest both Vorbanich and his wife on the assault charge.

The timber that is held up consists of ties, posts, pulpwood and the like belonging to the Northern Lumber company, John Saari and others.

START BUILDING WASHING PLANT

International Harvester Company to Treat Ores From Hawkins Mine.

Nashwauk, Minn., May 23.—(Special to The Herald.)—The construction of the new washing plant at the Hawkins mine by the International Harvester company has started. The company purchased a large tract of land for a sum averaging $60 an acre from the state recently. The tracks are being laid to O'Brien lake, where the washer is to be situated. This enterprise means a great deal to the prosperity of this village as this company has not worked its mine steadily for the past five years owing to the large percentage of sand contained in the ore. With the building of this costly plant, the company will undoubtedly increase its force to a greater extent in order to supply this plant with ore.

The Nashwauk Junior Baseball club defeated the Marble club by a score of 5 to 6 on the former's grounds Sunday afternoon. The home team did brilliant field work and was its opponent's master at all times during the game. McGuire and Bianchini were the batteries for the home club.

The Royal Neighbors will give a dance at the village hall Thursday evening, May 25. A Hibbing six-piece orchestra will furnish music for the occasion. A delicious lunch will also be served by the Royal Neighbors.

BEARS BREAK UP A PICNIC PARTY

Bruins Rout Taconite Picnickers By Descending on Their Lunch.

Taconite, Minn., May 23.—(Special to The Herald.)—A party of young people from this town went to Diamond lake Sunday for a picnic. They had a pleasant time until about 3 p. m. They spread a cloth on the grass and made a very pretty display of the lunch from six baskets, when a bear and her two cubs appeared from the brush close at hand. The party left everything as it was and made tracks for Taconite rather than contest with the bears.

Eighteen of the women of Taconite gave a linen shower to Mrs. T. J. O'Brien at her home Monday, where they passed the afternoon with games of whist and lunch.

William Watson of Taconite had a planting bee at his farm five miles north of town Sunday, in which a number of the married men of the town took part. Dan McKinnen took the prize for fast work. Mr. Watson planted eight acres with potatoes and one acre with different kinds of garden truck.

The office boys employed by the Oliver Iron Mining company here played two games of ball, meeting defeat in both games. The first game was with the machine shop crew, score 10 to 0. Batteries, Haines and Williams for the machinists; Dennis and Tranah for the bookkeepers. The second game was with the engineers, when the score was 17 to 1 in favor of the engineers. Batteries, engineers, Smith and McHale; bookkeepers, Dennis and Tranah.

Mrs. M. L. Doble has gone to Muskegon, Mich., where her father is very sick. Mrs. Doble expects to be gone some time.

Mrs. I. Barkla leaves for Ishpeming, Mich., today, where her father is very sick. Mrs. Oaty, her sister, who has been visiting her for the past few weeks, will accompany her on the trip.

Mrs. Carrie Dolzell of Greenbush, Minn., is visiting her sister, Mrs. Joe Dolzell, at Taconite.

J. Stiles, Walter McComber, O. C. Anderson and families formed a fishing party at Riley lake Sunday, where they spent a pleasant day, returning in the evening heavily loaded with fish.

SHERIFF RILEY CLAMPS ON LID

Swoops Down on Nashwauk Sunday Night and Catches Some Lawbreakers.

Nashwauk, Minn., May 23.—(Special to The Herald.)—Sheriff T. T. Riley of Grand Rapids with the assistance of one of his deputies, unexpectedly clamped down the lid Sunday night when he arrested several saloon keepers, charged with selling liquor on Sunday. After the completion of the raid here, Riley immediately drove to Keewatin but only to find the lid fitting snugly on his arrival. The raid by the sheriff caused considerable excitement Sunday evening but all was quiet the following morning after the sheriff had left with his round-up for the county seat.

Chief of Police Thomas Vogan with the aid of village authorities succeeded in sweeping out a numbers of blind-pigs here, and numerous kegs of beer were spilled. There is thought to be many other places of this kind throughout the village which are apt to be raided by the police at any time.

EVELETH IS AFTER NEXT EAGLE MEET

Will Send Big Delegation to Chisholm to Capture 1912 State Aerie.

Eveleth, Minn., May 23.—(Special to The Herald.)—The local aerie of Eagles have decided to send a big delegation to the state aerie at Chisholm next month. The Fayal band will accompany the local aerie, which will also be represented in the baseball series for the state fraternal championship. Eveleth will make a strong bid for the 1912 convention.

SUBMITS NEW LIST.

Virginia Civic League Wants Municipal Ownership Pushed Further.

Virginia, Minn., May 23.—(Special to The Herald.—The Civic league is not satisfied with the action taken by the committee of thirty which voted against the proposition to purchase the plant of the Virginia Electric Power & Water company and has submitted the following names to the city council with a request that the council select thirty of this number to act in conjunction with the council to investigate the feasibility of purchasing the plant or construct a new one: C. E. Hendrick, Peter Wicklun, William Tritchler, A. N. Thompspon, Adelbert Trotter, John Sullivan, Thomas Sullivan, W. O. Snyder, H. E. Pribnow, J. E. Okerstrom, J. L. Murkley, W. J. Moore, Dr. C. W. Miller, Ben Milavetz, M. L. Matheson, R. J. McGhee, Robert Lindsay, John Ketola, Oscar Johnson, Charles J. Johnson, Carl R. Johnson, A. N. Heistrom, Henry Hanta, W. B. Hannaford, Peter Glinse, W. E. Graham, Claude Gill, Henry Enders, Sam de Beaurivage, Maurice Dean, A. Dahl, John Costin, J. S. Cherne, C. C. Butler and E. D. Becker.

The city is given six months in which to decide to either take over the plant or reject it. The city officials have nearly one year in which to investigate the matter of taking over the plant, but it is likely that they will abide by the action of the committee of thirty and let the matter drop for the present, at least.

GILBERT SCHOOL BOARD ENGAGES SOME TEACHERS.

Gilbert, Minn., May 23.—At the last meeting of the school board bids were received for installing a low pressure heating and ventilating system in the Elba mine, McKinley and Kellogg mine schools as follows: F. S. Spencer, $3,350; Virginia Plumbing & Heating company, $2,225; L. L. Johnson, $2,003, and Boylan & Co., $1,890. The work was let to the latter.

The following teachers' resignations were accepted: Irene Westcott, Anna L. Anderson and Dorothy Ely, to take effect at the close of the following school year.

The following teachers were elected for the next school year: Orin Fried, principal Kellogg mine school; Magdelin Feyereisen, intermediate grades, and Lulu Van Patten, supervisor of drawing.

EVELETH'S POSTMASTER IS GETTING POSTED.

Eveleth, Minn., May 23.—(Special to The Herald.) — Postmaster Edward Hatch will leave June 4 for Bemidji to study the postals savings bank system started there prior to opening the local savings bank on June 12.

Hibbing Marathon Race.

Hibbing, Minn., May 23.—(Special to The Herald.)—A fifteen-mile marathon race will be held here in June, with Anthony Pryor of Eveleth and Leonard Dawson of Hibbing racing Carl Tanner and John Steets of Virginia. The race will be held at the Hibbing ball park.

EVELETH NEWS NOTES.

Eveleth, Minn., May 23.—(Special to The Herald.)—"Everybody's Friend," a three-act comedy drama dealing with the troubles of a negligent husband, will be given next month by the Epworth League of the M. E. church under the direction of Rev. B. D. Hanscom. The first rehearsal of the play will be held this evening.

"The Millionaire Janitor," a two-act school play, will be given Friday evening at the high school by the Crescent Literary society.

The standings of the track teams at the Hibbing meet, Saturday, have as yet not been officially decided, and it is very probable that Eveleth won the cup, as it was credited with 41 points Saturday.

A gun shoot was held between Eveleth and Virginia marksmen at the local range Saturday, with the locals winning first honors.

An installation of officers was held at the M. E. church last evening by the Pilot lodge. Miss Margaret Murray is the leading officer of the lodge.

A large class will be installed this evening at the Monitor hall by the Odd Fellows.

DAIRYING FAST BEING ADOPTED

Settlers of Northern St. Louis County Seeing Benefits to Be Derived.

Virginia, Minn., May 23.—(Special to The Herald.)—Dairying is becoming one of the leading industries among the farmers of the Cook district. M. T. Savage, formerly purchasing agent for the Duluth, Rainy Lake & Winnipeg railroad, has purchased a large farm about three miles from Cook and will go into the dairy and stock raising business upon a large scale. Mr. Savage has about 100 acers under cultivation. The Cook district is known as one of the finest agricultural sections of Northern Minnesota.

A co-operative creamery is soon to be erected and it will have a tendency to encourage the farmers in going into dairying.

Sand Lake Land Coming to Front.

The Sand lake district is also fast becoming one of the important agricultural districts of this section. F. B. Rossom of Duluth, who recently took over about 3,000 acres there, is settling many farmers about Sand lake and predicts that in the near future that district will be thickly settled with tillers of the soil. Many fine farms have already been developed there and many of the farmers are going into the chicken and stock raising business quite extensively.

Sand lake is one of the beauty spots of the Northwest, and many Virginians have built summer homes upon its shores, and in a few years to come will undoubtedly be one of the leading summer resorts of this section. Sand lake is located only about fifteen miles north of here and a fairly good road leads to it.

IDENTIFIED BY HIS TIMEBOOK

Identity of Body Found Five Miles South of Hibbing Established.

Hibbing, Minn., May 23.—(Special to The Herald.)—An investigation of the pocketbook found on the corpse discovered five miles south of Hibbing Sunday shows the man's name was Raffaell Guggliemi. The book was an ordinary time book such as is supplied miners by mining companies. The last entries show the man worked in August, 1910, and his name indicates he came from Southern Italy.

GOING TO FINLAND.

Well-Known Hibbing Man to Visit His Native Land.

Hibbing, Minn., May 23.—(Special to The Herald.) — Herman Tamminen of 205 Garfield street left lately for a three-months' tour of his native country, Finland. Mr. Tamminen has lived here eleven years and is a driller for A. P. Silliman. He will visit his old home and see his brothers and sisters while he is away and expects to get back again about the end of August. Mrs. Tamminen and their two small children will remain here. He will go via Liverpool.

INSURANCE COMPANY MAKES INVESTIGATION.

Tower, Minn., May 2.—(Special to The Herald.)—H. S. Griffin of Chicago, attorney for an insurance company in which Mr. and Mrs. Newman, whose supposed bodies were found in their burned shanty near Allen Junction last winter, carried policies, was in the city to interview Bert Soper, operator at the Tower Junction station. At the time the Newmans lost their lives Mr. Soper was employed at Allen Junction and he was first to discover the fire.

John Dinsmore of Ely and twenty-five men are improving the county road between here and Ely. They are now at a point six miles east of Soudan. Mr. McMahan, the commissioner, intends to have a good road put all the way through this season.

Good Liver Remedy Free

When you suffer from any form of indigestion it is always well to take something for the liver, as usually the trouble lies there. If you are bilious, have a bloaty feeling after eating, if you belch, if your skin is yellowish you may be sure it is liver trouble.

What you need is something to stir up the liver, to arouse the gastric ju'ces so that they will aid in the digestion of your food. A very good remedy for this, and one highly recommended by those who have used it, is Dr. Caldwell's Syrup Pepsin, which you can obtain of any druggist at fifty cents or one dollar a bottle. But if you have any doubt about its merits, and would prefer to try it first, send your address to Dr. Caldwell and he will promptly send you a free sample bottle.

Thousands of people first learned of this remarkable cure for stomach, liver and bowel troubles through a free sample. Mrs. Frank Lilly of Plainview, Ill., sent for one and it cured her and she is open in saying that she will never take pills or strong cathartics again, as Syrup Pepsin acts so mildly. Mr. W. L. Bryant, the Postmaster at Sardis, Tenn., says he will never be without it again. No sick person can afford to ignore a remedy so highly endorsed as this. It is good for all the family from infancy to old age, because it is mild, free from griping and yet promptly effective. Furthermore, results are absolutely guaranteed or money will be refunded.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell 541 Caldwell building, Monticello, Ill.

TWO HARBORS IS FOR SANE FOURTH

City Attorney Drawing Resolution to Prevent Hilarious Celebration.

Two Harbors, Minn., May 23.—(Special to The Herald.)—The mayor of this city is for a sane celebration of the Fourth and on his advice last night the council called upon the city attorney to prepare a resolution prohibiting the sale or use of firearms during the celebration of the day here. The council considered a lot of other business.

James G. Lawson of Duluth applied for the position of city engineer. As there are several applicants and much important work for that department the city clerk will correspond with Duluth as to compensation.

Two Reports Made.

The committee appointed by the Commercial club in response to the request of the city council made a report on the chief engineer proposition at the water and light plant. The committee consisted of J. H. Lunz, chairman; F. E. Evans, L. H. Bryan, H. O. Otterlee and L. D. Rose. The first four made a majority report while L. D. Rose sent in a minority report. The majority report advocated the position of a superintendent at the water and light plant with three stationary engineers and a lineman. L. D. Rose stated that he thought it would be more economical to the city if only three engineers were employed and the offices of water and light collector be separated from that of city clerk, and that the work of reading meters be taken out of the hands of the city electrician, thus doing away with the position of lineman. There would be a difference of $35 per month or $420 per year in salaries, according to L. D. Rose, in favor of the minority report. This committee had already met with the council and has possession of all facts. The council merely laid the reports of the committee on the table. In the matter of the present chief engineer, Alderman Tubman moved the adoption of a resolution fixing the salary of the chief engineer at $100, a reduction of $25 per month. The salary was raised to $125 when the new administration came into office and was in hopes of securing a machinist at that salary. No successor to W. R. Coleman, however, was even mentioned.

Adds to City Liability.

The question whether the city was liable for damages in the case were the grade had been so low as to cause the embankments of abutting lots to cave in was again brought up. City Attorney Fowler considered the city liable for all such damages. But some of the aldermen expressed themselves as against the idea of the city paying for the installation of retaining walls along such lots as had been damaged. B. F. Fowler suggested that before Third avenue be graded, the property owners waive all right for damages and that the city withhold improvement of street until all such waivers be made out.

The mayor recommended that Two Habors enjoy a safe and sane Fourth of July without any fireworks or explosives of any sort. The city attorney was instructed to draw up a resolution prohibiting the sale or use of any fireworks on the Fourth. In the past restrictions have been made, but the only solution of the problem seems to be the total abolishment of fireworks.

The street commissioner was instructed to ascertain by excavation whether the water main on West First avenue, north side of the street, was leaking on city or on private property. This main seems to have been leaking since last winter and has undermined the concrete sidewalks above to a great extent.

The street commissioner was also instructed to clean the park of all underbrush and rubbish. L. D. Rose offered the city the use of a drag on some of the streets free of charge, provided the city pay team charges. He was thanked for his offer as was also B. R. Moore, new superintendent of motive power of the D. & I. R. for co-operating with the city in the blowing of the fire whistle.

The rock crushing plant was also discussed a great deal. The new concaves have come and the plant should be running within a couple of days. Eveleth desires to purchase a large quantity of crushed rock from the city, so the work will be rushed. Work will be done for other places desiring crushed rock.

EVELETH GRADUATE

From the Department of Medicine at Marquette University.

Milwaukee, Wis., May 23.—(Special to The Herald.)—The Marquette university departments of medicine, dentistry and pharmacy held their commencement exercises in the Davidson theater yesterday. Judge John F. Donovan made the doctorate address. Among the medical graduates were: William B. Cornwell, Eveleth, Minn.; L. L. Dach, Minnesota City, Minn.; J. V. Kelly, St. Paul; R. R. Kennedy, Minneapolis; J. P. McDowell, Minneapolis; W. R. McCarthy, St. Paul; F. W. S. Raiter, Cloquet, Minn.; A. Remington, Walnut Grove, Minn.; T. O. Ries, Minneapolis; W. C. Rutherford, St. Paul; W. C. Wilder, Minneapolis; H. O. Williams, Lake Crystal, Minn., and E. J. Ziegler, Frazee, Minn.

Following are the Minnesota dental graduates: E. J. Bren, Warren; J. L. Ebersberger, Minneapolis; E. F. Franta, Montgomery, Minn.; L. J. McNamara, Adams, Minn.; G. O. Olen, Boyd, Minn.

EVELETH WILL SEND STRONG DELEGATION.

Eveleth, Minn., May 23.—(Special to The Herald.)—Eveleth will be represented by a very strong delegation at the Northern Development association meet at Duluth. Efforts will be made to have at least twenty-five delegates present. A list of those able to go, is being made up by President James C. Poole of the Commercial club.

BUHL BUSINESS MAN WEDS IN MINNEAPOLIS.

Eveleth, Minn., May 23.—(Special to The Herald.)—Word has been received here of the marriage of Sam Karon of Buhl, to Miss Emma Herman of Minneapolis, in the Mill City. The couple have commenced housekeeping at Buhl, where the bridegroom is engaged in business. The couple are very well known here, having many relatives in this city.

TOWER CHILD DIES.

Tower, Minn., May 23.—(Special to The Herald.)—George Datisco, the 6-year-old son of Mr. and Mrs. William Datisco of Soudan, died Monday after a week's illness with pneumonia. The funeral was held at the Catholic church.

Ends Hibbing Visit.

Hibbing, Minn., May 23.—(Special to The Herald.)—Miss Nellie Ward, who has been spending the past winter with her sister, Mrs. W. T. Irwin left last week for her home at Waukon, Iowa. She was accompanied from Duluth by her sister, Miss Stella, who is in training at St. Mary's hospital.

Mrs. W. T. Irwin and daughter, visited friends in Duluth the last of the week.

Hibbing Fishermen Get Pickerel.

Hibbing, Minn., May 23.—(Special to The Herald.)—Three well known fishermen got a big catch of pickerel at Stingy lake on Sunday after a somewhat arduous trip. T. Lo Mars, Clarke Henry and Charles Van Dusch, the three fishermen had to cut their way through a heavy bunch of fallen timber on their way to the water's edge, but they were well repaid for their work.

MUCH ORE BEING SENT TO DOCKS

Great Northern Is Breaking All Records in Hibbing District.

Hibbing, Minn., May 23.—(Special to The Herald.)—The Great Northern sent down the record shipment for the year yesterday, the total tonnage being 65,000 tons of ore for the twenty-four hours from the Kelley Lake yards. The Dale-Uno was the heaviest shipper, 325 cars; the Leonard sent 209; the Mahoning and Stevenson, 155 cars each; the Hill, 180; the Grant, 95; the Leetonia, 90; the Clark and Chisholm stock piles each loaded 75 cars; the Commodore, 73; the Euclid and Albany, 50; the Laura, 45; and eight or nine of the smaller properties shipped out anywhere from 5 to 20 cars. The total number of cars going out through the Kelley Lake yards for the day was 1,600.

The Great Northern is busier than for a very long time, having sixteen switch crews at work, and over forty train crews for ore.

The Duluth, Missabe & Northern is only sending out about four or five trains of ore a day, each running about fifty-nine cars. The Pillsbury mine is averaging about 110 cars a day; the Shenango about the same and the Burt around 100. The Messabe road is running very light on ore so far this season, only about fifteen train crews being employed on ore trains. Four switch crews are working now.

A new sixty-five-foot smoke stack has just been erected on the boiler house at Mitchell yards. The new chimney is three feet in diameter.

WOULD RECALL IRWIN.

Two Harbors Socialists Red Hot After Their Alderman.

Two Harbors, Minn., May 23.—(Special to The Herald.)—The Socialists are after H. J. Irwin in earnest. Last week a petition was started for his recall. The petition has not yet left one place, and yet about 150 signers have already been secured. The Socialists expect to have over 200 signers shortly. The grounds stated for his recall in the petition are that H. J. Irwin failed to live up to his pre-election promises; that he voted to remove Aaron Ely from the chief engineer's position and that he voted for Silas Irwin for superintendent, a position which never had nor has existed and that all this was in opposition to the will of the Socialist local. The petition demands an election when H. J. Irwin may be removed if the citizens so desire. The city charter requires that the petition have 25 per cent of all the votes cast for the candidates for the office of alderman-at-large at the last election in order to be sufficient.

NEW VIRGINIA BUILDING.

Substantial Addition to Fay Opera House to Be Built.

Virginia, Minn., May 23.—(Special to The Herald.)—Frank Klink, owner of the Fay opera house, will soon begin the erection of a three-story brick building on the lots adjoining. The two one-story buildings on these lots are now being dismantled to make room for the new structure. The new building will be 50 by 85, full basement, and when completed the first floors will be occupied by a restaurant and buffet, and the two upper floors will be made into rooms for lodging. The building will cost in the neighborhood of $30,000.

In the Wake of the Measles.

The little son of Mrs. O. B. Palmer, Little Rock, Ark., had the measles. The result was a severe cough which grew worse and he could not sleep. She says: "One bottle of Foley's Honey and Tar Compound completely cured him and he has never been bothered since." Croup, whooping cough, measles cough all yield to Foley's Honey and Tar Compound. The genuine is in the yellow package always. Refuse substitutes. For sale by all druggists.

Entire stock of Duluth Music company is being sacrificed at unheard of prices in the great piano sale now proceeding at French & Bassett's. This is your life opportunity to secure a fine piano for half price or less.

SUPREME COURT HAS NO POWER TO ACT IN THE WHITTIER CASE

(Continued from page 1.)

directly tend to impair confidence in it. We are therefore constrained by our views of judicial duty and propriety to decline to comply with your request."

Thus the matter stands. The decision of the court was telegraphed to Governor Eberhart, and as he is East on a trip that will last until June, several days respite, so far as he is concerned, probably is assured the training school superintendent.

May Order Charges Filed.

In the meantime, however, the formal complaint drawn by Attorney General Simpson at the request of A. D. Stephens of Crookston, has been mailed to him, and he may at any time now cause them to be filed with the board of control. In this manner the charges may be reviewed as provided in the statute for removal of the training school superintendent.

"We are placed in an embarrassing position," said P. M. Ringdal, chairman of the board of control, this morning. "If we heard the charges any decision the board might reach would be discredited in advance. When the board was subpoenaed to appear before the legislative investigating committee, we supposed we were called at the request of Senator Stevens, but found later it was at the instance of Mr. Whittier—and the impression was given that we were there to defend him. But we went there for no such purpose."

Board Loath to Act.

It is known that the board would prefer having the charges against Mr. Whittier reviewed by a commission or a commissioner, if the complaint in the hands of Senator Stephens is filed, but it is not likely such a proceeding would be arranged as the law specifically provides that the charges shall be heard by the board.

PRESBYTERIAN WOMEN ELECT NEW OFFICERS.

Greeley, Colo., May 23.—The thirty-eighth annual convention of the Women's General Missionary Society of the United Presbyterian church closed here last evening after electing the following officers: President, Miss Anna Milligan, Pittsburg; first vice president, Mrs. W. T. Mahon, Bellefontaine, Ohio; second vice president, Mrs. A. W. McClenahan, Greeley, Colo.; secretary, Mrs. J. T. Logue, Cleveland, Ohio; treasurer, Mrs J. B. Hill, Pittsburg. Chicago was chosen as the next meeting place

Daily, one year..... 5.00

Subscribers will confer a favor on the circulation department by calling 324, either 'phone, and making known any complaint of service.

It is important when desiring the address of your paper changed to give both the old and new addresses.

The Duluth Herald accepts advertising contracts with the distinct guarantee that it has the largest circulation of any newspaper published in Minnesota outside the Twin Cities. Its value as an advertising medium is apparent.

THE PLACE FOR THE SUMMER CAPITAL.

It's all very well to talk about Minnetonka, Beverley, the St. Lawrence and the mountains of Tennessee for the president's summer outing place, but after all, there is really but one such place for the president or any other man who appreciates solid comfort, and that place is Duluth.

Here all the powers of nature have joined in a gentle conspiracy to make ideal summer conditions for rest, pleasure and a boundless content. The scenery is grand in the literal sense of that shamefully overworked adjective. The broad, cool lake, the forest-clad distances, the green hills with their gentle slopes forming a noble amphitheater from which everybody gets a good look at one of the most splendid scenes on earth—these stage-settings make a place of rare delight in which it is a privilege to visit or to live.

And the climate! It is impossible to create by mere words a fair impression of a Duluth summer. You must live in it to realize it. Weather bureau statistics, showing summer day temperatures in the 70s and summer night temperatures in the 60s or less, are more illuminating than descriptions. Days of mellow sunshine and cool, soft breezes are followed by nights of delicious coolness when you sleep as nobody away from the cool comfort of Lake Superior possibly can sleep. There is a rare enjoyment in every minute of both day and night while all around the heat afflicts humanity beyond endurance.

Duluth is the place for anybody's summer capital.

SENATOR NELSON AND THE PRESIDENT.

We fear that Senator Nelson is slightly disingenuous when he pretends a mighty anger because President Taft is trying to get the Canadian reciprocity treaty adopted without hostile amendment. It is true enough that the senate is a treaty-making body, and that its powers in that respect are equal with those of the president. However, the senate has no facilities for negotiation with other powers, and such arrangements must necessarily be made by the executive, subject to ratification by the senate.

The fact is, and Senator Nelson doubtless knows it as well as the president does, that the treaty must go through as it was arranged with the Canadian government or not at all, and that in all probability it must go through now or never. There was a time when Canada was anxious for proper trade relations with us, and because this country wouldn't listen Canada was practically forced into putting herself into a position of commercial independence. In view of all the circumstances, Canada is pretty decent to be co-operating in this effort to establish sensible trade relations, and this country will be very stupid if it fails to avail itself of an opportunity that will not come again soon, if ever.

Amendments, particularly such amendments as those offered by Senator Nelson, can serve but one purpose, and that is to defeat the treaty. Most of the amendments proposed have but that one object in view; and there are at hand no reasons for believing that Senator Nelson's amendments are different in this respect.

NORTHERN MICHIGAN'S GOOD WORK.

Bereft of the aid and sympathy of the governing section of its state, much as Northern Minnesota has been, Northern Michigan is going ahead to carve out its glorious future, much as Northern Minnesota is doing.

An accounting of its work to date and its plans for the future, issued by the recently organized Upper Peninsula Development bureau, makes a showing on which Upper Michigan is to be congratulated warmly.

Just now this bureau, which seems to be patterned somewhat after our own valuable and efficient Northern Minnesota Development association, is engaged in raising a public fund of $50,000. It is beginning at the right end, and it is good to learn that it expects to raise this money by June 1. More than half of it is in hand now, and more is coming right along. Every county has contributed, mining and industrial concerns are chipping in, the various communities are doing their share, and thousands of individual memberships have been sold at a dollar apiece.

The money thus raised is to be spent in advertising the agricultural and other possibilities of Northern Michigan. That's a wise use of money, and Minnesota will do well when it begins spending more than the gingerly sums it is devoting to that purpose.

Northern Minnesota has not yet adopted the method used in Michigan, of raising a publicity fund without state aid, but it will listen with interest to the report to be made at the Duluth meeting of the Northern Minnesota Development association of the work of the Michigan bureau along this line. Thus far the development association itself has been a powerful advertising medium for Northern Minnesota. At its meetings the possibilities of Northern Minnesota soil have been described by experts with a warmth of enthusiasm that has carried conviction, and the effect has been thoroughly good. Its meetings have been a center from which has spread a new interest and a new enthusiasm in state development, and though it has been the hardest part of the work, the effect has been to arouse interest in the matter even in Southern Minnesota.

We anticipate that one of the most valuable and interesting features of the meeting of the Northern Minnesota Development association in Duluth June 1 and 2 will be the exchange of ideas and plans that will be had with representatives of organizations engaged in similar work in Michigan and Wisconsin. So far as The Herald knows, Minnesota was the pioneer in this work in the Lake Superior region; but such reports as those which come from Northern Michigan indicate that Northern Minnesota may learn something even from those who have followed its example along lines of their own devising.

There are untapped treasuries of wealth in Northern Michigan, Northern Wisconsin and Northern Minnesota, and it will be highly beneficial if those who are engaged in developing these riches in the several states get together occasionally, as they are going to do in Duluth next month, to exchange ideas and to compare methods and results.

THE CASE OF THE PROGRESSIVE.

A little while ago the Progressive Republicans, so-called, otherwise known as insurgents, had the Old Guard in their party on the run. The Old Guard is on the run yet, and it will not cease running until it has vanished, leaving nothing behind but an unpleasant memory and a faint trace on the imperishable pages of history.

Just now, however, the insurgents stand in quite as precarious a position as that into which they crowded the reactionaries; and unless they conduct themselves with uncommon delicacy, they may soon follow the retreating footsteps of their late enemies and present allies, the standpatters.

Under the heading "Are Progressives Without Principle?" the New York Journal of Commerce says: "In the face of their great opportunity to fit their actions to their words, their most stalwart leaders, the irrepressible Cummins and the oracularly tireless La Follette, and even the pugnacious Bristow, grew irresolute. It had been easy to cry out against the mills and factories of the East for their grasping greed for tariff favors, but with the proposed reciprocal trade with Canada possibly the wheat fields of Iowa, the lumber camps of Michigan and even the cattle ranches of Nebraska might be touched with the dreadful 'foreign competition.' To the amazement of those of easy faith in the reforming politician, leading 'progressives' announced their opposition to the reciprocity bill unless it were to be so amended as to destroy its validity."

The turning point with the "insurgents" came, perhaps, when Cummins said in Chicago that it was better to elect almost any kind of a Republican than to elect any other man. The tide that began with that unhappy sentence reached its flow when the "progressives," after demanding tariff revision and reproaching the East with sectional selfishness, shied at reciprocity and refused the chance it offered to redeem their promise to work in every possible way to relieve the people from the heavy burden of the tariff tax.

Says the Indianapolis News: "The present attitude of the 'progressives' certainly does raise the 'question whether they have ever been acting upon any clear principle of public policy or merely kicking against a leadership which was too arbitrary and too intolerant.' As such leadership is bad, we think the fight against it, even if nothing more were involved in it, was based on principle. Thus far the progressives must go acquit.

"But it cannot be denied that their attitude toward reciprocity has been disappointing to the country. For they fought, not simply the old leadership, but the things for which that leadership stood, among them the Payne-Aldrich tariff. Yet when they had the chance to modify the most objectionable features of that bill through the agreement negotiated by President Taft, they held back, and for the old protectionist reason that the agreement was against the interests of their constituents."

"Held back," in the case of many of the "insurgent" senators, is putting it mildly. They have not held back. They have dashed boldly into battle; but this time, instead of fighting the Old Guard, they are fighting with the Old Guard. Instead of fighting with the people for the common good, they are fighting against the people and against the common good.

There was a time, not so long ago, when there were many people who saw in the "progressive" Republican movement the brightest hope for the future. A little time has brought great changes: a little time and a little test. In the last Minnesota legislature well-meaning "progressives" were the worst obstructionists, and did most to help the "interests" delay and thus defeat constructive legislation. In congress the "progressives" are arrayed against progress in the form of Canadian reciprocity.

And in the meantime the Democrats, newly come to power but comporting themselves with judgment and sagacity, show that the progressive, if he offers any hope at all, does not offer the only hope.

VICTORY IN SIGHT.

Indications that the senate will soon be purged of the shame of Lorimer are accumulating. A very significant thing is the introduction of the Dillingham resolution providing for a new inquiry into the case. Senator La Follette has a similar resolution pending in which he names the committee that is to handle the investigation if his resolution is adopted. The proposed committee is constituted so that there will be no hocus pocus about the inquiry.

Evidently there was danger that the La Follette resolution would pass, for Senator Dillingham, who is not a progressive, has offered a resolution providing for an investigation by the standing committee on privileges and elections, which, it is said, probably will pass.

Meanwhile, there are rumors that Lorimer is about to resign. Unquestionably a real investigation, by a committee having in mind the honor of the senate rather than the protection of Lorimer and the interests he serves, would result in his expulsion. The trail is getting hotter, and danger threatens not only Lorimer but those who bought his senate seat. In their interest, if not in his own, Lorimer's resignation is a very probable outcome of the case.

THE PITY OF IT.

According to the report of the committee on ministerial relief, submitted to the Presbyterian general assembly yesterday, of the 9,073 ministers ot that sect less than half are settled pastors of churches. Only about 2,500 have salaries of $1,000 a year or more. Over 6,000 either have no salaries at all or salaries of less than $1,000 a year, and many are paid less than $500 a year. Only 5,000 are able to afford life insurance.

Aside from the slenderness of support given their churches by many members, probably the chief cause of this condition is that there are too many church organizations in most communities. Differences in belief so slight that few members can define them separate the army of the Lord into a myriad of scattered bands, when the broad and enduring principles held in common should cement them in one effective organization. So it is that villages which might support one or two pastors well are called upon to support half a dozen or more, and of course they can't do it.

And yet effort toward amalgamating closely allied Protestant sects has so far met little but discouragement.

CLAUDE KITCHIN OF NORTH CAROLINA

By SAVOYARD.

By Savoyard.

A long time ago I tried to deliver myself of a tribute to what is known among our citizenship as the Scotch-Irish, and the following poor passage was the usufruct:

"It is of the blood of Stonewall Jackson, rather than of the caste of Philip H. Sheridan. It is a hardy race. * * * It defended Londonderry. It drove the Stuart from the British Isles. It believed in prayer and it believed in works. It had faith, and it could fight. It came to these shores and we find it in New Hampshire, in Pennsylvania, in Virginia, and in the Carolinas. It was at Cape Breton and at Quebec. It was in the Continental congress and in the Continental army. It was in the infant navy and in the adult navy. It sailed with Preble and fought with Decatur. It was with Farragut at Mobile and roamed with Semmes on strange seas. It gained the victory at King's Mountain and saw the surrender at Yorktown. It helped to make the Constitution and did more than its share in winning the West. George Rogers Clark was of its blood, and the victor of New Orleans was one of its heroes. It was with Stonewall Jackson at Chancellorsville and with George H. Thomas at Chickamauga. It triumphed with Grant and it surrendered with Lee. It believes in the family and in the home, in the church and in the school, and when it has girded on the sword it has put the Bible in the knapsack. It is a Presbyterian and representative government, in church and state, is part of its religion. It is for the Sabbath day that God ordained. It is mighty nearly the clotted cream of American citizenship."

There is a greater proportion of Scotch-Irish in North Carolina than in any other state, though down there immense numbers of them are Baptists, but however that may be, the proud escutcheon, "First at Bethel, farthest at Gettysburg, and last at Appomattox," may be claimed as an additional glory for the Scotch-Irish race.

* * *

And Claude Kitchin is of the blood and he is a splendid specimen of manhood, mentally, morally and physically. The man actually has the temerity to believe something and to be governed by his convictions, and that is a great thing in public man nowadays, when there is so much that is false and so much that is vapid abroad in the land. But here mind and matter and conscience conspired together, and they made a man—Claude Kitchin, 42 years of age and ten years a congressman. I had a slight acquaintance with his father, who was a member of the Forty-sixth congress from the district now so ably represented by his son. What I especially recollect of the father is that he was noted for a striking individuality, a trait that is nearly as common in North Carolina as it is in Kentucky. Not nearly so richly gifted in the graces of a public man as his younger son, he was yet a man of sterling parts, as was evidenced by the frequency with which his associates quoted his utterances in private converse.

* * *

William W. Kitchin, elder brother of the present congressman, was twelve years in congress from the Fifth district, and retired to accept the Democratic nomination for governor of North Carolina, to which office he was elected and which he yet holds. He, too, is a Democrat without a flaw, and having succeeded Zeb Vance in one station it is not unlikely that he will be one of his successors in another.

Claude Kitchin was born at Scotland Neck, N. C., in 1869, when his brother, the governor, was 3 years old. The younger son was educated at Wake Forest college, as lovely a spot as can be found between the two oceans. It is not far from Raleigh, and it is there that the minds of the very elite of the youth of North Carolina are trained, and he is indeed fortunate who can call that institution alma mater.

* * *

That futile authoress, Ouida, wrote a book with this passage from Shakespeare as text:

"A young man married is a man that's marr'd."

When men are not yet emerged from the "Byronic stage" Granville Devine is a great work, and we hang on its artificial and bizarre rhetoric, its forced and sham sentiment with rapture, but to us older the stuff is insipid and worthless and it is with pleasure we recall that the passage quoted was the opinion of the most arrant knave and contemptible reprobate even genius of Shakespeare ever conceived.

Claude Kitchin at the age of 19 was happily mated with the woman of his choice, then a girl of 18, and from that day of him it might be said, "a young man married is a man that's made." He studied law and came to the bar. As much a man of the people as Zeb Vance himself, clients flocked to him and he had a large and lucrative practice, when elected a member of the Fifty-seventh congress in 1900.

Kitchin has the presence, the gifts, mental and physical, that make the orator. He is a fanatically honest man and champions no cause he does not approve. He is sober and industrious, an untiring student, and in a rough and tumble debate, such as Zeb Vance delighted in, he is the most formidable man in congress. No one hates a sham more cordially than he. Full of physical health, overflowing with animal spirits, young, ardent, brave, enthusiastic, able and eloquent, Claude Kitchin, if not exactly a pet, is certainly a great favorite on the Democratic side. His speech on Roosevelt went into the Democratic campaign book of 1904 and made him a national figure, but it was not until the lumber schedule of the Payne-Aldrich tariff gave him theme that this young fellow showed what a giant he is. If it is a great speech, one of which any real Democrat might well be proud. He stripped the thing and revealed the shame of it, and the Democrats on the floor and in the galleries gave him the splendid ovation he had earned. His motto was: "I want no stealing for North Carolina."

That speech established him as a leader and stamped him as a statesman. It was that speech which marked him for his present position, high among the political and intellectual aristocracy of the public men at this capital, and it was inevitable that he would be one of the ways and means committee, and pity it is that all of his Democratic associates at that council board are not of the stripe he is. If the party is to be Randallized he will have none of it. If the tariff is to be Gormanized, it will be in spite of this man, not because of him.

* * *

Because of the soundness of his Democracy and his gifts as an orator, Claude Kitchin was chosen to open the debate for the Democrats on Canadian reciprocity, and a great speech it was. No better was made on that subject, no better will be made. It is the Democratic idea of political economy. It is a step in the direction of free trade. It will make a genuine reform of the tariff easier of attainment.

But since reciprocity went through the house with a practically unanimous Democratic vote the Democratic party in congress is confronted with this problem: Shall we follow Bailey, or renounce protection and all its knaveries? I am beginning to fear the "popgun" assault is a failure. As soon as wool was reached, every Janizary of protection became alert.

But I'll tell you about it in a review of Claude Kitchin's reciprocity speech.

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest. Letters should not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.)

AS WELCOME AS GOOD BASEBALL WEATHER.

To the Editor of The Herald:

Are you open for a free and frank discussion of your good points and faults?

I am a former newspaper worker myself, and I always read a paper with a critical eye. I like you pretty well, candid, and on the whole you are a pretty good newspaper, with great possibilities. You compare pretty well with papers in such cities as Buffalo, Toledo, St. Paul and Minneapolis. You seem to be fairly accurate, and do better than the average newspaper in this respect. Once in a while you break loose from the stereotyped style with a well written "story." I would like to see more of them, more stories that are not written in the regulation newspaper style, which gets into a rut and which people read almost mechanically. That is, I do, although it may be because I have read so much newspaper "copy." They used to say that the Atlanta Constitution "covered Dixie like the dew," while the Denver Post "covered Colorado like the cyclone." The Herald seems to have struck a happy medium. You cover the Northwest, but not as gently as the dew, or in as yellow a manner as the Post. I have found you in nearly every little town in Minnesota and the Dakotas, which I make in the course of my business, and nearly everybody seems to have a good word for you. In fact you "stand well" with the people as a whole. But I don't want to see you get fatuous, and if you run this letter I am going to send a later one suggesting some changes, and maybe telling you some of your faults.

HORACE GREELEY, JR.

Fargo, May 21.

(Bully for Horace Greeley. If any other subscribers or readers have anything like this on their minds, they are welcome to enter this free for all, with either criticisms or praises. We prefer the latter, of course, but would like to hear the former also.—The Editor.)

DR. BARNADO'S HOMES.

To the Editor of The Herald:

The council of Dr. Barnardo's homes find it necessary to ask the public to assist them in coming to a somewhat difficult decision. Since the death of Dr. Barnardo five years ago, the sympathy of the innumerable friends and admirers of his work has enabled us, not only to carry on this work, but even to extend it in accordance with his known desire. We have hitherto followed with the utmost strictness his unalterable rule, that no destitute child shall be refused admission; no votes, no influence, no credentials have ever been required for admission to Dr. Barnardo's homes. A child's destitution, for which it can in no case be itself responsible, has always been the only test.

Now we are faced with this difficulty. Up to the middle of last year the income of the homes was increasing, as it has always increased, in almost exact proportion to the increase in the number of destitute children who had to be provided for. Then there was a sudden fall, and at the end of the year there was a deficiency of over £38,000. It is not necessary to go into the reasons for this being so—they are beyond our control and they have affected other charities in the country in many cases to an even greater degree.

The same thing is continuing during the present year. Our income would be considered enormous, but it is insufficient to support the 9,400 children who are now in the homes. We have practically no endowments, and for permanent relief we must either reduce our expenses or increase our income.

Are we to do the former? We have endeavored to maintain Dr. Barnado's tradition of strict economy in everything except the proper plain food, clothing, education, and personal training of the children themselves. There are no high salaries to be cut down, no excessive staff to be reduced—we can economize in children only.

This is the question which we have to decide at once. Because we have no endowments, and because the homes depend entirely on the country's daily appreciation of Dr. Barnado's work, the matter is urgent; but in six months we could bring our expenditure within our present income, by abandoning the rule which Dr. Barnado followed all his life, and which he has left for his successors to follow and maintain.

Is it worth it? Looked at merely as a matter of pounds, shillings, and pence, the thousand destitute children who would be refused admission would, if admitted, be worth to the country in the future many thousands of pounds as honest, hardworking citizens. If left destitute, who can say how much they will cost? Destitute men and women have seldom much future before them—they often have a very extensive past—of their own making—and their future is almost a certainty of an honorable, independent life, if they are given the opportunity, which they seldom make for themselves, and which the workhouse does not adequately provide. It is a good investment to give it to them, and by every canon of human conduct it is also an absolute duty.

We ask the public to decide for us, and to decide quickly. If they are in doubt, will they come and see for themselves? I am sir, your obedient servant, DUKE OF SOMERSET, President.

London, Eng., May 6.

A MOMENT WITH THE WITS.

Boston Transcript: He—I hung up the photographer last week and got some pictures. Did you think the one I sent you was like me?

She—Yes, when it came it was broke.

Chicago Daily News: No. 13—What kind of a lawyer did you have?

No. 23—Well, de jury was out five minutes.

Life: "A senator, pa—?"

"A senator, my son, is very often a man who has risen from obscurity to something worse."

Yonkers Statesman: Patience—Do you believe in wearing false hair?

Patrice—Why, certainly! What else would one do with it?

Washington Star: "Was your husband a bear in Wall street?"

"I think so," replied young Mrs. Torkins. "He certainly acted like one when he got home."

Toledo Blade: The Spiritualist—Is that the spirit of Lady Montague?

The Medium—No, ma'am. I'm the spirit of 'er ladyship's maid, an' I'm to say that she's not at 'ome.

Houston Post: "Don't you know that my little boy always counts 100 before he engages in a fight?"

"Yessm, an' he don't engage in it then, less'n the other feller ketches him."

Chicago Record-Herald: "What book have you found most useful?"

"A book of Browning's poems. We have a table with one short leg, and the Browning book just fits under it."

Mariner's Advocate: "My husband is particularly liable to seasickness, captain," remarked a lady passenger. "Could you tell him what to do in case of an attack?"

"Tain't necessary, mum," replied the captain. "He'll do it."

Chicago Daily News: Mrs. Asker—Are your laundry bills very high?

Mrs. Telliot—No; they charge by the piece, but they lose so many pieces that it keeps down the expense pretty well.

Toledo Blade: "When a man dies, is an inquest held?"

"Oh, no. If a doctor has been in attendance the coroner is not supposed to have to inquire into the cause of the death."

TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1891.

***For two or three days, T. R. Yolton, the portly proprietor of the Sadlerock restaurant on Superior street, near Lake avenue, has been under the care of the police, although the general public has not been aware of it. The arrest was made at the instance of a woman who came here unexpectedly from Nebraska and claimed to be his wife and that he deserted her two years ago, taking $6,000 of her money. During his residence here Yolton has been living with a woman whom everybody thought was his wife, and when Mrs. Yolton appeared she skipped the town and it is given out that she took $3,000 of the Yolton money with her.

***Gust Markey, who was injured several nights ago in a row with John Niak on Lake avenue, died last night. His skull was fractured. Niak fled from Duluth immediately after the row.

***Donald Grant, who has charge of the construction of the Duluth & Winnipeg line from Cloquet to Duluth, says there are now 1,500 men and 250 teams working at grading and bridging the sixteen miles of road from Cloquet to the connection with the St. Paul & Duluth road, and the road will be ready for operations Aug. 1.

***David Kelly of Tower is planning a two-story brick block, 50 by 80 feet, for the corner of Central avenue and Second street, West Duluth.

***The stockholders of the Central Superior Development company met in their office in Duluth yesterday and elected the following directors: James H. Agen, T. G. Alvord, J. F. Merriam, W. A. Holgate, A. Shaw, F. Harrison, L. F. Butler, G. L. Brooks, Charles H. Patrick, Charles D. Taylor and E. E. Barton.

***R. L. Hulbert's family have arrived from Cheboygan and will make West Duluth their home.

***Dr. F. M. Campbell of Minneapolis, who has just returned from an extensive trip in Europe, will supply Dr. Ringland's place at the Temple opera house for the next two Sundays.

***Mrs. G. H. Kemp returned yesterday from Minneapolis, where she has been visiting for the past two weeks.

***Mrs. H. Elliott of Great Falls, Mont., is here visiting her sister, Mrs. C. C. Brown.

***Mrs. Munroe and daughter left yesterday for Seattle, where they will reside in future.

***S. B. Clark of the firm of Clark Bros. left yesterday for Missoula, Mont., where he will establish a branch commission house.

***John R. Smith, a very highly connected business man of Minneapolis who attempted to commit suicide a few days ago, was formerly the husband of Mrs. W. E. Lucas of this city. Mr. Smith lost a large amount of money in the collapse of the Bismarck boom.

***Dr. D. A. Strickler, formerly of Duluth, has been elected president of the state homeopathic institute.

MINNESOTA OPINIONS.

A Remark From the Press Table.

Ridgewood Gazette: "One hundred and fifty years ago lying was a capital offense among the Sioux," says Dr. Eastman. There are people who are mean enough to contend that lying is still a "capitol" offense.

Do 'Em Right.

Stillwater Gazette: From way back in Western Minnesota comes the proposition to reapportion the state so that each county shall have one senator. That's fine; but why not make it strong. Say, for instance, each county in the state outside of Ramsey, Hennepin and St. Louis, one senator each, and the three big counties one between them. If we're going to do the cities let's do 'em right.

The Three-Cent Fare.

Anoka Union: How very good natured the people will be when they are obliged to pay 3 cents a mile on the railroads!

The Object of It.

St. Cloud Journal-Press: It begins to look as though the fight on Whittier is partly inspired to oust the two democratic members of the board of control, Ringdahl and Vasaly. These two gentlemen, while unfortunate in being Democrats, are men of exceptional ability, have rendered the state, we believe, good service, and the governor will be wise in going slow, if he contemplates their removal. They are acting on the advice of the attorney general as regards Supt. Whittier. It is said that he will resign in two or three months, if an attempt is not made to push him off. It would seem to be an occasion for diplomacy and not the big stick.

A Political Dispute.

Le Sueur News: The Red Wing school dispute is growing into a political problem, and the question now is "will Eberhart remove two Johnson appointees on the board of control and reward two henchmen, or will he not?" In Minnesota, ability to serve the public is marked at 5 per cent and political pull at 95 by A. O. Eberhart, superintendent in charge.

A Contrast.

St. Peter Herald: Those papers which prophesied endless turmoil and confusion when the Democrats came into control of the house have little to say these fine May days. Disappointing as the circumstances may be to them, the house is working smoothly and without friction, and bills framed in the interests of the people are being passed with refreshing regularity. Contrast the record of a month with the stand-pat tactics of recent Republican houses.

A Few Shining Exceptions.

Cass Lake Times: The good roads bill, the work done by the St. Louis county legislators, are the few shining exceptions which only serve to accentuate the dismal failure of the rest of the 1911 legislative record. Bob Dunn to the contrary notwithstanding. But then Bob is somewhat contrary, notwithstanding he's a pretty good sort of a Dunn.

A Friend of the People.

Fairmont Sentinel: The Heron Lake News gives S. Y. Gordon a boost for governor in 1912. Gordon is a friend of the people but it is just a little early to launch his boom.

Reflections of a Bachelor.

New York Press: The hardest thing is to keep selfishness out of prayers.

It takes a woman to be able to be good just because she doesn't want to.

Some people have such perfect dispositions they won't even cuss the weather.

Any man will try to make out how he understands a thing it wouldn't make any difference if he did.

If a funny man reads a joke in the Greek fables, he can suspect it was original with him, just the same.

Pointed Paragraphs.

Chicago Daily News: Every man expects to strike it rich some day.

It annoys some people to mind their own business.

A married man is lucky if treated as one of the family.

Don't talk about your neighbors; it's a game two can play at.

Eternal vigilance is the price of liberty, and it is payable in advance.

A man is never so willing to do the fair thing as when he gets in a hole.

Yes, Alonzo, there are people who cannot be flattered. Cemeteries are full of 'em.

The proof of the pudding is in the amount left over after the small boy gets all he wants.

Many an innocent young man has been misled by the helpless way a summer girl baits a fish hook.

The one thing a man regrets about getting into a foolish flirtation is his inability to get out of it creditably.

Dyspepsia develops a state of mind which causes people to doubt the wisdom of eating certain things, but which seldom prevents their doing so.

The Amende Honorable.

Emporia Gazette: Yesterday, while the town was filled with the pomp and magnificence of the Knights Templar parade, a reporter for the Gazette said that the Fredonia band played "Beulah Land" in the procession. He also indicated, or meant to indicate, that "Beulah Land" was such a swift tune that it string-halted some of the Knights to keep step to it.

The matter came to the attention of the Responsible Editor of the Gazette after the paper was out, when the damage was done. But magna est veritas et prevalebit, which, being freely translated, reads, you can't keep a good man down. Now, the truth is that the Fredonia band did not play "Beulah Land," but "Maryland, My Maryland." The Gazette will bet a bucket of ink against a keg of soap that you can't think of the two and tell them apart. Anyhow, the Gazette reporter who wrote up the parade is no Beethoven and he isn't supposed to have a guilty knowledge of martial music, and being a preacher's son, anything that sounds like "Beulah Land" is "Beulah Land," and "Beulah Land" she goes in the paper.

Hence the grief. The Gazette hastens to apologize for the bobble. In a small town like Emporia the division of labor on a newspaper is sometimes crude. The gentlemanly and urbane reporter who covers the boilerworks at the roundhouse often is asked to do the musical criticism, and the youth who rides the 'busses to the train for personals in his day's work sometimes has to round up the nobility in their marble halls with "vassals and serfs" by their sides. The reporter who confused "Buelah Land" with "My Maryland," and thereby insulted a sovereign city and its good people, usually devotes himself to baseball, sales day items and city hall matters. He knows just two tunes. One is "Hail, Hail, the Gang's all Here," and the other isn't. But he often branches off into speculative theories and these get him into trouble. Witness the Fredonia riot.

The Gazette trusts the explanation is sufficient. The Fredonia band is a good band. It played an entirely proper tune in the parade, and if the Knights from the slow towns of Kansas can't keep the pace Fredonia sets—so much the worse for the Knights. And now, having crawled till its vest buttons are all ripped off, the Gazette desires to rise and take off its hat to Fredonia, the best town of its size in Kansas, and to the Fredonia band—an organization that will lead the chorus when the morning stars sing together.

Truly Remarkable.

Chicago Record-Herald: "Quite a remarkable thing happened at the banquet last night."

"Did somebody tell a story that was new?"

"No, the stories were all old, but one of the speakers who said he had nothing to say sat down immediately after saying it."

It is important when desiring the address of your paper changed to give both the old and new addresses.

The Duluth Herald accepts advertising contracts with the distinct guarantee that it has the largest circulation of any newspaper published in Minnesota outside the Twin Cities. Its value as an advertising medium is apparent.

THE PLACE FOR THE SUMMER CAPITAL.

It's all very well to talk about Minnetonka, Beverley, the St. Lawrence and the mountains of Tennessee for the president's summer outing place, but after all, there is really but one such place for the president or any other man who appreciates solid comfort, and that place is Duluth.

Here all the powers of nature have joined in a gentle conspiracy to make ideal summer conditions for rest, pleasure and a boundless content. The scenery is grand in the literal sense of that shamefully overworked adjective. The broad, cool lake, the forest-clad distances, the green hills with their gentle slopes forming a noble amphitheater from which everybody gets a good look at one of the most splendid scenes on earth—these stage-settings make a place of rare delight in which it is a privilege to visit or to live.

And the climate! It is impossible to create by mere words a fair impression of a Duluth summer. You must live in it to realize it. Weather bureau statistics, showing summer day temperatures in the 70s and summer night temperatures in the 60s or less, are more illuminating than descriptions. Days of mellow sunshine and cool, soft breezes are followed by nights of delicious coolness when you sleep as nobody away from the cool comfort of Lake Superior possibly can sleep. There is a rare enjoyment in every minute of both day and night while all around the heat afflicts humanity beyond endurance.

Duluth is the place for anybody's summer capital.

SENATOR NELSON AND THE PRESIDENT.

We fear that Senator Nelson is slightly disingenuous when he pretends a mighty anger because President Taft is trying to get the Canadian reciprocity treaty adopted without hostile amendment. It is true enough that the senate is a treaty-making body, and that its powers in that respect are equal with those of the president. However, the senate has no facilities for negotiation with other powers, and such arrangements must necessarily be made by the executive, subject to ratification by the senate.

The fact is, and Senator Nelson doubtless knows it as well as the president does, that the treaty must go through as it was arranged with the Canadian government or not at all, and that in all probability it must go through now or never. There was a time when Canada was anxious for proper trade relations with us, and because this country wouldn't listen Canada was practically forced into putting herself into a position of commercial independence. In view of all the circumstances, Canada is pretty decent to be co-operating in this effort to establish sensible trade relations, and this country will be very stupid if it fails to avail itself of an opportunity that will not come again soon, if ever.

Amendments, particularly such amendments as those offered by Senator Nelson, can serve but one purpose, and that is to defeat the treaty. Most of the amendments proposed have but that one object in view; and there are at hand no reasons for believing that Senator Nelson's amendments are different in this respect.

NORTHERN MICHIGAN'S GOOD WORK.

Bereft of the aid and sympathy of the governing section of its state, much as Northern Minnesota has been, Northern Michigan is going ahead to carve out its glorious future, much as Northern Minnesota is doing.

An accounting of its work to date and its plans for the future, issued by the recently organized Upper Peninsula Development bureau, makes a showing on which Upper Michigan is to be congratulated warmly.

Just now this bureau, which seems to be patterned somewhat after our own valuable and efficient Northern Minnesota Development association, is engaged in raising a public fund of $50,000. It is beginning at the right end, and it is good to learn that it expects to raise this money by June 1. More than half of it is in hand now, and more is coming right along. Every county has contributed, mining and industrial concerns are chipping in, the various communities are doing their share, and thousands of individual memberships have been sold at a dollar apiece.

The money thus raised is to be spent in advertising the agricultural and other possibilities of Northern Michigan. That's a wise use of money, and Minnesota will do well when it begins spending more than the gingerly sums it is devoting to that purpose.

Northern Minnesota has not yet adopted the method used in Michigan, of raising a publicity fund without state aid, but it will listen with interest to the report to be made at the Duluth meeting of the Northern Minnesota Development association of the work of the Michigan bureau along this line. Thus far the development association itself has been a powerful advertising medium for Northern Minnesota. At its meetings the possibilities of Northern Minnesota soil have been described by experts with a warmth of enthusiasm that has carried conviction, and the effect has been thoroughly good. Its meetings have been a center from which has spread a new interest and a new enthusiasm in state development, and though it has been the hardest part of the work, the effect has been to arouse interest in the matter even in Southern Minnesota.

We anticipate that one of the most valuable and interesting features of the meeting of the Northern Minnesota Development association in Duluth June 1 and 2 will be the exchange of ideas and plans that will be had with representatives of organizations engaged in similar work in Michigan and Wisconsin. So far as The Herald knows, Minnesota was the pioneer in this work in the Lake Superior region; but such reports as those which come from Northern Michigan indicate that Northern Minnesota may learn something even from those who have followed its example along lines of their own devising.

There are untapped treasuries of wealth in Northern Michigan, Northern Wisconsin and Northern Minnesota, and it will be highly beneficial if those who are engaged in developing these riches in the several states get together occasionally, as they are going to do in Duluth next month, to exchange ideas and to compare methods and results.

THE CASE OF THE PROGRESSIVE.

A little while ago the Progressive Republicans, so-called, otherwise known as insurgents, had the Old Guard in their party on the run. The Old Guard is on the run yet, and it will not cease running until it has vanished, leaving nothing behind but an unpleasant memory and a faint trace on the imperishable pages of history.

Just now, however, the insurgents stand in quite as precarious a position as that into which they crowded the reactionaries; and unless they conduct themselves with uncommon delicacy, they may soon follow the retreating footsteps of their late enemies and present allies, the standpatters.

Under the heading "Are Progressives Without Principle?" the New York Journal of Commerce says: "In the face of their great opportunity to fit their actions to their words, their most stalwart leaders, the irrepressible Cummins and the oracularly tireless La Follette, and even the pugnacious Bristow, grew irresolute. It had been easy to cry out against the mills and factories of the East for their grasping greed for tariff favors, but with the proposed reciprocal trade with Canada possibly the wheat fields of Iowa, the lumber camps of Michigan and even the cattle ranches of Nebraska might be touched with the dreadful 'foreign competition.' To the amazement of those of easy faith in the reforming politician, leading 'progressives' announced their opposition to the reciprocity bill unless it were to be so amended as to destroy its validity."

The turning point with the "insurgents" came, perhaps, when Cummins said in Chicago that it was better to elect almost any kind of a Republican than to elect any other man. The tide that began with that unhappy sentence reached its flow when the "progressives," after demanding tariff revision and reproaching the East with sectional selfishness, shied at reciprocity and refused the chance it offered to redeem their promise to work in every possible way to relieve the people from the heavy burden of the tariff tax.

Says the Indianapolis News: "The present attitude of the 'progressives' certainly does raise the 'question whether they have ever been acting upon any clear principle of public policy or merely kicking against a leadership which was too arbitrary and too intolerant.' As such leadership is bad, we think the fight against it, even if nothing more were involved in it, was based on principle. Thus far the progressives must go acquit.

"But it cannot be denied that their attitude toward reciprocity has been disappointing to the country. For they fought, not simply the old leadership, but the things for which that leadership stood, among them the Payne-Aldrich tariff. Yet when they had the chance to modify the most objectionable features of that bill through the agreement negotiated by President Taft, they held back, and for the old protectionist reason that the agreement was against the interests of their constituents."

"Held back," in the case of many of the "insurgent" senators, is putting it mildly. They have not held back. They have dashed boldly into battle; but this time, instead of fighting the Old Guard, they are fighting with the Old Guard. Instead of fighting with the people for the common good, they are fighting against the people and against the common good.

There was a time, not so long ago, when there were many people who saw in the "progressive" Republican movement the brightest hope for the future. A little time has brought great changes: a little time and a little test. In the last Minnesota legislature well-meaning "progressives" were the worst obstructionists, and did most to help the "interests" delay and thus defeat constructive legislation. In congress the "progressives" are arrayed against progress in the form of Canadian reciprocity.

And in the meantime the Democrats, newly come to power but comporting themselves with judgment and sagacity, show that the progressive, if he offers any hope at all, does not offer the only hope.

VICTORY IN SIGHT.

Indications that the senate will soon be purged of the shame of Lorimer are accumulating. A very significant thing is the introduction of the Dillingham resolution providing for a new inquiry into the case. Senator La Follette has a similar resolution pending in which he names the committee that is to handle the investigation if his resolution is adopted. The proposed committee is constituted so that there will be no hocus pocus about the inquiry.

Evidently there was danger that the La Follette resolution would pass, for Senator Dillingham, who is not a progressive, has offered a resolution providing for an investigation by the standing committee on privileges and elections, which, it is said, probably will pass.

Meanwhile, there are rumors that Lorimer is about to resign. Unquestionably a real investigation, by a committee having in mind the honor of the senate rather than the protection of Lorimer and the interests he serves, would result in his expulsion. The trail is getting hotter, and danger threatens not only Lorimer but those who bought his senate seat. In their interest, if not in his own, Lorimer's resignation is a very probable outcome of the case.

THE PITY OF IT.

According to the report of the committee on ministerial relief, submitted to the Presbyterian general assembly yesterday, of the 9,073 ministers of that sect less than half are settled pastors of churches. Only about 2,500 have salaries of $1,000 a year or more. Over 6,000 either have no salaries at all or salaries of less than $1,000 a year, and many are paid less than $500 a year. Only 5,000 are able to afford life insurance.

Aside from the slenderness of support given their churches by many members, probably the chief cause of this condition is that there are too many church organizations in most communities. Differences in belief so slight that few members can define them separate the army of the Lord into a myriad of scattered bands, when the broad and enduring principles held in common should cement them in one effective organization. So it is that villages which might support one or two pastors well are called upon to support half a dozen or more, and of course they can't do it.

And yet effort toward amalgamating closely allied Protestant sects has so far met little but discouragement.

CLAUDE KITCHIN OF NORTH CAROLINA

By SAVOYARD.

By Savoyard.

A long time ago I tried to deliver myself of a tribute to what is known among our citizenship as the Scotch-Irish, and the following poor passage was the usufruct:

"It is of the blood of Stonewall Jackson, rather than of the caste of Philip H. Sheridan. It is a hardy race. * * * It defended Londonderry. It drove the Stuart from the British Isles. It believed in prayer and it believed in works. It had faith and it could fight. It came to these shores and we find it in New Hampshire, in Pennsylvania, in Virginia, and in the Carolinas. It was at Cape Breton and at Quebec. It was in the Continental congress and in the Continental army. It was in the infant navy and in the adult navy. It sailed with Preble and fought with Decatur. It was with Farragut at Mobile and roamed with Semmes on strange seas. It gained the victory at King's Mountain and saw the surrender at Yorktown. It helped to make the Constitution and did more than its share in winning the West. George Rogers Clark was of its blood, and the victor of New Orleans was one of its heroes. It was with Stonewall Jackson at Chancellorsville and with George H. Thomas at Chickamauga. It triumphed with Grant and it surrendered with Lee. It believes in the family and in the home, in the church and in the school, and when it has girded on the sword it has put the Bible in the knapsack. It is a Presbyterian, and representative government, in church and state, is part of its religion. It is for the Sabbath day that God ordained. It is mighty nearly the clotted beam of American citizenship."

There is a greater proportion of Scotch-Irish in North Carolina than in any other state, though down there immense numbers of them are Baptists, but however that may be, the proud escutcheon, "First at Bethel, farthest at Gettysburg, and last at Appomattox," may be claimed as an additional glory for the Scotch-Irish race.

* * *

And Claude Kitchin is of the blood and he is a splendid specimen of manhood, mentally, morally and physically. The man actually has the temerity to believe something and to be governed by his convictions, and that is a great thing in public man nowadays, when there is so much that is false and so much that is vapid abroad in the land. But here mind and matter and conscience conspired together, and they made a man—Claude Kitchin, 42 years of age and ten years a congressman.

I had a slight acquaintance with his father, who was a member of the Forty-sixth congress from the district now so ably represented by his son. What I especially recollect of the father is that he was noted for a striking individuality, a trait that is nearly as common in North Carolina as it is in Kentucky. Not nearly so richly gifted in the graces of a public man as his younger son, he was yet a man of sterling parts, as was evidenced by the frequency with which his associates quoted his utterances in private converse.

* * *

William W. Kitchin, elder brother of the present congressman, was twelve years in congress from the Fifth district, and retired to accept the Democratic nomination for governor of North Carolina, to which office he was elected and which he yet holds. He, too, is a Democrat without a flaw, and having succeeded Zeb Vance in one station it is not unlikely that he will be one of his successors in another.

Claude Kitchin was born at Scotland Neck, N. C., in 1869, when his brother, the governor, was 3 years old. The younger son was educated at Wake Forest college, as lovely a spot as can be found between the two oceans. It is not far from Raleigh, and it is there that the minds of the very elite of the youth of North Carolina are trained, and he is indeed fortunate who can call that institution alma mater.

* * *

That futile authoress, Ouida, wrote a book with this passage from Shakespeare as text:

"A young man married is a man that's marr'd."

When men are not yet emerged from the "Byronic stage" Granville Devine is a great work, and we hang on its artificial and bizarre rhetoric, its forced and sham sentiment with rapture, but to us older the stuff is insipid and worthless and it is with pleasure we recall that the passage quoted was the opinion of the most arrant knave and contemptible reprobate even genius of Shakespeare ever conceived.

Claude Kitchin at the age of 19 was happily mated with the woman of his choice, then a girl of 18, and from that day of him it might be said, "a young man married is a man that's made." He studied law and came to the bar. As much a man of the people as Zeb Vance himself, clients flocked to him and he had a large and lucrative practice, when elected a member of the Fifty-seventh congress in 1900.

Kitchin has the presence, the gifts, mental and physical, that make the orator. He is a fanatically honest man and champions no cause he does not approve. He is sober and industrious, an untiring student, and in a rough and tumble debate, such as Zeb Vance delighted in, he is the most formidable man in congress. No one hates a sham more cordially than he. Full of physical health, overflowing with animal spirits, young, ardent, brave, enthusiastic, able and eloquent, Claude Kitchin, if not exactly a pet, is certainly a great favorite on the Democratic side. His speech on Roosevelt went into the Democratic campaign book of 1904 and made him a national figure, but it was not until the lumber schedule of the Payne-Aldrich tariff gave him theme that this young fellow showed what a giant he is. It is a great speech, one of which any real Democrat might well be proud. He stripped the thing and revealed the shame of it, and the Democrats on the floor and in the galleries gave him the splendid ovation he had earned. His motto was: "I want no stealing for North Carolina."

That speech established him as a leader and stamped him as a statesman. It was that speech which marked him for his present position, high among the political and intellectual aristocracy of the public men at this capital. It was inevitable that he would be one of the ways and means committee, and pity it is that all of his Democratic associates at that council board are not of the stripe he is. If the party is to be Randallized he will have none of it. If the tariff is to be Gormanized, it will be in spite of this man, not because of him.

* * *

Because of the soundness of his Democracy and his gifts as an orator, Claude Kitchin was chosen to open the debate for the Democrats on Canadian reciprocity, and a great speech it was. No better was made on that subject, no better will be made. It is the Democratic idea of political economy. It is a step in the direction of free trade. It will make a genuine reform of the tariff easier of attainment.

But since reciprocity went through the house with a practically unanimous vote the Democratic party in congress is confronted with this problem: Shall we follow Bailey, or renounce protection and all its knaveries? I am beginning to fear the "pop-gun" assault is a failure. As soon as wool was reached, every Janizary of protection became alert.

But I'll tell you about it in a review of Claude Kitchin's reciprocity speech.

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest. Letters should not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.)

AS WELCOME AS GOOD BASEBALL WEATHER.

To the Editor of The Herald:

Are you open for a free and frank discussion of your good points and faults?

I am a former newspaper worker myself, and I always read a paper with a critical eye. I like you pretty well, Herald, and on the whole you are a pretty good newspaper, with great possibilities. You compare pretty well with papers in such cities as Buffalo, Toledo, St. Paul and Minneapolis. You seem to be fairly accurate, and do better than the average newspaper in this respect. Once in a while you break loose from the stereotyped style with a well written "story." I would like to see more of them, more stories that are not written in the regulation newspaper style, which gets into a rut and which people read almost mechanically. That is, I do, although it may be because I have read so much newspaper "copy." They used to say that the Atlanta Constitution "covered Dixie like the dew," while the Denver Post "covered Colorado like the cyclone." The Herald seems to have struck a happy medium. You cover the Northwest, but not as gently as the dew or in as yellow a manner as the Post. I have found you in nearly every little town in Minnesota and the Dakotas, which I make in the course of my business, and nearly everybody seems to have a good word for you. In fact you "stand well" with the people as a whole. But I don't want to see you get fatuous, and if you run this letter I am going to send a later one suggesting some changes, and maybe telling you some of your faults.

HORACE GREELEY, JR.

Fargo, May 21.

(Bully for Horace Greeley. If any other subscribers or readers have anything like this on their minds, they are welcome to enter this free for all, with either criticisms or praises. We prefer the latter, of course, but would like to hear the former also.—The Editor.)

DR. BARNADO'S HOMES.

To the Editor of The Herald:

The council of Dr. Barnardo's homes find it necessary to ask the public to assist them in coming to a somewhat difficult decision. Since the death of Dr. Barnardo five years ago, the sympathy of the innumerable friends and admirers of his work has enabled us, not only to carry on this work, but even to extend it in accordance with his known desire. We have hitherto followed with the utmost strictness his unalterable rule, that no destitute child shall be refused admission; no votes, no influence, no credentials have ever been required for admission to Dr. Barnardo's homes. A child's destitution, for which it can in no case be itself responsible, has always been the only test.

Now we are faced with this difficulty. Up to the middle of last year the income of the homes was increasing, as it has always increased, in almost exact proportion to the increase in the number of destitute children who had to be provided for. Then there was a sudden fall, and at the end of the year there was a deficiency of over £38,000. It is not necessary to go into the reasons for this being so—they are beyond our control and they have affected other charities in the country, in many cases to an even greater degree.

The same thing is continuing during the present year. Our income would be considered enormous, but it is insufficient to support the 9,400 children who are now in the homes. We have practically no endowments, and for permanent relief we must either reduce our expenses or increase our income.

Are we to do the former? We have endeavored to maintain Dr. Barnado's tradition of strict economy in everything except the proper plain food, clothing, education, and personal training of the children themselves. There are no high salaries to be cut down, no excessive staff to be reduced—we can economize in children only.

This is the question which we have to decide at once. Because we have no endowments, and because the homes depend entirely on the country's daily appreciation of Dr. Barnado's work, the matter is urgent; but in six months we could bring our expenditure within our present income, by abandoning the rule which Dr. Barnado followed all his life, and which he has left for his successors to follow and maintain.

Is it worth it? Looked at merely as a matter of pounds, shillings, and pence, the thousand destitute children who would be refused admission would, if admitted, be worth to the country in the future many thousands of pounds as honest, hardworking citizens. If left destitute, who can say how much they will cost? Destitute men and women have seldom much future before them—they often have a very extensive past—of their own making—and their future is almost a certainty of an honorable, independent life, if they are given the opportunity, which they seldom make for themselves, and which the workhouse does not adequately provide. It is a good investment to give it to them, and by every canon of human conduct it is also an absolute duty.

We ask the public to decide for us, and to decide quickly. If they are in doubt, will they come and see for themselves? I am sir, your obedient servant,

DUKE OF SOMERSET,
President.

London, Eng., May 6.

A MOMENT WITH THE WITS.

Boston Transcript: He—I hung up the photographer last week and got some pictures. Did you think the one I sent you was like me?

She—Yes, when it came it was broke.

Chicago Daily News: No. 13—What kind of a lawyer did you have?

No. 23—Well, de jury was out five minutes.

Life: "A senator, pa—?"

"A senator, my son, is very often a man who has risen from obscurity to something worse."

Yonkers Statesman: Patience—Do you believe in wearing false hair?

Patrice—Why, certainly! What else would one do with it?

Washington Star: "Was your husband a bear in Wall street?"

"I think so," replied young Mrs. Torkins. "He certainly acted like one when he got home."

Toledo Blade: The Spiritualist—Is that the spirit of Lady Montague?

The Medium—No, ma'am. I'm the spirit of 'er ladyship's maid, an' I'm to say that she's not at 'ome.

Houston Post: "Don't you know that my little boy always counts 100 before he engages in a fight?"

"Yessm, an' he don't engage in it then less'n the other feller ketches him."

Chicago Record-Herald: "What book have you found most useful?"

"A book of Browning's poems. We have a table with one short leg, and the Browning book just fits under it."

Mariner's Advocate: "My husband is particularly liable to seasickness, captain," remarked a lady passenger. "Could you tell him what to do in case of an attack?"

"Tain't necessary, mum," replied the captain. "He'll do it."

Chicago Daily News: Mrs. Asker—Are your laundry bills very high?

Mrs. Telliot—No; they charge by the piece, but they lose so many pieces that it keeps down the expense pretty well.

Toledo Blade: "When a man dies, is an inquest held?"

"Oh, no. If a doctor has been in attendance the coroner is not supposed to have to inquire into the cause of the death."

TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1891.

***For two or three days, T. R. Yolton, the portly proprietor of the Saddlerock restaurant on Superior street, near Lake avenue, has been under the care of the police, although the general public has not been aware of it. The arrest was made at the instance of a woman who came here unexpectedly from Nebraska and claimed to be his wife and that he deserted her two years ago, taking $6,000 of her money. During his residence here Yolton has been living with a woman whom everybody thought was his wife, and when Mrs. Yolton appeared she skipped the town and it is given out that she took $3,000 of the Yolton money with her.

***Gust Markey, who was injured several nights ago in a row with John Niak on Lake avenue, died last night. His skull was fractured. Niak fled from Duluth immediately after the row.

***Donald Grant, who has charge of the construction of the Duluth & Winnipeg line from Cloquet to Duluth, says there are now 1,500 men and 250 teams working at grading and bridging the sixteen miles of road from Cloquet to the connection with the St. Paul & Duluth road, and the road will be ready for operations Aug. 1.

***David Kelly of Tower is planning a two-story brick block, 50 by 80 feet, for the corner of Central avenue and Second street, West Duluth.

***The stockholders of the Central Superior Development company met in their office in Duluth yesterday and elected the following directors: James H. Agen, T. G. Alvord, J. F. Merriam, W. A. Holgate, A. Shaw, F. Harrison, L. F. Butler, G. L. Brooks, Charles H. Patrick, Charles D. Taylor and E. E. Barton.

***R. L. Hulbert's family have arrived from Cheboygan and will make West Duluth their home.

***Dr. F. M. Campbell of Minneapolis, who has just returned from an extensive trip in Europe, will supply Dr. Ringland's place at the Temple opera house for the next two Sundays.

***Mrs. G. H. Kemp returned yesterday from Minneapolis, where she has been visiting for the past two weeks.

***Mrs. H. Elliott of Great Falls, Mont., is here visiting her sister, Mrs. C. C. Brown.

***Mrs. Munroe and daughter left yesterday for Seattle, where they will reside in future.

***S. B. Clark of the firm of Clark Bros. left yesterday for Missoula, Mont., where he will establish a branch commission house.

***John R. Smith, a very highly connected business man of Minneapolis who attempted to commit suicide a few days ago, was formerly the husband of Mrs. W. E. Lucas of this city. Mr. Smith lost a large amount of money in the collapse of the Bismarck boom.

***Dr. D. A. Strickler, formerly of Duluth, has been elected president of the state homeopathic institute.

MINNESOTA OPINIONS.

A Remark From the Press Table.

Ridgewood Gazette: "One hundred and fifty years ago lying was a capital offense among the Sioux," says Dr. Eastman. There are people who are mean enough to contend that lying is still a "capitol" offense.

Do 'Em Right.

Stillwater Gazette: From way back in Western Minnesota comes the proposition for a reapportion the state so that each county shall have one senator. That's fine; but why not make it strong. Say, for instance, each county in the state outside of Ramsey, Hennepin and St. Louis, one senator each, and the three big counties one between them. If we're going to do the cities let's do 'em right.

The Three-Cent Fare.

Anoka Union: How very good natured the people will be when they are obliged to pay 3 cents a mile on the railroads!

The Object of It.

St. Cloud Journal-Press: It begins to look as though the fight on Whittier is partly inspired to oust the two Democratic members of the board of control, Ringdahl and Vasaly. These two gentlemen, while unfortunate in being Democrats, are men of exceptional ability, have rendered the state, we believe, good service, and the governor will be wise in going slow, if he contemplates their removal. They are acting on the advice of the attorney general as regards Supt. Whittier. It is said that he will resign in two or three months, if an attempt is not made to push him off. It would seem to be an occasion for diplomacy and not the big stick.

A Political Dispute.

Le Sueur News: The Red Wing school dispute is growing into a political problem, and the question now is "will Eberhart remove two Johnson appointees on the board of control and reward two henchmen, or will he not?" In Minnesota, ability to serve the public is marked at 5 per cent and political pull at 95 by A. O. Eberhart, superintendent in charge.

A Contrast.

St. Peter Herald: Those papers which prophesied endless turmoil and confusion when the Democrats came into control of the house have little to say these fine May days. Disappointing as the circumstances may be to them, the house is working smoothly and without friction, and bills framed in the interests of the people are being passed with refreshing regularity. Contrast the record of a month with the stand-pat tactics of recent Republican houses.

A Few Shining Exceptions.

Cass Lake Times: The good roads bills, the work done by the St. Louis county legislators, are the few shining exceptions which only serve to accentuate the dismal failure of the rest of the 1911 legislative record. Bob Dunn to the contrary notwithstanding. But then Bob is somewhat contrary, notwithstanding he's a pretty good sort of a Dunn.

A Friend of the People.

Fairmont Sentinel: The Heron Lake News gives S. Y. Gordon a boost for governor in 1912. Gordon is a friend of the people but it is just a little early to launch his boom.

Reflections of a Bachelor.

New York Press: The hardest thing is to keep selfishness out of prayers.

It takes a woman to be able to be good just because she doesn't want to.

Some people have such perfect dispositions they won't even cuss the weather.

Any man will try to make out how he understands a thing it wouldn't make any difference if he did.

If a funny man reads a joke in the Greek fables, he can suspect it was original with him, just the same.

Pointed Paragraphs.

Chicago Daily News: Every man expects to strike it rich some day.

It annoys some people to mind their own business.

A married man is lucky if treated as one of the family.

Don't talk about your neighbors; it's a game two can play at.

Eternal vigilance is the price of liberty, and it is payable in advance.

A man is never so willing to do the fair thing as when he gets in a hole.

Yes, Alonzo, there are people who cannot be flattered. Cemeteries are full of 'em.

The proof of the pudding is in the amount left over after the small boy gets all he wants.

Many an innocent young man has been misled by the helpless way a summer girl baits a fish hook.

The one thing a man regrets about getting into a foolish flirtation is his inability to get out of it creditably.

Dyspepsia develops a state of mind which causes people to doubt the wisdom of eating certain things, but which seldom prevents their doing so.

The Amende Honorable.

Emporia Gazette: Yesterday, while the town was filled with the pomp and magnificence of the Knights Templar parade, a reporter for the Gazette said that the Fredonia band played "Beulah Land" in the procession. He also indicated, or meant to indicate, that "Beulah Land" was such a swift tune that it string-halted some of the Knights to keep step to it.

The matter came to the attention of the Responsible Editor of the Gazette after the paper was out, when the damage was done. But magna est veritas et prevalebit, which, being freely translated, reads, you can't keep a good man down. Now, the truth is that the Fredonia band did not play "Beulah Land," but "Maryland, My Maryland." The Gazette will bet a bucket of ink against a keg of soap that you can't think of the two and tell them apart. Anyhow, the Gazette reporter who wrote up the parade is no Beethoven and he isn't supposed to have a guilty knowledge of martial music, and being a preacher's son, anything that sounds like "Beulah Land" is "Beulah Land," and "Beulah Land" she goes in the paper.

Hence the grief. The Gazette hastens to apologize for the bobble. In a small town like Emporia the division of labor on a newspaper is sometimes crude. The gentlemanly and urbane reporter who covers the boilerworks at the roundhouse often is asked to do the musical criticism, and the youth who rides the 'busses to the train for personals in his day's work sometimes has to round up the nobility in their marble halls with "vassals and serfs" by their sides. The reporter who confused "Buelah Land" with "My Maryland," and thereby insulted a sovereign city and its good people, usually devotes himself to baseball, sales day items and city hall matters. He knows just two tunes. One is "Hail, Hail, the Gang's all Here," and the other isn't. But he often branches off into speculative theories and these get him into trouble. Witness the Fredonia riot.

The Gazette trusts the explanation is sufficient. The Fredonia band is a good band. It played an entirely proper tune in the parade, and if the Knights from the slow towns of Kansas can't keep the pace Fredonia sets—so much the worse for the Knights. And now, having crawled till its vest buttons are all ripped off, the Gazette desires to rise and take off its hat to Fredonia, the best town of its size in Kansas, and to the Fredonia band—an organization that will lead the chorus when the morning stars sing together.

Truly Remarkable.

Chicago Record-Herald: "Quite a remarkable thing happened at the banquet last night."

"Did somebody tell a story that was new?"

"No, the stories were all old, but one of the speakers who said he had nothing to say sat down immediately after saying it."

INTENTIONAL DUPLICATE EXPOSURE

WHOSE PLACE IS WHICH ONE?

Forester Cox and Gen. Andrews Are in Mix-Up Over Duties.

Department of State Government in Need of Untangling.

St. Paul, Minn., May 23.—(Special to The Herald.)—Just who is at the head of the Minnesota forestry department, is a mooted question at the capitol. There are indications that a dividing line has been drawn between W. T. Cox, the new forester, and Gen. C. C. Andrews, secrtary to the state forestry board, and that both are endeavoring to keep their beaten paths somewhat separated.

The law passed at the last session of the legislature was intended to pave the way for a more uniform working plan for caring for the state's timber. The office of state forester was created, and the office of forestry commissioner, held by Gen. Andrews was abolished.

Have Separate Offices.

Immediately upon the appointment of W. T. Cox as state forester, a rigidity about the office of Gen. Andrews became apparent. When Mr. Cox arrived from Washington to take up his duties, he did not take desk room in the office of the secretary, but went to the extreme end of the corridor, where he opened an office by himself. Two stenographers are employed by Gen. Andrews. Last week Mr. Cox had none at all, but this morning one reported for duty.

"What are the duties of Mr. Cox, or rather, what authority does he have?" a clerk in his office was asked, this morning.

"As state forester, he is the agent of the forestry board," the clerk replied.

"What are your duties as secretary?" Gen. Andrews was asked.

"There is a forestry board," Gen. Andrews replied, "and, naturally, the board wants someone here to speak for it. I am a sort of a mouthpiece of the board."

"Agent" and "Mouthpiece."

Just what the difference between "agent of the forestry board" and "mouthpiece of the board" really is, seems to unsettled. At any rate, the intercourse between the two offices is not great and the authority in each does not appear well defined. It is understood that Mr. Cox has authority to employ forest rangers and patrolmen, but that Gen. Andrews is entrusted with the task of issuing warrants for their pay. The entire plan of reorganizing the fire-fighting brigade in the north woods, however, is being undertaken by the new forester alone.

LA FOLLETTE THE SPEAKER

(Continued from page 1.)

the admission into the Union of Arizona and New Mexico reached its day of final consideration by the house and will be placed upon its passage before adjournment tonight. No doubt of its adoption is felt.

General debate on the measure, it was agreed, should be cut off at 3 o'clock, the resolution then to be called up under the five-minute rule.

With the statehood bill passed, the pending business before the house will be concluded, and adjournment for three days at a time is probable until the wool tariff bill is ready.

Berger Introduces Bill.

A woman's eight-hour bill governing employment of women and children in the District of Columbia was introduced by Representative Berger of Wisconsin. Girls under 18, the bill provides, cannot be kept at work after 6 o'clock p. m.

Probe Woolen Company.

Investigation of the affairs of the American Woolen company, with particular reference to whether it is operating in violation of the Sherman anti-trust law, is to be considered by the house rules committee. A resolution of inquiry was introduced by Representative Francis of Ohio. Mr. Francis was notified to appear before the committee Saturday.

Let Veterans Ride Free.

A resolution amending the interstate commerce law to permit granting of passes to members of the Grand Army of the Republic, when attending encampments of the order, was introduced in the senate.

DRINKING ON THE INCREASE

(Continued from page 1.)

liquor interests, and the vote by an increased majority to retain prohibition in the Constitution of Oklahoma."

The report says:

"The per capita drink bill in the year 1910 was $24.17. Multiplying this by 4.6, the size of the American private family according to the census of 1900 (the estimate for the census of 1910 is not yet available), we have $111.18, the annual drink bill of the average American family."

Under the caption "The Cost of the Curse," the report gives a summary of the amount of liquor consumed during the last year in the United States, and places its total cost to the consumers at $2,256,324,447.

The Grant heresy trial probably will be concluded today. It is not known, however, when the judicial committee which is considering the case will make its report.

Favor Church Union.

The unanimous adoption of the report favoring a union with the Reformed church; a protest against the acceptance by the government of the silver service for the battleship Utah, on which appears an engraving of Brigham Young and the Mormon tabernacle; the starting of a movement to establish a fund of $6,000,000 to permit a pension increase for disabled ministers and widows of ministers were among the important happenings at the session.

Word of the adoption of the report favoring union with the Reformed church, was immediately wired to Canton, Ohio, where the general assembly of that denomination is now in session. Before the plan for union can be put into effect, it will have to be adopted by the different Presbyteries.

Charges Against Grant.

That it was a physical impossibility for "Christ to have stood on the pinnacle of the temple at Jerusalem and been tempted by Satan" as related in the New Testament, was one of the statements attributed to Rev. Grant at the heresy trial before the prominent judicial committee. Dr. Grant is charged with having said the topmost pinnacle was entirely too small for any one to stand on.

In commenting on the death of Uzziah, who, as told in the Old Testament, was struck dead for daring to put his hand on the Ark of the Covenant, Dr. Grant is alleged to have said:

"This man Uzziah must have had an aneurism of the heart or have burst a blood vessel in his head. All Uzziah was trying to do was to prevent the sacred ark from slipping from the wagon or sledge on which it was being carried. Evidently the weight of the ark was too much of a strain and the man dropped dead."

Dr. Grant was also accused of having told a member of his church that he intended "to cast the devil out of the Bible" by preaching a certain sermon.

CORRAL RESIGNS AS VICE PRESIDENT OF MEXICAN REPUBLIC

(Continued from page 1.)

chamber a report on the successful termination of the negotiations for peace, thus formally announcing to the body that the war is concluded.

Rejects Madero's Authority.

Tijuana, Lower California, May 23.—Gen. Rheys Pryce, in command of the insurrectos who captured Tijuana, says that he recognizes only the authority of the Los Angeles junta of the Mexican Liberal party, under whose direction the insurgent operations in Lower California have been conducted. He said he would be guided by the wishes of the junta as to whether hostilities should cease in Lower California with the signing of the peace agreement at Juarez. The Los Angeles junta has never acknowledged the authority of Madero.

Chinese Were Armed.

Eagle Pass, Tex., May 23.—The Chinese at Torreon, Mexico, were under arms when the rebel troops entered that city after a three-day battle, May 5 and fired the first bullets that culminated in a concentrated attack by the insurrecto soldiers and the practical extermination of the Chinese colony in that city, according to W. T. Lampe, editor of the Torreon Enterprise, who has arrived in Eagle Pass. No anti-American sentiment was manifested by the revolutionists, Lampe declares, and no foreigners other than Chinese were killed.

Dr. J. Lim, a Chinese physician, who is in charge of his country's affairs at Torreon, counted 240 bodies in the Chinese colony, Mr. Lampe states. Besides the Chinese, 26 rebels, 15 federals and 34 non-combatants were killed in the three-days' fighting that preceded the evacuation of the city by the federal troops.

City Was Besieged.

Torreon had been besieged for weeks, Lampe asserted. One command under Cisto Ugalde, occupied Gomez, a suburb. Other revolutionary forces were under the commands of Augustin Castro, Jose Ramiez and Orato Pherrera.

The first attack on the city was made May 13, Ugalde coming in from the east and Flores through Garche pass. Flores was killed while attempting to loosen a mountain rapid fire gun cemented in the mountain side which had been deserted by the federals. Late in the afternoon the federals raked the rebels with artillery and musketry fire and repulsed them for the moment. The insurrecto lines were quickly reformed, however, and the attack was continued throughout Saturday night, Sunday and Sunday night, Gen. Lujero, the federal commander, retreating with the troops early Monday morning. Neither citizens nor the attacking force were advised of Lujero's intentions, Mr. Lampe asserts, and he holds this mission as responsible for the havoc wrought by the insurgents Monday morning.

Orientals Opened Fire.

As the rebels came into the city a party of Chinese resisted the insurrecto advance at the Chinese gardens, and forty were killed. When the rebels came into the city, Chinese under arms were informed that their banks would be looted, and the Orientals opened fire. Meeting resistance at no other point, the invaders centered their fire on the Chinese, practically exterminating the colony.

Emilio Madero arrived Sunday evening and assumed personal command of the rebel troops. That Madero will respect the peace pact is accepted as certain. However, Lampe says a general exodus of Americans from the Torreon district has started.

FORM PLANS FOR EMPIRE

(Continued from page 1.)

nite proposal for the federation of the empire.

Anglo-American Entente.

The Anglo-American relationship is likely to be discussed in connection with the question of imperial defense, as also is the part which the Australian navies are to play in that defense, as Australia, since the visit of the American fleet to that continent three years ago, has come to regard America as a possible ally in the policing of the Pacific.

The fiscal question probably will take a back seat in the discussions in view of the determination of the Liberal government to keep the door bolted against anything of the nature of imperial preference.

The meetings of the conference are held in strict privacy, so the public will have to be satisfied with the meager, stereotyped, official fragments of the proceedings given out at the end of the day's work.

ATTACKS THE RECALL PLAN

(Continued from page 1.)

clared, in his attack upon the recall of judges feature of the Arizona Constitution.

"Trial By Tumult."

"The seasoned and staid traditions of impeachment are to be translated into a trial by tumult," said Mr. Littleton. "The orderly processes of regulated justice are to be converted into sporadic assaults born of hate and disappointment. The dignified minister of the established law, ennobled by the grandeur of his lofty station and disciplined by the pressure of sober responsibility, is to be degraded by the impending threat and distracted by the uncertainty of a precarious tenure. The misguided or malignant passions of an unimportant fragment of the community may recklessly accuse the most stainless judge, and, by groundless charge, put suspicion in the place of confidence and distrust in the place of faith."

Would Abuse Privilege.

"The lying litigant, baffled in an attempt to subsidize the court; the culpable confederate of the convicted criminal; the corporate bandit, finally condemned by the firm hand of an incorruptible court; the agrarian, always against the substance and symbols of order, the reformer, whose righteous zeal and unbalanced judgment make him at once the most attractive and most dangerous of men; the daring demagogue and the intriguing political boss" were mentioned by the speaker as among those who might be expected to exercise wrongfully the privilege of recall against just and fearless judges.

"We look in vain for precedents," continued Mr. Littleton, "for no people ever dared to write such an example into their history. We make a fruitless search for comparison, but the intelligent nations of the earth have only contrasts to offer. The example of patriotism and courage in the history of English-speaking people are those of the unterrified judge holding together the almost dismembered governments.

Tribute to Marshall.

"We turn with unaffected pride to our own John Marshall, without whose genius and oourage the history of our country might have been the chronicle of contending states."

Quoting from St. Luke, telling how Pilate, bending before the cries of the mob, permitted Christ to be taken away and crucified, the speaker concluded:

"God forbid that the sanctuaries of America shall ever be ravished by the sibilant his of a mob crying, 'Crucify him! Crucify him!'"

SHOT NEAR BIWABIK.

Biwaki, Minn., May 23.—(Special to The Herald.)—William Larson, living in a location near here, has been brought here for treatment for a gunshot wound in the breast he claims to have accidentally received while hunting and fishing.

HERESY TRIAL IN THE REFORMED CHURCH.

Canton, Ohio, May 23.—Charges of heresy preferred against Rev. Paul E. Eminger of Tillamook, Or., and a sharp discussion on the proposed merger of the Presbyterian church (North) and the Reformed church, were features of sessions today of the general synod of the Reformed church (German) in the United States. Rev. Eminger was alleged to have declared that the "word of God was contained in the Bible, but not everything that is in the Bible is the word of God." He is also said to have made the statement in a sermon that "the ten commandments were not written by Moses."

The charges are made in the minutes of the Portland, Or., classes, and they will be dealt with by the synod some day this week.

OPPOSE COLWELL FOR POSITION ON SENATORS.

Washington, May 23.—Because of his expressed opinion that the members of the legislature of Oregon were not obliged to vote for George E. Chamberlain for the United States senate, although they had been so instructed by the people of the state, Senators Chamberlain and Bourne of Oregon objected to the senate's confirmation of Elmer B. Colwell as United States marshal in Oregon. The nomination was registered.

Bulls Stampede at Louisville.

Louisville, Ky., May 23.—Twenty enraged bulls, just released from a river packet, caused a panic near the river yesterday afternoon, and in their repeated charges injured a negro so badly that he may die, and wounded two others. The lives of at least one hundred persons were enlangered by the animals during this stampede.

QUITS FEDERAL JOB TO BE HEAD OF BANK.

Pittsburg, Pa., May 23.—Oscar L. Telling, chief of the division of reports in the office of Comptroller of the Treasury Lawrence O. Murray, was elected president of the First National bank of this city by the board of directors yesterday. Mr. Telling was born in Cleveland and is a graduate of the University of Colorado. He has been in the office of the comptroller for four years. He will assume the new office in a few days.

"Dead" Man Wants Legacy.

Troy, N. Y., May 23.—After an absence of thirty-five years in California, Joseph M. Malone returned to his former home here yesterday to find that he had been declared legally dead. A large amount of property left by his parents has been divided among his heirs, as all efforts to locate him were futile. Malone will take legal steps to recover his share of the estate.

CHARGE MADE AGAINST FORMER ROUGH RIDER.

Boston, May 23.—United States Marshall Guy Murchie, a former Rough Rider and an appointee of Former President Roosevelt, has been formally charged in the United States court with violation of the law in practicing as a lawyer in the state and federal courts while holding his federal office. The complainant, William P. Manfield of Everett, names half a dozen cases in which Marshall Murchie has appeared as attorney, several of them being actions to which the United States government was a party. Mr. Murchie says he reserved the right to practice in the state courts when he accepted the position.

Bernhardt's Seat Sale Opens

Thursday morning at 10 o'clock.

Woman's Happiness

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an oily emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

Mother's Friend

WOMAN'S REALM.

Miss Lydia M. Thiele, the new dietecting nurse for Duluth Consistory, was formally installed into her position in the Masonic temple yesterday. She will occupy the room on the Second street entrance floor known as the secretary's office, and can be reached by the Masonic temple telephones during office hours, which will be announced later.

Miss Thiele came from Milwaukee and has had considerable experience in the work in which she is to engage. She is a graduate of Chicago hospital, Chicago, and speaks German and English. She has been supervising nurse in two sanitariums. She is thoroughly interested in her work and enters it here with a determination to make it a success, having the backing of the Masonic fraternity and an untouched field in the line which will eventually be specialized, that known as "infant welfare."

The officer of the consistory who will have sole charge of the work, in giving Miss Thiele the keys, emphasized the fact that although she was working for the Scottish Rite Masons of Duluth, she was to know no rite, nor color, creed, condition nor church; that in the formulating of her plans she was to consult wit hevery charitable body or institution and place herself at their service.

She will work in harmony with the Associated Charities.

Some little time will necessarily be consumed in investigating and becoming familiar with the situation, as each locality presents a special problem to be solved and no hastily decided scheme will be considered, but as soon as the plan has been thoroughly devised and digested the details will be given to the public generally, so that all may take advantage of it or assist in its carrying out.

MILITARY BALL.

Brilliant Social Affair at Spalding Hotel.

Full dress military uniforms, bright pretty gowns, brilliant lights and American flags combined to make the big military ball, given at the Spalding hotel last evening, one of the biggest social successes of the season. The ball was given by the officers of the National Guard of the city of Duluth, and it is to be an annual affair. Owing to the weather the attendance was not as large as it otherwise would have been, but about fifty couples danced to a delightful program played by the Third Regiment orchestra, a large number of the dances being military music.

The guests were received informally by the members of the reception committee composed of: Mayor and Mrs. M. B. Cullum, Maj. and Mrs. H. V. Eva, Lieut. and Mrs. S. S. Williamson, Mr. and Mrs. Bentley P. Nett, Mr. and Mrs. M. Bunnell, Col. and Mrs. F. E. Resche, Col. and Mrs. T. H. McGilvray, Mr. and Mrs. W. I. Prince.

Governor A. O. Eberhart and staff were unable to come on account of a speaking engagement at Detroit, but Adjt. Gen. Fred B. Wood of St. Paul and his staff, Col. J. U. Sebenius of Duluth, Maj. Gus Carlson of Duluth, Capt. Fahler and Capt. Carl C. Weaver of St. Paul, and Lieutenant C. Briand, U. S. A., were present.

Among the dancers were:

Lieut. Col. and Mrs. F. E. Resche, Maj. and Mrs. H. V. Eva, Capt. and Mrs. K. A. Franklin, Capt. and Mrs. G. W. Stiles, Capt. and Mrs. W. O. Flodin, Lieut. F. L. Chisholm, Lieut. R. M. Weaver, Lieut. and Mrs. F. E. Smith, Lieut. R. K. Lee, Lieut. R. A. Westberg, Lieut. and Mrs. A. C. Baumgartner, Lieut. and Mrs. A. W. Friegal of Superior, Lieut. S. P. Clemens of Superior, Miss Stewart of Superior, Mr. and Mrs. M. B. Cullum, Mr. and Mrs. W. I. Prince, Mr. and Mrs. A. E. McManus, Miss McManus, Mr. and Mrs. C. F. MacDonald, Mr. and Mrs. E. F. Burg, F. L. Ryan, Mr. and Mrs. J. H. Madden, Mr. and Mrs. E. S. Oakley, Mr. and Mrs. C. L. Rakowsky, Mr. and Mrs. D. L. Fairchild, Mr. and Mrs. J. R. Young, Mr. and Mrs. Otto Stein, Mr. and Mrs. Louis Koehler, Miss Nelson, Miss Larson, Miss Maloy, Mrs. M. E. Chisholm, Mr. and Mrs. C. H. Thornton, Miss Jeronimus, Mr. and Mrs. L. C. Harris, C. H. Brown, Fred Koehler and H. K. Wheaton.

The committee in charge of the affair was composed of Capt. W. O. Flodin, Capt. G. W. Stiles and Lieut. R. M. Weaver.

One of the May Brides of the New York Society Set

DOROTHY HAYDEN.

Dorothy Hayden, one of the most beautiful women in New York, is soon to be Mrs. Macy. She will be a May bride. Miss Hayden is a daughter of Dr. James R. Hayden of 121 West Fifty-fifth street, New York. She has been out two years and has been a popular member of the younger set of society.

"NO MEN WANTED."

Sketch to be Played by Y. W. C. A. Girls.

"No Men Wanted" will be played by some of the girls who live in the Young Women's Christian association. It is a little one act sketch with a cast which requires three girls. They are planning to give it on Wednesday evening, May 31, the night of the close of the membership campaign. The members of that association are carrying on this campaign for the purpose of raising money to pay the interest on the mortgage on the building which is due June 1.

The little sketch will be played for just the members of the association, no guests being invited to this affair.

Blossom Festival.

Saturday is the day set for the Apple Blossom festival, to be given in the apple orchard at the home of R. M. Hunter at Hunter's Park, for the benefit of the Young Woman's Christian association. The members of the Women's Guild of the Glen Avon Presbyterian church are arranging for the affair which they expect to make exceedingly attractive.

The hours set are from 3 to 8 o'clock and a number of entertaining features have been planned. An "archer trio" will be given by pupils from the Washburn school and a May-pole dance by some of the Y. W. C. A. girls will also be given.

The musical to be held Friday afternoon at the home of Mrs. C. A. Congdon, Thirty-second avenue east and London road, also for the benefit of the Y. W. C. A., promises to be very attractive. The members of the board of directors of the association who are members of the First Methodist Episcopal church have arranged this afternoon's affair. They are Mrs. A. C. Taylor, Mrs. J. A. Watterworth and Mrs. Watson S. Moore.

Baker-Pease.

Miss Ella-Marie Baker, daughter of Mr. and Mrs. Joseph A. Baker, No. 2 Munger Row, was married today at 5 o'clock at her home to Forrest Delbert Pease. The ceremony was performed by Rev. Father Lynch. Immediately after the ceremony Mr. and Mrs. Pease left for their future home in Glendive, Mont.

Club to Meet.

The regular meeting of the Irish-American Literary club will be held this evening in the Cathedral hall at 8:15 o'clock with Miss Lydon as leader. An interesting program will be given.

Recital for Teachers.

An organ recital containing numbers to be played by the Minneapolis Symphony orchestra will be given Saturday morning at the auditorium of the Masonic temple for the teachers of the city. The hour set is 10 o'clock. Explanatory remarks will be made previous to each number by Miss Clara Thomas, supervisor of music in the schools, and peculiarities of the music will be brought out.

W. R. C. to Meet.

The Woman's Relief corps will meet Thursday afternoon at Memorial hall at 2:30 o'clock. All members are urged to attend as arrangements for Memorial day will be made.

Luncheon at Club.

Mrs. D. L. Fairchild of 1432 East First street was hostess at luncheon today at the Commercial club, in compliment to her guest, Mrs. Richard A. Swain of Minneapolis. Pink roses made pretty appointments, and covers were laid for:

Mesdames—

E. F. Burg,	A. E. McManus,
H. J. Madden,	F. G. Bradbury,
W. A. Eaton,	Ned Smith,
L. S. Loeb,	Fairchild.
R. A. Swain,	

Miss Virginia Keating.

Mrs. Ned Smith will be hostess at an Orpheum party tomorrow evening for Mrs. Swain, and other affairs are being planned.

Children's Party.

Mrs. J. C. H. Engel of 2105 East Fifth street will entertain at a children's party Saturday afternoon for her little daughter Dorothea in celebration of her 11th birthday anniversary.

Church Meetings.

The Missionary Societies of the First Methodist Episcopal church will be entertained tomorrow afternoon at the home of Mrs. Isaac Moore, 124 Twenty-third avenue east. Miss Campbell of the Young Women's Christian association will speak on "Women's Work for Women." Any one interested in the program is very cordially invited to attend.

• • •

The Girls' Friendly Society of St. Paul's Episcopal church will meet Thursday evening at 7:30 o'clock in the guild room of the church.

• • •

The Women's Alliance of the Unitarian church will meet tomorrow afternoon at the home of Mrs. R. W. Daniels, 613 East Fifth street.

• • •

The Ladies' Aid Society of St. John's English Lutheran church will meet tomorrow afternoon with Mrs. Philip Bayha, 322 Fourth avenue west.

• • •

The Ladies' Aid Society of the First Baptist church will hold an all-day sewing session tomorrow in the church parlors.

• • •

The Forward Guild of the First Presbyterian church will meet Saturday afternoon at 3 o'clock with Miss Mabel McLean, 1228 East Third street. A full attendance is desired, as this will be the last meeting of the season.

• • •

The Ladies' Aid Society of the First Christian church will be entertained tomorrow afternoon at the home of Mrs. W. W. Coffey of 925 East Fifth street.

Personal Mention.

Mrs. L. C. Harris left Monday for a month's visit in Philadelphia and New York.

• • •

Miss Ethel Ruggles of Geneseo, Ill., is visiting her sisters, Mrs. H. McKenzie and Mrs. F. H. Hamm, of 4722 Pitt street, Lakeside.

• • •

Miss Julia A. Carter of 1432 London road has returned from an outing at Gordon, Wis.

• • •

Miss Lucille Albachten of 621 East First street returned yesterday from St. Paul, where she was the guest of Miss Ruth Growley for the past ten days.

• • •

Mrs. A. C. Albachten of 621 East First street left this morning for the Cass County state sanitarium, near Walker, Minn., where she will spend a few days with her son, Hubert Albachten.

• • •

Mrs. J. A. Mellin of 421 West Third street has returned from Minneapolis, where she was the guest of her sister.

• • •

E. Williams of 1709 West Second street has gone to Chicago to be present at the commencement exercises at the Armour Institute of Technology, from which his son, Guy E. Williams, graduates on May 25 from the electrical engineering course.

• • •

• • •

Rev. and Mrs. R. E. Sayles of the Berkshire apartments are in the East. Mrs. Sayles is visiting relatives in Toronto, Ont., and Rev. Mr. Sayles has gone to Boston to attend the annual International Baptist May meeting.

• • •

Miss Ella Stringer left Thursday for Detroit, Mich., to attend the funeral of her aunt, Miss Maria Stringer, a sister of the late D. J. Stringer.

• • •

Mrs. Mary L. Gorton and little daughters Helen and Grace of 1826 London road returned this morning from a two months' visit at Ackley, Iowa.

• • •

Miss Flo Flett has returned to her home, 422 Sixth avenue east, after spending a short time with friends at Chicago, Lake Minnetonka and Minneapolis, on her way home from Florida where she spent the winter.

• • •

Mrs. A. M. Hunter of 408 East Fifth street has gone to Hibbing, Minn., where she will visit her son.

Entertain for Bride.

Miss Hazel Dreier entertained at a supper last evening at her home, 106 South Fifteenth avenue east, in honor of Miss Ella Baker, who will become the bride of Forrest D. Pease this evening. The rooms were prettily decorated in ferns and sweet peas, and covers were laid for:

Misses—

Marjorie Wonderly,	Pauline Labod,
Sadie Boyce,	Helen Mee,
Leda Altenburg,	Elizabeth Sullivan,
Mabel Johnson,	Lillian Dyser,
Tess McDermid,	Sybil Burnside,
Margaret Sullivan,	Ella Baker,
Clara Mecalson,	Hazel Dreier.

Suffrage Will Carry Next Time, Says Miss McFadden

Bemidji, Minn., May 23.—(Special to The Herald.)—"Woman's suffrage is going to win in Minnesota. We lost our bill last winter by one vote, but we will pass it sure at the next session of the legislature."

This from Miss Mary McFadden of St. Paul, ardent supporter of woman's suffrage.

Miss McFadden came to Bemidji yesterday and will address the club women of the Ninth district, in session here, on the topic of "Woman's Suffrage."

"It did hurt the women of Minnesota," she continued, "to think that the senate should cast a reflection upon the intelligence of the men of Minnesota by refusing to permit them to vote merely on the question of a constitutional amendment permitting women to vote. But although we were disappointed, we bear no one any ill will and we are happy in the thought that we shall win next time. We made wonderful progress during the past two years; we lost in the senate by one vote and our bill would have certainly passed the house. We will lose no supporters during the coming two years and we will gain new ones.

"As to the meeting of the women's clubs in Bemidji, I am sure it will be a delightful event, as it could be held in no prettier town. Incidentally, it is significant that the club women are taking up the question of the franchise for women and that they are is shown by the fact that they have requested me to address them at this meeting."

THE EVENING STORY

THE DOCTOR'S VISIT

By Hamlin Garland.

Worn with his day's work behind the harrow, the boy lay buried in his bed, close to the garret eaves—deep sunk in slumber by the patter of the April rain upon the roof; but his mother's voice reached him, pierced him, roused him by reason of its poignant note of alarm—of desperation.

"Joe!" she called, and her voice grew shrill. "Joe, you must go for the doctor! Your father is very sick. Hurry! hurry!"

The lad sprang from his warm bed, reeling, dizzy with sleep, but calling as cheerily as he could: "I hear you mother! I'm coming."

"Be quick! Call Barbara, too."

Groping in the deep darkness, the boy found his clothing and dressed hurriedly, and with limbs still half asleep felt his way to the stairway, where a faint light shone. Pausing only for a word of warning to his sister, he stumbled down the steep and narrow stairs into the dimly lighted kitchen.

His mother met him with white, strained face. "Your father is suffering terribly. You must bring the doctor as quickly as possible."

He could hear the sufferer groan—even as he moved about the kitchen, putting on his outer garments. And then, lantern in hand, he hurried into the night, to pick his way through the rain and mud to the barn. It was dark and the wind was cold and raw. The thought of the seven long miles which stretched away into the midnight was appalling, but his heart rose to the task.

In the warm barn the horses stood in a row, chewing their hay in pleasant chorus. Dan and Dick, the big plow team, and Jennie and Peg, the brood mares, slow and quiet—these he passed without a word. Then came wild Frank and Kitty, his mate, the driving team, fleet Morgans, saddle-wise and intelligent as dogs. For a moment the lad hestated. Frank was the stronger, possessed of greater staying powers, but Kitty was the faster, the more trustworthy on such an errand in such a night. Her he chose for his adventure.

"Whoa, girl!" he cried, as he put the lantern on the oat box behind her. "You must work tonight!" Flinging the saddle blanket over her, he smoothed it carefully; there must be no wrinkles in it. The saddle he cinched tight, so tight the mare flinched. "I don't take any chances of a spill. You must let me draw the buckle up another hole, Kitty."

She took the bit willingly, always ready for action, and a few moments later the boy blew out the lantern and swung to the saddle, to which he clung as naturally as a sleeping jaybird to its perch. With a spattering rush Kitty passed the well curb and plunged out into the highway, the mud flying in showers.

"Steady there!" called the boy. "Steady, Kit!" and he drew in on the reins till he could feel the motion of her tongue against the bit.

He was fully awake now. The cold rain driving into his face caused his head to bow and his eyes to blur. The night was black, so black he could not even detect the gleam of water in the pools on each side of the turnpike; but Kitty felt her way till the boy's eyes expanded like those of a cat, and began to note each line of light, each shade of blackness in the mud.

At last he could see the road, running, a river of ink, between dim strips of grass. The boy's heart rose with a sort of pride in his heroic task. He was a courier riding to save an army.

"Get out o' this!" he called sharply, and the noble mare leaped away into the darkness like a wolf.

She knew her master, together they had herded the cattle on the praries, and in a hundred races she had proved herself the swiftest of all the leaders of the herds, even then carrying the handicap of the saddle and her rider. She snorted at every leap with a sort of challenge, as if to say, "My heart is strong, I am not afraid, 'tis only play for me!"

But the experienced lad drew her down to a steady swinging gallop and so the first mile slipped behind. Out of the darkness Norton's dog barked; this marked the second mile. From here the road ran diagonally across the prairie, a velvet black streak on the pale gray sod.

This mile was covered in less time than the first, for the footing was better. Here and there the swales were full of water, but Kitty dashed through them unhesitatingly, sending the icy water in broad sheets from beneath her pounding hoofs. Once she went down in a steep gully, and her rider, unseated, swung round to her neck, but instantly regained his place, and shouted: "Go on, Kitty!"

The fourth mile was in the mud, the fifth still worse, and the mare's proud head began to lower and her breath to labor. She snorted no more in exultation of her strength, but ran silently, and the boy, who knew her ways as well as he knew those of his little brother, realized that she was beginning to flag.

It hurt him to urge her on, but the memory of his mother's white, contorted face and the sound of his father's agonized groaning tortured his heart. With his lips set in determined line, he kept his spur to her side. The sixth mile was a turnpike, and better footing, the seventh mile fairly within the town limits. Ah, there was a gleam of light! Some one was awake, and the world was instantly less cheerless. There bloomed another! His heart bounded with joy as he drew rein where the red and green lamps of the drug store threw a jocund light upon the mud of the street. A doctor lived next door, and there, too, a dim light shone.

Slipping from his weary horse, and without waiting to tether her, he hurried up the short graveled walk and began to feel for the bell, which he remembered was at the right of the door. When his hand encountered it a thrill of relief ran through him. Once, twice, thrice he pulled—pulled hard and quick, then waited, listening while its imperative jingle died away. The door opened at last, and the doctor, a tall, impassive, blond bearded man in a night gown, stood before him.

"What is it, my boy?"

"I'm Joe Morgan, sir. My father is awfully sick; we want you to come quick! The doctor looked down at the pale, wild-eyed, water-soaked lad for a moment, then peered out into the dismal night. He was a soldier, a man of resolution, but he hesitated an instant.

The messenger turned and ran down the path in haste, to mount his shivering mare before the cold entered her blood and stiffened her limbs.

Her spirit was not broken. Snorting with joy, she whirled into the street before her rider was fairly in the saddle and set off for home with recovered courage.

His heart filled with anxiety. "I hope he'll come now," he said many times, and yet he could not have blamed him for waiting till morning. At last the lights of a carriage, rocking crazily, came to view, and, drawing Kitty to a walk, he listened.

"He's driving the clay banks!" he called aloud, and his admiration of this fierce and powerful span came to him. They were the doctor's pride, a pair of wild-eyed but untiring half-breed Morgans, a team he did not spare, a team that scorned to be petted or pitied, a team that would take care of itself on all kinds of road and under all kinds of weather—bony and sinewy.

They came rushing, their mouths foaming, their teeth set on the bit, the big doctor, calm, iron-handed, sitting in the swaying top of his light buggy, his feet against the dashboard, silent, watchful, master of his furious bronchos. The nigh horse was running, the off one pacing, and the pounding splash of their hoofs, the slash of the wheels, the roaring of their nostrils made the boy's hair rise.

As he drew aside to let them pass the doctor called out: "Take your time, my boy; take your time!" His anxiety was gone, he had done his duty; his father's fate rested now with the man of science and God.

It was good to meet his mother again; good to hear her say, with a tender smile: "Father is better; much better." It was good to share the delicious hot coffee which the doctor was sipping, and best of all to hear him say: "That was a brave ride, my boy. You deserve a soldier's commission. You saved your father and mother hours of pain."

Slowly, drowsily, the lad climbed the stairway, and in half a minute was far away from the howl of the wind and the slash of the rain—deep sunk in boyhood's dreamless sleep.

AMERICAN SNUBBED BY BRITISH QUEEN

MRS. ALVA WILLING ASTOR.

New York, May 23.—The cables are hot with the news that Mrs. Alva W. Astor, divorced wife of John Jacob Astor, has been snubbed by the queen of England, supposedly because of the extremity to which Mrs. Astor follows fashion. Nobody hobbles so hard as Mrs. Astor. In fact Mrs. Astor appeared at a London function a few days ago in a very diaphanous skirt of the harem pattern, which attracted much attention. Now Queen Mary is an old-fashioned woman, who cultivates thedomestic virtues. She dresses in the plain style of twenty-five years ago. But the plain people of England admire her simplicity greatly and the plain people, she believes, are the back-bone of England. The story from London is that shortly after the harem skirt incident, while Mrs. Astor, swathed in one of the tightest of the ultra-fashionable gowns, was driving through Hyde park, she passed the carriage of Queen Mary, who was dressed in a plain old-fashioned gown, and the queen failed to return Mrs. Astor's formal bow. The queen was declared against the hobble skirt and all other eccentricities of fashion. It is also known that she does not like Americans.

HEARINGS ON CONTRACTS

Property Owners Discuss Paving Jobs With City Council.

Grand Avenue Work Approved —Fifth Street Held Up.

The city council transacted a mass of routine business last night in a long session which was taken up with three different hearings.

Several property owners appeared to urge an immediate start on the paving of Grand avenue with vitrified brick, the contract for which was awarded yesterday morning by the board of public works to Contractor P. McDonnell. Some of the owners along the avenue wanted it laid over for a time but were unsuccessful. The contract for the graveling of East Fifth street between Fifteenth avenue east and Woodland avenue was postponed for one week. Several of the property owners appeared who wanted asphalt and it was to give them an opportunity to see the others on the street that the matter was laid over. The payment of the assessment for the work was extended to June 10 without penalty.

* * *

After a long debate the resolution calling upon the street car company to run double tracks on Twenty-first avenue west from Third street to Superior street was passed. The aldermen seemed to be satisfied that the change was in the greatest interest of the greatest number.

* * *

Following objections from representatives of Kris & Rose, Williamson & Mendenhall, the Kelly Hardware company and other Superior street business concerns, the council passed a resolution directing the city attorney to take no further action relative to removing obstructions from the sidewalk. City Attorney Bert Fesler announced that the business men need take no further steps to comply with the notices which had been sent out until advised further. George Angel, who was arrested last week for obstructing the street at First avenue west and Superior street, appeared to enter a protest, but the council did not grant him any relief. He was running a fruit stand while most of the others asked that they be allowed to continue the use of glass show cases which they have had on the sidewalks for years. A public hearing will be held on the matter of sidewalk obstructions at the council chambers of the city hall 3 o'clock next Monday afternoon.

* * *

City Attorney Bert Fesler submitted the form of an ordinance for causing the street car company to lay the dust between the tracks. It is probable that the company will pay its proportionate part of the cost of sprinkling in the sprinkling districts, and lay the dust between tracks elsewhere throughout the city with calcium chloride or some other dust laying preparation.

* * *

On the recommendation of Chief Randall of the fire department the council ordered the installation of a number of hydrants on the new water extensions which will be made this year by the water and light department. Two fire alarm boxes were also ordered installed in the hillside district between Lake avenue and Fourteenth avenue east.

* * *

The contract awarded to A. H. Melander yesterday by the board of public works for the papering of the city hall was approved. The price bid was $230.

* * *

The pavement of Second avenue east between Michigan and Fourth streets was again laid over. No action will be taken on the proposed job for three months.

* * *

The council authorized the expenditure of $100 to complete the repairs to the Morse street dock near the canal, and of $200 to improve the grounds about the contagious disease hospital near Fourteenth avenue west and Third street. The aerial bridge will be cleaned for the remainder of the year at a cost of $10 a month, $70 being allowed last night to do that work for the remainder of the year.

* * *

It was recommended to the conference committee that in fixing the levy for 1912 this fall, that $3,000 be allowed for the installation of additional stack room in the library. All the available shelving is now in use and more is needed. This was overlooked by the conference committee last fall.

* * *

The board of public works was ordered to proceed with the construction of a sanitary sewer in Sixty-third, Sixty-fourth and Sixty-fifth avenues west. Petitions were received for the grading and graveling of highland avenue through the Fifth and Sixth divisions of the city; the construction of a sanitary sewer in West Fifth street between Thirty-ninth and Forty-first avenues; the grading of East Ninth street between Seventh and Fourteenth avenues east; the construction of a sanitary sewer in Ninth alley between Ninth and Twelfth avenues, and to open an alley by condemnation between Fourth and Fifth streets between Eleventh and Thirteenth avenues west.

* * *

The council took over the ownership of the light standards of the Great White Way in all parts of the city. The property owners who paid for them stated that it would be easier for the city to handle them, particularly in cases where they are broken. The cost of maintaining them will be paid by the property owners as is done at the present time.

* * *

Notice of four damage claims of $250 each against the city were filed with the council. It is alleged that four basements near Twenty-fourth avenue east and Fifth street were damaged through the negligence of the city.

* * *

The mayor sent in a communication advising that the council committee on ordinances and resolutions investigate the wheelage tax so far as it relates to auto trucks and large horse-drawn vehicles. The truck owners claim that they are being discriminated against, alleging that their rigs do not do as much damage to the streets as the horse-drawn wagons, which have much narrower tires and carry heavy loads. He also suggested the building ordinance relative to fire escapes on dwellings be modified.

* * *

The city attorney was given the power to satisfy the judgment against the Duluth Universal Milling company for a fine levied for a violation of the wheelage tax ordinance. The tax was not paid because of a misunderstanding.

* * *

The Northern Pacific was directed to install safety gates on its crossing at Fifty-seventh, Fifty-ninth and Sixty-third avenues west. In case of failure to comply with the resolution the city attorney is directed to take the necessary legal steps to compel an observance of the council's directions.

* * *

The hearing on the lodging house ordinance brought out a fair-sized crowd, practically unanimously in favor of the passage of such an ordinance. The feeling was that many of the places in Duluth are in need of regulation, but that the ordinance should not be too drastic. The committee on ordinances and resolutions will revise the draft of the ordinance submitted by the health department and then call another public hearing for its consideration. W. R. McEwen, former state labor commissioner, urged that an ordinance be passed which would give workingmen a decent place in which to sleep and which at the same time would not work too great a hardship upon the proprietors of the lodging houses.

VOTE COSTS HIM CHURCH STANDING

Unitarians Condemn Senator Fletcher for Course Toward Lorimer.

Boston, Mass., May 23.—National politics, as voiced in the action of the United States senate on the Lorimer resolution, figured in the principal meeting yesterday of the anniversary week observance here by the Unitarians and affiliated societies. A resolution opposing the re-election of United States Senator Duncan U. Fletcher of Florida as vice president of the American Unitarian association because of his vote on the Lorimer case, received the indorsement of a number of members of the ministerial union.

An attempt was made to place the union, as a body, in opposition to Senator Flecher, but it was finally agreed to allow members to approve with their signatures as a personal expression the following resolution:

"Resolved, That in view of the public service attached to the name of Senator Duncan U. Fletcher of Florida, we do not regard him as eligible to the leadership in that form of christianity known as Unitarianism, and therefore protest against his nomination for vice president of the American Unitarian association."

The resolution will be laid before the annual meeting of the association on Wednesday.

RECONSTRUCTION OF LORDS BILL ADVANCED.

London, May 23.—Lord Lansdowne's bill for the reconstruction of the house of lords passed its second reading in that house yesterday without division, after War Secretary Haldane announced that the government would not divide against it. The secretary said that he welcomed the evidence the bill afforded that the conservatives were convinced of the need of reforming the house of lords, but the government held that the passage of the veto bill was essential before steps were taken in that direction.

The second reading of the veto bill will be moved in the house of lords today. It is generally believed the measure will be given its second reading.

HAITIENS KEEP UP OPPOSITION TO SIMON.

Cape Halten, Hayti, May 23.—The rebellion against the administration of Gen. Antoine Simon, the Halten president, continues in the department of the north. The minister of war, at the head of 2,000 men, is encamped at Ouanaminth. Rebels attacking in small groups, have occupied Port Liberte, Perchez, Valiere and Trou, though after seizing munitions of war and food supplies they withdrew. Communication with Port Liberte, Perchez, Trou and Vallere is temporary interrupted.

Cape Halten is quiet, but the people in the surrounding country are apprehensive of future trouble.

WILL TAKE CHANCE ON AMERICAN FEELINGS.

London, May 23.—The Canadian pageant committee has arranged to include in the festival of the empire the scene depicting the battle of Chatsauguay, the withdrawal of which has been much resented by the Canadians.

It was announced in April that the Canadian committee had decided to eliminate from the coronation program Canada's principal contribution to the pageant, entitled "Chatsauguay," where Canada was held for the empire, which was intended to represent the defeat, through strategy, of an invading American force in 1813 by a handful of Canadians. It was thought that the pageant might wound the susceptibilities of American visitors and cause a feeling which would endanger the conclusion of the proposed Anglo-American arbitration treaty.

Opposition to the withdrawal of the scene was strong in Canada and the matter was made the subject of discussion in the dominion house of parliament.

MORE TIME GRANTED TO CHICAGO PACKERS.

Chicago, May 23.—Judge George A. Carpenter, in the United States district court has granted an extension of time to attorneys for the indicted Chicago beef packers to file their briefs in the latest attempt to avoid the Sherman anti-trust statute. The extension was granted when Attorneys John S. Miller and Levi Mayer pleaded that the decision of the supreme court in the tobacco case Monday, May 29 might give new light on the packers' attack on the statute.

A GOOD REASON

Duluth People Can Tell You Why It Is So.

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache, headache and distressing kidney and urinary complaints. Duluth people testify to permanent cures.

William Bain, 1402 E. Fourth St., Duluth, Minn., says: "Two years ago I gave a public account of my experience with Doan's Kidney Pills. I can now say that I have had no need of a kidney medicine since. My kidneys were so badly disordered that I was miserable in every way. The kidney secretions passed too frequently and were discolored. I had backache and felt weak and tired. Doan's Kidney Pills quickly relieved me and the contents of two or three boxes made me well. I feel as though it were my duty to recommend this remedy when I can."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Even Pure Beer is Sensitive to Light

The direct rays of the sun on beer will start decay.

Dark glass gives protection against light.

Schlitz is sold in dark bottles, to protect its purity from the brewery to your glass.

We use the costliest materials. One of our partners selects the barley.

We go to Bohemia for hops.

Schlitz is aged for months before it is marketed, to prevent biliousness. It cannot ferment in your stomach.

We filter it through white wood pulp. Sterilize every bottle.

We spend more money to attain purity than on any other cost in our brewing.

If you knew what we know about beer, you would say, "Schlitz—Schlitz in Brown Bottles."

LUMBERMEN BLAME PRESS

Say Newspapers Are Responsible for Anti-Trust Activities.

"Code of Ethics" of Association Is Changed at Meeting.

St. Louis, Mo., May 23.—Charges that the press had persecuted the lumber trade for the last five years and that press and public are responsible for the investigation of the lumber interests by the department of justice, were made by several delegates to the Lumber Trades congress yesterday.

The discussion was over an effort made by E. F. Perry of New York, representing the National Wholesale Lumber Dealers' association, to have Article XVI stricken from the code of ethics which the committee formulated for the trade at large. While he failed in this, a mild substitute was carried.

"We don't all agree with the government," Mr. Perry declared. "We are not here to restrict trade, but some of the government officials seem to think we are, and I do not believe in inviting trouble."

The Lumber Code.

The sections of the code under fire are:

"It shall be the duty of the manufacturers and wholesalers to take an active interest in the marketing of their products through regular trade channels.

"It is the sense of the congress that the widest possible trade publicity be given, for the purpose of making known irresponsible, unethical and unscrupulous manufacturers, wholesalers and dealers."

A resolution was submitted by George F. Merrill of Salt Lake City, Utah, to take the place of the articles.

The new section reads:

"It should be recognized by lumber manufacturers and wholesalers that the retail distributors of lumber are a necessary factor in the trade and a useful servant of the public and as such should be recognized as the logical channel through which to market the products."

"Insulted" the Trade.

In the discussion before the vote, A. C. Garens of Homer, La., said the newspapers have "insulted and attacked" the lumber trade in the most vile manner during the last five years.

Strength Counts

in all life's affairs. Strength comes of pure blood;—good blood comes when stomach, liver, kidneys and bowels are kept in proper condition by a little care and

BEECHAM'S PILLS

Sold Everywhere. In boxes 10c. and 25c.

TOW THE MAINE OUT TO SEA AND SINK HER.

Washington, May 23.—Unless otherwise directed by congress, all that remains of the illfated battleship Maine, after it has been raised from Havana harbor and stripped of parts of value, will be towed out to sea and sunk in deep water.

The board of engineers engaged in raising the vessel so recommended in their report, which the war department has submitted to congress. Secretary Dickinson has approved the recommendation and says "action was taken accordingly and will be continued unless congress directs otherwise." The matter will be considered by the house military affairs committee.

GRANDFATHER CLAUSE IS DECLARED INVALID.

Oklahoma City, Okla., May 23.—Holding the "grandfather clause" amendment to the state constitution invalid because it is in violation of the fifteenth amendment to the federal Constitution, Judge John H. Cotteral of the United States district court has overruled the demurrer of defendants in the case of the United States versus J. J. Beal and Frank Guinn, D. W. Jeffreys and Willard Smith, election officers. The power to grant the right to vote, the court held, was not given to the federal government, but the fifteenth amendment says that the right to vote shall not be denied any person because of "race, color or previous condition of servitude."

To make the subjection of certain individuals to the "educational test" dependent on their condition before 1866, would make it dependent on their race and color, the court held.

The grandfather clause exempts from the "educational test" those whose ancestors were entitled to vote on Jan. 1, 1866, or residents of a foreign country. Under this clause negroes were denied the right to vote.

Foley Kidney Pills take hold of your system and help you to rid yourself of your dragging backache, dull headache, nervousness, impaired eyesight, and of all the ills resulting from the impaired action of your kidneys and bladder. Remember it is Foley Kidney Pills that do this. For sale by all druggists.

CAVALRY OFFICER IS GIVEN SECRET TRIAL.

Leavenworth, Kan., May 23.—Lieut. E. S. Hand of the Fifteenth cavalry was tried by courtmartial at Fort Leavenworth last Saturday on charges of conduct unbecoming an officer brought by Maj. Michael Lenihan, commandant of the post. It had been planned to try Lieut. Hand yesterday, but for some reason the trial was hastened and held secretly. The findings have been sent to Washington.

WHAT CURES ECZEMA?

We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know that it gives instant relief to that torturing itch.

Because—D. D. D. starts the cure at the foundation of the trouble.

Because—It cleanses, soothes and heals the skin, clearing away pimples an blothches over night.

Because—It enables Nature to repair the ravages of disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is today recognized as the absolutely reliable Eczema Cure.

Drop into our store today, just to talk over the merits of this wonderful Prescription. We will also explain the value of D. D. D. as a household remedy.

Wm. A. Abbett, 205 West Superior street, 932 East Second street and 101 West Fourth street.

NEWS OF THE NORTHWEST

ANNUAL MEET AT THOMPSON

Grand Forks County W. C. T. U. in Session on June 1 and 2.

Various Subjects Pertaining to Liquor Traffic to Be Considered.

Grand Forks, N. D., May 23.—(Special to The Herald.)—Next week at Thompson, Grand Forks county, the annual meeting of the Grand Forks and Nelson county W. C. T. U. conventions will be held, the dates being June 1 and 2. There are a number of interesting papers for the two days, the program being as follows:

Thursday, June 1: Morning—Reports of standing committees: report of the W. C. T. U. work in Kansas. Afternoon—"Recent Legislation," Mrs. J. E. Stevens; "Public Health and Heredity," Mrs. Isabella Morey; "Medical Temperance," Mrs. George Black; "Heredity," Rev. Horace Hastings; "The White Plague," Dr. W. S. Callestrom: question box, Dr. J. C. Smith. Evening—Address, Mrs. Sena Hartzell Wallace, superintendent of the suffrage department of the W. C. T. U. of Kansas.

Friday, June 2: Morning—"Scientific Temperance Instruction," Mrs. Eva Loomis; "Plans for Essay Contest Work," Mrs. D. Hill: "The Young People's Branch," Mrs. Anna McClinch. Afternoon—Discussion of the association newspaper work; "What Constitutes a Successful Local Meeting Program," Mrs. Bell Clauson; "The Protection of Our Girls," Mrs. Florence Palmer.

BROUGHT BACK TO MINNESOTA

Albert Livingstone, After Doing Time in Michigan, Returned to St. Cloud.

Marquette, Mich., May 23.—(Special to The Herald.)—Albert Livingstone, whose time expired at the Marquette prison Sunday, enjoyed very brief liberty, as he was met at the prison by Principal Keeper F. H. Whitney and Officer Robertson of the Minnesota state reformatory at St. Cloud, from which institution he has twice escaped. After Livingstone escaped from the Minnesota prison the first time, he was found in the Ionia, Mich., prison, from where he was taken back at the expiration of his term. He again escaped and was sentenced to the Jackson prison for fifteen years for burglary. In 1902 he was transferred to Marquette, where he was located by the Minnesota officials. Livingstone still has about four years to serve at the St. Cloud prison.

NORTH DAKOTA MAY HAVE FEDERATION

Union Men of State May Be Authorized to Form State Organization.

Fargo. N. D., May 23.—(Special to The Herald.)—The North Dakota State Federation of Labor may be established if a movement started by union men in this state and having the approval of Samuel Gompers, president of the American Federation of Labor, is adopted at the next general meeting of the American Federation. There will be fifty unions in the proposed organization.

North Dakota is now allied with the Minnesota State Federation of Labor, but seeks to form a separate federation. According to a statement given out by a prominent union labor official today, the object of the formation of the new federation is "to promote legislation helpful and stimulating to the cause of union labor in North Dakota and to effect a better enforcement of the existing labor laws."

My Kidneys Are Killing Me!

Martyrs to Kidney and Bladder Trouble Try This Remarkable New Treatment, Free.

Dr. Derby Kidney Pills—25 and 50 cents at drug stores or we will supply you if your druggist hasn't them. Address Derby Medicine Co., Eaton Rapids, Mich.

CAN SETTLE FINE BY INSTALLMENTS

Convicted North Dakotan Given New Method of Paying His Fine.

Cooperstown, N. D., May 23.—The question of whether Martin Nelson, a blacksmith, had allowed drinking of liquor in his place of business hung a Griggs county jury nineteen hours—and then the jury gave in, the problem being too big. The twelve men, being unable to come to an agreement on the proposition, were discharged.

With Carl Brund, found guilty of a criminal offense, a new method of paying fines has been established, the installment plan. Brund was fined $300 and was given the option of paying such fine on the "dollar down and dollar a week plan," except that it was a case of planking down $100 with the remaining $200 to be paid in equal installments of $100. As yet, Brund hasn't been able to pay the first installment, and he languishes in jail.

IRONWOOD CONCERT.

Eagle Mandolin Club Will Entertain Tuesday Evening.

Ironwood, Mich., May 23.—(Special to The Herald.)—The Eagle Mandolin club will give a concert at the Swedish Mission church this evening. Following is the program: March, "New Era," Boehm; march, "Midsummer Night's Dream," Eagle Mandolin club; song, "Larboard Watch," Hematite Glee club; piano solo, Miss Agnes Fredrickson; madola and mando-cello duet, Messrs. Anderson and Hagstrom; mandolin solo, C. H. Flink; "Chimes of Normandy," club; vocal duet, Misses Johnson and Larson; banjo solo, S. W. Fredrickson; reading, Melven Kronlund; "The Lost Chord," Eagle Plectrum quartet; piano solo, Miss Alice Worum; mando-cello solo, H. E. Hagstrom; idyl, "Evening Chimes," club; song, "Love's Old Sweet Song," Hematite Glee club; patrol, "U. S. A." and medley, club. This is composed entirely of local talent and a full house is assured.

Last Sunday fifty-five children received their first communion at St. Ambrose church at 8:30 a. m., and on next Saturday, May 27, a class of 160 children will receive their first communion at 8 a. m.

PAROCHIAL SCHOOL GROWS.

Brainerd Educational Institution Now Has Over 200 Pupils.

Brainerd, Minn., May 23.—(Special to The Herald.)—The parochial school of St. Francis Catholic church now numbers 200 pupils. There are eight teachers, including the teacher of music. Graduation exercises will be held on June 5 and the exercises will be held in the Knights of Columbus hall in their new quarters in the Iron Exchange building. This will be the second class graduating from the parochial school which is fast achieving a reputation for thorough instruction, especially in domestic science as evidenced by the display of fancy work and articles made by the pupils and now on exhibition at the schoolrooms. The parish, church and school have made wonderful progress under the guidance of the pastor, Rev. Father O'Mahoney.

MAYOR IS TAKING COURSE.

Jamestown, N. D., Official and Others Studying in College.

Jamestown, N. D., May 23.—An experiment which is said to be the first successful attempt in North Dakota "to take a college course to the people," has just come to an end in this city, in the economics class conducted for the benefit of the local citizens by Dean J. C. Taylor of Jamestown college.

This class was started early in the middle of winter, and has just completed a course of two evenings each week for three months.

It was purely co-operative plan, the city furnishing a place to meet in the city hall, Dean Taylor donating his services, and at the end of the course the class had accumulated a good-sized collection of books on economics, which were donated to the library as the nucleus of a new department.

Among those who were enrolled as members were the mayor and several attorneys and business men.

Plans are already on foot for a similar course next year on a much larger scale.

SUPERIOR MAN KILLED.

H. J. Finney, Labor Organizer, Has Fatal Fall at Huron.

Huron, S. D., May 23.—H. J. Finney fell from the Windsor hotel steps here Sunday night, and received injuries from which his death soon resulted. He was 38 and single, and came here a few weeks ago from Minot as a union labor organizer for North and South Dakota. His parents reside at Superior, Wis.

BUTTE'S MAYOR GOING AFTER WINE ROOMS.

Butte, Mont., May 23. — Socialist Mayor Lewis J. Duncan announced Saturday that he proposed to revoke the licenses of all saloons the first time it is known that women are permitted to frequent the winerooms and to make good his threat revcked the licenses of two saloons in the lower part of town. Saturday night there was a frenzied determination on the part of saloons to obey every wish of the new mayor, and the flourishing wineroom business in Butte for the first time in the city's history has shut down.

ICELANDIC CHURCH FIGHT IS RENEWED IN COURTS.

Grand Forks, N. D., May 23.—(Special to The Herald.)—In an effort to secure another hearing in the case involving the right of the so-called liberal element of the Icelandic Lutheran church to retain possession of the Thingwalle church in Pembina county, evidence on the points involved is being submitted to Judge Templeton of the district court. The proposition rests on the question of whether a certain portion of the church's constitution remains effective, this portion providing that the church shall be retained by that faction observing the doctrines of the denomination. The conservative element, making the fight for re-hearing, contend that under this rule they are entitled to possession, the liberals having departed from the doctrine laid down by the Icelandic conference.

NORWEGIAN CONFERENCE.

Northern Michigan and Wisconsin Churchmen at Calumet.

Calumet, Mich., May 23.—(Special to The Herald.)—The annual spring conference of the Norwegian Lutheran church for Northern Wisconsin and Northern Michigan is in session here.

The Wisconsin ministers here are: Rev. C. N. Vogt, Neenah; Rev. R. Hanson, Elderon; Rev. H. A. B. Winter, Peshtigo. The Michigan ministers here are: Rev. E. Berntsang, Escanaba and Rev. N. L. Hoagland of Ironwood.

GIANT MUSKRAT IS CAPTURED IN BRAINERD.

Brainerd, Minn., May 23.—(Special to The Herald.)—Fred Anderson, janitor of the Citizens State bank, captured a musk rat back of the boilers of the Michael company's store. The rat was taken to a liquor company store and placed on display but the festive animal made some of the patrons and visitors nervous and he was adopted by a clothing store and a close watch is being kept on him.

DEVILS LAKE TO HAVE DAILY SOCIALIST PAPER.

Devils Lake, N. D., May 23.—(Special to The Herald.)—North Dakota Socialists propose to establish a daily newspaper and it is announced that plans have already been formulated to the extent that Devils Lake has been definitely decided upon as the location for such paper, and that it will be published as a morning paper commencing within a very short time.

NORTH DAKOTA PRESS GANG TO HAVE FUN.

Devils Lake, N. D., May 23.—(Special to The Herald.)—The second day of the annual meeting of the North Dakota Press association, to be held in Devils Lake June 23 and 24, will be given over to frolic, that arrangement being determined upon at a meeting of the association officers held in Grand Forks this week. The Devils Lake press gang and the Devils Lake Commercial club will be in charge of the entertainment features, and already an excursion to Fort Totten, a picnic at the Chautauqua grounds, a baseball game and a program of sports, together with several other features, have been determined upon.

IOWA AUTOMOBILIST CAUSES BAD RUNAWAY.

Linton, N. D., May 23.—(Special to The Herald.)—C. Tibbetts of Mason City, Iowa, found himself in no small amount of trouble when an automobile that he was driving from his home to Morton county, N. D., caused a runaway accident near here in which Mrs. Adam Bosch received a broken shoulder bone while her husband was seriously bruised. Tibbetts was placed under arrest, but was enabled to gain his freedom after an informal examination by a local justice, it being determined that there had been no negligence in the matter.

BEMIDJI MAN GETS SECRET SERVICE JOB.

Bemidji, Minn., May 23.—(Special to The Herald.)—Adam E. Otto, who has been assistant postmaster here, has been appointed to the secret service work as a postoffice inspector, and left for Chicago, where he will be stationed. Mr. Otto has for several years been captain of Company K of the Minnesota National Guard, and before leaving for Chicago he relinquished the command of the company to First Lieut. Hillaby.

CHARGES ARSON.

Williston, N. D., May 23.—(Special to The Herald.)—Alleging that Ole T. Foss set fire to his barn, E. F. Anderson of Cottonwood Lake has brought suit against Anderson for $12,000 damages.

Proposed for Highway Engineer.

Bemidji, Minn., May 23.—(Special to The Herald.)—Ray W. Cook, a civil engineer, for several months engaged in the engineering business here, is being proposed by his friends for appointment to the newly-created position of highway engineer for this district, which is made up of Clearwater and beltrami counties. Mr. Cook's father was professor of mathematics in the University of Michigan, and afterwards engineer of Grand Rapids, Mich.

Ironwood Beats Hurley.

Ironwood, Mich., May 23.—(Special to The Herald.)—The Ironwood city baseball team played the Hurley nine on their grounds Sunday in the first of a series of games to be played between Ironwood and Hurley. Ironwood won 11 to 0. The Ironwood boys had as batteries Osterbolt and Richards; Hurley had Lauders as pitcher and Greene the catcher. Ironwood got eleven hits from Lauders, while Hurley got only one hit from Osterbolt.

Minot's New Pythian Home.

Minot, N. D., May 23.—(Special to The Herald.)—The cornerstone of the new Pythian home here is to be laid June 6 with appropriate ceremonies, occasion being made a great feature by the Minot Knights of Pythias. An invitation has been extended the grand lodge officers, and it is probable most of them will be on hand to help start the new home off right.

Accused Husband Not Insane.

McClusky, N. D., May 23.—(Special to The Herald.)—When Jacob Beck, arrested upon the complaint of his wife and arraigned before the county board of insanity commissioners, admitted having made threats that he would kill his wife and then turn the gun on himself, at the same time declaring that he did not really mean what he said, the board determined that he was not as crazy as his wife had supposed him to be and ordered his release, pronouncing him sane.

SOCIETY APPROVES POPULAR SHAMPOO

"Few of us realize how many prominent society women wash their own hair," says Mae Martyn in the New York American. "This home shampooing is not a fad but is due to the splendid results obtained by the use of a popular, quick-drying shampoo made by dissolving a teaspoonful of canthrox in a cup of hot water.

"This simple shampoo lathers freely and cleanses perfectly, being equally good for all shades of hair. It rinses easily and leaves the scalp refreshed and the hair lustrous, soft and very fluffy. Dandruff and scalp irritation disappear immediately.

"The fact that the alkili in soap shampoos has been found to cause streaky, thin, dull hair may be one of the reasons why society women have taken so favorably to this splendid shampoo in order not only to save, but beautify their hair."

MANY STUDENTS SICK.

Considerable Diptheria Reported at University of Minnesota.

Minneapolis, Minn., May 23. — Diphtheria is epidemic on the university campus, twenty cases in three fraternity houses, one sorority and an isolated case have been reported. All were quarantined yesterday afternoon.

Three coeds in the Alpha Gamma Delta sorority were removed to the St. Paul hospital. Nine cases have broken out in Beta Theta Pi fraternity, 1620 University avenue southeast, Minneapolis; four in Alpha Kappa Phi, 1214 Fourth street southeast, and there are two cases in Xi Psi Phi, 1116 Fourth street southeast. University health officials have conferred with Prexy Vincent.

"I can see no necessity of closing the university," said President Vincent. "Of course, if the disease assumes the proportions of an epidemic we may have to resort to that measure."

It is thought that the contagion arises from the milk supply. The houses infected receive that commodity from the same concern.

Stambaugh Merchants Help Town.

Stambaugh, Mich., May 23.—(Special to The Herald.)—Owing to a shortage of city funds, occasioned by extensive improvements to the waterworks system, the business men of the city will carry municipal orders up to the sum of $4,000 for a period of five years at 6 per cent.

MINNESOTA BRIEFS

Little Falls—Andrew Tillman, a farmer, had his left arm broken between the wrist and elbow Friday. He was holding his horse while Dr. E. E. Hall was filling the animal's teeth. The horse sided over to the wall and caught his arm in such a manner as to snap the bone.

Deer River — Jim Spanos, a Greek, who left town recently owing C. F. Tellin an account of $48.00, was caught at Cando and brought here by Deputy Sheriff Gunderson. The prisoner pleaded guilty before Justice Ruby and paid the bill and costs, amounting to $76.80.

Stillwater—Everett Judkins, indicted on an allegation of murder will not be tried at the present term of the district court. The case has been continued over the term on motion of County Attorney J. C. Nethaway. This course was pursued on account of the inability to secure the attendance of Mrs. Alice Haney, wife of James Haney, who was killed and the daughter of Mr. Judkins.

Bemidji—The millions of feet of logs, property of the Crookston Lumber company, which have been laying along the city lake front, since the wind storm of last week, have been so far removed that landings can be made on this side of the lake.

St. Hilaire — Mr. Sandvick, aged 73, walked in from his farm in Polk county, twenty-one miles northwest of here, last Wednesday and went out to the cemetery to fix his wife's grave. He also walked home the same way.

Sauk Rapids—The general store of A. Cater here with an almost total loss of its stock and building, burned to the ground early Saturday night, as a result of a bolt of lightning during the electrical storm. The stock, amounting to $7,000, and the building, valued at $3,000, were a total loss, partly covered by insurance.

Glenwood—The Glenwood fish hatchery during the last week has sent out 16,500 pike fry to the different parts of the state. J. A. Pinkerton has been very successful in procuring results at the hatchery.

Crookston—Thomas Shevlin of Minneapolis, lost a thousand dollar pearl Friday morning in the Pullman car of train No. 5, on which he was en route from Minneapolis to Crookston, later going to Bemidji. A search was made as soon as the loss was discovered and the gem was found by the porter and returned to its owner.

St. Cloud—About a year or more ago, Daniel Orcutt was killed while at work in the J. Nells Lumber company's mill at Sauk Rapids. Later his widow, Sarah L. Orcutt, brought suit in the district court against the company for $5,000. A verdict for $2,500 was rendered. The company appealed to the supreme court, which tribunal on Friday handed down a decision affirming the judgment of the lower court.

WISCONSIN BRIEFS

Grand Rapids — While William Cole, game warden, was endeavoring to arrest some men here on Sunday with fishing nets, on the charge of violating the law, two other men came along and interfered. During a scuffle the first followed a revolver in the hands of Cole was discharged, seriously injuring William Haun, one of the party. He will recover.

Watertown—William Buchheit, capitalist and banker, died Sunday after a brief sickness. He came to Watertown from Bavaria in 1852 and engaged in the commission business, latter organizing the William Buchheit Malting company, which was absorbed by the American company. He had been president of the Bank of Watertown since 1884, and was one of the most widely known business men in Wisconsin.

Racine — Richard Callendar, pioneer settler, soldier of the Civil war and connected with the Times Printing company of this city for thirty years, was found dead in bed at his home here. He had been ill for a number of years. He was born in Ireland, was 79 years of age and came to this country in 1848. A wife and three children survive.

Milwaukee—John H. Behling, aged 57 years, committed suicide by shooting himself in the right temple in his saloon which he had conducted eighteen years. Behling had not been in good health recently and the suicide is supposed to have been because of despondency. He leaves a wife who at once telephoned to the police.

Ashland—Fred Erickson arrived home Saturady afternoon from Milwaukee, in his new $2,500 Mitchell automobile. He left Milwaukee Thursday morning at 8 o'cock and struck fairly good roads as far up as Abbotsford.

Fond du Lac—"The Lineage From Apostolic Times of the American Church, Commonly called the Episcopal Church" is the title of a new book by the Right Rev. C. C. Grafton, S. T. D. The book is dedicated to the Right Rev. Daniel Sylvester Tuttle, D D., presiding bishop of the church.

Madison—T. C. McCarthy of Madison was awarded the contract to do the brick work on the superstructure of the central portion of the new statehouse by the capital commission, the price being about $110,000.

PENINSULA BRIEFS

Calumet—Charles Okala was seized by a fit of insanity in his rooms over the Paulson saloon on Fifth street and was removed to Houghton, where an inquest will determine his condition. While not violent, Okala is said to have spent the night in senseless muttering and gibbering. He is 32 years old, unmarried.

Houghton—Capt. Martin M. Foley, village superintendent of public works and captain of the Houghton Light Infantry, fell from a ladder in the armory and sustained a bad fracture of his left leg above the knee. Capt. Foley lay on the floor of the armory for two hours before he was discovered.

Houghton—Mayor W. H. Dodge is highly incensed at the action of the city council, during the mayor's absence, last Wednesday evening in appropriating $150 to Miss Ingram, deputy city treasurer, after he had ruled the motion out of order earlier in the evening. The mayor regards the action as one of great impropriety and does not mince words in so saying.

Hancock—Alfredo Lazzari and Angeline Montocello of Franklin were married at St. Joseph's church by Rev. Father Glazer, pastor of that church. The couple were attended by Guinlo Zucci and Anita Ballasarl also of Franklin. The young people will reside at Franklin.

Calumet—Alex Gillette, aged 72, died Saturday afternoon of old age. Mr. Gillette was born in France. He resided in Calumet many years and was employed by the Calumet & Hecla Mining company as a machinist. The funeral took place Monday afternoon at 2 o'clock from Christ's Episcopal church, Rev. J. A. Ten Broeck officiating.

Lake Linden—The funeral of the late Mrs. Virginia Belaire was held Saturday morning. Services were held in the St. Joseph church at 9 o'clock, a large number of the friends filling the house of worship. Rev. N. J. Raymond officiated. The remains were interred in Mount Calvary cemetery.

Negaunee—William R. Argall and Mark and William Dixon, well known Negaunee men, left Friday night for their old home in England, where they will spend the next three or four months. They will sail from New York on the 24th, on the steamer Mauretania, bound for Liverpool.

Ishpeming—Frank Walter Hicks, superintendent of the public schools in Ames, Ia., and A. B. Noble, a professor in the Iowa Agricultural college at Ames, visited the high schools in Ishpeming and Negaunee Saturday. Friday they visited the new high school building at Escanaba. They left here Saturday evening for points in Illinois and Iowa.

Marquette—Alfred Betts, a telegraph operator employed by the Soo line at Hermansville, narrowly escaped death from an electrical shock during a thunder shower last week. He was at work at the key when a vicious stroke of lightning was carried into the office over the wires. He was thrown from his chair and rendered unconscious for some time.

Iron Mountain—Iron Mountain's proposed $100,000 high school structure is to be erected on the property now occupied by the Central school. It is one block in extent and it bounded on the east by Prospect avenue, on the north by West A street, on the west by Kimberly avenue and on the south by West B street. The location is an ideal one from every standpoint.

Ishpeming—Will Walters, second son of Captain Thomas Walters, who has had charge of the Jones & Laughlin company's diamond drilling operations on the Marquette and Menominee ranges for some time past, is to have charge of a new mine that the corporation is to open on Section 14, north of Iron river, on the Menominee range. It is said that the company has located a deposit of ore on the tract at a point about 135 feet from surface.

DAKOTA BRIEFS

Grand Forks, N. D.—Vincent O'Brien has left for Glasgow, Mont., to resume his work with the government survey, with which department he has been connecte d the past four years. Mr. O'Brien was called home in January by the death of his brother.

Bismarck, N. D.—The North Dakota National Guard will not go to Winnipeg as a part of its annual encampment this year. This decision was made after a conference between the governor, the adjutant general and Col. Fraine, commander of the infantry regiment at the state capitol. The troops will go to Rock Island military reservation at Devils Lake this year for an encampment of ten days, being in camp from July 6 to July 16.

Aberdeen, S. D.—The grand lodge of the Ancient Order of United Workmen and its auxiliary, the Degree of Honor, will be held in Deadwood on Tuesday.

Minot, N. D.—There is a chance that Police Commissioner L. D. McGahan may resign his possition as commissioner so that he may run for the president of the commission. McGahan is the oldest head on the commission.

Drayton, N. D.—The "walking" dredge has started work on the big ditch east of the city. It is lighted with electric lights and is a sight worth seeing. The power for running the machinery is furnished by a sixty horse power gasoline engine. The dirt is taken out by a large dipper and this dipper pulls out stumps and roots.

Hillsboro, N. D.—Former Governor E. Y. Sarles and R. T. Kingman of Hillsboro, who have been in Washington, D. C., as members of the North Dakota delegation opposing the Canadian reciprocity pact, have arrived home. Both are optimistic as to the results that will come from the remonstrance that is being made upon the part of the farmers.

Grand Forks, N. D.—Superintendent P. S. Berg of Dickinson was unanimously recommended for appointment on the high school board under the new law providing at least one member shall be a city school superintendent. Recommendation was made by the high school conference.

Medora, N. D.—The mail stage came near going down the Little Missouri near Medora the day after the big rain. The driver and passengers had to swim. Hall accompanied the rain out there but did little damage.

Bismarck, N. D.—The state convention of the Catholic order of foresters will be held at the capital city tuesday, June 13, and promises to be one of the most successful events ever held by the state organization. The committees which were appointed from the local lodge are all working faithfully and are determined that the many delegates who will be in attendance from all parts of the state will have a good time.

J. PLUVIUS INTERFERES

Wet Weather Causes Postponement of Opening Game With Red Wing.

Forfeited Game Claimed From Sox at Winona—Raw Stuff Showing.

Rain called off the festivities scheduled for today. With the present weather it cannot be stated with any degree of certainty when the game will be played. The grounds are in such shape at the present time that it will take a day of sunshine to dry them out.

The Red Wing team is in the city and looks fairly formidable. Swanson and Malloy are missing, but the players stated today that in all around strength the aggregation is superior to the collection of players Mique Malloy had under his wing.

Today the players of the two teams will engage in a fanning bee. The dampness and general air of forlorn forsakedness, however, has hung a damper on all concerned, including the pop man, and if someone isn't real careful, including Jawn Desmond, something naughty may be uttered.

This afternoon a delegation will pay a visit to the weather man. Argument and entreaties will be used at first. If this diplomatic means is without effect, it has been stated that another delegation with a rope, will hold stern conversation.

Mix-up At Winona.

At a late hour yesterday afternoon it was stated that the Sox had been ordered to stay over in Winona Monday and play off the game that rain prevented Friday. The statement that The contest had been forfeited to the Pirates is a surprise to O'Brien, according to his statement, and if the version of the Orator is correct, some explanation is forthcoming from the president of the league.

The kind of weather we are having at the present time has put a chill on the entire league. All over the Northwest the weather is of the pessimistic brand. With the league season only a few days old there are already three games for the Sox to play off—that is, if the game they have forfeited against the O'Brienites doesn't go through to the credit of Winona.

It might be stated right here, while it is nasty and drizzly and we are all feeling mean, that they have been pulling off some pretty high-handed stuff at Winona. For two years they have been trying to win a pennant down there, and at times they haven't shown very good sportmanship in the means they have employed to win games.

John Elliott stood for a lot of raw stuff being pulled for the simple reason that he was from La Crosse and was afraid that he would be accused of showing favoritism, in the event he showed a firm hand. Mobbing umpires and getting away with small stuff has been pulled rather too often in the city on the Father of Waters. They are the greatest home umpire crowd in the world, and if Darby O'Brien's version of the affair at Winona is correct, they are starting some of the old stuff the present season.

ENGLISH POLO CHAMPIONS LOSE TO AMERICAN SECOND TEAM

—Copyrighted by George Grantham Bain.
CAPT. H. LLOYD.

CAPT. LESLIE ST. C. CHEAPE.

Westbury, L. I., May 23.—America's second best polo team defeated the English challengers on the Meadow Brook club's field yesterday by a score of 11½ goals to 1¼. The victory came to the amazement and delight of the American polo set and some 300 society folk who witnessed the contest.

The Americans made 13 goals and the British army officers only 2. Two fouls for which the victors were charged one-half a point each, and two safeties one-quarter of a point each, reduced the Americans' score from 13 to 11½. One foul and one safety against the foreigners reduced their score to 1¼.

The "next best four" of the United States comprised Louis Stoddard as No. 1, Reno La Montagne as No. 2, Foxhall Keene as No. 3, and Malcom Stevens as back.

For the visitors the only excuse offered by their friends is that they did not use ten of their best ponies. Capt. Barrett's work in the back field was also criticized and it was said he would probably not play in the cup series.

Capt. Cheape, who scored both goals, and Capt. Lloyd played the best polo for their team yesterday. The pace seemed to be too fast for Lieut. Edwards and Capt. Barrett.

Alexander and Moran. Umpires—Eason and Johnson.

ADAMS IS HIT HARD AND GIANTS WIN.

New York, May 23.—New York made it three out of four from Pittsburg yesterday by hitting Adams freely, 6 to 1. Raymond, for the locals, was effective all the way. Murray made a single, two doubles and a triple. Score:

	R.	H.	E.
Pittsburg	1	6	1
New York	6	8	0

Batteries—Perrine and Adams and Gibson; Raymond and A. Wilson. Umpires—Klem and Doyle.

BROOKLYN WINS FROM REDS IN THE NINTH.

Brooklyn, N. Y., May 23.—Zimmerman's drive for three bases and McElveen's pinch hit off Smith won a ninth-inning victory for Brooklyn yesterday, 4 to 7. Cincinnati got all its runs in the fourth inning off Bell, who retired in the sixth, after being hit on the arm by a pitched ball. The visitors had the bases full in the ninth with only one out but failed to bring over a tally. Score:

	R.	H.	E.
Cincinnati	3	11	2
Brooklyn	4	8	0

Batteries—Suggs, Smith and McLean and Clark; Bell, Knetzer, Rucker and Bergen. Umpires—O'Day and Brennan.

TWELFTH STRAIGHT DEFEAT FOR TRAILING DOVES.

Boston, Mass., May 23.—St. Louis defeated Boston, 3 to 1, yesterday, by bunching hits in the fifth inning. It was the twelfth straight defeat for Boston. Score:

	R.	H.	E.
Boston	1	4	0
St. Louis	3	7	0

Batteries—Curtis and Rariden; Sallee and Bresnahan. Umpires—Rigler and Finneran.

CUBS MAKE CLEAN SWEEP OF SERIES.

Philadelphia, May 23.—Chicago made a clean sweep of the series here by winning yesterday's game, the score being 6 to 2. Alexander pitched fine ball except in the sixth inning, when the visitors made five runs and four hits, including a double by Archer and a home run by Doyle. Reulbach was effective except in the fourth inning, when Philadelphia scored two runs on two passes and Luderus' two-bagger. Score:

	R.	H.	E.
Chicago	6	7	1
Philadelphia	2	4	0

Batteries—Reulbach and Archer;

CICOTTE BLANKS BROWNS IN FIRST OF SERIES.

St. Louis, Mo., May 23.—Cicotte allowed but four scattered hits and Boston won the first game of the series with the local team by a score of 2 to 0. Boston scored its first run in the third on two singles and an error, while in the fifth an error, a sacrifice and Riggert's triple netted the other. Score:

	R.	H.	E.
Boston	2	9	1
St. Louis	0	4	2

Batteries—Cicotte and Nunamaker; Powell and Clarke. Umpires—Evans and Mullin.

ATHLETICS BREAK NAPS' WINNING STREAK.

Cleveland, Ohio, May 23.—Philadelphia broke Cleveland's winning streak yesterday, taking the game by the score of 9 to 3. The Philadelphias made their hits off Blanding count, while Morgan was a puzzle. Jackson and Lapp were forced to retire because of injuries. Jackson had a finger split at bat, while Lapp hurt his knee bumping into the grandstand. Score:

	R.	H.	E.
Cleveland	3	10	1
Philadelphia	9	17	1

Batteries—Blanding and Smith; Morgan, Thomas and Lapp. Umpires—Perrine and Sheridan.

PROUD TIGERS FALL BEFORE WASHINGTON.

Detroit, Mich., May 23.—Washington outbatted, outfielded and outguessed Detroit yesterday and won the opener, 7 to 3. Four times the visitors worked the hit-and-run play for tallies. McBride's batting featured. Score:

	R.	H.	E.
Washington	7	18	1
Detroit	3	6	3

Batteries—Walker and Henry; Lafitte and Stanage. Umpires—O'Loughlin and Dineen.

New York-Chicago game postponed on account of rain.

TOLEDO PULLS GAME OUT OF THE FIRE.

Toledo, Ohio, May 23.—Toledo won its first game from Minneapolis this season by making a garrison finish in the ninth inning, scoring three runs on one hit and four errors. Cravath's home run with one man on base in the sixth inning was the longest drive ever made on Swayne field, the ball clearing the left field fence. Score:

	R.	H.	E.
Toledo	4	5	1
Minneapolis	3	8	4

Batteries—Brady and Brennan; Waddell and Owens. Umpires—Eddinger and Owens.

MAHLING STARS IN COLUMBUS VICTORY.

Columbus, Ohio, May 23.—Almost single-handed, Shortstop Mahling won for Columbus in yesterday's game with Milwaukee, the score being 2 to 1 and the hitting light. Mahling handled sixteen chances in support of Liebhart and delivered a single between a pass to Perring and a hit by Odell in the fourth inning. Score:

	R.	H.	E.
Milwaukee	1	7	3
Columbus	2	5	2

Batteries—Nicholson and Ludwig; Liebhardt and Arbogast. Umpires—Weddidge and Bierhalter.

St. Paul-Indianapolis and Kansas City-Louisville games postponed on account of rain.

BASEBALL NOTES

"The greatest play I ever saw," says "Chick" Brandom, "was those three German coppers hustling Dan Shay out of the grounds at Indianapolis."

* * *

Lew Wiltse, once a Pirate pitcher and a brother of George Wiltse of the Giants, is playing ball with the Murray Hills, a semi-pro baseball team of New York.

* * *

George Boice, who has pitched with success in the Pacific Coast league for Oakland and Portland and who was given a trial by the Cleveland club last spring, is a free agent and may sign.

* * *

Philadelphia fans are said to be so well pleased with Clark Griffith's generosity for that trade with the Phillies that they talk of buying Griff an auto just to show appreciation. That is too much.

* * *

Pitcher Fred Falkenberg of Cleveland has a brother, only 12 years old, who is said to have all the marks of a comer. Already he is making them take notice when he twirls a game on the Chicago lots.

* * *

Some of the Reds say they do not blame McQuillen much for falling off the wagon. The stay in St. Louis for four days without moving out of the hotel was enough to drive a man crazy or to drink, they assert.

* * *

As a result of the Greeves Sunday baseball bill becoming a law in Ohio, a new schedule has been made out for the O.-P. league. This makes Sunday baseball possible in every league, with the exception of Newcastle.

* * *

Mayor Edmund M. Allen of Joliet, Ill., named Harry De Miller, former twirler and first baseman for the Chicago National league team, chief of police, to succeed William F. McMasters. De Miller is exalted ruler of the lodge of Elks.

* * *

Jack O'Connor, former manager of the St. Louis American League club, and deposed by President R. L. Hedges, after the Lajoie-Cobb batting average affair last fall, says he is in earnest about suing Hedges for salary due on his unexpired contract.

* * *

"Not a Pittsburg player has drank as much as a glass of beer or smoked a cigarette since the season began," says Charley Power, traveling correspondent. Last season Wagner and Miller were "joy riding" so much that they lost their effectiveness on the ball field.

* * *

"Bunch all the stories of the 'greatest play I ever saw' that are going the rounds and you would have a composite of plays that First Baseman Comiskey or our old friend Big Bill Lange used to duplicate nearly every day when they were at the zenith of their playing days," declares an old-time fan.

* * *

There is to be no more picking up easy money by members of the New York Nationals. John McGraw posted a sign in the club house saying any member of the Giants who played with a semi-pro club will be indefinitely suspended. Heretofore several of the players have been putting in Sunday in the nearby towns playing with local organizations.

* * *

There is talk in South Georgia of either reviving the Georgia State league or organizing a circuit that shall include towns in the southern part of Georgia and the northern part of Florida. Some good towns could be included in a compact circuit and if nothing is done this year it is pretty certain that organization will be undertaken next spring.

* * *

Bobby Wallace of the St. Louis Browns has protested a game lost to Detroit because of Umpire Perine's decisions. Hoffman was called out in the third inning for being hit by a batted ball from Austin's bat. The drive had glanced off Willett's glove before hitting the runner, and for this reason Perine's decision was wrong and Wallace was entitled to a protest.

* * *

"Sallee thinks he is the best left-hand pitcher in the National league and is going to prove it before the season is over," says Roger Bresnahan. "'Nap' Rucker of Brooklyn has nothing on Sallee, neither has George Wiltse. I caught Wiltse for the New York club and know him like a book. Sallee has the best control of any southpaw that ever curved a ball over the plate in my time."

* * *

It hurts a certain class of people to see others enjoy themselves. A bunch of New York state reformers have asked Governor Dix to compel sheriffs to enforce the laws against Sunday ball playing. Men and boys, they say, have been grievously fracturing the Sabbath by knocking balls about vacant lots in various communities. Governor Dix's answer was that it was the first he had heard of it.

* * *

Owner John I. Taylor is out with another plea for a rule that the pitcher need not take his turn at bat. Once Taylor thought that he could put through legislation stopping the pitcher from taking his turn at the bat and having a sub hit for him, going so far as to hire an emergency hitter named Clay, who had made a great record in the Tri-State league. The legislation did not go through and Clay never got a chance to show what he could do.

* * *

Larry Lajoie smiles every time he makes a quick throw of a ground ball to Capt. Stovall. George's face tickles him. "George's expression is pleading, hopeful and of fright every time I throw the ball underhanded with the runner almost down to first," said Larry. "I snap the ball, and every once in a while it goes wild. George gets ready to run to the stand after it. He opens his mouth, twists every muscle in the face and his eyes seem to blaze. His face is a picture no artist could paint."

ATHLETES IN INDOOR MEET

Big Track Event Will Be Held in Y. M. C. A. Gymnasium.

There is a large amount of interest in the track meet that is scheduled for this evening at the big Y. M. C. A. gymnasium. The Central high school, Y. M. C. A., Two Harbors and Adams association are entered in the meet. Five events are scheduled, the shot put, half mile run, high jump, relay race and dash. Many of the athletes have been training hard and some very good performances should result.

The Northern Hardware company has donated fobs for places in the various events, which should prove an incentive for keen competition.

The first event will be called at 8 o'clock, according to the program. The meet tonight is the culmination of several indoor events that have been held during the season, and is expected to be by far the best athletic event of its kind ever held at the association gymnasium.

AITKIN BEATS CUYUNA BY SCORE OF 6 TO 5.

Brainerd, Minn., May 23.—(Special to The Herald.)—The Southeast Brainerd Tigers defeated the South Side Cubs Sunday by the score of 19 to 2. In the afternoon the South Side Cubs played at Crosby and defeated Crosby team No. 1 by a score of 6 to 5. Aitkin played Cuyuna at Aitkin and defeated the boys of the Kennedy mine town by the same score, 6 to 5. The Brainerd Brewsters defeated the All Stars of Deerwood at Brainerd, by a 13 to 1 score.

MORRIS WILL FIGHT FLYNN

Tulsa, Okla., May 23.—Carl Morris, Oklahoma's hope, who will be given his real tryout on July 4, when he is to stand battle with Jim Flynn, the Pueblo fireman who recently disposed of Al Kaufmann, has been given some more easy picking before the big event. Morris today was matched to fight Jack Geyer, one of Jack Johnson's former sparring partners. They are scheduled to go fifteen rounds on the night of June 2. Morris is in good form and has picked up considerable knowledge of the game since his last battle.

POOR PITCHING CAUSES HITTING

Philadelphia, May 23.—Heavy batting, which has been the despair of pitchers since the opening of the 1911 season, will be curtailed, according to the statement of a representative of a baseball factory, says a rumor from Chicago.

It is said the next supply of official balls for the clubs of the major and minor leagues will not be as lively as the ones now in use.

According to the factory representatives, the present lively ball which produced 367 runs in three days in the major leagues, was due to a hint from the baseball powers that there was not enough batting to suit the fans. Now the "tip" has gone forth that the games are too long because of the great increase in batting.

It is not intended to revert to the old ball, which produced so many few hit contests and made many championship affairs merely a battle between pitchers, but to strike a happy medium about on the middle ground between the old ball and the new.

Hank O'Day, who is umpiring here with Brennan, ridiculed the fact that the ball was the cause of all the hitting this year. Hank blames all the undue free club swinging to the inability of the majority of the twirlers to get into first-class form.

The veteran judge of the Lynch circuit points out meaningly enough that battles of two and three hits per side have been frequently indulged in this year, and there is no danger of any of the moundmen being killed by the murderous fire of the batters.

Just what all this agitation is started for is hard to understand, for the public evidently is enjoying the game of swats much more than they usually do a monotonous grind between two well-nigh invincible hurlers.

SOME DULUTH MOTORISTS

CHIEF C. H. TROYER.

ZBYSZKO LEAVES WITH MANY AMERICAN DOLLARS.

New York, May 23.—Stanislaus Zbyszko, the Polish wrestler, will sail for his native land today after a successful tour of this country. In his final match here last night he easily scored two straight falls over Paul Sampson. Zbyszko has been wrestling almost nightly and will take home many American dollars.

SECOND CHOICES WIN AT CHURCHILL DOWNS.

Louisville, Ky., May 23.—Well played second choices took the majority of the events at Churchill Downs yesterday afternoon. The track was very slow, sloppy, and horses with a liking for the heavy going had things their own way.

Fashion Plate, carrying the colors of H. K. Knapp, and making his first start at the meeting, triumphed over a small field in the handicap. Veneta Strome was second and Black Mate third. August Belmont, chairman of the New York Jockey club, is endeavoring to secure the contract on Jockey Guy Garner, who is riding here for Earl Linnell.

COMMENTS AND OPINIONS ON THE SPORTING PARADE

Fans Have Warm Spot for This Year's Team—The Passing of the Great Stars—The Weather Man's Thoughtlessness.

(BY BRUCE.)

NOT for a long time has there been such cordial feeling among the fans of Duluth in regard to the baseball team. The fact is to be found in the excellent showing the Sox have made on the first road trip of the season, something that no team representing this city has done since the organization of the Minny league.

For some reason, that apparently no fan has been able to explain, the Sox have been very poor travelers. The first team that represented us in the new Minnesota-Wisconsin league, and which won the pennant, was a very poor away-from-home aggregation, and only won the pennant from the fact that it was very hard to beat it on the home grounds.

Last season we had a very poor team, and yet their record of the season would not have been nearly so bad had the boys been able to win anything like half their games away from Duluth.

What has encouraged the fans to date is the showing that the Sox have made on the first road trip, coming home with an average of .500 per cent., after losing two games that with any kind of baseball luck would have been counted as wins.

A team that can win half the games on the road and win more than half on the home grounds, will come pretty near winning the pennant. Some of the fans already believe that the 1911 Sox are going to prove better travelers than the teams that have represented us in the past. With the first series at home we are going to have a better chance to get a line on the team and judge just what kind of home players the boys are.

If the Sox should prove just as strong on their own ballwick as they have been in the past, and can combine a higher degree of effectiveness on the road, the fans of this city can be pretty well satisfied that the O'Brienites are going to be right up there at the finish of the race.

Yesterday afternoon the Orator state that he had no reason as yet to change his opinion regarding the strength of the team. Before starting on the trip the harp expressed the hope that the aggregation would pull together strong on the first invasion of foreign territory. There is often vast difference between an opinion and mere, budding hope.

As has been stated, the Orator still holds to the opinion, and has, in addition, his hope fulfilled.

Darby believes right at the present time that the Sox are one of the strongest teams in the league. That one game at Winona was not enough to give the boys a line on the Pirates. In that game that went against the Sox by the 1 to 0 count, the teams showed about even, with the pitching of Woodburn shading that of the veteran Frank Baillies.

At Red Wing, Rochester and La Crosse, the first three towns encountered on the trip, according to some of the members of the team, the Sox showed superior all around strength to that of their opponents. It will be remembered that the Sox took the long end of the first two series, and dropped two out of three at the German settlement of La Crosse.

But this is all history and now we are going to have the opportunity of seeing, and seeing is generally believing. We will have most of the teams of the circuit here on the present stand, and then can compare the strength of the White Sox with that of the other members of the league.

Righ now the fans have confidence in the team, and for that reason the interest is high. But ten games have been played by the Harps, and at the end of the first stand at home, good judges of play will be in a very much better position either to substantiate the first opinion, or to alter it.

And in the meantime it is gratifying to true lovers of baseball to observe the new spirit upon the part of the fans. It is here at the present time, at least, and with a continuance of the splendid work that has been done to date, it seems quite likely that the great old national game will awaken to greater interest than ever before.

Where Are the Great Stars Going?

STOP and think a moment, before you answer this question: Where are the great stars of the game of baseball going, and why are there so few great players to replace the passing veterans?

Again, stop and think over the situation in the two major leagues. Why have Washington in the American and St. Louis in the National occupied so low a place all these years? Because of the lack of real baseball stars.

Think back and try to remember the great stars that have come into the game. There have been Walter Johnson, Eddie Collins, Tyrus Cobb, and a few others. Of these stars one might be called the only great player on a tail end team. The star is Johnson, and the team, Washington.

Just the other day Hughey Jennings remarked that the teams of the major leagues could not afford to let go of the veterans, for the simple reason that it was expensive, uncertain, and often unprofitable to experiment with the youngsters.

Figure it out for yourself, and then do some figuring on the vets that have been with the tail end teams for some years, representing in many cases a mean level of mediocrity, and you can find the answer to the question as to why the tail end teams in the majors seem destined to remain in the celler positions year after year.

If the country abounded in stars and it was up to the scouts to get out and get these players, it would be a different matter. One or two stars are gathered a season, and of the new players that get into the league, many of these only hold their positions because they may be more useful than the tired and passing veterans.

There may be another way of looking at it. It may be that baseball in general has become so fast that the game requires so much of its players that their faults become more glaring. It may be this, and it may be that the great stars are dying out.

Think of the players on the two St. Louis teams, and on the Boston Nationals and the Washington Americans. Except Walter Johnson for the Washington team, and Roddy Wallace from the St. Louis Americans, a veteran whose years of usefulness are drawing to a close, and can you right at the moment name one great player.

Detroit lets Tom Jones go an dthen regrets it. The Cubs are already regretting the letting go of Harry Steinfeldt, if some of the reports are true. Passing veterans, as they are, it is difficult to get men to fill their places.

It all reverts back to the original purpose of this article, of getting an answer to the question; What is becoming of the great players—that is, why are not more great players breaking into the game.

It is interesting and many-sided, and will admit of many answers. Baseball is a great business and shrewd and brainy men are engaged in it. The problem to get young stars is a great one, and is becoming more difficult. Why? Well, that's the question that was asked in the opening sentence.

If you know of any real star you can get a nice rake-off for tipping this man off. We have read much about the Blackburnes, the Russells, the Marquards, and others. They have all been men that commanded a very high price, and yet they have not made good. Of the thousands of men playing baseball, doesn't it seem strange to you that every season there is just about one great star developed, or discovered?

A successful scout can command a very high salary. Managers of successful teams can name their own salaries. The fans want pennant winning teams, and in the majors this means new blood for the weaker teams, and the greatest problem of the day, is to get something that does not seem to exist.

* * *

He Should Be Slapped Severely.

THERE is no chance to play baseball in this kind of weather, and just for that the weather man should be ashamed of himself. So far in the young season rain has stopped several of the games, and with the brand the irate weather man has been serving out to us, here at the Head of the Lakes, there is no counting on the carrying out of the schedule.

If the weather becomes convalescent some time today and Old Sol comes out of the grouch, there may be a game tomorrow. If the present state of dreary and weeping state of blue devil sort of atmosphere misery keep on, some of the good people will be so cranky that they will not care whether the dear old world continues to move or not.

It is rather mean after all those preparations for the opening game. The weather man should be heartily ashamed and, after the promises for today—well, something harsh should be the atonement.

What Is the Misery Medium?

DOWN in La Crosse where a man by the name of "Jed" labors on the abbreviated sporting page, right next to his column, "In the wake of the pastime," is run another column, headed, "In the wake of the measles." What is the connection between sport and measles? Brain fever, in all probability.

TWO TIMES COLLEGE TENNIS CHAMPION LOSES.

Boston, Mass., May 23.—When the first day's play in the New England intercollegiate lawn tennis championships closed yesterday afternoon, P. H. Harris of Dartmouth, twice champion, had been eliminated from the individual championship by C. L. Johnstone, an Amherst sophomore, the first two rounds of singles had been disposed of and Williams had won the only match played in the doubles.

HARVARD FOOTBALL SCHEDULE IS SURPRISE.

Cambridge, Mass., May 23.—Several surprises developed at the announcement last night of the Harvard 'varsity football schedule for next season. Cornell, West Point and Bowdoin are dropped. Their places are taken, respectively, by Princeton, which will meet the Crimson at Princeton in the first game between the two universities in fifteen years; Carlisle, which returns to Cambridge after a year's absence, and Holy Cross. The big game with Yale comes Nov. 25. All the games except that with Princeton will be played at home.

The schedule includes: Oct. 7, Holy Cross; Oct. 28, Brown; Nov. 4, Princeton at Princeton; Nov. 11, Carlisle; Nov. 18, Dartmouth; Nov. 25, Yale.

EXAMINATION OF RACING CARS AT INDIANAPOLIS.

Indianapolis, Ind., May 23.—Examination of the cars entered in the 500-mile race to be held at the Indianapolis speedway on Memorial day began today under the supervision of E. E. Edwards, chairman of the technical committee of the American Automobile association.

Certificates are not to be issued for the cars until after the elimination trials which are to be held on Friday, and a final examination on the following day. Cars of more than 600 cubic inches piston displacement are barred from the race. Each of the forty-six entrants must show a speed of at least seventy-five miles an hour at the elimination trials or withdraw.

MORGAN LOSES BOUT TO PADDY LAVIN.

Indianapolis, Ind., May 23.—With blood streaming down his face from a long cut in his forehead Jack Morgan of this city quit in the ninth round of his scheduled 10-round bout with Paddy Lavin of Buffalo last night. Lavin knocked Morgan down twice in the eighth round, and in the ninth Morgan could hardly hold his feet. The men weighed in at 154 pounds.

Pathfinder at Helena.

Helena, Mont., May 23.—The Twin City to Helena pathfinder arrived here last night and the crew was entertained as guests of the city. After laying out a few side trips for the tourists, the pathfinder will be shipped back to St. Paul.

Wolgast in Training.

San Francisco, Cal., May 23.—Ad Wolgast, lightweight champion, arrived Monday from Los Angeles to put the finishing touches on his training for his twenty-round fight here on May 27 with Frankie Burns. Betting Commissioner Tom Corbett announced last night that odds of 10 to 6 had been offered on the result, with Wolgast the favorite.

White-Dennis Bout.

St. Joseph, Mo., May 23.—Jack White of Chicago and Eddie Dennis of San Francisco, featherweights, will box fifteen rounds before the Robideaux A. C. here tonight.

SCALES BROKE OUT ALL OVER HER BODY

Scalp Affected, Hair Began to Fall, Hands So Disfigured She Had to Wear Gloves All the Time. Two Hospitals Unable to Assure Cure.

First Application of Cuticura Soap and Ointment Allayed Itching, Psoriasis Has Disappeared.

"Allow me to say a few words in praise of the Cuticura Remedies. About three years ago, I was affected by white scales on my knees and elbows. I consulted a doctor who treated me for ringworm. I saw no change and consulted a specialist and he claimed I had psoriasis. I continued treatments under him for about six months until I saw scales breaking out all over my body save my face. My scalp was affected, and my hair began to fall. I then changed doctors to no avail. I went to two hospitals and each wanted to make a study of the case and seemed unable to cure it or assure me of a cure. I tried several patent medicines and was finally advised by a friend who has used Cuticura on her children since their birth, to purchase the Cuticura Remedies. I purchased a cake of Soap, the Ointment and the Resolvent. After the first application, the itching was allayed.

"I am still using the Soap and Ointment and now feel that none other is good enough for my skin. The psoriasis has disappeared and I everywhere feel better. My hands were so disfigured before using the Cuticura Remedies that I had to wear gloves all the time. Now my body and hands are looking fine."(Signed) Miss Sara Burnett, 2135 Fitzwater St., Philadelphia, Pa., Sept. 30, '10.

Cuticura Soap and Ointment sold throughout the world. Potter Drug & Chem. Corp., sole props., 139 Columbus Ave., Boston.

Mailed free, samples of Cuticura Soap and Ointment, with 32-p. book on skin treatment.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray, you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days itching and dryness of the scalp entirely disappear.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Special agent, Max Wirth, 13 West Superior street.

H. W. RICHARDSON, Local Forecaster.
FORECAST TILL 7 P. M. WEDNESDAY
For Duluth, Superior and vicinity, including the Mesaba and Vermilion Iron ranges: Unsettled and cool weather tonight and Wednesday; moderate easterly winds.
EXPLANATORY NOTES
Observations taken at 8 a. m. twenty-fifth meridian time. Air pressure reduced to sea level.
Isobars, or continuous lines, pass through points of equal air pressure.
Isotherms, or dotted lines, pass through points of equal temperature they will be drawn only for zero (freezing 32°) and 70°.
Symbols indicate state of weather: clear, partly cloudy, cloudy, rain, snow. First figure, temperature; second, 24-hour rainfall if it equals .01 inch, third, wind velocity of 10 miles per hour or more. Arrows fly with the wind.

CLOUDY

The weather man is a despised forecigner. If he were a good American, the sun would be shining, the mercury would be hanging around 80 deg. today, and the gang would have a chance to sit on the bleachers at Athletic park. As it is, there are clouds in the sky, mist in the air and the opening game of the baseball season has been postponed. Next to Calgary, Duluth was the coldest place on the map yesterday, with a high temperature of 47 deg. Unsettled and continued cool weather is predicted for tonight and tomorrow.

Cold, raw weather prevailed a year ago today.

The sun rose this morning at 4:22 and it will set at 7:46 this evening, giving fifteen hours and twenty-four minutes of sunlight.

Mr. Richardson makes the following comment on weather conditions:

"During the last twenty-four hours rain fell over Alberta, Saskatchewan, Northern Montana, the lower Missouri, Mississippi and Ohio valleys, the Lake region, St. Lawrence valley and East Gulf states in connection with barometric depressions centered over Nevada and Utah and Wisconsin. More or less foggy weather prevails on Lakes Huron and Superior. Very warm weather continues in all Atlantic coast states south of Massachusetts. At the Head of the Lakes the conditions are not very favorable for good weather during the ensuing thirty-six hours."

General Forecasts.

Chicago, May 23.—Forecasts for twenty-four hours ending at 7 p. m. Wednesday:

Upper Michigan—Showers tonight or Wednesday; not much change in temperature.

Wisconsin—Generally fair tonight and Wednesday; cooler in southwest portion tonight.

Minnesota—Generally fair tonight and Wednesday.

Iowa—Generally fair tonight and Wednesday; warmer Wednesday.

North Dakota—Generally fair tonight and Wednesday; cooler in north and east portions tonight.

South Dakota—Generally fair tonight and Wednesday.

Montana—Generally fair tonight and Wednesday; cooler in extreme east portion tonight; probably frost in north and west portions tonight.

Upper lakes — Moderate variable winds; unsettled and showers tonight and Wednesday.

GAVE LIFE FOR FRIEND

Theodore Okeson Drowned While Trying to Rescue Companion.

Believed Johanson Fell Overboard and Okeson Jumped After Him.

That Theodore Okeson lost his life trying to save Olaf Johanson, both of whom drowned in Rice lake, about eleven miles from the city, Sunday evening, is the opinion of Dr. J. A. McCuen, county coroner, who made an investigation of the case yesterday afternoon after the discovery of the bodies.

Both men were tailors employed in the city and had gone to the lake with four other men to fish during the day. The other members of the party left them fishing on the lake and the next they heard of them was the finding of the bodies on the west shore of the lake in shallow water.

It is supposed that Johanson fell over the side of the boat and that Okeson, who is claimed to have been an expert swimmer, went to his assistance. The body of Johanson was fully clothed, while that of Okeson was minus shoes, coat and vest, showing that he had probably discarded them in a hurry in order to try to save Johanson's life.

Surprise is expressed that the men should have lost their lives. Their bodies were found in water which was but a few feet deep and which could have been easily waded by them. It is stated that they must have drowned within a short distance of the spot in which they were found.

The bodies of the men were taken to the undertaking rooms of J. L. Crawford and efforts are being made to locate relatives of the men. No funeral arrangements will be made until every effort has been made to notify the relatives of Okeson's and Johanson's death.

"Mr. Johanson was a man of exceptionally regular habits," said G. H. Le Sage of the Melrose, where Mr. Johanson boarded. "He had been here but a few weeks, but he was always in his room by 5:30 or 10 o'clock. Nearly every evening he used to stay in the house and pass the time reading or playing games with the other boarders."

JEFFERSON LEVY IS ALSO BARRED

Washington Club Rejects Him Because He Is a Jew.

Washington, May 23.—Jefferson M. Levy, newly elected representative in congress from the Thirteenth New York district (New York City), has failed of admittance to the Metropolitan club here, thereby sharing the fate of Representative Martin W. Littleton of New York and making the second New York congressman barred from the organization since the beginning of the extra session of congress.

The reason ascribed for the rejection of Mr. Levy's name is that he is a Jew. The same minority members of the governing board objected to his election who several weeks ago objected to Mr. Littleton because he was a "self-made man."

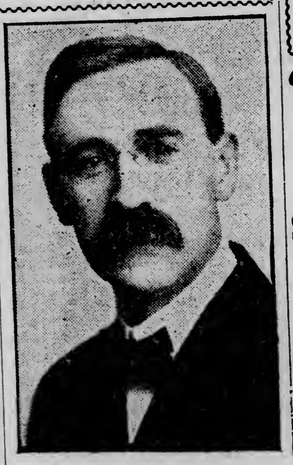
Mr. Levy's sponsors were Rear Admiral H. T. B. Harris, a former postmaster general of the navy, and Maj. David D. Porter, U. S. M. C. Before being acted upon, the name of Mr. Levy was posted on the board for two weeks, as required by the club regulations. It was later withdrawn so quietly that many of Mr. Levy's closest friends have been in ignorance of what really happened.

It is now said that the real point of President Taft's speech Tuesday night at the Jewish temple here, wherein he critized unwarranted blackballing at Washington clubs, referred to Mr. Levy, as at that time it was already understood that the New York congressmen would not be elected.

The president's use of the word "blackball" is taken as an indication of how strongly he feels on the subject, as neither Mr. Littleton nor Mr. Levy was blackballed. Both failed of immediate election because of objections by two or three minority members of the governing board, whose ideas of exclusiveness in that particular club do not agree with the ideas of the majority.

Maj. Porter said that Mr. Levy's name had been withdrawn because he found he could not make use of the club privileges until the fall, as he was about to start for a trip to Europe.

GEORGE T. HUGHES PASSES AWAY IN MINNEAPOLIS



GEORGE T. HUGHES.

While the supreme council of the Royal Arcanum was in session yesterday at the Radisson hotel, Minneapolis, George T. Hughes, one of its prominent members, died at his home, 2301 Bryant avenue south. There was immediate adjournment when the news was received. Mr. Hughes died at 11 a. m.

Besides his membership in the supreme council, Mr. Hughes was grand secretary of the Royal Arcanum for Minnesota, and, through state and national prominence in the order, was known to members in every part of the United States. He was 51 years old, was born in Floyd, N. Y., but came West at a nearly age and was for a time assistant postmaster at Duluth. Later he became clerk of the board of public works here, and, retiring from that position, entered business as a member of the Duluth Book & Paper company.

Twelve years ago Mr. Hughes went to Minneapolis, and has since that time lived there. He maintained an office as secretary for Minnesota in the Lumber exchange, and until about two months ago was able to attend to official duties. At that time, after a nervous breakdown, he went to the Pacific coast in the hope of benefiting his health, and returned somewhat improved, but still unable to attend fully to his duties.

A wife and four boys, whose ages range from 11 to 2 years, survive. They are Donald, Kenneth, George T. and Wallace. There are two brothers, Willard and John Z. Hughes, in Minneapolis; two brothers, Milton G. and Fred F. Hughes, in Oregon, and a sister, Miss Ida L. Hughes, living in Iowa.

The funeral services will be held Wednesday in Minneapolis. They will be held by the supreme council of the Royal Arcanum.

FRENCH IRON MASTER AND WOMAN ARRESTED.

Quebec, Can., May 23.—As a result of wireless communications, Ferdinand Darrent Dabbadie, a wealthy iron manufacturer of Everaux, France, whose disappearance caused much comment in high French society circles, was taken from the Canadian Pacific steamship Lake Champlain when it arrived here yesterday. With him was Helen Benoit, who had been governess in his home. They were registered on the trans-Atlantic voyage as Mr. and Mrs. W. F. Wye, and both denied their real identity until questioned separately. Then they admitted their identity and said they were not married.

They will be held until an examining board determines whether they shall be deported.

"Old Hickory."

Andrew Jackson (Old Hickory) Rocker.

The Ideal Porch Furniture

Of the many kinds of Old-time furniture which have been revived in recent years, none has met with such popular favor as the old fashioned handmade hickory furniture that was used in the ante-bellum days.

"Old Hickory" is most popular on the porch or lawn; in fact, it was used there almost exclusively at first, but people soon found it so comfortable, durable and artistic, that they fitted up living rooms, smoking rooms, dens, etc.

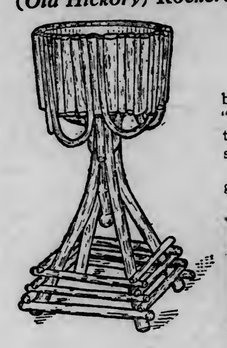
"Old Hickory"

"Old Hickory" Morris Chair.

Get the Genuine "Old Hickory"

This line is easily identified by the Trade-Mark being burnt in on the post of every piece of genuine "Old Hickory" furniture. It's better than the imitations, that's the reason the makers take these steps to protect you.

There's only one store in Duluth selling the genuine "Old Hickory"—The Bayha Store.



COMPLETE HOUSEFURNISHERS

Special

We are prepared to furnish rustic pergolas, fences, gates, bridges, arbors, log cabins, etc.—in fact, do all kinds of rustic work.

We solicit the opportunity to quote prices and make up special designs.

WEST END "CUTOFF" IS ORDERED

Street Railway Instructed to Lay Tracks on Twenty-First Avenue.

Ten-Minute Service Ordered on Piedmont Avenue Line.

Following a lengthy debate engaged in by many residents of the West end, the city council last night ordered the street railway company to build a double track cut-off on Twenty-first avenue west from Third street to Superior street. The same resolution calls for big cars and a 10-minute service on the Piedmont avenue line.

The residents of the West end appeared to be fairly unanimous in asking that the change embodied in the resolution be made. Several persons living close to the street car track between Twenty-first avenue west and Piedmont avenue protested strongly against the tracks being run down Twenty-first avenue west, but their arguments did not appeal very strongly to the council, as shown by the vote, the resolution carrying by a vote of 13 to 1.

The aldermen felt satisfied that the change would be a decided benefit to the West end, while no hardship would be worked upon those who asked that the tracks remain as they are at present. It was generally conceded that business would be greatly benefited and the public be given a better and more satisfactory street car service.

WEST END FLAT BUILDING IS SOLD.

P. L. Whalen has sold to Mrs. Christine Ramsey of Cloquet, a double flat building at 2124 West Third street. The consideration was $4,350 cash. Mrs. Ramsey will take possession of the property at once.

Dr. O. A. Oredson will erect a three-story brick and stone flat and store business block on property which he recently purchased at the southwest corner of Twenty-second avenue west and First street. The new structure will cose in the neighborhood of $20,000.

WILL GIVE BENEFIT FOR SICK MINISTER.

At the benefit entertainment which will be held Thursday evening at the First church, Twenty-fourth avenue west and Third street for Rev. Hans Jacobson, a Norwegian-Danish M. E. pastor, who is ill in a hospital in St. Paul, Mrs. J. J. Moe will give a talk on her trip through Europe. She visited most of the principal cities of the continent and also toured England and the Scandinavian peninsula. She was also a visitor at the passion play at Oberammergau.

The affair will be held under the auspices of the Ladies' Aid society. Refreshments will be served. During the evening a benefit collection will be taken.

Dancing Party.

Invitations have been issued for a private dancing party to be given by the Nitche Social club, Monday evening, May 29, at Columbia hall, Twentieth avenue west and Superior street. The officers of the new organization are: W. A. Padden, president; J. J. Miller, vice president; L. P. Drohan, treasurer; J. Rowland, secretary, and J. C. Schlitz, sergeant-at-arms. The arrangement committee consists of F. Bordelau, Ben Owens, Walter Emerson, A. Balduc, George Crease and Lake Flood. The floor committee is E. Gallagher, Charles Kremer, Michael McMahen, James Wade, Ernest Robinson and John Garvey. Blewitt's orchestra will furnish the music.

Conway Funeral.

The funeral of Dan Conway, the millworker, who committed suicide by drowning himself at the foot of Gardner avenue will be held tomorrow afternoon at 2 o'clock from the Olson & Crawford undertaking rooms, 2118 West First street to Forest Hill cemetery. Rev. W. E. Harmann will officiate.

West End Briefs.

Mrs. John Linn will be hostess to the Ladies' Aid Society of the Swedish Mission church at a meeting tomorrow afternoon in the church parlors, Twenty-first avenue west and Second street.

The Ladies' Aid Society of the First Swedish M. E. church will be entertained Thursday afternoon at the home of Mrs. Norberg of 2114 West Fourth street.

Mr. and Mrs. Joseph Olson of 2110 West First street have returned from a trip to Lake Nebagamon, Wis.

The Epworth League of the First Swedish M. E. church will meet Friday evening at the church, Twentieth avenue west and Third street.

E. E. Williams of 1709 West Second street, left yesterday for Chicago, where he will attend the commencement exercises of Armour Institute of Technology, from which his son, Guy E. Williams, will graduate. The exercises will be held on Thursday. They are expected to return to Duluth, Saturday. The young man took a course in electrical engineering at the school.

Rev. Milton Fish, pastor of the Central Baptist church has taken up his residence at 502 North Twenty-fifth avenue west.

The second week of a series of revival meetings at the Swedish Mission church will be commenced this evening when Rev. Malcolm Magnuson of Chicago will preach. On Thursday evening, he will talk in English on "Wording Amusements."

Choir practice will be held tomorrow evening at the First Swedish M. E. church.

Miss Julia Lofald of 224 South Twenty-seventh avenue west has returned form a two week's visit at Minneapolis.

Mrs. Sanders of 324 North Nineteenth avenue west left yesterday for Pine City, Minn., on a visit with her mother.

Help for All

Andrew Carnegie once suggested as an epitaph for his own tombstone what he said was the secret of his success:

"Here lies a man who surrounded himself with men abler than himself."

Many able people are working for you, scientists, inventors, manufacturers, all trying to make something *your* want. Do you use their brains and their efforts—"surround yourself with them"—or do you plod along by yourself, years behind the times?

Take your own home. Have you your share of modern improvements there—money-saving, labor-saving, health-promoting? One of the most important of these is a New Perfection Oil Cook-stove.

A New Perfection stove never overheats a kitchen. It saves your strength. It saves fuel and time. With the New Perfection oven with the glass doors you can go on with your ironing or any other work, and still be sure at a glance the joint is roasting properly.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

Dealers everywhere; or write for descriptive circular to the nearest agency of the

New Perfection WICK BLUE FLAME Oil Cook-stove

Standard Oil Company (Incorporated)

COMBINE TO RAISE RATES

Sixty of Casualty Insurance Companies Said to Be in Trust.

Rates in Minnesota Were Given a Big Boost Jan. 1.

Despite the fact that several of the greatest employers of labor in this district, including the United States Steel corporation, do no business with casualty insurance companies, more employers' liability insurance in handled in Duluth than in any city of equal size in the United States. As the result of a conference between the different companies doing business in Minnesota and an exchange of experiences last summer, Minnesota casualty rates were raised Jan. 1, so that rates as applied to certain risks are higher here than in any other state in the Union.

Employers of labor who do business with casualty insurance companies in Duluth and vicinity will naturally be interested in the charge now being made that sixty of the large companies doing business in the United States have combined to increase rates all through the country and it is said that the federal authorities are inquiring into the alleged "trust" on the basis that it is aking all, or a little more than, the people can stand.

The Minnesota rate increases, which went into effect Jan.1, were staggering. Insurance for mining companies went up about 200 per cent. Lumber companies found themselves compelled to pay 50 per cent more than they had formerly, while many of the other manufacturing enterprises also were forced to meet the 50 per cent increases, or go outside of the companies interested in the rate-increasing agreement for their liability insurance. As nearly all of the big companies were interested in the increases, going outside might entail going to unreliable companies.

As a result of the Minnesota increases, a number of large employers of labor gave up liability insurance and assumed their own risks. The smaller people, to whom a big verdict might mean bankruptcy, were forced to pay the new rates or go without liability insurance. They are paying the rates, and to many of them it is a hardship.

The insurance companies can find data to support their position that Minnesota rates were too low, they say. They have been hit hard in Minnesota, especially in mining company insurance, and for a time many of the large companies refused to touch mine liability. With the increased rates, some of them have extended to that business. It is claimed that casualty companies have lost $10,000,000 in Minnesota in the last ten years. Smaller employers of labor, who are hardest hit by the new rates, claim that the greatest loss was from the mines and other big industrial enterprises, and that in certain cases the new rates are inequitable in that they are hitting industries not responsible for the heavy losses.

Not Losing Money.

As far as the general increases in rates throughout the United States are concerned, it is alleged that the companies cannot substantiate their charges that they have been losing money. The Chicago Tribune has compiled figures showing that the biggest companies doing business in this country, including several London companies, have been making millions of dollars. Although they may have been hard hit in Minnesota, as they say, they have been making up their losses, and much more, in other states.

The Chicago Tribune yesterday said:

"A new rate hoisting combine has entered the financial field. It embraces sixty or more of the casualty insurance companies of America and similar foreign concerns doing business in this country. As a result employers desiring liability insurance must pay increases varying from 15 to 140 per cent, and, in at least one case, the increased rate is ten times the rate prevailing last year—or seek more moderate prices among the few concerns outside the trust. The agreement has been formulated in New York.

"The long suffering public has been served with numerous boosts in prices and rates, but the increases forced by this combine are said to hold the record.

"The United States government is said to be inquiring into this trust and its proclivities to demand all or a little more than the people can stand.

"Huge as the rate increases in liability insurance have been within the last four months, there is a report of further raises likely to be made unless Attorney General Wickersham intervenes with action to prevent the continuance of the extortion.

Profits Are Huge Already.

"The casualty insurance companies involved in this rate raise put forth as a reason for their action the claim that rates had been too low; that agents had been cutting under the agreed rates, and that profits had shrunk.

"However, a consideration of the statistical tables of seven of the leading companies in the new agreement does not bear out this contention.

"The year 1910 showed huge profits for all, one of the largest of the companies paying a dividend last year of 41 per cent. In the face of this, the big increases are agreed on and are levied for the current year.

Bulkeley's Concern Prospers.

"The Aetna Life of Harford, of which Morgan G. Bulkeley of Connecticut, recently retired by his constituency from the United States senate, is president, is prospering. The premiums paid to this concern during 1910 totaled $6,-910,880 and its insurance losses were $3,316,496, leaving a comfortable margin of profit from insurance alone of $2,694,384. Of this the stockholders received dividends amounting to $100,-000, or 5 per cent on the capitalization of $2,000,000.

"Other companies show even greater profits. The Maryland Casualty of Baltimore shows a dividend of $410,-000, or 41 per cent on its capitalization of $1,000,000 on premiums of $4,-488,756 and losses of $1,993,521.

"The Travelers of Hartford declared a dividend of 30 per cent, $750,000 on a capitalization of $2,500,000, its figures being: Premiums, $9,555,790; losses, $5,134,036.

"The Fidelity & Casualty of New York had an 18 per cent dividend last year with $180,000 against a capital stock of $1,000,000. Its margin of profits between premiums and losses were $4,216,912. The dividend rates of the three English companies cited are not given, as the American returns are sent directly to the home offices in London. Their margin of premium profit averages well with the United States companies.

1910 Their Best Year.

"All the figures given in the tables are of interest as indicating the immense wealth of the insurance corporations engaging in the casualty business. Particularly is this true of the table showing results of the last decade. Not one of the seven leading companies enumerated added less than $780,000 to its reserve fund during that period, while one, the Travelers, put away $8,078,773.

"The surpluses were enlarged in like fashion, swelling the admitted assets of the Aetna to $101,000,000 and of the Travelers to $75,000,000. The net surplus of each of these concerns is more than $8,000,000.

"Significant also is the comparison between the total of dividends declared during the last ten years and those of the single year 1910 as indicating the rapid growth of business and profits. For instance, the Travelers' ten-year dividends total $2,950,000, and its 1910 figures $750,000, or a little less than one-quarter of the amount for the whole decade. Yet the claim is made that bad business in the West offset good profits in the East, and that rates must be raised to give the companies an adequate return. The Travelers' dividend rate last year, it will be remembered was 30 per cent.

One Set of Rates Up 1,003 Per Cent.

"An example of the increase of rates in one direction is afforded by a concern which insures thirty-seven wagons. Prior to this year this company secured a rate of $14 a wagon, or $663 in all. This was a rate 50 per cent higher than the ordinary, as it provided that if one man should be killed $10,000 would be paid, and $20,-000 if two or more were victims of the same accident. The ordinary rate is for $5,000 for one death and $10,000 for more than one.

"Under the new rate this company would have to pay $187.50 as against $17, for this double insurance, and $125 for the $5,000 and $10,000 maximum. In other words, instead of $663 premiums for the thirty-seven wagons the concern would have to pay $6,937, an increase of 1,003 per cent.

Works a Hardship on Many.

"The Interstate Iron & Steel company, with plants at East Chicago and Cambridge, Ohio, is among the concerns whose policies expired this spring, and the renewals of which necessitated a much greater expenditure.

"'The increase of casualty premiums has been a great burden to us, as it doubtless has to other similar concerns', said Treasurer J. E. Russell o fthat company. 'Our rates were increased from 50 to 75 per cent on different classes of work. I think it is a matter that the federal government should take a hand in and regulate, for the differences of premiums in various states work a hardship on many concerns which are identical in scope, but affected by different state laws.'

All But One Included.

"All the leading companies doing liability insuring are in the agreement, including the following:

"Etna Accident & Liability of Hartford, Etna Life of Hartford, American Casualty of Reading, Pa.; Casualty Company of America of New York city, Empire State Surety of New York, Employers' Liability, Ltd., London; Fidelity and Casualty of New York, General Accident of Scotland, London Guarantee and Accident of London, Maryland Casualty of Baltimore, New Amsterdam Casualty of New York, Ocean Accident and Guarantee, Ltd., London; Pacific Coast Casualty of San Francisco, Pennsylvania Casualty of Scranton, Standard Accident of Detroit, Travelers' of Hartford, Travelers' Indemnity of Hartford, Union Casualty of Philadelphia, United States Casualty of New York.

"The American Fidelity of Montpelier, Vt., is said to be the only concern not in the 'trust.'"

Emperor's Toy Warship.

A warship, fifty-five feet long, with a capacity of thirty tons, was the toy the emperor of Germany had to play with when a boy. It was an heirloom, presented to his great-grandfather by William IV of England. It was with this toy the kaiser drew his first inspiration of naval greatness. The inspiration for great things, however, was derived from the national beverage, the tonic and health value of which is exemplified in the present day, by golden grain belt beers, the peers of any beers on earth. One trial will convince the most skeptical. Get supplied by your nearest dealer, or minneapolis brewing company duluth branch.

Another Physician Advocates Care of Nasal Catarrh to Stop Ravages of Consumption Home Treatment Given.

(Dayton, O., Journal.)

"The nostrils or nasal passages afford an excellent breeding place for all manner of disease germs, including tuberculosis," says Dr. J. W. McLaughlin, "and I hope the day will come when every man, woman and child will daily use an antiseptic nostril wash, just as all cultivated people use the tooth brush. The care of the nasal passages is even more important than the teeth and mouth, for the reason that the saliva is of an antiseptic nature. A nostril wash once or twice daily is refreshing and promotes free breathing, prevents catarrh, colds and lung trouble.

"Nasal catarrh is both dangerous and embarrassing. Here is a treatment which promptly cleans, soothes and heals the nasal passages while destroying all the putrid, slimy matter and preventing its further formation. Obtain of any well-stocked druggist two ounces of antiseptic vilane powder. Use a half teaspoonful to a pint of warm water. Snuff up into the nostrils 6 to 8 times. Also make a balm by mixing a teaspoonful of the powder with one ounce of vaseline. Apply two or three times daily and catarrh will vanish. Gives a delightfully clear feeling and makes breathing easy."

MARINE

MAY DESERT SHAWNEE.

Owner Will Inspect Sunken Barge Before Ordering It Raised.

Cleveland, Ohio, May 23.—The coal barge Shawnee, minus all equipment which might be washed away by water, lies on the west arm of the protecting breakwater, where she went down last Tuesday night. Yesterday John D. Stanton, diver and contractor stripped the craft of all towlines and loose accessories. Today the owner, William H. Ellery of Detroit, will arrive in Cleveland to inspect the barge.

It was announced by Mr. Stanton that no efforts would be made to remove the barge until after the inspection of Mr. Ellery. The cargo is insured and in case the craft is thought to be worth raising it will be done by the insurance company. If the damage is thought to have made the craft unfit for further service the cargo will likely be removed and the wreck will be turned over to the United States government.

The Shawnee is one of the oldest schooners still in use on the lakes. She was built in 1873 and has had an eventful career. She was previously owned by Duncan Dougall of Windsor, Ont. The boat is 178 feet long and thirty-three feet beam. The wreck lies with the bow on the breakwater wall and the stern is submerged. The stick aft is about a third under water.

CAPT. LANGELL IN CHARGE OF Q. M. SHAW.

Officials of M. A. Hanna & Co., for whom the new 524-foot steamer Quincy M. Shaw is building, have announced that Capt. William Langell, who was in the steamer William A. Fitch last season, will bring out the new boat. Phillip A. Lennan will be the first officer and Newall A. Perry will be chief engineer.

The steamer Shaw was launched at Lorain last Wednesday and it is expected that she will be ready to go in commission about the middle of June.

New Lumber Merger.

North Tonawanda, N. Y., May 23.—The biggest lumber merger that has ever been consummated in Tonawanda was closed last week when the White, Gratwick & Mitchell Lumber company, the White, Frost & White Lumber company were merged into one company under the firm name of White, Gratwick & Mitchell, incorporated. Guy White, of White, Frost & White company, under the terms of the deal becomes a member of the firm, and George A. Mitchell of Buffalo, is president of the company.

The wards and docks of the three companies are at Gratwick fronting on the Niagara river. The deal provides for the taking over of the White, Gratwick & Mitchell company lumber yards, docks and about 15,000,-000 feet of lumber stock of the White, Frost & White company at Gratwick and the yard, large box factory and stock of the Island Box company, on the river road here. Through the terms of the deal the steamer Edward Smith and barge Iron City also become the property of the new firm. The boats were owned by the White, Frost & White company. The merger will make the new firm one of the largest lumber concerns in the country.

Sandbar Near Racine.

The steamer Romania with a load of coal consigned to the Racine Gas company was unable to enter that harbor and was forced to go to Milwaukee and lighter from an 18-foot depth to fthat company. A sand bar has formed outside the Racine harbor proving a menace to navigation and making it impossible for the larger boats to enter.

The city officials of Racine have taken the matter up with the governmetn engineer and an attempt will be made to have the bar removed at once.

Livingstone Cut Patrol.

Application has been made to the dominion department of marine to supply a patrol boat which shall direct traffic through the Livingstone channels and prevent vessels going through the channels at full speed. President William Livingstone is credited with this action.

There have been several escapes from accidents in the channels recently and the work has been interfered with. A temporary patrol will be placed in commission at once.

CASS LAKE LOSES PIONEER CITIZEN

Charles Argall, Once Village Attorney, Is Victim of Tuberculosis.

Cass Lake, Minn., May 23.—(Special to The Herald.)—Charles Argall, one of the pioneers of Cass Lake, died at his home here yesterday after a lingering illness with tuberculosis. Mr. Argall had been failing for some time and it was only about six weeks ago that hopes of recovery were given up. The deceased leaves a wife and two children, Gladys and Mildred aged 10 and 12.

Mr. Argall has held many responsible positions during his practice as a lawyer. He was village attorney here several terms.

The day before he died the supreme court upheld a decision of the lower court in his libel suit against Samuel Sutor of this place.

The funeral will be held today at 2 p. m., and the body will be interred in the Cass Lake cemetery.

Success In Strength Not In Brains

Many men with ordinary brains make huge successes, while many brilliant men are failures because they lack the nerve, motive power—otherwise called steam, vim, snap. Most men and women should take a safe and effective nerve-invigorator and blood purifier every once in a while to "recharge their batteries," for what can you do when your strength vanishes, no matter how brainy you may be?

If you have Nervous Troubles of any sort, tired, you cannot sleep, no appetite, Kidney or Liver Trouble, or Rheumatism, you should take a course of Make-Man Tablets at once.

Make-Man Tablets are wonderful builders of nerve-strength and purifiers of the blood. The first box will do you a lot of good. They are absolutely the best medicine for men, women and children, because they give a splendid, youthful tone to the nerves, quicken the brain, dispel worry, give a keen edge to the appetite and sound refreshing sleep. Trial treatment free on request. Make-Man Tablet Co., Dept. 14, Chicago. Sold at 50c and recommended by all druggists. A. E. Swedberg, White Swan Drug Co., 3 East Superior St.; also 2015 West Superior St.

Bernhardt's Seat Sale Opens

Thursday morning at 10 o'clock.

CAUGHT FISH WHILE HE WAS ASLEEP.

That nobody loves a fat man is not an uncommon saying, but there is one fat man in town who seems to be loved by brook trout. It is claimed that he can catch them while asleep along the bank.

Last Sunday, so the story goes, he went out after the speckled beauties with several friends. Being fat and not anxious to walk it all off in one day, he soon dropped behind. When the others came back they found him sound asleep on the bank with his back against a big pine stump. Pulling out his line he had a fine trout on the other end. And his friends swear that he got three others in the same way. They claim that every one of them took the hook while he was asleep. The lucky fat man is employed as a candy maker with a local concern. He says that trout fishing isn't half as hard work as some people had tried to make him believe. He says that the next time he goes out he is going to bring his equipment up-to-date by adding a pillow and blanket to his outfit.

In the great piano sale at French & Bassett's you will find the entire stock of the Duluth Music company. Used upright pianos from $75 up, perfect condition; $175 new upright pianos for $87, and so on through the list. Many pianos at half price and some at less than half. Easy payments.

JUDGE FAILS AS PEACEMAKER

Tennesseean Is Killed By Negro Who Murdered Cook.

Nashville, Tenn., May 23.—Judge David F. Barry of the Sumner county bench interfered in a quarrel between his cook and a negro named Sweat at the Barry home, near Gallatin, early today. Sweat killed the cook, then turning the gun on Judge Barry, instantly killed him. A posse went in pursuit and rounded up Sweat in a barn. He shot from a window, hitting Constable James Barnes.

The mob threaten to lynch the negro when he is taken from his barricade in the barn.

INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women."—MRS. WM. SEALS, 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

DEFECTIVE PAGE

COMBINE TO RAISE RATES

Sixty of Casualty Insurance Companies Said to Be in Trust.

Rates in Minnesota Were Given a Big Boost Jan. 1.

Despite the fact that several of the greatest employers of labor in this district, including the United States Steel corporation, do no business with casualty insurance companies, more employers' liability insurance is handled in Duluth than in any city of equal size in the United States. As the result of a conference between the different companies doing business in Minnesota and an exchange of experiences last summer Minnesota casualty rates were raised Jan. 1, so that rates as applied to certain risks are higher here than in any other state in the Union.

Employers of labor who do business with casualty insurance companies in Duluth and vicinity will naturally be interested in the charge now being made that sixty of the large companies doing business in the United States have combined to increase rates all through the country and it is said that the federal authorities are inquiring into the alleged "trust" on the basis that it is aking all, or a little more than, the people can stand.

The Minnesota rate increases, which went into effect Jan. 1, were staggering. Insurance for mining companies went up about 200 per cent. Lumber companies found themselves compelled to pay 50 per cent more than they had formerly, while many of the other manufacturing enterprises also were forced to meet the 50 per cent increases, or go outside of the companies interested in the rate-increasing agreement for their liability insurance. As nearly all of the big companies were interested in the increases, going outside might entail going to unreliable companies.

As a result of the Minnesota increases, a number of large employers of labor gave up liability insurance and assumed their own risks. The smaller people, to whom a big verdict might mean bankruptcy, were forced to pay the new rates or go without liability insurance. They are paying the rates, and to many of them it is a hardship.

The insurance companies can find data to support their position that Minnesota rates were too low, they say. They have been hit hard in Minnesota, especially in mining company insurance, and for a time many of the large companies refused to touch mine liability. With the increased rates, some of them have extended to that business. It is claimed that casualty companies have lost $10,000,000 in Minnesota in the last ten years. Smaller employers of labor, who are hardest hit by the new rates, claim that the greatest loss was from the mines and other big industrial enterprises, and that in certain cases the new rates are inequitable in that they are hitting industries not responsible for the heavy losses.

Not Losing Money.

As far as the general increases in rates throughout the United States are concerned, it is alleged that the companies cannot substantiate their charges that they have been losing money. The Chicago Tribune has compiled figures showing that the biggest companies doing business in this country, including several London companies, have been making millions of dollars, although they may have been hard hit in Minnesota, as they say, they have been making up their losses, and much more, in other states.

The Chicago Tribune yesterday said:

"A new rate hoisting combine has entered the financial field. It embraces sixty or more of the casualty insurance companies of America and similar foreign concerns doing business in this country. As a result employers desiring liability insurance must pay increases varying from 15 to 140 per cent, and, in at least one case, the increased rate is ten times the rate prevailing last year—or seek more moderate prices among the few concerns outside the trust. The agreement has been formulated in New York.

"The long suffering public has been served with numerous boosts in prices and rates, but the increases forced by this combine are said to hold the record.

"The United States government is said to be inquiring into this trust and its proclivities to demand all or a little more than the people can stand.

"Huge as the rate increases in liability insurance have been within the last four months, there is a report of further raises likely to be made unless Attorney General Wickersham intervenes with action to prevent the continuance of the extortion.

Profits Are Huge Already.

"The casualty insurance companies involved in this rate raise put forth as a reason for their action the claim that rates had been too low; that agents had been cutting under the agreed rates, and that profits had shrunk.

"However, a consideration of the statistical tables of seven of the leading companies in the new agreement does not bear out this contention.

"The year 1910 showed huge profits for all, one of the largest of the companies paying a dividend last year of 41 per cent. In the face of this, the big increases are agreed on and are levied for the current year.

Bulkeley's Concern Prospers.

"The Aetna Life of Harford, of which Morgan G. Bulkeley of Connecticut, recently retired by his constituency from the United States senate, is president, is prospering. The premiums paid to this concern during 1910 totaled $6,-019,880 and its insurance losses were $3,316,496, leaving a comfortable margin of profit from insurance alone of $2,694,384. Of this the stockholders received dividends amounting to $100,-000, or 5 per cent on the capitalization of $2,000,000.

"Other companies show even greater profits. The Maryland Casualty of Baltimore shows a dividend of $410,-000, or 41 per cent on its capitalization of $1,000,000 on premiums of $4,-488,756 and losses of $1,992,521.

"The Travelers of Hartford declared a dividend of 30 per cent, $750,000 on a capitalization of $2,500,000, its figures being: Premiums, $9,555,790; losses, $5,134,035.

"The Fidelity & Casualty of New York had an 18 per cent dividend last year, or $180,000 against a capital stock of $1,000,000. Its margin of profits between premiums and losses were $4,216,912. The dividend rates of the three English companies cited are not given, as the American returns are sent directly to the home offices in London. Their margin of premium profit averages well with the United States companies.

Show Their Best Year.

"All the figures given in the tables are of interest as indicating the immense wealth of the insurance corporations engaging in the casualty business. Particularly is this true of the table showing results of the last decade. Not one of the seven leading companies enumerated added less than $780,000 to its reserve fund during that period, while one, the Travelers, put away $8,078,773.

"The surpluses were enlarged in like fashion, swelling the admitted assets of the Aetna to $101,000,000 and of the Travelers to $75,000,000. The net surplus of each of these concerns is more than $8,000,000.

"Significant also is the comparison between the total of dividends declared during the last ten years and those of the single year 1910 as indicating the rapid growth of business and profits. For instance, the Travelers' ten-year dividends total $2,950,000, and its 1910 figures $750,000, or a little less than one-quarter of the amount for the whole decade. Yet the claim is made that bad business in the West offset good profits in the East, and that rates must be raised to give the companies an adequate return. The Travelers' dividend rate last year, it will be remembered was 30 per cent.

One Set of Rates Up 1,003 Per Cent.

"An example of the increase of rates in one direction is afforded by a concern which insures thirty-seven wagons. Prior to this year this company secured a rate of $14 a wagon, or $663 in all. This was a rate 50 per cent higher than the ordinary, as it provided that if one man should be killed $10,000 would be paid, and $20,-000 if two or more were victims of the same accident. The ordinary rate is for $5,000 for one death and $10,000 for more than one.

"Under the new rate this company would have to pay $187.50 as against $17, for this double insurance, and $125 for the $5,000 and $10,000 maximum. In other words, instead of $663 premiums for the thirty-seven wagons the concern would have to pay $6,937, an increase of 1,003 per cent.

Works a Hardship on Many.

"The Interstate Iron & Steel company, with plants at East Chicago and Cambridge, Ohio, is among the concerns whose policies expired this spring, and the renewals of which necessitated a much greater expenditure.

"The increase of casualty premiums has been a great burden to us, as it doubtless has to other similar concerns," said Treasurer J. E. Russell of that company. "Our rates were increased from 50 to 75 per cent on different classes of work. I think it is a matter that the federal government should take a hand in and regulate, for the differences of premiums in various states work a hard-ship on many concerns which are identical in scope, but affected by different state laws."

All But One Included.

"All the leading companies doing liability insuring are in the agreement, including the following:

"Etna Accident & Liability of Hartford, Etna Life of Hartford, American Casualty of Reading, Pa.; Casualty Company of America of New York city, Empire State Surety of New York, Employers' Liability, Ltd., London; Fidelity and Casualty of New York, General Accident of Scotland, London Guarantee and Accident of London, Maryland Casualty of Baltimore, New Amsterdam Casualty of New York, Ocean Accident and Guarantee, Ltd., London; Pacific Coast Casualty of San Francisco, Pennsylvania Casualty of Scranton, Standard Accident of Detroit, Travelers' of Hartford, Travelers' Indemnity of Harttord, Union Casualty of Philadelphia, United States Casualty of New York.

"The American Fidelity of Montpelier, Vt., is said to be the only concern not in the 'trust.'"

Emperor's Toy Warship.

A warship, fifty-five feet long, with a capacity of thirty tons, was the toy the emperor of Germany had to play with when a boy. It was an heirloom, presented to his great-grandfather by William IV of England. It was with this toy the kaiser drew his first inspiration of naval greatness. The inspiration for great things, however, was derived from the national beverage, the tonic and health value of which is exemplified in the present day, by golden grain belt beers, the peers of any beers on earth. One trial will convince the most skeptical. Get supplied by your nearest dealer, or minneapolis brewing company duluth branch.

MARINE

MAY DESERT SHAWNEE.

Owner Will Inspect Sunken Barge Before Ordering It Raised.

Cleveland, Ohio, May 23.—The coal barge Shawnee, minus all equipment which might be washed away by water, lies on the west arm of the protecting breakwater, where she went down last Tuesday night. Yesterday John D. Stanton, diver and contractor stripped the craft of all towlines and loose accessories. Today the owner, William H Ellery of Detroit, will arrive in Cleveland to inspect the barge.

It was announced by Mr. Stanton that no efforts would be made to remove the barge until after the inspection of Mr Ellery. The cargo is insured and in case the craft is thought to be worth raising it will be done by the insurance company. If the damage is thought to have made the craft unfit for further service the cargo will likely be removed and the wreck will be turned over to the United States government.

The Shawnee is one of the oldest schooners still in use on the lakes. She was built in 1873 and has had an eventful career. She was previously owned by Duncan Dougall of Windsor, Ont. The boat is 178 feet long and thirty-three feet beam. The wreck lies with the bow on the breakwater wall and the stern is submerged. The stick aft is about a third under water.

CAPT. LANGELL IN CHARGE OF Q. M. SHAW.

Officials of M. A. Hanna & Co., for whom the new 524-foot steamer Quincy M. Shaw is building, have announced that Capt. William Langell, who was in the steamer William A. Fitch last season, will bring out the new boat. Phillip A. Lennan will be the first officer and Newall A. Perry will be chief engineer.

The steamer Shaw was launched at Lorain last Wednesday and it is expected that she will be ready to go in commission about the middle of June.

New Lumber Merger.

North Tonawanda, N. Y., May 23.—The biggest lumber merger that has ever been consummated in Tonawanda was closed last week when the White, Gratwick & Mitchell Lumber company, the White, Frost & White Lumber company were merged into one company under the firm name of White, Gratwick & Mitchell, incorporated. Guy White, of White, Frost & White company, under the terms of the deal becomes a member of the firm, and George A. Mitchell of Buffalo, is president of the company.

The wards and docks of the three companies are at Gratwick fronting on the Niagara river. The deal provides for the taking over of the White, Gratwick & Mitchell company lumber yards, docks and about 15,000,-000 feet of lumber stock of the White, Frost & White company at Gratwick and the yard, large box factory and stock of the Island Box company, on the river road here. Through the terms of the deal the steamer Edward Smith and barge Iron City also become the property of the new firm. The boats were owned by the White, Frost & White company. The merger will make the new firm one of the largest lumber concerns in the country.

Sandbar Near Racine.

The steamer Romania with a load of coal consigned to the Racine Gas company was unable to enter that harbor and was forced to go to Milwaukee and lighter from an 18-foot depth to fifteen feet. A sand bar has formed outside the Racine harbor proving a menace to navigation and making it impossible for the larger boats to enter.

The city officials of Racine have taken the matter up with the governmetn engineer and an attempt will be made to have the bar removed at once.

Livingstone Cut Patrol.

Application has been made to the dominion department of marine to supply a patrol boat which shall direct traffic through the Livingstone channels and prevent vessels going through the channels at full speed. President William Livingstone is credited with this action.

There have been several escapes from accidents in the channels recently and the work has been interfered with. A temporary patrol will be placed in commission at once.

Sault Passages.

Sault Ste. Marie, Mich., May 23.—(Special to The Herald.)—Up Monday: Doric, Champlain, House, noon; Wissahickon, 1 p. m.; Edenborn, 1:30; Kennedy, 2:30; Ness, barge, 3:30; J. P. Departures—Dinkey, J. P. Morgan, Jay Morse, Verona, Joseph Morrow, Davock, B. F. Jones, Morrow, Zenith City, Magna, Bryn Mawr, Ellwood, ore; Yale, light; Lakeland, package freight.

Another Physician Advocates Care of Nasal Catarrh to Stop Ravages of Consumption Home Treatment Given.

(Dayton, O., Journal.)

"The nostrils or nasal passages afford an excellent breeding place for all manner of disease germs, including tuberculosis," says Dr. J. W. McLaughlin, "and I hope the day will come when every man, woman and child will daily use an antiseptic nostril wash, just as all cultivated people use the tooth brush. The care of the nasal passages is even more important than the teeth and mouth, for the reason that the saliva is of an antiseptic nature. A nostril wash once or twice daily is refreshing and promotes free breathing, prevents catarrh, colds and lung trouble.

"Nasal catarrh is both dangerous and embarrassing. Here is a treatment which promptly cleans, soothes and heals the nasal passages while destroying all the putrid, slimy matter and preventing its further formation. Obtain of any well-stocked druggist two ounces of antiseptic vilane powder. Use a half teaspoonful to a pint of warm water. Snuff up into the nostrils 6 to 8 times. Also make a balm by mixing a teaspoonful of the powder with one ounce of vaseline. Apply two or three times daily and catarrh will vanish. Gives a delightfully clear feeling and makes breathing easy."

WE POSITIVELY QUIT BUSINESS ON AUGUST 1st

Buying your spring clothes **right in season, just when you want and need them — at less than cost**—is an opportunity that seldom presents itself. Lack of capital to continue in business forces us to slaughter **every dollar's worth of our stock before August 1st.**

Judging from our daily receipts and the enormous crowds that are filling our store to its capacity this stock will not last very long, therefore our advice to you is if you value your money to come for your share of the bargains while stocks are complete. Nothing reserved, every bit of merchandise, whether for men, young men, boys, women or misses, **is thrown out to be closed out at wholesale cost, and in a good many instances at a substantial loss to us. The time for you to take advantage of this sale is now.**

SALE STARTS EVERY MORNING AT 8:30 A. M.

CLOSING AT 6 P. M., EXCEPTING SATURDAYS

CASS LAKE LOSES PIONEER CITIZEN

Charles Argall, Once Village Attorney, Is Victim of Tuberculosis.

Cass Lake, Minn., May 23.—(Special to The Herald.)—Charles Argall, one of the pioneers of Cass Lake, died at his home here yesterday after a lingering illness with tuberculosis. Mr. Argall had been failing for some time and it was only about six weeks ago that hopes of recovery were given up. The deceased leaves a wife and two children, Gladys and Mildred aged 10 and 12.

Mr. Argall has held many responsible positions during his practice as a lawyer. He was village attorney here several terms.

The day before he died the supreme court upheld a decision of the lower court in his libel suit against Samuel Sutor of this place.

The funeral will be held today at 2 p. m., and the body will be interred in the Cass Lake cemetery.

Bernhardt's Seat Sale Opens

Thursday morning at 10 o'clock.

Success In Strength Not In Brains

Many men with ordinary brains make huge successes, while many brilliant men are failures because they lack the nerve, motive power—otherwise called steam, vim, snap. Most men and women should take a safe and effective nerve-invigorator and blood purifier every once in a while to "recharge their batteries," for what can you do when your strength vanishes, no matter how brainy you may be?

If you have Nervous Troubles of any sort, tired, you cannot sleep, no appetite, Kidney or Liver Trouble, or Rheumatism, you should take a course of Make-Man Tablets at once.

Make-Man Tablets are wonderful builders of nerve-strength and purifiers of the blood. The first box will do you a lot of good. They are absolutely the best medicine for men, women and children, because they give a splendid, youthful tone to the nerves, quicken the brain, dispel worry, give a keen edge to the appetite and sound refreshing sleep. Trial treatment free on request. Make-Man Tablet Co., Dept. 14, Chicago. Sold at 50c and recommended by all druggists. A. E. Swedberg, White Swan Drug Co., 3 East Superior St.; also 2015 West Superior St.

CAUGHT FISH WHILE HE WAS ASLEEP.

That nobody loves a fat man is not an uncommon saying, but there is one fat man in town who seems to be loved by brook trout. It is claimed that he can catch them while asleep along the bank. Last Sunday, so the story goes, he went out after the speckled beauties with several friends. Being fat and not anxious to walk it all off in one day, he soon dropped behind. When the others came back they found him sound asleep on the bank with his back against a big pine stump. Pulling out his line he had a fine trout on the other end. And his friends swear that he got three others in the same way. They claim that every one of them took the hook while he was asleep. The lucky fat man is employed as a candy maker with a local concern. He says that trout fishing isn't half as hard work as some people had tried to make him believe. He says that the next time he goes out he is going to bring his equipment up-to-date by adding a pillow and blanket to his outfit.

In the great piano sale at French & Bassett's you will find the entire stock of the Duluth Music company. Used upright pianos from $75 up, perfect condition; $175 new upright pianos for $87, and so on through the list. Many pianos at half price and some at less than half. Easy payments.

JUDGE FAILS AS PEACEMAKER

Tennesseean Is Killed By Negro Who Murdered Cook.

Nashville, Tenn., May 23.—Judge David F. Barry of the Sumner county bench interfered in a quarrel between his cook and a negro named Sweat at the Barry home, near Gallatin, early today. Sweat killed the cook, then turning the gun on Judge Barry, instantly killed him. A posse went in pursuit and rounded up Sweat in a barn. He shot from a window, hitting Constable James Barnes.

The mob threaten to lynch the negro when he is taken from his barricade in the barn.

INFLAMMATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women." —Mrs. Wm. Seals, 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

INTENTIONAL DUPLICATE EXPOSURE

DEFECTIVE PAGE

SCIENTISTS SECEDE FROM THE MOTHER CHURCH

Dissension in Ranks Follows the Death of Mrs. Eddy.

Will Assume Name of the Christian Science Reformed Church.

The expected dissension in the ranks of the Christian Science church following the death of the founder of the church, the late Mrs. Mary Baker G. Eddy of Boston, Mass., has taken place, so far as the Northwest is concerned.

At a meeting of the members of the Second Church of Christ, Scientist, this city, last evening, there was only one dissenting vote to a resolution which was adopted and which declares the severance of ties binding it to the so-called Mother church of Boston, Mass.

The local church will order its card removed from the official publication of the cult, the Christian Science Journal, and it will assume the name, Christian Science Reformed church.

The resolutions adopted follow:

"Whereas church organization is only a material framework and is not the Church Universal; and whereas, forgetful of this truth, when a church organization becomes large, rich and powerful, its members magnify and worship their particular organization, instead of using the church organization merely as a temporal help whereby those humbly seeking to follow Jesus may, with perfect freedom, cooperate in His spirit to bless and to save their fellow beings; and

"Whereas, Mary Baker Eddy founded and established Christian Science, and hence Christian Science is what she has defined it to be; and

"Whereas, since the death of Mrs. Eddy the Christian Science board of directors of the Mother church has absolute and final authority to control the teaching and the practice of Christian Science in the Mother church and in its branch churches, there being no appeal from the decisions of the board, whose members hold office for life, with power to remove any of their own number and to fill all vacancies on the board, and

"Whereas, One of the first acts of the Christian Science board of directors of the Mother Church after the death of Mrs. Eddy has been to condemn Christian Science as taught by Abbot Edes Smith, C. S. D., who is a personal and loyal student of Mrs. Eddy herself, and whereas, under this decision, Christian Science, as taught and practiced by Mr. Smith and by his loyal students and friends everywhere, is not permitted to be taught or practiced within the Mother Church or within its branch churches; and

"Whereas, We are firmly convinced that Mr. Smith's teachings are absolutely logical and rational and in strict accord with the letter and with the spirit of the Bible as explained by Mrs. Eddy, and whereas, we cannot surrender the truth nor accept that which is contrary to the truth as we see it; and

Whereas, By reason of the above facts we, the students and friends of Mr. Smith and loyal adherents of Christian Science as declared to the world by Mrs. Eddy, recognize with regret that the tie which lovingly bound us to the Mother Church during Mrs. Eddy's lifetime must now, in loyalty to Mrs. Eddy and in obedience to our own conscience, be severed.

"Therefore, Be It Resolved, That this church hereby severs its connection with the Mother Church and ceases to be a branch Church of Christ, Scientist; that its card be forthwith removed from The Christian Science Journal, and that this church shall as soon as may be, amend its Articles of Association so as to become a Christian Science Reformed Chuch."

CITY BRIEFS

Printing and Bookbinding
Thwing-Stewart Co. Both 'phones, 114.

Body Not Identified.
The body of the floater found Sunday afternoon at the foot of Northern Pacific dock No. 6, was buried yesterday at the expense of the county, from the undertaking rooms of Flood & Horgan. Interment was at Park Hill cemetery. The man's features were unrecognizable and he was buried without having been identified.

Famous Criminal Here.
Frank McDonald, a notorious criminal, spent last night at the city jail on his way to the St. Cloud reformatory. He escaped from the institution into Michigan, where he has just finished serving a fifteen-year sentence for murder. He is being brought back to St. Cloud to finish his time there.

Auto Owner Wins Case.
The jury in the case of Lindquist against Martin Falk for $5,500 as damages for injuries alleged to have been received when Lindquist was hit by Martin Falk's automobile, returned a verdict for the defendant yesterday. The accident happened in Minneapolis. The case has been on trial before Judge Cant for several days.

Ames Estate Settled.
The estate of Ward Ames, Sr., was finally settled up in the local probate court today. Mr. Ames died nearly a year ago. His estate was valued at $319,393.46. The bulk of the estate goes to the widow, Mrs. Clara S. Ames. Others to be benefited by the will are: Ward Ames, Jr., and Mrs. Florence Ames Draper.

Ready for Jury.
The case of Charles Hill, charged with manslaughter in the first degree for the alleged killing of Axel Hill, which has been on trial in district court for some time, will go to the jury this afternoon.

Want Inspector in Suburb.
The health department has been requested by residents of New Duluth to send a sanitary inspector to the suburb. They claimed that there are many yards there which need attention, being filled with rubbish of all descriptions. Before the week is over it is expected that the owners or occupants of all filthy premises will have been served with notices to clean up.

Northland Printery.
Good Printing. Call Zenith 494.

Insurance Company Sued.
The Duluth Log company has begun suit against the Insurance Company of North America for $1,000.83, which it claims is due on policies which covered logs and lumber which were destroyed in a fire.

Judge Believed the Wife.
Allan J. Grose, a land salesman residing in the West end, got ten days straight in the county jail, without the option of a fine, when he was convicted is police court this morning before Judge Windom for assaulting his wife. It was alleged that he had struck and choked her. He denied that he had ever struck her, but said that he had pushed her away from him with his hand, having no intention of injuring her. The court, however, took the woman's version of the affair in preference to his.

Public Accountant and Auditor.
James S. Matteson has removed his office to Suite 703, Alworth building. Telephone, Melrose 4700.

Butcher Is Bankrupt.
Louis Krueger, a butcher at Walker, has filed a petition in voluntary bankruptcy in United States court. He placed his liabilities at $994.58 and his assets at $260, all claimed exempt.

Is Seriously Ill.
James McDowell of 5022 East Superior street, who has been an employe of The Herald for twenty-five years, and has held several important public appointments, including that of fire commissioner, is seriously ill at St. Mary's hospital.

Back From Fishing Trip.
Leo Teske, John Wold, Monk Monson and Al Arneson returned from Pine Island, on Vermilion lake, yesterday and for one day's fishing showed a catch of 128 pickerel. Mr. Arneson fell out of the launch and was hauled in by John Wold. The launch was in the middle of the lake when the accident happened. Mr. Arneson was none the worse for the ducking.

A. O. U. W.

Thursday Evening, May 25th, Maccabee Hall, Lake avenue north.
AUGUST F. FLOERKEY,
Grand Master, and other Grand Lodge officers will be there.
Invite your friend. See notice tomorrow.

AMATEUR THEATRICAL

Trinity Pro-Cathedral Hall, Twentieth Ave. East and Superior St., Thursday evening, May 25. Tickets, 25c and 50c—on sale at Huot's.

PERSONAL

Dr. F. J. Lepak has gone to Chicago on a business trip. He will return within a week.

Dr. Peter Kraft was taken to St. Luke's hospital today to undergo an operation for appendicitis.

Thomas Johnson of Bemidji is at the Lenox.

B. A. Skindall of Virginia is at the Lenox.

Charles Beck of Virginia is at the Lenox.

Mrs. S. J. Baller of 715 East Second street, has gone to Toledo for a six weeks' visit.

Mrs. Benson of Grand Marais is at the St. Louis.

Ray L. Moon of Virginia is at the St. Louis.

Charles Roberts of Chisholm is at the St. Louis.

Thomas S. Erwin of Bemidji is at the Spalding.

I. S. Pritchard of Hibbing is at the McKay.

V. Tabor of Two Harbors is at the McKay.

C. L. Goodell of Barnum is at the McKay.

SALES MANAGERS ELECT OFFICERS

The regular monthly meeting of the Duluth division of the National Sales' Managers' association at the Commercial club today was also the annual meeting. The following officers were elected: President F. C. Berry, Wright-Clarkson Mercantile company; vice president, R. W. Brown, Gowan-Peyton-Congdon company; secretary and treasurer, Norton Mattecks, O. F. Collier Co.; directors, E. W. Russell, National Cash Register company and J. J. Lumm, Clyde Iron Works.

A paper on the subject "Shall Duluth Houses Have a Slogan?" was read by Norton Mattocks and the discussion was led by J. J. Lumm. The papers read today were considered by those present of such importance to the business interests of Duluth that they will be printed in pamphlet form and distributed.

The Duluth organization is a branch of the national association, which is represented in all of the larger cities of the country. The Duluth branch now includes in its membership nearly every sales manager in the city and is considered a potent power for good in trade circles.

DULUTH TRUNK Co
220 WEST SUPERIOR STREET. ESTABLISHED 1888.

Given at the Auditorium, Third avenue east and First street, Wednesday evening, May 24. Lunch served in building. Tickets $1.00.

FARGO AUTO CLUB TO VISIT GRAND FORKS.

Grand Forks, N. D., May 23.—(Special to The Herald.)—The Grand Forks Auto club will have as guests next Saturday and Sunday the members of the Fargo Auto club, the latter organization having laid plans for a run to this city. About twenty-five of the Fargo car owners will participate in the running, bringing about 100 visitors. The tour is scheduled to start at Fargo Saturday morning, the party leaving there at 12 o'clock, arriving in Grand Forks in the evening. The return trip will be made Sunday afternoon. The local car owners expect to make plans for the reception of the Fargo visitors.

COPPERS ADVANCE; SPECIALTIES LEAD

The copper market closed generally higher today, eleventh hour shorts covering. The Cole-Ryan stocks were the strongest on the board. Calumet & Arizona was the leader, appreciating three points from the opening. The annual meeting will be held tomorrow in Calumet and it is expected that the usual quarterly dividend of $1 will be declared.

Crop news is a factor in the market as crops promise to be large. Washington news is being closely watched but is less of a factor than a few weeks ago. The bulk of trading is in the specialties. The American Tobacco case on Monday may cause some realizing in advance of the decision which is not expected to influence sentiment in either way.

Calumet & Montana sold at 38c, 39c, 40c and 39c, Keating at $4.12½, Denn at $5.50.

Amalgamated sold at $67.37½, $68.12½, $67.25, $68.37½ to $68.25, Butte Kalalklava at $4.81¼, Butte Coalition at $20.25, $19.87½ to $20.25, Giroux at $6.31¼ to $6.43¾, Greene at $7, $7.12½ to $7, Superior & Pittsburg at $15 to $16, Shattuck at $19, North Butte at $33.75, $34.25, $33.50 and $34.12½.

* * *

Butte wired Paine, Weber & Co.: W. A. Paine, accompanied by Robert H. Gross, president of the East Butte Mining company, arrived in Butte Sunday night. A thorough inspection of the East Butte property will be made. An examination of the surface workings of the mine was made yesterday and Mr. Paine expressed complete satisfaction with things as he found them. He does not hesitate to say that he believes the East Butte to be one of the best properties in which he is interested. He will make a trip of underground inspection today. He is optimistic as to the future of the copper industry.

* * *

The Boston News Bureau said today: The vein which was cut on the 2,200-foot level of North Butte last week is increasing in richness. From ten feet wide it has grown to a width of fifteen and the ore from 8 to 9 per cent to about 10 per cent.

ADDITIONAL SPORTS

MAHONEY SELLS NORTH BUTTE

Mack Cook has purchased the North Butte, one of the most substantial and best constructed motor boats at the Head of the Lakes, from Capt. Dan Mahoney of the Duluth Boat club.

Negotiations for the sale were practically closed yesterday, the final details are being settled today.

It is understood that the North Butte will be placed in the livery business, together with the other Cook boat.

Mr. Mahoney has owned the North Butte for a number of years.

BOAT CLUB HAS STRONG TEAM ENTERED.

A strong team will participate under the colors of the Duluth Boat club this evening in the indoor athletic events that are scheduled to be held at the Y. M. C. A. gymnasium.

The Duluth Boat club team is expected to make a good showing, as some strong former high school and college athletes have been secured for the team. Following is the list of entries by the boat club team:

100-yard dash—Peters, Starkey, McRae, Harbinson, Forgette, Merrit and Johnson.

Half-mile—Cowan, Merritt, Mapp, Thorburn, Gilpin.

High jump—Johnson, Deighton, Forgette.

Pole vault — Johnson, Harbinson, Cowan, Forgette.

Shot put—Quinn, Liggett, Starkey, Connelly, Thompson.

Relay—Peters, McRae, Forgette, Merritt, Starkey, Johnson.

Forgette won the Y. M. C. A. championship for the best all-around athlete in 1909, and is expected to score points for the Duluth Boat club. Johnson is expected to win the high jump and pole vault. Peters should win the 100-yard dash, as he was the winer in last year's meet.

SILVER LINING TO THE CLOUDS

Thomas Bardon of Ashland, the well known lumber operator, who is at the Spalding, today gave it as his opinion that the outlook in the lumber business, and in the industrial world in general, was better than it was a month or six weeks ago.

While Mr. Bardon declared that the lumber industry was not thriving at the present time, or was anything like what the lumbermen wished, he said that there was a silver lining to the cloud, which could not be discerned a few weeks ago.

"Right now, out on the Pacific coast, the lumber business has all the appearances of a panic without the panic," said Mr. Bardon. "Business out there is practically at a standstill. The lumber business in that section of the country is the worst for years. It might be said that they are doing no operating at all.

"It is not so bad as that in the Middle West, and you will notice that people in general are feeling better. With a good crop outlook it is natural that business should pick up. With a materialization of the present crop promise, the lumber business as well as industrial activity in general will show a great increase."

Mr. Bardon stated that the lumber market was very dull at the present time, and gave as the reason that the railroads were doing no construction work, and that building in general over the country was not anywhere near normal.

He expressed the belief that a big crop would result in more construction upon the part of the railroads, which would have a direct result on the demand for lumber.

SUPERIOR

SUED FOR $1,000; VERDICT FOR $300.

William Hope, who sued Charles McDonough for $1,000 damages in a personal injury suit, in which Hope claimed he fell through a trap door in McDonough's saloon, was awarded a verdict of $300 by a jury in superior court yesterday.

John Lind, charged with stealing $75 in cash and a $40 check from Gust Johnson and Martin Anderson, pleaded guilty in superior court yesterday and was sentenced by Judge Smith to one year at Waupun.

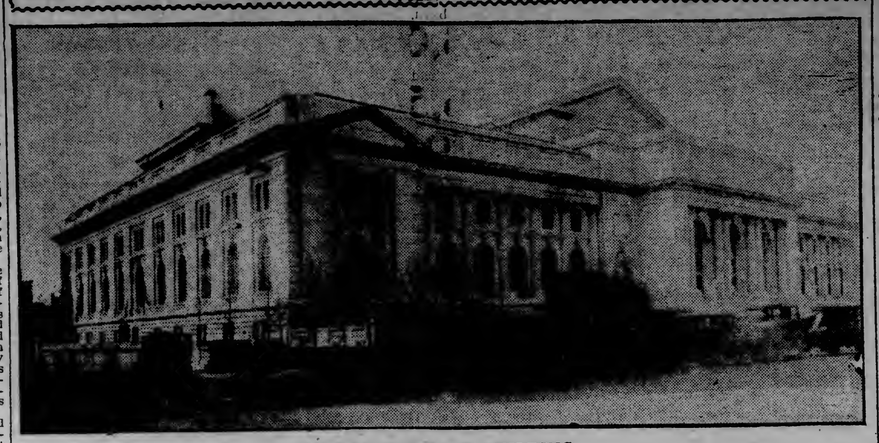
SUPERIOR CHOSEN AS CITY FOR CONVENTION.

The annual meeting of the Wisconsin State Council of Red Men will be held in Superior beginning the second Wednesday in August and lasting for three days. It is expected that there will be about 100 delegates and several visitors. In Superior the membership of the order is about 600.

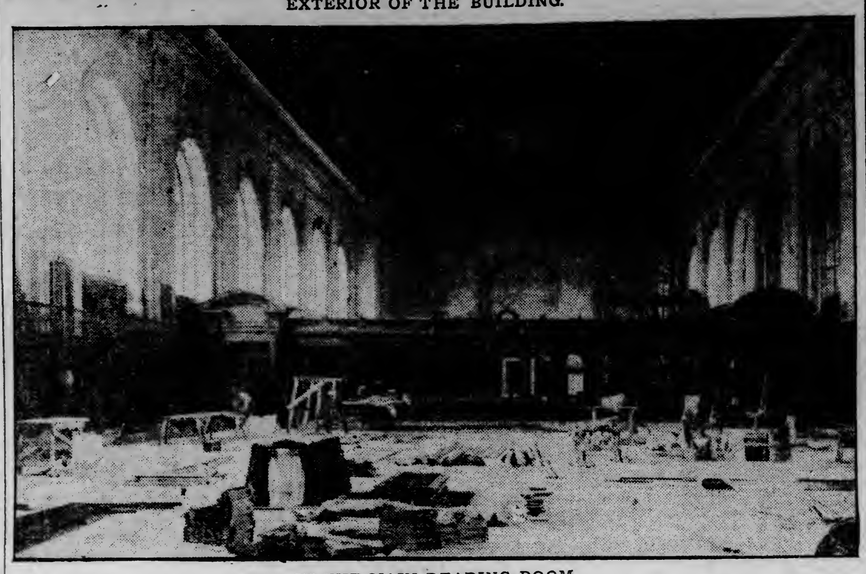
Citizenship Quiz.

R. K. Doe, United States examiner, who came to Superior from St. Paul, yesterday examined forty-six applicants for citizenship in circuit court. Of this number, twenty-eight were admitted, three were denied and several were continued.

NEW YORK CITY'S NEW $8,985,161 PUBLIC LIBRARY



EXTERIOR OF THE BUILDING.



IN THE MAIN READING ROOM.

New York, May 23.—New York city today dedicated its new public library. It represents an expenditure of $8,985,161. Of this $365,066 was for repairing the ground and building the foundation; $2,865,909 for the main construction; $916,703 for book stacks; $299,000 for heating and ventilation; $93,000 for plumbing; $3,133,000 for interior finish; $173,890 for electric equipment. The foundations were commenced in May, 1900, the upper walls in December, 1901, the first marble was set July, 1902, the cornerstone was laid Nov. 10, 1902, and the roof was put on in December, 1906. The library will be the central home of the Astor library, founded in 1849; the Lenox library, founded in 1870 and the Tilden library, founded in 1887. The building, which was designed by the late John Carrers, is of white stone and the interior finish is of white marble. The ceilings in the corridors are in plaster, but the principal rooms have ceilings of carved oak. In the larger rooms the flooring is of red tile, with marble border; in the smaller rooms of cork.

The main reading room is 295 feet long, 77 feet wide and 50 feet high. There are seventy-five miles of shelving with a capacity of 3,500,000 volumes. The building was put up and equipped at the expense of the city and the library will be conducted by the three foundations—Astor, Lenox and Tilden.

COME NORTH, YOUNG MAN

Minnesota Offers Every Chance to Man of Limited Means.

That Is Message Being Sent Broadcast By Immigration Commissioner.

"To the man of limited means, who is willing to apply his own labor with intelligence and proper direction to the development of the land, Minnesota offers greater opportunities than any other state in the Union," is the message George Welsh, state immigration commissioner, is sending to people in other states of the Union.

Mr. Welsh, who is in Duluth today, is a Minnesota enthusiast. As immigration commissioner, he is called upon to distribute information to prospective settlers and seek to induce them to settle in Minnesota, but his enthusiasm isn't merely a branch of his duty. It is a well-grounded confidence in Minnesota and opportunities and when he talks on Minnesota opportunities, his enthusiasm flashes with the sincerity born of firm conviction.

"The land of Northern Minnesota is here to give health and prosperity to the settler," said Mr Welsh. "He cannot come here and pick gold dollars off trees, but by applying his labor intelligently, he can obtain a competence for life. The cheapness of the land, the condition of the soil, and the productiveness of the land are all in favor of the man of small means and many of them are realizing it every year.

"The number of settlers to come into Northern Minnesota last year was greater than ever before. This year I expect an even greater settlement. Just now we are engaged in making available for prospective settlers more definite information."

It is on the mission of obtaining more definite information for inquirers that Mr. Welsh is in Duluth today. He is anxious to get definite data on the composition of the soil, soil topography, local conditions, proximity to market in different sections, roads, transportation facilities, clearing cost and other matter that will be of interest to prospective settlers. His object is to give such information to inquirers that they will know just what resources they need to make a success of Northern Minnesota and just what opportunities await them here.

Mr. Welsh is an enthusiast on the subject of reclamation. He said today that the creation of the reclamation board was an important piece of construction legislation. "I would like to see the reclamation work and the powers of the reclamation board extended," he said.

Mr. Welsh will be one of the speakers at the meeting of the Northern Minnesota Development association here next week.

MINNESOTA MAN TO BE WITNESS

St. Louis, Mo., May 23.—George M. Smith, secretary of the Yellow Pine Manufacturers' association was called today to conclude his testimony in the hearing of the state's ouster suit against the alleged lumber trust.

Assistant Attorney-General John M. Atkinson expects to call W. G. Hollis of Minnesota, representative of the Northwestern association, as the second witness.

Smith's testimony has been delayed by the constant objections of attorneys for the lumber interests. It is expected that his cross examination will be lengthy.

LEGAL NOTICES.

CRITICIZE HAWLEY

Switchmen Testify in Hearing at St. Paul Meeting.

St. Paul, Minn., May 23.—(Special to The Herald.)—A. Pabst, a member of St. Paul lodge No. 31, Switchmen's Union of North America, was called to the stand this morning in the hearing aimed at President J. T. Hawley, immediately after the convening of the fifth day of the special extra session of the biennial convention at the old capitol. He was asked to tell of his share in the Northwest strike two years ago, and to relate just what unconstitutional action President Hawley took in calling and prosecuting the strike. Mr. Pabst refused to tell what took place in the secret session, but it was learned that the same course of questioning as was used yesterday was followed today.

Lays Blame on Men.

Hawley, conducting his own case, tried to establish the fact that the switchmen of the Northwest demanded a strike, that he advised against it, but that, on being forced into it, he acted only within his rights in continuing it. Mr. Pabst was asked if he had received a copy of Mr. Hawley's circular letter of Nov. 23, 1909, setting a date for the strike if the men's demands were not granted. Pabst said he received such a letter. Hawley asked if he made any protest against calling a strike without a referendum vote. He did not.

J. M. Young, whose signature was the first on the charges, was called to the stand yesterday. W. J. Trost, chairman of the grievance committee of the switchmen of the Chicago Great Western railroad and E. C. Lockwood, both of Chicago, conducted the examination for the insurgents. Mr. Hawley conducted his own case. Young was on the stand for more than three hours, but Hawley failed to shake his testimony to the effect that the Northwest strike two years ago was unconstitutional.

Tells What Hawley Did.

Young said Hawley visited the Twin Cities early in the fall of 1909; that he incited the men; that he sent "Bob" Martin of Minneapolis through the Northwest on a salary of $200 a month, urging the men on the Northwest lines to strike, and that he finally, without taking a vote of the union, sent out a circular letter on Nov. 23, telling the men that unless their demands were granted they were to walk out at 6 p. m. on a certain date.

To A. Karon, frame dwelling, East Sixth street between Eleventh and Twelfth avenues	2,500

RETURN TRIP TO IRELAND

Joseph Catherwood Arrested One Day Before Time Limit Expired.

Wife Complains to British Consul of Quality of Tea Served Her.

Joseph Catherwood, his wife and two children will very likely get a return trip to Ireland instead of to Winnipeg, from which city they came to the United States.

Catherwood, his wife and child landed at Quebec May 18, 1908, having come from Queenstown, Ireland. The warrant was issued by telegraph May 15, 1911, and was served May 17, 1911, one day within the three-year limit after which a person may not be deported.

Catherwood is in the county jail and his wife and two children are at the Bethel Home awaiting the order for their deportation on the ground that they have become public charges. Catherwood and his family received aid from the Associated Charities here and in that connection the immigration authorities have been interested in finding that the family of Joseph Parks, tallying wonderfully with the description of the Catherwood family, received aid from the Associated Charities at Winnipeg. Catherwood and his wife both deny they went by the name of Parks in Winnipeg, but:

Joseph Catherwood and Joseph Parks are described as both of the same age, both being tall, having dark brown hair, very scanty on top; sandy mustache, very large wild-looking eyes, long slim face and protruding upper front teeth. Both Mrs. Catherwood and Mrs. Parks are described as being named Sarah and having dark hair and very thin face. Both families are said to have had two children, aged 5 years and 15 months, respectively. Both families are said to have lived at 316 Notre Dame avenue and 68 Adelaide street in Winnipeg; both men are said to have worked as street car conductors; both went to work on a farm at the same time last September, and both came from Ottawa to Winnipeg at the same time. Both disappeared from Winnipeg at the same time, about April 1, and a week or two later their wives also disappeared. Parks was well known in Winnipeg, but Catherwood seems never to have been heard of. Both came from Ireland, and the similarity seems to extend all through their lives, or life, in Canada.

Although Catherwood and his wife declare that they did not go by the name of Parks and did not know anybody of that name, and although they lived at the same address, the immigration authorities are convinced that Catherwood and Parks are the same men. The fact is important only as it shows that Catherwood received aid from charity before he came to this country.

The Catherwoods are about the queerest people the immigration authorities have found in some time. Mrs. Catherwood objects to the menu at the Bethel Home. She says that she cannot drink green tea, for she has never been accustomed to it. She appealed to the British consul here to clear up that point, but the British official was not inclined to make an international affair of it.

Foley's Kidney Remedy Acted Quickly.

M. N. George, Irondale, Ala., was bothered with kidney trouble for many years. "I was persuaded to try Foley's Kidney Remedy, and before taking it three days I could feel its beneficial effects. The pain left my back, my kidney action cleared up, and I am so much better I do not hesitate to recommend Foley Kidney Remedy." For sale by all druggists.

ORDER FOR HEARING ON PETITION FOR ADMINISTRATION—
State of Minnesota, County of St. Louis —ss.

In Probate Court.

In the Matter of the Estate of John Bennett, Decedent.

THE PETITION OF Duluth Log Company, having been filed in this Court, representing among other things, that John Bennett, then being a resident of the County of St. Louis, State of Minnesota, died intestate, in the County of St. Louis, State of Minnesota, on the 11th day of April, 1911, leaving estate in the County of St. Louis, State of Minnesota, and that said petitioner is a creditor of said decedent, and praying that Letters of Administration of the estate of said decedent be granted to Charles D. Oreckovsky.

IT IS ORDERED, That said petition be heard before this Court, at the Probate Court Rooms in the Court House in Duluth, in said County, on Monday, the 12th day of June, 1911, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this Order be served by publication in The Duluth Herald according to law, and that a copy of this order be served on the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.

Dated at Duluth, Minn., May 15th, 1911.

By the Court,
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis Co., Minn.)
D. H., May 16, 23, 30, 1911.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND—
State of Minnesota, County of St. Louis —ss.

District Court, Eleventh Judicial District.

In the matter of the application of Frank A. Hartz to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: Lots Twenty (20) and Twenty-one (21) in Block Nine (9), Duluth Heights Fifth Division, according to the recorded plat thereof on file and of record in the office of the Register of Deeds for said County and State,

Applicant,

vs.

City of Duluth, James W. McCahon, and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein,

Defendants.

The State of Minnesota to the above named defendants:

You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the Clerk of said court, in said county, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and, if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the court for the relief demanded therein.

Witness, J. P. Johnson, clerk of said court, and the seal thereof, at Duluth, in said county, this 8th day of May, A. D. 1911.

J. P. JOHNSON,
Clerk.
By B. G. RILLING,
Deputy.
(Seal, District Court, St. Louis County, Minn.)
S. T. & WILLIAM HARRISON,
Attorneys for Applicant,
608-611 Torrey Building, Duluth, Minn.
D. H., May 9, 16, 23, 1911.

Notice to Contractors

Sealed proposals will be received by Adolph Colem, Clerk of School District No. 32, Minnesota, up till ten o'clock, Saturday morning, June 3, 1911, for raising, turning around, providing a basement, remodelling, and building additions to a certain school building located on the N. W. one acre of the N. E. ¼ of the N. W. ¼, Section 21, Township of Normanna Town 52, Range 13 West of the Fourth Principal Meridian, according to drawings and specifications prepared for same by Frank L. Young & Co., Architects, 33-34 Mesaba block, Duluth, Minn.

Sealed bids to be made upon the forms provided by the Clerk of said District.

The School Board reserves the right to reject any or all bids.

The successful bidder will be required to deposit bonds with the clerk of said school district within ten days of award of contract, in the full amount of the contract price, said bonds in terms to be approved by the said School Board, with either a reputable bonding company as surety or two citizens satisfactory to the said Board.

Signed,
ADOLPH SOLEM,
Clerk, District No. 32, St. Louis County.
Dated at the residence of the clerk, this 20th day of May, 1911.
R. F. D. No. 3, Duluth, Minn.
D. H., May 23 and 27, 1911.

DEFAULT HAS BEEN MADE IN the conditions of a certain mortgage containing a power of sale, executed and delivered by Anna Olson and John R. Olson, her husband, mortgagors, to J. A. Scott and E. F. Alford, mortgagees, bearing date the 31st day of December, 1910, and recorded in the office of the register of deeds in and for St. Louis County, Minnesota, on the 3rd day of January, 1911, at 4:30 o'clock P. M., in book 266 of Mortgages, on page 189; said mortgage was given to secure the payment of eleven promissory notes, bearing even date with said mortgage, made by said mortgagors, for the sum of twenty dollars each, due and payable February 1st, March 1st, April 1st, May 1st, June 1st, July 1st, August 1st, September 1st, October 1st, November 1st and December 1st respectively, in the year 1911, with interest thereon at the rate of ten per cent per annum. Said mortgage contained a provision that if default be made in the payment of said sum of money or interest thereon, or the taxes or any part thereof, at the time and in the manner therein specified, it should be lawful for the mortgagees to declare the entire indebtedness due and payable, and to sell the premises therein described and convey the same to the purchaser in fee simple, agreeably to the statute in such case made and provided. Default has been made in the payment of each and all of said four principal notes for twenty dollars each, which became due on the 1st days of February, March, April and May, 1911, respectively, and the interest thereon. No part of said indebtedness has been paid unto said mortgagees, except the sum of twenty-four and 97-100 dollars paid on said 31st day of December, 1910, upon the said notes so made payable on the first days of November and December, 1911, respectively. There is, at the date of this notice, claimed to be due, and is actually due, the sum of two hundred one and 90-100 dollars. No action at law or otherwise has been commenced for the recovery of the debt secured by said mortgage or any part thereof. Notice is hereby given, that said mortgage will be foreclosed at a public sale of the mortgaged premises, which are described as follows, to-wit:

Lot numbered four hundred twenty-nine (429), in block numbered one hundred nineteen (119), Duluth Proper, Second Division, according to the plat thereof on file and of record in the office of the register of deeds of St. Louis County, Minnesota, to pay said principal indebtedness, interest and the costs of this foreclosure, including twenty-five dollars attorneys' fees, stipulated in said mortgage; said sale will be made in the sheriff's office in the Court House in the city of Duluth, county of St. Louis and state aforesaid, on the 22nd day of June, 1911, at ten o'clock A. M., subject to redemption within one year from that date.

Dated May 8th, 1911.

J. A. SCOTT,
E. F. ALFORD,
Mortgagees.

RICHARD JONES,
Attorney for Mortgagees,
904 Torrey Bldg., Duluth, Minn.
D. H., May 9, 16, 23, 30, June 6, 13, 1911

CERTIFICATE OF INCORPORATION —OF— AMERICAN LAND & TIMBER COMPANY.

KNOW ALL MEN BY THESE PRESENTS, That we whose names are hereunto subscribed do hereby associate ourselves together under the Constitution and General Laws of the State of Minnesota, and more particularly under the provisions of Chapter 58 of the Revised Laws of said state for the year 1905, as a corporation, under the name and for the purposes hereinafter set forth, and to that end do hereby subscribe and acknowledge this Certificate of Incorporation.

ARTICLE I.

The name of this corporation shall be AMERICAN LAND & TIMBER COMPANY, and the general nature of its business shall be the buying and selling of timber, timber lands and other lands; the acquiring, owning and improving of lands, tenements and hereditaments and selling the same; the colonization and selling of lands to actual settlers; the cutting and logging of timber and selling the same, and the manufacture and sale of lumber and other timber products, and the acquisition, construction and operation of any mills or factories and power plants necessary or suitable to effectuate such purpose; the business of this corporation to be carried on in the State of Minnesota and in any other state or country where this corporation may be or become qualified and entitled to engage in such business or any thereof. The principal place of transacting the business of this corporation shall be in the city of Duluth in the County of St. Louis and State of Minnesota, and it may have such branches offices as may be determined by the Board of Directors of such corporation.

ARTICLE II.

The time of the commencement of this corporation shall be the tenth day of June, A. D. 1911, and the period of its duration shall be thirty (30) years.

ARTICLE III.

The names and places of residence of the incorporators of this corporation are as follows: J. L. Washburn, John G. Williams and A. McC. Washburn, all residing at Duluth, Minnesota.

ARTICLE IV.

The government of this corporation and the conduct of its affairs shall be vested in a board of three (3) directors, who shall all be stockholders, and except as herein provided, shall be elected by the stockholders at their annual meeting, which shall be held on the last Monday in June of each year, and who shall, within ten days after their election, elect the following officers, to-wit: a President, a Vice President, a Secretary and a Treasurer. The office of Treasurer may be held by any other officer, and the offices of Secretary and Treasurer may be held by persons who are not members of the Board of Directors.

The Board of Directors may appoint such additional officers or agents as it may deem necessary to aid in the conduct of the business of the corporation, prescribe the duties thereof and discharge the same at will.

The first annual meeting of this corporation shall be held on the last Monday in June, 1912, and until such time the following persons shall constitute the Board of Directors of this corporation, to-wit: J. L. Washburn, John G. Williams and A. McC. Washburn, and until the directors chosen at such annual meeting shall elect officers and such officers shall qualify, the officers of this corporation shall be as follows, to-wit: J. L. Washburn, President; John G. Williams, Vice President; Lillian I. Feetham, Secretary, and J. L. Washburn, Treasurer. The regular officers of this corporation shall hold office for the period of one year, or until their successors are elected and qualify; but vacancies occurring either in the membership of the Board of Directors or in any of the offices of this corporation, shall be filled by the Board of Directors until successors shall be elected at the succeeding annual meeting and shall qualify.

The Board of Directors of this corporation may adopt such By-Laws as it deems needful for the conduct of the affairs of this corporation.

ARTICLE V.

The amount of the capital stock of this corporation shall be Five Hundred Thousand Dollars ($500,000), and the same shall be divided into five thousand (5,000) shares of one hundred dollars each. The same shall be sold only at par, either for cash or property deemed by the Board of Directors to be equivalent thereto, and the same shall be paid in as called for by the Board of Directors.

ARTICLE VI.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be the sum of Six Hundred Thousand Dollars ($600,000), and it shall be lawful at any time for this corporation to issue its notes, bonds or other obligations, within the limitations above prescribed, upon such terms as may be determined by the Board of Directors or the stockholders, and to secure the same by trust deed or mortgage upon any of the property which it may acquire, in such form as may likewise be determined.

IN TESTIMONY WHEREOF, The said incorporators have hereunto set their hands and seals this 15th day of May, A. D. 1911.

J. L. WASHBURN. (Seal)
JOHN G. WILLIAMS. (Seal)
A. McC. WASHBURN. (Seal)

Signed, Sealed and Delivered in Presence of:
JOHN A. SINCLAIR,
CHESTER WRIGHT.

State of Minnesota, County of St. Louis —ss.

On this 15th day of May, 1911, before me, a Notary Public within and for said county, personally appeared J. L. Washburn, John G. Williams and A. McC. Washburn, to me known to be the identical persons described in and who executed the foregoing Certificate of Incorporation as incorporators, and they acknowledged that they executed the same as their free act and deed.

JOHN A. SINCLAIR,
Notary Public, St. Louis Co., Minn.
(Notarial Seal)
My commission expires Aug. 14, 1915.

State of Minnesota, Department of State.

I hereby certify that the within instrument was filed for record in this office on the 17th day of May, A. D. 1911, at 11 o'clock A. M., and was duly recorded in Book U-3 of Incorporations, on page 228.

JULIUS A. SCHMAHL,
Secretary of State.

OFFICE OF REGISTER OF DEEDS.
State of Minnesota, County of St. Louis —ss.

I hereby certify that the within instrument was filed in this office for record May 19, 1911, at 1:30 P. M., and was duly recorded in Book 14 of Misc., page 224.

M. C. PALMER,
Register of Deeds.

DEFECTIVE PAGE

RETURN TRIP TO IRELAND

Joseph Catherwood Arrested One Day Before Time Limit Expired.

Wife Complains to British Consul of Quality of Tea Served Her.

Joseph Catherwood, his wife and two children will very likely get a return trip to Ireland instead of to Winnipeg, from which city they came to the United States.

Catherwood, his wife and child landed at Quebec May 18, 1908, having come from Queenstown, Ireland. The warrant was issued by telegraph May 15, 1911, and was served May 17, 1911, one day within the three-year limit after which a person may not be deported.

Catherwood is in the county jail and his wife and two children are at the Bethel Home awaiting the order for their deportation on the ground that they have become public charges. Catherwood and his family received aid from the Associated Charities here and in that connection the immigration authorities have been interested in finding that the family of Joseph Parks, tallying wonderfully with the description of the Catherwood family, received aid from the Associated Charities at Winnipeg. Catherwood and his wife both deny they went by the name of Parks in Winnipeg, but Joseph Catherwood and Joseph Parks are described as both of the same age, both being tall, having dark brown hair, very scanty on top; sandy mustache, very large wild-looking eyes, long slim face and protruding upper front teeth. Both Mrs. Catherwood and Mrs. Parks are described as being named Sarah and having dark hair and very thin face. Both families are said to have had two children, aged 5 years and 15 months, respectively. Both families are said to have lived at 316 Notre Dame avenue and 58 Adelaide street in Winnipeg, both men are said to have worked as street car conductors; both went to work on a farm at the same time last September, and both came from Ottawa to Winnipeg at the same time. Both disappeared from Winnipeg at the same time, about April 1, and a week or two later their wives also disappeared. Parks was well known in Winnipeg, but Catherwood seems never to have been heard of. Both came from Ireland, and the similarity seems to extend all through their lives, or life, in Canada.

Although Catherwood and his wife declare that they did not go by the name of Parks and did not know anybody of that name, and although they gave the same address, the immigration authorities are convinced that Catherwood and Parks are the same men. The fact is important only as it shows that Catherwood received aid from charity before he came to this country.

The Catherwoods are about the queerest people the immigration authorities have found in some time. Mrs. Catherwood objects to the menu at the Bethel Home. She says that she cannot drink green tea, for she has never been accustomed to it. She appealed to the British consul here to clear up that point, but the British official was not inclined to make an international affair of it.

Foley's Kidney Remedy Acted Quickly.

M. N. George, Irondale, Ala., was bothered with kidney trouble for many years. "I was persuaded to try Foley's Kidney Remedy, and before taking it two days I could feel its beneficial effects. The pain left my back, my kidneys action cleared up, and I am so much better I do not hesitate to recommend Foley Kidney Remedy." For sale by all druggists.

LEGAL NOTICES.

ORDER FOR HEARING ON PETITION FOR ADMINISTRATION—State of Minnesota, County of St. Louis —ss.

In Probate Court.

In the Matter of the Estate of John Bennett, Decedent.

THE PETITION OF Duluth Log Company, having been filed in this Court, representing among other things, that John Bennett, then being a resident of the County of St. Louis, State of Minnesota, died intestate, in the County of St. Louis, State of Minnesota, on the 11th day of April, 1911, leaving estate in the County of St. Louis, State of Minnesota, and that said petitioner is a creditor of said decedent, and praying that Letters of Administration of the estate of said decedent be granted to Charles D. Oreckovsky.

IT IS ORDERED, That said petition be heard before this Court, at the Probate Court Rooms in the Court House in Duluth, in said County, on Monday, the 12th day of June, 1911, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this Order be served by publication in The Duluth Herald according to law, and that a copy of this order be served on the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.

Dated at Duluth, Minn., May 15th, 1911.

By the Court,
S. W. GILPIN,
Judge of Probate.

(Seal, Probate Court, St. Louis Co., Minn.)
D. H., May 16, 23, 30, 1911.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND—State of Minnesota, County of St. Louis —ss.

District Court, Eleventh Judicial District.

In the matter of the application of Frank A. Hartz to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: Lots Twenty (20) and Twenty-one (21) in Block Nine (9), Duluth Heights Fifth Division, according to the recorded plat thereof on file and of record in the office of the Register of Deeds for said County and State,

Applicant,

vs.

City of Duluth, James W. McCahon, and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein,

Defendants.

The State of Minnesota to the above named defendants:

You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the Clerk of said court, in said county, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and, if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the court for the relief demanded therein.

Witness, J. P. Johnson, clerk of said court, and the seal thereof, at Duluth, in said county, this 8th day of May, A. D. 1911.

J. P. JOHNSON,
Clerk.
By B. G. RILLING,
Deputy.

Attorneys for Applicant,
608-611 Torrey Building, Duluth, Minn.
D. H., May 9, 16, 23, 1911.

Notice to Contractors

Sealed proposals will be received by Adolph Colein, Clerk of School District No. 32, Minnesota, up till ten o'clock, Saturday morning, June 3, 1911, for raising, turning around, providing a basement, remodelling, and building additions to a certain school building located on the N. W. one acre of the E. ½ of the N. W. ¼, Section 21, Township of Normanna Town 52, Range 13 West of the Fourth Principal Meridian, according to drawings and specifications prepared for same by Frank L. Young & Co., Architects, 33-34 Mesaba block, Duluth, Minn.

Sealed bids to be made upon the forms provided by the Clerk of said District.

The School Board reserves the right to reject any or all bids.

The successful bidder will be required to deposit bonds with the clerk of said school district within ten days of award of contract, in the full amount of the contract price, and in terms to be approved by the said School Board, with either a reputable bonding company as surety or two citizens satisfactory to the said Board.

Signed.

ADOLPH SOLEM,
Clerk, District No. 32, St. Louis County.

Dated at the residence of the clerk, this 20th day of May, 1911.

R. F. D. No. 3, Duluth, Minn.
D. H., May 23 and 27, 1911.

DEFAULT HAS BEEN MADE IN the conditions of a certain mortgage containing a power of sale, executed and delivered by Anna Olson and John R. Olson, her husband, mortgagors, to J. A. Scott and E. F. Alford, mortgagees, bearing date the 31st day of December, 1910, and recorded in the office of the register of deeds in and for St. Louis County, Minnesota, on the 3rd day of January, 1911, at 4:30 o'clock P. M., in book 266 of Mortgages, on page 189; said mortgage was given to secure the payment of eleven promissory notes, bearing even date with said mortgage, made by said mortgagors, for the sum of twenty dollars each, due and payable February 1st, March 1st, April 1st, May 1st, June 1st, July 1st, August 1st, September 1st, October 1st, November 1st and December 1st respectively, in the year 1911, with interest thereon at the rate of ten per cent per annum. Said mortgage contained a provision that if default be made in the payment of said sum of money or interest thereon, or the taxes or any part thereof, at the time and in the manner therein specified, it should be lawful for the mortgagees to declare the entire indebtedness due and payable, and to sell the premises therein described and convey the same to the purchaser in fee simple, agreeably to the statute in such case made and provided. Default has been made in the payment of each and all of said four principal notes for twenty dollars each, which became due on the 1st days of February, March, April and May, 1911, respectively, and the interest thereon. No part of said indebtedness has been paid unto said mortgagees, except the sum of twenty-four and 97-100 dollars paid on said 31st day of December, 1910, upon the said notes so made payable on the first days of November and December, 1911, respectively. There is, at the date of this notice, claimed to be due, and is actually due, the sum of two hundred one and 90-100 dollars. No action at law or otherwise has been commenced for the recovery of the debt secured by said mortgage or any part thereof. Notice is hereby given, that said mortgage will be foreclosed at a public sale of the mortgaged premises, which are described as follows, to-wit:

Lot numbered four hundred twenty-nine (429), in block numbered one hundred nineteen (119), Duluth Proper, Second Division, according to the plat thereof on file and of record in the office of the register of deeds of St. Louis County, Minnesota, to pay said principal indebtedness, interest and the costs of this foreclosure, including twenty-five dollars attorneys' fees, stipulated in said mortgage; said sale will be made in the sheriff's office in the Court House in the city of Duluth, county of St. Louis and state aforesaid, on the 22nd day of June, 1911, at ten o'clock A. M., subject to redemption within one year from that date.

Dated May 8th, 1911.

J. A. SCOTT,
E. F. ALFORD,
Mortgagees.

RICHARD JONES,
Attorney for Mortgagees,

CERTIFICATE OF INCORPORATION —OF— AMERICAN LAND & TIMBER COMPANY.

KNOW ALL MEN BY THESE PRESENTS, That we whose names are hereunto subscribed do hereby associate ourselves together under the Constitution and General Laws of the State of Minnesota, and more particularly under the provisions of Chapter 58 of the Revised Laws of said state for the year 1905, as a corporation, under the name and for the purposes hereinafter set forth, and to that end do hereby subscribe and acknowledge this Certificate of Incorporation.

ARTICLE I.

The name of this corporation shall be AMERICAN LAND & TIMBER COMPANY, and the general nature of its business shall be the buying and selling of timber, timber lands and other lands; the acquiring, owning and improving of lands, tenements and hereditaments and selling the same; the colonization and selling of lands to actual settlers; the cutting and logging of timber and selling the same, and the manufacture and sale of lumber and other timber products, and the acquisition, construction and operation of any mills or factories and power plants necessary or suitable to effectuate such purpose; the business of this corporation to be carried on in the State of Minnesota and in any other state or country where this corporation may be or become qualified and entitled to engage in such business or any thereof. The principal place of transacting the business of this corporation shall be in the city of Duluth in the County of St. Louis and State of Minnesota, and it may have such branch offices as may be determined by the Board of Directors of such corporation.

ARTICLE II.

The time of the commencement of this corporation shall be the tenth day of June, A. D. 1911, and the period of its duration shall be thirty (30) years.

ARTICLE III.

The names and places of residence of the incorporators of this corporation are as follows: J. L. Washburn, John G. Williams and A. McC. Washburn, all residing at Duluth, Minnesota.

ARTICLE IV.

The government of this corporation and the conduct of its affairs shall be vested in a board of three (3) directors, who shall all be stockholders, and except as herein provided, shall be elected by the stockholders at their annual meeting, which shall be held on the last Monday in June of each year, and who shall, within ten days after their election, elect the following officers, to-wit: a President, a Vice President, a Secretary and a Treasurer. The office of Treasurer may be held by any other officer, and the offices of Secretary and Treasurer may be held by persons who are not members of the Board of Directors.

The Board of Directors may appoint such additional officers or agents as it may deem necessary to aid in the conduct of the business of the corporation, prescribe the duties thereof and discharge the same at will.

The first annual meeting of this corporation shall be held on the last Monday in June, 1912, and until such time the following persons shall constitute the Board of Directors of this corporation, to-wit: J. L. Washburn, John G. Williams and A. McC. Washburn, and until the directors chosen at such annual meeting shall elect officers and such officers shall qualify, the officers of this corporation shall be as follows, to-wit: J. L. Washburn, President; John G. Williams, Vice President; Lillian I. Feetham, Secretary, and J. L. Washburn, Treasurer. The regular officers of this corporation shall hold office for the period of one year, or until their successors are elected and qualify; but vacancies occurring either in the membership of the Board of Directors or in any of the offices of this corporation, shall be filled by the Board of Directors until successors shall be elected at the succeeding annual meeting and shall qualify.

The Board of Directors of this corporation may adopt such By-Laws as it deems needful for the conduct of the affairs of this corporation.

ARTICLE V.

The amount of the capital stock of this corporation shall be Five Hundred Thousand Dollars ($500,000), and the same shall be divided into five thousand (5,000) shares of one hundred dollars each. The same shall be sold only at par, either for cash or property deemed by the Board of Directors to be equivalent thereto, and the same shall be paid in as called for by the Board of Directors.

ARTICLE VI.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be the sum of Six Hundred Thousand Dollars ($600,000), and it shall be lawful at any time for this corporation to issue its notes, bonds or other obligations, within the limitations above prescribed, upon such terms as may be determined by the Board of Directors or the stockholders, and to secure the same by trust deed or mortgage upon any of the property which it may acquire, in such form as may likewise be determined.

IN TESTIMONY WHEREOF, The said incorporators have hereunto set their hands and seals this 15th day of May, A. D. 1911.

J. L. WASHBURN. (Seal)
JOHN G. WILLIAMS. (Seal)
A. McC. WASHBURN. (Seal)

Signed, Sealed and Delivered in Presence of:
JOHN A. SINCLAIR.
CHESTER WRIGHT.

State of Minnesota, County of St. Louis —ss.

On this 15th day of May, 1911, before me, a Notary Public within and for said county, personally appeared J. L. Washburn, John G. Williams and A. McC. Washburn, to me known to be the identical persons described in and who executed the foregoing Certificate of Incorporation as Incorporators, and they acknowledged that they executed the same as their free act and deed.

JOHN A. SINCLAIR,
Notary Public, St. Louis Co., Minn.
(Notarial Seal)
My commission expires Aug. 14, 1915.

DEFECTIVE PAGE

BULLS FORCE UP VALUES

They Run to Cover Eleventh Hour Shorts—News Is Bearish.

Chicago May the Chief Factor of Strength—Supplies Increase.

Duluth Board of Trade, May 23.—The wheat market advanced today. May gained ⅝c, July ⅝c and September ⅝c. Cash was ½c over July and the market was more active than in some time on account of larger arrivals from the interior of wheat sold to come this month. Oats closed ½c up, durum lost ⅛c and there were no barley quotations. Rye declined 3c.

Linseed was higher, May gaining 3c to $2.37. July was unchanged. September was without change and October advanced 2c. Cash was on a May basis.

The confidence and the finanical resources of the bull clique were in evidence today. Also the fact was brought home to the shorts that they have not made any money lately in going short on the breaks. Theee observations are called forth by the sharp advance in wheat in the face of conditions and factors which were unanimously bearish not only here but abroad.

The weather in the Northwest is cool and favorable for the growing wheat while further showers in the Southwest will help the plant to mature under the most favorable conditions. The Southwestern crop is earlier than usual and it is likely that there will be an unusually large amount of new wheat, especially from Texas and Oklahoma, for delivery on the Chicago and Southwestern July contracts. Texas wheat probably can be shipped in large supply to Kansas City or Chicago in the next month.

Wheat receipts at Chicago and in the Northwest showed a fair increase today. The weakkened markets of Friday and Saturday of last week brought out some wheat from country holders who thought prices showed indications of going lower. Today's advance shut off sales to arrive. The cash demand for wheat is only moderate. There is no Eastern demand for wheat except an occcasional odd lot.

Bradstreet's report on the visible supply of wheat in the world showed an increase of 3,036,000 bu compared with a decrease last week of 5,848,000 bu and a decrease a year ago of 2,478,000 bu. European supplies increased 4,600,000 bu on account of unusually heavy shipments to the continent, especially by Russia and the Danube. The liberal shipments of exporting countries to Europe and the United Kingdom emphasize the big exportable surplus in this country which a few days was estimated at 116,000,000 bu with two probable immense crops materializing. Exporters had hoped that we might do some business with foreign countries later in the summer, especially in soft winter wheat, but it would be no surprising, in view of the bull manipulation if values were artificially held above an export level and this country deprived of the opportunity of finding an outlet for its surplus breadstuffs.

Liverpool was lower on account of favorable Russian crop advices. The big increase in the European visible supply was the chief foreign factor taken account of by the bears. The official Punjaub report showed an estimated yield of 136,864,000 bu compared with 128,000,000 bu a year ago.

The May Deal.

The chief strength in today's market was found in the Chicago May delivery. The Northwestern markets followed the advance in the early hours diffidently but later yielded to the influence of the Chicago market and advanced slowly but without indications of nervousness, shorts covering. The eleventh-hour fair-haired boys were particularly anxious to seek shelter.

The short side is fearful of consequences that have followed a too eager espousal of the bear propaganda. The bulls thus far have had a heavy loss on their May, but are more advantageously intrenched in the July and the September deliveries. The old crop is proving burdensome, but there is no sign of hesitation on the part of the bull leaders, chief of whom is A. J. Lichstern as was proved by the hearing before the committee of the Chicago board of trade, which was appointed to investigate the current so-called corner in May wheat.

Lichstern admitted that he is long about 20,000,000 bu of wheat. The trade has generally believed that there was an open short interest in Chicago May to the extent of about 4,000,000 bu. It now appears that the short interest is much larger, and that the bulls will seek settlement by cash or by the actual grain before the final delivery day. By extending the bull operations into the July and the September deliveries the leaders on the bull side have delayed their time of reckoning. Evidently they are banking on an unforeseen accident to some portion of the world's wheat crop to help them market their "corpse" successfully.

It seems incredible of belief that the bull clique can sow up not only the large supply of old wheat in this country, but an assured large crop of winter wheat and a yield of spring wheat that on the present basis of promise w'll be the biggest in the history of the country. In the Old World and South America there is not now pronounced indications anywhere of a crop failure. In Argentina and on the continent the wheat crops are coming along in good shape. The German crop might be considerably better, but the fear concerning the big Russian crop is disappearing and it seems that the Russian yield will be immense, not only of wheat, but of rye, which is the chief breadstuff in that country. The Danubian district promises a big crop also. In Canada conditions continue ideal.

It is likely that the holders of cash grain may be able to sell their holdings abroad at an actual loss in order to reap profits on their speculative holdings. This feat will be difficult of accomplishment and will be like a man trying to pull himself up by his boot straps. European markets are somewhat congested by wheat from other countries despite the enormous rate of consumption. The resourcefulness of the bulls will be severely tested. Whether they can get out of their predicament with their skins whole remains to be seen. That they have the May delivery tied up and that the next few days may witness a "squeeze" of no small proportions is apparent.

Minneapolis indemnities: July—Puts 95⅝@95¾c bid; calls, 97½@97⅝c asked. September—Puts, 90⅞c bid; calls, 92c bid.

Broomhall cabled from Liverpool—The wheat market opened under pressure of realizing and values declined ⅜d. Selling was due to favorable Russian crop advices and an improved general crop outlook as shown by our summary. Indications point to a liberal increase in the European visible and cargoes are in quiet demand. Following the opening there was some little show of strength on speculative support but later easiness again developed as a result of extreme dullness and at 1:30 p. m. the market was quiet and ¾d to ⅞d lower than yesterday with pressure in May. The corn market opened unchanged and later the near months advanced ⅛d on the closing steadiness in Buenos Ayres. Wheat cargoes arrived off coast, 4, and awaiting orders, 6. Wheat in distant positions easy, buyers holding off. Corn, quiet; more pressure to sell. European visible wheat, 98,428,000 bu against 93,832,000 bu last week.

CHICAGO MARKET.

All Influences Combine to Put Wheat Prices Down.

Chicago, May 23.—With cables lower and weather the finest imaginable for the growth of wheat, that cereal took a bearish turn today. Besides, the foreign crop summary showed a material improvement and there were signs of a liberal increase in the European visible supply. Pit traders were good sellers, but somewhat aggressive buying on the part of a couple of leading houses led to a rally. The opening was ⅜c down to ¼c up, the latter for May. July started at 87½ to 87⅝ and recovered to 87⅞.

The buying started shorts covering in lively fashion and a smart advance followed. Reports of drouth damage Southwest aided the bulls. The close was firm with July ⅜c net higher at 88½c. May gained 2½c net.

Firmness developed in corn on account of the fact that offerings were light. The local crowd seemed friendly to the bull side. July opened the same as last night to a sixteenth off at 61⅞ to 51⅞@52c, and rose to 52½@¼c.

Better inquiry from shippers strengthened the market still further. The close was steady at some reaction with July 52⅜c, a net gain of ⅜@½c.

Commission houses led by a prominent speculator grabbed all the oats available. As a result the market, which was easy at the outset, became strong in a hurry. July started unchanged to ¼c lower at 33¼@⅜c to 33⅜@½c, and advanced to 33¾c.

Packers here and Milwaukee dealers bought provisions, and lifted prices after an early decline. First sales were at last level to 5c below, with July $14.40 to $14.45 for pork, $8.65 for lard and $7.72½ for r'bs.

REMARKS—Showers fell over all districts.
H. W. RICHARDSON, Local Forecaster.

T—Indicates inappreciable rainfall. *—Maximum for yesterday. †—Minimum for twenty-four hours, ending 8 a. m. 75th meridian time. ‡—Minimum temperature for 12-hour period ending at 8 a. m.

NOTE—The average maximum and minimum temperatures are made up at each center from the actual number of reports received, and the average rainfall from the number of stations reporting .1 inch or more. The "state of weather" is that prevailing at time of observation.

MINNEAPOLIS MARKET.

Easier Tone in Deferred Wheat Contracts, With May Option Firmer

Minneapolis, Minn., May 23.—Favorable crop news and bearish statistics caused an easier tone in the two deferred wheat contracts, but an oversold condition made May and July firmer. The increased world's visible supply was a surprise to local trade. May closed ¾c higher than yesterday; July ⅝c higher, September ¼c lower and December ¼c lower. Local elevator stocks of wheat decreased 265,000 bu for three days. Minneapolis today received 114 cars of wheat against 148 a year ago; Duluth 41 against 2, and Winnipeg 196 against 238. May opened 95⅛c; high, 96c; low, 94¾c; closed, 95⅞c. July opened 95½@95¾c; high, 96¾c; low, 95¼c; closed, 96⅛c. September opened 90¼c; high, 91⅝@91¾c; low, 90⅛c; closed, 90¼@90⅜c. December opened 90¼c; high, 91½c; low, 90¼c; closed, 90⅝c.

Cash wheat was slightly firmer. Demand continued excellent for choice spring grades, but slow for others. No. 1 northern sold for 1@3c above the July contracts, close: No. 1 hard, 99½c; No. 1 northern, 97@99c; to arrive, 97@98¾c; No. 2 northern, 94½@97½c; to arrive, 94½@97½c; No. 3 wheat, 92½@95½c; No. 3 yellow corn, 52@52¼c; No. 3 white oats, 32½c; No. 2 rye, 90c.

Millstuffs—Shipments, 1,496 tons. The mill feed market continued strong and steady. Bran in 100-pound sacks, $21.50@22.00.

Flour—Dullness continued the feature. The demand was slow and orders scarce. Prices unchanged; shipments, 41,434 bbls. First patents in wood f. o. b. Minneapolis, $4.60@4.90; second patents, $4.50@4.80; first clears, $3.20@3.50; second clears, $2.20@2.85.

Flax—Receipts, 8 cars, year ago 3; shipments, 5. Demand slow for flax and prices quoted same as Duluth July, closing, $2.34.

Barley—Receipts, 11 cars, year ago 16; shipments, 31. The barley market quoted steady. Demand good for choice malting. Offerings mostly feeding grades. Closing prices, same as Saturday. Closing range, 60@94c.

New York Grain.

New York, May 23.—Close: Wheat—May, 96¼c; July, 95⅛c. Corn—May, 60½c; July, 60@60¼c.

STEEL HIT BY SELLING

Large Blocks Thrown on Market and the Whole List Drops.

Supporting Orders Cause Sudden Change and Prices Have Rebound.

New York, May 23.—Stocks were subjected to considerable pressure at the opening of the market today and the speculative leaders receded, although the initial losses were small. Missouri Pacific was attacked most severely and lost a point. There were a few scattered gains, Erie, Amalgamated Copper, Pennsylvania and Northern Pacific advancing small fractions.

A few stocks in which special influences operated, such as Amalgamated Copper and Interborough-Metropolitan preferred, were marked up a point, in face of the heaviness of the rest of the list. Persistent realizing in the market leaders discouraged efforts to bid up prices, but losses in the favorite stocks did not exceed ½ point anywhere. American Snuff sold at 325 against 300, its previous sale two weeks ago. International Paper was actively bought and improved two points.

For no apparent reason other than the extent to which prices have advanced, traders undertook at the outset to sell the market. The effort met with some success, but the ease with which offerings were absorbed resulted in a speedy reversal in which most early declines were recovered.

The most notable exception was United States Steel, which was the heaviest of the leaders and ruled a point under last night's close. The Hill issues were again conspicuous for their strength, as were the copper stocks, local tractions and some specialties. Fertilizer shares after an early exhibition of weakness became the strongest features of the list. American Cotton Oil and Virginia-Carolina Chemical sold at more than a point over yesterday's close. On the curb American Tobacco extended its rise to 518, the highest price in its history. Bonds were irregular, with some large individual transactions in railroad and municipal issues, one block of $100,000 Norfolk & Western convertible 4's and another of $500,000 New York city 4⅛'s being bought.

Large blocks of United States Steel were thrown on the market and the price gave way to 79⅝, about 2 points below yesterday's best price. The depression in this issue frustrated any bullish demonstrations elsewhere, and the whole list went down to some extent. Union Pacific, Southern Railway preferred and National Lead sold a point under yesterday's closing.

Talk of probable severe cuts in steel and iron prices were responsible in larre part for the pronounced weakness of United States Steel. That stock was traded in so extensively and in such large blocks that at times it seemed to be the whole market. The elimination of a large part of a long standing short interest has weakened the technical position of the market, and in the absence of this sustaining force United States Steel fell 1½ below yesterday's closing, Erie first preferred 1¾ and Reading, Rock Island, Union Pacific, preferred, American Smelting and Pacific Mail 1.

The market closed strong. When supporting orders were distributed in United States Steel the temper of speculation underwent a quick change and there was a rapid bidding up of prices all around. United States Steel 64; bounded to near 80, Reading, Union Pacific and Atchison reached their highest figures of the day, and Amalgamated Copper and Western Union ruled over a point above yesterday's closing.

Liverpool Grain.

Liverpool, May 23—Closing: Wheat—Spot easy; No. 2 Northern Manitoba, 7s 4d; No. 2 Northern Manitoba, 7s 2d. futures steady; May unquoted; July, 6s 9⅜d; October, 6s 7⅝d. Corn—Spot new American mixed, no stock; old American mixed, quiet, 5s 3d; new American kiln dried easy, 4s 10d; futures steady; July, 4s 7⅜d; September, 4s 9d.

Cotton Market.

New York, May 23.—Cotton opened steady at a decline of 5 points to an advance of 6 points, July being lower under scattered realizing while the new crop was higher on some further covering and a little fresh buying encouraged by expectations of a bullish weekly weather bureau report, and the failure of the early weather map to show any rain in the Carolinas. Leading bull interests save the old crop some support on the initial decline, but general business was quiet, and the market during the early trading ruled rather irregular with old crop positions holding a point or two under the closing figures of last night, while the new crop sold about 3 to 4 points net higher.

Spot closed quiet, middling uplands, 16.10; middling gulf, 16.35; sales, 100 bales.

Futures barely steady; closing bids: May, 15.84; June, 15.85; July, 15.94; August, 15.40; September, 13.64; October, 13.16; November, 13.07; December, 13.09; January, 13.08; March, 13.14.

South St. Paul Livestock.

South St. Paul, Minn., May 23.—Cattle—Receipts, 900; market light; veal calves gained 25c; rest unchanged. Hogs—Receipts, 4,500; market 5c lower; range, $5.40@5.80; bulk sales, $5.60@5.65. Sheep—Receipts, 500; steady; sheep, $1.00@5.25; lambs, $2.50@6.25.

New York Money.

New York, May 23.—Money on call steady, 2¼@2½; ruling, 2⅜; closing bid, 2¼; offered at 2⅜. Time loans, easier on falling off of demand; sixty days, 2½@2⅝ per cent; ninety days, 2½@2⅝; six months, 3¼. Close: Prime mercantile, 3½ to 4 percent; sterling exchange steady with actual business in bankers' bills at $4.84.50 for sixty-day bills and at $4.86.40 for demand. Commercial bills, $4.83¾. Bar silver, 53⅜c. Mexican dollars, 45c. Government bonds, easy. Railroad bonds, irregular.

London Stocks.

London, May 23.—American securities opened slightly lower today. Later the market advanced under the lead of Erie and Missouri, Kansas & Texas. At noon the market tone was steady and values ranged from ⅜ above to ⅛ below yesterday's New York closing.

LEGAL NOTICES.

We, John Nolan and A. J. Harker, and each of us, do hereby certify that the said John Nolan is the president, and the said A. J. Harker is the secretary, of the Mississippi Mining & Development Company; that on the 23rd day of May, 1911, at a meeting of the stockholders of said corporation duly called and held for that expressly stated purpose at Duluth, Minnesota, at which all the issued shares of stock of said corporation were represented, the following resolution was adopted by a unanimous vote of said stockholders, to-wit: "Resolved, That Article five of the original certificate of incorporation of this company be amended so that the same shall read as follows, to-wit: Article V. The number of shares of the capital stock of said corporation shall be two hundred thousand, and the amount thereof shall be one dollar each, and may be paid for in property, money or services, as the board of directors shall elect, and said stock may be subscribed for at such times and in such amounts as may be prescribed by the Board of Directors."

IN WITNESS WHEREOF We have hereunto set our hands and seals and caused the corporate seal of said company to be affixed hereto at Duluth, Minnesota this 23rd day of May, 1911.

JOHN NOLAN, President.
ARTHUR J. HARKER, Secretary.
Signed and sealed in presence of
LEO A. BALL,
FLORENCE McKAY.

(Corporate Seal Mississippi Mining & Development Co., Duluth, Minn.)

State of Minnesota, County of St. Louis —ss.

On this 23rd day of May, 1911, before me, a Notary Public in and for said county, personally appeared John Nolan and A. J. Harker, to me well known to be the persons described in and who executed the foregoing certificate and they severally acknowledged that they executed the same as their free act and deed.

LEO A. BALL, Notary Public, St. Louis County, Minn. My Commission Expires June 11th, 1916.

(Notarial Seal, St. Louis County, Minn.)

D. H., May 23 and 24, 1911.

ORDER LIMITING TIME TO FILE CLAIMS, AND FOR HEARING THEREON—

State of Minnesota, County of St. Louis —ss.

In Probate Court.

In the Matter of the Estate of John D. Lowe, Decedent.

Letters of administration having been granted to Maria Lowe

IT IS ORDERED, That the time within which all creditors of the above named decedent may present claims against his estate in this court, be, and the same hereby is, limited to three months from and after the date hereof; and that Monday, the 7th day of August, 1911, at 10 o'clock A. M., in the Probate Court Rooms at the court house at Duluth, in said county, be, and the same hereby is, fixed and appointed as the time and place for hearing upon the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by publication of this order in The Duluth Herald as provided by law.

Dated, Duluth, Minn., May 5th, 1911.

S. W. GILPIN, Judge of Probate.

(Seal, Probate Court, St. Louis Co., Minn.)

D. H., May 9, 16, 23, 1911.

HINES BRANDS FUNK CHARGES FALSE AND BERATES ACCUSERS

Head of Lumber Manufacturers Defies Those Who Accuse Him.

Denounces Helm Committee and Assails the Newspapers.

Attacks Taft Reciprocity Plan in Annual Address.

Chicago, May 24.—Edward Hines, named before the Helm legislative committee in connection with the collection of an alleged $100,000 fund to elect United States Senator William Lorimer, today took occasion, before reading his annual address to the National Lumber Manufacturers' association, of which he is president, to defend his acts and to flay his accusers.

Mr. Hines said he had no apology to offer for his acts, personally or as an officer of the association, and he defied his opponents and prophesied that he would have his traducers before a tribunal that "was not a grotesque travesty on law and justice."

Absolutely Denies Charges.

Mr. Hines said, in part, before reading his address:

"I deem it proper at the outset to say a word respecting certain charges that have been made against me and, in some instances, against the lumber interests, in relation to national affairs.

"I absolutely and unqualifiedly deny these charges.

"I am absolutely innocent of any wrongful acts in these matters. I have no apology to make for my conduct as an individual or an officer of the association, or of any other association which has honored me with its confidence, nor have you or any other factor of the lumber industry any apology to make for its conduct and attitude toward national affairs.

Assails the Newspapers.

"So far as I, personally, am concerned, at the proper time and at the

CUNARD LINER STRIKES ROCK

Ivernia Has an Accident at End of Eventless Voyage.

Queenstown, May 24.—The Cunard line steamer Ivernia, which left Boston May 16 for Queenstown and Liverpool struck Daunt Rock at noon today during a fog as she was approaching this port after an eventless voyage. The vessel now lies beached on the eastern bank of Kimloch channel in the inner harbor, with twenty-five feet of water in her fore compartment. No one on board the steamer was hurt.

The first that was known of the accident was when the liner passed Roche's Point at the head of Cork Harbor. The fore part of the Ivernia was sunk deep in the water, her stern was high in the air, and she had a dangerous looking list to starboard.

Had 775 Passengers.

Boston, Mass., May 24.—The steamer Ivernia, Capt. Thomas Potter, which sailed from Boston for Queenstown and Liverpool on May 16 last, carried 775 passengers and a large cargo of freight. The passengers are divided as follows: First-class, 25; second-class, 300; third-class, 450.

MADERO MUST HAVE GUARDS

Insurrecto Leader Cannot Travel Safely—Others Are Jealous.

Resignation of Diaz Expected Any Hour By the Mexicans.

Juarez, Mex., May 24.—Whether Francisco I. Madero will be able to proceed to City of Mexico so long as railroad traffic near there is being impaired, was considered at the insurrecto leaders headquarters today. The news fom the city that the insurrectos were still destroying railroad and telegraphic communication, visibly caused much disquietude here.

The suggestion that the insurrectos near City of Mexico have not been informed of the signing of a peace agreement is not regarded as fully explaining the situation. It is considered unfortunate that Senor Madero, the avowed leader of the insurrectos, should have to prepare for himself an armed protection to go to the capital.

Scout for Bombs.

The possibility of Madero's train being blockaded between towns in some remote locality while on his way to the capital is being considered. The

(Continued on page 5, second column.)

LATEST SEA HERO OF THE WIRELESS

H. BENSON.

New York, May 24.—The latest wireless hero is Benson, the operator on the Merida, who sent out the call for help when that ship was rammed by the Farragut, and sunk off Cape Charles. Benson stuck to his post and gave the alarm which brought two naval vessels and the Hamilton of the Old Dominion line racing to the aid of the 197 passengers on the Merida.

AMERICANS TO RUN CHINESE NEWSPAPER.

San Francisco, Cal., May 24.—A number of American newspaper men, headed by B. Wilfrid Fleisher, sailed today for Shanghai, where they will establish the China News, a daily newspaper to be published in both English and Chinese. The News will be the first English paper to cater to the general Chinese public.

Buffalo Bill Train Wrecked.

Lowell, Mass., May 24.—A section of the Buffalo Bill Wild West train was wrecked about eight miles outside of this city early today. Four men connected with the show were injured. All of the injured will recover.

Trainmen Pick Frisco.

Harrisburg, Pa., May 24.—The Brotherhood of Railway Trainmen in session here today decided on San Francisco as the place for the next convention, to be held in 1913.

TOKIO WANTS PEACE PACT

Japan Is Willing to Consider General Arbitration Treaty.

Document Submitted to the European Nations Well Liked.

Tokio, May 24.—Japan, it was stated in official circles today, is prepared to participate in negotiations for a general treaty of arbitration with the United States, and is willing to submit proposals for such an agreement, if invited.

Government leaders are deeply interested in the tentative draft of the arbitration proposal which the American government submitted to Great Britain and France and it is regarded as the most able document on the subject of arbitration ever produced.

The proposal meets with hearty approval here.

MINISTER'S WIFE WHIPS MERCHANT

Slaps His Face When He Takes the Whip From Her.

Caney, Kan., May 24.—Mrs. W. A. Haynes, wife of the pastor of the Christian church, publicly horsewhipped Daniel H. Plowman, a widely known business man, dairyman and member of the school board here. Plowman swore out a warrant for the arrest of Mrs. Haynes and her son, Charles, who accompanied her.

The trouble grew out of a school board fight over the election of a superintendent of schools. Plowman wrote a communication to a daily paper. Mrs. Haynes replied, condemning Plowman, but using a nom de plume. Sunday Plowman posted in the display window of his store on the main business street, the article written by Mrs. Haynes and also placed her name at the bottom, adding the inscription, "She says she is a religious woman."

Next morning, accompanied by her husband and oldest son, Mrs. Haynes went to the store and demanded that Plowman tear down the poster in his window. Plowman refused and Mrs. Haynes struck Plowman seventeen blows with a whip. Plowman took the whip from her, whereupon Mrs. Haynes slapped him in the face several times.

SENATE OF ONE MIND

All Three Factions Are United for Lorimer Reinvestigation.

La Follette Has Several Hours of Speech Yet to Deliver.

Washington, May 24.—The Lorimer case, which occupied most of the time of the senate during the last regular session and thus became a material factor in bringing about the extra session, again has taken precedence in the upper house of congress over matters of pending legislation.

The senate membership appears to be almost unanimously determined that a new inquiry into the circumstances of Senator Lorimer's election is imperative. The question as to how the reinvestigation shall be conducted is far from being determined, however, and promises to provoke a great deal of discussion.

Three resolutions already have been introduced. They come from the three political divisions of the senate—the insurgent Republicans, the regular Republicans and the Democrats.

La Follette Not Through Yet.

Senator La Follette promised today to continue for several hours his discussion of the Lorimer matter in general and his advocacy of his resolution putting the new inquiry into the hands of five new senators. The Dillingham and Martin resolutions leave the conduct of the inquiry to the regular committee on privileges and elections.

With the house adjourned until Friday, the legislative affairs in that

WILL TEST THE NORTHERN SOILS

Northern Pacific and State to Work Together on Experiment Farms.

St. Paul, Minn., May 24.—(Special to The Herald.)—Arrangements are under way for the establishment of one or more demonstration farms in the northern part of Minnesota along the Minnesota & International railroad. A week ago a party of Northern Pacific officials covered the ground from International Falls to Brainerd in a special train, taking samples of the soil along the line, looking for a favorable location for a farm to show the neighborhood how to get the most out of the land.

The farm will be the first that the Northern Pacific has started in Minnesota. The road has been interested for a number of years in similar experiments in Montana and North Dakota, working with the officials of the state agricultural colleges. The farm in this state will be under the joint direction of the railroad and the agricultural school.

One of the farms probably will be located north of Bemidji, although the arrangements have not been completed. Prof. D. E. Willard, development agent of the Northern Pacific, sees large possibilities for a demonstration farm in that section of the state.

"TAFT AND STIMSON"

Washington Gossips Forecast the Ticket Leaders for 1912.

New Cabinet Member May Be in Training for Second Place.

Washington, May 24.—One of the most interesting bits of political gossip Washington has heard in a long while was current here today to the effect that the extrance of Henry L. Stimson of New York into President Taft's cabinet may mean that he will be Mr. Taft's running mate in the campaign of 1912.

President Taft, it is said, fully expects to be renominated, and little consideration is given here to the reports to the contrary.

The friends and advisers of the president, in casting about for a man to head the ticket with him, are said to look with much favor upon Mr. Stimson, the new secretary of war. They appear to be particularly anxious to get a strong man from the progressive element on the ticket, and prefer one from a pivotal state like New York.

Are Many Possibilities.

There are plenty of other vice presidential possibilities being discussed by political leaders in touch with the White House, including Senator Cummins of Iowa, and Senator Borah of Idaho. Many of the president's friends do not conceal their desire that there should be a progressive Republican on the ticket with him. At this time there seems to be little chance, however, that any of the progressive leaders in the senate will be available as vice presidential candidates.

President Taft's friends, it is said, think that Mr. Stimson, both geographically and personally, would prove a strong addition to the ticket.

FIGHT FIRE IN FACE OF GASOLINE

New York Firemen Have Risky Job—Damage Is $150,000.

New York, May 24.—A $150,000 fire with a big tank full of gasoline in the middle of it kept the firemen busy for several hours here today. The gasoline did not explode, although blue flames from the burning vapor played about the opening of the pipe that led from the tank.

The flames destroyed a lumber yard, burned out the rear of four apartment houses and consumed five smaller wooden buildings.

FIRE DESTROYS BEE HIVE DEPARTMENT STORE IN SUPERIOR

Two Girls and Three Firemen Are Overcome By Smoke.

Loss on Building and Contents Will Be $150,000.

Building Badly Gutted and $200,000 Stock Nearly Ruined.

Two girls and three firemen were overcome by smoke and nearly lost their lives in a fire which raged for three hours this morning in Superior's largest department store, the Bee Hive, at Broadway street and Tower avenue. The building and contents were damaged to the extent of $150,000, fully covered by insurance.

Miss Sophia Tonsberg and Miss Margaret Collins, two shop girls employed at the store and three firemen, Edward Thompson, John Kelley and H. Kremz, were nearly suffocated by the smoke. The girls were carried out by firemen. All of the other employees, about seventy in number, escaped from the burning structure without much trouble.

The firemen fought the blaze for two hours before it was brought under control. Edward Thompson of No. 6, one of the three fire fighters, who were overcome by the smoke, was taken to St. Mary's hospital. He will recover. The other two firemen, who were nearly suffocated, are also out of danger.

The origin of the blaze is not known. It broke out about 9:15 o'clock in the basement and worked its way to the first floor through a partition between the wall paper and shoe departments. It quickly spread to other portions of the building. The stock was valued at $200,000 and is practically ruined. The building is a two-story structure, valued at about $75,000 and is badly gutted.

Roth Bros. are proprietors of the store. T. J. Roth today gave the estimate of the damage at about $150,000 and stated that this was a conservative figure. The store has a frontage of 150 feet on Tower avenue and runs 125 feet deep on Broadway street.

The German restaurant and rooming house, a three-story structure, adjacent to the Bee Hive, on Broadway street was saved by the firemen. By hard fighting the flames were also kept from spreading across the alley on Tower alley to the Oyaas Furniture store.

IS FAVORITE SON OF 'AMERICA'S GODMOTHER'

MAYOR DUCEUX
Of St. Die, France.

New York, May 24.—In the little city of St. Die, France, will be celebrated on June 3, 4 and 5, a Franco-American celebration. This is the celebration of the 400th anniversary of the publishing of "Cosmographiae Introductio" in which this continent was first named America. The municipality of St. Die has long considered it her chief pride that she is the godmother of the new world. President Falliers has also promised to attend the fete. Mayor Duceux has been a leader in organizing this celebration.

MACVEAGH TO TALK TO SOUTHWEST BANKERS.

Kansas City, Mo., May 24.—Franklin MacVeagh, secretary of the treasury, arrived here this morning and tonight he will address the Missouri and Kansas bankers' convention in Convention hall. His subject will be "Banking and Currency Reform." More than 1,000 bankers from Missouri and Kansas were in attendance when the convention met today.

Taft Returns to Washington.

Washington, May 24.—President Taft, accompanied by Attorney General Wickersham, returned from New York early today.

WOODROW WILSON TALKS OF BUSINESS AND POLITICS

New Jersey Governor Addresses Minneapolis Publicity Club.

Will Spend Two Days in That City and in St. Paul.

Minneapolis, Minn., May 24.—Governor Woodrow Wilson of New Jersey arrived here today from the West and will spend two days in this city and St. Paul.

At a breakfast at the Minneapolis club and an informal reception Governor Wilson was taken in hand by a committee from the Minneapolis Publicity club, and at a noon luncheon under the auspices of the club at the West hotel, the governor spoke on "Business and Politics."

This afternoon Governor Wilson was turned over to a committee from the St. Paul Association of Commerce and was taken to the state capitol in St. Paul, where a public reception will be tendered him. This evening he will speak at a dinner given in his honor in St. Paul by the Association of Commerce.

Enthusiastic Over Northwest.

Governor Wilson was extremely en-

LEGAL TANGLE IN OHIO BRIBE PROBE

Men Who Refused to Testify Are Arrested at Columbus.

Columbus, Ohio, May 24.—Attorney Charles J. Pretzman, former president of the Columbus Chamber of Commerce, and E. E. Cook, editor of a Columbus newspaper, were arraigned today before Justice Homer E. Bostwick on a warrant sworn out by Chairman John E. Todd of the senate committee of ten appointed to probe the charges of bribery made against members of the senate. They had been arrested for refusal to testify before the committee. Their arrest practically halted the investigation and the committee is now confronted with a maze of legal technicalities which may take days to setttle.

DULUTH IS EVERYMAN'S SUMMER CAPITAL

Don't waste your time on the mountains, the St. Lawrence, Beverly or Minnetonka, but come to Duluth for your vacation.

PHEW
NO SUFFERING LIKE THIS FOR FATMEN IN DULUTH—

WHILE PEOPLE ALL OVER THE COUNTRY SUFFER FROM HEAT, DULUTHIANS ARE ENJOYING DAYS OF SUNSHINE FOLLOWED BY NIGHTS OF DELICIOUS COOLNESS-

TELLS HOW $10,000,000 FUND FOR PEACE WILL BE USED

Nicholas Murray Butler Addresses Lake Mohonk Meeting.

Outlines Methods for Bringing About Perpetual World Peace.

Mohonk Lake, N. Y., May 24.—The first announcement of the plan and scope of the Carnegie $10,000,000 endowment for international peace, with the appointments of directors of two of the divisions, was made here today by Dr. Nicholas Murray Butler in his address as presiding officer of the Lake Mohonk conference on international arbitration.

Dr. Butler also predicted, "with authority," the establishment of the international court of arbitral justice before the time of the third Hague peace conference. Dr. Butler said:

"The trustees of the endowment have taken a broad and statesmanlike view of its aims and purposes. While they do not overlook the value of the work of the propaganda, and intend to aid in carrying it on, they believe that the time has come when the resources of modern scientific method and of modern scholarship should be brought to bear upon the problem of international relations.

Make Study of War.

"They believe that the leading jurists

(Continued on page 6, fourth column.)

LIMIT FINE FOR HENRY J. DUVEEN

Art Dealer Must Pay $15,000 for Undervaluing Imports.

New York, May 24.—Henry J. Duveen of the firm of Duveen Bros., international art dealers, was fined $15,000 today, the maximum fine, in the United States circuit court. He pleaded guilty yesterday to undervaluations of imports. His firm has already paid $1,200,000 to the government in settlement of further civil suits.

Sentence on Benjamin J. Duveen, who also pleaded guilty yesterday, was deferred.

CHURCH REFUSES TO OUST SENATOR

Unitarians Reject Measure Based on His Vote on Lorimer.

Boston, Mass., May 24.—A proposition to strike the name of United States Senator Duncan U. Fletcher from the list of vice presidents of the Unitarian association because of his attitude in the Lorimer case last winter, failed today at the annual meeting of the American Unitarian association.

At the meeting of the ministerial union on Monday Senator Fletcher's vote on the Lorimer resolution in the senate last winter was criticized and a committee was appointed to obtain signatures to a resolution directed against him.

HERESY CASE IS FINISHED

Presbyterian Committee Has Evidence Under Consideration.

Mission Board Reports Northwest Asking for Spiritual Aid.

Atlantic City, N. J., May 24.—The fourteen members of the judicial commission of the Presbyterian general assembly are meeting in executive session today at a beach front hotel considering the evidence taken in the trial of Dr. William D. Grant of Northumberland, Pa., who is accused of heresy. The commissioners may finish their labors today or they may remain in session several days before agreeing upon a conclusion.

Judge H. M. Hinckley of Danville, Pa., the attorney who is prosecuting the heresy charge, says the main and only point at issue is the question, "Were Dr. Grant's teachings contrary to the word of God?"

Dr. Grant's defense was a sweeping denial of the heresy charge.

Meet Next in Louisville.

The general assembly today voted to meet next year in Louisville, Ky. The

700 DULUTHIANS TAKE TRIP TO STEEL PLANT

Six Coaches Packed to the Doors With Interested Citizens.

Crowd Much Larger Than Promoters of Trip Had Contemplated.

More than 700 citizens of Duluth left Duluth at 1:30 this afternoon for the steel plant site, where many of them will have their first opportunity of looking over the grounds and noting the progress that has been made on the buildings.

There were six cars in the special train that pulled out from the union depot under the charge of Assistant Superintendent Strand.

Every car was packed from door to door. It was thought at first that it would be necessary to attach additional cars to the special, but the last man to board the train finally piled on, though it was hopelessly impossible to get a seat, and the train signal was given.

What interest is taken in the steel plant and the progress that has been made there, was indicated by the large crowd and its general makeup. The citizens who went on the special train are representatives of every line of the commercial industry of Duluth.

From the working man to the capitalists of the city, from the small grocery man to the jobber, each business had its representative, indicating the general interest and the general knowledge of what the steel plant means to the city.

The crowd was even larger than had been anticipated. It was gratifying to those who were responsible for it, and showed a greater interest than had generally been expected.

WEATHER: Cool temperature with showers tonight or Thursday; moderate winds, mostly easterly.

MEXICANS ASK AID FROM DULUTH

Liberalists Claim That Madero Wants Only New Dictatorship.

Duluthians are being called on through pamphlets which are being distributed throughout the city, to give financial aid to the Mexican Liberal party.

The Pamphlet states that the Mexican Liberalists are not trying to overthrow Diaz with the idea of putting a new tyrant in his place. This they claim is the object of the Maderos.

The Anti-re-electionist party of which Francisco I. Madero is leader is fighting, claims the pamphlet, only to put a new dictator in the place now occupied by Diaz. It goes on at some length to explain the policy of the party in Mexico and how badly funds are needed.

It is signed by members of the party at Los Angeles, Cal., and dated April 3.

MEETING OF RAILWAY CLUB

Brakes and Train Slack Control Will Be Discussed.

An important meeting of the Northern Railway club will be held next Saturday evening at the Duluth Commercial club, at which a paper will be read by F. B. Farmer, Northwestern superintendent of the Westinghouse Air Brake company. The subject of the paper will be "Breaks-in-two and Train Lack Control."

As this is a problem that has been given considerable attention by the railroad men of this part of the country, and especially on th etwo range roads, the officials of the club believe the subject is one that will prove of interest to every member of the club, and even to many railroad men that do not happen to be members.

Plans have been made to have this meeting the biggest held the present season. Following the reading of the paper and the transaction of other business, the social part of the program will follow.

THREE ENTER PLEAS OF GUILTY

Men Taken to Court for Trial Admit Their Guilt.

Henry Rappaport and Samuel Polinsky pleaded guilty before Judge Dancer of the district court this morning to keeping a disorderly house, and was sentenced to pay a fine of $25 and costs or spend thirty days in the county jail.

The men kept a billiard and pool room in the Frederick hotel and complaints were made against the manner in which it was conducted. It was claimed that there was loud swearing and other unnecessary noises from the room.

Hjalmer Peterson pleaded guilty to assault in the second degree. He was not sentenced. All three men had at the time of their arraignment pleaded not guilty and they were brought to the court room this morning for trial.

Before the trials were begun they had all decided to plead guilty.

WILSON FAVORS RECIPROCITY

Says Present Plan Must Stand or Fall as a Whole.

Minneapolis, Minn., May 24.—(Special to The Herald.)—"I am heartily in favor of the Canadian reciprocity agrement," said Governor Woodrow Wilson of New Jersey, in an interview shortly after his arrival from the coast today. "I have always favored the principle of reciprocity, and favor the present agreement as a general proposition. As to its details there might be ground for criticism, but that is not worth while, as the agreement must stand or fall as a whole. I believe the farmers' free list bill passed by the house is an excellent accompaniment. The chief interest of the country in the agreement, I think, is because it is regarded as a promising beginning in tariff readjustment."

Governor Wilson said that the proposition to establish a "summer capital" for the president at Lake Minnetonka appeared an excellent idea to him.

Governor Wilson will leave tomorrow night for Lincoln, Neb., to make an address and also to visit William J. Bryan.

"DO IT FOR DULUTH" MOTTO OF NEW OWNERS OF GLASS BLOCK STORE

Control of Panton & White Company Is in New Hands.

Joseph B. Cotton Succeeds John Panton, the Retiring President.

Will C. Brown and Philip Gordon Brown the Active Managers.

With an increase of $60,000 in the paid in capital stock, new management and new men in control, the Glass Block store of Duluth will in the future feature Duluth-made goods, push the sale of Duluth-made goods, and adopt as its policy "patronize home industry" or "Do It For Duluth."

Important changes in the management of the store were made at a meeting of the directors held yesterday.

John Panton, who has been president of the company, resigned, and his place was filled by the election of Joseph B. Cotton as president. Mr. Cotton was formerly vice president of the company. F. A. Patrick and George C. Stone were elected directors of the company, succeeding Richard Sellwood and Henry Turrish, who resigned. Mr. Stone was then elected vice president of the company to succeed Mr. Cotton.

Will C. Brown, who has been secretary and treasurer of the company, was also appointed manager of the store, and he will be assisted in the active management by Philip Gordon Brown, who was appointed general superintendent.

The control of the company has passed into the hands of the stockholders of the F. A. Patrick company, and the capital stock of the company was increased from $240,000 to $300,000, the increased stock having already been subscribed.

There will be no change in the general personnel of the store employes, except the appointments of W. C. Brown and Philip Gordon Brown.

"We purpose featuring Duluth-made goods," said Mr. Patrick this morning, in outlining briefly the future policy of the store. "Whether the goods were made by F. A. Patrick & Co. or not, or whether they can be sold by the Glass Block store or not, Duluth-made goods will be pushed by the store. Whether it is horseshoe nails or matches, or machinery or drygoods, the 'made in Duluth' goods will be featured by the store. A window will be devoted to Duluth products.

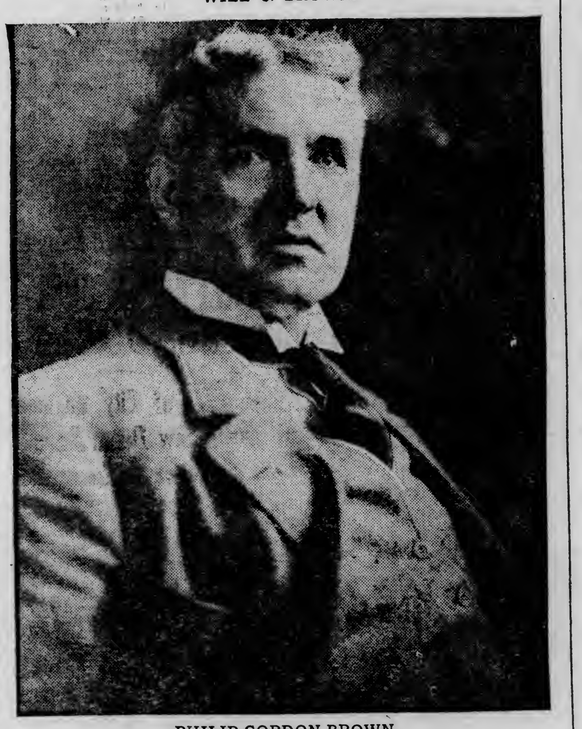
"Duluth's manufactured products have not been pushed here in Duluth as they should have been. We are firmly convinced of the wisdom of such a policy. If there is anything made in Duluth that we can sell we are going to sell it, and if there is anything made in Duluth that we can't sell, we are going to help advertise it. The future of the store depends on the future of Duluth, and anything that builds up the city builds up the store. We are going to try to make a market here in Duluth for Duluth-made goods, and we want to co-operate with manufacturers in every way."

Will C. Brown, who assumes the position of manager, has resigned as local manager for the Paine-Webber company. Mr. Brown has been connected with the Paine-Webber company for fourteen years, ten years of which time have been spent as manager of the Duluth office which he opened. He came to Duluth from Marquette and previous to his experience as a stock broker, he was engaged in the knitting and drygoods business in Marquette, so he is not without experience in this line.

Philip Gordon Brown, who becomes general superintendent of the store, came here from Boston about ten years ago to take a position with the firm of Panton & White. During the last few years he has been chief buyer in the store, and one of the active men in charge. He is very well known in the city, not only in business circles, but musical circles as well.

Mr. Panton retires from the firm after thirty-eight years of active business life to take a well earned rest.

WILL C. BROWN.



PHILIP GORDON BROWN.

DULUTH AND SUPERIOR

LAURIER GIVES STRAIGHT TALK

Tells Englishmen Annexation Fear Is Pure Buncombe.

London, May 24.—The dinner of the Pilgrims' society last night in honor of the colonial premiers was historic because of unexpected and noteworthy plain speaking by Sir Wilfred Laurier, the premier of Canada.

Sir Wilfrid, addressing an audience composed of many of the great men of England, handled the annexation question without gloves. He began by expressing amazement that during his three days' stay in England he had heard so many people of standing voicing doubts concerning the designs of the United States regarding Canada. He scoffed at the idea of the possibility of annexation being seriouly considered on either side of the border. He expressed in warm terms his admiration for the people of the United States, but declared that much as he loved the American people, he loved Great Britain better.

Canada, in sharing the continent with the United States, he said, had a double interest in the treaty of arbitration between the United States and the United Kingdom, and he exclaimed dramatically:

"I thank God that the relations between the two people never were so good as they are today."

Aroused Enthusiasm.

The premier aroused enthusiasm when he said that Canada and the United States proposed to continue to show to the world two nations with the longest boundary, extending from ocean to ocean, living in peace and mutual respect, without a fortress, a soldier or a gun on either side of the boundary.

Sir Wilfrid spoke at length on the immigration of Americans to Canada and said that the majority of them took the oath of allegiance to George V.

"We believe," he said in closing, "that the day will come of an alliance of all lands springing from England's loins, ensuring the peace of the world forever."

"REGULATE THE NEWSPAPERS"

Delano of the Wabash Wants Commerce Commission Power Extended.

Chicago, May 24.—President F. A. Delano of the Wabash railroad system today, speaking before the Chicago Traffic club, advocated the regulation of newspapers by the interstate commerce commission as semi-public utilities.

"The railroads have gone through regulation and laid down a system of procedure, and the honest roads are profiting by it," said Mr. Delano, "but why stop at the railroads? Why not apply the same rule to banker, to interstate shippers and merchants, and, indeed, why not give the newspapers a taste of it? I think it would do them good."

PUBLISHERS PROTEST AGAINST GAG LAW.

Chicago, May 24.—Members of the Illinois Daily Newspaper association, comprising many of the most important papers in the state outside of Chicago, unanimously adopted resolutions yesterday asking Governor Deneen to veto the Church bill, which prohibits the publishing of details of criminal events, under penalty of fine and imprisonment. The bill passed both houses in the recent general assembly.

The bill was explained by Senator Thomas Rees of Springfield, who declared the effect of the bill would be to deprive the public of much important information.

"Under this measure, a publisher could be put in jail if he printed particulars of an attempted assassination of a president," said Mr. Rees. "Nothing but a mere mention of the explosion in the Times building at Los Angeles would have been possible, and as a crime has been charged in the Lorimer senatorial election proceedings, newspapers would be gagged on that subject."

COLLEGE MEN ATTEND FIGHT

Nine Are Expelled and 800 Companions Threaten to Strike.

Ada, Ohio, May 24.—Eight hundred students of the Ohio Northern university here threatened to strike unless nine of their number who were expelled for participating in a prize fight recently are reinstated. Petitions also are being circulated asking for the removal of President Smith. There are 1,110 students at the university.

Those expelled are Lloyd Freeman of Detroit, a junior; Isadore Roth, Erie, Pa., senior; Chester Rowe, Newark, Ohio, junior; Carl Bryson, Lima, Ohio, junior; Thomas Farrell, Benton Ridge, Ohio, senior; D. J. Mozante, Bridgeport, Conn., junior; Victor Johnson, Newcastle, Pa., junior; John Wilson, Milwaukee, junior; Fred Willeke, Kenton, Ohio, junior.

PRICE OF STEEL BARS TO BE CUT

Manufacturers Are Soon to Hold Conference, It Is Claimed.

New York, May 24.—A cut in the price of steel bars is imminent, according to reports current today in the financial district. It is understood a meeting will be held at which the conferees will include the United States Steel corporation and a number of so-called "independents," among them the Republic Iron & Steel company, Cambria Steel company, Jones & Laughlin company and the Pennsylvania Steel company. The prevailing price for steel bars is $1.40 per 100 pounds at Pittsburg, and a cut of 5 to 10 cents per 100 is demanded by jobbers.

SIZE OF THE STRONG LADY.

New Yorkers who have been taking the children to the circus and who noticed a somewhat solid lady by the name of Sandwina flipping a mere man up and down and casually holding him at arm's length by the scruff of his neck may be interested to know something about her.

Her measurements are: Height, 5 feet 9¾ inches; weight, 210 pounds; shoulders, 16.2; chest depth, 9.8; hips, 15.3; neck, 14.9; normal chest, 43.3; expiration, 40.8; inflated, 44.1; waist, 29; hips, 43; right thigh, 25.2; left thigh, 24.8; right calf, 16.1; left calf, 16.2; right biceps, 12.6; expanded, 14; left biceps, 12.6; expanded, 13.7; right forearm, 12, and left forearm, 12.

According to Leslie's Weekly these measurements are absolutely faultless so far as relative proportions go. Frau Sandwina, who was born 25 years ago and is still going stronger than any other woman of her age, has never been ill a day in her life.

J. M. Gidding & Co.

AUTO CLUB MEMBERS IN EARNEST IN THEIR CRUSADE

A member of the Duluth Automobile club who has been active in the crusade against speeding said this morning that people seemed to take the matter as a joke but that it was far from being that. He states that the club has decided against the speeding and that every member is going to report violations of the law from this time on.

At the meeting of the club yesterday at the Commercial club, it was decided to hire two expert Eastern timers to watch those who exceed the speed limit, that more arrests may be made and in this way stop the automobile speeding in the city.

Negotiations are now under way with men now employed in the same business in an Eastern city and it is expected that they will come to Duluth get on the job at once.

No one but the members of the committee from the club will know when they are to take up their duties. They will have a full equipment of stop watches and they will be sationed at different places throughout the city and will report those who violate the speed ordinance.

The club decided to provide twenty-five automobiles for members of the G. A. R. for Memorial day. The cars will be occupied by the old soldiers in the parade.

The club for the present decided to turn down the piece of land offered the club by the Payne estate as a site for a club house. It may be taken up later but at the present time the club has not the funds to erect the building. The land offered is on Chub lake near Carlton. The Payne estate offered it to the club providing a club house would be erected upon it.

PREPARES TO GUARD WOODS

State Forester Cox Arranging for Organization of Forces.

He Says Railroads Will Be Held to Provisions of Law.

St. Paul, Minn., May 24.—(Special to The Herald.)—With plats and plans before him, W. T. Cox, the new state forester, is preparing for the organization of the fire-fighting brigade, to which will be entrusted the safety of the north woods and the settlers who have carved out homes among the pine and spruce and hemlock trees. Weeks and months will be entalled in the task, but when completed it is probable the first thorough working machine for forest protection the state has ever had will have been formed.

The authority vested in the forester by laws passed at the last session, provide means whereby a "machine" may be perfected, adequate, it is believed, to prevent great conflagrations in the timber lands. The most important provisions of these pertain to the burning of slashings and the arrest of sparks from railway locomotives. With these two agents thoroughly controlled and with more than 200 men patrolling the forests, constantly on the alert to prevent settlers and timber companies from creating dangerous situations, the danger will be greatly lessened.

Forester Given Authority.

According to the 1911 law, the state forester has authority to say in what manner slashings shall be disposed of. The rangers and patrolmen working through the woods, find timber companies at work. Conditions may be such that in one locality it is believed best that the slashings be burned at once. The patrolman so reports to the state forester, outlining in detail the conditions that exist. If the forester approves, an order goes forth from him instructing the company what to do. If the patrolman believes the time is not ripe for burning, he so advises the forester and that official may either require the company to lop the slashings and leave them, pile them in a heap, or make other disposition. Failure to comply with the forester's order is punishable by fine or imprisonment, or both. When it is taken into consideration that there will be approximately twenty-five rangers in the woods with 200 patrolmen working under their direction, it will be seen that the forester at all times will have control of the companies directly under his hand.

Duties of Railroads.

The new law provides that railroads shall equip their locomotives with efficient spark arresters, and during the dry seasons shall cause patrolmen to follow each train an dextinguish fires caused by sparks from engines before the fires have assumed serious proportions. The law also requires the roads to keep their rights-of-way cleared of dangerous accumulations of combustible material.

"I do not propose working a hardship on any railroad," Mr. Cox said, in discussing the new law, "but I do propose doing all that can be done to enforce the new law. The roads will be required to provide spark arresters, will be required to patrol their rights-of-way and keep them reasonably free from combustible material. Especially during the dry seasons shall patrols be maintained, and there will be approximately 225 men working through the woods to see that the railroad companies observe the law. The statute recently enacted is a splendid law—efficient and conferring sufficient authority to enable us to enforce it. With patrolmen assigned to certain districts and under direction of the rangers, we expect to get results."

A Worthy Sale.

The St. James Orphanage will have a special sale of articles made by the orphan children on Saturday, May 27. The sale will be held at the F. S. Kelly Furniture company's store at 226 West Superior street, and will consist of plain and fancy sewing, such as pillows, aprons, dollies for tables and dressers, clothes for little folks, and embroidery work done by the children.

A number of the ladies from different parts of the city will furnish home baking, which will be sold at the same time.

The proceeds of the sale will be used for the benefit of the St. James Orphanage, which was recently completed at a great expense and is one of the most modern institutions in Minnesota. They are taking care of about 110 children and the running expenses are very heavy. Everyone should patronize this sale, as it means a whole lot to the orphans.

The sale will begin at 9 o'clock and continue all day.

A Timely Suggestion—

STREET CAR JUST MISSED AN AUTO

Employes of City Engineer's Office Saw Death Rushing Toward Them.

Herbert Tischer and Ed Schulte, employes at the city engineer's office, are thanking their lucky star today that they are not laid out in some morgue or swathed in bandages, as yesterday afternoon they had the narrowest escape from death or serious injury which they have ever experienced. They were riding with a local contractor in his automobile on East Fourth street near Fifteenth avenue, looking up some grades.

Turning off the side of the road onto the street car tracks the car was almost run over by a street car, which they say was going at a high rate of speed. The cover was over the machine, and, chancing to look through the side light, Tischer saw the car. He yelled to the driver to stop. He threw on the brakes and killed the engine just in time. The front of the automobile was a bare foot from the side of the street car when it whizzed past them. Had the car struck them there seems little doubt but what the entire party would have been killed.

NEW CHURCH IS INCORPORATED

Howard Lake Body Names Deity as Highest Authority.

St. Paul, Minn., May 24.—(Special to The Herald.)—"The Church of the Living God of Howard Lake, Minn.," filed articles of incorporation with the secretary of state this morning. According to its bylaws regulating government, "the highest authority shall be God, through Jesus Christ. The enrolled members shall be next, the church in the whole world shall be next, the church in every nation shall be next, the church in every state and province shall be next and the church in every city shall be next."

The articles provide that Christians of all denominations shall be permitted to enroll; that women shall have equal rights with men; that all property and money shall be "held in common," and that all buildings owned or rented for use of the church shall open day and night.

Gustav A. Koenig is named as president; John W. Mealy, secretary, and the board of trustees is constituted by Luella B. Carter, Kate M. Wooley, Maggie Ferrell and Anna A. Kritzeek.

Notice of Meeting.

The annual meeting of the stockholders of the Duluth & Northern Minnesota Railway company will be held at the office of the company, No. 610 Lonsdale building, Duluth, Minnesota, on Wednesday, June 7, 1911, at 10 o'clock a. m.

J. W. BAYLY,
Secretary.

May 24, 1911.

CRIMINAL INSANE IN NEW HOSPITAL

New State Institution at St. Peter Is Formally Opened.

St. Paul, Minn., May 24.—(Special to The Herald.)—The new hospital for the criminal insane was formally opened at St. Peter yesterday. Fifteen patients from the Fergus Falls hospital were transferred to it and approximately the same number are being made ready at the state's prison for transfer. A majority of the latter are murderers. When the criminal insane are taken from all the state institutions, the new hospital will have about fifty inmates. It has capacity for sixty.

John Anderson, who has been head nurse at the St. Peter hospital, will have immediate charge of the hospital for the criminal insane. Dr. J. A. Tomlinson will be superintendent of both institutions.

TIMBER CUTTERS PAYING FINES

State Has About $2,000 Coming From the Trespassers.

St. Paul, Minn., May 24.—(Special to The Herald.)—Trespassers in the north woods are making settlement with the state for timber illegally cut during recent months. About $2,000 is to be received within the next few days, in sums ranging from $1.50 to $100.

There are seven timber "cruisers" working in the woods, who report to the state timber board all cases of trespass which are found. The timber board says how much shall be paid. One man recently caught in the act of cutting down two cedar poles paid $1.50 for his trespass.

Conductors Re-elect Officers.

Jacksonville, Fla., May 24.—The Order of Railway Conductors re-elected the entire list of last year's officers. The sessions will end this afternoon. Seattle, Wash., is working hard for the next convention, but it is expected the fight will center between Chicago and Detroit.

You may be sure of an unusually attractive hat, made by the same milliners as our better hats, with the advantage of their superior taste and art. No more for this kind of a hat here than the commonplace kinds elsewhere.

ACCUSE FARMER'S SONS.

Kindred, N. D., Young Men Are Facing Serious Charge.

Fargo, N. D., May 24.—(Special to The Herald.)—The three Gundersons, sons of a farmer near Kindred, will have a hearing this afternoon on a serious charge. A 12-year-old girl, who was assisting in housework at the Gunderson farm, became a mother and charges were filed against all three of the sons of her employer. Their ages run from 19 to 30. They have been held under $2,000 bonds each.

TO INVESTIGATE PROPOSED CUYUNA INTERURBAN LINE.

Brainerd, Minn., May 24.—(Special to The Herald.)—Max Toltz, president of the Toltz Engineering company of St. Paul, which has the ten-year contract to furnish electric light and power to Brainerd, is expected here Thursday to examine into the feasibility of constructing an electric line from Brainerd to Crosby, Cuyuna, Deerwood, Ironton, Ironhub and Barrows. Such a line would connect all the towns of the Cuyuna iron range.

SUMMER RESORT BURNS.

Outing Place on Whitefish Lake, North of Brainerd, Destroyed.

Brainerd, Minn., May 21.—(Special to The Herald.)—The summer resort on Whitefish lake, north of Brainerd, now owned by O. P. Thomas and known as the Shady Rest Summer Resort, burned to the ground Monday afternoon entailing a loss of $3,000, with little insurance. Nothing was saved but a sewing machine and a couple of chairs. The building was of bungalow construction and two stories in height. The fire spread from the fireplace. The summer resort was well advertised and much frequented by St. Paul and Minneapolis people.

Children's Shoes

of the sort that the children like to wear. Shoes made by makers that fully understand the children's requirements. Strong, sturdy leathers, in the soles and uppers. Shoemaking that will stand the kicks and cuffs.

Allow us to do the fittiig and the children will wear shoes that are exactly right—every size and width.

YOUR CREDIT IS GOOD.

Complete House Furnishers. **R. R. Forward & Co.** Superior St. at Second Avenue East.

WOMAN'S REALM.

The class in Sunday school work for the purpose of teachers' training, which has been one of the special features of the educational work at the Young Women's Christian association this year has proved most satisfactory. It has been well attended and under the direction of Mrs. C. M. Wilson, superintendent of teacher training for St. Louis county, who led the class, has covered a good field of work. "Preparation for Teaching" Charles O. Oliver's book, was used as a text book in the work and at the close of the regular term of lessons nine young women have taken the first examination in the course and have all received certificates. There are several steps and grades in the work and several examinations are given during the course. Those who have passed this first examination are the Misses:

Dorothy Romans, Ellen Nelson, Ellen Nelson, Dora Wenstad, Esther Fredericksen, Emma Iverson, Hazel Morterud, Gertrude Jorgenson, Hannah Olson,

Besides this class Miss Ada Campbell, general secretary of the association, has conducted a class in connection with the training class, in which he taught the lesson for the Sunday following, using the interdenominational text book.

The social life of the association is prominent this week. Friday afternoon a musical will be given at the home of Mrs. C. A. Congdon, an invitation to which is extended to all who are interested in the affairs and work of the association. This affair is for the benefit of the association as is also the Apple blossom festival, which is to be held Saturday in the apple orchard of the R. M. Hunter home, from 3 to 8, with a program of interesting out-of-door features.

Thimble Bee.

Mrs. E. B. Ballou will entertain the members of the Park Point branch of the Presbyterian auxiliary tomorrew afternoon at her home, 2938 Lake avenue south, at a thimble bee.

Mrs. Paine Hostess.

Mrs. Parker Paine of 1720 East Superior street was hostess at an informal tea this afternoon at her home as her link in the chain of teas which are being given for the benefit of the new tuberculosis hospital which is to be built soon. Her guests who will in turn entertain ten other guests for the benefit of the same institution were:

Mesdames—

L. E. Blebermann, A. H. Brocklehurst,
E. A. Forsythe,
T. F. McCarthy, L. L. Culbertson,
M. W. Lepp, W. C. Baldwin,
A. C. Pearson, J. B. Hanson,
J. S. Pardee. Miss Mars.

Mrs. Forsythe will be hostess Friday afternoon at her home to her ten guests.

Pupils' Concert.

Children from some of the grade schools gave a pleasing entertainment last evening in the assembly room of the Central high school before a large audience of parents and friends. This was the pupils' first public concert and was highly praised by all who heard it.

In the musical numbers the attention paid by the children was especially noted and commented on, and much credit is given to the teachers and Miss Clara Thomas, who have worked to make the concert a success.

The program was opened with "A Soldier's Life" by the children of the seventh and eighth grades of the Washington and Franklin schools, and this number was followed by "Germany," sung by the children of the second and third grades of the Madison school, who sang well and looked well in little Dutch caps.

"Ave Marie" and "Sweet and Low," two numbers by Master Donald Alexander and the seventh and eighth grades of the Lakeside and Lester Park schools, took very well and were enthusiastically received. The seventh and eighth grades of the Nettleton school sang "The Goblins" splendidly, and the folk dances by little children from the Washington school under the direction of Miss Nellie M. Stoughton was a delightful number. The Ely school, B fifth grade, gave a pleasing rendition of Scotch folk songs, and the numbers by the Longfellow seventh and eighth grades were also good.

The boys' chorus from the Lincoln school received perhaps the most applause for its group of songs and the singing of "Lovely Night" by the eighth grade of the Endion was also well done. A flag song drill, "Jamie in Command" by the fourth and fifth grade pupils of the Jackson school closed the program.

Mrs. Louis Dworshak accompanied, assisted by Miss Vera Bronson, Miss Esther Gomberg and Miss Emily Strand.

Tea for Miss White.

Mrs. Heber L. Hartley was hostess at an informal afternoon tea this afternoon at her home, 1032 East First street, in compliment to Miss Annie White, who is to be a June bride. About twenty-five guests called during the receiving hours and were received by Mrs. Hartley, assisted by Mrs. Morton Miller, Mrs. Ward Ames, Jr., and Mrs. Harvey Smith. Gladiolas formed the floral decorations.

Ascension Day Services.

Tomorrow, Ascension day, will be observed in some of the churches throughout the city. At St. Paul's Episcopal church there will be celebration of holy communion at 10 a. m. and the Girls' Friendly society will meet at 7:30 in the guild room of the church.

There will be the celebration of the holy communion at 10 a. m. at Trinity pro-cathedral crypt chapel and a children's service at 4:30 in the afternoon for the children of the Trinity Sunday school. Each child who attends this service is expected to take a flower and these flowers will be made into a crown which will be put upon the altar.

Two Little Heiresses of Senator Clark's Millions

KATHERINE MORRIS, ANDREE AND HUGUETTE CLARK.

Two of these little girls, Andree and Huguette, are the only children, by his second wife, of Senator Clark of Montana, the Montana millionaire, who now lives in a palace on Fifth avenue in New York city. They are on their way to the coronation festivities in London, in charge of their mother. Little Andree and little Huguette will be very rich women some day, though they probably don't know it.

S. S. Entertainment.

A pleasing program will be given tomorrow evening at the guild hall of Trinity pro-cathedral for the benefit of the Sunday school of that church. Readings, solos, violin numbers, chorus numbers and a little one-act comedy, "The Sleeping Car," by W. D. Howells, will be given. Those who will have parts in the play are: Mrs. Fitzjames Hill, Miss Emilly Lakin, Messrs. Allan P. Allensworth, Albert Michelson, Charles Lester Sands, Frederick H. Waldron, William Chester Smith, Mr. and Mrs. A. H. Brocklehurst, W. E. A. Le Quesne, George Rollins and Carl Knippenberg.

W. R. C. Meeting.

The Women's Relief Corps will meet tomorrow afternoon in Rowley hall at 2:30 o'clock. A large attendance is desired, as arrangements for Memorial day will be perfected.

Mrs. Preston Hostess.

Mrs. G. W. Preston entertained the members of her Five Hundred club yesterday afternoon at her home. Mrs. Charles Young and Mrs. Walter Thompson won the card prizes.

First Dance.

The members of the Jefferson club of Lakeside entertained at a dancing party last evening at the Lester Park pavilion. The hall was prettily decorated with flags and streamers of bunting and palms and about 150 people danced. This party was the first of a series to be given by the club during the summer.

"Rajahs" to Be Hosts.

The "Rajahs" have issued invitations for their first social dancing party to be given Friday evening at the Lester Park pavilion. La Brosse's orchestra will play. The members of the club are: Messrs. Franklin E. Smith, A. Taraldson, Edward Fisher, Guy W. McCue, Albert Wheaton, R. B. Henson, Edward Gollinger, Alton Palmer, H. J. Oppel, W. J. Beatty, L. R. Behnke.

Roberge-Rieth.

At a pretty home wedding last evening, Miss Verna M. Roberge, daughter of Mrs. E. O. McCorison, of 924 East Seventh street became the bride of Raymond C. Rieth, also of this city, Rev. J. E. Shewell of the St. John's English Lutheran church read the service at 9 o'clock in the presence of about twenty-five friends and relatives.

The bride was prettily gowned in white all-over lace made over pale blue silk and she carried blush roses. Her maid of honor, Miss Ethel Carroll, wore white crepe and carried American beauties.

The rooms were pretty with bouquets of pink carnations.

Mr. and Mrs. Rieth are at home to their friends at 515 East Fourth street.

Personal Mention.

Mrs. F. L. Barrows of 12 North Nineteenth avenue east will leave the first of next week for a six weeks' visit in the East. She will go to Dwight college to attend the graduating exercises, as her daughter, Miss Margaret, is a member of the graduating class this year.

* * *

Mrs. Albert Baldwin and children of 1529 East Second street are expected home Friday from Tyron, N. C., where they have been spending a month.

* * *

Mrs. E. H. Pugh of 2330 East Third street and Mrs. Charles Neimeyer of Lakeside returned yesterday afternoon from Cawker, Kan., where they were called two weeks ago by the serious illness of their sister, Mrs. Manuel Boyer, who died before they reached there.

* * *

Mr. and Mrs. G. A. St. Clair of East Superior street left last evening for a visit in New York.

* * *

Mrs. E. H. Spalding of East First street has returned from a two weeks' visit in the Twin Cities and Southern Minnesota.

* * *

Mrs. Laura McCarthy and daughter, Mardell, of 215 North Twenty-fourth avenue west returned Monday evening from a week's visit in the Twin Cities. Mrs. McCarthy went as a delegate from Pearl Hive No. 4, L. O. T. M., to the convention of that order held in St. Paul May 18 and 19.

* * *

Miss Alice Gould has returned from Portage, La Prairie, Man., where she has been visiting for the last four months. Her sister, Mrs. R. A. Stimers, and two sons came to Duluth with her to visit her mother for a few weeks.

* * *

Arthur Spear returned yesterday from Chicago Lake, where he spent the week-end with his mother, who is remaining there this week.

* * *

Miss Jessica Marshall of 2605 Greysolon Road will leave Sunday for a week's visit in New York city.

THE EVENING STORY

THE BEST MAN WINS

By E. Burrowes.

The sudden halt of the train in a dimly lighted junction roused Vernon from the doze he had dropped into just after leaving town. It was a cold night, and the blast of icy air which rushed into the carriage completed the waking up process, taking every vistige of sleep away from the luckless Vernon, who, having only just landed from the Far West, shivered in the draught despite his furlined coat.

It was 9 o'clock, too, and Vernon felt he would be thankful to get to his destination. His fellow passenger settled himself into the opposite corner, tucked a handsome rug about his knees, and took off his hat preparatory to donning the more comfortable cap for his journey. As he did so, Vernon uttered a half stifled exclamation.

"Graves!" he said.

The other man stared at him for an instant with a puzzled look in his dark eyes. He was a fine looking man, tall, heavily built, with a dark, clever face—yet not a very pleasant one.

"Why, it's Vernon!" he said, and there was no mistaking the cordiality in his voice. "What good luck brings you here! It must be ten years since we met. Down South, wasn't it?"

"Yes. A good deal of water has gone under the bridge since then. You're looking pretty fit. Going East?"

A light sprang into the other man's eyes. Vernon thought the color rose a little in his dark face.

"Yes—to Porstown—or a little village beyond it."

"Then we travel together nearly all the way. I'm bound for Porstown—my sister lives not far from the city. What a beastly night."

"And likely to be worse before morning. If it doesn't clear tomorrow, it'll look like a bad omen."

"For what?"

"The future," said Graves with a queer sort of laugh. "I'm going to be married tomorrow."

"Married! Good luck to you, old chap! Let's hope the sun will shine on you and the happy lady!"

"Thanks, I hope it will. I'm in a bit of a quandary—just got a wire as I started to say that the best man has met with a nasty accident — badly sprained his ankle and is laid up for some time—and so can't come to support me. Pretty short notice to get another fellow to take his place. I suppose——" Graves stopped abruptly and looked at Vernon rather doubtfully.

"I say—I wonder would you fill the vacancy?" he asked abruptfully.

"What do you mean?"

"Will you be my best man tomorrow?"

Vernon laughed. "My dear chap—the last man you should ask! I've never been to a wedding in my life—I should be worse than useless.

"But, look here, I must have someone. You'd be doing me a favor if you'd undertake the duties, Vernon; they are not onerous; only keep me company you know; hand the fees to the parson and so forth. Will you? I'll be awfully obliged if you'll do it."

"As you put it that way, I suppose I can't say no," said Vernon rather ruefully, but you'd be better advised if you got hold of somebody else."

"That's all right!" said Graves with an air of relief; "stand by me, Vernon, that's all I ask you to do." It's awfully good of you. Two o'clock sharp tomorrow at Cheston church."

"Right you are! And who is the happy lady?" You've never told me her—" The sentence was never finished. With a piercing shriek the train plunged into a tunnel; a minute later there was a sickening grinding and upheaval, a violent hissing of steam—the whole train seemed to rock and then break in pieces, and Vernon found himself falling—falling—till something smote him on the head and he fell into inky darkness, the darkness of oblivion.

He never knew how long it lasted, but he came to in a world of blackness, lighted here and there by a lurid flare of light from torches and lanterns, which swung past him as eager helpers worked at the wrecked train, getting out dead and wounded, moving the sufferers to a place of safety outside the tunnel. For a long time no one came near him; he could not move, though he felt no immediate pain; but something was pinning him down, and presently, when rough hands moved the obstruction, he fainted again. Yet the amazing thing was that he was not really much hurt beyond feeling terribly bruised and stiff. He had escaped serious injury by something little short of a miracle.

Graves had not fared as well. Vernon found him at last, with a doctor beside him, the light from a lantern falling on his white face. He had been found pinned across the back by a heavy piece of wreckage and as Vernon approached, the doctor looked up and shook his head slightly.

"What is it?" asked Vernon in a low voice.

"Broken back—can't live more than half an hour, if that. Nothing to be done; luckily he feels nothing.

"Look here you two, speak out. You needn't hide things—from me. I suppose I've come to the end of my tether—this time. Eh? How long do you give me, doctor?" Both men turned round sharply.

"It's a matter of hours—perhaps less."

Graves made a queer grimace.

"Gone through more than this in my time and come out of it with nothing worse than a bruise or a broken bone. Well—it's all right, doctor. Don't worry about me; other poor fellows want you — I don't. Vernon, you're a good chap. I'd like to talk with you—you won't mind giving a message or two for me, will you? You had promised, you know, to be my best man tomorrow. Well, you'll have to break the news to her."

Vernon knelt beside the dying man, sought for something to say, but could find nothing for the moment; then the voice went on:

"I can't flatter myself she'll care very much—oh, she'll be sorry, of course, as she'd be sorry for any wretch who was smashed up, but that's all. She never loved me—she never would, though I swore I'd teach her. You see—I may as well tell you this, Vernon, there was another fellow. She never forgot him—curse him for leaving her in the lurch! Something of the kind happened—there was never anyone like her to me. I don't pretend to have been a saint—I wasn't even a decent fellow sometimes—but I swear I loved her—I'd have made her a good husband, but she never cared. Vernon, you'll take a message to her for me? Tell her to be happy in her own way—tell her to marry the right man, if he comes back. I'd make him come back if I could, if I knew who he was. You'll go to her for me, Vernon, won't you?"

"Of course I will. But you haven't told me her name, yet?"

"Haven't I? I thought I had. Her name is Violet Carlisle."

"Violet Carlisle!"

Graves looked at Vernon quickly. His eyes were getting dim, but even so, he caught the look of amazed horror in the other man's face—the man who was to have stood by him at the altar on his wedding day.

"Why—do you know her?"

Silence.

"Vernon—you—you know something. You—you're the man!"

"I—I was the man."

"Heavens what a tangle! The fates must be laughing at us, but their scissors have cut the knot—for you. Don't you see that, Vernon? The best man wins! I sent you back to her—you cared? As she cares for you?"

"I cared—I care still—some hideous mistake parted us—that was all."

Graves heaved a faint sigh.

"Life seems to be made up of mistakes and tangles. Some of them will be smoothed out very soon for you, Vernon—I can't see you very well—"

"I'm here, old chap. Give me your hand. That's it."

"Vernon, I've owed you a pretty big debt since that day in Porstown. I pay it back to you now with interest. Go back to Violet—marry her, make her happy. Swear you'll do this."

"I swear—if she will have me."

Graves gave a faint laugh.

"Why, the girl adores you. How often I've cursed the man who always stood between us. Well, the best man wins. You'll go at once? You will give her my message?"

"Yes."

"That's all that matters. I'm uncommonly cold—you're so far away, Vernon. You're a good chap. After all, it's only right that the best-man-should-win!"

And Graves paid his debts in full.

Nothing to be seen on the quiet country road. Overhead a blue sky and the songs of wild birds. Vernon, tramping along the road in the pleasant sunshine—the storm of last night had all passed away—was working off some of the agitation of the past few hours, also the stiffness which had made all his bones ache.

And now—he was on his way to her with a double message to deliver. Round the bend in the road there appeared a woman walking swiftly towards him. The wind was in her face, and she had her head down, yet there was something in the quick walk, the slight figure, that made Vernon's pulses beat fast. It was—it was incredibly like Violet—nay, it was Violet.

As she was about to pass him by, he suddenly caught her by the arm. "Violet!" he said. She slipped from his grasp with a little frightened cry; then, when her eyes swiftly swept his face, the color flew to her cheeks.

"You!" she gasped. "Oh, I thought it was—was someone else!"

"Tell me, where are you going? What is the matter, Violet?"

For the first time he noted she was carrying a ridiculous little bag, large enough, perhaps, to hold a change of linen, certainly nothing more; her appearance was wild and hurried, her breath came fast. There was a hunted look in her pretty eyes.

"I—oh, don't ask!" she said faintly. "I—I am going away. I thought you—you were out West still."

"I've only just come home. Violet, you must listen to me. I have a message for you from—Graves!"

She fell back a step—the color dying from her face.

"From —?"

"You've heard nothing of him?"

"No; I left home early. I've been trying to get away—you don't know—but as you have a message—oh, don't keep me here—let me go!"

She clung suddenly to his arm like a creature distraught.

"I was to be married today, and I can't go through with it. I thought I could—I tried to be brave—but I can't—I can't! I must get away. You won't stop me, will you?"

The appeal wrung Vernon's heart. He put his hand over the trembling hand which clutched so tightly at his arm.

"I'll do anything in the world for you, Violet—you know that. Only try and listen quietly to what I have to tell you. There will be no wedding today—there can be none; Violet—there was a terrible accident on the line—the news must have reached your people by now. I was in the train with—Graves. He was terribly injured. His back was broken, and he only lived a very short time."

"He is dead?" She whispered the words, her wide open eyes fastened on Vernon's face. He could feel her trembling.

"He is dead. I was with him. Violet, my dear, he cared for you. Remember that before everything. He knew that you—you cared for someone else. He gave me a message for you—he begs you to be happy—to marry the man you care for when he comes back."

"When he comes back! He never will!" she sobbed wildly.

Vernon put his arms about her. "Violet, he has come back! Have you no word for me? Graves asked me to take care of you. Violet, my dearest, he knew at the end—he knew I was the man—I think he was glad. Violet!"

She looked at him with wild, tear-wet eyes. "You—you'll go away again," she whispered.

"Never again—from you, my own. Won't you believe that?"

Like a child she crept into the safe shelter of his arms.

HOUSEHOLD HINTS

White Marks on Wood.

Two or three times a year all polished furniture should be carefully wiped over with a cloth wrung out of lukewarm vinegar-and-water, half a teacupful to a gallon. You will be surprised to find how dirty the cloth gets. Afterwards polish the furniture with furniture cream and dusters in the usual way.

White stains on furniture, caused by putting down a hot jug or plate, should be rubed with a little oil of some kind, linseed for preference, although paraffin or sweet oil will do. Leave the oil on for some time, if possible, and then polish.

* * *

Oak Stairs That Have Been Painted.

The following is a way in which oak stairs that have been painted may be remedied:

Brush the paint with a strong solution of ammonia; this will soften the paint, which may then be scraped off with a glass or steel scraper.

After the paint has been removed wash the woodwork with ammonia and water. The ammonia will darken the wood, but if you care to have it light, brush it with a strong solution of oxalic acid. The cleaned woodwork may be treated like new wood.

* * *

To Clean a Stove.

Use good stove blacking made into a paste about as thick as thin cream with cold water. Add a teaspoonful of sugar to about a gill of the blacking.

Wet a piece of cloth in this mixture and rub on the range. When nearly dry polish with a brush. One always gets the best results with a cold, or only slightly warm range.

It is impossible to get a good polish on a hot surface. If the top of the range has been burned red, it will be necessary to repeat the coat of blacking and the polishing.

It is a great mistake to put a thick coat of blacking on at one time, as only a small portion of it will adhere to the iron surface, the brush removing the greater part.

A thorough polishing with the dry brush is most important. If this is neglected the utensils and garments that may come in contact with the range will become soiled.

The thin coat of blacking may be required for the top of the range every day or two, but the sides and hearth will require merely a brisk rubbing with the brush, putting on a little blacking, perhaps once a month.

Remember that the application of great quantities of blacking means the filling of all the grooves and crevices with the substance that will require hours to remove or dig out.

* * *

To Wash Glassware.

When washing glassware next time, try dropping a few drops of bluing into the soapsuds. Then wash the pieces in the ordinary manner. You will like the way they sparkle and how clear the glass will look from this simple yet most effective treatment.

* * *

To Clean Marble.

Take two parts of common soda, one part of pumice stone and one part of finey powdered chalk. Sift it through a fine sieve, and mix it well with water. Rub it over the marble and the stains will be removed. Wash the marble afterward with soap and warm water.

* * *

To Whiten Handkerchiefs.

Handkerchiefs that have become a bad color by careless washing should be soaked over night 'n a solution of warm water to which a little pipeclay has been added, and they will become beautifully white. Powdered borax is also another good remedy, the borax being added to the water in the same way.

* * *

How to Make Cheap Table Linen Glossy.

Cheap table linen may be made to look as glossy as fine damask if ironed in the following way. After the linen has been washed, boiled and rinsed, wring it as dry as possible, roll it up in a dry sheet, and leave it for an hour, then iron until it is thoroughly dry. In this way the linen escapes the wear and tear of hanging on a line and keeps a better shape.

Etiquette of Christening

By MARGARET E. SANGSTER.

Dean Alford has written a very beautiful hymn, on the baptism of a child, which introduces the infant into the fellowship of the church of God. Where people do not believe in infant baptism, as some excellent branches of the evangelical church do not, they none the less, without the ceremony, dedicate their little ones to the Lord's service. If you wish to have a christening party this is the way to manage it, as done in the most exclusive circles at home and abroad:

Not long after the birth of a child friends of its parents call and leave cards, inquiring after the mother and child. When the mother re-enters society she leaves cards with her acquaintances. The child is usually christened when it reaches the age of one month or thereabouts; but if it seems likely to die the ceremony may take place as soon as a clergyman can be produced. The godparents are usually immediate relatives or friends of the parents. The selection of godparents is often a matter of considerable delicacy and difficulty; for many people are reluctant to accept the office, while others again, who think they have a strong claim to the honor, are offended if they are overlooked.

Formerly there were two godfathers and two godmothers. Now, if the infant be a boy, he has two godfathers and one godmother; and if a girl then the order is reversed. The godparents are chosen from relatives and friends of the parents. For the first born the sponsors should be near relatives, preference being given to the father's family.

It is not advisable to choose elderly people for this office; for, although its duties are supposed to cease with confirmation, yet the association often lasts a lifetime, and kindly help and counsel may be given in later days by the godparent to the godchild, should the battle of life prove hard, should parents die, or friends depart.

At a baptism which took place in 1744 the sponsors must have been very aged relatives, judging from their kinship to the infant. Its godmothers were three in number, its great-grandmother, and great-great-greataunt. Its great-great-great-greatuncle and two of its great-greatuncles were godfathers.

That it was the general custom for the baptism to take place very soon after the birth may be gathered from Mr. Pepys, who writes in this voluminous diary: "We went to Mr. Brown's, where Sir W. Pen and I were godfathers, and Mrs. Jordan and Mrs. Slopman were godmothers. I did give the nurse five shillings, and the maid two shillings. But, inasmuch as I expected to give the name to the child, but did not, I forebore them to give my plate which I had in my pocket, namely six spoons and a porringer of silver."

The present at christenings are generally either a silver basin or a spoon, or a knife, fork, and spoon, or a silver mug and a Bible in elegant binding.

The christening ceremony in England and her colonies takes place in a church or chapel, and varies according to the customs of the religious denomination to which the parent of the infant belong. After it is completed the guests are entertained at luncheon, or invited to a dinner in the evening, in honor of the child. The officiating clergyman is asked to these entertainments, where the infant and the christening presents are usually exhibited.

In many parts of America the christening ceremony takes place at the house of the parents, who send out engraved or written invitations.

Carnegie on Vacation.

New York, May 24.—Andrew Carnegie begins his annual vacation today. He sails this afternoon with Mrs. Carnegie and their daughter on the Oceanic to spend the summer at Skibo castle, Scotland.

Bernhardt Seat Sale

Opens tomorrow morning, 10 o'clock.

A Word About "Sample Skirts"

Relative to those we are now selling at exceptional prices. Not only are the prices exceptionally low, but the quality of the skirts is exceptionally high. As we shall see!

Makers and sellers of fabrics are only human. Quite natural for them to put "the best foot forward" when choosing samples to be show to the trade.

Fortunate is the retailing house therefore which gets hold of these samples at the close of the season. Our privilege you see to choose **the best of the best.** What Panamas! What Serges! What Fancy Mixtures! Whew! Light, medium and dark colors, plenty blacks and blues. Absolutely the finest we have seen this season at prices that should bring from $13.50 to $8.50. But—and here's the word referred to in the first line—these skirts are selling tomorrow from **$8.50** to **$4.85.**

DEFECTIVE PAGE

WOMAN'S REALM.

The class in Sunday school work for the purpose of teachers' training, which has been one of the special features of the educational work at the Young Women's Christian association this year has proved most satisfactory. It has been well attended and under the direction of Mrs. C. M. Wilson, superintendent of teacher training for St. Louis county, who led the class, has covered a good field of work. "Preparation for Teaching" Charles O. Oliver's book, was used as a text book in the work and at the close of the regular term of lessons nine young women have taken the first examination in the course and have all received certificates. There are several steps and grades in the work and several examinations are given during the course. Those who have passed this first examination are the Misses:

Dorothy Romans, Ellen Nelson, Esther Frederickson, Hazel Morterud, Hannah Olson, Ellen Nelson, Dora Wenstad, Emma Iverson, Gertrude Jorgenson.

Besides this class Miss Ada Campbell, general secretary of the association, has conducted a class in connection with the training class, in which he taught the lesson for the Sunday following, using the International text book.

The social life of the association is prominent this week. Friday afternoon a musical will be given at the home of Mrs. C. A. Congdon, an invitation to which is extended to all who are interested in the affairs and work of the association. This affair is for the benefit of the association as is also the Apple blossom festival, which is to be held Saturday in the apple orchard of the R. M. Hunter home, from 3 to 8, with a program of interesting out-of-door features.

Thimble Bee.

Mrs. E. B. Ballou will entertain the members of the Park Point branch of the Presbyterian auxiliary tomorrow afternoon at her home, 2938 Lake avenue south, at a thimble bee.

Mrs. Paine Hostess.

Mrs. Parker Paine of 1720 East Superior street was hostess at an informal tea this afternoon at her home as her link in the chain of teas which are being given for the benefit of the new tuberculosis hospital which is to be built soon. Her guests who will in turn entertain ten other guests for the benefit of the same institution were: Mesdames—

L. E. Biebermann, E. A. Forsythe, T. F. McCarthy, M. W. Lepp, A. C. Pearson, J. S. Pardee, A. H. Brocklehurst, L. L. Culbertson, W. C. Baldwin, J. B. Hanson, Miss Mars.

Mrs. Forsythe will be hostess Friday afternoon at her home to her ten guests.

Pupils' Concert.

Children from some of the grade schools gave a pleasing entertainment last evening in the assembly room of the Central high school before a large audience of parents and friends. This was the pupils' first public concert and was highly praised by all who heard it.

In the musical numbers the attention paid by the children was especially noted and commented on, and much credit is given to the teachers and Miss Clara Thomas, who have worked to make the concert a success.

The program was opened with "A Soldier's Life" by the children of the seventh and eighth grades of the Washington and Franklin schools, and this number was followed by "Germany," sung by the children of the second and third grades of the Madison school, who sang well and looked well in little Dutch caps.

"Ave Marie" and "Sweet and Low," two numbers by Master Donald Alexander and the seventh and eighth grades of the Lakeside and Lester Park schools, took very well and were enthusiastically received. The seventh and eighth grades of the Nettleton school sang "The Goblins" splendidly, and the folk dances by little children from the Washington school under the direction of Miss Nellie M. Stoughton was a delightful number. The Ely school, B fifth grade, gave a pleasing rendition of Scotch folk songs, and the numbers by the Longfellow seventh and eighth grades were also good.

The boys' chorus from the Lincoln school received perhaps the most applause for its group of songs and the singing of "Lovely Night" by the eighth grade of the Endion was also well done. A flag song drill, "Jamie in Command" by the fourth and fifth grade pupils of the Jackson school closed the program.

Mrs. Louis Dworshak accompanied, assisted by Miss Vera Bronson, Miss Esther Gomberg and Miss Emily Strand.

Tea for Miss White.

Mrs. Heber L. Hartley was hostess at an informal afternoon tea this afternoon at her home, 1032 East First street, in compliment to Miss Annie White, who is to be a June bride. About twenty-five guests called during the receiving hours and were received by Mrs. Hartley, assisted by Mrs. Morton Miller, Mrs. Ward Ames, Jr., and Mrs. Harvey Smith. Gladiolas formed the floral decorations.

Ascension Day Services.

Tomorrow, Ascension day, will be observed in some of the churches throughout the city. At St. Paul's Episcopal church there will be celebration of holy communion at 10 a. m. and the Girls' Friendly society will meet at 7:30 in the guild room of the church.

There will be the celebration of the holy communion at 10 a. m. at Trinity pro-cathedral crypt chapel and a children's service at 4:30 in the afternoon for the children of the Trinity Sunday school. Each child who attends this service is expected to take a flower and these flowers will be made into a crown which will be put upon the altar.

S. S. Entertainment.

A pleasing program will be given tomorrow evening at the guild hall of Trinity pro-cathedral for the benefit of the Sunday school of that church. Readings, solos, violin numbers, chorus numbers and a little one-act comedy, "The Sleeping Car," by W. D. Howells, will be given. Those who will have parts in the play are: Mrs. Fitzjames Hill, Miss Emily Lakin, Messrs. Allan P. Allensworth, Albert Michelson, Charles Lester Sands, Frederick H. Waldron, William Chester Smith, Mr. and Mrs. A. H. Brocklehurst, W. E. A. Le Quesne, George Rollins and Carl Knippenberg.

W. R. C. Meeting.

The Women's Relief Corps will meet tomorrow afternoon in Rowley hall at 2:30 o'clock. A large attendance is desired, as arrangements for Memorial day will be perfected.

Mrs. Preston Hostess.

Mrs. G. W. Preston entertained the members of her Five Hundred club yesterday afternoon at her home. Mrs. Charles Young and Mrs. Walter Thompson won the card prizes.

First Dance.

The members of the Jefferson club of Lakeside entertained at a dancing party last evening at the Lester Park pavilion. The hall was prettily decorated with flags and streamers of bunting and palms and about 150 people danced. This party was the first of a series to be given by the club during the summer.

"Rajahs" to Be Hosts.

The "Rajahs" have issued invitations for their first social dancing party to be given Friday evening at the Lester Park pavilion. La Brosse's orchestra will play. The members of the club are: Messrs. Franklin E. Smith, A. Taraldson, Edward Fisher, Guy W. McCue, Albert Wheaton, R. B. Henson, Edward Gollinger, Alton Palmer, H. J. Oppel, W. J. Beatty, L. R. Behnke.

Roberge-Rieth.

At a pretty home wedding last evening, Miss Verna M. Roberge, daughter of Mrs. E. O. McCorison, of 924 East Seventh street became the bride of Raymond C. Rieth, also of this city. Rev. J. E. Shewell of the St. John's English Lutheran church read the service at 9 o'clock in the presence of about twenty-five friends and relatives.

The bride was prettily gowned in white all-over lace made over pale blue silk and she carried blush roses. Her maid of honor, Miss Ethel Carroll, wore white crepe and carried American beauties.

The rooms were pretty with bouquets of pink carnations.

Mr. and Mrs. Rieth are at home to their friends at 515 East Fourth street.

Personal Mention.

Mrs. F. L. Barrows of 12 North Nineteenth avenue east will leave the first of next week for a six weeks' visit in the East. She will go to Dwight college to attend the graduating exercises, as her daughter, Miss Margaret, is a member of the graduating class this year.

* * *

Mrs. Albert Baldwin and children of 1529 East Second street are expected home Friday from Tyron, N. C., where they have been spending a month.

* * *

Mrs. E. H. Pugh of 2330 East Third street and Mrs. Charles Neimeyer of Lakeside returned yesterday afternoon from Cawker, Kan., where they were called two weeks ago by the serious illness of their sister, Mrs. Manuel Boyer, who died before they reached there.

* * *

Mr. and Mrs. G. A. St. Clair of East Superior street left last evening for a visit in New York.

* * *

Mrs. E. H. Spalding of East First street has returned from a two weeks' visit in the Twin Cities and Southern Minnesota

* * *

Mrs. Laura McCarthy and daughter, Mardell, of 215 North Twenty-fourth avenue west returned Monday evening from a week's visit in the Twin Cities. Mrs. McCarthy went as a delegate from Pearl Hive No. 4, L. O. T. M., to the convention of that order held in St. Paul May 18 and 19.

* * *

Miss Alice Gould has returned from Portage, La Prairie, Man., where she has been visiting for the last four months. Her sister, Mrs. R. A. Stimers, and two sons came to Duluth with her to visit her mother for a few weeks.

* * *

Arthur Spear returned yesterday from Chicago Lake, where he spent the week-end with his mother, who is remaining there this week.

Miss Jessica Marshall of 2605 Greysolon Road will leave Sunday for a week's visit in New York city.

Two Little Heiresses of Senator Clark's Millions

KATHERINE MORRIS, ANDREE AND HUGUETTE CLARK.

Two of these little girls, Andree and Huguette, are the only children, by his second wife, of Senator Clark of Montana, the Montana millionaire, who now lives in a palace on Fifth avenue in New York city. They are on their way to the coronation festivities in London, in charge of their mother. Little Andree and little Huguette will be very rich women some day, though they probably don't know it.

THE EVENING STORY

THE BEST MAN WINS

By E. Burrowes.

The sudden halt of the train in a dimly lighted junction roused Vernon from the doze he had dropped into just after leaving town. It was a cold night, and the blast of icy air which rushed into the carriage completed the waking up process, taking every vestige of sleep away from the luckless Vernon, who, having only just landed from the Far West, shivered in the draught despite his furlined coat.

It was 9 o'clock, too, and Vernon felt he would be thankful to get to his destination. His fellow passenger settled himself into the opposite corner, tucked a handsome rug about his knees, and took off his hat preparatory to donning the more comfortable cap for his journey. As he did so, Vernon uttered a half stifled exclamation.

"Graves!" he said.

The other man stared at him for an instant with a puzzled look in his dark eyes. He was a fine looking man, tall, heavily built, with a dark, clever face—yet not a very pleasant one.

"Why, it's Vernon!" he said, and there was no mistaking the cordiality in his voice. "What good luck brings you here! It must be years since we met. Down South, wasn't it?"

"Yes. A good deal of water has gone under the bridge since then. You're looking pretty fit. Going East?"

A light sprang into the other man's eyes. Vernon thought the color rose a little in his dark face.

"Yes—to Porstown—or a little village beyond it."

"Then we travel together nearly all the way. I'm bound for Porstown—my sister lives not far from the city. What a beastly night."

"And likely to be worse before morning. If it doesn't clear tomorrow, it'll look like a bad omen."

"For what?"

"The future," said Graves with a queer sort of laugh. "I'm going to be married tomorrow."

"Married! Good luck to you, old chap! Let's hope the sun will shine on you and the happy lady!"

"Thanks, I hope it will. I'm in a bit of a quandary—just got a wire as I started to say that the best man has met with a nasty accident — badly sprained his ankle and is laid up for some time—and so can't come to support me. Pretty short notice to get another fellow to take his place. I suppose——" Graves stopped abruptly and looked at Vernon rather doubtfully.

"I say—I wonder would you fill the vacancy?" he asked abruptfully.

"What do you mean?"

"Will you be my best man tomorrow?"

Vernon laughed. "My dear chap—the last man you should ask! I've never been to a wedding in my life—I should be worse than useless."

"But, look here, I must have someone. You'd be doing me a favor if you'd undertake the duties, Vernon; they are not onerous; only keep me company you know; hand the fees to the parson and so forth. Will you? I'll be awfully obliged if you'll do it."

"As you put it that way, I suppose I can't say no," said Vernon rather ruefully, but you'd be better advised if you got hold of somebody else."

"That's all right!" said Graves with an air of relief; "stand by me, Vernon, that's all I ask you to do." It's awfully good of you. Two o'clock sharp tomorrow at Cheston church."

"Right you are! And who is the happy lady?" You've never told me her—" The sentence was never finished. With a piercing shriek the train plunged into a tunnel; a minute later there was a sickening grinding and upheaval, a violent hissing of steam—the whole train seemed to rock and then break in pieces, and Vernon found himself falling—falling—till something smote him on the head and he fell into inky darkness, the darkness of oblivion.

He never knew how long it lasted, but he came to in a world of blackness, lighted here and there by a lurid flare of light from torches and lanterns, which swung past him as eager helpers worked at the wrecked train, getting out dead and wounded, moving the sufferers to a place of safety outside the tunnel. For a long time no one came near him; he could not move, though he felt no immediate pain; but something was pinning him down, and presently, when rough hands moved the obstruction, he fainted again. Yet the amazing thing was that he was not really much hurt beyond feeling terribly bruised and stiff. He had escaped serious injury by something little short of a miracle.

Graves had not fared as well. Vernon found him at last, with a doctor beside him, the light from a lantern falling on his white face. He had been found pinned across the back by a heavy piece of wreckage and as Vernon approached, the doctor looked up and shook his head slightly.

"What is it?" asked Vernon in a low voice.

"Broken back—can't live more than half an hour, if that. Nothing to be done; luckily he feels nothing.

"Look here you two, speak out. You needn't hide things—from me. I suppose I've come to the end of my tether—this time. Eh? How long do you give me, doctor?" Both men turned round sharply.

"It's a matter of hours—perhaps less."

Graves made a queer grimace.

"Gone through more than this in my time and come out of it with nothing worse than a bruise or a broken bone. Well—it's all right, doctor. Don't worry about me; other poor fellows want you — I don't. Vernon, you're a good chap. I'd like to talk with you—you won't mind giving a message or two for me, will you? You had promised, you know, to be my best man tomorrow. Well, you'll have to break the news to her."

Vernon knelt beside the dying man, sought for something to say, but could find nothing for the moment; then the voice went on:

"I can't flatter myself she'll care very much—oh, she'll be sorry, of course, as she'd be sorry for any wretch who was smashed up, but that's all. She never loved me——she never would, though I swore I'd teach her. You see—I may as well tell you this, Vernon, there was another fellow. She never forgot him—curse him for leaving her in the lurch! Something of the kind happened—there was never anyone like her to me. I don't pretend to have been a saint—I wasn't even a decent fellow sometimes—but I swear I loved her—I'd have made her a good husband, but she never cared. Vernon, you'll take a message to her for me? Tell her to be happy in her own way—tell her to marry the right man, if he comes back. I'd make him come back if I could, if I knew who he was. You'll go to her for me, Vernon, won't you?"

"Of course I will. But you haven't told me her name, yet?"

"Haven't I? I thought I had. Her name is Violet Carlisle."

"Violet Carlisle!"

Graves looked at Vernon quickly. His eyes were getting dim, but even so, he caught the look of amazed horror in the other man's face—the man who was to have stood by him at the altar on his wedding day.

"Why—do you know her?"

Silence.

"Vernon—you—you know something. You—you're the man——"

"I—I was the man——"

"Heavens what a tangle! The fates must be laughing at us, but their scissors have cut the knot—for you. Don't you see that, Vernon? The best man wins! I sent you back to her—you cared? As she cares for you?"

"I cared—I care still—some hideous mistake parted us—that was all."

Graves heaved a faint sigh.

"Life seems to be made up of mistakes and tangles. Some of them will be smoothed out very soon for you, Vernon—I can't see you very well—"

"I'm here, old chap. Give me your hand. That's it."

"Vernon, I've owed you a pretty big debt since that day in Porstown. I pay it back to you now with interest. Go back to Violet—marry her, make her happy. Swear you'll do this. I'll swear—if she will have me."

Graves gave a faint laugh.

"Why the girl adores you. How often I've cursed the man who always stood between us. Well, the best man wins. You'll go at once? You will give her my message?"

"Yes."

"That's all that matters. I'm uncommonly cold—you're so far away, Vernon. You're a good chap. After all, it's only right that the best-man-should-win."

And Graves paid his debts in full.

Nothing to be seen on the quiet country road. Overhead a blue sky and the songs of wild birds. Vernon, tramping along the road in the pleasant sunshine—the storm of last night had all passed away—was working off some of the agitation of the past few hours, also the stiffness which had made all his bones ache.

And now—he was on his way to her with a double message to deliver. Round the bend in the road there appeared a woman walking swiftly towards him. The wind was in her face, and she had her head down, yet there was something in the quick walk, the slight figure, that made Vernon's pulses beat fast. It was—it was incredibly like Violet—nay, it was Violet.

As she was about to pass him by, he suddenly caught her by the arm. "Violet!" he said. She slipped from his grasp with a little frightened cry; then, when her eyes swiftly swept his face, the color flew to her cheeks.

"You!" she gasped. "Oh, I thought it was—was someone else!"

"Tell me, where are you going? What is the matter, Violet?"

For the first time he noted she was carrying a ridiculous little bag, large enough, perhaps, to hold a change of linen, certainly nothing more; her appearance was wild and hurried, her breath came fast. There was a hunted look in her pretty eyes.

"I—oh, don't ask!" she said faintly. "I—I am going away. I thought you—you were out West still."

"I've only just come home. Violet, you must listen to me. I have a message for you from—Graves!"

She fell back a step—the color dying from her face.

"From —?"

"You've heard nothing of him?"

"No; I left home early. I've been trying to get away—you don't know—but as you have a message—oh, don't keep me here—let me go!"

She clung suddenly to his arm like a creature distraught.

"I was to be married today, and I can't go through with it. I thought I could—I tried to be brave—but I can't—I can't! I must get away. You won't stop me, will you?"

The appeal wrung Vernon's heart. He put his hand over the trembling hand which clutched so tightly at his arm.

"I'll do anything in the world for you, Violet—you know that. Only try and listen quietly to what I have to tell you. There will be no wedding today—there can be none; Violet—there was a terrible accident on the line—the news must have reached your people by now. I was in the train with—Graves. He was terribly injured. His back was broken, and he only lived a very short time."

"He is dead?" She whispered the words, her wide open eyes fastened on Vernon's face. He could feel her trembling.

"He is dead. I was with him, Violet, my dear, he cared for you. Remember that before everything. He knew that you—you cared for someone else. He gave me a message for you—he begs you to be happy—to marry the man you care for when he comes back."

"When he comes back! He never will!" she sobbed wildly.

Vernon put his arms about her. "Violet, he has come back! Have you no word for me? Graves asked me to take care of you. Violet, my dearest, he knew at the end—he knew I was the man—I think he was glad. Violet!"

She looked at him with wild, tear-wet eyes. "You—you'll go away again," she whispered.

"Never again—from you, my own. Won't you believe that?"

Like a child she crept into the safe shelter of his arms.

HOUSEHOLD HINTS

White Marks on Wood.

Two or three times a year all polished furniture should be carefully wiped over with a cloth wrung out of lukewarm vinegar-and-water, half a teacupful to a gallon. You will be surprised to find how dirty the cloth gets. Afterwards polish the furniture with furniture cream and dusters in the usual way.

White stains on furniture, caused by putting down a hot jug or plate, should be rubed with a little oil of some kind, linseed for preference, although paraffin or sweet oil will do. Leave the oil on for some time, if possible, and then polish.

* * *

Oak Stairs That Have Been Painted.

The following is a way in which oak stairs that have been painted may be remedied:

Brush the paint with a strong solution of ammonia; this will soften the paint, which may then be scraped off with a glass or steel scraper.

After the paint has been removed wash the woodwork with ammonia and water. The ammonia will darken the wood, but if you care to have it light, brush it with a strong solution of oxalic acid. The cleaned woodwork may be treated like new wood.

* * *

To Clean a Stove.

Use good stove blacking made into a paste about as thick as thin cream with cold water. Add a teaspoonful of sugar to about a gill of the blacking.

Wet a piece of cloth in this mixture and rub on the range. When nearly dry polish with a brush. One always gets the best results with a cold, or only slightly warm range.

It is impossible to get a good polish on a hot surface. If the top of the range has been burned red, it will be necessary to repeat the coat of blacking and the polishing.

It is a great mistake to put a thick coat of blacking on at one time, as only a small portion of it will adhere to the iron surface, the brush removing the greater part.

A thorough polishing with the dry brush is most important. If this is neglected the utensils and garments that may come in contact with the range will become soiled.

The thin coat of blacking may be required for the top of the range every day or two, but the sides and hearth will require merely a brisk rubbing with the brush, putting on a little blacking, perhaps once a month.

Remember that the application of great quantities of blacking means the filling of all the grooves and crevices with the substance that will require hours to remove or dig out.

* * *

To Wash Glassware.

When washing glassware next time, try dropping a few drops of bluing into the soapsuds. Then wash the pieces in the ordinary manner. You will like the way they sparkle and how clear the glass will look from this simple yet most effective treatment.

* * *

To Clean Marble.

Take two parts of common soda, one part of pumice stone and one part of finey powdered chalk. Sift it through a fine sieve, and mix it well with water. Rub it over the marble and the stains will be removed. Wash the marble afterward with soap and warm water.

* * *

To Whiten Handkerchiefs.

Handkerchiefs that have become a bad color by careless washing should be soaked over night in a solution of warm water to which a little pipeclay has been added, and they will become beautifully white. Powdered borax is also another good remedy, the borax being added to the water in the same way.

* * *

How to Make Cheap Table Linen Glossy.

Cheap table linen may be made to look as glossy as fine damask if ironed in the following way. After the linen has been washed, boiled and rinsed, wring it as dry as possible, roll it up in a dry sheet, and leave it for an hour, then iron until it is thoroughly dry. In this way the linen escapes the wear and tear of hanging on a line and keeps a better shape.

Etiquette of Christening

By MARGARET E. SANGSTER.

Dean Alford has written a very beautiful hymn, on the baptism of a child, which introduces the infant into the fellowship of the church of God. Where people do not believe in infant baptism, as some excellent branches of the evangelical church do not, they none the less, without the ceremony, dedicate their little ones to the Lord's service. If you wish to have a christening party this is the way to manage it, as done in the most exclusive circles at home and abroad:

Not long after the birth of a child friends of its parents call and leave cards, inquiring after the mother and child. When the mother re-enters society she leaves cards with her acquaintances. The child is usually christened when it reaches the age of one month or thereabouts; but if it seems likely to die the ceremony may take place as soon as a clergyman can be produced. The godparents are usually immediate relatives or friends of the parents. The selection of godparents is often a matter of considerable delicacy and difficulty; for many people are reluctant to accept the office, while others again, who think they have a strong claim to the honor, are offended if they are overlooked.

Formerly there were two godfathers and two godmothers. Now, if the infant be a boy, he has two godfathers and one godmother; and if a girl then the order is reversed. The godparents are chosen from relatives and friends of the parents. For the first born the sponsors should be near relatives, preference being given to the father's family.

It is not advisable to choose elderly people for this office; for, although its duties are supposed to cease with confirmation, yet the association often lasts a lifetime, and kindly help and counsel may be given in later days by the godparent to the godchild, should the battle of life prove hard, should parents die, or friends depart.

At a baptism which took place in 1744 the sponsors must have been very aged relatives, judging from their kinship to the infant. Its godmothers were three in number, its great-grandmother, and great - great - greataunt. Its great-great-great-greatuncle and two of its great-greatuncles were godfathers.

That it was the general custom for the baptism to take place very soon after the birth may be gathered from Mr. Pepys, who writes in this voluminous diary: "We went to Mr. Brown's, where Sir W. Pen and I were godfathers, and Mrs. Jordan and Mrs. Slopman were godmothers. I did give the nurse five shillings, and the maid two shillings. But, inasmuch as I expected to give the name to the child, but did not, I forebore them to give my plate which I had in my pocket, namely six spoons and a porringer of silver."

The present at christenings are generally either a silver basin or a spoon, or a knife, fork, and spoon, or a silver mug and a Bible in elegant binding.

The christening ceremony in England and her colonies takes place in a church or chapel, and varies according to the customs of the religious denomination to which the parent of the infant belong. After it is completed the guests are entertained at luncheon, or invited to a dinner in the evening, in honor of the child. The officiating clergyman is asked to these entertainments, where the infant and the christening presents are usually exhibited.

In many parts of America the christening ceremony takes place at the house of the parents, who send out engraved or written invitations.

Carnegie on Vacation.

New York, May 24.—Andrew Carnegie begins his annual vacation today. He sails this afternoon with Mrs. Carnegie and their daughter on the Oceanic to spend the summer at Skibo castle, Scotland.

A Word About "Sample Skirts"

Relative to those we are now selling at exceptional prices. Not only are the prices exceptionally low, but the quality of the skirts is exceptionally high. As we shall see!

Makers and sellers of fabrics are only human. Quite natural for them to put "the best foot forward" when choosing samples to be show to the trade.

Fortunate is the retailing house therefore which gets hold of these samples at the close of the season. Our privilege you see to choose **the best of the best.** What Panamas! What Serges! What Fancy Mixtures! Whew! Light, medium and dark colors, plenty blacks and blues. Absolutely the finest we have seen this season at prices that should bring from $12.50 to $8.50. But—and here's the word referred to in the first line—these skirts are selling tomorrow from **$8.50** to **$4.85.**

DEFECTIVE PAGE INTENTIONAL DUPLICATE EXPOSURE

NORRIS RAPS PAPER TRUST

Tells Senate Committee About Operations of Manufacturers.

Charges Conspiracy and Over Capitalization of $40,000,000.

Washington, May 24.—Charges that the American newspaper publishers are compelled to pay higher prices than necessary for their news print paper because the International Paper company is in practical control of the industry in this country were made at the Canadian reciprocity bill hearings before the senate finance committee by John Norris, representing the American Newspaper Publishers' association.

The paper makers, Mr. Norris declared, had made obvious efforts to restrict production and to starve the print paper market in order to maintain prices at an agreed figure; have sold paper abroad cheaper than in this country, and have arrayed themselves against open prices and against public quotations.

Tried to Buy Paper.

In an effort to prevent such secret fixing of prices, Mr. Norris said that he had made offers to buy paper and to pay cash for it, but that only two mills out of fifty in this country had sold to him. The reason for this refusal, he claimed, was that the paper makers did not want a public quotation of their prices, as he would have sold the paper at auction, thus making the prices public.

"The paper makers of this country," said Mr. Norris, "have preferred to keep their mills idle and their labor unemployed and to allow Canada to sell paper here to the advantage of the Canadian labor and the disadvantage of than own labor rather than sell paper at the mill.

Charges a Conspiracy.

"A conspiracy or arrangement of some sort exists among news print paper mills, the effect of which is to deprive a reasonable purchaser of the opportunity to buy news print paper at a fair market price without restrictions as to its use or at the price at which the mills are selling a similar article in similar quantities to others. Those mills so doing, which are under the injunction of the court, have disobeyed its orders.

"The trade disturbance and price fluctuations in news print paper, due to unlawful combinations, have been continuous since the passage of the Dingley bill, shortly after which the International Paper company was formed from a consolidation of many mills, including those on the verge of bankruptcy, and immediate steps were taken to mark up prices."

Capitalization Inflated.

Mr. Norris accused the International Paper company of selling paper abroad cheaper than here, with having "launced into a gigantic wood land speculation," with having an inflated capitalization of at least $40,000,000 and with keeping down production by maintaining a capacity of only 35 per cent of modern equipment.

"Yet the International Paper company," he added, "is asking congress to put a premium on the antiquity of plants and mills that were verging on bankruptcy thirteen years ago."

Mr. Norris declared the newspaper publishers in the same city are obliged to pay different prices for the paper they purchase from the International company.

When Mr. Norris read figures from the tariff board's report, showing that five mills in this country manufacture at about $25 a ton more news paper than the Canadian mills manufacture at $27.50 a ton, Senator Lodge insisted on reading the entire table, showing that the average cost of production in this country is more than $32 a ton. Mr. Norris declared this was due to antique machinery equipment in the American mills, making the cost of production high.

Mr. Norris was today again before the committee in advocacy of the Canadian reciprocity bill. Mr. Norris declared that the Root amendment to the bill providing that the paper clause of the measure should not be in force until the president proclaims that wood pulp and paper are admitted into all parts of Canada free of duty would postpone indefinitely the date of application of the treaty.

"That was what it was intended to do," remarked Senator Stone.

Mr. Norris claimed that it was inconsistent with the purpose of the agreement, which was that paper and wood pulp should not be admitted into the United States free of duty until so admitted into Canada.

Paper Prices Higher.

As a result of the high prices charged by the International Paper company, Mr. Norris said that the largest user of news print paper in this country would have to pay during the coming year $700,000 more for his paper than for several pears past, and another publisher about $500,000 a year more.

The present tariff, he declared, allowed the paper makers of the United States to maintain high prices and keep Canadian paper out. The fact that the United States has been shipping more paper into Canada than is sent from there into this country is proof, he claimed, that it can be produced here at a lower figure than in Canada.

When Mr. Norris had concluded, Alonzo Aldrich of Beloit, Wis., a manufacturer of paper machines, spoke in opposition to the bill. The committee then adjourned until tomorrow.

Bernhardt Seat Sale

Opens tomorrow morning, 10 o'clock.

Search for Horse Thief.

Crosby, N. D., May 24.—(Special to The Herald.)—Officials are searching for a horse thief who entered the Hugos Bros. barn at Ambrose, stealing a riding horse, saddle and bridle. The thief is known to have passed through Crosby on the night of the theft, making his way through this town about 3 o'clock in the morning. It is the belief that the man headed into Canada and they have invoked the aid of the Canadian authorities in their search for the guilty party.

MADERO MUST HAVE GUARDS

(Continued from page 1.)

plan to run a locomotive a short distance ahead of the Madero train to scout for bombs has caused comment. "The spectacle of the latest liberator of the country going to Mexico City under an armed protection against bombs is not the pleasantest omen," said an insurrecto chief. "Madero would not plan to protect himself if he did not think it necessary, but the necessity seems urgent. The reason for any opposition to Madero lies in the jealousy of certain revolutionary elements, who resent the power assumed by Senor Madero and Dr. Gomez in naming the cabinet and otherwise forming the personnel of the government which is to succeed Diaz."

Will Remain Under Arms.

Figueroa, the insurrecto chief operating near Cuernavaca, will not lay down his arms until Madero is safely arrived in the City of Mexico, according to advices received by Madero today. According to this advice, Figueroa is in entire sympathy with Madero, but intends to remain in arms until the provisional government is established.

Confidential Agency Closes.

Washington, May 24.—The confidential agency in Washington of the Mexican provisional government closes, presumably for all time, with the departure tonight of Senor Vasconcelos, confidential agent, for San Antonio, on his way to City of Mexico. Mr. Vasconcelos has been ordered home to take part in the reorganization of the government.

Diaz to Resign Soon.

City of Mexico, May 24.—Unless there is a hitch in the plans, General Diaz will present his resignation to the chamber of deputies within a few hours. He is expected to go to the chamber personally. Accompanying him will be the famous presidential guards, and his visit to the assembly will be attended by all those ceremonies ordinarily observed.

Vice President Corral's resignation has been received. It is also expected that all the members of the present cabinet, with the exception of Minister of Foreign Relations De La Barra, will resign.

When Diaz will leave Mexico is not generally known, but it is certain not many days will elapse between his resignation and the date of his departure. With him will come his entire family, including his son Porfirio Diaz, Jr. The French colony here, through the French legation, has asked France to place a cruiser at Diaz's disposal for his journey abroad.

The New Cabinet.

Official announcement is made that with the exception of the department of justice the new cabinet had been agreed upon as follows: Finance, Ernesto Madero; interior, Emilio Vasquez Gomez; instruction, Dr. Francisco Vasquez Gomez; fomento, Manuel Calero; war, Gen. Eugenio Rascon; communications, Mauel Bonilla; foreign relations, sub-secretary, Bartolome Carbajal y Rosas.

Rafael Hernandez Madero probably will be agreed upon as the minister of justice. He was suggested by Madero.

Ernesto Madero is the youngest man in the new cabinet, being but 35 years old. He is president of the Bank of Nuevo Leon in Monterey. He is an uncle of Francisco I. Madero and probably the wealthiest man of the Madero family. He was a member of the commission named by the government to devise a means for establishing the country's currency. Since then he has been associated with many larger industrial corporations. The part taken in the revolution by Ernesto Madero has been his efforts to establish peace.

Chinese Move Again.

Washington, May 24.—In response to urgent appeals from Chinese colonies in Mexico, Chang Ying Tang, the Chinese minister here, has again instructed his charge a'affaires at City of Mexico to make a strong protest to Mexican officials against the massacre of his countrymen at Torreon. Mexico will be asked to extend adequate protection to the Chinese subjects within her borders.

Bernhardt Seat Sale

Opens tomorrow morning, 10 o'clock.

HINES BRANDS FUNK CHARGES FALSE AND BERATES ACCUSERS

(Continued from page 1.)

proper procedure I shall vindicate myself and confound my traducers before a tribunal that will not be a grotesque travesty on law and justice—a mere tool of politics and the subservient organ of unfair and unscrupulous journalism. I shall not only welcome, but I shall insist upon and secure the fullest investigation as to my actions in these matters, where the sanctions of the law will bring out the truth and expose the falsehood.

"What I have done in behalf of the lumber industry, in my own and in your behalf, and what you have done in co-operation with me, has been done openly and legitimately."

He than attacked newspapers, asserting they were foremost of those who besieged representatives of the people for special privilege.

Attacks Reciprocity Plan.

Plunging into his annual address, after applause for his opening remarks, President Hines attacked President Taft's reciprocity plan, saying:

"A year ago, at the New Orleans meeting, I congratulated you upon what I thought was a satisfactory ending of the tariff campaign, yet now we find ourselves again in a renewed campaign of the same sort. Again lumber is asked largely to bear the burden of what is called tariff revision.

"This time it assumes the old guise of reciprocity with Canada, and obeying the mandate of the association, we have been making a fight against the insidious discrimination with which it is proposed we shall be treated."

He announced that the $100,000 endowment to the Yale school of forestry had been completed.

Vote of Confidence.

Following an all-night session, the board of governors of the National Lumber Manufacturers' association adopted a resolution expressing confidence in President Hines, which was adopted by the organization immediately following the president's address.

AMUSEMENTS

TONIGHT'S ATTRACTIONS.

LYCEUM—Barnum, the Hypnotist.
ORPHEUM—Vaudeville.
EMPRESS—Vaudeville.
ODEUM and LYRIC—Photoplay.

Green Room Gossip.

Everyone will doubtless want to see "Madame Sherry" when that reigning musical comedy success of the day comes to the Lyceum theater for three nights and Saturday matinee beginning Friday evening, May 26.

So much has been heard of this dainty French vaudeville, the newspapers and magazines have praised the production so highly and expectations have been raised to such a height, that it is evident seats will be at a premium for the engagement. From all accounts those who see the peformance will be more than satisfied with its unique theme, its wholesome and generous laughter, its fascinating music, its splendid cast and Broadway chorus. From New York, from Chicago and from San Francisco come reports of the supreme excellence of "Madame Sherry," and coming here so soon after its big triumph in the metropolis, where it has been the toast of the town since its opening last fall, the engagement is a doubly welcome one.

Harry Tate, whose satire "Motoring" is the headlined act on this week's Orpheum bill, is one of the most famous vaudeville producers in England.

His sketch, "Motoring" is but one of a series of satires on sports which he produced. He is a most enthusiastic sportsman himself, and in his younger days was a famous oarsman and golfer. Later he took up motoring, after his earnings as a vaudeville producer permitted his taking up this more expensive sport, and the sketch "Motoring" is the result of some personal experiences in the early days of the automobile industry, before motor cars were as nearly perfect as they are now.

Mr. Tate is now going in for aviation, and it is not unlikely that he will soon have a sketch showing the experiences of an aviator, as he has a way of turning his sporting experiences to good use in his business.

Headed by Paul Conchas, the show at the Empress this week is meeting with great favor. Duluth has seen many strong men but it is doubtful if it has ever seen the equal of Conchas. This man is really a wonder and the feats he undertakes and accomplishes are nothing short of marvelous. Cannon balls, Krupp shells, torpedoes and gun carriages all look alike to this modern Hercules and he juggles them with as much ease as the ordinary juggler handles rubber balls. Conchas has always been given credit for his enormous strength but a great many overlook the fact that he is a clever juggler. So that his act will not become dry and uninteresting, Mr. Conchas carries an assistant who is an adept at pantomime comedy and his ludicrous antics keeps the audience in laughter. Florence Madonna and Co. are presenting a laughable playlet, "The Widow and His Wife." One of the big favorites of the week is Mabel Wayne, who sings some new songs in a delightful manner. Her ragtime piano playing is also very good and is well received.

New programs of photoplay will be offered for the last half of the week at the Odeum and Lyric theaters. At the Lyric the films shown will be as follows: "Back to the Primitive," a drama; "The Carnival," a drama; "Soldiers Three," a comedy. I. S. Mistachkin will sing the illustrated song, "It's a Girl Like You That Keeps a Fellow Guessing."

At the Odeum the program will include: "The Manicure Lady," a comedy; "In the Days of Nero," a drama; "The Abernathy Kids' Rescue," a drama; and "The Ocean Harnessed," a scenic. The illustrated song will be "Give Me a Shove, I'm Falling in Love," sung by I. S. Mistachkin.

EDUCATION FOR EUROPEANS

Great Northern Plans Campaign By Moving Picture Films.

Moving pictures showing a trip up the Hudson river to Albany, from there to Buffalo and through the Great Lakes to Duluth will be shown people living in Northern Europe and the British Isles, according to plans of the Great Northern railway, now in preparation. The "trip will not only show the water route to Duluth, but will include an overland journey to the Pacific coast.

The plan is for a gigantic educational campaign to make the Northwest known all over Europe among those who may come here to settle and among the higher classes who may come to America on pleasure trips. Agricultural operations in Minnesota, Montana and the Dakotas will be shown in detail. The life of the homesteader will be portrayed on the films.

When the Northwest Development league met in Helena, Louis W. Hill outlined his plans to some of the leaders and they were enthusiastic, volunteering to have their states follow up the educational campaign.

CHARGE LIBEL FOR STORY OF LYNCHING.

Bluefield, W. Va., May 24.—Indignant at the publication in certain papers of an absolutely "faked" story to the effect that a man had been lynched at a church cross here several days ago, Mayor S. Frazier Stowers and Chief of Police M. B. Postlethwaite today issued the following statement:

"The publication purporting to be an account of a lynching of a man by hanging to the spire of a church is made out of the whole cloth. The report is a vicious libel on the city and community."

A movement is on foot to bring suit for libel against papers that published the false report.

We say this advisedly, and without fear of contradiction.

Last march the new manager of our Crockery department went to a foremost manufacturer—from whom he had purchased many thousands of dollars worth of goods while connected with a large Eastern city store — and told him of his plans for a great cut glass sale by way of value introduction to the people of his new home. The manufacturer became quite enthusiastic, and named such low prices as brought him a very generous order.

The goods were unpacked and admired yesterday. The entrancing beauty of the exquisite patterns, the deep rich cuttings, the sparkle and fire of the various pieces elude description—in factory parlance they are called buzz star, crysanthemum star and hob nail cuttings.

For this great sale, which will continue through the week, we have divided the purchase into three great lots as follows:

$1.98
Values $2.95 to $4.50
(Just Like Cuts.)
Lot includes—
Celery Trays
Bon Bons
Sugars and Creams
8-in Berry Bowls
Footed Compotes
Nappies

$2.98
Values $3.98 to $5.95
(Just Like Cuts.)
Lot includes—
Celery Trays
Sugars and Creams
Mayonnaise Bowls and Plates
Compotes
3-pint Jugs
10-in. Vases
8-in. Fruit Bowls

$3.98
Values $4.75 to $7.95
(Just Like Cuts.)
Lot includes—
Sugars and Creams
Mayonnaise Bowls and Plates
9-in. Bowls
Bread Trays
4-pt. Jugs
8-in. Bowls

SEE THE BIG WINDOW DISPLAY

Unique Disposal Laces and Embroideries

Most Desirable Values at Much Under Regular Worth

For Thursday, and during the week, we have planned an active riddance of desirable laces and embroideries that's of very considerable importance. Short length pieces, slightly soiled from use in window displays and counter trims, as well as patterns we've decided not to reorder, are assembled for rapid outgoing at about half under worth. Women with summer dresses and underwear to make will see the import of these bargains. Be quick if you would have them.

TAFT VISITS THE ANIMALS

President Happy as a Youngster Over the Bronx Zoo.

Shakes Hands With the Monkeys and Feeds the Elephants.

New York, May 24.—President Taft was whisked back into boyland yesterday. He motored out to the Bronx Zoo, inspected more than half the animals, shook hands with the monkeys, fed the elephants sugar and the two-horned rhinoceroses and watched the keepers feed the biggest python in captivity. He was happy as a youngster until the last cage had been inspected.

John Cadwalader, attorney for the Bronx Zoological society, suggested the trip and the president at once accepted the invitation. Senator Bacon of Georgia, Maj. Butt, Henry W. Taft, Attorney General Wickersham and John Hays Hammond made up the party.

They went first to the American building, where the president gazed long at the head of a white rhinoceros that Col. Roosevelt shot in Africa. The president smiled broadly when told that two monster elephant tusks on the walls were smuggled into the country.

In the Monkey-House.

Next the president went to the monkey-house. He was especially interested in Susie and Baldy, two pets. After the president had watched their antics for several minutes, a keeper opened the door and Susie and Baldy were presented in due fashion to the president.

"Hello, Baldy," said the president, as the monkey reached out his hairy paw, "I'm glad to meet you."

"Baldy" acknowledged the honor of being the first monkey to meet a president by a respectful nod of his head.

After the monkeys, the president wanted to see the lioness that Buffalo Jones lassoed in Africa. The president knows "Buffalo," but thought more highly than ever of his prowess after a keeper had jabbed the lioness with a stick and he had heard her roar.

Liked Elephants Best.

It was with the elephants, however, that the president felt really at home. Keeper Palmer brought a bag of sugar and the president stood close up to the cage and allowed the elephants to eat out of his hand.

Then the president was taken to see the reptiles. Head Keeper Snyder showed him the python that eats a whole pig at one bite; stirred up the rattlesnakes until they buzzed in anger, and threw two white mice into the mongoose cage to show how that animal kills its prey.

"I'd like to spend a whole day here," said the president as he stepped into his automobile. "I'd like to see every animal in the park."

From the Zoo the president was driven back to the home of Mr. Cadwalader, where he was guest of honor at an informal dinner. Among the other guests were Henry W. Taft, Attorney General Wickersham, Secretary Hilles, Maj. Butt and Mrs. Andrew Carnegie. The presidential party left New York at midnight for Washington.

The World's Biggest Wire.

The new Pacific cable, which the United States took upon itself to build, is the biggest one in the world, over 8,000 miles in length, requiring 22,740 tons, or 45,480,000 pounds of material in the making, so the soldier boys in the Phillipines can get messages from home at quick speed. No cable scheme has yet been designed for carrying their golden grain belt beers to them so they envy the folks at home their nearness to one of the most perfect breweries in the world, and its exquisite appetite giving beer. Order of your nearest dealer or be supplied by duluth branch minneapolis brewing company.

TITLE CASE IN COURT.

Judge Wright Will Hear Duluthian's Application in Chambers.

Brainerd, Minn., May 24.—(Special to The Herald.)—The case in the district court against the Pine Tree Lumber company, testing the question of taxing mineral reserves and the Torrens' application of David Williams, William C. Broon and Alice P. Waite of Duluth to register title to land involving the interests of the Northern Water Power company and the Northwest Paper company have been set for trial by the court and probably will be heard in chambers by Judge B. F. Wright.

WOODROW WILSON TALKS ON BUSINESS AND POLITICS

(Continued from page 1.)

thusiastic over the Northwestern country.

After arriving here Governor Wilson received word that an engagement he had to speak at the University of North Carolina at Chapel Hill, N. C., on June 1, was in reality on May 30, so he will be obliged to leave Lincoln, Neb., directly for Chapel Hill.

Governor Wilson addressed the Publicity club of Minneapolis at luncheon today. He devoted most of his address to a discussion of the connections between business and legislation, speaking particularly about the business interference with legislation which has created some of the worst influences in our recent politics. He said in part:

"The modern world is, of course, a business world. A great many of the older and more fundamental questions of our politics we regard as long ago settled. The business of politics is now days a business of adjustment, of meeting new conditions as they arise and ...king laws suitable to our changing life. The most remarkable and influential changes that have taken place in recent years in America have been economic rather than political. Business has bulked larger and larger and has consequently been more and more interlaced not only with national policy but with legislative change throughout the country.

Business and the Law.

It is perfectly legitimate, of course, that the business interests of the country should enjoy the protection of the law not only, but that they should be in every way furthered and strengthened and facilitated by legislation. The country has no jealousy of any connection between business and politics which is a legitimate connection.

"But the illegitimate connections between business and legislation are another matter. Unfortunately the whole process of lawmaking in America is a very obscure one. There is no high-way of legislation, but there are many by-ways. The bills introduced into our legislatures are introduced upon private initiative, either the initiative of individuals outside the legislature who desire certan changes in the law for their own convenience or benefit, or the initiative of individual members of the legislatures themselves. The whole process of discussion, if any discussion at all takes place, is private and shut away from public scrutiny and knowledge. There are so many circles within circles, there are so many indirect and private ways of getting at legislative action that our communities are constantly uneasy during legislative sessions.

"It is this confusion and obscurity and privacy of our legislative method that gives the political machine its opportunity. Apparently nothing but the political machine can bring order out of the chaos.

Those Who Control.

"It has, therefore, been possible for an outside force—the political machine, the body of men who nominated the legislators and who conducted the contest for their election, to assume the role of control. There have been times when it was a matter of no surprise to us to learn that legislatures looked to a certain man who was not even a member of their body for the instructions as to what they were to do with particular laws, and we have become cynically accustomed to the presumption that the instructions they received were received after the majority had conferred with those who were backing him and assisting him in the business world.

"It is not altogether just to indulge in indiscriminate blame for this state of affairs; our legislators being at loose ends, nobody in particular being responsible, it was natural, not to say inevitable, that some sort of control should spring up.

"There need have been nothing sinister about this. If the whole matter had been open and candid and honest, public criticism would not have centered upon it. But the use of money always results in demoralization and goes beyond demoralization to actual corruption.

Two Kinds of Corruption.

"There are two kinds of corruption—the crude and obvious sort, which consists in direct bribery, and the much subtler, more dangerous sort, which consists in a corruption of the will. Business men who have tried to set up a control in politics through the machine have more and more deceived themselves to think that the whole matter was a necessary means of self-defense, have said that it was a necessary outcome of our political system.

"The methods used are well enough known. Money has not only been supplied to those men in public life who would be serviceable to big business interests by way of promoting the legislation they desired and preventing the legislation they feared, but it has also been denied to those who would not be serviceable. It is this latter use of the money power which has attracted very little attention, but which is after all the most insidious and contemptible part of the whole ugly system.

"Unhappily money is necessary at every turn of the political game. It is necessary in connection with every part of our electoral process because our electoral processes have to be public. men have to be commended to the electorate by methods of one sort or another, like public speeches, literature printed and distributed through the mails—by all the methods of publicity, which are necessarily costly. A man cannot get into office without the expenditure of a good deal of money, even if he confines the expenditure to perfectly legitimate objects. The sources of money are therefore the sources of political opportunity and of power, and those who supply the money can generally control the nominations, that is to say, the selection of those who are to exercise the powers of government and of law making.

Tariff Legislation.

"One of the best instances that could be cited is the whole disappointing business of our legislation with regard to import duties. The tariff has been the most prolific source of the corrupt interference of business with politics that the experience of the country has afforded. Almost every kind of business is affected directly or indirectly by the tariff laws and it has in recent years become notorious that the schedules of the tariff were arranged by the ways and means committee of the house of representatives and the finance committee of the senate with a very tender regard for particular business interests.

"Everybody will agree that if the tariff policy is indeed to be protective and to seek the objects which it has always pretended to seek, it is perfectly legitimate that it should have to pay a very careful regard to the business interests of the country taken as a whole. But that is a very different matter from paying regard to the individual interests of particular undertakings and of particular groups of men.

Patronage, Not Protection.

"The long and short of the whole experience, as we now see it, is that our whole tariff legislation has degenerated from a policy of protection into a policy of patronage. The party which has stood most consistenly for the so-called system of protection has derived not a little of its power from the support of the great business interests of the country. I do not mean the moral support merely. I mean that it has been supplied with immense sums of money for the conduct of its campaigns and the maintenance of its organization and that, whether consciously or unconsciously, it has established a partnership with the manufacturing interests of the country which has deprived it of its liberty of action in all matters touching the tariff. It is bound by obligations, tacit and explicit, to see that those interests are not damaged which have been its most stalwart backers and supporters.

"I am not intimating direct corruption of any kind. I am speaking now only of that subtle corruption of the will to which I have already referred. The will dominant in the finance committee of the senate has for many decades together been subservient to the dictates and to the interests of particular groups of men.

"Here displayed in its grossest form was the intimate power of business over politics.

"The country has definitely made up its mind that it will get at the root of this matter and of all other matters like it, and that it will break up this alliance.

See Their Mistake.

"It is one of the happy circumstances of our time that the most intelligent and progressive of our business men have seen the mistake as well as the immorality of the whole bad business. The alliance between business and politics has been a burden to them—an advantage no doubt upon occasion, but a very questionable and burdensome advantage.

"Undoubtedly publicity comes very near being the cure-all for political and economic maladies of this sort. But publicity will continue to be very difficult so long as our methods of legislation are so obscure and devious and private. I think it will become more and more obvious that the way to purify our politics is to simplify them, and that the way to simplify them is to establish responsible leadership. Our only leadership being that of irresponsible persons outside the legislatures, who constitute the political machines, it is extremely difficult for even the most watchful public opinion to keep track of the circulation methods pursued.

"This undoubtedly lies at the root of the growing demand on the part of American communities everywhere for leadership, for responsible leadership, for putting in authority and keeping in authority those whom they know they can constantly hold to account.

"It is refreshing and reassuring to remind ourselves at every turn of how safe it is to depend upon public opinion in America when public opinion is well informed. There is no revolution in the air except as against iniquity and secret conferences against the public interest. The American mind is well poised and wholesome and inclined to justice, and the task that lies ahead of us is at every turn the task of putting that opinion into the saddle again so that affairs may go forward by a common impulse—that great impulse of righteous love, that eager impulse for the attainment of better and better things which we are proud to regard as characteristic of the country we love."

TELLS HOW $10,000,000 FUND FOR PEACE WILL BE USED

(Continued from page 1.)

and economists of the world should be set at work in the service of humanity to ascertain just what have been and are the legal and economic incidents of war, and just what are the legal and economic advantages to follow upon the organization of the world into a single group of friendly and co-operative nations bound together by the tie of a judicial system resting upon the moral consciousness of mankind, from whose findings there can be no successful appeal. The plans of the trustees have been formulated with these ends in view.

Organize Three Divisions.

"It has been determined by the trustees of the Carnegie endowment to organize the undertaking in three parts or divisions—a division of international law, a division of economics and history, and a division of intercourse and education.

"The division of international law, which will be under the direction of Prof. James Scott, will aim constantly to inculcate the belief that intercourse between nations should be based upon a corerct and definite idea of international justice. The endowment will associate with Dr. Scott a consultative board composed of some of the most distinguished international lawyers in the world.

Educate Public Opinion.

"The second division of the work of the Carnegie endowment will be the division of economics and history. It will be under the direction of Prof. John Bates Clark of Columbia university. The division of economics and history will aim at the education of public opinion and at the formulation of conclusions that may serve for the guidance of governmental policy. With Prof. Clark will be associated a score of the world's leading economists.

"It will be the business of this division to study the economic causes and effects of war; the effect upon the public opinion of nations and upon international good will of retaliatory, discrimiatory, and preferential tariffs; the economic aspects of the present huge expenditures for military purposes; and the relation between military expenditures and international well-being and the world-wide program for social improvement and re-

Constipation

Causes half the sickness. It retains waste in the bowels; produces biliousness, dizziness, indigestion, bad taste in the mouth, coated tongue, sick headache, insomnia.

HOOD'S PILLS give relief promptly, easily, surely. Druggists. 25c.

SENATE OF ONE MIND

(Continued from page 1.)

branch of congress were confined to committees.

Reviewed Legislative Work.

In his speech Mr. La Follette reviewed the recent proceedings of the Illinois legislature relative to the Lorimer case. He said he was convinced that there was still more testimony to be adduced.

"The people of the country," said he, "rejected our former verdict as if by one voice. Nothing ever is settled until it is settled right; it is God's eternal justice, pulling to make things plumb."

He was sure that public opinion had been right in this case, and declaring that he wanted the senate to view itself in the mirror of such public opinion, he held aloft a huge collection of newspaper clippings condemning the senate version of the case.

Mr. La Follette quoted the senate's action in the Du Pont case in an effort to justify the demand for a reopening, contending that the senate as well as other tribunals should exercise the privilege of reviewing its own proceedings.

Read Kohlsaat's Testimony.

He presnted a voluminous transcript of the Illinois legislature's record in the Lorimer case. He read freely from the testimony by Kohlsaat, Funk and Hines concerning the use of a corruption fund of $100,000, which it was charged had been used in influencing votes in Lorimer's behalf. He said that Hines, after a publication regarding the $100,000 fund, tried to blur his former conversations.

"The trick is somewhat stale," said Mr. La Follette, "and is a mark of guilt. He took the back track; he went to Funk, and I have no doubt he had similar interviews with all whom he had approached in the interest of the fund."

He contended that many statements made by witnesses would be proven if the senate reopens the case.

"Talked With Lorimer."

Repeating a telephone conversation held by Hines in a Chicago hotel with some one in Springfield, while the Lorimer election was pending, Mr. La Follette declared that on that occasion Hines had talked with Lorimer notwithstanding he had addressed the person at the other end of the line as "Governor." Mr. La Follette quoted from Hines in an effort to show that Hines talked wtih Lorimer about money.

HERESY CASE IS FINISHED

(Continued from page 1.)

assembly will be held in the Warren Memorial church in that city.

Home Mission Report.

The board of home missions and the committee on publication and Sabbath school work presented their reports today. The former body, in outlining the work mapped out for the coming year, told what would be done with a part of the bequest of $2,099,000 given it by the late John S. Kennedy, a member of the board. The report says that form which is held in waiting through lack of means for its execution.

Third Director Not Chosen.

"The division of intercourse and education—the director for which has not yet been announced—will supplement the work of the two divisions which may be called, perhaps, the scientific ones, by carrying forward vigorously, and in co-operation with existing agencies, the educational work of propaganda, of international hospitality and of promoting international friendship. Among the tasks of this division will be to diffuse information and to educate public opinion regarding the causes, nature and effects of war, and the means for the prevention and avoidance."

in the West, Northwest and Southwest, calls for spiritual aid are greater than last year.

"In Colorado," the report says, "there are a hundred villages and settlements of from 150 to 1,000 population without any Christian ministrations—Protestant or Catholic. In greater or less measure this doubtless holds in a dozen other states."

Continuing, the report says:

"It is said that in San Francisco, in a population of 500,000, there are only 12,000 Protestant church members. In New York city, where a positive proportionate decrease of Protestant church members in the past decade is revealed, the present percentage of church members is 8.55 in a population of 4,447,883."

More Pay for Missionaries.

The board says that other departments of its jurisdiction calling for greatly increased expenditure are those of church and labor, country life and the Indian department. The board also avocates an increase in salaries paid to missionaries.

FINAL CONTEST AT BIG RAPIDS, MICH.

Lake Linden and Calumet Youths to Represent Copper Country.

Houghton, Mich., May 24.—(Special to The Herald.)—The Michigan interscholastic oratorical and declamatory contests will take place at Big Rapids Friday evening, June 2. The schools that will be represented are Elkton, Saginaw, Hillsdale, Adrian, Holland, Linden and Calumet. The Lake Linden representative, Irving J. Toplon, is the winner of the Upper Peninsula declamatory contests and will represent this part of the state. The Calumet representative, Peter Mehelchich, recently won the Northern Michigan oratorical contest and will represent the fifteen counties of the peninsula in the state oratorical contests.

The judges named for the contests are well-known and leading educators of the state. On thought and composition, Prof. I. N. Demmon of Ann Arbor, Principal J. B. Davis of Grand Rapids and Lawrence C. Hull of Detroit will be the judges; on delivery, T. P. Hickey of Kalamazoo, H. R. Pattengill of Lansing and W. R. Walker of Grand Rapids.

Seventy-five Schools Participate.

Seventy-five schools took part in the contests, which began early in the winter. First, preliminary contests were held in the several schools, and later sub-district contests were held. In the Copper country district the Calumet, Hancock, Houghton, Lake Linden and other high schools were represented in the sub-district contests. The winner of these contests took part in the Upper Peninsula contests in which Menominee, Crystal Falls, Calumet, Lake Linden and two or three other schools were represented, Mr. Toplon easily winning the declamatory contest and Mr. Mehelchich having little trouble in carrying away the honors in the orations.

The two Copper country representatives are brilliant young men, before whom there looms a future full of great possibilities. They have shown sterling worth in their school work. Mr. Mehelchich will speak at Big Rapids on "Gustavus Adolphus," while Mr. Toplon's declamation is "Adams' Supposed Speech."

1912 ENCAMPMENT FOR ZENITH CITY.

At the meeting of Maj. A. M. Diggles Camp No. 13, United Spanish war veterans last evening, Don Carlos W. Musser, senior vice commander, was elected delegate to the national encampment at Oklahoma City, August 26. Surgeon Charles V. McCoy was elected alternate.

Frank D. Knowlton, officer of the day, was chosen delegate to the department encampment at Red Wing, Minn., June 26 and 27, with Edward Blackwood, trustee, as alternate. Mr. Knowlton will be accompanied by several of the officers of the camp, who will make an atcive campaign to land the 1912 encampment for Duluth.

TAFT VISITS THE ANIMALS

President Happy as a Youngster Over the Bronx Zoo.

Shakes Hands With the Monkeys and Feeds the Elephants.

New York, May 24.—President Taft was whisked back into boyland yesterday. He motored out to the Bronx Zoo, inspected more than half the animals, shook hands with the monkeys, fed the elephants sugar and the two-horned rhinoceroses and watched the keepers feed the biggest python in captivity. He was happy as a youngster until the last cage had been inspected.

John Cadwalader, attorney for the Bronx Zoological society, suggested the trip and the president at once accepted the invitation. Senator Bacon of Georgia, Maj. Butt, Henry W. Taft, Attorney General Wickersham and John Hays Hammond made up the party.

They went first to the American building, where the president gazed long at the head of a white rhinoceros that Col. Roosevelt shot in Africa. The president smiled broadly when told that two monster elephant tusks on the walls were smuggled into the country.

In the Monkey-House.

Next the president went to the monkey-house. He was especially interested in Susie and Baldy, two pets. After the president had watched their antics for several minutes, a keeper opened the door and Susie and Baldy were presented in due fashion to the president.

"Hello, Baldy," said the president, as the monkey reached out his hairy paw, "I'm glad to meet you."

"Baldy" acknowledged the honor of being the first monkey to meet a president by a respectful nod of his head.

After the monkeys, the president wanted to see the lioness that Buffalo Jones lassoed in Africa. The president knows "Buffalo," but thought more highly than ever of his prowess after a keeper had jabbed the lioness with a stick and he had heard her roar.

Liked Elephants Best.

It was with the elephants, however, that the president felt really at home. Keeper Palmer brought a bag of sugar and the president stood close up to the cage and allowed the elephants to eat out of his hand.

Then the president was taken to see the reptiles. Head Keeper Snyder showed him the python that eats a whole pig at one bite; stirred up the rattlesnakes until they buzzed in anger, and threw two white mice into the mongoose cage to show how that animal kills its prey.

"I'd like to spend a whole day here," said the president as he stepped into his automobile. "I'd like to see every animal in the park."

From the Zoo the president was driven back to the home of Mr. Cadwalader, where he was guest of honor at an informal dinner. Among the other guests were Henry W. Taft, Attorney General Wickersham, Secretary Hilles, Maj. Butt and Mr. and Mrs. Andrew Carnegie. The presidential party left New York at midnight for Washington.

The World's Biggest Wire.

The new Pacific cable, which the United States took upon itself to build, is the biggest one in the world, over 8,000 miles in length, requiring 22,740 tons, or 45,480,000 pounds of material in the making, so the soldier boys in the Philippines can get messages from home at quick speed. No cable scheme has yet been designed for carrying their golden grain belt beers to them so they envy the folks at home their nearness to one of the most perfect breweries in the world, and its exquisite appetite giving beer. Order of your nearest dealer or be supplied by duluth branch minneapolis brewing company.

TITLE CASE IN COURT.

Judge Wright Will Hear Duluthian's Application in Chambers.

Brainerd, Minn., May 24.—(Special to The Herald.)—The case in the district court against the Pine Tree Lumber company, testing the question of taxing mineral reserves and the Torrens' application of David Williams, William C. Broon and Alice P. Waite of Duluth to register title to land involving the interests of the Northern Water Power company and the Northwest Paper company have been set for trial by the court and probably will be heard in chambers by Judge B. F. Wright.

WOODROW WILSON TALKS ON BUSINESS AND POLITICS

(Continued from page 1.)

thusiastic over the Northwestern country.

After arriving here Governor Wilson received word that an engagement he had to speak at the University of North Carolina at Chapel Hill, N. C., on June 1, was in reality on May 30, so he will be obliged to leave Lincoln, Neb., directly for Chapel Hill.

Governor Wilson addressed the Publicity club of Minneapolis at luncheon today. He devoted most of his address to a discussion of the connections between business and legislation, speaking particularly about the business interference with legislation which has created some of the worst influences in our recent politics. He said in part:

"The modern world is, of course, a business world. A great many of the older and more fundamental questions of our politics we regard as long ago settled. The business of politics is now days a business of adjustment, of meeting new conditions as they arise and making laws suitable to our changing life. The most remarkable and influential changes that have taken place in recent years in America have been economic rather than political. Business has bulked larger and larger and has consequently been more and more interlaced not only with national policy but with legislative change throughout the country.

Business and the Law.

It is perfectly legitimate, of course, that the business interests of the country should enjoy the protection of the law not only, but that they should be in every way furthered and strengthened and facilitated by legislation. The country has no jealousy of any connection between business and politics which is a legitimate connection.

"But the illegitimate connections between business and legislation are another matter. Unfortunately the whole process of lawmaking in America is a very obscure one. There is no highway of legislation, but there are many by-ways. The bills introduced into our legislatures are introduced upon private initiative, either the initiative of individuals outside the legislature who desire certan changes in the law for their own convenience or benefit, or the initiative of individual members of the legislatures themselves. The whole process of discussion, if any discussion at all takes place, is private and shut away from public scrutiny and knowledge. There are so many circles within circles, there are so many indirect and private ways of getting at legislative action that our communities are constantly uneasy during legislative sessions.

"It is this confusion and obscurity and privacy of our legislative method that gives the political machine its opportunity. Apparently nothing but the political machine can bring order out of the chaos.

Those Who Control.

"It has, therefore, been possible for an outside force—the political machine, the body of men who nominated the legislators and who conducted the contest for their election, to assume the role of control. There have been times when it was a matter of no surprise to us to learn that legislatures looked to a certain man who was not even a member of their body for the instructions as to what they were to do with particular laws, and we have become cynically accustomed to the presumption that the instructions they received were received after the majority had conferred with those who were backing him and assisting him in the business world.

"It is not altogether just to indulge in indiscriminate blame for this state of affairs: our legislators being at loose ends, nobody in particular being responsible, it was natural, not to say inevitable, that some sort of control should spring up.

"There need have been nothing sinister about this. If the whole matter had been open and candid and honest, public criticism would not have centered upon it. But the use of money always results in demoralization and goes beyond demoralization to actual corruption.

Two Kinds of Corruption.

"There are two kinds of corruption—the crude and obvious sort, which consists in direct bribery, and the much subtler, more dangerous sort, which consists in a corruption of the public opinion and at the formulation of conclusions that may serve for the guidance of governmental policy. With Prof. Clark will be associated a score of the world's leading economists.

"It will be the business of this division to study the economic causes and effects of war; the effect upon the public opinion of nations and upon international good will of retaliatory, discrimatory, and preferential tariffs; the economic aspects of the present huge expenditures for military purposes; and the relation between military expenditures and international well-being and the world-wide program for social improvement and retemptible part of the whole ugly system.

"Unhappily money is necessary at every turn of the political game. It is necessary in connection with every part of our electoral process because our electoral processes have to be public. men have to be commended to the electorate by methods of one sort or another, like public speeches, literature printed and distributed through the mails—by all the methods of publicity, which are necessarily costly. A man cannot get into office without the expenditure of a good deal of money, even if he confines the expenditure to perfectly legitimate objects. The sources of money are therefore the sources of political opportunity and of power, and those who supply the money can generally control the nominations, that is to say, the selection of those who are to exercise the powers of government and of law making.

Tariff Legislation.

"One of the best instances that could be cited is the whole disappointing business of our legislation with regard to import duties. The tariff has been the most prolific source of the corrupt interference of business with politics that the experience of the country has afforded. Almost every kind of business is affected directly or indirectly by the tariff laws and it has in recent years become notorious that the schedules of the tariff were arranged by the ways and means committee of the house of representatives and the finance committee of the senate with a very tender regard for particular business interests.

"Everybody will agree that if the tariff policy is indeed to be protective and to seek the objects which it has always pretended to seek, it is perfectly legitimate that it should have to pay a very careful regard to the business interests of the country taken as a whole. But that is a very different matter from paying regard to the individual interests of particular undertakings and of particular groups of men.

Patronage, Not Protection.

"The long and short of the whole experience, as we now see it, is that our whole tariff legislation has degenerated from a policy of protection into a policy of patronage. The party which has stood most consistently for the so-called system of protection has derived not a little of its power from the support of the great business interests of the country. I do not mean the moral support merely. I mean that it has been supplied with immense sums of money for the conduct of its campaigns and the maintenance of its organization and that, whether consciously or unconsciously, it has established a partnership with the manufacturing interests of the country which has deprived it of its liberty of action in all matters touching the tariff. It is bound by obligations, tacit and explicit, to see that those interests are not damaged which have been its most stalwart backers and supporters.

"I am not intimating direct corruption of any kind. I am speaking now only of that subtle corruption of the will to which I have already referred. The will dominant in the finance committee of the senate has for many decades together been subservient to the dictates and to the interests of particular groups of men.

"Here displayed in its grossest form was the intimate power of business over politics.

"The country has definitely made up its mind that it will get at the root of this matter and of all other matters like it, and that it will break up this alliance.

See Their Mistake.

"It is one of the happy circumstances of our time that the most intelligent and progressive of our business men have seen the mistake as well as the immorality of the whole bad business. The alliance between business and politics has been a burden to them—an advantage no doubt upon occasion, but a very questionable and burdensome advantage.

"Undoubtedly publicity comes very near being the cure-all for political and economic maladies of this sort. But publicity will continue to be very difficult so long as our methods of legislation are so obscure and devious and private. I think it will become more and more obvious that the way to purify our politics is to simplify them, and that the way to simplify them is to establish responsible leadership. Our only leadership being that of irresponsible persons outside the legislatures, who constitute the political machines, it is extremely difficult for even the most watchful public opinion to keep track of the circulation methods pursued.

"This undoubtedly lies at the root of the growing demand on the part of American communities everywhere for leadership, for responsible leadership, for putting in authority and keeping in authority those whom they know and they can constantly hold to account.

"It is refreshing and reassuring to remind ourselves at every turn of how safe it is to depend upon public opinion in America when public opinion is well informed. There is no revolution in the air except as against iniquity and secret conferences against the public interest. The American mind is well poised and wholesome and inclined to justice, and the task that lies ahead of us is at every turn the task of putting that opinion into the saddle again so that affairs may go forward by a common impulse—that great impulse of righteous love, that eager impulse for the attainment of better and better things which we are proud to regard as characteristic of the country we love."

TELLS HOW $10,000,000 FUND FOR PEACE WILL BE USED

(Continued from page 1.)

and economists of the world should be set at work in the service of humanity to ascertain just what have been and are the legal and economic incidents of war, and just what are the legal and economic advantages to follow upon the organization of the world into a single group of friendly and co-operative nations bound together by the tie of a judicial system resting upon the moral consciousness of mankind, from whose findings there can be no successful appeal. The plans of the trustees have been formulated with these ends in view.

Organize Three Divisions.

"It has been determined by the trustees of the Carnegie endowment to organize the undertaking in three parts or divisions—a division of international law, a division of economics and history, and a division of intercourse and education.

"The division of international law, which will be under the direction of Prof. James Scott, will aim constantly to inculcate the belief that intercourse between nations should be based upon a coreret and definite idea of international justice. The endowment will associate with Dr. Scott a consultative board composed of some of the most distinguished international lawyers in the world.

Educate Public Opinion.

"The second division of the work of the Carnegie endowment will be the division of economics and history. It will be under the direction of Prof. John Bates Clark of Columbia university. The division of economics and history will aim at the education of

SENATE OF ONE MIND

(Continued from page 1.)

branch of congress were confined to committees

Reviewed Legislative Work.

In his speech Mr. La Follette reviewed the recent proceedings of the Illinois legislature relative to the Lorimer case. He said he was convinced that there was still more testimony to be adduced.

"The people of the country," said he, "rejected our former verdict as if by one voice. Nothing ever is settled until it is settled right. It is God's eternal justice, pulling to make things plumb."

He was sure that public opinion had been right in this case, and declaring that he wanted the senate to view itself in the mirror of such public opinion, he held aloft a huge collection of newspaper clippings condemning the senate version of the case.

Mr. La Follette quoted the senate's action in the Du Pont case in an effort to justify the demand for a reopening, contending that the senate as well as other tribunals should exercise the privilege of reviewing its own proceedings.

Read Kohlsaat's Testimony.

He preesnted a voluminous transcript of the Illinois legislature's record in the Lorimer case. He read freely from the testimony by Kohlsaat, Funk and Hines concerning the use of a corruption fund of $100,000, which it was charged had been used in influencing votes in Lorimer's behalf. He said that Hines, after a publication regarding the $100,000 fund, tried to blur his former conversations.

"The trick is somewhat stale," said Mr. La Follette, "and is a mark of guilt. He took the back track; he went to Funk, and I have no doubt he had similar interviews with all whom he had approached in the interest of the fund."

He contended that many statements made by witnesses would be proven if the senate reopens the case.

"Talked With Lorimer."

Repeating a telephone conversation held by Hines in a Chicago hotel with some one in Springfield, while the Lorimer election was pending, Mr. La Follette declared that on that occasion Hines had talked with Lorimer notwithstanding he had addressed the person at the other end of the line as "Governor." Mr. La Follette quoted from Hines in an effort to show that Hines talked with Lorimer about money.

HERESY CASE IS FINISHED

(Continued from page 1.)

assembly will be held in the Warren Memorial church in that city.

Home Mission Report.

The board of home missions and the committee on publication and Sabbath school work presented their reports today. The former body, in outlining the work mapped out for the coming year, told what would be done with a part of the bequest of $2,099,000 given it by the late John S. Kennedy, a member of the board. The report says that form which is held in waiting through lack of means for its execution.

Third Director Not Chosen.

"The division of intercourse and education—the director for which has not yet been announced—will supplement the work of the two divisions which may be called, perhaps, the scientific ones, by carrying forward vigorously, and in co-operation with existing agencies, the educational work of propaganda, of international hospitality and of promoting international friendship. Among the tasks of this division will be to diffuse information and to educate public opinion regarding the causes, nature and effects of war, and the means for the prevention and avoidance."

in the West, Northwest and Southwest, calls for spiritual aid are greater than last year.

"In Colorado," the report says, "there are a hundred villages and settlements of from 150 to 1,000 populations without any Christian ministrations—Protestant or Catholic. In greater or less measure this doubtless holds in a dozen other states."

Continuing, the report says:

"It is said that in San Francisco, in a population of 500,000, there are only 12,000 Protestant church members. In New York city, where a positive pro-portionate decrease of Protestant church members in the past decade is revealed, the present percentage of church members is 8.55 in a population of 4,447,883."

More Pay for Missionaries.

The board says that other departments of its jurisdiction calling for greatly increased expenditure are those of church and labor, country life and the Indian department. The board also avocates an increase in salaries paid to missionaries.

FINAL CONTEST AT BIG RAPIDS, MICH.

Lake Linden and Calumet Youths to Represent Copper Country.

Houghton, Mich., May 24.—(Special to The Herald.)—The Michigan interscholastic oratorical and declamatory contests will take place at Big Rapids Friday evening, June 2. The schools that will be represented are Elkton, Saginaw, Hillsdale, Adrian, Holland, Niles, West Branch, Big Rapids, Lake Linden and Calumet. The Lake Linden representative, Irving J. Toplon, is the winner of the Upper Peninsula declamatory contests and will represent this part of the state. The Calumet representative, Peter Mehelchich, recently won the Northern Michigan oratorical contest and will represent the fifteen counties of the peninsula in the state oratorical contests.

The judges named for the contests are well-known and leading educators of the state. On thought and composition, Prof. I. N. Demmon of Ann Arbor, Principal J. B. Davis of Grand Rapids and Lawrence C. Hull of Detroit will be the judges; on delivery, T. P. Hickey of Kalamazoo, H. R. Pattengill of Lansing and W. R. Walker of Grand Rapids.

Seventy-five Schools Participate.

Seventy-five schools took part in the contests, which began early in the winter. First, preliminary contests were held in the several schools, and later sub-district contests were held. In the Copper country district the Calumet, Hancock, Houghton, Lake Linden and other high schools were represented in the sub-district contests. The winner of these contests took part in the Upper Peninsula contests in which Menominee, Crystal Falls, Calumet, Lake Linden and two or three other schools were represented, Mr. Toplon easily winning the declamatory contest and Mr. Mehelchich having little trouble in carrying away the honors in the orations.

The two Copper country representatives are brilliant young men, before whom there looms a future full of great possibilities. They have shown sterling worth in their school work. Mr. Mehelchich will speak at Big Rapids on "Gustavus Adolphus," while Mr. Toplon's declamation is "Adams' Supposed Speech."

1912 ENCAMPMENT FOR ZENITH CITY.

At the meeting of Maj A. M. Diggles Camp No. 13, United Spanish war veterans last evening, Don Carlos W. Musser, senior vice commander, was elected delegate to the national encampment at Oklahoma City, August 26. Surgeon Charles V. McCoy was elected alternate.

Frank D. Knowlton, officer of the day, was chosen delegate to the department encampment at Red Wing, Minn., June 26 and 27, with Edward Blackwood, trustee, as alternate. Mr. Knowlton will be accompanied by several of the officers of the camp, who will make an active campaign to land the 1912 encampment for Duluth.

INTENTIONAL DUPLICATE EXPOSURE

OBJECTIONS WILL BE MADE

Protests to Be Offered Against Abandonment of Brooks-Scanlon Road.

Commissioners Will Travel Over Road—Meeting at Commercial Club.

The members of the state railroad and warehouse commission are expected to start from Duluth tomorrow for a trip over the line of the Minnesota & North Wisconsin railroad. The trip will give the members of the commission a clear idea of conditions so that they may give proper consideration to the arguments which will be presented at the hearing Friday morning.

The hearing Friday will be on the petition of the Brooks-Scanlon Lumber company for the right to tear up the railroad. Strong objections will be offered on behalf of the settlers in the district through which the railroad runs, the Duluth Commercial club and others interested in the development of the agricultural resources of the district. It is claimed that, although the Brooks-Scanlon company is a lumber company and the road is essentially a logging road and has outlived its usefulness for that purpose, it can be converted into a common carrier and until some steps may be taken along that line, the company should not be allowed to tear up the tracks.

The members of the Duluth Commercial club have interested themselves in the matter, and some Duluth people have investigated the subject sufficiently to convince themselves that the railroad can be taken over and successfully operated in connection with a land development plan. They do not wish to compel the Brooks-Scanlon people to operate the road, but they want permission to abandon it withheld in order that some steps may be taken to relieve the lumber company of the burden.

A census of the district through which the road runs was taken about a year ago by members of the Commercial club. It was found that there were 2,000 people in the district at that time and the farm buildings were worth approximately $300,000. More settlers have gone on the land in the past year and the country is being settled, not rapidly, but sufficient to show that more rapid settlement will certainly come if the avenue to the market be opened by regular train service on the railroad.

The plan now being considered contemplates the institution of a gasoline-electric car service that will be comparatively inexpensive, but will give all the service required. The details of the taking over of the road and the organization of a land development company to work in conjunction with the railroad project can be worked out, in the opinion of the people who have investigated the subject, and the first step to be taken is to convince the railroad and warehouse commission that the road should not be abandoned.

Tomorrow afternoon, beginning at 1:30, there will be a meeting of settlers and others interested in the subject. Data will be collected and arguments formed for presentation to the commission at the hearing the following morning. The Brooks-Scanlon people are willing to sell the line, it is said, but as no sale developed after some negotiations, the petition for the right to abandon the line was presented.

The people who have been working for the retention of the road are anxious that an impressive showing be made, so that the commission may realize that Duluth, through a fair representation of its citizens, is interested in the matter. They are anxious that every man who can do so attend the meeting at the Commercial club tomorrow afternoon and also the hearing at the Spalding hotel Friday morning at 10 o'clock, to offer a protest by their presence, if not by word, to the abandonment of the road.

Fergus Falls Alderman Shot.

Fergus Falls, Minn., May 24.—Henry Winther, a local lumber dealer and member of the city council, was severely wounded by a stray bullet while at Wall lake, four miles from this city, late Monday. He was standing erect in his automobile when the bullet struck him in the chest near the shoulder. The ball has not yet been located, but is supposed to have been from a small rifle.

SUICIDE NEAR SHEVLIN.

Unknown Young Man Cuts His Throat With Razor.

Sevlin, Minn., May 24.—Boys wandering about the wood piles on the south side of the railroad tracks found the dead body of a well-dressed young man whose identity is unknown. Dr. F. C. Bjorneby, coroner of Clearwater county, came to Shevlin and decided an inquest was unnecessary, as it was apparent that the young man had committed suicide by cutting his throat with a razor, which was found lying near by. The deceased came to Shevlin a few days ago and begged food from house to house, although he did not have the appearance of a professional tramp.

Suicide of Washington Cat.

Washington, May 24.—Tired of life this hot weather, the big black cat which has long been the mascot of the employes of the Union station, on Sunday climbed to the platform of a locomotive cab and dived head first into the blazing furnace box just as Harry Withers, the fireman, opened the door to throw in some coal.

GREAT DAYS FOR DULUTH

Hundreds Coming for Development Association Meeting June 1 and 2.

Delegates and Other Visitors Will Be Welcomed and Entertained.

With the meeting of the Northern Minnesota Development association only a week away, interest is increasing and every day strengthens the assurance that the attendance will be the greatest and the meeting the most successful in the history of the association. Secretary Mackenzie is content with the reports he has received from the territory covered by the association. He is keeping the advertising machinery in motion and is awaiting the dawn of June 1, for June 1 and 2 will be great days for Duluth and Northern Minnesota.

While the business sessions of the convention are the most important business to be considered and Mr. Mackenzie is bending his first efforts toward making them successful, the arrangements for the entertainment of the delegates are not being neglected. Special invitations have been sent to the delegates to bring their wives and daughters to the convention and entertainment will be provided for the women. The boat trips are planned especially for the entertainment of the fair visitors and their comfort and pleasure will be well looked after.

The Third Regiment band, than which there is none better in the Northwest, has been engaged for both days of the convention. The band will be at all meetings at the Armory and will also be on board the board for the afternoon and evening trips.

The Commercial club and other Duluth interests are assisting Mr. Mackenzie in advertising the development meeting and in arranging for accommodations and entertainment. They are anxious that each citizen of Duluth count himself on the reception committee to see that the delegates to the convention do not lack for anything. Every Duluthian has an interest in the work of the association and the best way they can show that interest just now is in showing hospitality to the association members.

ANOTHER TWINE FACTORY.

Additional Plant Now in Operation at Stillwater.

Stillwater, Minn., May 24.—(Special to The Herald.)—The additional factory for making binder twine at the new state prison is now in operation, making a big factory for binder twine at the new prison in addition to the spindles still in operation at the old institution.

There have been from time to time within a week small squads of prisoners taken from the old to the new, making an addition of fifty men, or 120 in all.

The new prison is fast becoming an important institution. The construction of new buildings is going on rapidly. The walls are up to the second story for the executive building and cell house. The new power house is also well under way. The prospect for completing the new institution in the fall of next year seems good.

STONE STRUCK NEAR HIS EYE

Owen McDonnell Has Narrow Escape From Loss of Sight.

Owen McDonnell nearly lost the sight of his left eye yesterday while working on the farm of his brother, P. McDonnell, several miles from the eastern limits of the city. He had been blasting out stumps with dynamite, and returning to the house found one dynamite cap, with a fuse attached, remaining in his pocket. Not wishing to take any chance with it in his pocket, he lit the fuse and threw it some distance away. When it exploded it blew a pebble into his face just below the eye, inflicting a painful but not dangerous injury.

The strange part of it was that Mr. McDonnell had just gotten through telling the man who was with him to look out for stones when the cap exploded, as one of them might put his eye out. He had no sooner spoken the warning than he got one himself.

FARGO YOUNG MAN HELD.

Alleged to Have Mailed Obscene Letter to Young Woman.

Fargo, N. D., May 24.—(Special to The Herald.)—The police arrested August Dietrich at the request of Post-office Inspector Chase on a charge of sending an obscene letter through the mails to a Fargo young lady.

Dietrich is a well-known young man in town and in the presence of the lady to whom the letter was addressed he stated that he had written the epistle. Officers were present at the time, but concealed, and they had him arrested at once.

Dietrich had a preliminary examination before United States Court Commissioner J. A. Montgomery. He waived examination and was bound over to the grand jury of the United States court, which will convene next month. In the meantime he will await his hearing in the Cass county jail.

THIEF RIVER NOTES.

Thief River Falls, Minn., May 24.—(Special to The Herald.)—A minstrel show was presented to a large audience at the auditorium in this city Monday evening by local talent under the auspices of the City band. The various features of this entertainment were novel and in some cases starting.

The Crookston high school baseball team was defeated by the Thief River Falls high school boys by a score of 10 to 9.

Several gasoline plowing rigs have been purchased in this vicinity by farmers and it is expected that great areas of raw prairie will now come under cultivation and will this season produce flax.

IS GIVEN TWENTY YEARS.

Murderer of Two Men at Mellen Goes to Penitentiary.

Ashland, Wis., May 24. — Judge Parish has sentenced Martin Miller to twenty years in Waupun penitentiary for killing two men with a heavy sled stake at Mellen last winter. Sentence was deferred pending action by the defense looking to a new trial. Miller ran out into the street when several men were fighting, and within half a minute he had brained Gordon and McAdams, neither man speaking after he was struck. Sheriff Dormedy took Miller to Waupun Monday night.

Judge Parish also sentenced William Stack to six months in Waupun for not suporting his family.

WOULD BUILD MONUMENT TO VICTIMS OF FIRE.

Baudette, Minn., May 24.—Efforts are under way to secure a monument by popular subscription to properly mark the spot where the twenty-eight victims of the Baudette and Spooner fire are buried. It is the present plan to have a shaft ready for erection on Oct. 7 next, the first aniversary of the holocaust. Lieut. Foster, in charge of the Red Cross work at Baudette, who has completed a grave 90 feet long and 7 feet wide for the final resting place of the fire victims, and heads the subscription with a contribution of $5.

Subscribers will confer a favor on the circulation department by calling 324, either 'phone, and making known any complaint of service.
It is important when desiring the address of your paper changed to give both the old and new addresses.

The Duluth Herald accepts advertising contracts with the distinct guarantee that it has the largest circulation of any newspaper published in Minnesota outside the Twin Cities. Its value as an advertising medium is apparent.

How shall I be able to rule over others, that have not full power and command of myself?
Francis Rabelais.

COME NORTH, YOUNG MAN.

"The land of Northern Minnesota," said State Immigration Commissioner George Welsh to The Herald yesterday, "is here to give health and prosperity to the settler. He cannot come here and pick gold dollars off the trees, but by applying his labor intelligently he can obtain a competence for life. The cheapness of the land, the condition of the soil and the productiveness of the land, are all in favor of the man of small means, and many of them are realizing it every year."

To the man willing to work, and seeking the opportunity to coin his willing brain and brawn into a competence, these things are ideally desirable: Cheap land, a fruitful soil and nearness to good markets. These three vital things Northern Minnesota has to offer; and the time is coming when those who sent their money to Florida, and those who passed over Minnesota seeking those far pastures which seemed greenest only because they were far, will wonder why they didn't settle in Northern Minnesota while these ideal conditions prevailed.

"To the man of limited means," Mr. Welsh also said, truly, "who is willing to apply his own labor with intelligence and proper direction to the development of the soil, Minnesota offers greater opportunities than any other state in the Union."

DULUTH, JUNE 1 AND 2.

The stage is all set for the fourth convention of the Northern Minnesota Development association. The program is complete, and it is a good one—the best yet. The scheme of entertainment devised by Duluth for the diversion of its guests while they are not busy with the affairs of the association has been worked out, and it is enough to guarantee everybody who comes a good time.

Also, judging from the reports of Secretary Mackenzie, the dynamo that keeps the association going, the attendance will be large and thoroughly representative—not only of Northern Minnesota but of all Minnesota—for the program of the N. M. D. A. is not a sectional affair, but a movement of statewide interest and importance.

Duluth hopes not only that everybody who can come will come, but that everybody will come early and stay late. The program days are next Thursday and Friday, but those who come Wednesday and stay till Saturday will get the most out of the trip. Also, as The Herald has said before, Duluth hopes that the delegates will bring their families and show them a good time, too.

A MARE'S NEST?

It isn't pretty to look a gift horse in the mouth, but people are at it again with the Rockefeller Foundation, by which John D. Rockefeller proposes to turn his gigantic fortune over to a corporation to be administered for the public good as the members of the corporation conceive it.

It is stated that Attorney General Wickersham has filed with the president an opinion condemning as unwise the project to incorporate the Rockefeller Foundation, and that therefore the bill providing for its incorporation, which Senator Gallinger has introduced, will not be passed. According to the correspondent of the Chicago Tribune, if it is passed it will be vetoed by the president.

The president's objections to the incorporation are described as follows: "In the first place, the Foundation avowedly would be perpetual. In the second place, the directors would determine what would best advance civilization, and apply themselves to its realization, even if the purpose might be the control of the government of the United States."

Says the Washington correspondent of the New York Tribune: "It is not a far cry for the imagination to depict a situation where, in all sincerity, the trustees might determine to devote the fund at their disposal to the frustration of some politico-economic movement favored by large masses of the people, under which circumstances it is not difficult to imagine a growing state of indignation which would ultimately disregard law and order and, perhaps, even attain the proportions of a revolution. At least this is the view of the attorney general, and by it the president is most likely to be guided."

This opinion opens up an interesting vista. Suppose, for instance, that the people of this country came to the conclusion that it would be a good idea, since the railroads and trusts had grown so great that they threatened to dominate government itself, as well as the economic field, to take over the railroads and the trusts and own them, just as Duluth took over its water works and owns and operates them. Suppose that the trustees of the Rockefeller Foundation, all of them men in thorough sympathy with individualism and private property interests, concluded that that was a dangerous thing, and a menace to the Republic. Suppose they dipped into that enormous fund of hundreds of millions of dollars, and devoted the whole of it to defeating the people's will in this matter. Would the suggestion of the attorney general be so far fetched then?

The truth of it seems to be that such a fortune as Rockefeller has permitted the toilers of the nation to build up for him is a very awkward monster, and it is pretty hard to say just what can safely be done with it. It is, in the first place, a tremedous power, and there are very few men fitted to wield such power as it would give. It is, in the second place, too great a proportion of the nation's wealth to be properly in private hands.

Perhaps, on the whole, a better way would be to enact a drastic inheritance tax law, such as Mr. Carnegie is fond of advocating, and on Mr. Rockefeller's death to divert the bulk of his fortune to the uses of the public, to be handled by public agencies. That would be peculiarly fitting because it was the public which unwillingly contributed it.

However, the New York Times thinks the whole thing a mare's nest. It says: "We doubt whether Mr. Wickersham has been foolish enough to sign a document setting forth reasons such as these." Then the Times shows that the Gallinger bill gives congress power to impose limitations on the business of the foundation and to terminate any particular endowment.

That's true, too; but suppose, while we are supposing, that the first thing the trustees did to head off this popular movement were to get control of congress? That sounds improbable, perhaps; but there is going to be a fearful pile of money in that Foundation, and money is powerful. Maybe it isn't such a mare's nest after all.

THE PEOPLE AND THE JUDGES.

A careful consideration of Congressman Martin Littleton's speech on the recall of judges, reported in The Herald last night, is pretty certain to inspire you with an awed horror of the results of giving the people power over the judiciary. In the light of his coldly brilliant phrases it is clear that nothing short of calamitous catastrophe can come of it if the people have power to juggle the judiciary through the recall.

It is peculiarly and poignantly depressing to contemplate Mr. Littleton's picture of "the sibilant hiss of a mob" pursuing a judge who hasn't pleased. The thought of the angry mob, of the judge gathering up his gown and fleeing for his political life, and particularly of that "sibilant hiss," is almost agonizing. If the hiss were ululant, or sonorous, or stertorous, it wouldn't be so bad. But "sibilant!" Frightful!

Nor is that the worst of it. If it is so perilous to give the people power to recall an unfaithful judge, what a fearful risk we have run in giving the people power to elect judges at all!

THE SEVEN-SENATOR BILL.

Advocates—defendants would be the better word, of course—of the bill limiting St. Louis, Ramsey and Hennepin counties to seven members of the state senate each have much to say about the fact that there are but two United States senators from each state. They seem to think it a parallel case.

Those who think that should go to their children, who are attending school, and sit at their feet long enough to learn a little history.

They will learn, for instance, that it was only by the narrowest sort of a squeeze that the thirteen embattled colonies escaped becoming thirteen separate, inharmonious and bickering little nations instead of one great nation, the greatest on earth. Having only the common tic of English blood, and that somewhat diluted in places, these thirteen colonies had little else in common. In fact there were decided jealousies and antipathies which fruited, years later, in the Civil war. There were sectional divisions, north against south, and the long, almost pathless distances that intervened illustrated the differences in sentiment that existed. There were big colonies and little colonies; and the little colonies were fearful of the big colonies and jealous of expected encroachments.

And then in all the colonies there was the division between those who distrusted the people and those who trusted the people.

The principle of two senators to a state was the principle which harmonized these differences, at one time apparently irreconcilable, and cemented the Union. It was a compromise, and it wasn't in itself a right or just thing; but it was necessary to bring about the union of the colonies.

To satisfy those who trusted the people, the house of representatives, coming directly from the people and apportioned according to population, was created. To placate those who feared the people, the senate, a body small, compact, easily controlled, separated from the people by the legislatures, was created. To harmonize the differences between the large and small colonies it was provided that each should have the same membership in the senate. From this compromise the Union was born. Without it there would have been no Union.

There isn't a detail of this history that parallels the proposal to limit the representation of the people of the cities in the Minnesota senate. There isn't a detail in this proposal that is justified, or an argument in its favor that is well founded. This state wasn't formed out of a union of counties. The counties were formed for convenience by a division of the state. The counties are not separate commonwealths, like the state, but mere political subdivisions of the state.

One naive defender of the principle of the seven-senator bill says that it is unjust, but that it would be a good idea to base representation in the senate on territory, rather than population. That would keep the cities in subjection, of course; but it would be a radical departure from the idea of a government by and for the people. This is either government by and for people, or it is not; and if it is a government by and for the people, all the people, wherever they live, should have equal voice in its affairs.

But suppose representation were based on territory instead of population. Northern Minnesota would have two-thirds the representation, and Southern Minnesota a scant third. Those who used the seven-senator bill to kill reapportionment, and are now using it to delay reapportionment, would hardly be happy with that result.

BRAVO, UNITARIANS!

An item from Boston in The Herald last evening showed one way in which it can be made uncomfortable for those who support the corruptions of specially privileged greed. Senator Fletcher of Florida, who voted to seat Lorimer, is vice president of the American Unitarian association. Yesterday members of the ministerial union of that sect were signing a resolution, to be presented at the annual meeting of the association today, to the effect that Fletcher's vote for the shame of Lorimerism rendered him ineligible for leadership in Unitarianism.

Voting to condone corruption is treasonable. Such acts as that of the Unitarian ministers should tend to make it also unrespectable and uncomfortable.

THE GUILTY PRESS.

Delegates to the Lumber Trades congress at St. Louis complained bitterly yesterday that the press has "persecuted" the lumber trade for five years, and that government action against the lumber trust is due to that "persecution."

If the lumber trade, in forthcoming trials, is found guiltless, it cannot be harmed by newspaper persecutions. If it is found guilty, then the newspapers have been doing their plain duty.

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest. Letters should not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.)

PARENTS ARE THE ONES TO BLAME.

To the Editor of The Herald:

The accident to Miss White at the ski grounds on Sunday is deplorable, so nearly terminating fatally. It should be forbidden for such irresponsibles to carry rifles and to shoot just where they please.

There are enactments punishing such careless criminal proceedings. Let them be enforced. "Hew to the line, let the chips fall where they may."

If the parents of such irresponsibles permit their boys to roam the woods inside the city limits with such dangerous weapons, shoot at whomsoever they please, and then cowardly run away, let the parents suffer! Civil damages in our law courts would soon place the responsibility! Let Miss Whites' parents commence suits for criminal carelessness, and violating the city ordinances in the civil courts, and let these parents have to defend their gallant, courteous, gentlemanly boys who had run away when they had shot a gentle girl. Let their names be known by all means.

A boy so brave should be shunned by his school companions. What are such boys doing in the private grounds among such pleasant surroundings? Hunting robbins—out upon such. This is nearly as criminal as shooting flower hunting girls. A SUBURBANITE.

Duluth, May 22.

SOME YELPS ARE HEARD IN CANADA.

To the Editor of The Herald:

I don't give a hoot whether the United States gets its share of reciprocity or not. Up here in Canada we have a lot of folks in the same frame of mind regarding Canada. For instance, there is the $16,000,000 Canadian Car & Foundry company which recently offered its shares to English investors and guaranteed to pay 13 per cent dividends because "car builders in Canada are protected by a duty of 13 per cent from foreign competition." The words quoted are from its statement to prospective investors.

And there is Canada's largest cotton company with $5,000,000 in common stock, heavily watered, $1,859,000 of 7 per cent preferred and $3,490,275 of 6 per cent bonds. Net annual profits last year were $1,004,289 from total sales of only $6,153,625. The customs tax on imported cotton accounts for most of the excessive profit. The country gets $2,986,600, but the Canadian consumer is soaked about $5,500,000 because of the Canadian tariff.

And then there is the millers' combine. The three largest Canadian companies have a total capitalization of $3,500,000 of 7 per cent preferred, $5,895,000 common stock and $4,573,100 in bonds. After paying 7 per cent on the preferred and interest on the bonds, there was distributed 15 per cent in dividends on the common. Net earnings on the actual investment were 50 per cent. Fresh fluid was injected last year by the issuance of more common stock. Besides all this there were undivided profits of $2,360,625.

The protective duty on sugar in Canada amounts to 1½ cents. Eight existing refining companies produced $18,300,000 worth of sugar last year. The 1,694 employes received total wages of only $836,026. The high price of sugar is boosted by the Canadian tariff to such an extent that Canadian consumers could afford to pay the employes of the refining companies $2,000,000 for doing nothing and buy their sugar elsewhere, if the consumers could get their sugar without paying the duty, they could pay the $2,000,000 and be on the right side of the ledger.

I could keep on this strain, but I won't. White paper is too valuable, and opponents of reciprocity have sprained their economic understanding so badly by this time that it wouldn't do any good anyway. I'd probably be accused of being "subsidized" by something or somebody.

The truth is that the country population of Canada is increasing so rapidly and the manufacturing plants so slowly that there is a full demand for all domestic manufactures which can be produced. Makers do not have to compete with outsiders. They are assured of a market for everything they can produce. And they add to their prices every cent that the customs taxes on their foreign competitors enable them to stick on.

The big interests of Canada are yelling to be "let alone." You people in the United States are probably familiar with the tone of the yelp. The protected industries and the special privileges of this country are howling against reciprocity, which, to me, is a blame good reason why we ought to have it.

C. M. L.

Winnipeg, May 22.

Haym Salomon, Patriot.

Chicago Tribune: "I came here tonight," said President Taft, "not to make a speech, but to second the motion that a memorial be raised to the Jew who stood by Robert Morris and financed the American Revolution."

Three men took a conspicuous part in financing the revolution, and each of them could say with truth that republics are ungrateful. They were the Frenchman, Beaumarchais; and the American, Robert Morris, and Haym Salomon—the latter by religion a Jew. The names of Beaumarchais and Morris are familiar, while that of Salomon is not, but in the "times that tried men's souls" the wealth he had acquired as merchant and banker was put at the service of the continental congress. That was in addition to the services he rendered in negotiating the war subsidies obtained in France and Holland.

When Haym Salomon died in 1785 he had not been repaid all he advanced the government. His heirs have repeatedly petitioned congress, but have been rebuffed. If it will not pay a just debt of the nation, it might at least vote a monument.

The services of the Jew banker and merchant were such as to make him worthy of a memorial. The memorial would serve another purpose. It would bring home to many who are not aware of it that there were Jews in this country at the time of the Revolution, and that they, like men of other religions, took an active part in the struggle for independence. Some were in the army, and others, like Haym Salomon, furnished the sinews of war for the continentals.

Occasionally anti-Semitic sentiment, malignant and silly, manifests itself in this country. One antidote for it would be an official recognition—such as a memorial to Haym Salomon would be—of what the Jew did to make this country free. He earned thereby the right to make it the asylum of oppressed co-religionists of other lands.

A Psalm of Berths.

Tell me not in mournful numbers
That all upper berths are sold,
That I must pay for my slumbers
Dollars five in lower hold.

Find an upper! I'm in earnest!
By the price I am induced;
For from five, two thou returnest,
Since the upper's been reduced.

Berths are short, ditto the sheeting,
And my heart, though stout and brave,
Shrinks at that compulsive meeting
'Twixt knees and the place I shave!

In the berth's cramped field of action
I undress until midnight;
Then, with much dissatisfaction,
Dress from twelve till broad daylight.

Sleeping-car ads, all remind us
That their comforts are sublime;
We, departing, leave behind us
One word—"Liars!"—every time.

Let us then be up and creeping
From our torturing retreat,
Vowing that our future sleeping
Will be done—on the seat!

—Judge.

THE WHITTIER CASE.

Will Bear Watching.

Breckenridge Telegram: The Duluth Herald thinks that there is something more than patriotism in the fight against Whittier of the Red Wing boys' training school. The board of control has the appointment of 1,500 state employes and the power of awarding large contracts. If used for political purposes this may be made a political machine of tremendous power for the party wielding it. As the majority is Democratic it is suggested that a change in its political complexion is desired and that this is the real animus of the crusade. It certainly looks like a move of the old senate combine and will bear watching.

Beginning to See the Light.

Red Wing Republican: The newspapers of the state published outside the Twin Cities are beginning to see the light in the unparalleled and unscrupulous crusade that has been made against Supt. Whittier and the boys' training school. The press and people of the state at the start accepted the news reports as given in the St. Paul and Minneapolis papers as reliable. It is little wonder that thousands of honest, sympathetic people were aroused over the condition as it was portrayed and distorted. There only needs to be seen the petty political motives that are behind the malignant attack to cause a reaction in Mr. Whittier's favor. If the fight is continued it will have to be waged against the members of the board of control. If that is done the game and its motives will be so transparent that the public will see it and give justice where it is due.

Whittier Should Stay.

Fergus Falls Free Press: There is friction between the governor and the state board of control over Supt. Whittier of the Red Wing training school for boys. The governor believes that Whittier ought to resign, but that gentleman feels that he has done no wrong, refuses to retire under fire, and the board seems inclined to sustain him. With due respect to the governor, we believe that it would be wrong and detrimental to the school to force Whittier out.

They're Getting Wise Now.

Walker Pilot: It appears that the St. Paul Dispatch did not publish all of Mr. Leavitt's letter regarding the Red Wing training school, but painfully omitted certain portions. The letter is published in its original form, however, by the Red Wing Republican and will undoubtedly have some weight in Supt. Whittier's case, as the author is not only an ex-member of the state board of control but a gentlemen held in high esteem throughout the state. The Dispatch is one of the papers that would attempt to arouse public sentiment against Mr. Whittier in order that that paper might play politics with the governor and the state board of control. And the dear people have swallowed the bait way up to the bobber.

Entitled to Fair Play.

Wadena Pioneer Journal: It does not seem to this newspaper necessary to condemn and discharge an official who heretofore has been regarded as being highly competent and praiseworthy, just to correct a simple matter of discipline. Spanking may be abolished at Red Wing without abolishing Whittier. Whether corporal punishment is desirable as a disciplinary measure or not is purely a matter of opinion. If the people do not approve of it in handling the Red Wing boys, it may be abolished without discharging a competent superintendent.

In any event Supt. Whittier is clearly entitled to a fair and impartial trial under the law. If this is accorded him, and he is found guilty of wrong-doing, his official head should pay the penalty.

A Political Plot.

Perham Enterprise: If some of the people who are yelling themselves hoarse about Supt. Whittier of the Red Wing training school had charge of the incorrigibles that Whittier has to manage, they would consider spanking a very tame punishment. All this fooling about the Red Wing man seems to be part of a political plot.

"Much Ado About Nothing."

Detroit Record: The Red Wing episode is still attracting attention among that certain class of persons who delight in making "much ado about nothing."

"Be a Good Sport."

Chicago Inter-Ocean: "Be a good sport!"

Many a true word, says the old saw, is spoken in jest. Certainly many a good thing is said 'n slang. "Be a good sport!" is a whole philosophy of outdoor life.

Be a good sport—and don't be like this man:

He was shooting prairie chickens in the corn and caught sight of one walking slowly along between rows. Instantly he covered the bird. "Don't shoot," gasped his companion. "Don't shoot while it's walking." "I ain't going to," he replied. "I'm waiting till it stops."

Be a good sport—and don't be like this man:

He played golf and beat his man handily, and the clubhouse resounded with his self-felicitations. Next day he played with the same man and was beaten handily and the clubhouse resounded with his lamentations and explanations and excuses.

Be a good sport—and don't be like this man:

He was camping with three other men. An accident resulted in the loss of most of their provisions. This necessitated a hard, all-day row for one of them to lay in a new supply at the nearest country store. His companions proposed to draw lots. He shammed sickness and declined to draw.

Be a good sport—and don't be like this man:

He was snipe shooting and his dog found several prairie chickens—which were out of season. He killed them and also several teal that came along—likewise out of season.

Were these men good sports? They were not. Most decidedly they were not. We will not say what they were, but they were not good sports—not one of them.

So, in seeing what a good sport is not we get glimpses of what a good sport is. "Be a good sport!" in plain English is: "Be a sportsman and live up to the sportsman's ideals!"

Now, the sportsman is almost as difficult of adequate definition as the gentleman. Nevertheless, some of his qualities are these:

He is just the reverse of the pot-hunter and the game hog. He would scorn to shoot a prairie chicken on the ground or a duck in the water. He kills his birds in the air and the harder the shot is the better he is pleased. He uses light tackle and gives the fish a chance. He never takes more from field and stream than he can use. And he always obeys the game laws.

Also the sportsman grins and bears it when defeat comes his way. He has no excuses to offer. He knows that 'ifs' count no more in golf than they do in poker—or elsewhere. He is a good loser. Also he is a good winner—and bears triumph without too many grins.

Also the sportsman has no streak in him that is all yellow and a yard wide. He takes pride in keeping up his end. In camp or on the trail he does his full share willingly and cheerfully. In emergencies he is a volunteer. He helps the novice. He does not allow poor luck to spoil his outing or ruffle his temper. He gets fun out of a mishap and can take a joke on himself.

Also the sportsman 's a lover of nature. He never wantonly defaces her fair face. He never knowingly pollutes a stream or lake. He is very sure he sets no forest fire. And untiringly, by deed as well as by word, he preaches the gospel of true sportsmanship.

In short, the sportsman is the gentleman of sports, and the good sport is the man who does his best to live up to the sportsman's ideal—and just the fellow you want with you in the stubble or in camp or on the portage—and against you on the golf links and in every contest of pluck and skill.

TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1891.

•••The C. W. Wetmore, the third steamer of the American Steel Barge company's fleet, was launched at the yard at Superior yesterday afternoon. She is 265 feet long, 36 feet beam and 22 feet depth of hold, will carry about 3,000 tons of cargo and is designed for the Atlantic coast and Liverpool trade.

•••Oil Inspector Sam Nichols has tendered his resignation to Governor Merriam, because the late legislature failed to make an appropriation for the expenses of his department.

•••Hon. Robert G. Ingersoll, now in Montana on legal business, has been engaged for a lecture on the authorship of the Shakespearean dramas, to be delivered at the Temple, May 27.

•••With Ely in possession of a presidential postoffice and the home of Representative O. D. Kinney, what further honor can the range hope to be deluged with?

•••A. P. Freeburg left today for his home at Moose Lake, where he is interested in a silver property.

•••F. C. Gillett of Hastings, Minn., is visiting his brother, W. H. Gillett, at West Duluth for a few days.

•••Capt. Duncan McEachern, the silver, lead and marble discoverer of Duluth, has just returned from a trip to the country down the north shore of the lake. He reports that from Cloud lake to Black bay, the country is full of prospectors, and that many excellent finds are being made.

•••News comes from Rainy river, where lumbermen employed by W. T. Bailey of Duluth are engaged in driving out about 8,000,000 feet of logs, that Michael Morrissey was killed and Ogden Hall and Henry Fritz were badly hurt a few days ago by an explosion of dynamite while trying to raise fish at the foot of the Sault rapids.

•••Editor Wesenberg is back from Cincinnati and speaks with great enthusiasm of the prospects of the People's party, which has just been born.

•••Mrs. Charles H. Eldridge is entertaining her sister, whose home is at Hartford, Conn.

•••O. L. Roen of the firm of Wangenstein & Roen, architects, will sail on the steamer City of Paris, May 27 for Europe. He will be gone three months.

•••Rev. E. E. Tyson, pastor of the Second Baptist church, has been granted a six weeks' leave of absence in order that he may regain his usual health after a severe illness. Mr. Tyson and family will visit relatives at Kansas City.

•••Commodore E. S. Smith and family left yesterday on the Edward Fish for Glendale, their summer resort on the south shore.

ARISTOCRACY.

Louisville Courier-Journal: While a few people are getting excited and a whole lot more are laughing over the Miss Beers incident at the United States Naval Academy, Dr. Woods Hutchinson, a scientist of originality and attainments, throws an amusing and at the same time instructive sidelight on this whole business of aristocracy. Even a scientist need not necessarily be deficient in humor, and in his Saturday Evening Post article Dr. Hutchinson presents his facts about the "blue blood" delusion with a fine irony.

All the tumult about the reprimand to a midshipman for taking a nurse maid to a hop started over the fact that this particular nurse maid was the daughter of a professor who taught Mr. Taft at Yale. The presumption, of course, is that a daughter of a professor at Yale is ipso facto a person of refinement equipped to move in polite circles.

The same assumption marks the letter of a Washington lady who writes in commendation of Congressman Korbly, the man who is keeping the pot boiling. This lady complains that she has suffered from lack of social recognition in the navy because she earned her own living, though she is "the daughter of a lieutenant colonel (deceased) of the United States army, the great-granddaughter of a Revolutionary officer and the great-great-grandniece of a signer of the Constitution of the United States."

Dr. Hutchinson demonstrates very clearly that it doesn't matter particularly who one's father or mother is as far as "blue blood" is concerned. With the proper food and training, as fine an example of the graces of refinement and attainments as Tennyson's "daughter of a thousand earls" can be produced in one generation. Dr. Hutchinson doesn't mention it, but the naval officers themselves prove the proposition.

By common consent our army and naval officers as a body are as fine a set of gentlemen as the world ever saw, and the majority of them are made in a few years from the rough-head, red-necked raw material. Put into an environment of rigid ideals of honor and given a physical training calculated to impart grace of bearing, the sons of nobody in particular are made into men of courage, charm and chivalry.

The whole business of ancestor-worship is a fetich. The whole lot of royal and noble families of Europe, with all the advantages of wealth, have not produced as many men of unusual abilities, or women of exceptional beauty, as an equal number of families of no particular lineage.

Fourteen generations back and everyone has 14,000 ancestors, and if qualities are transmitted, it becomes a puzzling job to pick out the particular one of the 14,000 we are to parade as the originator of our own glories. Go back 1,000 years or so—and many noble and royal families beat that—and everybody in the world is cousin to everybody else.

Science has conclusively proved that the best types come suddenly and not from generations of human beings bred on the aristocratic theory. Democracy is scientific. Aristocracy is a theoretical and actual delusion.

Reflections of a Bachelor.

New York Press: A woman gets the same comfort out of her Bible a man does out of his pipe.

Getting married makes a girl suddenly remember a lot of things she knows.

The fellow who knows he's the biggest patriot is the officeholder who is supported out of taxes.

Nobody in the country ever has mosquitoes at his home unless there is some visitor there to discover them.

A man wants the whole family to get in an uproar because he overslept and is going to be late for an appointment.

Pointed Paragraphs.

Chicago News: The most effective talkers say the least.

The last will and testament is a dead give away.

The most glaring faults of others oft resemble our own.

There are men who would probably be wiser if they knew less.

It's a safe bet that a man is what he suspects others of being.

Many a girl with the hammock habit has a mother with the washtub habit.

The wounds of love are quickest healed by another dart from Cupid's arrow.

The more you talk to a man about himself the more brains he will think you have.

A young man may be in love with a girl and still draw the line at marrying her family.

It's difficult to believe that practice makes perfect after listening to the chap who practices on a cornet.

A magazine poet refers to a baby in the house as a wellspring of pleasure. According to his theory triplets would be a deluge.

The Flatette.

We have a little kitchenette
In which to cook the meals,
And you will find a cellarette
Refreshment wet reveals.

Within a little bedroomette
We snatch our troubled sleep,
A tiny little parlorette
For social joys we keep.

We manage in a wee bathette
Ablutions as we may,
And gobble in a diningette
Our meals three times a day.

Nay, gentle reader, think not that
We save a single cent,
We pay no rentette for the flat,
Not much; we pay a rent.

—New York Sun.

The Best Yet, They Say.

Springfield Republican: It is claimed by experts that the forestry law passed by the late Minnesota legislature makes the best forest protective provision of any state in the Union, and the state forestry board, has made W. T. Cox, assistant forester of the United States forest service, forester of Minnesota. He is of course an expert, is highly indorsed by Secretary Wilson, Chief Forester Graves and Secretary Fisher of the interior department, and is expected to give Minnesota a most effective fire patrol system.

A MOMENT WITH THE WITS.

Judge: "It's a play that hasn't one redeeming feature."

"Except the scene in the pawnbroker's shop."

Chicago Tribune: "Paw, are there microbes in sugar?"

"Yes, Bobby."

(Thoughtful pause.) "Well, I don't blame 'em paw."

Chicago Daily News: Suitor—If you refuse me I shall never love another.

Suited—Does that hold good if I accept you?

Judge: Improved by Age—"But don't you think the earl is rather too old for your daughter?"

"Not a bit of it. The older the better. I've seen some old earls who were rather decent."

Argonaut: A student at the Western Reserve university suffers from the stigma of obesity; it appears that even professors do not love a fat man. After a particularly unsuccessful recitation in English III, the professor said: "Alas, Mr. Blank! You are better fed than taught."

"That's right, professor," sighed the youth, subsiding heavily. "You teach me—I feed myself."

Yonkers Statesman: Mrs. Bacon—And why did your cook leave you?

Mrs. Egbert—She wanted us to raise her wages.

"And what were you paying her?"

"Why, $15 a month."

"And couldn't you raise that much?"

Chicago Record-Herald: "John, I listened to you for half an hour last night while you were talking in your sleep."

"Thanks, dear, for your self restraint."

Following a Precedent.

Writes a friend from Cannes to the Gentleman: "I heard a story the other night at a dinner given here which is, I believe, a true one. A little boy wished to give a Bible to his mother on her birthday, and before writing her name on the flyleaf he took down a book from her shelf to see the proper way of setting about the matter. Literally copying the first inscription that he found he wrote: 'With the kind regards of the author.'"

RECORD STATE LAND SALE HELD IN ROSEAU COUNTY

Total Sales 17,080 Acres; Some Land Going for $15.

Illinois Men Led All Other Purchasers, Minnesotans Being Next.

Crookston, Minn., May 24.—(Special to The Herald.)—At the state land sale, conducted at Roseau yesterday by State Auditor Iverson, all records were broken, land selling as high as $15 per acre. The acreage sold was 17,080 and total proceeds $128,000. Roseau citizens bought 4,360.

Illinois men led all buyers with 4,480 acres, the other heavy purchasers being from South Dakota, Wisconsin, Iowa and North Dakota in the order of the amount purchased.

Auditor Is Pleased.

Regarding the sale State Auditor Iverson said: "I believe this sale is most significant and marks the turning point toward an immense development for Northern Minnesota. The people are headed this way from all directions. We sold lands that were the choicest. Practically all the sales were to men who will develop the land at once."

A big sale is in progress at Hallock today and Friday the sale will be in Crookston.

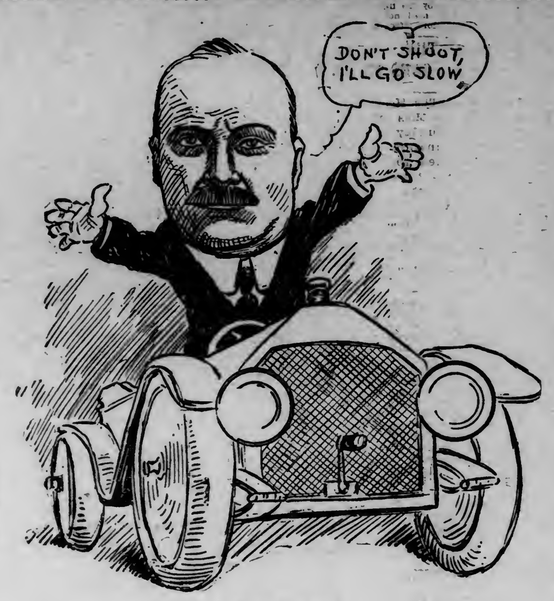
NO MAIL CLERKS' STRIKE.

Van Dyke of St. Paul Testifies at House Hearing.

Washington, May 24. — Denying the assertion that the railway mail clerks were organizing for a general strike, Carl C. Van Dyke of St. Paul, recently dismissed from the service for "pernicious activity" in connection with the proposed postal clerks' union, testified before the house civil service committee, which is considering a bill granting government employes the right to affiliate with trades unions.

Mr. Van Dyke said the clerks in their efforts to organize sought only to better their conditions and to obtain the right to be heard in their own behalf by congressional committees. He pictured what he termed "sorry working conditions" and gave instances of alleged persecution of employes by the postoffice inspectors.

COSTS "PADDY" McDONNELL $100 WHEN CHAUFFEUR SPEEDS CAR



P. McDONNELL.

Edward Appling, chauffeur for P. McDonnell, well-known Duluth contractor, was convicted, in police court this morning, of violating the speed laws of East Superior street between Twelfth and Fifteenth avenues. Judge Windom imposed a fine of $100, with the alternative of thirty days in the county jail. Mr. McDonnell paid the fine.

The complaint for the chauffeur's arrest was sworn out by Howard T. Abbott, president of the Duluth Automobile club. The organization has announced that it will do all in its powers to aid the police authorities to put an end to scorching in the city limits, and particularly the downtown section.

In addition to Mr. Abbott several prominent citizens testified that they saw Mr. McDonnell's car traveling at a faster rate than allowed by the ordinance. They stated that they estimated the car to be going from thirty-five to fifty miles an hour. The other witnesses put on by the city were E. J. Bunker, W. B. Dunlop, Werner Pressentin and Percy M. Shaw, Jr.

In passing sentence Judge Windom stated that he had no doubt but that the machine was running between the avenues named at least thirty-five miles an hour, between the street car tracks. He declared that he has been threatening for some time to impose straight jail sentences where convictions are secured for the reckless driving of automobiles, and that the only question in his mind was whether to give the chauffeur an opportunity to pay a fine, being satisfied as to his guilt.

No testimony was offered by the defense. Attorney A. E. McManus, who appeared for the defendant, stated to the court that the driver admitted that he was going faster than fifteen miles an hour, but asked for leniency on the grounds that he had been suffering from appendicitis for some time past. Judge Windom asserted that if such was the case the effect must have been to make him lose his mind if it caused him to endanger the lives of people by driving as he was at the time specified in the complaint.

BAYHA & CO

DULUTH, MINNESOTA

WEST END

BARRED FROM SWIMMING HOLE

West End Boys Will Have No Place to Splash This Year.

West end boys have no place to swim this summer.

The "old hole" at the foot of Twentieth avenue west, where the sandy beach extends out for a short distance, has been "tabooed" by the police and the railroad officials. It has been declared as a dangerous place on account of the proximity to the railroad yards. The practice of boys bathing there must be stopped, say the authorities.

Barred from here, the youngsters have no place to take a "dip" except off the end of docks, which is even more dangerous as the bottom in most cases is strewn with old boards, slabs and other obstacles.

The city or the park board will probably be requested to make some provision for a bathing place. Concentrated efforts of West end parents may bring about the establishment of a permanent free bathing pool.

SOCIETIES OF WEST END CHURCH TO MEET.

The Rebekah guild of St. Peter's Episcopal church will be entertained Thursday afternoon at the home of Mrs. Gust Carlson of 2109 West Fourth street.

The Woman's Missionary society of St. Peter's church will hold a social and business meeting in the guild rooms of the church, Twenty-eighth avenue west and First street, Friday afternoon. A program of music and literary numbers will be given. A number of talks will be given on missionary work.

Committee Meeting.

Plans for the annual state convention of the Independent Order of Good Templars, which will be held in Duluth June 22, 23 and 24 and arrangements for the entertainment of the delegates will be made Friday evening at a meeting of the general committee at the home of Gust Landin, 24 North Twenty-first avenue west. Mr. Landin is chairman of the committee.

West End Briefs.

Mr. and Mrs. J. H. Ridell left yesterday for a month's visit at Chicago, Rochester, N. Y., and points in Ontario, Can.

Hugo Swenson of 1910 West Second street left yesterday for Minneapolis for a three months' visit. Mrs. Swenson will join him shortly at Minneapolis and they will spend the summer months at Lake Minnetonka.

Mrs. A. J. Page of 1807 West First street is visiting friends and relatives at Brainerd, Minn.

John F. Brandt of Melrose, Minn., is a guest of friends in the West end.

The United Swedish Sons of America, Order of Vasa, entertained last evening at Columbia hall at another of the series of dancing parties. The affair was given under the auspices of the degree team.

William C. Barrows of Hutchinson, Minn., transacted business in the West end yesterday.

Mrs. Laura McCarthy and daughter of 215 North Twenty-fourth avenue west returned yesterday from the Twin Cities, where Mrs. McCarthy attended the annual state convention of the L. O. T. M. as a delegate from Pearl Hive, No. 4, of the West end.

J. O. Hanson of Bay City, Mich., is the guest of friends in the western end of the city.

Martin Severson of West Fifth street has returned from a visit with his father at Winnepeg, Man.

STATEHOOD BILL PASSED BY HOUSE

Arizona and New Mexico Must Vote on Some Amendments.

Washington, May 24.—The joint resolution admitting Arizona and New Mexico to immediate statehood but withnoiding approval of the constitutions of both states until the people have voted on certain proposed amendments, passed the house of representatives late yesterday by a vive voce vote. No roll call was demanded on the final vote. On a preceding motion to recommit the resolution made by Republican Leader Mann, 31 Republicans voted with the Democrats, defeating the motion 214 to 57.

The resolution requires Arizona to vote on an amendment removing the recall provision as it applies to judges, and requires New Mexico to vote on an amendment making its constitution more easily amendable in the future. Neither state is required to adopt the amendments proposed by congress. Whether they are approved or rejected by the proposed referendum, the constitutions of the new states will stand finally approved with the respective votes taken.

The resolution passed in the form proposed by the Democratic majority of the committee on territories.

The Democrats declared that the proposal to force Arizona to reject the recall, was an effort to keep that state out of the Union.

Notwithstanding this attitude, leading Democratic orators bitterly denounced the recall of judges during the afternoon's debate, while Republican insurgents refused to join Minority Leader Mann in the proposal to force Arizona to give it up.

FRANK GREGG LOST HEAVILY

Attempt to Revive Spokane Inland Herald Proves a Failure.

The Spokane, Wash., Inland Herald, founded by Allan Hayes in February, 1910, and sold a year later at a receiver's sale for $10,000 to Frank B. Gregg, formerly of Superior, and associates, suspended publication on May 8. It is estimated that more than $500,000 was lost in the venture.

The Inland Herald Publishing company, headed by F. B. Gregg, was capitalized at $400,000. It is stated that Mr. Gregg put in more than $100,000, of which $55,000 has been put in since the new company took it over after the receiver's sale. Mr. Gregg had invested about $80,000 up to the time of the sale.

"While Mr. Gregg has lost a sum amounting approximately to $135,000 in the venture," says the Spokesman-Review, "there are other heavy losers. B. F. O'Neil, an Idaho banker and politician, had sunk about $12,000, and his followers in Idaho have spent about $60,000 in contributing to the paper. Officials of the old city government, city contractors, individuals and numerous others have lost from $250 to $5,000 each in the attempt to make the paper a 'go.' Steam railroads donated about $21,000. A number of saloonkeepers also were involved in the financial entanglements. The stock of the original company, as well as the present company, has never had a market value."

WESTERN CANADA IS HURT BY COAL STRIKE.

Lethbridge, Alta., May 24.—The coal strike in Southern Alberta and Southeastern British Columbia, by which 15,000 men have been made idle during the last six weeks, is seriously affecting trade in Western Canada. Manufacturers and steam plows are short of fuel and the big smelters of the Granby company at Greenwood have closed for lack of coke, throwing 700 men out of work.

ANDERSON BREAKS WITH MINORITY LEADER MANN.

Washington May 24.—Harmony between Republican Leader Mann and at least one of the insurgent Republicans was broken yesterday. Two Republicans who sit back of Mr. Mann, Representatives Anderson of Minnesota and Helgeson of North Dakota, failed to rise with the Republican side in voting for one of Mr. Mann's amendments to the statehood bill, providing for the immediate approval of New Mexico's Constitution.

The minority leader turned around and said several things to them. It was said later that he intimated that all Republicans ought to stick together and that one of the Northwestern members retorted that he would be glad to "stick" if Mr. Mann would also propose the immediate ratification of Arizona's Constitution.

Shortly afterwards when Mr. Mann preferred a request for unanimous consent in the house, Mr. Anderson objected. Mr. Anderson is the insurgent who defeated James A. Tawney, one of the regular Republican leaders of the last congress.

The house adjourned yesterday to meet again Friday.

AUTHORESS TELLS OF MARITAL TROUBLES.

London, May 24.—"Irene Osgood," the American authoress, who is suing for a judicial separation from her husband, Robert Harborough Sherard, the English author, occupied the witness stand during yesterday's entire sitting of the court. Mrs. Sherard furnished the crowded courtroom with a succession of thrills by her stories of sensational episodes of her married life. She testified that she considered that her life was in danger if she continued to live with her husband.

On being cross-examined, Mrs. Sherard denied that she had suggested to her husband that she would provide him with money to obtain a divorse from his first wife, and declared that she had married Mr. Sherard under protest.

The witness denied that she told her husband she was tired of him and would be glad of an excuse to obtain a divorce, but said that she occupied a suite of rooms separated from those of her husband by a locked door.

YOUNG business men, keen, alert, up-to-date; men who confront a business question and decide it quickly; they are the men who know the importance of looking prosperous. The appearance of success is an asset with such men; their looks are a part of their capital. Such men decide about clothes as they do about a business deal promptly, definitely and generally sensibly.

Kenney & Anker Clothes

Are made for just such men; for the clean-cut, business type; there's a distinction of fashion and style about our clothes; they fit and hang just right, better in every way than the average tailor-to-measure ever gets clothes.

The new models for summer are exceptionally good, and the new fabrics are unusually attractive. We guarantee a fit such as you'll be wholly suited with.

Suits, Overcoats and Raincoats $10 and Up

Summer Shirts, $1.00 to $3.50. Summer Hats, $1.50 to $6.00. Summer Caps, 50c to $2.00. Summer Underwear, 25c to $4.00 per garment. Summer Neckwear, 25c to $2.00. Summer Hosiery, 25c to $1.50. Summer Shoes, $2.50 to $5.00.

Summer Clothes for Boys and Little Tots

Are now in order. You'll find here the best clothes for "your boy" you ever saw. They're priced reasonably, too

If you want a real knockabout suit, get one of our Khaki Norfolk Jacket Suits, $3 to $5.

In the warm days to come you'll find our Corliss-Coon Co. soft collars for negligee shirts the most comfortable thing you ever wore. 15c, 2 for 25c, and 25c.

THE HOME OF GOOD CLOTHES FOR MEN AND BOYS.

KENNEY & ANKER

409-11 WEST SUPERIOR STREET, DULUTH, MINN.

What greater achievement can there be than the saving of a man who cannot save himself?

THE NEAL 3-DAY CURE FOR THE DRINK HABIT

Lightens hearts made heavy by another's helplessness.

Brings into darkened homes the sunshine of real hope.

Assists in reuniting loved ones estranged by that insidious foe of human happiness—over-indulgence in strong drink.

Helps to Save Men.

This message of good cheer is made possible through the latest and, to many, the greatest gift of medical science—The Neal Three Day Cure for the Drink Habit.

That the Neal treatment DOES cure alcoholism—in THREE short days—no one will doubt after reasonable investigation.

Each patient is given a plain contract, agreeing to effect a perfect cure in three days, or return the full fee paid at the end of third day. Call, write, or phone or wire for free booklet giving full information, also for a copy of our contract. Everything confidential. Bank reference cheerfully furnished.

Gale ..... 50 to 65
Hurricane ..... 65 and above
H. W. RICHARDSON, Local Forecaster.

RAIN

The fair, cool weather continues, and some humble Duluthians are endeavoring to summon up enough courage to suggest to the weather man that they would like to discard their light coats. The sage on the hill is still in an irritable mood and comes across with a "cool temperatures and showers" prediction for tonight. 'Tis beautiful May weather—not.

Cool, fair weather prevailed a year ago today.

The sun rose this morning at 4:21 and it will set at 7:47 this evening, giving fifteen hours and twenty-six minutes of sunlight.

Mr. Richardson makes the following comment on weather conditions:

"During the last twenty-four hours light rains fell over the Lake region, Middle and North Atlantic states, and Northwestward from the Western Dakotas as a result of disturbances centered over the St. Lawrence valley, South Dakota and Utah. Temperatures have risen throughout the Middle West, while in the North Atlantic states and Eastern Canada the warm wave has been broken by a turn to much cooler. Conditions favor unsettled and showery weather at the Head of the Lakes during the ensuing thirty-six hours.

General Forecasts.

Chicago, May 24.—Forecasts for twenty-four hours ending at 7 p. m., Thursday:

Upper Michigan—Unsettled weather with showers tonight or Thursday.

Wisconsin—Fair in southeast, showers in north and west portions tonight or Thursday; warmer in southwest portion tonight.

Minnesota—Probably local showers tonight or Thursday; cooler Thursday.

Iowa—Fair in southeast, probably local showers in north and west portions tonight or Thursday; warmer tonight and in east portion Thursday.

North Dakota—Probably local showers tonight, followed by fair Thursday; cooler in north and west portions tonight; cooler Thursday; frost in northwest portion tonight.

South Dakota—Unsettled, with probably local showers tonight or Thursday; cooler in west portion tonight.

Montana—Generally fair tonight and Thursday; probably frost tonight.

Upper Lakes—Moderate west winds, becoming variable. Fair, followed by showers late tonight or Thursday.

COME—YOU ARE CORDIALLY INVITED

L. E. WILLIAMS

18 WEST SUPERIOR STREET

INDICTMENTS GROW FROM SEATTLE AFFAIR.

Seattle, Wash., May 24.—As an outgrowth of the late municipal campaign and the anti-vice crusade that resulted in the recall of Mayor Hiram C. Gill and the removal and indictment of Chief of Police Charles Wappenstein, the county grand jury has returned thirteen indictments.

Col. Alden Blethen, editor of the Seattle Times and Clarence H. Blethen, managing editor, were indicted on charges of criminal libel and conspiracy and Chauncey B. Rathbun, city editor of the Times, on a charge of criminal libel.

Another indictment charges Col. Blethen with participation in dance hall graft. Two new indictments were returned against Wappenstein.

The grand jury also returned two additional indictments against former chief of police, Charles W. Wappenstein, making a total of six now filed against him. Still other indictments were returned against Ludovic Dellavanna and Charles Berryman, formerly proprietors of a large dance hall.

Bail was fixed at $5,000 on each indictment and all the defendants were released on their own recognizance.

"No steer need fear
That I'll come near,
I'm after finer fun.
I'll cast my loop
Around this soup,
And let the cattle run."

Forget the price

When you eat Campbell's Tomato Soup imagine that you are dining at a high-priced hotel; and entitled to the best that money can buy. Then criticise, if you can!

That's the "class" of

Campbell's TOMATO SOUP

Money won't buy anything better. To say merely "good at the price", doesn't half do it justice. It is the best at *any* price. And if you don't say so, too, the grocer returns your money.

21 kinds 10c a can

Just add hot water, bring to a boil, and serve.

EACH BRANCH REPRESENTED

First Church of Christ Retains Connections With Mother Church.

Second Church Will Join the National Reformed Church.

Duluth will have a church representing each branch of the Christian Science faith.

The First Church of Christ will continue to be affiliated with the Mother church in Boston, while the Second Church of Christ will hereafter be known as the Christian Science Reformed church and will hold meetings as usual. The first reader of the latter is Mrs. W. D. Daily. The church has espoused the leadership of Abbot Edes Smith, C. S. D., whose teachings differ materially from the practices of the Mother church at Boston.

Following the death of Mrs. Eddy, the directors of the Mother church became supreme in the church organization. It is claimed by Mr. Smith's followers that the directors have delegated to themselves privileges which did not rightfully belong to them, that they have tried to destroy liberal thought in the church as exemplified by the teachings of Abbot Edes Smith and that they have become arrogant and unbearable on account of their power and their wealth. They say that a national Christian Science Reformed church will be perfected later.

On the other hand, those who remain loyal to the Mother church say that the withdrawal of the Second church at Duluth and the Fourth church at Minneapolis is due solely to the actions of Mr. Smith, whose teachings have caused trouble in the church for several years past. He was the organizer of the Fourth church at Minneapolis, having produced a split in the Second church there, and was the cause of the Second church in Duluth being formed.

Cause of the Defection.

Henry Deutsch, of the committee on publication for the state of Minnesota, has issued the following explanation:

"The Second Church of Christ, Scientist, in this city, while nominally a usual church organization, really reflects the thought of Mr. Abbot Edes Smith, under whose direction it was organized, and the matter is one purely personal with Mr. Smith.

"Mr. Smith has been a practitioner and teacher of Christian Science for a number of years. He was a student of Mrs. Eddy, and for some years did excellent work in Minneapolis. Of recent years, however, there has been considerable criticism and complaint relative to his teaching and methods. Particular criticism has been directed against his so-called protective treatment, which is wholly inconsistent and opposed to any conception of Christian Science teaching or practice.

"The complaints and criticisms became so persistent that the board of directors of the Mother Church, the First Church of Christ, Scientist, Boston, Mass., finally decided to investigate the matter, after charges were filed some time last October. Evidence was presented to the board and a hearing was given Mr. Smith within the last three months. The board of directors, being convinced of the fact that his teaching and practices were erroneous, requested him not to teach until he was able more clearly to present Christian Science in its proper and true aspect.

"Mr. Smith thereupon resigned, and the action of his church in Minneapolis and Duluth reflects his attitude toward the board of directors of the Mother Church. The withdrawal of the Fourth church at Minneapolis and the Second church at Duluth, will have no effect upon the movement in any manner, whatsoever, as neither church has been very strong in the matter of membership, and Mr. Smith has, for a number of years, been opposed to the board of directors of the Mother Church, and has assumed to set up his ideas of Christian Science in opposition to those of the board of directors in Boston, even during the lifetime of Mrs. Eddy, and when their actions were governed entirely by her personal directions.

All Selected By Mrs. Eddy.

"There can be no reformed Christian Science church. The Christian Science church as organized, is founded upon the teachings of Mrs. Eddy, the founder and discoverer of Christian Science, and there is just the one principle and the one teaching. Anything which attempts to deflect therefrom is not entitled to, and has no right to the name of Christian Science. The board of directors of the Mother church in Boston were all selected by Mrs. Eddy, with a view to their fitness for the position which they hold, and have, all of them, been so deeply and well grounded in the work and in the teachings of Mrs. Eddy that there can be no question but what the steps they take are in line with her instructions and directions, and have the loyal support of all true Christian Scientists everywhere.

"The majority of the members of the board were closely affiliated and associated personally with Mrs. Eddy—some of them almost since the foundation of the church—and from every standpoint are men with the capacity and spiritual insight which makes them eminently capable of carrying on the work which Mrs. Eddy started.

"There are five other Christian Science churches in the city of Minneapolis, and one other also in Duluth, all of whom, as well as the other churches of the state, are firm and unswerving in their loyalty and allegiance to the government of the Mother Church.

"The distinctive characteristics of Christian Science is that it is founded upon principle and not upon personality, and the life aim and endeavor of Mrs. Eddy was to inculcate this in her adherents, and the continued success and forward movement of the organization since her passing out, is the best evidence of the wisdom with which she built."

Statement From Boston.

The position of the directors of the Mother church in relation to Mr. Smith is stated in the following dispatch:

Boston, Mass., May 24.—A statement concerning the Fourth Church of Christ, Scientist, of Minneapolis was given out last night by Alfred Farlow of the committee on publication of the Mother Church. Early last fall, he said, complaint was made that Mr. Smith's teachings, purporting to be Christian Science, were largely erroneous. After the investigation the directors of the Mother Church became convinced of the truthfulness of the charges and Mr. Smith was requested to refrain from teaching until he corrected his views.

Mr. Smith did not accept this admonition, but tendered his resignation from the church, which was accepted. A few of his students and personal followers, who constituted the smallest of the six Christian Science churches in Minneapolis, followed his example.

HILL FOUND NOT GUILTY

Jury in District Court Decides Manslaughter Charge Is Not Sustained.

Acquitted Man Again Arrested on Charge of Carrying Weapons.

A jury in district court found Charles Hill not guilty of manslaughter in the first degree late yesterday afternoon after being out about two hours.

The trial of the case had been on before Judge Dancer for three days. Charles Hill was accused of having shot Axel Hill after some trouble which grew out of a card game.

Charles Hill claimed that he acted only in self defense and that he did not mean to kill Axel Hill, but meant only to shoot to frighten him. The defendant claimed that Axel Hill began the quarrel and attacked him with a heavy ice cutter.

No sooner had the verdict been read than Hill was again placed under arrest on a charge of carrying concealed weapons.

Hill was defended by Attorney Edward Kenny and County Attorney John H. Norton appeared for the state.

LUMBERMEN HAVE REVISED "CODE"

Elect Officers at Big Meeting Held in St. Louis.

St. Louis, Mo., May 24.—After embodying in their code of ethics what they termed the business translation of the ten commandments, 150 delegates to the American Lumber Trades congress representing 15,000 lumbermen of the United States and Canada, adjourned after a two-days' session.

"There is not now a mandatory clause in our revised code of ethics," said George W. Hotchkiss of Chicago 80 years old, who is dean among the lumbermen, having been in business for over forty-four years. "You cannot find the word 'shall' in it. There is nothing which expresses a command. It is now simply an advisory instrument to be used alike by the lumbermen."

The officers elected are: George E. Merrill, Salt Lake City, Utah, president; Frederick Underhill, Philadelphia, first vice president; Carroll F. Sweet, Grand Rapids, Mich., second vice president; Henry S. Stine, Seattle, Wash., third vice president. The secretary and treasurer will be elected by the executive committee.

PULLMAN REBATE FUND IS DEPOSITED.

Chicago, May 24.—Persons who have paid a full rate on Pullman cars on the Great Northern lines since the interstate commerce commission ordered a reduction March 15, 1910, now can obtain rebates of everything above the reduced rate. Judges Grosscup and Kohlsaat in the United States circuit court ordered the clerk of the court to cash all rebate checks given by the road. There are rebate checks outstanding amounting to $25,000 and the Pullman company and the railroad have deposited sufficient funds to pay the checks.

MAIL CLERK ORGANIZER CANNOT BE FOUND.

Cleveland, Ohio, May 24.—Homer M. Messenger, a trustee of the National Order of Railway Mail Clerks, is missing from his home in Rocky River, a suburb.

Messenger hired a rowboat and went out into the lake to fish. A short time later his boat was found adrift empty. The lake was dragged, but no trace of Messenger's body could be found. Messenger had been active in the agitation to have railway mail clerks affiliate with the American Federation of Labor.

Bernhardt Seat Sale

Opens tomorrow morning, 10 o'clock.

Morgan Has St. Martin's Head.

Paris, May 24.—The Matin says that J. Pierpont Morgan recently called on the French ambassador at London and announced that he had in his possession the religious relic known as St. Martin's head, which was stolen from the church at Soudeille-Sur-Uzel, and would return it to the French government.

STEPHENS IS SILENT.

Crookstonite Will Not Talk of the Whittier Complaint.

Crookston, Minn., May 24.—(Special to The Herald.)—Ex-Senator A. D. Stephens this morning received a copy of the complaint against Supt. Whittier of the Red Wing school, drawn by Attorney General Simpson, but would not give out anything for publication further than that he will go to St. Paul the last of the week, when there will be further developments.

Snow in Western Canada.

Winnipeg, Man., May 24.—An all-night downpour of rain in Central and Southern Alberta turned to snow, which fell fast with the temperature at 30 deg. After twenty-four hours' continuous fall it ceased snowing last night.

We've Got the Kind of a

REFRIGERATOR

You Want at the Price You Like to Pay

It's the Rhinelander again this year, and better than ever. Our success with the Rhinelander for the past two seasons convinces us that it is the best refrigerator value on the market. This year the—

XYNO STONE LINED RHINELANDER

Will easily lead all other makes in homes where people are particular about how their food is kept. The **Xyno Stone** lining is a **one-piece, round cornered** lining. There is not a joint or seam in it any place, and the round corners make it easy to clean.

It is perfectly sanitary. The circulation of dry, cool air means perfect refrigeration.

We are now showing the complete line and invite your early inspection.

I PRESENT TO YOU A "HEALTH BELT MAN"

HE IS 55 YEARS "YOUNG"

Yes, 55 years young. not 55 old, for My Health Belt poured new life into his blood, nerves and tissue until

HIS STRENGTH WAS RESTORED

My marvelous HEALTH BELT is a wizard Worker, a mechanical self-treatment of the highest therapeutic value. It stands by you and never abandons its task until you are brought back to health, without an ache, pain or weakness. No drugs, no dieting, no restriction of any sort, excepting that all dissipation must cease. Worn during the time you are sleeping, it opens its flood-gates and drives a great, soft, warm stream of electric vitality into your blood and nerves throughout the entire night; you sleep better for its use; it cures forever the weakness in your back; it seeks out and expels from your system all rheumatic pains. Courage, ambition and a new view of life, with full self-confidence, surely result. It makes you young and keeps you young,

with the vim of the biggest, most forcible man you ever saw. The "HEALTH BELT MAN" cannot grow old, for he knows the secret of perpetual youth. It will place you in the "feeling fine" class. "I am a man again, thanks to your wonder-working Health Belt. Use my name as you see fit." So write Capt. Alfred A. Howard, Chatham, Mass. So have said thousands before him.

THIS WONDER BOOK IS

FREE

Call or Write for It Today.

Fill in the coupon and let me get this wonder Health Book into your hands. It is sent free, by mail, and gives certain health and nature facts which everyone (young, middle aged or old) should have. It fully describes my Health Belt, and is beautifully illustrated. I have known 100,000 men who sought my said—I should konw you.

"Comfort" From the Word "Go"! Twin Cities to Chicago

Women patrons of *Burlington Service* will be delighted with the luxurious new *lounge cars* just placed in service.

These cars provide all those touches of recreation, ease, rest and diversion which have been so lacking on *high class* trains.

Men may go to the "club" compartment of these magnificent rolling palaces; so also may the ladies go to their spacious, beautifully fitted division; and both may enjoy in full measure the pretty buffet, the electric grill and the *generously large observation end on the rear.*

It's Another Burlington Feature

Added to Burlington unequaled dining service, Burlington perfectly protected roadbed and Burlington ideal attendants. The entire trains carrying these new lounge cars have been renewed and perfected to the highest railroad standard. They render perfect the "electric-lighted on-time road."

For rates, berth reservations and general information apply to any railroad ticket agent or address

F. M. RUGG,
Northwestern Passenger Agent
Burlington Route, St. Paul, Minn.

WISCONSIN'S CROP STATISTICS

Preliminary Statement for 1909 Issued By the Census Bureau.

Washington, May 24.—Crop statistics for the state of Wisconsin, for the calendar year 1909, collected at the thirteenth decennial United States census, April 15, 1910, are contained in a statement issued today by Acting Census Director Falkner. The information is drawn from the forthcoming Wisconsin agricultural bulletin and is issued in preliminary form in pursuance of the bureau's policy to place the public in possession of the more important results of the recent census as soon as the tabulations are available for use. The statement was prepared under the supervision of Dr. Le Grand Powers, chief statistician of the bulletin, and, following the publication of the bulletin, together with additional information, will be embodied in a compendium for the state and in the final thirteenth census reports. This summary completes the advance series of press articles on Wisconsin's agricultural statistics; those on general farm data and on domestic animals having been given out previously:

The Leading Crop Values.

The leading crops of the state and the value of each reported for the crop year 1909, in the relative order of value were: Hay and forage, $40,866,377; oats, $28,657,670; corn, $25,727,654; barley, $12,684,136; potatoes, $7,915,763; tobacco, $3,855,033; rye, $3,163,520, and wheat, $2,585,188.

Hay and forage were reported by 161,241 farms, or 91 per cent of the whole number in the state in 1909, as against 88.9 per cent in 1899. The number of acres harvested was 3,079,101 in 1909, as compared with 2,397,982 in 1899, 2,232,317 in 1889, and 1,484,920 in 1879. The quantity produced was 5,002,642 tons in 1909. Of the improved farm land in the state, 25.8 per cent was devoted to this crop in 1909, as compared with 21.3 in 1899. The per cent of increase in the number of acres in hay and forage, between 1899 and 1909, was 28.4. The average yield per acre was 1.6 tons and the average value per acre, $13.27, in 1909.

Oats were reported by 136,670 farm, or 77.2 per cent of the whole number in the state in 1909, as against 81.7 per cent in 1899. The total number of acres harvested was 2,164,146 in 1909, as compared with 2,365,115 in 1899, 1,627,151 in 1889, and 955,597 in 1879. The quantity produced was 71,335,505 bushels in 1909. Of the improved farm land in the state, 18.2 per cent was devoted to this crop in 1909 as against 21 per cent in 1899. The per cent of decrease in the acreage of oats between 1899 and 1909 was 8.5. The average yield per acre was 33 bushels and the average value per acre, $13.24, in 1909.

Corn Acreage Falls Off Slightly.

Corn was reported by 129,335 farms, or 73 per cent of the whole number in the state in 1909, as against 75.3 per cent in 1899. The number of acres harvested was 1,458,020 in 1909, as compared with 1,497,474 in 1899, 1,120,341 in 1889, and 1,015,393 bushels in 1879. The quantity was 49,163,034 bushels in 1909. Of the improved farm land in the state, 12.2 per cent was devoted to this crop in 1909, as against 13.3 per cent in 1899. The per cent of decrease in the acreage of corn between 1899 and 1909 was 2.6. The average yield per acre was 33.7 bushels and the average value per acre, $17.64 in 1909.

Barley was reported by 87,540 farms or 49.4 per cent of the whole number in the state in 1909, as against 30.7 per cent in 1899. The number of acres harvested was 816,449 in 1909, as compared with 555,747 in 1899, 474,914 in 1889, and 204,335 in 1879. The quantity produced was 22,156,041 bushels in 1909, as compared with 4.9 in 1899. The per cent of increase in the acreage of barley between 1899 and 1909 was 46.9. The average yield per acre was 27.1 bushels and the average value per acre $15.53 in 1909.

Potaoes were reported by 158,658 farms or 89.6 per cent of the whole number in the state in 1909, as against 95.7 per cent in 1899. The number of acres harvested was 290,126 in 1909. The quantity produced was 31,982,977 bushels in 1909. Of the improved farm land in the state, 2.4 per cent was devoted to this crop in 1909, as compared with 2.3 in 1899. The per cent of increase in the acreage of potatoes between 1899 and 1909 was 12.9. The average yield per acre was 110.2 bushels and the average value per acre $27.28 in 1909.

Increase in Tobacco Acreage.

Tobacco was reported by 9,390 farms, or 5.3 per cent of the whole number in the state in 1909, as against 4.1 per cent in 1899. The number of acres harvested was 40,458 in 1909. The quantity produced was 46,909,182 pounds in 1909. Of the improved farm land in the state, .3 per cent was devoted to this crop in both 1899 and 1909. The per cent of increase in the acreage of tobacco, between 1899 and 1909, was 19.6. The average yield per acre was 1,159.4 pounds and the average value per acre, $95.28, in 1909.

Rye was reported by 40,170 farms, or 22.7 per cent of the whole number in the state in 1909, as against 30.4 per cent in 1899. The number of acres harvested was 339,213 in 1909, compared with 362,193 in 1899, 275,058 in 1889, and 169,692 in 1879. The quantity produced was 4,797,775 bushels in 1909. Of the improved farm land in the state, 2.8 per cent was devoted to this crop in 1909, as compared with 3.2 in 1899. The per cent of decrease in the acreage of rye, between 1899 and 1909, was 6.3. The average yield per acre was 14.1 bushels and the average value per acre, $9.33, in 1909.

Great Decrease in Wheat Acreage.

Wheat was reported by 19.4 per cent of the whole number of farms in the state in 1909, as against 46.9 per cent in 1899. The number of acres harvested was 140,030 in 1909, as compared with 566,614 in 1899, 744,080 in 1889 and 1,948,160 in 1879. The quantity produced was 2,634,710 bushels in 1909. Of the improved farm land in the state, 1.2 per cent was devoted to this crop in 1909, as compared with .9 in 1899. The per cent of decrease of acreage of wheat between 1899 and 1909 was 74.8. The average yield per acre was 18.8 bushels and the average value per acre, $18.46, in 1909. Winter and spring wheat were grown by approximately the same number of farmers with nearly the same acreage and yield. Durum or macaroni wheat has made but little headway.

Crop Comparisons.

Flaxseed has ceased to be a crop of much consequence in Wisconsin so far as extent of cultivation is concerned. Among the hay and forage crops, timothy and clover predominated. None of the minor crops has as yet become of any appreciable importance, unless it be alfalfa, which yielded over $30 per acre and was raised on about one farm in forty.

In the matter of acreage harvested, corn increased rapidly between 1879 and 1899, but fell off slightly between the latter year and 1909. The same is true of oats and rye. Barley made a large gain between 1879 and 1889, a slight increase in the next decade, and gained more than 250,000 acres between 1879 and 1909. there was a compensating increase of nearly 1,600,000 acres in hay and forage.

Nearly three-fourths of the farmers grow corn and over three-fourths oats, the acreage of these two crops making over 30 per cent of the improved land. Wheat, buckwheat, and rye occupy but a small place among the crops of the state. The acreage of rye in 1909 was more than double that of wheat, though it showed a decline of 6.3 per cent. Nine farmers out of ten report hay and forage of some sort and more than one-fourth of the improved acreage is used for such crops.

During the last decade the cereals decreased in total acreage. In 1909 these crops had an average value of $14.77 per acre. The averages for corn, wheat, and barley were above this figure, while those for oats, rye, and buckwheat were below it.

CHURCH UNION MOVES SLOWLY

Leaders Believe It Will Come Eventually — Heresy Charges Fail.

Canton, Ohio, May 24.—In the matter of the proposed union of the Reformed Presbyterian churches, the general synod, the highest legislative and judicial body of the Reformed (German) church of the United States, in session here, decided to refer the question back to the classis, district or subdivisions for information before definite action is to be taken.

The classis will refer the question back to the general synod in Lancaster, Pa., in 1914, and the action of the synod then will be again referred back to the classis for final settlement. Highest authorities in the church believe the organization of the two churches will be eventually effected.

By a vote of 79 to 70 the synod acquitted Rev. Paul Ebinger of St. John's church, Tillamook, Or., of the charge of heresy. He was charged by the Portland, Or., classis with having been guilty of heresy in that he preached a sermon in which he denied that Moses was inspired to write the Ten Commandments, and that he declared that much of the matter in the Bible is not true. Rev. Mr. Ebinger appealed to the classis of the Northwest and won. The Portland classis, however, carried the case on appeal to the general synod.

DIX PRAISES BRYAN.

New York Governor Introduces Nebraskan at Lecture.

Albany, N. Y., May 24.—Governor Dix paid high tribute to William J. Bryan last night in introducing him to a large audience at the armory to hear his lecture on "The Signs of the Times."

"Men may differ with him as to fundamentals and details of public policy," said the governor, "but every intelligent and unprejudiced American knows and admits that he is a moral and intellectual force in our public life. He has been the center of stir and strife, the subject of prejudice and misrepresentation, but these later years have brought the vindication and the triumph that will give his name a high and permanent place on the page of modern political history."

SUNDAY SCHOOL HEAD KILLED IN KNIFE DUEL.

Charleston, W. Va., May 24.—In the presence of members of their respective families, two well known residents of Randolph county yesterday fought a duel with knives which resulted in one of the combatants being killed and the other probably fatally stabbed.

James F. Herron, superintendent of a Sunday school in the hamlet near which the tragedy occurred, is dead, while his antagonist, Homer Highland, a justice of the peace, is not expected to recover. Herron is survived by thirteen children. The cause of the trouble is unknown.

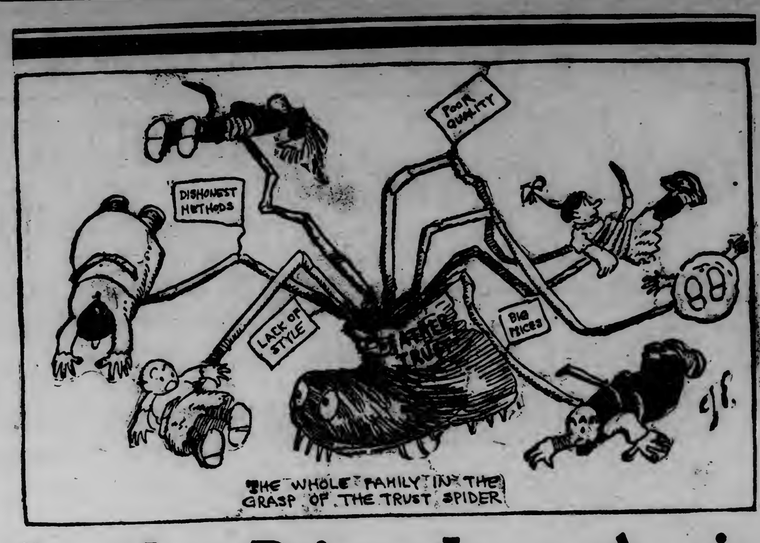
EPILEPTIC KILLS SELF ON HIS WIFE'S GRAVE.

Springfield, Ill., May 24.—Charles Brown, a well-known citizen of Bath, committed suicide yesterday on the grave of his wife by shooting himself. He was found there by his daughters. He met his youngest daughter on the street as he was on the way to the cemetery and gave her a note, with instructions to read it when she arrived at home. The child gave the note to her older sister. It read: "You will find me down at the cemetery over mother's grave."

Brown had been in ill health for some time and was a sufferer from epilepsy. He had written the date of his death in the family Bible opposite his name.

Plan Alaskan Visit.

Washington, May 24.—The joint congressional committee named by Vice President Sherman to visit Alaska has decided to go to Alaska about Aug. 1, if congress is still in session, and to remain there till Sept. 1. If congress should recess in time, the committee will proceed to Alaska early in July.



Leather Prices Jump Again

Trust Creates Artificial Scarcity by Closing Tanneries

You and I and the other plain people of this country are not paying enough for our shoes, it seems.

The Leather Trust needs the money more than we do—so the shoe wearers of America have got to come across with the higher price.

Shoe manufacturers will tell you that there is a "shortage of leather."

What they may not tell you is that the Leather Trust created this "shortage" by deliberately shutting down its tanneries and throwing thousands of its employes out of work in midwinter, with the sole object of boosting the price of leather!

Now, the higher price would be hard enough on the shoe buyer—even if the quality of the shoes justified it.

As a shoe wearer you know that the average shoe is not worth its price—or anywhere near it.

The clerk, the merchant, the farmer, the mechanic finds his soles giving away long before their time—the uppers cracking and pulling away from the soles — the leather losing its finish, its softness, its elasticity.

The crying evil in the shoe situation today is the influence of the Leather Trust on the quality and cost of leather.

Facts that the Leather Trust Will Never Tell You

These are facts that the average shoe manufacturer does not dare to tell you. It's only when an independent newspaper publishes this inside information in the interests of its readers that you learn the real truth and the whole truth.

The American shoe industry is in the grip of the Leather Trust.

There is only one shoe manufacturing concern in the United States that can put what they know to be honest leather into their shoes.

They can do this because they own and operate their tanneries independent of the Leather Trust.

The name of that concern is Endicott, Johnson & Co. Their tanneries and factories are located at Endicott, N. Y.

Back in 1893 H. B. Endicott and Geo. F. Johnson formed a partnership and started to manufacture shoes.

Then the leather began to show bad qualities. The Leather Trust began to starve the leather in tanning and finishing—instead of using the slower and more expensive processes that give to leather its wearing qualities.

Cheap Processes in Trust Tanneries

"Processes" and short cuts crept in all along the line. Hemlock used in place of good oak tan bark. Chemical tannages that load up the weight of the leather—all sole leather is sold by weight.

These conditions have existed for years in Trust tanneries—the situation is getting worse instead of better. Only recently, Dr. Wiley, the Government chemist, declared there should be a law like the Pure Food Law to prevent tanners from using adulterants in their "processes."

Various cheap adulterants are used in large quantities by the Leather Trust to "weight" the leather—it looks "full" and "plump," but is really "brashy" and rapidly breaks up under wear.

Endicott, Johnson & Co. refused to put that kind of leather into their shoes.

Breaking Grip of Leather Trust

So Endicott and Johnson built their own tanneries. Today they tan every pound of leather they put into their shoes.

They tan every batch of hides for a definite kind of shoe, and perfect it in the tanning and finishing for the service it is to give—an obvious advantage in the working qualities of the leather and the durability of the shoes.

Their "Forest Oak" is honest old-fashioned straight oak tanned sole leather.

Their "Kromelk" is the first and only chrome-tanned sole leather to be perfected and put to practical and satisfactory service. It is the most durable sole leather ever made—weather proof, heat proof, all but wear proof.

This leather has been imitated largely since it proved so successful—but it cannot be duplicated because it is the exclusive property of Endicott, Johnson & Co.

Endicott, Johnson & Co.'s tannages of calf skin and chrome-tanned upper leather are as far ahead of commercial leathers as their "Forest Oak" and "Kromelk" are ahead of commercial soles.

Extortionate Profits Saved

Endicott, Johnson & Co. find it perfectly feasible to produce a dependable, long-wearing shoe and sell it at the price that the average man wants to pay for his shoes.

Buying their hides in the open markets of the world, and operating their own tanneries, they cut three profits out of the cost of making the shoes—the profits of the Hide Trust, the Leather Trust and the Leather Jobber.

Then they cut out the Shoe Jobber's profit—selling direct to your home shoe dealer and 30,000 other retailers in this country.

Thanks to this "hide to retailer" policy—Endicott, Johnson & Co. can save you 50 cents to $1.00 on every pair of shoes you buy.

This policy—and its service to the shoe wearer—has made them the largest shoe manufacturers in the world.

Endicott, Johnson & Co. have the most expert staff of shoe designers in the trade. And style in an Endicott-Johnson shoe means something—the real leather is back of the style. The shoe is pliable —yet firm and solid. It holds its shape, its fit, its finish.

You can buy Endicott-Johnson shoes for men, women and children—shoes for business wear, work shoes, dress shoes, school shoes for boys and girls.

ENDWELL—the Independent Shoe

The most popular shoe for general service is their ENDWELL (Goodyear Welt)—a dress and business shoe that sells at $3.00, $3.50 and $4.00.

Endicott, Johnson & Co. make lines that sell for more money—and still other lines at a lower price.

You can have your choice of Shoe or Oxford—Lace and Button—all the fashionable lasts—any width of toe—all the colors of leather.

And the way those shoes wear will be a revelation to you.

Remember the name. You will find it stamped on the shoe.

ENDWELL

405-407 West Superior Street, Duluth. The Twin Ports Clothing Co. 405-407 West Superior Street, Duluth.

Shoe dealers who live outside the city where his paper is published can learn the names of their home dealers who carry ENDWELL shoes by writing to Endicott, Johnson & Co., Endicott, N. Y.

Dr. Lyon's
PERFECT
Tooth Powder
for clean white beautiful teeth
and a pure and fragrant breath

POSLAM WILL CLEAR AND HEAL YOUR AILING SKIN

APPLY POSLAM JUST ONE NIGHT

on a small part of the skin affected with ECZEMA, ITCH, PIMPLES, BLEMISHES, UNDUE REDNESS or any other surface skin affection and note results by comparison with surrounding skin not so treated

IN THE MORNING

This simple test will enable any one to understand the marvelous merit through which POSLAM has been swept to a success greater than that of any remedy for similar purposes. Its healing powers begin their work with first application, when

ALL ITCHING IS STOPPED

and continue unremittingly until a complete cure has been effected and the skin resumes its normal color and clearness. The actual accomplishments of POSLAM include the complete cure of tens of thousands of cases of ALL ECZEMAS, ACNE, TETTER, PILES, PSORIASIS, SALT RHEUM, BARBER'S ITCH, ETC., many of year's standing.

NEWS OF THE NORTHWEST

DAKOTA BOY WILL FLY

St. Henry in Curtis Aeroplane to Entertain Big Meet of Drummers.

Fargo Planning Amusements for U. C. T. Gathering June 8 to 10.

Fargo, N. D., May 24.—(Special to The Herald.)—The different committees at work making the preliminary arrangements for the big U. C. T. convention here June 8, 9 and 10, are well pleased with their progress. This district includes both Dakotas, Minnesota and three Canadian provinces. The governors of the three states and of each of the provinces have been extended an invitation. It is expected they will all be present.

One of the big features of the meeting will be the aviation exhibition by the Curtiss company. The aviator is St. Henry, a former North Dakota boy. He used to live in Carrington. The exhibition will occur Friday afternoon.

A big sport program has also been arranged to follow the annual parade. It is expected there will be 1,200 to 1,500 traveling men present and many of these will be accompanied by their wives. A local committee of ladies will look after the entertainment of the latter.

There will be theater parties, a banquet and a ball during the meeting.

Merchants Form Insurance Company.

The organization of the retail merchants of the state has formed a mutual fire insurance company. They will handle their own risks in the future. J. T. Nelson of Glen Ullin is president, W. W. King of Tower City is secretary, and J. D. Dahl of Fargo has been chosen as manager. The directors are composed of leading merchants of the state.

BIG MINOT CLASS TO BE GRADUATED

Eighteen Girls and Thirteen Boys to Receive High School Diplomas.

Minot, N. D., May 24.—(Special to The Herald.)—Eighteen girls and thirteen boys make up the largest class ever graduated from the Minot high school and they will receive their diplomas on June 5. Rev. T. A. Olsen will preach the baccalaureate sermon at the Vincent Methodist church on Sunday evening, June 4, and June 6 the Alumni association will honor the graduates with a reception and ball.

The thirty-one members of the class are Margaret Aurland, Gladys Scofield, Bessie Callaghan, Lulu Smallwood, Myrtle Scofield, Alice Falvey, Annis Healy, Josephine Vandenoever, Florence Theurer, Elizabeth Cross, Mabel Fisher, Marion Stoudt, Helen Conklin, Ethel Crow, Alma Johnson, Grace McDougall, Mary Hanlon, Mary Walworth, Charles M. Dale, William T. Marsh, Frederick W. Rush, Preston P. Lawrence, Adolph Garben, Iver H. Johnson, Howard Huston, Verne H. Moon, Theodore Thompson, John T. Rohwedder, Glenn W. Moon, Ernest Hancock, and Percy D. Robbins.

New Minot Concern.

The Bankers Title & Trust company, incorporated with a capital of $100,000, is the name of a new business concern just launched here, H. H. Kemper, J. J. Coyle and O. G. Raugust are among the prominent local men connected with the firm, and a general title, bond, insurance and trust business will be transacted. Other prominent men of the state are identified with the institution.

ACCUSED WOMAN'S HEARING MAY 29

Mrs. Stannard of Greenland, Mich., to Be Arraigned for Killing Husband.

Greenland, Mich., May 24.—(Special to The Herald.)—Mrs. Laura Stannard of Greenland, charged with murdering her husband, Charles Stannard, a prominent businessman and politician of Greeland, by strychnine poisoning on March 26 last, will be arraigned in justice court at Ontonagon, the county seat, next Monday, May 29. Mrs. Stannard has been too ill since the inquest over the body of her husband, which was concluded about ten days ago, to be brought into court. She is recovering slowly from her physical and nervous breakdown, however. There is a very strong feeling all through Ontonagon county against Mrs. Stannard. Her attorneys, O'Brien & Le Gendre of Laurium, say that it is unlikely that they will ask for a change of venue in her case, however, as they believe they can secure a fair trial before an impartial jury in this county. It is likely the case will be brought into circuit court in late July or early August. Judge Cooper of Ironwood presides over this circuit.

GULLY, NEW SOO TOWN, WILL HAVE NEWSPAPER.

Bemidji, Minn., May 24.—(Special to The Herald.)—Gully, one of the new Soo Line towns, is to have a newspaper, The Gully Reporter. Bennie Hanson, formerly of the McIntosh Times, is the editor.

SKI JUMPER WEDS.

Chippewa Falls, Wis., May 24.—Knute Helland, a violin repairer of this city, well known in the Northwest as a ski jumper, being a prominent member of the North Star Ski club, was married Monday evening at Bloomer, Wis., to Miss Nellie Isaacson of that city.

CARLTON COUNTY HAS CHOSEN ITS DELEGATES.

Carlton, Minn., May 24.—(Special to The Herald.)—C. F. Mahnke, secretary of the Carlton County Development association, announces that the following delegates have been appointed to represent Carlton county at the Duluth meeting of the Northern Minnesota Development association: H. R. Patterson, Barnum; John Wright, Cromwell; C. L. Dixon, Cloquet; Martin Cain, Carlton; T. M. Ferguson, Barker; C. F. Mahnke, member ex-officio, and F. A. Watkins, alternate.

Benton County Delegates.

Foley, Minn., May 24.—(Special to The Herald.)—Benton county delegates to the Northern Minnesota Development meet at Duluth are: A. H. Turretin, Sauk Rapids; H. Knutson and C. S. Comstock, Foley.

BREAKS LEG SCUFFLING.

Too Strenuous Contest Disables Tower City, N. D., Boy.

Tower City, N. D., May 24.—(Special to The Herald.)—Clifford Rice is suffering a broken limb as the result of engaging in a spirited scuffling match during the noon hour on the school grounds. His wrestling partner was Lewis King, who threw Rice in such a manner as to snap the bone of his right leg just above the ankle. The break is very painful and the boy will not be able to complete his school year.

HOOSIER ACCUSED; EVIDENCE INSUFFICIENT.

Stanley, N. D., May 24.—(Special to The Herald.) The mysterious disappearance of $20 from the till in the Commercial hotel in this city caused the arrest of William Ray of Lawrenceville, Ind., but he was released after a hearing before Justice Iverson, on grounds of insufficient evidence. Ray had been a guest at the hotel for several days and after he had checked out and was on his way to Minot the money was missed. Sheriff Dolan brought him back, but as yet has found no further clue to the thief.

Sidewalk Riding Barred.

Bemidji, Minn., May 24.—Owing to the many complaints which he has received as to the reckless manner in which certain persons are using the sidewalks to ride bicycles, Mayor Parker requested the council to authorize Chief of Police Harrington to arrest any person found riding a motor or bicycle on the sidewalks, which was done.

Fall From Pole Fatal.

Williston, N. D., May 24.—(Special to The Herald.) — After suffering a fall from the top of an electric light pole, Charles Campbell of this city lingered in an unconscious condition thirty-six hours before death. A wife, three small children, a mother and a sister survive.

Acquitted of Shooting Horse.

Beach, N. D., May 24.—William Goldsmith, arrested on the charge of shooting a horse, was acquitted when his case was brought before Justice J. P. Reeve. The complaining witness, a farmer residing north of the city, was unable to prove his allegations when the case came to trial.

PENINSULA BRIEFS

Houghton—The May term of the Houghton county circuit court opened Monday. Judge Albert T. Streeter presiding. The first session was occupied with the hearing of pleas and the arranging of the calendar. The criminal section of the calendar is very heavy but there are no very serious cases out of the total of forty-six on the docket.

Hancock—Rev. Adolph Riippa of Kaleva was selected Sunday by the congregation of the Finnish Lutheran church of this city as temporary pastor of the local house of worship to succeed Rev. John Back who has resigned.

Escanaba—Swan Carlson, a guest at Oscar Sederlund's boarding house, died suddenly Thursday night, but the fact was not discovered until about 10 o'clock Friday forenoon. At that time Peter Carlson, a brother of the deceased, went to the latter's room to arouse him and found him still and cold in death.

Ishpeming—Louis Page, who was bound over to the circuit court in Justice Crary's court Thursday on the charge of entering a Washington street saloon and stealing money from the register, was returned to the Marquette prison, from which he is a paroled convict.

Calumet—Coroner Fisher conducted an inquest to determine the cause of death of John Kestner, killed in the Red Jacket shaft Saturday morning. A verdict of accidental death was returned. The funeral was held Monday morning with services at St. Joseph's church.

Hancock—The funeral of the late Alexander Gillette of Newton, took place Monday afternoon, with services at Christ Episcopal church, Rev. J. Ten Broeck officiating. Interment was in Lake View cemetery. Mr. Gillette was aged 73 years. He was born in France but had resided in the Copper country for many years, and was employed previous to his illness a few months ago in the Calumet & Hecla machine shops.

Houghton—The Houghton Typographical union has elected officers as follows: President, Edward Thompson; vice president, George Daigle; secretary-treasurer, W. G. Burk; recording secretary, Edward Witzlsteiner; executive committee, Henry Larsen, W. J. Goggin, Edward Matila, delegate to I. T. U. convention at San Francisco, William Goggin; alternate, A. V. Rokofski.

Calumet—Another district meeting of the Foresters of America will be held Saturday evening in Calumet, when Court North Star will entertain the seven other Copper country branches of the order.

Hancock—E. J. Leach of Dunstan & Co., has returned from Escanaba, where he secured a contract for the reinforcing material which is to go into a monster concrete dry kiln, 68 by 108 feet in size, to be erected by the I. Stephenson Lumber company.

Houghton—Tiacomo Fletrea, aged 40, of Baltic, died Sunday evening of pneumonia. The deceased was born in Italy and was employed as a miner. He has no relatives in this country.

WISCONSIN BRIEFS

Madison—State Bank Commissioner A. E. Kuolt has notified the 542 state banks and trust companies of Wisconsin that their fees for examination under the new law passed and published last week are due and ordering them to remit. The examination fees are now based on the total assets of a bank, ranging from $20 upward. Two examinations a year are required.

Fond du Lac—Fire, resulting, it is believed, from a lighted cigar thrown carelessly on the floor of the basement, caused $4,000 damage to the Buff block here Monday. The block is located in the heart of the city and the blaze caused much alarm.

Appleton—The John Reilly Company of Milwaukee, expert accountants, has filed its second report with the finance committee of the county board, alleging a shortage of $2,190.03 in the offices of the county clerk and treasurer between the years 1901 and 1906.

Milwaukee—John Bechtel, aged 62, for many years proprietor of the old Mauston house on Third street, and a member of the chamber of commerce for the last thirty years, died in the home of a daughter, Mrs. Charles Gaensien, 2315 Cold Spring avenue, Sunday night, aged 63 years.

Ashland—Frank Johnson, an insane man, escaped from the Douglas county insane asylum last Saturday, and was picked up by the police at Ashland and locked up Sunday night. Johnson says that he was sent from Ashland to Oshkosh, but was transferred to Douglas county about a year ago. He was sent back to Superior Monday.

Madison—Three senior commencement orators at the university have announced their subjects as follows: Samuel L. Barber, L. & S.—"The Reawakening of the South"; Fred H. Esch, law—"The Functions of a Lawyer"; Arthur C. Baer, agriculture—"Municipal Control of Milk Supply."

Janesville—Fred Leitz, a farmer living at Indian Ford, hanged himself in his barn Tuesday. He was reputed to be well to do.

Eau Claire—Thomas Gibbons, express messenger on the Omaha and running between Minneapolis and Marshfield, who was taken seriously ill with appendicitis on his run and had to quit his post on the arrival of the train at Eau Claire, being taken to the Sacred Heart hospital, had so far recovered as to be able to leave the hospital Monday.

La Crosse—Miss Edith Jones, head of the girls' physical training department of the high school maintains that wonderful improvement is noticeable in body and brain since the inauguration of the physical training system here.

Milwaukee—The exemplification of the fourth degree and the banquet to be held by the Knights of Columbus on Memorial day, May 30, in the auditorium, will bring prominent members from all parts of the state to the city. The class to be initiated will number about 200. From 400 to 500 will attend the banquet.

MINNESOTA BRIEFS

Winona—Governor Marlon E. Hay of Washington, accompanied by his wife, will visit friends in Winona between June 7 and 22, while on a brief tour of Minnesota. The governor will leave Spokane on June 7, for Fairbault, this state, to attend the commencement exercises of institutions in which his children are students.

Bemidji—In a scathing arraignment of parents who permit their children to run wild, Rev. S. E. P. White of the Presbyterian church, in his sermon Sunday morning, took occasion to severely censure Sunday night moving picture shows.

St. Cloud—Fred Leyk died at his home on his farm in Gilmanton from injuries sustained in a runaway on Thursday, while dragging in his field, his team became frightened and ran away, loosening themselves from the drag and coming onto the road. Mr. Leyk attempted to stop them but was knocked down and trampled over, receiving internal injuries about the head and chest which resulted in his death on Saturday night.

Crookston—Alfred Peterson, a machinist at the Great Northern round house, met with a serious accident Sunday afternoon while playing ball, falling while base running and breaking both bones of his right leg just above the ankle. He was immediately removed to his home in Carman, where the bones were set and where he is reported doing nicely.

Moorhead—Memorial day exercises will this year be conducted by L. H. Tenney post, G. A. R., at Glyndon, following the custom of alternating the observance of the day between Moorhead, Hawley and Glyndon. The exercises will be held in the Glyndon church and Judge C. A. Nye will deliver the Memorial day address.

Mankato—The ninth annual convention of the Minnesota branch of the U. N. A. P. O. clerks will be held in Mankato Friday and Saturday, June 2 and 3, and from present indications there will be a large attendance. The sessions will be held in the federal building.

Moorhead—Fred Larson and John Williams were before Judge Torson Monday morning upon the charge of malicious mischief. They entered the John J. Hanson barn and cut up his harness. The men were bound over to the grand jury.

Red Wing—W. B. Harrison, trainmaster of the Great Western road with offices in this city, has filed a complaint with Mayor A. P. Pierce in regard to the large number of children whose lives are endangered by playing in the local yards. The practice has become unbearable and the co-operation of the mayor, the police and the parents of the children is asked to eliminate the chance of accident.

Brainerd—In the municipal court Monday Anton Anderson and Ole Satre paid fines of $10 and costs each for catching and having in their possession pike less than fourteen inches in length, Deputy Game Warden W. H. Onstine making the arrests near the dam north of the city.

Stillwater—An elderly man named Budwell was struck by a train near White Bear Monday morning and instantly killed. He had been working for a company that was doing some macadam work near Bald Eagle lake. The man was walking along the Northern Pacific track toward White Bear and is said was going to the village to get a time check cashed.

St. Paul—Fire that started in the basement of the three-story brick building known as the McClure building, 61-63 Sixth street east, Monday night, caused a loss estimated at $15,000. The principal losers are Nicoll, the tailor and the Schultz Millinery company. The damage was caused by water and smoke in the tailor shop and by fire, water and smoke in the millinery store.

Rochester—Elaborate preparations are well under way for the impressive ceremonies that will be held at St. John's church in this city on Wednesday morning, May 31, at which time Bishop Patrick Heffron of the Winona diocese of the Catholic church will invest Father William Riordan with the purple robes emblematic of his elevation to domestic prelate, carrying with it the title of monsignor.

DAKOTA BRIEFS

Grand Forks, N. D.—Halvor Knutson of Forest River, a merchant, has filed a petition in bankruptcy, the matter being referred to Referee Elton of this city. He fixes his liabilities at $2,503.34, with his assets at $3,477, while his exemptions are claimed at $1,262.36.

Williston, N. D.—Special efforts will be made by the board of directors of the Williams County Fair association to bring about the entry of a fine list of horses for the annual fair and race meet to be held in this city this year. Already a number of horses are being worked out on the local track, among them being Governor Sarles.

Grand Forks, N. D.—Lloyd Smith, the Thompson boy who was accidentally shot Saturday by a companion in a "play duel," was brought to St. Michael's hospital at noon, where his case is being cared for. His condition is not as serious as it appeared at one time, and there is a good chance for recovery.

Larimore, N. D.—The death is announced at Cambria, Wis., of J. J. Williams, at the age of 78 years. The deceased was a former resident of Larimore and Devils Lake, being well known at those places. The elder Williams resided at Larimore and Devils Lake with his son, being at the former place about eight years, leaving there five years ago for Devils Lake, where he remained two years before going to Cambria.

Fargo, N. D.—The boys who broke the windows in a number or the buildings at the fair grounds have agreed to settle for the damage done and pay the freight for the glass as well as the placing of the panes in position.

Glen Ullin, N. D.—B. L. Nelson, president of the North Dakota Retail Merchants' association, is issuing a call for the state convention which will be held at Minot, July 11, 12 and 13. Mr. Nelson leaves in June for Denver to attend the national convention of retail merchants and is very enthusiastic over the good results of the organization.

Bismarck, N. D.—Frank Howard and Henry Bondy, aged respectively 22 and 21, were given one year in the pen by Judge Winchester Monday for entering a boarding car on the N. P. at Driscoll and stealing groceries, clothing and fire arms. Ed Crowe, aged 19, was sentenced to the rerorm school for an indeterminate sentence, being implicated in the same crime.

DEERING FAMILY HAS CLOSE CALL

North Dakotans Aroused By Fire Barely Escape Being Burned.

Deering, N. D., May 10.—(Special to The Herald.)—Awakened in the middle of the night by the crackling of flames, Mrs. A. McAninch and family of small children barely escaped death in a fire which totally destroyed the large Burkhart building in which they were living. The origin of the fire is unknown, the McAninch family having just moved in that day, having just finished unpacking before they retired for the night. The livery building and block of frame structures south of the building were seriously threatened for a time, but the volunteer firemen finally got the flames under control. There was no insurance on the building or contents and the citizens made up a purse for the afflicted woman and her children.

CONSOLIDATED SCHOOLS

Will Be Considered By North Dakota Educators' Meet.

Grand Forks, N. D., May 24.—(Special to The Herald.)—Consolidation of rural schools will be given attention at the next meeting of the North Dakota Educational association, as a result of the conference of officers held here. Prof. Haig, superintendent of the Ramsey schools, will be assigned the subject for discussion. Ramsey county has five consolidated schools, the largest number of any county in the state, and the work in these schools has been uniformly successful. Grand Harbor, Graham's Island, Doyon, Hampden and Bay Center are the localities in which the consolidated school work has been carried out.

CONGREGATIONAL MEET ENDING AT HILLSBORO.

Hillsboro, N. D., May 24.—(Special to The Herald.)—With the service of an elaborate banquet this evening at which the speakers will be James Buchanan of Buchanan, Rev. R. A. Beard, D. D., and Rev. C. C. Creegan, D. D., president of Fargo college, the annual gathering of the Congregational churches of the Fargo district, which has been in session in this city for the past two days, will come to a close. The sessions have been unusually well attended and every church in the district was represented by an official delegate. All the addresses were a power for good and much progress was shown in the reports of the various Congregational churches.

The chief speakers at the convention were Rev. Samuel Hitchcock of Hope, Rev. Willard Crosby Lyon of Valley City, Rev. Rudolph C. Mueller of Harwood, and Rev. L. F. Spangenberg of Oriska.

ALLEGED IGNORING OF COURT'S ORDER

P. S. Person of Grand Forks Must Face Charges of Contempt of Court.

Grand Forks, N. D., May 24.—(Special to The Herald.)—P. S. Person of this city was brought into the district court to show why he should not be adjudged to be in contempt of court for alleged failure to observe an injunction recently granted upon the application of Sorenson & Jackson, which prevented him from engaging in the tile and slush cement sidewalk laying business. It is claimed by the relators that they purchased the Persons' business and that the latter made a contract not to enter into the business in Grand Forks and East Grand Forks again, but that contrary to this contract he has done so. They then brought suit for a permanent injunction, and were granted a temporary injunction pending the outcome of the matter in the district court. They now charged failure to observe the court's decree in the premises.

GETS VERDICT OF $5,000

Against Father-in-Law for Alienating Husband's Affections.

Albert Lea, Minn., May 24.—The most sensational case in the district court just ended was the action of Sadie M. Weber against John L. Weber, wherein the plaintiff demanded $10,000 from her father-in-law for alienating the affections of her husband, who is the son of the defendant. The jury made short work of the matter by agreeing upon a verdict of $5,000 for the plaintiff. The defendant will take an appeal to the supreme court, as he denies the charges entirely.

WAHPETON, N. D., WILL ENTERTAIN FIREMEN.

Wahpeton, N. D., May 24.—(Special to The Herald.)—Fire fighters of North Dakota will meet in Wahpeton June 13, 14 and 15, the plans for the entertainment features, which include the big day of sporting events for the various firemen's teams of the state, being in the hands of committees of the local firemen. The first two days of the meeting will be given over almost exclusively to business matters, but the third day will find the firemen in trim for the several big events.

On the program of speeches there are a number of prominent Northwest fire fighters, among them being Chief A. H. Runge of the Grand Forks department, formerly of the Twin Cities.

NORTH DAKOTAN IS KILLED BY BIG PLOWS.

Crosby, N. D., May 24.—(Special to The Herald.)—Fred Bradley was instantly killed when he fell under the plows that were being drawn by a steam traction engine near here. There were about two tons of coal loaded on the plow. His body was badly cut up by the machinery. Bradley was the engineer in charge of the outfit and at the time of the accident he was moving the rig across a coulee.

"FORCE"

Who'll have Force for breakfast? *You* will if you know what Force *is* and how it tastes.

FORCE is *all wheat*—the best wheat grown—steam-cooked and blended with barley malt for *strength* and *digestibility*.

Crisp, toasted flakes—each flake a whole grain of wheat—good to see—good to taste. You must *chew* Force—that's another aid to digestion—specially good for the children.

A minute in the oven gives additional crispness. Milk or cream—add berries or fruit—that's a matter of taste—and you have a delicious dish of the best-balanced food you can buy.

Look for the Sunny Jim package and the Premium Coupon inside.

SUPERIOR WINS FIRST

Red Legs Take Opening Game on Their Home Grounds.

Mayor Crumpton Throws First Ball—Large Crowd Present.

Despite unfavorable weather conditions yesterday, Superior opened the home season with a contest with Rochester, winning the contest by the score of 2 to 1. The game was fast and well played throughout.

With Superior and the Surgeons showed up very well. Woods was on the mound for the Surgeons and clearly outpitched Cy Dahlgren, the star of the Taylorites. But for some lucky playing Cy would have lost out.

Mayor Crumpton threw the first ball across, and the two teams and a large number of fans paraded from Hotel Superior to the ball grounds. A crowd that filled the park to overflowing witnessed the initial contest of the 1911 home season.

The score:

Rochester—	AB.	R.	H.	PO.	A.	E.

CHICAGO WINS FIRST GAME FROM BOSTON.

Boston, Mass., May 24.—Chicago won the first game of the series with Boston yesterday, 6 to 4. After the visitors had secured a lead of three runs, Boston tied the score in the seventh inning when they knocked Richie out of the box. An error by Herzog in the eighth inning let in the winning runs. Score:

OTTO MILLER IS STAR AT BROOKLYN.

Brooklyn, N. Y., May 24.—Brooklyn made another ninth inning finish yesterday and beat Pittsburg, 4 to 3. Otto Miller made his debut behind the bat and proved the hero of the day, driving in two runs and scoring two more himself. He came up in the ninth with the bases full and two out and brought across the winning run with his third hit of the game. Score:

	R.	H.	E.
Pittsburg	2	0	0	0	0	1	0	0	0	3	5	2
Brooklyn	0	0	0	2	1	0	0	0	1	4	9	0

Batteries—Camnitz and Gibson; Scanlon and O. Miller. Umpires—Brennan and O'Day.

CARDINALS WIN FROM PHILADELPHIA.

Philadelphia, Pa., May 24.—St. Louis had no difficulty in winning yesterday's game here, the score being 12 to 4. Titus of the home team had his ankle broken sliding to the home plate in the fifth inning. Wally Smith of St. Louis was presented with a diamond pin by members of the club with which he formerly played in this city. Score:

	R.	H.	E.
St. Louis	0	2	2	8	0	0	0	0	0	12	13	0
Philadelphia	0	0	0	2	2	0	0	0	0	4	8	1

Batteries—Harmon and Bresnahan; Beebe, Rowan, Brennan and Moran. Umpires—Johnstone and Fason.

GIANTS HAVE EASY TIME WITH THE REDS.

New York, May 24.—The Giants had an easy time subduing Cincinnati yesterday. Smith was hit freely while Mathewson was effective in the pinches. Score:

	R.	H.	E.
Cincinnati	0	1	0	0	0	0	0	0	1	2	7	2
New York	0	1	2	0	1	2	0	1	x	7	14	3

WINNING RUN FOR TIGERS FORCED IN.

Detroit, Mich., May 24.—Detroit defeated Washington yesterday in a loosely played game. Johnson, who replaced Gray in the eighth, forced in the tieing and winning runs by issuing passes to Bush and Cobb. Jennings and Shaefer were benched for disputing decisions. Score

Washington	1	0	0	0	1	0	5	1	0	8	13	3
Detroit	1	0	0	1	1	1	0	5	0	9	12	3

Batteries—Gray, Johnson and Henry; Mullin and Stanage. Umpires—Dineen and O'Laughlin.

ATHLETICS GAIN EASY VICTORY OVER NAPS.

Cleveland, Ohio, May 24.—Philadelphia again defeated Cleveland, the score being 9 to 1. De Mott was knocked out of the box while Michell, who succeeded him, was wild. Plank was effectivie throughout. Score:

	R.	H.	E.
Cleveland	0	0	0	0	1	0	0	0	0	1	8	2
Philadelphia	0	1	2	3	1	0	1	0	1	9	14	0

Batteries—Plank and Thomas; De Mott, Mitchell and Smith. Umpires—Perrine and Sheridan.

HIGHLANDERS WIN IN TWELVE INNINGS.

Chicago, May 24.—In a pitcher's battle which wet twelve innings, New York defeated Chicago, 4 to 3. A single, an error and a home run gave the locals their scores. The visitors bunched their hits in the seventh and twelfth innings for a total of three runs, while the first run resulted from a base on balls, a force-out, single and a sacrifice. Score:

	R.	H.	E.
Chicago	0	0	0	3	0	0	0	0	0	0	3	7	3
New York	0	0	0	1	0	0	2	0	0	0	1	4	11	2

Batteries—Walsh and Sullivan; Ford and Sweeney. Umpires—Connolly and Egan.

HARD-FOUGHT GAME GOES TO ST. LOUIS.

St. Louis, Mo., May 24.—St Louis won from Boston yesterday in the eleventh inning, score 3 to 2. The visitors scored their first run in the first inning on a double, a sacrifice and an out. The locals tied the score in the fourth on doubles by Meloan and Hogan. In the eleventh Boston scored one on two singles and a sacrifice; two singles, two bases on balls and an error netted the locals two and the game. Meloan secured two doubles and two singles in four times up. Score

	R.	H.	E.
Boston	1	0	0	0	0	0	0	0	0	1	2	1	2
St. Louis	0	0	0	1	0	0	0	0	0	2	3	10	1

BREWERS OVERCOME BIG LEAD AND WIN.

Columbus, Ohio, May 24.—Milwaukee's 8 to 7 victory gave that club two out of three on the series. A change of Columbus pitchers in the fifth inning resulted disastrously, as Sitton filled the bases for Stone to clear with a triple, and so score the tying run on a single by Lewis. In the fourth O'Rourke drove three runners home with a double and made the plate when the ball was played back poorly. Milwaukee's winning run was scored on a single by Randall, Downs' error on a throw from Berger and a hit by Charles. Score:

	R.	H.	E.
Columbus	2	0	1	4	0	0	0	0	0	7	9	4
Milwaukee	0	1	0	2	4	0	0	1	0	8	9	4

Batteries—Cook, Sitton, Berger and Arbogast; Gilligan and Ludwig. Umpires—Bierhalter and Weddidge.

MILLER PITCHERS WILD AND ARE HIT HARD.

Toledo, Ohio, May 24.—Toledo made it two out of three from Minneapolis yesterday by winning, 19 to 5. Terrific hitting coupled with the wildness of the Minneapolis twirlers made possible the big score. Score:

	R.	H.	E.
Toledo	5	0	1	0	8	0	1	4	x	19	16	3
Minneapolis	1	0	0	2	0	0	2	0	0	5	9	3

Batteries—Robinson and Brennan; Essick, Peaster and Owens. Umpires—Owens and Eddinger.

PFEISTER GETS POOR START WITH MINORS.

Louisville, Ky., May 24.—Kansas City defeated Louisville yesterday in the last game of the series. Jack Pfeister, the ex-Chicago National league pitcher, lasted only four innings, while Maddox pitched superbly from start to finish. Cheney, who relieved Pfeister, had the visitors at his mercy, holding them to two hits and no runs. Score:

	R.	H.	E.
Louisville	0	2	0	0	1	0	0	0	0	3	6	2
Kansas City	0	0	2	2	2	0	0	0	0	6	11	1

Batteries—Pfeister, Cheney and Orendorff; Maddox and James and O'Connor. Umpires—Handiboe and Hayes.

SAINTS DROP TWO GAMES TO INDIANS.

Indianapolis, Ind., May 24.—Superb pitching by both Dowd and Link and sensational support accorded both was the cause of St. Paul's defeat in both games of yesterday's double-header, 3 to 0 and 5 to 0. Ritter's home run was the feature of the first game. In the second game the locals got to Gehring and drove him from the box in the fourth inning, and O'Toole, who succeeded him, did little better. Score:

First game—	R.	H.	E.
Indianapolis	0	0	1	1	0	0	0	1	x	3	7	2
St. Paul	0	0	0	0	0	0	0	0	0	0	2	1

Batteries—Dowd and Ritter; Laroy and Spencer. Umpires—Chill and Ferguson.

Second game—	R.	H.	E.
Indianapolis	2	0	0	1	0	0	0	2	x	5	7	1
St. Paul	0	0	0	0	0	0	0	0	0	0	5	2

Batteries—Link and Ritter; Gehring, O'Toole and Kelly. Umpires—Chill and Ferguson.

BOLD RESCUE OF ARTHUR

Arthur Michaud, Duluth Boat club coxswain, has just purchased the Minatour. Last night he thought he would give his new piece of property a tryout. He did. While the bay was peaceful and calm, not a wave hardly stirring its placid bosom, there was enough wind to tip Arthur and his companion over.

The imitation of the hero's rescue in the melodrama took place right in front of the club house. Two boys in an old boat, mere youngsters, set out to rescue shivering Artie and his cold companion. The boat was clear over and the two sailors (?) were holding on to the keel.

Some one came along in a motor boat and shooed the boys away, the kids being horribly disappointed in not being able to take part in a real rescue. Arthur and his companion were taken ashore and given stimulants and advice by the boat club oarsmen.

Mr. Michaud in an interview today stoutly denied that he had nailed the sail to the deck. While not being able to give a very clear explanation of the accident, he did state, before turning busily to his desk, that the entire affair was unavoidable, and was such an accident that might have happened to Tom Lipton, tea, he.

CAPTAINS MAKE APPOINTMENTS

Following the announcement in The Herald of the reappointment of the four department captains of the Duluth Boat club, comes the following list of ensigns, in which there are some changes from last season, and the personnel of the four department committees:

Rowing department—J. E. MacGregor, captain; E. R. Anderson and W. H. L'Estrange, ensigns; H. H. Peyton, B. M. Peyton, M. A. Thompson and J. D. Mahoney, members of the committee.

Motor boat department—Robert Marshall, captain; Guy Warren and George Burns, ensigns; D. H. Day, W. D. Jones, Fred Farmer and G. A. Taylor, members of the committee.

Sailing department—Charles Brewer, captain; Sibbald McDonald and Walker Jamar, ensigns; A. C. Le Duc, Dr. Frank Lynam, Sibbald McDonald and A. C. Pierce, members of the committee.

Field department—Wilbur Kitchll, captain; J. D. Deighton and A. Barnes, ensigns; J. P. Becker, C. K. Dickerman, Charles McBride and Dr. E. L. Cheney, members of the committee.

BURNS IN CONDITION FOR CHAMPION WOLGAST.

San Francisco, Cal., May 24.—Ad Wolgast is going to meet a perfectly conditioned fighter in Frankie Burns next Saturday afternoon. Burns is as hard as nails. He spent three weeks in the mountains before coming back to town to train, and the trip did him a world of good. Big crowds watched Wolgast and the challenger go through their training stunts today. Wolgast also looks to be in fine trim. There is great confidence in the Burns camp. Both the fighter and Manager Jack Perkins are sure of winning. As the day of the battle draws near Burns is gaining backers, and it is generally believed he will give the champion a great argument.

Farmer and Johan Draw.

Alton, Ill., May 24.—"Kid" Farmer of Peoria, Ill., and Jack Johan of Brooklyn, lightweights, fought a six-round draw last night before the Alton Athletic club.

RED WING AND DULUTH TO OPEN LEAGUE SEASON

Fans Eagerly Await Calling of First Home Game of 1911.

Parade, Band Concert and Mayor's Speech Will Precede the Game.

WOODBURN,
Who Will Pitch the Opening Game.

(BY BRUCE.)

Well, we're off today.

The joyous and conquering White Sox open the official home season this afternoon at Athletic park, having as opponents Fred Cooke's Comanches, the demon hitters of Red Wing.

Coming home from the road trip with five games won out of ten played, the Sox are certain of a tremendous reception this afternoon at the ball yard.

Elaborate preparations have been made for the biggest spring opening in the history of the baseball business in Duluth. Before the dear old game starts there will be a parade. If you own an automobile, have it in the parade. There will also be sea-going hacks. The parade will start at the city hall at 2 o'clock, will be headed by the two ball teams, the Third Regiment band and the city officials, and will march down Superior street and out to the ball grounds.

Mayor Cullum will officially open the game by heaving the pellet across. He will also have a few words to say preceding the calling of hostilities.

Darby O'Brien has chosen Woodburn as the boy to pitch the opening game, which will bring joy to the hearts of the fans. On the trip this chap has been twirling wonderful ball, and threatens to become the best pitcher in the league this season.

We are out after the flag this season; there is nothing to that, we want the old gonfalon. We expect to make a clean sweep o fthe Red Wing games, and this afternoon the team should get away to a flying start for the long list of wins that are expected on the home stand.

With a band concert, with a mob of mad and howling fans, with the wild fanfare of auto horns and the din of the thunderous noise that arises from stands and bleachers, she should be one big and joyous afternoon.

It is confidently expected that the attendance record of Athletic park will be broken. Many of the stores will let their employes off during the afternoon, and all over the city interest in the game is very great.

It is particularly desired that the parade be a large one, and the owners of automobiles are asked to take part in this part of the festivities. Owners of the benzine buggies are requested to have their carts at the city hall promptly at 2 o'clock.

The game will be called at 3:30.

BOAT CLUB WINS MEET

Last evening at the big Y. M. C. A. gymnasium the athletes of the Duluth Boat club won the track events by a goodly margin, showing good form in the majority of events, and winning the pennant offered for the winner by a margin of nine points over the nearest competitor, the Y. M. C. A. team.

The association won second place with a score of 19, the Central high school team getting seven points and the aggregation from Two Harbors falling to score.

The records were all very creditable, especially the mark made in the high jump by Harry Johnson and Woleben. These boys tied at 5:8 which breaks all former indoor marks at the Head of the Lakes.

Harry Johnson was the best individual performer, his work showing him an unusual athlete.

Fobs were donated to the point winners by the Northern Hardware company.

Following is a summary of the results:

Four teams entered, namely: Y. M. C. A., Boat club, high school and Two Harbors.

Thirty contestants.

100-yard dash—Capen (Y.), 12 2-5; McCrea (B. C.), Peters (B. C.), Brown (H. S.), and Williamson (Y.), were all tied for second, with 12 3-5.

One-half mile run—Brown (H. S.), 2:13 3-5; Phil Moore (Y.), 2:21 1-5; Gilpin (B. C.), 2:22 2-5.

Shot put—Starkey (B. C.), 37 feet 5¼ inches; Lathrop (B. C.), 35 feet 1 inch; Thompson, 34 feet 9½ inches.

High jump—H. Johnson (B. C.) and Woleben (Y.), were tied for first, with a record of 5 feet 8 inches; Forgette, 5 feet 6 inches.

Pole vault—H. H. Johnson (B. C.), 8 feet 10 inches; Woleben (Y.), 8 feet 6 inches; Imhoff (B. C.), 8 feet 2 inches.

Relay race—Won by the Boat club, Team—Peters, MacCrea, Starkey and Cowan. Time, 1:14. Y. M. C. A., second. Team—Bailey, Capen, Winsor and Doermeyer. Time, 1:14 2-5. High school third. Team—Lawrence, Goetz, Jeronimus and Bondy. Time, 1:15 4-5.

WILL REJOIN CUBS.

Johnny Evers Will Be Back in the Chicago Lineup.

Troy, N. Y., May 24.—Johnny Evers left Monday evening for Chicago from his home in this city and is expected to arrive in Cubtown today. Evers will rejoin the Cubs upon their return from their Eastern tour and will probably be seen in the Bruin lineup in the next series at home. He has been confined to his home here since the Cubs came East on account of a nervous breakdown caused by accidents and financial reverses during the last year. He is greatly improved and is anxious to get back into the game again. "I didn't know for a few days," he said, "whether I would ever get into a game again, but I am getting better now and will be able to play within a few days."

HIGH CLASS FIELD IN GOLF TOURNEY.

New York, May 24.—A thoroughly high-class field, numbering more than 100, is entered for the Metropolitan Golf association championship, which opened today at the Garden City Golf club. Among the entries are Frederick Herreshoff, the title holder; Jerome D. Travers and Walter L. Travis, former champions; Gardner White and Oswald Kirby.

READY FOR ELIMINATION TRIALS AT INDIANAPOLIS.

Indianapolis, Ind., May 24.—The last day but one of preparation for the elimination trials for the Memorial Day 500-mile automobile race brought practically all the entrants on the track at the Indianapolis speedway at an early hour.

The elimination trials will begin at 9 o'clock Friday morning and each of the forty-six cars entered for the race must show capability to go seventy-five miles an hour or withdraw.

COMMENTS AND OPINIONS ON THE SPORTING PARADE

An English Boxer Is "in Our Midst" — Darby Feeling Hopeful — Give It to the Cubs—A Favorable Omen

(BY BRUCE.)

EDDIE CARSEY, a fighter who has been on the other side of the pond and has had battles in Wales, and other parts of England, and who has also fought in Paris and in various parts of Ireland, was in Duluth yesterday. The little fellow is on his way to the range, and will hook up with Pal Brown in a 15-round engagement.

Carsey was the sparring partner of Freddy Welch for a time on the other side of the foaming main, and was a witness of the London encounter between Packey McFarland and the then pride of Wales.

In discussing the battle with the writer yesterday Carsey expressed the opinion that the battle was a very even affair, stating that Welch reached the little Irishman's face often with left jabs. Carsey also saw the coast fight between Attell and Welch, and says in the fifteen rounds of fighting the little Hebrew hardly laid a glove on the shifty Welshman.

There is not a follower of the fighters who does not possess some idea of the cleverness of Attell. With the passing of Joe Gans he has often been referred to as the present old master of the game. When a man like Attell is made a boxing fool of by Welch, you can gather some idea of the cleverness of the man Packey McFarland outfought and outboxed on the other side of the ocean.

Little Carsey was matched with Digger Stanley, according to the statement he made yesterday, the death of the king coming the very date set for the meeting. The death of England's popular ruler resulted in the calling off of the battle.

Carsey is a modest and unassuming little chap. He believes he has a chance with some of the best boys of his weight in the country. Regarding his ability, we will have a more definite idea after the meeting with Brown. He has a long and creditable record, including fights with some of the best boys on the other side of the sea. A victory over a fighter of the class of Carsey will be another stepping stone in the career of Brown, and will go far to prove that he is ready for some of the very best of the lightweight class.

Replying to a Silly Young Man.

A CERTAIN writer in a St. Paul paper takes a rap at the statement regarding Walter Miller being overrated. That statement sure did hurt. The young man in question says he will take it into his hands to show some one. That is something he has never done in the past, and inexperience is an awful thing. To put some people right, it must be stated that this is the same blissfully ignorant chap who declared in the columns of his paper that it was impossible to score an error on a double play. Pish, what is the use of being serious?

We are ready to be shown at any time, which is more than the aforesaid person can say.

Darby Is Elated.

YESTERDAY was a fanning day for the White Sox. With no game on some of the boys put in the day fanning and hoping for sunshine. Darby wore a smile that for general radiance had that sometimes worn by the young men in the front row at a musical show looking like the sickly, inane, frowsy grin of a man who has been sentenced to a sanitarium in June.

Right at the present time the Harp wouldn't trade his team for any aggregation in the league. He said that before the bunch started for Red Wing, and we did not take it so seriously at that time. After the swing around the circuit, meeting all of the southern teams but Eau Claire and Wausau, the Orator still clings to the opinion favoring the Sox over the other members of the league.

While the fans naturally want to be shown, which is right, most of the baseball enthusiasts in the city are of the opinion that the Irishman has gathered a team well balanced, effective at the bat and fast on the paths. On the present stand at home there will be ample opportunity to get a very good line on the team, and the good fans of the city are at the present time impatiently waiting the call of the bell, in order that they may get to really first good look at the Sox, for the team had not reached its stride by any means in the spring series with Superior, even if the Sox did take the long end of the series, much to the disgust of the fans from the suburbs.

Of the teams played on the trip, Darby says the Pirates are by far the best. He had little to say of the one game played at the city beautiful, but added that Uncle Joe Killian has gathered a very strong aggregation of ball players and that Joe's gang is traveling very fast at the present time.

It is not always proper for a manager to say any team is weak, especially so early in the season. The Harp only went as far as to say that the Pirates at the present writing had it on all the other teams of the southern end. The records of the games played so far easily show that.

Darby is satisfied with the playing of his infield, and adds that the outfield to date is the heaviest hitting bunch of daisy patch tenders that the Sox have had since the forming of the present Minnesota-Wisconsin league, and the first season of the league we had a pennant winning team.

Sam Meneice has been doing some great work on the trip and the manager says that the shifting of Holstrom to the outfield has had a very good effect on his walloping of the rehabilitated ball. The pitchers have been going good, and so far in the game the Orator has no kick, except it be that decision over the postponed game at Winona.

O'Brien knows ball players and in the past he has been very honest with the public. He honestly believes that he has a great team at the present time, and there is not a good fan in the city who does not earnestly and honestly hope the Orator is right.

Like a Bull in a China Shop.

ALEX SLOAN is at the present time contributing some golf to one of the California papers. Anyone who knows the former sporting editor of one of the St. Paul papers, and he has many friends in this city, will laugh with abandon and also lots of noise at the mere thought. The former manager of Barney Oldfield is a dainty little thing weighting about 225. He hasn't the golf temperament or nature. "Fads and fancies of golf," as being written by J. Alex, will be very interesting to some of his friends back in this part of the country.

Give It to the Cubs, Says Richard.

DICK SCHELL is a very great admirer of the Cubs. He says they are the greatest team ever organized, not barring the Athletics or any other team in the world, and also says that no bunch of ball players have shown the heart of the men who are playing under Chance.

"Look at the two beatings at New York," said Richard, "and then notice the way the Cubs came back and won the next two games. New York is the hardest town in the country to win a game from on the home grounds, but you can plunge on the fact that even a New York crowd cannot get the goat of the nervy Cubs.

"If the Cubs should win the pennant the present season, and the Athletics should happen to repeat in the American, I will pick the Chance men to win the world's series. They are nervy, brainy and resourceful, and see if they don't get the number of the Athletics, should the two teams ever play again."

They Will Hang the Pennant Up.

THE pennant that was won last evening by the athletes of the Duluth Boat club, will be hung in a conspicuous place in the main house. It is the first trophy to be pulled down by the athletes of the club for some time.

Credit for getting together so strong a team must be given to Wilbur Kitchll. He was on the job all the time and got together the very best athletic material to be found in the club. "Kitch" was confident that his team would win, and the score of last evening's little entertainment bears out his confidence.

One of the star features of the competition was the jumping of Harry Johnson and Woleben. Not for a very long time has such good jumping been seen in this city in an indoor meet. The work of Cy Forgette is to be commended, also, when it is considered that he rowed a hard race late yesterday afternoon, and went into the event with no training for that specialty.

The officials of the club consider the win a very good omen. Now for winning the boat race in July.

FORMER DULUTH PLAYER MAKES GREAT DEBUT.

Fans in this city will be pleased with the showing made by Otto Miller, or Mueller, as he was known here, in the game he caught with Brooklyn, yesterday. It has generally been admitted that Miller is the best catcher who ever played in the Minny league, and friends of the big fellow have been confident that he would make good with the Trolley Dodgers. His work yesterday goes to show what the Baron can do. With the article of ball he played yesterday, it will not be very long before Otto will be the regular receiver.

GOPHERS LOSE TO YALE TENNIS PLAYERS.

New Haven, Conn., May 24.—The Yale tennis team won a two-man match from the University of Minnesota team here yesterday, 2 to 1. Each university won one match in the singles and Yale won the doubles. By agreement the latter were three out of five.

Singles: Holden, Yale, won from Adams, Minnesota, 6-4; 6-0.

Armstrong, Minnesota, won from Gates, Yale, 6-3; 6-4.

Doubles—Holden and Gates, Yale, won from Adams and Armstrong, 6-2; 6-3; 4-6; 7-5.

FAVORITE IS WINNER OF BASHFORD MANOR STAKES.

Louisville, Ky., May 24.—Worthy, carrying the colors of C. H. Hallenbeck of New York, scored an easy victory in the Bashford Manor stakes for 2-year-old colts and geldings at Churchill Downs. Sixteen youngsters faced the barrier, the largest field ever seen in this classic. The winner was the public choice and he ran over his field on the last turn and won by three lengths. Buckhorn was an easy second and Presumption, third. Alamitos and Sherlock Holmes were added starters.

Cash On Delivery was purchased by H. R. Brandt for $3,500 and the colt ran in his new owner's colors in the stake.

MINOT AUTOMOBILISTS PLAN NEIGHBORLY VISIT.

Minot, N. D., May 24.—(Special to The Herald.)—Tomorrow the Minot Commercial club will make the first of a series of automobile "get acquainted" trips that will take it through the towns on the south line of the Soo railroad. This series of trips has been planned to give the business men of Minot an opportunity of getting into closer touch with the several towns in the district. In the trip tomorrow, which will continue till Friday evening, the towns of Velva, Ruso, Benedict, Max, Douglas, Ryder, Plaza, Berthold, and Tasker will be visited, and at each of these places receptions have been arranged for the tourists.

CY YOUNG RETURNS TO CLEVELAND TEAM.

Cleveland, Ohio, May 24.—"Cy" Young, veteran Cleveland American league pitcher, and dean of major league pitchers, rejoined the team yesterday after an absence which began four weeks ago when he was taken ill in Detroit with pneumonia. He has been recuperating on his farm at Paoli, Ohio, and says he expects to be able to play within two weeks.

LINCOLN PARK AUDITORIUM

THE BEST DANCE PAVILION AT THE TWIN PORTS.

Dancing every Tuesday, Thursday and Saturday evenings.

For terms and dates apply to

CARL MAINELLA, Manager. Zenith 'Phone, Lincoln 51.

ON THE IRON RANGES

CHISHOLM ADJUSTS LIGHTING TROUBLE

Company Gets Twenty-Five Year Franchise With Village's Right of Purchase.

Chisholm, Minn., May 24.—(Special to The Herald.)—Attorney Edward Freeman has returned from Duluth, where he attended to legal affairs in behalf of the village with the Range Power company. The dispute between the village and the Range Power company is not likely to appear in court, having been amicably settled outside. A new franchise is to be granted the Range Power company by the village, to continue for twenty-five years; the village, however, retaining the right to revoke the franchise, and purchase the plant at its option, at the expiration of the first three years, and at every five-year period thereafter, during the existence of the franchise.

The company agrees to put in an auxiliary plant to provide against any possible break-down of the plant now running. It is to furnish a day current within ninety days and reduce the rates on both the street arc lights and the lights used by the ordinary consumer.

Chisholm After Free Delivery.

There is a move on foot here to secure the free delivery of the mail. Under the direction of the village council all the houses have been numbered, and after some action by the Commercial club and others of the leading citizens, looking to a better understanding and with some who do not look with favor upon the proposition, it is very likely that Mr. Train, the postmaster, will take the matter up with the postal authorities at Washington.

George Rice, assessor for Chisholm, has begun assessing the various properties within the village. To complete the work of assessing will require at about thirty days. This is Mr. Rice's first year in the assessorship.

LOG DRIVING CAN NOW BE RESUMED

Arrest of Peter Vorbanich "Defender of Waterhen" Permits Work to Proceed.

Eveleth, Minn., May 24.—(Special to The Herald.)—About 125 local men who have been engaged in driving logs near Long Lake for the Northern Lumber company, John Saari of Eveleth and others and who were prevented from working because of the resistance of Peter Vorbanich, the Austrian farmer on Waterhen creek, who was captured yesterday afternoon, returned to work today.

The lumber company expected a repetition of the Dietz affair. Vorbanich will be charged with firing on Deputy Sheriff King, Sunday, while the latter was protecting men who were working on the drive on the north branch of Waterhen creek. Vorbanich is known as a bad character by his neighbors, and was recently nicknamed "Black Pete." He is an old settler of the county, and well known in this vicinity.

Yesterday afternoon's affair was the outgrowth of transactions carried on between the lumber company and Vorbanich since last summer, when the latter signed an agreement to permit the company to use his farm for driving purposes until May 15 of this year, for $535. Men were at work in that vicinity on the 15th, but as the water was very low little could be done. The recent rains made the creek passable, and the company was ready to resume work, when Vorbanich demanded $1,000 for this year's privilege. Sunday an effort was made to effect an agreement with him, and after a talk with company officials, Vorbanich fired into the group of sheriffs, who were guarding the loggers working on the outskirts of the farm on the company's property.

The trial of the accused will be held at Virginia, and many local residents will attend the sessions of court, as the outcome of the trial is eagerly awaited here.

SWAN LAKE POPULAR.

Many Cottages Being Built at Resort Near Nashwauk.

Nashwauk, Minn., May 24.—(Special to The Herald.)—More than three hundred people visited the summer colony at Swan Lake Sunday. Autos and rigs from Hibbing and Nashwauk came steadily and all were headed for Nashwauk's summer spot.

Several new cottages are being built. One is for Walter Trennery, chief clerk for the Oliver Mining company of Hibbing; another for a Mr. Merill of Hibbing. These two cottages are being built under the direction of Paul H. Tweed of Nashwauk. Some of the well known people at and near Pengilly and other points near the lake, are Dr. D. C. Rood and S. R. Kirby of Duluth; Dr. B. S. Adams, Gust Carlson and G. A. Wellner of the Carlson Exploration company of Hibbing; John A. Redfern, mining man and banker; G. H. Thompson, general manager of the Drake & Stratton company; George Learch and Mr. Remer, mining men of Hibbing; Frank Webb of Gilbert, manager of the Republic Iron & Steel company; Oscar Johnston of the Sebeka Mercantile company, and Paul H. Tweed, postmaster and manager of the Nashwauk Hardware company.

Aside from these many well known people who have built costly residences at the lake, many societies and orders of the range towns have planned on holding their picnics at the lake. Several of these organizations will spend their holiday there in the near future, one of which is the Redmen, who spent a day at the lake last summer and a still more enjoyable time is expected by them as well as the others, on the date set for their day at the lake.

FINE LOTION MAKES PERFECT COMPLEXIONS

"In the universal quest for beauty," writes Mae Martyn, beauty specialist in the New York Chronicle, "no preparation for whitening, beautifying and toning the complexion has been found to compare with the simple, inexpensive lotion made by dissolving four ounces spurmax in one-half pint hot water with two teaspoonfuls glycerine added.

"This lotion clears and refines the complexion, making it smooth, velvety and charming. It is much better than powder as it doesn't clog up the pores causing rough, sallow skin nor will it show or rub off so easily as powder.

"For removing that shiny, oily, sallow look it is unequaled and gives the skin a healthy, smooth, youthful appearance."

WANTS BUSINESS CLOSED.

Mayor Hawkinson of Virginia Urged Honor for Veterans.

Virginia, Minn., May 24.—(Special to The Herald.)—Memorial day will be observed at the city park, May 30 by appropriate exercises. There will be a parade, led by the city band and participated in by school children, the veterans of the war of the rebellion in carriages and others. A citizens' committee will act together with Aldermen Heritage, E. C. A. Johnson and A. C. Osborn of the city council in the preparation of a program, the details of which are not yet completed. By a proclamation of Mayor Hawkinson all places of business will be requested to remain closed between 1:15 and 3:30 o'clock p. m. on that day.

DULUTH FIRM AWARDED BIG GILBERT CONTRACT.

Gilbert, Minn., May 24.—(Special to The Herald.)—Bidding against eight other firms on the contract for installing the village sewer plant the Pasteret & Lawrence company of Duluth was awarded the contract last night by the village council for $25,000. The other bidders, all very close, were: W. E. Curran, West Duluth; E. H. Dahl, Duluth; J. D. O'Connell; C. C. Butler, Virginia; H. H. Bartlett company, Virginia; Johnson & Eklund, Superior; Harding & Co., Racine; Kircher & Johnson, Gilbert.

The village a few months ago secured a loan of $20,000 for the sewer system and has on hand $12,000 given to the citizens of Sparta by the United States Steel company when Sparta was moved to this village. The system will be started in the first addition, will cover the whole village and will empty into a septic tank, from whence the sewage will enter the swamp northeast of town. The plans and specifications were drawn by Village Engineer Bowman and the firms who had in bids state that they have never seen a more plain or complete set.

The contract calls for the laying of 23,000 feet of sewer pipe, installing a septic tank, job to be completed by Sept. 30. Work will begin in ten days.

GRAND RAPIDS BOY DROWNS IN RAVINE.

Grand Rapids, Minn., May 24.—(Special to The Herald.)—Clayton Sherburne, 6-year-old son of G. W. Sherburne, a local painter and paperhanger, was drowned at 5:30 o'clock yesterday afternoon in a ravine just west and across the Mississippi river from the Itasca Paper company's mill. The Sherburne boy, with a number of other youths, was playing on a raft in the ravine, which is filled with backwater from the paper company's dam. Ted Smith, a neighbor's boy, who was on shore, told the boys that they had better come ashore, as they were too small to be on the raft alone, and as he was assisting them ashore someone pushed the raft out into the water, and young Sherburne lost his balance and fell in. The parents and others were notified, and they at once went out to search for the body. After an hour the body was recovered.

Mother of Nine Called.

Mrs. S. P. Hegdahl, 59 years of age, for seven years a resident of this county, died at her home yesterday from heart failure. She leaves a husband and nine children. The funeral will probably be held Thursday from the Swedish Lutheran church of Grand Rapids.

GRAND RAPIDS FANS INTERESTED IN GAMES.

Grand Rapids, Minn., May 24.—(Special to The Herald.)—Grand Rapids fans are interested in the prospective series of baseball games between the Grand Rapids Junior baseball team and the Proctor Juniors, which will take place on Sunday, Monday and Tuesday, May 28, 29 and 30, at the local ball park.

The Grand Rapids Junior ball team has been in existence with practically the same material as it is now composed of for the past four years, this being its fourth season, and during this time, out of eighty games played, it has lost only four, one or two of these being to a team of grown men from Hibbing. The Proctor team has a record of one full season without losing a single game, they having beaten the Grand Rapids team twice.

Interest in the coming series is at a high pitch and large crowds are expected at all games.

EVELETH CONCERN IS GIVEN BRAINERD CONTRACT.

Brainerd, Minn., May 24.—(Special to The Herald.)—The Northern Plumbing & Heating company of Eveleth was awarded the contract of installing a heating plant in the Whitaker school, the firm bidding $6,665. The other bidders were Stack Brothers, of Duluth; Deerwood Heating & Plumbing company; Slipp-Gruenhagen company, and L. W. Sherlund of Brainerd.

Virginia Park Concert.

Virginia, Minn., May 24.—(Special to The Herald.)—The city park board is making arrangements for a band concert to be given at the city park next Sunday afternoon. Special invitations have been issued to the city officials to be present and everybody is invited. This will be the first program given at the park this year and will be in the nature of a formal opening of the city's beauty spot.

Many New Settlers.

Eveleth, Minn., May 24.—(Special to The Herald.)—Martin Panian, a former local resident, who is farming near St. Louis river, is very enthusiastic over prospects for a successful agricultural season. He reports that land is being bought daily in the vicinity of St. Louis river, and that many new settlers are arriving. The recent rains were very beneficial as they put out the forest fires. Mr. Panian expects a very good potato crop, and states that he will never return to shoemaking as he is highly pleased with farm life.

Grand Rapids Team Practices.

Grand Rapids, Minn., May 24.—(Special to The Herald.)—The fire department track team is practicing for the tournament of the Northern Minnesota Firemen's association at Akeley June 13 to 16. Grand Rapids had a championship team last year, winning the banner, and every hope is entertained of making as good a showing this year.

Grand Rapids May Festival.

Grand Rapids, Minn., May 24.—(Special to The Herald.)—The schools are preparing a splendid May festival to be given on the lawn of the high school May 26. Miss Margaret McAlpine is to be May queen, having been chosen unanimously for the position, and at 5 o'clock a grand pageant and procession will be held in which the students of the high school and all the pupils of all the other schools of the city will take part. A track meet between the eighth grade and freshman boys will take place and there will be other games and races. At 2:30 there will be a baseball game between the Cass Lake high school baseball team and the Grand Rapids high school team. All the stores and offices will be closed and the event will be made a general holiday.

HIBBING WANTS SIDEWALKS BIDS

Village Board Calls for Tenders to Complete Work This Summer.

Hibbing, Minn., May 24.—(Special to The Herald.)—The village council last night decided to advertise for bids for sidewalks to be laid this summer, bids to be opened on June 6. O. B. Warren was appointed a member of the park board to succeed G. H. Thompson, resigned. A landscape gardener will be brought here to look over the park situation and suggest improvements. The work of putting in new vitrified brick crossings has been ordered to take place at once. Two bids were received for the new garbage wagon; Kelley-How-Thomson, Duluth, $800 for the Studebacker wagon, and the Minnesota Supply company, Duluth, $268 for the Columbia wagon. The matter has been left in the hands of the health officer.

The water and light board meeting last night was taken up entirely with routine business.

DEAN JAMES WILL ADDRESS GRADUATES

Member fo University Faculty to Speak at Eveleth June 15.

Eveleth, Minn., May 24.—(Special to The Herald.)—Dean James of the literary department of Minnesota university will deliver the commencement address at the high school exercises, June 15. Miss Anna Sholund, class president and valedictorian, will give an essay on "The High School Girl," While Ellvira Foreman, the salutatorian, will also read an essay. The fifteen diplomas will be presented by Supt. Burton O. Greening.

Class night will be held June 15, with the senior class play, "The Elevator," as the leading feature. The class history and class song will be composed by Leslie J. Tobin and Ralph Wilk. The class will, prophecy, poem and school songs will compose the remainder of the program.

The freshmen banquet in honor of the seniors will also be held during Commencement week.

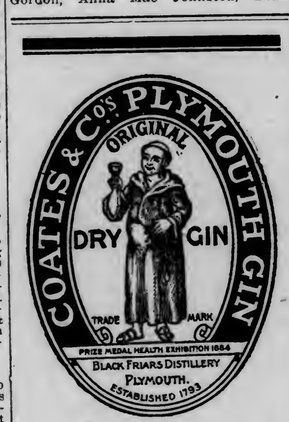
TWENTY-ONE WILL GRADUATE IN TOWER

From the Eighth Grade at Exercises to Be Held Next Thursday.

Tower, Minn., May 24.—(Special to The Herald.)—The commencement exercises of the eighth grade school will be held at the Vermillion opera house Thursday evening, June 1. There are twenty-one graduates: George Fredrickson, Carl Peterson, George Pfieffer, Mabel Lee, Esther Larson, Rose Stefoenich, Emily Osterburg, Louis Stefoenich, Mabel Morin, William Mike, Jeanne Gallien, Irene Colburg, Pearl Johnson, William Erickson, Abraham Gordon, Anna Mae Johnston, Belle Kitto, Esther Olson, Lenora Ackrim, Donald Taylor, Ernest Johnson.

The program to be given follows: Song, "Scatter Seeds," girls' chorus; reading, "The Mourning Veil," Irene Colburg; reading, "The Stuffed Owl," Donald Taylor; piano solo, Mabel Morin; reading, "Prior to Miss Belle's Appearance," Pearl Johnson; a comedy, "The Wrong Package," Lenora Ackrim, Esther Olson, Belle Kitto and Anna Mae Johnston; violin solo, Abraham Gordon; class prophecy, Esther Larson, William Erickson, Rose Stefoenich, William Mike, Mabel Morin, Abraham Gordon, Jeanne Gallin, Louis Stefoenich and Emily Osterburg; piano solo, Irene Colburg; class will, Mabel Lee; song, "Johnny Schmoker," boys' chorus; president's farewell address, William Mike; presentation of diplomas, Supt. Cortwright; song, "Good Night," girls' chorus.

The Tower Choral club will take a vacation for the summer and are planning to take up some new chorus work in September. Miss Louisa Kitto, pianist, and Miss Ina Martin, a soloist who did such excellent work in the "Belshazzar" cantata Friday night, are expected to again assist in the fall.



"The Dry Gin with *the* Flavour"

LESS deception is practiced with Coates & Co.'s Gin than any other brand, because Coates is the Original Dry Gin and has a flavour that distinguishes it from all other Brands. Try it in your next rickey, fizz or cocktail—you will be pleasingly surprised with the taste.

Every Hotel, Club, Restaurant and Cafe, has Coates & Co.'s original Plymouth Dry Gin—it is known the world over—there must be a reason.

ENRAGED SETTLER STABS DEPUTY WITH PITCHFORK

George King Wounded Before Peter Vorbanich Is Arrested.

Settler Has Two Slight Gunshot Wounds as Result of Fight.

DEPUTY SHERIFF GEORGE KING,
Who Was Wounded in Fight With Settler.

Deputy Sheriff George King carries three deep wounds on his arm as the result of the fight with Peter Vorbanich, the Waterhen river farmer, who was placed under arrest yesterday afternoon after a desperate fight thirty-six miles north of Virginia, Minn. King and Deputy Sheriff Magie returned to the city this morning.

Vorbanich meant business and did not give up until one finger had been shot off and he had sustained a flesh wound, the result of another shot.

Mr. King's wounds are the result of an attack with a pitchfork by the enraged settler on the deputy sheriffs. The three prongs penetrated to the bone on the arm. If Mr. King had not dodged and raised his arm, the prongs would have gone to the heart and he would not be alive to tell the story today.

Tried to Prevent Assault.

It was impossible to stop Vorbanich, say the deputies. Both men fired several shots in the air, some in the ground, and when he got close they fired between his legs. He refused to be frightened and continued his rush on the men, holding the pitchfork ready to jab into them, until it was necessary to wound him to stop him. He now lies at a Virginia hospital minus one finger and with a flesh wound in his side, but with no dangerous wound. It is not expected that he will be laid up more than a few days. A deputy stands guard over him at the hospital.

Deputy Sheriff Frank Magie, who has had more adventures with bad men and who has been shot more than once in an attempt to make arrests or capture prisoners, says that Vorbanich is the worst "bad man" he has ever tried to arrest.

As soon as they reached Virginia last night, Deputy King had his wounds dressed. Each wound is large and sore and the arm will be useless for some time.

Settlers Frightened.

The deputy sheriffs arrived near the Vorbanich farm early yesterday afternoon. They were accompanied in the automobile in which they made the trip by Superintendent Tailor of the Northern Lumber company and Jacob Saari of Eveleth.

They asked several settlers to accompany them to the farm but every one of them refused. They said that it was as much as their life was worth. They stated that Vorbanich shot at everyone who came near. The settlers to a man were in terror of the man and the deputies were forced to walk the three miles to the farm alone.

The first person they saw on their approach was Mrs. Vorbanich who immediately asked them what they wanted. They explained that they were officers of the law and had come to investigate the trouble.

As soon as they had stated the purpose of their visit, the woman screamed. She then yelled to a young boy about 15 years old, who stood near the cabin, to get the gun. "Get the rifle!" she is said to have exclaimed.

King grabbed the woman and Magie started after the boy. In the meantime, Vorbanich had learned of what was going on and he came on the run from the field in which he was working. He grabbed a pitchfork on his way and rushed at the men like an angry bull.

Disregarded Shots.

Thinking that they could frighten him, King released his hold on the woman and drew his gun. As the man came nearer King shot at the ground, Magie also shot into the ground. Still he came on and King, thinking to frighten him, shot between his legs. This did not stop him and King shot deliberately at his hand cutting off one finger. He was then very close and with no apparent intention of stopping. The woman interfered, grabbed King's hand and Vorbanich lunged at him with the pitchfork. King dodged and the fork, which would have caught him over the heart, took effect in his arm, leaving three wounds, one for each tine of the fork. King then saw that the man really intended to kill him if he could and he yelled to Magie to shot Vorbanich. Magie, who was holding the woman then shot, inflicting a flesh wound.

Boy Drops Rifle.

As he ran, Vorbanich kept yelling to the boy, who had secured the rifle, to shoot. Both men were busy but as soon as Vorbanich had dropped, they directed their attention to the boy who was standing not 100 feet away with the rifle pointed at them. They leveled their revolvers at him and, yelled "Drop that gun!" He dropped the gun and ran into the woods and has not been seen since.

The sheriffs carried the man to their automobile and took him to Virginia, where his wounds were dressed at the hospital.

As soon as the trouble was over Vorbanich began to whine and ask, "What for you shoot me?" The woman was asked why they had acted as they did and she said, "We afraid; We afraid."

Both King and Magie received many compliments on their work of getting their man without killing him, both at Virginia and when they arrived in the city this morning.

Vorbanich is the man who has been having trouble with the Northern Lumber company. He refused to allow the company to float their logs on the river through his farm unless paid for the privilege. They had paid for that privilege, but the time expired a few days ago, and since that time he has driven a number of river drivers from his land at the point of a gun.

The settlers about him were in terror of their lives, and they expressed their satisfaction when they learned that he had been arrested.

VIRGINIA FIRM GIVEN BIG JOB

City Council Awards Contract for Curbing and Other Work.

Virginia, Minn., May 24.—(Special to The Herald.)—That this city will do a large amount of public work this year was illustrated last night when the city council awarded a contract for laying 21,804 lineal feet of cement curbing and gutter to the C. C. Butler Contracting company of Virginia for $11,922.20, also seventy-two catch basins for $900, cement alley crossings at 22½ cents a square foot, cement sidewalks at 12⅞ cents a square foot, excavating below grade 40 cents a square yard, refilling below the sub-grade $1.53 a square yard. The other bidders were the H. L. Bartlett company of Virginia and Johnson & Moynihan of Hibbing. The work is to be completed before Nov. 1 next.

A new ordinance, granting a franchise to the Duluth, Winnipeg & Pacific Railroad company, passed its first reading. One of the conditions of the proposed franchise is that the railroad company shall purchase the public library site for a new depot site, paying therefor not less than $12,500.

A resolution was passed authorizing a revaluation of the real estate property of the city and steps taken to secure a modern revaluation, persons to be selected to act with the city assessor in making such valuation.

Charles Berglund was reappointed assistant city health inspector and assistant poundmaster at an increase in salary of $5 a month, making his compensation $65 a month.

Two applications for licenses to sell liquor were held over till the next regular meeting to give the license committee opportunity to decide whether a representative of the Pabst Brewing company or a local applicant shall be granted a license, the city being entitled to fifty-six saloons under the state law and there being fifty-five licenses in force.

Evelethians to Graduate.

Eveleth, Minn., May 24.—(Special to The Herald.) — The announcement in Tuesdays Herald that William J. Cornwall of this city is among the graduates of the medical department of the Marquette university, was read here with much interest as he is well known. The first two years of his medical course was spent at Minnesota university and the past two years at Marquette university.

Miss Esther Rabinowitz of this city is numbered among the graduates of the St. Cloud normal school. Miss Agnes Mulligan and Miss Irene Davey of this city are also attending the same school.

Abe Feldman of this city graduates next month from the law department of the Michigan university, and may practice in a Duluth law office. Harry Rabinowitz and Paul Erickson, both of Eveleth, are also attending the same department at Ann Arbor.

EVERY SEAT TAKEN

At Two Harbors Entertainment for Boys' Department Y. M. C. A.

Two Harbors, Minn., May 24.—(Special to The Herald.)—The elocutionary entertainment given at the Y. M. C. A. last night was a great success. The program was given by Mrs. J. G. Hamaker's class in elocution to raise funds for the boys' department, and every seat was taken. The recitations were all excellent and the playlets good. The following was the program:

Song, "Ching-a-ling," class; "Kentucky Belle," Madelaine McGee; piano solo, Florence Watts; "The Bald-Headed Man," Lucile Hayes; piano solo, Alice Daniels; "Somebody Did," Bessie Burwick; solo, Anna Claffy; "My Pa Won't Play," Etta Patterson; "The Rain," Pearl Johnson; "A Warning," Mrs. J. G. Hamaker; solo, Lucile Hayes; "Seein' Things," Anna Claffy; "Aunt Matilda's Birthday Party," Florence Watts, Veneta Catlin, Gertrude Hayes, Marian McIlroy, Mamie Bergren, Madelaine McGee, Alice Daniels, Katherine Sullivan, Florence McCurdy, Bessie Burwick and Mildred Wade; "Jean Valjean," Mrs. J. G. Hamaker; "Fudge and the Burglar," Lucile Hayes, Etta Patterson, Anna Claffy, Pearl Johnson and Daisy Patterson; "The Bugle Call," Mrs. J. G. Hamaker.

MEMORIAL SERVICES IN CHURCHES IN EVELETH.

Eveleth, Minn., May 24.—(Special to The Herald.)—Rev. B. D. Hanscom will conduct memorial services at the M. E. church Sunday.

The three local Civil war veterans, Charles McNamara, Enos Rennier and C. Richardson, will be present at the services. Special music will be given by the choir. At the morning services Rev. Hanscom will speak on "Heroes" and in the evening on "Cowards."

Arrangements are being made by Charles A. McNamara and Burton O. Greening of the Memorial day committee, to have special patriotic numbers rendered at the celebration May 30, at the high school, by a local quartet of singers, composed of Raymond M. Duncan, R. J. Coole, Cass U. Jenkins and Fergus R. Ellsworth. Frank J. Webb has been invited to read the Gettysburg address, while Assistant County Attorney Warren E. Greene, will deliver the principal oration of the day.

Appropriate memorial services will also be held at the First Presbyterian church by Rev. Phillip A. Schwarz, Jr.

Automobiles in Collision.

The automobiles of E. M. Tredway and James Walsh were damaged in a collision on East Superior street between Sixteenth and Seventeenth avenues east, about 9 o'clock last night.

The cars were put out of commission and tied up street car traffic for about half an hour before they could be removed from the tracks. The Tredway car was turning around and the Walsh car is said to have run into it. Nobody was injured.

FRAUD TITLE PROBE

Is Expected By Federal Grand Jury at Fergus Falls.

Fergus Falls, Minn., May 24.—United States court opened here Tuesday, Judge Amidon coming from Fargo to sit on the bench. Great interest centers about the opening of the term, as a large number of additional cases to annul deeds given by alleged full-blooded Indians to White Earth lands have just been filed, bringing the total up to 1,000.

It is believed that none of these cases will be tried at the present term. One case of alleged fraud in obtaining land from an Indian is to be tried, but the government is not a party to it.

Interest in the term will center in the action of the grand jury, which is about to undertake a general investigation of alleged frauds that have been practiced in obtaining titles to the land.

United States District Attorney Haupt, Assistant District Attorney Dickey, Judge E. H. Long, Gordon Cain and Oliver H. Pagan arrived this morning to represent the government.

Thirty-two Indian witnesses are already on hand to give their testimony before the grand jury, and twenty-five are coming in tonight. Fifty more will arrive later. Investigation is being undertaken by direction of Attorney General Wickersham and it is expected that the grand jury will go to the bottom of affairs.

UNIDENTIFIED BODY FOUND NEAR WASHBURN.

Washburn, Wis., May 24. — The remnants of a decomposed body were taken from the bay near here last Saturday, and it was surmised at the time that it might be that of Harry Kelley, who disappeared while skating about four years ago, but the body could not be identified.

You'll Do Better at Kelly's.

FOR A TONIC NOTHING EQUALS S.S.S.

The need of a tonic in the Spring is almost universally recognized. We have learned that a weakened, run-down system means more than "Spring Fever," as we are accustomed to refer to the physical disturbances which come at this season. Bodily fatigue, fickle appetite, poor digestion, nervousness, lack of energy, etc., prove that the proper amount of nourishment is not being supplied to the body through the circulation. The stomach, bowels and digestive members are sluggish from lack of stimulating nutrition, and in consequence the entire body suffers from the effects of a poorly nourished constitution.

The recognized importance of pure blood in preserving health emphasizes the danger of a weakened circulation. The use of a real blood-purifying tonic when the system is deranged from lack of nourishment, will often prevent the development of some serious sickness, because weak systems cannot resist disease, while healthy, well nourished constitutions are able to ward it off. No medicine is of value as a tonic except one which purifies and enriches the blood, for until this is done the body will not receive its required stimulus and disease-resisting powers.

Your S. S. S. in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to purify and enrich the blood and to invigorate and tone up the system. Last Spring my blood was bad and I was run down in health, and having seen your medicine highly advertised, I commenced its use. Today my blood is in fine condition and my general health is of the best. Am filling position as fireman of a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place.
WM. F. VAN DYKE.
815 Fifth St., Beaver Falls, Penn.

S. S. S. is the best Spring tonic because of its genuine ability and worth as a blood purifier. It builds up the depleted system in the true way, by purifying the blood and supplying an increased amount of nourishment to every portion of the body. S. S. S. removes all accumulations and impurities from the circulation, enriches the blood, and overcomes the unpleasant physical ailments that afflict at Spring time. It aids and improves the appetite, reinvigorates every fibre and tissue of the body and imparts healthful energy to all who are run down. S. S. S. is for sale at drug stores.

WIFE DIES IN ENGLAND

Mrs. Sophia Anderson Was Coming to America to Join Husband.

Husband Hears of Death From Another Passenger on Steamer.

Mrs. Sophia Anderson, who died at Hull, England last week, was the wife of August Anderson of 316 North Fifty-third avenue west, and was on her way to West Duluth from Finland. She was to have joined her husband this month.

Anderson yesterday learned of her death through a passenger on the same boat, which carried Mrs. Anderson from Hango, Finland to England. Mrs. Anderson was buried at Hull and her belongings were turned over to the Russian consul.

Anderson sent her transportation across the ocean several weeks ago. She left her home at Hango on April 24 and secured a passage on the Laurentic as far as Hull. She was to have taken another steamer from Hull to America, but died from some unknown cause while in England.

No details of her death have reached Mr. Anderson.

Margaret Ek Dies.

Margaret, 1-year-old daughter of Mr. and Mrs. Mauritz Ek, died this morning at the family residence, 6114 Worden street. The funeral will be held tomorrow afternoon at 2 o'clock from the home, with interment at Oneota cemetery.

PROTECTED HIS FORTUNE

Steel Plant Laborer Had Forty-Five Cents and Feared Robbers.

Fired Three Shots to Frighten Anybody Having Designs on His Money.

With a six-shooter in one hand and a half-pint of whisky in the other, Steve Talaic, aged 24, steel plant laborer, last evening imagined that the forty-five cents which he had in his pockets was a young fortune and shot several times in the air for "self-protection."

The shooting took place about 10:30 o'clock about three-quarters of a mile from Fire Hall No. 10 at New Duluth. Patrolman L. A. Root and Henry Brouillette heard three shots in quick succession and rushed to the scene of a supposed tragedy on bicycles.

Policeman Root was ahead and when he came up to Talaic, the latter flashed the gun in the officer's face. Root threw himself at the man and choking him with one hand, he wrenched the gun from Talaic's grasp with the other.

The man was intoxicated and was easily overpowered by the officers. He was held in custody at the New Duluth police station over night and brought to the municipal court this morning. Talaic claimed that the shooting was done to "keep off robbers" and that he intended to "scare anyone who would rob him." After a thorough search only forty-five cents was found on him.

New Society Will Meet

A meeting of the recently organized West Duluth Educational association will be held tomorrow evening at the Irving school, Fifty-seventh avenue west and Nicollet street. Mayor Cullum, J. A. Keyes, A. G. McKnight and Miss Mary McFadden will be among the speakers. The association is a non-partisan, civic oragnization.

ROBBERY IS INTERRUPTED

Alleged Hold-Up Man Is Captured After Long Chase.

After he had forced his intended victim to "throw up" his hands, and before he could rob him, it is alleged, passersby prevented Eli Diazig from rifling the pockets of a fellow countryman, Rad Crupick, at New Duluth last evening.

The alleged "hold-up" took place in front of the real estate office of A. C. Volk & Co in the Gary division, about a mile northwest of the New Duluth fire hall. Diazig, when he sighted two men approaching, turned and ran.

Crupick had $60 on his person. Diazig was captured at Pittsburg, about three miles from New Duluth by Officer Brouillette, brought back to the steel plant suburb and lodged in jail. He will be brought to Duluth for trial in the municipal court.

Diazig was armed when placed under arrest. He offered no resistance.

PROCTOR BOY DIES; FATHER NEAR DEATH.

Pneumonia proved fatal to Howard Campbell, 2 years old, and may also claim as its victim the father of the boy, William Campbell of Proctor. The child died this morning at 2 o'clock and was buried this afternoon at Oneota cemetery. Mr. Campbell, who is also afflicted, is said to be in a very critical condition and may not live.

Will Present Playlet.

A literary program and playlet will be given on Wednesday evening, May 24, at the West Duluth Baptist church, corner of Fifty-ninth avenue west and Grand avenue.

The program is as follows:

Playlet—"The Beresford Benevolent Society".....

Vocal solo.....
Miss Annabelle Nettleton.
Vocal solo.....
Mr. Mummert.

West Duluth Briefs.

Concert—Great Eastern hall, tomorrow, 8:15 p. m., given under the direction of Rev. Sievers. Admission 50 cents.

For sale—A Radiant Home double heater and range; also a small heater, at 1019 North Fifty-seventh avenue, West Duluth.

Judge J. B. Flack, who has been visiting relatives for the past few days at Akeley, Minn., returned this morning to his home, 5717 Cody street.

An interesting lecture will be held Friday evening at Victor hall, Grand avenue, on the subject "Waymark to the Holy City." The lecture will be delivered in the Swedish language.

Mr. and Mrs. Lewis Ritken of Proctor were West Duluth business visitors this morning.

The Smithville baseball team will entertain at a dancing party Saturday evening, June 3 at the new Smithville hall.

Rev. D. W. Lynch of St. James Catholic church has returned from Brainerd.

Martin Roach is expected to return tomorrow from a visit at New Richmond, Wis.

A small wreck occurred on the Northern Pacific tracks at Fifty-sixth avenue west, when a Duluth & Iron Range engine collided with a flat car loaded with logs. One side of the engine cab was torn off. No one was hurt.

Watch repairing. Hurst, W. Duluth.

Mrs. T. F. Olson will entertain the Foreign and Home Missionary Societies of Plymouth Congregational church at her home, 512 North Fifty-ninth avenue west.

CITY BRIEFS

Printing and Bookbinding
Thwing-Stewart Co. Both 'phones, 114.

Sent Back To Canada.
Five Austrians, who did not have $25 each, as required for admission to the United States, were ordered sent back to Port Arthur by Inspector-in-Charge Brown McDonald of the immigration service, on the arrival of the steamer Easton yesterday. The men had formerly worked at Chisholm and went to Canada a few months ago.

Horse Had Glanders.
The health department has killed one horse for glanders and has two others under investigation for the same disease. They were found in the West end and came from a lumber camp. The state board of health has been notified and all horses which may have been affected by the disease are being tested. Five tubercular cows were also killed as a result of tests which have been made in herds throughout the city.

Cut Flowers.
We are now supplied from day to day with fresh cut flowers of all varieties, which we are selling at very low prices. Let us fill your orders. California Fruit store, 215 West Superior street, St. James' Hotel building.

Lineman Has Narrow Escape.
A. Cornell, a lineman of the Zenith Telephone company, scorched a finger on each hand yesterday afternoon while at work at the top of a pole on Duluth Heights yesterday afternoon. He was not seriously injured and an official of the company stated this morning that he be back to work today, although he had a narrow escape.

Postoffice Hours.
Tuesday, May 30, Memorial day, being a legal holiday, there will be one carrier delivery all over the city in the morning. The stamp and general delivery windows will be open from 9:30 to 10:30 a. m.

Public Accountant and Auditor.
James S. Matteson has removed his office to Suite 703, Alworth building. Telephone, Melrose 4700.

Creditors File Claims.
A petition in involuntary bankruptcy was filed in United States court today against the Little Duluth Clothing company, of which E. Abelson is president. The petition was filed by L. A. Sherwin of Duluth and M. Gimbel & Sons, and Cohen & Straus of Chicago. Sherwin alleges that the company owes him $334.26; the claim of M. Gimbel & Sons amounts to $772, and Cohan & Straus claim a balance of $20.

Island Lake Inn Opened.
The Island Lake inn, eighteen miles from the city, is proving a popular outing place for automobile parties. It was opened last Sunday and was visited by several scores of Duluthians. The inn is ideally situated on a hill overlooking one of the prettiest lakes in the upper part of the state. The lake has been popular with fishermen for years.

Verdict For Defendant.
The suit of Fred Walker and Charles Dowd against J. J. Haley for three months' rent alleged to be due on an unexpired lease for the premises formerly occupied by Haley's restaurant, was decided in favor of the defendant by the jury. The amount demanded was $4000 for one month. No action for more than $500 can be brought in the municipal court, but although $1,200 was practically involved, the decision relative to one month would determine whether or not the collection could be made.

Asks For Hearing.
Charles Hill, acquitted in district court yesterday on a charge of manslaughter, was arraigned in police court this morning on a charge of carrying concealed weapons. He asked for an examination and his hearing was set for Friday morning.

Promises to Pay Bill.
George Ray pleaded guilty to defrauding an inn-keeper when arraigned in police court yesterday. It was claimed that he failed to settle with Clara Nordlund of 211 Fifty-second avenue west for a month's board. Sentence was suspended on his promise to pay what he owed.

Pleads Not Guilty.
William Pflager pleaded not guilty to assaulting Rudolph Wideman when arraigned in police court today. Wideman denied that he was drunk when arraigned on that charge and both cases were set over until this afternoon for disposition. Pflager told the court that after they had been put in the big jail Wideman drew a knife from his pocket and tried to slash him.

"Bad Man" Say Police.
Mike Spriggs was labeled a "bad man" by the police when he was arraigned in police court this morning on a charge of drunkenness. He was said to be the man who sank his teeth into the hand of Jailer Louis Johnson, causing blood poisoning. Last night it was stated that he threw a chair through the window of a Bowery saloon. He got $40 and costs or thirty days in the county jail. He took the thirty days because of inability to make a choice.

Too Eager For Drink.
Jean Hannah got $40 and costs or thirty days in the county jail when he pleaded guilty in police court this morning to assaulting M. Rocklin, bartender in a Bowery saloon. The bartender claimed that he "bummed" him for a drink, and when refused, struck him in the face.

Held for Non-Support.
The case against Matt Miller, arrested on a charge of non-support, was continued for thirty days in police court this morning to give him a chance to patch up his differences with his wife. The complaint was made by his wife.

Flower Social.
The Good Templar lodges of the city will give a flower social tomorrow evening at Sloan's hall, Twentieth avenue west and Superior street. The proceeds will be used for the entertainment of delegates who will be in Duluth, June 22, 23, and 24 to attend the meeting of the Scandinavian grand lodge. The affair is in charge of a general committee of the local lodges.

PERSONAL

Andrew Anderson of Floodwood is at the St. Louis.

J. I. Wilkie of Hibbing is at the St. Louis.

William Orr of Orr is at the St. Louis.

F. J. Underhill of Cloquet is at the St. Louis.

Mrs. William Kaiser of 11 East Fourth street has returned from the East.

NATIONAL COUNCIL PLAN IS PROPOSED.

Mohonk Lake, N. Y., May 24.—The report of the Mohonk committee appointed two years ago to consider the establishment of a national council for arbitration and peace was presented today by Dr. George W. Kirchwey, dean of the Columbia law school. It creates such council, with the following members:

President, Nicholas Murray Butler; Senator Theodore E. Burton, Dr. Samuel T. Dutton, Hamilton Holt, Theodore Marburg, William J. Bryan, Dr. George W. Kirchwey, Edwin D. Meade, Senator Elihu Root, Daniel Smiley, Dr. James Brown Scott, Dr. Benjamin F. Trueblood, President E. D. Warefield, Miss Jane Addams and Mrs. Fanny Fern Andrews.

"The purpose of the council," said the resolution, "shall be to promote a more effective organization and direction of all agencies in the United States working for international peace and good will, and to conduct in every proper way to secure co-operation and concentration of effort on the part of the peace workers of the country."

William J. Bryan led the general discussion.

A. O. U. W.

Thursday Evening, May 25th, Maccabee Hall, 23 Lake avenue north. All workmen should arrange to be at the joint meeting tomorrow evening.

DON'T FAIL.

TRY OIL CASE IN FALL.

Court at Rochester Has Special Plea Under Advisement.

Rochester, N. Y., May 24.—The main case of the government against the Standard Oil Company on an indictment charging the acceptance of rebates will not be placed on trial before fall, it then.

Following the close of the government's argument on the question at issue under the "special plea in bar," Judge Hazel adjourned the present term of United states court and announced that he would take the question under advisement and hand down a decision during the summer. Whatever that decision, an appeal to the United States supreme court either by the government or the defendant company is probable, so that the trial of the main issue may be postponed indefinitely.

The question at issue is whether a man can twice be placed in jeopardy for the same offense. It is a point in procedure that, so far as known, has never before been raised in the United States courts under the interstate commerce law.

BARON VON STERNBERG GUEST OF C. B. MILLER.

Washington, May 24.—(Special to The Herald.)—Representative Miller has had as his guest during the week, Baron H. Von Sternberg, who recently visited Duluth. Baron Von Sternberg left Washington today for New York and will sail for Germany tomorrow.

SENATOR GORE CANNOT COME TO MINNESOTA.

Washington, May 24.—(Special to The Herald.)—Senator Gore of Oklahoma, who was invited by President George F. James of the Minnesota Educational association to address them during their convention which meets in October, today advised Representative Miller that he would be unable to accept.

THINKS IT WORTH $75,000 TO BE A CRIPPLE FOR LIFE

Is it worth $75,000 to be crippled for life?

Andrew Grenier is suing the Cloquet Lumber company for that amount, claiming that while he was employed by the company at Cloquet, a load of logs fell on him, crushing his back and leaving him a cripple.

He says that it is necessary for him to have a trained nurse in constant attendance, and he says he will never recover the use of his limbs.

He also wants $2,000 as special damages for doctor's fees and money expended for hospital bills and medicine.

The company in its answer claims to have settled his claim for $450.

COPPERS DECLINE; STEEL THE CAUSE

Industrials Weaken Other Markets—Merger In Prospect.

Heavy selling in steel caused weakness in the coppers and other stocks today which declined. Steel was sold heavily. It is reported that U. S. Steel corporation will declare an open market and that prices will be reduced. The Republic Iron & Steel company, it is reported, will declare itself independent of any co-operation with other steel companies and will make its own prices without regard to the attitude of the U. S. Steel corporation.

Rumors were in the air today concerning a proposed copper merger which, it is said, is in the course of formation. The copper metal was higher, electrolytic selling at 12⅜c.

Calumet & Arizona declared a dividend of $1 today payable July 3 to stock of record June 21.

Amalgamater sold at $68, $67.87½, $68.12½ to $67.12½. Butte Ballaklava at $4.76, Firoux at $6.37½ to $6.25, Calumet & Arizona at $56.50, $57, $56.50 and then at $56, Butte Coalition at $20.25 to $20.50, Greene at $7 to $6.93¾, North Butte at $34 to $34.75 to $33.50, Ojibway at $7.12½, Superior & Pittsburg at $16, Shattuck at $18.50, Calumet & Montana sold at 38c and 39c.

Boston wired Paine, Webber & Co.: The electrolytic copper market was strong on a 12⅝-cent, thirty days, f. o. b., New York basis today following the advance inaugurated yesterday by one or two agencies who had disposed of all the 12.25@12.30-cent copper that they desired. The only seller which had not come out openly at better than 12¾ cents was the United Metals Selling Co., notwithstanding that on Tuesday it twice advanced its price in London, while offering the metal during the morning in New York to consumers at 12.25 cents. It is understood, however, that they have not become anxious sellers. June and July deliveries were quite eagerly sought by valley buyers as well as Western consumers. So well has next month's metal been marketed that some of the agencies have practically sold out for that delivery. Judging from the way in which Amalgamated has been naming new quotations abroad it would appear that this company will try to place as large a tonnage as possible in foreign hands. Consumption, particularly in Germany, has been that more copper than ever has been put into actual use.

Calumet & Hecla has raised the price of its Buffalo electrolytic from 12¾ to 12⅝ cents a pound. For good lake brands there has not yet sprung up an inquiry commensurate with that in electrolytic grades.

The Butte-Ballakalava Copper company whose headquarters are in this city, has commenced an action against the Anaconda Copper Mining company to recover $1,376,095, alleged to be the value of ores claimed to have been illegally extracted from veins owned by the Butte-Ballaklava Copper company during the past several years. There are four counts in the suit covering different periods of illegal ore extration.

The action was filed in the courts at Butte, Mont., and is the beginning of one of the biggest mining suits started since the famous Heinze Amalgamated Copper litigation.

THE PORTABLE MINE.

Los Angeles Times: Robert Womack, though he discovered the rich Cripple Creek gold lands, made no profit from his discovery, and recently died at Colorado Springs in poverty.

"Womack naturally was a cynic about mines," said a Colorado Springs lawyer. "He was always cautioning me against mining sharks. Once he told me a bit of the inside history of a mine, the Gold Bug, that I thought of buying stock in.

"Womack said that samples of quartz from the Gold Bug's 'reef' were sent to New York and exhibited. The reef is the gold bearing vein, you know. It is the mine proper. Well, the quartz samples were very rich, money flowed into the New York office, and in a state of great expectation the New York directors wired to the manager of the mine:

"'Commence crushing at once.'

"The manager wired back:

"'Can't till you return the reef.'"

FOUR MEN ARE KILLED BY EXPLOSION IN HIBBING

Placing Charge in Sellers Pit When the Powder Goes Off.

One Victim's Head Blown From the Pit Upon the Bank.

Hibbing, Minn., May 24.—(Special to The Herald.)—Four men whose names are not known at 3 p. m., were blown to pieces by a premature explosion in the Sellers, an open-pit mine here, shortly before 2 o'clock this afternoon.

The names of the victims and other particulars are not available, but it is understood the fatalities resulted from an unexpected explosion that came as one of men was charging a blast and the others were helping.

The explosion occurred about 125 feet from the north approach to the mine. The force of the explosion was so terrific that the head of one victim was blown out of the pit and upon the bank, and all were terribly lacerated. One of the men is understood to have been an Italian and the others Austrians.

Later—Three instead of four men were killed at the Sellers pit. The explosion occurred about 400 yards east of the new First avenue viaduct. The victims were blown all to pieces only fragments of flesh being found.

ONE MAN FIXED PRICES.

Evidence Is Given in Missouri Lumber Trust Case.

St. Louis, Mo., May 24.—That the secretary of the Yellow Pine Manufacturers' association fixed the monthly price list of the organization arbitrarily, often without reference to trade conditions reported by sixty-three corporations and that this price list was binding on members, were facts which Assistant Attorney General Atkinson sought to prove in the hearing of the state's ouster against the so-called lumber trust.

In an effort to show that George K. Smith, the secretary, was an absolute power in fixing the price list, the assistant attorney general cited that the secretary raised the price for February, 1908, 50 cents per 1,000 feet over the January price, notwithstanding that only one corporation quoted a high price. Smith's explanation was that he had other information direct from members on which he based the increase in the cost of lumber.

Closing hours of the day's session were utilized successfully by the state in seeking to have admitted as evidence an abstract of an address at a meeting in New Orleans in 1905, by J. Lewis Thompson of Woodward, Tex., explaining how an increase in prices and curtailment at the mills was effected.

DEATHS AND FUNERALS

MEYERS—Charles B. Meyers, 44 years of age, who has been residing at 2804 Helm street, died last night in the Thomas hospital at Minneapolis. He is survived by six children, his wife being dead. He was formerly a brakeman on the Northern Pacific passenger train running between Duluth and the Twin Cities. The funeral will take place Friday morning at 9 o'clock from St. Clement's church in the West end. Interment will be at Calvary cemetery.

JOHANSON—The body of Olaf Johanson, who was drowned with Theodore Okeson at Rice lake Sunday evening, will be sent to Chicago this evening, for interment. The local authorities got into communication with his brother in that city. Johanson was a member of the Maccabee lodge. A brother of Okeson reached Duluth from Fargo today, but has as yet not completed funeral arrangements. Both the dead men were local tailors and were members of a party of six who went to the lake Sunday to fish. The others left the two men fishing and when they did not show up in the morning a search was started which resulted in the finding of their bodies. The indications were that Johanson fell overboard and that Okeson lost his life trying to save him.

DIPHTHERIA IS SPREADING

Son aad Sister of Dr. Northrop Among New Victims.

Thirty More Students and Some University Professors Quarantined.

Minneapolis, Minn., May 24.—(Special to The Herald.)—The epidemic of diptheria on the university campus today increased by two cases when Cyrus Northrop, Jr., son of President Emeritus Northrop, and Miss Sarah Northrop, a sister of Dr. Northrop, became afflicted.

The home of the veteran educator, who is now traveling through the East, has been placed under quarantine by the Minneapolis board of health.

Dr. R. H. Mullin, director of the state board of health laboratory, was today quarantined in his home, 827 University avenue southeast. Dr. Mullin is not sick but is infected with bacilli due to exposures in taking the cultures of more than 200 infected persons.

In addition to the thirty cases where the epidemic already exists, thirty more students were barred today from the university because of infection.

Some of Faculty Ill.

Among the faculty who cannot attend classes are Pro. C. D. Allen of the department of economics and political science, and Prof. Wallace Notestein of the department of history. They are quarantined at their homes.

Prof. William Davis, professor of history, lies ill with diphtheria.

SAYS NYE ASKED HIM FOR BRIBE

Ohio State Printer Testifies in Trial at Columbus.

Columbus, Ohio, May 24.—The first direct testimony that Representative George B. Nye of Pike county had solicited a bribe for pushing through a bill in the legislature, was offered before Judge Kinkead in criminal court today when State Printer Crawford went on the stand.

Mr. Crawford testified that Mr. Nye had visited his office in the state house on April 18 last. He was not in and Crawford later in the day went to see Nye.

"The Kimble bill, providing for the redistricting of the Adams county judicial district was brought up," said Crawford.

"Nye told me that he was willing to put up $500 to push this bill through. He said that it would take $500 as some of the boys in the legislature must be taken care of, some of the Republicans whom he stood in with."

Crawford admitted, during his examination, that he and Nye had had some bitter differences in a political way.

OBITUARY

Walter Angelo Powell, 83 years old, is dead at his home in St. Joseph, Mo. Mr. Powell and Robert Mills designed the extension to the capitol at Washington in President Fillmore's administration. He served throughout the Civil war as a civil engineer under Fremont and Rosecrans, and built the fortifications at Winchester, Harper's Ferry and other places.

Frederick A. Wight, a millionaire cattle and sheep raiser, with large interests in Texas, New Mexico and Southern Colorado, was found dead in bed at his home in Denver, Colo., May 23. Death was due to apoplexy. Mr. Wight was 74 years old and is survived by a widow and seven children. Among Mr. Wight's holdings is a 90,000-acre ranch near Texline, Tex., stocked with thousands of blooded cattle.

PENNINGTON WILL SEND DELEGATION TO DULUTH.

Thief River Falls, Minn., May 24.—(Special to The Herald.)—A banquet will be tendered Representative D. P. O'Neill of this city at the Ogeman hotel this evening by the Commercial club in recognition of his work in the recent session of the legislature. It is expected that advantage will be taken to appoint a committee to attend the development convention at Duluth. Pennington county will have a large delegation present and every other county in this northwestern section of the state will send a number of representatives to the Head of the Lakes.

CAME BY IT NATURALLY.

Catholic Standard and Times: "I suppose you consider my hauteur mere affectation," began Miss Parvenue.

"Not at all," Miss Bright hastened to say. "Your scornful expression is quite natural."

"Ah!"

"Yes, I suppose you lived for a great many years in the neighborhood of your father's glue factory."

FISHER FOR MORE SAFETY

New Secretary of the Interior Speaks in New York.

Urges More Protection Against Disasters By Forest Fire.

New York, May 24.—Walter L. Fisher, the new secretary of the interior, delivered his first public official speech here today at the meeting of the National Fire Protection association.

Secretary Fisher's subject was "Fire Waste and its Remedy." He declared that the national government was trying to reduce this loss by requiring fire-proof material in the construction of its buildings and making experiments to ascertain the best material to use. Neglect of these precautions, he said, was mainly the fault of municipalities. Government satistics, he asserted, showed that the annual fire loss was one-half the value of the new buildings erected during the year.

Fire Loss as Tax.

"If the government," said Secretary Fisher, "should suddenly lay an annual tax of $2.51 on every man, woman and child in the United States on a promise of spending the money for some useful purpose, that promise would not avail against the storm of protest which would be aroused.

"Nevertheless, a tax which in the aggregate amounts to that is being paid by the people of this country. It is the annual fire loss of the nation upon buildings and their contents alone. It is expended not in productive enterprise, but in death and destruction; and an even larger sum is annually expended upon fire protection and insurance premiums.

"Not only is this property loss paid by our people, but, in addition, annually 1,500 persons give up their lives and nearly 6,000 are injured by fires. Possibly in no other direction is the national habit of waste more clearly exemplified than in the comparative indifference with which we permit such a sacrifice. In no other civilized country are conditions so bad as the are here."

Forest Fire Record.

Turning to forest fires, the secretary said:

"Last year's record is a red and bloody one. eventy-six men employed by the national government lost their lives in fighting forest fires in 1910. Nearly 5,000,000 acres of national forest land were burned over—an area greater in extent than the whole state of New Jersey; in fact, an area only a trifle smaller than the combined area of Connecticut, Delware and Rhode Island. Uncle Sam first of all should set the example by properly protecting that which is his. It is the policy of the government not to insure its buildings against loss by fire, but to reduce the risk of fire.

Ordinances and Officials.

"Ordinances for safeguarding explosives and combustibles have been adopted in some of the cities. Investigations which have been made by the national board of fire underwriters have focused attention on one of the sources of failure, and that is, partisan politics in municipal fire departments. Where appointments of fire chiefs and fire marshals and firemen are dependent on merit rather than on political contingencies, the public receives a larger measure of protection.

"To arouse the people against the fire foe is our task. The average American citizen would admit that our fire waste is in the nature of a national disgrace. The task is to make him do something to remedy conditions. You must popularize your movement and create a general demand for adequate laws and thorough enforcement."

SOLDIERS' COMPLIMENTS.

Youth's Companion: Lack of petty jealousy is one of the distinguishing marks of the great. To be entirely frank in the appreciation of a rival is better than to win a battle. Lee and Jackson, the two great generals of the South during the Civil war, were absolutely free from even a trace of rivalry. Theodore A. Dodge quotes a remark from each in his article on Chancellorsville.

"He is the one man I would follow blind-folded," said Jackson of Lee.

When Gen. Lee heard of Jackson's wound he exclaimed:

"He has lost his left arm, but I have lost my right!"

FILLING THE JURY BOX.

The long delay in the selection of the jury in the second trial of Lee O'Neil Brown in Chicago recently, when three weeks were consumed, in the course of which 800 veniremen were summoned by the court, serves to call public attention again to the need for more expeditious methods of selecting juries in important cases.

"We have on another occasion referred to the Gilhooley and Shea cases," says a writer in the Journal of Criminal Law and Criminology. "In the former nine and a half weeks were required to complete the panel, and in the latter thirteen and a half weeks. In the Gilhooley case 4,150 veniremen were summoned, nearly 4,000,000 words being used in conducting the examination of them. The cost in fees to veniremen and jurors amounted to more than $4,000, and their hotel expenses aggregated $2,000 more.

"In the first trial of Shea 9,425 veniremen were summoned, of whom 4,821 were actually examined, the cost in jury fees alone amounting to more than $13,000. In San Francisco recently ninety-one days were consumed in the selection of a jury to try Patrick Calhoun on the charge of bribery, and in the Cooper case in Tennessee several weeks were similarly consumed.

"Aside from the waste of time and expense such delays tend to increase the aversion to jury duty on the part of professional and business men, thus rendering the task of selection more difficult. It is not to be wondered at that a man who is confronted with the prospect of being kept away from his home and business in a virtual state of imprisonment for weeks and possibly months before the trial is really started should, when asked if he knows any reason why he cannot render an impartial verdict, resolve the doubt in favor of his own comfort and liberty by professing which really does not exist in his mind.

"In our judgment it should be necessary to ask a venireman only two questions: first, whether he is in any way related to the accused or his victim, and second, whether he knows of any reason why he cannot render a verdict in accordance with the evidence presented.

"The irrelevant, long drawn out interrogatories often resorted to by counsel are unnecessary and ought not to be permitted. In the Gilhooley case referred to above one juror was interrogated for an hour and three quarters in regard to his past life, his domestic, business and social relationship and many other matters which were immaterial.

"Another juror was asked seventy-three questions by counsel for defense and almost as many by the prosecuting attorney. In the Iroquis theater fire case jurors were asked whether they were opposed to dancing, whether they were fond of music, whether they believed in theater, going, whether they had any prejudices against city people, whether any of their families were ever hurt in a fire, what newspapers they were accustomed to read and many other questions of a similar character.

"According to the English practice, the requirement of due process of law in the selection of jurors is fully satisfied by the two inquiries mentioned above, and the protracted rambling interrogatories which have come to be a regular feature of nearly every important trial in this country are not permitted. The result is that rarely more than an hour is ever consumed by an English court in completing a panel in the most difficult case."

ADDITIONAL SPORTS

TYRUS COBB GREATEST OF ALL BASE-STEALERS

Detroit, Mich., May 23.—Ty Cobb is the greatest base-stealer in the game. There is no getting away from it, although many will claim that Eddie Collins, the fleet-footed Athletic, is his superior. Last season Collins lightly outplitered the speedy Tiger, but Cobb ran him a close second. One year's work alone cannot earn Collins the crown, says W. S. Farnsworth. Wait until he has played as long as the "Georgia peach" and then see if his base-stealing record totals as high as Hughey Jennings' bearcat.

The elements of Cobb's success as a run-getter are several. In the first place, of course, he is a wonderful hitter. Only one man in the American league outhit him last season, and that was Joe Jackson of the Cleveland club, who performed in only twenty games near the end of the season.

Jackson hit .387, while Cobb's final average was .385. It's a cinch that, if the Nap had played in as many games, his mark would not have been as high.

There were many others who hit nearly as hard as Cobb and yet didn't steal half as many bases. Cobb's wonderful ability to pilfer is due to his great speed and quick judgment, as well as his consummate nerve in advancing each step on his journey after making his start.

Cobb's fame came to him early on account of his introduction of new and original methods of base running, in sharp contra-distinction of the old style of advancing.

Most clubs still rely mainly on signals between the manager, the batter and the base runner. The runner must wait for his signal and then work in combination with the batter. This is the modern scientific method, and it is the most effective when dealing with the average base runner, who needs help from the batter in making his way around the sacks.

But Cobb, while he is ready to play a team game when it looks like the best thing to do, does not depend to any great extent on assistance in going his way. He is a very fast man and a remarkably quick starter. More importnt still, he is a quick thinker and capable of out-guessing the average opponent more than half the time.

The opposition has little chance to out-guess him, for when once he gets on, he is always ready to advance and does not tip off what move he is going to make.

Cobb takes a big lead off any base he may be occupying, and is always a source of great worry and annoyance to the opposing team, especially the pitcher and catcher. The instant he gets on he has everybody up in the air.

His tremendous speed is always in his favor, and his boldness in executing his moves is extraordinary. He can slide in any style, and he comes into a bag with a rush that is terrifying to the guardian of the sack, accompanied as it is, by flashing of polished spikes in the air.

Cobb has been called a "dirty player," but only by players who have failed to head off his wild dashes around the paths. There is nothing vicious or dirty in his playing. He simply sets out to gain his point and the opposition must make way for him or suffer the consequences. He runs the bases without thought of injury to himself or others, and so he draws five times the salary of the cautious athlete who is always getting out of somebody's way.

Cobb is the cause of more wild throws than any other player in the game today. He takes such a big lead that it always looks as though there was a chance to get him, but the throw must be hurried to nail the fleet-footed lad, and often the result is a wild chuck.

Old Cy Young tells a story about Cobb's way of doing business on the bases which is typical of his methods and fearless style.

"It was when I was with the Boston club," says Cy, "and we were playing Detroit one day, Cobb came to bat and bounced one down in front of the plate. He was off like a shot for first base, but should have been a comparatively easy out at that. The pitcher, however, hurried, as a man always does when Cobb is marching around, and threw slightly wild.

"The first baseman reached out for the ball and partially stopped it, but could not quite hold it and it caromed off his glove a few feet. Cobb just kept on going, making the turn at full speed and heading for second. Again there were oceans of time to nail him, but the first sacker in his haste, tossed high. The shortstop, who covered second, had to jump for the ball. It bounded off his finger tips and rolled into left center field for three or four yards.

"Cobb kept on going, never slackening his speed and dashing for third base with all his might. The ball was quickly recovered and once again there was certainty of putting him out with a good play.

"But all the infielders were now up in the air and none was sure of his aim. The shortstop's throw to third was low. The ball bounced off the shins of the third baseman and rolled into foul ground. Cobb kept right on going. He rounded third still at the limit of his speed, and rushed along for the plate.

"For the fourth time he could have been headed off, for the throw was short and there was plenty of time to get him after the third baseman had recovered the ball. This time the throw was fairly good, but low and Cobb coming into the plate with one of his long feet-first slides, succeeded in kicking the ball out of the catcher's mitt, slid over the plate and scored his run.

MINNEAPOLIS MAN TO LEAD WILLIAMS TEAM.

Williamston, Mass., May 24.—The Williams college track team has elected Irving D. Fish of Minneapolis a member of the class of 1912, captain of the 'varsity track team for next year. Fish was one of the point winners for Williams in her victory in the New England intercollegiate games at Springfield last week, and is also prominent as a football man.

ROAD THAT MADE MISSOURI.

The most famous highway in the Central West was the Boon's Lick road. Surveyed in 1815 from St. Charles, twenty-five miles west of St. Louis, to Old Franklin, Mo., 150 miles further west, it turned immigration toward Central Missouri and six years later brought Missouri into the Union as a state.

It was the road that made Missouri, says the World Today. It was the father of the Santa Fe trail, which extending west from Old Franklin brought commerce and immigration to Kansas, Colorado, and New Mexico. The making of roads means the building of commonwealths. The Boon's Lick road is a notable though almost forgotten example.

In 1804 two sons of Daniel Boone, the great pioneer of the West, Daniel and Nathan Boone, made salt at salt springs found in Central Missouri. The country was then a wilderness. The Boones and their companions were the only white men in the territory west of St. Charles. They boiled the spring water in huge iron kettles and the crude salt which formed the residue they floated in hollow logs down the Missouri river to be sold at the French village of St. Louis.

Deer had come to the salt springs to lick the salt. The place in Western pioneer slang was a "lick," and because the Boones there manufactured salt the locality was named Boon's Lick. The Boones spelled their name indifferently with or without the final "e."

Two years later a settlement of English-speaking men and women was made near Boon's Lick and shortly afterward the town of Old Franklin, twelve miles distant, upon the Missouri river, was founded. Then arose the necessity for a highway between Old Franklin and St. Louis and St. Charles, the large cities of the new West, each with several thousand inhabitants. The Boon's Lick road was the result.

It was not much of a road as roads go now. It was not macadamized or paved or graveled. Indeed it was little better in its early days, than a mere "trace," or hint of the road's direction.

The two Boones, with surveying parties, ran a line that followed the ridge or watershed between the Missouri and Mississippi rivers. The smaller streams were forded. On the large rivers were primitive ferryboats, hollow-log canoes locked together. There were no bridges. The sign posts were the blazes, or marks, cut in the forest trees along the roadway. The road machinery consisted of a rifle, an ax and a grubbing-hoe.

MOTOR TRIPS IN GERMANY.

The Queen: French roads are getting steadily worse for motoring, while the main German ones are as steadily improving. Hence the fatherland is growing in favor as a touring ground and can be recommended as affording much delightful traveling.

The duty on cars is very moderate and both customs officials and police are most polite and obliging if one takes the trouble to treat them courteously and drive with consideration in populated places. Some of the roads are the finest I have been on, except the latest of our tarred roads, and the land is full of beautiful scenery and delightful Old World towns and villages. One of the best approaches from France is by the Paris-Strassburg highway.

RAILROADS

NEW TRAINS TO THE COAST

Milwaukee Road Will Establish Its New Service Sunday.

Gives Another Route From Twin Cities to Seattle and Tacoma.

It was announced at the local office of the Chicago, Milwaukee & St. Paul railroad today that the first through train of the Chicago, Milwaukee & St. Paul and the Chicago, Milwaukee & Puget Sound railroad would be run over the new Pacific Coast system, starting next Sunday. On Monday the second train will be started over the system.

The Olympian and the Columbian are the names of the two trains. They are of solid steel and are said to rank with the finest trains in the world. The inauguration of the through passenger service on the Milwaukee means that there will be another fast and modern passenger communication between Chicago, Milwaukee, St. Paul, Minneapolis, Seattle and Tacoma.

The opening of the throught passenger service over the new road also holds an interest for Duluth people, in that it is generally expected that it is only a matter of time before the Milwaukee will have its own rails to this city, and also from the fact that the construction of the Pacific coast branch of the Milwaukee has opened up much new territory for Duluth jobbers.

Another great road to the coast is opened up to travelers from Duluth to the Pacific coast.

CHANGES IN MANAGEMENT.

Missouri Pacific Hereafter to Be on Divisional Basis.

New York, May 24.—Following the return to this city of President B. F. Bush of the Missouri Pacific railroad, several important changes in the management of the system were announced, as well as new financing. H. I. Miller, who has just completed an expert examination of the road, was elected a vice president, in which position he will co-operate with Chairman George J. Gould. E. J. Pearsons, a well known western railroad man, was placed in charge of the company's operating department, with headquarters in St. Louis.

The Missouri Pacific in future will be run on a divisional instead of departmental basis. This is intended to equalize responsibility and make far greater efficiency and economy. The changes, it is understood, have been inaugurated by President Bush, who is reported to have other important plans under consideration.

Issue Three-Year Notes.

Directors of the Missouri Pacific authorized an issue of $25,000,000 5 per cent three-year notes of which $20,000,000 will be immediately issued. Speyer & Co., the road's new fiscal agents, will probably handle the notes, a large proportion of which will be sold abroad.

Neal Lynch, now general freight agent of the International & Great Northern railroad, has been appointed general traffic manager of that system and of the Texas & Pacific road, to take effect June 1.

OMAHA ROAD IS FIXING PROPERTY AT COUDERAY.

Couderay, Wis., May 24.—(Special to The Herald.) — The Omaha road is spending several thousand dollars in improvements to their property here.

They have a large crew of track men and carpenters putting in side tracks, a "y" and coal shed and also getting the gravel pit in shape for the steam shovel. They will haul out thousands of cars of gravel from their pit here this summer for ballast on the Wisconsin division of the road. Officials of the track department proclaim the gravel in the pit here to be the most perfect for ballasting that they have in any of their pits on their road in Wisconsin.

JAMESTOWN WILL GREET BAPTISTS

Annual Convention of Southern North Dakota Association June 1 and 2.

Jamestown, N. D., May 24.—Special to The Herald.)—The twenty-first annual convention of the North Dakota Baptist association will be held here June 1 and 2. Dr. T. L. Ketman of Chicago will come as the representative of the missionary activities of the church. The convention will begin June 1 and after the appointment of committees Rev. L. L. Mann of Lisbon will deliver an address on "Christian Giving." In the afternoon the reading of church letters will be followed by the annual reports of the various church committees, Rev. G. B. Newcomb of Bismarck reporting on foreign missions; Rev. A. E. Peterson of Fargo on home missions; Rev. C. C. Williams of Ellendale on publication society; Rev. W. P. Canine of Jamestown on state missions.

To Visit State Asylum.

Thursday afternoon the convention session will be followed by an auto drive to the state insane asylum and a supper at the church served by the ladies of the Jamestown congregation. Thursday evening Rev. A. E. Peterson of Fargo will deliver the annual convention sermon and Dr. Ketman of Chicago gives his first address.

Friday morning, June 2, the state missionary for North Dakota, Rev C. E. Hemans of Grand Forks, will give his annual address on "A Message to the Churches." Rev. W. H. Rogers of Ellendale will speak on "Evangelism in the Sunday School" and Rev. O. D. Purinton of Cooperstown will give a short talk. In the afternoon the women's societies of the church will meet and the principal address will be delivered by the field secretary, Mrs. C. W. Miller. Two other important addresses will be that on "Young People's Work" by Rev. H. A. Buell of Lidgerwood and another on "The Teaching Function of the Church" by Rev. Bruce Jackson of Bismarck. Musical numbers for all the sessions will be furnished by the Jamestown choir and quartet.

The greater part of the Friday afternoon session will be devoted to the general association business, reports of convention committees and election of officers.

SIX-HORSE TEAM DRAWS RESIDENTS OF DULUTH HEIGHTS UP THE HILL

—Photo by Fenney.

THE "DULUTH HEIGHTS JOY WAGON."

This is the "Duluth Heights joy wagon."

While the improvements are being made to the incline railway, the people who live on the hill and at Duluth Heights are using this conveyance that walking to the top of the hill may be avoided.

Those who have used the rig have labeled it "the joy wagon." It has been in use since the improvements were begun. The street railway company has promised to have the new cars installed and the service resumed some time during the first week in June, and this is good news to those who use the road several times a day.

When finally completed, the service on the hill road will be better than ever. The trips will be more frequent and the seating capacity will be greater.

The new cars which have arrived and are now being installed are much wider than the old one and special windows have been placed in them for those of the tourists who take the ride to see the city.

One car will come up while one is coming down and the cars will run every few minutes. It is planned to stop at nearly every street from the bottom to the top of the hill, thus helping those who live only a part of the way up.

SUPERIOR

OPENING ON FRIDAY.

Housewarming of Superior Commercial Club's New Quarters.

The Superior Commercial club will hold a "housewarming" at the new quarters in the Board of Trade building, Friday evening. The opening will be an informal affair and it is not probable that there will be any speech-making or ceremonies attendant to it. A reception will be held and visitors served with light refreshments. An orchestra will give a musical program.

SUPERIOR CITY BAND OUT FOR FIRST TIME.

The Superior City band made its first public appearance yesterday afternoon, when it headed the parade from the Superior hotel to the ball grounds and played at intervals during the game. The members of the band appeared in the uniforms purchased for them by the city. A concert will be given by the band at the Grand opera house, Sunday, June 4.

SALT COMPANY WILL BUILD BIG WAREHOUSE.

A new warehouse, 100 by 215 feet, is being erected for the Morton Salt company on Tower bay slip, near the present site of the Strothman Iron works. J. O. Wick is the contractor and expects to complete the structure by Aug. 1. The building will be used for the purpose of storing salt in bulk.

Drops Dead at Mission.

W. J. Weir, 40 years old, boilermaker, dropped dead yesterday at the Superior Mission, where he had been stopping. Death was due to heart disease and complications. A brother resides at Newport News, Va. He has been notified. The body is held at the Le Sage undertaking rooms.

COURT OF COMMERCE ENJOINS TRADE BOARD.

Washington, May 24.—A temporary injunction was granted by the commerce court yesterday against the enforcement of an order of the interstate commerce commission requiring that the Federal Sugar Refining Company of Yonkers, New York, be accorded the privileges of the lighterage charges that the sugar refineries in New York city enjoy to the Jersey City terminals of the trunk line railroads.

The court denied the motion of the commission, the United States and the Federal company to dismiss the case when it was brought before that court and restrained the commission from enforcing its order until the court had further opportunity to hear the matters at issue. It is likely the case eventually will reach the supreme court of the United States, as it involves principles which only the highest court can determine.

BRAINERD SCHOOLS WILL RENT BOOKS.

Brainerd, Minn., May 24.—(Special to The Herald.)—The school board adopted the change proposed by the text book committee, R. J. Hartley, George D. Le Bar and J. H. Roderick acting in conjunction with Prof. W. C. Cobb, superintendent of city schools, that hereafter the text books for the coming year be rented to the scholars at a rate ranging from 15 cents to 50 cents per semester or half year. One thousand dollars was appropriated for the purchase of old books from the pupils at the close of this term.

JAPANESE STOPPED FROM GOING TO MEXICO.

Eagle Pass, Tex., May 24.—Because of the number of Japanese crossing into the United States from Mexico, the government of Japan has ordered emigration to Mexico stopped temporarily, according to Mukoshi Hirose, representative of an emigration company of Japan. It was the desire of his country, Hirose declared, to avoid any complication with the United States. Japanese in Mexico have not been molested, he says. At Las Esperanzas, however, the mines have been closed and 500 of his countrymen have been thrown out of employment.

Postmaster at McGrath.

Washington, May 24.—(Special to The Herald.)—Peter Anderson was today appointed postmaster at McGrath, Aitkin county, Minn., vice G. Haggberg, resigned.

WILLS OF FAMOUS LAWYERS.

Whether the old saying that "a lawyer who tries his own case has a fool for a client" is applicable to Samuel J. Tilden in the matter of drawing his will is not known. It was thought for some time that the will was drawn, or at least approved, by Charles O'Conor and James C. Carter, two of the most eminent lawyers in New York, but later statements, says Case and Comment, are to the effect that they had nothing at all to do with the will, and consequently it is not definitely known who was responsible for it.

It would hardly seem possible that Mr. Tilden himself could have made such a mistake had he been acting for some one else. The statement has been made that Mr. Tilden had some doubts as to the validity of those clauses which the court subsequently condemned and had spoken to Mr. Carter about it, but nothing more came of it.

In summing up the provisions of the Tilden will the court in holding it invalid stated that the testator in substance said: "I have determined to devote my estate to charitable, educational and scientific purposes. I have formed no detailed plan how that purpose can be executed, but under the law of New York it must be done through and by means of a corporation. I request you to cause to be incorporated an institution to be called the 'Tilden Trust,' with capacity to maintain a free library and reading room in the city of New York, and such other educational and scientific objects as you shall designate; and if you deem it expedient, that is, if you think it advisable and practicable, to do anything to do, convey to that institution all or such part of my residuary estate as you choose; and if you do not think that course advisable then apply it to such charitable purposes and in such manner as will most substantially benefit mankind."

It will be noted that the discretion of the trustees was indefinite both as to the amount which they were to give and to whom it was to be formed and also as to whether they should give any at all to the incorporation; and the validity of the bequest was denied upon the ground of this complete discretionary power to convey or not to convey to the suggested beneficiary.

The trustees procured the incorporation of the "Tilden Trust," and elected to convey to it the entire property, but the court held that the invalidity of the charitable trust because of its uncertainty could not be cured by anything done by the trustees to execute it.

In striking contrast with the Tilden will is that of his contemporary in law and politics, Roscoe Conkling, the text of which is as follows: "I, Roscoe Conkling of Utica, make, publish and declare my last will and testament as follows: I give, devise and bequeath to my wife Julia and to her heirs and assigns forever all my property and estate, whether real or mixed, and I constitute and appoint my said wife sole executrix of this my last will." It would undoubtedly take a better lawyer than even Mr. Conkling to break his will.

In passing upon the validity of the will of President James K. Polk a Tennessee court of chancery said: "This will was written by the testator with his own hand in the executive mansion at Washington at a time when he was president of the United States. He was a lawyer of recognized ability, had filled many high public offices with distinction and reflected great honor upon his state. His will was witnessed by a law partner and a senator in congress and named as executor one of the justices of the supreme court of the United States. It comes to us with the impression of having been carefully thought out before it was formally put down and published as his last testament."

Among other provisions, his home, known as Polk Place, situated in the city of Nashville, was given to his wife for life and upon her death it was bequeathed to the state of Tennessee in trust to be occupied and enjoyed "by such one of my blood relatives having the name of Polk as may be designated by the said state," and if there were no blood relatives of that name then "by such other of my blood relations as may be designated by the said state to execute this trust."

The occupant was to keep the same in repair and prevent it from dilapidating or falling into decay, to pay the taxes and to preserve and keep in repair "the tomb which may be placed or erected over the mortal remains of my beloved wife and myself and shall not permit the same to be removed nor any buildings or other improvements be placed or erected over the spot where said tomb may be."

This will was declared invalid as tending to establish a perpetuity. It was not a gift for public charity and was merely an attempt to retain the property for the use of the blood relatives of the testator.

LOUISIANA MAHOGANY MILLS

New Orleans Times-Democrat: The busy saws in the mahogany mill are going day and night at this season of the year. There are seasons during which only day runs are made, but the strain is on just now, and the machinery never stops. During the twenty-four hours 60,000 feet of lumber are cut in the mill. Month after month the ships come over, at least twenty cargoes a year coming to anchor beside the gunwale. There is no such thing as the bringing the logs in ballast. They compose the ship's entire cargo. A great many ships are devoted to this enterprise, and to them there is no other object in life but to get the logs from the tropical ports and bring them here and go back for more. Ten million feet of mahogany comes into New Orleans and is partly manufactured here.

In Mexico, Honduras and Central America the contractor gives $5 for a single tree. This is cheap enough. But it is the expense of getting it out that counts, and that makes mahogany an expensive lumber. It stands deep in the forest in the midst of an almost impenetrable jungle. There are no groves of them—the trees are scattered, perhaps not more than two to an acre. It may be that there is no water course at hand on which the logs can be floated to the port. The tree has to be located by the "hunter," whose business it is to roam through the forest in search of mahogany trees and to blaze a way to them, so that they may be found again. Then the workmen must cut their laborious way to the tree, using for the purpose the deadly machete, with which a number of men from this section made unpleasant acquaintance along in 1898. The machete turned into a pruning hook makes a very effective weapon, however, and in the course of time the men get to the tree.

It is a beautiful tree, tall and shapely, with the lowest branches at least sixty feet from the ground. At the bottom is a huge swelling, after the manner of the cypress, and the tree is to be cut above that, six or eight feet from the roots. The first work to be done is to build a platform around the trunk, so that the cutters can stand upon it and wield their axes. In the course of time down comes the great monarch of the tropical forest, crashing through the thick growth around it.

The workmen trim it up, cut it into lengths and manage to get it hauled and rolled to the nearest creek. There it must lie to await the floods of the rainy season, which will lift it and carry it down stream and on to the ocean port. There the logs are piled on the beach to wait for a vessel, and when it comes they are rolled back into the water and rafted and pulled out to the ship's side, always a dangerous undertaking, for the water is rough. Once beside the vessel the derricks are put to work and the logs are lifted over one by one, lowered with much difficulty into the hold, and when enough logs have come aboard the vessel is ready.

It may well be believed that mahogany does not claim the respect in its own land that it does in ours. There has been much comment on the fact that it is used for railroad ties in the lands across the gulf, and this may well be. An immense amount of it is so far from the coast and from any present means of transportation that it practically is valueless to the owner of the land, so he views the waste of it with comparative indifference.

It is gratifying to know that there is no wholesale destruction of the mahogany forests. The young timber nas to be preserved. At one time it was the law that no tree should be cut which squared less than eighteen inches—quite a large tree as one will notice—but that has become rather a dead letter and trees smaller than this are cut every day. Still there is some effort to preserve the timber and even to do an appreciable amount of reforestation. The trees are of very slow growth, many of the large trees, it is said, bearing evidence of being at least 1,000 years old, and when there is carelessness or greed in cutting it means much to the future of the mahogany business.

AIR SICKNESS.

A report on the so-called air sickness to which aviators are subject when flying at great altitudes has been made to the French Academy of Science by Dr. Rene Cruchet, professor at the University of Bordeaux, says the New York Sun.

Dr. Cruchet is convinced that air sickness as experienced by aviators is quite different from ordinary mountain sickness. It is well known that mountain climbers experience a certain distress when reaching an elevation of 6,000 feet. Aviators are affected in a similar way, but much sooner, when they have reached heights of say only 3,000 to 4,000 feet. The respiration is shortened, the pulse beats quicker and headaches follow. The stomach is sometimes upset.

The dangers of high flying therefore are immensely increased as the aviator has not only to manage the equilibrium of his machine and watch his motor, but also to battle against physiological difficulties. These difficulties are greater or smaller according to personal constitutions.

The air sickness reaches its maximum not when rising but when descending. This, says Dr. Cruchet, may partly be accounted for by the fact that aviators usually descend in five or ten minutes from heights to which they took forty or fifty minutes to mount. The physiological disorders tend to increase as the aviator nears the ground.

The heart beats faster than ever, the palpitation becomes audible, the breathing is irregular, the buzzing in the ears becomes violent. Aviators, feel their faces burning; they look red and bloodshot in the eyes, the headache is more violent than in the ascent, and, what is worse than all, the eyes close automatically and the desire to sleep is invincible. They shut their eyes in spite of every effort to keep them open, and sometimes doze away for short intervals. Something of this kind, explains Dr. Cruchet, must have happened to M. Chavez when he came down after crossing the Alps.

A curious story is told of a young aviator who was found asleep in his machine, which was partly wrecked in a field. He did not know how he had come down or why he landed there. This peculiarity persisted for several hours after the aviator had landed.

It explains also why aviators are usually stiff and sometimes almost helpless when landing. They move about with difficulty, seem to be unconscious of the cheers and applause of spectators, and though the shed may be only a few steps away they limp as they walk toward it.

The study of the blood tension also revealed great disorder in the molecular pressure. The blood tension of each altitude competitor was measured immediately before and after the ascent by means of an oscillometer, and at each landing it recorded a hypertension of 1½ to 3 centimeters of mercury. The tension must have been extreme, considering that it persisted long after the landing.

From this Dr. Cruchet concludes that aviation for war purposes must consider not only the danger from the enemy's bullets and the elements, but also from the height at which even mere scouting pilots would have to fly. The moment that the aviator is safe from rifle fire at a height of 4,000 feet or 5,000 feet, his life is endangered from another quarter by air sickness, which at any rate makes it impossible for him to keep long at a certain altitudes.

THREE WEST DULUTH SNAPS

$1000 Eight rooms, part hardwood floors; fine barn and chicken house; good well. House is insured for $1,500; near Sixty-third avenue west. See us for terms.

$1100 Eight-room dwelling, stone foundation — would cost $1,800 to build. Lot 50x125. Easy terms; on Fifty-ninth avenue west.

$1500 Seven room dwelling, in good repair; two lots; payable in monthly payments if desired —near Sixty-first avenue west.

SCHOOL BUILDING

BOVEY, MINN.

Sealed bids will be received by the Board of Education at Coleraine, Minnesota, until 8 p. m., June 1, 1911, for putting on a four-room addition to the school at Bovey, Minnesota; also bids will be received at the same time for the putting on of steel ceilings on the Coleraine High School Building; also the steel ceiling on the Tacorite Building. Plans and specifications can be seen at the Builders' Exchange, Minneapolis, Minnesota; also at Builders' Exchange, Duluth, Minnesota; also at the office of F. W. Kinney, 605-607 Kasota building, Minneapolis, Minnesota; also at the office of the Secretary of the Board of Education, Alex King, at Coleraine, Minnesota. Certified check for 5 per cent of the amount of bid to accompany same and made payable to the Secretary of the Board of Education.

Board of Education reserves the right to reject all bids.

By order of Board of Education.
ALEX KING,
Secretary.

Coleraine, Minnesota.

CITY NOTICES.

OFFICE OF THE COMPTROLLER—
City of Duluth, May 17th, 1911.

Notice is hereby given that an assessment levied to defray in full the expense of grading, paving and otherwise improving Twenty-second avenue east, in said city, from the north side of First street to the north side of Second alley, according to benefits, is now payable at the office of the City Treasurer.

A penalty of ten (10) per cent will be added if payment is not made on or before June 19, 1911, and the said assessment will then bear interest at the rate of six (6) per cent from May 13, 1911, to date of payment.

W. S. McCORMICK,
City Comptroller.

(Seal, Comptroller, Duluth, Minn.)
D. H., May 17, 24, 1911. D 654.

CONTRACT WORK—
Office of Board of Public Works,
City of Duluth, Minn., May 24, 1911.

Sealed bids will be received by the Board of Public Works in and for the corporation of the City of Duluth, Minnesota, at their office in said city, at ten oclock a. m., on the Second day of June, A. D. 1911, for the grading and paving of Tenth avenue east, in said city, and the construction of a storm sewer therein from Fourth street to Sixth street, according to plans and specifications on file in the office of said Board.

A certified check for ten per cent of the amount of the bid, payable to the order of the Treasurer of the City of Duluth, must accompany each proposal.

The Board reserves the right to reject any and all bids.

OLOF G. OLSON,
President.

Official:
R. MURCHISON,
Clerk, Board Public Works.
(Seal, Board Public Works, Duluth, Minn.)
D. H., May 24, 25, 1911. D 669.

CONTRACT WORK—
Office of Board of Public Works,
City of Duluth, Minn., May 24, 1911.

Sealed bids will be received by the Board of Public Works in and for the corporation of the City of Duluth, Minnesota, at their office in said city, at ten o'clock a. m., on the Second day of June, A. D. 1911, for the construction of a sanitary sewer in Fifty-first alley west in said city, from the first alley north of Ramsey street to the sewer in Wadena street, and in said First alley north of Ramsey street to points 15 feet west and east, respectively, of Fiftieth and Fifty-first avenues west, according to plans and specifications on file in the office of said Board.

A certified check for ten per cent of the amount of the bid, payable to the order of the Treasurer of the City of Duluth, must accompany each proposal.

The Board reserves the right to reject any and all bids.

OLOF G. OLSON,
President.

ORDER FOR HEARING ON PETITION FOR ADMINISTRATION—
In Probate Court.

State of Minnesota, County of St. Louis —ss.
In the Matter of the Estate of Fred Bujold, Decedent.

THE PETITION OF Laura Bujold of Duluth, Minnesota, having been filed in this court, representing, among other things, that Fred Bujold, then being a resident of the County of St. Louis, State of Minnesota, died intestate, in the County of St. Louis, State of Minnesota, on the 11th day of April, 1911; leaving estate in the County of St. Louis, State of Minnesota, and that said petitioner is the surviving spouse of said decedent, and praying that letters of administration of the estate of said decedent be granted to Laura Bujold.

IT IS ORDERED, That said petition be heard before this court, at the Probate Court Rooms in Court House in Duluth, in said county, on Monday, the 12th day of June, 1911, at 10 o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in The Duluth Herald according to law, and that a copy of this order be served on the County Treasurer of St. Louis County not less than ten days prior to said day of hearing.

Dated at Duluth, Minn., May 16, 1911.

By the Court,
S. W. GILPIN,
Judge of Probate.

(Seal Probate Court, St. Louis County, Minn.)
D. H., May 17, 24, June 3, 1911.

ORDER LIMITING TIME TO FILE CLAIMS, AND FOR HEARING THEREON—
State of Minnesota, County of St. Louis. ss.
In Probate Court.

In the Matter of the Estate of Calvin H. Carter, Decedent.

Letters testamentary this day having been granted to Chauncey F. Carter and Charles H. Kimberly.

IT IS ORDERED, That the time within which all creditors of the above named decedent may present claims against his estate in this court, be, and the same hereby is, limited to three months from and after the date hereof; and that Monday, the 14th day of August, 1911, at ten o'clock A. M., in the Probate Court Rooms at the Court House at Duluth in said County, be, and the same hereby is, fixed and appointed as the time and place for hearing upon the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.

Let notice hereof be given by the publication of this order in The Duluth Herald as provided by law.

Dated, Duluth, Minn., May 9th, 1911.

S. W. GILPIN,
Judge of Probate.

(Seal, Probate Court, St. Louis County, Minn.)
E. P. TOWNE,
Attorney for administrators.
D. H., May 10, 17 and 24, 1911.

We, John Nolan and A. J. Harker, and each of us, do hereby certify that the said John Nolan is the president, and the said A. J. Harker is the secretary, of the Mississippi Mining & Development Company; that on the 23rd day of May, 1911, at a meeting of the stockholders of said corporation duly called and held for that expressly stated purpose at Duluth, Minnesota, at which all the issued shares of stock of said corporation were represented, the following resolution was adopted by a unanimous vote of said stockholders, to-wit: "Resolved, That Article five of the original certificate of incorporation of this company be amended so that the same shall read as follows, to-wit: Article V. The number of shares of the capital stock of said corporation shall be two hundred thousand, and the amount thereof shall be one dollar each, and may be paid for in property, money or services, as the board of directors shall elect, and said stock may be subscribed for at such times and in such amounts as may be prescribed by the Board of Directors."

IN WITNESS WHEREOF We have hereunto set our hands and seals and caused the corporate seal of said company to be affixed hereto at Duluth, Minnesota, this 23rd day of May, 1911.

JOHN NOLAN,
President.
ARTHUR J. HARKER,
Secretary.

Signed and sealed in presence of
LEO A. BALL.
FLORENCE McKAY.

(Corporate Seal Mississippi Mining & Development Co., Duluth, Minn.)
State of Minnesota, County of St. Louis —ss.

On this 23rd day of May, 1911, before me, a Notary Public in and for said county, personally appeared John Nolan and A. J. Harker, to me well known to be the persons described in and who executed the foregoing certificate and they severally acknowledged that they executed the same as their free act and deed.

LEO A. BALL,
Notary Public, St. Louis County, Minn.
My Commission Expires June 11th, 1916.

WHEAT MART HAMMERED

In Last Hour Light-Waisted Bulls Give Up Fight and Are Sellers.

Rain and Snow in Canada—Chicago May Chief Factor on Bull Side.

Duluth Board of Trade, May 25.—Wheat declined today. After noon there was a sharp reversal in sentiment and values. Many Northwestern bulls who had been trying to put up wheat seemingly gave up the fight in the face of general bearish conditions, and they turned sellers. The decline induced hasty profit-taking from scalpers, which contributed to the weakness of the market.

The cash situation is not active. The demand was centered on choice spring wheat, which is very scarce. Other offerings were regarded with indifference. May wheat and July wheat lost 1⅛c and September declined ¾c. Durum, July, fell ½c and September declined ⅝c. Cash wheat was ½c over July. Oats gained ⅛c and rye was unchanged. There is no barley market here. The leading buyer is out of the market and shipments from the country are kicking around with buyers scarce.

Linseed was unchanged, although September eased off 1c. Otherwise quotations were the same as yesterday. Foreign cables from Antwerp were unchanged.

The wheat market opened strong and advanced steadily. Trading was small as professionals were disposed to proceed with caution so long as the bull coterie continued their operations in the Chicago May. A few speculators who have confidence in the ability of the bulls to carry out their deal, at least for the present, got under wheat and helped the leaders to run in the flaxen haired boys.

The bulls got some help from Canada. In the western provinces there were heavy snow storms in the last thirty-six hours and the bulls were willing to believe that the growing wheat had been injured with temperatures at 30 deg. Of course anybody not long on wheat would be disinclined to believe that such conditions could hurt wheat, but the boys who absorbed this theory today backed up their imaginings with their shekels.

The Burlington came to bat with a report telling of damage to wheat in the south and west portions of Nebraska from high, hot winds. All of the wheat in Western Nebraska that might be in a position to be so damaged could be put in a fair sized elevator but that made no difference with the money crowd. In the Southwest said the report, corn has been planted where wheat has been plowed up.

Reports of cooler weather and frosts in the Northwest tonight helped to firm wheat values. Showers are predicted for South Dakota which may be of considerable help to the dry areas there.

Favorable rains have fallen in Southwestern Russia and the weather is cool but the bulls let the trade know that reports from other regions were unfavorable. The big cash holders in Chicago are also interested in cash grain and in the current option at Liverpool. They ran the shorts to cover in the Liverpool market and cables showed some strength. Dry weather reports from Russia were used as a bull argument although the heavy shipments from that country do not indicate that holders of wheat are frightened. Argentine shipments are expected to be smaller this week.

Roilin E. Smith of Minneapolis, who is a professional crop killer, recently put part of the Kansas wheat crop out of business. He came to the front today with a statement that Oklahoma will not raise more than 6,000,000 bu of wheat. Last year the yield was about 25,000,000 bu.

There was a firm opening in wheat, reflecting the firmness in America yesterday and the closing strength in Buenos Ayres and prices were ¾d higher. Following the opening there was some covering by shorts in May and July advanced a further ⅜d from the opening under speculative support. There was an improved demand for cargoes which later were more firmly held and predictions are for small Argentine shipments this week. Private reports received here continue to emphasize the dry weather in Russia with damage, and although the market was dull around midday the undertone was very firm with speculators and good interests on the buying side. At 1:30 p. m. the market was firm and ⅜d to ¾d higher with July leading the advance. The corn market opened ¼d higher and later advanced an additional ⅛d on the strength in Buenos Ayres at the close and the firmer American offers and sympathy with wheat. Argentina —The weather continues favorable for the new crop and prospects for an increased acreage under wheat.

Primaries: Wheat, 620,000 bu; year ago, 379,000 bu; shipments, 450,000 bu; against 158,000 bu. Corn, 808,000 bu; year ago, 569,000 bu; shipments, 441,000 bu; against 309,000 bu.

• • •

Chicago wired—An advance in commission rates is proposed, the Board of Trade directors having acted favorably upon it and ordered an amendment of the rules posted for ballot. Over fifty of the leading members of the board, including all the largest commission houses, favor the movement, regarding the advance of $1.25 to non-members and 62½ cents to members as equitable as it merely covers the actual increase in expenses of doing business as compared with years ago. It is proposed to make the rates to non-members $7.50 and to members $3.75, which are the only changes in the present commission rule. As Chicago is the best market in the country to trade in, some of the largest members in outside markets say that it is worth $1.25 more to trade here than elsewhere.

• • •

Because of the anniversary of the queen's birthday, there was no market at Winnipeg today.

• • •

Minneapolis indemnities: July—Puts, 94⅝@94¾c; calls, 96½c bid. September—Puts, 90c; calls, 91¼c.

CHICAGO MARKET.

Wheat Prices Advance on News From Abroad.

Chicago, May 24.—Dry weather in Russia and expected lighter shipments from the Argentine put wheat this morning on the upgrade. In addition, Liverpool reported a good demand there, and considerable covering by shorts. Locally sentiment had further cause for bullishness, the May option giving evidence of increased strength. Deferred months also showed continued support. Besides, there were advices at hand that a large acreage in Nebraska had been plowed up for corn planting because of damage to winter wheat by heavy winds. Assertions were current, too, that the Texas crop would not be more than one-third to one-half the total raised last year. Opening prices were the same as last night to ⅛c higher. July started at 88⅝@88¾c, an advance of ⅛@⅜c and held around the upper level in the meantime, May gained ⅞c.

After some reaction the market rose still higher an account of short crop dispatches from Oklahoma. Profit-taking, however, occasioned a decided setback. The close was easy, with July 87⅞@88c, a net loss of ½@⅝c.

Corn was sharply higher, despite the fine weather. The bull factors were the big consumption on farms and the heavy shipments from leading centers. July opened ¼c to ⅜c up at 52⅝c to 52⅝@52¾c, and rose to 53c.

Later the market fell off with wheat. The close was easy at 52½c for July, a net gain of ⅛c.

An active demand lifted oats. Offerings were unusually light. July started at 34⅛c to 34¼c, an advance of ⅛c to ¼c and climbed to 34⅜@34½c.

Notwithstanding the big run of hogs, provisions were in good request. There were but few sellers. First transactions varied from last night's levels to 5c gain, with July $14.67½ for pork, $8.17½ for lard, and $7.85 for ribs.

MINNEAPOLIS MARKET.

Wheat Declines on Efforts of Chicago Longs to Sell.

Minneapolis, Minn., May 24.—Chicago tried to sell wheat here today and when the selling was seen to come from there, and presumably from the Chicago crowd carrying the May deal, Minneapolis declined sharply. July, the active local option, sold up early 97⅛c on which looked like forced strength. On the report that Chicago was unloading, it went to 95@95⅛c. In the cash market the premium for No. 1 northern continued to run from 1c to 3c over July.

Minneapolis today received 142 cars against 137 a year ago; Duluth 91 against 17 and Winnipeg 77 and 107. May opened, 95c; high, 95⅛c; low, 94¾c; closed, 94⅞c. July opened, 96¼c; high, 97⅛c; low, 95½c; closed, 96⅞c. September opened, 91⅜c; high, 92c; low, 90⅝c; closed, 90½@90⅝c. December closed, 90¾c. Closing cash: No. 1 hard, 98½c; No. 1 northern, 96@96⅝c; No. 1 northern to arrive, 96@97¾c; No. 2 northern, 93½@96½c; to arrive, 93½@96¾c; No. 3 wheat, 90½@94½c; No. 3 yellow corn, 52@52¼c. No. 3 white oats, 32½@33c. No. 3 rye, 90c.

Millstuffs—Shipments, 1,430 tons. Good demand for nearly everything offered. Bran in 100-lb sacks, $21.50@22.00.

Flax—The mills reported only a fair demand at best and some said it was not even fair. The larger mills late in the day found Eastern demand bounded to be, but the small mills said they could find no betterment. Shipments, 50,467 bbl. Second patents, $4.50@4.80; first clears, $3.20@3.50; second clears, $2.20@2.80.

Flax receipts, 5 cars; year ago, 8; shipments, 0. Nothing developed to change the market much and it was quiet. Demand ruled fair. Closing price $2.34.

Barley—Receipts, 21 cars, year ago 40; shipments, 27. The better grades of malting barley sold well and as demand ran a little ahead of the supply, prices were 1c to 2c higher. Closing range, malting grades 75@94; feeding, 60@75.

Corn and Wheat Bulletin.

REMARKS—Showers fell over Ohio, Michigan, Wisconsin, South Dakota and Western North Dakota.

H. W. RICHARDSON, Local Forecaster.

T—Indicates inappreciable rainfall. ⁰—Maximum for yesterday. †—Minimum for twenty-four hours, ending 8 a. m. 75th meridian time. ‡—Minimum temperature for 12-hour period ending at 8 a. m.

NOTE—The average maximum and minimum temperature are made up at each center from the actual number of reports received, and the average rainfall from the number of stations reporting .1 inch or more. The "state of weather" is that prevailing at time of observation.

New York Grain.

New York, May 24—Close: Wheat—May, 95⅝c; July, 94⅝@¾c. Corn—May, 61c; July, 60½c.

Cotton Market.

New York, May 24.—The cotton market opened steady at a decline of 3 points on August, but unchanged to 4 points higher on other positions in sympathy with better cables than expected. Near months were very nervous and unsettled during the early trading, July and August selling off to a net loss of 11 to 12 points in the Carolinas, but there were no rains in the Western belt. The old crop later rallied partly and the general list during the middle of the morning ruled about 3 points lower to 4 points higher.

Spot closed quiet, 10 points lower; middling uplands, 16.00; middling gulf, 16.25; sales, 100 bales. Futures closed steady; closing bids: May, 15.76; June, 15.76; July, 15.86; August, 15.27; September, 13.69; October, 13.15; November, 13.05; December and January, 13.07. March, 13.16.

South St. Paul Livestock.

South St. Paul, Minn., May 24.—Cattle—Receipts, 600; market light; unchanged. Hogs—Receipts, 3,000; 10c to 15c lower; range, $5.40@5.75; bulk of sales, $5.45@5.55. Sheep—Receipts, 400; light; sheep and lambs, unchanged.

New York Money.

New York, May 24.—Money on call steady, 2¾@2½ per cent; ruling rate, 2¾; closing bid, 2¾; offered at 2¾. Time loans dull; demand not strong, but funds not being pressed on market. 60 days 2¼@2¾ per cent; 90 days 2¾@3; six months, 3¼@3½. Close: Prime mercantile paper, 3½ to 4 per cent; sterling steady with actual business in bankers' bills at $4.84.40 for 60-day bills and at $4.86.40 for demand. Commercial bills, $4.83⅞. Bar silver, 53¾c. Mexican dollars, 45c. Government bonds irregular.

DECLINES IN STOCKS

Reported Cut in Prices of Iron and Steel Unsettles Market.

Lowest Figures of the Day Recorded in the Closing Dealings.

New York, May 24.—An active selling movement was begun at the opening of the stock market today, and prices of most of the leading issues were forced down by substantial fractions. United States Steel, which was the center of the bear attack yesterday, was again subjected to heavy pressure, 7,000 shares being sold at the outset at 79⅛ to 79⅜ as compared with 79⅝, yesterday's closing. General Electric declined a point, St. Paul and Western Union ¾, Lehigh Valley ⅝ and Atchison and Union Pacific ½. Missouri Pacific gained a point and Maryland ¾.

After retrieving the initial losses the market crumbled away rapidly under the weight of large selling orders in United States Steel, Union Pacific and Reading. United States Steel failed to disclose the support above 79 that was a feature of yesterday's transactions, and broke through to 78⅝, a loss of a point. Union Pacific, Reading and American Smelting showed similar losses and the list generally went down a good fraction. Utah Copper was lifted one and Pittsburg Coal preferred 1½ when the market was rallying.

Persistent reports of an approaching reduction in prices of steel and iron products were directly responsible for further unsettlement of the stock market this morning. United States Steel lost a full point in the first hour on sales that aggregated nearly one-third of the total transactions. The movement was assisted by extensive short selling. Almost the only notable exception to the downward trend was Great Northern preferred. During the second hour, the market was quieter and steady at a fraction above the lowest figures. Bonds irregular.

Save for a further decline in Union Pacific to 183 and a loss of a point in Northern Pacific, the market was without a special change during the middle of the day. United States Steel and several other important stocks ranged within a small fraction of their lowest prices, but the whole list afterwards showed indications of better support. Western Union forged upwards to 82¾.

Leading stocks were neglected in the afternoon, pending news of the outcome of the deliberations of the steel manufacturers. The street was disposed to accept the circumstantial reports that a cut was inevitable in certain lines of the products, owing to the systematic scaling of prices by the independents. Interest converged on the pool operations in various specialties which were unusually active. General Electric advanced 2, Bethlehem Steel preferred 1½ and Westinghouse Electric 1.

The market closed weak. United States Steel was rushed up to 79⅝, yesterday's closing price, where it met an abundance of stock and broke to 78⅝. Reading also rebounded to above last night's figures, and there was a rally of a point in Union Pacific but these stocks also went back to new low levels when general selling was renewed. Lowest prices of the day were established all around in the closing dealings. Republic Steel stocks became weak following a statement by the chairman that the company would not adhere to the current price agreement.

London Stocks.

London, May 24.—American securities opened easy and slightly lower today. Light covering followed and prices advanced until weakness in United States Steel shares caused the entire list to decline. At noon the market was easy with values ranging from ⅜ above to ½ below yesterday's New York closing.

DEMOCRATS PROMISE SUPPORT FOR PLAN LA FOLLETTE URGES

Majority, However, Want Regular Committee for Lorimer Probe.

Wisconsin Senator Predicts More Revelations in Illinois.

Says More Than $200,000 Was Used to Secure Senate Seat.

Washington, May 25.—A number of Democratic senators declared today in a party caucus called by Senator Martin that they would support the La Follette resolution which would place the conduct of the proposed new inquiry into the election of William Lorimer in the hands of a special committee of five new senators, rather than leave it with the regular senate committee on privileges and elections.

A majority of the Democratic senators, however, are said to be in favor of the so-called Martin resolution, framed at a meeting of the Democratic steering committee several days ago. It was also declared today that the Martin resolution will have the support of the regular Republicans when it is offered as a substitute both for the La Follette and the Dillingham resolutions.

Would Probe Jackpot.

The Martin resolution enlarges the scope of the new inquiry to include the new famous "jackpot" fund at Springfield.

Revelations concerning the actions of Senator Lorimer of Illinois may be expected as the result of a second investigation into the bribery charges against Lorimer, if the predictions made by Senator La Follette in the delivery of the third installment of his argument in support of his resolution of inquiry are realized.

Mr. La Follette prophesied that more than twice the $100,000, heretofore alleged to have been used, would be found to have been spent in Lorimer's behalf. He said President Taft's name had been used in Lorimer's behalf, and reiterated that Lorimer had personal cognizance of the use of money in his behalf.

Shocking and Appalling.

"There is a mine of facts which I venture to predict will be opened and which will be more shocking and appalling than any that has yet been revealed," he said.

Mr. La Follette quoted from the testimony given by Edward Hines, a Chicago lumberman, before the Lorimer investigation committee of the Illinois legislature regarding Mr. Hines' inter-

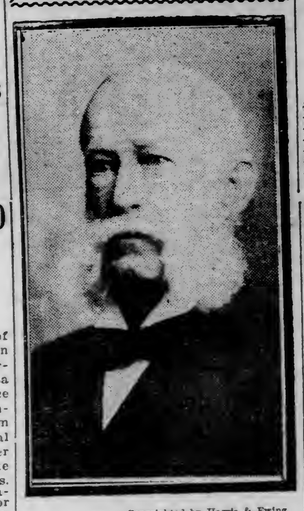
CONDEMNS ROOSEVELT FOR ARBITRATION TALK



—Copyrighted by Harris & Ewing.

JOHN W. FOSTER, Secretary of State in Harrison's Administration.

ROOSEVELT CRITICIZED

John Foster Condemns Ex-President's Words on Arbitration.

Canadian at Mohonk Lake Praises American Efforts.

Mohonk Lake, N. Y., May 25.—Severe criticism of Theodore Roosevelt's recent public utterances regarding international arbitration marked the speech of John W. Foster, former secretary of state, today before the seventeenth annual meeting of the Lake Mohonk conference on international arbitration. At the same time, said Mr. Foster, "notwithstanding Mr. Roosevelt's early declaration in opposition to arbitration in general, he has done more than any other living man to advance this cause."

The Anglo-American treaty of arbitration would have no appreciable effect upon the armaments of the world, and at present Germany can hardly be expected to become a party to a like treaty, said Mr. Foster. Nevertheless, "as unlimited arbitration is extended among the nations, its beneficial effect must become more and more apparent, and even the German government

(Continued on page 5, fourth column.)

CHURCH AND STATE RUPTURE COMPLETE

Portuguese Government Denounced in Clerical Protest.

Lisbon, May 25.—The long looked for rupture between the church and the government is now an accomplished fact, as a result of the protest issued by the bishops against the separation. The violence of this protest has caused a sensation. It vigorously attacks the provisional government and declares that the law is not one of separation, but of annexation of the church. After being despoiled of all property and authority, the bishops declare, the church has been placed in an abject position under the heel of the government. The protest is signed by the patriarch of Lisbon, three archbishops and seven bishops.

That the situation in Portugal is serious is indicated by the fact that the government is hastily dispatching reinforcements to the north. The official explanation of this is that the government is aware that the monarchist plotters, with 2,000 mercenaries, are on the Spanish frontier and intend to cross to Portugal at the first opportunity in the hope that the inhabitants of the villages will support their cause.

The government, however, it is said, does not look for a revolutionary movement. It believes that the disturbances will not go beyond rioting, but nevertheless all military precautions are being taken.

An official note issued by the Portuguese government today declares that the Northern frontier is absolutely secure, the garrisons of the border provinces having been strengthened by troops entirely faithful to the republic.

PUTS O. K. ON PLAN FOR CHICAGO MUSEUM.

Springfield, Ill., May 25.—Governor Deneen today signed House Bill No. 648, which gives authority to build the $10,000,000 Marshall Field museum in Jackson park, Chicago.

CHICAGO WANTS WAR IN THE AIR

Asks Government to Order Sham Battle There Between Aeroplanes.

Chicago, May 25.—Announcement was made today that the managers of the international aviation meet to be held in Chicago, Aug. 12 to 20 hope to have the United States government bring about here between those dates the first battle in the air. The plan is to have an aeroplane attack upon Chicago from Lake Michigan, the defense to be also an aeroplane.

President Taft has advised the promoters of the aviation meet that he will be in Chicago June 4 and will meet the committee in charge to agree upon how extensively the army and navy will join in the military features of the meet. It has been announced that the president will be given full opportunity to test out the aeroplane as a war factor, in any manner he wishes.

The Chicago meet will be a climax of a series of aviation meets to take place in the Central West, and thirty aviators have been arranged for, making the circuit the most comprehensive aeroplane flying convention ever attempted in America.

TAR AND FEATHER MEN GIVE BONDS

Minnesotans Accused of Misusing Dr. Freeman Furnish $500 Each.

Albert Lea, Minn., May 25.—(Special to The Herald.)—Eleven men, indicted by the Freeborn county grand jury on the charge of supplying a coat of tar and feathers to Dr. E. B. Freeman of Glenville, Minn., last January, were released here today on bonds of $500 each.

The men under indictment are Frank Fluesk, Ned Holman, William Samson, Walter Knutzson, Norman Hill, Frank Vonick, O. C. Hansen, S. T. Kirkpatrick, Roy Rekerk, Harry Kirkpatrick and A. C. Nelson.

The act with which the men are charged was the culmination of divorce proceedings filed by Freeman against his wife. Speaker Dunn of the Minnesota legislature appeared for the defendants in today's proceedings.

Postmaster at Farris, Minn.

Washington, May 25.—(Special to The Herald.)—T. H. Mackey today was appointed postmaster at Farris, Hubbard county, Minnesota, vice J. S. Mackey, resigned.

HERESY CASE NEAR A VOTE

New Jersey and Iowa Presbyterians Act on Brown Charges.

Missionary Board Says War Talk Hurts Christian Work.

Atlantic City, N. J., May 25.—The Brown heresy charges were dropped this afternoon.

Atlantic City, N. J., May 25.—What is known as the Brown heresy case may come before the Presbyterian general assembly today. Overtures are expected to be presented requesting the assembly to make clear certain articles written by Prof. William Adams Brown, and Prof. Francis Brown, both of Union Theological seminary, and to "take such action as may best preserve the authority of the assembly and secure the purity of our confessional doctrines."

The overtures come from the West Jersey and Iowa presbyteries.

The report of the board of foreign missions presented to the assembly today, in speaking of the work done in Japan last year, says:

"Something which is not peculiar to 1910, but which affected the work of the year seriously, is the persistent, pernicious war talk in America. How can we American Christians preach to this people the gospel of the Prince of Peace when our people at home keep up this infamous talk? If Christianity

TWO IRONWOOD MINERS KILLED

They Are Suffocated By a Blast in the Geneva Mine.

Ironwood, Mich., May 25.—(Special to The Herald.)—Two lives were lost in the Geneva mine here last night as the result of a blast.

The dead:

SOLEMAN LOUMA, married.

I. PANTA, single.

Both were miners, of Finnish nationality, and were suffocated by a blast.

CHILDREN MAKE PET OF BIG GRAY WOLF.

New York, May 25.—A big gray wolf escaped from a private menagerie at Sheepshead Bay last night and two keepers, assisted by the police, searched for an hour before they found the animal, playing quietly with a group of children in a yard near the water front.

The children, believing the wolf to be a new kind of a dog, had made friends with him at once when he approached.

The wolf kept his temper, even when the youngsters clouted him with sticks, pulled his ears and forced him to eat crackers and candy.

NEW FIGHTER IS LAUNCHED

Battleship Wyoming Is Christened By Miss Dorothy Knight.

Is First of Six First Class Vessels for American Navy.

Philadelphia, Pa., May 25.—In the presence of the governor and a delegation from the state for which it was named, Miss Dorothy Eunice Knight, daughter of Former Chief Justice Jesse E. Knight of Wyoming, christened the battleship Wyoming, the nation's latest dreadnaught, when the warship was launched today at the yards of the Cramp Ship & Engine company in this city.

Gov. J. M. Carey of Wyoming, several officials of the state, together with Secretary of the Navy Meyer and other naval officials, were among those on the launching stand when the big battleship slid into the waters of the Delaware river.

Will Be World Leader.

When the Wyoming gets its full armament the warship will not be surpassed by any fighting ship in the world. The length overall is 550 feet; breadth at the waterline ninty-three feet; displacement 26,000 tons. The big battleship will have a speed of twenty and one-half knots an hour. The coal capacity will be 2,500 tons and the shipment will carry oil burners for cases of emergency.

The Wyoming's armament will be twelve 12-inch guns; 21 five-inch guns; four 3-pounders, saluting guns; two 3-1-pounder semi-automatic guns; two 3-inch field pieces; two .30 caliber machine guns and two submerged torpedo tubes.

Is One of Six.

The battleship is a little more than one-third completed. It will carry 54 officers and 1,030 enlistened men.

The Wyoming is one of the six first-class battleships under construction at different yards. When the whole number is completed another fleet will be added to the navy, which will be stronger in fighting strength than the entire American navy at the end of the Spanish-American war.

FIRST RETURNS ON ENGLISH CENSUS

Greater London Now Has a Population of 7,252,963.

London, May 25.—Provisional figures returned by the census officers give the population of England and Wales this year as 36,075,269, compared with 32,527,843 in 1901. While most of the cities and counties show an increase, there are many cases, particularly in Wales, where there has been an actual decrease.

Greater London's population has increased to 7,252,963 from 6,581,402 in 1901. This increase is entirely in what is known as the outer ring, showing that the people are moving from the more crowded centers.

The county of London, including the city of London and the boroughs immediately about it, shows a decrease from 4,536,267 in 1901 to 4,522,961 in 1911.

STANDARD OIL DECISION IS "MISCHIEVOUS," SAYS HARLAN IN DISSENTING

BIRD MAN IS GUN VICTIM

"Tony" Von Puhl May Die as Result of Barroom Shooting.

Two Bystanders Shot During Fight Over an Actress.

Denver, Colo., May 25.—S. L. ("Tony") Von Phul of St. Louis, died at St. Luke's hospital shortly before noon today. A charge of murder will be placed against Henwood, who is in jail.

Denver, Colo., May 25.—A quarrel, presumably starting over a woman, resulted in a triple shooting shortly before midnight last night, in which S. L. ("Tony") Von Puhl, the balloonist, was seriously if not fatally wounded. The barroom of the Brown Palace hotel was the scene of the gun play.

Frank H. Henwood, an agent of the Globe Blow Gas company of New York, did the shooting.

Von Puhl, whose home is in St. Louis, is a wine agent as well as a balloonist. While he was the object of the shooting, receiving three bullets, one in the shoulder, one in the right wrist and one in the abdomen, J. W. Atkinson of Colorado Springs, a wealthy contractor,

SIXTY MAY BE DEAD IN WRECK

Only Forty Known to Be Safe After Panama Coast Disaster.

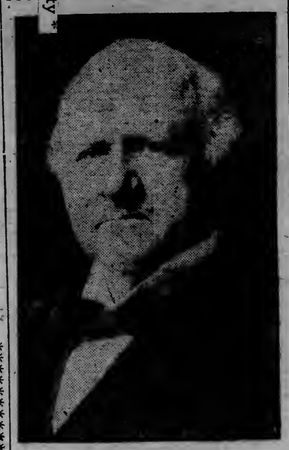
Panama, May 25.—The National Steamship line steamer Taboga struck a rock off Punto Mala on Tuesday and sank a short time afterwards. Of the hundred passengers on board only forty are known to have been saved.

The Taboga had a cargo of cattle and was on her regular coastwise trip.

The scene of the accident is about 100 miles from the nearest telegraph station, which makes it difficult to obtain details of the accident.

The United States gunboat Yorktown left here today for the scene of the disaster.

DANGER IN THE OIL TRUST DECISION



JOHN MARSHAL HARLAN, Associate Justice of the Supreme Court of the United States, Who Has Filed His Dissenting Opinion in the Standard Oil Case.

RESIGNATION IS PROMISED

Diaz's Action Officially Forecasted By De La Barra.

Mexican Capital in Hands of Rioters for Six Hours.

City of Mexico, Mex., May 25.—Foreign Minister De la Barra issued an official statement this morning that President Diaz and Vice President Corral would resign this afternoon and that the provisional government would thereupon assume authority.

After the intense excitement of last night the city is in comparative quiet this morning.

An official statement on the number of casualties resulting from the bloody rioting that swept over the city yesterday evening places the dead at 7 and the wounded at 36. Several of the wounded are expected to dic.

Quiet in the City.

Large forces of police were on duty early today, ready to cope with any renewal of the outbreak, but there were no signs of renewed disorder during the early morning hours.

Long vistas of broken windows testified today of the work of the mob last night. Among the plate glass

(Continued on page 4, third column.)

ALBRECHT IS FOUND GUILTY

Slayer of Duluth Man Convicted of First Degree Manslaughter.

St. Cloud, Minn, May 25.—The jury in the case of Harry Albrecht, on trial here for murder in the first degree, brought in a verdict yesterday of manslaughter in the first degree and recommended leniency to the court.

Judge M. D. Taylor passed sentence at once, giving Albrecht an indeterminate sentence to the state reformatory here.

Albrecht killed Charles O'Brien of Duluth in this city on December 20, 1910.

IRON COUNTY, MICH., FARMER'S CLOSE CALL.

Marquette, Mich., May 25.—(Special to The Herald.)—A marvelous escape from death is reported from Mapleton, an agricultural settlement in Iron county. Driving home during a severe electrical storm, Erick Person, a farmer, literally came within a foot of being killed. Lightning struck a tree and caused it to fall. The whirling trunk just missed hitting Person and crashed into and through his wagon directly behind him. The farmer escaped unscathed while his vehicle was almost totally wrecked.

MANVEL, N. D., WOMAN DIES AT GRAND FORKS.

Grand Forks, N. D., May 25.—(Special to The Herald.)—Mrs. James Barney of Manvel, N. D., aged 40, died suddenly here last night while visiting the family of E. M. Peirce. She was retiring when she fell to the floor.

Members of the Peirce family heard her fall and when they reached her bedroom, she was dead, heart failure being the cause.

ASSOCIATE HAS FILED HIS OPINION

He Criticizes Modifications of the Decree of Dissolution.

Declares That They Will Throw Business Into Confusion.

Says Small Companies Are "Unwisely" Advised as to Agreements.

Washington, May 25. — Branding as "mischievous" the modification made by the supreme court in the decree of the lower court permitting subsidiary corporations of the Standard Oil, after dissolution, to make "normal and lawful agreement among themselves," Associate Justice John Marshal Harlan today filed in the country's hightest tribunal his formal dissenting opinion in the Standard Oil case. "Chief Justice White had characterized this modification as a 'minor matter.'"

Not satisfied with his oral dissent from the court's decision as handed down by Justice White, Justice Harlan entirely rewrote the stenographic report of his remarks from the bench. The oral dissent formed merely a framework for the final document, containing about 8,000 words, put on record today.

Will Invite Litigations.

The declaration is made by Justice Harlan that he is convinced the court's opinion "will throw the business of the country into confusion and invite widely extended and harrassing litigation, the injurious effects of which will be felt for many years to come."

In connection with what he terms a "mischievous modification," Justice Harlan quotes the chief justice as saying that "it does not necessarily follow that because an illegal restraint of trade or an attempt to monopolize or a monopolization resulted from the combination and the transfer of the stocks of the subsidiary corporations to the New Jersey corporation a like restraint of trade or attempt to monopolize or monopolization would necessarily arise from agreements between one or more of the subsidiary

(Continued on page 14, fourth column.)

DANES WELCOME THE AMERICANS

Battleships From United States Anchor at Elsinore.

Copenhagen, May 25.—Copenhagen turned out today to greet the second division of the United States Atlantic fleet, under command of Rear Admiral Badger, which arrived this morning for a week's visit. A gun salute was exchanged by the American squadron and the land batteries.

Thousands of excursionists cheered as the Kansas, New Hampshire and South Carolina, headed by the flagship Louisiana, moved up the sound to Elsinore.

American and Danish flags are lavishly displayed in the capital, where the Danes have prepared to give the American sailors a warm reception. During the visit King Frederick will receive in audience Admiral Badger and the captains of the American warships, and will give a grand official dinner, where the fleet officers will meet the most prominent people of Copenhagen.

A naval ball will be given by the minister of the navy for the officers and midshipmen to meet Danish officers.

WALSH TAKES NEWS CALMLY

Son Telegraphs Him That President Has Refused to Act.

Leavenworth, Kan., May 25.—John R. Walsh this morning received a telegram from his son in Chicago notifying him of President Taft's refusal to grant the application for his pardon.

Maj. R. W. McClaughry, warden of the federal prison, delivered the message to the prisoner immediately after its arrival.

"If Mr. Walsh was shocked or disappointed, he did not show it in his face," said the warden. "He read the telegram, and without comment of any kind folded it and placed it in his pocket."

Maj. McClaughry said that Walsh had given out no interview and that it was not probable he would do so.

STORY OF THE OPENING GAME OF THE SEASON AS TOLD BY THE HERALD STAFF PHOTOGRAPHER

—Staff Photo by McKenzie.

WATCHING THE SOX WIN FROM RED WING.

ORIGIN OF FIREWATER.

Red Man: When the Hudson's Bay Trading company began its trading among the Indians it was found that by selling the Indians liquor they could more easily be induced to trade their peltries.

The first whisky or intoxicant of inferior quality was distilled in England and brought to America in large barrels, but in transporting it overland it was found more convenient to divide it into small kegs. The traders soon became aware of the fact that by diluting the whisky with water more furs could be obtained. This was practised for some time, but the Indians learned that good whisky poured on a fire would cause it to flame up, whereas had the whisky been diluted the fire would be quenched. It was by this simple experiment that the term "firewater" became a common word among Indians.

A chief who had experienced the bad effects of whisky among his people said it was most certainly distilled from the hearts of wildcats and the tongues of women from the effects it produced.

Bernhardt Seat Sale

Opens this morning at 10 o'clock.

WEATHER: Continued cool temperature, with showers tonight or Friday; moderate northerly winds, mostly northeast.

SILK HOSE WITH A GUARANTEE

PURE SILK HOSE FOR WOMEN—4 PAIRS.. $3

Guarantee with every pair to wear three months or new ones free.

THE FARMERS SMILE

Ask a Northern Minnesota farmer what he thinks of this cool, moist spring weather. Watch him smile as he answers, "Why, it's great—it's worth dollars to us in the benefit to the growing crops."

This sort of a season promises much for the splendid hay and root crops of this part of the state. It means healthy and contented cattle and hogs on the farms and that means money in the farmer's pocket. What a blessing it is that we don't have to swelter in a heat that has been affecting so many other portions of the country. It's a healthy condition for everybody. Let's all be happy and hopeful of the good things the season will surely bring to us.

SINGERS TO GATHER HERE

Normanna Singing Society Will Be Host to National Convention.

About 150 Delegates Expected From the Northwestern States.

Plans for entertaining the delegates to the annual convention of the Norwegian Singers of America, which will be held in Duluth, July 8 and 9, were made last evening at a meeting of the Normanna Singing society. Most of the members of the society reside in the western end of the city.

About 150 delegates will attend from all parts of the Northwest, including points in Wisconsin, Illinois, the Dakotas, Iowa and Minnesota. The business sessions, which will take place Saturday, July 8, will probably be held at the Duluth Commercial club rooms.

Te principal business to come before the convention will be to make arrangements for the big sangerfest, which will be held in Fargo next year. A trip to Norway, which 300 members of the association will take in 1914, will also be discussed.

On Sunday, July 9, the Normanna society will entertain the delegates on sightseeing tours with automobiles around the boulevard and otherwise about the city. On Saturday evening it is planned to charter an excursion boat for a trip "around the horn."

At the meeting last evening, H. A. Haugen was elected chairman of the committee on arrangements and Ludwig E. Nagel was chosen secretary.

WILL ASK FOR RECONSIDERATION

Alderman Barnes Objects to Brick Pavement for Grand Avenue.

"A brick pavement for Grand avenue will keep business off that thoroughfare and will give the neighborhood a set-back that will take years to overcome."

This is what L. A. Barnes, Eighth ward alderman, says of the proposition, indorsed by the council, to pave Grand avenue between Fifty-fourth and Fifty-ninth avenues west, inclusive, with vitrified brick.

At the last meeting of the council, the action of the board of public works in awarding the contract for a brick pavement to Contractor P. McDonnell on his bid of $50,500 was approved. Alderman Barnes was disabled by a sprained wrist and could not be present at the meeting.

Mr. Barnes said today that he would ask the council at its next meeting to reconsider its action, as he believed that the property owners along the street would prefer a tar macadam pavement for various reasons.

"The tar macadam pavement," said Mr. Barnes, "is a Duluth pavement, while we have to go out of the city to get the brick. It is less expensive. It is durable, elastic, and not as noisy as the brick. Grand avenue people want this pavement, laid on a concrete foundation, in preference to the noisy brick. Take the First street pavement up-town and compare it with superior street paving. The noisy clanging street does not attract new business houses to a thoroughfare."

RESIGNS AS CASHIER.

L. R. Clark Severs Active Connection With Western State Bank.

L. R. Clark has resigned as cashier of the Western State bank, Central avenue, and will be succeeded June 1 by L. A. Barnes. The change was officially announced yesterday afternoon at a meeting of the directors of the institution.

Mr. Barnes resigned as vice president. Both he and Mr. Clark will remain directors. Alexander A. Donald succeeds Mr. Barnes as vice president. The directors passed a resolution expressing their appreciation of Mr. Clark's long services as cashier, and expressed regret at his resignation.

J. A. Scott was the first cashier of the bank. He was followed after a short time by Mr. Clark, who held the position for several years.

CONCERT

Tonight at the Great Eastern Hall, 210 General Avenue, given under the direction of Rev. W. Sievers. Admission, 50 cents.

Dancing Party.

The Y. L. C., an organization of West Duluth girls, has issued invitations for a private dancing party to be given Thursday evening, June 1 at Great Eastern hall. Blewett's orchestra will furnish the musical program. This party will be the first of a series to be given during the summer.

Hanchett Funeral.

Mr. and Mrs. Sidney Hanchett of Barrows, Sask. Can., will arrive tomorrow morning with the body of their 12-year-old daughter, Elnah, who died Monday. Mr. and Mrs. Hanchett were former residents of West Duluth. The funeral will be held Saturday morning from the Holy Apostle's Episcopal church, Fifty-seventh avenue west and Elinor street with interment in Oneota cemetery.

MAYOR CULLUM THROWING THE FIRST BALL.

West Duluth Briefs.

All preparations have been made for the concert, which will be given this evening at Great Eastern hall under the auspices of Walter Sievers. Several talented musicians will take part and the program has been well selected.

The West Duluth Educational association will hold a meeting this evening at the Irving school, Fifty-seventh avenue west and Nicollet street. The principal speakers will be Mayor Cullum, A. C. McKnight, J. A. Keyes and Miss Mary McFadden.

Reginald Graham, who has been attending the University of Pennsylvania, has returned to his home at West Duluth to spend the summer vacation.

Rev. F. E. Stidd, pastor of Merritt Memorial M. E. church left yesterday for Finlayson, Minn., where he will have charge of a quarterly conference, held in the Finlayson M. E. church.

The West Duluth Brass works is building a frame addition to its factory at Fiftieth avenue west and Ramsey street. The growth of the firm's business the past year has necessitated this improvement.

Oscar Lundquist of Fifty-ninth avenue west has left for the Twin Cities, on a two weeks' visit with friends.

Watch repairing. Hurst, W. Duluth.

FRUIT IN JAPAN.

The use of fruits in Japan was until recently limited to the upper classes, and the cultivation of fruit trees was not carried on as at the present day, though fruits growing wild in field or forest were gathered and offered for sale. A few fruit trees were grown by householders in their home gardens for private use, but little attention was paid to their cultivation.

The principal cause for the slow development of fruit culture in Japan appears to have been the climate. The climate being warm and moist, there is luxuriant growth of vegetation, producing the exquisitely beautiful landscapes for which Japan is so well known, but on the other hand few advantages for fruit culture exist. In order to obtain satisfactory results, great expenditure is necessary.

Fruits which have been cultivated from ancient days, extensively enough to be grown in orchards or vineyards, says the Japan Magazine, are oranges, pears, plums and grapes, and great attention was paid to the different varieties of each, though the plum was chiefly cultivated and prized for its blossom and large plum gardens abound in Japan, valued for their beauty and attractiveness during their flowering season, which is in snowy January.

Such trees as the persimmon, peach, loquat, quince, Japanese apricot and plum, jujube and ginnan are often planted around the home or along the footpaths in rice fields, but these are for the most part seedlings and no special attention is paid to them, except occasional fertilizing. Formerly there was no uniform and methodical system for fruit culture in Japan except for pears, oranges and grapes, but since 1877, when foreign fruit trees were first introduced, the method of culture according to scientific principles has been advocated.

The amount and value of oranges, peaches, plums, persimmons, pears and grapes produced in 1907-08 reached a surprisingly high figure, and large quantities were shipped to the United States, Canada, China and Vladivostok. Pears, sand pears, oranges, apples, date plums, loquats, quinces, pomegranates, peaches, apricots (Japanese and foreign), plums, jujube, sweet cherries, grapes, figs and gooseberries, and walnuts and chestnuts are the fruits and nuts mostly appreciated and eaten in Japan, the latter being wild with only a few examples of the cultivated variety.

Trianon Dairy Offers Three Very Fine Bull Calves

One thoroughbred Guernsey at $75.00 and two high grade Guernseys at $25.00 each.

On account of lack of room we offer this high class young stock for sale. This stock cannot be excelled in the country and is from cows producing 7,000 lb milk per year, with high butter fat test. This stock is offered for the benefit of the breeders in this section of the country and if not sold within a week or ten days these calves will be sent to St. Paul and Southern Minnesota. For further information regarding breeding and records, address, Trianon Dairy, Duluth.

SALTILLO TO BE ATTACKED

Madero Orders Troops to Advance on State Capital.

Refusal of Legislature to Install His Man Is the Cause.

Juarez, Mex., May 25.—A resumption of hostilities in the state of Coahuila was ordered today. Francisco I. Madero, Jr., gave instructions for the insurrectos in that state to advance on Saltillo, the capital, a city of 24,000 population, with a view to taking it from the federals and forcing the establishment of the provisional government there.

Coahuila is one of the four states in which Madero asserts it had been agreed he should install his provisional governors. Madero today received advices that the legislature there had refused to install Senor Venus Pino Carranza, who had been chosen for that post.

Ordered an Attack.

As soon as he was informed of the refusal of the legislature to bow to his will, the insurrecto leader issued instructions by telegraph for the revolutionists to advance on the city and open attack if necessary.

He also issued a statement explaining the situation and declaring it his belief that the federal troops would join with the insurrectos. The statement follows:

"There has been received in the office of the provisional government news that the legislature of Coahuila has refused to turn the government over to Senor Carranza, and that it has been proposed to install in his place Pragedis de la Pina, or Dr. Carlos Viescay Labatoon.

Expects Federal Aid.

"The provisional president, who knows perfectly well that public opinion favors Senor Carranza and that he was the popular candidate for governor in the last election and would have been elected by a majority of votes, does not wish to yield to the legislature, and he has given the necessary instructions for the insurrecto force to advance on the capital of Coahuila and compel the legislature to act in accordance with the revolutionists. It is probable that the federal forces will join with the insurrectos."

The following statement has been issued at the Madero headquarters:

"By news received directly by Senor Madero it is known that Gen. Portirio Diaz and Senor Ramon Corral will present their resignations today. The present ministers will resign and the ministers and sub-secretaries proposed by Senor Madero will receive their portfolias next Saturday.

"Some of the persons named are still in Juarez and will depart tonight for the City of Mexico via Laredo, while Senor Madero in all probability will start via Chihuahua in the first days of next week.

"In the special train will only go his personal staff, a guard of honor of the liberating army and some newspaper men."

Mobs Parade Streets.

City of Mexico, May 25.—The police today fired on a crowd in front of the department of foreign relations. One man was killed. A manifesto issued by Robles Dominguez, appealing for order, is almost totally disregarded. Mobs at 12:30 p. m. were still parading streets yelling, "Viva Madero!"

Notice of Meeting.

The annual meeting of the stockholders of the Duluth & Northern Minnesota Railway company will be held at the office of the company, No. 510 Lonsdale building, Duluth, Minnesota, on Wednesday, June 7, 1911, at 10 o'clock a. m.

J. W. BAYLY,
Secretary.

May, 24, 1911.

THE ST. AGNES LIGHT.

Pall Mall Gazette: One of the oldest and most famous lighthouses in the world is to disappear. According to an official "Notice to Mariners" issued by Trinity house, the St. Agnes light, Sicilly, is to be replaced by a light on Peninnis Head, St. Mary. For centuries it has gladdened the eyes of passengers from the other side of the Atlantic or has blinked a parting to emigrants.

It stands inland on the highest ground in the island of St. Agnes and the first light was lit on the spot as long ago as 1680. Coal was the only illuminant and the light was often allowed to go out. But in 1790 oil lamps and reflectors were installed and flashes of the present one-minute revolving light can be seen at a distance of thirty miles.

Probably one of the chief motives which prompted the placing of a guiding light on the island was the reputation which St. Agnes bore for wrecking in the old days. Many a ship was lured on the rocks by false lights and the tradition was preserved among seamen for many years afterward.

It is stated that almost within living memory a crew who were shipwrecked on the island kept their would-be rescuers at bay with stones. They feared that they would be massacred and could be approached only when they dropped helpless from hunger and exhaustion.

The most famous of many wrecks off the Scillies occurred in Port Hellick bay near the site of the new St. Mary's light. It was here that Admiral Sir Cloudesley Shovel with four men of war and many hundreds of sailors, was lost in 1707 while returning from the capture of Gibraltar. It is stated that a sailor warned the admiral, to whom there is a much abused monument in Westminster Abbey, of his danger and that he was promptly hanged at the yardarm for insubordination. On another occasion a ship turned turtle and was driven into the bay. Sounds were heard from the upturned hull and when an opening was cut in the hull a number of the crew were found alive within.

The new light will be semi-watched from a circular iron tower which will be painted white and will be forty-five feet high.

Did you ever feel inclined to go hunting around for furnished rooms that were not important enough to be advertised in The Herald?

J. M. Gidding & Co.

"Gidding Corner"—Superior St. at First Ave. W.

Gems of Style

In Garments of the Higher Cast.

There's no other reason on earth for the phenomenal progress of this organization other than the fact that Gidding Styles are foremost, and Gidding values are right.

Suits in high-style modes, of cloth, satin and silk—in trimmed effects or enhanced by the fashionable sailor collars, large Directoire revers, or in clever French fashionings that must be seen to be appreciated. Prices $45.00 to $100.00.

Also all manner of Dutch Collars, Jabots, Sorority and Sailor Collars, Stocks and Novelty Neck Finishings.

Lighting Talks

NUMBER 15 **DULUTH, MAY 25, 1911**

Does This Mean Anything to YOU?

The fact that a certain price is paid for Electric Light by any one city is in itself no reason why that same price can or should be paid by any other city; conditions in one place may differ radically from those in another.

But the prices paid in a large group of cities provide most valuable evidence as to whether any proposed price is high or low—the average of all those prices is the one best criterion for judging this question of price.

The last five preceding "Lighting Talks" have shown you the present prices paid for Electric Light for their streets by 148 American cities—all the leading cities of their respective States, cities ranging all the way from Mankato, with its 14,000 population, to New York City with its 4,767,000 people.

Now the average of the prices paid by all these 148 cities is $68.41 PER ARC LIGHT PER YEAR. YOU can figure that out easily enough from the tables of prices printed in these "Lighting Talks."

YOU can also see at a glance that the offer of The Duluth-Edison Electric Company to light Duluth at the price of ONLY $45 A YEAR FOR EACH ARC LIGHT MEANS $23.41 LESS ON EACH LIGHT than the average of the prices paid by all other leading American cities.

On the present number of lights in the streets of Duluth, 647, our offer means a saving to this city of $15,146 a year, as compared with what this lighting would cost at the average price paid by all the other leading American cities.

Inasmuch as the City Charter limits the public lighting fund to one mill on the dollar of the taxable property in Duluth, if this City had to pay that average price of $68.41 for each light Duluth would have to get along with only 463 lights, or 184 less than are now in use.

Our offer of ONLY $45 PER ARC LIGHT PER YEAR means that for the same amount now paid yearly for city lighting, Duluth can get 93 MORE ARC LIGHTS than are now in use.

Furthermore, we offer Duluth FREE for ten years, Electric Lighting worth $1,500 a year for the improved parks, the city buildings, and a proposed Electric Sign on the Aerial Bridge. Other cities, as a rule, get NO free lighting at all.

Think on these things—and read "Lighting Talk" No. 16, in next Saturday's Herald.

DULUTH-EDISON ELECTRIC CO.

JUNE 3 IS DESIGNATED MUNICIPAL CLEANING DAY

Mayor and Health Commissioners Ask Citizens to Clean Up.

Failure to Remove Rubbish Will Result in Warrants Being Issued.

If you haven't already done so, dig out your shovels and rakes for Saturday, June 3. That date has been fixed by Mayor Cullum and Health Commissioner Webster as the annual municipal "cleaning day."

When the sun sets on the evening of that day Duluth is supposed to be more nearly a "spotless town" than it has been since it cast aside its village garments and assumed the dignity of a city. Every tin can, every ash heap, every pile of rubbish, and in general, every blemish of whatever description deprecating its attractiveness, is expected to have disappeared from within the corporate limits.

Thus far hundreds of yards in the city have been greatly improved. In fact, several persons who have made it a point to make an informal investigation, declare that Duluth is looking better today than it has for years. Large quantities of rubbish have been hauled to the city dump, but there is still room for considerable improvement.

The authorities are certain that the citizens generally, particularly including the children, will respond to any call upon their civic pride for a better and cleaner Duluth. They state that it is not only to improve the city's appearance, but to benefit general public health. They point out that if manure piles and other filth are allowed to accumulate, they will form prolific breeding places for disease, and especially for flies, which are recognized as the worst carriers of disease infesting northern climates.

An extra crew of sanitary inspectors has been at work since the first of the month. They have been going over districts and have served many notices upon owners and occupants of different properties to clean their premises. They have usually met with a prompt willingness to comply with their instructions, although in some instances it has been necessary to call several times and finally to threaten arrest. The health department officials say that they are not joking when they speak of arrests, and that they will be made just as surely as the premises remain in a filthy condition.

A special effort is being made to have the vacant lots cleaned up. They are usually the most difficult on which to get action, as they are a standing invitation to many people to deposit their garbage there when nobody has their eyes on them. Mayor Cullum has written all the real estate agents of the city asking them to co-operate in the cleaning campaign, particularly with reference to vacant properties which may be listed with them.

HAS EYES ON THE RANGES

Western Federation of Miners Will Again Invade Minnesota, Says Haywood.

Working Class of Scotland and England Greatly Impoverished.

W. D. Haywood, known to thousands of workers throughout the United States as "Bill" Haywood, former secretary-treasurer of the Western Federation of Miners, and famous as one of the men accused in the Moyer-Pettibone-Haywood trial, is a guest of the St. Louis.

Mr. Haywood was asked the question as to whether he was here to organize a branch of the Western Federation of Miners on the range. He answered that he did not have time, but that he was working in the interests of the federation and that it was only a question of time before the miners on the Mesaba range would be included in the ranks of the Western Federation.

He was asked if the trip up to the range, earlier in the year, of William Mahoney was for the purpose of organizing the miners of the range, and replied that it was.

Mr. Haywood stated that in the past five years the Western Federation of Miners has doubled in membership,

W. D. HAYWOOD.

that it is progressing all the time, and that it will only be a very short time before the miners here will come in, as he asserted they need the help of the federation.

Since his former trip to Duluth, when he spoke in the armory, Mr. Haywood has spoken in the various labor centers of Denmark, Sweden, Norway, Italy, Scotland and Ireland. He has gained some international prominence from this trip, and if his general attitude today, his general language and bearing, are an indication, he has been toned down somewhat by his European experiences.

He says that the working class in England and Scotland is poverty stricken, but in all of the other countries he visited the laboring man is much better off than his brother laborer in the United States. While not claiming that the laborer, in some of the European countries gets more wages than the American working man, Mr. Haywood says he is, in the end, better off, for the simple reason that his living is cheaper, so much cheaper in fact, that his wage is really relatively greater.

Mr. Haywood describes labor conditions in England as most pitiable. He ascribes the cause to the gradual decline of England as a commercial power. He points out that every cotton loom that is started in Texas, a state that formerly shipped its vast output of cotton to England for manufacture, means the throwing out of work of many working men in England.

While no longer an officer of the Western Federation of Miners, Mr. Haywood still holds his card, and according to his own admission today, is still an agitator. He will agitate on the range, as much as time will permit, an says he will keep on agitating to the end.

When asked what parallel there was between the case of the two McNamaras and Ortie McManigal, Mr. Haywood replied that there was the very closest resemblance.

"Every illegal method was seized upon to get them out of the state," he declared. "They were taken after the courts had closed, and every detail was in direct opposition to legal procedure.

"I am afraid they have a very hard case, these men. They have not merely the state of California against them, but the power behind the erectors' association. They have a mighty power arrayed against them, and it will be a very hard case."

Mr. Haywood will speak here Saturday evening, after his return from the range. He will leave for the range tomorrow, and will deliver a speech there.

EIGHTH DISTRICT IS FARING WELL

Is Getting Generous Share of Postal Savings Banks.

Washington, May 25.—(Special to The Herald.)—The Eighth congressional district is faring splendily in the matter of postal savings banks. Congressman Miller early brought to the attention of the department the peculiar advantages possessed by several cities in Northeastern Minnesota. He first urged that Hibbing, Virginia, and Eveleth be designed as depositaries. The last of these three, Virginia, was designated last week and Mr. Miller at once urged that a depositary be located in Cloquet. Cloquet, too, has been designated.

These places are peculiarly adapted for postal savings banks by reason of the large number of laboring men there getting good wages, and the large portion of whom are of foreign descent. These men have been sending millions to the old country, but now seem disposed to depoeit their money with these government savings institutions. This keeps the money in this country and will prove a distinct benefit to the communities. To date Mr. Miller has secured more of these designations than have been given to any other Western district.

Changes in Train Service on the North-Western Line.

Commencing Sunday, May 25, the Chicago Local Train No. 95 will leave Duluth at 8:15 p. m. instead of 3:30 p. m.; Superior, 8:35 p. m. instead of 3:50 p. m., arriving Chicago 11:59 a. m., and will leave Chicago at 10:10 p. m., arriving Duluth 12:40 p. m. and Superior 12:20 p. m. Through sleeper between Duluth and Superior and Chicago.

Twilight Limited, Train No. 63, will leave Duluth at 4:15 p. m. instead of 4:35 p. m., Superior 4:35 p. m. instead of 4:55 p. m., arriving at St. Paul 9:50 p. m., Minneapolis 10:25 p. m., making stops at Solon Springs and Gordon. No change in time northbound.

Chicago Limited leaving Duluth 6:15 p. m., Superior 6:35 p. m., will not be changed.

For detailed information call at ticket offices, 302 West Superior street, Duluth, or 910 Tower avenue, Superior.

RAILROADS

CONNECTING LINK IS BEING BUILT

Upper Peninsula Thereby Afforded Another Railroad to Southern Michigan.

Marquette, Mich., May 25.—(Special to The Herald.)—The extension of the Manistique & Lake Superior railroad from Shingleton to Evelyn, on the Munising railway, the construction of which was started last fall, will be completed within a short time. This connecting link between the Ann Arbor system and the Cleveland Cliffs Iron company's lines is about four miles in length and will give Marquette and the iron country another connection with Southern Michigan. Since the new stretch of road has been under construction, it has been reported that it was the intention of the Ann Arbor management to run trains into the Upper Peninsula and possibly as far as Munising and Marquette. It even has been rumored that a car ferry across Lake Superior was contemplated. General Manager Harris of the Cleveland Cliffs system says, however, that the only purpose in building the Manistique & Lake Superior through to Evelyn is to make it posible to get out a quantity of timber in that region. He is not advised of any plan to run passenger trains.

SAVOY THEATER CHANGES HANDS

Former Picture House Will Be Operated as Vaudeville Theater.

The Savoy theater, located at 28 East Superior street, is now the property of William M. Abrahamson, a well known and popular Duluth business man, who is known all over the entire Northwest as president of the Sterling Wine company and manager

W. M. ("BILLIE") ABRAHAMSON

of the W. M. Abrahamson Mail Order company.

The theater is at the present time being re-decorated. It will undergo a thorough renovating preparatory to the opening of the summer season.

Mr. Abrahamson is known as a man who does things. He has a reputation in this line for never yet has he allowed himself to be identified with a failure. He plans on giving Duluth the biggest, best and most enjoyable ten-cent show that the people have ever enjoyed.

He plans on giving three star, A-1 vaudeville acts and in addition to three reels of the best and most up-to-the minute motion pictures, illustrated songs, and other features new in the vaudeville and show business. The admission will not be raised, the price remaining at 10 cents for any seat in the house.

The opening performance at the theater under Mr. Abrahamson's able direction and the competent staff recently secured, will take place next Sunday, May 28. There will be both afternoon and evening performances.

The bill will be changed every Monday and Thursday. Mr. Abrahamson will personally hear every act and see every set of pictures before they are shown to the public and any objectionable matter will be eliminated.

Mr. Abrahamson wants to make the Savoy theater a place where business men will feel safe in sending their wives and children. Every courtesy will be shown women and children. A system of perfuming the theater after each show with disinfectant perfume will be inagurated. He plans on making the Savoy the coolest spot in the city during the hot summer months. A cooling machine is to be installed in the basement of the building.

Mr. Abrahamson has lived in Duluth a number of years and has held many positions of trust. In all of them he has made good. When a member of the board of fire commissioners he made it a practice to be at every fire in the down-town district. He always stayed until the last man had left and the fire was officially declared out.

As a business man, Mr. Abrahamson has a reputation for square dealing and honesty that has brought him into prominence over the entire Northwest. During 1910 he sent out 312,000 pieces of mail. It was sent to the local postoffice in wagon loads. Mail bags were furnished by the postoffice department especially to care for his large mail order business, the largest in the West. During the months of November and December, 1910, he had a larger money order business at the Duluth postoffice than any other Duluth firm. During the same months he shipped more packages through the Duluth express offices than any other firm in the city.

Mr. Abrahamson has many friends who will be pleased to hear of his new venture and who will wish him success.

MILLER RECOMMENDS TWO POSTMASTERS.

Washington, May 26.—(Special to The Herald.)—Congressman Miller today recommended the appointment of John Glava to be postmaster at Ray, Koochiching county, Thomas Watson, the present postmaster, having resigned, and the appointment of Fred Slats, Sr., at Mizpah, Koochiching county, to take the place of E. W. Francis, resigned.

REFRESHING SLEEP.

Horsford's Acid Phosphate.

Half a teasponful in glass of water before retiring induces restful sleep.

SUPERIOR FIRE LOSS IS HEAVIER

Damage at Bee Hive Will Run Well Over $200,000.

Insurance on Stock and Building Nearly Covers the Loss.

That the losses in the Bee Hive department store fire yesterday will run well over $200,000 instead of $150,000, as was first thought, is the announcement made today by Roth Bros., proprietors. It is now figured that the damage to the stock alone amounts to $150,000, and that the building is damaged $50,000 or more.

The building was owned by outside capitalists, represented by A. T. Aldis, Sidney R. Taber and Russell Tyson of Chicago and Boston. It was built twelve years ago, with 130-foot frontage on Tower avenue and running 125 feet deep on Broadway street. Three years ago an addition was built on.

The insurance on the building amounted to $47,000, all of which is carried by the George G. Newton company. The stock was insured for $170,000, about 90 per cent of the full value.

SPECIAL TRAIN TO THE CEMETERY.

Alonzo Palmer post, G. A. R., is making elaborate plans for the observing of Memerial day in Superior. Special services have been planned for next Sunday and on the morning of Memorial day, there will be a big parade in which the members of the post, the Women's Relief corps, Hector Swift camp, Spanish-American War veterans, and Company I, Wisconsin National guard, will participate. The parade will march down Tower avenue to the Union station, where a special train will leave for Greenwood cemetery. At the cemetery the graves of sixty-two Civil war veterans and one Confederate soldier will be decorated. On the return to the city a program of a patriotic nature will be held at the Blaine school auditorium. Rev. F. L. Roberts will be the principal speaker.

Declamatory Contest.

A declamatory contest will be held at the Superior Normal school auditorium tomorrow evening. The program follows:

Vocal solo, Gladys Colon; "For Dear Old Yale," Alice Scheidecker; "Hashimra Togo on Baseball," Charles Cadigan; "A Soldier of France," Yvenne Dauplaise; "Sara Jane's Doll," Evanda Backer; chorus, Normal school girls; "Evangeline," Helen Elliott; "Gentlemen, the King," Loren McQueen; piano solo, Miss Jacobson.

Old Settlers Coming.

The Old Settlers association of Two Harbors will be the guests of the Superior "old timers" on July 19, Old Settler's day. The Two Harbors pioneers will charter the steamer Easton and accompanied by the Marine band of that place, will come to Superior, about fifty strong. A celebration will be held at Billings park.

ADDITIONAL SPORTS

HAMLINE HAS AGAIN BEATEN NORTH DAKOTA.

Grand Forks, N. D., May 25.—(Special to The Herald.)—For the second time this season the Hamline baseball team yesterday defeated the North Dakota university team by a score of 3 to 1. Wickham of Hamline allowed only one hit, and that the scratch variety, while the Hamlinites secured seven off of Campbell, although they were well scattered. Score: R. H. E.

Hamline	0 0 3 0 0 0 0 0 0	3	7	2
North Dakota	0 0 0 0 0 1 0 0 0	1	1	1

Lighting Talks

NUMBER 15 **DULUTH, MAY 25, 1911**

Does This Mean Anything to YOU?

The fact that a certain price is paid for Electric Light by any one city is in itself no reason why that same price can or should be paid by any other city; conditions in one place may differ radically from those in another.

But the prices paid in a large group of cities provide most valuable evidence as to whether any proposed price is high or low—the average of all those prices is the one best criterion for judging this question of price.

The last five preceding "Lighting Talks" have shown you the present prices paid for Electric Light for their streets by 148 American cities—all the leading cities of their respective States, cities ranging all the way from Mankato, with its 14,000 population, to New York City with its 4,767,000 people.

Now the average of the prices paid by all these 148 cities is $68.41 PER ARC LIGHT PER YEAR. YOU can figure that out easily enough from the tables of prices printed in these "Lighting Talks."

YOU can also see at a glance that the offer of The Duluth-Edison Electric Company to light Duluth at the price of ONLY $45 A YEAR FOR EACH ARC LIGHT MEANS $23.41 LESS ON EACH LIGHT than the average of the prices paid by all other leading American cities.

On the present number of lights in the streets of Duluth, 647, our offer means a saving to this city of $15,146 a year, as compared with what this lighting would cost at the average price paid by all the other leading American cities.

Inasmuch as the City Charter limits the public lighting fund to one mill on the dollar of the taxable property in Duluth, if this City had to pay that average price of $68.41 for each light Duluth would have to get along with only 463 lights, or 184 less than are now in use.

Our offer of ONLY $45 PER ARC LIGHT PER YEAR means that for the same amount now paid yearly for city lighting, Duluth can get 93 MORE ARC LIGHTS than are now in use.

Furthermore, we offer Duluth FREE for ten years, Electric Lighting worth $1,500 a year for the improved parks, the city buildings, and a proposed Electric Sign on the Aerial Bridge. Other cities, as a rule, get NO free lighting at all.

Think on these things—and read "Lighting Talk" No. 16, in next Saturday's Herald.

DULUTH-EDISON ELECTRIC CO.

JUNE 3 IS DESIGNATED MUNICIPAL CLEANING DAY

Mayor and Health Commissioners Ask Citizens to Clean Up.

Failure to Remove Rubbish Will Result in Warrants Being Issued.

If you haven't already done so, dig out your shovels and rakes for Saturday, June 3. That date has been fixed by Mayor Cullum and Health Commissioner Webster as the annual municipal "cleaning day."

When the sun sets on the evening of that day Duluth is supposed to be more nearly a "spotless town" than it has been since it cast aside its village garments and assumed the dignity of a city. Every tin can, every ash heap, every pile of rubbish, and in general, every blemish of whatever description deprecating its attractiveness, is expected to have disappeared from within the corporate limits.

Thus far hundreds of yards in the city have been greatly improved. In fact, several persons who have made it a point to make an informal investigation, declare that Duluth is looking better today than it has for years. Large quantities of rubbish have been hauled to the city dump, but there is still room for considerable improvement.

The authorities are certain that the citizens generally, particularly including the children, will respond to any call upon their civic pride for a better and cleaner Duluth. They state that it is not only to improve the city's appearance, but to benefit general public health. They point out that if manure piles and other filth are allowed to accumulate, they will form prolific breeding places for disease, and especially for flies, which are recognized as the worst carriers of disease infesting northern climates.

An extra crew of sanitary inspectors has been at work since the first of the month. They have been going over districts and have served many notices upon owners and occupants of different properties to clean their premises. They have usually met with a prompt willingness to comply with their instructions, although in some instances it has been necessary to call several times and finally to threaten arrest. The health department officials say that they are not joking when they speak of arrests, and that they will be made just as surely as the premises remain in a filthy condition.

A special effort is being made to have the vacant lots cleaned up. They are usually the most difficult on which to get action, as they are a standing invitation to many people to deposit their garbage there when nobody has their eyes on them. Mayor Cullum has written all the real estate agents of the city asking them to co-operate in the cleaning campaign, particularly with reference to vacant properties which may be listed with them.

HAS EYES ON THE RANGES

Western Federation of Miners Will Again Invade Minnesota, Says Haywood.

Working Class of Scotland and England Greatly Impoverished.

W. D. Haywood, known to thousands of workers throughout the United States as "Bill" Haywood, former secretary-treasurer of the Western Federation of Miners, and famous as one of the men accused in the Moyer-Pettibone-Haywood trial, is a guest of the St. Louis.

Mr. Haywood was asked the question as to whether he was here to organize a branch of the Western Federation of Miners on the range. He answered that he did not have time, but that he was working in the interests of the federation and that it was only a question of time before the miners on the Mesaba range would be included in the ranks of the Western Federation.

He was asked if the trip up to the range, earlier in the year, of William Mahoney was for the purpose of organizing the miners of the range, and replied that it was.

Mr. Haywood stated that in the past five years the Western Federation of Miners has doubled in membership,

W. D. HAYWOOD.

that it is progressing all the time, and that it will only be a very short time before the miners here will come in, as he asserted they need the help of the federation.

Since his former trip to Duluth, when he spoke in the armory, Mr. Haywood has spoken in the various labor centers of Denmark, Sweden, Norway, Italy, Scotland and Ireland. He has gained some international prominence from this trip, and if his general attitude today, his general language and bearing, are an indication, he has been toned down somewhat by his European experiences.

He says that the working class in England and Scotland is poverty stricken, but in all of the other countries he visited the laboring man is much better off than his brother laborer in the United States. While not claiming that the laborer, in some of the European countries gets more wages than the American working man, Mr. Haywood says he is, in the end, better off, for the simple reason that his living is cheaper, so much cheaper in fact, that his wage is really relatively greater.

Mr. Haywood describes labor conditions in England as most pitiable. He ascribes the cause to the gradual decline of England as a commercial power. He points out that every cotton loom that is started in Texas, a state that formerly shipped its vast output of cotton to England for manufacture, means the throwing out of work of many working men in England.

While no longer an officer of the Western Federation of Miners, Mr. Haywood still holds his card, and according to his own admission today, is still an agitator. He will agitate on the range, as much as time will permit, an says he will keep on agitating to the end.

When asked what parallel there was between the case of the two McNamaras and Ortie McManigal, Mr. Haywood replied that there was the very closest resemblance.

"Every illegal method was seized upon to get them out of the state," he declared. "They were taken after the courts had closed, and every detail was in direct opposition to legal procedure. "I am afraid they have a very hard case, these men. They have not merely the state of California against them, but the power behind the erectors' association. They have a mighty power arrayed against them, and it will be a very hard case."

Mr. Haywood will speak here Saturday evening, after his return from the range. He will leave for the range tomorrow, and will deliver a speech there.

EIGHTH DISTRICT IS FARING WELL

Is Getting Generous Share of Postal Savings Banks.

Washington, May 25.—(Special to The Herald.)—The Eighth congressional district is faring splendidly in the matter of postal savings banks. Congressman Miller early brought to the attention of the department the peculiar advantages possessed by several cities in Northeastern Minnesota. He first urged that Hibbing, Virginia, and Eveleth be designed as depositaries. The last of these three, Virginia, was designated last week and Mr. Miller at once urged that a depositary be located in Cloquet. Cloquet, too, has been designated.

These places are peculiarly adapted for postal savings banks by reason of the large number of laboring men there getting good wages, and the large portion of whom are of foreign descent. These men have been sending millions to the old country, but now seem disposed to deposit their money with these government savings institutions. This keeps the money in this country and will prove a distinct benefit to the communities. To date Mr. Miller has secured more of these designations than have been given to any other Western district.

Changes in Train Service on the North-Western Line.

Commencing Sunday, May 25, the Chicago Local Train No. 95 will leave Duluth at 8:15 p. m. instead of 3:30 p. m.; Superior, 8:35 p. m. instead of 3:50 p. m., arriving Chicago 11:59 a. m., and will leave Chicago at 10:10 p. m., arriving Duluth 12:40 p. m. and Superior 12:20 p. m. Through sleeper between Duluth and Superior and Chicago.

Twilight Limited, Train No. 63, will leave Duluth at 4:15 p. m. instead of 4:35 p. m., Superior 4:35 p. m. instead of 4:55 p. m., arriving at St. Paul 9:50 p. m., Minneapolis 10:25 p. m., making stops at Solon Springs and Gordon. No change in time northbound.

Chicago Limited leaving Duluth 6:15 p. m., Superior 6:35 p. m., will not be changed.

For detailed information call at ticket offices, 302 West Superior street, Duluth, or 910 Tower avenue, Superior.

RAILROADS

CONNECTING LINK IS BEING BUILT

Upper Peninsula Thereby Afforded Another Railroad to Southern Michigan.

Marquette, Mich., May 25.—(Special to The Herald.)—The extension of the Manistique & Lake Superior railroad from Shingleton to Evelyn, on the Munising railway, the construction of which was started last fall, will be completed within a short time. This connecting link between the Ann Arbor system and the Cleveland Cliffs Iron company's lines is about four miles in length and will give Marquette and the iron country another connection with Southern Michigan. Since the new stretch of road has been under construction, it has been reported that it was the intention of the Ann Arbor management to run trains into the Upper Peninsula and possibly as far as Munising and Marquette. It even has been rumored that a car ferry across Lake Superior was contemplated. General Manager Harris of the Cleveland Cliffs system says, however, that the only purpose in building the Manistique & Lake Superior through to Evelyn is to make it posible to get out a quantity of timber in that region. He is not advised of any plan to run passenger trains.

SAVOY THEATER CHANGES HANDS

Former Picture House Will Be Operated as Vaudeville Theater.

The Savoy theater, located at 28 East Superior street, is now the property of William M. Abrahamson, a well known and popular Duluth business man, who is known all over the entire Northwest as president of the Sterling Wine company and manager

W. M. ("BILLIE") ABRAHAMSON

of the W. M. Abrahamson Mail Order company.

The theater is at the present time being re-decorated. It will undergo a thorough renovating preparatory to the opening of the summer season.

Mr. Abrahamson is known as a man who does things. He has a reputation in this line for never yet has he allowed himself to be identified with a failure. He plans on giving Duluth the biggest, best and most enjoyable ten-cent show that the people have ever enjoyed.

He plans on giving three star, A-1 vaudeville acts and in addition to three reels of the best and most up-to-the minute motion pictures, illustrated songs, and other features new in the vaudeville and show business. The admission will not be raised, the price remaining at 10 cents for any seat in the house.

The opening performance at the theater under Mr. Abrahamson's able direction and the competent staff recently secured, will take place next Sunday, May 28. There will be both afternoon and evening performances.

The bill will be changed every Monday and Thursday. Mr. Abrahamson will personally hear every act and see every set of pictures before they are shown to the public and any objectionable matter will be eliminated.

Mr. Abrahamson wants to make the Savoy theater a place where business men will feel safe in sending their wives and children. Every courtesy will be shown women and children. A system of perfuming the theater after each show with disinfectant perfume will be inagurated. He plans on making the Savoy the coolest spot in the city during the hot summer months. A cooling machine is to be installed in the basement of the building.

Mr. Abrahamson has lived in Duluth a number of years and has held many positions of trust. In all of them he has made good. When a member of the board of fire commissioners he made it a practice to be at every fire in the down-town district. He always stayed until the last man had left and the fire was officially declared out.

As a business man, Mr. Abrahamson has a reputation for square dealing and honesty that has brought him into prominence over the entire Northwest. During 1910 he sent out 312,000 pieces of mail. It was sent to the local postoffice in wagon loads. Mail bags were furnished by the postoffice department especially to care for his large mail order business, the largest in the West. During the months of November and December, 1910, he had a larger money order business at the Duluth postoffice than any other Duluth firm. During the same months he shipped more packages through the Duluth express offices than any other firm in the city.

Mr. Abrahamson has many friends who will be pleased to hear of his new venture and who will wish him success.

MILLER RECOMMENDS TWO POSTMASTERS.

Washington, May 26.—(Special to The Herald.)—Congressman Miller today recommended the appointment of John Glava to be postmaster at Ray, Koochiching county, Thomas Watson, the present postmaster, having resigned, and the appointment of Fred Stats, Sr., at Mizpah, Koochiching county, to take the place of E. W. Francis, resigned.

Half a teaspoonful in glass of water before retiring induces restful sleep.

SUPERIOR FIRE LOSS IS HEAVIER

Damage at Bee Hive Will Run Well Over $200,000.

Insurance on Stock and Building Nearly Covers the Loss.

That the losses in the Bee Hive department store fire yesterday will run well over $200,000 instead of $150,000, as was first thought, is the announcement made today by Roth Bros., proprietors. It is now figured that the damage to the stock alone amounts to $150,000, and that the building is damaged $50,000 or more.

The building was owned by outside capitalists, represented by A. T. Aldis, Sidney R. Tauer and Russell Tyson of Chicago and Boston. It was built twelve years ago, with 130-foot frontage on Tower avenue and running 125 feet deep on Broadway street. Three years ago an addition was built on.

The insurance on the building amounted to $47,000, all of which is carried by the George G. Newton company. The stock was insured for $170,000, about 90 per cent of the full value.

SPECIAL TRAIN TO THE CEMETERY.

Alonzo Palmer post, G. A. R., is making elaborate plans for the observing of Memorial day in Superior. Special services have been planned for next Sunday and on the morning of Memorial day, there will be a big parade in which the members of the post the Women's Relief corps, Hector Swift camp, Spanish-American War veterans, and Company I, Wisconsin National guard, will participate. The parade will march down Tower avenue to the Union station, where a special train will leave for Greenwood cemetery. At the cemetery the graves of sixty-two Civil war veterans and one Confederate soldier will be decorated. On the return to the city, a program of a patriotic nature will be held at the Bijou school auditorium. Rev. F. L. Roberts will be the principal speaker.

Declamatory Contest.

A declamatory contest will be held at the Superior Normal school auditorium tomorrow evening. The program follows:

Vocal solo, Gladys Colon; "For Dear Old Yale," Alice Schendecker; "Hashimura Togo on Baseball," Charles Cadigan; "A Soldier of France," Yvonne Dauplaise; "Sara Jane's Doll," Evanda Backer; chorus, Normal school girls; "Evangeline," Helen Elliott; "Gentlemen, the King," Loren McQueen; piano solo, Miss Jacobson.

Old Settlers Coming.

The Old Settlers association of Two Harbors will be the guests of the Superior "old timers" on July 19, Old Settler's day. The Two Harbors pioneers will charter the steamer Easten and accompanied by the Marine band of that place, will come to Superior, about fifty strong. A celebration will be held at Billings park.

ADDITIONAL SPORTS

HAMLINE HAS AGAIN BEATEN NORTH DAKOTA.

Grand Forks, N. D., May 25.—(Special to The Herald.)—For the second time this season the Hamline baseball team yesterday defeated the North Dakota university team by a score of 3 to 1. Wickham of Hamline allowed only one hit, and that the scratch variety, while the Hamlinites secured seven off of Campbell, although they were well scattered. Score: R. H. E.

Hamline .....00300000—3 7 2
North Dakota .....00000100—1 1 1

Batteries—Hamline, Wickham and Hambleton. North Dakota, Campbell and McIlraith.

Packey McFarland's Secret for Fatigue

We are not all pugilists and so cannot remain in the pink of condition all the time by exercise. But even as great a pugilist as Packey McFarland becomes exhausted once in a while, and his method of restoring his nervous energy is not by hardening his muscle, but by using the very same method which thousands of men and women are using today.

Packey's secret is really no secret at all. Here it is, in his own words: "While training I at times become fatigued and find splendid use for Make-Man Tablets, as I found them from personal use, the best tonic I have ever used."

Any man or woman who will try Make-Man Tablets for building up the nerves and purifying the blood (and we all need it at least once in a while) will find them the most effective tonic ever offered the public. They enrich the blood cells, infuse the starving "zigzag" nerves with the natural strength they need. For Nervousness, Insomnia, Rheumatism, Kidney and Liver Trouble, Make-Man Tablets have no equal. The first box will prove it. Free sample sent on request, Make-Man Tablet Co., Dept. 15, Chicago, Ill. Sold and recommended at all drug stores at 50 cents a box. C. E. Swedberg, White Swan Drug Co., 3 East Superior St.; also 2015 West Superior St.

Gale ..... 50 to 65
Hurricane ..... 65 and above
H. W. RICHARDSON, Local Forecaster.

RAIN

Though the high temperature was only 57 degrees, yesterday was beautiful. This morning the temperature was 40 degrees. Wouldn't that freeze you in May? Some people are getting very, very tired of the tactics employed by the weather dispenser and a mass meeting of protest will be called if he doesn't change his ways. Cast you luminous lamps on this cheerful prediction: "Continued cool temperature with showers tonight or Friday."

Cold, fair weather prevailed a year ago today.

The sun rose this morning at 4:21 and it will set at 7:48, giving fifteen hours and twenty-seven minutes of sunlight.

Mr. Richardson makes the following comment on weather conditions:

"Low pressure areas over the upper Mississippi valley and Utah caused light to copious showers over Western Canada, Montana, Washington and Oregon during the last twenty-four hours. Heavy rains fell over Manitoba. Somewhat cooler weather prevails over the greater portion of the Northwest, while over the lower Missouri, upper Mississippi and lower Ohio valleys temperatures have become rather high. At the Head of the Lakes the weather will be unsettled during the ensuing thirty-six hours, conditions favoring occasional showers."

General Forecasts.

Chicago, May 25.—Forecasts for twenty-four hours ending at 7 p. m. Friday:

Wisconsin—Generally fair tonight and Friday; warmer tonight in extreme southeast portion; cooler in west and central portions Friday and in southwest portion tonight.

Upper Michigan—Cloudy with probably showers tonight or Friday.

Minnesota—Unsettled weather and probably local showers tonight or Friday; cooler tonight in southeast portion.

Iowa—Generally fair tonight and Friday; cooler in north and west portions tonight.

North Dakota—Generally fair tonight and Friday.

South Dakota—Unsettled weather and probably local showers tonight or Friday.

Montana — Unsettled weather and probably local showers tonight or Friday.

Montana — Unsettled weather and probably local showers or snow flurries tonight or Friday; warmer Friday and in west portion tonight.

Upper lakes — Moderate variable winds; local showers tonight or Friday.

FORGER GETS DULUTH COIN

Man Claiming to Be Superintendent of Schools of Spooner, Wis., Active.

Passes Bad Paper Calling for Several Hundred Dollars.

Several Duluth stores, among them J. S. Ray & Co., 406 West Superior street, and J. H. Constantine, 114 West First street, were victimized by a smooth forger last week. He is believed to have gotten away with a considerable sum of money in this city.

He has also operated in Chicago, St. Paul and Minneapolis, as shown by checks which have been coming back to the Bank of Spooner, on which they were drawn. What the total of the checks will be is problematical, as it is not thought that they have stopped coming. Thus far the sum is several hundred dollars.

All the checks were signed by a man purporting to be John B. Hayes. He represented himself as superintendent of schools at Spooner, and for purposes of identification exhibited fraudulent contracts with the school board of that city.

Northwestern banks have been notified to be on the lookout for him, as have the police of different cities. He is said to be 5 feet 8 inches tall, heavy set, sandy mustache, light gray slouch hat, blue suit, spectacles, and usually carrying a light tan suit case.

RESIGNATION IS PROMISED

(Continued from page 1.)

fronts shattered during the tumult were those of the W. G. Walz shop, the Aztec land curio shop, and the Tampico News company, all Americans.

Reports received today from outlying quarters show that five persons were killed at Guadalajara Tuesday night. Governor Gallardo of the state of Jalisco, of which Guaralajara is the capital, has resigned and has been succeeded by David Gutierrez Allende.

Outbreak At Guadalajara.

A mob demonstration occurred at Guadalajara last night with cries for vengeance for the five persons killed on Tuesday. The outbreak was quieted when Governor Gallardo resigned. The danger of the situation at that point is not considered over.

Throughout last night there were echoes of the bloody struggle which occurred earlier in the evening, when the mob held sway at many points, storming buildings and menacing the presidential palace until swept back by volleys from the government forces.

Covered Large Area.

The scene of action last night covered a wide area, and at times four different demonstrations were in progress with varying degrees of intensity, all apparently having a common object.

Toward 9 o'clock the mob demonstration was at its height. Shouts for Madero were heard everywhere, and processions moved through leading streets bearing huge portraits of the revolutionary leader. Efforts to check the fury of the outbreak were made by Madero's personal representative, Alfred Robles Dominguez, but the disorder continued, finding its chief center in front of the presidential palace. Arming themselves with rocks, the mob bombarded nearby buildings, including the newspaper office of El Imparcial, and the Tampico News company.

Troops Guarded Palace.

A large force of troops was hurried to the scene of disturbance and a cordon was thrown about the presidential palace.

In the midst of it all President Diaz lay on a sick bed. It was learned on authority this afternoon that despite recent optimistic official reports of his condition, the president has shown several dangerous symptoms of fever the last five days. He declines to see all visitors, including the diplomatic corps, and takes nothing but liquid nourishment. Madame Diaz told a visitor that the president's principal diet is warm milk.

A heavy guard was maintained in front of the presidential residence throughout the night.

Twice the orders to disperse were given to the manifestants, but without avail. Thereupon the soldiers opened fire. Immediately there was a scene of the wildest confusion. The more timid rioters fled to nearby streets and alleys, while the leaders gave ground slowly before the advancing forces, which still kept up their fire. Slowly, however, the mob was broken up, although detached bodies continued demonstrations at various points throughout the city.

Rioters Held City.

For six hours last night this city was in the hands of the mob, and it was a rain storm, more effective than police and soldiers, that caused the dispersal of most of them. Almost up to midnight, however, a remnant, keeping step to the beating of tin pails and paying no attention to the downpour, continued the demonstration, carefully watched by police and soldiers.

Twice soldiers fired on the mob, the first time at the Zoccalo, in front of the national palace, and again to disperse a mob which had stoned the building occupied by El Imparcial and had set it on fire.

The demonstrants first gathered in several crowds ranging in numbers from 200 to 2,000. Their numbers increased constantly and citizens generally considered the situation extremely grave and predicted serious consequences before morning. Many storekeepers found need for the iron shutters with which buildings here are provided.

Shouted "Viva Madero."

A dramatic incident occurred early when one of the crowds came shouting along the street and encountered a squad of police. The mob compelled the police to dismount and, holding their caps in their hands, to shout "Viva Madero." No one escaped this command, and as indicating the temper of citizens generally, the cry was usually given freely.

The swarms of cabs usually about the streets disappeared as if by magic. Taxicabs likewise for the most part sought safety in the outskirts of the city. Many of the cabs were commandered by the remonstrants. The latter did not hesitate to make use of anything on wheels. Great two-wheeled trucks were made to hold a dozen or more men and boys and light delivery wagons appeared frequently in the disorderly procession.

Seized All Vehicles.

A typical mob was that which repeatedly moved through Aveida San Francisco, numbering about 1,000. In the vanguard an immense lithograph of Madero, fastened to a wooden cross made of scantling, was carried. This was followed by several vehicles with wildly shouting passengers. Next came the Mexican flag, carried by the men on foot, and following this was borne an enlarged photograph of Madero fastened to a broom.

The demonstration started from the chamber of deputies, when it became known that the resignations of President Diaz and Vice President Corral were not to be presented yesterday. That was the signal for an outburst of indignation.

Urged By Women.

When the crowd started on its march it was led by a coach in which stood a young woman of the better class, in a white linen suit and wearing a black feathered hat. She waved a Mexican flag and urged the men about her to a greater pitch of excitement. Beside her stood a young man holding aloft a large framed crayon of the revolutionary leader. About the city they made their way, growing in numbers with every square traversed. They made a wide detour and attempted to include in their line of march the residence of the president. At the first notice of the gathering crowd, however, two squads of mounted police carrying rifles swung across their backs, were rushed to the vicinity and posted on each end of the block. When the crowd approached the guards were placed four deep.

Until 9 o'clock the mob encountered practically no opposition by the authorities and apparently little restriction was necessary. Shouting "vivas" for Madero, they paraded the streets of the capital, but always in an orderly fashion except for the noise, and occasional instances of vandalism were immediately condemned by the thousands of marching men who joined in shouts of "order, order." At 8:30 o'clock it appeared that the crowd was dispersing. The main body had been broken into smaller groups, but at that time some of these had grown more determined that the time had come for drastic measures to be taken.

Refused to Be Warned.

The shouting, gesticulating mass of humanity was warned to move on, but a confidence born of better treatment early in the evening made them receive with derision the order of the police. Again they were told to disperse and again no attention was paid to the order.

Quickly their shouts of ridicule were turned into cries of anguish, for the guns of the police and the soldiers were throwing into their midst a hail of bullets. The living stumbled in a mad rush over the bodies of the victims. The narrow streets leading from the Zocoalo were jammed with fleeing men and many women. For a few minutes the guns of the federal troops were stilled, but a regathering in the streets of the now thoroughly enraged and frightened partisans of Madero resulted in another order to fire at will.

Iron Hand Weakening.

Sharper and longer now came the shooting. The mob fled, but contrary to all traditions of Mexico, the troops had not intimidated the rioters to the point where they were willing to submit. The force of the iron hand was weakening, and despite the death it had brought, the rioters refused to do more than scatter into miniature mobs, each shouting for Madero and yelling for the early downfall of the present government.

Eventful Sales In Our Economy Basement

—FRIDAY AND SATURDAY—

As a public utility we commend especially to your notice "our Economy Basement," where house wares and kindred lines are sold at economical prices. Tomorrow it's

OUTING AND PICNIC GOODS

which are featured at prices that—to tell the blunt truth of the matter—stand for tomorrow and Saturday ONLY. No dribs and drabs, but plenty of all advertised articles which we expect will bring a keen demand at these lessened prices.

$1.25 Olive and Jelly Dish— 5-inches for **95c**

For the Children

Sand Pails at 10c and 5c.

Children's Sprinklers.... Children's Garden Sets.. Children's Sail Boats.... **10c**

25c Grass Cutters

Lots of them, will go at..... **10c**

25c Glass Vases

For cemetery purposes, at only..... **10c**

Picnicking?

You'll need these to add zest to the enjoyment.

Wood Picnic Plates — Sold by the dozen, at..... **5c**

25c Paper Napkins — Special for 100..... **10c**

Covered Picnic Baskets—Easy to carry, from $1.75 to 35c, 29c, 25c and **20c**

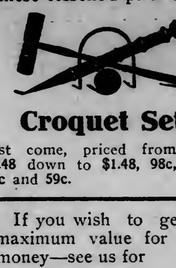
15c Garden Trowels

Selling tomorrow and Saturday..... **9c**

Sulkies and Wagons

We have them at $2.48, $1.48, $1.25 and for, each.. **98c**

You can only appreciate them after looking elsewhere.



Croquet Sets

Just come, priced from $2.48 down to $1.48, 98c, 69c and 59c. **59c**

If you wish to get the maximum value for your money—see us for

SCREENS for door or window.

POULTRY NETTING.

WIRE CLOTH and such things.

You'll find our economy basement quotes lower prices.

69c Hammocks

will be sold to all who come tomorrow and Saturday, for 48c. **48c**

Complete line of standard Patterson Hammocks from $5.98 down to 69c. **69c**

Special Price Concessions in

Aluminum Ware

for example—

50c Stew Pans are selling as low as..... **30c**

Trunks

Good ones that are made to withstand the vicious onslaughts of the baggage man—and priced like this:

$10 Trunks $8.48
$12 Trunks $8.98
$13 Trunks $9.48

$1.50 Suit Cases

22 x 24 — prosperous looking, well made Matting Grips; selling at, each $1.09. **$1.09**

$15 Dinner Sets

Containing 100 pieces, with gold line — what do you think of selling them Friday and Saturday at, set $9.98. **$9.98**

Baby Go-Carts

—Cut Like This—

$ 6 Buggies .....$ 2.98
$10 Buggies .....$ 6.98
$12 Buggies .....$ 7.98
$15 Buggies $10.98

What mother can refrain from getting a new one for baby at these new prices?

$5 Cowhide Leather Grips

That look as good as the best of 'em, at..... **$3.98**

Rare Values In Rugs!

Friday and Saturday the following reductions rule—you save exactly what this advertisement states—no ifs or ands or buts about it.

$2.50 Axminster Rugs—27x54..... **$1.95**

$4.50 Axminster Rugs—36x72..... **$3.50**

—the nucleus of this rug story.

HARTFORD WILTON RUGS!

8.3x10.6—Regular $35—for.....$31.50

9x12—Regular $39—for.....$33.50

We've never had such ultra assortments of Standard Domestic Rugs to show our friends.

Bundhar, Hardwick & French Wiltons are the cream of the domestic rug product—the reason why we sell them.

$4 — 8-inch Cut Glass Berry Bowls — our leader at $2.48; special— **$1.95**

Freimuth's

$1.50 — 8-inch Jardinieres, nicely tinted, at— **98c**

30 Days in

SKIN SUFFERER SAYS "IF I HAD ONLY KNOWN"

"If I had only known how quickly Eczema can be cured, what long years of awful suffering it would have saved me," write F. A. Will of 2506 Washington St., San Francisco, Cal.

This, after 40 years of suffering and after using less than one bottle of the Oil of Wintergreen-Thymol D. D. D. Prescription.

Try at least a 25 cent bottle. To our certain knowledge, D. D. D. Prescription always gives instant relief, —absolute relief inside of ten seconds!

Wm. A. Abbett, 205 West Superior St., 932 East Second St., and 101 West Fourth street.

Warning to Railroad Men.

E. S. Bacon, 11 East street, Bath, Me., sends out this warning to railroaders: "A conductor on the railroad, my work caused a chronic inflammation of the kidneys, and I was miserable and all played out. A friend advised Foley Kidney Pills and from the day I commenced taking them, I began to regain my strength. The inflammation cleared and I am far better than I have been for twenty years. The weakness and dizzy spells are a thing of the past and I highly recommend Foley Kidney Pills." For sale by all druggists.

LOST GOATS FOUND.

Are Recovered After a Week, Not an Angora Missing.

Middle River, Minn., May 25.—(Special to The Herald.)—Some time ago R. H. Blake lost his whole herd of Angora goats and he did not know where they could have gone to. He has found them now, however, after more than a week's absence, six miles east of Greenbush, and has just brought them home, a distance of more than twenty miles, not one of the goats being lost.

Three new settlers have arrived from Carpenter, Iowa, to take up their homesteads in the Mud Lake district that they filed on last fall.

$00 PRESIDENT'S OFFER

Will Give Aitkin Fair $25 for Best Dairy Cow.

Aitkin, Minn., May 25.—(Special to The Herald.)—In reply to a letter written by Secretary Warner of the Aitkin County Agricultural association, in which he suggested the propriety of the Soo offering a special premium at the coming county fair, President Pennington writes as follows:

Dear Sir: Replying to your letter of the 5th in regard to offering a special prize for the Aitkin County Agricultural society. I will offer to you a prize of $25 for the best dairy cow. I will leave the details to you. Of course there should be a record kept. I presume, of the different cows, for some little time before the fair, and these records certified to before a notary public.

Yours truly,
E. PENNINGTON,
President.

MAY CALL STRIKE ON SOUTHERN RAILROAD.

Washington, May 25.—The executive committee of the Brotherhood of Locomotive Firemen last night voted unanimously for a strike of the firemen of the Southern railway, should the company refuse to accede to their demand for a twenty per cent increase in wages. The committee will confer again with President Finley and if he refuses the demand will at once order a strike.

A few days ago it was said by the railroad officials that the road could not grant the increase. A strike will affect 24,000 men on 9,000 miles of road.

Cut Worms at Red Wing.

Red Wing, Minn., May 25.—Thousands of cut worms have invaded the home and farm gardens of the county and already have done considerable damage to the growing vegetable plants. Practically every Red Wing resident who has a garden reports that plants have been destroyed by the pests in a single night after setting them out.

FRECKLES GONE

"Simple Remedy from Boyce Drug Store Removed Them," Says Society Lady.

"The best skin specialists told me that nothing would remove my freckles and that I would carry them to my grave," said a well known society woman, "but I fooled them all with a new drug, othine—double strength, that I bought at Boyce Drug Store, which cleared my skin and gave me a fine complexion."

The action of othine is really remarkable, for when applied at night, many of the freckles disappear entirely by morning, and the rest have begun to fade. An ounce is usually all that is needed, even for the worst case.

Be sure to ask Boyce Drug Store for the double strength othine, as this is sold under a guarantee of money back if it fails to remove the freckles.

DULUTHIANS VIEW THE STEEL PLANT SITE AND SKEPTICISM DISAPPEARS

Foundation for Immense Industry on Shore of St. Louis River.

Greatest Expectations Exceeded By Reality of Work Already Done.

Better Boosters for Duluth Are Made By Trip Up the River.

Duluth business men crowded six coaches making up a special train on the Northern Pacific railroad yesterday and went to the steel plant.

When the train pulled out of the Union station, it carried a chaos of impressions. Some thought they would see a few hastily built railroad tracks, four or five dump cars, a concrete mixer such as is used in sidewalk construction, a few feeble piers for foundations and a power house that might furnish power for a modern manual training school.

Others had a clearer idea of the amount of work done, but feared that they would not be able to call to vision what will be built on the foundations laid. Others were in the "we shall see what we shall see" attitude, and no man who had not gone over the plant under the guidance of somebody who knew the why and wherefore of each concrete pier, each excavation, each surveyor's stake, could give a clear impression of what the Minnesota Steel company had done.

The train that pulled away from the steel plant shortly after 4 o'clock yesterday afternoon, carried six coachloads of Duluth men, who were better Duluth men for their visit. They had seen concrete formations which they were told were to support blast furnaces; they had seen arches that they were told were to support open hearth furnaces; they had seen the foundations for buildings as long as four city blocks and as wide as one; they had seen a concrete mixer turning out concrete for other foundations; they had seen a concrete plant producing concrete building blocks at the rate of 1,000 a day for each machine; they had seen a sewer seven feet high and other sewers so big that they assuredly are part of a big enterprise; they had seen a machine shop 280 by 140 feet that is one of the smallest of the buildings to go on the site; they had seen twenty-five-ton cranes that are only one-sixth as powerful as some other cranes that will be installed; they had seen a 500-kilowatt generator that will furnish power only for machines in the machine and plate shops of the plant; they had seen pits into which thousands of tons of ore will be dumped before being put through the furnaces; they had seen hundreds of men at work building Duluth's great industry. No man had set his expectations so high that he was disappointed.

No Skeptics Left.

There were skeptics on the train going out to the plant yesterday. There were no skeptics on the return trip. The shop excursion planned by the publicity committee of the Commercial club was the greatest advertising feature for Duluth that has been sprung for years. It gave hundreds of business men an opportunity to visit the plant under favorable circumstances, to get a correct impression of what the company is doing and of the magnitude of the great construction work that cannot be rushed, and they will be able, with the conviction born of knowledge, to tell visitors and people they visit, that one of the greatest steel manufacturing plants in the world is being erected on the shore of St. Louis river.

There have been vexatious delays in the construction of the steel plant, and the delays have bred skeptics, but there is no air of dalliance at the site. Everything is stern business. Each man and each machine is working, and they are building well. The foundations for the blast furnaces rise twenty feet from the ground, and are many feet in the ground. The sewers are big, the shops are big—there is an air of bigness about everything.

There is basis there for seemingly wild flights of imagination. From the bridge across the St. Louis river, one looked out of the car window and saw the machine shop, forge shop, plate shop and powerhouse. They are of solid concrete block construction, with walls thirteen inches thick. They are roofed with tile seven-eighths of an inch thick and capable of withstanding a pressure of 200 pounds to the square inch. They loom up on the site like some great industry in themselves, but when the whole plant is completed, they will be but an obscure corner—the repair shops of the industry itself.

Back of them will loom up a string of buildings—a line over 1,900 feet long, made up of the open-hearth furnace house, the bloomer mill and the merchant mill. Over a third of a mile of concrete buildings—more than four city blocks. They will all be built of concrete blocks; they will all be tile roofed; gables will be 100 feet from the ground. And they will only be a part of the plant. The 1,900 feet of buildings will be flanked by blast furnaces, pit furnaces and other industries—and there is a town yet to be built. Looking from the bridge and knowing what the excursionists yesterday knew, there is no flight the imagination might take in calling up a vision of the plant of the future, that would be unreasonable.

The view as the excursionists piled off the train yesterday was one of industry. The concrete plant was working; the train had run in over the tracks of the company; the stack of the power house sent forth smoke, and the machine shop and power house loomed up some distance from the concrete mounds that were mysterious to the ignorance of the visitors. As the crowd traveled around and heard the explanations, as they realized that the concrete mounds were great foundations, as they viewed sewers and excavations and preparations, the wonder grew, and by the time the train pulled out along the track to the bridge of the Belt Line railroad, everybody was convinced. There is no education like that which comes from first hand information.

The Concrete Plant.

The visitors first called at the concrete plant, where sand, gravel and cement are thrown together, carried up by conveyors and dropped through machinery that produces mixed concrete to be carried away by cars to the foundation work. A building 300 by 40 feet, now used as machine shop, forge shop, storage house, office building and everything else to which it can conveniently be put, will be permanently used for the storage of fire brick.

From the brick house, the excursionists went to the blast furnace foundations, and there they received their first thrills. Two great concrete foundations, with space for ten stoves on a concrete foundation between, have been erected. The stoves, be it known, are for heating the air before it is sent in a blast into the furnaces. Pipes are laid out for the cooling equipment at the base of the stoves, and the water cooling process will be used here for the first time in the history of the steel manufacturing industry, it is said. Heretofore the cooling has been by air. The foundations for the seven open hearth furnaces are about completed and loom up in the form of concrete arches. The brick walls of the regenerator chambers have also been completed and the bolts have been set to receive the charging floor. The charging floor will rest on the regenerator chambers, which are set in excavations at the base of the open hearth furnace foundations. Over the open hearth furnaces will be a building 640 by 140, with a height of about 100 feet to the gable, and employes of the Minnesota Steel company nonchalantly passed out the information that in the building, cranes with a lifting power of 150 tons will be operated. The other operations will be on a similar grand scale.

The ore pits for the blast furnaces are being dug to a depth of thirty feet, and the concrete foundation for the stock house for the open hearth furnaces has been completed. That building will be 320 by 70 feet and will be one of the small structures on the site.

The ground is just being scratched for the foundations for the bloomer mill and the merchant mill. The bloomer mill will be about 500 by 80 feet, and the merchant mill, the largest building of the plant, will have a length of over 1,000 feet and will be 112 feet wide.

Work is now in progress on the foundation for the pit furnaces, four 4-hole pits being planned. The pit furnace building will be 390 by 90 feet. Work has not yet been started on the engine house, which will be 120 by 86 feet.

A Huge Sewer.

Tile sewer, twenty-four inches in diameter has been laid for 3,000 feet; 2,400 feet of 48-inch concrete sewer has been completed, and there is 700 feet of 7-foot concrete sewer. The big sewer, jocularly termed the "subway," attracted a great deal of attention from the visitors. A few of the more venturesome made a trip through the big tunnel, and enjoyed it. It runs from a point near the pit furnaces to a point near the machine shop, and just now the trip through it is dry, and enjoyable in its novelty.

The machine shop is, in the opinion of those who know, the best shop of its kind in the United States. It is 280 by 140 feet, with a gallery running all around on the inside. It is well lighted, well ventilated, and will be as well equipped as money and science can equip it. The floor is now being laid and the electric conduits are being put in. Two 5-ton cranes are in place, and one 25-ton crane hung over the visitors yesterday, not a very wonderful looking piece of machinery for its power. The machine shop will ultimately have one or more 50-ton cranes traveling around, while they will be small cranes compared with some of those to be installed in the manufacturing part of the plant.

In the forge shop, which is connected with the machine shop by a string of offices, the only piece of machinery in place is a 1,000-pound hammer that has lines in keeping with its crushing power. The forge shop is 140 by 80 feet, and opens on the plate shop, 140 by 80 feet.

The power house, with its concrete stack 140 feet high, is an interesting place. The building is 100 by 40 feet and houses a 500 kilowatt generator, an air compressor with a capacity of 1,000 cubic feet per minute, and 800-horse power boilers. The plant is now furnishing electric power for the construction work, and ultimately will be used for furnishing power for the shops. The power for the greater works will come from gas engines, the gas coming from the blast furnaces.

The temporary dispensary and ambulance garage have been completed, and are of substantial concrete block construction, although the officials say the buildings are only temporary. The garage already houses a modern electric ambulance.

The concrete block plant is a busy place. There are five machines in it, each with a capacity of 1,000 blocks daily. Only two or three machines are in operation at a time at present, but when the construction work proceeds further, all five machines will be placed in operation. Sills are molded by hand.

The reinforced concrete doors on the little garage came in for a good share of attention. Although they weigh 900 pounds each, they swing as easily as a light wooden door. They are only about an inch and a quarter thick, and are unique in building construction. Nearly all doors at the plant will be of reinforced concrete construction, and some of them will be seventeen feet high and seven feet across.

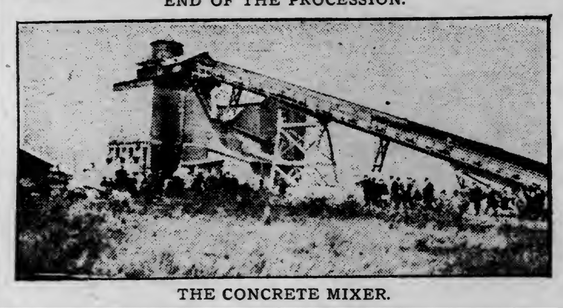
All classes of business and professional men, even to the clergy, were represented in yesterday's crowd. Every man who made the trip is better satisfied with residence in Duluth, better pleased with the prospects of the city and is a better booster than he was before he went to the plant. Each one is convinced that the United States Steel corporation means business—big business, and that Duluth is destined to become one of the great steel manufacturing centers of the world.

And the wonder of it all is that the plant as now laid out is only a part of the whole plant planned. With the plant will come subsidiaries and allied interests with their factories and their workingmen, to increase the population, the commerce and the industrial importance of the city. The prospects are almost unbounded and many men in yesterday's crowd stood awed by the possibilities for the future. They will lay their future business plans on more pretentious lines. The trip was a great thing for Duluth.

The land around the plant came in for considerable attention. A number of real estate men were in the crowd and those who have divisions platted in the vicinity of the plant pointed them out. Most of the land lies level, but high enough above the water to be dry. Buildings are already going up on some of the lots. The site for a city is almost ideal and just as one might allow his imagination stray to unlimited extent in estimating the ultimate magnitude of the steel plant and other industries, so he may call before his mind's eye a vision of a great city stretched out on the level plateau around the plant.

CROWD LEAVING TRAIN.

END OF THE PROCESSION.



THE CONCRETE MIXER.

HERESY CASE NEAR VOTE

(Continued from page 1.)

were not already so firmly grounded and become indigenous in Japan, it is certain that the hands of the missionaries would be seriously crippled."

Hinders Growth of Kingdom.

"Another thing," the report says, "that has hindered the growth of the kingdom of God in this land, is the type of Socialism which has taken root there. The authorities are doing what is in their power to uproot the whole growth. Every public and school library has been searched and every book bearing on the subject of Socialism has been carefully removed."

The report tells of the band of twenty-six anarchists that attempted to assassinate the mikado and says that they were regarded by many as Socialists. The report says that there is a widespread sentiment that Christianity is the mother of Socialism, and the latter the arch-enemy of the Japanese government.

ROOSEVELT CRITICIZED

(Continued from page 1.)

must eventually find a modus vivendi with the peaceful nations which will enable it to restrict its armament and cease to be a menace to the world."

What Roosevelt Has Done.

"I had concluded the preparation of my address," he continued, "when the fulmination of Theodore Roosevelt appeared in the public press. While I regret its appearance as tending to embarrass the action of the senate, I recall the fact that no man in public life today has shown such an erratic and inconsistent course in relation to the subject of international arbitration. His early public career was marked by a strong hostility to arbitration in general. In a magazine article as late as 1895 he attacked President Harrison for submitting the Bering sea question to arbitration.

"But when he assumed the responsibility of the presidency it was he who sent the first case to The Hague court of arbitration, and invited the nations in hostile array against Venezuela to resort to the same court.

Has Earned Nobel Prize.

"In the first instance he proposed to settle the Alaskan boundary dispute by sending the American army to occupy and hold the territory by force, but finally yielded to the pacific advice of Secretary Hay, and in 1903 submitted the question to the London commission.

"Notwithstanding his early declaration in opposition to arbitration in general, he has done more than any other living man to advance this cause and has well earned the Nobel peace prize. Judging the future by the past, we may expect this erratic but patriotic citizen to fall in line with the onward march towards international peace and give his support to the great measure which must ennobles the administration of his successor."

In discussing the proposed Anglo-American arbitration treaty before the conference, Raoul Dandurand, LL. D., of Montreal, member of the Canadian senate, said in part:

"Although good men and true, in every country, have been unremitting in their efforts to shape public opinion in favor of arbitration, nowhere have we seen such zeal and such concerted action as in the United States.

Predicts World Peace.

It will be generally admitted that American soil was the best prepared for the rapid fruition of the seed so generously sown, as it is mostly covered by people whose ancestors succeeded in extricating themselves from the yoke of European conscription and the burden of militarism.

"This proposed treaty will be an object lesson for the world. It will be the foundation of the League of Peace, to which will gradually rally all the other nations. I venture to prophesy that the French republic will be the first to give its cordial adhesion to this holy alliance.

"Canadians will hail with enthusiasm the conclusion of such a compact, because they will see in it the promise of immunity from ever-increasing armaments."

BIRD MAN IS GUN VICTIM

(Continued from page 1.)

was shot in the left leg, and G. E. Copeland, a mining man of Victor, Colo., received two bullets, one in the left leg, the other in the abdomen.

Two Bystanders Wounded.

Atkinson and Copeland were bystanders and had nothing to do with the quarrel.

The bullet in Von Puhl's abdomen was removed this morning, but his condition after the operation was stated by his physicians to be very serious. Atkinson and Copeland will recover.

Henwood is in jail and will be held pending the outcome of his victim's injuries.

According to Henwood, he and Von Puhl met only yesterday. A quarrel, in which the name of an actress was used, started later and finally resulted in Henwood calling Von Puhl a liar.

Von Puhl's instant reply was a smash to Henwood's face, which sent him reeling. The latter then drew a revolver and emptied its five chambers before bystanders could disarm him.

Wanted to Cross Rockies.

Von Buhl has been in Denver several days endeavoring to arrange for a baloon flight, the crossing of the Rockies being the object. He holds a number of baloon records, including the speed record for long flights, having made the distance from St. Louis to Charleston, S. C., 690 miles, in fifteen hours.

Wisconsin After Dynamiters.

Madison, Wis., May 25.—If the governor signs a bill that has passed the legislature, the blowing up of buildings or other structures with dynamite or powder will be a felony and punishable by imprisonment from one to fifteen years. The governor, it is understood, will approve the bill.

The Glass Block Store

Panton & White Company

The Footwear Sale Gives Wonderful Values

——It isn't often that one may get such unusually good shoe values as these are. The present out-going is an arbitrary medium through which we dispose of many lines that are broken in sizes. However, there's a fit for most all feet in the lot and Friday finds splendid assortments of—

Women's $5 Oxfords Now $4

The well known Wright Peters' make, in velvet, gun metal, patent colt, tan and mat kid; regular $5 values, at **$4.**

Men's $4 and $5 Oxfords at $2.98

Patent, tan or gun metal styles, various models, both lace and button, most all sizes; regular $4 and $5 values, **$2.98.**

Women's $2 Oxfords, $1.25: Vici kid, hand turned sole, plain toe; always $2 values, now **$1.25.**

Misses' $2 Oxfords, $1.19: Patent colt and gun metal, button and lace styles; regular $2 values, **$1.19.**

Youths' $2.25 Shoes, $1.75: Box calf and vici kid, well made, $2.25 values, **$1.75.**

Remarkable, Indeed, These Embroidery Values

——Patterns are very desirable and have been unusually good sellers during the season. Assortments are somewhat broken and we sacrifice our profit to effect quick clean-up.

95c All-Over Embroidery, 65c: Swiss all-over embroidery, plain and cross-barred eyelet patterns, 22 inches wide; regular 95c values, **65c.**

$1.25 Shirtwaist Embroidery, 69c: Blind and eyelet Swiss embroidery, 24 inches wide, wide assortment of pretty patterns; regular $1.25 values, only **69c.**

$1.25 Corset Cover Embroidery, 59c: Also Swiss flouncing, embroidered in eyelet and closed patterns; regular $1.25 values, sale price **59c.**

$1.50 and $1.75 Flouncing, 89c: 27 inches wide, embroidered in blind, eyelet and Plauen lace effects, slightly soiled through display; regular $1.50 and $1.75 values, only **89c.**

Secure Tables for the Tea Room Anniversary Luncheon and Dinner Saturday

——Saturday will be a festal day at this big store—the First Anniversary of our fourth floor Tea Rooms—the cherished dining place of Duluth epicures.

——Plans are perfected for a most enjoyable occasion. A menu calculated to test the culinary ability of our chef has been planned. A splendid table d'hote luncheon will be given at noon, from 12 until 2 o'clock, price 50c; and an elaborate table d'hote dinner in the evening from 6 to 8 o'clock, price $1.

——Special music and decorations will enliven the occasion and pretty favors will be given diners. Make reservations by mail, telephone or in person, but make them early.

Never Was There Such Bargains in Cut Glass

——Present prices are nearer what such goods as we offer wholesale at—even less in some cases. The hundreds of pretty pieces are choicest cuttings from a foremost manufacturer and clearly demonstrate Glass Block buying efficiency.

——People with graduation or bridal gifts to make are profiting very much from this underpricing.

A Welcome Change

Smoke curling up from the farmhouse chimney as the men are coming in from the fields, gives a pretty suggestion of a good supper and a comfortable home. But it also means a hot, tired woman, working hard over a blazing fire.

Your wife can escape this with a New Perfection Oil Cook-stove.

A New Perfection keeps a kitchen many degrees cooler than any other range, yet it does all a coal or wood range can do. It saves time, labor and fuel. No wood to cut; no coal to carry; no ashes; no soot. With the New Perfection oven it is the best cooking device you can find anywhere.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

New Perfection
WICK BLUE FLAME
Oil Cook-stove

EAU CLAIRE MAN BUILDS AIRSHIPS

Harry Gorton Has Two Aeroplanes in Course of Construction.

Eau Claire, Wis., May 25. — Harry Gorton of Eau Claire has two aeroplanes under construction in this city and the enterprise gives promise of being an entire success.

Mr. Gorton, during his work on the apparatus, has had correspondence with a New York friend of Glenn Curtiss, the celebrated aviator, thus receiving counsel and advice in the process. One of the machines is to be a bi-plane and the other a monoplane. The bi-plane will be driven by a sixty-horse power gasoline motor calculated to be sufficient for a total weight (of machine and aviator) of 800 pounds, and a good margin besides. This machine is to be built to carry an aviator and one passenger.

The monoplane is to have a sixty-horse motor and carry two persons also—aviator and passenger.

Is Not a Theorist.

Mr. Gorton is no mere theorist, but a practical man. He has always experimented successfully with a gliding apparatus which he launched from the top of the fair ground hill, he himself descending thereon by easy glides to the lower levels. This was in the preliminary stages of his undertaking.

It is expected that one of the aeroplanes will be complete within a few weeks and that Mr. Gorton will make a flight with it in the vicinity of this city.

In general construction, the Gorton planes are of the Curtiss type, but modified by the Eau Claire man's own ideas. One of the ideas embodied is an automatic apparatus for control to secure balance and stability.

Opens this morning at 10 o'clock.

STIMSON SAYS IT IS ALL NEWS TO HIM.

Boston, May 25.—"It's the first I've heard of it and I don't know that I care to say anything about it."

This was Secretary of War Stimson's only comment when shown the Washington dispatch telling of the possibility that he will be President Taft's running mate in 1912. Later Mr. Stimson, who was the guest of honor at a dinner of the Inter-Colonial club, was called upon to refer again to the matter, for he was introduced by the toastmaster as "the man who is to run with Taft in 1912."

After the applause has subsided Mr. Stimson said:

"I regret to say that we don't always take the news reports as necessarily correct, but I am delighted with the seriousness with which this report has been taken here."

Then, dismissing the subject, he went on to his prepared speech.

Bernhardt Seat Sale

Opens this morning at 10 o'clock.

RAILROAD MAN IS CALLED IN MONTANA.

Livingston, Mont., May 25.—Charles D. E. Eranbrack, Northern Pacific engineer and one of the best known railroaders in the West, died suddenly Tuesday of pneumonia, after an illness of a few hours. Interment will be at Melrose, Minn.

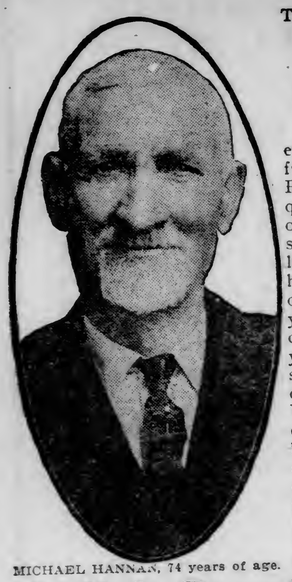
Too Fat? Try This

Thousands of overfat people have become slim by following the advice of doctors who recommend Marmola Prescription Tablets, those harmless little fat reducers that simplify the dose of the famous Marmola Prescription.

If too fat, don't wait for the doctor's advice. Go now to your druggist and for 75c procure a large case of these tablets.

They reduce a pound or more a day without exercise, dieting or any unpleasant effect whatever. If too fat, try this today.

74 Years of Age-- "I Feel and Am Younger"



MICHAEL HANNAN, 74 years of age.

These are the joyful words of Mr. M. Hannan, 74 years of age, hale and hearty, who was cured after suffering for forty-seven years.

"I am sending you this unsolicited letter, testifying to the wonderful curative powers of Duffy's Pure Malt Whiskey, with the request that you bring it to the notice of all elderly persons who, like myself, have suffered for years, hopeless of ever again enjoying good health. I am seventy-four years old, and for forty-seven of those years have suffered from a complication of diseases that would not yield to treatment. My case seemed hopeless, when I was induced to try Duffy's Pure Malt Whiskey. I am now using my eighth bottle. The results have been wonderful. It has brought color to my cheeks and strengthened my eyes. I look younger, I feel younger, I AM YOUNGER. I advise all elderly persons to use it." Michael Hannan, 1368 Collison St., E. Cleveland, O.

Duffy's Pure Malt Whiskey

When men and women pass the age of sixty they need a remedy that will quicken the circulation, bring restful sleep, invigorate the brain and prevent decay. Duffy's Pure Malt Whiskey is the only agent that will produce these happy results. It improves the digestion and assimilation of the food and gives tone and vitality to every organ in the body. It is especially valuable for use at this time to enrich the blood and rebuild the system that has become run down and weakened from the long strain of winter.

It has been used with remarkable results in the prevention and cure of all throat, lung and stomach troubles and all wasting and diseased conditions; recognized as a family medicine and prescribed by physicians everywhere.

Duffy's Pure Malt Whiskey is the only whiskey that was taxed by the Government as a medicine during the Spanish-American war.

Sold in SEALED BOTTLES ONLY by all druggists, grocers and dealers, or direct, $1.00 a large bottle. Medical booklet, containing rare, common-sense rules for health and testimonials, also doctor's advice, sent free to any one who writes The Duffy Malt Whiskey Co., Rochester, N. Y.

PAPER MILL HEAD QUITS.

Augustus Spies Gives Up Management of Marinette Concern.

Marinette, Wis., May 25.—(Special to The Herald.)—Augustus Spies has resigned the presidency and general manager of the Marinette & Menominee Paper company and is succeeded by H. A. J. Upham of Milwaukee. An executive committee, consisting of Mr. Upham, Mr. Spies and R. F. Goodman, was also named. Mr. Spies resigned because he desired to devote more of his time to his own personal interests, and for the further reason that he is gradually lessening his business burdens.

IRON RIVER ENGAGES ASHLAND EDUCATOR.

Ashland, Wis., May 25.—Prof. V. T. Thayer of the public schools has been engaged by the Iron River school board to succeed Prof. Rood as supervising principal. Prof. Thayer inaugurated the mothers' meetings here.

RURAL CARRIERS WILL DISCUSS GOOD ROADS.

Grafton, N. D., May 25.—(Special to The Herald.)—Rural mail carriers who are members of the North Dakota Rural Mail Carriers' association will meet here May 29 and 30 in annual convention, with President L. L. Earle presiding. An inspector from the postoffice department at Washington will be in attendance and will deliver an address.

One of the important features for discussion by the mail carriers will be good roads. This subject is one of vital import in connection with the efficient delivery of the mail in the rural communities, and for that reason methods and plans of bringing about co-operation of the farmers ser—l on the different routes will be taken up and discussed.

RADISSON, WIS., CHURCH WILL BE COMPLETED.

Couderay, Wis., May 25.—(Special to The Herald.)—The Presbyterian congregation of Radisson, a village near here, will begin at once to complete their church building, which was started last fall but on account of not having the necessary funds the work was discontinued after the basement was completed.

The necessary funds have now been raised and the work of completing the church will now be pushed. The handsome church building will be erected of brick, with all modern conveniences.

CROOKSTON AUTO PARTY HURT NEAR GRAND FORKS.

Grand Forks, N. D., May 25.—(Special to The Herald.)—An automobile belonging to Mr. and Mrs. L. E. Healy of Crookston lost a wheel on the road near here yesterday, the machine upsetting. The car skidded into the ditch and turned on its side, while the occupants were thrown against a barbed wire fence. Mr. and Mrs. Healy, Mrs. Ed L. Healy and Miss Lenora Garceau were in the car, and all received severe cuts and bruises. They were brought to Grand Forks.

Flood Threatens Oconto.

Oconto, Wis., May 25.—(Special to The Herald.)—Oconto is threatened by flood, owing to a portion of the dam at Stiles giving way. There are millions of feet of logs on the different landings above Oconto, and should these get a start, the city would be in grave danger.

NEWS OF THE NORTHWEST

CORNER STONE TO BE LAID

Soldiers' Monument Exercises at Crookston on Memorial Day.

Chaplain of Third Regiment, M. N. G., Orator of the Day.

Crookston, Minn., May 25.—(Special to The Herald.)—Crookston will pay eloquent tribute to the soldier dead next Tuesday, plans being on foot for the most elaborate observance of Memorial day in the history of the city. Mayor McKinnon announced the committees in charge with C. A. Hitchcock at the head.

William Emery of Minneapolis, chaplain of the Third regiment, M. N. G., will be the orator of the day. The corner stone of the monument to be erected to the old soldiers will be laid with appropriate ceremonies. The monument is to cost $1,000 half of which is paid by Polk county and the balance furnished by the Woman's Relief Corps, which already has most of the cash in hand and will raise the balance between now and Memorial day by dollar subscriptions.

Veterans to Attend Church.

Col. Cobham post, No. 99, G. A. R. will listen to a Memorial sermon at the Congregational church next Sunday delivered by Rev. Horace Hastings of Northwood, N. D.

Capt. P. J. Elde of Co. I, M. N. G. has ordered the company out as an escort for both the church services next Sunday and the Memorial day exercises.

At a meeting of the Old Settlers' association, it was also decided hereafter to appropriately mark the graves of old settlers each Memorial day and a committee to look after the matter has been named.

CROOKSTON CLASS ISSUES ANNUAL

Creditable Publication Devoted to 1911 Graduates of High.

Crookston, Minn., May 25.—(Special to The Herald.—The high school senior class annual just issued is one of the finest ever attempted in this city. It is edited by Harry W. Hitchcock, '10 and Chase Mix, '11. Formerly the senior annuals have always carried some unique name, but this year the front cover contains simply a big "C" in purple, the class color with white. The book is eighty pages in six parts devoted to the faculty, the school, athletics, the seniors, editorials and the advertisers and is a most creditable publication.

The book is dedicated to Supt. E. E. McIntire, whose service as superintendent will be concluded at the close of the present school year after a most successful regime during which the schools have advanced wonderfully and gained recognition. The class officers are: Harold Evans, president, Miriam Cynthia Akers, vice-president, Raymond Alfred Rossberg, secretary and treasurer.

BIG CITIES AGAINST IT.

Fargo and Grand Forks Not Enthusiastic Over Land Show.

Bismarck, N. D., May 25.—(Special to The Herald.)—Committees of the Commercial clubs of Grand Forks and Fargo will meet with Commissioner of Agriculture and Labor W. C. Gilbreath to discuss the advisability of holding a state land exposition, proposed by the commissioners, the plans for which were submitted to the leading cities of the state with the understanding that the city making the highest bid for the exposition in the way of cash support and display space, should receive it, state support also being given.

Grand Forks looks with disfavor upon the plan, as does the Fargo club. Both organizations say that if any cash is to be expended by the state for such an enterprise it should be used either at the big land show in the Twin Cities, or at the state fairs in North Dakota.

Several cities in the western part of the state do not look upon the plan in the same light. The Bismarck club has passed a resolution favoring the plan and will take active steps toward securing it for that city.

IRONWOOD CELEBRATION.

Twenty-Fifth Anniversary of S. H. & E. F. Lodge Observed.

Ironwood, Mich., May 25.—(Special to The Herald.)—The twenty-fifth anniversary of S. H. & E. F. Lodge No. 4 was celebrated here yesterday. Over 400 men, who are members of this organization, marched behind the Norrie band through the business section and the south side of the city in the afternoon.

At 8 o'clock in the evening the following program was rendered in the Scandinavian hall: Overture, McNiff's orchestra; address of welcome by the chairman, Frank Nelson; song, Swedish Glee club; talk on fellowship, Rev. N. O. Hildeton, pastor of the Swedish M. E. church; music, McNiff's orchestra; statistics of Ironwood lodge, Peter Oie, oldest member of Ironwood lodge; song, Swedish Glee club; talk on the organization at large, A. W. Peterson, treasurer of supreme lodge; song, Swedish Glee club; original poem, Rev. N. O. Hildeton; speech, Mrs. Mary Asplund; music, McNiff's orchestra.

A great many people came from Hurley and Bessemer to attend. After the program a banquet was served by the men. A very enjoyable day and evening was spent by all who attended.

NEW NORTH DAKOTA AUTO LAW EFFECTIVE JULY 1.

Bismarck, N. D., May 25.—(Special to The Herald.)—The new automobile law becomes effective July 1. It prohibits the use of a motor car belonging to another without the owner's consent, and also forbids sounding the horn, setting the brakes, manipulating the levers, cranks or machinery while the machine is at rest and unattended.

Provision is also made for state registration. Cars coming into North Dakota temporarily do not have to be registered.

The proceeds from this registration goes into the county road funds from the various counties in which the tax is paid, and no part of the amount so paid can be used for improvement of roads other than those outside of incorporated cities, towns and villages.

To Cut Auto Rates.

Minot, N. D., May 25.—(Special to The Herald.)—Rates of the autoists operating passenger carrying cars between the city and the Ward fair grounds must be cut in two. Ultimatum to that effect comes from President L. D. McGahan of the city commission, as a result of complaint lodged by officials of the fair. Under this ruling the fares are reduced from 50 to 25 cents, but the automobile men are expected to make strenuous complaint against the new rate.

The city commission has not yet called an election to fill the vacancies caused by the resignation of President Le Sueur and Commissioner Emerson.

JARDINE, MONT., MINE TO RESUME OPERATIONS.

Livingston, Minn., May 25.—A. M. Downing, a Chicago capitalist, has arrived at Jardine, where he will make arrangements for opening up the gold mines and mill at Jardine. Mr. Downing is interested with the other Chicago men. It is expected that the mines will be going late in the summer. Jardine, one time a prosperous camp, has been closed for several years.

DAKOTA BRIEFS

Rugby, N. D.—Judge Amidon of the United States district court has affirmed the order of Referee John H. Lewis in the bankruptcy case of William Jones of Rugby, brother of Andy Jones, who is serving time in a federal prison. Mr. Lewis directed the trustee to set aside $1,000 cash belonging to Jones as exempt but this was objected to by Receiver George W. Swords, who is disentangling the affairs of the Rugby bank.

Grafton, N. D.—Rev. O. Smith, who has been pastor of a Grafton church for a year, has accepted a call to the Saint Saviour's parish at Bar Harbor, Me., and will leave for that place to take up his new work at once. Mr. Smith has been in North Dakota three years, spending the time at Bathgate, Williston and Grafton.

Fargo, N. D.—Every member of the force of the United States marshal's office, with the exception of Chief Deputy Stout, who is remaining at home in charge of the office, has gone out to serve subpoenas for the grand jury which will convene next month. A large number of subpoenas will be served from the office and the men will be gone a week, serving the federal papers, with one exception.

Pierre, S. D.—The state pardon board recommended a pardon for Christian Christianson, sentenced from Clark county about fifteen years ago, for life on a charge of having murdered his wife.

Washburn, N. D.—Monday was tag day in Washburn for the benefit of the city park and the young ladies of the town conducted the campaign with great success. A beautiful site has been donated to the city by George Rhude embracing several acres of finely timbered land along the Missouri river. About $150 has been raised.

Dickinson, N. D.—Frank Smith, a Mexican, was sentenced by Judge Crawford to three years in the state penitentiary on a charge of grand larceny. Smith was accused of thefts from a farm home.

Tower City, N. D.—Five cub prairie wolves were discovered Sunday by McClellan Solomon, a well known farmer living near Tower City and were captured. The little kittens were taken from the inside of an old tree.

Fargo, N. D.—Judge J. W. Lusk of St. Paul, president of the National German-American bank of that city, and one of the most eminent bankers of the Northwest, has accepted an invitation to address the North Dakota State Bankers' association at the Fargo convention, June 27 and 28.

Devils Lake, N. D.—Louis, son of Mr. and Mrs. Gus Furstenau, who returned about a month ago from St. Paul, where he doctored for several weeks, has been operated on three times for abscesses since returning home.

PENINSULA BRIEFS

Calumet—Mrs. John Jenkins and Mrs. McDonald of Calumet left Sunday to attend the coronation. Mrs. Josephine Sjorlund leaves this week for New York city, where she will sail shortly for Stockholm, Sweden, to spend several months. John Reed of Laurium left Sunday for Cornwall, Eng. He will attend the coronation.

Marquette—The Marquette County Telephone girls will give their second annual ball at Fraternity hall the night of May 30. Tickets are now being sold and the girls are meeting with excellent success. The committee is exerting every effort to make the evening enjoyable for all who attend, and it is already safe to predict that a large faculty, who for the past eight years crowd will be present.

Ishpeming—John E. Butler, a former member of the Ishpeming high school has been in the employ of the Stearns Coal & Lumber company at Stearns, Ky., was recently made general manager of all of the corporation's industries at that place.

Negaunee—The funeral of the late Mrs. Michael Cox, who died Saturday night, will be held Friday afternoon. William Cox, a brother-in-law of the deceased, arrived Tuesday to attend the funeral, and Mrs. F. Hackenjos, daughter of the deceased, who has been in Florida for some time past, is expected to arrive here Thursday evening or Friday morning.

Calumet — The board of review for Calumet township will meet in the township clerk's office the first Monday in June, to complete the tax roll. On the second Monday and Tuesday in June the board will again be in session, when all taxpayers will be given an opportunity to inspect the tax rolls, and register complaints, if any.

Houghton — Capt. H. S. Goodell of Painesdale was unanimously elected Monday night, at a special election, held at the naval reserve armory in Germania hall, to be commander of the Second battalion of the Michigan Naval reserves, succeeding himself. There was no opposition, the battalion feeling highly gratified that Capt. Goodell had been induced to accept.

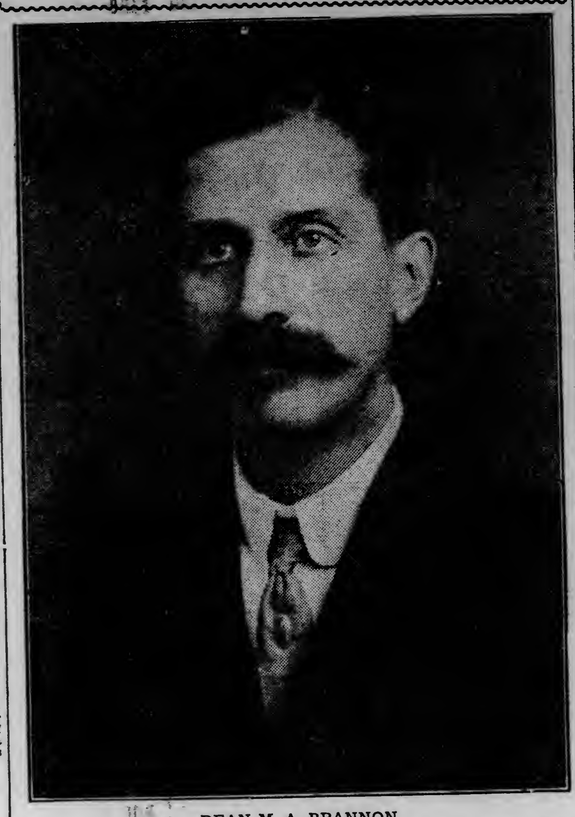
Hancock — Prof. Sanfrid Mustonen has received word from the Hinners Organ company of Pekin, Ill., that the new organ for the Hancock Finnish Evangelical Lutheran church was shipped last Saturday and should arrive in Hancock during the coming week. The date of the dedication will be announced soon.

Laurium — The announcement that the Calumet & Hecla Mining company has a force of men doing exploratory work on the old St. Louis hill property, about two miles east of Laurium, was received with considerable interest by the residents of the village. It undoubtedly means much for the future of the town.

Marquette — The operators of the Marquette County Telephone company will give their annual ball at Fraternity hall, on the evening of May 30.

Calumet—N. R. Hughes of the government's fish hatchery at Duluth, returned home Monday evening, after a short visit in Calumet. Mr. Hughes arrived here Monday morning with a consignment of rainbow and brook trout fry, consigned to local fishermen; and turned the same over to Fred W. Taylor, general passenger agent of the K. of C. road, for distribution in the streams of Keweenaw county.

Escanaba — F. D. Davis, formerly superintendent of the Escanaba public schools, has received notice that he had been elected to the superintendency of the schools at Sault Ste. Marie, Mich. This action was taken by the school board at the Soo at a meeting held last Saturday night.



DEAN M. A. BRANNON.

TO ADDRESS NORTH DAKOTA STATE JEWELERS' MEETING

Grand Forks, N. D., May 25.—Dean M. A. Brannon of the medical department of the University of North Dakota, who has just been elected dean of the college of arts, will deliver an address at the annual meeting of the North Dakota Jewelers' association in this city next month. Prof. Henry Le Daun is another university man who has accepted an invitation to deliver an address on the occasion of the association meeting.

MINNESOTA BRIEFS

Aitkin—Contractor Dotten has started work again on the county ditch running from the state road to Pine Knoll, the recent rainfalls, having enabled him to do so. He will put on an extra shift crew and work day and night until he has completed his contract.

Little Falls—A deal was closed Tuesday by Nelson & Hammerbeck, proprietors of the Nelson & Hammerbeck drug store for the sale of the stock of D. F. Siegfried of Fargo, who will take possession of the business. Mr. Siegfried is interested in several drug stores in North Dakota and is one of the oldest registered druggists in that state.

Aitkin — The Memorial day speakers will be chiefly local and will include Hon. C. H. Varner and Rev. A. L. Richardson. Judge Stanton of Bemidji has been invited to make the principal address.

St. Cloud—Mayor Seberger has received a letter from Mrs. Grace H. Rooth, daughter of Mr. and Mrs. D. J. Hickock of Everett, Wash., former residents of this city and employed in the Great Northern shops, announcing the death of her mother, Mrs. Hickock, on May 13, aged 58 years. She also says that her father has been ill for two years with little hope of recovery.

Stillwater—The movement of logs on the St. Croix has commenced in earnest. The boom is sorting and local saw mills are assured of a supply for some time to come. The river between here and Taylors Falls is filled with moving logs that were recently turned out of Nevers dam.

Rochester—What seems to be a mail robbery was discovered by members of the train crew on the Northwestern line near Dodge Center, when they picked up a mail sack marked Chester, a station six miles east of Rochester. The lock on the government bag was safe, but a large slit in the canvas caused the belief that a robbery had been committed.

Arlington — John Mesker, a well known farmer of Henderson, died Tuesday of lockjaw. Mesker one day last week, picked up a piece of wood and threw it at some birds. In throwing the stick he ran a sliver into his hand and blood poison resulted.

Waubun—Work on the new flour mill commenced this week and Mr. Fredenburg, the miller, is himself superintending the construction of the building.

Winona—The city council granted to the Minnesota-Wisconsin Power company the privilege to enter Winona with their electric current for power purposes and to string wires and place poles on certain specified streets. The city guards against future developments and has placed in the franchise, which passed, a regulation of rates for light in the city in case the company becomes the only one here.

Fergus Falls—C. G. Shulz, state superintendent of public instruction, will deliver the commencement address at the Northwestern college commencement, which takes place in this city June 1.

Rochester — Plans have been completed and work will start shortly upon an elegant $75,000 Catholic boys' high school that it is proposed by Bishop Heffron of the Winona diocese to operate in Rochester. The building will be one of the finest Catholic institutions in Southern Minnesota, and is designed not only for a high school for boys, but for the St. John's parochial school.

WISCONSIN BRIEFS

Milwaukee—A 2-year-old boy named Samuel Luippow was killed Tuesday night at Third and Cherry streets, when a driverless horse plunged upon the sidewalk on the east side of the street. The body was removed to his home in the rear of 218 Cherry street.

Fond du Lac—After being called before the village board on charges of conduct unbecoming an officer, Marshal Thomas Ford, who was held up and relieved of his revolver by two strangers last week, was reinstated and will hold office during good behavior.

Manitowoc—Guardians of Alice Teuber, aged 7, who is alleged to have lost a leg under a Milwaukee road train last February while returning from school, have been offered, it is said, $4,400 by the company in settlement of their claim for damages.

Madison—The Wisconsin National Guard will hold its annual encampment at Camp Douglas this year from July 8 to 29. Orders to this effect will be issued by Adjt. Gen. C. R. Boardman in a few days. The three regiments will go into camp one at a time, as in former years, with the troop, battery and tenth separate battalion each putting in a week with one of the regiments. A new regulation this year will be one requiring the soldier boys to wash their clothes at least once while in camp.

Chippewa Falls—Reports on good authority state that H. Byllesby & Co. of Chicago have rejected their $1,000,000 option which they held on the Jim Falls dam and water power from the Dell Paper & Pulp company of Eau Claire, the present owners. Byllesby & Co. claim to have found a large crack in the base of the dam.

Ashland—Mrs. Frances Brossard, aged 82, died at the residence of her daughter, Mrs. Newt Woodhead, Tuesday morning, from an attack of bronchitis. Mrs. Brossard has resided with her daughter two or three years, coming here from Fall River, where final interment will take place.

CAN EAT MOST ANYTHING

Bad Case of Stomach Trouble Wholly Restored by Peruna.

Mrs. Wilson Robinson.

Mrs. Wilson Robinson, 764 Nessle St., Toledo, Ohio, writes:

"I feel like a new person. I have no more heavy feelings, no more pain, don't belch up gas **can eat most anything** without it hurting me. I want to be working all the time. I have gained twenty-four pounds.

"People that see me now and saw me two months ago seem astonished. I tell them **Peruna did it.** I will say it is the only remedy for spring and all other ailments."

Dyspepsia and Constipation.

Helen A. Maxfield, M. D., Lyman, Utah, writes:

"As to the merits of Peruna, too much cannot be said.

"I am sixty years old and have just found out a medicine that is a great improvement to my health. I have suffered for years with dyspepsia and constipation. The use of Peruna two weeks only has given me great relief."

MRS. CUDAHY REQUESTED TO LEAVE LOS ANGELES HOTEL

Mrs. Jack Cudahy, whose experiences in Duluth at the time of the visit here of "The Merry Widow" company will be remembered by Duluthians, was recently ejected from a Los Angeles hotel. The following account of the incident from a Los Angeles paper will be of interest here:

"Yesterday the Alexandria management suddenly discovered that it is crowded for room. In fact, the great hotel was so crowded that it was found necessary to ask for the separate suites which Mrs. Jack Cudahy and Charles R. Drummond, alias Charlie R. Dunbar and 'Mrs. Dunbar,' have been occupying.

"While the hotel is enjoying a nice house count, thank you, there are still a number of rooms unoccupied. But it happened that the two suites which Drummond and Mrs. Cudahy had been occupying were wanted by the hotel people.

"Early yesterday morning, when the announcement was made that Drummond, the notorious youth of wealth from St. Louis, was a guest in the hotel under the name of Dunbar, and an affinity, the house detective was sent to Drummond with an important message.

"West found the carpet in front of Drummond's door worn smooth, and, as he approached, two boys carrying empty glasses—the long, thin kind—dashed by him, and two more boys, bearing waiters with long, thin glasses filled with sparkling fluid, hustled by him into the room.

"West stood transfixed, but finally realized that it was just Drummond beginning to get up.

"West endeavored to talk to Drummond and tell him the error of his ways—and incidentally that the hotel management needed the rooms—but it was impossible. Drummond would just as soon give his right eye as to talk business at that early hour in the morning, and, any way, to talk business meant that the bellboys bearing the long, thin glasses would be delayed.

"After several hours West made the second attempt. This time Drummond was sitting up, but still the bellboys occasionally rushed in with the proper life-saver. Toward noon things were a little better, and Drummond condescended to see West. He was told as painlessly as possible, and only grimed.

"He left Los Angeles last night, accompanied by his affinity, with San Francisco their avowed destination.

"En route to the Arcade depot, however, the automobile bearing Drummond and his affinity veered from its course and started for Long Beach, where Drummond had succeeded in reserving a suite of rooms at the Hotel Virginia.

"The guests at the hotel were arriving in such numbers that the management found that it would need Mrs. Cudahy's suite, immediately.

"So West was again called. Here he balked. He said he did not worry about talking to a young man, but to Mrs. Jack Cudahy—well, his nerve just failed him.

"Mrs. Cudahy has been enjoying herself excellently in Los Angeles, and has been the central figure in many Bohemian suppers. Some of these suppere were extra Bohemian, and a great deal of sparkling liquid was consumed.

"Mrs. Cudahy asked and was granted a leeway of one day so that she could make the proper reservations on the trains, and agreed then to give up the much-wanted suite. She intends to leave for the East tomorrow."

IGNORANCE OF POSTAL LAWS LOSES AMERICANS MUCH BUSINESS

The government has instructed postmasters to endeavor of educate business men concerning the international postal laws. Carelessness in correspondence is often responsible for the failure of American manufacturers and business men to establish permanent and profitable relations with foreign commercial houses. The sending of letters, samples, catalogues and circulars upon which postage has not been fully prepaid may appear trivial, but the postal department and the bureau of manufacturers declare the practice is annoying and creates a prejudice against American dealers that is difficult to remove.

People who would not think of putting a 1-cent stamp on a letter mailed here for St. Paul will post a stampless letter for Argentina or some other country a few thousand miles distant, or the letter may not have been weighed and may be deficient in postage. Fully one-half of the letters received at Buenos Ayres American consulate are short of postage.

The Daily Consular and Trades Reports published the prevailing postage rates as follows:

Articles for or from foreign countries (except Canada, Mexico, Cuba, and the Republic of Panama) are not designated "first-class matter," "second-class-matter," etc., but are classified as "letters," "post cards," "printed matter," "commercial papers," and "samples of merchandise." The rates are as follows:

Letters and sealed matter: 5 cents for the first ounce and 3 cents for each additional ounce or fraction.

Post cards: Single, 2 cents; double, 4 cents.

Commercial papers: 1 cent for each 2 ounces or fraction, but not less than 5 cents on each packet.

Printed matter: 1 cent for each two ounces or fraction.

Samples of merchandise: 1 cent for each two ounces or fraction, but not less 2 cents on each packet.

Domestic rates apply to mail matter for Canada, Canal Zone, Cuba, Guam, Hawaii, Mexico, Philippines, Porto Rico, Republic of Panama, Tutuila, and the United States postal agency at Shanghai. The domestic rate for letters, but not for other articles, applies also to Germany, Great Britain and Ireland and Newfoundland. Letters for Germany paid at the Postal Union rate (5 cents per ounce or fraction thereof) will be dispatched by the fastest steamers and forwarded via Great Britain or France.

EXPLAINS WHAT TRUST MEANT

Secretary of Lumbermen's Association Testifies in Ouster Suit.

St. Louis, Mo., May 25.—W. G. Hollis, secretary of the Northwestern Lumbermen's association, explained in the hearing of the state's ouster suit against the alleged lumber trust yesteday afternoon terms he used in a curcular which told of an agreement between the retailers and wholesalers for trade protection.

The circular was based on the agreement signed in Chicago in 1903 and in it the term "poacher" was used. This, according to Hollis meant any retailer who entered the restricted territory of another retailer.

The agreement deprecated the entance of the "co-operative lumber firm into the field occupied by the retailer and told of efforts to overcome the power of the co-operatives."

Attorneys Advised Against It.

The agreement, Hollis testified, was ratified by the Yellow Pine Manufacturers' association in October, 1904 and was abolished in April 1905 on advice of attorneys. He denied that the attorneys had advised the association that it went beyond the law. He also denied that the one bulletin the association issued was a blacklist and gave as the reason for discontinuance that it was too expensive to handle.

George K. Smith, secretary of the Yellow Pine association, shortly before he was excused for the day, testified he had sent agents to talk "cut and shipment" to manufacturers not in the association and the benefits derived from its members. He did not recall that his agents had advised the non-members of the advisability of curtailing their output to obtain higher prices.

Witnesses who printed the price current of the association testified late in the day. Their testimony showed that often they obtained "copy" for their lists from the prices quoted privately by the association's secretary.

EASIER FOR PRISONERS.

Army Prison Regulations Are to Be Modified.

Washington, May 25.—To prove that the army is not composed of bad characters, and recognizing the principle that reformation is the cardinal purpose of punishment, the war department has modified its garrison prison regulations, offering substantial abatement of sentence to prisoners for good conduct.

The new policy contemplates a relaxation of the strictness by which working garrison prisoners are surrounded by heavily armed sentinels. The existing plan, it is pointed out, "conveys a false impression as to the character of the prisoners, gives the public the erroneous idea that the army is full of bad characters, requiring forcible handling; is injurious to the self-respect of the prisoners; discourages enlistments, and lowers the military service in public opinion."

In future garrison prisoners will be paroled for work, as far as practicable, under the general supervision of the officers in charge of prisoners. Prisoners whose character or offense require that they be kept under guard will be assigned to tasks which will make the presence in the service of this class of men as little conspicuous as possible.

A prisoner who has served one-half a sentence of ten days or more may be placed on probation for the remainder of his term.

Paul Revere Homestead Scorched.

Sharon, Mass., May 25.—An old powder mill built in Revolutionary days, was destroyed and the homestead of Paul Revere badly damaged in a $30,000 fire here last night.

RAINY LAKE CITY MAN BLOWS OFF HIS HEAD.

International Falls, Minn., May 25—William Herrihan, foreman of a river driving gang for the International Lumber company on the Rat Portage river and Rainy lake, killed himself at Rainy Lake city by shooting his head off with a rifle. He was 48 and a member of the Odc Feiows. No motive has been ascribed.

CLOQUET AND RED WING TO HAVE POSTAL BANKS.

Washington, May 25.—Fifty additional postal depositories have been designated by Postmaster General Hitchcock, making the total number announced to date 256. The new depositories are all second class and will begin operations on June 25, 1911. Among them are the following:

Harlan, Iowa; Wyandotte and Negaunee, Mich.; Cloquet and Red Wing, Minn.; Grafton, N. D.; Lemmon, S. D.; Stoughton, Antigo and Merrill, Wis.

SCORES OF GIRLS FLEE FROM WAREHOUSE FIRE.

St. Louis, Mo., May 25.—One hundred employes fled down fire escapes when the five-story warehouse of the General Paper Stock company burst into flames yesterday afternoon. Twenty-five of the girls, most of whom were employed in the sorting rooms, jumped from the second story to an adjoining roof. The flames spread with such rapidity that the girls found themselves trapped on this roof until firemen rescued them. The warehouse walls collapsed after the fire had burned for two hours. The loss will reach $125,000, according to officials of the company.

THOUGHT HE SHOULD GO MAD WITH ECZEMA

On Face and Scalp; Dry, Scaly, Itching and Burning. Used Cuticura Soap and Ointment and After a Few Days, Eczema Was Cured.

"I suffered from the early part of December until nearly the beginning of March with severe skin eruptions on my face and scalp. At first I treated it as a trivial matter. But after having used castile soap, medicated washrags, cold cream, vanishing cream, etc., I found no relief whatever. After that, I diagnosed my case as eczema, because of its dry, scaly appearance. The itching and burning of my scalp became so intense that I thought I should go mad, having not slept regularly for months past only at intervals, waking up now and then because of the burning and itching of my skin. Having read different testimonials of cures by the Cuticura Remedies, I decided to purchase a box of Cuticura Ointment and a cake of Cuticura Soap. After using them for a few days I recognized a marked change in my condition. I bought about two boxes of Cuticura Ointment and five cakes of Cuticura Soap in all, and after a few days I was entirely free from the itching and burning. My eczema was entirely cured, all due to using Cuticura Soap and Ointment daily. Hereafter I will never be without a cake of Cuticura Soap on my washstand. I hope you will publish my letter so that others may learn of Cuticura Remedies and be cured." (Signed) David M. Shaw, c/o Paymaster, Pier 55, N. R., New York City, June 2, 1910.

Cuticura Soap and Ointment sold throughout the world. Potter Drug & Chem. Corp., sole props., 139 Columbus Ave., Boston.

Mailed free, samples of Cuticura Soap and Ointment, with 32-p. book on skin treatment.

ANNUAL DEBATE WILL BE HELD

Duluth and Pine City High School Teams Will Meet Friday.

The debating teams representing the Duluth Central high school and the Pine City high school will have their annual debate in the assembly hall of the local school, Friday evening.

The Pine City team has defeated Duluth for two successive years. The Duluth team will make a determined effort to wipe out the two former defeats with a clean cut victory this year.

Alexander G. McKnight will act as chairman at the debate and John Dwan of Two Harbors, H. E. Flynn of Two Harbors and Archie McKay of Superior will be the judges.

Miss Marion Merritt of the local school will render a vocal solo and the senior class quartet will give a number. The Pine City debaters will be Miss Lilile Pork, James Clark and Miss Eleanor Clark. The Duluth team is composed of Nathan Cohen, Fred Weinberg and Roger Lerch.

Yesterday the junior class team defeated the seniors in a debate on: "Resolved That Corporal Punishment Should Be Abolished." The juniors had the affirmative and the seniors the negative. Tomorrow afternoon the freshmen and sophomores will debate on the same question. The winners of this contest will meet the juniors for the championship of the school.

The members of the junior team are Edward O'Brien, Andrew Johnson and Caldwell Harris. The members of the senior team are Violet Flaaten, Frances Berg and Mortimer Bondy.

Bernhardt Seat Sale

Opens this morning at 10 o'clock.

MOOSE LAKE TO ENTERTAIN G. A. R.

Making Plans to Give Veterans Splendid Time June 21, 22 and 23.

Moose Lake, Minn., May 25.—(Special to The Herald.)—The Park Region G. A. R. encampment, which will be held here June 21, 22 and 23, will be one of the biggest reunions held for some time. Old soldiers from all over the district are planning to be present and will bring large delegations with them. It is expected there will be 2,000 people in attendance during the three days. The people of Moose Lake are making arrangements to give the old soldiers the best time they ever had. The committee which has the matter in charge have already secured the services of the Duluth drum corps, Staples drum corps and the Moose Lake band. Besides this there will be an orchestra from Duluth which will furnish music for a dance every evening in the pavilion.

The railroad service to Moose Lake is exceptionally good as they have both the Northern Pacific and Soo lines, which traverse practically the entire park region, so anyone desiring to attend the encampment can get there by either the Northern Pacific or the Soo, whichever is the most convenient for them. Prominent speakers will be present, games of all kinds, including a baseball game between Moose Lake and Cloquet, will be some of the sports to entertain the visitors.

NORTHOME UNION SERVICE.

Will Be Held Next Sunday in Honor of Veterans.

Northome, Minn., May 25.—(Special to The Herald.)—Union services will be held at the M. E. church next Sunday morning at 10:45.

The service will be in charge of Rev. F. B. Luce, and the following program will be rendered: "America," congregation; Apostle's creed, congregation; prayer, Rev. C. M. Irvin; hymn, congregation; Lincoln's Gettysburg address, Prof. O. A. Sarff; hymn, congregation; Bible lesson, Rev. F. B. Luce; vocal solo, Miss Ida Brown; memorial address, Rev. F. B. Luce; hymn, congregation; benediction, Rev. C. M. Irvin.

Evening service will be held at 8 o'clock. A good program is being prepared for this service also.

MORGAN CONFIRMED AS MINISTER TO PORTUGAL.

Washington, May 25.—Edwin V. Morgan of New York was confirmed by the senate to be American minister to Portugal. He is now minister to Paraguay and Uruguay and his shift to the European post is to fill the vacancy at Lisbon caused by the recent transfer of Minister Henry S. Boutell to be minister to Switzerland.

PLEADS FOR ALASKA.

Delegate Wickersham Says Present Government Fails.

Washington, May 25. — The administration of the present system of government in Alaska is deplorable, according to Delegate Wickersham of that district, who, before the house committee on territories, urged a favorable report on his bill creating an elective legislature for the territory.

"Alaska," he said, "under the present system of long-distance administration, has not been given a single legislative measure for five years. There can be no question that an attempt to govern such a big territory from the national capital, thousands of miles distant, is a failure.

HUNDREDS SEE FOUR DROWN AT WINNIPEG.

Winnipeg, May 25.—Two double drownings marred the celebration of Victoria day here, the victims losing their lives in sight of hundreds of pleasure seekers in the downtown parks.

Herber Jones, 19 years old, a college student, and Maggie McLean were thrown into Kildonan lake when their canoe was upset in a violent wind storm late in the afternoon. Both were drowned before rescuers could reach them.

At Elm Park, George F. Hunt and Miss Jessie B. Hunt, brother and sister, were upset from a canoe and disappeared before they could be rescued.

ST. PAUL PLUMBER AFTER McEWEN'S JOB.

St. Paul, Minn., May 25.—Axel Peterson of St. Paul, financial secretary of the St. Paul local of the Plumbers' union, has received the indorsement of the plumbers for election to the office of secretary-treasurer of the State Federation of Labor at its next convention in Mankato, June 19.

W. E. McEwen, present holder of the office, is a candidate for re-election and is also a member of the Plumbers' union.

GOODMAN, MICH., STORE BURGLARIZED FOR $300.

Menominee, Mich., May 25.—(Special to The Herald.)—The general store of the Sawyer-Goodman company at Goodman, Mich., near here, was burglarized of $300. The burglars escaped.

SLICE FACES TERM IN THE PENITENTIARY.

Grafton, N. D., May 25.—(Special to The Herald.)—Tony Slice of Lankin faces imprisonment in the North Dakota penitentiary for violation of the prohibition law if the charge that has been lodged against him holds water in the district court of Walsh county. This is the second time that Slice has been jailed for that offense, and under the North Dakota law, second offenses are dealt with by penitentiary sentences.

Charms and Elegance of True Beauty

(Stillwell in Fashion.)

"Every woman delights in a velvety skin and fine complexion, but few realize the harm done the skin's delicate surface by smothering it with powders or cosmetics," writes Mme. Stillwell in Fashion.

"A mayatone lotion gives grand results and is quickly prepared by dissolving a small original package of mayatone in eight ounces of witch-hazel. Massage this freely into the skin every day and you will be surprised how soon it is cleared and beautified, while the complexion takes on the charm and elegance of true beauty.

"Nothing equals mayatone to protect the skin from changeable weather, tan or freckles. It is easier to use and more satisfactory than powder, is greaseless and will not grow hairs."

MICHIGAN IS THE BEST SHOT IN THE U. S. NAVY.

Washington, May 25.—The battleship Michigan, commanded by Capt. Nathaniel R. Usher, is the premier shot of the American navy. In the spring battle practice, just concluded, the Michigan scored 99.929 points of merit and will be awarded the gunnery championship, a red pennant with a black ball in the center, which will fly from her masthead until the honor is wrested from her by a sister ship.

The Michigan outclassed every other battleship or cruiser in the navy, the nearest approach in markemanship being the North Dakota with 72.948 points.

The New Hampshire, whose splendid firing battered the old battleship San Marcos into a mass of twisted steel and sent her to the bottom of Chesapeake bay in the recent ordnance tests, made the poorest record of all the ships in her general rating, being credited with only 14.380 points. The Minnesota was eighteenth wtih a score of 18.995 points.

MURDER AND SUICIDE END FAMILY TROUBLE.

Washington, May 25.—E. J. MacDonald, an attorney, shot and killed his wife, Mrs. Gertrude MacDonald, in his offices in the Colorado building. The couple had been separated for six months, the wife living in New York city. Four days ago she came back to effect a reconciliation and yesterday afternoon went to her husband's offices. They quarreled over money matters, it is said.

MANY AMERICANS ARE PRESENTED AT COURT.

London, May 25. — The third of the series of brilliant courts which is to mark the present London season was held at Buckingham palace last night. Colonial delegates to the imperial conference were well represented, while most of the diplomatic corps and a host of officials were present.

Mrs. Reid, wife of the American ambassador, presented in the diplomatic circle Miss Mabel Choate, daughter of Joseph H. Choate, the former American ambassador at London, and Miss Lucy Buckler, daughter of William H. Buckler of Baltimore, and in the general circle Mrs. Charles W. Broga and her sister, Miss Enders of Chicago, Mrs. William B. Bourne of San Francisco and Mrs. J. H. Bull of San Francisco, wife of Capt. H. J. Bull, U. S N., and Miss Margery F Bull. Another court will be held this evening at which several other Americans will be presented.

North Dakota Eagles Meet.

Grand Forks, N. D., May 25.)—Special to The Herald.)—Arrangements for the annual gathering of the North Dakota Aerie of Eagles have been completed for the sessions to be held here June 15 and 16. One of the features will be prizes for the tallest and the shortest Eagle in attendance. Drill work will also be put on in competition, with prizes provided.

THE PROPER WAY TO SHAMPOO

In speaking of the careless way in which most women care for their hair, Mrs. Mae Martyn, the noted authority, writes as follows in the Baltimore News: "The increasing baldness of women with accompanying scalp troubles is becoming alarming. Short, thin, dull, fafed, brittle, failing, streaky hair is very common. Few seem to realize that these troubles are often caused by the alkali in the soap used for shampooing. It is too strong for the hair and eats the very life out it.

"The only safe, reliable shampoo I know of is perhaps the least expensive. It is made by dissolving a teaspoonful of canthrox in a cup of hot water. No other shampoo lathers so well, cleanses so thoroughly or will remove dirt and dandruff as satisfactorily. It is the finest thing I have ever found for making the hair soft, fluffy and lustrous. If women would use this splendid shampoo exclusively, we would hear less of hair and scalp troubles."

PIANO SALES AND THEIR REAL DIFFERENCES

Facts for Thoughtful Buyers.
Just a few points for those who stop to consider.

No Dealer Expecting to Remain in the Piano Business Could Afford To Sell At These Low Prices.

HERE'S A POSITIVE CLOSING-OUT SALE

MRS. CUDAHY REQUESTED TO LEAVE LOS ANGELES HOTEL

Mrs. Jack Cudahy, whose experiences in Duluth at the time of the visit here of "The Merry Widow" company will be remembered by Duluthians, was recently ejected from a Los Angeles hotel. The following account of the incident from a Los Angeles paper will be of interest here:

"Yesterday the Alexandria management suddenly discovered that it is crowded for room. In fact, the great hotel was so crowded that it was found necessary to ask for the separate suites which Mrs. Jack Cudahy and Charles R. Drummond, alias Charlie R. Dunbar and 'Mrs. Dunbar,' have been occupying.

"While the hotel is enjoying a nice house count, thank you, there are still a number of rooms unoccupied. But it happened that the two suites which Drummond and Mrs. Cudahy had been occupying were wanted by the hotel people.

"Early yesterday morning, when the announcement was made that Drummond, the notorious youth of wealth from St. Louis, was a guest in the hotel under the name of Dunbar, and an affinity, the house detective was sent to Drummond with an important message.

"West found the carpet in front of Drummond's door worn smooth, and, as he approached, two boys carrying empty glasses—the long, thin kind—dashed by him, and two more boys, bearing waiters with long, thin glasses filled with sparkling fluid, hustled by him into the room.

"West stood transfixed, but finally realized that it was just Drummond beginning to get up.

"West endeavored to talk to Drummond and tell him the error of his ways—and incidentally that the hotel management needed the rooms—but it was impossible. Drummond would just as soon give his right eye as to talk business at that early hour in the morning, and, any way, to talk business meant that the bellboys bearing the long, thin glasses would be delayed.

"After several hours West made the second attempt. This time Drummond was sitting up, but still the bellboys occasionally rushed in with the proper life-saver. Toward noon things were a little better, and Drummond condescended to see West. He was told as painlessly as possible, and only grinned.

"He left Los Angeles last night, accompanied by his affinity, with San Francisco their avowed destination.

"En route to the Arcade depot, however, the automobile bearing Drummond and his affinity veered from its course and started for Long Beach, where Drummond had succeeded in reserving a suite of rooms at the Hotel Virginia.

"The guests at the hotel were arriving in such numbers that the management found that it would need Mrs. Cudahy's suite, immediately.

"So West was again called. Here he balked. He said he did not worry about talking to a young man, but to Mrs. Jack Cudahy—well, his nerve just failed him.

"Mrs. Cudahy has been enjoying herself excellently in Los Angeles, and has been the central figure in many Bohemian suppers. Some of these suppere were extra Bohemian, and a great deal of sparkling liquid was consumed.

"Mrs. Cudahy asked and was granted a leeway of one day so that she could make the proper reservations on the trains, and agreed then to give up the much-wanted suite. She intends to leave for the East tomorrow."

IGNORANCE OF POSTAL LAWS LOSES AMERICANS MUCH BUSINESS

The government has instructed postmasters to endeavor of educate business men concerning the international postal laws. Carelessness in correspondence is often responsible for the failure of American manufacturers and business men to establish permanent and profitable relations with foreign commercial houses. The sending of letters, samples, catalogues and circulars upon which postage has not been fully prepaid may appear trivial, but the postal department and the bureau of manufacturers declare the practice is annoying and creates a prejudice against American dealers that is difficult to remove.

People who would not think of putting a 1-cent stamp on a letter mailed here for St. Paul will post a stampless letter for Argentina or some other country a few thousand miles distant, or the letter may not have been weighed and may be deficient in postage. Fully one-half of the letters received at Buenos Ayres American consulate are short of postage.

The Daily Consular and Trades Reports published the prevailing postage rates as follows:

Articles for or from foreign countries (except Canada, Mexico, Cuba, and the Republic of Panama) are not designated "first-class matter," "second-class-matter," etc., but are classified as "letters," "post cards," "printed matter," "commercial papers," and "samples of merchandise." The rates are as follows:

Letters and sealed matter: 5 cents for the first ounce and 3 cents for each additional ounce or fraction.

Post cards: Single, 2 cents; double, 4 cents.

Commercial papers: 1 cent for each 2 ounces or fraction, but not less than 5 cents on each packet.

Printed matter: 1 cent for each two ounces or fraction.

Samples of merchandise: 1 cent for each two ounces or fraction, but not less 2 cents on each packet.

Domestic rates apply to mail matter for Canada, Canal Zone, Cuba, Guam, Hawaii, Mexico, Philippines, Porto Rico, Republic of Panama, Tutuila, and the United States postal agency at Shanghai. The domestic rate for letters, but not for other articles, applies also to Germany, Great Britain and Ireland and Newfoundland. Letters for Germany paid at the Postal Union rate (5 cents per ounce or fraction thereof) will be dispatched by the fastest steamers and forwarded via Great Britain or France.

Secretary of Lumbermen's Association Testifies in Ouster Suit.

St. Louis, Mo., May 25.—W. G. Hollis, secretary of the Northwestern Lumbermen's association, explained in the hearing of the state's ouster suit against the alleged lumber trust yesteday afternoon terms he used in a circular which told of an agreement between the retailers and wholesalers for trade protection.

The circular was based on the agreement signed in Chicago in 1903 and in it the term "poacher" was used. This, according to Hollis meant any retailer who entered the restricted territory of another retailer.

The agreement deprecated the entance of the "co-operative lumber firm into the field occupied by the retailer and told of efforts to overcome the power of the co-operatives."

Attorneys Advised Against It.

The agreement, Hollis testified, was ratified by the Yellow Pine Manufacturers' association in October, 1904 and was abolished in April 1905 on advice of attorneys. He denied that the attorneys had advised the association that it went beyond the law. He also denied that the one bulletin the association issued was a blacklist and gave as the reason for discontinuance that it was too expensive to handle.

George K. Smith, secretary of the Yellow Pine association, shortly before he was excused for the day, testified he had sent agents to talk "cut and shipment" to manufacturers not in the association and the benefits derived from its members. He did not recall that his agents had advised the non-members of the advisability of curtailing their output to obtain higher prices.

Witnesses who printed the price current of the association testified late in the day. Their testimony showed that often they obtained "copy" for their lists from the prices quoted privately by the association's secretary.

EASIER FOR PRISONERS.

Army Prison Regulations Are to Be Modified.

Washington, May 25.—To prove that the army is not composed of bad characters, and recognizing the principle that reformation is the cardinal purpose of punishment, the war department has modified its garrison prison regulations, offering substantial abatement of sentence to prisoners for good conduct.

The new policy contemplates a relaxation of the strictness by which working garrison prisoners are surrounded by heavily armed sentinels. The existing plan, it is pointed out, "conveys a false impression as to the character of the prisoners, gives the public the erroneous idea that the army is full of bad characters, requiring forcible handling; is injurious to the self-respect of the prisoners; discourages enlistments, and lowers the military service in public opinion."

In future garrison prisoners will be paroled for work, as far as practicable, under the general supervision of the officers in charge of prisoners. Prisoners whose character or offense require that they be kept under guard will be assigned to tasks which will make the presence in the service of this class of men as little conspicuous as possible.

A prisoner who has served one-half a sentence of ten days or more may be placed on probation for the remainder of his term.

Paul Revere Homestead Scorched.

Sharon, Mass., May 25.—An old powder mill built in Revolutionary days, was destroyed and the homestead of Paul Revere badly damaged in a $30,000 fire here last night.

RAINY LAKE CITY MAN BLOWS OFF HIS HEAD.

International Falls, Minn., May 25—William Herrihan, foreman of a river driving gang for the International Lumber company on the Rat Portage river and Rainy lake, killed himself at Rainy Lake city by shooting his head off with a rifle. He was 48 and a member of the Odd Fellows. No motive has been ascribed.

CLOQUET AND RED WING TO HAVE POSTAL BANKS.

Washington, May 25.—Fifty additional postal depositories have been designated by Postmaster General Hitchcock, making the total number announced to date 256. The new depositories are all second class and will begin operations on June 25, 1911. Among them are the following:

Harlan, Iowa; Wyandotte and Negaunee, Mich.; Cloquet and Red Wing, Minn.; Grafton, N. D.; Lemmon, S. D.; Stoughton, Antigo and Merrill, Wis.

SCORES OF GIRLS FLEE FROM WAREHOUSE FIRE.

St. Louis, Mo., May 25.—One hundred employes fled down fire escapes when the five-story warehouse of the General Paper Stock company burst into flames yesterday afternoon. Twenty-five of the girls, most of whom were employed in the sorting rooms, jumped from the second story to an adjoining roof. The flames spread with such rapidity that the girls found themselves trapped on this roof until firemen rescued them. The warehouse walls collapsed after the fire had burned for two hours. The loss will reach $125,000, according to officials of the company.

THOUGHT HE SHOULD GO MAD WITH ECZEMA

On Face and Scalp; Dry, Scaly, Itching and Burning. Used Cuticura Soap and Ointment and After a Few Days, Eczema Was Cured.

"I suffered from the early part of December until nearly the beginning of March with severe skin eruptions on my face and scalp. At first I treated it as a trivial matter. But after having used castile soap, medicated washrags, cold cream, vanishing cream, etc., I found no relief whatever. After that, I diagnosed my case as eczema, because of its dry, scaly appearance. The itching and burning of my scalp became so intense that I thought I should go mad, having not slept regularly for months past only at intervals, waking up now and then because of the burning and itching of my skin. Having read different testimonials of cures by the Cuticura Remedies, I decided to purchase a box of Cuticura Ointment and a cake of Cuticura Soap. After using them for a few days I recognized a marked change in my condition. I bought about two boxes of Cuticura Ointment and five cakes of Cuticura Soap in all, and after a few days I was entirely free from the itching and burning. My eczema was entirely cured, all due to using Cuticura Soap and Ointment daily. Hereafter I will never be without a cake of Cuticura Soap on my washstand. I hope you will publish my letter so that others may learn of Cuticura Remedies and be cured." (Signed) David M. Shaw, c/o Paymaster, Pier 55, N. R., New York City, June 2, 1910.

Cuticura Soap and Ointment sold throughout the world. Potter Drug & Chem. Corp., sole props., 139 Columbus Ave., Boston.

Mailed free, samples of Cuticura Soap and Ointment, with 32-p. book on skin treatment.

ANNUAL DEBATE WILL BE HELD

Duluth and Pine City High School Teams Will Meet Friday.

The debating teams representing the Duluth Central high school and the Pine City high school will have their annual debate in the assembly hall of the local school, Friday evening.

The Pine City team has defeated Duluth for two successive years. The Duluth team will make a determined effort to wipe out the two former defeats with a clean cut victory this year.

Alexander G. McKnight will act as chairman at the debate and John Dwan of Two Harbors, H. E. Flynn of Two Harbors and Archie McKay of Superior will be the judges.

Miss Marion Merritt of the local school will render a vocal solo and the senior class quartet will give a number. The Pine City debaters will be Miss Lillie Pork, James Clark and Miss Eleanor Clark. The Duluth team is composed of Nathan Cohen, Fred Weinberg and Roger Lerch.

Yesterday the junior class team defeated the seniors in a debate on: "Resolved That Corporal Punishment Should Be Abolished." The juniors had the affirmative and the seniors the negative. Tomorrow afternoon the freshmen and sophomores will debate on the same question. The winners of this contest will meet the juniors for the championship of the school.

The members of the junior team are Edward O'Brien, Andrew Johnson and Caldwell Harris. The members of the senior team are Violet Flaaten, Frances Berg and Mortimer Bondy.

Bernhardt Seat Sale

Opens this morning at 10 o'clock.

MOOSE LAKE TO ENTERTAIN G. A. R.

Making Plans to Give Veterans Splendid Time June 21, 22 and 23.

Moose Lake, Minn., May 25.—(Special to The Herald.)—The Park Region G. A. R. encampment, which will be held here June 21, 22 and 23, will be one of the biggest reunions held for some time. Old soldiers from all over the district are planning to be present and will bring large delegations with them. It is expected there will be 2,000 people in attendance during the three days. The people of Moose Lake are making arrangements to give the old soldiers the best time they ever had. The committee which has the matter in charge have already secured the services of the Duluth drum corps, Staples drum corps and the Moose Lake band. Besides this there will be an orchestra from Duluth which will furnish music for a dance every evening in the pavilion.

The railroad service to Moose Lake is exceptionally good as they have both the Northern Pacific and Soo lines, which traverse practically the entire park region, so anyone desiring to attend the encampment can get there by either the Northern Pacific or the Soo, whichever is the most convenient for them. Prominent speakers will be present, games of all kinds, including a baseball game between Moose Lake and Cloquet, will be some of the sports to entertain the visitors.

NORTHOME UNION SERVICE.

Will Be Held Next Sunday in Honor of Veterans.

Northome, Minn., May 25.—(Special to The Herald.)—Union services will be held at the M. E. church next Sunday morning at 10:45.

The service will be in charge of Rev. F. B. Luce, and the following program will be rendered: "America," congregation; Apostle's creed, congregation; prayer, Rev. C. M. Irvin; hymn, congregation; Lincoln's Gettysburg address, Prof. O. A. Sarff; hymn, congregation; Bible lesson, Rev. F. B. Luce; vocal solo, Miss Ida Brown; memorial address, Rev. F. B. Luce; hymn, congregation; benediction, Rev. C. M. Irvin.

Evening service will be held at 8 o'clock. A good program is being prepared for this service also.

MORGAN CONFIRMED AS MINISTER TO PORTUGAL.

Washington, May 25.—Edwin V. Morgan of New York was confirmed by the senate to be American minister to Portugal. He is now minister to Paraguay and Uruguay and his shift to the European post is to fill the vacancy at Lisbon caused by the recent transfer of Minister Henry S. Boutell to be minister to Switzerland.

PLEADS FOR ALASKA.

Delegate Wickersham Says Present Government Fails.

Washington, May 25. — The administration of the present system of government in Alaska is deplorable, according to Delegate Wickersham of that district, who, before the house committee on territories, urged a favorable report on his bill creating an elective legislature for the territory.

"Alaska," he said, "under the present system of long-distance administration, has not been given a single legislative measure for five years. There can be no question that an attempt to govern such a big territory from the national capital, thousands of miles distant, is a failure.

HUNDREDS SEE FOUR DROWN AT WINNIPEG.

Winnipeg, May 25.—Two double drownings marred the celebration of Victoria day here, the victims losing their lives in sight of hundreds of pleasure seekers in the downtown parks.

Herber Jones, 19 years old, a college student, and Maggie McLean were thrown into Kildonan lake when their canoe was upset in a violent wind storm late in the afternoon. Both were drowned before rescuers could reach them.

At Elm Park, George F. Hunt and Miss Jessie B. Hunt, brother and sister, were upset from a canoe and disappeared before they could be rescued.

ST. PAUL PLUMBER AFTER McEWEN'S JOB.

St. Paul, Minn., May 25.—Axel Peterson of St. Paul, financial secretary of the St. Paul local of the Plumbers' union, has received the indorsement of the plumbers for election to the office of secretary-treasurer of the State Federation of Labor at its next convention in Mankato, June 19.

W. E. McEwen, present holder of the office, is a candidate for re-election and is also a member of the Plumbers' union.

GOODMAN, MICH., STORE BURGLARIZED FOR $300.

Menominee, Mich., May 25.—(Special to The Herald.)—The general store of the Sawyer-Goodman company at Goodman, Mich., near here, was burglarized of $300. The burglars escaped.

SLICE FACES TERM IN THE PENITENTIARY.

Grafton, N. D., May 25.—(Special to The Herald.)—Tony Slice of Lankin faces imprisonment in the North Dakota penitentiary for violation of the prohibition law if the charge that has been lodged against him holds water in the district court of Walsh county.

Charms and Elegance of True Beauty

(Stillwell in Fashion.)

"Every woman delights in a velvety skin and fine complexion, but few realize the harm done the skin's delicate surface by smothering it with powders or cosmetics," writes Mme. Stillwell in Fashion.

"A mayatone lotion gives grand results and is quickly prepared by dissolving a small original package of mayatone in eight ounces of witchhazel. Massage this freely into the skin every day and you will be surprised how soon it is cleared and beautified, while the complexion takes on the charm and elegance of true beauty.

"Nothing equals mayatone to protect the skin from changeable weather, tan or freckles. It is easier to use and more satisfactory than powder, is greaseless and will not grow hairs."

This is the second time that Slice has been jailed for that offense, and under the North Dakota law, second offenses are dealt with by penitentiary sentences.

MICHIGAN IS THE BEST SHOT IN THE U. S. NAVY.

Washington, May 25.—The battleship Michigan, commanded by Capt. Nathaniel R. Usher, is the premier shot of the American navy. In the spring battle practice, just concluded, the Michigan scored 99.929 points of merit and will be awarded the gunnery championship, a red pennant with a black ball in the center, which will fly from her masthead until the honor is wrested from her by a sister ship.

The Michigan outclassed every other battleship or cruiser in the navy, the nearest approach in marksmanship being the North Dakota with 72.948 points.

The New Hampshire, whose splendid firing battered the old battleship San Marcos into a mass of twisted steel and sent her to the bottom of Chesapeake bay in the recent ordnance tests, made the poorest record of all the ships in her general rating, being credited with only 14.380 points. The Minnesota was eighteenth with a score of 18.995 points.

MURDER AND SUICIDE END FAMILY TROUBLE.

Washington, May 25.—E. J. MacDonald, an attorney, shot and killed his wife, Mrs. Gertrude MacDonald, in his offices in the Colorado building. The couple had been separated for six months, the wife living in New York city. Four days ago she came back to effect a reconciliation and yesterday afternoon went to her husband's offices. They quarreled over money matters, it is said.

MANY AMERICANS ARE PRESENTED AT COURT.

London, May 25. — The third of the series of brilliant courts which is to mark the present London season was held at Buckingham palace last night. Colonial delegates to the imperial conference were well represented, while most of the diplomatic corps and a host of officials were present.

Mrs. Reid, wife of the American ambassador, presented in the diplomatic circle Miss Mabel Choate, daughter of Joseph H. Choate, the former American ambassador at London, and Miss Lucy Buckler, daughter of William H. Buckler of Baltimore, and in the general circle Mrs. Charles W. Broga and her sister, Miss Enders of Chicago, Mrs. William B. Bourne of San Francisco and Mrs. J. H. Bull of San Francisco, wife of Capt. H. J. Bull, U. S N., and Miss Margery F Bull. Another court will be held this evening at which several other Americans will be presented.

North Dakota Eagles Meet.

Grand Forks, N. D., May 25.)—Special to The Herald.)—Arrangements for the annual gathering of the North Dakota Aerie of Eagles have been completed for the sessions to be held here June 15 and 16. One of the features will be prizes for the tallest and the shortest Eagle in attendance. Drill work will also be put on in competition, with prizes provided.

PIANO SALES AND THEIR REAL DIFFERENCES

Facts for Thoughtful Buyers.
Just a few points for those who stop to consider.

No Dealer Expecting to Remain in the Piano Business Could Afford To Sell At These Low Prices.

HERE'S A POSITIVE CLOSING-OUT SALE

THIS STORE TO BE CLOSED WHICH COMPELS IMMEDIATE DISPOSAL OF EVERY PIANO!

Parlor and Concert
Grand Pianos
Reed Organs
All Styles

Player-Pianos
Church Organs
Residence Pipe Organs
All Finishes

— DULUTH'S LARGEST AND FINEST STOCK AND WAREROOMS —

WHY THIS SALE IS DIFFERENT

Our stock has not been sold to another dealer to sell you—You buy here, first cost. We'll make it even more plain.

Instead of selling out to another dealer at wholesale, we sell you at wholesale.

Buyers positively save dealers' and agents' profits and canvassers' commissions.

Such facts and savings are perfectly plain and the comparative difference of this sale and the average dealer's inducements is clearly realized.

The sole object of this sale is to get rid of the goods, stop expense, close-out every instrument and close the store at the first possible date.

Now you have the facts, the assurance of real savings on any piano purchased here at this

Genuine Going-Out-of-Business Closing-Out Piano Sale.

THE PROPER WAY TO SHAMPOO

In speaking of the careless way in which most women care for their hair, Mrs. Mne Martyn, the noted authority, writes as fellows in the Baltimore News: "The increasing baldness of women with accompanying scalp troubles is becoming alarming. Short, thin, dull, faded, brittle, falling, streaky hair is very common. Few seem to realize that these troubles are often caused by the alkali in the soap used for shampooing. It is too strong for the hair and eats the very life out it.

"The only safe, reliable shampoo I know of is perhaps the least expensive. It is made by dissolving a teaspoonful of cantbrox in a cup of hot water. No other shampoo lathers so well, cleanses so thoroughly or will remove dirt and dandruff as satisfactorily. It is the finest thing I have ever found for making the hair soft, fluffy and lustrous. If women would use this splendid shampoo exclusively, we would hear less of hair and scalp troubles."

INTENTIONAL DUPLICATE EXPOSURE

DEFECTIVE PAGE

WOMAN'S REALM.

One mother who supports a family of small children by going out by the day to wash has had a burden lifted from her shoulders by her little daughter, who has learned to do cooking and who has a warm meal prepared each evening by the time her mother gets home. This girl is in the sixth grade of the Salter school. She has learned at the domestic science room of the school to cook and do many practical things which her mother had no time to teach her, and she has also learned many economies which have saved in the household expenses.

In another home where there are several motherless children the oldest, who is 14, has done all the cooking for a year and has a fine meal prepared for her father and brothers and sisters when they come in, and does it much better than her mother ever did it.

These are only two of many like cases where great benefit has been gained from the domestic science instruction which has been given in the public schools.

The women's council started it by conducting summer schools in various parts of the city during the vacations for the grade children, and these were taken over by the board of education and established as part of the regular school work. The domestic science department in the Salter school was established by the women of the Pilgrim Congregational church a year ago this spring, and the school board took this over also.

The women's council has decided to discontinue the summer schools this year, as the work has been covered so well.

One point on which the women feel that there could be an improvement is in the unifying of the course of work in all of the schools, with one outline of work to be adopted and followed, instead of each teacher working out her own course. In this way the best could be culled from each system and the greatest efficiency obtained.

The teachers who have charge of the work this year in the schools have been: Miss Laura Frick, Salter school; Miss Irene Walker, Bryant school; Miss Mamie Krandall, Irving high school, and Miss Aleta Westell, Irving grade school.

ANNUAL BALL.

Railway Conductors and Friends Enjoy Same.

The fourth annual ball given by the Order of Railway Conductors last evening at the new Auditorium was a very pretty affair. A large number of dancers enjoyed the delightful program played by La Brosse's orchestra and the hall was artistically decorated with bunting, flowers and palms.

Mayor Cullum, other city officials and a number of railroad officials were among the guests. Those in charge of the function were:

Arrangement—Theo. Harris, J. H. O'Brien, F. C. Blair, J. M. McNaughton and D. Williams.

Reception—All members Division 336.

Floor—G. F. Ayers, B. F. Hiem, T. J. Feathers, W. A. Nichols, J. C. McGreevy, A. J. Gladman, M. B. Nichols and W. H. Farrell.

Door—L. E. Bieberman, W. H. Denny, H. P. Morin, D. A. McCarthy and R. J. Kelly.

For Sanitarium.

Mrs. Edward Totman will entertain tomorrow afternoon informally for the benefit of the tuberculosis sanitarium. She has asked ten guests.

Lecture at High School.

"Father Hennepin" is the subject of the lecture to be given this evening at the high school assembly hall by Prof. Seymour. The subject announced in the course program for this evening was "Tamerlane," but this lecture has already been given. The hour set is 8 o'clock. There are but two more lectures in the course.

W. R. C. Entertains.

Paris Has Disowned the Bifurcated Skirt

AN EXTREME PARIS STYLE.

A NEW PARIS GOWN.

Even Paris has found the trousel skirt too sensational and the pendulum of fashion has swung back. At the race meeting at Longchamps, recently, the styles exhibited on mannequins were tubular, but not trousered. The Parisians are now saying that the divided skirt was created for Americans who like to wear sensational things. Last year they said that the hobble skirt was designed solely for the benefit of Americans. As soon as the public had got accustomed to the hobble it became a universal fashion. The public showed no disposition to accept the bifurcated garment, so the French dressmakers who designed it promptly disclaimed responsibility for the freak.

Young Men and Maidens

By MISS EXPERIENCE

Don't Tease.

"Do you think a man who cared for a girl would be cross with her," asks Daisy. "My sweetheart and I had a difference. I tried to tease him, I confess; but he shouted at me, and got very angry, and I think after that I would be wise to give him up. Nobody ever spoke crossly to me before; I was rather spoilt at home."

Perhaps it isn't a bad thing, if you were spoilt, to have somebody a little candid with you, and speak sharply now and then. If you hadn't teased him he would not have been angry with you. Don't do it again, that's all.

• • •

"The man I am engaged to," writes Esther, "pays a great deal of attention to my friend. I have also noticed that he doesn't write as regularly, now. I love him very much, and it would break my heart to give him up. At present there seems only misery in prospect. What is the right thing to do?"

I should ask him if there is any truth in what you have heard about him. If there isn't, he can set your mind at rest. If there is, you had better let him go, and feel that you have not any need to be miserable about it.

• • •

"My sweetheart and I have been going together a long time," writes Sadie, "and the time has come now when he says I must decide. I love him desperately, and I know he does me. But we are of different religions. He wants me to turn to his, but I couldn't be happy. He says he can't turn from his, but I can hardly believe that. The parents on both sides object to our being lovers."

Why should either of you change your religion? If you don't do it from absolute conviction, it would be wicked. There is no reason why you should not marry—and each go on in the religion that they believe. You can be quite happy, if only you will not try to turn each other afterwards.

Rhyme and Reason

By FRANK L. STANTON.

My True Love is May.

I.
Ever changing season, haste, haste away!
My false love was April, my true love is May!

II.
April had no flowers—not a rose to spare,
But now glad Love is kissing his sweetheart's eyes and hair.

III.
Sing a song of beauty—Shadow-time and gloom;
Earth rolls close to heaven—life's a rosy dream!

• • •

Spring Items.

Swearing at the stovepipe beats no carpets.

Spring has millinery stores everywhere, with rainbows for ribbons.

How can you expect the mule to step lively when he sees the fisherman fast asleep on the river bank?

The slow thunder has heard the spring command, and has joined the ranks of the old-time growlers.

Some folks don't want to dig for the life in the old land because they are afraid it will rise up and run away from them.

• • •

Sleeping With the Roses.

Summer's way off yonder still as still can be,
Sleeping with the roses that were sweet to see,
But in my heart forever the summer sings to me.

The memory of a mocking bird, the sad plaint of a dove;
The twinkling, dew-drenched gardens, the holy sky above,
The pleasant pathways leading to the violet vales of Love.

The sweet—the unforgotten—the beautiful and blest;
Asleep there, in the silence, we love the summer best,
With the light of Heaven round her and the roses on her breast.

• • •

The Electric Storm in Billville.

Says the Billville Banner: "The electric storm was a Godsend to us. Our subscribers had heard that the world was coming to an end, and when the magnetic display came they rushed in and paid every dollar they owed. Prophets who predict the speedy end of the world are welcome to our little city!"

THE EVENING STORY

THE INTERLOPER

By Jane Harris.

For some time past the village had been mildly interested in the fact that Corner Cottage after standing empty a long while had at last found a tenant. Interest grew considerably when it was discovered that the new tenant of the cottage was a young man of prepossessing appearance and manners.

And the village positively gasped with surprise when, on the first day of his tenancy, there appeared on his gate a neat brass plate bearing the inscription "Iven Bostwick, Physician and Surgeon."

The audacity of this pleasant spoken young man startled the village. That he should presume to set up in opposition to old Dr. Foster, who had attended the neighborhood these thirty years past, seemed incredible, an act akin to invasion by a hostile force.

Perhaps the most indignant person in the village at this presumption was Dr. Foster's daughter, Unice.

"What—what cheek!" she exclaimed helplessly when her father told her of the impending opposition.

"Oh, I don't know!" said old Foster easily. "There's room for two of us here. I'm not as young as I was, and I can't get about as I used to."

"He's an interloper!" she decided angrily. "Why couldn't he have gone elsewhere?"

And this was the general attitude towards young Mr. Bostwick at first. Unice and her friends always spoke of Bostwick as the "Interloper," and had much to say that was bitter about him.

By degrees the new comer began to gain a nucleus of a practice. Dr. Fosamass a nucleus of a practice was large, and scattered over a wide area, and folks came to the habit of sending for Bostwick when they were in a hurry, for they knew that the older doctor would probably be absent. Bostwick had a captivating way with his patients, and people who had called him once called him in again and again when necessary.

Now and then the rival doctors met at social events in the village and exchanged professional civilities; but Bostwick had not, as yet, spoken to Unice. He had seen her often, of course, about the village, and in church, and had never failed to note the expression of grave disapproval with which she regarded him. "Resents my being here," he said to himself.

A year had passed, when one afternoon Dr. Foster walked up the garden path of Corner Cottage, and knocked at the door of his rival. There was a suggestion of wounded indignation in the very manner in which he knocked at the door.

He was ushered into Bostwick's consulting room, and, declining a chair, came to the point of his visit.

"Mr. Bostwick," he began, "for over a year now you've been practicing in the village. I bear you no ill will; I have no animosity whatever towards you."

"Very good of you to say so," muttered Bostwick bewilderedly. "But—"

"One moment, sir. Hitherto you have always behaved as a gentleman. But today, sir—today—"

"Yes?" said Bostwick, calmly.

"Oh, don't pretend innocence, sir. Today—be precise; not an hour ago—you were guilty of the most unprofessional conduct!"

"Really, Dr. Foster."

"You went uninvited, to the house of a patient of mine—you attended him. Without being asked to—sir—without even having the decency to wait till you were asked to go, sir!"

"You mean Seeley, I suppose?"

"Quite right," said the other grimly. "So you don't assume innocence any longer, sir? You deliberately——"

"One moment, Dr. Foster. May I ask you what you know of the affair?"

"I was out this afternoon. I met Seeley's youngest boy. I asked him how his father was getting along. He said he'd been much worse, and Mrs. Seeley, the boy's mother, had sent him post haste to fetch me. The boy was pelting along through the village, when you stopped him to ask what was wrong. You then went direct to Seeley's cottage yourself, you—you interloper!" cried the old man, his indignation mastering him.

"Quite right, I did go."

"Without waiting to hear more, I came on at once to you, sir, to demand an explanation—an explanation, do you hear, sir?"

"You are entitled to one. Had you asked Seeley's little boy a few more questions, you would have obtained it then. You know Seeley's illness?

"Certainly I do! Do you take me for a quark?"

"You know his state?"

"Comatose, with periods of delirium."

"Exactly. Well, he was delirious again this afternoon. No one was watching him, and he went down stairs and got a gun."

"What!" asked the horrified Foster.

"A gun. So his wife sent for you."

"The dickens she did! And sent for me?"

"To calm her husband," explained Bostwick.

"Yes, but—why on earth did you risk your life? He wasn't your patient," stammered Foster.

"Well, you see, there were no other men about, and I didn't know what he might be doing. His wife and sister were naturally terrified."

"Yes; but why did you take the risk? It was my place to——"

"Well, you see," said Bostwick, with constraint, "I'm-I'm only a single man; there's no one dependent on me, and——"

"Gad, sir, you're a trump!" cried Foster. He blew his nose with remarkable vigor, and shook Bostwick's hand. "A trump! And you got the gun away from Seeley?"

"Oh, yes, I persuaded him quite easily. And I told his wife there ought to be no further cause for alarm. She said you were going to call again at 5, and I told her to be said Bostwick at last. "He does not seem to get any better."

Wherefore it was a considerable surprise to him when that evening he entered Foster's surgery to find that old gentleman fully dressed, sitting before the fire and puffing very heartily at his pipe.

"I couldn't keep it up any longer, my boy," said he shamelessly. "No wonder you couldn't find out what was amiss with me. There was nothing."

"Nothing! Then why on earth did you——"

"Diplomacy. You see, I wanted you and Unice to get to know each other better, and that seemed the only way."

"Awfully good of you," stammered Bostwick, flushing scarlet. "You guessed——"

"From the way you were always dragging her name into our talks and asking questions about her," replied Foster happily. "I had no difficulty in guessing. So I thought I'd give you a chance. But I couldn't keep up being ill any longer, so—I hope you'll forgive me—I told her about that Seeley business, and I rather fancy that's clinched matters. Sh! Here she is."

Unice came into the room and went straight to Bostwick. "Father's been telling me about Seeley and the gun."

"Oh, it wasn't worth mentioning, Miss Unice," he said awkwardly. "Please say no more."

"I must say 'Thank you,'" she said, and gave me her hand.

They did not notice old Foster slipping out of the room.

"Do you know," said Unice, "I've been trying to dislike you because you were an——"

"An interloper," he smiled.

"But I found it very difficult lately," she went on, ignoring his remark. "You've been so—so kind to father and—and myself."

"Not at all. But, Unice, I wonder if you'd let me—I mean, do you care for me at all? I mean, don't you think you could learn to—to love me? I'm being frightfully sudden, but I've waited a long time for the chance. What do you say—will you try to learn?"

Unice's head bent low.

"I thought I could never care for any one but my father. I love him so much—and that's why I resented your coming to the village at all. I thought it would worry him. But now, somehow, things seem different. I thought there was only room for my father in my heart, and now——" She faltered.

"You don't mean to say there's an 'interloper' in your heart, too?" he said eagerly.

"There is," she told him gravely. "It's you!"

There's no "interloper" now at Corner cottage. That house is vacant again. But on the gate of the house where Dr. Foster lives you may see, inscribed on a brass plate, these words: "Messrs. Foster & Bostwick, Physicians and Surgeons."

Madame Sherry Records
Now on Sale. Come and Hear Them.
If you go to see this production, you will surely want these splendid Victor records as "Souvenirs"—if you don't see it you can bring the opera to your home. Victor records are always best. Ask for the following numbers—come in and hear them—they are all the rage.

5784—Every Little Movement.
35182—Love Dance.
16728—Dublin Rag.
5840—Birth of Passion.
5827—Put Your Arms Around Me, Honey.
31824—Gems from "Madame Sherry."

French & Bassett
DULUTH, MINN.

Surprised.

Mrs. L. Brandy was pleasantly surprised at her home, 2012 West Sixth street yesterday afternoon by a number of her friends. The guest of honor was presented with a pretty gift and an informal afternoon was enjoyed by the following guests:

Mesdames—
S. J. Olson, J. K. Backman, E. Englund, John Anderson, A. Mehling, G. Strand, Charles Anderson, Charles Lindstrom, J. Tronsdal, Charles Swanson, J. P. Jenson.

Surprise Party.

Mrs. O. G. Twedt was pleasantly surprised yesterday afternoon at her home by a number of her friends. A dainty luncheon was served and the guest of honor was presented with many pretty presents. Those present were:

Mesdames—
E. Twedt, Modin, Peterson, Milligan, Ferguson, S. O. Twedt, R. Schaffer, F. Schaffer, Miss Cole, Seashore, Brectol, Oscar Mork, George Olson, E. Olson, Oswald G. Twedt, James Bradley.

Hostess to Teachers.

Mrs. E. H. Reed of 4121 McCulloch street was hostess yesterday afternoon at her home in honor of her son, Reginald, who graduates from the eighth grade of the Lakeside school this year. The affair was in the nature of a surprise to him and the guests were the teachers under whom he has received his instruction since entering the kindergarten at that school. A delightful luncheon was served and the decorations were carried out in the school colors, dark blue and white, ribbons and cherry blossoms being used. The guests were:

Misses—
Brooks, Halling, Owens, Lena Brown, Rudolph.

Musical for Y. W. C. A.

The attendance promises to be large at the musical to be given tomorrow afternoon at the home of Mrs. C. A. Congdon for the benefit of the Young Women's Christian association. Anyone interested in the affair will be welcome and the program arranged promises to be a treat. Mrs. Mark Baldwin and Miss Mary Syer Bradshaw will both have vocal numbers and Mrs. Robert Bruce Liggett will read.

For Guest.

Miss Nellie Sinclair was hostess at an informal afternoon tea yesterday for her guest, Miss Marguerite Jenne of Minneapolis. Only a few friends were entertained.

Personal Mention.

Mrs. Edward Windom of 2131 Jefferson street returned yesterday from Chicago, where she has spent a few days.

• • •

Mrs. G. A. Tomlinson of the Spalding hotel returned yesterday from Bay City, Mich., where she visited her father for two weeks.

• • •

Mrs. W. H. Watson of Hunter's Park has left for a trip to Detroit, Lake Orion and Lapeer, Mich. She will be gone several weeks.

• • •

Mrs. A. D. Davidson of 1525 East Superior street is the guest of friends in Minneapolis.

• • •

Mrs. W. H. Burris of 1122 East Superior street is visiting in Minneapolis for a week.

• • •

Mr. and Mrs. R. M. Atwater of 1914 East Second street are planning to leave shortly for New York city to reside.

• • •

Mr. and Mrs. C. E. DeWitt of 15 Fifteenth avenue east will be home Saturday or Sunday from Hot Springs, where they have spent three weeks.

• • •

Miss Nellie Sinclair of Chester Terrace has as her guest for two weeks, Miss Marguerite Jenne of Minneapolis.

• • •

Miss Margaret Denfeld, who has been teaching in St. Cloud this year, will be home next week, the term finishing there at that time.

• • •

Miss Annie Hugo, who has been visiting in Kentucky for a month, is now at National Park Seminary, Washington, to attend the week's graduation exercises there. From there she will go to Fall River, Mass., to be the guest of Miss Florence Aitkin.

• • •

Mrs. Rose Pieronet of 2418 East Third street, who has been in St. Mary's hospital for the past three weeks, having undergone an operation for appendicitis, is recovering and was removed to her home today.

• • •

Mrs. A. F. Peterson of 317 East First street, underwent a serious operation this morning at St. Luke's hospital. This is the second in four weeks and was much more serious than the former.

• • •

Mr. and Mrs. Paul F. Chamberlain left last evening for Vancouver, B. C., and from there they will go to San Francisco by boat. Mrs. Chamberlain's home is in California and Mr. Chamberlain is on his way to Kingman, Ariz., where he will take the management of the Enterprise copper mine.

• • •

C. H. Bradley has returned from Deerwood and is a guest at the Spalding.

• • •

Mr. and Mrs. H. M. Peyton and the Misses Peyton of 1331 East Superior street, who have been spending the winter in California are on their way home. They spent the week-end in Seattle.

• • •

Mrs. Emma J. Wicks, department president L. G. A. R., returned the first of the week from a trip to Anoka, White Bear, Rush City and Grand Rapids. She visited the circles at the different towns.

• • •

Dr. and Mrs. W. A. McClaran and daughter, Mrs. Robert Bruce Liggett have returned from Spread Eagle, Minn., where they spent a few days at the Alvarado mine.

• • •

Pentecost Mitchell and E. B. Hawkins left last night in Mr. Mitchell's private car for Los Angeles, Cal. Mr. Mitchell will return in a few weeks with Mrs. Mitchell and children, who have been spending the winter in California.

The Nursery

Whooping Cough.

Whooping cough is the most troublesome of all the chronic ailments. The cure is uncertain, and the tedious nature of it only too sure. Much can be done by using palliative means, and, in additon to internal medication, it has long been recognized that the coal tar inhalations are of value.

In the old days children were sent to the gas works, and were said to have derived great benefit. Now that we know that the disease is due to a germ, which, growing in the mucous membrane of the throat, probably sets up the spasm or whoop by irritating the nerve endings, the coal tar treatment is obviously a rational one.

Cresolene is a tarry oil, allied to, but distinct from, carbolic acid. It is very destructive of fungoid and other low forms of life. The vaporizer is a simple aparatus for vaporizing the cresolene by gentle heat. It is sold in a box, with a bottle of cresolene and directions, and goes by the name of "vapor-cresolene."

A Skin of Beauty is a Joy Forever.
Dr. T. FELIX GOURAUD'S Oriental Cream or Magical Beautifier.
Removes Tan, Pimples, Freckles, Moth Patches, Rash and Skin Diseases, and every blemish on beauty, and defies detection. It has stood the test of 64 years, and is so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the hautton (a patient): "As you ladies will use them, I recommend 'GOURAUD'S CREAM' as the least harmful of all the skin preparations." For sale by all druggists and Fancy Goods Dealers in the United States, Canada and Europe.

Ferd. T. Hopkins, Prop., 37 Great Jones St., New York.

The breakfast food that won a permanent place in millions of households through its delightful flavor — a flavor that has never before — or since — been duplicated in a breakfast food. Many attempted imitations have been put on the market, but none can be compared with the genuine — Kellogg's Toasted Corn Flakes. Made entirely from selected white corn, prepared by the exclusive Kellogg process, flaked and toasted to a delicate brown — It is always crisp and delightfully appetizing. Ask your grocer — insist on Kellogg's

This Week's Sunday School Lesson

WRITTEN FOR THE HERALD BY REV. J. S. KIRTLEY, D. D.

SUNDAY SCHOOL LESSON: MAY 28. Micah iv, 1-8: Micah's Picture of Universal Peace.

FOREWORD.

Micah lived at the time Isaiah did. The latter was a cultured, brilliant, original, highly connected man, who preached in the city. Micah was a talented man, not widely known, whose work was in the country. While Isaiah was thundering his message about the coming disaster, to the people of Jerusalem, Micah was telling the people of the southwest, down near the Philistine country, of the doom of those who grind the faces of the poor and live lives of license. Punishment was the only thing that would bring them to their senses. Social as well as individual righteousness was required. But after their chastisement they will have a new start. It is the note of hope following the funeral dirge. A great day is coming to the nation, to the city of Jerusalem, and to the world.

THE LESSON.

I.

God's Reinstatement. 1, 2.

"But in the latter days it shall come to pass, that the mountain of Jehovah's house shall be established on the top of the mountains, and it shall be exalted above the hills; and peoples shall flow unto it. And many nations shall go and say, Come ye, and let us go up to the mountain of Jehovah, and to the house of the God of Jacob; and He will teach us of His ways and we will walk in His paths. For out of Zion shall go forth the law, and the word of Jehovah from Jerusalem; and He will judge between many peoples, and will decide concerning strong nations afar off."

1. PRE-EMINENCE.—The day would come when Jehovah would again be reinstated in His own house and city. It was not merely the dream of a visionary, but the foresight of a seer, a prophet of God. The form in which it is expressed is picturesque. The hill on which the temple was built would again be crowned with a temple whose rightful occupant would dwell in it and lift the whole city to that inspiring level. That temple will exalt that hill above the hills round about. When that was to take place was "the latter days," which was partially fulfilled on the return from the Babylonian capitivity and fully so when Jesus said that He, Himself, was the true temple of God, the perfect earthly dwelling place of God, for in him all the fullness of the Godhead dwelt. He is to eclipse all other deities.

2. ATTRACTION. — Other nations would feel the fascination of this favored place and people, because of Jehovah's presence with them. They will come there to learn the secret of their wise and winsome life and they will undertake to be God's people, too —"walk in His paths," even as Asa and Hezekiah and other good kings "walked in the ways of the Lord." That is a favorite phrase among the Judeans today, who call the Christian life "the Jesus road." As the Jews exalted their God they drew heathen to themselves. Jesus declared He would draw all men toward Himself.

3. RULERSHIP.—From the sacred city an authoritative as well as an attractive power would be exerted on other people. The law of Moses had gone forth from Zion and that code is fundamental in the laws of the enlightened nations of today. He who said He came to fulfill that law has all authority in heaven and earth. He is coming to rule the world, for it is His right, as well as His purpose, to do so. Here the prophet must have seen the day of Christ.

II.

The Pacification of the People. 3-5.

"And they shall beat their swords into plowshares, and their spears into pruning hooks; nation shall not lift up sword against nation, neither shall they learn war any more. But they shall sit every man under his vine and under his fig-tree; and none shall make them afraid: for the mouth of Jehovah of hosts hath spoken it. For all the peoples walk everyone in the name of his God; and we will walk in the name of Jehovah our God for ever and ever."

1. PEACE.—More than half our taxes are on account of war. Millions of the best men are killed in war. It is universal peace which he forecasts, for if he was telling the truth, that condition is sure to come. We are certainly nearing that time now. It is sure to come because the dreamers have been dreaming of it—Isaiah, Micah, Jesus, Tennyson, Whittier and all the great souls whose hearts were pure enough to see God. It is sure to come, for God gave the seers that vision. It is not a destructive peace. The swords and spears will not be lost. Their instruments of war shall be transformed into implements of agriculture. After the Franco-Prussian War many cannon balls were molded into church bells. The war instincts can be enlisted against evils.

2. PROSPERITY.—It will follow peace as flowers come in the spring. Fear will give way. No attack of foes will be anticipated as the husbandman sits under the broad-leaved fig tree in his leisure hours.

3. SOURCE.—The source of this blessing is Jehovah filling His true temple, the human soul. The marvelous peace impulses of today have come from the same source, through Jesus. Chile and Argentina settled their war by melting their balls and making of them a statue of Christ which they placed on their boundary on the Andes, in one hand a cross, the other extended in benediction. The United States and England are trying to abolish war forever. The large number of people now under the sway of Christ has made peace sentiments pervasive.

III.

The Restoration. 6-8.

"In that day, saith Jehovah, will I assemble that which is lame, and I will gather that which is driven away, and that which I have afflicted; and I will make that which was lame a remnant, and that which was cast off a strong nation; and Jehovah will reign over them in Mount Zion from henceforth even for ever. And thou, O tower of the flock, the hill of the daughter of Zion, unto thee shall it come, yea, the former dominion shall come, the kingdom of the daughter of Jerusalem."

1. WANDERERS.—The prophet had just told them of a coming punishment, and now he inspires hope that they will return from captivity. The condition of the recreant is described in three words—lame, outcast and afflicted. That must all be rectified. God has a great work of reclamation going on. We are a sorry lot, lame, outcast, afflicted. Before men are right with each other, they must be right in themselves and return to God. The abolishment of war would not be worth much unless men were made so true that all kinds of social injustice would disappear. There will be nothing to hurt in all the holy hill when there is nothing hurtful in all their hearts.

2. ZION.—It was to be the rehabilitation of the holy place in the glory that had departed, since the days of David and Solomon; in fact, the glory was to be unsullied. This was partly fulfilled on the return under Nehemiah and Ezra; partly at the coming of Christ. Does it mean a future rebuilding of Jerusalem, or the rebuilding of man, the true temple of God?

WHAT THE MASTERS SAY.

The more highly scientific war engineering becomes, the more the game of war will be one that can be played only by the most scientific and enlightened nations. Less and less will war be the arbiter of nations, for the difficulties and the expense will become so prohibitive that war will no longer pay. The aerial navy will be a great bulwark of peace and a very great step toward the permanence of peace.—Henry Maxim.

It was those Hebrew prophet-dreamers who made the present growing moral conscience of the world possible. It was that gentle Dreamer of Nazareth who made what brotherhood of man we have today possible, not Pilate who laughed at "truth." It was that Swedish dreamer, Hugo Grotius, who made possible the new internationalism everywhere dawning. It was Immanuel Kant, with his dream in the little book, "Eternal Peace," that made possible the great peace movement, not the men who laughed, who would not even read it, who said, "Wars have always been and will always be." It was Tennyson dreaming of "The Parliament of Man, the Federation of the World," who foreshadowed The Hague Court. It was Charles Kingsley, dreaming of a new industrial order, in "Alton Locke," who started the movement against the sweating system and all economic injustice. It was the gentle Quaker mystic, Whittier, who began the demolition of denominationalism and sectarian barriers in the seamless robe of Christ's church, with his "Miriam" and "The Eternal Goodness"—impossible dreams then, realities now. Let us be careful how we laugh at the dreamer. The dreamer always wins in the end. It is the impossible that leads men on. Only great dreams stir the heart of man ultimately, because below all his seeming smallness he loves great things. For he is a child of God.—Lynch.

PERTINENT QUESTIONS.

1.—Why does it take God a long time to reach His ends?

2.—Why does a recognition of God come before any real blessing?

3.—What is lacking to make the church attractive?

4.—What are the best indications today, that universal peace is coming on?

5.—What does it mean to walk in God's name

6.—Is there any clear prophecy about the future condition of Jerusalem?

When the Cook Leaves

don't fret or scold—lay in a good supply of Shredded Wheat—the food that is ready-cooked, ready-to-serve—contains all the nutriment in the whole wheat grain, steam-cooked, shredded and baked a crisp, golden brown—a food that is good all the way through—tempting in its nutlike flavor—a delight to eat and to serve.

SHREDDED WHEAT BISCUIT

is without doubt the most perfectly balanced, most easily digested food ever given to man. It is not flavored or compounded with anything—not a "patent-medicine" food—not a "pre-digested" food—just plain, simple, wholesome, steam-cooked whole wheat, shredded and baked. It is better than mushy porridges because you have to chew it, thereby getting from it all its rich, body-building nutriment.

Try it for breakfast with milk or cream (hot milk in Winter). Being in biscuit form it is easy to prepare a nourishing meal with it in a few minutes in combination with fresh or stewed fruits. Always heat the biscuit in oven to restore crispness before serving. Two Biscuits with milk or cream and a little fruit make a complete nourishing meal. Your grocer sells it.

THE ONLY CEREAL BREAKFAST FOOD MADE IN BISCUIT FORM

BREAK IN STEEL RANKS MAY COME

Republic Company Issues Statement That May Mean Price Cut.

New York, May 25.—Developments in the steel and iron trade point to a rupture between at least one of the so-called "independent" companies—the Republic Iron & Steel Co., in which John W. Gates is a factor—and the United States Steel corporation.

The Republic company issued a statement saying in effect that because of general trade conditions, it had decided to embark on a more "aggressive sales policy." This was interpreted in many quarters as meaning that it intends to cut prices, beginning with steel bars.

The statement of John A. Topping of the Republic company was shown to Judge Gary, who was presiding over a meeting of the American Iron & Steel institute. After consulting with members, many of whom are independent manufacturers, Judge Gary issued the following statement:

"I have seen the statement published by John A. Topping, chairman of the Republic Iron & Steel board, and have consulted with a number of prominent and representative men connected with the steel industry. Just what the outcome will be I cannot say at this time, I believe, however, that friendly and co-operative relations, which have existed heretofore, will be continued by steel interests generally. Our principles and policies have heretofore been stated and published. I cannot be more specific for the present."

Chairman Gary left later for Chicago.

Foley's Kidney Remedy Acted Quickly.

M. N. George, Irondale, Ala., was bothered with kidney trouble for many years. "I was persuaded to try Foley's Kidney Remedy, and before taking it three days I could feel its beneficial effects. The pain left my back, my kidney action cleared up, and I am so much better I do not hesitate to recommend Foley Kidney Remedy." For sale by all druggists.

MACVEAGH FAVORS THE ALDRICH PLAN

Secretary of the Treasury Talks to Bankers at Kansas City.

Kansas City, Mo., May 25.—Approximately 1,000 Missouri and Kansas bankers who are holding their annual conventions here and in Kansas City, Kan., respectively, met in joint session at convention hall last night to hear Secretary of the Treasury MacVeagh and others speak. Among those who addressed the meeting were David R. Francis, former governor of Missouri; W. J. Bailey, former governor of Kansas, and F. O. Watts of Nashville, Tenn., president of the American Bankers' association.

Secretary MacVeagh indorsed the plan for monetary reform proposed by Senator Aldrich and made a plea for all bankers to support it in a public spirited, non-partisan way.

While he paid a high tribute to Mr. Aldrich as a monetary reformer, Secretary MacVeagh was frank in saying he did not agree with the tariff views of the former senator from Rhode Island, and added that he thought Mr. Aldrich himself might have changed his opinions some.

SOUTH DAKOTA MEN MUST GIVE UP LAND.

Washington, May 25.—Immediate ejectment of a large number of squatters on the new government townsite of Newell, S. D., is being planned by the interior department.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company of New York put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Special agent, Max Wirth, 13 West Superior street.

MORSE AND WALSH GET NO PARDON FROM PRESIDENT

Bankers' Pleas for Executive Clemency Are Not Granted.

Taft Makes Statement Comparing Guilt of the Two.

Washington, May 25.—President Taft has denied the applications for the pardon of Charles W. Morse of New York and John R. Walsh of Chicago, the two most prominent bankers ever convicted and sent to federal prisons under the national banking laws.

Not only does the president refuse to pardon either Morse or Walsh, but he also declines at this time to exercise any sort of executive clemency in these cases, so to shorten the sentences imposed upon the two men by the courts in which they were convicted.

In denying the pardons, the president took the stand that the national banking laws or any other laws must be upheld when they affect the rich man even more than when they affect the poor. The record in the Walsh case, the president said in a long opinion, "shows moral turpitude of that insidious and dangerous kind, to punish which the national banking laws were especially enacted."

Morse More at Fault.

In considering the case of Morse, the president said that "from a consideration of the facts in each case, I have no doubt that Morse should have received a heavier sentence than Walsh. Indeed, the methods taken by Morse tend to show that, more keenly than Walsh, did he realize the evil of what he was doing."

In his opinion in the Walsh case, the president protested against the failure to discriminate between legitimate business and improper gain.

"The truth is," he said, "that in the mad ruch for wealth in the last few decades, the lines between profit from legitimate business and improper gain from undue use of trust control over other people's property and money has sometimes been dimmed, and the interest of society requires that, whenever opportunity offers, those charged with the enforcement of the law should emphasize the distinction between honest business and dishonest breaches of trust."

Walsh May Be Paroled.

The president's denial of the pardon applications of Morse and Walsh does not mean that they may stay in prison until the end of their terms. Walsh began a sentence of five years in the Leavenworth penitentiary in January, 1910, and under the federal parole law is eligible for parole next September, the president's action having no bearing whatever upon future application for parole.

Morse began his fifteen-year term in the Atlanta penitentiary in January, 1910 also. In denying his application, the president granted leave to renew it after Jan. 1, 1913. Under the parole law Morse would be eligible for release in 1915.

Both Morse and Walsh made strong efforts to have the president exercise clemency. He was besieged by friends and attorneys of both men. Mrs. Morse got up a monster petition which was signed by scores of members of congress and other prominent persons, and Former Senator Hale of Maine did much in her behalf. The pleas of ill health and reimbursement of all depositors in the Morse and Walsh banks were made in both cases.

Both applications were scanned closely at the department of justice by Attorney General Wickersham and his assistants, and both were read with care by the president himself. His action is in accord with the recommendation of Mr. Wickersham.

Reported in Ill Health.

Leavenworth, Kan., May 25.—John R. Walsh arrived at the prison at noon Jan. 19, 1910. He was made an assistant in the record clerk's office and put to filing up clippings regarding prisoners received and discharged from the prison. With the exception of a few days when he was ill, he regularly performed his duties.

During the sixteen months of his imprisonment, rumors in regard to Walsh's poor health have been in circulation periodically. Generally these reports were denied by the warden and the prison physician. Mr. Walsh will not be told that his pardon has been refused until official information is received by the warden.

No Comment By Family.

Chicago, May 25.—R. W. Walsh, son of the former banker whose pardon the president has refused, said that while his father was ineligible for parole at present, steps would be taken to enable him to seek a parole in September.

In addition to R. W. Walsh, Mrs. John R. Walsh and three daughters reside in Chicago. None would make any comment on President Taft's refusal to grant a pardon.

MOVING PICTURES OF STUMP BLOWING.

The members of the Northern Minnesota Development association will see stumps blown out of the ground without hearing the noise. The Du Pont de Nemours Powder company will exhibit a film 1,000 feet long which will show how Northern Minnesota land is cleared.

Prof. A. R. Whitson, soil expert of the University of Wisconsin, will talk on "Conserving Soil Fertility."

Secretary Mackenzie in reserving quarters for delegates. He said a large attendance is assured.

The Third regiment band will play at the Armory where the convention will be held and on the boat which will carry the delegates about the harbor.

JAMES D. ELLIOTT TO BE FEDERAL JUDGE.

Washington, May 25.—President Taft has announced the appointment of James D. Elliott of Aberdeen, S. D., as district judge for the South Dakota district.

HEALTHY MOTHERS

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

Ali Ben Abi Taleb.

THE BROOKS-SCANLON ROAD.

At 10 o'clock tomorrow morning, at the Spalding hotel, the Minnesota railroad and warehouse commission will hear the application of the Brooks-Scanlon Lumber company for permission to abandon its railroad from Scanlon northeast through the farming country tributary to Duluth. The owners of the road built it for a logging road. They are through logging, so they are through railroading and wish to abandon the line, tear up and sell its rails, and let the right of way grow up to wild raspberry bushes.

It is of vital importance to Duluth that this railroad be not abandoned. Though its owners have no further use for it, and perhaps should not be compelled to operate it in the circumstances, plans are on foot under the direction of the Duluth Commercial club to take it over and operate it so that it may be a means of developing the surrounding agricultural resources and of supplying Duluth with the food that ought to be grown on nearby soil. For these purposes it is admirably situated. In fact if it had been laid out for that purpose its right of way wouldn't have been located far away from where it now is. Men of money and public spirit have been interested in the plan, and it is in a fair way to be worked out successfully.

In these circumstances it is unthinkable that the railroad and warehouse commission will permit the road to be scrapped. At least it should delay action long enough to give the local plans a fair chance to be worked out.

As to this, no doubt much depends on the interest shown in the matter by local citizens. This is a thing that vitally concerns every person. Every citizen who can do so should be at tomorrow's meeting to enter a protest, by voice or presence, against the abandonment of the road. If only a few appear, that fact cannot fail to have its influence on the minds of the members of the commission.

RECIPROCITY'S STRANGE BED FELLOWS.

Governor Woodrow Wilson of New Jersey, friend of the people, militant enemy of Special Privilege and incidentally the most conspicous Democrat in the country today, said in Minneapolis yesterday that he was heartily in favor of the Canadian reciprocity treaty, and that it must stand or fall as a whole.

Which shows again how little partisan politics there is in tariff sentiment. Governor Wilson approves the treaty, though it came from a Republican president, because it is a beginning of tariff readjustment. For the same reason he approves the "farmers' free list bill" passed by the Democratic house.

Truly, reciprocity has made strange bed fellows. Taft, Wilson, the Democratic house, honest tariff revisionists among the Republicans, all favor it. The remnants of the Republican old guard in congress, most of the so-called "insurgent" Republicans, the Aldrich Democrats, the lumber trust, the paper trust and the representatives of specially privileged tariff beneficiaries all oppose it. Farm journals, lately crying loudly for tariff revision, are fighting reciprocity and publishing matter furnished by the American Protective Tariff league, long the special advocate of tariff greed.

It is a little confusing, perhaps, but still the ordinary citizen shouldn't have much trouble determining where he should align himself.

AS TO "OLD MEN."

A few years ago Dr. Osler, probably on his merits the foremost and most famous of American physicians, aroused a storm by saying that not much could be expected of any man after he had passed his fortieth year. He didn't put it so strongly as he was quoted. He was quoted as saying that a man ought to be chloroformed at sixty, but he has been able to prove that he said nothing of the sort.

Nevertheless, his statement was bald enough, in all conscience, and undoubtedly it stung many a man in the forties, fifties and sixties who had seen no reason to believe that he wasn't capable of as good work as he ever did in his life, and of better work because of his longer experience. Also, the cold comfort thus given to men of more than forty raised an issue that is not yet quiet.

Better comfort for such men comes from a Mr. Thistlethwaite, physical director of Earlham college, who was lately quoted as saying that man's greatest efficiency is between twenty and sixty, and that "of that forty years the last twenty are several times more valuable than the first twenty." The assertion that man's best years are between forty and sixty is a flat contradiction of Dr. Osler's theory; yet who can look about him and fail to agree that famous though he is, Dr. Osler is wrong? Great successes in any line—except athletics—are very rare under forty. Most of the time up to that age a man is—or ought to be—learning. He shouldn't cease to learn when he is forty, of course; but very few men really learn the vital essentials much before that age. They do not, in point of fact, even learn to know themselves much earlier. The average man at forty has just about learned what his physical being will stand. He has just about learned his mental aptitudes and his mental limitations. Certainly he cannot have long been thoroughly grounded in his trade or business or profession.

Doubtless when growth ceases the mind as well as the body tends to lose elasticity; but as to that much depends upon the use made of mind and body. The value of experience cannot be underestimated, and there is but one way in which any man can get that necessary capital: by living long enough to get it.

Dr. Osler's theory is, in point of fact, decidedly mischievous. About the best way to make a man cease growing and begin to run down hill is to make him believe that he has ceased growing and begun running down hill. The average man would much better listen to Mr. Thistlethwaite than to Dr. Osler.

In the realization of this fact, there has been incorporated in Illinois the Anti-Forty-five-Year Age Limit League, Educational and Social, and one of its founders thus expresses its purpose: "We hope to nip in the bud this idea that men are in any way incapacitated at such a trivial age as forty-five. You know the imaginations of people are wonderful things, and if you just tell them often enough that a man's no good after he reaches forty-five, they'll get to believe it pretty soon." This league is out to combat that idea, and its purpose is good.

Age is only a relative thing, anyway. Some men are old at forty, others are still young at sixty. To the lad of twenty-five, forty-five looks ripe maturity. To the lad of twenty-five, forty-five looks aged. But the man of fifty can't see but that fifty is a pretty youthful stage; and here's hoping he will keep thinking so and acting so.

PROGRESS.

It pays, once in a while, to pause for a moment and take account of progress. In the current of it you don't notice how great is its speed, and an inventory of the people's gains in the last few years will give encouragement to new efforts toward the achievement of real democracy—real rule by and for the people.

It is only a few years since the direct primary was an experiment and an innovation, scoffed at by those in power and scarcely interesting the average voter. Now more than half the states—twenty-nine, to be exact—have it in one form or another. These states are Alabama, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Iowa, Kansas, Kentucky, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, North Carolina, North Dakota, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Virginia, Washington, Wisconsin.

Not so many years ago the initiative and the referendum were playthings of Populism, little feared by those who occupied the seats of the mighty because the conservative people of the country showed little inclination to take them up. Now eight states have adopted them—Arkansas, Colorado, Maine, Missouri, Montana, Oregon, Oklahoma and South Dakota. Other states are on the verge of adopting them. Minnesota would have them by this time if they had reached a vote in the legislature at its last session and it will have them soon. Besides these eight states, four others have submitted constitutional amendments, to be voted upon by the people at the next election, authorizing the initiative and the referendum. These states are California, Nebraska, Washington and Wisconsin.

The Oregon plan of direct election of United States senators has been adopted in seven states: California, Minnesota, Nebraska, Nevada, Ohio, Oregon and Wisconsin. Meanwhile an amendment to the Federal Constitution providing for the direct election of senators is close to a vote in the United States senate, and it is likely to be submitted to the states for ratification very soon. It will be ratified very promptly, and thus will be swept away an ancient source of corruption and treachery.

In four states—New Jersey, Nebraska, Oregon and Wisconsin — the people have a right to express their choice for president at the primaries.

The recall has thus far been adopted only in Oklahoma, but it has been submitted to the people in California and Washington, and it prevails in city government wherever the commission plan has been adopted.

The direct primaries, the direct election of senators, the initiative, the referendum and the recall—these are tools of real democracy. They put the power in a people's government into the hands of the people, where it belongs. They have forced the abdiction of the boss and they have destroyed the cunning machinery the boss had built up to perpetuate his power. The packed caucus, the controlled convention, the yellow dog party ticket—these were the tools of the boss, and the boss went out of business when they did.

Real progress has been made, and more progress is in sight.

SEEING IS BELIEVING.

Between 600 and 700 citizens took in the Commercial club excursion to the steel plant at Spirit Lake yesterday. Probably not 10 per cent of these men had visited the steel plant site before during the work of construction. Probably there was a very large percentage that never had even been in that part of the city before. The remarks that were heard proved these facts.

The trip was a revelation to all these men. It is very probable that everybody who took it had to revise his ideas of the steel plant, no matter on how large a scale his imagination had pictured it. Brobdingnagian monoliths of concrete, scattered over an area large enough to accommodate a thriving village, stimulated the imagination to picture what the plant will look like when it is completed and the superstructures at which these foundations hint are erected. To those used only to manufacturing plants of ordinary scope, the effect is somewhat staggering.

Maybe there were skeptics among those who boarded the excursion train of six packed coaches which carried the party to the steel plant. If there were, there were no skeptics among those who stepped off the train on its return. Instead, there was an army of citizens embued with new ideas of immensity of this new industry which has come to Minnesota, and with a new conception of the future that is opening up for Duluth.

The Commercial club has conceived nothing of more benefit to the city than the series of excursions to local industries, of which yesterday's amazingly interesting trip was the fifth. The citizenship of Duluth wants to "boost," wants to work for a greater Duluth, wants to contribute whatever lies in its power to the realization of Duluth's enormous possibilities, and it can't do these things unless it knows what there is in Duluth to talk about. The "Seeing Duluth" excursions are teaching just that, and they have given all who participated in them new conceptions not only of Duluth's future, but of Duluth's present.

REGULATING NEWSPAPERS.

President Delano of the Wabash railroad wants the newspapers regulated, just as the newspapers are demanding that the railroads and big industries be regulated. Others who might like to have the newspapers properly regulated are as follows: Aldrich, Cannon, Morgan, Rockefeller, the sugar trust, the oil trust, the lumber trust, the paper trust, the beef trust, the specially privileged everywhere and all criminals, large and small.

BAILEY AND GALLINGER

By SAVOYARD.

A good story is told in connection with the spectacular resignation of his senatorship by the Hon. Joseph W. Bailey. When it was writ, one old woman of a senator was sitting on his right hand and another old woman of a senator was on his left, both expostulating and beseeching that he tarry a little longer with them to the confusion of the reprobate and the edification of the elect. After the momentous paper was concluded the great man turned to pacify the old woman on one side and the old woman on the other side swiped the document and hid it in his bosom. When old woman No. 1 was confounded by the arguments of Ulysses it was discovered that the resignation was missing and there was more or less confab about it, but the paper was not produced. In tones sonorous and resonant the great man observed: "There is other paper." And there was.

Again the fatal writing was penned and sent off, whereupon another old woman senator bolted for the telegraph office in the patriotic endeavor to suppress it. They say you could dance a jig on his coattails as he fairly flew to execute his devout mission, the success of which he hoped would put him in the class of the fellow who leaped into the yawning chasm that opened in the Roman Forum. But alas, he was too late—the fatal missive was then in the goodly town of Austin, in far-away Texas.

* * *

Now to come to the meat of the story. As soon as it was common knowledge that the resignation was dispatched a paper was circulated for the signatures of senators volunteering advice to the governor of Texas, touching his executive duties in the premises. Some senators signed it; others refused.

But they say one particular senator, to whom Mr. Bailey had rendered valuable service, got wind of the affair and sloped to avoid invitation to sign the remonstrance. He sought the supreme court library, where he hid himself away in a corner and did not emerge until the thing blew over, all of which would argue that the American people sometimes make United States senators of rather common clay. This man has no more backbone than a fishing worm. If every senator had voted as he wished, instead of forty-six votes for Lorimer, there would have been fifty-six at least, which is a sign of health in that it discovers that public opinion has some weight in the senate after all.

* * *

When the "Thirty Years' War" began the Protestants of Germany were divided into two camps—the Lutherans and the Calvinists—and their mutual hatreds of each other were more intense than the bitterest animosity either had for their adversaries, the Catholics. Had they been united it is likely the war would have been terminated in three years, or less time, and the world might not have heard that Gustavus Adolophus was a hero and Wallenstein a consummate general. There is something like that situation in the United States senate between the regulars and the insurgents as shown in the ballotings for president pro tempore. So far as I know there is no precedent for the present condition, and if Mr. Gallinger shall be defeated it will be the first time the dominant party in the senate failed to elect its first choice for that distinguished honor. It is a mistake to say that there is no responsibility attaching to the place. It will be remembered that the chair appointed the committee that whitewashed Lorimer. In the absence of Mr. Sherman the president pro tempore would be called on to name select committees and the insurgents have no sort of faith in Mr. Gallinger as the maker of committees and they have good reason.

* * *

Gallinger loves to solonize, and the United States senate never had a member who was better satisfied with himself than he. An arch-mediocrity, prostrate on the dead level of the commonplace, Jacob M. Gallinger is serious in the belief that he is the first statesman now living and the equal of any statesman who ever lived. Some twenty years ago he and Carl Schurz had a controversy in the Boston newspapers that might be named as a pamphlet war between a giant and a pygmy. Schurz played with him as a cat with a mouse. Now, he would smash him as with a bludgeon, then he would carve him as Brutus suggested they should murder Caesar, and all the time Gallinger was blissful in the vanity that he ate his adversary up blood raw. Schurz discovered that thought in his man and he humored it in one letter that would have brought a roar of irresistible laughter from a convocation of solemn owls. I have always had an admiration for Gallinger ever since I read that controversy. Running the bases on the green diamond, his constant cry would be, "Never toch me!" even when out by a mile.

* * *

Gallinger had in charge the ship subsidy monstrosity and it died on his hands. Nobody will ever forget the time the late E. W. Carmack laughed it out of the senate. That was the nearest it ever came to enactment; but the speeches Gallinger made for it and the papers he wrote about it would fill a library. He is a Canadian by birth and patriotic to a degree. Charles James Fox declared that it was impossible for any man to be as wise as Lord Thurlow looked. I say it is impossible for any man to be as patriotic as Gallinger says he is. Not half as able a man as his former colleague, Bill Chandler, he got to the senate over the protest of Chandler and remains there long after the Boston & Maine railroad whirled Chandler out.

His industry is marvelous, and we must admire him for that. He has a flow of commonplace words that he can turn on in the senate on the slightest provocation and to which there is seemingly no end. He is the real ruler of this town and a few weeks ago some of our big rich men gave him a dinner that was the wonder of a week.

* * *

And yet in some respects Washington is the worst governed city in America. The public utilities are full of water, gorged with it, and they are perfectly content with the Hon. Gallinger for chairman of the senate committee of the District of Columbia. There will likely be an airing of these before this congress expires, and as the District belongs to the whole people the story will be interesting reading from one end of the country to the other.

This town, more than any other in America, is cursed with the "loan shark." His regular rate of interest is 10 per cent a month and his victims are numbered by the thousand. And it is to the eternal shame of the American congress that this vermin was not extirpated long, long ago. And what is more, if the campaigns both the committees of the District of Columbia make against them had not been sham fights they would have gone long ago.

They say Cabot Lodge can be elected president pro tempore of the senate. That would be better—infinitely better.

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest. Letters should not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.)

THAT STREET CAR EXTENSION.

To the Editor of The Herald:

I have noticed that the newspapers have been stating that the proposed street car extension in the Second ward will start at Fifth avenue east and Fourth street, running up Fifth avenue east to Fifth street, on Fifth street to Sixth avenue east and on Sixth avenue east to Seventh street. My understanding was that the mayor and the board of public works, who went over the route some time ago, would insist that the tracks be laid up Sixth avenue east from Fourth street. Fifth avenue east is too narrow for a double set of tracks, and I am informed that the engineer has stated that a 7 per cent grade, or very slightly higher, can be secured on Sixth avenue east between Fourth and Seventh streets. It is said that the company will insist upon going up the former route with double tracks on Fifth avenue. This would spoil the avenue and make it impossible for a team to stop on either side to unload or take on goods. If I am not mistaken the city can limit the company to a single track on Fifth avenue east, which would be all that is necessary for several years at least, and I believe that it should be done.

J. H. C.

Duluth, May 24.

LAKESIDE AND ITS CAR SERVICE

To the Editor of The Herald:

Why strain at gnat and swallow a camel?

The Lakeside club has made quite a fuss over the billboards in Lester park, and rightfully so, but a far greater problem presents itself. Why do not the Lakeside club members insist on adequate street car service. Anybody who lives in Lakeside knows how absolutely inadequate the service is, especially in rush hours. The suburb is building up very rapidly, but the street car service is not keeping pace with it.

Tearing down billboards is good work, all right, but getting enough cars to carry all the people home at night is much more pressing. If we grow much larger out here, some of us will have to quit going down town each day, or else walk.

A LAKESIDER.

Duluth, May 24.

An Authority for Farmers.

Marshall News-Messenger: Minnesota has been heard in Washington as against the Canadian reciprocity agreement, in the alleged interests of the farmers, and through the voicing of an alleged delegation of farmers composed of lawyers, bankers, politicians and agricultural editors who advertise trust goods. But Ex-Governor Hoard of Wisconsin, who through a life-time has been the representative of the farmers, whose reputation as the editor of Hoard's Dairyman is nation-wide among the best agricultural interests, gives a ringing response to the efforts of the anti-pact advocates in the following editorial:

"If there ever was a political humbug, thin and gauzy, so thin that a blind man ought to see through it, it is this opposition to reciprocity with Canada, started by La Follette, Lenroot & Co., in behalf of the farmer, so they say. Look at it. Lenroot goes into spasms and the veins of La Follette's neck swell with simulated distress over the danger to us as farmers of being flooded with Canadian farm products. They are afraid of Canadian potatoes and eggs, when potatoes have been higher all winter in Canada than in the United States and eggs have been shipped in carload lots all winter to Toronto and other Canadian cities for the United States.

"These insurgent and standpat political hypocrites who are opposing Taft in this reciprocity matter, know better. What they are after is to break down Taft, and the Yankee farmer is foolish enough in many cases to turn in and help them do it. 'If the farmer knows when he is well off he will stand by Taft and the Canadian reciprocity treaty.'"

AFTER DIAZ, WHAT?

San Francisco Star: That which was anticipated has come to pass: Porfirio Diaz, dispatches relate, has resigned the presidency of Mexico, and within a few days he will have passed from high office forever.

It has been an amazing revelation, this which the "Mexican war" has laid bare before the peoples of the world. We had so long believed that he was the potent and virile ruler of an inferior and conglomerate nation that we were not prepared for the all but grotesque weakness which he has displayed. Confronting him and the organized power of Mexico were only a few widely scattered bands of ragged and half-starved marauders. It was so pigmy a handful of ragamuffins that it was evident that three or four regiments of efficient soldiers should have been able to annihilate it; yet the task proved too much for Diaz. In the presence of these vagrants' grotesque might the skeleton of his power crumbled to dust. A phantom masquerading as reality, a single breath of opposition was sufficient to return it to the land of specters. This is the marvel of the situation, that such semblance of force could have been assumed by a thing so unreal.

Whoever now may become the nominal president of Mexico, it should be evident enough that Francisco I. Madero will be the real power behind the chair of state, and the question naturally arises whether he will give Mexico a better government than it has known under Diaz. It is clear that the past condition has been far from good, but will Madero improve it?

In attempting to answer this question, it must be borne in mind that it will be far from easy to govern Mexico well; indeed, it would not be strange did it prove an impossibility. There is a government which nominally is like our own, a government of the people, by the people and for the people, and if we are none too well equipped in intellect, education and knowledge for so mighty a task as that of self-government, what should be said of the Mexicans? A mongrel people in whose veins is combined the blood of proud but decadent cavaliers and that of the scarcely less decadent descendants of Montezuma; illiterate, unthinking, content forever to dwell in the hazy Land of Manana—good came out of Nazareth, but how could the virtue of self-governing power be expected to exist in such a nation?

Francisco I. Madero and his advisers have their work cut out for them. If he proves a tyrant, wherein would a Madero tyrant prove better than a Diaz despot? If he heads no despotism, how can it be expected that an ignorant, illiterate people will govern themselves wisely and well? If he does not fail in such an undertaking he will demonstrate his right to be classed among the mighty men of the earth.

The Simplicity of English.

London Answers: Do you know how many words in the English language mean "crowd?"

To a foreigner, anxious to master the language, it was explained that a crowd of ships is termed a fleet, while a fleet of sheep is called a flock. Further, a flock of girls is called a bevy, a bevy of wolves is called a pack, and a pack of thieves is called a gang, and a gang of angels is called a host, and a host of porpoises is called a shoal, and a shoal of buffaloes is called a herd, and a herd of children is called a troop, and a troop of partridges is called a covey, and a covey of beauties is called a galaxy, and a galaxy of ruffians is called a horde, and a horde of rubbish is called a heap, and a heap of oxen is called a drove, and a drove of blackguards is called a mob, and mob of whales is called a school, and a school of worshipers is called a congregation, and a congregation of engineers is called a corps, and a corps of robbers is called a band, and a band of bees is called a swarm, and a swarm of people is called a crowd.

TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1891.

•••Col. A. L. Murphy of Philadelphia arrived in Duluth yesterday to confer with Mr. Matthews regarding the proposed reorganization of the Minnesota Iron Car company. If the reorganization goes through, Col. Murphy will probably be the manager of the new company.

•••Edward Lorange and wife of Philadelphia have arrived at West Duluth. Mr. Lorange will open a cigar manufactory in the Hoyt building on Fourth street north.

•••Mrs. S. T. Moles of West Duluth has left for an extended visit to friends in the East.

•••Frank Zeller leaves tonight on a trip to New York.

•••J. R. Meyers, a flour miller, will build a custom mill, about fifty barrels daily capacity, at Barnum, down the St. Paul & Duluth railway, and expects to begin grinding this fall.

•••The death is announced of Mrs. Annie E. Mead, wife of A. A. Mead of St. Paul. She was a daughter of E. F. Ely, the pioneer preacher of the Minnesota side of the Head of the Lakes, whom all the oldest residents of Duluth and Oneota will remember.

•••The University Gopher, the annual publication of the students of the University of Minnesota, has a brief biography of Judge O. P. Stearns of Duluth, one of the regents of the university. There are also sketches of the lives of Gen. H. H. Sibley and Gen. Gordon E. Cole, ex-regents.

•••Myers & Whipple have taken up their abode in their new quarters under the First National bank.

•••Charles Nichols of Garfield avenue exhibits the skin of a lynx, which he killed at his claim near Cloquet a few days ago. The animal was a very large one and will be stuffed and mounted.

•••Elmer Cavrier, late circulation manager of the Tribune, is to return to his old love, the real estate business.

•••Fielder B. Chew has returned from a trip to Washington on land office business.

•••Joseph Lanigan was pleasantly surprised by a number of his young friends last evening at his residence on West Third street.

•••John H. Noyes, Wright C. Dunning, Miss Gilbert, George Davis and Miss McLeran comprised a party who enjoyed Cleveland's minstrels at West Superior last evening.

•••The sheriff has foreclosed on the stock of A. H. Brown, who recently bought the news and notion store of William Buckley at 526 West Superior street.

THREE-CENT FARES.

Will Make Nothing By It.

Sauk Center World: It is now announced that the Great Northern, Northern Pacific and the Minneapolis & St. Louis roads will restore the 3-cent a mile passenger rate July 1. They'll make no money by it and will, in time, find that they cannot bulldoze the public by any such proceeding. The fact is that the mail contracts and the express business pay all the running expenses of the average railroad, so that all that is taken for passenger fares is "velvet." There's no use of the roads playing hog in this matter; it will only hurt them in the long run.

The Railroad Motto.

Princeton Union: Formal action has been taken by five Minnesota railroads, including the Great Northern, looking to the restoration of the 3-cent passenger fare on July 1, and tomorrow, May 19, is fixed as the time for hearing the petitions in the federal circuit court, St. Paul. A big protest will go up from the public when the fare is raised to its former standard,—which it doubtless will be,—but the railroad corporations possess no souls and their motto is, "The public be d—."

A Bitter Dose.

Sandstone Courier: It is announced that after July 1 all will again be paying 3 cents per mile for riding on the railroads, although several roads are opposed to the change. If the roads do raise the rate, the receipts will undoubtedly fall far below what they are now receiving. It is one thing to reduce the fare 1 cent, but it is quite another to raise it back again. People are now accustomed to the cheaper rate and don't want any of this Sanbornism.

Trouble for Railroad Lawmakers.

St. Peter Herald: In the campaign of 1912 the records of legislative candidates will be closely scrutinized, and the man with railroad sympathies will have difficulties confronting him.

What Are You Going to Do?

Campbell News: It will be a waste of time and money for the state of Minnesota to appeal from the Sanborn decision to the United States supreme court. No redress nor satisfaction can be obtained from that seat of the mighty deciding always in favor of the mighty. The traveling public will soon be paying 3 cents a mile with Jim Hill and other big railway magnates sticking their tongues in the sides of their cheeks and asking, in effect, "What are you going to do about it?" Well, the people of Minnesota are merely getting what they voted for, which is another way of saying they got just what they wanted.

The Solution.

Mora Times: The drift of the times is toward public ownership of railroads. If the United States supreme court sustains Judge Sanborn, who by his recent decision, practically takes away all the powers of the state railroad commissions to regulate rates, it will leave the states at the mercy of the railroads. The right to reasonably control rates being taken away from the people they will demand that the government own and operate the roads.

Missing.

Albert Lea Standard: Governor Johnson compelled the railroads to give us 2-cent fare, and now a pliant federal judge enables them to lift it again to 3 cents. Where was Eberhart when the lights went out?

Will Lead to Trouble.

Morris Sun: It is likely that the higher rate will be restored for a time at least, but if it is continued by the roads indefinitely, now that it has demonstrated that a 2-cent rate offers a fair return to the roads, it will lead to trouble for the roads in the future.

A MOMENT WITH THE WITS.

Schenectady Union: By the latest device you can drop a coin in the slot and start a fire in the house. The machine will not be perfect until you can drop a nickel and fire the cook.

Life: Teacher—Can any little girl tell me why our heads are covered with hair?

Little girl—To have something to pin more hair to.

Philadelphia Record: Blobbs—When the mountain wouldn't come to Mahomet, what did he do?

Slobbs—I suppose he went to the seashore.

Illustrated Bits: She—Bridge spoils conversation.

He—Only temporarily. You ought to hear the remarks it inspires after the game breaks up.

Detroit Free Press: "Is he a capable man?"

"I should say he is! He can hang pictures to his wife's entire satisfaction."

Cleveland Plain Dealer: "You know Mrs. Van Gilder's family portrait gallery that she started last year?"

"Yes."

"Well, that great criminal detective officer who guarded the wedding presents when Frostie Van Gilder married the oldest De Graft boy told me that he recognized seven of the portraits, and they had all done time—whatever that means."

Pointed Paragraphs.

Chicago News: No, Cordelia, not all pill dispensers are pillagers.

Probably the supreme human achievement is self-mastery.

Silence is often the strongest protest that can be offered.

Sober second thought may not show up until the morning after.

Tell a girl she is beautiful and it will be no news to her if she really is.

A man may induce a woman to keep a secret by not sharing it with her.

It's impossible for a young man to surprise a girl by kissing her. She always expects it.

Womankind is divided into two classes—those who are married and those who want to be.

It is not difficult for a girl to love almost any wrong man that her parents are willing to object to.

After a girl is married it seems to be up to the neighbors to let out remarks to the effect that she didn't marry the man of her choice.

Reflections of a Bachelor.

New York Press: There's nothing that can leak like a pocketbook.

To a woman money means indulgence of her child; to a man, of himself.

The more trips a girl goes on the more she expects to have lots of romances with princes.

Some men are so mean they can worry about how much their funeral will cost them some day.

The later a man gets home at night, the earlier he'd better have his excuses ready the next morning.

Like One of the People.

Kansas City Times: Politically, Woodrow Wilson is the heir of Grover Cleveland and Theodore Roosevelt. His Los Angeles speech was as full of meat as a tariff message of Cleveland or a square deal speech of Roosevelt. Also it was as incomprehensible to organization politicians as the utterances of either of the New Jersey governor's presidential "ancestors."

Declaring that party lines are obscured, Governor Wilson struck hard for tariff honesty, the shot ballot, commission government of cities and for direct popular control of representative government. There was not a "dodge" or a platitude in the speech.

The people talk with that perfect candor to themselves. It isn't hard to understand why they like Woodrow Wilson.

AMUSEMENTS.

LYCEUM | 3 Nights and Sat. Matinee.

COMMITTEES ARE AT WORK

Neither House of Congress Will Take Vote Before June.

Heyburn Denounces Borah's Direct Election Resolution.

Washington, May 25.—The caucus of Democratic members of the house to consider the revised wool tariff schedule to be submitted by the majority of the ways and means committee has been called to be held in the hall of representatives Thursday, June 1.

The call was issued by Representative Burleson of Texas, chairman of the party caucus. Several vacancies on public committees, caused by resignations since the approval of the ways and means committee selections at the opening of congress may be considered.

Between now and the first week in June no business will be transacted by the house. Nothing of importance is before the house and nothing will be ready until that caucus has passed upon the wool bill.

Duty on Raw Wool.

That raw wool will not be placed on the free list there seems to be no doubt. The tentative draft of the bill will place an ad-valorem duty on the product, probably about five cents a pound, which is a cut of 60 per cent from the present duty. Manufactured woolens will be cut from 30 to 60 per cent.

The special committee to investigate the "Steel trust" is particularly desirous of obtaining access to the report of Herbert Knox Smith, commissioner of the bureau of corporations, concerning the United States Steel corporation. It summoned before it in executive session today Secretary Nagel of the department of commerce and labor to inquire into that report.

Attorney General Wickersham will also appear before the committee within a few days to answer questions relating to the investigation into the "Steel trust" conducted by the department of justice.

Asked About Creosote.

Assistant Secretary of the Treasury Curtis was summoned before the committee on expenditures in the treasury today to testify regarding his order to customs collectors to admit creosote imports free of duty.

Senator Borah of Idaho, author of the resolution providing for the direct election of senators, which is now the unfinished business of the senate, announced on the floor of that body yesterday that after today he would press the consideration of the resolution to its conclusion.

This announcement came after Senator Borah had been constrained to withdraw the motion that the senate meet at noon today instead of at 2 o'clock, the time fixed some time ago, and after Senator Stone of Missouri had complained that the finance, census and privilege and elections committees had bills before them which were being delayed and should be reported out for the senate's consideration.

Heyburn Sad Prophet.

Senator Heyburn of Idaho predicted dire consequences which might befall the country if the direct election amendment to the Constitution were made in the form and manner provided for in the Borah resolution. He decried this as a "day of changes," when people were clamoring for changes of all sorts, "even of the Ten Commandments."

He feared the day might come when the people would call a Constitutional convention which would rewrite the entire Constitution of the United States. He spoke against the adoption of the recall.

Senator Heyburn said the Borah resolution, by not requiring the state legislature to fix the time, place and manner of electing senators, might at some time compel the national government, through inaction of the states, to assume control of these states, as if they were territories. He asserted that it is not the people themselves who are demanding direct election. He asserted that those state legislatures which had petitioned for popular elections acted without due consideration. "In response to the apeals of the selfish interests of self-serving men.'

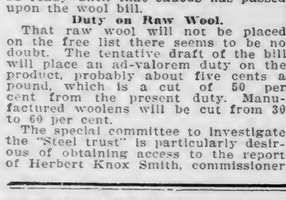
New Jersey Man Heard From.

"I protest," Mr. Martine, the new senator from New Jersey, said, rising suddenly. "That is not the case. Every Democrat and every Republican convention, county and state, recently held in New Jersey has unequivocally demanded the change, while the 'interests' have opposed it."

Mr. Heyburn explained that by "interests" he had not meant to classify the people as rich and poor.

Senator Newlands, speaking on the resolution, commented upon the lack of leadership in the senate.

"There was a time when the leaders of the dominant party could agree upon and put through a program," he said. "Now we have no dominant party and no recognized leader. Instead of the leadership of the elder statesmen, we have chaos."



95c Dish Pans and Preserving Kettles — Friday Sale..... 35c

17-quart double coated Granite Dish Pans, and 6 and 8-quart Preserving Kettles. This is high-grade granite ware, and not the common ware usually purchased by others for special sales purpose. Limit, one article, and no phone orders.

I LIKE Fitger's Beer—It keeps my whole system in fine working condition—supplies the necessary tonic and blood building properties and contains just enough alcohol to aid digestion. And its flavor—well, I've tasted nearly all the most famous brews and I'll choose Fitger's every time. Take my advice, keep a case in your cellar and you'll have less need for medicine.

Brewed and Bottled by the **Fitger Brewing Co., Duluth, Minn.**

THE GUARANTEED CURE WILL COST YOU LESS!

It is not always the man who promises the most for the least money that gives you the best value.

The so-called specialist who offers to cure you of a serious and protracted disease for three or four dollars is a fake—shun him.

Having taken your money he will leave you worse off than at first.

This should be self-evident to any thinking man.

When you consider the years and years of study and experiment necessary before a man is competent to handle diseases of men successfully, and the thousands of dollars that must be invested in scientific apparati, in order to give the correct treatments, you will see that the very fact that a man offers to cure you for three or four dollars is an open confession of his incompetency.

The specialists of the Progressive Medical Association do not need to resort to any such methods in order to get patients to place their cases in their hands.

While they do not charge any very large sums, they do work that is absolutely above reproach.

The thousands of men whom they have restored to life and happiness by their methods are the best possible advertisement of the fact that these specialists know their business thoroughly.

When you place your case in the hands of the Specialists of this Institute, you assure yourself of the best possible treatment and receive a GUARANTEE OF A CURE.

When you leave the care of the Specialists it will be as a well man.

More than that, you will have been instructed how to avoid disease from which you suffered so that with ordinary care there will be no possibility of its recurrance.

First, last and all the time, the GUARANTEED CURE IS THE CHEAPEST.

If you can call, do so, if not, write us full particulars of the nature of your disease and we will send you a symptom blank to fill out, so that we will be able to make an expert diagnosis of your case and give you our opinion—FREE.

PROGRESSIVE MEDICAL ASSOCIATION

No. 1 West Superior Street, Duluth, Minn.

WEST END

WANT THE TWIN LAKES RESTORED.

Agitation will be renewed this summer to have the park board rebuild the retaining wall, which was swept away in the cluodburst, July 21, 1909, at the Twin lakes, Fourteenth avenue west.

Ever since the big storm which destroyed the artificial lakes, there has been much sentiment favoring the rebuilding of the wall and the replacing of the lakes.

The Twin lakes comprised a large pond through which a small creek ran. It was divided by an embankment near the center. This was washed away in the storm and residents of the vicinity want this embankment restored.

The Twin lakes have been a favorite spot for many of the hillsiders in summers past, and during the winter months have also provided a skating place for the young people.

Falls Under Car.

John Hill, a laborer, had a narrow escape from serious if not fatal injury when he slipped under an interstate car, outbound at Garfield avenue and Superior street last evening. As it was both feet were crushed and at St. Mary's hospital, where the injured man was taken, it was found necessary to amputate all of the toes of the right foot and all but the little toe of the left foot. Hill lives in the West end.

Peterson-Johnson.

The wedding of Miss Ida Peterson and Anton W. Johnson took place last evening at the home of the bride's parents, Mr. and Mrs. Melker Peterson, 2018 West Fourth street. Mr. and Mrs. Johnson left for Mitchell, S. D., on a wedding trip. They will be at home in the West end after June 1. The wedding ceremony was read by Rev. C. G. Olson, pastor of Bethany Swedish Lutheran church. Both are well known in the West end and are members of Bethany church choir.

TWO-THIRDS OF NECESSARY NAMES.

Nearly two-thirds of the required number of signatures to comply with the requirements of the water board in furnishing a guarantee for the extension of water mains to the Ensign school district have been secured. The West End Hillside Improvement club is pushing the matter. It will be necessary to furnish a guarantee of $772 annually.

West End Briefs.

The Adams Athletic association will entertain at a dancing party this evening at Lincoln Park pavilion.

Mrs. Gust Carlson of 2109 West Fourth street, entertained the Rebekah guild of St. Peter's Episcopal church at her home, this afternoon.

The Foreign Missionary society of Bethany Swedish Lutheran church was entertained this afternoon at the home of Prof. A. F. Lundholm, 2506 West Third street by Mrs. Palmquist.

Lottie May, 3-month-old daughter of Mr. and Mrs. James O. McMillan of 3315 Chestnut street, died yesterday afternoon. The funeral will be held tomorrow afternoon from the residence.

Mrs. Melcher Johnson entertained the Dorcas society of Bethany Swedish Lutheran church at her home, 2108 Piedmont avenue, this afternoon.

A social and business meeting of the North Star lodge, No. 11, Independent Order of Good Templars, will be held this evening at Sloan's hall, Twentieth avenue west and Superior street.

Under the auspices of the Ladies' Aid society, a benefit entertainment will be held this evening at the First Norwegian-Danish M. E. church for Rev. Hans Jacobson, who is ill in a St. Paul hospital. During the evening, Mrs. J. J. Moe will give a talk on her trip through Europe. There will be several musical numbers on the program. Refreshments will be served.

MARINE

Many Vessels Grounding.

The low water in all the lakes and waterways connections is still claiming attention through the unusual number of vessels running aground all over the Great Lakes. The steamer M. T. Greene, out of Cleveland, stranded on a shoal west of Devil's island, Lake Huron, in a heavy fog last Thursday night, and is still lying in an exposed condition. The barge Shawnee, which foundered outside of Cleveland harbor last Tuesday night, was in tow of the Greene coming out of Cleveland. The steamer Andrew Upson, bound down, is reported aground at the head of Russel's island. The Joshua Rhodes, also bound down, went into Detroit in tow of the tugs Sarnia City and Winslow, with her steering gear broken. The steamer Choctaw went aground near Corsica shoals, but was released by the tug Booth with little trouble.

The steamer Caledonia, upbound, grounded on the southeast shoal seven miles below Amherstburg in a dense fog on Friday. The vessel was released uninjured.

Turret Cape Released.

Saute Ste. Marie, Mich., May 25.—(Special to The Herald.)—The Turret Cape, aground at the Middle Grounds Round Island for fourteen hours, was released by the tug Schenck at 2 o'clock this morning. The Cape was westbound with cement, and the larger part of her cargo had to be lightered.

Sault Passages.

RELIABLE PIANO DEALERS

French & Bassett DULUTH, MINN.

RELIABLE PIANO DEALERS

$195 Great Piano Sale

$175 DULUTH MUSIC CO. STOCK

Nearly 200 Reliable Instruments Including STEINWAY, WEBER, STECK, KNABE, KRANICK & BACH, FISCHER, IVERS & POND, STARR, SMITH & BARNES, and other makes in both new and used pianos, are being sacrificed at prices lower than ever before known in any American city. If you intend buying a piano within the next five years it will pay you to do it now, for in many cases the prices are half and in some cases less than half the regular prices.

REMEMBER: Every piano in this sale is fully warranted by a responsible Duluth store, owned and controlled by Duluth men, with a record of nearly 25 years of fair dealing back of it.

$165 Also remember that you can buy any piano in this sale on the EASIEST possible terms, and in doing so your note-contract remains in our possession until fully paid, and each payment is endorsed on the back thereof when made at our office.

VERY EASY PAYMENTS

$148 Half Price

In pricing this stock the cost of manufacture does not enter in, for in many cases pianos are priced at much less than manufacturer's cost, and you will find here more than forty pianos priced at half or less than half the lowest usual selling price.

We say make the closest comparisons. Take, for instance, the new Oak Upright Pianos at $87. We tell you frankly, compare them with those priced in other stores at $175. Also take the pianos at $98, $125, $135, $148 and so on through the list, and compare them with those in other stores at double the price.

The prices of the used pianos speak for themselves, and you will find all the best makes represented. Each used piano has been put in first-class condition, and is fully warranted, and can be exchanged, at price paid, for any new piano in our stock within one year.

We want every intending piano purchaser in Duluth and vicinity to investigate this **greatest of all sales,** and if you live at a distance, write us, and we will send bargain list at once.

USED PIANOS

Among these used pianos will be found many exceptional bargains. Some are but little used and hardly show the marks of use, and even those that show use have been put in first-class condition and have years of good service before them. Come in and look them over.

IS ON TRIAL FOR PERJURY

Alexander Shadock Claimed to Have Sworn Falsely in Brookston Election.

Arrest Was Made on the Order of Judge Cant.

Alexander Shadock, 21 years old, a witness in the Brookston election cases which were recently tried before Judge Cant of the district court, is on trial today before Judge Dancer on a charge of perjury, preferred by the May grand jury.

The state claims that he swore falsely at the time he voted at Brookston. He is said to have sworn that he had been in the state a number of years, when, in reality, he had been in the state but a few months, it is claimed.

When on the stand in Judge Cant's courtroom at the time of the Brookston cases, Shadock stated that he would lie at any time provided he was paid for it. Judge Cant immediately ordered his arrest and the county attorney got busy on the case.

At the former trial he is said to have admitted that he lied at the time he was under oath to tell the truth as to his legal right to cast a vote. He has been at the county jail since he was arrested several weeks ago.

It is claimed that Shadock was but a tool in the hands of others, and warrants have been issued for the men who induced him to swear falsely, on the charge of subornation of perjury.

In the Wake of the Measles.

The little son of Mrs. O. B. Palmer, Little Rock, Ark., had the measles. The result was a severe cough which grew worse and he could not sleep. She says: "One bottle of Foley's Honey and Tar Compound completely cured him and he has never been bothered since." Croup, whooping cough, measles cough all yield to Foley's Honey and Tar Compound. The genuine is in the yellow package always. Refuse substitutes. For sale by all druggists.

WERE DRINKING ON THE TRAIN

Woodsmen Arrested Under New Law for "Taking a Nip."

It isn't safe any more to have a "bottle" on the trains and to take a "nip" yourself and pass it to the next man.

Louis Carlson and Erick Erickson "took a touch" on a Great Northern train this morning while coming into the city. The conductor saw them and when they reached the city he had them arrested on a charge of drinking whisky on a train, under the new state law.

Both entered pleas of guilty, but as they had created no disturbance they were given suspended sentences. The minimum penalty for the offense is a fine of $25. So if you are bound to take a drink be sure that no one of the crew sees you if you want to take no chances, or else go to the buffet car.

Bernhardt Seat Sale

Opens this morning at 10 o'clock.

LAST HANGING HELD IN BLUE GRASS STATE.

Frankfort, Ky., May 25.—Kentucky's last execution by hanging took place here this morning at sunrise. Roger Warran, a negro, who killed another negro prisoner in the Frankfort penitentiary last year, was executed. The electric chair law is now in effect in Kentucky.

LIVED A MONTH ON MILK DIET

Highly Respected Waterloo Woman Tells of Experience With the United Doctors.

Mrs. J. I. Perkins of 222 Randall St., Waterloo, Iowa, is another one of the many thousands who give credit to the United Doctors for restoring them to health and happiness after ordinary doctors and medicines had failed to relieve.

Every cured patient sends other sufferers to be cured, that's why the Duluth offices of the United Doctors on the third floor of the Columbia building are always full of patients. In writing of her case for publication, Mrs. Perkins says:

"Waterloo, Iowa, April 20, 1911.

"Dear Doctors—I want to let you know how well I am getting along. I had been complaining of my stomach and bowels for years, but for the past year was very bad and have been confined to my bed part of the time. I could eat nothing; I lived for four weeks on one-half glass of milk three times a day. If I ate anything my stomach would pain and bowels run off. I tried three different doctors, but none of them could help me and I never got so I could eat; I lost about thirty pounds of flesh and was so weak I could hardly walk.

"I read in the city papers what the United Doctors were doing, but I was never able to go to their office until finally one day I just said I was going and called on them.

"They examined me and told me the cause of my trouble and that they could help me. Now, after two months' treatment, I am like a new woman. I eat almost anything I want, bowels are nearly regular, I sleep well, am gaining flesh, and all my friends are remarking on how well I am looking. I feel now that I will soon be well and am happy that I put myself under the care of these specialists.

"MRS. J. I. PERKINS."

PLAN TO SHOW COMMISSION THAT RAILROAD IS NEEDED

Duluthians Will Strenuously Object to Tearing Up Brooks-Scanlon Line.

Settlers Along Road Holding Preliminary Meeting at Club.

A number of representative Duluth business men and a crowd of settlers from the district affected, will appear before the state railroad and warehouse commission at the Spalding hotel tomorrow morning to protest against the granting of the petition of the Brooks-Scanlon Lumber company for the right to abandon the Minnesota & Northern Wisconsin railroad. The hearing will be held at 10 o'clock.

The members of the state railroad and warehouse commission, representatives of the Duluth Commercial club, officials of the Brooks-Scanlon Lumber company and others interested left this morning for a trip over the road. The members of the commission expected that by viewing the country they would have a better understanding of the situation and would be able to give the arguments, which will be made tomorrow, their proper weight.

A meeting has been called for the Commercial club this afternoon and the objectors will form their arguments and prepare for the hearing tomorrow. They will urge upon the commission that the granting of permission to tear up the road at this time would be ruinous to the hope of developing the district through which the road runs, while the denial of the petition can work little harm to anybody, and undoubtedly will, within a short time, be productive of great good.

Plans for the formation of a syndicate to take over the road and operate it in connection with a land development plan, have already been discussed and, if the commission should deny the petition of the lumber company, it is believed the plans will go through. They contemplate the operation of the road as a gasoline-electric proposition, the financing to be done in conjunction with the financing of a plan for the colonization of the country.

The road has a mileage of about forty miles, through a territory which is now but sparsely settled, but that has great agricultural possibilities. The development has been retarded by the fact that the railroad has never maintained any regular service and the settlers have been practically cut off from their market. They have confined their crops to what they could use themselves and a very little for market. With the road operated as a common carrier, with regular passenger and freight service, it is certain that many more settlers would be attracted to the district, on account of the fertility of the soil and the proximity to market. The district could be brought into daily touch with the market, and would have advantages over many other districts in that respect.

There is no doubt of the weight of opinion on the subject favoring the retention of the road. The work now in hand is to convince the railroad and warehouse commission that the abandonment of the road is far from the proper course. The Commercial club will be represented by a committee at the meeting tomorrow, many of the settlers from the country affected will be in Duluth to offer their objections, and other business men interested in the matter will also be on hand. Those who have been working for the retention of the road are anxious that as many as possible get out, to show the commission that Duluth is interested in the matter—especially that the citizens are interested in the retention of the road.

MAY NOT CONVICT GRANT OF HERESY

Presbyterians Are Said to Be Questioning the Expediency.

Atlantic City, N. J., May 25.—Attempts to learn from members of the judicial commission of the Presbyterian general assembly, which is reviewing the heresy charges against Dr. Grant, what action will be taken, met with failure. It is rumored that the commission has agreed on the facts, but is divided on the question of expediency.

It is felt that in view of the wide publicity given the case, Dr. Grant will be called before the commission to make a further and clearer statement as to his views. If he can bring himself to say that he denies no doctrinal points, but merely differs on the translation and interpretation of some passages of the Holy Scriptures, the commission, one clergyman explained, could then make a report confirming the action of the North Cumberland presbytery, which acquitted Dr. Grant.

The looked-for light over the adoption of the proposed intermediate catechism was prevented by the action of the assembly in putting it back in committee to be reported out next year.

POSITIVELY GOING OUT OF BUSINESS

MAKE it a point to be here tomorrow and avoid the Saturday rush. Bargains on Friday are equally as great, and you'll have ample time to select your wants and we will be able to give you better service. Every dollar of merchandise in this big store is thrown out for absolute disposal and the sooner you come the more bargains you will be able to pick up. Don't fail to be here tomorrow.

WANTED!

R. J. HAYES,

Son of T. J. Hayes, who died last December at Bnrthold, N. D., is wanted at Minot, N. D., for the probation of his father's estate.

COPPERS WEAKER; PROFITS TAKEN

Values Decline as Industrials Undermine the Metal Stocks.

The copper market today was weaker on account of the softness in the industrials and rails. In the former Steel common was the weak sister and in the latter Missouri Pacific led in the downturn. The leading coppers were subjected to profit-taking and buying power was conspicuously absent although there was sufficient support to enable the market to absorb offerings without being severely shocked. The copper metal market is in fairly good shape. The surplus is large but prices are strong and sellers are not eager to dispose of their product.

Amalgamated sold at $67 to $66.87½, $67.25 and then at $66.87½. Butte Coalition at $20 to $19.62½. Calumet & Arizona $56.50, $55.50 and then to $56.75. Greene at $6.93¾ to $7. North Butte at $33.50 to $33. Ojibway at $7.75 to $7.87½. Superior & Pittsburg at $16.

American Saginaw sold at $3 and Calumet & Montana at 38c.

* * *

The question whether the Ingham circuit court has jurisdiction to hear the suit of C. M. Turner to prevent the consolidation of the Osceola Mining company in which he is a stockholder, with the Calumet & Hecla and eight other Michigan copper mining companies, was argued yesterday at Lansing, Mich., before Judges Wiest and Collingwood. A previous suit for the same purpose, instituted by Godfrey M. Hyams of New York, is pending in the federal court of Detroit. The attorneys for the complainant yesterday presented an argument and decisions to show that the institution of a suit of this character in one court does not stop similar proceedings in another court of commensurate jurisdiction.

* * *

Chester A. Congdon and son, Edward, have returned from a six weeks' trip in Arizona, Old Mexico, California and Washington. Mr. Congdon attended meetings of the directors of several mining companies in which he is interested.

Mr. Congdon thinks it will be some time before peace comes to Mexico. He looks for considerable guerilla warfare before conditions are normal again.

He said the Calumet & Arizona and Superior & Pittsburg copper properties in Arizona are in first-class physical condition.

Bernhardt Seat Sale

Opens this morning at 10 o'clock.

CITY BRIEFS

Printing and Bookbinding
Thwing-Stewart Co. Both 'phones, 114.

Northland Printery.
Good Printing. Call Zenith 494.

"Battle of Life."
The "Battle of Life" will be the subject of the sermon to be preached by Rabbi Lefkovits tomorrow evening at Temple Emanuel, corner Seventh avenue east and Second street, at 8 o'clock.

Promises To Reform.
The case against Mike Brown, arrested on a charge of having struck his wife, was continued for sixty days in police court this morning. It was shown that Brown had ill-treated his wife for a considerable period of time, and that he had been using more liquor than was good for him. He took the pledge and promised Judge Windom that he would change his ways.

Bank Clearings.
Duluth bank clearings for the week ending Thursday, May 25, 1911, were $2,617, 102.79.

Bottle as Weapon.
George Kern entered a plea of guilty to being drunk and disorderly in police court this morning. It was reported that he had injured Talf Peterson by throwing a bottle at him in a saloon last night. He got $20 and costs or twenty days. Peterson was arrested on a charge of having been drunk. He pleaded not guilty and his trial was set for this afternoon.

Settler Loses Case.
A jury in district court decided for the defendant yesterday in the case of John Hill, who claimed that sparks from a Duluth & Iron Range engine set fire to his timber. He asked $237. The case had been on several days before Judge Martin Hughes.

Card Party.
Given by I. O. F., 208, at the Forrester's hall tomorrow night. Admission, 15 cents.

Joint Meeting.
A joint meeting of all the Duluth lodges of the Ancient Order of United Workmen will be held in Maccabee hall, Lake avenue north near Superior street. Members will meet August S. Feerkey of St. Paul, the grand master. Other members of the grand lodge are expected to attend. Members of the West Duluth lodge will meet at their hall and will proceed together to the uptown hall.

Adams Dance.
Tonight at the Lincoln Park Auditorium the Adams Athletic association will give another of its popular weekly dances. Music will be furnished the dancers by Flaaten's orchestra.

The sale of seats for the advance subscribers to the Minneapolis Symphony orchestra concerts will open tomorrow at 9:30 at the Lyceum. The sale to the general public will open Saturday morning.

Used "Knuckles."
Andrew Dahl was sentenced to three months in the county jail this afternoon in police court for disorderly conduct. Dahl is accused of having struck Charles Reece in the face, knocking out several of the latter's teeth, when the men met on the Bowery yesterday afternoon. When Dahl was arrested, he tried to throw away a pair of brass knuckles, but the officer detected him.

PERSONAL

Judge S. W. Gilkin of the probate court is holding court at Virginia today.

Mrs. Valentine of Virginia is at the Lenox.

Albert Moreau of Virginia is at the Lenox.

Thomas Stout of Hibbing is at the Lenox.

P. L. Le Tourneau and wife of Hibbing are at the Lenox.

Leo J. Lilduff of Hibbing is at the St. Louis.

J. A. Wilkie of Hibbing is at the St. Louis.

W. A. Evelton of Hibbing is at the St. Louis.

A. P. Kirsch of Crookston is at the St. Louis.

J. E. Donovan of Hibbing is at the McKay.

Mrs. Robert Murray of Hibbing is at the McKay.

CANADIAN WHEAT CROP 200,000,000 BUSHELS.

Winnipeg, Man., May 25.—Vice President White of the Canadian Pacific railway estimates the wheat crop in the Western part of Canada this year will be about 200,000,000 bushels.

WILL TESTIFY BEFORE SENATE

Burgess, Cook and O'Brien Will All Be Subpoenaed.

William Burgess, electrical dealer; W. H. Cook, lumberman, both of Duluth, and William O'Brien, lumberman of Minneapolis, will be subpoenaed to testify before the committee which will be appointed by the United States senate to investigate the Lorimer election. Mr. Burgess and Mr. Cook testified before the Helm investigating committee of the Illinois legislature.

Senator La Follette in his speech on the Lorimer case, which he continued today, referred to the testimony of Mr. Burgess and Mr. O'Brien and intimated that they would be important witnesses.

KATHERINE ELKINS SAILS FOR EUROPE.

New York, May 25.—Miss Katherine Elkins, her mother and brother, Stephen B. Elkins, were passengers today on the Kaiserin Auguste Victoria en route for a summer's holiday in Europe. The Elkins family was in deep mourning for the late Senator Stephen B. Elkins of West Virginia. They were accompanied to the ship by several young men, and among them was "Billy" Hitt, son of the late Representative Robert R. Hitt of Illinois.

Mrs. Elkins said her statement made four years ago to the effect that there was no engagement between her daughter and the Duke of the Abruzzi was still good. Miss Elkins was in high good humor and laughed merrily when asked if she was engaged to young Hitt.

BUHL'S NEW POSTMASTER.

Washington, May 25.—(Special to The Herald.)—President Taft today nominated Nels L. Johnson as postmaster at Buhl, Minn.

GROUP OF CLOQUET, MINN., ATHLETES

Y. M. C. A. MEN'S TUMBLING TEAM.

D. H., May 25, 1911.

Decoration Day Blue Serges

There is a mighty difference between blue serges and blue serges. Columbia blue serges are made of absolutely pure worsted (no cotton mixtures). The dye is fast; the makers of these yarns using vegetable dyes only.

Blue Serges in Men's Styles,
$10, $12.50, $15, $18, $25, $27.50 and $30.

Blue Serges in Young Men's Styles,
$10, $15, $20, $25 and $30.

Blue Serges in Boys' Garments,
$4 $5, $7.50, $10, $12.50 and $15.

The Columbia At Third Ave. West.

Foot-Note: Wear the Columbia $3.50 Shoe.

SAYS BOARD MUST ACT

Eberhart Telegraphs Regarding the Whittier Matter.

Says Hearing Must Go Ahead Before That Body.

St. Paul, Minn., May 25.—(Special to The Herald.)—"I see no other way than to go ahead with the hearing before the board of control.—A. O. Eberhart."

The foregoing message, received from Governor Eberhart by his private secretary last night, is taken to indicate that before he went east on his trip it was understood that in case the supreme court declined to act as arbiter in the controversy over the removal of F. A. Whittier from the Red Wing training school, A. D. Stephens of Crookston was to file the formal charges with the board. Mr. Stephens is expected in St. Paul within a day or two.

Scouts Bemidji Story.
Ralph Wheelock, the governor's private secretary, denied any knowledge of an agreement between the two, and insisted this morning that Senator Stephens took the initiative in asking the attorney general to draft the complaint for him. Attorney General Simpson declared he knew nothing of an agreement between the governor and Mr. Stephens. He characterized as "silly and unfounded" the story sent out from Bemidji yesterday that Senator Stephens was angry because the fact became known that he had asked the attorney-general to draft the complaint.

"I did not give out the story in the first place," Mr. Simpson said. "Senator Stephens certainly would not become angry at this office for a story that emanated from the governor."

OPEN MARKET IN STEEL PRODUCTS

Prediction Is Made That Carnegie Will Meet Republic Prices.

New York, May 25.—The cut in the price of steel bars announced by the Republic Iron & Steel company will be met, it was reported today, by the Carnegie Steel company. The chief subsidiary of the Steel corporation is said to have lowered its price on steel bars to $1.25 per hundred at Pittsburg. Officials of the Carnegie company would not confirm the report.

The action of the Republic Iron & Steel company is said in Wall street to mean an open market in all steel products, even to the lowering of prices on steel rails, which have been selling at $28 per ton since 1901.

In some quarters it was said the present cut in prices would be used as an argument before the Stanley congressional committee, which meets soon, to show that there was no arbitrary maintenance of prices on the part of the Steel corporation and the so-called independents.

MEANING OF WABASH.

"I would urge on intelligent Americans the desirability of preserving the native Indian languages of the United States," says a writer in the Red Man. "The Indian languages are becoming extinct much more rapidly than the Indian themselves, because the younger Indians are Americanized and many of them have but a smattering knowledge of their native tongues.

"Our Indian schools do not encourage any study of Indian languages, because their object is to teach the students English and fit them to take care of themselves in the practical affairs of life. The older people, who really know the languages, are going the way of all flesh.

"I may illustrate by the Miamis, who were originally one of the greatest, if not the greatest of the nations of the Central West. Today all that is left of that nation is estimated at 140 of the Western Miamis in Oklahoma and Kansas and 240 of the Eastern Miamis in Indiana. Most of these are mixed bloods and very few can speak the language. Within the last year Gabriel Godfrey, the only adequate Miami interpreter in Indiana, and the Rev. Thomas Richardville, one of the most competent interpreters of the Western Miamis, have died.

"These languages are worthy of preservation on their intrinsic merit. They are not rude and unsystematic, but are more refined in inflection, and exact in meaning, not only than the English language but also than any modern civilized language.

"To illustrate both of these points take one example. The name Wabash is in wide use not only for the river, but for counties, towns, railroads and other things. In some of our standard dictionaries and other reference books it has been said to mean a cloud driven forward by the equinoctial wind. In reality it is a corruption of the Miami name of the stream, Wah-bah-shik-ki, or Wah-pah-shik-ki—b and p being convertible in the Miami.

"This is an inflected form of the adjective white, which in its simplest form is wah-pe-ki for the inanimate and wah-pi-si-ta for the animate. The form wah-bah-skik-ki implies that the noun it qualifies stands for something that is bright or pure white, inanimate and natural, such as a stone or a shell. If it were artificial, as cloth or paper, the adjective form would have to be wah-pah-kin-gi. What civilized language has such refinement or inflection?"

Summer Tourist Round-Trip Fares TO THE Pacific Coast

For little more than the price of a one-way ticket, you can have a delightful trip at low cost, with the chance to stop over at Denver and Salt Lake City without extra charge. Good on all first-class and limited trains. Liberal return limits.

From Duluth to North Pacific Coast Points — **$50.00** Tickets on sale June 5th and 6th, June 10th to 22d, inclusive, and June 27th to July 5th, inclusive. Final return limit September 15th.

From Duluth to California — **$69.50** Tickets on sale same dates and limits as $50.00 fare.

From Duluth to California, one-way, via North Pacific Coast Points — **$74.75** Tickets on sale same dates and limits as $50.00 fare.

From Duluth to North Pacific Coast Points — **$60.00** Tickets on sale May 29th, 30th and 31st; final return limit July 31st. Tickets also on sale at $62.70, one-way, via Council Bluffs or Omaha, and $65.40, both ways, via Council Bluffs or Omaha, June 1st to September 30th, inclusive; final return limit October 31st.

From Duluth to California — **$79.50** Tickets on sale June 1st to September 30th, inclusive; final return limit October 31st.

From Duluth to California, one-way, via North Pacific Coast Points — **$84.75** Tickets on sale May 29th, 30th and 31st; final return limit July 31st. Also June 1st to September 30th, inclusive; final return limit October 31st.

WHITE SOX TAKE FIRST GAME FROM THE INDIANS

Woodburn Holds Invaders to Three Hits and Whiffs Thirteen Batsmen.

Parade and Festivities Make Home Season Opening a Grand Success.

(BY BRUCE.)

Duluth, 6; Red Wing, 2.

What those charming and entertaining members of the "profesh" call a warm house, and which the actors playing to two simoleon prices are wont to call temperment, was present at the opening game yesterday, which was corralled by our white horse young man, the score being by the ratio of 3 to 1, or actually 6 to 2.

Jawn Desmond says she were a darb, and as Jawn is the man who counts the tickets and generally oversees the distribution of the silver shecklies, everybody should for the general sake of harmony, coincide with a view so authoritative.

Never has an opening day been crowned with more success. The best way to commence is to start at the beginning. George Washington and other great men did that and were eminently successful. The parade started at the city hall; that is a very appropriate place to start the story of the festivities.

Shortly after 2 o'clock the cavalcade got under way with twenty-four automobiles loaned by the Interstate Auto company, and a number of private cars in line. Some women and children, who had not been appraised of the fact that it was the opening day of the season, through the distraction of housewives, dolls, tops, or colic, believed for the moment that the passing parade was the annual advent of the circus, and rushed to Superior street to get a view of the animals and the pink lady in tights, or the lady in pink tights, just as you will.

Instead of animals and the lady aforementioned, they gazed with increasing admiration upon the handsome features of Darby O'Brien and the Apollo-like features of Little Eva Leber, the angel child with the chubbie smile and golden, curling locks. The broad and smiling countenance of Dr. J. A. McCuen, president of the Duluth Baseball association, and the chasm-like grin that Mister Jawn Desmond invariably displays after 10 in the morning, were also features of the parade.

Scene II; Act I.

Change of scene. Thirty minutes are supposed to have elapsed. We are now at the ball park. Ball players, the mob, etc.

The stands and bleachers are filling up. The field is filled with automobiles and the Third Regiment band illrts with sweet harmony. All is perfectly lovely. The cross fan, who sits behind the home plate during the season's game and hurls advice and several other things, enters, and all is ready.

President J. A. McCuen steps before the grand stand filled with tumultuous people, also several from Superior, who are calm and pacific, and holds a well moulded hand up for silence. He thanks the assembled multitude for their presence and interest and then introduces the leading man, Marcus Cullum, an actor who has had several successful seasons in the comedy drama, "Running for Mayor."

"Ladies and gentlemen," says Mister Cullum, and he paused a minute, and the crowd cheered. "I am not going to say very much," said the mayor, and again the crowd cheered. "On the corner lots and on the baseball field is where young America gets its first ideas of fair play. A man is a better American citizen for liking our great national game, and a man who doesn't like it generally has something the matter with him.

"The team has been playing great ball. A ball team is an asset and an advertisement for any city. The team deserves support as long as it plays good ball, as it is an institution that we should be proud of. I will now show you how we used to do it fifty years ago."

Here Mayor Cullum shed his binney, grasped the ball with scientific grasp, learned from years in shaking hands, and ambled with light step to the box. He gave a windup that was graceful and yet at the same time possessing poise and power, and then shot a swell one right across the pan. A mighty cheer went up from the grandstand, was caught in the bleachers, re-echoed around the grounds and was taken up by the small boys on the hill, outside the fence. She was one great day, sure enough.

Enter Mr. Woodburn.

When it was announced that Mister Woodburn would hurl the pellet, another mighty cheer arose and was strengthened and added to by the deep basso of the auto horns. It was such an inovation that a young athlete might dream of. As has been said, it was a day in which temperament batted over .300.

Right in the first inning the Indians hit our Woodburn for three cruel swats, two doubles and a single, and drove in two runs. The gloom sneaked in and grappled fiercely with the sunshine and merry cheer boys.

But after this round the crowd was treated to some twirling that we have not seen since the palmy days of George Washington Dauss, or further back still, since the days when Patterson was working humbly, but effective for Dick Schell.

Not a blow was gathered after the first inning. To show how strong Woodburn was going, suffice it is to say for five innings the Comanches went out in one, two, three order, that only one pass was issued by Woodburn, and that only three men reached first base after the opening round, two on errors and one on the only pass.

Woodburn had about everything. His drop ball was something beautiful to behold. In the sixth inning he retired three men on twelve pitched balls, striking out the three, and struck out the next two in the following frame. He retired five men on nineteen pitched balls, which is going some.

"Bugs" Weidel was effective, or at least fairly so, for five frames. At this juncture he was withdrawn, partly because he has been sick for the past few days. Johnson came in and pitched good ball. Only six hits were gathered from the two Indian twirlers, three coming off Weidel and the other three being pickled from the swiftly flowing delivery of lank Johnson.

Little Eva Stars.

Little Eva Leber was the star of the game. In the first he smote a rousing two-bagger to left field, and in the third he scored Woodburn with his perfectly lovely home run, which lofted far over the left pasture paling. It was a very nice day for the angel child.

In the very first inning the trouble started. Black, first up, hit for two bases to left. Bowman followed with another two-base hit and one run was in. Gritz and Fautsch went down, but Kline singled, sending Bowman over with the second and final run for the enemy. Anderson grounded to Meneice.

Leber hit for two in our frame, but the next three went down. Red Wing went down in order in the next two frames, and in our third Leber beat the ball on the nose for his homer after Woodburn had drawn a pass.

Our second brace of runs came in the sixth. After Leber was retired at first, the Orator drew four and was pushed to second by Meneice's single. Johnson singled, scoring the Orator, and Meneice came across when Holstrom hit a sacrifice fly to Bowman in center. Altermott struck out.

In the eighth we gathered two more. Leber got his third hit of the day, a fast one that Johnson could not handle. He was sacrificed down the score lane by Darby and scored when big Sam hit for two bags. Johnson struck out. Holstrom was safe on an error by Gritz, and Sam went to third, from whence he scored when Anderson threw the pellet quite recklessly over Gritz's head in an earnest attempt to flag Holstrom in his mad dash for second. Col. Altermott drew a base and was forced at second by Miller's dinky infield offering.

That ended the scoring. The result of the joy contest can be studied from the detailed frame below:

Duluth—	AB.	R.	H.	PO.	A.	E.
Leber, 3b	4	2	3	1	1	0
O'Brien, 2b	2	1	0	0	1	0

SUPERIOR WINS SECOND GAME

Corbett's Rochester Pets Defeated By Easy Score of 5 to 1.

Superior took the second game from Rochetser yesterday, winning by the score of 5 to 1. The Medics could not hit Parker when hits meant runs, and that is the story of the game. Superior hit hard all through the contest and also played a good game in the field. The Medics were outplayed in all departments of the game.

The detailed score:

Rochester—	AB.	R.	H.	PO.	A.	E.

CHAMPIONS LOSE THE OPENING GAME.

Eau Claire, Wis., May 25.—The champions were defeated in the opening game of the home grounds yesterday, the score being 2 to 1 in favor of the La Crosse Outcasts. Delave pitched great ball for Eau Claire, but an error by Callahan and Bailey's misjudging of Safford's hit, gave the game away.

One of the largest crowds that ever attended a ball game here, was present. President Frank E. Force made a speech before the game started. Mayor Fleming presented Tommy Schoonhoven with a handsome silver tea service. Score: R. H. E.

La Crosse	0 0 0 0 0 0 0 2 0	2	6
Eau Claire	0 0 1 0 0 0 0 0 0	1	5

Batteries—Watson and Waisse; Delave and Benrud. Umpire—Kelley.

DAUSS WINS GREAT PITCHERS' BATTLE.

Wausau, Wis., May 25.—Winona took the second game from the Lumberjacks, winning by the score of 1 to 0. Fennel and Dauss had a pitchers' battle with honors about even. Both teams played great ball. Score: R. H. E.

Wausau	0 0 0 0 0 0 0 0 0	0	4
Winona	0 0 0 1 0 0 0 0 0	1	4

Batteries—Fennel and Stark; Dauss and Burke.

SCHARDT PITCHES GREAT BALL AGAINST PIRATES.

Brooklyn, N. Y., May 25.—Zimmerman's home run with two men on bases clinched yesterday's game for Brooklyn, although Stark's run in the first would have been sufficient, as Schardt pitched shut-out ball. The score was 4 to 0, only one Pittsburg player reaching third base. Score: R. H. E.

Pittsburg	0 0 0 0 0 0 0 0 0	0	4
Brooklyn	1 3 0 0 0 0 0 0 x	4	5

Batteries—White, Steele and Gibson; Schardt and Miller. Umpires—O'Day and Brennan.

CUBS WIN FROM DOVES IN THE RAIN.

Boston, Mass., May 25.—Playing through a light rain, Chicago won from Boston yesterday, 4 to 2. The visitors secured two runs in the first inning, but errors by Zimmerman and Saier in the seventh allowed Boston to tie the score. In the ninth inning a hit by Zimmerman followed by a double by Sheckard and a triple by Schulte, drove in the winning run. Score: R. H. E.

Boston	0 0 0 0 0 1 1 0 0	2	5
Chicago	2 0 0 0 0 0 0 0 2	4	8

Batteries—Mattern and Rariden; McIntyre and Archer. Umpires—Rigler and Finneran.

PHILLIES ARE DROPPED OUT OF FIRST PLACE.

Philadelphia, May 25.—By losing yesterday's game to St. Louis, 4 to 2, Philadelphia was defeated for the sixth consecutive time. Moore pitched eight innings and was hit safely in only one of them, the third, when four singles, a base on balls and two errors gave St. Louis four runs. Golden was effective with men on bases. Score: R. H. E.

St. Louis	0 0 4 0 0 0 0 0 0	4	5	3
Philadelphia	0 0 1 0 0 0 0 1 0	2	6	2

Batteries—Golden and Bresnahan; Moore, Humphreys and Dooin. Umpires—Eason and Johnstone.

MARQUARD PITCHES GIANTS INTO LEAD.

New York, May 25.—New York assumed first place in the National league race yesterday by defeating Cincinnati, while the St. Louis team was vanquishing Philadelphia. Marquard pitched a fine game for the locals, not allowing a hit after the first inning. Score: R. H. E.

Cincinnati	1 0 0 0 0 0 0 0 0	1	2	2
New York	1 1 0 - 0 0 0 0 0 x	2	8	1

Batteries — Gaspar, McQuillan and Clarke; Marquard and Myers. Umpires—Klem and Doyle.

Philadelphia at Cleveland.

ATHLETICS TAKE THIRD STRAIGHT FROM NAPS.

Cleveland, Ohio, May 25.—Philadelphia made it three straight from Cleveland yesterday, winning 9 to 1. In five times at bat Baker made two singles, two doubles and a triple. Score: R. H. E.

Cleveland	0 0 1 0 0 0 0 0 0	1	6	1
Philadelphia	1 0 1 1 0 1 3 2 0	9	17	1

Batteries—Harkness and Land; Coombs and Thomas. Umpires—Perrine and Sheridan.

TIGERS TRIUMPH OVER NATIONALS IN ELEVENTH.

Detroit, Mich., May 25.—Detroit defeated Washington, 6 to 5, yesterday in an 11-inning game. Crawford stole second and third and brought in the winning run on Cunningham's error. The three pitchers walked twenty men. Score: R. H. E.

Washington	1 1 2 0 0 0 0 0 1 0 0	5	11	2
Detroit	0 0 0 0 2 0 1 2 0 0 1	6	10	4

Batteries—Groome and Hughes and Henry; Works and Stanage. Umpires—O'Loughlin and Dineen.

HIGHLANDERS BUNCH HITS OFF OLMSTEAD.

Chicago, May 25.—New York bunched hits off Olmstead and defeated Chicago, 5 to 3, yesterday. Brockett lost control of the ball in the fourth inning and retired in favor of Caldwell who held the locals safe. Score: R. H. E.

Chicago	2 0 0 1 0 0 0 0 0	3	5	0
New York	1 1 0 0 0 0 0 2 1	5	12	2

Batteries—Olmstead and Payne; Brockett, Caldwell and Blair. Umpires—Egan and Connolly.

PELTY IS VICTOR IN PITCHERS' BATTLE.

St. Louis, Mo., May 25.—Pelty allowed but three scattered hits and received sensational support, St. Louis defeating Boston yesterday, 1 to 0. In the first Meloan doubled and scored the only run of the game when La Porte singled. Score: R. H. E.

Boston	0 0 0 0 0 0 0 0 0	0	3	1
St. Louis	1 0 0 0 0 0 0 0 x	1	4	0

Batteries—Wood and Nunamaker; Pelty and Clarke. Umpires—Evans and Mullin.

MIKE KELLY TRADES STEINFELDT TO BOSTON.

St. Paul, Minn., May 25.—In a telegram received here last night, Manager Kelly of the St. Paul Baseball club announced that he had traded Harry Steinfeldt, the former Chicago National league third baseman to the Boston Nationals for Outfielder Josh Clarke and Infielder Butler.

St. Paul at Toledo.

COLONELS WIN FIRST GAME FROM BREWERS.

Louisville, Ky., May 25.—Louisville won the first game of the series yesterday from Milwaukee by timely hitting. Manager Howard made a switch in the local team which worked well. Tom Jones and De Groff were put out of the grounds for arguing with Umpire Ferguson. Howard's batting and fielding were features. Score: R. H. E.

Louisville	2 0 0 1 2 0 0 0 x	5	11	5
Milwaukee	0 0 1 0 1 0 0 1 0	3	7	3

Batteries — Higginbotham and Hughes; Curtis, McGlynn and Ludwig. Umpires—Chill and Ferguson.

ERRORS SAVE BLUES FROM BEING BLANKED.

Columbus, Ohio, May 25.—Kansas City escaped a shutout yesterday because a fumble and two muffs of thrown balls followed Love's single in the sixth inning. Five double plays were operated back of Lessard, who scattered the same number of hits and gave as many passes. Two Columbus runs were batted over in the second by Berning, Odwell and Lessard. The winning one was scored on hits by O'Rourke and Congalton, Smoot fumbling the latter's drive. Score: R. H. E.

Kansas City	0 0 0 0 0 2 0 0 0	2	5	3
Columbus	0 2 0 0 0 0 1 0 x	3	11	7

Batteries—Brandom, Rhoades and O'Connor; Lessard and Bemis. Umpires—Hayes and Eddinger.

TOLEDO WINS FROM SAINTS IN NINTH.

Toledo, Ohio, May 25.—Toledo took the first game of the series from St. Paul yesterday, 6 to 5, in one of the closest contested games played here this season. Thronkies' single, after Hohnhorst had doubled and taken third on the play that retired Burns, sent the Toledo first sacker across with the decisive run. Score: R. H. E.

Toledo	1 0 1 0 1 0 2 0 1	6	13	3
St. Paul	0 1 0 1 0 3 0 0 0	5	8	1

Batteries—Baskette and Brennan; Chech, Leroy, Decanniere and Kelly and Spencer. Umpires—Weddige and Bierhalter.

HEAVY HITTING WINS GAME FOR MILLERS.

Indianapolis, Ind., May 25.—Heavy hitting featured Minneapolis' eleven-inning victory over Indianapolis yesterday, 13 to 10. The locals tied the score in the ninth on two singles, two doubles and a triple, scoring four runs. The visitors won out in the eleventh on two singles and two doubles. The locals' errors were costly. Score: R. H. E.

Indianapolis	0 3 0 0 0 0 3 0 4 0 0	10	18	3
Minneapolis	0 0 2 0 0 5 0 3 0 0 3	13	16	2

Batteries—Robertson, Schlitzer, Webb and Ritter; Faber, Patterson and Owens. Umpires—Owens and Handiboe.

NAPOLEON LAJOIE MUST TAKE A LONG REST.

Cleveland, Ohio, May 25.—Napoleon Lajoie, second baseman for the Cleveland Americans, who has been out of the game for two weeks, may not be able to resume play for a long time. The club physician yesterday ordered him to take a protracted rest, stating that he is suffering from an abdominal trouble that will necessitate an operation unless extreme care is taken. His condition is such that he will be compelled to remain off his feet as much as possible.

Lajoie's absence from the line-up badly handicaps the club, which already has several injured players. He was batting .378 at the time of his retirement, leading the team in hitting.

HOTEL HOLLAND

...European...

ABSOLUTELY FIRE-PROOF.
Club Breakfast, Popular Priced.
Luncheon and Dinner.
Music at Dinner, 6 to 8 P. M.
ENTERTAINMENT NIGHTLY AFTER 10:30.

THE SEASON'S FIRSTS

Mayor Cullum pitched the first ball.

Woodburn pitched the first honest-to-goodness ball.

Woodburn also pitched the first strike.

Black was the first man up and was the first man to make a hit here this season.

Black scored the first run.

Hardgrove had the first putout.

Black got the first double and Kline the first single.

Leber got the first home run.

Darby O'Brien made the first kick of the home season.

McGary was the first man to foul out.

Kline was the first man to expire on the paths.

Woodburn drew the first pass.

The little old grouch was the first fan to start roasting.

Bowman caught the first outfield fly.

Woodburn had the first assist.

The popman was the first one there.

In the third inning Bowman went back and took Meneice's long fly with one mitt. Our Miller did the very same thing when Gritz hit a long one to center.

* * *

Little Anderson had a bad day with his wing. He threw two bad ones to second. Outside of the two bad throws and a passed ball, he is all right.

* * *

Weidel is the only pitcher credited with a wild pitch. A ball is not a wild pitch unless it advances a runner.

* * *

The game only lasted an hour and a half, being played with little delay. If the umpires will keep the teams moving they will endear themselves to the fans. It is a relief to have the game over shortly after five bells. Oh, that nice warm dinner and wife's angelic temper!

CENTRALS WIN AT SUPERIOR

High School Boys Now Lead the Interscholastic League.

	Won.	Lost.	Pct.
D. C. H. S.	4	1	.800
Superior Normal	2	1	.666
S. C. H. S.	2	2	.500
Nelson-Dewey	1	2	.333
Irving H. S.	0	3	.000

Yesterday at Superior the Central high school baseball team of this city defeated the Superior normal team by the score of 12 to 6. "Morry" Harris was on the mound for the Duluth boys and pitched a steady game. Underhill for the pedagogues was unsteady and was hit in pinches.

Central will play Cloquet at Cloquet Saturday. The Central team is going good at the present time, and the prospects are bright for the winning of the interscholastic pennant.

The line-up and score by innings follow:

Duluth.		Superior.
M. Brown	1b	Pickering
W. Brown	3b	McQueen
Kelley	c	Zeeman, Clarke
Spencer	rf	Daley
Duclett	cf	Thorpe
Waldron	lf	Susans
Boyle	ss	Conley
McLaren, Nolte	2b	Zeeman, Clarke
Harris	p	Underhill

Score by innings—
Duluth .....8 2 0 0 0 2 0—12
Superior .....3 0 1 2 0 0 0— 6

WILL MEET FOR THIRD TIME

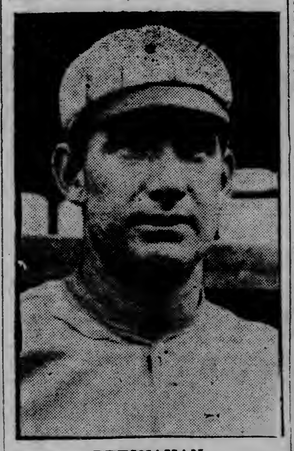
"Knockout" Brown and Tommy Murphy Have Victory Apiece.

New York, May 25.—Although "Knockout" Brown and Tommy Murphy have met in the ring twice, their bout tonight will have all the uncertainty of a first encounter. The first time they fought Brown won by a good margin; the second time, Murphy was equally the superior. The winner of tonight's battle will be in line for a contest with Matt Wells, holder of the English title, and Wolgast, the world's champion. The fight will be at the Madison A. C. and Charlie White will referee.

WILL FIGHT FOR GATE RECEIPTS

New Orleans, La., May 25.—It was announced last night by officers of the West Side A. C. that Thomas S. Andrews of Milwaukee would be one of two judges to decide whether Conley or Coster will get the gate receipts next Sunday after their twenty-round go in the Algiers ring. The local management has not yet succeeded in engaging Tommy Walsh as referee and unless he is secured two judges will render the decision, while a referee will be in the ring merely to superintend the boxers.

BUILDING UP NEW TEAM AT ST. LOUIS



BRESNAHAN
Of the St. Louis Nationals.

Roger Bresnahan does not expect to win the pennant this year. He is building up a baseball machine with young material and expects to put St. Louis on the baseball map next season or so. Roger does most of the work behind the bat for his team. He is, aggressive, a good batter and is likely to be a success as a manager. He was obtained from the New York Giants in exchange for three players.

HORAN'S CAR TO BE IN THE RACE

Substitute Will Be Provided for Injured Driver at Indianapolis.

Indinanapolis, Ind., May 25.—All the drivers entered in the Memorial day 500-mile automobile race at the Indianapolis speedway, with the exception of Joe Horan, whose leg was broken in an accident to his Amplex car late yesterday, were on the track today testing their engines for the elimination trials to be held tomorrow. Bob Burman, with his Benz was the last of the four-six entrants to arrive at the course.

Horan was regarded as a dangerous contender in the race, as he holds the national speedway record for 250 miles, which he set at Atlanta Nov. 7, 1910. He went the distance in a Lozier in 3:26:15. The car which overturned with him yesterday after he lost control of it at the turn coming into the home stretch, probably will be repaired in time to be entered in the elimination trials tomorrow. Its new driver has not been named.

Horan, who is at a hospital, will be out of the racing game for several weeks. His mechanician, Everett Ward, who was painfully bruised when the Amplex upset, was at his repair pit today.

BROWN DEFEATS EDDIE CARSEY

Salt Lake Fighter Stopped in Fourth Round of Contest.

Hibbing, Minn., May 25.—Pal Brown had Kid Carsey groggy and staggering around the ring in the fourth round of their scheduled fifteen-round contest last night, the Salt Lake fighter's seconds throwing a towel into the ring to stop Carsey from being beaten into insensibility.

Never from the opening gong did Carsey have a chance. He showed some ability to assimilate punishment and gamely took a gruelling beating. Brown hit when and where he pleased. He sent heavy wallops to head and body, rocking the little visitor and hurt him early in the fight with a wicked blow over the heart.

Carsey came up groggy and unsteady for the fourth round. A terrific right followed by a heavy left dazed Carsey. He possessed enough fighting instinct to try to keep away from the eager Brown. He ran and tried to stall through the round. A savage blow started him reeling around the arena, a helpless and a defenseless fighter. Another blow would have knocked Carsey insensible, had not his seconds given up the battle.

The fight was witnessed by a large number of spectators. In every department of the fistic game Brown showed marked superiority, Carsey being unable to land an effective blow.

COLLEGE athlete IS DECLARED PROFESSIONAL.

Lincoln, Neb., May 25.—At a meeting last night of the university board, charges of professionalism against Sidney Collins, star center of the football team, were taken up and following testimony of witnesses and the introduction of affidavits to show that Collins had received money during the seasons of 1907 and 1908, the accused athlete made admission that he had received $200 for playing on the team.

The board adopted a resolution withdrawing Collins from participation in the Missouri valley track meet at Des Moines next Saturday, but voiced the opinion, that while Collins was guilty of professionalism, his acceptance of the money was for the purpose of enabling him to pursue his course in the university rather than as a direct reward for playing football on the team.

Princeton Wins.

Princeton, N. J., May 25.—In an interesting game here yesterday afternoon Princeton defeated Michigan university 5 to 4. Score: R. H. E.

Michigan	0 0 0 0 1 0 0 0 3	4	7	2
Princeton	0 0 1 1 0 0 0 3 x	5	8	2

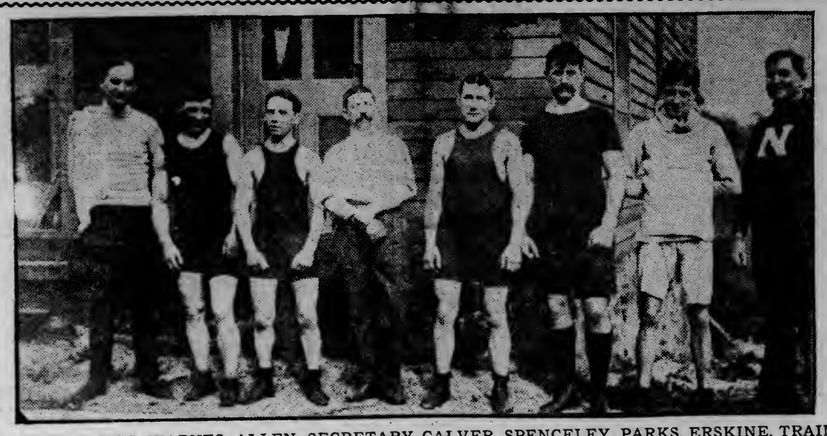
ENGLISH AMATEUR BOXERS IN AMERICA FOR BIG TOURNAMENT



TRAINER HAYES, WARNES, ALLEN, SECRETARY CALVER, SPENCELEY, PARKS, ERSKINE, TRAINER MURRAY.

Englishmen and Scotchmen in New York have been making pilgrimages to the Woodlawn Inn, where the English amateur boxers, who came over for the Pastime club athletic tournament, have been training. In the party, which came over under escort of W. T. Calver of the Amateur Boxing association, were: W. W. Allen, the bantam champion; R. Erskine, a star in the middleweight class; R. C. Warnes, a middleweight who won the championship of England five times between 1899 and 1910; A. Spenceley, the holder of the lightweight championship; and F. Parks, a heavyweight.

DEFECTIVE PAGE

ON THE IRON RANGES

MINERS MEET TRAGIC FATE

Three Men Blown to Pieces By Premature Explosion in Hibbing.

Putting Powder Into Hole at Sellers Pit When Explosion Occurs.

Hibbing, Minn., May 25.—(Special to The Herald.)—The premature explosion of blasting powder in the approach to the Sellers, an open pit mine, claimed three lives yesterday afternoon and badly injured a fourth, all miners.

The dead:
NICK MEAZURA.
FABIO BACKLICK.
BOZE RUKARVINA.

Two of the men were married and leave families in Austria. The bodies of two were shattered into shreds while that of the third was buried under an avalanche of earth and rocks, from which it was subsequently dug and found not mutilated. Just how the accident happened will never be known, but the supposition is that the men were pouring powder into a gopher hole when it exploded. The heads of two and pieces of flesh were blown quite a distance.

Inquest Not Necessary.

Deputy Coroner E. J. Pengelly was promptly on the scene, and after looking into the tragedy decided an inquest unnecessary, his official report declaring that "the men met their death by the accidental explosion of a blasting charge they were loading, and that death was instantaneous. Two of the bodies were dismembered, and the third buried under some tons of debris. I have ordered that the bodies are not to be viewed on account of the mutilation. No inquest will be necessary."

The coroner took charge of the work of gathering up the portions of the dismembered men and personally gathered up some of the remains. In talking of the matter later he said that probably no one was to blame for the accident, and further, that the actual facts would probably never be known. "Everything happened so quickly that the men never knew what struck them," said Dr. Pengelly. Supt. Pellenz of the Sellers pit was on the ground within a few minutes of the occurrence and immediately put twenty-two men to work to dig out the body of the miner who was buried.

TWO RANGE MEN GIVEN PATENTS

James Kimball of Virginia and George Martin of Chisholm Lucky Ones.

Washington, May 25.—(Special to The Herald.)—Patents were issued today to James L. Kimball of Virginia, Minn., for a railway tie and fastening, and to George W. Martin of Chisholm for an automatic retaining valve.

EVELETH NEWSPAPER TO BE LOCATED IN CHISHOLM.

Eveleth, Minn., May 25.—(Special to The Herald.)—Oscar La France of Chisholm yesterday purchased the good will and subscription lists of the Eveleth Star, from A. E. Pfremmer, who is now in charge of the Eveleth News. Mr. La France will continue the Star at Chisholm under the name of the Mesaba Miner.

David Larin, who has completed the sale of the Eveleth News, will leave next week for the Bertholdt Indian reservation, in North Dakota, to consider opening a bank in one of the reservation towns.

Backache Means Dying Kidneys

A Remarkable Treatment That Saves the Kidneys. How You May Cure Yourself Quickly and Thoroughly.

With the progress of science comes one remarkable treatment for kidney diseases. It has been so thoroughly tested and its results have proven so revolutionary that a well-known firm in Michigan has undertaken its distribution into every part of the country.

Those who suffer from kidney trouble and the diseases resulting from it will be pleased to know that every package of this treatment is thoroughly guaranteed. This should assure at last a positive cure to every sufferer.

Every man and woman should know that backache is usually a well-defined symptom of advancing kidney disease which may end fatally unless treated in time; that rheumatism and bladder trouble are caused from nothing more nor less than kidneys that do not filter the poison from the blood; that dropsy, Bright's disease, diabetes and bladderstones are caused by bad kidneys.

Once they are made to work properly, these diseases should quickly disappear.

This is done by the new treatment, Dr. Derby's Kidney Pills.

We urge everyone who has pain in the small of the back, profuse or scanty urination, pains in the bladder, cloudy or foul urine, not to fail to get a package today of Dr. Derby's Kidney Pills, and drop all other kidney treatments. Senator Stevenson, of Washington, writes from Olympia: "There is no question about the efficacy of Dr. Derby's Pure Kidney Pills in curing kidney and bladder trouble. I know whereof I speak."

Dr. Derby's Kidney Pills are now sold at all drug stores—25 and 50 cents, or direct from Derby Medicine Co., Eaton Rapids, Mich. If you would like to try them first, ask your druggist for a free sample package. Then buy a package; you will not regret it.

EVELETH MASONS HONOR DR. MORE

Past Master and Charter Member of Eveleth Lodge Given Apron.

Eveleth, Minn., May 25.—(Special to The Herald.)—Dr. C. W. More, postmaster and one of the founders of Eveleth lodge, No. 239, A. F. & A. M., and an ardent Mason worker, was last evening presented with a grand master's apron in appreciation of his services as worshipful master during the past year, at the gathering held at the Masonic hall. A short business session was held.

This was followed by an open meeting, attended by many friends of Dr. More, among whom were John H. Hearding of Duluth, a former prominent Evelethian. A banquet, arranged by the social committee headed by John P. Tredinnick, followed a short entertaining program. Toasts were responded to, and many witty talks given. Dr. More accepted the gift with a few appropriate words of thanks.

EVELETH ELKS AMBITIOUS.

Would Play Winner of Duluth-St. Paul Game.

Eveleth, Minn., May 25.—(Special to The Herald.)—The Elks' baseball team will play the winner of the Duluth-St. Paul Elks' game, if the present plans do not miscarry. The local Elks have defeated the Virginia Elks twice and are confident of making a good showing against either the Duluth or St. Paul nine. The Virginia Elks will be played for the first time on the local grounds next month and the usual drubbing will be administered by the locals.

SCHOOL EXERCISES

Rendered By Cohasset Schools on Wednesday Evening.

Grand Rapids, Minn., May 25.—(Special to The Herald.)—Work on the new $35,000 grade school building being built at Cohasset, five miles west of here, is progressing nicely. The concrete foundation is almost completed. The brick and other material is arriving and the brick work will be started soon.

School at Cohasset closes tomorrow and all the rooms will hold special exercises. The principal event in connection with the closing of the school was the home talent play and entertainment given at the village hall last evening. The play is a comedy entitled "Mr. Bob." The following program was given last night before a large audience:

Song, "If We Were You and You Were We," Fourth and Fifth grade pupils; lullaby, "Little Sleepy Head Dolly," primary pupils; rose march, by eight girls; song, "Memorial Day," six girls.

"Mr. Bob," Act I—Song, "Farmer Boys," lower grade boys; song, "The Faded Coat of Blue," Sixth and Seventh grade pupils.

"Mr. Bob," Act II—Cast of characters: Mr. Bob, Katherine's friend, Mrs. E. L. Buck; Philip Royson, a college lad, Roy K. Stokes; Miss Becky, Katherine's aunt, Mrs. William Smith; Jenkins, Miss Becky's butler, Robert Gift; Patty, Miss Becky's maid, Miss Hazel Prescott; Mr. Brown, clerk for law firm of Benson & Benson, Otto Frederick; Katherine, Philip Royson's cousin, Miss Phoebe Smith.

The proceeds will be used to purchase pictures for new school.

RIVAL MINING TEAMS

Of Baseball to Play at Nashwauk This Season.

Nashwauk, Minn., May 25.—(Special to The Herald.)—Max Barber, superintendent of the Crosby mine is taking active interest in baseball and will organize a team, composed of players employed at the Crosby. The superintendent tried out his men at the village park Sunday afternoon and found a great deal of excellent material. The Hawkins Mining company's players are also getting ready to toss the sphere and Supt. B. W. Batcheler is getting his recruits in shape for the season. The Hawkins mine will be represented by a fast team as all of their players have made good showings with many fast teams of the state. It is rumored that the mining companies will begin doing a little preparing on the local grounds, as many places in both the infields and outfields must be repaired before excellent work can be shown by the teams.

CANADIAN NORTHERN WORKMAN INJURED.

Eveleth, Minn., May 25.—(Special to The Herald.)—Charles O'Brien, working on the ballasting crew of the Walsh-Graffan company, on the Canadian Northern road, near Welch, Tuesday afternoon, had a narrow escape from being run over. He sustained a sprained ankle and a few minor bruises about the feet. He is being treated at the Lenont hospital at Virginia.

CHISHOLM BRIEFS.

Chisholm, Minn., May 25.—(Special to The Herald.)—Mrs. Charles Trvan, who suffered injuries from falling into a posthole dug for the electric lighting company is recovering and now goes about on crutches.

Mrs. Jalmar Ketoven, wife of Rev. Ketoven, Finnish Methodist minister here, will leave for Finland on Friday morning. Mrs. Ketoven's health has been very poorly during the last three months. Mr. Ketoven is to stay in this country and continue his pastoral work in Chisholm and other towns on the Mesaba range.

Mrs. John Lanyon, lately from Calumet, Mich., is to return to Calumet, until such time as the family may secure a suitable house in Chisholm. Mr. Lanyon is in the employ of the Oliver Iron Mining company at the Monroe mine.

A. B. Coates of Virginia, principal owner of the Euclid mine was in Chisholm on Tuesday, looking after his interests at the mine.

Mrs. J. L. Phillips, wife of Mr. Phillips the furniture and undertaker is seriously ill at Hibbing at the home of her sister, Mrs. Conner.

TACONITE ITEMS.

Taconite, Minn., May 25.—(Special to The Herald.)—"Billy" Williams has gone to Florida to reside on his farm. He was fortunate enough to get a good piece of land on Palm Beach. Mr. Williams has resided at Taconite for the past three years, employed by the Oliver Mining company as machinist.

The Oliver Iron Mining company has installed a new electric pump, to take the place of the steam pump. They draw 120 gallons of water to the stroke, where the old ones took forty gallons.

President Pat Campbell has returned from Hibbing, where he has been for the past two weeks doing business for the Garvey location.

Henry Denn while driving a team for the Oliver Mercantile company was thrown from the wagon and badly bruised. He had four stitches taken in a gash over his right eye. Mr. Denn will be able to work in a few days.

Dan Cassidy, who had his arm broken a short time ago was kicked yesterday by a horse in the face and had three teeth knocked out.

VERBANICH IS RESTING EASILY

Waterhen Homesteader Doing All Right in Hospital at Virginia.

Virginia, Minn., May 25.—(Special to The Herald.)—Peter Verbanich, the Waterhen creek homesteader who was wounded in the struggle with deputy sheriffs Tuesday afternoon, is doing nicely at the Lenont hospital here and will probably be able to appear in court soon, when he will be arraigned on a charge of felonious assault.

Mrs. Verbanich, wife of the imitator of John Dietz, is virtually a prisoner in the Verbanich home on the Waterhen, eighteen miles south of Biwabik, and will be arrested if she bothers the loggers who are driving logs through the Verbanich homestead. Mayor John Saari of Eveleth, who is interested in some of the lumber being driven through the property, is there with a warrant for her arrest on a charge of felonious assault, and if she gets troublesome will serve it. Consideration for the fact that she has a number of children to care for has stayed the hand of the law. Mayor Saari has been deputized to serve the warrant if necessary, but it is not expected the woman will offer further resistance. The neighbors of the Verbanichs have kept aloof from mingling in the difficulty, but it is claimed if any effort is made to separate the mother from her children they will voice their indignation in strong terms.

LIBERTY SHORT LIVED.

Accused Virginian Released on Habeas Corpus and Rearrested.

Virginia, Minn., May 25.—(Special to The Herald.)—Andrew Johnson of Kinney, after being sentenced early in the week by Judge Carey to sixty days in the county jail for drunkenness, sought his freedom by applying to District Court Commissioner Archer for a writ of habeas corpus. He was released on the writ, but was immediately rearrested for assault and battery.

MORE HIBBING MINES BEGIN SHIPPING ORE.

Hibbing, Minn., May 25.—The Shenango pit began shipping yesterday, when three shovels were put to work on both day and night shifts. Two hundred cars will be loaded and shipped every twenty-four hours and the Shenango pit will be one of the busiest places on the Mesaba range during the remainder of the season. The ore will be shipped over the Mississabe road and will about double the shipments now being made by that road.

The Poole pit began loading yesterday and will send to the docks about fifty cars a day for the present. The Hull is now sending forty and the Burt forty.

DISTRICT COURT AT HIBBING JUNE 6.

Hibbing, Minn., May 25.—(Special to The Herald.)—A term of range district court will open here June 6, Judge Martin Hughes presiding. While the calendar has not been completed it is certain that the term will be a long one, with several criminal actions and a large number of civil cases.

TWO EVELETH WOMEN PAY FINES FOR DRUNKENNESS.

Eveleth, Minn., May 25.—(Special to The Herald.)—Mrs. A. Starana, was brought into municipal court yesterday morning for the third time on a charge of being drunk. She pleaded guilty, and was fined $22 and costs, or ninety days. She paid the fine. Mrs. E. Esola, who was tried on the same charge, paid a fine of $20 and costs.

Two Assyrians, who engaged in a rough and tumble scrap at the Globe hotel Tuesday evening, were each fined $22 and costs. They left town, decorated with bandages as a result of their fight experience.

Plan Odd Fellows' Picnic.

Eveleth, Minn., May 25.—(Special to The Herald.)—Secretary Richard Trevarthen, Master Grand Ferdinand Klang, Ell Culvert and Richard Eddy represented the local order of Odd Fellows at the meeting of the Range Association of Odd Fellows, held at Gilbert last evening to arrange for this year's picnic.

A potted plant and flower sale will be held at the City drug store Saturday by the Ladies' Aid Society of the First Presbyterian church.

EVELETH'S POSTAL BANK WILL OPEN JUNE 12.

Eveleth, Minn., May 25.—(Special to The Herald.)—Eveleth's postal savings bank will be opened June 12. The local postal clerks will be supplied with information as to how to conduct the bank on Postmaster Hatch's return from Bemidji, where he will study the postal bank system, June 6 and 7.

Had Daughter in Two Harbors.

Eveleth, Minn., May 25.—(Special to The Herald.)—Thomas Devine died Sunday at Stevens Point, Wis., after an illness of six days with meningitis. He was well known here, having visited Eveleth many times. He is survived here by two daughters, Mrs. Timothy Shea and Miss Agnes Devine. Mrs. Maurice Archdeacon, a daughter of the deceased resides at Two Harbors. The range relatives of the deceased were present at his funeral held yesterday morning at Stevens Point.

STANDARD OIL DECISION IS "MISCHIEVOUS" SAYS HARLAN IN DISSENTING

(Continued from page 1.)

corporations after the transfer of the stock by the New Jersey corporation."

"Are Informed Unwisely."

"Taking this language in connection with other parts of the opinion," says Justice Harlan, "the subsidiary companies are thus, in effect, informed—unwisely, I think—that although the New Jersey corporation, being an illegal combination, must go out of existence, they may join in an agreement to restrain commerce among the states, if such restraint be not undue."

As in his oral remarks, Justice Harlan devotes himself largely to criticism of the court for holding that not every restraint of trade violates the law.

He reiterates that the court reversed its former rulings in the trans-Missouri freight and joint traffic association cases. Quoting several hundred words from each of these opinions, Justice Harlan says:

"These utterances show so clearly and affirmatively as to admit of no doubt that this court, many years ago, upon the fullest consideration, interpreted the anti-trust act, as prohibiting and making illegal, not only every contract or combination in whatever form, which was in restraint of interstate commerce, without regard to its reasonableness or unreasonableness, but all monopolies or attempts to monopolize any part of such trade or commerce."

Quotes "Judge Taft."

Justice Harlan, referring to other decisions as bearing out his interpretation of the said decisions, calls particular attention to one of Judge Taft, now president, in the Addistone Pipe case.

"Judge Taft said," continues Justice Harlan, "that according to the decision of this court in the freight association case, 'contracts in restraint of interstate transportation were within the statute whether the restraints could be regarded as reasonable at common law or not.'"

The justice, in further support of the statement that the whole government, including the courts and congress, understood that "every" restraint was prohibited, quotes at length from an adverse report made in 1909 by Senator Nelson on behalf of the senate judiciary committee in reference to a bill proposing to amend the Sherman anti-trust law to distinguish between reasonable and unreasonable restraints.

Says He Is Surprised.

"After what has been adjudged," Justice Harlan says, "upon full consideration, as to the meaning and scope of the anti-trust act and in view of the usages of this court when attorneys for litigants have attempted to reopen questions that have been deliberately decided, I confess to no little surprise as to what has occurred in the present case."

DEMOCRATS PROMISE SUPPORT FOR PLAN LA FOLLETTE URGES

(Continued from page 1.)

views with United States Senators Aldrich and Penrose, in which Mr. Hines said Mr. Aldrich repeatedly had impressed upon him the importance of Lorimer's election, and had told him that President Taft was especially concerned in Mr. Lorimer's behalf.

Referring to the Hines statement concerning a long-distance telephone conversation between Washington and Springfield, held by Hines with Lorimer, pending the election at Springfield, Mr. La Follette said that at Lorimer's request Hines had telegraphed to Lorimer the substance of his telephone representations to him. This telegram could and should be procured, he said.

As To Taft's Part.

Saying that this conversation had been held for the purpose of presenting to Lorimer the president's alleged solicitude that he should make the race, Mr. La Follette said:

"There is no proof that the president was interfering, but I think that there was a scheme to put Lorimer through and it was believed that the use of the president's name would be potential. There is no doubt that his name was used in a telegram and no doubt that it was used behind locked doors and drawn screens. It helped to influence members who could not be reached otherwise."

Discussing Hines' activity in the Lorimer campaign, which is accounted for on the ground that Lorimer would favor a duty on lumber, Mr. Lorimer said that during the last Lorimer investigation by the senate, Hines was much in evidence about the capitol at Washington.

"He sought senators at every turn and was brazen and impudent in his work he said. "How he was received in all cases, I do not know, but I do know that in some cases he was rebuked."

Election in Wisconsin.

He said that Hines had appeared again at the opening up of the question this session. Then, evidently referring to the election of Senator Stephenson of Wisconsin, though not mentioning his name, Mr. La Follette said:

"In another senatorial campaign in Wisconsin, his (Hines) henchmen were notoriously active for the successful candidate and his principal agent has not dared to remain within the borders of the state."

Mr. La Follette said he had no personal feeling in the matter, but that his motive was to prevent the undermining of the government by corrupt influences.

Mr. La Follette quoted much of the testimony taken by the Illinois legislature to support his contention that Lorimer had known of the use of money in his interest and he hoped that the senate would "find the men back to this infamy, no matter how high up they may be in the financial world."

Petit "a Lorimer Judge.

He referred to the interference by Judge Petit of Chicago, in the investigation of the accounts of E. C. Tilden, whom he characterized as a Lorimer judge."

Mr. La Follette will close his speech by outlining his reasons for favoring having a special committee conduct the proposed inquiry.

CRYSTAL FALLS WOULD COMBINE TWO HALLS.

Crystal Falls, Mich., May 25.—(Special to The Herald.)—The proposition of building a combined city hall and opera house is a matter to which the city council is now giving attention. A structure costing some $35,000 is proposed. While no definite plans have yet been made it is expected the proposition will be submitted to the people at an election to be held in the fall.

DIRE DISTRESS

It Is Near at Hand to Hundreds of Duluth Readers.

Don't neglect an acking back.

Backache is the kidney's cry for help.

Neglect hurrying to their aid

Means that urinary troubles follow quickly.

Profit by a Duluth citizen's experience.

Abraham Moore, 221 53rd Ave., N., Duluth, Minn., says: "My experience with Doan's Kidney Pills has convinced me that they are a reliable kidney medicine. I had kidney and bladder complaint and was bothered a great deal by too frequent passages of the kidney secretions. I also had fainting and dizzy spells and at one time fell down senseless. The use of Doan's Kidney Pills benefited me in every way and since taking this remedy, I have had but little cause for complaint. I know that I am making no mistake in recommending this preparation."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

AMUSEMENTS

TONIGHT'S ATTRACTIONS.

LYCEUM—Barnum, the Hypnotist.
ORPHEUM—Vaudeville.
EMPRESS—Vaudeville.
ODEUM and LYRIC—Photoplay.

Green Room Gossip.

Barnum, the hypnotist, will close his engagement at the Lyceum tonight.

There are four prima donnas in the production of "Madame Sherry," the international musical comedy success which will be on view here for the first time at the Lyceum theater on Friday night. Tessa Kesta, who sings the role of Yvonne Sherry, the little convent girl, was prima donna with Adeline Genee in "The Silver Star" last year; Mary Quive, who sings the role of Lulu, the dancer, was prima donna of "Woodland" and "The Country Girl," and last season shared the prima donna role in "The Golden Butterfly" with her sister, Grace Van Studdiford; Lottie Kendall, who appears as Pepita, was for several years chief figure of the Kendall and the Olympia opera companies, very popular on the Pacific coast; Cheridan Simpson, who appears as Katherine, the housekeeper, was star of "The Red Feather," and was prima donna of "King Dodo," "Peggy From Paris" and numerous other successes.

* * *

"I am from Cork and Mr. Lawrence is from Belfast, so we ought to have a license to present an Irish sketch," said Miss Lillian Fitzgerald, who is at the Orpheum this week in a sketch called "Just Landed," in which she impersonates a young Irish girl who has just come to America.

"Both of us were born in Ireland, and our fathers and grandfathers were born in Ireland. We're as Irish as a piece of the shamrock, so it isn't difficult for us to impersonate Irish characters."

Mr. Lawrence was formerly stage manager for Henry W. Savage and had charge of some of the largest musical comedy productions sent out in recent years. The last time he visited Duluth was as general stage director for "Woodland." During the past season, however, he decided to essay vaudeville, and arranged the little sketch in which he is now appearing with Miss Fitzgerald. His rich baritone voice is heard to good advantage in the old Irish melodies.

* * *

Paul Conchas, who is at the Empress this week, was a participant in the memorable army and navy maneuvers incident to the opening of the Kiel canal two or three years ago. There were present the fighting men of all nations, and at the conclusion of the maneuvers the kaiser had asked his officers to prepare some sort of entertainment for the visitors on the field, and, accordingly, various stunts were gotten up to show the prowess of the German soldier on land as well as on sea.

Conchas had considerable local reputation in the town where his regimental barracks were located, and had frequently given private exhibitions for officers and men of his command. In the field a gun carriage was standing, Conchas walked over, picked it up, put it on his shoulder, and carried it off. Tremendous applause greeted this exhibition of what seemed like superhuman strength, and there were calls for more. The husky soldier boy picked up some Krupp shells and tossed them in the air as though they were mere billiard balls, caught them as they descended on the back of his neck, and balanced them there for several minutes.

Kaiser Wilhelm was the proudest man of the moment and at the conclusion of the exhibition sent for Conchas, and conferred on him some minor decorations.

* * *

"Back to the Primitive" is the feature film this week at the Lyric theater. The passengers abandon a ship, leaving on a raft. They land on a deserted island and their adventures are interesting. "The Carnival" tells the story of one who tried to unite a separated wife and husband at a masked ball where both are in attendance. "Soldiers Three" is a delightful comedy. It deals with three soldiers who take a swim and come out of the water only to find their clothes gone. "It's a Girl Like You That Keeps a Fellow Guessing" is a pretty song which is rendered by I. S. Mistachkin.

At the Odeum "In the Day of Nero" is the feature film. It is a tragedy, but the story is interesting. "The Manicure Lady" is good comedy. "Give Me a Shove, I'm Falling in Love" is the title of the illustrated song. It is one of the most enjoyable parts of the show.

ORGAN RECITAL FOR SCHOOL TEACHERS.

It has been found necessary to shorten the organ recital to be given on Saturday morning at 10 o'clock at the Mesonic temple for the teachers. The following is the final revision:

Symphony No. 3, (Eroica), first movement; Allegro con brio.....Beethoven

"Wotan's Farewell and Magic Fire Spell" "Die Walkuere".....Wagner

Symphonic poem—"Danse Macabre".....Saint-Saens

Ballet suite from "Le Cid"—(a) Castillane; (b) Aragonaise; (c) Andabade; (d) Madrilene; (e) Navaraise.....Massenet

Andante Cantabile, second movement, fifty symphony.....Tschaikowsky

"Espana" (Spanish rhapsody).....Chabrier

The first movement of the third symphony contains the principal themes of the whole symphony, and it has been selected as representative of the Beethoven number. "Wotan's Farewell and Magic Fire Spell" is a beautiful example of the lighter harmonies of Wagner. The ballet suite embraces the typical dance music of several sections of Spain. The Tschaikowsky number is the beautiful second movement of his fifth symphony and, probably, the best liked, while the last number gets into the music of Spain with a swing and a go which takes the hearer to the land of the castinets and guitar.

OCONTO CHILD BURNED BADLY WITH CARBOLIC ACID.

Oconto, Wis., May 25.—(Special to The Herald.)—A 2-year-old son of Mrs. Martin Young found a bottle of carbolic acid and spilled the contents over its body and limbs, receiving burns which physicians fear will prove fatal or make the little one a cripple for life.

ILLINOIS REVENUE BILL LOST IN SHUFFLE.

Springfield, Ill., May 25.—In the hurley burley attendant upon the last night of the session of the legislature, the revenue bill providing the tax levy under which appropriations amounting to $19,500,000 are to be raised, got lost on the senate side and failed to pass.

Until the revenue bill is properly passed by the general assembly, there is no way by which the taxes necessary to produce the state's revenue can be levied or collected. In order to straighten out the tangle, it will be necessary for the two houses to re-consider and rescind the sine die adjournment resolution.

Lightning Strikes Marinette Home.

Marinette, Wis., May 25.—(Special to The Herald.)—The home of Alfred Hanebeck, on Parkridge avenue, was struck by lightning. The chimney crashed through the roof into a room in which an infant was sleeping, but the little one was unhurt.

Montana Town Protests.

Great Falls, Mont., May 25.—Alleged discrimination on the part of the Great Northern Railway company against Great Falls in the matter of freight rates has been brought to the attention of the interstate commerce commission by business men of this city.

What Voyagers Drink.

On an average run of one of the modern ocean greyhounds the passengers consume 1,100 bottles of champagne, 850 bottles of claret and 8,500 bottles of different brews of beer. It is claimed that this proves the tendency toward beer as a bodily tonic and appetizer, because of scientific brewing, such as is used in the making of golden grain belt beers, so pure that they are prescribed by physicians as the proper mild tonic for family use. Order of your nearest dealer or be supplied by duluth branch minneapolis brewing company.

Mohawk Twins Numerous.

Mohawk, Mich., May 25.—(Special to The Herald.)—This town of Keweenaw county believes it holds the championship of Michigan when it comes to producing twin babies, the size of the population considered. Mohawk is the home only of some hundreds of people, yet since March 17 five sets of twins have been born. Arrivals which have come singly have run the birth rate up to imposing figures. The year is a record breaker in that respect, in fact.

A Helpless Invalid

Restored to Health by Lydia E. Pinkham's Vegetable Compound

A woman who is sick and suffering, and won't at least try a medicine which has the record of Lydia E. Pinkham's Vegetable Compound, is, it would almost seem, to blame for her own wretchedness. Read what this woman says:

Richmond, Mo.—"When my second daughter was eighteen months old I was pronounced a hopeless invalid by specialists. I had a consultation of doctors and they said I had a severe case of ulceration. I was in bed for ten weeks, had sinking spells, and was pronounced to be in a dangerous condition. My father insisted that we try Lydia E. Pinkham's Vegetable Compound, and brought me six bottles. I soon began to improve, and before it had all been taken I was as well and strong as ever,—my friends hardly recognized me so great was the change."—Mrs. Woodson Branstetter, Richmond, Mo.

There are literally hundreds of thousands of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over thirty years ago by a woman to relieve woman's suffering.

Read what another woman says:—

Jonesboro, Texas.—"I have used Lydia E. Pinkham's Vegetable Compound for myself and daughter, and consider it unequalled for all female diseases. I would not be without it for anything. I wish every mother in America could be persuaded to use it as there would be less suffering among our sex then. I am always glad to speak a word of praise for Lydia E. Pinkham's Vegetable Compound, and you are at liberty to use this testimonial."—Mrs. James T. Lawrence, Jonesboro, Texas.

Since we guarantee that all testimonials which we publish are genuine, is it not fair to suppose that if Lydia E. Pinkham's Vegetable Compound had the virtue to help these women it will help any other woman who is suffering from the same trouble?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

If the slightest trouble appears which you do not understand, write to Mrs. Pinkham at Lynn, Mass., for her advice—it is free and always helpful.

IN STOCK BY

Duluth Auto Supply Co.,

412 East Superior Street.

Particularly the Ladies.

Not only pleasant and refreshing to the taste, but gently cleansing and sweetening to the system, Syrup of Figs and Elixir of Senna is particularly adapted to ladies and children, and beneficial in all cases in which a wholesome, strengthening and effective laxative should be used. It is perfectly safe at all times and dispels colds, headaches and the pains caused by indigestion and constipation so promptly and effectively that it is the one perfect family laxative which gives satisfaction to all and is recommended by millions of families who have used it and who have personal knowledge of its excellence.

Its wonderful popularity, however, has led unscrupulous dealers to offer imitations which act unsatisfactorily. Therefore, when buying, to get its beneficial effects, always note the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package of the genuine Syrup of Figs and Elixir of Senna.

For sale by all leading druggists. Price 50 cents per bottle.

OFFICIAL PROCEEDINGS.

Council Chamber,
Duluth, Minn., May 22, 1911.

Regular meeting.

Roll call:

Present—Aldermen Bergstrom, Bernard, Curren, Gibson, Hector, Hoar, Hogan, Jordan, Krueger, MacDonell, Makowski, Miller, Wharton, President Shartel—14.

Absent—Aldermen Barnes, Scott—2.

Alderman Hoar moved that the minutes of meeting of May 15th be approved as published in pamphlet form.

Alderman Krueger moved that the minutes be corrected in the paragraph "Alderman Barnes gave notice that at the next meeting of the council he would move amendments to said resolution requiring increased service on various lines," following the report of the Committee on Railroads, Telephones and Telegraph Lines relative to street car service, by striking out the words "move amendments to said" and by inserting in lieu thereof the word "submit."

The correction was made and the minutes as so corrected and as published in pamphlet form were declared approved by a unanimous yea vote of all present, on roll call.

PRESENTATION OF PETITIONS AND OTHER COMMUNICATIONS.

Susan McKenzie, et al., protesting against proposed sprinkling of Oxford street from Roslyn avenue to Princeton avenue—Streets, Alleys and Sidewalks.

H. J. Mullin on behalf of property owners offering to transfer ornamental light standards to city—Light and Water.

C. J. Petruschke, et al., asking that cement walk on north side of Roosevelt street from Fifty-second to Fifty-third avenues west be changed from 5-feet to 6-feet in width—Streets, Alleys and Sidewalks.

A. L. Agatin, Charles F. Haley, Stephen R. Kirby and William J. O'Connor, notice of injury to property—City Attorney.

Standard Investment Co., et al., for the improvement of Ninth street from Seventh avenue east to Chester Park; Highland Company, et al., for the improvement of Highland avenue from Orange street to Balsam street;

Joseph Lackowitz, et al., that a sanitary sewer be constructed in Seventh alley from Fourth avenue east to Fifth avenue east;

Board of Education of the City of Duluth, et al., for the construction of a sanitary sewer in Fifth street from Thirty-ninth to Forty-first avenues west;

Standard Investment company, et al., for the construction of a sanitary sewer in Ninth alley from Ninth avenue east to Twelfth avenue east, with outlet;

O. S. Ingebo, et al., for the condemnation of the alley between Fourth and Fifth street from Eleventh avenue west to Thirteenth avenue west—Board of Public Works.

Applications for license to operate motor vehicles;

Report on petition for the construction of a sanitary sewer in Grevsolon place from Twenty-ninth avenue east to outlet sewer in Thirty-first avenue east;

Report on petition for a sanitary sewer in Sixty-fifth, Sixty-fourth and Sixty-third alleys west from Raleigh street to Main street, and in Main street from Sixty-fifth alley west to Grand avenue, thence in Grand avenue to a connection with the outlet sewer in Sixty-first avenue west—Drains, Sewers and Sanitation.

UNFINISHED BUSINESS.

The resolution submitted by the Committee on Streets, Alleys and Sidewalks directing the Board of Public Works to omit the block between Third and Fourth streets in the improvement of Second avenue east from Michigan street to Fourth street, was read.

Alderman Hogan moved that action on the resolution and all proceedings relative to said improvement be postponed for ninety days. The motion was declared adopted by a unanimous

(Continued on page 16, fifth column.)

ASSESSMENT FOR LOCAL IMPROVEMENT.
Office of the
BOARD OF PUBLIC WORKS.

City of Duluth, Minn., May 23, 1911.

Notice is hereby given that the Board of Public Works of the city of Duluth has completed its assessment for Thirteenth avenue east grading, and that at Ten o'clock A. M., on the Fifth day of June, A. D. 1911, said Board of Public Works will attend at the office of said Board in the City Hall building for the purpose of hearing objections thereto; that all objections made to said assessment must be filed in writing with said Board at least one day prior to the time above specified, and that unless sufficient cause is shown to the contrary, the said assessment so made as aforesaid will be confirmed.

Notice is hereby further given that the following is a copy of said assessment roll so completed as aforesaid:

ASSESSMENT ROLL.

Duluth, Minn., May 19, 1911.

The Board of Public Works of the City of Duluth doth hereby assess and levy upon and against the several lots, parts of lots and parcels of land below described, the respective sums of money set opposite each lot, part of lot, or parcel of land. The assessment is levied to defray in part the expense of grading and otherwise improving Thirteenth avenue east from Second street to Fourth street, according to benefits.

ASSESSMENT FOR LOCAL IMPROVEMENT.
Office of the
BOARD OF PUBLIC WORKS.

City of Duluth, Minn., May 23, 1911.

Notice is hereby given, That the Board of Public Works of the City of Duluth has completed its assessment for Wellington street sewer, and that at Ten o'clock A. M., on the Fifth day of June, A. D. 1911 said Board of Public Works will attend at the office of said Board in the City Hall building for the purpose of hearing objections thereto; that all objections made to said asssessment must be filed in writing with said Board at least one day prior to the time above specified, and that unless sufficient cause is shown to the contrary, the said assessment so made as aforesaid will be confirmed.

Notice is hereby further given that the following is a copy of said assessment roll so completed as aforesaid:

ASSESSMENT ROLL.

Duluth, Minn., May 19, 1911.

The Board of Public Works of the City of Duluth doth hereby assess and levy upon and against the several lots, parts of lots and parcels of land below described, the respective sums of money set opposite each lot, part of lot, or parcel of land. The assessment is levied to defray in part the expense of constructing a sanitary sewer in Wellington street from Michigan avenue to Grand Forks avenue, with outlet in Grand Forks avenue to Wellington alley, according to benefits.

ASSESSMENT FOR LOCAL IMPROVEMENT.
Office of the
BOARD OF PUBLIC WORKS.

City of Duluth, Minn., May 23, 1911.

Notice is hereby given that the Board of Public Works of the city of Duluth has completed its assessment for Tacony street sewer, and that at Ten o'clock A. M., on the Fifth day of June A. D. 1911, said Board of Public Works will attend at the office of said Board in the City Hall building for the purpose of hearing objections thereto; that all objections made to said assessment must be filed in writing with said Board at least one day prior to the time above specified, and that unless sufficient cause is shown to the contrary, the said assessment so made as aforesaid will be confirmed.

Notice is hereby further given that the following is a copy of said assessment roll so completed as aforesaid:

ASSESSMENT ROLL.

Duluth, Minn., May 19, 1911.

The Board of Public Works of the City of Duluth doth hereby assess and levy upon and against the several lots, parts of lots and parcels of land below described, the respective sums of money set opposite each lot, part of lot, or parcel of land. The assessment is levied to defray in part the expense of constructing a sanitary sewer in Tacony street from Fifty-ninth Alley West to the sewer in Fifty-seventh avenue west, according to benefits.

ASSESSMENT FOR LOCAL IMPROVEMENT.
Office of the
BOARD OF PUBLIC WORKS.

City of Duluth, Minn., May 23, 1911.

Notice is hereby given, That the Board of Public Works of the City of Duluth has completed its assessment for the sewer in Superior alley and Greysolon place, and that at Ten o'clock A. M., on the Fifth day of June, A. D. 1911, said Board of Public Works will attend at the office of said Board in the City Hall building for the purpose of hearing objections thereto; that all objections made to said assessment must be filed in writing with said Board at least one day prior to the time above specified, and that unless sufficient cause is shown to the contrary, the said assessment so made as aforesaid will be confirmed.

OFFICIAL PROCEEDINGS.

(Continued from page 15.)

yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

MOTIONS AND RESOLUTIONS.

By Alderman Miller:

Resolved, That the Board of Public Works is hereby directed to change the outlet sewer in Sixth avenue east from Eighth street to Seventh street from the west side of said Sixth avenue to the center of the avenue, the cost of work already done to be paid by the city provided the cost does not exceed $125.00.

Alderman Miller moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Wharton:

Resolved, That the Board of Public Works is hereby directed to require the companies maintaining pole lines on Oneida street to replace broken poles and straighten up leaning poles.

Alderman Wharton moved the adoption the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Wharton:

Resolved, That the time for the payment of the assessment for the construction of a sanitary sewer in Gladstone street is hereby extended fifteen days without penalty.

Alderman Wharton moved the adoption of the resolution and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Wharton:

Resolved, That the city engineer is hereby directed to establish the grade on Thirteenth avenue east between Sixth and Seventh streets.

Alderman Wharton moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Wharton:

Resolved, That the Duluth-Edison Electric company is hereby directed to discontinue the light located at the intersection of Twenty-fifth avenue east and Second street, and in lieu thereof to maintain a light at the intersection of Twenty-sixth avenue east and Second street.

Alderman Wharton moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Bernard:

Resolved, That the city treasurer is hereby directed to receive from the owner of lot 170, block 24, Duluth Proper, Third division, including lot 170, block 100, Duluth Proper, Second division, the amount of the original assessment levied against said lots to assessment levied against said lots to defray the expense of a sanitary sewer in First alley, as full payment thereof, provided the same is paid within fifteen days from the date of the passage of this resolution, and further provided that said owner shall at the same time pay the sum of $1.50, the estimated cost of the publication of this resolution.

Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Bernard:

Resolved, That the city treasurer is hereby directed to receive from the owner of the north 33 1-3 feet of lots 1, 2, 3, 4, 5 and 6, block 26, West Park division; the amount of the original assessments against said property for the construction of the outlet sewer in Thirty-first avenue west and the grading of Gilbert street, with interest thereon at the rate of 6 per cent per annum as full payment of said assessments, provided the same are paid within fifteen days from the date of the passage of this resolution.

Resolved further, That upon such payment being made the city comptroller is hereby directed to certify to the county auditor that the same have been paid.

Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Makowski:

Resolved, That the city engineer is hereby authorized to raise the grade of the sewer in Sixth avenue east at Eighth alley to an elevation of 281 feet above datum, adjusting the grade of the proposed alley sewer to meet this grade.

Alderman Makowski moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Makowski:

Whereas, Mr. C. J. Fink has constructed a retaining wall in front of his premises on Sixth street west of Eighth avenue east, which encroaches on the street but does not in any way interfere with the graded street or the sidewalk space and is therefore not a detriment to the street; therefore,

Resolved, That the said Fink is hereby granted permission to maintain said retaining wall on said street provided that this permission may be rescinded at any time by this council on sixty days' notice.

Alderman Makowski moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Krueger:

Resolved, That the Board of Public Works is hereby directed to investigate the railroad track constructed across Commonwealth avenue on the plat of Gary, and notify the person or corporation laying said track that it is necessary to secure a franchise from the city to cross streets with railroad tracks.

Alderman Krueger moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Curren:

Resolved, That there is hereby appropriated from the general fund the sum of $100 for the completion of repairs to the Morse street dock, and the Board of Public Works is hereby directed to complete said repairs at an expense of not to exceed said sum.

Alderman Curren moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Hector:

Resolved, That there is hereby appropriated from the permanent improvement fund the sum of not to exceed $200 for the grading and improvement of the grounds of the contagious disease hospital, and the Board of Public Works is hereby directed to cause said work to be done.

Alderman Hector moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Jordan:

Resolved, That the city treasurer is hereby directed to receive payment of assessment for the improvement of Fifth street from Fifteenth avenue east to Woodland avenue until June 10, 1911, without penalty.

Alderman Jordan moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Jordan:

Resolved, That the time for payment of the final assessment for the improvement of Sixth street from East Cascade street to Fourteenth avenue east, without penalty, is hereby limited to June 15, 1911.

Alderman Jordan moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Jordan:

Resolved, That the time for the payment of the assessment for the paving and otherwise improving of Fourth street from Twenty-third to Twenty-seventh avenues east is hereby extended for a period of ninety days, without penalty.

Alderman Jordan moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

By Alderman Jordan:

Resolved, That the city treasurer is hereby directed to receive from the owner of lots 7, 8, 9 and 10, block 130, West Duluth, Fifth division, the amount of the original assessment levied to defray in part the cost of constructing a sanitary sewer in Fifty-ninth alley west, with interest thereon at the rate of 6 per cent per annum, as full payment of said assessment, provided the same is paid within fifteen days from the date of the passage of this resolution, and further provided that such owner shall at the same time pay the sum of $1.50, the estimated cost of the publication of this resolution.

Alderman Jordan moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

Chairman Wharton of the Committee on Ordinances and Resolutions stated that business men, who objected to the enforcement of the ordinance prohibiting encroachments on sidewalk space, had been invited to be present at the council meeting and asked that they be heard. A number of such persons were heard.

On motion of Alderman Jordan the city attorney was requested to hold up prosecution under said ordinance until the council has had time to investigate the question. The motion was declared adopted by a unanimous yea vote of all present, on roll call.

The following consolidated resolution was offered by Alderman Wharton, Bernard, Shartel, Hector, Miller:

Resolved, That the Board of Public Works is hereby directed to discontinue proceedings heretofore instituted for the construction of sidewalks, as follows:

On the east side of Sixtieth avenue east in front of lot 18, block, 36, Lester Park, Third division.

On the north side of Fourth street from Woodland avenue to Twenty-first avenue east.

On the north side of Ramsey street from Fifty-fourth avenue west to Fifty-fifth alley west.

On the north side of Wellington street from Michigan to Pacific avenues.

On the east side of St. Croix avenue from the railroad tracks to the present walk, about 400 feet.

On the southerly side of Fifth street from Lake avenue westerly 25 feet.

On the north side of First street from Fifth to Sixth avenues East.

On the west side of Tenth avenue east from Third alley to Third street.

On the west side of Washington avenue from Superior street to First street.

Alderman Miller moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

The following consolidated resolution was offered by Aldermen Hector, Bernard, Miller, Wharton, Krueger:

Resolved, That the Board of Public Works is hereby directed to cause sidewalk to be constructed as follows:

A 3-plank walk on the southerly side of Eighth street from Third avenue east westerly 250 feet.

A 6-foot cement walk on the southerly side of Fifth street from Lake avenue westerly 100 feet.

A 4-foot plank walk on Sixth street from Twenty-third to Twenty-fourth avenues west.

A 6-foot cement walk on the north side of First street from Fifth to Sixth avenues east.

A 5-foot cement walk on the east side of Twenty-fourth avenue east from Second street south to Second alley.

On the north side of Superior street from Twenty-fourth avenue east westerly to the present walk.

A 4-foot plank walk on the east side of Sixty-fourth avenue west from Roosevelt street to Nicollet street.

Resolved further, That said board is hereby directed to proceed in accordance with the provisions of the city charter to levy assessments upon the property benefited to defray the cost of said sidewalks, together with such other expenses as under the provisions of said charter may be assessed.

Resved further, That it is hereby directed that the cost of said sidewalks be paid out of the general fund.

Alderman Hector moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

REPORTS OF STANDING COMMITTEES.

To the Common Council:

Your Committee on Bridges, Viaducts and Ferries, to which was referred request of the Board of Public Works, having considered the same, recommend the adoption of the following resolution:

FRANK MAKOWSKI,
C. R. HOAR,
J. A. WHARTON,
Committee.

Resolved, That there is hereby appropriated the sum of $70 to cover the cost of cleaning the aerial bridge for the balance of 1911, such cost to be paid out of the general fund on monthly pay roll.

Alderman Makowski moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:

Your Committee on City Property, Buildings and Markets, to which was referred award of contract, having considered the same, recommend the adoption of the following resolution:

J. A. MacDONELL,
CHAS. J. HECTOR,
Committee.

Resolved, That the contract awarded by the Board of Public Works to August Melander for repapering portions of the city hall is hereby confirmed.

Alderman MacDonell moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:

Your Committee on City Property, Buildings and Markets, to which was referred communication from the Board of Public Works, having considered the same, recommend the adoption of the following resolution:

JOHN A. MacDONELL,
CHAS. J. HECTOR,
Committee.

Resolved, That the Board of Public Works is hereby authorized to rent suitable premises for public pounds at Lakeside and West Duluth, at a cost of not to exceed $5.00 per month each for the time used.

Alderman MacDonell moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved, May 24, 1911.

To the Common Council:

Your Committee on City Property, Buildings and Markets, to which was referred request of the Library Board and estimate of the cost of new stack room capacity in the public library, find on investigation that no provision was made for this work in the last tax levy for the permanent improvement fund, and that the demands on said fund are considerably in excess of the money available. We therefore recommend the adoption of the following resolution:

JOHN A. MacDONELL,
CHAS. J. HECTOR,
Committee.

Resolved, That in the opinion of this Council provision should be made in the next tax levy for increase in the stack capacity of the public library, and the conference committee is hereby advised that the sum of $3,000 should be provided for such purpose.

Alderman MacDonell moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:

Your Committee on Claims, to which was referred bills against the water and light plant fund, having considered the same, recommend the adoption of the following resolution:

WILLIAM L. BERNARD,
FRANK JORDAN,
W. M. MILLER,
Committee.

Resolved, That bills against the water and light fund are hereby allowed, and the Board of Water and Light Commissioners is hereby authorized to draw orders on the city treasurer to pay the same, as follows:

The Connersville Blower Co., $146.00; Great Northern Power Co., $1,358.26; Johnson & Johnson, $698.36.

Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:

Your Committee on Claims, to which was referred bills, having considered the same, recommend the adoption of the following resolution:

WILLIAM L. BERNARD,
FRANK JORDAN,
W. M. MILLER,
Committee.

Resolved, That bills be and hereby are allowed, and it is hereby directed

that orders be drawn on the city treasurer to pay the same, as follows:
LIGHT FUND.
Duluth Edison Electric company, $715.16.
PERMANENT IMPROVEMENT REVOLVING FUND.

POLICE DEPARTMENT FUND.
C. H. Troyer, $71.28; Kenney & Anker, $151.90.
Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the President and Common Council:
Your Committee on Drains, Sewers and Sanitation, to whom was referred the report of the Board of Public Works, dated May 22, 1911, relative to the petition of Willis J. Holmes for the construction of a sewer in Greysolon Place, having considered the same, recommend the adoption of the following resolution:
H. P. CURREN,
J. D. BERGSTROM,
WILLIAM L. BERNARD,
Committee.
Be it resolved by the Common Council of the City of Duluth, that the Board of Public Works of the City of Duluth is hereby ordered to cause the following improvement to be made to-wit:
That a sanitary sewer be constructed in Greysolon Place (formerly Branch street) in said city, from Twenty-ninth avenue east to the outlet sewer in Thirty-first avenue east; and
Resolved futher, That Board of Public Works is hereby instructed to cause said improvement to be made by contract; the cost therefor to be paid out of the permanent improvement revolving fund and it is further ordered:
That said Board of Public Works proceed in accordance with the provisions of the City Charter to levy assessment upon the property benefited by said improvement, according to benefits received, to defray the cost of such improvement, with such other expenses as under the provisions of said charter may be assessed.
Alderman Curren moved the adoption of the resolution which was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the President and Common Council:
Your Committee on Drains, Sewers and Sanitation, to whom was referred the report of the Board of Public Works, dated May 22, 1911, relative to the petition of F. W. Jolitz and others for the construction of sanitary sewers in Sixty-third, Sixty-fourth and Sixty-fifth alleys west, having considered the same, recommend the adoption of the following resolution:
H. P. CURREN,
J. D. BERGSTROM,
WILLIAM L. BERNARD,
Committee.
Be it resolved by the Common Council of the City of Duluth, that the Board of Public Works of the City of Duluth is hereby ordered to cause the following improvement to be made to-wit:
That sanitary sewers be constructed in Sixty-third, Sixty-fourth and Sixty-fifth alleys west, in said city, from Roosevelt street to Main street, and in Main street from Sixty-fifth alley west to Grand avenue west; thence in Grand avenue west to the outlet sewer in Sixty-first avenue west; and
Resolved further, That Board of Public Works is hereby instructed to cause said improvement to be made by contract; the cost therefor to be paid out of the permanent improvement revolving fund; and it is further ordered:
That said Board of Public Works proceed in accordance with the provisions of the City Charter to levy assessments upon the property benefited by said improvement, according to benefits received, to defray the cost of such improvement, with such other expenses as under the provisions of said charter may be assessed.
Alderman Curren moved the adoption of the resolution which was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:
Your Committee on Drains, Sewers and Sanitation, to which was referred award of contract, having considered the same, recommend the adoption of the following resolution:
H. P. CURREN,
J. D. BERGSTROM,
WILLIAM L. BERNARD,
Committee.
Resolved, That the contract awarded by the Board of Public Works to Erick Norquist & Co. for the construction of a sanitary sewer in Michigan street from the east line of lot 19, block 4, Portland division to the sewer at Fifth avenue east is hereby approved.

Resolved, futher, That said board is hereby directed to proceed in accordance with the provisfons of the city charter to levy assessments upon the property benefited to defray the cost of said sidewalks together with such other expenses as under the provisions of said charter may be assessed.
Resolved, further, That it is hereby directed that the cost of said sidewalks be paid out of the general fund.
Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the President and Common Council:
Your committee on Streets, Alleys and Sidewalks to whom was referred the report of the Board of Public Works, dated May 22, 1911, relative to the petition of Andrew Dahlman and others for the grading of the alley between Regent and Robinson streets, having considered the same, recommend the adoption of the following resolution:
WILLIAM L. BERNARD,
JNO. HOGAN,
Committee.
Be it resolved by the Common Council of the City of Duluth, that the Board of Public Works of the city of Duluth is hereby ordered to cause the following improvement to be made to-wit:
That the alley between Regent and Robinson streets, from Forty-third avenue east to Forty-fourth avenue east, in said city, be graded and graveled, and suitable gutters constructed therein.
Resolved, further, That Board of Public Works is hereby instructed to cause said improvement to be made by contract; the cost therefor to be paid out of the permanent improvement revolving fund, and it is further ordered:
That said Board of Public Works proceed in accordance with the provisions of the City Charter to levy assessments upon the property benefited by said improvement, according to benefits received, to defray the cost of such improvement, with such other expenses as under the provisions of said charter may be assessed.
Alderman Bernard moved the adoption of the resolution, which was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:
Your Committee on Streets, Alleys and Sidewalks, to which was referred award of contracts, having considered the same, recommend the adoption of the following resolution:
WILLIAM L. BERNARD,
JNO. HOGAN,
Committee.
Resolved, That contracts awarded by the Board of Public Works are hereby approved as follows:
To P. McDonnell for grading and paving Fifth street from Fifteenth avenue east to Woodland avenue.
To P. McDonnell for repaving Grand avenue from Fifty-fourth to Fifty-ninth avenues west.
Alderman Bernard requested a division of the resolution, and moved that the portion approving the contract for repaving Grand avenue from Fifty-fourth to Fifty-ninth avenues west be adopted.
Interested parties were heard relative to the question.
The question being upon the adoption of that part of the resolution, it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.
Alderman Whaton moved that action on that part of the resolution approving the contract for the grading and paving of Fifth street from Fifteenth avenue east to Woodland avenue be postponed for one week.
Interested parties were heard relative to the question.
The motion was declared adopted upon the following vote:
Yeas—Aldermen Bergstrom, Bernard, Curren, Hoar, Hogan, Jordan, Krueger, MacDonell and Wharton—9.
Nays—Aldermen Gibson, Hector, Makowski, Miller and President Shartel—5.

To the Common Council:

WILLIAM L. BERNARD,
JNO. HOGAN,
Committee.
Resolved, That the Board of Public Works is hereby directed to leave out of Sprinkling District No. 16 that part of Woodland avenue between Oxford street and Carlisle avenue and that part of Oxford street, between Roslyn avenue and Princeton street.
Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:
Your Committee on Streets, Alleys and Sidewalks, to which was referred award of contract, having considered the same, recommend the adoption of the following resolution:
WILLIAM L. BERNARD,
JNO. HOGAN,
Committee.
Resolved, That the contract awarded by the Board of Public Works to the Board of Trade Livery company for sprinkling Districts Nos. 11 to 18, both inclusive, with granulated calcium chloride is hereby confirmed.
Resolved further, That it is hereby directed that bonds with personal sureties be accepted on said contracts.
Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:
Your Committee on Streets, Alleys and Sidewalks, to which was referred recommendation of the Board of Public Works, having considered the same, recommend the adoption of the following resolution:
WILLIAM L. BERNARD,
JNO. HOGAN,
Committee.
Resolved, That the Board of Public Works is hereby authorized in their discretion to permit Joseph Rich to place two small store buildings, now located on the northeast corner of Eleventh avenue west and Michigan street, in Eleventh avenue west, adjacent to his property, during the time occupied by the erection of a new three-story brick building at said corner, under such restrictions as said Board may deem advisable.
Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

To the Common Council:
Your Committee on Streets, Alleys and Sidewalks, to which was referred recommendation of the Board of Public Works, having considered the same, recommend the adoption of the following resolution:
WILLIAM L. BERNARD,
JNO. HOGAN,
Committee.
Resolved, That the Board of Public Works is hereby advised that this council consents to the issuance of permits to the Duluth Telephone company to lay conduits and set poles as recommended by said Board in communication dated May 22, 1911.
Alderman Bernard moved the adoption of the resolution, and it was declared adopted by a unanimous yea vote of all present, on roll call.
Passed May 22, 1911.
Approved May 24, 1911.

There being no objection the following report and resolution was introduced:
To the Common Council:
Your Committee on Railroads, Telephones and Telegraph Lines, who were directed to have a meeting relative to alleged lack of street car accommodations, recommend the adoption of the following resolution:
J. B. GIBSON,
OTTO KRUEGER,
J. D. BERGSTROM,
Committee.
Resolved, That the Duluth Street Railway company is hereby directed to install at 10-minute service with large cars on the Piedmont avenue line.
Resolved further, That said company is hereby directed to construct a double track line on Twenty-first avenue west from Superior street to Third street.
Alderman Gibson moved the adoption of the resolution.
An opportunity was offered for interested parties to be heard on the question, and a number of citizens addressed the council relative thereto.
The question being upon the adoption of the resolution, it was declared adopted upon the following vote:
Yeas—Aldermen Bergstrom, Bernard, Curren, Gibson, Hector, Hogan, Jordan, Krueger, MacDonell, Makowski, Miller, Wharton, President Shartel—13.
Nays—Alderman Hoar—1.
Passed May 22, 1911.
Approved May 24, 1911.

INTRODUCTION AND CONSIDERATION OF ORDINANCES.
The ordinance submitted by Alderman Wharton entitled "An ordinance naming a certain street or roadway in portions of sections 2 and 11, township 50, range 14, west of the Fourth Principal Meridian," took its second reading.
Alderman Wharton moved that the ordinance be now placed upon its final passage, and the motion was declared adopte by a unanimous yea vote of all present, on roll call.
Alderman Wharton moved the adoption of the ordinance, and it was declared adopted by a unanimous yea vote of all present, on roll call.

The ordinance submitted by Alderman Barnes entitled "An ordinance naming the avenue on the west side of that part of Bay View addition No. 2, which occupies the northeast quarter of the northeast quarter of section 11, township 49, north of range 14, west of the Fourth Principal Meridian took its second reading.
Alderman Wharton moved that the ordinance be now placed upon its final passage, and the motion was declared adopted by a unanimous yea vote of all present, on roll call.
Alderman Wharton moved the adoption of the ordinance and it was declared adopted by a unanimous yea vote of all present, on roll call.

The ordinance submitted by Alderman Wharton entitled "An ordinance to amend an ordinance entitled 'An ordinance regulating the construction, alteration, repair, removal and inspection of buildings within the corporate limits of the city of Duluth, the protection of the lives of persons therein and the protection of property against fire,' passed Jan. 8, 1906, as amended," took its second reading.

Alderman Wharton moved the adoption of the ordinance and it was declared adopted by a unanimous yea vote of all present, on roll call.
On motion of Alderman Makowski the council adjourned.
H. W. CHEADLE,
City Clerk.

By Alderman Wharton:
AN ORDINANCE NAMING A CERTAIN STREET OR ROADWAY IN PORTIONS OF SECTIONS 2 AND 11, TOWNSHIP 50, RANGE 14, WEST OF THE FOURTH PRINCIPAL MERIDIAN.
The Common Council of the City of Duluth do ordain as follows:
Section 1. That certain street or roadway heretofore commonly known as the Hartley road extending from the northeast corner of Oakland park through the north half of the southwest quarter of Section 11, the west half of the northwest quarter, and the south half of the southwest quarter of Section 2 to a connection with Stornoway street on the west line of Woodland park, Sixth division, is hereby named Hartley Road.
Section 2. This ordinance shall take effect and be in force from and after its passage and publication.
Passed May 22, 1911.
Approved May 24, 1911.
M. B. CULLUM,
Attest: Mayor.
H. W. CHEADLE,
City Clerk.

By Alderman Barnes:
AN ORDINANCE NAMING THE AVENUE ON THE WEST SIDE OF THAT PART OF BAY VIEW ADDITION NO. 2, WHICH OCCUPIES THE NORTHEAST QUARTER OF THE NORTHEAST QUARTER OF SECTION 11, TOWNSHIP 49, NORTH OF RANGE 14, WEST OF THE FOURTH PRINCIPAL MERIDIAN.
The Common Council of the City of Duluth do ordain as follows:
Section 1. The avenue in that portion of Bay View Addition No. 2 occupying the northeast quarter of the northeast quarter of section 11, township 49, north of range 14, west of the Fourth Principal meridian is hereby named Eighty-first avenue west.
Section 2. This ordinance shall take effect and be in force from and after its passage and publication.
Passed May 22, 1911.
Approved May 24, 1911.
M. B. CULLUM,
Attest: Mayor.
H. W. CHEADLE,
City Clerk.

By Alderman Wharton:
AN ORDINANCE TO AMEND AN ORDINANCE ENTITLED "AN ORDINANCE REGULATING THE CONSTRUCTION, ALTERATION, REPAIR, REMOVAL AND INSPECTION OF BUILDINGS WITHIN THE CORPORATE LIMITS OF THE CITY OF DULUTH, THE PROTECTION OF THE LIVES OF PERSONS THEREIN AND THE PROTECTION OF PROPERTY AGAINST FIRE," PASSED JANUARY 8, 1906, AS AMENDED.
The Common Council of the city of Duluth do ordain as follows:
Section 1. That Section I of Title XXIX of Part II of an ordinance entitled "An ordinance regulating the construction, alteration, repair, removal and inspection of buildings within the corporate limits of the city of Duluth, the protection of the lives of persons therein and the protection of property against fire," passed January 8, 1906, as amended, be further amended by inserting after the words "Shall have an exit at each end thereof of not less than six (6) feet in width" the words "excepting in buildings of the first, second and third class, in which there shall be at least two exits, each not less than six (6) feet in width, which may be located on the same side or end of building."
Section 2. This ordinance shall take effect and be in force from and after its publication.
Passed May 22, 1911.
Approved May 24, 1911.
M. B. CULLUM,
Attest: Mayor.

LEGAL NOTICES.

ORDER FOR HEARING GUARDIAN'S ACCOUNT—
State of Minnesota, County of St. Louis —ss.
In Probate Court.
Special Term, May 18th, 1911.
In the Matter of the Guardianship of Mike Dovitt, Minor.
UPON FILING THE FINAL ACCOUNT of Guardianship with a petition for final settlement and allowance of Oscar Dahl, Guardian of the above named minor.
IT IS ORDERED, That said petition be heard, and the settlement and allowance of said account be made at a Special term of the Probate Court to be held in and for said County of St. Louis, on Monday, the 12th day of June, A. D. 1911, at ten o'clock in the forenoon, at the Probate Office in the Court House, in the City of Duluth, in said County.
IT IS FURTHER ORDERED, That a copy of this order be served by publication of said order in The Duluth Herald, according to law.
Dated at Duluth, Minn., the 18th day of May, A. D. 1911.
By the Court,
S. W. GILPIN,
Judge of Probate.
(Seal Probate Court, St. Louis County, Minn.)
D. H., May 18, 25. June 1, 1911.

ORDER OF HEARING ON PETITION FOR LICENSE TO SELL, MORTGAGE OR LEASE LAND BY REPRESENTATIVE OR GUARDIAN—
State of Minnesota, County of St. Louis —ss.
In Probate Court.
In the Matter of the Estate of Esther Anderson and Adolph Anderson, Minors.
THE PETITION OF Betsey Anderson, as representative of the above named wards, having been filed in this Court, representing, among other things, that for reasons stated in said petition, it is necessary and for the best interests of the estate of said wards and of all persons interested therein, to sell certain lands of said wards in said petition described, and praying that license be to said petitioner granted to sell the said land:
IT IS ORDERED, That said petition be heard before this Court, at the Probate Court Rooms in the Court House, in Duluth, in said County, on Monday, the 5th day of June, 1911, at 10 o'clock a. m., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.
ORDERED FURTHER, That this order be served by publication in The Duluth Herald according to law.
Dated at Duluth, Minn., May 9, 1911.
By the Court,
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
D. H., May 11, 18, 25, 1911.

NOTICE OF PROPOSED VACATION.
Notice is hereby

NEWSBOYS UNDER AGE

Boys Under 10 Years May No Longer Sell Papers.

Herald Will Co-operate With Factory Inspector to Stop Practice.

Newsboys under 10 years of age will no longer be allowed to sell papers on the streets of Duluth.

Miss Jean Poirier, state factory inspector, with the co-operation of the police and The Herald, will attempt to put a stop to the violations of the state laws in this respect, which have become very common of late.

Under the state law any boy under 10 years of age found selling any article on the streets is liable to arrest, and their parents are also liable to arrest.

Miss Poirier today called attention to the fact that this law is being freely violated in Duluth, and tomorrow afternoon she will talk briefly to the boys in The Herald circulating rooms, explaining the law to them. The Herald has refused to sell papers to boys under 10 years of age, but these boys frequently buy their papers from other older boys. The little lads can be seen on the streets until 10 and 11 o'clock at night, and many of them make a habit of crying and begging people to buy papers from them, claiming they are afraid to go home until they sell all of their papers.

"The little boys also make a practice of running away with change and hanging around drunken men," said Miss Poirier today. "They learn bad habits during the late hours on the streets, and the boys who appear in the juvenile court are recruited from these little fellows."

MANY PAYING THE STATE FOR LAND

Deputy Auditor Brown Says Unusual Amount Is Being Received.

St. Paul, Minn., May 25.—(Special to The Herald.)—More persons are paying upon lands bought from the state, right now, than have paid in years, according to C. S. Brown, deputy state auditor. An interest payment is due June 1, but instead of paying it, persons are paying the balance due on the full purchase price.

"We are getting from 25 to 30 full settlements each day," Mr. Brown said. "I cannot account for it unless it be that there is plenty of money in the hands of those who settled on Minnesota farms, and they are using it."

Mr. Brown has compiled some figures showing the result of the remarkable sale in Roseau county, May 22. The total number of acres disposed of was 17,080, which netted the state $128,000, and on which a total of $23,700 was made as initial payment. Prices ranged from $5 to $15 per acre, and averaged $7.50 an acre.

EBERHART AT MOHONK LAKE

Governor Is Among Speakers at Arbitration Conference.

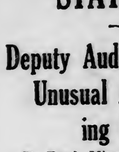
Mohonk Lake, N. Y., May 25.—At today's session of the seventeenth annual meeting of the Lake Mohonk Conference on International Arbitration, distinguished men spoke on and discussed the topics, "An International Court," "Unlimited Anglo-American Arbitration," and "A Century of Anglo-American Peace."

Among the speakers were Thomas Raeburn White of Philadelphia; Prof. Paul S. Reinsch of the University of Wisconsin; Senator Raoul Dandurand of Montreal; John W. Foster, former secretary of state; William Dudley Foulk of Indiana; Sir William Mulock, chief justice of Ontario; Governor A. O. Eberhart of Minnesota, and Dr. James L. Tryon of Boston.

Compound Callouses

Tells Splendid Cure for Them and All Foot Troubles.

A compound callous is the secondary stage when it grows inward and presses on the nerves, causing intense pain. Callouses never cure themselves but always get worse, sometimes irritating the whole nervous system. The following is a most effective and speedy cure. "Dissolve two tablespoonfuls of Calocide in a basin of hot water. Soak the feet in this for full fifteen minutes, gently massaging the sore parts (Less time will not give the desired results. The soreness will disappear immediately and the callous can be easily peeled off. Repeat this for several nights. A little olive oil rubbed into skin is very beneficial.



This Calocide is a very remarkable preparation for all foot ailments. Bunions, corns and ingrown nails get instant relief and are soon cured. Bad smelling and sore feet need but a few treatments. Calocide is no longer confined to doctors' use. Any druggist has it in stock or will quickly get it from his wholesale house. A twenty-five cent package is usually enough to put the worst feet in fine condition. It will prove a blessing to persons who have been vainly trying ineffectual tablets and foot powders.

Public Accountant and Auditor

JAMES S. MATTESON

has removed his office to Suite 703 Alworth Building. Telephone: Melrose, 4700.

REPLIES TO MR. FOWLER

Simpson Defends "Seven Senator" Bill's Transmission to Senate.

Says It Does Not Threaten Rights of Any Citizens.

St. Paul, Minn., May 25.—(Special to The Herald.)—According to Jefferson's manual of parliamentary practice, the so-called "seven-senator bill" was not improperly transmitted from the house to the senate during the closing days of the legislative session, according to Attorney General Simpson in his reply to the complaint filed in district court of Hennepin county by Representative Charles R. Fowler, wherein it is sought to restrain Julius Schmahl, secretary of state, from publishing the act or submitting it to the voters at the next election.

The attorney general goes into the history of the legislative action to a considerable extent in his reply, which today was prepared for filing. He denies that the motion to reconsider put in the house was ever seconded during that memorable fight, and hence there was no motion pending when the house adjourned the evening of April 17, when the bill was sent to the senate.

Quotes Rule From Manual.

Mr. Simpson admits the existence of the rule which provides that "messages between the houses are to be sent only while both houses are in session," but he quotes another rule from Jefferson's manual, which says:

"It may be asked whether the house can be in possession of two motions or propositions at the some time, so that, one of these being decided, the other goes to the question without being moved anew? The answer must be special. When a question is interrupted by a vote of adjournment, it is thereby removed from before the house and does not stand, ipso facto, before them at their next meet, but must come forward in the usual way. So, when it is interrupted by the order of the day."

Rule 9, adopted by the house, Mr. Simson continues, says:

"No motion shall be debated or put unless the same be seconded. It shall be stated by the speaker before the debate and any such motion shall be reduced to writing if the speaker or any member desires it."

Action of the House.

Commenting upon the action in the house, following the passage of the bill after its amendment, Mr. Simpson says:

"Immediately thereafter, a duly qualified and acting member of the said house of representatives and one who had voted in the affirmative on the passage of said bill, did move that the vote be reconsidered, and that immediately after said motion to reconsider was made and before it was seconded or put to a vote, a motion was made by Hon. George M. Nye, a member of said house, at 8 minutes after 6 o'clock . . . that the house do adjourn, which motion was duly carried."

Mr. Simpson then denies that the motion to reconsider had been given standing because, he says, it received no second, and the journal of the house so shows.

Some irony is injected into the reply by a paragraph which says:

"Defendant further alleges that he has no knowledge or information sufficient to form a belief as to the truth or falsity of that part of paragraph 9 of plaintiff's complaint, wherein plaintiff inferentially alleges that the said proposed amendment, if submitted to a vote of the electors of this state, will receive a majority of the votes cast, and therefore denies same."

Denies Infringement of Rights.

The reply declares, further, that operation of the act, should it be ratified, would not deprive any persons of their rights as guaranteed by the Constitution of the United States. Therefore, it concludes, the defendant prays that the case be dismissed and that defendant be allowed the costs entailed.

PROSECUTION IN NYE CASE RESTS

State Claims to Have Evidence Enough to Convict Him.

Columbus, Ohio, May 25.—After examining five witnesses out of twelve subpoenaed in the trial of Representative George Nye of Pike county, who has been indicted on the charge of soliciting a bribe of $500 from State Printer Crawford, the prosecution today caused much surprise by resting its case.

The defense at 1:30 o'clock took up its side of the case. The prosecution stated they had introduced enough testimony to convict, while the defense insisted that they were confident of victory.

STILL DENY CHARGE.

Couple Arrested at Bemidji for Murder Claim Innocence.

Bemidji, Minn., May 25.—(Special to The Herald.)—Lloyd Carlton and his wife, Gena, have been taken to Park Rapids to answer to the charge of having murdered J. O. Nesbit, on his farm in Hubbard county, and having burned the body by having placed it in a brush pile, which was later fired.

Carlton and his wife assumed the same nonchalance when taken from the county jail to the Great Northern depot that has characterized their appearance since they were arrested, last Sunday.

The Carltons still maintain that they know nothing of the crime, except that they saw Nesbit leave the house on the day that he disappeared on either March 28 or 29, and that the first they had heard of the murder was when they were arrested by Sheriff Hazen.

HARVEST FOR STATE FROM THE FISHERMEN.

St. Paul., Minn., May 25.—(Special to The Herald.)—The state law passed at the last session of the legislature requiring non-resident fishermen to take out a license and pay $1 for the privilege, will net the state between $8,000 and $10,000 this year. This is the estimate of H. A. Rider, executive agent of the game and fish commission.

"We have issued about 100 licenses from this office," Mr. Rider said, "but county auditors and local game wardens will issue more than will come from here. At Moorhead the auditor sold ninty-two licenses in two days. This indicates an unusually large demand for the licenses."

Duluth Dairy Firm Incorporated.

St. Paul, Minn., May 25.—(Special to The Herald.)—The Sanitary Dairy company of Duluth filed articles of incorporation with the secretary of state this morning for $50,000. The company proposes engaging in the dairying and farming business. The incorporators are Archibald Leitch and Mae Lennan Leitch of Duluth and Thomas Scott of Ames, Iowa.

On Way to Coronation.

Winnipeg, Man., May 25.—Prince Leopold, brother of the queen of Spain, arrived here today from the Orient on his way to the coronation.

Do You Have the Right Kind of Help?

Foley Kidney Pills furnish you the right kind of help to neutralize and remove the poisons that cause backache, headache, nervousness, and other kidney and bladder ailments." For sale by all druggists.

PRESENT DAY MINING OPERATIONS ON THE CUYUNA RANGE

SURFACE WORKINGS OF ROGERS BROWN MINE AT CROSBY, FROM A PHOTO TAKEN BY SMITH OF CLOQUET, MAY 5, 1911.

HOW PARIS GROWS BEAUTIFUL.

What Paris has done to make itself "la belle" might be studied with profit by American cities, according to a correspondent of Progress. The beauty of Paris was not a thing of nature. There was a time when the very spots which are now the most effective were ugly and forbidding.

Take the site of the Trocadero. It was once the garden of a convent and for decades remained but a barren waste like some old unused tracts broken by uncouth gullies in some of our own cities.

Since the exposition of 1878 these slopes have been laid out in gardens of rare charm, with a cascade which falls from the balcony of the palace toward the Seine, passing on the way through eight water basins. Both balcony and basins are adorned with statues.

Beautiful avenues radiate from this center, so that the palace of the Trocadero is seen at the end of splendid vistas. Its central pavilion, more than 400 feet in circumference and seating 8,000 persons, is used for concerts, fetes and great public ceremonies. The dome is as high as the roof of Notre Dame and the towers are sixty feet higher.

The site of the garden of the Tuileries was simply old tile fields that existed in the time of Charles VI. The space between the old Louvre and the Tuileries had long been disfigured by many mean looking houses. In 1852 Napoleon III decreed 25,000,000 francs for the purpose of uniting the two palaces, which form the grandest gallery of art in the world.

The Place de la Concorde, the finest public square in the world, with its fountains and statues and the obelisk in the center, was but a waste irregular space until the reign of Louis XV. The Champs Elysees, or Elysian Fields, the superb avenue with promenades and groves running at the sides, was formerly covered with little unsightly detached houses and small gardens and irregular meadows. The new Halles Centralle are the most magnificent and comprehensive city markets in existence. There are ten pavilions, each 130 by 100 feet. Garden produce, fish, poultry, game, butter, cheese, fowls, butchers' meat are sold here. The roofs of the pavilions rest upon 300 cast iron columns ten meters in height and connected by dwarf walls of brick.

The rest of the space up to the arches is closed with blinds of ground glass plates; the roofing is of zinc, with large skylights over the smooth paved carriageways. The cellars underground are a revelation. Three parallel lines of tramways extend from these cellars to a tunnel under the boulevard Sebastopol, which communicates with the Chemin de Fer de Ceinture, or circular railway ringing the city of Paris.

One of the greatest sights in the world is to visit the halles at 7 o'clock in the morning and see the owners of the 100,000 truck farms beyond the environs of Paris bringing in their fowls and vegetables and butter and milk, upon which the Parisians will later regale themselves.

The pavilions are surrounded by broad boot pavements planted in beautiful trees. Also there is the Marche du Plain, or bread pavilion, daily supplied by bakers from the environs. These bakers are allowed to sell their bread here on condition of it being cheaper than that sold by the bakers of Paris.

The total cost of this city market aand the appurtenances was 11,000,000 francs, over and above the cost of 249 houses of all sizes and shapes, from substantial to ramshackle, pulled down to make way for the ideal spot upon which beauty has been wedded to utility.

The cost of removing these 249 houses was only 27,000,000 francs—but just think of the artistic gain and the public convenience and benefit. The total surface of the Halles, comprising also the covered streets, is 85,000 square meters. The pavilions alone occupy 40,509. The dealers pay, or did pay, 1 franc a day to the city of Paris for fixed stalls and 30 centimes for temporary places.

Then there is the Pont d'Iena, named for the battle of Jena, which is a superb structure, as are all other Parisian bridges. It is massive, beautiful, substantial. Riding or walking over it is precisely like traversing the best paved street. No smoke to stifle, no shaking to terrify, no blocking of stroet cars or vehicles to discommode a patient public. Now for the splendid embellishments. At the extremities of the parapets stand four colossal groups, representing a Greek, a Roman, a Gaul and an Arab, each checking a high mettled horse. Paris has about forty bridges, many of them of truly monumental construction.

RICH IOWA FARM HOLDERS.

Since the indolence of the Iowa census takers failed to give that state as many inhabitants as it boasted ten years ago, the Iowans have had to dodge or to stand up and take no end of barbed shafts of sarcasm. But when they get around to talking back they can tell some things about Iowa that may boost the population again.

The trouble with Iowa is that the farmers are so rich they've bought up all of the state they can get hold of and are holding on to it. They are so rich that they are spending on a vast project to drain the swamp lands three-quarters as much money as the United States government is paying to build the Panama canal.

They have already used $8,000,000 in the work, and the total cost of the improvement when finished is estimated at $307,000,000, says Harper's Weekly. It is expected that hundreds of thousands of acres will be added to the tillable area of the state. These acres during ages have been accumulating richness washed down upon them from higher land as well as by decay of their own swamp vegetation. acres which need only to be released from the embarrassment of too much water to demonstrate their wonderful fertility.

The millions that will thus be added to the value of Iowa are beyond the reach of accurate computation, although sanguine advocates declare that the state will be wealthier by half a billion dollars or more when the work is finished.

The reclamation was begun in 1904, and thus far nearly $8,000,000 has been spent on public drainage ditches in fourteen out of the thirty counties in which the work is projected. In the remaining sixteen counties some $7,000,000 more will be expended. So that 3,000,000 acres of farms will be improved at an average cost of $5 an acre.

The result is the throwing open to cultivation of swamp and flood land which will be hereafter worth from $75 to $200 an acre. The estimated total cost of the public drainage ditches is $60,000,000. These figures are supplied by the state conservation board, who calculate that individual owners will spend $247,000,000 more out of their own pockets in draining wet lands.

By the Iowa plan, large open drains are first built, then tiled lateral ditches leading to them, and then the small tiled drains under individual farms—some of the latter running within four rods of one another, and as small as four inches in diameter.

In many cases these farmers paid from $25 to $75 an acre to tile and drain their farms into the public drains. Where crops have been good the system has been rapidly extended, for the farmers are aware that as fast as the handicap of surplus water is thrown off their lands are greatly increased in productivity. There are thirty "wet counties" in Iowa, in twenty of which practically the entire area must be drained, while in the remaining ten only half the area needs help.

Aged English Woman Is Making Lace for Coronation

MRS. JANE MORRIS, Making Lace for the Coronation.

LACE FOR THE CORONATION.

The lace, which will adorn the coronation robe of Queen Mary, will be of English make. It is of the kind called Bedfordshire pillow lace and hand wrought. It is being made by Mrs. Jane Morris in her cottage in the village of Shelton. She has been working on it since last October. Mrs. Morris says the thread, of which this lace is made, is the finest on which she has ever worked. There will be four yards of this lace on the coronation dress. It takes Mrs. Morris a day to make an inch and a half. She uses 180 bobbins. The design of the lace is the crown and pendant wore by the queen.

"COURT MUST OBEY LAWS"

Justice Harlan Says Otherwise Government Is in Danger.

Makes Strong Statement in Dissenting Oil Case Opinion.

Washington, May 25.—That it is exceedingly dangerous for the court to "over-reach the action of congress merely by judicial construction" is a declaration of Associate Justice Harlan in his dissenting opinion in the Standard Oil case, filed in the supreme court today.

The justice incorporated in his prepared opinion in effect what he said orally in dissenting in regard to the dangers of judicial legislation.

"The supreme law of the land," he added, "which is binding alike upon all—upon presidents, congressmen, the courts and the people—gives to congress alone authority to regulate interstate commerce, and when congress forbids and restraint of such commerce, in any form, all must obey its mandate. To over-reach the action of congress merely by judicial construction, that is, by indirection, is a blow at the integrity of our governmental system, and in the end will prove most dangerous to all."

WROTE PLAYS BY HUNDREDS.

"To Avery Hopwood, author of 'Clothes' and 'Seven Days,' warning friends whisper: 'You are working too fast' when they read that he has four plays for production this winter," says a contributor to the Theatre. "Maugham of London wrote five comedies in a hurry and has paused. Sir Arthur Pinero is suddenly to the front with the declaration that one play a year is enough for the literary worker. Edmond Rostand took nine years for 'Chantecler.'

"The playwriting giants of old set a lively pace for modern writers to follow and there's no denying that they are falling behind. All good work for the stage has not been produced at the snail's pace, nor have the writers of great plays deemed it advisable or necessary to retire on their laurels.

"There is always the example of Moliere in such cases. Moliere for years was in the midst of the king's revels, yet he managed to write comedies between meals that survive as classics of French literature.

"There is also Voltaire, who was more than a court favorite. Kings begged for his presence at their courts and salons. He waged political and religious wars, dabbled in science, flooded the streets with pamphlets and was a practical historian, but he found time to write plays that survive the centuries.

"Augustus Thomas writes one play or sometimes two plays a year. His friends say that he devotes much time to politics, time that otherwise might be consumed in playwriting. Compare him to that old lion of the North, the late Bjornsterne Bjornsen, who played bigger politics for thirty years than Thomas ever dreamed of, yet who wrote plays with a facility that shames his contemporaries.

"Also Strindberg of Sweden, who after a busy day grinding out editorials for the newspapers delivers a political address, then sits down and writes the vitriolic tragedies that cause the capers of the little society dramas of the day to look like the proverbial sixpence.

"Tom Taylor, to whom we are indebted for a score of plays, including 'Our American Cousin,' 'The Overland Route' and 'Anne Boleyn,' was editor of Punch, a contributor to the same periodical, a biographer and historian and man of affairs, yet he did not write himself out.

"Alexandre Dumas, pere, left over a hundred volumes as the product of his busy pen, yet he found time to write plays. And Alexandre Dumas, fils, wrote 'Camille' in less than a month, because he was warned that a pirated adaptation of his novel was to be given to the theater. Yet none will say that 'Camille' as a play is not the equal of 'The Sultan of Sulu,' 'The Easiest Way,' or 'Alias Jimmy Valentine.'

"Shakespeare wrote thirty-seven of the greatest dramas the world has ever had, 154 sonnets and numerous poems, all in the space of at most twenty-five years. Bulwer wrote 'The Lady of Lyons' on a rush order to cover up a failure. In addition to his colossal musical compositions Richard Wagner produced many librettl, essays and many volumes of musical criticism, yet he did not write himself out.

"One of the giants of old was Dion Boucicault, who wrote over 400 dramas in forty-nine years, but he didn't dodge his social obligations, of which one hears so much at present. He was also an actor, lecturer, threatrical manager, the head of a dramatic school and a voluminous reader. At the age of 19 he wrote 'London Assurance' in thirty days, and after that quickened his pace as the years passed, so that there is one instance at least fully authenticated in which he wrote a complete drama in forty-eight hours, supporting himself during the unnatural vigil on deep draughts of tea.

"One would willingly exchange the 400 plays of Boucicault for one tragedy of the immortal William of Avon, but so far as that argument is concerned it is easy to report that few if any of our one play a year dramatists are producing work that is likely to be alive a hundred years hence.

"People marvel, or pretend to do so, at the collected list of plays by Clyde Fitch, showing sixty-six titles. Compare this to the 300 titles of the author of 'Montezuma.' Maurice Jokai was credited with 600 books at the time of his death.

"The prince of all writing wonders, however, was Lope de Vega Carpio, a contemporary of Cervantes and Shakespeare, who is credited with over 2,000 original dramas, yet it appears that playwriting was only one of the activities of his unusual life. He was a soldier, had two wives, with whom he lived in discord, and then became a priest, attending to his holy office during a period covering several years. He wrote plays at the rate of forty-four a year for many years, and by critics of the Spanish drama his work is still praised for its 'richness of invention, vivacity of dialogue and variety of idea,' any quality of which is enough to distinguish a playwright today."

GOLDEN WEDDING OF SIXTY COUPLES.

Westminster Review: Reims, the center of the champagne disturbances, has just been celebrating an interesting event, the golden weddings of sixty old couples. We are not told whether they all came from Reims, although the celebration may have been limited to the department.

The fete is as old as the Revolution, when the first seems to have begun. In the time of the Directory there were two fetes, the fete of the old people and the fete of the golden wedding. This seems to have been a very pretty affair, to judge from the account in the Debates. There was a procession of oxen, with their horns crowned with flowers, followed by children crowned with violets, by young men wreathed with myrtle, and old men with garlands of olives and girls dressed as vestal virgins.

At Paris in August, 1797, there was a great festival in honor of the old men, who were all given seats at the opera, when "a gracious Hebe crowned their white locks with garlands of roses," and the soldiers presented arms. The idea of the fete was the encouragement of the family circle. The old man, who was a happy grandfather, was feted as an encouragement to the younger generation to follow in his footsteps. The same idea is to be found in our curious observance of the Dunmow Flitch, but we have no fete of the golden wedding corresponding to that held at Reims last week.

WOLF HUNTING WITH EAGLES.

All wanderers are lovers of the chase, but for sheer love of sport and daring exploits the Kirghiz take the palm. Central Asia is the home of falconry, which was not introduced into Europe until the Crusaders brought back falcons with them from their Eastern wanderings.

But imagine, says the Wide World Magazine, the ambition of the men who fly their birds at wolves and foxes instead of at quails and partridges! Not content with hunting game birds with small falcons the Kirghiz capture and train the great golden eagles, with which they hunt such game as gazelle, foxes and even wolves.

A well mounted Kirghiz falconer carrying on his wrist one of these magnificent birds is a fine sight. The weight of the eagle is such that the owner requires a support for his wrist, and the hunters are usually to be seen with a little wooden bracket that supports the arm against the hip.

The eagles are hooded, as all falcons are, but can only be used in winter when they are hungry and keen. In summer they are fed on marmots and live a restful life, sitting in the sun in front of the tent doors.

When gazelle or wolves are the objects of the chase the eagles are aided by long, sleek greyhounds of a small breed, the dogs running in and pulling down the quarry when the eagles have sufficiently bewildered it.

TOO LATE TO CLASSIFY

One Cent a Word Each Insertion. No Advertisement Less Than 15 Cents

LA CLAIRE, BASKET BRAID, BISCUIT coils of real human hair, 25 per cent off for one week only. Beauty Comfort shop, 20 West Superior street, upstairs.

SUPERFLUOUS HAIR, MOLES, warts, removed forever. Miss Kelly's Manicuring and Massaging Parlors, 131 West Superior street.

WE MAKE SWITCHES FROM COMBings, repair and dye the old one. Mail orders prompt attention. Marinello parlors, 301 Fidelity building.

WANTED—AT ONCE. A-1 SIDEWALK finisher; good pay to right party; none but first class men need apply; write or wire Baudette Concrete Co., Baudette, Minn.

FOR SALE—A BARGAIN; WELL IMproved house and lot on East Fourth street; terms, one-third cash; balance terms to suit; inquire of N. B. Merritt, 405 Palladio building.

WANTED—YOUNG MAN TO WORK in kitchen; Blackwood's cafe, 27 West Superior street.

BIRTHS.

HAGMAN—A daughter was born to Mr. and Mrs. O. Hagman of 319 First avenue east, May 23.

COHEN—A son was born to Mr. and Mrs. M. Cohen of 2018 West Second street, May 22.

ROYER—A son was born to Mr. and Mrs. G. Royer of 2531 Huron street, May 22.

LITMAN—A son was born to Mr. and Mrs. A. Y. Litman of 319 Fifth avenue east, May 22.

DEATHS AND FUNERALS

MacCLARY—Mrs. Patience MacClary, 70 years of age, died last evening at the home of her daughter, Mrs. James R. Quigley, 1907 Columbus avenue, Woodland. Death was due to heart disease, from which she had been suffering for some time, and the end had been expected for several days. She has made her home with her daughter the last nine years. Her husband, James F. MacClary died in this city last year. The funeral will take place from the residence tomorrow afternoon. Interment will be at Forest Hill cemetery, where her husband is buried.

OKESON—The funeral of Theodore Okeson one of the two men drowned at Rice lake Sunday evening, took place this afternoon at 2 o'clock from the undertaking rooms of J. L. Crawford. Interment was at Park Hill cemetery. Okeson is supposed to have lost his life trying to save that of Olaf Johanson, who is thought to have fallen overboard while the two were fishing. The body of Johanson was sent to Chicago last evening for interment. His brother resides in that city.

PARENT—Harry Raymond Parent, 7-year-old son of Mr. and Mrs. Denny Parent, died yesterday afternoon at the family residence, 4823 Cliffat street, Lakeside. The funeral will be held tomorrow afternoon at 2 o'clock from the family residence with burial at Calvary cemetery.

Monuments direct from factory, no store rent, no agents; you save 25 per cent. Charles Benson, cut stone contractor, 2301 West Second street, or 'phone me, Lincoln 334, new 'phone.

DAMAGE IN OKLAHOMA

Values Advance When Bullish Crop Reports Come From Southwest.

Cut-Worm Found in Minnesota---Eleventh Hour Shorts in Scramble.

Duluth Board of Trade, May 25.—Wheat worked upward today. May went forward 1¾c and July a similar distance. September gained ⅝c. Durum was strong, but July took a slump in the closing five minutes. May gained ¼c, July gained ⅜c and September walked forward ½c. Cash spring wheat was ½c over July. Oats closed ⅞c up on crop damage reports. Rye was unchanged.

Linseed declined. Trading was light and inconsequential. May lost 6c, July 3c and September and October 2c. Cash was on a May basis.

The bulls worked vigorously today and they got considerable help from eleventh hour shorts who sold on yesterday's break. News from the Southwest was bullish and was the leading factor on the bull side. Strength in coarse grains contributed to the firmness in wheat.

The Southwestern wheat crop is filling out and is meeting one of the many crisis which afflict the winter wheat plant. The bulls bought wheat on the theory that the weather in the Southwest may turn unseasonably hot and cut down the yields in the leading states. Warm weather is predicted for Kansas but cooler temperatures are forecasted for Nebraska. News from Oklahoma indicated that the wheat crop in that state is a failure. Some experts credit the state with a possible yield of 10,000,000 bu and one has put the yield as low as 6,000,000 bu.

Reports from Central Illinois were bullish and a Minneapolis bull discovered a swarm of cut worms in Southern Minnesota. He destroyed a field of oats and was prepared to annihilate much wheat as the market closed.

Foreign crop prospects continue to improve. Russian shipments this week will be liberal. Argentine exports will be rather light. Cables were lower.

Crop news in the Northwest continues encouraging. Expected showers in South Dakota did not materialize. There was evidence of precipitation in scattered places but not enough moisture fell anywhere to be worth mentioning. There were further rains in the prairie provinces of Canada.

MARKET GOSSIP

Chicago Record-Herald: R. P. Roblin of Manitoba, who passed through Chicago on his way to the coronation in England, asserts that the Canadian Northwest has by far the finest crop prospect in its history, that it has ample moisture and can harvest a crop of 150,000,000 bu of wheat with no more rain until harvest. With ordinary weather, he thinks, the crop will vastly exceed this figure. He believes that the Canadian Northwest will have an unusually early harvest this year, possibly beginning in July, as the wheat is already six to ten inches high in a good part of the Northwest. The advance made by the crop since seeding has been wonderful, as conditions of soil and weather have been favorable.

• • •

Chicago Record-Herald: The special committee on clearing-house that has been working on contemplated improvements in the system has completed its report and submitted it to the directory. Plans proposed are similar to those now in operation at Minneapolis and some other points. The board of trade has been operating under the present clearing-house methods for a great many years, but they are considered cumbersome and expensive and the new system is expected to remedy many defects.

• • •

Price Current said: Weather generally favorable for growing crops and position is now encouraging. Winter wheat heading and early harvest anticipated. Spring wheat situation favorable with good stands. Corn planting about completed and some cultivation commenced. Plant growing rapidly and healthy. Oats making progress since showers.

• • •

Forecast: Illinois and Missouri—Fair and continued warm tonight and Friday. Indiana—Generally fair tonight and Friday, cooler in northwest. Wisconsin—Generally fair tonight and Friday, warmer tonight in southwest. Minnesota—Unsettled and local showers tonight or Friday, cooler southeast. Iowa—Generally fair tonight and Friday, cooler in north and west tonight. North Dakota—Generally fair tonight and Friday. South Dakota—Unsettled weather and local showers tonight or Friday. Nebraska—Generally fair tonight and Friday, cooler in east. Kansas—Generally fair and continued warm tonight and Friday.

• • •

Foreign crop outlook as published in the Liverpool Corn Trade News was: United Kingdom—The crop outlook is generally good. France—The winter wheat crops show continued improvement. The outlook for the spring crops is only moderate. Imports have been on a large scale. Germany—Wheat prospects are for about an average crop. Rye crop under average. The crops generally are not shaping well, as they are suffering from drought. Hungary, Italy, Low countries, Bulgaria and North Africa—Crop conditions are generally favorable. Roumania—Latest advices confirm the need of more rain. Russia—In Poland, some districts of the Azoff, Crimea reports regarding the crops show improvement; elsewhere the outlook is unchanged. Australia—Beneficial rains have fallen which will be good for the seeding of the new crop.

• • •

Broomhall cabled from Liverpool: Argentine shipments of wheat this week 1,800,000 bu, last week 2,720,000, last year 1,968,000. Corn, 17,000, last week none, last year 1,037,000. Visible supply in chief ports: Wheat now 3,128,000 bu, week ago 3,456,000, year ago 1,248,000. Corn now 586,000, week ago 391,000, year ago 1,785,000. The wheat market is steady with a quiet demand. Arrivals from the interior are fair with the quality satisfactory. The corn market is steady with a fair demand. Arrivals from the interior are light with the quality satisfactory. The wheat market opened under pressure of lower American cables with values ½d to ⅝d lower. Russian weather news was favorable, there being further rains and cooler, and although the Argentine shipments were light by comparison, still the bulk of shipments were destined to the United Kingdom, 1,320,000 bu from a total of 1,800,000 bu. Private reports received here are of generally brilliant prospects in America and on our own coast, state that moisture is generally sufficient for present needs. European crop prospects show a general improvement and Argentine weather and crop news are all that could be desired. Indications point to a liberal Black sea shipment this week. Notwithstanding these, shorts were inclined to cover and particularly in May and July and these months displayed a firm undertone with a rise in values. October, however, was under pressure. At 1:30 p. m. the market was irregular with May unchanged and others ¼@½d lower than yesterday. The corn market was neglected and nominally unchanged.

• • •

Minneapolis Indemnities: July—Puts 96¾c, calls 98⅝c; September—Puts 91¾c, calls 93¼c.

• • •

Paris, Antwerp, Berlin and Budapest had a holiday today.

• • •

Rycroft, Chicago, wired Baker: Our information indicates that the acreage of oats will prove materially smaller than last year, and that condition of the crop will show low in Ohio, Indiana, Illinois, Missouri, Kansas and Oklahoma. The promise is very good in Iowa and the Northwest, but the general average of condition for the whole crop is likely to show below normal.

• • •

Primaries: Wheat—Receipts today, 533,000 bu; last year, 317,000 bu; shipments, 278,000 vs. 399,000 bu. Corn—Receipts, 684,000 vs. 406,000 bu; shipments, 590,000 vs. 518,000 bu.

• • •

Minneapolis wired: Cut worms doing serious damage in Southern Minnesota. State Entomologist Washburn has had reports from Austin, Golden Valley, Winona and other Southern Minnesota towns. At one place a thirty-acre field of oats was entirely eaten off.

• • •

Total clearances: Wheat, none; flour, 6,000 bbl; corn, 63,000 bu; oats, 110,000 bu; wheat and flour, 27,000 bu.

• • •

Cars inspected: Wheat—No. 1 hard, 1; No. 1 northern, 11; No. 2 northern, 2; No. 3 northern, 2; No. 2 durum, 2; winter, 2; mixed, 1; total wheat, 20, last year 29. Linseed—1 car, last year 13. Total cars 21, on track 54.

Cars of wheat received:	Today.	Last Year.
Duluth	20	29

REMARKS — Fair and rather warm weather prevailed. H. W. RICHARDSON, Local Forecaster.

T—Indicates inappreciable rainfall. *—Maximum for yesterday. †—Minimum for twenty-four hours, ending 8 a. m. 75th meridian time. ‡—Minimum temperature for 12-hour period ending at 8 a. m.

NOTE—The average maximum and minimum temperatures are made up at each center from the actual number of reports received, and the average rainfall from the number of stations reporting 1 inch or more. The "state of weather" is that prevailing at time of observation.

Liverpool Grain.

Liverpool, May 25.—Close: Wheat—Spot steady; No. 2 northern Manitoba, 7s 4d; No. 3 do, 7s 2d; futures firm; May, 6s 11⅜d; July, 6s 10¾d; October, 6s 6⅞d. Corn—Spot new American mixed, 5s 8d; old, 6s 2d; new American kiln dried easy, 4s 10d; futures quiet; July, 4s 8d; September, 4s 9½d.

MINNEAPOLIS MARKET.

Minneapolis, Minn., May 25.—Bad crop news from Oklahoma and Southern Kansas put wheat up sharply today, the unfavorable reports coming upon a market well sold out and in which there was a short interest afraid to stay short. At 97c for Minneapolis July there was considerable selling and a temporary check to the advance. The Northwestern crop news remained good. May opened 95c, high, 96⅜c; low, 95c; closed, 96¾c; July opened, 95¼@95⅝c; high, 97⅜c; low, 95¼c; closed, 97⅜c. September opened, 90½c; high, 92¼c; low, 90½c; closed, 92⅜@92¼c; December closed, 92¼c.

The cash market was slow, premiums not quite so strong and some of the wheat hard to move at firm prices. The elevators took No. 1 northern where they could get it at ½c over July. The selected lots of No. 1 sold as high as 1½@2c over. Close: No. 1 hard, $1.00⅝; No. 1 northern, 98@99⅞c; to arrive, 97⅞@99⅞c; No. 2 northern, 95⅞@98⅜c; to arrive, 95⅞@98⅜c; No. 3 wheat, 92⅜@96⅜c; No. 1 durum, 89c; No. 2 durum, 87½c; to arrive, 87½c; No. 3 yellow corn, 52@52½c; No. 4 corn, 50½@51½c; No. 3 white oats, 33⅝c; No. 2 rye, 90c.

Millstuffs—Quotations were down 25c in the prices of the big mills and some brokers figures were 50 lower. Shipments, 1,390 tons. Bran in 100-pound sacks, $21.00@21.50.

Flour—The mills gave no better reports and business is dull. Demand is not heavy enough to make any activity about the milling offices. Prices a trifle firmer by some of the mills where it was said the figures have not been quite up to where they should have been on production cash basis. Shipments, 34,981 bbl. Second patents, $4.60@4.90; first clears, $3.20@3.50; second clears, $2.20@2.85.

Flax—Receipts, 13 cars; year ago, 6; shipments, 2. Flax was about steady with trade light and buyers not appearing anxious. The wide difference between July and October flax in the future market makes some buyers cautious as the difference of about 85c seems to them too great to remain without an adjustment. Close: No. 1, $2.31.

Barley—Receipts, 20; year ago, 39; shipments, 28. Barley was steady with about 60 cars in sight, including receipts, carry-over and elevator stuff, malting barley, 75@95c; feed barley, 60@75c.

304 cars. Total receipts of wheat at Chicago, Minneapolis and Duluth today were 410 cars, compared with 310 cars last week and 198 cars the corresponding day a year ago.

WEAKNESS IN STOCKS

Due to Unsettled State of Iron and Steel Industry.

Close Dull and Heavy at Near Lowest Prices of Day.

New York, May 25.—Selling of United States Steel on a very heavy scale following yesterday's reports of reduction in prices of steel products, was the feature of the stock market at the opening today. The first sale was a block of 8,000 shares at 78, a decline of ⅜ from yesterday's close. Within the first ten minutes 42,000 shares of this issue were sold within a range of ¼, with an extreme decline of ⅝. Elsewhere in the list there was evidence of good support, especially in Reading and Union Pacific. Republic Iron & Steel declined ⅞ and the preferred ½.

Transactions in the United States Steel aggregated 60,000 shares for the first thirty minutes at from 77¾ to 78⅛. For a short time 1,000 shares was the unit of trading. Professional operators took the long side of the market when it became evident that support was effectual, elsewhere stocks rising ½ or more about their low prices. Various ordinarily inactive stocks, such as American Beet Sugar, St. Paul preferred, Pittsburg Coal, Western Maryland, Western Union and United States Alcohol preferred were marked up 1 to 2½.

Interest in today's stock market was heightened by the unsettled conditions in the steel and iron industry. Yesterday's cut in prices by one of the independent companies, was met today by a number of other concerns, including a subsidiary of the United States Steel corporation. After some hesitation the market weakened. United States Steel was sold in large lots and the price fell away to 77¾. Apparent withdrawal of the early support emboldened the bear traders and they drove prices in many instances to below the previous low level. St. Paul, Great Northern preferred and Illinois Central fell 1 to 1¼ below last night's close, and the advance in some of the specialties was cancelled. Sears-Roebuck gave way 2½. At noon prices were slightly above the lowest, and the market was dull. Bonds were easy.

On a recovery in United States Steel to 78 and a corresponding rally in some other leading stocks, the whole list became torpid in striking contrast to the activity of the forenoon. The announcement of a $25,000 bond issue by a Union Pacific subsidiary was without effect on the stock.

The market closed dull and heavy. The list drifted idly in the final hour, prices tending slowly downward, until in some instances they approached the low level. In the active group heaviness was most notable in the Harriman issues and Reading, while Western Union was the weakest of the specialties. An incident of the last hour was the sale of some Detroit & Mackinaw common and preferred shares, which sold at 100 each, compared with their previous transactions at 80 and 96¼ respectively last September.

Chicago Livestock.

Chicago, May 25.—Cattle—Receipts estimated at 4,500; market steady; beeves, $5.75@6.35; Texas steers, $4.65@5.55; western steers, $4.80@5.60; stockers and feeders, $3.90@5.75; cows and heifers, $2.40@5.70; calves, $5.25@8. Hogs, receipts estimated at 20,000; market generally 5c higher; light, $5.65@6.05; mixed, $5.65@6.00; heavy, $5.40@5.87½; rough, $5.40@5.60; good to choice heavy, $5.80@5.87½; pigs, $5.40@5.95; bulk of sales, $5.80@5.95. Sheep receipts estimated at 16,000; market slow, steady; native, $3.50@5.00; western, $3.75@5.25; yearlings, $4.75@5.90; lambs, native, $4.75@7.90; western, $5.75@7.25.

New York Money.

New York, May 25.—Money on call, steady, 2¼@2½ per cent; ruling rate, 2¾ per cent; closing bid, 2¾ per cent, and offered at 2½ per cent. Time loans steady; 60 days, 2½ per cent; 90 days, 2¾@3 per cent; six months, 3@3¼ per cent. Close: Prime mercantile paper, 3½ to 4 per cent; sterling exchange easy with actual business in bankers' bills at $4.84.40 for 60 day bills, and at $4.86.35 for demand. Commercial bills, $4.83⅞. Bar silver, 53¼c. Mexican dollars, 45c. Government bonds, steady; railroad bonds, irregular.

Cotton Market.

New York, May 25.—The cotton market opened barely steady at a decline of 6 to 12 points on the old crop, and 6 points lower to 1 point lower on the new under liquidation. Offerings were very well absorbed around the initial figure and the market ruled steady for the first few minutes, but the old crop selling continued, and the market became weak and unsettled during the middle of the morning. Stop-loss orders were uncovered when July got down to 15.75 and that position broke to 15.62 while August sold off to 15.07 or to a loss of about 20 to 24 points. The new crop was relatively steady, selling only 4 or 5 points net lower.

Futures closed quiet; bids: May and June, 15.64; July, 15.73; August, 15.14; September, 13.55; October, 13.11; November 13.02; December and January, 13.03; March, 13.11.

Spot closed quiet, 10 points lower; middling uplands, 15.90; middling gulf, 16.15; sales, 1,010 bales.

DAMAGE IN OKLAHOMA

Values Advance When Bullish Crop Reports Come From Southwest.

Cut-Worm Found in Minnesota---Eleventh Hour Shorts in Scramble.

Duluth Board of Trade, May 25.—Wheat worked upward today. May went forward 1⅞c and July a similar distance. September gained ⅝c. Interest was strong, but July took a slump in the closing five minutes. May added ¼c, July gained ⅝c and September walked forward ½c. Cash spring wheat was ½c over July. Oats closed ⅛@¼ up on crop damage reports. Rye was unchanged.

Linseed declined. Trading was light and not essential. May lost 6c, July 5c and September and October 2c. Cash was at a May basis.

The bulls worked vigorously today and they got considerable help from eleventh hour shorts who sold on yesterday's break. News from the Southwest was bullish and was the leading factor on the bull side. Strength in coarse grains contributed to the firmness in wheat.

The Southwestern wheat crop is filling out and is meeting one of the many crisis which afflict the winter wheat plant. The bulls bought wheat on the theory that the weather in the Southwest may turn unseasonably hot and dry down the yields in the leading states. Warm weather is predicted for Kansas but cooler temperatures are forecasted for Nebraska. News from Oklahoma indicated that the fall crop in that state is a failure. Some experts credit the state with a possible yield of 10,000,000 bu and one has put the yield as low as 6,000,000 bu.

Reports from central Illinois were bearish and a Minneapolis bull discovered a swarm of cut worms in southern Minnesota. He destroyed a field of oats and was prepared to annihilate much wheat as the market opened.

Foreign crop prospects continue to improve. Russian shipments this week will be liberal. Argentine exports will be on the light. Cables were lower.

Crop news in the Northwest continues encouraging. Expected showers in South Dakota did not materialize. There was evidence of precipitation in scattered places but not enough moisture fell anywhere to be worth mentioning. There were further rains in the prairie provinces of Canada.

MARKET GOSSIP

Chicago Record-Herald: R. P. Roblin of Manitoba, who passed through Chicago on his way to the coronation in England, asserts that the Canadian Northwest has by far the finest crop prospect in its history, that it has ample moisture and can harvest a crop of 150,000,000 bu of wheat with no more rain until harvest. With ordinary weather, he thinks, the crop will vastly exceed this figure. He believes that the Canadian Northwest will have an unusually early harvest this year, possibly beginning in July, as the wheat is already six to ten inches high in a good part of the Northwest. The advance made by the crop since seeding has been wonderful, as conditions of soil and weather have been favorable.

Chicago Record-Herald: The special committee on clearing-house that has been working on contemplated improvements in the system has completed its report and submitted it to the directory. Plans proposed are similar to those now in operation at Minneapolis and some other points. The board of trade has been operating under the present clearing-house methods for a great many years, but they are considered cumbersome and expensive and the new system is expected to remedy many defects.

Price Current said: Weather generally favorable for growing crops and position is now encouraging. Winter wheat heading and early harvest anticipated. Spring wheat situation favorable with good stands. Corn planting completed and some cultivation commenced. Plant growing rapidly and healthy. Oats making progress since showers.

Forecast: Illinois and Missouri—Fair and continued warm tonight and Friday. Indiana—Generally fair tonight and Friday, cooler in northwest. Wisconsin—Generally fair tonight and Friday, warmer tonight in southwest. Minnesota—Unsettled and local showers tonight or Friday, cooler southeast. Iowa—Generally fair tonight and Friday, cooler in north and west tonight. North Dakota—Generally fair tonight and Friday. South Dakota—Unsettled weather and local showers tonight or Friday. Nebraska—Generally fair tonight and Friday, cooler in east. Kansas—Generally fair and continued warm tonight and Friday.

Foreign crop outlook as published in the Liverpool Corn Trade News was:

United Kingdom—The crop outlook is generally good. France—The winter wheat crops show continued improvement. The outlook for the spring crops is only moderate. Imports have been on a large scale. Germany—Wheat prospects are for about an average crop. Rye crop under average. The crops generally are not shaping well, as they are suffering from drought. Hungary, Italy, Low countries, Bulgaria and North Africa—Crop conditions are generally favorable. Roumania—Latest advices confirm the need of more rain. Russia—In Poland, some districts of the Azoff, Crimea reports regarding the crops show improvement; elsewhere the outlook is unchanged. Australia—Beneficial rains have fallen which will be good for the seeding of the new crop.

* * *

Broomhall cabled from Liverpool: Argentine shipments of wheat this week 1,800,000 bu, last week 2,720,000, last year 1,968,000. Corn, 17,000, last week none, last year 1,037,000. Visible supply in chief ports: Wheat now 3,128,000 bu, week ago 3,456,000, year ago 1,248,000. Corn now 586,000, week ago 391,000, year ago 1,785,000. The wheat market is steady with a quiet demand. Arrivals from the interior are fair with the quality satisfactory. The corn market is steady with a fair demand. Arrivals from the interior are light with the quality satisfactory. The wheat market opened under pressure of lower American cables with values 1d to 2d lower. Russian weather news was favorable, there being further rains and cooler, and although the Argentine shipments were light by comparison, still the bulk of shipments were destined to the United Kingdom, 1,320,000 bu from a total of 1,800,000 bu. Private reports received here are of generally brilliant prospects in America and our own cables state that moisture is generally sufficient for present needs. European crop prospects show a general improvement and Argentine weather and crop news are all that could be desired. Indications point to a liberal Black sea shipment this week. Notwithstanding these, shorts were inclined to cover and particularly in May and July and these months displayed a firm undertone with a rise in values. October, however, was under pressure. At 1:30 p. m. the market was irregular with May unchanged and July lower than yesterday. The corn market was neglected and nominally unchanged.

* * *

Minneapolis Indemnities: July—Puts 96¾c, calls 98¾c; September—Puts 91¾c, calls 93¾c.

* * *

Paris, Antwerp, Berlin and Budapest had a holiday today.

* * *

Ryeroft, Chicago, wired Baker: Our information indicates that the acreage of oats will prove materially smaller than last year, and that condition of the crop will show low in Ohio, Indiana, Illinois, Missouri, Kansas and Oklahoma. The promise is very good in Iowa and the Northwest, but the general average of condition for the whole crop is likely to show below normal.

* * *

Primaries: Wheat—Receipts today, 533,000 bu; last year, 317,000 bu; shipments, 278,000 vs. 399,000 bu. Corn—Receipts, 684,000 vs. 496,000 bu; shipments, 590,000 vs. 518,000 bu.

* * *

Minneapolis wired: Cut worms doing serious damage in Southern Minnesota. State Entomologist Washburn has had reports from Austin, Golden Valley, Winona and other Southern Minnesota towns. At one place a thirty-acre field of oats was entirely eaten off.

* * *

Total clearances: Wheat, none; flour, 6,000 bbl; corn, 63,000 bu; oats, 119,000 bu; wheat and flour, 27,000 bu.

The Chicago Tribune said today: Total deliveries on May contracts so far this month are 5,910,000 bu wheat, 3,610,000 bu corn and 2,320,000 bu oats.

CHICAGO MARKET.

Wheat Speculators Give Evidence of Bullish Sentiment.

Chicago, May 25.—High temperatures in the Southwest gave a pretext for bullish sentiment on the part of wheat speculators today. The feeling in favor of high prices held additional basis in the fact that no rain of much consequence had fallen anywhere in this country. Besides, foreign markets were reported as holding well, a circumstance which aroused hope of good export trade later on. European requirements, it was predicted, would be heavy during the next few weeks. Lively commission buying ran up prices rather sharply. The opening was ⅛c higher to ¼c off, July started at 87¾c to 88¼@88¾c, a shade off to ¼c gain, and rose to 88½@88¾c.

Unfavorable dispatches from Oklahoma and Kansas in particular led to a still further advance. Cutworms were reported in Southern Minnesota. The close was steady with July at 89⅜@89½c, a net gain of 1½c.

There was a big trade in corn with active competition for all offerings. Lightness of country sales formed the chief reason. A leading house reported no acceptances whatever from any one of thirty-eight stations. July opened ¼c to ⅝c higher at 53¾c to 52⅞c and advanced to 53¼@53½c.

Some of the largest shorts covered and the market continued to climb. The close was steady with July 1@1⅛c up at 53½@53⅝c.

Bad crop advices sent oats upward independently of the strength in other grain. Sellers were scarce. July started ⅛c to ¼c up at 34⅛c to 34¼c, and mounted to 34½c.

Firmness from the outset was apparent in provisions, following advanced figures for hogs. First sales were 2½c to 20c higher with July delivery $14.85 to rpork, $8.25 for lard and $7.99 to $7.92½ for ribs.

Liverpool Grain.

Liverpool, May 25.—Close: Wheat—Spot steady: No. 2 northern Manitoba, 7s 4d; No. 3 do, 7s 2d; futures firm; May, 6s 11¾d; July, 6s 10¼d; October, 6s 8½d. Corn—Spot new American mixed no stock; old do quiet, 5s 3d; new American kiln dried easy, 4s 10d; futures quiet; July, 4s 8d; September, 4s 9½d.

MINNEAPOLIS MARKET.

Minneapolis, Minn., May 25.—Bad crop news from Oklahoma and Southern Kansas put wheat up sharply today, the unfavorable reports coming upon a market well sold out and in which there was a short interest afraid to stay short. At 97c for Minneapolis July there was considerable selling and a temporary check to the advance. The Northwestern crop news remained good. May opened 95c, high, 96¾c; low, 95c; closed, 96¾c; July opened, 95¼@95⅞c; high, 97¾c; low, 95¼c; closed, 97⅝c. September opened, 90½c; high, 92¼c; low, 90½c; closed, 92⅛@92¼c; December closed, 92¼c.

The cash market was slow, premiums not quite so strong and some of the wheat hard to move at firm prices. The elevators took No. 1 northern where they could get it at ½c over July. The selected lots of No. 1 sold as high as 1⅛@2c over. Close: No. 1 hard, $1.00⅜; No. 1 northern, 98@99⅞c; to arrive, 97⅞@99⅞c; No. 2 northern, 95⅝@98⅜c; to arrive, 95⅞@98⅜c; No. 3 wheat, 92⅜@96⅜c; No. 1 durum, 89c; No. 2 durum, 87½c; to arrive, 87¼c; No. 3 yellow corn, 52@52¼c; No. 4 corn, 50½@51½c; No. 3 white oats, 33⅝c; No. 3 rye, 90c.

Millstuffs—Quotations were down 25c in the prices of the big mills and some brokers figures were 50 lower. Shipments, 1,390 tons. Bran in 100-pound sacks, $21.00@21.50.

Flour—The mills gave no better reports and business is dull. Demand is not heavy enough to make any activity about the milling offices. Prices a trifle firmer by some of the mills where it was said the figures have not been quite up to where they should have been on production cash basis. Shipments, 24,981 bbl. Second patents, $4.60@4.90; first clears, $3.20@3.50; second clears, $2.20@2.85.

Flax—Receipts, 13 cars; year ago, 6; shipments, 2. Flax was about steady with trade light and buyers not appearing anxious. The wide difference between July and October flax in the future market makes some buyers cautious as the difference of about 85c seems to them too great to remain without an adjustment. Close: No. 1, $2.31.

Barley—Receipts, 20; year ago, 39; shipments, 28. Barley was steady with about 60 cars in sight, including receipts, carry-over and elevator stuff, malting barley, 75@95c; feed barley, 60@75c.

WEAKNESS IN STOCKS

Due to Unsettled State of Iron and Steel Industry.

Close Dull and Heavy at Near Lowest Prices of Day.

New York, May 25.—Selling of United States Steel on a very heavy scale following yesterday's reports of reduction in prices of steel products, was the feature of the stock market at the opening today. The first sale was a block of 8,000 shares at 78, a decline of ¾ from yesterday's close. Within the first ten minutes 42,000 shares of this issue were sold within a range of ¼, with an extreme decline of ⅝. Elsewhere in the list there was evidence of good support, especially in Reading and Union Pacific. Republic Iron & Steel declined ⅝ and the preferred ½.

Transactions in the United States Steel aggregated 60,000 shares for the first thirty minutes at from 77¾ to 78¼. For a short time 1,000 shares was the unit of trading. Professional operators took the long side of the market when it became evident that support was effectual, elsewhere stocks rising ½ or more about their low prices. Various ordinarily inactive stocks, such as American Beet Sugar, St. Paul preferred, Pittsburg Coal, Western Maryland, Western Union and United States Alcohol preferred were marked up 1 to 2½.

Interest in today's stock market was heightened by the unsettled conditions in the steel and iron industry. Yesterday's cut in prices by one of the independent companies, was met today by a number of other concerns, including a subsidiary of the United States Steel corporation. After some hesitation the market weakened. United States Steel was sold in large lots and the price fell away to 77⅝. Apparent withdrawal of the early support emboldened the bear traders and they drove prices in many instances to below the previous low level. St. Paul, Great Northern preferred and Illinois Central fell 1 to 1¼ below last night's close, and the advance in some of the specialties was cancelled. Sears-Roebuck gave way 2½. At noon prices were slightly above the lowest, and the market was dull. Bonds were easy.

On a recovery in United States Steel to 78 and a corresponding rally in some other leading stocks, the whole list became torpid in striking contrast to the activity of the forenoon. The announcement of a $25,000 bond issue by a Union Pacific subsidiary was without effect on the stock.

The market closed dull and heavy. The list drifted idly in the final hour, prices tending slowly downward, until in some instances they approached the low level. In the active group heaviness was most notable in the Harriman issues and Reading, while Western Union was the weakest of the specialties. An incident of the last hour was the sale of some Detroit & Mackinaw common and preferred shares, which sold at 100 each, compared with their previous transactions at 80 and 96¼ respectively last September.

Hogs—Receipts estimated at 20,000; market generally 5c higher; light, $5.65@6.05; mixed, $5.95@6.00; heavy, $5.40@5.87½; rough, $5.40@5.60; good to choice heavy, $5.60@5.87½; pigs, $5.40@5.95; bulk of sales, $5.80@5.95. Sheep—Receipts estimated at 16,000; market slow, steady; natives, $3.50@5.30; western, $3.75@5.25; yearlings, $4.75@5.80; lambs, native, $4.75@7.90; western, $5.75@7.25.

New York Money.

New York, May 25.—Money on call, steady, 2¼@2½ per cent; ruling rate, 2¾ per cent; closing bid, 2¾ per cent, and offered at 2½ per cent. Time loans easier, for days, 2½ per cent; 90 days, 2¾@3 per cent; six months, 3@3¼ per cent. Close: Prime mercantile paper, 3½ to 4 per cent; sterling exchange easy with actual business in bankers' bills at $4.84.40 for 60 day bills, and at $4.86.35 for demand. Commercial bills, $4.83⅞. Bar silver, 53¼c. Mexican dollars, 45c. Government bonds, steady; railroad bonds, irregular.

Cotton Market.

New York, May 25.—The cotton market opened barely steady at a decline of 2 to 3 points on the old crop, and unchanged to 1 points lower on the new under liquidation. Offerings were very well absorbed around the initial figure and the market ruled steady for the first hour, but the old crop selling continued, and the market became weak and unsettled during the middle of the morning. Stop-loss orders were uncovered when July got down to 15.76 and that position broke to 15.62 while August sold off to 15.07 or to a loss of about 20 to 24 points. The new crop was relatively steady, selling only 4 or 5 points net lower.

Spot closed quiet; bids: May and June, 15.64; July, 15.73; August, 15.14; September, 13.55; October, 13.11; November 13.02; December and January, 13.03; March, 13.10.

Spot closed quiet, 10 points lower; middling uplands, 15.90; middling gulf, 16.15; sales, 1,010 bales.

WILL TALK TO PUPILS

Old Soldiers Will Address School Children of City Friday Afternoon.

Merchants Asked to Decorate Their Stores for Memorial Day.

Tomorrow afternoon the school children of the city will hear war stories, incidents of the Civil war, and reasons why Memorial day should be observed.

Members of the two local posts of the Grand Army of the Republic have been assigned to different schools where they will address the children.

The afternoon session at all the grade schools Friday afternoon will be given over to exercises appropriate to Memorial day. At the conclusion, the old soldiers in attendance will speak to the children.

At all the schools, the children have been busy for some time preparing for the Friday before Memorial day. The blackboards have patriotic drawings, some of them original; bunting has been hung about the rooms and the school orchestras have been rehearsing patriotic airs.

S. S. Williamson, president of the Citizens' Staff, has sent out a circular letter to all the merchants along Superior street asking that they decorate the fronts of their buildings with bunting and flags on Memorial day. He also asks that the merchants close their business houses during the time the parade is passing. While the parade will be the largest ever given in the city, it is expected that it will not take less than an hour to pass a given point.

WANTS DAMAGES FOR MAN'S DEATH

John Bodin Claims Street Car Was Operated in Careless Manner.

John Bodin, as administrator of the estate of Carl Upstrom, is suing the Duluth Street Railway company for $5,000 for the death of Carl Upstrom which is said to have taken place after he was hit by on Interstate street car on Garfield avenue during the month of September, last year.

Bodin in his complaint states that the car was being operated in a negligent manner and that there was no sound to warn Upstrom of its approach. The trial of the case was begun this morning before Judge Martin Hughes of the district court.

APPEAL WILL BE HEARD MONDAY

State Supreme Court to Hear Details of Jackson McPherson Case.

The appeal in the case of the state against Jackson McPherson, serving a life sentence at Stillwater for the murder of Otto Frey, which took place on the Mutual steamer North Lake in August, 1909, will be heard before the state supreme court at St. Paul Monday.

The defense claims that there was misconduct on the part of the county attorney who was able to prejudice the jury in favor of the state by misrepresenting the facts and dwelling on the fact that McPherson was not a union sailor.

McPherson will be represented by W. E. Whipple and the state by Assistant County Attorney Warren E. Greene.

CALLS ATTORNEYS FOR THE GRANGE

Senate Committee Will Investigate Fight on Reciprocity.

Washington, May 25.—Allen & Graham, the New York attorneys who, it is said, have acted for the National Grange in opposing the Canadian reciprocity agreement, will be summoned by the senate finance committee to appear before the committee next Monday. This decision was reached by the committee today on motion of Senator Stone, who had previously stated a desire to find out "just who" was behind the fight on reciprocity.

THE BIBLE IN KOREA.

Translation of Old Testament Into Korean Is Completed.

New York, May 25.—The American Bible society has appointed the Rev. S. A. Beck, of University Place, Nebraska, to take charge of its Korean agency during the absence of the Rev. D. A. Bunker from the field. Mr. Beck was born in Illinois in 1866. He went out to Korea from Gordon, Neb., as manager of the Methodist Publishing house in Korea. He is a member of the Korean conference of the Methodist Episcopal church, of which he was secretary for six years. He was treasurer of the Young Men's Christian association of Korea for three years, and a member of the executive committee of the Korean Religious Tract society and of the Permanent Executive Bible committee.

The Old Testament in Korean has just been completed, thus making the whole Bible available for the people of Korea for the first time in their history.

JOHN BULL'S PRIDE IS GIVEN A JOLT.

London, May 25.—British pride received a jar in the house of commons when Reginald McKenna, the first lord of the admiralty, sorrowfully admitted, in reply to a question, that the United States battleship Delaware will be the largest ship at the Coronation naval review, surpassing Great Britain's ship, the Neptune.

COLD WATER NATURE'S TONIC

If you are one of those persons who jump into a tub of cold water every morning after getting out of bed, or even if you only throw some cold water on your chest, you're practising what the doctors call hydrotherapy. To be sure, you're doing it somewhat primitively, as compared to the way it is done at the new Rockefeller hospital, for example, but nevertheless you're a hydrotherapist, says the New York Sun.

While this may encourage you to continue the practice, of which you have no doubt been boasting to your friends, you might not feel so proud if you were to run up against the men in the big hospitals and sanitariums for nerve cases who manage this form of treatment. In the first place they would be sure to ask you if you jumped into that tub when you were thoroughly warmed up, as you would be after ten minutes' exercise or an equal number of minutes in one of the new electric light baths at a temperature around 150 degrees.

"Cold water," said one of the experts at a big sanitarium, "is one of nature's greatest boons to the human system when you're warmed up. When you're cold it's sometimes deadly in its effect."

To be warmed up as these men understand it is to have developed at least a slight perspiration and to have your skin feel warm to the touch. Then, they assert, cold water, and the colder the better, is one of the most powerful tonics and stimulants known and the best bracer for the nervous system that has yet been found.

It is for this reason that today such institutions as the new Rockefeller hospital and the Neurological Institute have spent thousands of dollars on bathrooms where such treatment is given. The baths at the Rockefeller hospital, just opened, have been pronounced by experts to be as nearly perfect as any that could be made.

In these institutions the warming up is essential not only before the application but after it as well, another feature of the cold water treatment which the home practitioner generally neglects. If you rub yourself off with a coarse towel until you are tired, as perhaps you do, you are carrying out the idea to some extent, but it would be much better, say these experts, if you simply wiped the water off your skin made rosy by the blood reaction and then did ten or more minutes exercise. You would dry off and warm up again then in the proper way and get the full benefit of the water.

Shaving immediately before or after a cold plunge, these men will tell you, isn't the thing to do at all, because it isn't a violent form of exercise and you allow your body to get cold instead of making it warm.

In the institutions where hydrotherapy is a specialty you will see exercising squads before and after the time for the cold water applications. Without this exercise a cold "blitz," as a stream of cold water directed at you under pressure is called, might be a form of torture.

At the Rockefeller institution and at other institutions where the latest wrinkles in hydrotherapic treatment have been installed the thing which first strikes the eye in the bathroom is the operator's battery. It is a marble table with all sorts of bright nickeled levers, gauges and thermometers. These levers mix hot and cold streams, increase and decrease pressure and regulate the number of streams you are getting.

By them the doucheur can throw at you first a hot stream and then a cold with sufficient pressure to make them feel like a hundred hammers at work. Or he may start a stream mildly at first and gradually work it up until instead of lukewarm water you are getting water close to the freezing point, pounding your backbone like a trip hammer. Everything is so arranged that the operator behind his battery twenty feet away can see at all times just what you are getting from the gauges and thermometers, and by moving his little levers can alter the treatment at will.

More people are trying the curative properties of water than ever before, according to those who are managing these institutions. It is merely one of the results of modern strenuosity.

An institution uptown which isn't connected with any hospital but to which some of the nerve specialists send their worn out patients who aren't exactly candidates for sanitariums, has about all it can do these days and has had to increase its force of doucheurs. The doucheurs merely follow out the directions of the nerve specialist as a druggist would a prescription. The form of application of the water is written out by the doctor on a slip of paper and the patient hands it to the operator and gets the course of treatment it calls for.

Sometimes it may be hot and cold applications and sometimes cold water exclusively. The varying degrees of pressure are often prescribed, the physician having of course first made a thorough examination of his patient to ascertain how much he can stand. Persons with weak heart action necessarily have to take the milder forms. As a result of six weeks' pounding by cold water streams or alternating douches some of these worn victims of the strenuous life leave as hard as nails and with their nervous force restored, but with others it takes a much longer time.

It is in the varying degrees of pressure and in the alternation of temperatures that hydrotherapy as practiced today differs from that of the ancients, for as a curative agency water was employed by the earliest practitioners of the healing art. In this respect, too, modern hydrotherapy differs somewhat from that of old Father Kneipp, the Bavarian priest, who did so much to popularize cold water in Germany and who asserted that he had cured himself of tuberculosis through it.

Water and electricity, both natural agencies, are combined today in the treatment of those whose nerves have weakened under the strain of modern conditions, and lately there has been another advance in the use of nature's remedies. In the hospitals recently fitted up there are, for example, electric light baths and violet ray baths, from which the patient steps into the water room to receive the pounding of a stream of icy water for several minutes, at the end of which time he is generally lobster hued, and despite the sudden change from one extreme of temperature to the other he will probably have a delightful sensation of warmth. Or he may be placed in a tub of cold water which has been charged with electricity.

Perhaps the largest class of persons upon whom hydrotherapy in its up-to-date form is being tried is composed of the sleep seekers, the persons suffering from insomnia. This class, say the physicians, is ever increasing these days and draws equally from both sexes, the rich and the poor, though the rich contribute most to it.

A NOVEL INCUBATOR.

On a ranch in the valley of the Colorado desert a new and strange method of hatching chickens is being practiced, writes a correspondent of St. Nicholas. Many artesian wells are in this valley to furnish water for irrigation.

One hole was drilled for 750 feet into the earth and a flow of water came up with a temperature of 102 degrees. Since chickens are hatched when eggs are kept just as warm as this for twenty-one days, the people who own this well decided to use its heat to hatch eggs.

The earth was dug away from the pipe so that the water as it flowed over formed a pool in which an incubator can be submerged. A round can of galvanized iron was made 18 inches in diameter and 6 inches deep with a chimney projecting above the water. By stretching the arm and hand down this chimney the eggs are placed on straw on the bottom of the can. In this way too they are turned twice each day and out of the chimney the chicks are drawn when two days old. They are then placed in the brooders.

The can is securely fastened in the warm pool by weights. The only things that appear above the water are the chimney and the end of a small tube which is inserted in the bottom of the can and curves upward. Through the chimney the foul air rises and escapes. Into the tube rushes fresh air with moisture which ascends as vapor from the water. Both are necessary to give health and strength to the little birds growing in the shells These chicks are as strong as any chicks have ever been and hatched in this way it is claimed that they are out of their shells one day earlier than when a hen sits on the eggs.

LEGAL NOTICES.

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND—
State of Minnesota, County of St. Louis—ss.
District Court, Eleventh Judicial District.
In the matter of the application of Century Commercial Company, to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: All of Block Eighteen (18), Hunter's Grassy Point Addition to Duluth, St. Louis County, Minnesota, according to the recorded plat thereof, Applicant,
vs.
Francis Omeis, State of Minnesota, and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein, Defendants.
The State of Minnesota to the above named Defendants:
You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding and to file your answer to the said application in the office of the Clerk of said Court, in said County, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and, if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the Court for the relief demanded therein.
WITNESS, J. P. Johnson, Clerk of said Court, and the seal thereof, at Duluth, in said County, this 18th day of May, A. D. 1911.
J. P. JOHNSON, Clerk.
By J. S. MOODY, Deputy.
(Seal, District Court, St. Louis County, Minn.)
WASHBURN, BAILEY & MITCHELL, Attorneys for Applicant.
D. H., May 18, 25 June 1, 1911.

State of Minnesota, County of St. Louis —ss.
District Court, Eleventh Judicial District.
NOTICE.
Duluth Log Company, Plaintiff.
vs.
W. J. Wheeler, Defendant,
and
Ab. Smith, Garnishee.
To K. A. Wheeler:
You will please take notice that at the disclosure of the above named garnishee before the Clerk of the above named Court, on April 29, 1911, it appeared that you claim a right to certain money in the hands of said garnishee owing by him to the above named defendant, W. J. Wheeler; and, pursuant to order of the Examining Officer duly made and filed, you are hereby notified and required, within twenty days from the service of this notice upon you, to appear in said action and maintain your right to said money or be barred of your claim thereto.
Dated this 10th day of May, 1911.
E. C. CARMAN AND BALDWIN & BALDWIN,
300-306 First National Bank Building, Duluth, Minnesota, Attorneys for Plaintiff.
D. H., May 11, 18, 25, June 1, 8, 15, 1911.

Bids for Curbs and Gutters.

Notice is hereby given, That the Village Council of the Village of Biwabik, Minnesota, will, until 8 p. m. Saturday, June 10th, 1911, receive bids for the following purpose, to-wit:

For furnishing all material for such work and to construct about 2,000 lineal feet of curb and gutter, according to plans and specifications on file with the Village Clerk of the Village of Biwabik, and at the office of C. M. Dorway, Village Engineer for said Village, at Virginia, Minnesota.

All bids are to be plainly marked, "Bids for Biwabik curb and gutters," must be sealed, and accompanied by a certified check for five per cent of the amount of the bid, and must be in my hands before the hour specified.

The council reserves the right to reject any or all bids.

J. E. RILEY, Village Clerk.
D. H., May 18, 25, June 1, 1911.

REPUBLICANS FAVOR MARTIN RESOLUTION IN LORIMER CASE

Regulars Must Combine With Democrats to Beat La Follette.

House Leaders Agree to Adjourn Until Next Tuesday.

Senate Will Vote June 12 on Direct Election of Senators.

Washington, May 26.—The Lorimer case, temporarily sidetracked in the senate but considered in Democratic caucus, promises to be thrashed out on the floor today. There is a strong impression that the Martin Democratic resolution, perhaps modified in some of its details, will finally be adopted.

The regular Republicans, powerless to control the situation themselves, are said to prefer the Democratic proposition to that of Senator La Follette. Party lines will be split when the test comes, but a reinvestigation of Senator Lorimer's election is assured.

Senator La Follette still hoped today to secure the adoption of his resolution providing for an investigation by a committee of new members of the senate. He had the floor privilege and purposed concluding the speech that he had been making in installments for several days.

House Has Idle Day.

There was no business of importance for the house to consider today. Democratic leaders, after the disposition of some formal business matters, de-

(Continued on page 2, third column.)

REPUBLICANS FAVOR HIS LORIMER PLAN

THOMAS S. MARTIN, Democratic Senator From Virginia.

RICH PICKINGS FOR GAMBLERS

One Passenger on Lusitania Loses $1,000 in an Hour.

New York, May 26.—There were fat pickings for two professional gamblers who came over on the Lusitania, in today. One passenger reported that in four days the gamblers picked up $14,000 and that one of their victims lost $1,000 in an hour.

"I've lived almost all my life in parts of the West," said this passenger, "here gambling is wide open, btit I never saw such quick action at poker. Play usually began in the smoking room at 11 o'clock at night and lasted until 3 or 4 in the morning. The pigeons could evidently afford their plucking, and as it was none of my business I did not interfere."

TRIES TO KILL WHOLE FAMILY

Chicago Italian Turns to Crime When Wife Threatens Divorce.

Chicago, May 26.—Pasquale Labriola, an Italian, stabbed and probably mortally wounded his wife and two young daughters and then attempted to kill himself, early today. The whole family may die.

Labriola, who was still conscious when the police reached him, said his wife had threatened to get a divorce and that if he couldn't have her, no one else would. He had been separated from her for a year.

WANDERS IN THE MOJAVE DESERT

Italian Girl, Terrified By Stories, Faces Fearful Death.

San Francisco, May 26.—After wandering in the Mojave desert for nearly two days without food or water, Maria Ferraria, an Italian immigrant girl, was brought to the home of her brother here last night.

Terrified by the malicious stories of Italians she met on the journey from New York, she jumped from a Santa Fe train near Barstow, Cal, preferring to chance death on the blazing sands of the Mojave rather than face the terrible fate she pictured awaiting her in San Francisco.

Taking advantage of her ignorance of the language and American customs, Italian passengers on the train told her lurid and terrifying stories of American laws and customs, making her believe her brother, whom she was traveling to join, was angry at her coming without his permission and would kill her.

Exhausted When Found.

When her absence was discovered, hours after she had left the train, a message was sent to the station agent at Barstow to search for her. The agent succeeded in ...ing her trail, but did not overtake her for more than twenty-four hours. When found she was suffering from thirst and hunger and was completely exhausted.

WINS FLIGHT INTO MADRID

Vedrine Completes 600-Mile Aeroplane Trip From Paris.

A Sensational Achievement Marks Last Leg of the Race.

Madrid, May 26.—Pierre Vedrine, the French aviator, arrived at the Spanish capital from Burgos at 8:06 o'clock this morning, being the first contestant to complete the third stage of the 600-mile Paris-to-Madrid aviation race. He covered the distance of 140 miles between Madrid and Burgos, where he landed yesterday from San Sebastian, in 2 hours and 45 minutes.

Gibert and Garros still are stalled in the mountain fastnesses and it is not probable they will be able to finish within the time limit.

Vedrine, on landing at the Getafe Aerodrome, jumped from his aeroplane and flung himself on the ground to rest. A frantic crowd soon rushed up, however, and bore the victorious aviator on their shoulders to the tribunal.

Roses and Kisses.

On reaching the judges' platform he

WHEELOCK MAY FILE CHARGES

Governor Instructs Secretary to Act If Stephens Does Not.

St. Paul, Minn., May 26.—(Special to The Herald.)—If Senator A. D. Stephens of Crookston does not file his formal complaint against F. A. Whittier, superintendent of the state training school for boys at Red Wing, charging him with incompetency, within the next few days, the complaint will formally be made by Ralph Wheelock, secretary to the governor.

This statement was made by Mr. Wheelock this morning following receipt of a letter from Governor Eberhart, written at Albany, N. Y.

"Mr. Stephens has the complaint ready," Mr. Wheelock said, "and I understand it is to be filed. If it isn't however, the governor wishes the proceedings to be instituted at once, and has instructed me to see that they are instituted."

Senator Stephens is not expected at the capitol before Monday.

CARRINGTON, N. D., HAS $45,000 FIRE

Big Mercantile Establishment Ruined; About Half Insured.

Carrington, N. D., May 26.—(Special to The Herald.)—This city sustained about a $45,000 fire loss resulting this morning from the burning of the Carrington Mercantile company's store. The stock is valued at $30,000 and building at $15,000. The origin of the fire is uncertain. The loss is about half insured.

ARBITRATION IS INDORSED

Commercial Men at Mohonk Lake Telegraph the President.

Oscar Straus Talks on Commercialism and Warfare.

Mohonk Lake, N. Y., May 26.—The representatives of fifty-one commercial organizations attending the seventeenth annual meeting of the Lake Mohonk conference on International Arbitration today sent telegrams to President Taft and Senator Cullom, chairman of the senate committee on foreign relations, saying that they "heartily indorse treaties of unlimited arbitration with Great Britain, France and other countries and wish speedy success with such treaties."

Oscar S. Strauss of New York, member of The Hague court and former ambassador to Turkey, addressed the conference on "Business and International Arbitration."

In his address, Mr. Straus, twice minister and once ambassador to Turkey, said that the American diplomacy had always encouraged unhampered commerce and effective neutrality, and he urged the importance of adhering strictly to that policy. A great step forward, he declared, would be to make it unlawful for neutral nations or their subjects to issue war loans or sell munitions of war to belligerent powers.

For Real Neutrality.

In part, he said:

"As the law now stands it is en-

PEEKING BURGLAR SHOT IN THE EYE

Householder Fires Through Augur Hole and Kills Marauder.

Cleveland, O., May 26.—That a burglar shot and killed by E. L. Ackerman last night, while he was peering through a hole he had just bored in the floor of the Ackerman kitchen, is not James Kane of Syracuse, N. Y., as was originally supposed, was definitely established today when Kane, in complete ignorance of his supposed death, was at work as usual.

Ackerman and his wife heard a noise in the kitchen and found a fresh hole in the floor. Ackerman stuck the point of his revolver in the hole and fired. The bullet entered the burglar's eye.

A neighbor had identified the body as that of Kane.

ST. PAUL MAN TO TALK TO HARVARD ALUMNI.

Des Moines, Iowa, May 26.—Edgar H. Wells, general secretary of the Harvard Alumni association, and acting dean of Harvard university, will address the Harvard alumni of Iowa at the annual banquet here tonight. Nathan E. Coffin, president of the Iowa organization, will preside and deliver an address. Others to speak will be E. P. Davis of St. Paul, and Arthur C. Lyon of Grinnell.

OWNERS PRESENT A DISMAL PICTURE OF THEIR LOGGING ROAD

Claim It Has Lost $3,000 in the Last Nine Months.

Officers Admit Having No Depots and Only One Coach.

Officers of the Minesota & North Wisconsin railroad drew a dismal picture of the prospects of the road at the hearing before the members of the state railroad and warehouse commission this morning.

The road, which represents an investment of $850,000, is now worth only $100,000, according to Dr. Dwight F. Brooks of St. Paul, president of the company. The road has lost nearly $3,000 during the first nine months of the present fiscal year; there is not enough tie, pole and pulp-wood traffic to make its transportation profitable; no farm products are offered to the railroad; and heavy expense would have to be encountered to operate trains on a regular schedule, according to Supt. R. S. Pattee.

Although the objectors to the granting of the petition of the railroad company for the right to abandon the road have not yet had their innings, the questions put by H. B. Fryberger in cross-examining the company's witnesses, indicate that a different story will be told. He obtained admissions that the company had owned only one passenger coach in its career, and the coach was sold during the past year. Of nine cabooses, only one remains. There are only three box cars on the line. No depots or stations of any kind have been erected, and during the few years past, no attempt was made to run trains on a schedule. Mr. Fryberger sought to obtain admissions that there are millions of feet of birch and other timber suitable for cordwood, ties, posts and other forest products, still to be carried out of the district through which the road runs, but the officers of the company were not prepared to make an estimate on that point.

Crowded Out of Hotel.

The interest in the hearing, which is on the petition of the railroad company for the right to abandon the road and tear up the tracks, is indicated by the fact that nearly 150 people, over half of whom are settlers from the district affected, appeared before the

SOUTH DAKOTA BANK ROBBED

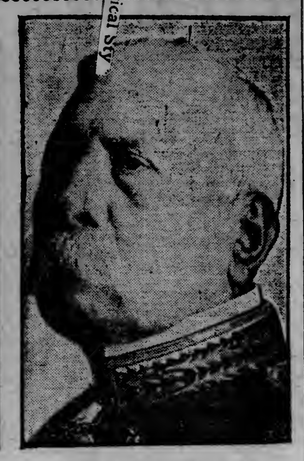
Dynamiters Cut Wires From Tea and Escape on Hand Car.

Tea, S. D., May 26.—Two robbers dynamited the safe of the Farmers' Savings bank here today, securing $1,000, and escaped on a handcar. All wires entering the town were cut by the bandits.

DE LA BARRA TAKES OATH AS PRESIDENT; CAPITAL IS ORDERLY

PRESIDENT AND EX-PRESIDENT

—Copyrighted by George Grantham Bain.
FRANCISCO LEON DE LA BARRA
Provisional President of Mexico.



GEN. PORFIRIO DIAZ,
Who Has Resigned the Presidency After Seventy-seven Years.

DIAZ RESIGNS HIGH OFFICE

Entire Mexican Cabinet Goes Out With Its Leader.

New Treasurer Finds $60,400,000 in Gold in the Vaults.

Retiring President Says He Knows No Reason for Opposition.

City of Mexico, May 26.—Francisco Leon De La Barra, the Mexican foreign minister and former ambassador at Washington, took the oath of office as provisional president of the republic today. He will act as the chief executive in succession of Porfirio Diaz, who resigned yesterday, until a general election can be held.

Order prevailed throughout the capital last night.

Mexico changed presidents without any of those demonstrations of anarchy of which the Diaz government had expressed apprehension.

Citizens thronged the streets, marching by thousands, till far into the night, but it was a demonstration of joy—a celebration without a trace of malice.

Wednesday, Gen. Diaz's last day as president, saw thousands of dollars worth of property wrecked and the dead and wounded strewing the park in front of the national palace. Last night, under Francisco De La Barra as provisional president, there was no disorder. For the first time in thirty years, the people were expressing themselves without restraint, but did it in an orderly though noisy manner.

People Prove Worthy.

Americans who have watched the situation with unprejudiced eyes, say that the Mexican people have shown themselves able to change their government without that anarchy which was held out as a bugaboo by the government which sought to retain its power. The people have accepted De La Barra as their provisional president with every indication that they will, as a mass, stand back of him until an election can be held. If the present unanimous sentiment holds good, that election will place Francisco I. Madero, Jr., in the presidential chair.

Marked improvement was shown in Gen. Diaz's health, according to an official statement made last night. He had practically no fever and was able to walk about in his home.

Escorted By Diaz's Staff.

Senor De La Barra this morning was escorted from the national palace to the chamber of deputies, where the oath of office was administered by the members of the staff of Former President Diaz. The staff officials had resigned days ago, but had asked permission to

SOUTHERN FIREMEN REJECT MEDIATION

Refuse to Have Demand for Higher Pay Left to Board.

Washington, May 26.—Representatives of the locomotive firemen of the Southern railway today flatly turned down a proposal of President Finley of the Southern that they submit the present wage controversy and threatened strike to a board of mediation. The firemen insisted upon their demands for 20 per cent increase in pay, and declared they would consider no other proposition. President Finley asked for a further conference later today.

GIANT METEOR HITS CALIFORNIA MOUNTAIN.

Carrier at Proctor.

Washington, May 26.—(Special to The Herald.)—P. Gulbranson was today appointed rural carrier and Ida C. Gulbranson substitute on Route No. 1 at Proctor, Minn.

REV. GRANT CONVICTED

Presbyterians Declare Him Guilty By Overwhelming Vote.

Reinstatement in Pulpit Is Left to His Own Presbytery.

Atlantic City, N. J., May 26.—Rev. Dr. William D. Grant of Northumberland, Pa., has been found guilty of heresy by the commission which heard the charges made against him. The commission reported its findings to the Presbyterian general assembly this morning.

The commission found that Dr. Grant "taught doctrines contrary to the word of God in the Bible and the Presbyterian confession of faith." He is held to be guilty under the rules of the Presbyterian book of discipline, and the commisison recommends that Dr. Grant be suspended from exercising the functions of a minister of the Presbyterian church until such time as he can convince his own Presbytery, that of Northumberland, that he has renounced the errors he has been found to hold and satisfy the Presbytery of his purpose no longer to teach them."

Report Carried Overwhelmingly.

A motion to adopt the report and confirm the judgment of the commission was put to a vote in the assembly and was carried overwhelmingly without debate. There were only a few scattered "nays."

Though the decision was at first a crushing blow to friends of Dr. Grant, the judgment which leaves it up to his

OPPOSE ILLINOIS LIABILITY BILL

Manufacturers Send a Protest to Governor Deneen.

Springfield, Ill., May 26.—The Illinois Manufacturers' association today, through one of its directors, John F. Wolff, attacked the state senate employers' liability bill in a statement presented to Governor Charles S. Deneen. Mr. Wolff led a delegation of over a hundred manufacturers.

Among the objections raised is that insufficient experience had been had with employers' liability in Illinois to warrant a stringent measure such as the one in question is said to be, and that it gives rights to the employes which are denied to the employer.

ACCUSED OF ASSAULT ON MISS DOUGHERTY.

Minot, N. D., May 26.—(Special to The Herald.)—A man answering the description of the tramp who committed a fiendish assault upon Miss Grace Dougherty, the Plaza school teacher, last Saturday, has been arrested at Garrison, N. D., and Sheriff Ed Kelly has left Minot for that place. The man, who tallies exactly with the assailant, was arrested by local officials at Garrison and word was sent immediately to the Ward county sheriff.

NORTH DAKOTA HAS ANOTHER WELCOME RAIN.

Fargo, N. D., May 26.—(Special to The Herald.)—The most ideal crop conditions in this part of the state were made even better by thunder showers this morning, the precipitation being about one-sixth of inch. Showers are reported over many counties of the state.

HE'S AS WELCOME AS A BURGLAR.

POLK COUNTY FARMER SUICIDE

Hangs Himself on Birthday After Year of Married Life.

Crookston, Minn., May 26.—(Special to The Herald.)—With life extinct but the body still warm, Mrs. Philorom Lacoursier found the body of her husband last evening dangling from a rafter in the haymow of their barn in Chester township. He had gone to the haymow telling his brothers not to disturb him, as he wanted to sleep. Shortly afterward his wife started in search of him and found the body. He used a rein from a harness as a rope.

With his wife, he had resided with his parents. Yesterday was his 25th birthday, and he had been married but a year. No cause for the suicide is known. For a few days he had complained of not feeling well, but had not acted strangely or made any threats.

Coroner Stenshoel decided an inquest was unnecessary.

WIRELESS TO LINK BRITISH EMPIRE

Surprising Feat Accomplished Between Canada and West Africa.

Glace Bay, C. B., May 26.—One hour by wireless from Glace Bay, C. B., to Dakar, on the coast of French Western Africa, is the astonishing feat that has just been accomplished at the Glace Bay wireless station. The message was flashed from this place to the Eiffel Tower at Paris, and from Paris relayed to the Dakar station, the whole operation taking but sixty minutes.

So successful was the experiment that it is now announced that the British dependencies will be linked together by wireless, and plans to this end are now being made. Between seventy and eighty new stations will be required to put this girdle around the world.

REPUBLICANS FAVOR MARTIN RESOLUTION IN LORIMER CASE

Regulars Must Combine With Democrats to Beat La Follette.

House Leaders Agree to Adjourn Until Next Tuesday.

Senate Will Vote June 12 on Direct Election of Senators.

Washington, May 26.—The Lorimer case temporarily sidetracked in the senate but considered in Democratic caucus, promises to be thrashed out on the floor today. There is a strong impression that the Martin Democratic resolution, perhaps modified in some of its details, will finally be adopted.

The regular Republicans, powerless to control the situation themselves, are said to prefer the Democratic proposition to that of Senator La Follette. Party lines will be split when the test comes, but a reinvestigation of Senator Lorimer's election is assured.

Senator La Follette still hoped today to secure the adoption of his resolution providing for an investigation by a committee of new members of the senate. He had the floor privilege and purposed concluding the speech that he had been making in installments for several days.

House Has Idle Day.

There was no business of importance for the house to consider today. Democratic leaders, after the disposition of some formal business matters, de-

WINS FLIGHT INTO MADRID

Vedrine Completes 600-Mile Aeroplane Trip From Paris.

A Sensational Achievement Marks Last Leg of the Race.

Madrid, May 26.—Pierre Vedrine, the French aviator, arrived at the Spanish capital from Burgos at 8:06 o'clock this morning, being the first contestant to complete the third stage of the 600-mile Paris-to-Madrid aviation race. He covered the distance of 140 miles between Madrid and Burgos, where he landed yesterday from San Sebastian, in 2 hours and 45 minutes.

Gibert and Garros still are stalled in the mountain fastnesses and it is not probable they will be able to finish within the time limit.

Vedrine, on landing at the Getafe Aerodrome, jumped from his aeroplane and flung himself on the ground to rest. A frantic crowd soon rushed up, however, and bore the victorious aviator on their shoulders to the tribunal.

Roses and Kisses.

On reaching the judges' platform he

WHEELOCK MAY FILE CHARGES

Governor Instructs Secretary to Act If Stephens Does Not.

St. Paul, Minn., May 26.—(Special to The Herald.)—If Senator A. D. Stephens of Crookston does not file his formal complaint against F. A. Whittier, superintendent of the state training school for boys at Red Wing, charging him with incompetency, within the next few days, the complaint will formally be made by Ralph Wheelock, secretary to the governor.

This statement was made by Mr. Wheelock this morning following receipt of a letter from Governor Eberhart, written at Albany, N. Y.

"Mr. Stephens has the complaint ready," Mr. Wheelock said, "and I understand it is to be filed. If it isn't however, the governor wishes the proceedings to be instituted at once, and has instructed me to see that they are instituted."

Senator Stephens is not expected at the capitol before Monday.

CARRINGTON, N. D., HAS $45,000 FIRE

Big Mercantile Establishment Ruined; About Half Insured.

Carrington, N. D., May 26.—(Special to The Herald.)—This city sustained about a $45,000 fire loss resulting this morning from the burning of the Carrington Mercantile company's store. The stock is valued at $30,000 and building at $15,000. The origin of the fire is uncertain. The loss is about half insured.

RICH PICKINGS FOR GAMBLERS

One Passenger on Lusitania Loses $1,000 in an Hour.

New York, May 26.—There were fat pickings for two professional gamblers who came over on the Lusitania, in today. One passenger reported that in four days the gamblers picked up $14,000 and that one of their victims lost $1,000 in an hour.

"I've lived almost all my life in parts of the West," said this passenger, "here gambling is wide open, but I never saw such quick action at poker. Play usually began in the smoking room at 11 o'clock at night and lasted until 3 or 4 in the morning. The pigeons could evidently afford their plucking, and as it was none of my business I did not interfere."

TRIES TO KILL WHOLE FAMILY

Chicago Italian Turns to Crime When Wife Threatens Divorce.

Chicago, May 26.—Pasquale Labriola, an Italian, stabbed and probably mortally wounded his wife and two young daughters and then attempted to kill himself, early today. The whole family may die.

Labriola, who was still conscious when the police reached him, said his wife had threatened to get a divorce and that if he couldn't have her, no one else would. He had been separated from her for a year.

WANDERS IN THE MOJAVE DESERT

Italian Girl, Terrified By Stories, Faces Fearful Death.

San Francisco, May 26.—After wandering in the Mojave desert for nearly two days without food or water, Maria Ferraria, an Italian immigrant girl, was brought to the home of her brother here last night.

Terrified by the malicious stories of Italians she met on the journey from New York, she jumped from a Santa Fe train near Barstow, Cal, preferring to chance death on the blazing sands of the Mojave rather than face the terrible fate she pictured awaiting her in San Francisco.

Taking advantage of her ignorance of the language and American customs, Italian passengers on the train told her lurid and terrifying stories of American laws and customs, making her believe her brother, whom she was traveling to join, was angry at her coming without his permission and would kill her.

Exhausted When Found.

When her absence was discovered, hours after she had left the train, a message was sent by the station agent at Barstow to search for her. The agent succeeded in ... ing her trail, but did not overtake her for more than twenty-four hours. When found she was suffering from thirst and hunger and was completely exhausted.

ARBITRATION IS INDORSED

Commercial Men at Mohonk Lake Telegraph the President.

Oscar Straus Talks on Commercialism and Warfare.

Mohonk Lake, N. Y., May 26.—The representatives of fifty-one commercial organizations attending the seventeenth annual meeting of the Lake Mohonk conference on International Arbitration today sent telegrams to President Taft and Senator Cullom, chairman of the senate committee on foreign relations, saying that they "heartily indorse treaties of unlimited arbitration with Great Britain, France and other countries and wish speedy success with such treaties."

Oscar S. Strauss of New York, member of The Hague court and former ambassador to Turkey, addressed the conference on "Business and International Arbitration."

In his address, Mr. Straus, twice minister and once ambassador to Turkey, said that the American diplomacy had always encouraged unhampered commerce and effective neutrality, and he urged the importance of adhering strictly to that policy. A great step forward, he declared, would be to make it unlawful for neutral nations or their subjects to issue war loans or sell munitions of war to belligerent powers.

For Real Neutrality.

In part, he said:

"As the law now stands it is en-

WILL BEGIN ON MONDAY

Contractor Ready to Break Ground for New Tuberculosis Sanitarium.

Will Be Located on an Ideal Site Near Midway.

Ground will be broken and work on the new St. Louis county sanitarium will begin Monday of next week.

Contractor Emil Zauft announced this morning that he would have men on the job and that materials would begin to arrive at the site of the sanitarium Monday.

It is his intention to push the work so that the main, or administration, building will be completed and ready for use by fall.

He can complete the building none too soon to please the members of the commission and others interested in the building for the delays in getting the plans under way have been many up to this time. The need of the building is being felt more each day.

The new sanitarium will be located near Midway. The site was selected some months ago after many had been looked over. Both from a medical and building standpoint, the site is said to be one of the best in the county. It is situated in such a way that the patients will get the right exposure for the treating of tuberculosis and the architects, after visiting the site some months ago, stated that from a building standpoint the site could not have been improved upon.

In spite of the efforts made in the city to cut down the number of cases of tuberculosis, there seems to be a steady increase. There is more work than can be done with the amount of help employed and it is expected that the new building will greatly simplify this work.

REPUBLICANS FAVOR MARTIN RESOLUTION IN LORIMER CASE

(Continued from page 1.)

termined early in the day upon another recess until Tuesday, thus again avoiding the discharge calendar on Monday.

This calendar is heavily laden with motions to discharge committees on important bills which the Democrats do not want to consider at this session. All the discharge motions have been placed on the calendar by Republicans. They may be called up on Monday but thus far the Democrats have bridged over the Mondays and avoided legislative measures not on their program. Next Tuesday there may be another adjournment until the following Friday.

Will Vote on June 12.

The senate has fixed June 12 for a vote on the joint resolution providing for the election of United States senators by direct vote of the people. The resolution already has passed the house.

After four hours' caucus the Democratic senators voted 24 to 1 to support the resolution offered by Senator Martin of Virginia on behalf of the Democratic steering committee providing for a reinvestigation of bribery charges in connection with the election of Senator Lorimer of Illinois. A personal colloquoy between Senators Bailey of Texas and Martine of New Jersey featured the caucus. The Martin resolution proposes an inquiry by the committee on privileges and elections.

Bailey vs. Martine.

The verbal encounter between Messrs. Bailey and Martine originated in Mr. Bailey's demand for general support of the Martin resolution. Mr. Bailey declared that any senator who refused to be bound by the caucus had no rightful place in the party councils. This aroused the senators who favor the La Follette resolution providing for an inquiry by a special committee of new senators.

Mr. Bailey contended that more than two-thirds of the caucus favored the Martin resolution and it was thus the duty of all Democratic senators to abide by the decision. Mr. Martine replied that while willing to compare his party record with the Texas senator, he was willing to be bound by a party caucus on a moral question. He said he understood that the meeting was a conference and not a caucus, and he had no understanding that any binding action was to be taken.

Saying he would not bandy words regarding the character of his own Democracy as compared with that of another senator, Mr. Bailey insisted that all senators were in duty bound to abide by the two-thirds decision of the caucus.

Mr. Martine replied as pointedly, and the colloquoy continued until Mr. Martine withdrew from the caucus, reiterating that he would not be bound by it on any except a political question. Almost every other Democratic senator present participated in the debate.

New York Men Called.

John Allen and Whidden Graham of the firm of Allen & Graham, at 11 Williams street, New York, were summoned by the senate finance committee to appear next Monday, to produce the literature which they had issued in opposition to the Canadian reciprocity bill and to substantiate the claim made in their behalf by the National Grange that their activities were in the capacity of lawyers for the farmers. The inquiry was also arranged for the purpose of ascertaining whether the members of this firm had been engaged to "manufacture opposition" to the Canadian bill.

"This firm is not licensed or practicing lawyers," said Senator Stone, "but are what, to put it mildly, are called 'promoters,' such as are frequently employed to push along certain matters of legislation. They are not attorneys in the sense that I understand Mr. Hull to mean."

Senator Stone requested more than a week ago that Allen and Graham appear before the committee. At that time N. P. Hull, master of the Michigan State Grange, protested that it was an insult to inquire into the relations of the farmers and their lawyers, but he promised that the members of the firm be called.

OWNERS PRESENT A DISMAL PICTURE OF THEIR LOGGING ROAD

(Continued from page 1.)

commission this morning. The hearing was to have been held in a room at the Spalding hotel, but the crowd was so great that an adjournment was taken to the assembly room at the Commercial club. A number of Duluth business men were present and followed the testimony closely.

All three members of the commission, Ira B. Mills, C. F. Staples and C. E. Elmquist, are here for the hearing. They were over the line of the railroad yesterday, and they will hear the testimony of witnessses for the company and for the objectors, and arguments by counsel before making a decision.

John A. Keyes is appearing for the railroad company, and H. B. Fryberger for the settlers and Duluth business people interested. Objections, in the form of counter petitions, were filed this morning, bearing the signatures of Duluth jobbers, bankers and business people in all branches and of the settlers affected.

The character of the objections offered and the crowd in attendance at the hearing, was evidently a surprise to the representatives of the railroad company. Mr. Keyes said in opening that a number of witnesses who might have been brought here, were not in attendance, for the company did not expect such a protest against the proposed abandonment of the road.

The Minnesota & North Wisconsin railroad was constructed in 1901, primarily to transport logs to the Broks-Scanlon Lumber company's mill at Scanlon. The mill at Scanlon was taken out about two years ago and now the officers of the road, who are also officers of the Brooks-Scanlon Lumber company, claim that the traffic is insufficient to warrant the continued operation of the road. On the other hand the objectors claim that, if the road were operated with a view to serving the public, traffic would develop sufficient to make the operation profitable. It is claimed that the country is settling up, and that farm products have not been transported because the company has discouraged the shipment of freight in less than carload lots. The development of the country would be retarded if the road were torn up, while the continued operation of the road would be an aid to development, is the stand taken by the objectors to the petition.

Anxious to Maintain Road.

"I have been anxious that the development of the country might be such that traffic would be offered sufficient to make the road possible, but the agricultural development does not seem to take hold and the road is a losing venture," said Dr. Brooks on the stand this morning. Dr. Brooks said that the road does not run in the right direction to be of benefit to the settlers, as there is no market at Scanlon and if their products were transported to Scanlon, they would be little nearer their market than they were before being loaded. He said that he did not believe the road would pay one-tenth of its operating expenses during the coming year.

An argument between the attorneys developed over Mr. Fryberger's questions to Dr. Brooks as to statements made by Joseph Scanlon, vice president of the road, at a hearing in condemnation proceedings affecting boom rights, which hearing was before Judge Cant in district court in 1905. The commissioners allowed the questions to be asked. In one of the answers given at that time, Mr. Scanlon said that the business outside of the Brooks-Scanlon Lumber company's business was increasing. Dr. Brooks said that Mr. Scanlon was mistaken at that time, as he would disagree with him.

Dr. Brooks said, in answer to questions, that the company has connecting traffic agreements with the Great Northern, Northern Pacific and the Duluth, Missabe & Northern, and that regular tariffs are issued. He denied that any attempt was made to discourage shipments in less than carload lots, and if heavy freight charges were made, they were according to the tariff. He said that stations were not built because there was no need for stations.

Dr. Brooks admitted that he did not know how much timber there is in the district, how much cleared land there is, how many families live there, what the value of the farm buildings is. Dr. Brooks also admitted that no efforts were made to make arrangements for the transportation of the settlers' freight around by the Duluth, Missabe & Northern to Duluth. "We just didn't think of it," he said. Although the railroad itself was a failure, Dr. Brooks admitted that the railroad and lumber operations, taken together, were successful.

Road Lost Money.

The earnings of the Minnesota & Northern Wisconsin railroad for the nine months from July 1, 1910, to March 31, 1911, amounted to $15,186, while the operating expenses during the same period were $18,010.82, according to the testimony of R. S. Pattee, superintendent of the road. Mr. Pattee said that no farm products were handled during that period, and the passenger earnings amounted to $92.41 gross. He said there is some land cleared along the railroad and some scattered patches of timber. He said that considerable money would have to be spent in repairing the road if it were to be operated steadily during the next year, while he estimated the amount of freight in sight at 150 cars, amounting to $1,500 to $2,000.

In answer to questions by Mr. Staples, Mr. Pattee gave the equipment of the road as thirty-five miles of standard gauge track with fifty-six pound rails, a fully equipped round house, two locomotives, a steam shovel, three flat cars, fifteen logging cars, one caboose, a warehouse containing car repair parts, and a fifty-foot right-of-way. He said the pay roll averaged about $1,100 monthly during the last nine months, and would run about $1,200 to $1,500 a month during the next year. He said during the last year about fifty cars of cordwood have been shipped, some of it around by way of Adolph and over the line of the D., M. & N. to Duluth.

Judging from the number of settlers on hand and the amount of testimony available by the objectors to the abandonment of the road, it looked this morning as though the hearing would not be concluded today.

FRESHMEN WIN DEBATE.

Will Meet the Juniors for Championship of High School.

The freshman class of the Duluth Central high school won the debate with the sophomores on the question: "Resolved, That the United States Should Abolish Corporal Punishment."

The lower class team upheld the affirmative and the second year team the negative.

As the juniors defeated the seniors, the freshmen and the third year team will have a debate on the same subject for the championship of the school.

The members of the freshmen team are: Seward Kempton, Edson Miller and Irving Grover. The boys of the sophomore team are: Laurence Dow, Clifford Marvin and Ralph Bogan.

Complete Lines of Middy Suits, Peter Thompsons, Colored Cloth Dress Skirts, White Serge Skirts, Etc.

FARM MACHINERY BY THE CARLOAD FOR IRON JUNCTION

Anybody who would ship a consignment of palm leaf fans to Greenland would be considered a fit subject for the insane ward.

Shipping fur coats to Panama would also be considered poor judgment.

And a few years ago shipping farm machinery to the stations along the Duluth, Missabe & Northern road would have been considered in the same class with these other actions.

But a car of farm machinery has been ordered for Iron Junction, a small station on the Duluth, Missabe & Northern road.

The carload of machinery was ordered by Moline Brothers of Iron Junction and it consists of separators, gasoline engines, binders, mowers, hay rakes, plows, harrows and other things necessary on well regulated farms.

The order was placed with the International Harvester Company of America. It will be delivered during the first part of June.

It was only a short time ago that the land about Iron Junction needed a grub hoe and an ax more than it needed binders and mowers. It is just a straw showing which way the air currents are agitated.

WINS FLIGHT INTO MADRID

(Continued from page 1.)

was showered with roses and kissed repeatedly by women.

Later, on complaining that he was still numb from his flight, he was removed to an infirmary, where he received medical attention and a short but much needed rest. On reappearing at the aerodrome the Frenchman smilingly delivered the messages which he had brought with him from Paris, and was congratulated on his magnificent flight by the civil governor of Madrid on behalf of King Alfonso.

Vedrine left the suburbs of Burgos in ideal weather this morning, flew over Aranda de Duero, forty-eight miles south of Burgos, at a good height and great speed.

Rose to 6,500 Feet.

At Bocequillas, where the airman was greeted by a great crowd of wildly shouting peasants, Vedrine buckled down to the task of crosing the dreaded Somosierra pass, which is 4,900 feet high. Higher and higher he climbed, until he had attained an altitude of 6,500 feet. The aviator then, straight as an arrow, flew over the crags and snow-capped peaks until he reached the immense plains of San Augustin. Having left the mountain ranges behind him, Vedrine dropped closer to the earth and finally reached the aerodrome at Getafe, where he alighted with the greatest ease, amid the applause of thousands of enthsiastic spectators.

Started on May 21.

The Paris to Madrid race was begun May 21 under the auspices of the Petit Parisien, which offered a prize of $20,000. In addition the Spanish Aero club gave prizes amounting to $10,000 and King Alfonso offered a special prize for the fastest speed over the Spanish section. The journey was divided into three stages, Paris to Angouleme, Angouleme to San Sebastian and San Sebastian to Madrid, a total distance of about 600 miles.

Twenty machines were entered for the race, but as a result of the tragic accident when the start was made from the Issy-les-Moulineaux aviation field, which resulted in the death of M. Berteaux, the French minister of war, and the serious injury to Premier Monis, all but three of the aviators withdrew.

Vedrine the Favorite.

Of these three, Pierre Vedrine, who reached the Spanish capital this morning, was the favorite. He covered the first stage of the contest, 279 miles, in 3 hours and 39 minutes, breaking all records for a long distance cross-country flight. On the second stage, between Angouleme and San Sebastian, Vedrine had a narrow escape from death. One of the planes of his machine grazed the peak of a hugo rock, near the Spanish town of Fuenterrabia. Although the plane was bent, Vedrina continued his flight and safely reached San Sebastian. The distance of the second leg of the contest was about 200 miles.

Dared Certain Death.

The third stage of the journey, San Sebastian to Madrid, was the most difficult of the entire flight. The 266 miles of the route was almost entirely over desolate ranges, the crags varying from 1,000 to 5,000 feet in height. A fall meant certain death and it was practically impossible to make a fresh start in the mountainous country.

Gilbert yesterday fought the first recorded battle of the air. A large fierce eagle swooped down to give battle to its new rival, the airman. Gilbert fired two shots from a revolver at the king of the air, who dropped behind.

And get your suit at the "3 Winners'" suit sale tomorrow. 115 East Superior street.

DE LA BARRA TAKES OATH AS PRESIDENT; CAPITAL IS ORDERLY

(Continued from page 1.)

escort the provisional president to the scene of his inauguration.

The new chief executive was accompanied by Gen. E. Rascone, who took the oath as minister of war earlier in the day. Most of the distinguished personages in the capital were present, including the diplomatic corps in full regalia, headed by the American ambassador, Henry Lane Wilson, the dean of the corps.

City Is Orderly.

Owing to the fact that this city was orderly throughout the night, despite the magitude of the crowd which celebrated the change in administration, business men this morning prepared to resume their occupations on a normal basis.

Shutters were removed from the windows for the first time in two days, and the morning sunlight, like a good omen, cast its rays through the open facings of the buildings, brightening considerably the appearance of the business districts.

A large crowd gathered about the chamber of deputies cheering for Senor De La Barra and Gen. Madero while the oath was being administered.

Rebel Troops Not Needed.

It is now regarded as certain that Alfred Robles Dominguez, General Madero's representative here, and who is virtually the military commander of the federal army, will not find it necessary to call in the revolutionary forces from the cities of Cuernavaca and Pachuca for the purpose of maintaining order. The police and soldiers are acting under the direction of Senor Dominguez with as much readiness as if they had never known another commander.

General Diaz's condition was reported as improved this morning. The inflammation in his face is said to have subsided greatly and the fever to have disappeared. Members of the retired president's family expressed the belief that he will be able to sail for Europe from Vera Cruz by the last of the month.

Gen. Enrique Torroella, sub-director of the military college, today was appointed chief of staff to Provisionel president De La Barra.

Millions in Treasury.

Before resigning his office yesterday as minister of finance, Jose Yues Limantour exhibited to Jaime Guerza, the new sub-secretary of the treasury, $60,400,000 in gold in the vaults of the treasury. Senor Limantour turned over all the government funds in his possession, taking Senor Guerza's receipt.

The passage of President Diaz last night was one of the most dramatic events in the recent history of Mexico. The venerable ruler was still confined to his palace, which was hedged about with strong guards of mounted police and soldiers, while across the Zocolo machine guns were masked ready to deal with any further outbreak such as that of the night before.

Popular excitement was at a high pitch, but was held in check by the patriotic appeals of Madero's personal representative, Senor Dominguez, for the maintenance of order and the dignity of the cause. Crowds surged about the chamber of deputies awaiting the words of Diaz's final action.

Resignation Was Accepted.

Inside the chamber there was an impressive scene as President Diaz's letter, finally and completely relinquishing the reins of power, was presented and accepted, followed by the presentation and acceptance of Vice President Corral's resignation.

Everyone had expected an uproar and demonstration when the announcement should be made, but within the chamber the words announcing the event were followed by a dead silence. The deputies seemed awed by what had taken place. In the packed streets, however, news that Diaz was at last no more the president was the signal for wild shouting and manifestations, but there was no violence nor destruction of property.

On the motion to accept the president's resignation 167 deputies voted yea, while two of them did not express themselves. They were Benito Juarez, a descendant of President Juarez, and Concepscion Del Valle. As their names were called the other legislators arose and bowed their affirmation.

Immediately word was carried to the waiting crowds outside, which broke into wild demonstration of enthusiasm, accompanied by the clanging of the great bell in the cathedral and a salute of cannon. Surging masses of people paraded the streets, carrying banners of emblems of Madero, with wreaths of flowers and other symbols of the final success of the revolution. Here and there were scattered affrays, but in the main the demonstrations were of enthusiastic approval and rejoicing.

Will Not Seek Office.

Francisco Leon De La Barra took up the reins of government in an open letter addressed to the Mexican people, acknowledging his selection as provisional president and declaring his purpose not to be a candidate for either president or vice president when a general election would be called.

The entire cabinet of President Diaz followed the action of its chief in presenting aheir resignations. Thus was the riotous demonstration of the night before followed quickly by the orderly and enthusiastic transition from the old Diaz regime to the new one.

Letter From Diaz.

Following is the letter of Diaz to the president of the chamber of deputies:

"Sir—The Mexican people, who generously have covered me with honors, who proclaimed me as their leader during the international war, who patriotically assisted me in all works undertaken to develop industry and the commerce of the republic, establish its credit, gain for it the respect of the world and obtain for it an honorable position in the concert of nations; that same people, sir, has revolted in armed military bands, stating that my presence in the exercise of supreme executive power is the cause of this insurrection.

"I do not know of any fact imputable to me which could have caused this social phenomenon; but permitting, though not admitting, that I may be unwittingly culpable, such a possibility makes me the least able to reason out and decide my own culpability.

Respects Will of People.

"Therefore, respecting, as I have always respected, the will of the people, and in accordance with article 82 of the federal constitution, I come before the supreme representatives of the nation in order to resign unreservedly the office of constitutional president of the republic with which the national vote honored me, which I do with all the more reason, since in order to continue in office, it would be necessary to shed Mexican blood, endangering the credit of the country, dissipating its wealth, exhausting its resources and exposing its policy to international complications.

"I hope, gentlemen, that when the passions which are inherent to all revolutions have been calmed, a more conscientious and just study will bring out in the national mind a correct judgment, which, when I die, I may carry graven on my soul as a just estimate of the life which I have devoted and will devote to my countrymen.

"With all respect,

"PORFIRIO DIAZ."

Letter From Corral.

Vice President Corral's letter of resignation follows:

"On the two occasions that the national conventions advanced my candidacy as vice president for the republic to figure in the elections with General Diaz as president, I stated that I was prepared to occupy any office in which my compatriots considered that I could be of use, and that if the public vote conferred upon me a position so far above my merits, then my intention would be to second in all respects Gen. Diaz's policy in order to co-operate with him as far as it lay in my power toward the aggrandizement of the nation, which had developed so notably under his administration.

"Those who concern themselves with public affairs and have observed their progress during the last few years, will be able to say whether I have complied with my intention.

Has Seconded Diaz.

"For my part I can say that I have never endeavored to bring about the least obstacle either in the president's policy or his manner of carrying it out, even at the cost of sacrificing my convictions, both because this was the basis of my program and because this corresponded to my position and my loyalty as well as that I did not seek any prestige in the office of vice president, so useful in the United States, and so discredited in Latin countries.

"In the events which have shaken the country during these latter months, the president has been brought to consider that it is patriotic to resign from the high office that the almost unanimous vote of Mexicans had conferred upon him in the last election, and that it is advisable at the same time, in the interests of the country, that the vice president do likewise, so that new men and new energies should continue forwarding the prosperity of the nation; and following my program of seconding Gen. Diaz's policy, I join my resignation with his, and in the present note I retire from the office of vice president of the republic, begging the chamber to accept the same at the same time as that of the president.

"I beg of you, gentlemen, to inform yourselves of the above, which I submit with the protests of my highest consideration.

"Liberty and constitution, Paris, May 4, 1911.

"RAMON CORRAL."

Sketch of Diaz.

Porfirio Diaz was born at Oaxaca, Sept. 15, 1830, on the anniversary of Mexican independence. His father was a Spaniard and his mother was of Indian extraction. While Porfirio was studying law, the invasion of Mexican territory by the American troops occurred and young Diaz, with other fellow students, offered his services to the state of Oaxaca. The governor accepted their patriotic offer, but did not require the students to go upon the battlefield.

Diaz served in the revolt against Gen. Santa Anna and supported Juarez in his war of reform, which began in 1855 and ended in 1858. At the age of 29 he was general of a brigade, fighting the French, when Napoleon III tried to place Maximilian on the Mexican throne. Maximilian and his generals were captured by him in 1867 and soon after City of Mexico capitulated.

First Elected in 1877.

Diaz was regularly elected president of Mexico for the first time in 1877. He was succeeded at the end of his term by Gen. Manuel Gonzales. His crowning achievement during the Gonzales administration was the abrogation of the law against presidential re-election, and in 1884 he was elected for the second time. There has been no president in Mexico but Diaz since then, and until last summer the opposition to him never attained serious proportions. He was elected president for the eighth time June 26, 1910.

President Diaz's first wife, a daughter of Doctor Ortega Reyes, died during his first administration. In 1882 he married Carmen Romero, daughter of Manuel Romero Rubio, a noted lawyer and statesman. He has no children by his second marriage. His children by his first wire are: Amada (Mrs. Ignacio De La Torre), Lieut.-Col. Porfirio Diaz, and Luz (Mrs. Prinzon Gallero).

Children's Long Gloves—Double tips—white, pink, sky and pongee, at **$1.00.**

Children's Short Silk Gloves — Double tips — tan, gray, red and white, at **50c.**

This Undermuslin Sale

is a successful sale because deserving of success.

Nothing was left to chance. The best manufacturers submitted their styles; we selected the most likable, or suggested betterments. The nainsooks, cambrics, muslins, flaxons; and the laces and embroideries; the sewing, the sizes of the garments—everything was jealously scrutinized. And the selection was made by a woman who knows styles and knows what women like in muslin underwear.

Quality is the keynote—good styles and low prices are yokemates.

Peasant Nightgowns are a very popular style; comfortable, roomy and cool; body and sleeve all in one piece, kimono-like; a varied selection at **$1** to **$6.50.**

At **$1**—Two "Peasant" styles; soft nainsook; one effective lacy style, another edged in neat embroidery or Torchon lace; another with a touch of color and Torchon lace.

At **$1.50**—Two "Peasant" styles, edging of embroidery; another with Torchon lace; also in eyelet embroidery.

Combination Garments at $1.50 to $2.50

Practical sorts, neat and dainty, as well as the more "fussy" ones; effective laces and well-made embroideries; soft nainsook, all-over embroidery; also one crepe number.

Corset Covers at 50c to $1.50

Neatly trimmed styles; the lower priced grade of cambric with durable trimmings; those at 50c of excellent quality nainsook and finer trimmings.

Princess Slips at $1 to $5

A very attractive showing of conservative styles, well fitting and neatly and tastefully trimmed with embroidery and laces.

Petticoats at $1, $1.50 and $2.

Cambric; everyday styles and finer up to the quite elaborate things; embroidery flounces, and others trimmed in Valenciennes and Torchon laces.

Silberstein & Bondy Company.

THE TRADE CENTER OF DULUTH—

WHERE PRICES ON RELIABLE GOODS ARE LOWER.

Saturday Sales — some looked for, others unexpected, such as —the sale of Untrimmed Hats— and Women's Underwear — at

Freimuth's

— Besides prior published May Sales and the many told of here there are many others not advertised at all.

Sale Trimmed Hats $6.50
—All Novel Styles
APPROXIMATE VALUES TO $12.

It's an event that will show clearly what beautiful hats can be had here for as little as $6.50. Some are decked with feathers and wings, tho the majority are airy flower trimmed, mid-season models. A unique collection varying from a smart little toque to large picture hats—shapes to suit any face and blend with any costume. Every model is original, distinctive and different.

A Summer Hat at $6.50 that is new and fresh and averages one-third more is an opportunity worth while.

$3 and $4 Untrimmed Hats-- $1.00
—ON THE BARGAIN SQUARE—

Another manufacturer —who gets a large share of our patronage —overestimated his season's business. The blunt truth is that these shapes would have retailed a little earlier at $3 and $4.

Just come in time for Saturday's selling—turbans, Tyrolean, large picture shapes and Gibson sailors; in black, chip and azure braids—also two-toned effects, with white crowns and black rims, in short every shape in every braid popular this summer.

A Specialized Shoe Shop
FOR WOMEN AND MEN

The Annex is a specialty Shoe Shop, as individaul as tho it stood alone—in fact, prices are so comfortable and other points so sensible as to lift it above the average shoe store.

Occasionally—tomorrow for instance—to enhance the value of this section of the Freimuth store to our friends, we spice regular values with makers' clearances that tend greatly to price lessening—as the following list shows:

FOR WOMEN $2.95
Good $3.50 and $4 Shoes and Oxfords, at.....

Tan Shoes, with fancy tops; also Tan Oxfords—button and lace, wide and narrow toes; odd lots of newest styles women are wearing today—not all sizes in each style, though all sizes in the lot.

FOR MEN $2.95
Usual $3.50 and $4 Men's Shoes—by a rare stroke of good luck, also.....

The shoe man says mostly $4 shoes—patent, vici kid, calf and gun metal, in various toe shapes, with Goodyear welts, made by union shoe makers—some sizes in oxfords and all sizes in the shoes.

The men and women will do well to see these sale shoes at $2.95. It will open their eyes to the price lessening ability of this shoe shop of ours.

Bring the children—We have special lots at reduced prices for them, too—Good Saturday only! For Babies; 50c ones, at 39c. For Children; values to $2.50, at 69c pair.

Radical Outclearing of Fine Tailor-made Suits for Saturday ---Values $29.50 to $35.. $19.50

It's the last call on odd numbers, broken sizes of staple lines selling all season from $29.50 to $35.

Every one is fresh and a la mode of course—but we are anxious to dispense with them, because summer apparel is arriving. It's a fine chance to get a far better suit than one can usually buy at a later time for $19.50.

Residuum of that Custom Tailored Suit Purchase Going Out at... $29.50

About 40 nobby Suits in tailored and semi-dressy styles—some as elegantly plain as fine tailoring can make them—others distinctive enough for informal fetes, will be dismissed tomorrow at the wee price of $29.50.

Sale of Fresh New Waists

$1.25 Everyone new and fresh; all sizes, with Dutch necks, kimono sleeves—Lawns and Marquisettes, both lace and embroidered. They bring opportunity to economic women, at $1.25.

$1.50 With printed Marquisette borders, sailor collar effect and ¾ sleeves. These novel styles are trimmed in a blending of coral, Copenhagen, black and white, also Persian effects. Inexpensive and decidedly new.

An Occasion in White Summer Suits at..... $29.50

Fine White Wool Suits — Including serges, diagonals and hop sackings, with smart 24-inch coats—gored and tube skirts, beautifully tailored, at $29.50.

Bought in the usual way, we'll be glad to sell them at $35.00 to $39.50.

Smartly Tailored All-linen Suits at $12.50

As soon as you see them you can't help but notice how well tailored they are—replicas of foreign modes, in wool garments, with their chic 24-inch coats, patch pockets and trig pearl buttons. Skirts are pleated and gored. We call attention especially to the quality of the linen.

Other Linen Suits as high as one cares to go.
New long Linen Coats, from $6.50 up.

WORKMEN HOLD OPEN MEETING

Members Gather to Hear Address By Grand Master Workman.

Fidelity lodge, No. 105, Ancient Order of United Workmen, held an open meeting last evening, which was largely attended, among others attending being representatives of the three other lodges of the city.

The principal speaker of the evening was Grand Master Workman August Floerkey of Minneapolis. He discussed the progress which the order has made during the past year and declared that it has assumed a high place among the fraternal organizations of the country. Other speakers were: Past Grand Master Workman Fred H. White, Grand Foreman J. A. Schumacker, T. J. St. Germaine, A. Farrington and C. E. Lovejet, the latter being one of the oldest Workmen in the state, having joined the order thirty-eight years ago in Pennsylvania.

500 to Choose From

In men's and young men's spring suits at $10 at the "3 Winners'" great suit sale tomorrow. 115 East Superior street.

MINNESOTA RATE CASE OF VITAL IMPORTANCE.

Judge Ira B. Mills of the Minnesota state railroad and warehouse commission, the members of which are in the city to investigate the proposed abandonment of the Brooks-Scanlon road, stated at the Spalding last evening that he considers that Minnesota rate case, which has been appealed to the United States supreme court, even more important than the Standard Oil case.

He expects that it will be set for argument some time next fall, and that a decision can be looked for in three or four months after the argument is closed. The commission reached the city from its inspection of the Brooks-Scanlon road in time to attend the ball game between Duluth and Red Wing yesterday afternoon.

PRETTY SOFT FOR "BILLY" SUNDAY

Receives $15,400 for Six Weeks' Work From Toledo People.

Toledo, Ohio, May 26.—Evangelist "Billy" Sunday received $15,423.58 for his six weeks' work here from the people of Toledo. This breaks all previous records in the history of Sunday's work. The largest sum that Sunday ever received, previous to his Toledo engagement, was $13,200 at New Castle, Penn.

The highest amount received in the Sunday collection was $1,000 contribution from a department store. The next two highest were $500 offerings from the First National bank and T. W. Warner.

A feature of the collection is that approximately $10,000 of the amount was given by persons of ordinary means.

More than 800,000 persons attended the meetings, while the conversions reached 7,300, Sunday says. This beats the world's record, he says, for conversions, which was held by New Castle.

The converts include men and women from every phase of citizenship of Toledo. The big feature of the conversions was the large number of members of the Lucas County bar and county officials who hit the sawdust trail.

Women's Clubs at Mandan.

Mandan, N. D., May 26.—(Special to The Herald.)—Women of the Twelfth judicial district clubs affiliated with the Federation of Women's clubs will hold their annual meeting in Mandan May 30. The Mandan Commercial club has taken a deep interest in the meeting and will assist in the entertainment of the visitors.

FEW DIPHTHERIA CASES ARE FATAL

Welcome Figures Presented By North Dakota State Health Official.

Grand Forks, N. D., May 26.—(Special to The Herald.)—Diphtheria is not a dangerous disease according to the vital statistics of North Dakota for the month of April, just issued by Secretary J. Grassick of this city. Out of a total of fifty-five cases reported during the month, there was not a single death caused by the disease.

Measles was the most popular form of ailment in the month, there being seventy-six cases, but there were no fatalities. Ward county reported thirty-two of these cases. Twenty-one new cases of tuberculosis were reported, five deaths also being recorded as the result of the white plague. Twelve cases of smallpox and no deaths, twelve cases of typhoid fever with one death, forty-eight cases of scarlet fever with three deaths, and thirteen cases of whooping cough and no deaths, complete the record of contagious diseases for the month.

Births outnumbered deaths better than two to one, there being 783 new arrivals with 318 deaths. Cass county led both in the birth and death column, with forty-five births and twenty-seven deaths.

Brinsmade Gopher Day Plans.

Brinsmade, N. D., May 26.—(Special to The Herald).—Brinsmade is the city that always carried out its Gopher day celebration on an extensive scale and the ninth annual event takes place this year on June 16. Gopher Tail prizes will be $25, $15, $10 and $5 and the day's program includes baseball games, foot races, long and standing jump, speaking, band concerts and a ball in the evening. Committees are already at work perfecting the various features and a big attendance is expected.

KIDNAPING STORY PROVES TO BE FAKE

Menominee Sensation Only Father Taking Daughter From Holy Roller Meet.

Menominee, Mich., May 26.—(Special to The Herald.)—"The kidnaping" which stirred the police of Menominee recently, turns out to be nothing more than an angry father taking his daughter home from a Holy Roller meeting. Boys created a sensation by reporting that they saw a man dragging a screaming girl towards the woods north of the city. As a result a detachment of police searched the woods all night.

It turned out that the supposed culprit was a respectable farmer who lives north of the city. His young daughter attended a meeting of the Holy Rollers in Menominee against his wish, and, finding out where she had gone, he went after her and brought her home and gave her a few sound slaps to impress the points of the lecture he gave her on the way.

GETS BLOOD POISONING.

Miner Injured at Blue Mine Succumbs at Negaunee.

Negaunee, Mich., May 26.—(Special to The Herald.)—Funeral services will be held Sunday afternoon from the Finnish Lutheran church for Anton Lampi, who died during the week from injuries received in the Blue mine about a month ago, when one leg was shattered and blood poisoning set in after the limb had been amputated.

Lampi was barring ore out of a chute underground at the time he was injured. Several chunks came down and struck him in the leg, below and above the knee, causing two bad fractures, also bad lacerations.

The deceased was 28 years of age and he had been a resident of Negaunee for the past fifteen months, having located here immediately upon his arrival from Finland. He is survived by his widow and three children, living in the old country. During the greater part of the time since coming to Negaunee he had boarded with Matt Gylata, in the Negaunee field. A sister, Miss Hannala Lampi, resides in Negaunee.

PARK RIVER, N. D., TO IMPROVE CATTLE.

Park River, N. D., May 26.—(Special to The Herald).—Introduction of pure bred cattle into the Park River farming district is the object sought by the Park River Commercial club, and to bring this about, unique methods have been adopted. The appointment of a committee charged with interviewing the farmers in the territory was the first step in the movement, and that committee has already advanced far enough in its work to insure beneficial results.

Betterment of the standard of dairying is the hope of the business men of Park River who have interested themselves in this movement. Each farmer is being seen and as a result, it is expected that within a very short time plans will be made whereby a large number of pure bred cattle will be shipped in, these cattle to be distributed among the several farmers who are cooperating in the movement.

BISHOP SELLOW TELLS OF CHINESE FAMINE.

Seattle, May 26.—Bishop Walter A. Sellow of the Free Methodist church, who has arrived here from the famine district of China, gives a shocking description of the indifference of the prosperous classes of China to the death of thousands. The bishop lives in Jamestown, N. Y.

"There is food in plenty within reach of the famine district," said the bishop, "but it is just as impossible for a starving people to obtain a handful of rice as it would be for a pauper to borrow money without security. In the famine district there is rice in plenty, but the upper classes have it to sell."

LAUDS DULUTH STEEL PLANT

Ishpeming Man Who Looked Over Building Operations Praises Big Work.

Ishpeming, Mich., May 26.—(Special to The Herald.)—"The United States Steel corporation is doing big work at its new steel plant, being erected near Duluth," said an Ishpeming man, who recently visited there.

"The corporation is rushing operations, with a view of putting the plant into commission early next year. It is said that it will be the most up-to-date plant of its kind in the United States. The lands acquired by the corporation cost $1,000,000 and nearly $3,000,000 has been expended in the erection of docks, transfer railroads, bridges, etc.

"The building permit for the plant calls for an expenditure of $10,000,000 for the first unit. This unit will include two blast furnaces, blooming mill, two bar mills, six open hearth furnaces, rail and shape mill, by-product coke ovens, cement plant, repair and patent shops. It is said that the expenditures at the plant in 1910 were $1,715,000, and that the work is being conducted this year on even a larger scale.

COL. BLETHEN STARTS CRIMINAL LIBEL SUITS.

Seattle, May 26.—Erastus Brainerd, editor of the Seattle Post-Intelligencer, has been arrested on a warrant charging criminal libel. The warrant was issued on complaint of Clarence B. Blethen, managing editor of the Seattle Times. Similar warrants were issued for Former United States Senator J. L. Wilson, manager of that paper.

Col. A. J. Blethen, editor of the Times, also has brought civil suit against the Post-Intelligencer company for $100,000 damages, both criminal and civil proceedings being the outgrowth of the indictment of Col. Blethen and his associates of the Times last Tuesday and of the comments of the Post-Intelligencer thereupon.

TO CONSECRATE CEMETERY.

Notable Event to Be Held at Negaunee Memorial Day.

Negaunee, Mich., May 26.—(Special to The Herald.)—The new city cemetery will be consecrated on the afternoon of Memorial day with appropriate exercises, conducted by members of the Protestant churches of the city. The exercises will take place at 2:30 o'clock, and the management of the Duluth, South Shore & Atlantic Railway company has agreed to stop its passenger train opposite the cemetery for the accommodation of Negaunee people wishing to attend. The program will open with a hymn. It will be followed by a prayer, scripture reading and another hymn. There will be addresses in English, Swedish and Finnish, each of five minutes' duration. The speakers will be Rev. Messrs. Hicks, Lindquist and Saranen. Following the addresses there will be a hymn and the words of dedication will be read. The exercises will close with the doxology and benediction.

ANOTHER VICTIM OF FORGER'S WORK.

The forger who operated in Duluth last week under the name of John B. Hayes passed some of his worthless checks upon M. W. Turner of East First street, from whom he purchased a carriage for $85, tendering a check for $110. As in other places he represented that he was superintendent of schools at Spooner, Wis. Hayes ordered the goods shipped to Spooner, and considerable quantities are now showing up in the freight house there. The owners will make an effort to recover part of their losses by securing the return of the goods.

JERKED FROM PRISON CELL

Young Man Escapes Term for Perjury on Mere Technicality.

Goes Free After Admitting His Crime on Witness Stand.

After admitting his guilt under oath, spending a month in jail, and finally having his case dismissed on a technicality, Alexander Shacdock, the Brookston man accused by the May grand jury of perjury, borrowed a dollar from his attorney, and highly pleased at having secured his freedom, left last night for the village where he has some wages coming to him.

Shacdock is but 21 years old and it seems that he was led into the trouble by older and more experienced heads who promised that he would "be taken care of" if he got into trouble. He was thoroughly frightened after his term in the county jail and his frequent appearances in court and it would have been hard to have found a happier individual than he, when told that he was at liberty.

The case was decided upon a technicality. Shacdock had admitted when on the stand at the time of the trial of the Brookston election cases that he had sworn falsely as to how long he had been in the state of Minnesota. This tesimony was read in court yesterday and William J. Stevenson, who was some time ago sent to Brookston to investigate the matter testified to the effect that Shacdock had lied when being examined by the election judges.

After the introduction of Shacdock's confession when on the witness stand, the state rested and Attorney Blu, who had been appoined by the court to defend Shacdock asked the court to direct a verdict for the defendant on the ground that the commission of the crime had not been proven as it should have been before Shacdock's admission on the stand could be introduced. Judge Dancer sustained him, and dismissed the case.

Shacdock was arrested at the instance of Judge Cant of the district court, when, after admitting on the stand that he had lied as to his right to cast a vote, he remarked that he would lie at any time that he was paid for it.

The admission and the remark were made when Shacdock was a witness in the Brookston election cases in which fraud was charged by those who had been defeated for office.

The cases against Ed Donnely and Ernest Gustafson and Frank McMann, who were charged with perjury in connection with the Brookston affair, will probably be dropped.

No Horses in the Ark.

It is quite settled now that Noah did not take a pair of horses with him into the ark. What he did take was probably a pair of echippus, almost a perfect horse in shape, but with hairless tail, and in size not as large as the head of a modern horse. It will be noticed that horseflesh has improved, just as beer has improved, which accounts for the enormous home use of golden grain belt beers, the great family beverage and health assistant. It makes friends everywhere. Order of your nearest dealer or be supplied by duluth branch minneapolis brewing company.

HIS SECOND WIFE WELCOMES FIRST

Peter C. Sharp Will Live With Both of Them in Kansas.

Pittsburg, Kan., May 26.—Peter C. Sharp of this city and his two wives, Catherine, the first Mrs. Sharp, re the Sharp cottage in the suburbs yesterday and told of their plans to live together as a happy family. Ann Catharine, the first Mrs. Sharp, returned to her husband yesterday after forty years of separation during which each had searched the country for the other. Mr. Sharp lost his wife in the confusion which followed the Chicago fire in 1871. Through the pension rolls she found him, and came here from her home in Oakland, Cal.

Nine years ago Sharp gave up the search and married again.

"If I thought my coming would displace Louisa, I would go back to nursing the sick in Oakland" said Ann Catherine, as the three sat together in the garden. "She has been a good wife and married my husband in good faith. This is her home and I shall bring her no sorrow."

Louisa held Mr. Sharp's wrinkled hand in hers. She is 59 years old, he is 82 and Ann Catherine 72. Louisa leaned across her husband's knee and patted Ann on the cheek.

"Room for Both."

"You will bring me no sorrow, my dear," she said tearfully. "There is room in this house and garden for us both. I understand it all."

Their common husband nodded toward a vacant field across the street and said:

"If the women folks can't get along together, I'll build another house for one of them yonder."

Sharp married his first wife in Johnsville, N. Y., in 1870. They decided to move to California. She with her daughter went ahead to visit her brother in Chicago. The fire destroyed her brother's home. She with her daughter escaped with only the clothes they wore. The husband started on after them, but for forty years found no trace of them.

$18 Spring Suits Only $10

Tomorrow at the "3 Winners'" great $10 suit sale, 115 East Superior street.

ATTORNEYS FOR COX WIN TECHNICAL POINT.

Cincinnati, Ohio, May 26.—Attorneys for George B. Cox gained at least a technical advantage when they had a deputy clerk put on the clerk minute book the formal entry of dismissal of Cox under the two indictments against him. The entries were dated last Saturday, when Judge Dickson handed down his decision.

The entry is the one which it was thought was concerned in the mandamus suit to be heard in circuit court next Saturday. Prosecutor Hunt did not discover until yesterday that the entry had been put on the record. Judge Dickson said he knows nothing about it.

Prosecutor Hunt declares he will ask Governor Harmon to call an extraordinary session of the legislature if necessary "to give to prosecuting attorneys the right of appeal in state cases and to curb the judicial tyranny in this country."

The Shopping Center of Duluth

The Glass Block Store

Panton & White Company

Always for Duluth and Duluth-Made Goods

Saturday Specials That Mark the Advent of a New Value-Giving Epoch

——This store is entering upon a new epoch of greater value-giving and greater service. New business energies, augmented buying force, additional capital and metropolitan ideas have combined for the immediate expansion of this great store, and enlargement of various departments. ¶ Plans are being perfected to make *The Glass Block Store* a greater institution in every way. Mere platitudes give right of way to concrete actions. An ever-dominating policy of honesty, service, an iron-clad guarantee of perfect satisfaction in every transaction or money back, a progressive policy of promoting Duluth interests and Duluth-made goods; are the adamantine basic principles upon which we will build.

——Illustrative of a beginning for a new and greater achievement, we have arranged for Saturday's selling many items that emphasize our consummate policy of greatest value-giving. Mark them well and heed the saving instinct that calls you here tomorrow.

11.95 for Tailored Coats Worth to 19.50

——For Saturday's special selling we have collected a lot of about 100 women's, misses' and juniors' long semi-fitted coats. These are plain tailored or attractively trimmed styles, made from selected serges, basket weaves, homespuns and fancy mixture cloths, in popular shades of blue, tan, gray, blue and black; not a coat in the lot worth less than $15, others to $19.50, sale price..... **11.95**

25.00 the New Price for Suits Worth to 35.00

——Here is an important clearance of various models from lines broken in sizes. The suits are of highest style and finely tailored from serges, worsteds and novelty mixture cloths in most wanted shades of blue, tan, gray mixtures and black. They have been most desirable values at regular prices up to $35, but go Saturday, at choice..... **25.00**

Striped Cotton Voile Dresses 10.98

——Newest mid-season models that will have much vogue, made from very pretty striped cotton voile, with round lace yoke and piped with taffeta. The skirt is cut along newest lines and has deep fold at bottom, with wide piping of silk. Ladies' and misses' sizes, special at..... **10.98**

Uncommon Values Lingerie Waists 1.25

——Attractive models that are well made from selected lawn, batiste and marquisette, trimmed with washable lace insertions and medallions and panels of embroidery, long or short sleeves, only..... **1.25**

A Very Significant Millinery Event

4.98 for Stylish Hats Worth 8.00 to 15.00
2.98 for Hats Formerly From 5.00 to 8.00

——The lot now quoted at $4.98 consists of most becoming mid-season styles, just one model of a kind, and each with such character as distinguishes Glass Block hats above all others. Trust Greed Dominates Tanning Industry

Shoe Wearers Must Pay More for Poorer Leather

How You Can Protect Yourself

The shoe business of this country is absolutely controlled by the Leather Trust.

The Trust owns the tanneries which produce about four-fifths of all the leather in America.

It fixes the price of leather with an eye single to its own profits—which is the one reason for the high price of shoes.

It has recently closed scores of its tanneries for an indefinite period, to create an artificially high price for leather.

Worse than that—the Leather Trust is deliberately using its vast resources to cheapen its product for the sake of extortionate profits.

Most Shoe Makers Cannot Get Honest Leather

Buying his leather from the Trust, the ordinary manufacturer is forced to take an inferior product—hemlock tannage, chemical tannage, or other quick process tannages—everything but straight old-fashioned oak tannage, thoroughly tanned and finished to give it the backbone that leather must have to make a good shoe.

You know what to expect of the average shoes you buy—how good they look at the start and how soon they break down—

Holes in soles. Heels run down. Vamps stretched and cracked. Uppers wrinkled. Finish rubbed off beyond all hope of dressing and polishing.

Now, what can you, John Smith, resident of this town and reader of this paper, do about it?

How to Protect Yourself

You can wear honest shoes if you want them—and at a fair price.

You can get shoes made by the only shoe concern in the world that tans its own leather.

The only shoe manufacturers in this country that tan, manufacture and sell independent of the Hide Trust, the Leather Trust, the Leather Jobber and the Shoe Jobber.

Endicott, Johnson & Co. is the name of this concern.

They buy their hides in the open markets of the world. They have the only complete shoe-manufacturing plant in the world—"from the hide to your foot."

They are the largest shoe manufacturers in the world—thanks to their policy of honest shoes and their saving the shoe wearer four profits in the price.

Endicott, Johnson & Co. started in the shoe business with the fixed idea of service to the wearer. It was the extreme unreliability of Trust-tanned leather that forced them to build their own tanneries.

Leather Tanned for Service

At this writing they are tanning 1750 sides of the finest sole leather every day, 3000 sides of chrome upper leather and 1000 skins of calf leather.

The product of their tanneries is worth Six Million Dollars every year.

Every lot of leather is tanned and finished for a definite type of shoe, to make it durable in the kind of service that will be demanded of it.

They tan honest old-fashioned "Forest-Oak" sole leather—like the village tanner used to make when our fathers were boys. Months in the tan vat—weeks more in the seasoning and the finishing. Tough, compact, durable.

They make "Kromelk"—the first and only **perfected chrome-tanned sole leather,** that outwears ordinary soles, two for one.

Leather Trust Cannot Make "Kromelk"

No other manufacturer in the world can give you "Kromelk" soles. The "Kromelk" process is an Endicott-Johnson invention. It is their exclusive property. The Leather Trust has never succeeded in imitating it.

They produce elastic, "glovey" calf leather and chrome-tanned uppers—leather that works up to a marvel, finishes to a dot—makes a stylish shoe and holds its style.

Endicott, Johnson & Co. make five hundred styles and models of shoes—all in a full range of sizes.

Their most popular line is the ENDWELL (Goodyear Welt)—dress and business shoes that retail for $3.00, $3.50 and $4.00.

They make lines that sell for more money—and still other lines at a lower price.

You can buy Endicott-Johnson shoes for men, women and children—shoes for business and street wear, work shoes, dress shoes, school shoes for boys and girls.

You will get all the latest kinks of fashion. Endicott, Johnson & Co. employ the finest designers and shoe makers in the trade.

You Save Four Profits

You will save 50 cents to $1.00 on every pair of shoes you buy. You pay no profits to trusts or middlemen. Endicott, Johnson & Co. sell their shoes **direct** from the factory to your representative home dealer.

Go to him and ask for the ENDWELL shoes or any other kind of shoe to suit your needs.

They will give you some new ideas about shoe values.

Remember the name. **It is stamped on every shoe—**

ENDWELL

405-407 West Superior Street, Duluth. **The Twin Ports Clothing Co.** 405-407 West Superior Street, Duluth.

Shoe buyers who live outside the city where this paper is published can learn the names of their home dealers who carry ENDWELL shoes by writing to Endicott, Johnson & Co., Endicott, N. Y.

DIVORCED ARE BARRED

English Court to Observe Strict Regulations of Queen Victoria.

Queen Mary's Family Is at Last Acknowledged as Royal.

London, May 26.—As many fully expected, the stricter regulations concerning the reception of divorced persons at court that existed in the time of Queen Victoria, and which were somewhat relaxed under King Edward, have been brought into force again under our present sovereign. This means, of course, that no wives separated from their husbands will receive any royal invitations, neither can they be present at any of the drawing rooms or at any functions at which royalty is present. Several American women in English society are affected by this, notably the duchess of Marlborough, Mrs. John Jacob Astor and Mrs. Waldorf Astor. The former lady was one of the canopy duchesses to Queen Alexandra at her coronation, and the same invitation as a matter of form was extended to her this time but with it was coupled the distinct understanding that she should refuse it. Such are the roundabout ways of doing things when you inhabit the exalted regions of the upper ten.

Queen Victoria, renowned for inexorability in all matters of etiquette, did, however, make one exception to this rule, and would have made another but the second exception would not have it. The first was Lady Blandford, curiously enough the mother of the duke of Marlborough, whose domestic affairs are also out of gear, who, blameless herself, was particularly badly treated by her husband. Queen Victoria received her and regarded her as one of her own friends.

The same privilege she was quite willing to extend to Mrs. Arthur Wellesley. Her husband bolted with an actress, and Queen Victoria intimated that although, owing to the regulations she could not henceforth be received at court in the ordinary way, yet she liked her so much that she would receive her privately. Mrs. Wellesley replied with some spirit that if she could not go to court by the front door, she most certainly would not go in by the back!

Teck Family Now Royal.

There is a deal of significance in the slender announcement that appeared in all the papers recently to the effect that Queen Mary has adopted as her colors geranium red with a narrow blue stripe upon it. This is not merely a combination of the queen's favorite colors, but those of the royal house of Wurtemberg, and it is here that the significance lies. The queen on her father's side sprang from the house of Wurtemberg, her grandfather having been a son of that royal house. But he contracted a morganatic marriage with a nobly but not eben-burtige—even-birthy, as the quaint German phraseology has it, otherwise royally—born Countess Claudine de Rhedey, and their descendants were given the title of Teck and were never considered by other European monarchs as a royal family. Lately, however, Queen Mary asked permission of the king of Wurtemberg to use his colors as her own, and his consent acknowledges the Teck family now as royal. Her majesty's maids-of-honor henceforth always will wear a badge of these colors and her monogram in diamonds when on duty.

A Good Entertainer.

Mrs. Amory Moore is "taking up her residence"—as the old-fashioned folk say—in the Berkeley square house, which she has rented for the season. For some time past she has had one of the most beautiful suites of apartments at the Ritz hotel, looking over the Green park to Buckingham palace and the new memorial to Queen Victoria. Here she has done a deal of entertaining—and done it very well, too. Everybody says of her that besides being clever and charming, she is so capable, which means a good deal, for the rich women who are capable and practical are few and far between. For instance, Mrs. Moore knows more about ordering a dinner than most chefs, she has the knack of making her dinner parties at once agreeable, original and enjoyable, and this can only be done by knowing all about the food and how it ought to be served, and knowing all about your guests, how they ought to be treated and whom they would like to sit next to. In all this Mrs. Moore is a past mistress.

She was at the private view of the Royal Academy the other day, looking very well, and—as always—beautifully dressed. Her appreciation of good painting, good music and good sculpture is as keen as that for good conversation, and she differed from the commonly expressed opinion that this year's academy was the worst on record; on the contrary, she considered it above the average.

The Royal Academy is becoming fashionable again, after having been neglected by the smart world for some years. Still there are many advanced folk, both artists and others, who despise its neglect of unrecognized genius, a sufficiently vague term; and an artist of my acquaintance whose pictures have been consistently refused at Buckingham house, always celebrates the first Monday in May (the annual fixed date on which the Royal Academy opens) by wearing mourning—and going to see the old masters at the National Gallery.

Mrs. Amory Moore's house in Berkeley square is admirably adapted, as the house agents say, for entertaining on a large scale. She is projecting at least one big dance, if not two, for the ballroom will dance nearly 100 couples with comfort and the accommodation for supping is excellent. The difficulty with Mrs. Moore as with other hostesses this season is the fixing of a possible date, for the time is short, and there is so much entertaining that it is almost impossible to avoid clashing with other fixtures. From now onwards there are three or four really big functions every night, and in a few weeks much sought after people will have ten engagements a night. How they will get through them is a mystery which even the swiftest motor car will find it hard to tackle.

Famous Oil Expert.

Dr. Ralph Arnold, the world-famous geological and oil expert is in London with his wife. They are staying with Mr. and Mrs. Theodore J. Hoover in South Kensington. Dr. Arnold has been asked by two or three important scientific societies to deliver lectures, and he will probably do so. They are being looked forward to with much interest, as so many society people are largely concerned in the present oil boom and have invested large sums of money in the Russian Maikop and Osler districts. They want to know something about oil and look to Dr. Arnold to instruct them. More than one curious inquirer has tried to pump the doctor as to his real personal opinion of Mr. Rockefeller—and all his works, but the doctor is inscrutable.

"BREATHING EXERCISES"

Important Feature of Psychic Practices of Mrs. Ole Bull.

Alfred, Me., May 26.—Transmission of thought by "breathing exercise" was an important feature of the psychic practices of Mrs. Ole Bull, according to the testimony introduced at the hearing in the contest over the will of the widow of the famous violinist instituted by her daughter, Mrs. Ole Bull Vaughn.

Sherman L. Whipple, counsel for the contestant, described the exercises from Mrs. Bull's textbook, entitled "Rajah Yoga." He said:

"They breathed through the left nostril until the breath could be felt at the base of the spine, and when they felt it there they could transmit a thought. During the process they kept their minds concentrated every minute on the subject matter."

Nichola Roberta testified that he came from Italy to work as a barber, but became a disciple of Mrs. Bull. He said he was her guest at her city residence and her summer home at Greenacre, Me., and at both places the "seances" took place regularly. Asked what effect the exercises had on him, he said:

"They gave me poor health and made me impractical about working."

Roberta testified that Mrs. Bull had declared that "the world was the manifestation of God Himself, and everyone can find God in himself."

BENDS TO PICK UP PIN

And Luckless Marjory Gambee Fleux Breaks Three Ribs.

Mount Vernon, N. Y., May 26.—A fashionably attired, vivacious young woman, accompanied by a bevy of friends, issued forth from the handsome mansion of Adhemar Fleux, at Mount Vernon, on May 10 last. Passers-by noticed that the young woman dropped her hatpin. As she stooped to recover it, there was a sharp snap and she fell to the ground.

The young woman, Mrs. Marjory Gambee Fleux, relative by marriage to Mme. Lillian Nordica and niece of Millionaire Louis Runke, for ten days puzzled the doctors as to her ailment. Then, after an exhaustive X-ray examination, it was discovered that in leaning over, Mrs. Fleux had broken three of her ribs.

Free Remedy Saves Woman's Health

MRS. S. ADER.

The following are some extracts from letters Dr. Caldwell has received:

"I received your sample bottle of Syrup Pepsin last week and I must say it is simply fine. I have since purchased a regular size bottle and will always in the future have it in the house. Also, as I cannot praise it too highly, I am recommending it freely to my neighbors and friends."—Mrs. S. Ader, Linn & Dayton Streets, Cincinnati, Ohio.

"We have received your sample bottle which you sent upon request. I have never had anything in a medecine form that has accomplished anything like yours has. It is simply great. I have already used two bottles of the 50c size after the arrival and using of your sample."—Mrs. Katherine Haberstroh, McKees Rocks, Pa.

"I have used your sample of Syrup Pepsin and think it very good to have in the house, and I don't want to ever be without it. It is a fine laxative and I thank you very much for your free sample."—Mrs. Smith, 73 South Rose Street, Chillicothe, Ohio.

On nothing are doctors more agreed than that most of the ills of women they could themselves avoid by the regular use of a laxative. Women exercise so little that they are prone to constipation. Through false modesty or otherwise they do not attend to themselves. The result is headaches, dizziness, pimply complexion, loss of appetite, etc. If you are now indisposed, before you go to a doctor, and before you take "female remedies", go to your nearest druggist and buy a fifty cent or one dollar bottle of **Dr. Caldwell's Syrup Pepsin.** It will promptly relieve you of the symptoms of constipation, and its tonic ingredients will tone your body and so strengthen the stomach and bowel muscles that they will do their work again naturally. A woman cannot be reminded too often to keep the bowels open. It will help her at the monthly period, and will always keep her eyes clear and her mind alert. If you want to try the remedy before you spend any money for it send your address to Dr. Caldwell and he will mail you a free sample bottle. You will like its mild action and its pleasant taste.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 541 Caldwell Building, Monticello, Ill.

Look for This Picture on Pkg.

MRS. J. E. KENNEDY.

The following Are some extracts from letters Dr. Caldwell has received:

"I received the sample of Syrup Pepsin you sent and found it to do all you claimed for it. I don't think I shall ever be without it again, for I have a large bottle always in my house. I can eat meats all right now. I also give it to my children."—Mrs. J. E. Kennedy, Good Will, Okla.

"I received your trial bottle of Syrup Pepsin and bought a 50c bottle. It is a good medicine for old people to take. My wife was almost paralyzed in her stomach and bowels. She took the Syrup Pepsin and it warmed her old body. We thank you very much for the trial bottle."—A. F. Herrick, Wheeler, Mich.

"I received the free sample of Syrup Pepsin. My wife took it. I have bought two 50c bottles and she has taken one and commenced on the other. It is the best, mildest and surest laxative she has ever taken and the cheapest. I cannot speak too highly of your Syrup Pepsin."—W. H. Clark, Wolcott, Ind.

WE POSITIVELY ARE GOING OUT OF BUSINESS!

On August 1st The Globe will only be remembered by those who were so fortunate as to take advantage of this remarkable CLOSING OUT SALE. Daily record-breaking crowds are ample proof of the enormous savings possible at this great sale. EACH DAY has brought us a bigger crowd of eager buyers than the previous day. A WONDERFUL SALE—a sale that is setting the town astir and started the people of Duluth and vicinity buying in tremendous quantities for immediate and future needs.

We Have Often Sold Clothing Cheap

and we have often seen other stores sell clothing cheap, but never before in our history or in the history of Duluth, was good, reliable clothing quoted so cheap as it is in this sale. Sophomore Clothes have won a high place in the esteem of Eastern men, who have been acquainted with the line for years past. We offer sizes 31 to 44, in both regulars and stouts—range of fabrics and colors is so broad, that many men will select two or three suits during this sale. **Blue Serge Suits selling at similar reductions.**

Duluth, Minn.

COPPER MERGER REPORTED PRACTICALLY COMPLETED

Said That Official Announcement of Combine Will Be Made Soon.

New York, May 26.—Following a series of conferences between the Morgan, Guggenheim and Standard Oil copper interests, it became known that the long-anticipated copper merger would soon be announced to Wall street. In view of the United States supreme court's ruling in the Standard Oil case, the copper magnates have decided that they can combine to bring about more economical operation of the industry without being charged with causing any "unreasonable" restraint of trade.

Chief among the corporations to be affiliated in the merger is the American Smelting & Refining company, the capital stock of which was increased from $100,000,000 to $115,000,000 by a vote of the stockholders on Jan. 5 last.

The various mining interests of the Guggenheims, according to the present plan, are to be reorganized, so that those which deal with anything else than copper will be handled independently. The $22,000,000 Guggenheim Exploration company, for example, holds large stock interests in both the $25,000,000 Utah Copper company and the $25,000,000 Yukon Gold company.

One of the greatest mining properties in the Guggenheim group is the Nevada Consolidated. Together with the Cumberland Ely, the Nevada Consolidated owns the entire $7,400,000 outstanding stock of the Steptoe Valley Smelting & Mining company, and the entire $2,000,000 outstanding stock and all of the $1,000,000 outstanding mortgage bonds of the Nevada Northern Railway company.

The Nevada Consolidated has a capital of $10,000,000. The last report showed that its total annual earnings amounted to $2,236,661. Most important of the companies outside the Guggenheim circles of control which have been invited to come into the merger, and which it is said have practically agreed to accept the offer, are the United Copper company and the Amalgamated Copper company.

The Amalgamated, with a capital of $155,000,000, controls the following: Anaconda Copper Mining company, capital $30,000,000; Big Blackfoot Milling company, capital $640,000; Boston & Montana Consolidated, capital $3,750,000; Butte & Boston Consolidated, capital $2,000,000; Butte Coalition, capital $15,000,000; Diamond Coke & Coal company, $1,500,000; Greene Cananea, capital $50,000,000; Mountain Trading company, capital $111,000; Parrot Silver & Copper company, capital $2,295,000; Trenton Mining & Development company, capital $1,000,000; Washoe Copper company, capital $3,046,400.

The United Copper company, with an authorized capitalization of $80,000,000, and F. Augustus Heinze as president, and the Haggin-Morgan mines at Cerre del Pasco, Peru, are also said to be in the deal.

HARVARD MAN IS IN TROUBLE

Kept in Italian Prison for Seven Days With Murderers.

Rome, May 26.—Thomas McCabe, a Harvard student from Boston, visited the Borghese gallery last week and he admired so much Canova's statue of Pauline Bonaparte and Correggio's painting of Danae that he decided to get photographs of them to take home with him. Mr. McCabe does not speak Italian, but he explained by signs to an attendant what he wanted and the man produced a set of picture cards from which Mr. McCabe selected the two he wanted. He understood that they cost 2 cents, as the attendant held up his hand with only two fingers open, so he paid and left the gallery.

Mr. McCabe had hardly started to walk back to his hotel when he was overtaken by the breathless attendant, who gesticulated and shouted at the top of his voice. Realizing that it was impossible to understand what was the matter Mr. McCabe thought that the best plan was to leave him, so he started to walk.

The man followed him and continued shouting, and when the young American hastened his step the attendant caught him by the shoulder and tried to stop him. Mr. McCabe lost his temper and knocked him down. Just then two policemen rushed on Mr. McCabe and arrested him.

They took him back to the gallery, searched him and seized a small revolver he carried in his hip pocket and escorted him to prison to await trial. He was charged with attempting to steal a postcard from the attendant, who swore that he had only been paid for one while Mr. McCabe had taken two; for assaulting a state official in the exercise of his duty, and inflicting bodily injuries which the doctors certified would take seven days to heal, and finally for carrying an insidious weapon without the necessary license.

Mr. McCabe was confined in an ordinary cell with two dirty Italians who were awaiting trial for murder, and he stayed there two days before he succeeded in notifying the American consul. He was fed on the ordinary prison fare, a loaf of brown bread and a bowl of vegetable soup. Fortunately, the American consul, Mr. Patten, convinced the Italian authorities that Mr. McCabe was not a criminal and that he had not stolen the postcard from the attendant, and as a result the trial was hastened and Mr. McCabe remained in prison only seven days.

He was acquitted on the charge of theft and sentenced to seven days imprisonment for assaulting the state official and carrying the revolver without a license. As Mr. McCabe had served his time before the trial he was immediately released from prison.

RANG BELL FOR HUSBAND

And Treated Him as Butler, Alleged in Divorce Case.

London, May 26.—Testifying in her own behalf in her suit for divorce from Robert Sherard, Irene Osgood, American author, declared her husband beat her, tried to break down the door of her room and called her "You damned American!" and other names which she said she could not repeat in court. These she wrote out and handed to the judge.

On cross-examination the author admitted that this was her third marriage. She divorced her first husband, she said, and the second, Capt. Harvey, was found dead under tragic circumstances in the Hotel Savoy. She denied she furnished Sherard with money to obtain a divorce, so that he might marry her, but admitted paying his hotel bills and other expenses before their marriage. Altogether she had given him $15,000.

"After marriage you treated your husband like a butler or groom, ringing the bell when you wanted him to answer, did you not?" she was asked.

"He asked me to ring for him. I always treated him affectionately," she replied.

The husband alleges he wrote the most of the Osgood books, and is entitled to part of the proceeds.

The Heimbach double-wear rubber heel is fast taking the place of the old style, "tacked-on kind," that interferes with the elasticity of the rubber.

DALY TO BE TRIED FOR BRIBERY IN SEPTEMBER.

Jackson, Mich., May 26.—Milton Daly of Chicago, indicted in 1909 on charges of bribing ex-Warden Allen N. Armstrong of Jackson prison and for conspiracy in attempting to defraud the state by installing second hand binder twine machinery at the prison, was arraigned in the circuit court yesterday. He furnished $10,000 bail. His trial will probably be held in September.

AFTER THE GRIP PURIFY THE BLOOD

Dr. Williams' Pink Pills Are the Best Blood Builder and Will Cure You as They Cured This Woman.

It is of the utmost importance to your health, if you have suffered from the grip, that you cleanse the blood of the lingering germs and put it in condition to resist disease.

After the acute attack the sufferer is left with a debilitated system, is short of breath upon the slightest exertion and is affected by every change of weather. The system is in such a weakened condition that it is powerless to resist the attack of such diseases as pneumonia and bronchitis.

This is a condition which emphatically calls for a tonic for the blood. Dr. Williams' Pink Pills are the best medicine for this purpose for they act directly on the blood which they cleanse of all impurities. They tone up the nerves and give health and strength to the debilitated system.

The debility which follows an attack of the grip can only be cured by making the blood rich and red. This Dr. Williams' Pink Pills never fail to do promptly and it explains how they cured Mrs. F. R. Boyd, of No. 607 South Ninth street, Minneapolis, Minn. She says:

"I was never well after an attack of the grip a few years ago until I took Dr. Williams' Pink Pills. Before this I had found nothing that helped me. I was all run down, pale and thin. My appetite was poor and my head ached continually. I didn't feel like myself at all.

"Someone finally recommended Dr. Williams' Pink Pills to me and I found them just the medicine for my case. They gave me a hearty appetite and a good, clear color. I got back my vitality and was soon a well woman. I can safely say that Dr. Williams' Pink Pills will do all that is claimed for them. I heartily recommend them."

If you are suffering from after-effects of the grip or other wasting disease, try the remedy that has cured so many stubborn cases, Dr. Williams' Pink Pills.

Dr. Williams' Pink Pills are sold by all druggists, or sent, postpaid, upon receipt of price, 50 cents per box; six boxes for $2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y. A copy of our booklet, "Diseases of the Blood," is free on request.

BIG TIME HAS BEEN ARRANGED

For the National Convention of the Electric Light Men.

New York, May 26.—The National Electric Light association's thirty-fourth convention to be held here next week, promises to be the largest in its history. On Monday evening, May 29, there will be the opening reception, with a promenade concert at the Hotel Astor, on the roof garden and belvedere, and a dance in the main ballroom. Another evening will be devoted to a theater party. Three of the largest theaters have been engaged, making provision for the accommodation of not less than 3,000 people.

On one evening of the week there will be a meeting of the public policy committee, at which the new program of the welfare work will be presented and discussed by persons of prominence. President Taft has been invited to speak at this meeting, and should it not be possible for him to attend his personal representative, Charles Nagel secretary of commerce and labor, will deliver an address.

There will also be an afternoon tea for the ladies at the Plaza hotel, and a morning concert at the Waldorf. Provision has been made for automobile rides to the various points of interest in the vicinity.

For the golf players arrangements have been made at six of the largest metropolitan links, to which free access and free transportation by automobile and train will be furnished.

For Saturday, the day following the closing of the convention, the local electric companies have invited the delegates on a tour of inspection, by boat, through the largest generating plants on Manhattan island, including those of the Interborough, the New York Edison company and the Consolidated Gas company's new works at Astoria. In the afternoon, after the inspection, a trip will be made up the Hudson and East rivers.

ARCHDUCHESS SELLER OF LACE

Does Land Office Business for Few Hours in Paris.

Paris, May 26.—For a titled woman to become a peddler from choice is rather unusual, but Paris is prepared for everything, and an archduchess selling lace created very little sensation, though she did a land office business for the few hours she was in trade.

Archduchess Isabella of Austria, wife of the Archduke Frederick and mother of six girls and a boy who is heir to the greatest fortune in Austria, had tried in vain to dispose of the lace made by Hungarian peasants under her patronage, and failing to sell as much as she wished through others, she decided to undertake the task herself. On her way back from Spain, where she had been visiting the queen mother, she stopped for a few days in Paris.

Driving in her motor car to one after another of the best shops of the feminine finery she sent her card to the head of the firm, like any commercial traveler. Then without waiting for consent to invade the premises with her goods she swept by astonished attendants and followed by two lackeys bearing baskets filled to the brim with the lace made her way to the most crowded part of the stores, seated herself before a counter and displayed the lace she wished to sell, explaining its merits to the women gathered about her.

Of course, many women gave orders for lace, which the archduchess recorded in a notebook bearing the imperial insignia on its cover. In the background lingered porprietors and floorwalkers, who knew better than disturb an archduchess, no matter how troublesome her eccentricities. When the lady had done all the business she could she signaled the lackeys to remove the lace, and with gracious bows of thanks she went on her way to the next shop.

ANGLICANS PERTURBED.

By the Broadminded Policy of the Bishop of Hereford.

London, May 26.—Dr. Percivil, bishop of Hereford, has recently given evidence of broadmindedness which has greatly perturbed some people in the Anglican church. What he did was to invite to a coronation celebration of the holy communion both members of the established church "and also such of our non-confirmist neighbors and friends who may feel moved to join in our worship on this unique occasion."

A few days later the bishop of Winchester in the upper house of convocation of Canterbury, strongly condemned the action of the bishop of Hereford as "unconstitutional in the deepest sense of the word." The Times has teemed with letters on the subject. The main argument used against the bishop's action is the rubric at the end of the confirmation service, which says that "none shall be admitted to the holy communion until such time as he be confirmed." The bishop holds with Bishop Creighton that "this rubric was intended solely as a direction for normal cases in our own church and did not contemplate the case of non-confirmists.

The bishop adds that it is well known that members of other Protestant churches were in former years frequently admitted to communion in the Anglican church. Then it is pointed out that the royal commission on ritual, with only one dissentient, recommended in its report in 1870 that a new rubric should be added to the communion service to this effect: "But note, the foregoing directions are not to be held to authorize the refusal of the holy communion to those who humbly and devoutly desire to partake thereof."

AS THE PRODIGAL SON

Paille Returns to Amish Church and Regains His Family.

Muncie, Ind., May 26.—George Paille, who two years ago was cast out of the Amish church at Berne and practically divorced from his wife through an edict of the church authorities because he violated a rule of the sect by insuring his buildings against fire, has repented and has been restored to his family.

Paille brought suit against the church and recovered $2,000.

Later Paille went forth into the world and dressed and acted as other men, but longing for his wife and family finally overcame his anger and he petitioned to be allowed to return to the faith.

NEWS OF THE NORTHWEST

NOTED CASES TO COME UP

Before North Dakota State Pardon Board at Bismarck on June 6.

Friends of Two Men Convicted of Horse-Stealing Will Intercede.

Bismarck, N. D., May 26.—(Special to The Herald).—When the state pardon board meets here June 6 a number of important cases will come up for consideration. One of these being the famous Hartley Shafer case from Benson county.

Shafer was convicted of horse stealing January, 1909, and his wife has been making a fight for his pardon. She will present a petition for the release of her husband, having been engaged for some time in securing signatures to the same.

Another interesting case is that of Samuel Pettigrew of Sargent county, also convicted of horse stealing, and who has been in the state prison since November, 1907. The charge against Pettigrew, only twenty-one years of age when he was convicted, was that of stealing two horses from a barn on the Sweeney farm in Willey township, Sargent county, putting two other horses in their stead and then setting fire to the building while he rode away. The owner of the barn was awakened in time to discover the fact that strange horses had been put in the barn, and descriptions of the missing animals were sent out in time to catch Pettigrew. The crime had been deliberately planned, according to the evidence brought out in the trial.

Minot Robber's Case.

Minot will furnish an interesting case, that of Ed. Conroy. Conroy was convicted of robbery, being sentenced to twenty years. In the robbery only $17 was secured, and the claim is made now that the accused can establish his innocence. The convict was only a young man when convicted.

Grand Forks will have the case of William Martell, colored, who has been in the prison about seven years, for manslaughter. He was accused of slugging another man over the head with a draystick, the body of the victim being found the following morning. Martell's arrest and conviction following in rapid succession. Only recently Martell suffered a stroke of paralysis at the prison.

Jefferson Whittaker's case, coming from McHenry county, is also scheduled to be heard again. Strenuous opposition has been raised against the granting of a pardon to Whittaker, who was accused of killing a young man. The fight resulting in the death grew out of a pool hall brawl.

AUTOMOBILE ROAD-MAKING

Thief River Falls Machine Owners Use Motors in Practical Way.

Thief River Falls, Minn., May 26.—(Special to The Herald.)—Several automobile men went out of Warren on an investigating tour this week and after discussion of the subject of poor roads decided to try the building of roads themselves. One large auto hitched a drag behind and moved along the highway at a good rate of speed and another dragged a King split rock drag over the harrowed road. This gave a smooth surface and at little or no cost. In places the machines ran at least ten miles an hour and in a few hours several miles of highway were placed in the best condition they have been in this season.

The Auto club of Thief River Falls has succeeded in raising $1,000 to be expended on the highways leading into this city. The county commissioners of Pennington county, the city council and the Commercial club are working in harmony to secure the most economical expenditure of this money. In addition to this Dr. Grundy, the president of the Commercial club, has succeeded in inducing the Soo railway to deliver in their yards in this city seventy-five loads of fine gravel free. The gravel will be hauled out to the roads and will cover many miles of the heavy soil of which all the roads in this part of the state are made. The ditches which are being dug will also furnish good highways alongside the ditch.

SANDSTONE WILL GRADUATE EIGHT

Senior Graduating Exercises on Next Friday Evening, June 2.

Sandstone, Minn., May 25.—(Special to The Herald.)—"Seeking the Highest," will be the theme for the baccalaureate sermon to the graduating class of the Sandstone high school to be preached Sunday evening at the Presbyterian church by Rev. W. S. Middlemass, the pastor.

The junior class will give a reception and banquet in honor of the seniors this evening. The banquet will be held at the home of Mrs. F. Booton and the reception at the village hall.

The senior class graduating exercises will take place at Larson's opera house Friday evening, June 2. The class consists of eight graduates and is the largest class that ever graduated from this school.

The following program has been arranged:

Piano duet, selected, Miss Stella Webb, Miss Mada Bullis; invocation, Rev. W. Stegeman; oration with salutatory, "Leo Tolstol," Lillie Mack; oration, "Aerial Navigation," Perry Dean; chorus, "A Slumber Song," High school; oration, "From Dark to Dawn," Alvina Gissler; oration, "Stratford on Avon," Florence Webb; vocal solo, selected, Rev. Middlemass; oration, "Prospector's Guide," Edward Rankin; oration, "Alexander Hamilton," Hortense Gissler; violin solo, selected, A. D. Hale; oration, "The Scholar's Ideal," Ruby Loken; oration and valedictory, "Aliens or Americans," Daisy Bullis; trio, "Lullaby," Mrs. W. S. Middlemass, Mrs. M. D. TO DISCUSS DRY FARMING TOPICS

Farmers of Hettinger County to Have Treat at Mott, N. D., June 21-22.

Mott, N. D., May 26.—(Special to The Herald.)—Wednesday and Thursday, June 21 and 22, will be big days for the farmers of Mott and vicinity, bringing a two days' farmers' institute and the annual meeting of the Hettinger County Dry Farming association. Vice presidents from every township in the county, will be present and Professors T. A. Hoverstad and J. H. Sheppard will assist in arranging the association program and meetings for next year.

The institute program has been completed and the opening session will be held at 10 o'clock Wednesday morning. After the address of welcome by F. G. Orr and various responses the farmers will listen to lectures by Supt. T. A. Hoverstad on "The Farmer and the Institute" and by Prof. J. H. Sheppard, dean of agricultural department, agricultural college, Fargo, on "Grain Growing."

The Afternoon Program.

In the afternoon President James A. Bannon of the Hettinger County Dry Farming association will speak on "The Dry Farming Organization and Its Work," Prof. L. R. Waldron of Dickinson will speak on "Dry Farming," and Prof. Sheppard of Fargo has chosen for his subject "Corn Culture."

The addresses have been arranged for the evening program which will be interspersed with music and other entertainment and these will be "Crop Improvements," by Prof. J. H. Sheppard, and "The Country Life Problem," by T. A. Hoverstad.

Thursday morning gardening and poultry raising will be given attention with Mr. Hoverstad as the speaker while Mr. Sheppard will discourse at length on "The Story of Alfalfa." In the afternoon every one present will be given opportunity to ask questions through the question box plan and the addresses will be "Crop Rotation," by Prof. Waldron, and "Live Stock West of the Mississippi," by Prof. Sheppard.

SUICIDE IS BURIED.

Woodsman Who Took Life Interred at International Falls.

International Falls, Minn., May 26.—(Special to The Herald.)—Nothing additional has been learned relative to the motive that inspired William Horrihan, a woodsman and trapper well known in this locality to shoot himself with a rifle at Rainy Lake City, Monday night as told in Herald dispatches. Word was sent to Dr. G. F. Swinerton, deputy coroner, who upon investigation found that the facts warranted a certificate of death by suicide. The body was brought to town and the funeral held from the First M. E. church Thursday, interment being made at the city cemetery. Deceased was 46 years of age, and was held in high esteem by those who knew him.

UNITY CLUB ELECTS.

Sandstone Organization Chooses Its Officers for the Year.

Sandstone, Minn., May 26.—(Special to The Herald.)—The wedding of Miss Hattie Wyttenbach and George L. Faudskar has been announced to take place at 8 o'clock Saturday evening, June 3, at the bride's home in Finlayson. The contracting parties are well and favorably known in this vicinity, both being residents of the neighboring village of Finlayson.

The Ladies' Unity club held their annual meeting and election of officers this week at the home of the president of the club, Mrs. J. F. Hawley, and the following were elected: Mrs. James Carolan, president; Mrs. Louis Anderson, vice president; Mrs. E. J. Barnett, recording secretary; Mrs. J. F. Hawley, corresponding secretary; Mrs. J. R. Maloney, treasurer; Mrs. W. Scott, librarian. The circle will not meet during the summer months and the next regular session of the Reading club will again be resumed in September.

IS GIVEN FRATERNITY.

New Honor Has Been Accorded North Dakota University.

Grand Forks, N. D., May 26.—(Special to The Herald.)—Significant honors have come to the University of North Dakota in the granting of a charter by the national fraternity for a chapter of Delta Sigma Rho, a fraternity that only recognizes as members debaters and orators who have represented their institutions in intercollegiate events. Tuesday, June 13, has been set as the date for installation and National Secretary Stanley B. Houck has been named to come to the Flickertail state institution for that occasion.

Ten young men now doing active work at the university are eligible and with the alumni debaters and orators will make up the charter membership. The ten men are Albert Wold, William Greenleaf, H. H. Cooper, C. O. Stee, Clyde Duffy, Lester Smith, Iver Acker, O. O. Trageton, George Schafer and Ed McIlraith, and last evening they held a meeting at which all preliminary plans for the installation were outlined.

OUSTED OFFICIAL MAY SUE COUNTY COMMISSIONERS

Washburn, N. D., May 26.—(Special to The Herald.)—Because he was thrown out of his office as county commissioner, representing the Second district, for non-attendance at the meetings and another put in his place, Alex Miller of Garrison threatens to bring a civil suit against the board to retain his seat. After several absences from the regular meetings Miller's seat was declared vacant by the board and F. L. Mackey appointed in his place. Mackey qualified at the regular May meeting, but at an adjourned session of that meeting Miller appeared and demanded his seat. The board refused to hear him.

WOMEN'S CLUBS HAVE CLOSED SUCCESSFUL MEET.

Langdon, N. D., May 26.—(Special to The Herald.) — The second annual meeting of the Federated Women's clubs of the Seventh Judicial district was concluded today after a busy session of a day and half. The presence of Mrs. N. C. Young of Fargo, president of the North Dakota Federation of Women's clubs and her address on "The Importance of Co-operation Between the District and State Federation" were the principal features of the meeting, and while Mrs. Young urged in commanding terms still more active work, she took occasion to express her great delight at the progress made in the Seventh district. She classed the papers read as among the very best in the state and the attendance surpassed that of many of even larger districts.

ASHLAND WOMAN HEADS DAUGHTERS OF REBEKAH.

Ashland, Wis., May 26. — At the convention of the Daughters of Rebekah, held in this city for the district of Wisconsin, the following officers were elected: President, Mrs. J. G. Upthegrove, Ashland; vice president, Mrs. P. Plunkett, Washburn; warden, Mrs. Humphrey, Mellen, and secretary, Mrs. E. A. Strong, Ashland.

One Year for Stabbing.

Mankato, Minn., May 26.—Joseph Bell, who was charged with stabbing another employe at the Rapidan dam, went before Judge Pfau and pleaded guilty to an information charging him with assault in the second degree and was sentenced to serve one year.

Upper Peninsula Streams Stocked.

Seney, Mich., May 26.—(Special to The Herald.)—Brook trout fry to the number of 2,500,000, propagated at the state fish hatchery at the St. Mary's rapids, have been planted in Upper Michigan streams this spring. Nearly a million others, hatched at the Cleveland Cliffs Iron company's hatchery at Munising, have been deposited in various creeks and small lakes, mostly in Alger county.

Karlstad Market Day.

Karlstad, Minn., May 26.—(Special to The Herald.)—Karlstad will hold its first market day on June 3, and big preparations are being made for making it a big event. There will among other attractions be a ball game in the afternoon between the Herb and Florain nines.

PENINSULA BRIEFS

Menominee—Mrs. Catherine Caron, age 26, dropped dead of heart disease while seated in the balcony of her home on Ogden avenue. She had been in poor health for about a year. She leaves a husband and two children.

Marquette—The adjourned May term of United States court in Marquette will convene June 6. The criminal calendar for the term promises to be unusually short, unless important indictments are returned by the grand jury, there are not now being any criminal actions pending of a particularly serious nature.

Negaunee—Thomas Cervenyak, a well known resident of Negaunee, will leave next Monday for his old home in Hungary. He will sail from New York on Thursday on the steamer "Hungary." It is eighteen years since Mr. Cervenyak came from the old country.

Gwinn—The senior class of the high school will hold graduation exercises Thursday evening, June 15, in the Assembly hall. Following is the class and officers: Alta E. Gaborie, Ruth H. Garrett, Charles H. Johson, Ralph J. Johnson, George I. Lindberg, Albin Nyquist, George E. Pepin, Olga E. Stein and Myrtle Trebilcock. Class officers: President, Olga E. Stein; vice president, Myrtle Trebilcock; secretary, Ralph Johnson; treasurer, Albin Nyquist.

Ishpeming—The members of the Ishpeming base ball team will practice every Wednesday and Friday afternoons at the Union park grounds and the Negaunee team will practice there every Tuesday and Thursday afternoons.

Marquette — Joe Rosa of Princeton was brought before Judge Flannigan Wednesday and pleaded guilty to having sold liquor without a license. As the man stated that he intended to leave Marquette county within a few weeks and go to Arizona, Judge Flannigan let him off with a fine of $30 and costs, amounting in all to $50.

Houghton—J. M. McCloskey, "The Man from Phoenix," is in Houghton on his annual visit to the Copper country. Mr. McCloskey was totally blinded at Pheonix, B. C., in 1902 and since that time has devoted his time to authorship and lecturing. He is an interesting personality.

Calumet—Capt. Thomas Wills and Charles Richards of Calumet arrived home this morning from a three weeks' tour through points on the Michigan and Wisconsin iron ranges, where they gave a number of stereopticon entertainments.

Houghton—Frank Neher, a driver for the Park Brewing Company of Hancock, met with a serious accident resulting from the over-turning of his wagon near the courthouse. Mr. Neher suffered a broken leg, a broken nose and a number of bruises.

Hancock—J. C. Harrington, the Nashville, Tenn., man who attempted suicide on a South Shore train Monday night and was put off here is in bad shape at St. Joseph's hospital. He is very delirious at times and his condition is so bad that it is necessary to effect his removal to another room. Nothing further has been learned in regard to his previous history.

Calumet—M. E. O'Brien, first vice president and general manager of the Detroit Life Insurance company, expects to leave Saturday for Detroit, to locate permanently. Mr. O'Brien states he will pay periodical visits to Calumet, but the greater part of his time will be spent in Detroit.

Ishpeming—Capt. W. H. Johnston received a telegram stating that Mrs. C. H. Hall, for a number of years a resident of Ishpeming, passed away Tuesday afternoon at her home in Evanston, Ill. The deceased was very well known in Ishpeming, as she made her home here during the time that her husband was agent for the Lake Superior Iron company.

Negaunee—John Collins, who has been engaged in diamond drill work in Mexico for the past three years, is home with his wife and family on a short visit to his mother, Mrs. Elizabeth Collins, 416 South Pine street. Mr. Collins expects to leave for Mexico in a few days, but his wife and children will remain here for several months.

Stambaugh—The farm which is an adjunct to the Iron county alms house is to become an agricultural experiment station, similar to the Upper Peninsula institution which the state maintains at Chatham, Alger county. The proposition has been presented to the board of supervisors and it has been received with favor. An agricultural college graduate will be put in charge of the work.

WHY SOCIETY WOMEN HAVE PRETTY FACES

"How often so many of us admire the beautiful complexion of society women and wonder why," writes Mae Martyn, authority on beauty matters, in the Boston Post. "Their good looks and pretty faces are generally the result of the greatest care and precaution in using beautifying preparations.

"The day is passed when powder finds favor with the knowing ones. It has been found to clog up the pores and cause rough, sallow complexions. If instead of powder women generally would use a simple, inexpensive lotion made by dissolving four ounces spurmax in one-half pint hot water with two teaspoonfuls glycerine added, the matter of beautiful, charming faces would soon come to be a common thing.

This lotion clears and beautifies the skin as no other preparation will. It does not show like powder or rub off so easily and for taking away that shiny, oily, sallow look is unequaled."

MINNESOTA BRIEFS

Crookston—The enrollment of the Cathedral high school, including all the grades, kindergarten and a complete high school course, will take place next Sunday afternoon, May 28, at 3:30 o'clock, at the Cathedral high school auditorium.

Bemidji—By a vote of 132 to 4, the voters of the Bemidji independent school district approved of the board of education's selection of the Schuch property for the new demonstration farm. This farm is located eleven blocks north of the high school. It is improved, has a house, windmill, henhouse and fruit bushes. Ten acres are under cultivation.

New York Mills—Ten children were confirmed in the congregational church Sunday evening by Rev. E. E. Lindsley. The members of the class were, Clara and Walter Erickson, Mable, Sophia and Herald Erkkila, Stella and Pearl Atkinson Eustis and Clara Harson and Mary Abbott.

St. Cloud—Miss Marguerite O'Neil, daughter of Mrs. Margaret O'Neil of this city, and David F. Brousseau, son of Mr. and Mrs. F. Brousseau of Belle Prairie, were married at the French Catholic church Wednesday morning at 8 o'clock. Rev. Father Lamothe officiated and only the immediate relatives of the couple were present.

Ada—On Monday evening, May 29, from 7 to 10 in the high school auditorium there will be an industrial exhibit. The sloyd work and mechanical drawing of the grades and the mechanical drawing and shop work of the manual training department will be shown.

Brainerd—The Pine Tree Company logging engine got off the track Tuesday afternoon about four miles south of Kelliher and delayed passenger train No. 31 for a couple of hours.

Mankato—J. A. McLeod, for the past two months employed in the office of the United States collector of internal revenue at the old postoffice, died suddenly Tuesday in a hotel at Pipestone, Minn. Nothing is known at the office of the collector as to Mr. McLeod's relatives, except that he came here from Detroit, Mich.

Stillwater—H. J. Deitz received notice Wednesday that he had been appointed deputy oil inspector for Washington county. Mr. Deitz is well qualified for the place. His appointment has been expected for some time but it is none the less welcome on that account.

Winona—The Spanish War Veterans have completed their arrangements to the observance of the Memorial season, the special feature of which will be their visit to St. Mary's cemetery next Sunday afternoon.

Faribault—The graduating class of the Moorhead normal school for the year 1911 comprises 154 members. Of these twenty-five complete the long courses, seventy-four complete the one year course for high school graduates, and fifty-five complete the elementary course of three years.

Faribault—The Faribault Eagle Aerie 1460 will hold a big celebration in Faribault on July 4th. Plans are being made for the biggest celebration that Faribault has ever had or ever been held in Southern Minnesota. Many amusements will be provided.

Mankato—Mrs. Nicholas Weis, a resident of Mankato since 1856, died Wednesday of cancer. She was seventy-three years old and prominent socially. Her husband and two sons, who are Catholic priests, and two daughters, survive her.

WISCONSIN BRIEFS

Oshkosh—Denied a new trial, Miss Mary Roberts, a well known Oshkosh woman, found guilty of setting fire to her home to secure $3,000 insurance, was sentenced to three years at Waupun. Miss Roberts was unmoved when sentence was pronounced.

Antigo—The committee having in charge the arrangements for the picnic of the Woodmen Northern Wisconsin Picnic association, has begun active preparations for the event, which will be on July 4.

Neenah—J. F. Icke, engineer of the Madison water works, has made an exhaustive report on the condition of the Neenah system. He recommends that meters and new pumps be installed and a new well dug. He says the plant is in poor condition and dangerous in case of a big fire.

Eau Claire—Judge James O'Neill, sitting for Judge Wickham, on Wednesday granted a divorce to Mrs. Carrie Winslow, daughter of N. C. Foster, the Fairchild, Wis., millionaire lumberman and capitalist, from George F. Winslow of this city.

Marinette—Mrs. Charles Engleman of Wausaukee was badly burned Wednesday in attempting to rescue her three children from their burning home. The children were sick with measles and could not help themselves, but the mother would not abandon them. Emil Everix, a neighbor, rescued them.

Janesville—Civil war veterans will make their annual parade in automobiles furnished by citizens.

Ashland—Five boys, ranging in years from 8 to 12, were arrested and brought before Judge Garvin Wednesday morning, on the charge of stealing a bicycle belonging to Albert Jacobson. Two of them, Ben Sikorski and George Vilaski, were found guilty and were sentenced to the reform school.

DAKOTA BRIEFS

Fargo, N. D.—The automobile of John Wyman and a machine driven by a boy named Comrie, clashed on Eighth street south near Fifth avenue. Both drivers claimed that the fault of the accident was due to the other, and there is some dispute regarding the trouble. Wyman filed a complaint against Comrie.

Mott, N. D.—Horace Flannigan, aged 10 years, son of M. B. Flannigan, was drowned in the Cannon Ball river southeast of Mott Tuesday. The boy was riding his horse near the river edge, when the bank gave way and both fell to the depth below some fifteen feet. The boy's body was recovered.

Bowman, N. D.—Bowman county has a brewery storehouse, its courthouse, all because of a raid at Scranton, where the officials found twenty-one cases of beer. The liquor is being retained as evidence against A. Eaton, under arrest, and C. Pendragast, who is absent from the county.

Fargo, N. D.—Edward B. McGuimess, a well-known young business man of Mandan, was married Wednesday by Judge Hanson of the county court. The bride was Miss Nellie Moore of St. Paul. The bride and bridegroom were accompanied by a few friends who witnessed the ceremony.

Minot, N. D.—In spite of a most diligent search, covering practically every township in Northwestern North Dakota, Sheriff Ed Kelly and his deputies have not arrested the tramp who committed the assault upon Miss Grace Dougherty, the Plaza school teacher, Saturday afternoon.

Fargo, N. D.—Frank Hallett, the well-known local salesman in the employ of Feckler Bros., who resided at 1344 Fourth avenue north, died Wednesday at one of the local hospitals from a severe attack of typhoid fever. The deceased is survived by a widow and five children. He has resided in Fargo six years and is well known here.

Grand Forks, N. D.—V. D. O'Callaghan, in charge of the new business department of the Red River Power company since the purchase of the local concern by the Byllesby concern, received telegraphic instructions to proceed to Stockton, Cal., where he will take charge of the new business department in the plant that was recently purchased there by the same company. Thomas Combiths of Faribault, Minn., will take charge of the department in Grand Forks.

Deadwood, S. D.—Olaf Nelson of Yankton was re-elected grand master workman of the Ancient Order of United Workmen at the nineteenth biennial grand lodge session here.

Cleanliness of Nasal Passages Cures Cartarrh and Prevents Many Diseases.

That the public, even the well-to-do and refined public, are careless in one matter of hygiene, is well known to physicians of keen observation. The nostrils act as filters for the air we breathe; therfore every germ-bearing atom of dirt, filth and dust flying through the air we breathe finds lodgment in the nostril passages Every one of cleanly habits and every one afflicted with catarrh, should adopt a sanative nostril wash, and use it daily. The following has the endorsement of physicians and can easily and cheaply be used at home with quick and satisfactory results:

Obtain two ounces of antiseptic vilane powder. To a pint of warm water add a half-teaspoonful of the powder. Snuff from hollow of hand through nostrils until thoroughly cleansed. Also make a balm by mixing a teaspoonful of powder with one ounce of vaseline, and apply twice daily for bad catarrhal conditions. This treatment gives a delightful feeling of comfort and makes breathing free and easy. Catarrhal headache is also banished, while the likelihood of contagious diseases is lessened.

LARGE CLASS TO GRADUATE

Cloquet School Eighth Grade to Give Exercises Next Thursday Evening.

High School of Neighboring City to Graduate Twenty-Seven Next Friday.

Cloquet, Minn., May 26.—(Special to The Herald.)—Next Thursday evening, the second annual Eighth grade graduation exercises will be held in the Nelson opera house, when about sixty students, the largest number in the history of the school, will complete the grade course. Following is the program to be given: Invocation, Rev. F. C. Coolbaugh; music (selected), Marcia Case; introduction, John Skagerberg; theme, "Our Country in Song and Story," comprising the following: "Revolutionary Period, Tavern Scene and Our Brave at Home," Hjordis Nilsson; "The Revolutionary Rising," James Underhill; "The Black Horse and His Rider," Lester Lightfoot; chorus, "Old Guard;" "Development Period, Patriotic Review, Our Second struggle," Lizzie Sjernstrom; "Our Advances;" chorus, "The Bugler;" "The Soldier's Dream;" "Lincoln's Time and Onward" (including a scene from Lincoln's home), by Bertha Anderson; Riley's "Bear Story," by George Frederickson; the Gettysburg speech, by Mary Coyne; "John Burns, of Gettysburg," by Alice Franklin; "The Black Regiment," by Edith Bratloff; "The Blue and the Gray," by Bertha Anderson and Jensene Johnson; "The Flag Goes By," by Clarence Long and the girls chorus.

Peter Oleson, the city superintendent of schools, will present the diplomas and Rev. T. T. Roan will give the benediction. The class motto is "Step by Step," and the class colors, black and yellow. The Eighth grade faculty comprises Peter Olesen, Margaret Buckley, Jessie M. Hawkins and Grace Draper.

High School Class Exercises.

Friday evening, June 2, the twenty-seven graduates of the Cloquet high school will give the following program as class day exercises: "Far at Sea," High School Male quartet; oration, "The Call of America," salutatory, Ambrose Frederickson; class history, Gladys Wright; oration, "The Negro, His Relation to Civilization," Arvid Nelson; solo, "Crossing the Bar," Anna Michaelson; oration, "The Axe of Democracy," Lottie Wilson; poem, Lillian Ryan; prophecy, Louise Swenson; violin solo, John Moody; class will, William Johnson; "See'in Things at Night," High School Girls' octette. The address to the class will be given by Peter Olesen, superintendent of schools. Following are the graduates: Florence Blair, Edith Canfield, Ambrose Frederickson, John A. Johnson, Grace McGagin, Evelin McKenna, John Moody, Arvid Nelson, Henrietta Peacha, Lillian Ryan, Lillian Rousseau, Hazel Scribner, Lottie Wilson, Olga Brattlof, John Duracha, William Johnson, Florence Lundquist, Anna Michaelson, William McDonald, Walter Olin, Irving Nelson, Verona Phelion, Jennie Reynolds, Herbert Sell, Louise Swenson, Gladys Wright, George White. The class motto is "We Have Crossed the Hills, the Mountains Lie Before Us;" the class colors, blue and white, and the class flower, the white lilac.

Write Prize Essays.

Fifteen pupils of Miss Jessie Hawkins' Eighth grade at the New Garfield school have written essays of sufficient merit to be printed in a Minneapolis paper. Some have won prizes and others honorable mention. Three prize pictures have been won, "Oaks in Snow," "Sir Galahad," and "Autumn Scenes," have been won by Edmund Kultu, James Underhill and Leslie Douglas, respectively. Philip Desiletts has received two honors, and Lester Lightfoot and James McDonnell each an honor. Others who have had essays published are: Olivet Johnson, 2; May Dutton, 2; Lizzie Sjernstrom, 2; Earl McGillvray, 1; Clarence Johnson, 1.

HIS REPUTATION WAS DAMAGED

James Cummings Wants $15,260 From Duluth Telephone Company.

Before Judge Dibell in district court, James Cummings is suing the Duluth Telephone company for $15,260, which he claims is due him for injury to his reputation when he was charged with stealing three coils of copper wire while working for the company some months ago.

He claims in his complaint that he was in the employ of the company and was working on the Carlton-Duluth extension during August last year.

Cummings says that he was charged with the theft of the copper wire, that he was arraigned in municipal court and after the hearing had been postponed several times, it was found that a case could not be made against him and it was dismissed.

He claims that for chagrin and injury to his reputation he has the amount named in the complaint coming to him.

TURNBLAD MUST PAY $2,387.93 COSTS IN SUIT.

St. Paul, Minn., May 26.—(Special to The Herald.)—So far as disclosed by the records, the largest judgment for costs ever taxed by the Minnesota supreme court was taxed against Swan J. Turnblad, head of the Swedish-American Publishing company of Minneapolis, yesterday, in a case where Isaac Ekberg had brought suit charging manipulation of stocks in the publishing company. The lower court assessed the costs, amounting to $2,387.93 against Ekberg, but the supreme court has directed that Turnblad be required to pay them.

URGES MINNESOTA FOR SUMMER WHITE HOUSE.

St. Paul, Minn., May 26.—(Special to The Herald.)—At the direction of the governor, his private secretary, Ralph Wheelock this morning sent a letter to Charles D. Hilles, secretary to President Taft, urging the selection of Minnesota as a suitable location for the "summer White House."

TEST YOUR SPELLING

Can You Pass This Examination Given High School Pupils?

Thirty-Seven Seek Credits Admitting Them to the University.

Here are some of the words which those taking the state high school examinations today, at the office of County Superintendent of Schools Young, were asked to spell:

parallel,	physiology,
cholera,	poisonous,
chronic,	chloroform,
Phoebe,	analysis,
caterpillar,	amethyst,
fiber,	pistillate,
chickadee,	Merrimac,
scientific,	alkali,
Philippine Islands,	Eskimo,
isthmus,	scissors,
cupboard,	envelope,
	weasel.

There were in all fifty very common American words. As there has been so much said of late relative to the fact that graduates of the high school are unable to spell properly, this subject has now been made one of the most important of high school studies and it always occupies a prominent part of the examinations which give entrance to the university.

Thirty-seven took the examinations which were held this morning at the courthouse. The majority of the girls were from the Cathedral school. The credits gained by passing the examination will be sufficient for entrance to Minnesota and several other universities.

The examinations are being held in all parts of the state today. George D. Aiton of Minneapolis is the examiner. The questions were prepared by him and sent out to the different county superintendents.

The pupils will also be examined in physiography, United States history, higher algebra, Latin and composition. The examinations will be continued Monday and Tuesday of next week.

ICE PRICES UNCHANGED

Dealers Report Very Dull Business Owing to Cool Weather.

There is no increase in the price of ice.

With the coming of warmer weather the private and family trade begins. The cost is the same as last year, 50 pounds twice a week for $2.50 or 25 pounds three times a week for the same amount.

It is probable that the price for the family trade will remain the same during the entire summer. The ice companies had a successful season and large stocks were put up.

At the present time the trade is dull, say local ice companies. The cool weather is to blame for this. There is no one who would welcome hot weather with greater delight than the ice man.

"Trade is very dull at present," said a manager of one of the local companies this morning. "We are awaiting warm weather, when, if the year is as other years, the trade will pick up suddenly and continue good all through the hot season."

USE BOX CAR FOR A DORMITORY

Police Round Up a Dozen Vagrants in Comfortable Bed.

The peaceful slumbers of a dozen vags who were peacefully sleeping in bunches of hay stacked in a box car in the Northern Pacific yards, were rudely disturbed last night at midnight when a squad of policemen swooped down upon them and carelessly gathered them into the dragnet.

They were booked at headquarters as trespassers on private property. All of them pleaded guilty when arraigned in police court this morning. Part of them got suspended sentences and the rest were let off with the minimum $3 or three days in the county jail.

Complaints against the men were made to the police by wholesale dealers. They stated that the men were hanging around the rear of their properties, smoking cigarettes, and feared that they might start a fire which would costs thousands of dollars. Patrolmen Barber, Englert, Dickman and Olson were detailed to round them up, and they went through the yards, searching every open box car.

BUTTER AND CHEESE ENTRIES ARE MADE.

St. Paul, Minn., May 26.—(Special to The Herald.)—At noon today seventy-one entries had been made in the butter and cheese contest to be conducted under the direction of the state dairy and food commissioner. While the contest does not start until next Wednesday, the rules of the contest provide that all tubs of butter and all cheese to be considered shall be entered in St. Paul today. It is expected that approximately 250 tubs of butter will be displayed at a local cold storage plant, where the contest will be held.

James Sorenson of the state dairy department, and O. A. Storwick of the United States department of agriculture, will do the judging. W. J. Moriarity will act as clerk.

ARMSTRONG TO BE BROUGHT FROM COAST.

Sacramento, Cal., May 26.—Governor Johnson has issued an order for the extradition to Minnesota of John Armstrong, alias Caddigan, on a charge of defrauding a Minneapolis banker out of $25,000.

INCOGNITOS OF ROYALTY.

It has always been the custom of royalties to travel under assumed names, but though their incognito is respected most people know who they are. The king and queen of the Belgians, who lately went to Egypt, traveled under the names of a Count and Countess De Kesh, and as this was a name not well known they were not recognized by most people.

The late Queen Victoria called herself the countess of Balmoral, the Czar Paul I. and his empress once went on a long journey to all the great courts of Europe as the Count and Countess Du Nord. The last king of Sweden, of the ancient line of Wasa, Gustave Adolph IV, called himself Col. Gustavson.

Queen Alexandra of England on one occasion, when she stayed in Paris, was under the name of Mrs. Stephens, says the Gentlewoman and Queen Maud of Norway when she makes an excursion often calls herself Miss Mills, while her sister, the Princess Victoria, travels often as Miss Johnson.

The king of Bulgaria travels as Count Murany, while the present king of Italy bears the name of Count Pollenza. The German crown prince and princess call themselves Count and Countess Ravensberg, and his younger brothers, Prince August-Wilhelm and Prince Oscar traveled as the Counts von Lingen.

The ex-Empress Eugene when she is incognito is known as the Countess Pierrefonds in remembrance of a castle of that name that was once given to her by Napoleon III. The late King Edward was known as the duke of Lancaster and King George takes for his travelling name the title of Lord Renfrew. The name under which Queen Alexandra generally travels is the countess of Chester.

The late empress of Austria always had her name entered as the countess of Hohenembs. The king of Sweden is known as Count Tulgard. Ex-King Manuel of Porugal also was fond of being incognito and was then known as Count Varcelles.

MANUSCRIPT OF THIRTEENTH CENTURY.

London Globe: While reading a French book of the sixteenth century in the university library, St. Andrews, the German lecturer, Dr. Schaafs, noticed some fragments of an old French poem which the binder had pasted on back and covers of the book.

After loosening them he removed the glue and out of the four pieces obtained composed two larger pieces, parts of two leaves of a manuscript written in a beautiful and clear type in two columns of thirty-nine lines each, 144 in all, with red and blue initials. The names occurring in the text leave no doubt that the fragments contain parts of the old French chanson "Le Roman de Girard de Viane," and from the language and the script it appears that the manuscript was written between 1250 and 1300.

An 8-Rib Umbrella That is a Real One for $1.00

$1 We can sell this Umbrella for a dollar because we contracted to use five hundred in six months. The tops are fast blacks—and won't leak.

You can get just about as good at some other stores for $1.35 — styles and sizes for men and women.

IT IS EASY TO MAKE YOUR OWN CLOTHES IF YOU HAVE ONE OF OUR DRESS FORMS.

Successors to Gray-Tallant Co.
117-119 WEST SUPERIOR STREET, DULUTH, MINN.

We Are Selling the Daintiest 35c and 39c White Flaxons at 25c

25c Fashion magazines are full of news about Flax-ons—which have that permanent linen finish—but which do not muss as linens are apt to do.

Three hundred pieces to choose from, made in a new way from fine cotton—but they look and feel like pure linen.

Are You Planning on a Three Days' Trip?

HERE'S QUICK READINESS FOR YOUR NEEDS

You can easily arrange for it. Tuesday will be Decoration Day—and busy people need be absent only Monday to enjoy a three-days' trip.

Aren't you ready? Never mind—we are here to help you with wearables to suit your needs—and the very attractive special offerings for tomorrow are especially timely!

Cream Serge Suits and Coats
$18.50 to $27.50. Very Charming

We selected our materials early, and have had these suits and coats made up for us by tailors usually confining their work to the higher priced lines. The result is that the coats and suits offered at $18.50 to $27.50 are really and truly better than any we have shown at these prices.

Tub Skirts Are Ready

Smart little tailored skirts of linen, rep or Khaki, in natural white or leather color. All sizes, waist bands and all lengths for the large as well as the small figure.

Models are gored, panel back and front, or open side, back or front. Many are finished with handsome pearl buttons.

Prices range $2.98, $3.98, $5.00 and $6.50.

You Will Be Delighted With Our Showing of Decidedly New Wash Dresses

New and dainty styles, each with its own touch of individuality — models that have dash and distinction—made from the better sorts of dimities, lawns, percales, ginghams, cotton foulards, figured muils and colored marquisettes.

You may choose from these and other wanted colorings—Copenhagen blue, lavender, Helen pink, tan, King's blue, coral, gray, black and white.

Prices range $2.98, $4.50, $6.50, $8.50 and $12.50.

There are all sizes, from those for the miss of 14 years to the matron of 46 bust measure.

Linen Suits for Warm Weather

Soon you will turn to the cool, smart looking linen suits — and here they are. Semi-fit or seamless, French back models with notch or sailor collars, trimmed with self or contrasting colors. The skirts are gored or panel models.

Choose from tans, Copenhagen blue and natural linen color, in Irish Linens, Butcher's Linens, Russia Linens and Linenes.

Sizes range 14 years to 44 bust. Prices range $6.50, $8.50, $10, $12.50 and $15.

Sweaters for Out-of-Doors

A complete line of the season's best models in good wool sweaters. We offer 27-inch lengths with high or shawl collars at $3.50, $5 and $7.50.

Other lengths up to $12.50.

Choose from grays, cardinals, navys, brown and white.

Women Who Know Buy Embroidered Marquisette Waists Here

An unrivaled showing of the daintiest hand embroidered marquisette waists in this city. An exceptional opportunity presented itself to us and you are the gainer.

Pretty Paris models have been copied for us by a clever New York maker. As a result you will see here, and nowhere else, many lovely waists of fine marquisettes—embroidered in coral, King's blue, Copenhagen blue and the fashionable Bohemian colorings.

Very handsome showings at $3.98, $4.98 and $7.50. Other styles in one of a kind novelties at $12.50 to $25.

Dainty Lawn Waists at $1.50, $1.98 and up to $3.98

Plain or embroidered styles—tucked or tailored effects. Very pretty designs unlike the commonplace. $1.50, $1.98 and up to $3.98.

New Mid-Summer Models in Suits and Coats of Satin, Serge and Mannish Worsteds

Last week we brought on many distinctly new ideas in coats and suits for mid-summer wear. The styles are very attractive and appeal to you instantly because of their desirable individuality. Nevertheless, buying conditions have so favored us that we have been able to mark these newcomers at exceedingly reasonable prices. They range $15.00, $18.50, $22.50 and up to $68.50.

$27.50 and $28.50 Suits at $22.50

$22.50 The new lot of suits which we have marked $22.50 is made up of regular $27.50 and $28.50 garments, and to harmonize the stock we put in many of our own regular $27.50 and $28.50 suits in the same lot at $22.50.

And as if that were not enough, we offer the rest of the broken lines of $18.50 and $22.50 suits at, choice for $14.50. **$14.50**

IS ROOM FOR ALL OF THEM

No American Visitors Will Be Turned Away From London.

Big Hotels All Booked, But That Is Only a Beginning.

London, May 26.—Those Americans who have decided to put off their trip to England this year for fear of being robbed by hotelkeepers and the like had better think again about it. For despite all statements to the contrary, there is going to be plenty of accommodations at reasonable rates in London during the coronation season. Americans seem to have got the idea that such hotels as the Cecil, Savoy, Ritz and Carlton are the only places they can stay in London. It does not follow that because these hotels are fully booked up for some time to come all other places in London are in the same state.

The manager of the Cecil declared that it was silly to think that because the Cecil hotel was full and slightly higher prices for rooms are being charged, everyone will have to pay exorbitant figures at coronation time. He said he knew enough of London to be able to say quite confidently that no one need be afraid of not getting rooms when they wanted them. Other hotel managers corroborated this statement. Some whose hotels are full asked me to state that though they are not taking any more bookings there are always a number of chance vacancies in big hotels and visitors should apply for these on the morning of their arrival in town.

Plenty of Room.

Still even if every one of the big hotels is full all through the summer there is plenty of room in London for everyone. London does not mean one small district. It means a vast area stretching from the Crystal palace in the south to Highgate in the north about 118 square miles in all. All that area assimilates extra population as easily as a sponge does water. Just take, for instance, some of the West end districts. In Bloomsbury alone enough high-class boarding houses are to be found to accommodate thousands of people. In other neighborhoods also hundreds of private hotels are busily making preparation for large numbers of people of all classes. There are the huge and pleasant suburbs on all sides of the town where the same preparations are being made.

A number of furnished houses are also going to be available for short or long periods. A canvass of all the principal agencies for furnished places was made a day or two ago and in every place I was told the same thing. Prices are probably going to be slightly in excess of those charged in ordinary years, but still nowhere will prices be unreasonable. Some of the agents even thought that their charges were not going to be above the ordinary because such an extraordinary number of places will be on the market this year.

Good Traveling Facilities.

Another point which should be emphasized is that traveling facilities will be good and fares will not be raised at all. London is now so well linked up by a network of electric railways, underground, street railways, motor omnibus routes, etc., that it is possible to get quickly and cheaply to anywhere. Of course, when June approaches, special facilities will be provided so there will be no lack of means of getting about at any time of the day or night.

A number of cheap seats are being offered to view the coronation procession, and as there are going to be two extra processions, one through the east of London and one through the north, everyone will have ample opportunity to see the royal progress.

FIERY TAIL OF HALLEY'S COMET

Is Near Mother Earth, Causing Heat, Says Prof. Whitman.

Cleveland, Ohio, May 26.—According to a theory advanced by Prof. F. P. Whitman, who holds the chair of astronomy at Western Reserve university, the recent visit of Halley's comet may have something to do with the present heat wave which stretches across the country.

While Prof. Whitman refused to discuss his theory for publication, from what he said in class it is, that part of the comet's red-hot fiery tail is cavorting about somewhere near mother earth and has increased the temperature abnormally all over the world.

Just what caused the wanderer's caudal appendage to break away and chase around in this section of the celestial regions in so undignified a way he did not explain. Neither did he say just where he thinks the tail is to visit the earth.

The professor declared, however, that there is good reason to suppose that the increase in temperature is directly traceable to a wandering bit of the comet's tail.

TIZ—For Tender Feet

A new, scientific medical toilet tablet which

Draws Out All Inflammation and Soreness.

Smaller Shoes Can Be Worn by using TIZ, because it puts and keeps the feet in perfect condition.

TIZ is for sale at all druggists, 25 cents per box or direct if you wish from Walter Luther Dodge & Co., Chicago, Ill.

EVERYBODY OPTIMISTIC

Turn Upward in Business Is Strong, Broad and Sweeping.

Flush and Active Times for This Country Are Predicted.

New York, May 26.—The turn upward in business at last is strong, broad and sweeping, and every one here is striving for position in which to make the most of it.

The advice now heard upon every side in the various branches of business and the different classes of securities is to get in as quickly as possible and stay in until the summit of flood tide is reached.

Of course, the great initial force came from the influence of the United States supreme court decisions in the labor cases and in that of the Standard Oil, and both of them gave strength to investments of capital, not by the freeing of the labor leaders from the jail sentences nor the affirmation of the decree dissolving the Standard Oil Company of New Jersey, but from the clear outlining and striking definition in each of the cases as to what was legal and what was illegal in the operations of labor and of capital and the evident desire of the court to do justice to both. The two decisions rendered upon the same day contain a remarkable similarity of ruling and a direct continuity of the application of the same principles of law runs through them both.

Will Help Industrials.

It is unnecessary in this communication to take this up in detail, but business men here—bankers, financiers, contractors, manufacturers and merchants — consider both of these decisions make for greater stability in business enterprises and greater security in investments, especially those of the classes known as railways and industrials.

Already the stock market records very marked advances in prices—iron and steel products are firmer in anticipation of greater demand very quickly, cotton has gone beyond the record of the year, while copper, dull, stagnant, depressed and partially paralyzed, has suddenly felt rejuvenated and is preparing to do some "stunts" in the very near future.

Several weeks ago I called attention to the statements of returned business men as to the prevailing activities in every country of Europe, and the confidence they expressed as to the broadening of the volume of trade here very soon.

All conditions in the United States denoted a powerful swing upward when the crops results could be fairly predicted and the investment sentiment relieved by removal of imaginary attacks by the courts.

The crop reports scanned with the greatest care up to this writing show greater averages, accompanied by far better percentages of conditions, than are usual at this period of the year.

Wheat is rapidly passing near to actual results in Texas and Oklahoma and June 15, if no disaster intervenes, will assure in those states the largest crops ever harvested of this grain.

Rains reported in the Northwest have greatly improved conditions there.

Cotton is such an exceedingly important factor of business in the United States I feel it right and proper to allude to some features of the cotton situation that I did not cover in my article about cotton last week.

Always Got the Coin.

The cotton manufacturers in this country have made money in every year of this present century, but in this present year they have thought it their business interest to slacken production, hoping to depress the price of the fiber.

We are quite likely to have an unprecedented crop of cotton this year in the United States, but it must be remembered that there exists an unprecedented demand for cotton fabrics.

This may not be in line with the interests of the cotton buyers in the world, but it is right to the profit of the cotton growers and means much to the benefit of general trade in the United States.

Take the statistics available as to cotton manufacture in foreign lands to catch a glimpse of the power of the demand which has forced the price of cotton to its present prices and which is making it more profitable every year for the planter in our Southern states to raise cotton and adding to acreage of the plant to help in producing the supply required by the world. In 1891 the cotton industry in England employed 46,000,000 spindles, in 1910 close to 50,000,000 were in operation. France employed 5,300,000 spindles in 1898, 6,150,000 in 1903 and nearly 8,000,000 in 1910.

In the United States fully 400 cotton mills have been erected since 1900, and the number of spindles employed in 1909 was nearly double that of 1890.

Germany has increased her exports of cotton goods by 30 per cent since 1900, Belgium 20 per cent, Italy in 1887 exported but 620,000 kilos of cotton goods, but in 1900 this was increased to 12,350,000 kilos, each kilo being equivalent to two and one-fifth pounds. Japan in 1895 possessed but 518,000 spindles, in 1902 1,460,000 and in 1909 approximately 2,500,000 in use.

The great bulk of the cotton that enters into the manufacture of cotton by all these nations, comes from the United States. One can now understand why a normal cotton crop of the past years cannot supply the world's demand, and even a record-breaking crop can scarcely keep the impatient spindles supplied with the fiber.

The cotton crop of Texas last year was 3,071,000 bales and this year it can be confidently said the average is increased fully 8 per cent, and so far crop conditions are even better than last year.

Demand Always Great.

The cotton crop of the Southern states was above 12,500,000 bales last year, but if it had been 14,000,000 bales the demand of the nations would have taken it all at about the same price as was paid.

The planters are no longer in the hands of the money-lenders of the South, as they were for half a century, and their independent financial status enables them to sell their cotton at the time of their judgment, rather than necessity dictates.

This cotton situation could not be more favorable for the Southern people, and the incoming millions of dollars in foreign gold next fall and winter will go far toward making the business of the entire Union very good. The tone of the financial articles in all the leading papers of this city reflect the complete change of sentiment of the Street in the past five days.

In every column there is optimism now where for months there was uncertainty, doubt and dark, blue pessimism.

The railway groups, the industrials, the mining promotions are all in evidence now with pleasing figures as to earnings and prospective statistics as to what they can do under the better times.

They have already captured the investing sentiment of this country, and the orders from London, Paris, Berlin, Amsterdam and Frankfort are quite large, showing that the enthusiasm here has already had influence across the ocean.

The foreigners for two years past have had no lack of faith in our business success, but many leading operators abroad have been puzzled by the timidity and supercautiousness of many of our active men here.

Money in London and Paris is being loaned at 2½ per cent per annum upon three months' paper, and with tremendous reserves in the banks and the millions of new gold arriving every week from the mines with the regularity of clockwork, it seems to be a certainty that during the summer and the fall, European demand for our securities will be beyond any investment movement ever made with us heretofore.

Crops, securities and manufactured articles going abroad by the hundreds of millions of dollars in value every month surely means flush and active times for the population of this country.

Would You Gain a Pound

A Week for Three Months?

Then begin talking regularly three grain hypo-nuclane tablets, which are made from a health-germ of ordinary yeast and combined with hypophosphites and an absorptive phosphorus.

Physicians and chemists assert that this tablet is very largely used for increasing the weight and improving the nervous system because of its aid to digestion, assimilation and absorption. The food elements which go to make blood and solid tissue is retained when this treatment is regularly used for several months. Most physicians and apothecary shops supply them in sealed packages.

Pain-Away-Pills relieve headache and periodical pains. All druggists sell them.

PERHAPS IT WAS WOODEN.

Thief Removes $550 From Woman's Leg Without Waking Her.

Kalamazoo, Mich., May 26.—Mrs. Frances Taneda reported to the police that a burglar entered her room during the night and stole $550 from a pocketbook tied around her leg while she slept. She had drawn her stocking over the purse, she said, but the thief removed it without waking her.

IS DEAD BROKE; LOST FORTUNE

Former Mayor Schmitz of Frisco Is Stranded in Mexico.

San Francisco, Cal., May 26.—Dead broke, his large fortune, estimated at nearly half a million, dissipated through bad mining and business ventures, Former Mayor Schmitz, who only escaped going to state's prison with Former Boss Abe Ruef through the flimsiest technicality and who is now at liberty on heavy bonds, is stranded in Mexico and in need of money to get him out of the country and back home.

When Schmitz was trying to get out of jail on bail he secured assistance of William J. Dingee, Oakland capitalist. In return Dingee induced Schmitz to invest many thousands of dollars of his wealth in a large cement factory near Santa Cruz, in this state. This company dragged down into ruin when Dingee failed last year and Schmitz lost every cent he had invested in it. Then the mine which Schmitz put considerable money into at Oroville in Butte county pinched out after showing some rich ore.

In despair, Schmitz then started for Sinaloa, Mexico, where his brother is interested in some mines, but a letter was received yesterday by one of his old friends saying that the mine is worthless and that Schmitz is stranded and needs money to get out of the country and reach home.

THROWING BISCUITS

At Teachers During Chapel Services Caused Trouble for Students.

Middletown, Conn., May 26.—Throwing biscuits at the members of the faculty and other disorderly antics of Wesleyan students during chapel service, brought forth from President Shanklin a stinging rebuke to the students and a warning that hereafter they must maintain a more reverent demeanor during devotions.

Of late many of the students have failed to rise during the singing of hymns, while some have talked and otherwise disturbed the services.

President Shanklin personally left the platform, hymn book in hand, and ordered several students to rise and remain standing.

Don't Persecute your Bowels

Cut out cathartics and purgatives. They are brutal—harsh—unnecessary. Try

CARTER'S LITTLE LIVER PILLS

Purely vegetable. Act gently on the liver, eliminate bile, and soothe the delicate membrane of the bowel. Cure Constipation, Biliousness, Sick Headache and Indigestion, as millions know.

Small Pill, Small Dose, Small Price

THE DULUTH HERALD

AN INDEPENDENT NEWSPAPER.

—ESTABLISHED APRIL 9. 1883—

Published every evening except Sunday by

THE HERALD COMPANY,

Herald Building, Opposite Postoffice Square, 422 and 424 West First St., Duluth, Minn.

Entered as second-class matter at the Duluth postoffice under the act of congress of March 3, 1879.

TELEPHONES—Bell and Zenith.
Business Office, 324. Editorial Rooms, 1126.

OFFICIAL PAPER CITY OF DULUTH.

SUBSCRIPTION RATES:

(By mail payable in advance.)

Daily, three months....$1.00 Daily, six months.....$2.00
Daily, one month..... .35 Daily, one year..... 4.00

Saturday Herald, one year.....$1.00
Weekly Herald, one year.....1.00

Remittances may be made by check, postoffice order, registered letter or express order. Make all remittances payable to The Herald company. Give postoffice address in full, including state and county.

BY CARRIER—CITY OR SUBURBS.

Daily, one week.....$ .10
Daily, one month..... .45
Daily, one year..... 5.00

Subscribers will confer a favor on the circulation department by calling 324, either 'phone, and making known any complaint of service.

It is important when desiring the address of your paper changed to give both the old and new addresses.

The Duluth Herald accepts advertising contracts with the distinct guarantee that it has the largest circulation of any newspaper published in Minnesota outside the Twin Cities. Its value as an advertising medium is apparent.

Labor in this country is independent and proud. It has not to ask the patronage of capital, but capital solicits the aid of labor.

Daniel Webster (1824).

REMEMBER REAPPORTIONMENT.

Here's one very good reason why the attendance at the Duluth convention of the Northern Minnesota Development association should be the biggest yet:

At this meeting Northern Minnesota is going to have something to say about the failure of the legislature to provide reapportionment. What it says is likely to be pretty emphatic and plainspoken. There has been a failure of justice and an exhibition of stark selfishness that calls for emphasized plain speaking.

Northern Minnesota doesn't want to have those who are responsible for this denial of justice think it doesn't care and has forgotten. It does care, and it is not going to forget.

But if only a handful of Northern Minnesota people appeared at the convention to join in expressing a protest against this shameful triumph of sordid selfishness over justice, those who killed reapportionment would be able to say: "Oh, well, evidently Northern Minnesota isn't particularly interested anyway."

That is why there ought to be the biggest crowd at the Duluth meeting next week there has been yet. That is why there is going to be the biggest crowd. Northern Minnesota hasn't forgotten. Northern Minnesota is not going to forget. Grossly under-represented, but fully taxed, its wrongs are too great to be endured in silence. Northern Minnesota will be at Duluth in force next Thursday and Friday, and it will voice its protest in unmistakable terms.

CLEAN-UP DAY, JUNE 3.

The shovel, the rake and the broom for Duluth June 3, say Mayor Cullum and Health Commissioner Webster. That's the annual clean-up day, when everybody who hasn't done so is expected to get his house in order for the summer—his house and his grounds and that part of the thoroughfare in front for which he is responsible.

It is a good deal like the sign: "Gents will remove their hats; others will be made to." It's a lot pleasanter to have folks clean up of their own accord, but whether they do or not, they are going to clean up if the authorities have to exert the power the law gives to make them do so.

June 3 is fairly well along in the season, and probably pretty nearly everybody is already cleaned up. Still, there has been a good deal of wet weather to give excuse for delay, and there always are a lot of people who find it easy to delay from day to day. There is plenty to do, and, weather permitting, June 3 will be a good time to do it.

Duluth is going to have a lot of visitors this summer. It has lots of visitors every summer, but there are more every year. There is to be a water carnival in July that will bring thousands here, and though just to feel comfortable and neat is reason enough for cleaning up, the expectation of visitors should induce everybody to fall in line, even those who can, on a pinch, get along comfortably in the midst of dirt and disorder.

FLAG DAY, JUNE 14.

Wednesday, June 14, will be the one hundred and thirty-fourth anniversary of the Stars and Stripes, and in accordance with the custom of the past fourteen years, the occasion will be more or less desultorily observed.

It ought to be observed pretty closely. It is a fine idea to set apart a day in the year to thought of the flag and of the glories it represents, and while it isn't necessary to make a legal holiday of it, at least the flags should be brought out and flung to the breezes from housetop and flagstaff and porch front in commemoration of the flag's birthday.

On June 14, 1777, congress made the following enactment: "That the flag of the thirteen United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new constellation."

The number of the stripes having been increased by the admission of new states, it began to dawn on the fathers of the republic that such developments might be in store for the republic that it would be awkward to represent the number of states by stripes, so on April 4, 1818, the original thirteen stripes were unchangeably restored by the following act: "That from and after the fourth day of July next, the flag of the United States be thirteen horizontal stripes, alternate red and white; that the union be twenty stars, white in a blue field, and that on the admission of a new state into the Union, one star be added to the union of the flag; and such addition shall take effect on the fourth day of July next succeeding such admission."

The stars in the flag, once thirteen, are now forty-six, and when congress gets through worrying Arizona and New Mexico, they will be forty-eight. Except by division of existing states, there is not likely to be any more states; so that in all probability the flag as it will stand when the stars for New Mexico and Arizona are added will be the flag of the United States for many years to come.

The custom is for the president, governors of states and mayors of cities to proclaim Flag day and to urge its observance. Where schools are still in session—though no school should be in session so late as June 14—it is the custom to have exercises calculated to inspire the pupils with the patriotic spirit.

The American Flag association, an organization of individuals and flag committees from patriotic societies in the United States, has taken the lead in the observance of Flag day. It was formed in 1897, to "promote reverence for and prevent the desecration of the flag of our country," and besides prosecuting those who use the flag for improper purposes, such as advertising, it brings Flag day to the attention of executive officers, and the press and the public.

Its appeal this year is as follows: "We respectfully appeal to the president of the United States, to the governors of all the states of our land, and to the mayors of each American city, to herald the coming and celebration of Flag day by proclamation; we call upon every public officer, every teacher of the youth of our country, the editors of all newspapers, the daily instructors of the youth of our land, to call public attention, to arouse enthusiasm and to provide for public exercises and general celebration of the day.

"We earnestly exhort our citizens to join in making Flag day an event, and its celebration in 1911 a great event. Let us, from one end of the land to the other, fling the Stars and Stripes to the breeze on June 14, 1911. May it greet the rising and salute the setting sun, and float all day long from every church edifice, school and building, public and private and however humble, through the entire land."

COURT-MADE LAW.

Justice Harlan, dissenting alone from the supreme court's oil trust decision, says that the majority read into the anti-trust law a qualification of the prohibited restraint of trade which congress never intended, and that this practice of the courts of usurping the province of the legislative branch is "mischievous."

Whether the supreme court really has amended the law depends on your opinion as to what congress was trying to do. If it was trying to apply to interstate commerce the common law prohibitions of unreasonable interference with competition which were in effect in the states but not in the nation, the court did not amend the law, but interpreted it. If congress intended to prohibit any kind of combination tending to destroy competition, then the court has amended the law.

Yet had the majority ruling been in accord with Justice Harlan's ideas, dire calamity would have followed. Practically every business enterprise of size would have been outlawed. Panic would have been practically inevitable. Justice Harlan's views have many adherents in the country. Mr. Bryan is one. Mr. La Follette is another. In the supreme court these views represented a proportion of one to eight. In the nation the disparity is not so great, but we believe it exists.

So far as Justice Harlan's criticism is concerned, however, the courts are actually repealing laws every day, and Justice Harlan has concurred in decisions repealing them. That, too, is mischievous in the minds of many.

REMEMBER POOR DOG TRAY.

Northwestern opponents of Canadian reciprocity are bidden to contemplate the platform of the National Lumber Manufacturers' association, adopted in Chicago yesterday. It will show them what sort of company they are training in, and it possibly may lead them to question seriously the righteousness of their own cause.

The lumber association—which is the lumber trust, if there is one—protested against any reduction in the lumber tariff and against the Canadian reciprocity treaty, and it urged the adoption of a ship subsidy law.

Do the farmers of the Northwest wish to make common cause with Mr. Hines's association, with a body which advocates a lumber tariff tax that burdens every consumer, with a body that advocates taxing the people to subsidize a shipping industry which the tariff has destroyed?

A REFRESHING REVERSAL.

Every man connected with a public service of any kind, whether it is under public or private control or ownership, is familiar with the kicker. The kicker he has always with him, and while probably he is irritating at times, his service is useful, and the world would be worse without him.

But did it ever occur to you, amiable and warm-hearted reader, that while it is perfectly proper to kick and to kick hard when occasion demands it, justice requires that on the other hand when you are pleased with the work and attitude of a public servant, whether he is employed by the public or by a public service corporation, you should tell his superiors about it?

That is not only a pleasant and a pretty thing to do, the doing of which will give you satisfaction, but it will help the man you praise with his superiors, will encourage him to continue his good work, and will incite others about him to do the same.

If a man whose business it is to serve the public is rude to you or neglectful of his duties, his superiors ought to know about it, and you should tell them.

But if you find such a man uniformly courteous and alacritous to serve you, isn't it equally true that you ought to tell his superiors about that, too, so that they may know which of their men should be promoted and kept, and which reprimanded or discharged?

It is a curious thing that while many people like to complain of such things, comparatively few bother to write into headquarters with their complaints, though such communications are usually received thankfully and investigated thoroughly.

It is still more curious that while the majority of public servants give satisfactory service, hardly anybody ever thinks to write in to headquarters to tell about it when they are pleased with the treatment they have had from a street car conductor, a ticket agent, a fireman, a policeman, a baggage master or other public or quasi-public servant.

The other day the president of a New York woman's club encountered two street car conductors who were more than ordinarily polite and obliging. She was so gratified with the incident that she sat down and wrote to the general manager of the company about it. She received a reply in which the general manager thanked her, said that such a letter as hers meant advancement for the men, and added that he was sorry he did not get more such letters.

This led to a discussion of the affair at the next meeting of the club of which this good woman is president, and the adoption of a resolution that all members shall make it a point to observe the conductors and to commend to the approval of the company those who are gracious.

Those in charge of public service of all kinds know that they can succeed best and succeed only by meeting the needs and satisfying the wishes of the public. One way of knowing whether they are doing this or not is through finding out what the public thinks about it. Wise managers of such concerns value and appreciate letters from their patrons informing them wherein their service lacks; and if they got more of them doubtless they would appreciate letters telling them wherein their service and servitors please.

Certainly it is nothing but fair to balance your occasional complaint with a word of praise where it is deserved.

DULUTH DOES IT BETTER

By the CARNIVAL PUBLICITY COMMITTEE.

It is interesting to note in connection with the mid-summer water carnival that one of the factors that determined whether the Northwestern rowing regatta should be held here or at one of the other cities represented by rowing clubs was the fact that many of the Canadian oarsmen were very anxious to have an opportunity to see a race between the young women's war canoe crews.

The Canadians are able critics in matters pertaining to outdoor sports, and someone had brought the news to them that this was an event worthy of their best attention.

This suggests a valuable point in regard to the coming celebration, the importance of which is not easily overestimated: that Duluth is going to have a splendid chance to exhibit to its friends and neighbors certain things outside of industry and commerce which are done better here than anywhere else in the country.

Take, for instance, the promised exhibition of our naval reserve companies. Here is something that Duluth does better than anyone else on the Great Lakes. To demonstrate that to 25,000 visitors is a big thing for the city.

Strangers take an unusual interest in local specialties like this and give willing and generous applause to the town that produces them.

It is human nature to magnify the excellence of something that one took a journey and spent money to see, and our home-returning visitors will "brag" long and loud about the smart sailor men and expert girl canoeists and the wonderful night spectacles of this year's carnival.

Whatever "slogan" we may adopt for the city in the future, that of our visitors will be "Duluth does it better."

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest. Letters should not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.)

"DO IT FOR DULUTH." "LET GLASGOW FLOURISH."

To the Editor of The Herald:

"Gie yer ain fish guts tae yer ain seamaws."—Rob Roy.

In your last night's issue the new management of the Glass Block store has a very commendable article, under the heading of "Do It For Duluth." The whole article as far as it goes bristles with "Do It For Duluthians." Let every Duluthian take up the war cry "Do It For Duluth." Let every citizen of Duluth talk it, act it, and live up to it. As the Glass Block store's new management has brought it prominently before the public by talking and advertising it, let me suggest that they not only talk and advertise it, but live up to it. When you do this, competitors cannot accuse you of making the war cry "Do It For Duluth" an appeal for trade; otherwise they might, and people might believe it.

Instead of spending thousands of dollars yearly to swell the coffers of the merchants of New York, Chicago and other cities, spend your money in Duluth.

Be able to point your finger to your Duluth tailor, your Duluth shirt maker, and so on along the line. Let your wives be able to point their fingers to their Duluth dressmakers, their Duluth milliners, etc.

When you do this you will accomplish something. Practical people then cannot impute to you, selfish motives. Keep up the good work, gentlemen. Go to the end of the road; don't stop before you are half way. The last half is the half that counts—that's the goal. SCOTSMAN.

Duluth, May 25.

The Turning of the Tide.

Christian Science Monitor: Time was when a high percentage of administrators of universities and colleges west of the Alleghenies were men trained in New England and, in many cases, also natives of that section. That was inevitable in view of the seniority of the foundations at Harvard, Yale, Dartmouth and other well-known colleges, and as a result of the emphasis which New England always has put upon education as a servant of democracy and of sound ideals of life. She formerly bred not only the men and women who were to man her own centers of learning, but she sent forth to California men like Gilman and Kellogg, to Colorado a Slocum, to Minnesota a Northrop, to Michigan an Angell, and a host of less-known but equally competent presidents and professors. Nor has she wholly ceased to provide recruits for regions beyond. Witness the recent choice of Prof. Foster of Bowdoin college for the presidency of a newly endowed college in Oregon, which bids fair to be one of the most interesting educational experiments in the country, since he was given complete authority to shape its type from the beginning.

It is not the relative sterility of contemporary New England in producing educational administrators for regions beyond that is attracting attention now, as much as it is the tendency of trustees of her educational institutions to find presidents without New England. Smith college is a not-too-recent example. A few weeks ago Boston university announced the election of a man born and trained in the West. Now the University of Vermont makes known that its affairs are to be shaped by a native of Ohio, whose labors have been in that state and in Kansas and Iowa. These cases are typical for the University of Maine also has recently installed a native of Indiana with his professional training all acquired in the Middle West. Wesleyan is now under the control of a native of Missouri and a product of the Middle West. Dartmouth, that never had known other than Puritan-bred divines as presidents, is now led by a layman, who is a native of Kansas, of whose formal education none was acquired in New England. The Massachusetts Institute of Technology has for its new leader a native of Scotland, trained in New Zealand and in England. And most significant of all, in many ways, is the election a year or two ago to the post of superintendent of Massachusetts' public school system, made famous for all time by the pioneer labors of Horace Mann, of a native of California, educated there and at Columbia university, and in no way connected with New England by ties other than those of intellectual appreciation of her contributions to national life. When Yale and Harvard at comparatively recent dates chose their presidents, they kept to the innermost circle of choice and selected men who were the product of local environment. But the choice has been otherwise with most New England institutions of learning of late years, and it is a record that is not easy of explanation by those who insist that complacent sectional self-satisfaction still characterizes New Englanders.

A Smack in School.

A district school not far away
'Mid Berkshire Hills, one winter's day,
Was humming with its wonted noise
Of three score mingled girls and boys;
Some few upon their tasks intent,
But more on furtive mischief bent,
The while the master's downward look
Was fastened on a copybook;
When suddenly behind his back,
Rose sharp and clear a rousing smack!
As 'twere a battery of bliss
Let off in one tremendous kiss!
"What's that?" the startled master cries;
"That, Thir," a little imp replies,
"Wath William Willith, if you pleathe—
I thaw him kith Thuthanna Peathe!"
With frown to make a statue thrill,
The master thundered, "Hither, Will!"
Like wretch o'ertaken in his track,
With stolen chattels on his back,
Will hung his head in fear and shame,
And to the awful presence came—
A great, green, bashful simpleton,
The butt of all good-natured fun.
With smile suppressed, and birch uplifted raised,
The threatener faltered, "I'm amazed
That you, my biggest pupil, should
Be guilty of an act so rude!
Before the whole set school to boot—
What evil genius put you to it?"
"'Twas she herself, Sir," sobbed the lad,
"I did not mean to be so bad;
But Susanna shook her curls,
And whispered I was 'fraid of girls
And dursn't kiss a baby's doll.
I couldn't stand it, sir, at all,
But up and kissed her on the spot.
I know—boo-hoo—I ought to not,
But, somehow, from her looks—boo-hoo—
I thought she kind o' wished me to!"
—William Pitt Palmer.

DULUTH, JUNE 1 AND 2.

Come Yourself, Bob.

Princeton Union: Another meeting or convention of the Northern Minnesota Development association is to be held at Duluth on June 1 and 2. It is the intention to make the Duluth convention the biggest and best yet held by the association. The preliminary program announces a long array of speakers of state and national prominence, and the topics are interesting and pertinent not only to Northern Minnesota but to the entire state. That the convention will be fruitful of results and productive of much good can not be doubted. It is needless to add that Duluth has ample hotel accommodations, its citizens are noted for their generous hospitality and delight in making visitors feel "at home." Mille Lacs county should be well represented at the Duluth convention.

The Glad Hand For all.

Elk River Star-News: The Northern Minnesota Development association will meet at Duluth June 1 and 2, and indications are that it will be a booster meeting of great enthusiasm. An attractive program has been prepared and Duluth will give all visitors the glad hand.

Great Interest Shown.

Wahkon Enterprise: Great interest is being manifested in the coming meeting of the Northern Minnesota Development association, to be held at Duluth June 1 and 2.

Will Make Things Hum.

Barnesville Record Review: The Northern Minnesota Development association convenes at Duluth June 1 and 2. The Zenith City will make things hum when it comes down to a meeting of this kind.

That's the Idea.

Warroad Pilot-Leader: It is hoped the Duluth meeting of the Development association, being far removed from any political event, will put its biggest efforts into discovering ways of getting actual settlers into Northern Minnesota.

Boost for Minnesota.

Northfield (Rice county) News: Boost for Minnesota—not Northern Minnesota, mark you—is the slogan adopted by the Northern Minnesota Development association in its advertising campaign preliminary to the Duluth convention to be held June 1 and 2. That there are some live wires in charge of the publicity department of the association is evident from its appeal and preachment, to which The News is glad to accord space.

The Right Spirit.

Montevideo (Chippewa county) Commercial: The Northern Minnesota Development association, organized at Bemidji, Feb. 18, 1910, will hold its convention at Duluth, June 1 and 2, 1911. A strong program has been prepared with a number of able speakers who will deliver addresses on such subjects as "State Development," "Federal Lands in Minnesota," "Conserving Soil Fertility," "Newspaper Boosting" and other kindred subjects. Northern Minnesota is the Land of Promise to many thousands who are seeking homes for themselves and families. Let us help direct their attention to that section of out state.

Pointers on Boosting.

Caledonia (Houston county) Journal: A "Minnesota Boost" convention will be held at Duluth June 1 and 2. It would be time and money well spent for anyone with progressive tendencies to go to this convention and get pointers on genuine "boosting." Duluth is a live and interesting city with hospitable people and good hotel accommodations at reasonable rates.

Abandoning Alcohol.

Des Moines Register and Leader: It was brought out at the recent meeting of the America Therapeutic society that alcohol, except for the purpose of bathing, has been practically abandoned as a medicinal agent and it is likely to be left out of all official formulae in the Pharmacopaeia.

Dr. Wiley in his annual address before the society, after refusing to express an opinion against a moderate use of wine or beer as a beverage, said:

No one would think of giving a man alcohol today if he had to meet extremes of heat or cold or fatigue. It was formerly supposed to be a panacea in such cases. Today it is known to be detrimental. No one would give alcohol to one engaging in athletic feats or about to run a marathon.

This marks a notable change in scientific opinion in very recent years, and shows how rapidly long-established notions are being exploded in these days of investigation and careful observation.

If any one idea has prevailed more than another on the frontier it has been the sovereign power of alcohol as a protector against cold, and as a stimulant in cases of fatigue. The scientific world has exploded it, and the nonscientific world will gradually assimilate the scientific verdict.

With alcohol gone as a medicinal agent the excuse for its use as a beverage will be largely gone also. If alcohol has no permanently beneficial effect there is nothing to be said further than that it gives a temporary buoyancy of spirits, and that so readily develops into a plain case of being drunk that the end does not justify the means.

Honor to Whom Honor Is Due.

St. Cloud Times (Dem.): The reception committee for the Democratic "get-together" gathering at St. Paul on June 1, as appointed on Saturday, consists of fifteen members, five from the Twin Cities and nine from the state at large. Of the latter four are senators who violated the last Democratic state platform and the Constitution of Minnesota by voting against reapportionment, and who disregarded the last Democratic national platform by making no effort to pass in the senate the proposition to ratify the income tax amendment to the federal Constitution. Here are the "reactionaries":

T. E. Cashman, Owatonna.
H. F. Weis, Le Sueur.
S. D. Works, Mankato.
Albert Schaller, Hastings.

It would seem that in honoring Democrats of the state those who have not violated party platforms and state Constitution have been selected. We decline to be "received" by such Democrats.

What You Make It.

Montaigne: Life in itself is neither good nor evil; it is the scene of good or evil, as you make it; and if you have lived a long day, you have seen all. One day is equal and like all other days; there is no other light, no other night. This very sun, this moon, these very stars, this very order and revolution of things, are all the same your ancestors enjoyed, and that shall also entertain your posterity.

TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1891.

•••General Manager Fisher of the Duluth & Winnipeg road, arrived from the East last night, accompanied by several officials. He was feeling particularly happy over the fact that the road would not suspend its building operations for the year when the short line between Duluth and the present end of the track at Cloquet was completed "We will build northwest from Grand Rapids, thirty miles at least," he said.

•••At the meeting of the city council last night, ordinances were introduced changing the name of Bench street to Superior street and making Superior street east of Eighth avenue east, London road.

•••C. C. Salter has sold his drug business at West Duluth to Messrs. Rockwell and Short, and William Short, a former partner of Mr. Salter, will manage the business.

•••C. Hardy of Duluth has opened a real estate office in the Sun building on Central avenue, West Duluth.

•••Rev. T. J. Volentine will sever his connection with the Unitarian society in Duluth on July 1. There are several applicants for the position.

•••Miss Clara Thompson has gone to Port Arthur to attend the wedding of Miss Fannie Merrill.

•••Will Salter is expected on the steamer China from New York, where he has been studying medicine.

•••Chester A. Congdon, ex-district attorney of the United States, is up from St. Paul. Mr. Congdon is seriously considering the idea of residing in Duluth.

•••Thomas Jamieson, assistant manager of the United States Express company in Duluth, will leave for Ashland in a few days to accept the management for the company at that point.

•••E. D. Nelson, cashier of the First National bank at Ironwood, Mich., is in Duluth to examine our electric system, as Ironwood is to have an electric railway of its own. F. S. Wardwell of this city will act as purchasing agent.

•••The many friends of Dan Palmer, for the past two years night clerk at the Spalding and some time previous to that assistant clerk at the St. Louis, will be pleased to learn that he today assumes the head clerkship at the Hotel West Superior.

•••James McClenaghan of Duluth, Charles E. Lewis of Minneapolis, and John S. Wilson of Duluth were today elected members of the Duluth Board of Trade.

•••Leonard S. Swanson returned today from Chicago, where he went to attend a reunion of the Deocian Charities.

A MOMENT WITH THE WITS.

Exchange: Morrow—It makes me very uneasy if I owe a dollar to any one.

Borrow—Great Scott! If I felt that way about it I'd have St. Vitus dance.

Washington Herald: "Serve the champagne in tin cups, Oscar," directed the owner of the bungalow.

"Very good sir."

"These hunting parties like to rough it a trifle."

Yale Record: "I hate this commuting."

"Why?"

"One gets so tired of being squeezed out of a tube like tooth paste."

Journal Amusant: She—I would like that lovely pearl necklace. Look what beauties they are.

He—It's better not to have such large pearls, my dear. People always think they are false.

Houston Post: "He is hard-hearted; whenever he runs any one down with his auto he speeds up and leaves them."

"That's because he's tender-hearted. It breaks his heart to hear their groans of pain."

Puck: Mrs. Frost—And was your daughter's experience as a hospital nurse a success?

Mrs. Snow—Yes, indeed. She was at the hospital only two days when they dismissed her, but in those forty-eight hours she had met six perfectly lovely young doctors.

London Opinion: Doctor (who has just mislaid packet with red label)—Good heavens! did you taste anything peculiar about that last dose I gave you?

Louisville Courier-Journal: "That fellow is a source of great uneasiness to me. He may be worthy, but I wish he would keep away from my house."

"Courting your daughter, is he?"

"Naw, he's courting my cook."

Washington Star: "What a brilliant marriage," said the genial lady. "He is worth several millions and she will inherit at least a billion."

"Would you call that a marriage," inquired Miss Cayenne, " or a merger?"

Washington Star: "When I got through with my remarks," said one lawyer, "the jury was in tears."

"Yes," replied the other; "they probably realized then that your poor client hasn't a chance in the world."

The Final Variations.

I.

This pretty girl of long ago was sweet and she was coy. Quite like a girl she bore herself and never like a boy. She was a thing of beauty & a fond, mysterious joy.

II.

But soon the dream was broken, boys. It was a sad, sad blow to find our pretty maiden in a gown that hung just so.

III.

The mystery gets darker, for they say our sweet Melisse will prompt come striding down the way and in a rig like this.

—New York Sun.

Pointed Paragraphs.

Chicago News: Every woman is a law unto her husband.

Oh, liberty! How many are unmarried in thy name!

Love and hate always remember; only indifference forgets.

While trying to drown his troubles many a man catches at a straw.

Attempting to clip the wings of riches has landed many a man in jail.

Self-praise is almost as valuable as other things you get for nothing.

Many a man has made a good bluff by looking wise and keeping his face closed.

It takes an amateur photographer to convince a woman that truth is more terrible than fiction.

Every girl believes herself a sure cure for inebriety until after she has tried marrying a man to reform him.

Our idea of a woman with wonderful self control is one who never buys anything at a bargain sale that she doesn't want.

Reflections of a Bachelor.

New York Press: A little success makes a big head.

A man will run up bills on his expectations, but won't pay even on his realizations.

People need the government and the weather to blame for their affairs not going right.

It's the man who snores like a fog horn that gets indignant with his wife for being restless in bed.

A husband's excuse that seems fine and healthy downtown looks pale and sickly when he gets home with it.

And a Good Job, Too.

Pink 'Un: Returning to the club after a week or two in the country, the old member looked around the dining room for his own particular waiter.

"Where's James?" he asked the steward. "Not defunct, I hope."

"That's just wot 'e was done, sir," replied the steward, "with every blessed thing 'e could lay 'is 'ands on."

WHY THE OLD GUARD FATTENS.

New York World: The painful suspicion that Republican insurgency in the United States senate lost its courage if not its brain power when Mr. Dolliver died is strengthened almost daily. The independents refuse to vote for Senator Gallinger for president pro tem, not because he is a leader of the remnant of the old guard, but because he was selected for the place at a secret caucus. By this unworthy method they hope to preserve their party regularity and maintain a pretense of revolt.

In Dolliver's day insurgency meant business. The last speech he delivered in the senate was a defiance to all the interests which had his party organization by the throat. "I intend to fight them without fear," he said, "and I do not care what my political fate may be." This was insurgency that had a right to be called progressive.

Largely owing to Dolliver's boldness, the people increased the number of senatorial insurgents from seven to thirteen in the present congress. Last year, when they were powerless, they were supposed to be of Dolliver's mind. This year, when by co-operating with the enlarged Democratic membership they can control the situation, they quibble about a secret caucus and palter over Canadian reciprocity—the first telling blow that has been aimed at the very interests which Dolliver denounced.

The old guard grows fat and prosperous on "opposition" of this kind. It is party regularity which has made it powerful. It is party regularity which in every tight place has rescued it and at the turn of every sharp corner has supported it.

Where the Fire Was.

London Chronicle: Sleeping during the sermon is a poor compliment to the preacher, but it is not often that the man in the pulpit turns the occasion to such effective use as did John Wesley. The apostle of Methodism was preaching, while many of his hearers slept. Suddenly he startled them by a loud cry of "Fire! Fire!" There was a momentary panic among the congregation and a man cried out, "Where, sir? Where?" "In hell," the preacher replied, "for those who sleep under the preaching of the Word."

Easy Money.

Metropolitan Magazine: Veering trotted blithely to business. He had arisen before daylight and worked two hours at clearing up the yard around his house. The thought of the pleasant surprise awaiting his wife brought forth a chuckle.

At luncheon Mrs. Veering remarked: "That man did his work remarkably well."

"W-what man?" gasped Veering.

"The man you engaged to clear away the rubbish in the yard. He was just finishing when I came down this morning and I gave him a dollar."

SENATE MAY TURN OVER

Apparently Good Opportunity for Democrats to Get Control.

Analysis of Situation in All States—Lively Contests Ahead.

Boston, Mass., May 26.—The Washington correspondent of the Transcript says: The claim of the Democrats that they will control the senate of the sixty-third congress, which will convenue in 1913, would appear to be fairly well justified, judging by a study of political conditions throughout the country. The full senate consists of ninety-two members, of whom forty-seven are a majority, or forty-six if the deciding vote of the vice president in the case of a tie is to be counted. The present senate consists of forty-two Democrats (counting as filled the Democratic vacancy in Colorado) and fifty Republicans, including the progressives as such. Obviously, therefore, the Democrats need to gain only four votes, or five at the most, to win a majority.

The terms of thirty-one senators will expire March 3, 1913. Of these thirteen are Democrats, all of whom either will be re-elected or succeeded by Democrats. One possible exception exists in the case of Clarence W. Watson of West Virginia, whose legislature may be Republican in 1913 and may not. From one point of view, to be explained later, the question of control of the senate may turn on whether West Virginia sends the Democratic senator to the sixty-third congress.

Bailey's Troubles in Texas.

Bacon of Georgia, Bankhead of Alabama, Murphy of Louisiana and Percy of Mississippi appear to be reasonably sure of re-election. Bailey of Texas will have a real contest on his hands, waged on the same lines as that of four years ago relating to his alleged connection with a Waters-Pierce Oil company. Bailey's enemies in Texas are vigorous and unrelenting, as he is himself, and the orator of the senate does not expect his return to be a walkover. Representative Choice B. Randall already has formally announced his own candidacy against Bailey. But Bailey has his tariff on straight, so to speak, as far as Texas is concerned, and as he is the ranking Democrat on the committee on finance and no doubt would succeed to the chairmanship in case of a Democratic overturn, Texas may not feel like withdrawing him. Jeff Davis of Arkansas may be succeeded by Governor Donaghey, who, although he lost his temper and said some foolish things over the launching of the Arkansas, is understood in Washington to be an able and progressive citizen. Mr. Davis came to the senate with the avowed purpose of making the trusts take to the woods, but most of them have continued in business since his arrival.

Martin and Owen Not Sure.

Murphy J. Foster of Louisiana is, like Chief Justice White, a Republican in everything but name, but Louisiana wants that kind of representation owing to her sugar interests, and Mr. Foster fills the bill admirably. Martin of Virginia, the Democratic leader of the senate, will have the contest of his lige against Representative William A. Jones, who is as progressive as Martin is reactionary, hence neither the Democratic complexion of the senate nor the quality of Virginian representation will suffer if Mr. Jones wins.

Owen of Oklahoma must work hard to get back, notwithstanding that he is among the top-notchers as a progressive and is certain to rank among the leaders in the time of Democratic ascendency. Ex-Governor Charles N. Haskell has his eye on Owen's seat and many people support him, notwithstanding the charges brought against him during his term of office. Paynter of Kentucky may be succeeded by Ollie James of the house, and Simmons of North Carolina must contend with Governor William W. Kitchin, who probably is more popular than Simmons and has not been compelled to vote for duties on raw materials while representing a Democratic constituency.

Tillman May Not Return.

Robert L. Taylor of Tennesse may find it easier to retire than to win, judging by his recent unsuccessful candidacy for re-election, owing to continued ill health, but the Palmetto state can hardly be conceived as willing to send anyone else should Tillman desire or be able to return. As already stated, the future of Senator Watson of West Virginia cannot be forecast accurately.

Republican Situation Interesting.

Conditions in states now represented by Republicans are much more interesting. Borah of Idaho is unquestionably a coming man, one of the ablest of the progressives and a good lawyer, who makes an impression on the senate whenever he speaks and is generally classed as a future leader. Unless the Mormon church, for reasons of its own, sees fit to oppose him, Mr. Borah will come back. Bourne of Oregon is scheduled for return, as far as any one knows, and although he has no personal influence whatever upon the great body of his associates in the upper branch, his important position as chairman of postoffices and post roads and his place on the appropriation committee will not injure him in the estimation of the people at home.

Perhaps Woodrow Wilson.

Briggs of New Jersey appears likely to be followed by a Democrat, perhaps Woodrow Wilson, if that gentleman fails to achieve the nomination for the presidency—but the signs indicate his success just now. Senator Briggs is a faithful servitor of the old guard and has not much more to recommend him as a legislator. Norris Brown of Nebraska, a popular and progressive senator, probably will suffer the fate of all Republican candidates before Democratic legislatures. There will be hold-overs enough in the Nebraska senate to keep that body Democratic, in all likelihood, and the chances are that in the presidential year the whole state will go Democratic again.

Burnham of New Hampshire probably will have to reckon with the progressive element as represented by gressmen like Governor Robert P. Bass and Winston Churchill. Mr. Burnham came to the senate through the influence of the railroad interests, who opposed the return of William E. Chandler, but the next two years probably will be bad ones for railroad candidates everywhere.

Will Senator Crane Return?

Some of the politicians in Washington are expecting to see W. Murray Crane of Massachusetts displaced by a Democrat, but the Republican contingent would expect to see the end of the world if both branches of the Massachusetts legislature should go Democratic. Some of his friends would not be surprised if Senator Crane should decline to be a candidate for re-election, as the strain of official work is wearing upon him, but there is no authority whatever for saying that he will decline and this thought is tucked in here for future reference.

The politicians predict that Shelby M. Cullom of Illinois is serving his last term; that he will not be a candidate for re-election. He will be 82 years old next November, and although in good health is not robust, hence his voluntary retirement would not be surprising. The anti-Lorimer men predict that should he again be a candidate he would be beaten because of his vote for Lorimer. However that may be, Illinois cannot be absolutely depended upon to elect a Democratic legislature in 1912.

Curtis and Dixon in Danger.

Charles Curtis of Kansas must overcome Governor Walter R. Stubbs if he is to remain in the senate and the politicians do not know whether he can do that. Mr. Curtis is popular and efficient and particularly useful in connection with Indian affairs, but he is not a progressive and the Bristow influence undoubtedly would be against him. Dixon of Montana stands the chance of being defeated by a Democrat on the one hand and by ex-Senator Thomas H. Carter on the other if his legislature is Republican. He is young, vigorous and able, but he is not a blind follower of La Follette, although lined up with the progressive faction. The Democrats are counting also upon the successor to William P. Frye of Maine, on the assumption, as in Massachusetts, that a Democratic legislature will be sitting in the Pine Tree state in 1913. Senator Frye bids fair to serve out his term, but he will be 81 years old next September and 83 when his term expires and it is saying nothing unpleasantly prophetic to declare that his long and useful public career is practically closed.

Democrats Will Gain in Colorado.

For three years, or ever since the insurgent movement began to be recognized as national, his opponents have predicted that Senator Gamble of South Dakota would not come back. For a time Mr. Gamble see-sawed between the Progressives and the old guard but he finally lined up with the regulars and voted for the Aldrich tariff measures and for Lorimer. Representatives Martin and Burke, neither of them progressives, probably will be candidates against him but conditions in this state are so mixed that either a progressive Republican, a Democrat or Mr. Gamble himself may come to the senate in 1913 from South Dakota. Simon Guggenheim of Colorado probably will not be a candidate for re-election and as the state no doubt will continue Democratic, the minority look for a gain there.

Peculiar Conditions in Iowa.

Iowa will be one of the most interesting states in the Union in the presidential election. Senator Cummins, whose term will not expire until 1915, is a tentative candidacy for the presidency, although just now it looks as if this shrewd, progressive leader were willing to step aside and let La Follette of Wisconsin lead a forlorn hope against the Democrats (or the Republican national convention) before trying himself. William S. Kenyon, the new senator from Iowa, probably will have to face ex-Senator Lafayette Young, who served only a few months in succession to Dolliver and became fascinated with life in Washington. Iowa people are saying that Mr. Kenyon will be beaten any way if he votes for Canadian reciprocity and that he will not do so, although at the present writing he is scheduled among the friends of the bill. The same Republicans admit, however, that the Iowa legislature may be Democratic in 1913—which certainly is horrifying news to lay before a Republican constituency.

The writer does not happen to know much of conditions in Delaware, or whether Senator Richardson is listed for a return. Henry A. Du Pont was badly frightened over his own prospects last winter, but Du Pont is a powerful name in Delaware, and the senator's term of office has been extended to 1917. Francis E. Warren of Wyoming, the high priest of standpatters, "the greatest shepherd since Abraham," as Dolliver once called him, is said to have a grip on his state that nothing can shake, while his place as chairman of the committee on appropriations, of course, will appeal to a hungry constituency which now has public buildings in crossroad voting precincts which would do credit to towns of 50,000 inhabitants.

What the Democrats Expect.

Summarizing, the Democrats confidently expect to gain a senator each in New Jersey, Maine, Colorado, Montana and Nebraska. With the Colorado vacancy filled, they would have exactly forty-six votes without that of the vice president, or one less than a floor majority. Should Senator Watson of West Virginia be re-elected they would have a clean majority of the senate and be able to reorganize all its committees and dictates all its business. Generally speaking, the Republicans stand to gain nothing in the forthcoming elections and the Democrats to gain control of the senate. Should West Virginia swing back into the Republican column, the Democrats, outside the group of states just named, still might have a little hope in Illinois and South Dakota. The foregoing analysis shows conclusively that the fight for control of the upper branch between the two great parties will be an exceedingly close one and will rival, in local interest at least, that for the presidency of the United States.

Ailments of Men Happily Overcome

SUCCESSFULLY TRIED BY MANY.

Undoubtedly the following prescription will work wonders for that great class of men who, through dissipation of their natural strength, find themselves in their "second childhood" long before the three score and ten allotted to life's pleasures and enjoyments are reached.

It is presumed to be infallible, and highly efficient in quickly restoring in "nervous exhaustion," weak vitality, melancholia and the functions.

First get fifty cents' worth of compound fluid balmwort in a one-ounce package, and three ounces syrup sarsaparilla compound; take home, mix and let stand two hours; then get one ounce compound essence cardiol and one ounce tincture cadomene compound (not cardamom). Mix all in a six or eight ounce bottle, shake well, and take one teaspoonful after each meal and one when retiring followed by a drink of water.

By mixing it at home no man need be the wiser as to another's shortcomings, and expensive fees are avoided.

Lack of poise and equilibrium in men is a constant source of embarrassment even when the public least suspects it. For the benefit of those who want a restoration to full, bounding health, and all the happiness accompanying it, the above home treatment is given. It contains no opiates or habit-forming drugs whatever. Mix it at home and no one will be the wiser as to your affliction.

VINING, MINN., MAN KILLED IN NORTH DAKOTA.

Ambrose, N. D., May 26.—George Sigred Bradley of this place, fell from the platform of a steam breaking outfit and was instantly killed. Math Thome, the owner of the rig, was the only other party on the machine at the time. They were coming down a hill and Thome was running the engine when he heard a scream, but before the engine was stopped, the two wheels of the plow platform had passed over Bradley's heart. The frame of the platform then kept him from rolling under the plows, but dragged him about fifteen feet. He came here from Vining, Minn., where his parents live.

PRICES ARE ADVANCED

Berries and Most Green Vegetables Are Most Expensive This Week.

Butter, Cheese and Egg Markets Are Reported Very Weak.

Berries and many kinds of green vegetables are higher this week.

Tomatoes and head lettuce have been scarce all week and there are none on the market for tomorrow. Cucumbers, too, are higher. They are selling two for 25 cents. The reason for this is that the imported cucumbers are scarce and the home grown ones are hothouse cucumbers.

Asparagus is selling at 10 cents a bunch. New beets are now 15 cents a bunch—they have been 10—and radishes are 8 cents a bunch. Wax beans are 10 cents a quart, and green onions two bunches for 5 cents. Carrots at 10 cents a bunch; fresh mint at 5 cents a bunch, and cabbage at 5 cents a pound, are all about the same as they have been, and new potatoes are cheaper. They are selling for 50 cents a peck. Pie plant is cheaper and much better this week. It is selling at 7 cents a pound.

Among the fruits, cherries have come in new this week. They are the black California cherries and are priced at 50 cents a pound. Pine apples are a little cheaper this week, being 15 and 20 cents apiece. Grape fruit is 15 cents; oranges are 40 cents a dozen and up; eating apples are $1. a peck, and strawberries are 18 cents a quart. These are the first of the Missouri berries and are not as good as they will be later. The crop is light so far and many have spoiled in shipping, so the price has been raised.

• • •

Prices for dairy products down on Michigan street took another slump in the last week or ten days and are now at an exceedingly low level.

Weakness in the cheese market has been pronounced. Prospects point to a large make. Wisconsin and Illinois pastures are in good condition, and it is likely that the product of cheese factories this year will be the greatest in the history of the country. In the face of a fairly liberal surplus from last season the prospective large make is having a depressing influence on the market. Wisconsin full creams are selling at 13½c a pund, which is the lowest price registered by that description in many weeks. Foreign makes are lower in sympathy. The consumptive demand for cheese is favoring the domestic varieties on account of their cheapness. In order to attract business, receivers have been disposed to make concessions on foreign descriptions.

The butter market is weaker, creameries and dairies being exceedingly soft. Buying for cold storage account is not a market factor. The butter market is greatly overstocked and speculators are holding aloof, believing that further declines are inevitable. The word "speculator" incidentally does not have the same relation to the butter market as to the grain or stock markets. A butter speculator is usually a cold storage operator. Without him, prices would be at bedrock in the summer and skyhigh in the winter. There are some butter buyers, of course, who come under the meaning of the word as applied to the grain and stock markets, but these people's chances of making a "killing" are seldom hopeful. The real "speculators" are heavy losers this year. The creamery output is exceedingly liberal and the consumptive demand is favoring the best creameries on account of their cheapness. Dairies are somewhat neglected, in consequence, and are unusually cheap for this period of the year.

• • •

Strawberries are coming from Missouri now and are of excellent quality. The only fault found is their overripeness. This is due 'n a large measure to the unseasonably hot weather existing in the Central states. Shipments of berries from Southern places have ceased. Prices are slightly in excess of those which recently applied to Southern berries. As shipments become more liberal values are expected to shrink.

Pineapples are cheaper. Shipments of new fruit are arriving in the market and the quality is said to be excellent. Prices are reasonable. The apple market is unimportant and is confined to two or three varieties. Pieplant is slightly weaker. Receipts are more liberal and the consumptive demand is good. Grapefruit from Florida is cheaper and the market is active.

In the green goods market carrots, onions, spinach, new beets, cauliflower, lettuce and asparagus are the leaders. Texas is shipping fancy cucumbers which are meeting with a big sale. Hothouse cucumbers are a specialty.

• • •

Reports from the coast indicate that there has been an active demand for spot dried peaches for immediate shipment, particularly from Europe. Spot peaches are dull in all Central and Eastern markets and little business is being sought on account of the extremely high prices. Future peaches are unsettled with a firm undertone as the result of the strong views of growers.

Dried apricots are scarce for immediate shipment and are held too high to suit most buyers. On futures few packers are making any quotations when they quote at all and these are so extreme as to discourage buying to a considerable degree.

• • •

Growers of tomatoes and peas in Maryland and Delaware are sounding an early alarm about the probable effects on future crops as a result of drouthy conditions in the growing localities. Setting out of tomato plants, it is said, is being delayed in the hope that the adverse weather conditions will change. Packers are developing a firmer feeling in futures in consequence. The movement in spot stocks of tomatoes is slow with quotations firm at 80@82½c f. o. b. Baltimore.

• • •

Buying of sugar promises to be unusually active in the next few days as a result of indications for a big fruit crop in the Central states. Jobbers anticipate a large demand for sugar when the fruit crops of the county make big yields. Spot stocks of sugar in the hands of retailers are in exceptionally small compass as there has been no car lot buying as in other seasons. The retail trade is purchasing on a hand-to-mouth basis. Orders are frequent, but small.

• • •

Owing to indications of a pronounced shortage of California fruit this season on account of frosts in April, particularly of apricots, lemons and cling peaches, packers are withholding their opening quotations until some definite factor develops in the probable outcome of the crops.

Indications point also to an advance in California canned asparagus. Asparagus was so plentiful in California this year and the opening prices so low that many growers plowed their crops under rather than ship to market. While the packers generally carried out their contracts at the low prices, further supplies were unobtainable and quotations were withdrawn.

ISOBARS, or continuous lines, pass through points of equal air pressure.
ISOTHERMS, or dotted lines, pass through points of equal temperature; they will be drawn only for zero, freezing, 50°, and 100°
SYMBOLS indicate state of weather. ○ clear, ◒ partly cloudy; ● cloudy; (R) rain; (S) snow; (M) report missing. Arrows fly with the wind. First figure, temperature; second, 24-hour rainfall, if it equals .01 inch; third, wind velocity of 10 miles per hour or more.
WIND SCALE.
Miles Per Hour.
Calm ..... 0 to 5
Light ..... 5 to 15
Moderate ..... 15 to 25
Brisk ..... 25 to 35
High ..... 35 to 50
Gale ..... 50 to 65
Hurricane ..... 65 and above
H. W. RICHARDSON, Local Forecaster.

The cool weather of yesterday and today promises to continue tonight and tomorrow with high northeast winds and the possibility of showers tomorrow. Summer seems to have been delayed in transit, but Duluthians are contenting themselves with the thought that "it can't last much longer." Incidentally, it's bad baseball weather.

A year ago today it was fair.

The sun rose this morning at 4:20 and will set at 7:49, making fifteen hours and twenty-nine minutes of sunlight. Mr. Richardson makes the following comment on weather conditions:

"The low barometer overlying the Middle West has caused further rains throughout the Rocky mountains and the Northwest, as well as somewhat higher temperatures over the lower Missouri, Mississippi and Ohio valleys. Very warm weather prevails in the Central valley states and Southwestern lake region this morning. At the Head of the Lakes the weather will remain cool and windy and showers are probable during the ensuing thirty-six hours."

General Forecasts.

Chicago, May 26.—Forecasts for the twenty-four hours ending at 7 p. m. Saturday:

Wisconsin and Iowa—Fair and continued warm, except probably showers in northwest portion tonight or Saturday.

Upper Michigan—Thunder showers tonight and Saturday.

Minnesota—Unsettled weather and probably showers tonight or Saturday; cooler in south and east portions Saturday.

North Dakota—Unsettled weather and probably showers tonight or Saturday; cooler in south and east portions tonight.

South Dakota—Unsettled and probably showers tonight or Saturday; cooler tonight and in east portion Saturday.

Montana—Generally fair tonight and Saturday; probably light frost tonight.

The Temperatures.

AMUSEMENTS

TONIGHT'S ATTRACTIONS.

LYCEUM—"Madame Sherry."
ORPHEUM—Vaudeville.
EMPRESS—Vaudeville.
ODEUM and LYRIC—Photoplay.
AUDITORIUM—Roller skating.

Green Room Gossip.

Duluth will have a stock company, vaudeville, moving pictures and roller skating for its indoor summer amusements. The Forbes Stock company will return to the Lyceum for the summer months. The Orpheum will close a week from tomorrow night for the summer, but the Empress will probably remain open throughout the summer. The Odeum and Lyric photoplay theaters will also remain open, and the Auditorium will continue a popular resort for roller skating.

• • •

Probably one of the largest audiences of the season will witness the initial local performance of "Madame Sherry" at the Lyceum theater this evening. The sale of seats for the engagement has been phenomenally large, and all the first nighters will be on hand to pass their judgment on a show which New York, Chicago, St. Louis and San Francisco have already declared to be one among a thousand. Were this verdict simply that of New York there might be some doubt as to the quality of "Madame Sherry," for local taste sometimes differs from that of the American metropolis. But with "Madame Sherry" the same has been the case in every city where it has been presented from the Atlantic to the Pacific. Everywhere it has left behind a series of huge, laughing and applauding audiences who could not get enough of the delightful comedy and enchanting melodies of this dainty French vaudeville.

• • •

Charles Ahearn, whose cycling comedians are one of the big hits of this week's Orpheum bill, learned trick bicycle riding on one of the old "high wheel" bicycles, which were used back in the 90's. It was Mr. Ahearn's chief source of pleasure to come tearing down the hill in the little village where he lived during his early years, standing erect on the saddle of the old high wheeler, steering with one foot and waving his hat. Many an honest village housewife was given a scare by the reckless youth, who risked his neck almost daily for the purpose of frightening the villagers. He met with several serious accidents in this way, but escaped to become a trick bicycle rider. He gradually built up his present act from a very modest beginning, and now has what is recognized as one of the greatest bicycle acts in vaudeville.

There will be only three more performances of this week's bill, tonight, tomorrow afternoon and tomorrow night, and the closing bill of the season will open Sunday afternoon. The bill for the last week is claimed to be one of the strongest ever presented in the Duluth theater, and four feature acts are promised.

• • •

Paul Conchas, who juggles heavy shells and cannon balls, continues to draw large crowds to the Empress this week.

Conchas is a product of the German army, and made his reputation in local entertainments arranged by the soldiers. He used to be always willing to contribute his share of the entertainment, by catching heavy shells and balls on his neck and balancing them, and one day he attracted the attention of the emperor. His future was then established, for the emperor conferred a royal decoration on the young man, and he had no difficulty in securing engagements in the German music halls, from where he was brought to America for a tour of the Sullivan & Considine circuit.

• • •

The arrival of Mme. Sarah Bernhard's special train at Duluth next Sunday is awaited with special interest by the many who are as interested in the woman as in the artist. The career of this remarkable woman has never been equaled in dramatic history. For over forty years she has wielded the dramatic scepter in her own country and has also been a world actress, carrying her art in the language of France into every clime. But what makes her productions so distinctively successful, is the fact that unlike many stars she surrounds herself with a company of brilliant and finished artists, who carry out to perfection every detail of the smaller parts.

It may interest theater-goers in Duluth to know that Mme. Bernhart's production of "L'Aiglon" on Monday night, will be the 238th performance she has given during her triumphal tour.

• • •

"Back to the Primitive," is the feature film at the Lyric for the latter half of the week. The story is as follows: John Wilton cables his sister Helen, in London, to leave for South Africa via S. S. China, and apprises her of the fact that Lord Thurlow sails on the same ship and is to act as her escort, at the same time telling her he will meet them at Cape Town. After a hurried preparation for departure the long journey is begun. Lord Thurlow is attentive to his charge. Will Carson, a fellow passenger aboard, much admires Helen.

When 500 miles off Cape Town the vessel is wrecked. After two days of famine, the occupants of the improvised raft were washed ashore, where a deserted hut furnished them shelter. Helen, secure on top of the thatched hut, is startled to see lions and leopards prowl around, almost within hand reach. Thurlow is at their mercy and meets his fate bravely. Two years elapse and the brother has his attention called to an article in the press referring to the wreck. An expedition by elephant train is organized and amid great rejoicing brother and sister are united over the dead body of a savage African lion, that the party was compelled to kill in the rescue.

HURON COLLEGE GETS $100,000

Rockefeller Board Gives $634,000 More for Educational Work.

New York, May 26.—The general educational board, endowed for $32,000,000 by John D. Rockefeller, made public last night following its first meeting for the current year, a list of its latest appropriations for colleges and schools, amounting in all to $634,000.

All the gifts to colleges are what is known as conditional and are applied to endowment only. That is, the general board agrees to give a certain amount provided the beneficiary raises a greater amount. Other gifts may be applied to current expenses. The list includes Drury, at Springfield, Mo., $75,000 appropriation providing $325,000 is raised, and Huron, S. D., $100,000 appropriation providing $100,000 is raised.

Appropriations aggregating $68,000 went to the education of Southern negroes; $130,000 is set aside for demonstration work in agriculture also in Southern states, under the supervision of Bradford Knapp, and $36,900 for professors of secondary education in state universities of the South.

START MADE FOR AERIAL NAVY FOR AMERICA.

Washington, May 26.—The foundation of Uncle Sam's aerial navy was laid when Assistant Secretary Winthop yesterday signed contracts aggregating $13,000 for the delivery at the naval academy by July 1 next of three aeroplanes. These will represent the very latest developments in aeronautics, being capable of rising from and alighting upon the water or the deck of a ship; of carrying at least one passenger in addition to the aviator, and of being equipped with a fifty-pound wireless outfit. Two of the machines will be of the Curtiss type, one with eight cylinders and the other with four, and the other aeroplanes will be furnished by the Wrights. Prices range from $2,700 to $5,500.

Immediately upon the delivery of the machines a naval school of instruction for aviators will be established at Annapolis under the care of Capt. Chambers, who has made a specialty of aeronautics.

One Killed in Ontario Mine.

Sault Ste. Marie, Ont., May 26.—Through the falling of a quantity of rock at the Helen mine in Michipicton in the stope on the sixth level, Louis Nieme, mine captain, lost his life while several others were severely injured. First reports were that all had been killed, but the other six were revived after being dug out and probably will recover.

Northwest Triumphs!

Purchase of Bankrupt Minneapolis Stock by St. Paul concern Means Much to This Section. Spot Cash Did it. Eastern Concerns Try, But Fail.

Tibbs-Hutchings Stock to Lindeke, Warner & Sons

At a Little Less Than 50c on the Dollar—Great Sale Planned Which Will Be of Inestimable Value to Every Consumer as Well as to Every Storekeeper of the Northwest.

West's Greatest Merchandising Event

The home of the greatest Dry Good House in the West, that of Lindeke, Warner & Sons, at Fourth, Broadway and Rosabel streets, St. Paul, where early in June will be sold the assests of Tibbs, Hutchings & Co., just purchased at auction for less than 50 cents on the dollar.

The growing ability of the great prosperous Northwest to "take care of itself" financially was convincingly proven by the purchase of the Tibbs, Hutchings & Co. bankrupt dry goods stock last week by Lindeke, Warner & Sons, the pioneer dry goods wholesalers and manufacturers of St. Paul.

This was, without exception, the greatest bankrupt stock ever sold at auction. The stock was larger and the consideration was larger than in any other similar sale in the mercantile history of the country.

The power of "ready cash" was comprehensively demonstrated when assets valued at over two and one-half millions were sold to the St. Paul firm for $1,243,000—a trifle less than 50 cents on the dollar. This in spite of the efforts of Eatsern "wrecking" and "assets realization" companies to get the stock and move it East.

The net result to the merchants and consumers of the Northwest is the doubling of the purchasing power of their money when it goes to buy the Tibbs, Hutchings' stock. Had it not been for Lindeke, Warner & Sons, this opportunity would have been transferred to merchants and consumers further East. It would seem, then, that Lindeke, Warner & Sons, besides deserving credit for a good stroke of shrewd business, are also entitled to praise for a piece of work that will help the whole Northwest.

Included in their purchase are not only every bit of merchandise formerly owned by the unfortunate Minneapolis concern, but also their real estate, fixtures, trade marks, good will, accounts and bills receivable. The merchandise and fixtures are now being moved to the big Lindeke, Warner & Sons' building at Fourth, Broadway and Rosabel streets, in the heart of St. Paul's downtown wholesale district. Experts are even now at work classifying and arranging the stock, and when all is in readiness the greatest sale of bankrupt merchandise that the Northwest ever knew will be held.

This sale will be to merchants only. It will take place some time in June and full particulars will be published in this newspaper, in the "Lindeke-Warner Bulletin," and in circulars sent direct to the trade. No goods will be sold at retail and it will be a case of "first come, first served;" every merchant is invited to come and make his selection early.

Included in this Tibbs-Hutchings stock, soon to be offered at 50 cents on the dollar of wholesale cost, will be full and complete lines of the following items in which the stock is very strong:

Hosiery,	Laces,	Gloves,	Silks,
Underwear,	Embroideries,	Domestics,	Blankets,
Knit Goods,	Notions,	Flannels,	Rugs,
White Goods,	Prints,	Men's Furnishing Goods,	Carpets,
Linens,	Wash Goods,	Dress Goods,	Overalls, etc.

Coming as it will right in the middle of the most prosperous year that the Northwest has ever known, with plenty of wealth-producing rain and prospects of phenomenal crops, this sale will doubtless break all records.

Wait for full announcements later.

It will pay you to do so.

If you're a merchant and are not on Lindeke, Warner & Sons mailing list, it will pay you to get there. Just send your request for literature on a postcard with your name and address and you will get all their circulars and publications, including the "Lindeke-Warner Bulletin," a periodical full of ideas, information, illustrations, cartoons and spicy comment of great interest and value to every retailer. Address Lindeke, Warner & Sons, St. Paul.

Wait for the Northwest's Greatest Dry Goods Sale—Details Later

ON THE IRON RANGES

TO BE BURIED AT CALUMET SUNDAY

Body of Young Man Drowned at Two Harbors Reaches Copper Country.

Calumet, Mich., May 26.—(Special to The Herald.)—The remains of the late Edward S. Olson, formerly of this city, who was drowned last Sunday at Two Harbors, Minn., arrived here Tuesday morning and were taken to the family residence on Florida street, Laurium. The funeral services will be conducted Sunday afternoon, from the residence by Rev. S. Romsdahl, pastor of the Norwegian Lutheran church. Mr. and Mrs. Solomon Olson, parents of the deceased, will arrive Saturday from California where they have been visiting.

The decedent was well known in Calumet and the news of his death was received with much regret. He was 23 years of age and resided in Calumet almost his entire life, up to a short time ago. Besides his parents, one brother, Walter P. Olson, the following sisters survive, Mrs. Minnie Usitalo, Mrs. Mary Burg, Mrs. Edna Lutey and the Misses Emma and Stella Olson who reside at home.

MAYOR SAARI NOT SPECIAL OFFICER

Eveleth Executive Denies Report He Was Mixed Up in Verbanich Case.

Eveleth, Minn., May 26.—(Special to The Herald.)—Mayor Jacob Saari of this city denies the truth of stories printed in the press connecting him with the Verbanich affair of Waterhen creek, in which, it was stated that the mayor was deputized as a special officer to serve a warrant upon Mrs. Verbanich. He also denies he took such an active part in the arrest of Peter Verbanich as was stated in the press. He says there is no warrant out for the arrest of Mrs. Verbanich, so far as he knows. Mr. Saari is indirectly interested in the outcome of the driving of the logs through the Verbanich property as he has some lumber back of the Northern Lumber company's drive.

"I was asked to accompany the deputy sheriffs to Waterhen when they went to make the arrest," said the mayor, "but not as an officer or as an active participant in the proceedings; I simply went along for the ride and incidentally to look after my rights. I wish The Herald would correct the report about my being deputized or about a warrant being issued for Mrs. Verbanich."

GILBERT COUPLE HAVE CLOSE CALL

House on Virginia Road Catches Fire and Fire-Fighters Save Them.

Gilbert, Minn., May 26.—(Special to The Herald.)—Mr. and Mrs. Alfred Houttina, living in a two-story house on the Virginia road, at the end of Summit avenue, had a narrow escape from being burned to death shortly before midnight last night when their home caught fire.

They were aroused by the fire-fighters and pulled from their home in their night clothing. The house was badly damaged the loss being about $1,000 with about $700 insurance.

RANGE ODD FELLOWS ELECT AT GILBERT.

Gilbert, Minn., May 26.—(Special to The Herald.)—The Range association of the Independent Order of Odd Fellows met here Wednesday night for the transaction of such business as properly came before it and for the election of officers for the ensuing year. Each of the following lodges was represented by three members: Biwabik, Aurora, Virginia, Eveleth, Hibbing and Gilbert.

Following are the officers chosen: H. H. Salmon, Biwabik, president; E. C. A. Johnson, Virginia, vice president; F. A. Howarton, Biwabik, secretary and treasurer.

It was decided to let each lodge appoint one member to be part of a committee to arrange for a picnic some time during the summer.

BUILDING OVER THE COURTHOUSE

Important Work on Structure at Grand Rapids Now in Full Swing.

Grand Rapids, Minn., May 26.—(Special to The Herald.)—Work on the additions and remodeling on the courthouse building has commenced. Workmen are excavating for the west foundation walls of the addition to the south of the building.

H. I. Simonson of the firm of Charles E. Hagstrom & Co., the successful bidders, was here and made arrangements to commence the work at once.

The contemplated improvements will entail a considerable expenditure, the contract price of the work being $7,-198, and will include the construction of three wings of one story on the south, or rear side of the building. The wings will be used as additional vault and office room for the keeping of the records of the county.

The west wing, just back of the register of deed's office, will be 15 by 23 inside, and will be in the form of a fire proof vault, connected with the register of deeds vault, now used by a door and an archway. The middle wing, which will be 15 by 16 inside, will also be a vault, and will be situated directly behind the present vault of the clerk of court, and connected with it by a door. The eastern wing, 19 by 26, will be used as an office for the county surveyor. It will be connected with the main corridor of the courthouse by a passage running south from the present entrance to the toilet back to the new addition. The toilet will be partitioned off with a ground glass and wainscoting partition. From the old vault of the register of deeds a spiral stairway will lead to the basement vault, which is now used as a storage vault. A like stairway will lead from the vault in the county auditor's office to the vault which now occupies the space beneath the auditor's vault and the auditor's private office.

Will Give More Room.

This arrangement will make a great deal more room than formerly, and the offices will then be large enough to accommodate the business of the country for years to come. Contractor McLean, who is putting in the retaining wall at the rear of the courthouse grounds is pushing his job with all dispatch. A carload of tamarack piling to replace what was culled of the first supply has been received from Deer River, and the driving of piles has been resumed, and good progress is being made. Between the piling, which are driven six feet apart in two rows about three feet apart the ground is being excavated, and in the trench made there will be placed a concrete wall three feet thick.

The contractor has leased the township rock crusher, and the crushed rock necessary for the job is being ground right on the job. The concrete mixers are in place ready to go to work when the place is ready for them.

The wall is about 350 feet long and will be built about eight feet deep. From the top of the wall the slope of the hillside will be riprapped with cobble stones, laid in sand. At intervals in the wall there will be what is known as weep holes—holes through the wall through which any seepage water may find its way, so as not to be held behind the wall and damage same.

MEN ARE CAUGHT ON OTHER SIDE

Gheen Suspects Arrested at Fort Frances and Brought to Virginia.

Virginia, Minn., May 26.—(Special to The Herald.)—Isaac Culberg and Oscar Harold, arrested at Fort Frances, Ont., or rather just across this side, for robbing Jorn Neimi at Ghen, a small settlement north of here of $85, were caught by Deputy Sheriffs Andrew Mollan and Arthur O'Dea and brought here before Judge Carey yesterday, but as the evidence was insufficient they were convicted of drunkenness and given ninety days each in the county jail at Duluth.

Strategy Is Used.

The officers used strategy in catching their men. They trailed them to Fort Frances and arrested them but, of course, could not hold them without extradition papers but the immigration officer came to the rescue. He ordered the men out of Canada and when they crossed to Ranier, the deputy sheriffs arrested them and brought them here.

When Neimi took the stand in court here yesterday to testify against the pair he admitted that he and the two were sleeping together in a shack on the night in question and that although he woke up broke Tuesday morning, he could not say for a certainty that his companions had robbed him. Judge Carey decided the evidence insufficient to hold Culberg and Harold on a charge of robbery and found them guilty of intoxication and sentenced each to ninety days in jail at Duluth.

WILL RUN TO WINTON.

Iron Range to Make Change in Train Service on June 1.

Two Harbors, Minn., May 26.—(Special to The Herald.)—Commencing June 1, the Duluth & Iron Range passenger train, No. 3, the morning train out of Duluth, will be run on from Ely into Winton, thus saving Winton and Fall Lake passengers the four-mile drive intervening between Ely and those towns.

Owens, Johnson and Hanna, the latter of the Duluth & Iron Range passenger department, were up to Lake Vermilion Wednesday. The railroad company has rented additional coaches for use this summer anticipating a large tourist business. The first party of tourists went up to Lake Vermilion Wednesday.

CHISHOLM IS PLANNING FOR CARNEGIE LIBRARY.

Chisholm, Minn., May 26.—(Special to The Herald.)—Assured of getting $25,000 from Andrew Carnegie for a public library, the following labrary board has been appointed by the president of the village and approved by the council:

One year—Prof. J. P. Vaughn, Miss Nellie Peterson, Willard Bayliss.

Two years—Mrs. C. R. Woods, A. J. Loomis, Dr. A. B. Kirk.

The Carnegie library movement was started only a few months ago. The council intends to get a site at once so that construction of the building can begin.

The purchasing committee of the council was given authority for the purchase of two more hand chemical wagons similar to the ones that were purchased a few months ago which were placed at the Glen and the Shenango locations. The new wagons will be placed, one at the Hartley location and one at the Monroe location.

Fire Chief Thomas O'Connor was appointed a delegate to the State Firemen's convention to be held in Owatonna in June. He will be accompanied by other delegates yet to be named.

EVELETH IS READY FOR MEMORIAL DAY

Parade During Afternoon Ending With Address By Warren E. Greene.

Eveleth, Minn., May 26.—(Special to The Herald.)—Charles McNamara, a Civil war veteran, will be marshal of the day and chairman of the program to be given at the high school on Memorial day.

A parade will be held from the city hall commencing at 1 p. m. The police, fire department, fraternal societies, school children, Fayal band, citizens in automobiles, floats and the local Civil war veterans, Enos Rennier, Charles McNamara, and C. Richardson, will all take part in the parade, which will proceed from the city hall to the high school, where the following program will be rendered:

Selection by Fayal band; first verse of "Star Spangled Banner," by audience; song, "Flowers For the Brave," Miss Ada Moulton's class; Lincoln's Gettysburg speech, Fourth and Fifth grades; song, quartet, Fergus R. Ellsworth, Richard J. Coole, Cass U. Jenkins, Raymond M. Dungan; song and flag salute, Third grade; address, Assistant County Attorney Warren E. Greene; "America," audience; song, quartet.

The local business places will remain closed from 1 p. m. to close of the program, by proclamation of the mayor.

Special Memorial services will be held at the Methodist Episcopal church, Sunday morning, at which time, Charles McNamara, Enos Rennier, and C. Richardson, the Civil war veterans will be present. "Heroes" will be the subject of the sermon.

Virginia Memorial Day Plans.

Virginia, Minn., May 26.—(Special to The Herald.)—The plans for a proper observance of Memorial day are completed. There will be a parade and patriotic exercises at Olcott park.

The parade will be formed as follows: Platoon of police, mayor, city council, city officers and park board, board of education, fire department, survivors of G. A. R. in carriages, veterans of the Spanish-American war, boys' military band, 2,500 students and school children, Commercial band, St. John's Polish society in uniform, Modern Woodmen, all other societies and organizations in the city, Virginia City band, citizens.

H. J. George Marshal.

H. J. George will be marshall of the day, with such assistants as he may select.

The column will form at 1 p. m. on Chestnut street, from Mesaba avenue extending west. The school children will form at Roosevelt school and march to this point.

The line of march will be from Mesaba avenue on Chestnut street, Lake boulevard and Virginia avenue, thence to Olcott park.

The exercises in the park will be as follows: Invocation, by Rev. H. E. Neff; Lincoln's Gettysburg speech, recited by 100 students in concert; choruses and recitations by students and school children; flag drill, by school children; address, by Judge Montague; chorus, by school children; oration, by Victor Powers of Hibbing; benediction, by Father Powers.

The graves of the soldiers will be decorated by committees from the schools during the forenoon.

ASK STORES TO CLOSE.

Hibbing Concerns Urged to Lock Doors Memorial Day Morning.

Hibbing, Minn., May 26.—(Special to The Herald.)—The executive committee in charge of the arrangements for the celebration of Memorial day have issued a notice signed by Mayor Welrick and Chairman Jason L. Lewis asking all the merchants to close between 9 a. m. and noon, that their help may be able to attend the ceremonies. The work of raising funds has now been taken in hand and the desired sum will probably be obtained before the close of the week.

JUDGE BRADY'S AUTO MEETS WITH MISHAP.

Hibbing, Minn., May 26.—(Special to The Herald.)—The session of municipal court to have been held last evening at 7:30 was postponed because Judge Brady was marooned out at the Kinney mine, near Buhl, in an automobile. The judge went there earlier in the afternoon with a party of friends and the car became disabled, delaying the party until late in the evening before they could get back to their homes.

HIBBING PERSONALS.

Hibbing, Minn., May 26.—(Special to The Herald.)—Rev. and Mrs. Frank Durant went to Virginia yesterday and inspected the schools while there.

Mr. and Mrs. H. C. Merritt returned to Duluth on the early train yesterday after spending several days in the city and making a number of auto trips into the mining districts near here.

W. L. Winans, secretary treasurer of the Itasca Bazaar company, who went to Duluth yesterday with Mr. and Mrs. Merritt, will return tomorrow to Hibbing.

Vorbanich's Hearing.

Virginia, Minn., May 26.—(Special to The Herald.)—Peter Vorbanich, the Waterhen river homesteader who was brought here to a hospital after being shot while resisting arrest was able to leave the hospital last night and was taken to jail. Today he was brought before Judge Carey in municipal court for a hearing on a charge of assault in the first degree.

MAKES ATTACK ON LONE WOMAN

Brute Grabs Hold of Young Teacher on Edge of Chisholm; Frightened Away.

Chisholm, Minn., May 26.—(Special to The Herald.)—The women population of this village are considerably worked up over a dastardly affair that occurred Wednesday afternoon in the vicinity of the place where the old Jordan mine tracks cross the road between Chisholm and the Myers' school when one of the young lady teachers of the Myers school while returning from lunch was attacked by a burly man.

She says that at a lonely place on the road he grabbed hold of her and began dragging her toward a high bank near there. She began screaming and her cries attracted the driver of a passing team who hastened to the rescue, the villian who had hold of the frightened woman dropping his hold and running out of sight. The young woman was so badly unnerved by the outrage that she was taken to her room at the O'Neill hotel, where she recovered after a day of rest. The officers are trying to find the brute that insulted the girl and if he is found it will go hard with him. This is not the first time outrages of this sort have been attempted and feeling is running high. If another perpetrator of such outrages is caught there will be something doing, it is predicted.

CALLED IN JAIL AT TWO HARBORS

Drink Combined With an Injury Causes Death of Railroad Man.

Two Harbors, Minn., May 26.—(Special to The Herald.)—Jack Martinson, an employe of the extra gang of the Duluth & Iron Range railway, died Wednesday morning at the city jail as the result of a fall coupled with acute alcoholism. Martinson had been rooming upstairs at the Windsor hotel. Wednesday morning about 4 o'clock, while under the influence of liquor, he attempted to go down the stairs and fell. He was taken to the city jail, where he died later. Martinson was about 50 years old, and it is thought that he has a wife and daughter in the old country. He has been in the city about five years, but was not well known except among the Swedes and Finns of this city. His body was taken to the Brown undertaking parlors, and unless friends come to his aid he will be buried by the county.

Andrew Johnson died Wednesday at the home of Louis Swenson. Johnson was 36 years of age and was born in Norway. The cause of his death was consumption. He had formerly been employed at the docks. He leaves no relatives in this country. He will be buried Saturday from the Norwegian Lutheran church, Rev. K. P. Carlson holding services.

THREE VICTIMS BORNE TO GRAVE

Band Accompanies Remains of Miners Killed at Hibbing to Cemetary.

Hibbing, May 26.—(Special to The Herald.)—The three victims of the mining disaster here on Wednesday afternoon were buried yesterday at 3 o'clock in the Catholic cemetery.

The names of the men are: Nick Meazura, Fabio Backlick, Bozo Rukarvina.

The services were performed by Father Beruatto.

A band was in attendance and a large number of friends were present at the ceremony and followed the hearses to the cemetery.

DELEGATES NAMED TO DULUTH MEET

Mayor Saari and Other Evelethians Coming to Big Development Session.

Eveleth, Minn., May 26.—(Special to The Herald).—President James C. Poole, of the Commercial club has appointed the following delegates to represent Eveleth at the meeting of the Northern Minnesota Developmnt association at Duluth, next Thursday and Friday: County Commissioner Neil McInnis, A. E. Pfremmer, Solomon Sax, Deputy Coroner John J. Gleason, M. E. Nichols, Mayor Jacob A. Saari, James A. Robb, Alderman W. G. Sutherland, Peter Peterson, John Glode, Ephraim Johnson, Dudley W. Freeman, George A. Whitman, State Senator James P. Boyle and George A. Perham.

The local delegation will make a strong plea for better roads, and reapportionment.

DERRICK TOPPLES OVER.

One Workman at Two Harbors Dock Has Broken Leg.

Two Harbors, Minn., May 26.—(Special to The Herald.)—An accident occurred yesterday afternoon at Dock No. 1, when the derrick doing the hoisting of beams on the steel part of the dock, toppled over, one man being hurt. The derrick was standing at the approach just newly built by the American Bridge company, and was lowering the huge beams used in the construction of the steel work from the top of the approach to the ground below. Several were lowered successfully, but the accident occurred when one beam was in the air. The beam began to swing to and fro and it appears that the derrick lost its balance and turned over. The boom of the derrick broke and the steel girder fell to the ground. Several men were working beneath it, but only one was injured. He was taken to the Budd hospital where it was found that his leg was badly bruised. It appears that the derrick was not sufficiently anchored when engaged in the hoisting of such huge girders. Work has already been commenced in raising the derrick.

Successful Wolf Farmer.

Eveleth, Minn., May 26.—(Special to The Herald.)—William E. Haenke, of Wolf, the veteran range farmer, is devoting most of his time to dairying, and reports that he is meeting with much success. He is milking twenty cows, but plans on purchasing twenty more on his trip to the southern part of the state next week. He has installed a silo and other improvements at his farm, and is shipping milk to all the range towns.

Chorus.

EVELETH'S WHITE WAY SOON COMPLETED.

Eveleth, Minn., May 26.—(Special to The Herald.)—Brackets were installed today on the white way poles. The white way will soon be completed and will be opened early next month.

The system will be extended from Grant avenue to Adams avenue on Pierce street. Four standards will be placed along Pierce street, and one opposite the postoffice on Jones street between Adams and Grant avenues. Bids for installing the five additional standards have been advertised for by the city and will be opened June 9.

EVELETH NOTES.

Eveleth, Minn., May 26.—(Special to The Herald.)—Rev. Phillip A. Schwarz, Jr., of the First Presbyterian church is preparing plans for the observance of Children's day, June 11. A special program will be given, consisting of numbers by the Sunday school pupils. A short appropriate sermon will be given by Rev. Schwarz, Jr.

Moving pictures of the life of Christ and views of the Holy City and Biblical events will be presented at the Vall hall, June 4, by the St. Patrick's church, with Rev. Father J. B. Culligan, in charge.

A "sock" lunch will be given at the Methodist Episcopal church, this evening by the Epworth league.

FIRST MESABA LEAGUE GAME AT EVELETH SUNDAY.

Eveleth, Minn., May 26.—(Special to The Herald.)—The opening game of the Eastern Mesaba league will be played here Sunday afternoon, between the Elba and Eveleth nines with "Ding" Richards and Capt. Gaunitz as the locals' battery and Moenke and Derrick composing the visitors' battery. The locals are being coached by Capt. Edward L. Boyle of the Virginia city team, and are practising daily.

The game to have been played here tomorrow afternoon between the Gilbert and Eveleth high school teams has been called off because of the large amount of school work on hand.

Inspector at Ely.

Ely, Minn., May 26.—Charles Neale, sale inspector and weighmaster for the state of Minnesota, with headquarters in Minneapolis, was here yesterday with the scale test car on his semi-annual tour of inspection.

ARBITRATION IS INDORSED

(Continued from page 1.)

tirely lawful for the subjects of neutrals to supply belligerents with arms and ammunition, as well as by public subscription or otherwise raise loans to aid belligerents; yet the fact that such loans can be legally contracted not only makes war possible, when otherwise either or both belligerents would be prevented by economic necessities from beginning a war, or when begun from prolonging it.

"It requires no argument to prove such acts are against the fundamental principles of real neutrality, and no more practical work can be undertaken in the promotion of peace than to hasten the day when such contraband commerce and loans will no longer be considered lawful."

Celebrate Treaty of Ghent.

Plans for celebrating the centenary of the signing of the treaty of Ghent were made public, and the peace problem in many respects was discussed at the second day's session of the conference. Last night the conference considered the relation of the churches to the peace movement, eminent clergymen from home and abroad delivering addresses. A letter was read from Cardinal Gibbons regretting his inability to attend.

REV. GRANT CONVICTED

(Continued from page 1.)

own presbytery to reinstate him, that body having already acquitted him once and being obviously favorable to him, somewhat took the sting out of the apparent harshness of the verdict.

It was pointed out by his friends that there is nothing to prevent Dr. Grant from appealing to his presbytery at its very next meeting, and by making a statement recanting any views that might be taken to attack the basic doctrines of the church, be reinstated within a short time.

The word "heresy" was not used in the report of the commission, either in the summing up or in the final judgment.

Brown Case Up Again.

William Adams Brown, a professor in Union Theological seminary, which was supposed to have been closed yesterday, will come up again through the instance of Rev. Dr. Edwin J. Reinke of Philadelphia. A report from the judicial commission exonerating Prof. Brown and Rev. Dr. Francis Brown, president of Union seminary, was adopted by the assembly yesterday, but not accepted by Dr. Reinke.

Would Express Disapproval.

He later placed before the assembly the following.

"Resolved, (1) That no action be taken with reference to the utterances of Rev. Francis Brown. (2) That this general assembly expresses its disapproval of the recent utterance of Rev. Dr. William Adams Brown in the January number of the Harvard Theological Review, as it is in apparent conflict with the doctrinal standard of our church, and admonishes him to desist from the disseminating of such views."

F. S. KELLY FURNITURE CO.

WOMAN'S REALM.

The boat club season will soon be in full bloom. Tuesday of next week the cafe at the main branch will be opened for the use of the members. The dining room has been re-decorated and is most attractive. Mr. and Mrs. G. H. Smith, who will have charge of this department, have arrived and the rest of their force will be here tomorrow to take up the work. The Oatka branch has also been prepared for picnic parties and the matron will be on duty there. Bathing suits are ready for use although the probabilities are that they will not be used for a few weeks.

The club is planning greater activities for the women and girls this year than ever before. The girls and their war-canoe races have won fame far and wide and they will be featured in the events of the summer. The two crews will again be organized and will train for the races more than they have in previous years. Last year the captains, Miss Clare Church and Miss Frances Burris took their crews out for practice as often as they could get them together but this year when girls go in for the work it will be with the understanding that the practice will be part of the work as well as the racing. The races will begin early in the season but the club is planning to have the final races take place during the carnival.

Elaborate prizes will be offered in these events. Silver belt buckles or something similar will be determined upon. They will also have double races for the girls and as the club boasts of quite a number of expert canoeists among the girls, these will probably be a pleasing feature.

Informal dancing parties, teas, luncheons and card parties will also enter largely into the club life of the women members.

"THE SLEEPING CAR."

Amusing Sketch is Presented by Local Talent.

"The Sleeping Car," as played by local talent last evening at the guild hall of Trinity pro-cathedral for the benefit of the Sunday school of that church, proved an attractive entertainment.

W. D. Howells wrote a most amusing sketch when he wrote this one and the humor was well brought out by those who filled the cast under the direction of Allan P. Allensworth, who played the part of Edward Roberts with ease and ability.

A real live baby, too, made a hit with the audience was insufficient they as the evidence was insufficient they the car who did not awaken. Miss Emily Lakin played her part of Mrs. Roberts charmingly and told her troubles to her Aunt Mary and her husband with full play of lung power which awakened everybody but the baby.

Aunt Mary was made a most enjoyable character by Mrs. Fitzjames Hill. The Californian was played by Albert Michelson; Charles L. Sands had the part of Willis Campbell. Mrs. Roberts' brother; Frederick H. Waldron made a fine porter and Stanley Lamb in a real conductor's uniform took charge of his train in a most efficient manner.

A program of several other numbers added to the pleasure of the evening. Misses Eleanor Kraft and Georgia Evans played a delightful violin number and a pretty encore. William Chester Smith accompanied. Master Frances Hall sang "Swanee River," with pleasing effect. He has a beautiful soprano voice. John Sinclair was very funny with a "sermon" which had a Mother Goose rhyme for its theme. Miss Elizabeth Breckenridge Maddox sang "Have You Seen My Henry Brown?" in a most taking manner. Mr. Allensworth was Henry and was discovered in the audience and dragged to the stage by Miss Maddox.

On the whole the entertainment was delightful.

Festival of Flowers.

Much interest is being shown in the apple blossom festival to be given tomorrow afternoon for the Young Women's Christian association at the home of Mrs. B. M. Hunter at Hunter's Park.

Apple blossoms are enough of a rarity in Duluth for an opportunity to visit a beautiful apple orchard in full bloom to be a real treat, and walking clubs and automobile parties will make this their stopping point tomorrow. The hours are from 3 to 8 o'clock.

Added to the charm of the apple blossoms there will be children in the following folk dances: "The Norwegian Mountain March," "The Lassies' Dance," "English Harvest Dance," "The Highland Schottische," "The May Pole Dance," and "The Archers Drill."

Mrs. Howard Honored.

At the convention of regents and delegates of the Minnesota D. A. R., held yesterday morning in the assembly rooms of the U. C. T. in Minneapolis, Mrs. Jay Cooke Howard of Lakeside was elected chairman of the Minnesota committee, which will cooperate with the national association for welfare work among women and children.

Reports were given from the recent national convention in Washington and as a result of the unpleasantness which occurred at that convention Minnesota voted not to send another dollar to Washington except for actual dues. The funds raised in the state hereafter will be kept for the Sibley House fund or for patriotic work.

Other routine work was transacted. Mrs. Charles Kieth was the delegate from the Greysolon du Lhut chapter and Mrs. W. H. Burris, the registrar and Mrs. W. H. Burris, the registrar of the Minnesota D. A. R., was also there.

CARING FOR CHILDREN'S WELFARE IS HER WORK

MISS LYDIA M. THIELE.

Miss Lydia M. Thiele, the new directing nurse engaged for the Duluth Consistory by the Scottish Right Masons, has been spending the week getting acquainted with the field and getting settled in her office in the new Masonic Temple.

"From what I know of Duluth," she said this morning, "I feel that it is a pretty good field to work in. I have been meeting the doctors and the other nurses in the city, and of course, my plan of work is very vague at present. I expect that it will take a few months to get hold of the work and to really get it running smoothly.

"My work will be chiefly specializing on 'Infant Welfare.' By that I mean aiding the parents in learning what is best for children and in helping the parents to care for them when they are ill.

"I shall have to depend upon the doctors and other interested persons to bring me into contact with the people, and I hope to do it so that when my work really gets started."

Miss Thiele is from Milwaukee and has had considerable experience in the work in which she is to engage. She is a graduate of the Chicago hospital, Chicago, and has been supervising nurse in two sanitariums.

Her office is the room in the temple on the second street entrance floor known as the Secretaries office and can be reached over the Masonic Temple telephones. Her office hours will be announced later.

Surprise Party.

Miss Pearl Despin was pleasantly surprised by a number of her friends last evening at her home, 530 Twelfth avenue east. The evening was spent with games and music and refreshments were served. Among those present were:

Misses—
Marion McDonald, Geraldine Black,
Agnes Blanch, Mildred Kelly,
Mellicent Despin, Pearl Despin.

Messrs—
James Smith, Paul Miller,
Bernard Mc- John Murey,
Donald, Philip White.
Charles Curn,

Hostess at Dinner.

Mrs. M. F. Beaudoin of 311 East Sixth street was hostess at dinner last evening at her home, in compliment to Miss Theresa Beaudoin. Pink and white was the color scheme carried out with carnations, and eight covers were laid.

Musicale.

A pleasing program was presented this afternoon at the musicale at the home of Mrs. C. A. Congdon given for the Young Women's Christian association. A large number of guests attended and were pleased with the following program:

Vocal solos.....
a "April Rain".....Woodman
b "The Nightingale's Song".....Nevin
Mrs. Mark Baldwin.

Readings.....
a "The Child".....Annie
b Poems by Kipling and Browning.....
Mrs. Robert Liggitt.

Vocal solos.....
a "Like a Rosebud".....Laforge
b "Sehusch't".....Costello
c "Dearest".....Homer
d "Uncle Rome".....Homer
Miss Mary Bradshaw.

Bridge Luncheon.

Mrs. L. S. Loeb of 1123 East Superior street entertained at luncheon yesterday noon at the Panton & White tearooms for Mrs. R. A. Swain of Minneapolis, Mrs. D. L. Fairchild's guest.

The centerpiece was of dark red peonies, and covers were laid for eight. After the luncheon the guests played bridge, the card prize going to Mrs. Edward Windom and the guest prize to Mrs. Swain.

Piano Recital.

Miss Lydia Johnson will present some of her piano pupils in a recital tomorrow evening at the Bethany Swedish Lutheran church, Twenty-third avenue west and Third street. They will be assisted by Mrs. A. B. Siewert, pianist, and J. G. Anderson. A well selected program has been prepared and a large attendance of parents and friends is anticipated.

Cards at Four Tables.

Mrs. C. F. Barncard of 2723 West Fourth street entertained at cards yesterday afternoon at her home, four tables being used. The prizes were won by Mrs. Hiets, Mrs. Warner, Mrs. L. Ramsted, Mrs. Yax and Mrs. Cadott. The other players were:

Mesdames—
R. Mitchell, L. Ebner,
J. Peer, R. W. Smith,
A. McDonald, R. W. Stebens,
J. Shumacker, Milligan,
Cossel, Waldren,
Banker, Knutson.
Miss Margaret Cadott.

Seats Chosen.

A big crowd of musical enthusiasts gathered at the Lyceum theater this morning when the plan opened for subscribers to the concerts of the Minneapolis Symphony orchestra. The box office people were busy all morning and while the subscription is larger than previous years it is more evenly distributed over the three concerts, and tomorrow morning there will be a large number of the best seats left that can be secured early by the general public.

Special attention is given to the Symphony night next Friday when Beethoven's great Eroica Symphony will be played complete. This will be one of the strongest attractions of the festival. At the same concert the ever popular concertmeister, Czerwonky, will play Ernst's brilliant Hungarian airs for violin: Marcus Kellerman will sing Wotan's Farewell from Wagner's "Die Walkuere," and Agnes Staberg Hall will sing Verdi's well known aria, "Ah fors e lui" from Traviata.

Personal Mention.

Miss Etta Lee Newstrand of the Ashtabula Terrace left yesterday for a two weeks trip to Minneapolis, Chicago and points in Iowa.

* * *

Mrs. A. H. Comstock of 1320 East Superior street has closed her home and left today for Deerwood to open her summer cottage there.

* * *

Mrs. M. Loeb of Legonier, Ind., has arrived to spend the summer at the home of Mr. and Mrs. L. S. Loeb, 1123 East Superior street. She is Mr. Loeb's mother.

* * *

Mr. and Mrs. A. E. Gilbert of 1601 East Superior street are in Vancouver, B. C.

* * *

Mrs. George Server of 22 Seventh avenue west is visiting at Black River Falls, Wis., for a few days.

* * *

Mrs. G. H. Carmichael is the guest of relatives in St. Paul.

THE EVENING STORY

"The Course of Justice"

By Herbert Jamieson.

There were furrows on the brow of Mr. Turner as he ate his bacon at breakfast. There was a suggestive droop of Mrs. Turner's mouth as she poured out the coffee. The affair of the butcher's horse was weighing on both their minds.

Had it been their own butcher, the matter would have presented a much less serious aspect, since the Turners were large consumers of meat, and their own butcher would probably have stayed his hand before venturing on litigation that would certainly lose him most important customers. But it was not their own butcher. It was a strange butcher, a rival butcher—one who had pleaded for their custom and been curtly refused—a thoroughly typical butcher, with a fiery face and a still more fiery temper. Certainly a man to be feared, although his name was merely Brown.

"In three days, Alton," said Mrs. Turner gloomily, "we shall know the worst."

Although they had not been speaking of the matter, Alton Turner recognized at once to what "the worst" referred.

"Perhaps we shall, Ethel. Perhaps we shan't. The case may not be decided in one day; it may drag on for several. Already heavy expenses have been incurred; heaven only knows what in the end my lawyer's bill will amount to. And if the case goes against us, and I am mulcted in both damages and costs—oh, it's awful!" and he pushed away from him his half eaten breakfast.

The case was this: One morning the butcher's boy—an amorous youth—was on his usual round, and, as usual, flirting with kitchen belles. Whilst he was hidden from the street on one of these interesting missions, a dog—the Turners' dog, Brown, the butcher, alleged—sprang at the horse and fastened itself on its leg. Result: Impetuous flight of the aggravated steed, and its subsequent death by impalement on spiked railings. Further result: A claim for $250 (alleged value of horse) preferred by William Brown, and utterly repudiated by A. Turner.

Now there were witnesses to show that the dog was Turners' and there were, of course, witnesses to swear that the dog had no resemblance at all to Turners'. So far so good; but the Turners' case had, admittedly, one weak point. Their dog could not definitely prove an alibi. He had been loose and roaming around the neighborhood at the particular moment that the horse had met his end; moreover, a servant (dismissed a month ago from the Turner's employment for insubordination) swore that he had returned home that morning with a distinctly guilty look on his face. Furthermore, the fact that the dog was not altogether one of quiet instincts was another point that did not tell in his favor.

Mrs. Turner left her place at the breakfast table, and, crossing round to her husband, laid her hand affectionately on his shoulder.

"I wish I could do something to help you, Alton."

"I'm sure you do, Ethel."

"Well, I've been thinking. Who is the case to come before?"

"Justice Thornton."

"Ah, he has the reputation of being rather a good sort, hasn't he?"

"I shall know better after Tuesday."

"Well, this is my idea. You may reject it, but at least hear me out. I've been able of late to save a little of my housekeeping money. What do you say to my sending a case of whisky with my card enclosed, as a present to the Judge who is going to try the case."

In utter amazement Mr. Turner grasped the edge of the table and stared blankly at his wife. Was she speaking seriously? Her face implied that she was.

"My dear girl, it is utterly impossible."

"But why?"

"It would be bribery and corruption."

"I don't exactly see why. The gift would be from me, not from you."

"My dear Ethel, in the eyes of the law husband and wife are as one. I cannot listen for a moment to your suggestion. Justice Thornton would put the worst possible construction on such a present at such a time. He would decide the case against me before it ever came into the court. You must utterly dismiss from your mind the notion of doing such a thing." Mrs. Turner's lips pouted.

"Alton, I only wanted to help you."

They had not been married very long, and Mr. Turner dissolved the pout in the usual way.

That same afternoon Mrs. Turner had a visitor. It was the wife of Brown, the butcher, with whom, of course, their social circles not meeting, Mrs. Turner had not the slightest acquaintance. Still, impelled chiefly by curiosity, she condescended to see her—after first going upstairs and putting on her very best dress.

"Good afternoon!" said Mrs. Turner, loftily, sailing into the room.

Had Mrs. Turner but known it, this high and mighty attitude was totally unnecessary with Mrs. Brown. The latter was not in the least like her husband. She was small, insignificant, timid, retiring, and her bearing was apologetic from the first. Moreover, she was far too nervous to notice Mrs. Turner's dress.

"Good afternoon! Er—I came about this unfortunate affair of your dog."

"Pardon me—not our dog! An entirely strange dog! Yes, what about it?" Mrs. Brown showed signs of collapse at this early frustration of her conversational plans—in fact, her plan of campaign tottered.

"Oh, I am so sorry, Mrs. Turner, at the whole thing."

"Yes, and you ought to be. But you didn't come here to tell me that, did you?"

"Er—no! I came with a proposal."

"Has your husband decided to withdraw his case? That is the only proposal I can listen to."

"No, he hasn't. But he has authorized me to say this. If Mr. Turner agrees to pay $300 today—$200 for the value of the horse, and $100 towards our legal expenses, Mr. Brown will at once refrain from any further action." No description could do justice to Mrs. Turner's look.

"My good woman, you are crazy. I answer for my husband—no, certainly not! Your coming here at all is a clear case of contempt of the court. If you've really nothing more sensible to suggest, please go! It is quite impossible for our relations to be friendly after the wicked and atrocious action that you and your husband have taken against us, and this visit merely aggravates your conduct. Good day!"

Mrs. Brown backed out of the room.

For nearly fifteen minutes Mrs. Turner sat, writhing. Why had she listened to the woman at all? The dignity with which she (Mrs. Turner) had behaved throughout the interview did not, unfortunately, help to palliate the bitter taste which it had left in her mouth.

Mrs. Turner went into the hall. On the hall table the odious creature had had the insolence to leave three visiting cards—two of her husband's and one of her own, according to the recognized etiquette. To think that a butcher's wife boasted visiting cards, or knew anything at all of etiquette!

Mrs. Turner was holding the pieces of pasteboard in her hand, ready to tear them into fragments, when an idea came. It was a splendid idea, if a revengeful one. The breakfast conversation with her husband that morning had borne astonishing fruit. To go into the dining room, insert one of Mr. Brown's visiting cards in a clean envelope and put it safely away was the work of a minute. To don outdoor clothes and sally forth in the direction of the stores was the work of a few more minutes.

Mrs. Turner arrived at her grocer's, who was, of course, a wine and spirit merchant as well. The grocer greeted her with a smile. The Turner's paid ready money everywhere, so she was always welcome. "I want you to send me six bottles of whisky in a case, please."

"Yes, madam, what brand?"

"Well, it's to be a present—for a friend. What kind would you recommend?"

The grocer suggested a brand at two dollars the bottle. Mrs. Turner did a rapid mental calculation of the cost of six bottles at that figure, and thought it would do. "There's six dollars for the case. You'll send it around to our house tonight?"

"Certainly, madam, without fail."

When the whisky arrived, Mrs. Turner opened the case. But it was only to insert that same blank envelope, containing Mr. William Brown's visiting card. Then she resealed the case, first making sure that the grocer's name did not appear anywhere on it, and, in a disguised hand, affixed a label addressed to Justice Thornton, Carter Peterson did the rest the next morning.

The day of the action, Brown vs Turner, arrived. Mrs. Turner arose in high feather. Was she not sure of the issue of the trial? was not their case already won? Of course, after the bribery and corruption that he supposed William Brown guilty of, Justice Thornton would inevitably give a verdict in Turner's favor, even though he might already be sampling one of the bottles.

Alton noticed his wife's mood at breakfast. "You seem in very good spirits this morning, Ethel."

"I've an inkling, a premonition, that we are going to win today."

"I wish I had. I hear Brown has spent money left and right in getting witnesses as to our dog's character. Are you coming to the court?"

"No; I don't think it's-er-quite a woman's place. I shall stop home. please to telephone the result of the case directly it is known. Keep up your courage, Alton! Our cause is so right that I feel sure we must win."

Mrs. Turner waited for the promised telephone message, but it did not come.

She sent out andb ou ghtan evening She sent out and bought an evening paper, but it evidently did not consider the case of sufficient importance to chronicle. The trial was certainly unduly protracted. When Mrs. Turner was really getting anxious, Alton staggered into the house, calling loudly for a brandy and soda. She had sufficient feminine judgment to supply the desired refreshment before she put the question that was trembling on her lips.

"Alton, we've not L——?"

"Yes, we've lost."

"Lost?" repeated Mrs. Turner in horror stricken tones.

"Yes, and I've to pay all the fellow's costs as well as my own. It will run altogether into nearly $750."

"But-er-it's incredible!"

"So one would have supposed. But the judge was hostile to me from the first. I could read it in his eye. The evidence was clearly in my favor, and yet he summed up dead against me, and, of course, Brown got his verdict. If you'd heard all the evidence, you would have said that I ought to have won hands down. Oh, it's perfectly monstrous!"

Mrs. Turner tried to administer consolation. Truth to tell, she was as much upset as her husband, and none of her remarks brought much comfort to either of them. What had happened? Why had the judge been so prejudiced against her husband? How had this miscarriage of justice occurred? Next morning she went around to her grocer's.

"About that case of whisky you sent around to me, Mr. Sands. Are you quite sure that there was no paper inside with our name upon it?"

"I don't think so madam. But I'll call my assistant; he packed up the case." The assistant, who chanced to be a new man, appeared, and was questioned.

"No, sir, nothing—at least nothing but a receipted bill for the twelve dollars, made out in Mrs. Turner's name. I slipped that down between the bottles. I thought it was your custom sir, to inclose receipts with paid for goods."

Mrs. Turner has decided never again to interfere with the due administration of the law.

TEA ROOMS OF GLASS BLOCK TO CELEBRATE

Special Festivity Tomorrow to Mark First Anniversary.

A Special Birthday Luncheon for 50 cents from 12 to 2 and a Special Birthday Dinner for $1.00 from 6 to 8 will be served in the Tea Room of the Glass Block Store on Saturday in celebration of the first anniversary of the opening of the Tea Rooms May 27th, 1910. It is announced that the management of the Tea Room will fairly outdo itself in the sumptuousness of its Birthday Repast. The anniversary marks the close of a very successful year which has established the Glass Block Tea Room as one of Duluth's most popular institutions. It has proved not only a comfortable resting place for shoppers or diners-out to secure a first-class dinner or luncheon, but it also gives the Duluth shopping district a metropolitan tone that Duluthians may be well proud to uphold.

Bridge parties, dinner parties and luncheons have found the Tea Room of delightful service. The Glass Block Store and its management are to be congratulated on the successful way in which the Tea Room has been launched and on the splendid service it has given the public.

The Birthday celebration of tomorrow will include special music during luncheon and dinner hours, La Brosse's orchestra playing during dinner. Pretty birthday favors will be presented to each dinner and luncheon guest. Through the courtesy of the Glass Block management afternoon tea and cakes will be served to all visitors gratis from 4 to 5 tomorrow afternoon.

The Housekeeper's Hands

By CONSTANCE CARRUTHERS.

I want to give a few hints for those who have to do housework on how to take care of the hands. I think it is hardly necessary for me to remind you that on all occasions, except when working with water, to wear a pair of large, strong gloves, made either of kid or chamois leather. An old pair of your father's will do nicely, only make sure there are no holes in them.

If you have ironing to do do not forget the gloves; they will prevent your hands blistering, and keep them from getting red and shiny.

You should have two pairs of gloves going at the same time—one pair for doing up the grates and another pair for cleaner work.

There is a certain kind of glove sold now, made of rubber, which may be used when you are washing dishes or anything except clothes. If, however, you find these clumsy to work with, just use your uncovered hands and remember afterwards to give them a thorough cleansing in warm water with plenty of good soap.

If you have some blouses or other garments to wash out, you will find after the process that your hands are all wrinkled and dried up—in fact, very unpleasant indeed to look at. The hot water has robbed the hands of their natural oil; you must take artificial means of restoring it.

The best way is to dip them in pure olive oil, rubbing as much in as the skin will absorb. Then dust all over them some fine oatmeal. This will not only bring back the natural gloss of a well-kept hand, but make the hands soft and white.

After paring fruit which leaves a stain on the fingers pass the stained parts through the fumes of a sulphur candle, which will speedily eradicate them. Some stains will be effectually removed by rubbing a lemon over them.

Always keep a bottle of lemon juice and rose water beside you in the kitchen, and when your hands are looking unduly red and rough rub a little of the lotion into them.

Use equal quantities of each ingredient and mix them well up together before using.

The lemon juice acts as a whitener to the skin and is wonderful in its effects.

Take care of the hands while you are doing needlework too, and do not allow the skin of your forefinger to become all ragged and unsighly through pricking it with your needle. Use a finger cap when you sew.

There is really no excuse for housework who allow their hands to get unsightly. A little care is all that is necessary to keep the hands from becoming rough, red and disfigured with fruit and vegetable stains.

German Measles.

In certain of its manifestations German measles, or rubella, is difficult to distinguish from other and more specific fevers. From these, however, it may be differentiated by certain signs. In the first place there are as a rule no preliminary symptoms, no running at the nose and eyes, no drowsiness, but the rash makes its appearance as the first symptom.

This, in the majority of cases, commences on the face and scalp, as separate pale pink spots, but sometimes the spots come out simultaneously on face, body and extremities. If the face be affected alone at first the rash often disappears within twenty-four hours, after which it will come out on the body and arms; lastly the legs will show the spots.

The rash in most cases becomes so thick on the trunk and limbs that the appearance is very much like erythema, the skin being of a uniform pink rather than "spotty." There is also a resemblance to mild scarlet fever, as the rash has by that time disappeared from the face. Sometimes the separate spots fade and vanish without becoming confluent. The duration of the rash rarely exceeds three days; often it lasts for a shorter period. The fever seldom lasts for more than twenty-four hours. In some cases there will be a slight peeling of the skin after the disappearance of the rash, not unlike that which occurs in scarlet fever.

Diet and Cancer.

It has long been felt that there is some connection between cancer and diet, some theories being advanced in fat contradiction of others. For example, too much fish is held by some persons to encourage cancer, but whether that is based obscurely on the word cancer being the Latin for crab I do not know.

There are some who say that all meat foods tend to produce the disease or conditions predisposing to it, and others who argue that a vegetarian diet does nothing towards preventing it. Of late years much time and money have been expended on cancer research and now two London hospitals are going to make a definite attempt to investigate the connection between diet and cancer. A special number of patients suffering from the disease in an advanced stage—inoperable cancer, as it is generally called—will be placed on a special dietary and the results carefully noted.

WHY HE WEPT.

London Globe: Many good stories are told about the great house of Rothschild, whose London head celebrates his 70th birthday tomorrow. One of the most amusing is that of the poor old Jew, who, when Baron Lionel died is said to have stood at the entrance in New Court weeping bitterly. His acute sense of the heart of apparent distress touched the heart of one of the porters, who trying to console him said, "Don't carry on so, old man, it isn't as if you're one of the family."

"Ach, dat's vy I cry," exclaimed the man with a fresh flood of tears.

The Doctor

Convulsions.

Mothers should realize that the brain of an infant is far more unstable, far more easily upset than that of an adult. Hence it is that convulsions so readily and so often occur.

Convulsions may be simply described as a sudden and abnormal discharge of nervous energy from the brain. This discharge is usually due to some "reflex" exciting cause acting in some other part of the body, the stimulus passes up to the brain and the nervous discharge is fired.

Common exciting causes of convulsions are the local irritations of teething, of whooping cough, croup, constipation, the initial rise of temperature of an acute fever (measles, scarlatina, pneumonia), and even worms, particularly the large round variety.

In addition to these in the general condition of malnutrition, called rick-

WEST END

WILL BURN A $3,000 MORTGAGE

First Norwegian Church Has Indebtedness of But $5,000.

Thursday, June 1, will be a red letter day for the First Norwegian-Danish M. E. church, Twenty-fourth avenue west and Third street.

With impressive ceremonies, a mortgage of $3,000 against the church, which has recently been paid, will be burned. The indebtedness is now reduced to $5,000, all that is left to pay on a $27,000 structure, erected five years ago.

P. George Hanson, oldest member of the congregation, will be master of ceremonies. In that capacity Mr. Hanson will read a brief resume of the church's history. Other speakers will go more in detail on the activities of the church and the good that is being accomplished in the community.

Miss Valborg Gunderson of Superior, a violinist; Prof. J. T. Morck of Superior, a pianist, and the Normanna Male chorus will contribute to the musical program. J. J. Moe is chairman of the committee, having the celebration in charge.

WEST END BOY DIES OF HEART DISEASE.

Ernest Raymond Morterud, aged 17, died this morning at the home of his parents, Mr. and Mrs. P. L. Morterud, 2626 West Fifth street, of heart trouble. The boy had been afflicted for three years and his death was not unexpected.

Besides his parents, he is survived by two sisters, Hazel and Olive and a brother, Lester. He was musically inclined and played in the Sunday school orchestra in the First Norwegian-Danish M. E. church as a violinist.

Arrangements for the funeral are incomplete. It is probable that the services will be held Monday afternoon. Rev. Edward Erickson, pastor of the Norwegian-Danish M. E. church will officiate.

BUYS INTEREST IN WEST END BUSINESS.

Alfred O. Anderson, for many years connected with Johnson & Moe and J. J. Moe & Sons' company, as advertising manager and general salesman, and more recently connected with the R. R. Forward & Co. and Enger & Olson furniture stores, has gone into business for himself. He has purchased an interest in the new Anderson-Thoorsell Furniture company, buying out J. H. Thoorsell, one of the original partners of the firm. The concern will not change its name, at least for the present. The other member of the firm is A. B. Anderson.

Meyers Funeral.

The body of Charles B. Meyers, aged 44, railroad brakeman, and until recently a resident of 2304 West Helm street, who died in Minneapolis, Tuesday, was brought to the West end yesterday. The funeral was held this morning at 9 o'clock from the St. Clement's Catholic church, Twenty-first avenue west and Third street, with burial at Calvary cemetery. Meyers was employed by the Northern Pacific railroad. Death was caused by tuberculosis.

West End Briefs.

E. C. Chapman of 2013 West Superior street was called to Shakopee, Minn., yesterday on account of the death of his brother, E. G. Chapman, who died Wednesday after a long illness. He was a former resident of the West end. Besides his brother, he is survived by his parents, residing at Charles City, Iowa.

The revival services which are being conducted at the Swedish Mission church, Twenty-first avenue west and Second street, by Rev. Malcolm Magnuson of Chicago are being attended by large crowds. Sunday afternoon at 4 o'clock a special service will be conducted by Rev. Mr. Magnuson for the young people.

The wedding of Miss Edith M. Osterson and Harry W. Baker took place last evening at the home of the bride's mother, Mrs. Christine Osterson, 421 North Twenty-seventh avenue west. Rev. J. J. Daniels, pastor of the Swedish Mission church, officiated. They will make their home at Fort Rock, Or.

G. W. Merrick, who has been visiting at the home of his daughter, Mrs. George D. Jewell of the United States block, has returned to his home at Spring Prairie, Wis. Mr. Merrick was accompanied by Mrs. Jewell, who will spend several weeks on a visit at her former home.

The Adams Athletic association entertained at a dancing party last evening at Lincoln park pavilion.

Mrs. Joseph Gibson of 3801 West Fifth street left yesterday for Austin, Minn., on account of the serious illness of her father, R. P. Davidson.

The Alpha Delpha club of the West end yesterday afternoon enjoyed a "hike" over the boulevard from Lincoln park to Cascade park. The party was chaperoned by Mrs. T. A. Redgrove. Among the "hikers" were: Misses Ruby Gorman, Edna Gorman, Frances Berg, Lila Leonard, Eva Adams, Gisa Perry, Mabel Cummings, Ruth Murray and Messrs. Warren Hoppstrange, Raymond Lutes, Alden Burg, Ewald Lund, Gaylord Halverson and Ralph Lutes.

BEMIDJI PUPILS' WORK BEING SHOWN

Feature of Closing of School Days in Beltrami County Seat.

Bemidji, Minn., May 26.—(Special to The Herald.)—The city schools will close Friday, June 2.

This afternoon, beginning at 2 o'clock, there will be shown, at the high school building an exhibit of the work of the pupils in drawing, industrial work and manual training, giving everyone who is interested an opportunity to note just what is being done in that line.

This evening the junior class of the high school will give a reception and ball to the senior class, at the city hall. The ball will be an elaborate affair; and attendance is by invitation only.

Sunday evening, at the city hall, Rev. Charles E. Flesher, pastor of the M. E. church, will preach the sermon to the members of the high school graduating class.

Thursday evening of next week, at the city hall, will be held the graduating exercises of the eighth grade class, with appropriate program.

The graduating exercises of the senior class will be held at the armory Friday evening, June 2. The exercises in connection with the presenting of the diplomas will be of a high order. Dr. Frank Nelson of Minneapolis, president of the Minnesota college, will deliver the address of the evening.

FIRE CAUSES A $4,000 LOSS

Blaze Breaks Out in Basement of Furniture Store.

The stock of the furniture store of John H. Thomasson, 18 Lake avenue north, was damaged to the extent of about $4,000 last night by fire which started in the basement.

It burned an hour before it was finally extinguished. It is supposed to have been caused by spontaneous combustion. The janitor was in the building when he noticed the smoke. Unable to locate the blaze he turned in an alarm for the fire department, which was soon playing water on the flames. They were largely confined to the basement, but occasionally broke through the floor. The basement was filled with a large quantity of leather finished and polished stock, and had the fire not been discovered in the early stages it would have resulted in a disastrous conflagration. A number of people who were attending a meeting in the lodge rooms of the I. O. O. F. made a hasty exit to the street when the smoke began coming in upon them. No one was injured.

DECORATION DAY BLUE SERGES AT THE COLUMBIA

At Third Ave. West

A good blue serge suit is always popular, so much so that we seldom advertise them specially. But what a difference there is between blue serges and blue serges! How well the look depends entirely on the material and the dye. To be right a blue serge suit must be made of absolutely pure worsted yarns and tailored by men of more than average skill. That's what Columbia blue serges are. The best tailors in the employ of the Stein-Bloch, Sincerity, Society and Sampeck shops made ours.

BLUE SERGES IN MEN'S STYLES AT

$10, $15, $18, $20, $25, $27.50 and $30.

Blue Serges in Young Men's Styles at $10, $15, $20, $25 and $30.

Blue Serges for Boys and Children at $4, $5, $7.50, $10, $12.50 and $15.

These blue serges for boys are best of all for CONFIRMATION SUITS.

Decorate Yourself Now for the Fine Days to Come

Our Furnishing Sections for men and boys are now at their very best.

Fancy Vests at $1.69

A special for this week. Flannel, silk mixtures and washable materials. Regular $2.50 to $5 ones. Sizes 34 to 44.

Soft Collars

very much in vogue this season. Beautiful patterns with ties to match at 50c for both. Separate soft collars in tan, white, blue and gray, at 15 cents—2 for a quarter.

Wash Neckwear

entirely different from the ordinary stuff shown by most stores. Ours are from the best makers. 25c, 50c and $1. Just the tie for summer wear.

French Cuff Shirts

French flannels, silk, Madras and Percales are the materials. Some have soft collars to match. Some we imported direct from Japan, others by America's foremost shirtmakers, as Manhattan's, Wilson Bros.' Faultless and Columbus. A nobby one for $1.50. Others at $2, $2.50, $3, $3.50 and $5.

Summer Belts

Everything in belts is here—that's all. Sizes 30 to 50 inches. Prices, 50c to $2.50.

WILL TEACH FARMING.

Cloquet Agricultural School Work Begins Next Week.

Cloquet, Minn., May 26.—(Special to The Herald.)—R. C. Shifflet, who will be in charge of the agricultural work of the Cloquet schools, will arrive next week from Oklahoma, and will at once begin the work. Ten acres have been secured from the Martin Nelson place, west of the city, and this will be used for the teaching of farming. It will be apportioned to as many school children as can be induced to try gardening, and it is expected that at least 200 boys and girls will get in on the proposition. Prizes have been offered for the youngsters who show best results from their labors this fall, and it is expected that the prize money will be increased.

DEMAND SINGLE MORAL STANDARD

Club Women at Bemidji Hear Talks on the Social Evil.

Bemidji, Minn., May 26.—(Special to The Herald.)—Demanding one standard of morals, which would call for the scarlet letter for men that now brands the wayward woman, and asserting that 50,000 women give up their lives yearly from diseases brought about by lax moral standards, Dr. Ethel M. Hurd of Minneapolis, in an address on "Social Hygiene," at the closing session of the Ninth District Auxiliary of the Minnesota Federation of Women's clubs, created a profound impression.

"We want to educate the woman and the rising generation of womankind to demand a single standard of morality," she said. "We urge them to ostracize the fallen man to the same degree that they ostracize his paramour. It seems to me that something must be done, when we consider that 50,000 women die annually of diseases for which men are to blame. Of all the operations upon women, 75 per cent are due to the same cause. Fifty per cent of all cases of locomotor ataxia, general paresis, brain tumor and many others are due to these diseases also.

Women Must Act.

"The greatest psychological characteristic of woman is the consideration for the welfare of her offspring, and for this to become effective, social purity must prevail. It will never prevail until it is demanded by women, and the women will never demand it until they realize fully the conditions that exist."

Mrs. H. A. Tomlinson of St. Peter, federation vice president-at-large, in discussing Dr. Hurd's talk, said to the delegates:

"There is a great work to be done, but we cannot do it without the cooperation of the men. You may not realize it, but the men want this reform brought about just as much as we do. At the last session of the legislature in Iowa a petition was presented asking for a bill to provide for the quarantine of such diseases. Nearly all of the signers of this petition were men."

Mrs. Tomlinson urged, and the clubwomen favored, such a bill for Minnesota.

Fergus Falls was chosen for the next meeting of the Ninth district convention, to be held in May, 1912. Mrs. Samuel Rosenthal of Crooksaon was elected treasurer for two years, and Miss Amy Lewis of Fergus Falls, secretary for one year. A banquet, at which forest flowers were profusely used as decoration, was the crowning event of the convention.

UNITARIANS HEAR OF NATIONAL CHURCH.

Boston, Mass., May 26.—The question of a national church at Washington, D. C., was presented to Unitarians today in an address by John D. Long, former governor of Massachusetts, at the meeting of the Laymen's league, one of the features of the closing session of the Unitarian convention here.

Iron Ore Near Brainerd Limits.

Brainerd, Minn., May 26.—(Special to The Herald.)—A find of rich iron ore is reported near the city limits of Brainerd, northeast of town near Whiteley creek. The ore is said to be some of the richest and best ever struck on the Cuyuna Iron range.

HEAD OF MINNEAPOLIS GREEK CHURCH DIES.

Mason City, Iowa, May 26.—While attending a conference with the labor commissioners of Minnesota and Iowa here last night, P. S. Marcosis, a wealthy resident of Minneapolis and president of the Greek church of that city, dropped dead.

He was 40 years old.

Bankers Select Officers.

Kansas City, Mo., May 26.—Officers for the ensuing year were elected by both the Missouri and Kansas bankers' convention here and in Kansas City, Kan., yesterday. The president for Missouri is A. U. Waite, Joplin; for Kansas, John R. Lindburg, Pittsburg, Kan.

Lumberman Visits Cuyuna.

Brainerd, Minn., May 26.—(Special to The Herald.)—Roger R. Hill, secretary of the C. M. Hill Lumber company, visited the Cuyuna range yesterday in company with B. Magoffin, Jr., inspecting the properties of his company in sections 9 and 10, 46-29. The company will put down two mines and has recently struck some of the best ore on the Cuyuna Iron range.

Don't Pay $15 or $18

For your new suit. Get it at the "3 Winners" tomorrow for only $10. 115 East Superior street.

Believe Iowan Was Murdered.

Fort Madison, Iowa, May 26.—The body of William Sowerwine, Jr., who disappeared from Burlington last Saturday, has been found floating near here in the Mississippi river. The police suspect foul play.

More Gifts for the June Bride

We doubt if there is a store in the city can show you a wider assortment of acceptable and useful gifts for the June Bride!

You will find here hundreds of articles to choose from—Silverware, Cutlery, Cut Glass, Coffee Percolators and Machines, Tea Pots, etc., etc.—all priced rightly and backed with our "money-back" guarantee.

A FEW SUGGESTIONS:

Stag-Handled Carvers

In neat well lined case —excellent value at... **$3.75**

Pelouze Electric Stove-Toaster and Griddle

This new Combination Stove-Toaster and Griddle will cook Most Everything in Less than Five Minutes—Toasts in forty-five seconds — Bakes Griddle Cakes in fifteen seconds.

It is absolutely **impossible** for the bread crumbs to burn—no smoke—no odor—no dirt. The easily removable crumb tray insures cleanliness. **Beautifully nickel-plated. The legs and mountings are cast bronze... $10**

The Heating Element is Constructed on an entirely new principle, called the "Radiant Suspension System." It utilizes nearly all the heat with unequaled speed and consumes only 450 watts.

GREAT NORTHERN RAILWAY

RAILROAD NEWS

CAR TOURED NINE STATES

Northern Pacific's Exhibition of Minnesota Products Seen By 165,000 People.

Car Will Be Restocked and Sent East in the Fall.

The Northern Pacific exhibit car has returned from its tour of the Middle West, having been continuously in service from November 26 to May 20.

In all, it has been visited by 165,000 people, 22,000 of whom registered their names and addresses as being definitely interested in the Northwest, and desirous of securing full information in regard to the possibilities for home-seekers and investors. Of those registered 6,300 were interested in Minnesota. The total number of visitors, namely, 165,000, were adults, there being at a conservative estimate, over 50,000 school children who visited the car, but of whom no count was taken.

In its travels the car distributed 173,825 pieces of printed matter, a large share of which was taken by those who registered as being definitely interested in the Northwest.

The car exhibited in nine states as follows: Minnesota, Wisconsin, Iowa, Kansas, Missouri, Illinois, Indiana, Michigan and Ohio. It was accompanied constantly by two representatives of the Northern Pacific who traveled with the car throughout its tour, and they were joined at different times by the traveling representative in whose territory the car happened to be. These men all combined their efforts to make the work effective by explaining the various exhibits and the sections from which they came, telling of the yields per acre which are secured by Northwestern farmers, telling of the value of fruit crops raised and the prospects for wage earners and business men in the cities and towns. This spring has seen a very heavy movement of homeseekers into the Northwest and the Northern Pacific ascribes a good deal of the business to the effect of this exhibit car.

The railway company is already planning to restock the car with samples of products raised this season and start it out this fall in eastern territory and along the Atlantic seaboard.

CANADIAN NORTHERN SETTLES WITH MEN.

Winnipeg, Man., May 26.—The Canadian Northern railway has announced an amicable settlement with its car men between Port Arthur and Edmonton. The company grants a new wage scale, an increase of 2 cents an hour beginning May 1 last, and an additional 1 cent an hour each year from now on. The new wage scale ranges from 22½ to 37 cents an hour. Improved working conditions were also granted. Fifteen hundred men are affected.

ENTRANCE TO CHICAGO

Grand Trunk Pacific Will Use the Great Western Tracks.

Report That It Will Enter Duluth Over Northern Pacific.

The Grand Trunk Pacific, it is reported, will use the Chicago Great Western tracks between the Twin Cities and Chicago, and will gain entrance to the Twin Cities over the Northern Pacific from Winnipeg. The Chicago Examiner says that the Grand Trunk will enter Duluth from St. Paul over the Northern Pacific. There is nothing on which to base this assertion. The local offices do not know of such a traffic arrangement, and doubt if it even is in prospect.

The Chicago & Northwestern and the Northern Pacific are reported to have reached an agreement whereby the Northern Pacific will run its North Coast Limited through to Chicago over the Northwestern tracks, so it can make faster time and compete with the new steel flyers of the Chicago, Milwaukee & St. Paul, which will reduce the running time between Chicago and the Northwestern coast by three hours. A slower through train now being operated by way of St. Paul and the Burlington will be continued.

Competition for Chicago-Northwestern business is strenuous. The Burlington has put on new steel coaches for women, with lounging apartments for men. The Milwaukee has decided to operate its Pioneer Limited in two sections, one comprising only sleepers and a dining car. It will be the only all-sleeping car train between Chicago and the Twin Cities. Each section will carry seven cars. The second will consist of steel coaches, baggage and mail cars, and will make regular stops. The sleeping car section will stop only at a few of the larger towns.

M. & I. RAILROAD TO INAUGURATE NEW SCHEDULE

Brainerd, Minn., May 26.—(Special to The Herald.)—A new schedule for the night train service between International Falls and the Twin Cities is in course of preparation by officials of the Minnesota & International railway. The time of the Minnesota & International, it is said, will be shortened and the train will leave here earlier for the South so as to make earlier connections, now being missed.

The Northern Pacific sidetrack spur, which is to run to the mines, has been completed at the townsite of Barrows, about four miles south of Brainerd. Ten carpenters are at work and four houses are in course of construction. Four carloads of lumber landed there yesterday morning.

"3 Winners'" $10 Suit Sale.

500 new spring suits, $15 and $18 values, all colors and sizes, on sale tomorrow at 115 East Superior street.

MARINE

ORE DEALS ARE CLOSED

Sales of 400,000 Tons Are Reported at Cleveland.

Little Further Demand Noted ——Conditions in Other Lines.

Although some of the mine owners and sales agents report that there is little inquiry for ore, two important deals were closed in that trade Wednesday and sales amounting to 400,000 tons were made. All the ore, however, is not for 1911 delivery, and only half of the amount named will be shipped this season.

The sales were made by a firm with headquarters in Cleveland. The first deal calls for 200,000 tons of high grade ore, to be delivered at Lake Michigan ports during 1911, 1912 and 1913. The ore will be taken at the rate of 100,000 tons a season. The other sale was of 100,000 tons of low grade ore to be delivered at Lake Erie ports this season. The shipper will not freight the ore, as it was f. o. b. at the upper lake ports. That, no doubt, means that the furnacemen that placed the orders are interested in vessels. The same shipper sold 50,000 tons of ore for Lake Erie delivery late last week.

A few of the shippers have done some figuring with the Bethlehem Steel company for ore, but unless the Eastern firm makes a different proposition in regard to price it is not likely that any lake ores will be sold in that market. "We are not in shape now to do business with the Bethlehem Steel company," said the shipper who made the sales yesterday.

The ore freight market is very quiet and the indications are that it will be some time before the movement is heavy enough to take care of the vessel capacity that is now in commision.

Tonnage is offered pretty freely and wild carriers that are waiting at the upper lake ports are unable to get cargoes.

From Duluth to Chicago 1¼ cents was offered on wheat yesterday for a vessel of about 100,000 bushels capacity. Big cargoes, however, are scarce and steel steamers that are offered can not be placed for Buffalo at a cent a bushel.

There is little change in the coal freight situation. Tonnage is in good demand but offerings are not very liberal and chartering is light. Shippers are still paying 35 cents for small carriers to Lake Michigan ports. Owing to the scarcity of down loads few wild carriers are taking coal for the head of Lake Superior. A leading shipper who operates a fast plant at Milwaukee is lining up vessel capacity for the season at 30 cents and it was announced yesterday that contracts would be signed during the next ten days. A block of 30,000 tons of coal to go to Owen Sound was covered this week in Cleveland. The coal will be carried by the Canadian steamers Wexford and McKee.

Chartering in the lumber trade was fairly active the past two days on the basis of $2.25 from ports at the head of Lake Superior.

MAY LET COMMITTEE SEE TRUST FINDINGS.

Washington, May 26.—President Taft probably will permit the results of the investigation of the Steel trust made by the bureau of corporations to be sent to the house committee now engaged in inquiring into the United States Steel corporation. Under the law the report of the bureau goes to the president, but it was said at the White House last night that Mr. Taft at present has no objection to permitting the house committee to look it over. The president's wishes, however, to examine the report before he lets is to go to the capitol. Secretary Nagel of the department of commerce and labor explained to the investigating committee at an executive session that the president must authorize the submission of the bureau report.

THREE MINUTES TAKEN

To Hear Testimony and Grant Decree in a Divorce Case.

St. Louis, Mo., May 26.—Three minutes after the hearing of Mrs. Katharine Bonties Brown's divorce suit against Paul Brown, Jr., son of a multimillionaire broker and tobacco magnate, was commenced, and barely three days after the filing of her petition, a decree was granted her by Judge Wurdeman, of Clayton.

Two minutes of the time were occupied by Mrs. Brown's statement to the court, made in a tone almost inaudible to others than the judge, and the other minute was given to the testimony of her only witness, Leslie Agler, Jr. Agler testified that Brown told him of having a good time in a house on Wabash avenue, Chicago, last July.

This constituted the statutory offense, which was Mrs. Brown's sole charge in her petition.

Judge Wurdeman granted Mrs. Brown $150 a month alimony for herself and $50 a month for the child Dorothy, 3 years old, and payment of this amount was secured by a bond. She had asked for $6,000 a year alimony, stating that Brown was worth more than $100,000, and heir also to millions. Custody of the child was also granted to Mrs. Brown.

WE ARE GOING TO MOVE

THIS SHOP KEEPS GOING AHEAD!

It is right in line with the business policy we hve pursued right along—we are going to move—and move up a little.

We have been opposite the postoffice for a long time, but the demands of our business—the needs of our customers—require our getting into a larger business building. We are going to make the change about July 1st, and are now fitting up a new shop at 329 West Superior street.

This shop keeps going ahead. We have become a fixed establishment in Duluth, because we deliver the goods. We are the

"TAILORS FOR DRESSY MEN"

Young men who want the smartest clothes, the snappy styles, come here, because they know we have the weaves and cut the clothes to that individuality that is all important.

Men who long have been looking for real tailoring—tailoring that has real style; garments that fit perfectly and hold original perfect style and fit up to the last minute; men who demanded garments artistically tailored and scientifically proportioned to each particular figure; all these men have come straight to us, again and again, after they had once "been shown" by

FRIEDMAN BROTHERS

We have been hitting up a lively pace—We have been giving the values that bring a man back for his next suit—and our place is no longer equal to our needs. But we have been in our present location a long time, and before we go we are going to do a little celebrating.

Celebrating means that everybody must join in. Our celebration is going to mean joy to us—we feel just about like the fellow who got a raise, and it means a great opportunity for you to buy clothes—the very best things we have, and our best workmanship — at great reductions.

EVERY PATTERN REDUCED

$30.00 Suits $22.50 *$35.00 Suits $26.25*
$40.00 Suits $30.00 *$45.00 Suits $33.75*

"MOVING-OUT SALE"

Commences Tomorrow, Saturday, May 27.

At nine o'clock we open our sales books. Pick out any pattern in our shop and we will make it up at "Moving-Out" prices.

Thousands of dollars worth of seasonable stock—nothing will be reserved. No. we are not going to give anything away. We cannot afford so expensive a celebration, but we will sacrifice every cent of legitimate profit, and will clear out every piece of goods in the house, made up to your order.

SAME WORKMANSHIP, SAME TRIMMINGS, ETC.

The reductions in price make no difference in the workmanship or materials; you must be satisfied or no sale. All the unseen parts that make FRIEDMAN BROS.' clothes famous—all the imbedded features that cause the garments to look right at the start, and stay right throughout long months of wear—all the sterling value of FRIEDMAN'S clothes goes into these clothes—same as if you were paying regular prices.

WRITES IN PRAISE OF WISCONSIN

Roosevelt Says State Is Object Lesson for Rest of the Union.

New York, May 26.—Ex-President Roosevelt has an article on "Wisconsin—an Object Lesson for the Rest of the Union," in the Outlook, in which he says in part:

"I doubt whether American students of social economics fully realize the extraordinary work that has been accomplished during the last decade, and is now being accomplished in the state of Wisconsin, under the lead of Senator La Follette and the group of entirely practical and at the same time zealously enthusiastic workers who have come into active control of the state mainly or largely because of the lead he has given them.

"We can, now at least, in many cases look for leadership to Wisconsin when we desire to try to solve the great social and industrial problems of the present and future, instead of being forced always to look abroad.

Praises the University.

"It is noteworthy that in Wisconsin, when one speaks of such leadership, it is possible to include therein the student as well as the political leader. In no other state in the Union has any university done the same work for the community that has been done in Wisconsin by the University of Wisconsin.

"I have often listened to well-meaning men who have spoken with a certain horror of Wisconsin, as if it were a community engaged in reckless experiment and in the effort to introduce impossible and revolutionary principles of law and governmental practice. As a matter of fact, it has rarely been my good fortune to meet a body of public men who are more practical and at the same time more obviously earnest in their desire to achieve ideals for social and civic betterment than the public men whom I met at Madison.

Control of Corporations.

"It is only in Wisconsin, so far as I know, that a really serious and thorough effort is being made to find out how to frame measures which shall give the people effective control over the big corporations without going into wild extravagances, and in this effort politician and student have joined hands. Again I find the legislators grappling with the question of men's compensation. • • • They were engaged in considering the introduction in the state political system of the initiative, referendum and recall. What they were considering in each case was what the practical results of the measure would be, whether it would be for good, what it would do for evil and how in actual practice it should be guarded, and to make it likely that it would secure the maximum of good at the cost of the minimum of evil.

"After my visit I felt like congratulating Wisconsin upon what it had done and was doing, and I felt much more like congratulating the country as a whole because it had in the State of Wisconsin a pioneer blazing the way upon which Americans must make their civic and industrial advance during the next few decades."

TEUTONIC'S FIRST TRIP.

Another Big White Star Liner for the St. Lawrence.

The big White Star liner Teutonic has just sailed from Montreal for England on her first voyage from a St. Lawrence port. The Teutonic is the longest steamer ever seen in the river, having an over-all length of 582 feet, and with her powerful engines of 18,000 horse-power, capable of developing a speed of 20 knots an hour, it is expected she will win the blue ribbon honors on the St. Lawrence route.

The Teutonic will carry cabin passengers in one class only and third class passengers. The cabin accommodation has been greatly enlarged, and a fine ladies' room has been added to the public rooms, which also include a spacious and beautifully decorated lounge and a smoking room. The staterooms are large and airy, and the promenade decks are broad and extensive.

The third class has also been rearranged and all passengers will be berthed in closed cabins, while the former second class dining room has been converted for their use, and a fine lounging room has been provided on deck.

The Teutonic has been a popular favorite on the Southampton-New York run, where she is to be replaced by the giant Olympic.

Furniture Men End Strike.

Grand Rapids, Mich., May 26.—The striking furniture workers last night accepted the offer of the American Seating company to give 400 employes their former positions on a basis of a nine-hour day with ten hours' pay.

O'BRIENITES TAKE FINAL

Closing Game of Red Wing Series Won By 9 to 0 Score.

Backed By Great Fielding, Worman Holds Visitors to Five Hits.

(BY BRUCE.)

Daring Patrick Henry O'Brien and his rehabilitated crew yesterday added to their standing in baseball society and swelled the percentage figures by taking the second game from the Cook Comanches by the score of 9 to 0.

Robert the Red, also known as Old Faithful Worman, was the hurling hill nominee of the soiree. Right well did the auburn top perform. But five blows were gathered off his delivery, though it must be said that Deerfoot Johnson in left, cut off two hits by swell catches, and that upon another occasion Col. Theodore Roosevelt Altermott ran back and grabbed one from the ozone that was originally intended for a hit. On still another occasion the Orator, faster than ever this season, ambled clear back of the second bag and picked off one that had a flying start for center field.

But one error marked the almost unanimous support that was given our candidate. Col. Altermott had a bubble, a slight attack of fumbleitis, and upon another occasion a ball got away from Johnson, in left. As the ball took a bad bounce and the fielder had not a chance to grab it, he is excused from a miscue.

For three dark frames, that threatened to prove as bleak and dreary as the weather we are having at the present time, young Mister Joneson let us down runless. Then in the fourth we gathered three blows and three runs, and from that rallying point the contest was fairly punctuated with the runs of the home aggregation.

Features of the matinee might be called the general cannonading of the home team and the sprightly fielding behind the sunshine twirler. The Sox are going fast, are taking chances, and are right at the present time a hard team to beat.

Three in the Fourth.

As mentioned, it was not until the fourth that we rang the run register. Then we rang up a heavy sale. In this round Menelce opened by doing the Gus Hill club-swinging act. Johnson singled past second and Holstrom drew a base. Col. Altermott hit past short, sending the speeding Johnson over. Miller hit to Gritz and forced Altermott at second, Holstrom journeying on to third. Chesty scored when Hardgrove singled between first and second, Miller going to third. Miller came home when Anderson threw to second to head off Hardgrove. Worman ended the inning by whiffing.

Two came in the next round. After Leber was down O'Brien doubled and went to third when Cook let Menelce's grounder get away. Johnson doubled to right, scoring O'Brien and sending Sam to third. Holstrom stuck his toe in the way of a shoot and Altermoot again singled, sending Menelce across. Johnson tried to score on the play, and was nipped at the plate, via the Bowman-Anderson rural delivery route. Miller forced the Colonel at second.

Piling Up the Scores.

Three more in the next round. Hardgrove was safe on an error of Gritz. He was sent to second when Worman committed suicide and went to third when Leber got his first hit. O'Brien fouled out to Black, and Menelce doubled to left field, scoring Hardgrove and Leber. Johnson singled and took another base when Kline permitted the ball to roll uninterrupted betwen his Trilbys, Menelce galloping home on the combination hit and error. Holstrom flew to Cook and the inning was ended.

Our last came in the eighth when Leber singled and pilfered the second station. O'Brien did not gather said hit, said hit being what he said before striding majestically to the plate, going down on an infield hit. Leber went to third on this out and scored when Menelce hit past third. Johnson flew to McGarry and Menelce was doubled off first.

Red Wing did not get a man to third during the fray. But eight of the Indians got to second, and at no time did the visitors threaten to score.

Rochester comes this afternoon. This attraction coupled with the fact that it is also ladies' day today, when the sweet things will not be asked for any rude money at the portcullis of the park, makes it look good for a nice crowd.

SURGEONS WIN FROM RED LEGS

Rochester Takes Close Pitchers' Battle From Taylor's Gang.

Ted Corbett mounted the mound yesterday at Superior and held the Taylorites to four measly hits, winning the only game of the series by the score of 2 to 1. He was opposed by Jenson, who was touched up for nine blows.

The game was close and exciting all the way through and was featured by the great flinging of the Surgeon leader. Corbett received errorless support and held the Red Legs safe after the third inning.

The score below:

Rochester—	AB.	R.	H.	PO.	A.	E.

EARL CUMMING LOSES TO SCHOONHOVEN'S GANG.

Eau Claire, Wis., May 26.—The champions took yesterday's game from the lowly Outcasts by the score of 8 to 7. La Crosse was one run to the good in the ninth when Chase let a grounder go through him, Chappele scoring on the miscue. Callahan hit over third, scoring the winning run. Cummings, the former Duluth boy, was on the mound for the Outcasts.

Score: R. H. E.
La Crosse.....0 0 0 1 2 0 0 2 2—7 12 4
Eau Claire.....0 6 0 0 0 0 0 0 2—8 12 3

Batteries—Cummings and Harms; Gregory, Chase and Benrud.

PIRATES STILL KEEP THEIR WINNING GAIT.

Wausau, Wis., May 26.—Winona took a 10-inning game from the Lumberjacks here yesterday by the close score of 4 to 3. Dunbar and Baker pitched great ball for the Jacks, while Frank Baillies was in rare form for the Pirates. The contest was the best played here the present season.

The score:

	R.	H.	E.
Wausau	0 0 0 0 0 0 0 0 3—3	8	2
Winona	0 0 2 1 0 0 0 0 1—4	9	1

Batteries—Dunbar and Baker and Johnson; Baillies and Burke.

RUCKER HIT HARD AND BROOKLYN LOSES.

Brooklyn, N. Y., May 26.—Brooklyn lost yesterday the last game it will play at home of the present series, Pittsburg winning, 7 to 2. Rucker was hard hit while he occupied the box, being relieved in the eighth by Ragan, who stopped the visitors. Leifield had good control, but was hit freely. Byrne carried off the batting honors with five hits in as many times at bat.

Score: R. H. E.
Pittsburg .....1 3 0 0 0 1 2 0 0—7 12 1
Brooklyn .....0 0 0 0 0 1 0 1 0—2 9 2

Batteries — Leifield and Gibson; Rucker, Ragan and Miller. Umpires—Brennan and O'Day.

CARDINALS LOSE LAST GAME TO PHILLIES.

Philadelphia, May 26.—Philadelphia broke its losing streak yesterday by defeating St. Louis, 4 to 2. Score:

	R.	H.	E.
St. Louis	0 0 0 0 0 0 0 0 2—2	5	2
Philadelphia	0 1 2 0 1 0 0 0 x—4	7	1

Batteries — Steele and Bresnahan; Alexander and Dooin. Umpires—Johnstone and Eason.

GIANTS ARE AGAIN DROPPED OUT OF LEAD.

New York, May 26.—The New Yorks were beaten by Cincinnati yesterday, 6 to 1, and thereby lost the lead. Keefe, for the visitors, was remarkably effective, while both Drucke and Ames failed to check Cincinnati. New York escaped a shut-out in the eight inning when Doyle, after tripling, stole home. Score:

	R.	H.	E.
Cincinnati	2 1 0 0 0 0 1 2 0—6	8	2
New York	0 0 0 0 0 0 0 1 0—1	5	1

Batteries—Keefe and Clarke; Drucke, Ames, Crandall and Myers. Umpires—Klem and Doyle.

Chicago-Boston game postponed, on account of rain.

BOSTON AND ST. LOUIS BREAK EVEN ON SERIES.

St. Louis, Mo., May 26.—Boston won from St. Louis yesterday, 9 to 5, and broke even on the series. Each team used three pitchers during the game. Lewis and Murray secured home runs.

Score: R. H. E.
Boston .....1 0 4 0 0 2 0 0 2—9 8 2
St. Louis .....1 0 3 0 1 0 0 0 0—5 10 2

Batteries—McPhale, Pape, Wood and Carrigan; Powell, Mitchell, George and Clark. Umpires—Mullin and Evans.

WHITE SOX PULL OUT VICTORY IN THE TENTH.

Chicago, May 26.—Chicago won the final game of the series with New York yesterday, 3 to 2, after ten innings. Bunched hits and an error gave the visitors their score. The locals tied it up with three singles and a sacrifice, and won out with a single, a sacrifice and a long hit to the fence by Bodie. Brockett was relieved by Warhop and White retired in favor of Walsh.

Score: R. H. E.
Chicago .....0 0 0 0 0 0 0 2 0 1—3 8 1
New York .....0 0 0 0 0 1 1 0 0 0—2 12 1

Batteries—White, Walsh and Payne and Sullivan; Brockett, Warhop and Blair and Sweeney. Umpires—Connolly and Egan.

ATHLETICS TAKE FOUR STRAIGHT FROM NAPS.

Cleveland, Ohio, May 26.—Philadelphia made it four straight yesterday, easily defeating Cleveland, 12 to 6. The batting of Easterly and Olson were features. Score: R. H. E.
Cleveland .....0 1 2 0 1 0 1 0 1—6 11 4
Philadelphia .....0 1 0 2 5 0 0 0 4—12 14 4

Batteries—Morgan, Krause, Bender and Livingston and Thomas; Kaler, Krapp and Land. Umpires—Perrine and Sheridan.

McBRIDE'S HITTING WINS FOR NATIONALS.

Detroit, Mich., May 26.—McBride's timely hitting helped Washington take the final game of the series from Detroit yesterday, 6 to 2. Johnson pitched splendid ball and struck out nine men.

Score: R. H. E.
Washington ....0 0 0 1 0 3 0 1 1—6 11 1
Detroit .....0 0 0 0 0 0 0 1 1—2 8 2

Batteries—Johnson and Henry; Willett, Covington and Stanage. Umpires—Dineen and O'Loughlin.

BLUES OVERCOME LEAD AND DEFEAT COLONELS.

Columbus, Ohio, May 26.—Kansas City was enabled to tie yesterday's score in the eighth when Perring threw short to first and won in the ninth on Packard's pass to Sullivan with the bases full and two out. Owens pitched well after the third, Columbus having some luck in the fourth and fifth innings, Odwell's outfielding featured.

Score: R. H. E.
Kansas City ....0 0 0 0 0 0 1 2 1—4 10 3
Columbus .....0 0 1 1 1 0 0 0 0—3 8 2

Batteries—Owen and O'Connor; Packard and Bemis. Umpires—Eddinger and Hayes.

LOOSE FIELDING LOSES GAME FOR LOUISVILLE.

Louisville, Ky., May 26.—Milwaukee defeated Louisville yesterday in the second game of the series through loose fielding by the locals. All of the visitors' runs were made after chances to retire the side had been bungled.

Score: R. H. E.
Louisville .....0 0 1 0 0 0 1 0 0—2 5 4
Milwaukee .....1 0 0 4 0 0 0 0 2—7 8 2

Batteries — Slagle and Hughes; Dougherty and Marshall. Umpires—Ferguson and Chill.

INDIANS BUNCH HITS AND PATTERSON LOSES.

Indianapolis, Ind., May 26.—By bunching hits off Patterson in the sixth and eighth innings, Indianapolis won a pitchers' battle from Minneapolis, 3 to 2. The visitors hit Webb consistently but errorless support saved him. Hallman's batting was a feature. Score:

	R.	H.	E.
Indianapolis ....0 0 0 0 0 2 0 1 x—3	8	0	
Minneapolis ....0 0 0 0 1 0 0 0 1—2	9	1	

Batteries—Webb and Welsh; Patterson and Owens. Umpires—Owens and Handiboe.

HEAVY HITTING GAME IS WON BY SAINTS.

Toledo, Ohio, May 26.—In the heaviest hitting game played in the American association this season, St. Paul yesterday defeated Toledo in ten innings, 12 to 11. McCormick's double followed by Autrey's single, scored the decisive run. Toledo made a sensational rally in the eighth and ninth but fell short of the run needed to win.

Score: R. H. E.
St. Paul .....3 1 0 0 2 2 0 3 0 1—12 19 2
Toledo .....2 0 0 0 0 1 2 5 1 0—11 18 6

Batteries—O'Toole, Gehring, Laroy and Spencer; Brady, Schultz, Robinson and Brennan and Rapp. Umpires—Bierhalter and Weddidge.

SOCCER FOOTBALL GAME AT SANDSTONE.

Sandstone, Minn., May 26.—(Special to The Herald.)—The Albions of Minneapolis and the Standstone association football team will play a game on the local field Memorial day. Both teams are striving for the soccer championship of the state and an interesting contest is looked for. The line-up of the locals will probably be as follows: Percy, goal keeper; Martin and Ross, backs; J. Thomson, Hallam R. Thomson, half backs; Bunny, Middlemass, Vesta, Barlow, forwards.

FROM BEHIND THE SCREEN

Little Allan Black, the star third baseman, hit in hard luck yesterday. In the fifth inning the small one hit one right by second that would have been a hit nine times in ten. The Orator ambled over and made a swell play on it, getting Johnson at second. In the seventh Black hit one that went right up to the fence. Johnson backed clear up to the paling, stuck up his hands and grabbed it out of the ozone.

• • •

With two on in the sixth Cook hit one that looked easily good for a single. Col. Altermott sped back and took the ball over his left shoulder. It might be added that Dr. Cook also hit in hard luck. In the second Johnson made his first stellar catch of the day on a short hit midway between left and center. Johnson came in fast on it, grabbing the ball down by his knees. If it hadn't been for Johnson and Altermott making two swell plays, the commander might have had two blows.

• • •

Yesterday Weidel strenuously denied that he was at bat five times in the opening game.

• • •

The little old grouch did not have much opportunity to kick yesterday. He did some swell batting the day before when Duluth was behind. Their is a natural curiosity to know whether he is miserable when the Sox are winning.

• • •

Rochester is here today, and all good fans are assured of some fine ball with Corbett's Colts. Since the opening of the season the Medics have been strengthened to that extent where they look like contenders for the flag.

Nye, a shortstop who was in the Central league, has been secured, and Foy, Schuman, said to be a swell clouter, and several other players have entirely changed the complexion of the team. Kernan and Dunn, remembered from last season, are with the team, and in addition Corbett has secured a pitcher by the name of Woods, who is due to work today, and who is touted as a wonder.

• • •

Woods worked against Superior the opening day and pitched one of the greatest games that has ever been hurled at Hilslop park. Hard luck lost the contest, but the newcomer gave a grand exhibition. Mike Kramer or Al Cummings will be the mound nominee for the Sox.

• • •

The bunch of good fans—and they are growing every day because of the good work of the O'Brienites—are hoping that Red Wing will get a game from Superior and that we will cop three straight from Rochester.

• • •

The Red Legs and White Sox are running even, counting that forfeited game at Winona, which will probably not be allowed. With a defeat for Superior and three for us, we will lead our suburban rivals for the coveted second place.

Rochester has always played well here, and a red-hot series is expected with the ambitious Surgeons, who come to the Head of the Lakes with the warm approval of the fans in the southern part of the state.

BASEBALL TOMORROW

DULUTH vs. ROCHESTER

Athletic Park.

215 West Superior St.

Everything new but the same old popular prices remain. No waits at Sullivan's. Nearly a dozen barbers to serve you quickly and as you like.

FINISH FIGHT FOR PAL BROWN

Rumor Says Range Boy Will Meet Tommy Garry Over Long Route.

It is stated in local fight circles today that Pal Brown and Tommy Garry will meet in a finish fight at Virginia. Garry and the great little range fighter met before, the fight going ten rounds to a draw. Since then both fighters have been clamoring for a return engagement.

After getting back to Chicago Garry stated that he had all the best of the milling, and that if he were given a return battle with the range man, there would be no doubt of the issue of the battle.

On the other hand the range followers of Brown are firmly of the opinion that in a fight extending over ten rounds he will decisively whip the Chicago fighter. It is certain that if the boys meet in a return engagement the fight will create a tremendous amount of interest all over Northern Minnesota.

Since his recent meeting with Brown at Hibbing Garry fought and won the decision over Danny Goodman, the tough little Italian battler of Chicago. Garry is accounted one of the very best lightweights in the ring today, and in the event of Brown winning a victory over the Chicago man, he will be immediately proclaimed one of the greatest of the lightweights, and it is very probable that his services will be in demand in different parts of the country.

FORTY-SIX CARS ENTERED FOR RACE

Elimination Tests for 500-Mile Event Are Held at Indianapolis.

Indianapolis, Ind., May 26.—More racing cars than ever before assembled on a track made the Indianapolis speedway resound with the explosive roar of their unmuffled exhausts this morning as they were tuned up for the elimination trials for the Memorial day 500-mile race, the greatest contest in the history of the automobile.

Officials of the course expected that the tests of the speed of the forty-six cars entered in the race would occupy the greater part of today. Each of the cars must show a speed of seventy-five miles an hour or withdraw from the race. The test was to be made with a flying start on the last quarter mile of the home stretch of the speedway. To qualify each car must make the quarter mile in twelve seconds. The drivers had little fear that any of the cars entered would fail to meet the test.

Pathfinder Abandoned.

Livingston, Mont., May 26.—The crew of the pathfinder car of the Minnesota Automobile association abandoned their automobile here today. They found the roads almost impassable because of the heavy rains, and took the train for Yellowstone Park.

COLLEGE MEN COMPETING

Preliminary Heats in Thirty-Sixth Meet Held at Harvard Stadium.

Cornell, Pennsylvania, Michigan and Yale Given Chance for Honors.

Cambridge, Mass., May 26.—Athletes from twenty-five colleges at Harvard Stadium today struggled through the processes of elimination for the championship events tomorrow of the Intercollegiate Athletic association's thirty-sixth annual track and field meet. Preliminary heats were held today in all the track events except the mile and two-mile runs, and trials were held in all the field events.

Whether it will be Cornell, Pennsylvania, Michigan or Yale which tomorrow will total the greatest number of points will be largely decided by the number of athletes which each qualifies in today's tests. It is among those four colleges that experts pick the winner, in that order of preference.

Seldom in the intercollegiate association's thirty-six years' history have such even fields of proven strength been entered. As an instance of the high caliber displayed by a single set of the athletes entered, there may be mentioned the entrants in the 100-yard dash, the competition in which was to be disposed of up to the semi-finals today. No less than half a dozen sprinters, who have covered the distance in "evens" or ten seconds, were entered. Of these Craig of Michigan was the favorite, as he was also in the 220-yard dash.

Today's competitions were planned to complete the dashes and hurdles to the semi-finals stage, reduce the field in the 440-yard dash to nine and that in the half mile to somewhat more than a dozen.

In the field events five men were to qualify for final competition, the marks made by the men in the shot put, hammer and broad jump counting toward the deciding points of tomorrow while the performances in the high jump and pole vault were merely for purposes of elimination.

FIGHT LESS THAN MINUTE

Knockout Brown Puts Out Tommy Murphy in Forty Seconds.

Brooklyn Boy Is No Match for East Side Lightweight.

New York, May 26.—Knockout Brown, the little East side lightweight, stopped Tommy Murphy of Brooklyn last night in forty seconds of the first round of a bout scheduled to go ten rounds before the Madison Athletic club.

There was no preliminary sparring. The men went together with a rush, the awkward Brown letting loose and swinging his right hand for the ribs. Murphy spiked out a long left and for a moment straightened up Brown. Brown, however, carried the fight to Murphy, rushing him along the ropes to a mutual corner. Both men clinched and swapped rights and lefts to the head and body.

Breaking away Brown again rushed and catching Murphy a wicked right in the stomach, brought him down almost to his knees. Quick as a flash, Brown ripped in a wicked left uppercut, fairly on the long protruding chin of Murphy, and down he went with a crash. Murphy fell like a plummet, but quickly rose to his feet, not waiting for the referee's count. Brown was at once upon him again, and with a terrific right to the head and another left uppercut, he again floored the Brooklyn man. There was no need now for the count as Murphy was out cold and Brown was on his way to his dressing room a moment later.

GOODMAN HAS BETTER OF GO WITH AHEARN.

New York, May 26.—Jack Goodman had the better of a ten-round go with Young Ahearn at the Twentieth Century A. C. last night. Goodman cast aside all attempts at science and waded into the Brooklyn "Dancing Master," sent him to the canvas several times and always had him on the run.

SPORTING NOTES

W. K. Vanderbilt won two races at Le Tremblay yesterday with Sesame in the Prix Frivola and Golden in the Prix Beadsman.

• • •

Stock in the Maroon track team took a decided jump following the arrival of Ira Davenport, the crack middle distance runner, for practice yesterday. Davenport strained a tendon in training some time ago.

• • •

Bobby Cloughen, champion sprinter of the Irish American Athletic club, is wearing fresh laurels today following his equalling of the world's record of 12 1-5 seconds in a trial handicap 125-yard dash on Celtic field yesterday.

• • •

The completion of the semi-finals yesterday in the New England Intercollegiate tennis championship tournament left C. L. Johnston of Amherst, and R. L. Oakley of Williams to battle for the singles title, while Dartmouth will meet Amherst for the championship in the doubles.

• • •

William Queal of New York defeated Alfred L. Shrubb, the English champion runner, in a twelve-mile run at the Boston American league baseball grounds last night by fifty yards. The time was 1 hour 7 minutes 31 seconds.

• • •

Twenty-four automobiles of various sizes and styles will go from Chicago to Milwaukee and back again today in Chicago's first motor contest of the year—the fuel test of the Chicago Motor club. The start was made at 6:30 this morning, and about ten hours will be required for the run of 186.3 miles.

• • •

Henry Weymann will be the only American aviator in the coup d'international de aviation in England July 1, according to an unofficial announcement made today at headquarters of the Aero Club of America. James V. Martin of Harvard, who was to have been a candidate for the American team, it was learned here today, sailed from Liverpool yesterday.

• • •

The holiday crowd at Woodbine was treated to a day of good racing yesterday. The sensation of the day was the winning by the Nigger of the Toronto cup handicap, to which a purse of $5,000 was added. S. C. Hildreth won the race two years ago with King James and victory yesterday would have given him permanent possession of the cup. His Zenus was hotly ridden by an apprentice, but even then was heaten less than half a head, while his Fitzherbert finished fifth.

• • •

Promoters of the Langford-Caponi fight, booked for Kenosha next Monday night, are somewhat perturbed over a rumor to the effect that the fight will be stopped. Message and Krone, the Chicago match makers and agents of the Wisconsin club, announced last night that they have received positive assurance from the county and city authorities at Kenosha that there would be no interference, provided the match was pulled off in a sane way. So those Chicago fans who have been worrying over not getting a chance to see the famous Sam Langford can rest assured, the promoters say, that the Boston tar baby will be there with the mitts on, ready to teach Tony Caponi a lesson when the gong rings Monday night.

DETECTIVE ACQUITTED IN LEE BROWNE CASE.

Chicago, May 26.—On a second trial, Detective Pat Keeley was found not guilty of having committed perjury in connection with the acquittal of Lee O'Neil Browne, the Democratic legislative minority leader accused of bribery, alleged to have been responsible for the election of United States Senator Lorimer.

S.S.S. A REAL CURE FOR RHEUMATISM

So simple a thing as cloths dipped in hot water and applied to an aching joint, will often temporarily relieve the acute pains of Rheumatism. But everyone knows that such treatment would never permanently cure the trouble.

The usual cause of Rheumatism comes from weak kidneys, constipation, indigestion, etc., forming impure accumulations in the system. These sour and ferment, causing uric acid, which is absorbed from the stomach and intestines into the blood. This causes a partial fermentation of the circulation, which changes it from a thick, rich fluid to a thin, acrid stream, depositing inflammatory matter into the muscles, nerves, and joints. The longer the blood is allowed to remain in this impure condition the more severe will Rheumatism become. Gradually the muscles harden and lose their elasticity, the joints begin to stiffen, and frequently calculous deposits form knots at the finger joints.

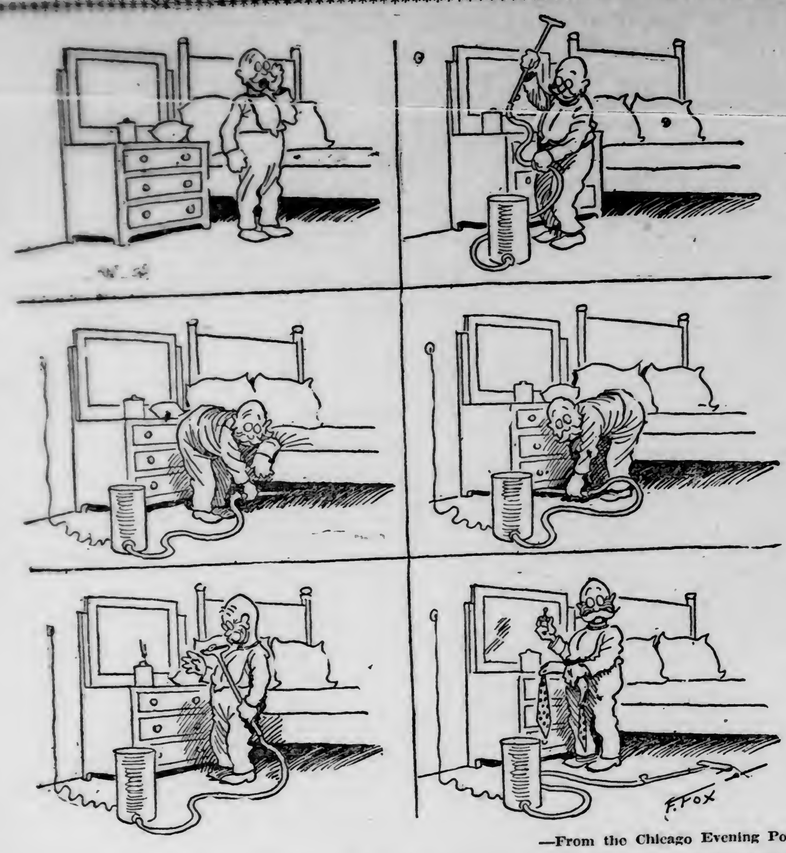
I had Rheumatism for twenty years, sometimes being entirely laid up by it. It grew worse until my right knee was nearly twice its natural size, and was drawn up considerably shorter than the other one. A friend advised me to take S. S. S. which I commenced. Before I had been using it long I was greatly relieved, and continuing the medicine I soon found that I was entirely cured. MRS. IDA M. PALMER.
196 Fulton St., Brooklyn, N. Y.

While at work in the swampy regions of Southeast Georgia, I contracted Rheumatism, and was completely helpless for about 4 months, and spent over $150.00 with doctors, but got worse every day, and finally quit them and began S. S. S. I took several bottles, and was cured sound and well. My health is now splendid, and I weigh 176 pounds. I can recommend S. S. S. to all suffering from Rheumatism.
S. C. LASSITER.
Thomasville, N. C.

There is just one way to CURE Rheumatism, and that is to cleanse the blood of the uric acid poison. S. S. S., by removing every particle of the cause and PURIFYING the blood, cures Rheumatism permanently. S. S. S. eliminates the uric acid because it is the greatest of all blood purifiers. It filters out every trace of the sour, inflammatory matter, cools the acid heated blood, furnishes the material for multiplying the rich, nutritious corpuscles of the circulation, and by its fine tonic effects assists the system to rapidly overcome the effects of the disease. Special book on Rheumatism and medical advice free. S. S. S. is for sale at drug stores.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

DAD'S LITTLE STUNT WITH THE VACUUM CLEANER



—From the Chicago Evening Post.

DR. DIAZ HEAD OF NICARAGUA

Officially Recognized as President By the United States.

New Orleans, La., May 26.—Friends of Dr. Adolfo Diaz of Managua, Nicaragua, have received cablegrams here notifying them that the state department at Washington had officially recognized him as president of Nicaragua. Dr. Diaz was formerly secretary of the provisional government and later minister of state. The cables also say that the Nicaraguan congress has confirmed Diaz's elevation to the presidency.

A Real Treasure Box

NONE GENUINE WITHOUT THIS SIGNATURE

THIRTY-TWO POUND CATFISH IS TAKEN

Sawyer County Nimrod Hooks Monster Out of the Chippewa River.

Couderay, Wis., May 26.—(Special to The Herald).—The season for game fish opened in Wisconsin yesterday, and several fishing parties that left here early in the morning for the nearby lakes and rivers, brought back nice catches of muskellunge, pike, pickerel, and bass. One party at Crooked Rapids caught a thirty-two pound catfish in the Chippewa river.

Guides and fishermen say fish are biting good, and the lakes and rivers in southern Sawyer county seem to be well stocked with large game fish this summer. Summer fishing resorts are looking for a heavy patronage from the tourists who have already begun to arrive from the south and east.

PRESIDENT TAFT TO VISIT MINNESOTA

Writes Deerwood Mining Man He Expects to Come This Way During September.

Deerwood, Minn., May 26.—(Special to The Herald.)—Superintendent H. J. Kruse of the Rogers Brown Ore company here, a graduate of the Michigan College of Mines at Houghton, Mich., has received word from President Taft that the head of the nation cannot attend the college of mines commencement next month to which Mr. Kruse joined with other alumni in inviting the president, but that he may visit the Northwest later.

Mr. Kruse wrote the president inviting him to attend and received a most courteous reply wherein the president stated that it would be impossible for him to be in Houghton at that time but that he expected to visit Minnesota and Michigan some time in September. Couched in friendly terms the letter expressed President Taft's pleasure at receiving the invitation and expressed his regret in not being able to attend. The communication is treasured by Superintendent Kruse as an evidence of the kindly interest which President Taft has in the northwest.

ARE SENDING ORE DOWN THE LAKES

Rogers-Brown Company Shipping Product to Buffalo and Chicago.

Deerwood, Minn., May 26.—(Special to The Herald.)—Supt. H. J. Kruse of the Rogers-Brown Ore company in discussing ore shipping said: "The first lake shipments of Cuyuna ore are being made this week. On Tuesday the steamer Venezuela got a cargo of Cuyuna ore at the Soo docks in Superior, and left for Buffalo, where the Rogers-Brown Ore company have a large furnace. Another boat is loading and when she gets her cargo she will go to South Chicago, where the company also has furnaces. At the Kennedy mine at Cuyuna we are loading Soo ore cars, eight a day, direct from the shaft. We have not touched our stock pile of over 110,000 tons of ore. As soon as we get the steam shovel promised us we shall go at the stock pile and may then be able to send a train a day to the Soo docks at Superior."

Gratified With Showing.

Mr. Kruse is highly gratified with the showing his captains and men have made. The superintendent has shown his grit and determination by putting in the first shaft on the range, combatting quicksand of the most treacherous nature and solving problems never encountered on the Michigan or other ranges. He developed ground which other concerns abandoned because they could not work it then. Another secret of Supt. Kruse's success is his ability to surround himself with good, trustworthy men.

MAJ. BUTT IS TO WED RICH WIDOW

Society Declares He Is to Marry Mrs. Taft's Sister.

Washington, May 26. — Archibald Butt, aide to President Taft, soon will be President Taft's brother-in-law. He is to wed the sister of Mrs. Taft, local society declares.

The statement is made in official circles that the engagement of Maj. Butt to Mrs. Lucy Hayes Herron Laughlin of Pittsburg will be announced soon, and society finds all sorts of verification for the statement, taking into consideration that the major is busy purchasing expensive bed quilts and other household necessities not usually required by a confirmed bachelor.

Members of society here also point to the fact that Maj. Butt has been attentive to Mrs. Laughlin for more than a year. Of course, it might be explained by the fact that the Pittsburg widow during the illness of Mrs. Taft has spent much time at the White House and has been thrown into the company of Maj. Butt.

The prospective bride is the widow of Thomas K. Laughlin of Pittsburg, who killed himself when in his Pittsburg mansion on the night of March 11, 1910.

For twenty-four hours the influential Laughlin family—the big steel independents of Pittsburg — managed to give the impression that Mr. Laughlin died a sudden but natural death. Later the truth became known and with it the fact that the suppression of the tragedy was caused by the absence from home of Mrs. Laughlin, the family wishing her to arrive in Pittsburg if possible before the details became known.

Mrs. Laughlin, who is a daughter of John Herron of Cincinnati, is an ardent athletic woman. She is a splendid tennis player, and enjoys all outdoor sports. So does Maj. Butt. She has two children and is wealthy, having inherited most of her husband's wealth.

WANTED! R. J. HAYES,

son of T. J. Hayes, who died last December at Barthold, N. D., is wanted at Minot, N. D., for the probation of his father's estate.

WILL CARE FOR WAYWARD GIRLS

Crittenton Circle Organized at Grand Forks for Meritorious Work.

Grand Forks, N. D., May 26.—(Special to The Herald.)—The Crittenton Circle of this city, which is the first branch to be organized in the state under the direction of the Florence Crittenton Home at Fargo, has perfected its organization for the year and in addition to its responsibility of looking after and caring for the wayward girls of this territory, has taken charge of providing all the linen for the Crittenton home for the entire year.

The active members of the circle are from among the city's most prominent women, socially and educationally, and the officers and committees follow: President, Dr. May E. Sanders; first vice president, Mrs. A. L. Woods, second vice president, Mrs. L. C. Hazlett; corresponding secretary and treasurer, Mrs. A. G. Leonard; recording secretary, Mrs. W. P. Fowler. Membership committee—Mrs. A. L. Woods, chairman, Mrs. G. M. Williamson, Mrs. C. F. Templeton, Mrs. B. S. Brynjolfson, and Mrs. L. L. Eckman. Finance committee—Mrs. T. J. Smith, chairman, Mrs. C. L. Winslow, and Mrs. Sig Wolff. Sewing committee—Mrs. L. C. Hazlett, chairman, Mrs. W. S. Begg and Mrs. O. J. Barnes. Church committee—Mrs. R. B. Griffith, chairman, Mrs. Edwin Veitch, Mrs. G. P. Woodward, Mrs. D. Fordney, and Mrs. H. L. Pitts. Rescue committee—Mrs. I. Wheeler, chairman, Mrs. M. M. Marshal and Miss Florence Palmer. Entertainment committee—Mrs. A. I. Hunter, chairman, Mrs. E. J. Lander, Mrs. O. J. Barnes, Mrs. F. F. Stokes, Mrs. L. L. Eckman and Miss Helen Davies. Special legislative committee—Mrs. J. E. Stevens, chairman, Mrs. C. A. Greenleaf and Mrs. A. L. Woods.

You Can Save From $5 to $8

If you buy your suit at the "3 Winners" tomorrow. 115 East Superior street.

MARSHALL COUNTY LAND SELLS WELL

State Land Sale at Warren Well Attended, Good Prices Being Paid.

Warren, Minn., May 26.—(Special to The Herald.)—At the Marshall county state lands sale held yesterday State Auditor Iverson disposed of over 8,000 acres at an average price of about $7.75 per acre. A great many of the purchasers were the occupants of other lands in the neighborhood, thus proving the desirability of the land.

The great majority of the purchasers were actual intending settlers—very little of the land being gathered in by speculators. Where drainage is projected, there was spirited bidding and the prices received averaged from $8 to $14 per acre for lands which at former land sales have not been bid for in the minimum of $5 per acre.

At the "3 Winners" tomorrow, 115 East Superior street.

DOG FINDS HUMAN SKULL.

Brings It to Master and Montana Murder Is Being Probed.

Livingston, Mont., May 26.—J. Edwards, a rancher living near Cokedale, eight miles from here, was startled when he called his dog and the animal laid a human skull at his feet. Investigation developed a murder mystery in which it is believed that Charles Peterson of Toston, who disappeared last year, is the victim. Bones were found last November, but identification was impossible; but the skull, with gold-filled teeth, practically establishes the identity of the remains. Coroner Vickers has begun investigation of the tragedy.

INCREASE IS UPHELD

Advance in Grain Rates From South Dakota Held Just.

Minneapolis Retains Its Advantage Over Duluth in North Dakota.

Washington, May 26.—(Special to The Herald.)—In the matter of the investigation and suspensions of advances in rates for the transportation of grain, grain products, etc., submitted to the Interstate Commerce commission, a decision has been rendered as follows:

"First, it appearing that rates have, for competitive reasons and under voluntary action, been materially reduced in recent years; that during the same period the cost of the service, the price of the commodity transported, and claims for loss and damage on shipments thereof have largely increased;

"Held that defendants have sustained the burden of proof which the statute imposes upon them and that, except as noted, the proposed advance in rates on coarse grain and wheat to Minneapolis, Duluth, Milwaukee and Chicago and points taking the same rates, from points of origin in North Dakota and South Dakota, are not unjust or unreasonable; and

"Held further that the former established and recognized relations in rates from said points of origin to Minneapolis, Duluth, Milwaukee and Chicago should be restored, except in instances of bona fide errors in tariffs or of elimination of violations of the fourth section of the act.

"Second—Proposed advances in rates on coarse grain and wheat from points in Southeastern South Dakota to Omaha are condemned. The present rates from said points of origin to Omaha are found to be unreasonable per se and reasonable maximum rates must be prescribed."

The above decision, while it is not entirely clear, is not believed to be a very favorable outcome of the case from a Duluth standpoint. Until the complete text of the decision is received Duluth men will be unable to know just how this city is affected.

Several months ago the railroads filed tariffs with the interstate commerce commission increasing grain rates from all points in South Dakota to Chicago, Milwaukee, Minneapolis and Duluth. The increases ranged from ½-cent to 2 cents, and averaged about 1½ cents per 100 pounds.

In Southern North Dakota, Minneapolis had an advantage over Duluth in rates of from ½ to 2 cents per 100 pounds. Duluth contended for the same rates, and the railroad men evidently realized the justice of the claim, for in filing the new tariffs, the rates to Duluth and Minneapolis were made the same, but this was brought about by raising the Minneapolis rate and not by lowering the Duluth rate. At Lemour, for example, the rate to Minneapolis was formerly 12½ cents and to Duluth, 14½ cents. The new tariff made the rate 14½ cents to both cities.

Minneapolis promptly objected and the new tariffs were suspended by the interstate commerce commission. North Dakota also fought the advance, and South Dakota fought the general advances in that state.

The railroads contended that South Dakota was not contributing its fair share toward the revenue of the roads, and that as grain was the principal commodity, it should bear the brunt of the increase.

The decision received today evidently upholds this general advance in rates in South Dakota, and would seem to restore the old advantage to Minneapolis in Southern North Dakota, although this is not quite clear from the dispatches received. This latter would make no change from existing conditions, however, as the new tariffs equalizing rates to Minneapolis and Duluth were suspended as soon as filed, and never went into effect.

NOTICE!

All Grocers and Merchants of Duluth are herewith warned to refrain from opening their stores on Sunday, and selling therein the goods whose sale on Sunday is prohibited by law.

DULUTH RETAIL GROCERS' ASSOCIATION

Attest: Geo. M. Peterson, Sec'y.

CITY BRIEFS

Thwing-Stewart Co. Both 'phones, 114.

Looks for Bumper Crop.
P. L. Coleman, traveling car service agent for the Northern Pacific, reached Duluth last evening from a trip throughout the West. He states that the prospects for a large crop are excellent. He doesn't think that the conditions have been exaggerated in published reports.

A Test Case.
To test the value of this kind of advertising we are going to offer all Saturday shoppers a chance to get Blackstone and Fruit of the Loom Muslins, the price of which is 12½ cents at less than the mill price. Not more than 10 yards to a customer, at 8½ cents the yard. If you care to clip this ad. or to bring the Friday Herald with you, we will sell you twenty yards at this price, but not otherwise. This offer is good for Saturday only. John J. Moe Sons Co., Twenty-first avenue west. All cars transfer to Moes'.

Defense League Parade.
The McNamara Defense league will hold its demonstration July 6. The meeting will be held at the Armory. A large parade is being planned which will wind up at the Armory, where speeches will be made. The demonstration is for the purpose of showing what sentiment there is in Duluth against the alleged unfair methods used in the arrest of McNamara.

Settlers Sue for Fire Loss.
Carl J. Carlson, Oscar Anderson and Ed. Anderson have suits in district court against the Duluth & Northeastern Railway company for damages alleged to have been sustained when sparks from the company's engines set fire to their timber. Carlson asks $2,340, Anderson $2,450 and Ed. Anderson $1,679.

Open Bids For Sewers.
The board of public works this morning opened bids for five sewer jobs and one piece of paving, but the figures will not be available until later as the totals of the bids were not calculated this forenoon. The largest sewer job is in East Superior street between Twenty-sixth and Thirty-second avenues. Bids were received for two different kinds of paving, tar con and crushed rock macadani, on Wyoming street between Fifty-fourth and Sixtieth avenues east.

Opened For Business Again.
L. Bergstein is now in his new store 521 West Superior street.

Collector Arrested.
John Thomas was arrested this morning by Patrolman Andree on complaint of the Tessman-Hintz company, wholsale feed dealers at 114-16 East Michigan street. It is alleged that he recently delivered some goods for the company, for which he collected $6.75 that he failed to return. He was not arraigned in police court this morning.

Gala Day at Auditorium.
Saturday is always a gala day at the Auditorium, so many mothers and children going there to skate during the morning and afternoon sessions. Last Saturday night the skating floor was taxed, so large was the attendance. Supt. W. L. Donner is greatly pleased with the success of the new rink.

Case Is Continued.
The case of John Ryan, arrested on complaint of his wife for non-support, was continued for sixty dayt in police court this morning. It was shown that he had not provided his wife and two children proper food and shelter for several months past, and that he spent part of his money for liquor. He promised to mend his ways and was given two months in which to show that he can do so.

Violate Pure Food Laws.
A. Broman, a West end butcher, pleaded guilty to manufacturing hamburger steak which did not comply with the state pure food laws in police court yesterday afternoon. M. J. Hoff, a Woodland grocer, pleaded guilty to selling adulterated chocolates in the same court. Both were fined $17.50.

Had No License.
M. Green pleaded guilty to peddling without a license in police court this morning and paid a fine of $7. The police reported that he had been warned to get a license but had failed to do so.

Wanted in Two Harbors.
John Holter was arrested by the local police yesterday afternoon for the Two Harbors police, where he is wanted on a statutory charge. He was taken back to Two Harbors by Sheriff Nelson of Lake county.

For Striking Woman.
Frank Wilkosz pleaded not guilty in police court this morning when arraigned on a charge of having assaulted Mrs. Margaret Dillon. It is claimed that he struck her in the face when she pushed a toy cart out of her way while she was leading a calf along the street. The police state that her face showed the effects of the blow when she appeared to make the complaint.

For Careless Blasting.
The trial of W. E. Devaney, arrested on a charge of having violated the blasting ordinance, is set for this afternoon. It is claimed that a stone from a blast which he had not properly covered went through the window of the home of George Smith, seriously injuring a woman who was visiting there.

Voluntary Bankrupt.
Israel Rosenburg of Hibbing, a merchant, has filed a voluntary petition in bankruptcy in United States court. He placed his liabilities at $11,126.31, and his assets at $2,700, of which he claims $200 is exempt.

Libel on Newsboy.
J. H. West has filed a libel against the steamer Newsboy in United States court. He claims that he did electrical work on the steamer amounting to $120.50 and the owners have paid him only $40 and refuse to pay the remainder.

Gets $200 Damages.
A jury in district court awarded Oscar Laajala $300 for the death of Matt Laajala. The action was against the Adriatic Mining company and has been on before Judge Dibell for nearly a week. The plaintiff sued for $5,000. Matt Laajala was killed while working in the Adriatic mine, it is claimed.

Temple Services.
At Temple Emanuel this evening Rabbi Lefkovits will talk on "The Battle of Life."

Increase in Salaries.
The Western Union has given its operators another increase approximating $1 a week. The advance in salaries was voluntarily given by the new owners, the American Telephone & Telegraph company.

Beggar An Imposter.
An old man giving the name of Hanson was reported begging in the East end this morning. He told a pathetic story of being the sole support of a wife and three small children, and of being unable to secure work. He gave his address as 158 Fifteenth avenue west. There is no such address. Nothing can be learned of the man by the Associated Charities.

EILERT BROS.

PERSONAL

Alderman and Mrs. J. A. Wharton will leave Sunday for Watertown, Minn., in the southern part of the state, where Mr. Wharton will deliver the Memorial day address Tuesday morning, but Mrs. Wharton will visit for two weeks.

Asa Dailey was called to Hudson, Wis., today by the sudden death of his brother-in-law, Wm. J. Johnson, an old time resident of that city. Mr. Johnson had often visited in Duluth where he had many friends.

P. Peterson, of Virginia, is at the Lenox.

J. A. Blackwell, of Grand Marais, is at the St. Louis.

W. R. Thomas, of Two Harbors, is at the St. Louis.

Thomas Owens of Two Harbors is at the Spalding

Edward Foley, of Grand Marais, is at the St. Louis.

Mrs. M. A. Cox, of Hibbing, is at the St. Louis.

L. Lilly, of Rhinelander, Wis., is at the Lenox.

Victor Bradstreet, of St Paul, is at the Lenox.

A. Anderson, of Flood is at the Lenox.

C. H. Scannell, of Marble, is at the Lenox.

J. R. Wright and wife, of Biwabik, are at the McKay.

J. Polak of Biwabik, is at the McKay.

George W. Morrison, of Bemidji, is at the McKay.

F. R. Cogswell, of Cloquet, is at the Lenox.

Mrs. Helen Buch, of Hibbing, is at the McKay.

Mrs. T. S. Sullivan, of Hibbing, is at the McKay.

Jay Maaton and wife are at McKay.

Notice of Meeting.

The annual meeting of the stockholders of the Duluth & Northern Minnesota Railway company will be held at the office of the company, No. 510 Lonsdale building, Duluth, Minnesota, on Wednesday, June 7, 1911, at 10 o'clock a. m.

J. W. BAYLY, Secretary.

May, 24, 1911.

Automobile and Fishing Parties!
Island Lake Inn now open for the season.
Only eighteen miles from Duluth on the Rice Lake road. Accommodations for week-end parties.
Lots of fish and good boats.
Fish and chicken dinners our specialty.
ISLAND LAKE INN CO.

THEIR SIDE OF THE CASE

Settlers Along Brooks-Scanlon Line Give Evidence at Hearing.

The settlers this afternoon began to put in their objections to the abandonment of the Minnesota & North Wisconsin railroad, the Brooks-Scanlon road. S. C. Machnikowsky, a school teacher and incidental farmer, testified that the road has not in the three years he has been in that country maintained any adequate freight or passenger service and the settlers could not rely upon it.

"If we had good service that could be relied upon, there is no limit to the amount of produce that could be raised for market in that territory," he said.

He said that by bringing potatoes into town by team, the farmers cannot raise more than 1,000 bushels each, yearly. That amount can be raised on five acres of land, and most of the farmers have thirty or forty acres cleared. Many of the settlers are raising no more than enough for their own use, he said.

Cordwood was not shipped, he said, on account of the freight rates. One man shipped fifty cords of cordwood to Superior and, after paying the freight, his profit in the entire deal was $5 and some cents.

SUPERIOR KILLED WHEN CHAIN SNAPS

Civil War Veteran Meets Instant Death on Tower Avenue.

W. I. Norton, a housemover, was struck by a chain which snapped while a building was being moved and was instantly killed at 1:30 o'clock this afternoon.

The accident took place at 623 Tower avenue. Norton was an old resident of Superior and a Civil war veteran. No funeral arrangements have been made.

PROMPT JUSTICE FOR BRUTAL CRIMINAL.

Oscar Mattson, arrested last evening at South Superior after he had waylaid a 15-year-old school girl, criminally assaulted her and then stole 50 cents from her, was sent to the state penitentiary for five years by Judge Smith in superior court this morning.

Flora Tilner, daughter of a Tower avenue milkman was the victim of the assault. Her cries were heard by H. E. Stansberry, who came to her assistance and helped the officers catch the man.

Matson came to Superior from Duluth.

SUPERIOR BOY DIES IN CANADA.

Wayne Ross, a Superior actor and the son of Judge and Mrs. Frank A. Ross, died today of diphtheria at Roleau, Sask., Canada, according to advices received here. Mr. Ross was with a road company playing in "The Squaw Man." Leslie Ross, a brother left yesterday for Canada and will return to Superior with the body.

SANITARIUM FOR POOR PATIENTS.

A sanitarium for tuberculosis patients will be erected this summer on the poor farm at Parkland by the Douglas county board at a cost of about $8,000. At the meeting of the board yesterday a resolution was passed authorizing the county to advertise for bids for the erection of the building.

The new sanitarium will be a plain, long, narrow structure with provisions for plenty of fresh air.

The board passed a resolution to appeal the bounty act, which provides a payment on heads of crows, hawks and gophers. Enormous expenditures as a result of the bounty act were reported and after June 1, the repeal will take effect.

Launching Next Week.

The new sand sucker under construction at the Superior shipyards will be launched some time next week, according to Supt. Williams of the Shipbuilding company. The exact date for the ceremony has not been announced. The new boat is the only one of its kind at the Head of the Lakes and is modern in every particular. It is 165 feet long. It is probable that it will be taken to the lower lake ports before being stationed in the local harbor.

Damages for Delay.

I. N. Loger, who sued the Western Union Telegraph company in superior court for $1,900 for the alleged failure of prompt delivery of a message was awarded $400 by a jury, which returned a verdict in the case late yesterday. Loger is a Douglas county settler and claims that he telegraphed to Superior for a physician. The message he asserts was not delivered promptly.

Sane Fourth.

The Public Welfare society has interested itself in a "safe and sane" celebration of the Fourth of July in Superior and to that end will bring a speaker to Superior the latter part of June to arrange for such an affair.

HOTTEST MAY DAY IN CHICAGO'S HISTORY.

Chicago, May 26.—Thursday was the hottest May day ever known in Chicago. The thermometer stood at 94 deg. at 3 o'clock, the hottest previous record being 93 deg. on May 31, 1895. The government forecaster announced that no rain was in sight and that even warmer weather might be expected.

HOME-MADE CURTAINS.

The day has gone by when the home-made window curtain was looked upon as a mark of poverty. Home makers are learning that greater originality in decorative effects can be secured when the material is purchased and made up especially for the room it is to ornament. For those who do not wish to make their own curtains many shops carry these effects made up.

In country houses the present style calls for sash lengths, says Country Life in America, and for this purpose the following material may be used: scrim, bobinette, plain or dotted swiss, point d'esprit, fish net, dimity, cheese cloth, plain and barred muslin, madras and silk.

Cheese cloth and plain scrim take a stencil pattern well, in which case the curtains look best when simply hemmed. Scrim, muslin, etc., may be trented with lace insertion and edging. This lace should be linen and costs from 6 cents a yard up.

Perhaps the best material of all is scrim. It is a pretty, serviceable material, which comes in tasteful, squared and barred as well as plain effects in white, cream and ecru and costs 20 cents a yard up. An excellent quality 38 inches wide sells for 40 cents a yard. It washes well and is most durable. Plain scrim is probaby the best material on the market for stencilled curtains. Made-up curtains hemstitched or with lace insertion, may be bought for $3 or $4.

Another novelty in scrim has a mercerized silk stripe about three-quarters of an inch wide and costs 45 cents. Mercerized scrim comes 51 inches in width and sells for $1.25 a yard. Dotted swiss can sometimes be bought for 6 or 7 cents, but the 12½-cent quality is preferable.

Fish nets cover a wide range of materials and are strongly to be recommended. A coarse fish net in natural color is on the market for 18 cents a yard and is 36 inches wide. This is suitable for rooms with heavy furnishings. Nets come at all prices from 15 cents to several dollars. Sixty cents is a fair price to pay, and good net bought at this price should make a beautiful curtain that will last for many years.

These curtains are usually made up with an edging. There are some pretty ones to be had for as little as 3 cents a yard. In making net curtains it it not necessary to turn a hem; the edging is sewn to the cut edge, and the curtains are therefore easily and quickly made.

Madras is much used for sash curtains. Its soft texture allows it to hang gracefully. Colored madras lends itself to rooms with heavy treatment where white curtains would be in too great contrast to the walls, and appear glaring. For halls and libraries bright colors woven on a background of black are often effective, and sometimes give the appearance of stained glass.

However, colored madras curtains will soon be very common; the 5 and 10-cent stores are selling a cheap quality. Some of the designs are copies of good patterns, and make charming curtains, though the colors of course will not stand the sun for long. However, the material is remarkably good value for 10 cents a yard, and will do very well for a season. Thin silks also make beautiful sash curtains. When simple, home-made curtains are used, the window can be made to look much more richly dressed by the use of side draperies. When these follow the color scheme of the room, the decorative effect is most effective.

There is a wide range of materials to choose from for inner curtains, since the weight of the material does not have to be considered as in the case of sash curtains, which must not exclude the light.

Cretonne is perhaps the most useful and adaptable material for inner curtains, and it is much used today both in living rooms and bedrooms. Pretty cretonnes in good designs and coloring can be bought for 20 cents a yard, thirty-six inches wide. Chintz costs about the same, but cretonne is heavier and in most cases preferable.

CHAUFFEURS IN GERMANY.

Consular and Trade Reports: A person making application as driver of a motor vehicle in Germany must present his birth certificate, an unmounted photograph of himself, a doctor's certificate as to his physical condition, especially with reference to his sight and hearing, and evidence that he has finished a course with some person or at some institution officially qualified to teach the driving of motor vehicles.

If the application is otherwise acceptable the party is referred to an expert especially designated to examine such applicants. The examination is oral and the applicant must also give a practical demonstration of his ability to drive a motor vehicle. The fees for the first examination, if held at the residence or office of the expert, are 10 marks ($2.38) for the driver of a motorcycle and 15 marks ($3.57) for the driver of an automobile; if held elsewhere the fees are 15 and 20 marks ($3.57 and $4.76) respectively. The fees for subsequent examinations of the same applicant for vehicles of a different class or different kind of motive power are 5 and 7.50 marks ($1.19 and $1.79) respectively.

SPENT SEVEN YEARS IN CHINA

Rev. and Mrs. J. H. Giffin Return After Long Absence.

Rev. and Mrs. J. H. Giffin returned to Superior this morning after seven years' absence in China.

Mrs. Giffin formerly was Miss Anna Milne of Duluth and she has two sisters now living in this city: Miss Minnie Milne, principal of the Monroe school, and Mrs. William Hanna. Mr. Giffin is a son of George H. Giffin of Superior.

Mr. and Mrs. Giffin were stationed at Kaying, China, about 200 miles inland from Swatow, engaged in work for the Baptist Foreign Missionary society. They have been in the work there ever since leaving this country, and their two children were born at Kaying. They began the journey home about April 1 and have been traveling almost constantly ever since, with brief stops at Portland and Seattle after landing at San Francisco. Mr. and Mrs. Giffin will be occupied during the next three or four months in work for the missionary society among the churches of Minnesota, and then will be at home in Duluth at Twentieth avenue west and Second street. They will remain in this country about a year and a half and then will return to the foreign field.

$15 and $18 Spring Suits Now $10

At the "3 Winners'" great suit sale tomorrow, 115 East Superior street.

Out today

New Victor Records for June

A superb list of musical numbers with four announcements of unusual interest.

Alma Gluck

now sings for the Victor

The latest addition to the galaxy of famous opera singers who make records exclusively for the Victor. Her lovely, even, sympathetic voice is heard at its best in the two records just issued.

Two superb records by

Mario Sammarco

Perfect specimens of Sammarco's singing. All the roundness of tone, the volume, the admirable phrasing and technique for which the baritone is celebrated are reproduced to perfection.

Vessella's Italian Band

plays three splendid selections

This dashing director with his famous band of soloists is one of Atlantic City's big attractions. His control over his band is remarkable—such precision and shading being quite unusual.

Lucia Sextette

at a popular price

A magnificent record of this universally admired concerted number, at the extremely low price of $1.25. Sung by the Victor Opera Sextette—the pick of the Victor's competent vocal staff.

Hear these records at any Victor dealer's, and ask him for a June supplement which contains a complete list of new single- and double-faced records, with a detailed description of each.

And be sure to hear the Victor-Victrola

Victor Talking Machine Co., Camden, N. J.

Always use Victor Records, played with Victor Needles—there is no other way to get the unequaled Victor tone.

LINCOLN SCHOOL CHILDREN DRILLING FOR MEMORIAL DAY.

CARRIERS AND FIREMEN

City and Government Employes in Memorial Day Parade.

Uncle Sam's Walkers Will March in Honor of Veterans.

Letter carriers get rather more than their share of walking, and it is not usual to see them in Memorial day parades. But this is to be an exceptional Memorial day, and exceptional features are to be expected and looked for. The letter carriers will parade.

It is not often that one gets as whole-souled a response from any body of men, and especially, men who are so hard worked, as that received by the president of the Citizen's Staff to the Grand Army of the Republic, from those optimistic, get-there-early-and-work-late gentlemen who have charge of Uncle Sam's postal business here in Duluth. "Sure thing, we'll be there with both feet—glad of the opportunity to show our respect for the flag and its heroic defenders," is the spirit in which the postoffice authorities of this city responded to the invitation to join the monster parade.

When Postmaster A. P. Cook was approached on this question he promptly volunteered to so arrange the deliveries on Memorial day that the postoffice men could turn out in force. A place was just as promptly made for them in the parade, and it has been arranged that the postmaster and his assistant shall head the department. This will be one of the largest uniformed bodies in line and will make an imposing and pleasing addition to those already published.

Duluth's fire fighters, or at least some of them, are also going to be in the parade on this day. At the present writing it is not known how many of them will be in line, but Chief Randall has promised to furnish at least a detail, and, if the board of fire commissioners does not object, the firemen may turn out in a body. President Williamson felt that he was asking a big concession when he approached the fire chief with the proposition, but he rightly argued that the fire department is so thoroughly organized that in case of emergency it could respond from the line of march quite as quickly as from any of its various stations, and realizing how the firemen would add to the procession, and how greatly their presence would be appreciated by the "old soldiers," he made the request.

Fine Horses for Sale!

ANDERSON ASKS FOR WOOL DATA

Minnesotan Preparing for Debate on Tariff Bill.

Washington, May 26.—Representative Anderson of Minnesota, a Republican, offered a resolution in the house today calling upon the tariff board to submit all its information relating to wool and woolens for use in connection with the forthcoming debate on the Democratic wool tariff revision bill.

Wickersham Will Testify.

Washington, May 26.—Attorney General Wickersham has agreed to appear before the house committee investigating the department of justice. Trust prosecutions that have been inaugurated and others that have not will be discussed.

SPEAK TO CHILDREN

Civil War Veterans Visit All Public School Buildings of City.

Memorial Day Sermon Will Be Preached By Rev. Robert Yost.

Civil war veterans today addressed the school children of Duluth, and a detail of G. A. R. men and members of the Citizens' staff was present at every school building in the city.

The members of the Citizens' staff have been invited to join the Grand Army men in the Sunday Memorial services which will be held at the First Presbyterian church, Sunday morning.

The members of the Citizens' staff will meet with the old soldiers at Memorial hall at 10 o'clock Sunday morning and march with them to the church.

Letters are being sent out to the members of the organization urging them to be present and enclosing badges which they are requested to wear.

The members of the staff are also requested to meet at the Armory at 9:30 on the morning of May 30 to march in the parade with the G. A. R. men. The parade will be one of the features of the celebration of the day.

The women of the J. B. Culver Woman's Relief corps will honor the sailors who lost their lives in the Civil war with appropriate services which will take place on the Gopher at 2:30 p. m., May 30. The members of the Citizens' staff have been invited to attend this ceremony.

The Memorial sermon by Rev. Robert Yost of the First Presbyterian church will be on the subject: "A Glorious Banner." There will be appropriate music. In the evening Rev. Yost will speak on "The Young Man's War."

TO INVESTIGATE POSTAL RATES

Harry A. Wheeler of Chicago Appointed on Commission.

Washington, May 26.—President Taft today announced the appointment of Harry A. Wheeler, vice president of the Union Trust company and president of the Chicago Commercial association, as a member of the commission to inquiry into second-class postal matters.

STEPS OF STREET CARS

May Be Lowered for Benefit of Hobble Skirt Wearers.

Indianapolis, Ind., May 26.—The hobble skirt is to have the protection of the strong arm of the law if George Rubens, Democratic bachelor member of the city council succeeds in carrying out his plans.

He is drafting an ordinance to compel the street car company either to lower the steps on its cars or to put on an additional step.

He wants to make it possible for the hobble skirt woman to board the cars with dignity and safety. The summer cars have a running board about eighteen inches from the ground.

A a few days ago a traction car was delayed several minutes while a daintily dressed miss, in a tight hobble, tried to hoist herself up to the steps without exhibiting her knees and ankles. She finally had to raise the skirts to get aboard.

EDMONT

CUPID IN WHITE HOUSE ONCE MORE

Mrs. Taft's Maid and the Official Electrician Are to Wed.

Washington, May 26.—Dan Cupid is becoming a regular White House caller. His latest visit has resulted in the marriage of George W. Riley, the White House electrician, and Miss Florence I. Marsh, maid-in-waiting to Mrs. Taft.

Miss Marsh has been at the White House since the beginning of the Taft administration, but the first lady in the land will now have to look for a new maid, as the couple are going to keep house for themselves.

About a year ago, James Mulvey, a White House policeman and Martha Peterson, the Taft cook, were married.

DEMURRER IN SUGAR CASE.

Utah-Idaho Sugar Company and Others Concerned.

New York, May 26.—Demurrers of the Utah-Idaho Sugar company, Joseph F. Smith and Thomas R. Cutler, defendants, in the government's suit to dissolve the American Sugar Refining company, were filed yesterday in the United States circuit court. The demurrers assert that none of the defendants is in any way interested in the controversy between the government and the trustees of the will of Henry O. Havemeyer in reference to the validity and ownership of the common stock of the National Sugar Refining company of New Jersey, which is the subject of a separate and distinct suit now pending in the court of chancery in the state of New Jersey. The defendants, therefore, ask that the government petition against them be dismissed.

BRIGGS HEADS LUMBERMEN

Association Opposes Reciprocity and Favors Ship Subsidy.

Chicago, May 26.—Resolutions protesting against any reduction in the lumber tariff, against the proposed reciprocity trade agreement with Canada and favoring a ship subsidy were adopted by the National Lumber Manufacturers' association just before adjourning the ninth annual meeting. The following officers were elected: President, E. G. Briggs, Tacoma, Washington; vice presidents—R. H. Van Sant, Ashland, Ky.; J. B. Conrad, Glenwood, Fla.; and B. H. Bawnman, New Orleans; treasurer, J. A. Freeman, St. Louis; secretary, G. K. Smith, St. Louis.

Former President Edward Hines was made a member of the board of governors.

HITCHCOCK'S OFFICE BILL LOOKED INTO.

Washington, May 26.—The expenditure of $7,500 in the refurnishing of the offices of Postmaster General Hitchcock and the chief clerk of the postoffice department is the subject of an inquiry before the house committee on expenditures in the postoffice department. The furnishings for Mr. Hitchcock's room cost about $3,000. The chief clerk, Mr. Weed, of the department told the committee that the rules requiring competitive bids and awards to the lowest bidder did not apply to furnishing offices of cabinet officers and that he had never heard of the right of a cabinet officer to purchase what he wanted for his office use questioned.

Bickford Case Transferred.

Bismarck, N. D., May 26.—The case of the State vs. G. L. Bickford, in which the defendant, who was formerly state treasurer, is charged with embezzling $60,000 while in that office, has been transferred from Bismarck and the Sixth district to McLean county in the same district. Judge Crawford of Dickinson has been called as presiding judge. When the case was called for trial here a change of venue was asked and an affidavit of prejudice was filed against Judge Winchester.

THERE IS NO PAPER TRUST

Hastings of Paper and Pulp Association Says So Himself.

McNair of Cloquet Tells Senators the Market Is Open.

Washington, May 26.—Denial of the existence of a paper "trust" that dictates prices was made by Arthur C. Hastings, president of the American Paper & Pulp association, at the senate finance committee's reciprocity hearing today.

Mr. Hastings, in reply to interrogations by Senator Stone, said the object of his organization was to "educate paper manufacturers to get all they could for their product." He said that last year he had sent out letters to the various manufacturers recommending a curtailment of production because of an over-supply at that time. Mr. Hastings admitted that curtailment of output was practiced to maintain uniform prices.

In answer to the charge that International Paper company controlled the paper industry of the country, Mr. Hastings said the company owned only about thirty or forty of the 800 paper and pulp mills of the United States.

Disease of Suspicion.

When Senator Stone asked if there was not some sort of understanding between the paper manufacturers as to curtailment of production, when they were so advised by the American Paper & Pulp association, Mr. Hastings said the senator "seemed to be suffering from the disease of suspicion."

"Then I come to you as physician to cure me," retorted Mr. Stone.

Mr. Hastings would not acknowledge there was any fixing of the amount of paper produced or of prices. He attacked the newspapers, declaring that they were "not fit to read half the time."

"And yet you are willing to furnish the paper on which to print this bad news?" asked Senator Stone.

"I am not in business for a moral purpose," answered Mr. Hastings.

Says Market Is Free.

Paper manufacturers from various parts of the country are appearing before the committee in opposition to reciprocity.

C. I. McNair of Cloquet, Minn., a manufacturer of news print paper, denied that many of the paper mills of the country are equipped with antiquated machinery because of the desire of the International Paper company to keep production down and prices up. He also asserted that the paper market was free and open.

Changes in Train Service on the North-Western Line.

Commencing Sunday, May 28, the Chicago Local Train No. 95 will leave Duluth at 8:15 p. m. instead of 3:30 p. m.; Superior, 8:35 p. m. instead of 3:50 p. m., arriving Chicago 11:59 a. m., Milwaukee 10:50 a. m., and will leave Chicago at 10:10 p. m., arriving Duluth 12:40 p. m. and Superior 12:20 p. m. Through sleeper between Duluth and Superior and Chicago.

Twilight Limited, Train No. 63, will leave Duluth at 4:15 p. m. instead of 4:35 p. m., Superior 4:35 p. m. instead of 4:55 p. m., arriving at St. Paul 9:50 p. m., Minneapolis 10:25 p. m., making stops at Solon Springs and Gordon. No change in time northbound.

Chicago Limited leaving Duluth 6:15 p. m., Superior 6:35 p. m., will not be changed.

For detailed information call at ticket offices, 302 West Superior street, Duluth, or 910 Tower avenue, Superior.

BRYAN FOR FREE WOOL.

Nebraskan Denies That He Has Changed His Mind.

New York, May 26.—William J. Bryan has reaffirmed his adherence to the doctrine of free wool in connection with a report that Speaker Clark had caused him to change his mind in this regard.

"I wish to deny emphatically," he said, "that Mr. Clark has ever tried to win me away from the doctrine of free wool. I believe wool should be free. It is not so material whether the entire duty is removed at once, or part of it, by degrees. I shall not believe that any considerable number of Democrats can be persuaded to vote to retain a tariff on wool. If the tariff is retained, those who favor it ought to be honest enough to admit that they favor protection, and quit talking about tariff for revenue only.

"Congress has done well so far, but if those who favor protection can make our Democratic congress compromise on the tariff we may be rebuked as the Republicans were last fall."

Declares a Dividend.

The directors of the Tri-State Telephone & Telegraph company have declared the thirty-second quarterly dividend of 1½ per cent on the outstanding preferred stock of the company. This dividend is payable June 1, 1911, to stockholders of record at the close of business May 20, 1911. The stock transfer books will be closed from May 21 to May 31 inclusive.

THREE KINDS OF FAKES.

Walter Alden Dyer in his new book, "The Lure of the Antique," says there are three varieties of fakes in old furniture.

These are "the piece made up of bits of old antique carving, panels, etc.; the plain, genuine antique which has been made to command a higher price by means of added carvings, inlay, etc.; the piece that is faked throughout—usually a copy.

"The first sort is perhaps the most successful in Europe, where the cleverest fakes are made from old wood. Old oaken beams from demolished windmills, for example, have been converted into the rarest Dutch and Jacobean 'antique' furniture. This method of deceit has also been employed successfully in this country. An old chest may be too dilapidated to sell, but its finely carved panels may be pieced together to form the cover to another old chest which was originally plain.

"Or an entirely new piece of furniture may be made up of remnants of old church pews and old bedsteads have been known to make fine columns for sideboards, elaborate china closets, etc. True, in many cases faulty workmanship may be discovered—a newly made peg here, recently dried glue there—but often the deception is quite complete to the unitiated.

"The second sort is often spoken of as 'glorified.' It is commonest in French pieces, where new carvings, veneers and inlays have been added to some genuine but plain piece to enhance its value. Here also gluing can sometimes be detected, but not often. It is a good rule to examine veneer and carving as well as the plain surfaces for signs of antiquity. One may be old and the other new.

"A great many of the early Colonial and English pieces have also been elaborated upon in this way. • • • To avoid being swindled with one of these 'glorified' pieces my advice is, always buy antiques in their original condition, first because you will then be certain of their authenticity, and, secondly, an antique entirely refinished loses its charm and will never command as high a price as a piece that has not been 'done over.' • • •

"The third sort—the thorough fraud—is more difficult to make, but vastly more profitable. If you have enough knowledge and skill there's a chance here for a profit of approximately 1,000 per cent, and not a very great likelihood of being caught—that is, if it is a business that appeals to you.

"You can make new oak look old by the use of permanganate of potash, ammonia and other chemicals, even if the surface thus treated doesn't feel or look to the expert quite the same as those treated centuries ago with beeswax, turpentine and elbow grease. Few people will know the difference. Kick the legs carefully to produce realistic dents.

"This story is current among the collectors and dealers of a woman who was brought before a judge in England. Upon being asked her husband's business, she replied, 'He's a worm eater.'

"'A what!' exclaimed the judge.

"'A worm eater,' said she. 'He makes worm holes in an antique furniture factory.'"

ARROWS CARRIED FLAMES.

Manila Times: Arrows bearing a box of matches and an ignited cloth, and which are shot from rice fields and dark alleys, are now known to be the means by which the firebugs responsible for several conflagrations during the last week have accomplished their aims.

A strange feature of the present epidemic of incendiarism in Manila has been the utter inability of any one to catch the firebugs in the act of firing of 4:55 p. m., arriving at St. Paul 9:50 houses, and although the police and private citizens have been on the lookout for these vandals only one charge of arson has been filed so far.

The police had a theory the work was done with arrows, and that their theory was correct was proved by the discovery yesterday afternoon of an arrow which had been shot at 241 Calle Singalong. The arrow was about eight and a half inches long and about one centimeter in diameter.

To it was tied a full box of matches wrapped with a piece of canvas which had been saturated with petroleum. The arrow was designed so that being fixed in the bow, or when ready to be thrown, the canvas was ignited and the arrow hurled at the house intended for destruction. By the time it reached its destination the cloth would be burned sufficiently to ignite the matches and an explosion would occur, setting fire to the surrounding nipa or bamboo. Standing off at a convenient distance in a paddy field or a dark street the miscreant would be able to ignite and fire his arrow and then escape without detection.

THIRTY-TWO QUALIFIED

Two Cars Withdraw in Preliminaries for Auto Race.

Chevrolet Drives 100 Miles an Hour at Indianapolis.

Indianapolis, Ind., May 26.—Up to noon thirty-one cars had qualified for the big Memorial day automobile race, and this afternoon another car, a Jackson, driven by Fred Ellis, which failed to qualify in the morning owing to engine trouble, also made good. Two cars were withdrawn from the race this morning, which leaves twelve cars still to make the qualifying tests late this afternoon or Monday.

No official time was given at the trials, but several cars traveled at a speed above ninety miles an hour, the test requirement being seventy-five miles an hour. Louis Chevrolet, driving a Buick, is said to have driven the fastest round of the day, 100 miles an hour.

Louis Strang, driving a Case car, was the first man to qualify in the preliminaries. Strang got away shortly after 10 o'clock. He was closely followed by Joe Jagersburger and William Jones, also driving Case machines. Both qualified. No time was given.

Those Who Qualified.

The following drivers and cars qualified this morning: Gil Anderson, Stutz; Harry Endicott, Interstate; John Aitkin, National; Eddie Hearne, Fiat; Teddy Tetlaff, Lozier; Harry Cobe, Jackson; Jack Tower, Jackson; Harry Knight, Westcott; Frank Fox, Pope-Hartford; Bill Endicott, Cole; D. Bruce Brown, Fiat; Spencer Wishart, Mercedes; Louis Disbrow, Pope-Hartford; Fred Belcher, Knox; Harry Grant, Alco; Bob Burman, Benz; Charles Merz, National; Herb Little, Apperson; Ralph Beardsley, Simplex; Hughie Hughes, Mercedes; Caleb Bragg, Fiat; Lee Frayer, Firestone-Columbus; W. H. Turner, Amplex; Arthur Chavrolet, Buick; Charles Basle, Buick; Ralph Mulford, Lozier; Howard Wilcox, National; Billy Knipper, Benz; Louis Chevrolet, Buick.

NO FAVORITES AT THE GARDEN CITY MEETING.

Garden City, N. Y., May 26.—The third round in the Metropolitan Golf association championship attracted another gallery to the Garden City golf links today, and once more no favorites bracketed, so that, barring accident, such well known performers as John M. Ward, Garden City; Jerome Travers, Montclair; Oswald Kirkyff Englewood, and Fred Herreshoff, Garden City, were expected to survive. Some doubt was expressed as to the probable outcome of the meeting between Kirby and Max Rhr, the New Jersey champion.

STATE FUNERAL FOR LATE FRENCH MINISTER.

Paris, May 26.—The funeral of Henri Maurice Berteaux, the French minister of war who lost his life in the aeroplane accident that marred the opening of the Paris-to-Madrid, aviation race on Sunday, was made the occasion of an impressive national demonstration here today.

All the active officials of the county were represented, as were all the foreign governments by special envoys or commissioned members of the diplomatic corps. The public schools were closed and all Paris appeared to be gathered along the route of the procession, which moved between ranks of the military.

DRUCKE PROVES A DISAPPOINTMENT

DRUCKE
Of the Giants.

Louis Drucke, the Giant recruit pitcher obtained from Texas, has been a disappointment to McGraw this season because, although he has won a majority of his games, he has been batted freely by the opposing teams and has been lucky in winning out in some cases. Drucke was expected to be a second Mathewson. Perhaps the fact that his arm was injured against a pillar in a subway rush has something to do with his work this season. He is suing the Interborough company for damages on this account.

COPPERS NERVOUS; TRADING IS LIGHT

Values Weaken at Close---Market Awaits American Tobacco Decision.

The copper market was erratic and unsettled today. The political situation is again a factor and traders are disposed to settle back and let values mark time until the American Tobacco decision is handed down next Monday. The chief factor of speculative interest is in Steel common. J. W. Gates is said to be short 750,000 shares and a fight to a finish in the stock market may be in prospect. He controls Republic Iron & Steel, which has reduced prices and withdrawn from the "gentlemen's agreement," which dominates the steel situation. His action may be for the benefit of the congressional committee, which is investigating the so-called Steel trust. He may have expected a downward trend of Steel following a general reduction in prices of steel products.

This disturbing factor will affect the copper sales, unless news crops that will cause sufficient strength in coppers to remove them from the influences which may unsettle the general market.

Big interests are beginning to fear that the radical element in congress will seek to write on the nation's statue books an anti-trust law that will not give courts discretion in judging the virtues or "reasonableness" of a big corporation accused of being a trust.

The copper metal market is stronger, quotations for electrolytic being 12½c to 12¾c. Business is being transacted on the latter basis.

American Saginaw sold at $3. Warren at $2.25, Denn at $5.50, Calumet & Montana at 38c, Live Oak at $21.

Amalgamated sold at $66.87½ to $67.50, $67.12½ and then at $66.75. Butte Ballaklava sold at $4.87½, Ojibway at $7.50, Butte Coalition at $19.25 to $19.50 to $19.25. Greene at $7, North Butte at $33, $32.75 and $33.50, Superior & Pittsburg at $16.

* * *

The property of the National Mining Exploration company has been sold at sheriff's sale at Globe, Ariz., by order of the trustees in bankruptcy. The Iron Cap Copper company bought it for $90,000 subject to a mortgage of $100,000.

* * *

The may statement of the Butte & Superior will be one of the most encouraging ever issued by the company. It will show net earnings for the month of more than $20,000. The mill is handling 3,600 tons of concentrates and is saving 75 per cent.

* * *

The development of the 1,600-foot level of the Tuolumne mine continues to show high grade ore. The north cross-cut on that level has intersected the vein for about twenty feet, and it is expected that the south cross-cut will meet the south ledge in the course of a few days. The north ledge was opened from the hanging wall side and the footwall has not yet been reached, so that the width of the vein cannot yet be stated. The ore on the 1,600-foot level exceeds in value that found on the 1,400-foot level and is more compact. It is largely copper glance and averages 12 per cent, it is said.

BANNER PRICE AT POLK LAND SALE.

Crookston, Minn., May 26.—(Special to The Herald.)—The state land sale held here today resulted in lively bidding. Some tracts were bid up to $150 and $130 per acre, the highest prices ever paid at a state land sale. Many outside concerns were represented. Much of the delinquent land was redeemed at the last moment.

DR. EVERHART PASSES AWAY

Philanthropist and Scientist Dies at His Home in Scranton.

Scranton, Pa., May 26.—Dr. Isaiah F. Everhart, philanthropist and naturalist, died at his home here today, aged 71 years. Among his gifts to the city are Lake Everhart and the Everhart Museum of Natural History in Nay Aug Park, the building and its collections being valued at more than a quarter of a million dollars. He also gave the museum an endowment of $100,000.

CUTS ALL THE EXPRESS RATES

Bill Is Reported for Passage in Wisconsin Legislature.

Madison, Wis., May 26.—The assembly today reported for passage a bill reducing all express rates within the state 25 per cent. It is provided that where express matter is carried upon one line, the rate after Aug. 1, 1911, shall be 80 per cent of the present rates, and if two lines participate, the rate shall be 75 per cent of tho present rate.

TOWN OFFICIALS ARE BEING TRIED

Assistant Attorney General Helping in Prosecution At Brainerd.

Brainerd, Minn., May 26.—(Special to The Herald.)—Lyndon A. Smith, assistant attorney general, is in attendance in the district court assisting County Attorney W. A. Fleming in the prosecution of the so-called Allen town cases. The indictments were against various members of the township board and charged them with alleged irregularities. Of all the indictments returned by the grand jury against these town officials all have fallen under the fire of demurrers filed and argued with the exception of Case No. 610, which stands and is against W. H. Jenkins.

The case of James H. Miller vs. The Gorham-Garbett Company of Minneapolis, which operates many drills on the Cuyuna iron range, was dismissed for want of prosecution. Franklin W. Merritt, who has spent weeks at each term for two years attending court, waiting for his case to be called, has returned to Minneapolis. The grand jury has returned thirty-two indictments against various malt shopkeepers of the Cuyuna iron range for selling liquor without licenses.

ISRAEL ROSS DIES IN CANADA

Has Record of Great Work in Railroad Construction.

Winnipeg, Man., May 26.—Israel Ross, a millionaire railway contractor, who, with Daniel Grant, built many railroads in Western America, including the Canadian Pacific railway from Winnipeg to the mountains, and double tracked the St. Paul & Milwaukee road between Chicago and St. Paul, died here today. He was 70 years of age.

HAWLEY CLEARED BY SWITCHMEN

Insurgents Lose Motion on Report By 85 to 94 Votes.

St. Paul, Minn., May 26.—(Special to The Herald.)—President Frank T. Hawley of the Switchmen's Union of North America, was cleared of charges of illegal and unconstitutional action by the switchmen's convention today, when a motion made by the insurgents to reject the president's report on the strike of 1909-1910 was lost by a vote of 94 to 85.

STEENERSON MAY BE WITH OLD SETTLERS.

Washington, May 26.—(Special to The Herald.)—Representative Steenerson has been invited to address the Old Settlers association at their meeting to be held at Halstead, Minn., June 24. Mr. Steenerson, unless something unforseen occurs, will attend.

THE SIZE OF THE OCEANS.

Tit Bits: An officer of a liner once remarked to the writer that most men seemed to be as ignorant about the size of the sea as they are of the distance between the heavenly planets. Here are a few facts: The Pacific covers 68,000,000 miles; the Atlantic 30,000,000, and the Indian ocean, Arctic and Antarctic 42,000,000. To stow away the contents of the Pacific it would be necessary to fill a tank one mile long, one mile wide and one mile deep every day for 440 years. Put into figures the Pacific holds in weight 948,000,000,000,000,000,000 tons. The Atlantic averages a depth of not quite three miles. Its waters weigh 325,000,000,000,000,000,000 tons, and a tank to contain it would have each of its sides 430 miles long. The figures of the other oceans are in the same startling proportions. It would take all the sea water in the world 2,000,000 years to flow over Niagara.

IS PLEASING TO MADERO

De La Barra's Letter Praised By Revolutionary Leader.

Election of New President May Take Place in September.

Juarez, Mex., May 26.—Francisco I. Madero, Jr., sat under a cottonwood tree beside an irrigation ditch that winds by his home and eagerly read today's newspaper dispatches from the City of Mexico, telling of the resignation of President Diaz.

He could not restrain a smile as he noted President Diaz's comment that he knew of no fact chargeable to him which should have caused the revulsion of feeling against him.

To an Associated Press representative who was present, Madero said he preferred not to comment on President Diaz's letter. He gave the impression he could not agree with its contents.

Pleased With De La Barra.

As to Senor De La Barra's letter stating that he would not be a candidate for president or vice president, the rebel leader was greatly pleased and commended Senor De La Barra on his public spirit. Senor Madero has great confidence in Senor De La Barra, and to his callers today lauded the honesty and integrity of Mexico's acting president.

Messages continued to pass between the two men today with respect to the prolongation of the present session of congress and the time for holding the general elections. It had been suggested to Senor Madero that some time in November would be a suitable occasion, but the rebel chief favored a much earlier date, perhaps September, though many of his friends think it ought to be held within thirty days. Senor De La Barra, it is expected, will respect the wishes of Senor Madero in the matter, and it is not at all unlikely that the point will not be decided until the latter reaches Cty of Mexico.

Prepares for Journey.

Plans for the journey to the city were begun in earnest today and the expectation is that Monday will be the day of departure. Reports of the repairing of the railroad, due south from here, are not favorable, and Senor Madero is loath to think he will be compelled to leave Mexico to travel via San Antonio, Tex., and Laredo, in reaching the national capital.

Election Machinery Crude.

Washington, May 26.—President De La Barra's term of office probably will extend over six months. Crude and rusty electoral machinery will prevent the holding of general elections until Sept. 1 and it will be Dec. 1, probably, before the next president can assume office. Such is the expectation of the Mexican contingent here.

The change in the presidency will not affect that personnel of the Washington embassy, especially in view of the fact that Ambassador Zamacona was personally selected for his post by Senor De La Barra when he relinquished the ambassadorship here.

LOUISIANA'S SULPHUR MINE.

It seems rather odd that so familiar a substance as sulphur should be found in paying quantities in very few localities. According to the Logical Point it is now principally supplied to the world from one mine, located in Calcasieu Parish, Louisiana.

Until five or six years ago Sicily was the chief source of supply, but since the discovery and perfection of the patented process employed in the Louisiana deposit, the Sicilian mines have forfeited their monopoly of the sulphur production of the world.

Sulphur was discovered in the southwestern part of Louisiana in 1858, while drilling a well for oil, but no notice was taken of its value until after the Civil war, when several unsuccessful attempts were made to sink a shaft to the sulphur deposits. It is the largest sulphur mine in the world, the sulphur production of Sicily coming from some 700 mines.

In 1870 a French company began work on an enormous scale to sink an eleven-foot shaft to the deposit—500 feet beneath the surface. It was necessary to have cast in France the rings to be used for the caisson, as no foundries in the United States were capable of making satisfactory castings of the dimensions required.

These were eleven feet in diameter and five feet long. Each casting weighed seven and one-half tons. A conservative estimate places the cost of transportation alone on the material and machinery brought to the mine location at $300,000. This company never reached a sufficient depth to insert any of the cast iron rings.

Several attempts were made by other companies and altogether three or four million dollars were sunk in the mine. But while all of these attempts to secure the sulphur by shaft mining failed the subject was discussed in the scientific papers and came to the notice of Herman Frasch, a scientist, who had some years previously invented a process for desulphurizing Lima oil, a task on which the governments of several European nations had chemists at work for years.

This process was eventually sold to the Standard Oil company, as it had anticipated the unsuccessful attempt to desulphurize the oil commercially and had in storage 25,000,000 barrels of Lima oil, for which it had paid 14 cents a barrel, as it was good only for fuel previous to the invention of Mr. Frasch, which not only desulphurized the oil in commercial quantities, but the process added practically no extra expense in refining.

It is a significant fact that the Standard Oil company today uses the same process in almost every detail. Mr. Frasch was induced to try his inventive genius on the sulphur problem. The success with which his effort was rewarded is best told in stating that the assessment of the mine in 1910 was $4,664,000.

The sulphur obtained from this mine, while not only almost chemically pure (the average test being 99.8 per cent), contains not a trace of either selenium or arsenic, both of which are very objectionable. The principal manufacturers of sulphuric acid use this sulphur to the exclusion of the cheaper pyrites, on account of there being absolutely no danger of arsenic poisoning, as might be the case if pyrites was used.

A COREAN CHOIR.

Washington Star: Miss Eliasue Wagner, an active missionary from Corea, said that music was as far away from the nature of the Coreans as could be imagined.

"We feel greatly encouraged," she said, "if by some fortunate chance we can teach a Corean girl or boy to carry a tune. We've been successful with a few of them, but very, very few. A Corean choir is the most horrible bedlam of noises it has ever been my misfortune to listen to."

Miss Wagner said too that despite assertions to the contrary there was a home affection between parent and child. "The sons, especially the oldest son, in the heathen families," she said, "receive the most affection, while the least is conferred on the girls. The sons are the ideal and hope of the Corean parents. It is customary to marry the girls off between the ages of 8 and 12 years."

SOME ANCIENT POKER RULES

How Yiddel Gave the Chochems' Club a Few New Ideas About the Great American Game.

WHILE Mr. Morris Saltpeter shuffled the deck and deftly riffled it during the poker game at the Chochems' Poker club rooms, the small wind raised by the cards blew a fifty-dollar bill off the top of his heap of money and it fell to the floor at the feet of Mr. Saltpeter and Ignatz Fluegelmann, who was sitting close to the table watching the game, says the New York Telegraph.

Morris went on with the deal and finished the hand and then stooped over to pick up the bill. It was gone! Disappeared!

Mr. Saltpeter looked at Mr. Fluegelmann with deepest suspicion and the latter gazed back with apparent unconcern.

"Gonoff!" cried Mr. Saltpeter. "Give me back my fifty!"

"Gonoff!" ejaculated Mr. Fluegelmann. "Did you said Gonoff? I been ansalted."

"I dropped a fifty-dollar bill on the floor and you got it, or where is it, I like to ask?" said Mr. Saltpeter.

Mr. Fluegelmann gazed around at the assembled Chochems. "Bruder Leben," he said, "I appeal for protection. Here is a man who charges me with having stolen money right under his eyes and yours, too. How could I do it? Finnster iss mir! Should I not resent it?"

"Do what you like," said Morris; "only for sure you got to come back with that half century or be fought by me."

"No fighting," said Isador M. Patrekovsky, the strong man of the club. "Go on with the game."

"I cannot stay where ansalts been offered to me with threats of violence from a Bruder member of the club," said Mr. Fluegelmann.

He arose to go, and Mr. Saltpeter hurried himself on him and made a desperate attempt to search his pockets, but was pushed back into a chair.

Mr. Fluegelmann walked out with an offended manner. He had been playing in the game and lost all his money, and others had refused to lend to him. Just as he left he said: "If I raise some money I'll be back and get even with you Schlamiels."

Mr. Saltpeter resumed the game with deep breaths and hard looks at his fellow Shochems. "I like to ask who wants to be robbed?" he said. But no one replied.

Fifteen minutes later Mr. Fluegelmann entered with an air of prosperity. Throwing down five ten-dollar bills on the table, he said: "Fifty dollars worth of chips, please."

Mr. Saltpeter collapsed, and had to retire to the rear room until he recovered from the brainstorm that struck him.

Mr. Fluegelmann won several pots, an especially good one from Mr. Saltpeter.

"Lucky money," said Ignatz, patting his roll of bills.

"Yes, and where did you get it?" asked Mr. Saltpeter bitterly.

"Picked it up in—"

Mr. Saltpeter interrupted with fury "Picked it up right here," said Morris. "Off the floor, I like to bet on that."

"I was going to say that I picked it up in the poom," said Mr. Fleugelmann. "I had a bet down on King James."

"Oy, oy," said Mr. Saltpeter. "I hate to say it, but, Ignatz—"

"Don't talk," said Mr. Fluegelmann, ignoring Mr. Saltpeter's interruption, "I met Yiddel Cohen, and he told me the funniest thing about his father that you ever heard of. The old man has been going around town with a big bank roll for a week, looking for a poker game. Possessed by the gambling fever, Yiddel says, and he is anxious for to get the old man into a game and make a killing himself."

Mr. Saltpeter became interested. "New blood, if we could get him up here," he said, forgetting his grievances. "For why should not Yiddel and his father—and I hear the old man is a good player and risks lots of money—play here with us? I like to say that we should invite them up here. Then Ignatz Fluegelmann can get both of them here, and I been in the game, I will forgive him the 50 what he stole from me a while ago."

"Stole nothing," said Ignatz angrily. "Don't begin anything with me, as the Goy said when you took his watch and pretended to be hypnotized."

"We can always fight," said Mr. Saltpeter. "Now what we want is for you to bring Yiddel Cohen and his father up here, so that we can win the old man's money and give Yiddel a chance if he wishes."

"I can do it," said Ignatz Fluegelmann. "In fact, I already spoke to Yiddel about it. He said that if the old boy plays here that we got to overlook a lot of things. For instance, he talks surly when he plays poker. Abuses the people, Yiddel says. Will have no back talk, neither. Then he plays under the rules of 1865, and will hear of no innovations, as he calls them."

"Well, he cannot kill us, and I don't suppose he is dangerous," said Mr. Saltpeter. "All you got to do is to bring him up here, him and Yiddel and let us get at them—them and their rolls."

"I can do it easy," said Mr. Fluegelmann.

The following evening Mr. Yiddel Cohen, a small, nervous youth, and a ponderous red-faced man, whom he addressed as father, were marched into the Chochems' Poker club rooms by Mr. Fluegelmann. They were greeted by Morris Saltpeter, Isador Morris Patrevsky, Al Hershfeld, Yultus Shabboshecket, Abram Shaumberg and Julius Rozenweig.

Mr. Cohen, Sr., lived up to his reputation for harshness.

"I lower myself by playing with a lot of cheap Schlamiels," he said, with a sneer. "Zooros, awer it hurts my pride."

Then he produced an enormous roll of money, held together by two rubber bands. "Can any of you Schnorrers match this?" he asked. "No? Do you know what the Goyim would call all of you? A lot of dubs. But I suppose you got some money in your pockets—a little maybe—and I can win that, and then go and find real men and a real game for to play into."

The elder Cohen seated himself heavily at the round table, which was covered with green cloth, and deposited the big roll of bills in front of him. When he saw that his son Yiddel was going to play, Mr. Cohen at first was disposed to protest. "It is like winning my own money," he said to the Chochems. "That Kinchen never had a dollar in his life that I did not give him. Now, he thinks, I suppose, that he's going to win some from me. Oh, well, let him come; I'll have to return it some day. Now, you pikers," he said, addressing the Chochems with energy, "are you ready?"

Mr. Saltpeter addressed himself to Mr. Cohen: "What rules do you play under?" he asked.

"Poker rules," said Mr. Cohen. "What rules do you play under, I like to ask? Ping pong?" He laughed coarsely.

"There are rules and rules," said Mr. Saltpeter.

"We play under my rules," said Mr. Cohen. "Otherwise there is not going to be a game."

The Chochems all said in concert and with some anxiety: "Your rules will be our rules, Mr. Cohen. Poker is the same like it always was."

"Begin. Begin," said Mr. Cohen. "You Chochems and Yiddel, win my money if you can."

Yiddel Cohen and Mr. Fluegelmann and Mr. Saltpeter exchanged looks, and it was evident that all of them had the same purpose. Mr. Cohen was to be the object of attack of all of them.

In the first hand, when a jackpot was played, Mr. Cohen showed his quality. Mr. Saltpeter broke the pot, and Mr. Cohen and Yiddel and Mr. Fluegelmann stayed. Mr. Saltpeter made a big bet and Mr. Cohen gave an ejaculation expressive of fury and threw down his cards. Yiddel and Mr. Fluegelmann called Mr. Saltpeter, and then the elder Cohen retrieved his cards and called, showing down a full house, and raking in the pot.

"You threw your hand down," said Mr. Saltpeter. "You can't take back your cards."

Mr. Cohen produced an ancient looking book, entitled "Rules for Poker, published by Harper & Sons, 1867," and said: "There are the rules; show me where it says that a player got to hold his cards and can't lay them down."

Mr. Saltpeter did not pick up the book. "Don't talk," said Mr. Cohen. "Stiegen. Rules are rules, you Chammers. Play cards."

For an hour the play went on, and Mr. Cohen won steadily. Mr. Saltpeter, Yiddel Cohen and the others were disconcerted, and Mr. Cohen whistled and suggested that they should learn the game.

Then came a big jackpot. Mr. Fluegelmann broke it, and Mr. Saltpeter, Mr. Hershfeld, Yiddel Cohen and Mr. Cohen and Mr. Fluegelmann stayed.

Mr. Fluegelmann drew no cards, standing pat. Mr. Cohen drew two cards, announcing at the time that he was not afraid of Mr. Fluegelmann's hand. Mr. Saltpeter drew one card. Mr. Fuegelmann bet all his money; Mr. Saltpeter called, putting in all his pile.

Mr. Cohen gazed at them scornfully. "I wish you had money you cheap Chochems," he said. Then he called. Mr. Fuegelmann laid down a straight, the smallest one in the deck, running one, two, three, four and five. Mr. Saltpeter gave a shut of triumph, and laid down another straight, the top card of which was the nine spot.

They looked anxiously at Mr. Cohen, who jeered and began to take in the pot, spreading out his hand for inspection. He had three kings. "I win," said Mr. Saltpeter. "Hold on there; should you take money over my dead body."

"Yes, I might," said Mr. Cohen, "or two or three dead bodies. All I want is my rights. You did not have anything. Neither did that man," pointing to Fluegelmann.

"We had straights," said Mr. Saltpeter, "and mine was the biggest. I win."

"Look at the rules," said Cohen.

The Chochems did so, and found nothing about straights. The hands were given as pair, two pairs, threes, flushes and fours.

Mr. Cohen pocketed all the money. "Rules are rules," he said as he took his departure. "I advise you folk to learn the game before you go into it with an old hand like I been."

Wearing a sly, smiling look on his face Yiddel Cohen left with his father.

Mr. Saltpeter gazed after them with fury. "Should I ever meet that Yiddel Colien again," he said, "I'll take a punch at him should it be the last of my life."

DEAD DUCK AND DECOY.

There is a certain aspiring duck hunter of New York who is ready to swear that as long as he lives he will never willfully kill another perfecty dead duck, says the New York Sun.

For several days he and two veterans of the sport had hunted unsuccessfully on the waters of an up-state lake. So bitter was the disappointment of the young man, who had never shot a duck in his life, that on the night before the day of their departure, when he was asleep in the cabin, his two companions made preparations for the appearance of a perfectly natural duck which should be feeding somewhere within gunshot on the following morning in front of their shack. This was not an easy matter; the ducks were unusually diffident. By midnight, however, the obliging magicians were able to repair to their blankets satisfied with their success.

Not long after dawn the disappointed aspirant was awakened by one of his companions. "There's a big drake coot in front of the cabin," cried the eager informant, punching the dazed sleeper. "Jack's after firewood, and I'll let you do the shooting if you'll be quick about it." So saying, he pushed a loaded double-barrel into the awakening man's hands and bade him sneak quietly to the front door and shoot.

The partly dressed enthusiast needed no further enlightenment. Grabbing the shotgun, he tiptoed barefooted across the cold floor to the doorway. One joyous look, and like a flash went the gun to his shoulder.

Both barrels went almost simultaneously. "He's dove, blast him!" cried the burner of powder. "I must have tinged him, though! More shells, quick, before he comes up again!"

Two shells were passed him by the man behind. Then there was the target once again riding the surface swells.

Bang, bang, boomed the smokeless; and this time the gunner gaped at the vacant water spot in wrathful amazement.

"Here," cried the man behind, concealing his mirth under a new outburst of simulated excitement and condemnatory remarks. "For heaven's sake, get him this time!"

Serenely to the surface for the third time bobbed the elusive game. But hardly had its bill reached the air when the double volley from the man in the doorway spread a halo of number fours around him. "There, take that!" howled the gunner. But with a clumsy lurch the big coot ducked below the water.

The hunter turned impatiently, handing the weapon to his sacrificing companion: "Here shoot that fish out there! If you don't, I'll go out and stab it with a toothpick!"

But at that moment the man who had not shot pointed to the lake. "There he is; you've got him this time, all right. Look!"

Where the heavy shot had thrashed the water now lay the upturned white breast of a duck. The jubilant gunner hurried to the boat and rowed out to the spot. Grabbing the slain wildfowl, he was astonished to see a long string running down into the water from the bird's neck.

"How the devil—!" he muttered. Just then something appeared in the water at the other side of the boat. He found himself looking hard at a perfect wooden decoy. He drew this also into the boat and saw that this was likewise stringed. Then with a wave of disappointed rage it dawned upon him. Some one had been operating a dead duck and a wooden decoy from the shore. He cast a sheepish glance toward the house. There was no one in sight. Then under the dock of the shack he saw the mirthful visage of the man at the other end of the strings.

WHALES OF IRISH COAST.

Irish Naturalist: A whale fishery was established some years ago on the west coast of Ireland. Four steamers are now employed in this industry, and during the last two years 124 whales have been caught. Ten years ago these animals were looked upon as interesting stragglers rather than as native mammals. The idea of a whale fishery on the Irish coast would have seemed absurd to most people. Now two companies are at work, the Aranmore Whaling company on Inishkea and the Blacksod Whaling company at Elly Point, both in County Mayo.

From a scientific point of view the chief interest in these fisheries, as Dr. Scharff points out, is the insight thus given into the natural history of these mammals, which could scarcely be obtained in any other way. "Nothing short of capturing a whale, he says, "will enable us to identify it satisfactorily." The old list of Irish whalebone whales included five species, the southern right whale, hampbacked whale, Sibbald's rorqual, common rorqual and lesser rorqual.

The captures of the whaling companies seem to throw doubt on the first named, for all the right whales captured by them seem to have been the northern right whale. They have also added to the list the northern rorqual. The Irish list of whalebone whales now contains seven species, of which the southern right whale is doubtful.

Whales may be divided into two well defined groups, the whalebone whales and the toothed whales. Of the latter the Irish list contains the sperm whale, the bottle-nosed whale and the beaked whale. The former group, though toothless when adult, start life with rudimentary teeth. These are replaced by "a horny substance which grows from the upper jaw in long sheets of triangular plates." These are attached to the roof of the mouth and form that familiar article whalebone.

Some people, declares Dr. Scharff, still persist in believing that whalebone is made of whale's ribs, and others that it comes from the tail. The function of whalebone in the life of the whale is of primary importance. The inner edges of the whalebone plates are frayed into innumerable hairlike processes, and the whole forms a sort of sieve, by means of which the whale sifts out its food from the sea water. For the food of this gigantic creature consists chiefly of minute crustaceans, mollusca, etc., floating near the surface. When the whale opens its mouth and moves along a great multitude of these find their way it. Then it closes its mouth, and the water is strained out through the whalebone sieve, and the food is retained.

The common uses of whalebone are known to everyone, but Dr. Scharff mentions two which are probably not generally known. The fine internal fringes above mentioned are now employed in the making of barrister's wigs. They are light, and it is found that they retain the curl better than ordinary hair.

Fine whalebone threads are also sometimes used to stiffen the tissue in high class silks. The other important use of the whale is in the production of oil. A full grown right whale may have a thickness of one foot of blubber beneath the skin, and a large specimen may yield thirty barrels of oil. Every particle of the carcasses of the whales captured in the Irish fisheries is utilized, and in addition to oil and whalebone, cattle food, guano and bone manure are obtained.

SEAL STOPPED THE TRAIN.

San Diego correspondence Los Angeles Times: A young, fat, lazy seal basking in the sunshine on the railroad track the other afternoon stopped an incoming train on the Los Angeles and San Diego Beach railroad coming from La Jolla. At a point where the seal was basking the track was clear and the engineer was able to observe it without running over it. The train was stopped.

The engineer and brakeman captured the seal and placed it in the baggage car. It was brought to the depot. The state fish and game commission will be asked for permission to keep the captured animal in a tank to be built on the depot grounds. The point where the seal was found is at American Park, several miles from the nearest water. The railroad officials surmise the seal was carried out to dry land by the high tide from False bay and that when the tide went out it was unable to find its way back to the water.

LEGAL NOTICES.

OREDR FOR HEARING ON PETITION FOR ADMINISTRATION—
State of Minnesota, County of St. Louis.—ss.
In Probate Court.

In the matter of the estate of John Economos, Decedent.

THE PETITION OF George Kampas, having been filed in this Court, representing, among other things, that John Economos, then being a resident of the County of St. Louis, State of Minnesota, died intestate, in the County of St. Louis, State of Minnesota, on the 3rd day of March, 1911; leaving estate in the County of St. Louis, State of Minnesota, and that said petitioner is the nephew of deceased, and attorney in fact of the surviving spouse of said decedent, and praying that Letters of Administration of the estate of said decedent be granted to George Kampas.

IT IS ORDERED, That said petition be heard before this Court, at the Probate Court Rooms in the Court House in Duluth, in said County, on Monday, the 12th day of June, 1911 at ten o'clock, A. M., and all persons interested in said hearing and in said matter are hereby cited and rejuired at said time an place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in The Duluth Herald, according to law, and that a copy of this Order be served on the County Treasurer of St. Louis county not less than ten days prior to said day of hearing.

Dated at Duluth, Minn., May 18th, 1911.

By the Court.
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)

MOISTURE IN NORTHWEST

Values Decline—Wheat Receipts Large—Crop News Bullish.

Dry Weather Reports From Southwest—Linseed Continues Weak.

Duluth Board of Trade, May 26.—Wheat eased off today although the Chicago market displayed some strength on account of the May deal and resultant congestion in July wheat. May wheat here declined ¾c, July ¾c and September gained ⅛c. Cash wheat was ½c over July. Durum, July, lost ¼c. Rye was unchanged. Oats gained ¼c on account of reports of damage to the growing crop from hot temperatures and high winds in the southwest.

Linseed was weaker. Crushing support continues absent and there are few buyers for the seed that is offered by the country. May lost 8½c, July 8½c, September 2c and October was unchanged. Cash was on a May basis.

News generally was bullish today with the exception the weather map in the Northwest, but wheat was weak. There was an absence of buying power. Western North Dakota got heavy rains last night and the entire tier of Northern counties received needed moisture. South Dakota is in need of moisture in many localities and got only a sprinkle. Rains were widespread and fairly copious in the prairie provinces of Canada. The growing spring wheat there and in this country is in first-class condition with the exception of some places in South Dakota.

Cables were strong on account of predictions of lighter world's shipments which, however, will be comparatively heavy. The French report was regarded as bullish. It makes the acreage under wheat this year 669,000 acres less than last year. The condition of winter wheat is given at 69.1 against 70.4 last year. Spring wheat is given at 69.9 against 72.2 last year. Figures on crop conditions according to Broomhall, are unreliable. He thinks this year's crop will be about 20 per cent in excess of last year but 10 per cent under normal.

The Canadian Pacific estimates the acreage of wheat in the prairie provinces of Canada this year at 9,729,300 against an official estimate of 8,375,836 last year.

Moisture Lacking.

Unusually hot temperatures for this season exist in the winter wheat states and its effect upon the growing wheat is intensified by lack of moisture. The records of the weather bureau show a deficiency of moisture. Discussing this feature, B. W. Snow of Chicago, wired: "The effect of high temperatures upon wheat and oats is intensified by the lack of both reserve moisture in the soil and of current rainfall over almost the whole grain belt. The records of the weather bureau show a serious rainfall deficiency from October to Jan. 1, inclusive, in Indiana, Illinois, Wisconsin, Minnesota, North Dakota, South Dakota, Nebraska and Oklahoma, and from March 1 to May 22 there has been further serious deficiency in current rainfall in Oklahoma, Kansas, North Dakota, South Dakota, Missouri and Nebraska.

"In Kansas from March 1 to date the rainfall has averaged only 3.9 inches against a normal for this period of 7.6, inches, Oklahoma 5 inches against 9.6, South Dakota 4 against 6.2 inches, North Dakota 3.2 against 4.5, and Missouri 7.4 against 9.9. These current deficiencies following as they do a shortage during the preceding five months indicate a general moisture situation in the small grain districts which makes high temperatures at the heading period a feature of danger to the crop.

"While the accumulated deficiency of rainfall is threatening to oats and winter wheat in the heading stage, it is not now at all significant as to corn. That crop is just starting and there is moisture enough, coupled with warm nights to stimulate rapid early growth. There is plenty of time in the next two months for all needed rainfall for this crop."

A bearish bit of news came from St. Louis. The message said two train loads of wheat will reach Chicago for delivery on Monday and are being loaded today. Primary receipts were heavy, being nearly three times in excess of receipts last year.

Small Decrease.

Stocks in the Northwest will not show a large decrease this week. Duluth stocks will decrease about 85,000 bus. compared with about 680,000 bus. last year.

The Modern Miller's report was not as bullish as expected.

Crop news from the Southwest claimed further damage to winter wheat on account of hot winds and lack of moisture.

The Chicago Examiner makes the statement that A. J. Lichstern is short July wheat and that he has made a failure of this May deal. That newspaper claims that the Chicago speculator will take delivery of wheat on his long May and dump it on the July bulls in fulfillment of his short contracts. J. Ogden Armour is credited with being the leading bull in July wheat.

Cash Sales Friday.

MARKET GOSSIP

A special dispatch from H. D. Paulson, The Herald's Grand Forks, N. D., correspondent, received today, follows: Corn gives promise of being one of North Dakota's heaviest crops this year as a result of the interest that farmers have taken in planting that grain. The corn acreage is much heavier than it has ever before been, hardly a farmer having overlooked this feature in planning this year's operations.

Reports that are received in Grand Forks relative to the corn situation are uniform, practically all being to the effect that the corn acreage is larger.

An indication of the extensiveness of the corn planting can be gleaned in a report from Griggs county, where every farmer, practically, has planted from twenty to fifty acres. In Dunn county, where conditions are entirely different from those in Griggs, the corn acreage has increased materially. Dunn is one of the counties in the state possessing a large acreage that is unbroken. It is one of the "frontier" counties, agriculturally speaking.

Emmons county, portraying another North Dakota condition, has a big corn increase, the increases in that county being largely in fodder corn. In the Red river valley counties, notably Grand Forks, Walsh and Pembina, there has been an increase in the corn acreage and nearly every farmer has a good sized corn patch.

Materially better conditions are to be found this season with respect to the weed crop than has prevailed in other seasons. Fields present a much cleaner appearance from the roads than they have other years at this time.

Heavy rains that fell over the state in the last two weeks have worked wonders in the pasture and meadow land, and cattle are being rangefed everywhere. The short hay crop of 1910, resulting in a rather hard feeding season, has been the means of warning the farmer that the fodder proposition is one that is well worth while considering, and more attention has been paid to it.

There is considerable speculation as to the linseed acreage in the state, statistics on that question not being available as yet. It is contended in some counties that the linseed acreage has been decreased because of the high price of the linseed this spring. That condition, however, with reference to Grand Forks county, Rolette county, too, makes a similar report, that county also including barley as one of the short crops. In the western section of the state, where the newly broken land has usually been given over entirely to linseed, that seed shares a place with corn this year.

With reference to the moisture question, there probably is not a portion of the state in which the rainfall is above the average. That is especially true of the eastern sections, while in the western districts, while rains during the early part of the month were not as heavy as they were in the eastern districts, several showers have been had since that time that have about balanced the scales.

An oats specialist presents the following: "Government figures show farm reserves March 1 were 421,000,000 bu.; consumption or shipments from farms in twelve months ended March 1 were 1,069,000,000 bu. against 923,000,000 last year. On same basis of consumption as last year, farm reserves Aug. 1, will be only 61,000,000 bu. or 2,000,000 bu. less than last year, although last crop was 120,000,000 bu. larger than 1909. Yield per acre last year was 31.9 bu. compared with 27.55 bu. average for preceding four years. Farm prices in December were 34.1c compared to 40.9c average for preceding four years. Hay crop in 1910 was 4,000,000 tons less than in 1909 and 10,000,000 tons short of 1908. Condition of hay land, March 1, was five points under last year."

Yesterday's Chicago Record-Herald says: One of the final stages of the May deal was reached yesterday, when all except one of the elevator people stopped buying grades below contract. With competition removed the off grades dropped from the speculative or May delivery basis to the milling level. The latter demand proved as unsatisfactory as heretofore and No. 3 red winter wheat, which closed Tuesday and opened yesterday at May delivery price, dropped to 4c below May. The buyer of car lots of off grade now assumes considerable risk. In the event that he is able to get the wheat into private elevators and cleaned and blended to grade contract in time for transfer to public elevators this month is will show a substantial profit. Failing in this the wheat would have to find a milling buyer, apparently hopeless at present, or would have to be applied on July delivery contracts, which were fully 11c under May at the close last night. That the chances are not alluring to the trade at large was evidenced by the fact that only one of the elevator concerns continued buying. Contract grade wheat, which sold on track at ⅛@¾c over May on Tuesday, was down to May delivery price yesterday for both No. 2 hard and No. 2 red.

Broomhall cabled from Liverpool: "The wheat market opened firm with shorts nervous, owing to the unexpected strength in America yesterday and values were ¼@⅝d higher, with the principal buying in distant months. Following the opening the undertone continued strong with further advance of ⅛@¼d in July and October. Offerings were lighter with speculative sup, ort, induced by predictions of lighter world's shipments this week and the bullish French official report. The market was not enthusiastically supported although some fears are entertained regarding possible manipulation in America. There was an absence of continental demand and cargoes in all positions were freely offered. At 1:30 p. m. the market was dull but strongly held at the opening advance, being ¼@⅝d up from yesterday. Corn opened ¼d higher, with a firm undertone and later July gained an additional ¼d. Support was due to smaller American offers and in sympathy with wheat. Wheat cargoes arrived off coast 2, and awaiting orders 7. Wheat in distant positions and cargies in all positions, offered freely. Corn steady, sellers ask 1½d advance. Broomhall estimates the wheat and flour shipments for the week exclusive of North America, at 11,600,000 against 12,592,000 bu last year. Of this total Europe will take about 10,800,000 bu. Arrivals of breadstuffs into the United Kingdom will aggregate about 4,800,000 bu. He predicts that there will be a fair increase in the quantity of breadstuffs on passage to the United Kingdom. Indian wheat shipments this week, 1,288,000 bu; last week, 1,144,000 bu; last year, 1,456,000. Australian wheat shipments this week, 936,000 bu; last week, 808,000 bu; last year, 768,000 bu.

Cars inspected: Wheat—No. 1 northern, 19; No. 2 northern, 8; no grade, 1; No. 2 durum, 1; No. 1 durum, 2; total wheat, 31; last year, 9; linseed, 3; last year, 11; corn, 5; last year, none; oats, 15; last year, 11; total cars, 54; on track, 78.

Minneapolis indemnities: July puts, 96@96¼c bid; calls, 97⅞c; September puts, 91⅞c bid; calls, 92⅝c.

Clearances: Wheat, 384,000; flour, 14,000 bbls.; corn, 41,000; oats, 600; wheat and flour, 447,000.

Forecast: Illinois and Missouri—Fair and continued warm tonight and Saturday. Indiana—Fair tonight, Saturday increasing cloudiness; continued warm. Wisconsin, Iowa—Fair and continued warm except probably showers in northwest portion tonight or Saturday. Minnesota—Unsettled weather and probably showers tonight or Saturday; continued warm. South Dakota—Unsettled weather and probably showers tonight or Saturday; cooler Saturday and in west portion tonight. Kansas—Generally fair tonight and Saturday; cooler in north and west portion Saturday.

Modern Miller said: Recent rains were not general and return of cloudy and unfavorable weather season of the year is causing damage to winter wheat. Advices from the Southwest are of a deterioration to the crop and from other sections there are reports of thin stand and small heads. Other wise conditions are considered satisfactory.

Primary receipts today—Wheat, 612,000, last year 287,000; shipments, 208,000 vs. 247,000. Corn, receipts 710,000 vs. 423,000; shipments, 464,000 vs. 371,000.

Closing wheat cables: Liverpool, wheat, ¼d to ¾d higher; corn, ½d higher. Antwerp, ⅝c up. Berlin, ⅜c up. Budapest, ½c lower compared with Wednesday.

Plata linseed for May—June shipment was quoted at Antwerp today at $2.168 a bu., including an allowance of 4 per cent for impurities.

Linseed shipments this week—Argentine to United Kingdom, 30,000 bu; to continent, 68,000 bu; India to United Kingdom, 353,000 bu; to continent, 1,055,000 bu; to New York, 248,000 bu.

CHICAGO MARKET.

Wheat Advances on Unfavorable Crop News From France.

Chicago, May 26.—Unfavorable official reports regarding the crop outlook in France turned the wheat market in an upward direction today. Bullish feeling was reinforced by a prediction of lighter world shipments. Besides, heat and drouth southwest continued in full effect. Heavy selling at the advance, however, led to a reaction. The opening was ¾c to ⅞c higher, July started at 89¾c to 89¾c, a gain of ⅛@¼c to ⅜@½c, fell back to 89⅜c, and recovered to 89¼c.

Reports of shipments to Chicago from St. Louis resulted in a decline. The close, however, was firm with July at 89½c, a net gain of a shade.

Despite much realizing the corn market showed considerable strength. Commission buying was general, the cause being the bullish cash situation. July opened ⅛@¼c to ⅜@½c up at 53¾c to 54c, receded to 53⅞c, and rallied to 53¾@53⅞c.

Renewed buying brought about a further bulge. The close was firm with July ⅝c net higher at 54⅛@54¼c. Shorts covering pushed oats higher but free sales gave the market a temporary set-back. July started ¼ to ⅜c dearer at 35¾ to 36c, fell to 35¼ and then rose to 35½@53⅝.

Provisions were strong because of a light run of hogs west. First sales were 2½ to 5c to 10c above last night's level with July delivery $15.00 for pork, $8.27½ to $8.32½ for lard and $.02½ for ribs.

Articles	Receipts	Shipments

MINNEAPOLIS MARKET.

Tendency to Sell Wheat Develops on Weather News.

Minneapolis, Minn., May 26.—The Northwest saw a more favorable outlook today after an inch of rain was reported at Williston, N. D., and as other Northwest crop news was favorable there was some tendency to sell wheat. But the markets where southwestern crop news is most important felt differently and Minneapolis held up. There was narrow range around 97c for July for most of the day. Minneapolis received 169 cars against 142 a year ago, and shipped 55. May opened 96c; high, 96c; low, 95½c; closed, 96c. July opened 97⅜c; high, 97½c; low, 96⅜c; closed, 96⅞@97c. September opened 92¾c; high, 92½c; low, 91⅞c; closed, 91⅞c. December closed 91⅞c.

Cash wheat was offered at 2½c over July for the best of it, which went to the millers and the elevators got more than they got yesterday of the less desirable No. 1, that sold at ½c under. Close: No. 1 hard, $1.00; No. 1 Northern, 97½@99½c; to arrive, 97½@99¼c; No. 2 Northern, 95@98c, to arrive, 95@97¾c; No. 3 wheat, 93@96c; No. 1 Durum, 88½c; No. 3 yellow corn, 52@52¼c; No. 3 white oats, 33½@33¾c; No. 2 rye, 90c.

Millstuffs—Shipments, 1,475 tons. Closed—Bran in 100-pound sacks 20.50@21.00.

Flour—There was another easier trend today and another slight decline added to that of yesterday. Flour shipments, 54,942 bbls. Trade is reported duller than ever and eastern demand falling off to a lower stage than yesterday. First patents in wood f. o. b. Minneapolis.....; second patents, $4.60@4.90; first clears, $3.20@3.50; second clears, $2.20@2.85

Flax—Receipts, 4 cars; year ago, 14; shipments, 6. Flax was weak and much lower in line with the weaker option. Some past cars sold here early 3 to 4 cents under yesterday, but later quotations were 5c to 7c off. No. 1 flax, $2.22¼.

Barley—Receipts, 27 cars, against 40; shipments, 23. Out of this there were 14 cars of California and six cars of barley needless. Not much good northwest malting barley was seen. Malting barley, 75@95c; feed barley, 60@95c.

Corn and Wheat Bulletin.

For the twenty-four hours ending at 8 a. m., Friday, May 26:

REMARKS—Very warm weather prevails except in Northern Minnesota and North Dakota. Showers fell over the Dakotas and Western Minnesota.

T—Indicates inappreciable rainfall. •—Maximum for yesterday. †—Minimum for twenty-four hours, ending 8 a. m. 75th meridian time. ‡—Minimum temperature for 12-hour period ending at 8 a. m.

NOTE—The average maximum and minimum temperatures are made up at each center from the actual number of reports received, and the average rainfall from the number of stations reporting .1 inch or more. The "state of weather" is that prevailing at time of observation.

New York Grain.

New York, May 26.—Close: Wheat—May, 96¾c; July, 96⅝@96¾c. Corn—May, 62c; July, 62c.

Liverpool Grain.

Liverpool, May 26.—Close: Wheat—Spot firm; No. 1 northern, Manitoba, 7s 2¼d; No. 2 do nominal; No. 3 Manitoba, 7s 1½d; futures, firm; May, 7s; July, 6s 10¾d; October, 6s 8¾d. Corn—Spot new American mixed nominal; old do quiet, 5s 3d; new American Kiln dried nay, 4s 10d; futures quiet; July, 4s 9d; September, 4s 10d.

Cotton Market.

New York, May 26.—The cotton market opened steady at a decline of 6 points on May but generally unchanged to 4 points higher in response to higher cables and covering by some of yesterday's sellers who seemed to fear a renewal of old crop bulls support, and the possible influence of bullish week-end figures. Fresh buying for long account was checked by favorable crop reports from Mississippi, Louisiana and Florida, and as support from the leading bulls failed to develop the market ruled quiet and somewhat irregular with active months about 1 to 2 points net higher during the middle of the morning.

Spot closed quiet, 10 points lower; middling uplands, 15.80; middling gulf, 16.05. Sales, 1,099 bales.

Futures closed steady; closing bids: May, 15.41; June, 15.47; July, 15.54; August, 15.06; September, 13.52; October, 13.08; November, 13.00; December, 13.01; January, 13.00; March, 13.08.

Chicago Livestock.

Chicago, May 26.—Cattle—Receipts estimated at 1,000; market steady to shade higher; beeves, $5.15@6.35; Texas steers, $4.00@5.55; western steers, $4.80@5.80; stockers and feeders, $3.90@5.75; cows and heifers, $2.40@5.75; calves, $5.25@7.75. Hogs, receipts estimated at 18,000; market generally 10c higher; light, $5.75@6.15; mixed, $5.75@6.10; heavy, $5.50@6.02½; rough, $5.50@5.70; good to choice heavy, $5.70@6.02½; pigs, $5.50@6.05; bulk of sales, $5.90@6.05. Sheep, receipts estimated at 8,000; market weak; native, $3.50@4.90; western, $3.75@5.70; yearlings, $4.75@5.65; lambs, native, $4.75@6.35; western, $5.75@7.10.

Midway Horse Market.

Minnesota Transfer, St. Paul, Minn., May 26.—Barrett & Zimmerman report: Trade is slow, with few sales being booked. Receipts light. Values show a downward tendency.

ADVANCES WIPED OUT

Active Stocks Display Undertone of Strength Throughout Day.

Prices Go Off Rather Easily Near Close, Which Is Heavy.

New York, May 26. — The pressure against United States Steel of the last two days appeared to have been relaxed in the early trading on the stock market today. Transactions in the stock were not large and prices were unchanged. Cessation of the selling movement had a bracing effect upon the market and prices were advanced moderately. General Electric gained 2 points, Canadian Pacific 1, Atchison and Westinghouse Electric ⅜, Reading ⅝, Union Pacific and Amalgamated Copper ½. The resignation of President Diaz caused an advance in Mexican securities. National Railways of Mexico second preferred gained ¾.

Larg buying orders were distributed in the standard railroad stock and prices moved up smartly, with Atchison, Union Pacific, Reading and the Hill stocks the features. Gains in these and several of the active specialties ran from 1 to 1¾ points.

The selling pressure which held stocks in check for several days was relieved this morning and an added improvement in the tone of the market resulted. Substantial advances were made in all classes of stocks and bear traders, who had sold heavily, were obliged to cover. A number of minor industrial stocks, including the electric shares, were especially strong. Atchison's favorable April report increased the demand for that issue. Buying of Union Pacific was stimulated by the announcement that the $25,000,000 Harriman bond issue had been over-subscribed. Prices held firm throughout the morning session, although the demand abated at the higher level.

The trend of prices was downwards in the early afternoon, but the important stocks still retained a large proportion of their earlier advances.

Business slackened to almost nominal proportions and fluctuations were narrow. Operations restricted ventures owing to the prevalent belief that the supreme court would make a decision in the American Tabocco suit on Monday.

The market closed strong. A renewal of pool manipulation in several specialties gave some life to trading in the last hour. American Beet Sugar was lifted 1⅜ to 52 and Pacific Telephone gained 2. Active stocks, after displaying undtone of strength throughout the day, went off rather easily near the close, Union Pacific and United States Steel falling below yesterday's finals. Reading also lost about all of its rise.

MUNICIPAL PROBLEMS

Timely Civic Topics Are Discussed By New Society.

First Meeting of West Duluth Educational Association Held.

Timely topics of a civic nature were discussed by speakers at the initial meeting of the West Duluth Educational association last evening at the Irving school, West Duluth. There was a good attendance.

J. E. Foubister, an organizer of the new association, presided. There were three speakers, Mayor Cullum, Former Alderman A. G. McKnight and Attorney J. A. Keyes.

The mayor was the first speaker. He spoke well of the idea of organizing such a society as the West Duluth Educational association, for he believed that such organizations were a great help in working out the civic problems of the day. Among other things he said:

"I have stated a number of times that the school houses only served half their purpose if they were not provided with playgrounds, gymnasiums, reading rooms and baths. If I were supreme in authority, the public money would not be spent unless such provisions were made.

"There seems to be an awakening public demand for other things. City life is becoming so complex, so selfish and we are so indifferent to the welfare or comfort or social progress of our neighbors that, as a result, problems are confronting the city which it will take many years to solve. The management of our schools have made much progress, but there is a growing demand that much more radical changes should be made.

"The social intercourse, community interest and kindly neighborly feeling that used to exist in the smaller communities, the villages and country schools, rapidly disappear under the conditions that exist in the modern city.

"The things we have and the things we do are of little value unless shared by others. In young people, this instinct for social sympathy is so strong that if checked it will break all bounds and drive them to almost any expedient to secure the companionship which they crave. It is the desire to satisfy this instinct, rather than any naturally vicious tendencies, that causes the places of evil to flourish in our city; and this is the big question that really confronts us: What shall we do to get the little people started right, and to give them every opportunity possible for amusements and recreation of every kind.

"From a child's standpoint, you will understand, it is their business to play. If sufficient playground provision was made for the smaller ones to play during the day, and an hour or two's opportunity every evening, or several evenings a week, for the larger boys and girls to entertain themselves, or be entertained in some legitimate pastime, such as seems reasonably possible by a judicious use of our public school buildings, with but little additional expense, how many boys and girls would gladly avail themselves of the opportunity; and how much of the prowling around on the street by the younger people, in search of the white lights and the noise and diversion, could be prevented.

"At these centers almost everything could be done that boys and girls like to do. The girls could have their evenings, under proper instruction in the gymnasiums for exercises that pleased them; the boys could have their evenings, with their exercises and some of the rougher sports such as wrestling and boxing. And then occasionally have their mixed evenings for their frolics, either in dancing or in other satisfying amusements.

"The older people could do quite as much for themselves, in ways that pleased them best by meeting and discussing or hearing discussed the everyday problems."

Mr. McKnight spoke heartily in favor of the progressive movement, contending that the label was insignificant, so long as men stood for good, clean, progressive government. He deprecated the fact that the people have nothing to do with the nomination of the candidate for president or vice president, and that under the present system that was taken care of by professional politicians, and declared that the first thing that the people should do was to get this power into their own hands. He also declared himself in favor of the recall.

Mr. Keyes strongly indorsed the civic center movement, claiming gatherings of such a nature took second place with no other organization. He especially urged young men to take part in the deliberations at such meetings, claiming that the boys of today would be the men upon whom the responsibility of public affairs would devolve in the near future, and that upon their knowledge of public affairs would depend the character of the government.

FOLLOWS SON TO THE GRAVE

Pneumonia Cause of Two Deaths in Same Family.

William H. Campbell, aged 48, died last evening at Proctor of pneumonia, just forty-eight hours after the death of his youngest son, aged 21 months, who was also afflicted with the same disease. No funeral arrangements have been made.

Campbell was a cranesman in the Proctor shops of the Duluth, Missabe & Northern railway. He is survived by a wife and five children.

CONCERT WELL ATTENDED.

West Duluth May Have New Musical Society, Says Walter Sievers.

Judging from the attendance at a concert held last evening at Great Eastern hall, Walter Sievers, under whose auspices the affair took place, is of the opinion that the prospects of organizing a strong musical society at West Duluth are bright.

Mr. Sievers said that if sufficient enthusiasm is displayed such as seemed to prevail at last evening's affair, there would be little trouble in organizing a West Duluth Musical association and holding similar concerts at frequent intervals.

A string quartet of four, Prof. E. Lussky of St. Paul, a baritone, and Mr. Sievers as violinist, furnished the evening's entertainment. The quartet consistd of: Frederick Frederici and Walter Sievers, violins; George Tuper, viola; and Harold R. White, violincello. Several selections were rendered and the musicians were called back for many encores.

Prof. Lussky, who is connected with Concordia college in St. Paul, made one of the hits of the evening in his baritone solos. He possesses a clear-toned voice of exceptional sweetness. He sang two of his selections in German. Mr. Sievers delighted his audience with violon solos. His execution of some of the difficult numbers was excellent and hit a responsive chord with the audience. There were about 150 present at the affair.

WAR VETERAN TALKS ON UNIVERSAL PEACE.

Judge S. F. White, G. A. R. veteran, gave an able address this morning at the Irving school, West Duluth, the occasion being the annual observance of Memorial day. There were other speakers including S. A. Foster, principal of the school; Rev. D. W. Lynch, George M. Paulus and Henry Cleveland.

Judge White talked about universal peace. "Every generation," he said, "should be an improvement on the preceding one." The Civil war was a necessity. Questions of national, even world-wide importance were then settled. Yet the war, the long battles, the bloody battlefields were revolting, and the speaker declared that Gen. Sherman was right when he said: "War is h—l."

Judge White looked forward to the time when not only men, but women, would settle by the ballot the question of universal peace. Mr. White also declared himself in favor of Canadian reciprocity.

Henry Cleveland, also a representative of the G. A. R., read a poem on "The Bugle Call." Mr. Paulus gave a talk on his experiences as a Spanish-American soldier. S. S. Williamson and L. A. Barnes of the citizens' committee were present. Principal Foster presided.

* * *

At the Oneota school, a program was given, featured by a Maypole dance, very handsomely executed by twenty-four children on the school campus. The dance and drills were under the direction of Miss Mabel Deilly of the school faculty. A lengthy program was given in which every grade took part.

At the Stowe school, New Duluth, a Memorial day program was held this afternoon.

CONTRACT FOR NEW BUILDING.

Mrs. Charles Wells of New Duluth yesterday let the contract for the erection of a two-story frame store building on Commonwealth avenue, adjacent to the postoffice and between McCuen and Hurd streets. John Berger is the contractor and has started work on the building.

Hanchett Funeral.

The funeral of Miss Elnah Hanchett, whose body was brought here from Burrows, Sask., Canada, will be held tomorrow afternoon from the Pillatrault undertaking rooms, West Duluth, with interment in Oneota cemetery.

West Duluth Briefs.

Best shoes and neatest repairing at Gust Johnson's. 5701 Grand avenue.

Miss Ellen Eklander of Wilmar, Minn., is visting friends in West Duluth.

Watch repairing. Hurst, W. Duluth.

Gilbert Brock, aged 30, was arrested for vagrancy last evening at West Duluth. In police court this morning, he entered a plea of not guilty and his case was set over until Monday. He was taken to jail.

The funeral of Dagney Stabenfeldt, 21-months-old daughter of Mr. and Mrs. T. S. Stabenfeldt of 6303 Highland street, will be held tomorrow afternoon at 1:30 o'clock from the residence and at 2 o'clock from Our Savior's Norwegian church, Fifty-seventh avenue west and Wadena street to Oneota cemetery. Rev. J. A. Bjerke will officiate.

Rev. M. S. Rice will deliver a stereopticon lecture this evening at Asbury M. E. church, Sixteenth avenue west and Raleigh street on "My Trip Through the Holy Land."

Mrs. John Cloudy of Knife River, Minn., is a guest at the home of Mrs. J. A. Richardson of 4102 West Fourth street.

Rev. E. F. Stidd, pastor of Merritt Memorial M. E. church, returned today from Finlayson, where he has been presiding at a quarterly conference of the Finlayson M. E. church.

Make this "work hunt" the shortest one you ever made—by starting, quickly, a Herald want ad "campaign."

We also carry Electric Insoles for cold, clammy feet.

WIRTH'S DRUG STORE
13 West Superior Street.
MAIL ORDERS SOLICITED.

EXPLOSION IN PAINT VAT

Spark From Forge Causes Bad Fire in Horseshoe Factory.

Workmen Have Narrow Escape When Burning Paint Is Scattered.

A spark from a forge dropped into a paint vat at the Diamond Calk Horseshoe factory, Forty-seventh avenue west and Grand avenue, this morning and caused an explosion which set fire to the plant. The lives of three workmen were endangered and the damage to the factory was about $2,500.

The vat of paint was about ten feet away from the blacksmith forge and when the accident occurred, there were only three men in the place. They were engagd in dipping a harrow into the paint vat which is a large receptacle, about seven feet square and a foot and a half deep.

When the spark fell in the paint, it ignited the inflammable oils and caused an explosion which threw burning paint in every direction. Fortunately the three men escaped before they were seriously burned The accident occurred shortly before 10 o'clock.

Fire company No. 8 was called and made a quick run. The blaze was confined mostly to the interior of the factory, which is a one-story affair. The office in one corner of the building, was saved from the flames. In some places, the fire broke through the roof. The walls are of brick.

Otto Swanstrom is at the head of the company.

HIT BY TRAIN AT BREVATOR

Unknown Man Instantly Killed on Great Northern Tracks.

An unknown man was killed this morning at Brevator, near Duluth, by a Great Northern train. The man was walkig on the track and stepped off to avoid a passing train, but walked in front of a train coming in the opposite direction, being struck and instantly killed. The body has been removed to the undertaking parlors of Flood & Horgan.

CUTS PRICES OF STEEL BARS

Illinois Company Follows Lead of Republic Concern.

New York, May 26.—Price cutting of steel products, following the lead of the Republic Iron & Steel company, was continued today when the Illinois Steel company reduced its stock prices on steel bars 10 cents per 100 pounds. The new prices for stock material applies only to the Chicago district.

President Price of the Cambria Steel company sent word from Philadelphia this morning that his company would meet the cut on steel bars initiated by the Republic company.

Steel makers generally are awaiting the result of a meeting called by Chairman Gary of the Steel corporation for next Monday, when the price situation will be considered.

BUMPER CROP FOR CANADA

George Stevens, general freight agent of the Canadian Northern, believes Manitoba, Saskatchewan and Alberta will produce 17,000,000 bushels of wheat the present season. Mr. Stevens was at the Spalding today and in the course of a conversation added that in the opinion of those best qualified to judge, the yield per acre would average seventeen bushels.

Mr. Stevens stated that during the present season there was an increased wheat acreage in the three great wheat producing provinces of Western Canada, and in addition the outlook for the crop at the present time was "simply great."

According to Mr. Stevens, weather conditions have been ideal for the growing of the crop, and if there is no interference between now and the time the wheat is matured, the very biggest wheat crop that has been produced in Canada is looked for.

GOLF IN PARIS.

Pall Mall Gazette: Golf and tennis flourish on the periphery of Paris. Each day the royal and ancient game gains fresh patrons among the French. La Boulie worthily fills, of course, the place of St. Andrews among the golfing societies. Though not the oldest, the distinction belonging to Pau, which has existed for more than half a century, it is the most authoritative of the organizations, especially since the formation of the federation.

But Fontainbleau, Chantilly and Compiegne are now well equipped with golf grounds, without speaking of Le Pecq, in the neighborhood of St Germain-en-laye, and of one or two projects for new grounds within a cab ride of the center of Paris.

DELEGATES TO DENVER

George Schulenburg and J. E. Roos Will Represent Local Grocers.

Association Will Enforce Sunday Closing Law Against All Stores.

George H. Schulenburg and J. E. Roos will represent the Duluth Retail Grocers' association at the national convention which will be held at Denver, Colo., June 13, 14, 15 and 16. At a meeting held last night these two men were selected as delegates.

The Duluth association is still at work on the matter of keeping all the stores in the city closed on Sunday. A number of he smaller shops are said to keep open because their trade demands it. There is a state law against the practice and the association means to have it enforced.

The granting of a half holiday during the week is favored by a number of the members of the association and it is thought that later in the season some definite action will be taken so that the clerks may have half a holiday during the week.

Arrangements are being made for the annual picnic. The time has not been set or the place selected as yet, however.

DEAD MAN BELOVED BY GREEKS OF DULUTH.

Duluth members of the Greek race are today mourning the death of their distinguished countryman, Peter Marosis of Minneapolis, who died Thursday evening at Mason City, Iowa, where he had gone to look after the interests of certain Greek workmen.

The deceased was one of the earliest of Greek pioneers, sincerely devoted to the welfare of his adopted country, and an active promoter of every movement calculated to benefit not only the Greek residents of Minnesota but citizens of the state at large, irrespective of nationality.

He was the founder of the First Greek church of Minneapolis, and invariably took the lead in all the charitable and philanthropic activities of his people.

In his death the Greeks of Duluth feel that they have lost a tried and true friend and brother, and in token of their affection have forwarded to his family in Minneapolis a large consignment of flowers for the funeral services.

Mr. Marosis leaves a wife and three children.

The loss will be sorely felt by the Greeks all over the country, but more especially by the Greeks of the Northwest.

SAN FRANCISCO CHIEF IS ORDERED DISMISSED.

San Francisco, May 26.—Chief of Police Seymour was yesterday ordered dismissed by the mayor. Seymour's attorneys secured a temporary injunction restraining the mayor from dismissing the chief of police until after the argument on the injunction, which is set for June 9.

SELLING ACRES BY MILLIONS.

About the time that Horace Greeley said "Go West, young man" the Canadian Pacific railway was commencing its giant task of decking the northern portion of this continent with a double girdle of steel, the go-between of Atlantic and Pacific.

The completion of this triumph of engineering, says Business, was the signal that the company had earned the bounty of the Canadian government, namely, 25,000,000 acres of Canada's fertile prairies.

The narrative of the Canadian Pacific's struggle in its endeavor to establish a new empire in this territory is one of the great epics of business. A story of less romantic nature, but as replete with interesting details, is that of the actual sales of this immense land grant, the area of which is equal to that of a giant field fifteen miles in width stretching from New York to San Francisco.

Take the irrigation block in Alberta—some 3,000,000 acres alone—imagine yourself with an appropriation of $20,000,000 to be expended upon the construction of an irrigation system.

Add to this the task of demonstrating to 20,000 heads of families that it will be to their eternal benefit to establish new homes upon the land; then consider that this undertaking is left in your charge on the understanding that it will be necessary to choose and train your corps of engineers to build the system and your army of lieutenants, salesmen and agents to sell the land.

Such a task appears of sufficient magnitude to stagger even the most capable of men. Yet it has already been one-third accomplished. The system to serve the 1,000,000 acres comprising the western section of the irrigation block is now complete and being successfully operated, while work on the construction of the systems to serve the 2,000,000 acres in the eastern and central sections has already been undertaken by one of the world's largest contracting firms, American, by the way. This work when completed will cost over $11,000,000.

If you have sufficient money it is a comparatively easy task to build a hundred homes in any one of the large cities, but when it comes to selling those homes you will find difficulty in disposing of them if you wish to make a profit of, say, 50 per cent on your investment, but if you are content to sell at a figure much lower than actual worth you will quickly dispose of your piles of brick and stone.

The Canadian Pacific railway found itself in a somewhat similar position. Its task, however, was to provide the groundwork for some 20,000 homes, as that number must ultimately be created within the tract to which reference is made. It had the money to complete the system which would make those homes possible and appreciated the fact that if the land were sold at a figure less than its recognized ultimate worth sales would be made with great rapidity.

Hence the decision to dispose of this land at a price which would give to the purchaser the certainty that values would in a few years time double and later treble. This is a fundamental principle with the company, as its business is transportation rather than land selling.

If the selling price of the lands were advanced to their recognized ultimate worth one sure source of profit, the advance in values, would be taken from the homesteader, with the result that settlement would be retarded and as a consequence the traffic returns of the railroad would not increase in the proper ratio.

LONDON CLUBLAND.

There is a row of clubs in Pall Mall which hold their heads very high. They have no accommodation for strangers, they have waiting lists that stretch down the avenue of years and force the applicant to wait until he has become gray headed. And on these clubs, says the London correspondent of Brown and Country, the vast, hungry hordes of would-be members cast their eager eyes.

There is the Carlton. It is a political club pure and simple, and yet there are many members of parliament who cannot gain admission because the committee would not have them. There is not even a stranger's anteroom in the Carlton. If, for instance, you pass by with a member and he wants to run inside and get his letters you have either to wait outside on the steps or just in the vestibule behind the door, where the servants cast suspicious eyes on you.

To the Travellers, next door, they do not admit strangers, but they are requestered, almost quarantined, in a tiny room at the side where the members are forced to take their friends as if they were plague stricken. In the Athenaeum, round the corner, you have to wait on the mat while the member comes out and turns his head to right and left furtively, afraid of being caught speaking to a stranger.

Across the road at the Marlborough, which is perhaps the most aristocratic club in London, you may walk boldly into the dining room as a stranger and perchance sit opposite his majesty the king, and no one would consider it an infringement of good form to find you in the same room with so august a personage. As a matter of fact if you go into the Marlborough to dinner at night, great club as it is, you will probably only find yourself with your host and possibly two or three others. Club dining is a matter of history.

The only clubs where people dine are places like the Army and Navy club, which is always choked to the very doors with soldiers; the Constitutional club, which has 10,000 members of all grades and shades and conditions; the National Liberal club, which has so many members that the porters at the door do not know them and clerks going home from the city at night walk in, conscious of not being stopped, and indulge in a thorough wash and brush up in the magnificently appointed wash rooms. Here you always see 400, 500 and 600 people at dinner.

The fact is that most of the other clubs are merely places where men resort for luncheon or afternoon tea. You can do your dining out so much more satisfactorily and with more variation at the great hotels. Indeed the Ritz, the Carlton, the Savoy, the Berkeley and the others have almost made clubs superfluous in the evening.

And yet there is not a week that does not see its new club. Usually they are proprietary clubs; that is, projected by speculators who think they can see a profit or great house furnishing establishments desirous of disposing of their wares in the most effective manner. This week's latest club is the 1900, which is a quaint political establishment opening at 8 p. m. and closing at 2 a. m. Mr. Balfour is the president, its members are the elect of the Unionist party, its furniture is Georgian throughout and its servants are attired in the costumes of that period.

When it comes down to what the gamblers call "cases" there are only two actual clubs left in London. One is the Beefsteak, where it is not a sin for one member to address another, and the other is the Savage.

MONUMENT AS WINNING POST.

The Strand: There are monuments in all sorts of out of the way places, but one that is really unique is that erected in a river. It sands in the Parramatta river, New South Wales, a stream known the world over for the rowing events that have taken place upon it.

This monument, which is in memory of the world famed rower Searle, is also unique from the fact that it has been used as the winning post for many of the races for the world's championship, and is still used as such for local events.

WHITE DAMP AND BLACK DAMP.

Atlantic Monthly: White damp is the gas most feared by the miners, for its properties render it difficult to detect, inasmuch as it is tasteless, odorless and colorless and when mixed in the proportion of about one part gas to nine parts air is called "fire damp" and becomes explosive to a degree hard to realize unless one has seen its effects.

Black damp, unlike white damp, is heavier than air, a non-explosive gas which may be detected by its peculiar odor. Again, unlike the other, its effect is to suffocate and extinguish fire.

This gas is so heavy and moves with such a sluggish flow that occasionally when miners have been trapped in a mine following an explosion and have detected the black damp creeping in upon them by its smell they have been able to stop its advance by erecting dams or barricades along the floor, building them higher as the volume of gas increased and keeping the air within their little inclosure comparatively clean by rude improvised fans.

Following an explosion, these two gases become mingled and form a mixed gas possessing all the dreaded qualities of each which is known as "after damp," and it is this mixture of gases which destroys any life that may remain following a mine disaster.

OUR SHOES ARE DIFFERENT

CONTEST NOTICES.

Department of the Interior, United States Land Office.
Duluth, Minnesota, May 5th, 1911.

A sufficent contest affidavit having been filed in this office by Carl F. Hanson, contestant, against homestead Entry No. 07665, Serial 07665, made November 12, 1909, for N½ SE¼ and SE¼ NE¼ Section 19, Township 55 North of Range 16 West, Fourth Principal Meridan, by Harry H. Johnson, Contestee, in which it is alleged that said entryman Harry H. Johnson has wholly abandoned said land and has continued said abandonment for a period of more than six months last past and that he has wholly failed to establish actual residence upon said land; that said alleged absence from said land was not due to service in the army, navy or marine corps of the United States in time of war, said parties are hereby notified to appear, respond, and offer evidence touching said allegation at nine o'clock A. M., on June 5th, 1911, before the Register and Receiver at the United States Land Office in Duluth, Minnesota.

The said contestant having, in a proper affidavit, filed May 5th, 1911, set forth facts which show that after due diligence personal service of this notice can not be made, it is hereby ordered and directed that such notice be given by due and proper publication.

CHARLES F. HARTMAN,
Register.

D. H., May 5, 12, 17, June 5, 1911.

(Torrens No. 1530.)

SUMMONS IN APPLICATION FOR REGISTRATION OF LAND—
State of Minnesota, County of St. Louis —ss.
District Court, Eleventh Judicial District.

In the matter of the application of Charles Downer to register the title to the following described real estate situated in St. Louis County, Minnesota, namely: The Southeast quarter of the Northwest quarter of Section numbered one (1), and the Southeast quarter of the Northwest quarter of Section numbered two (2), all in township numbered fifty-eight (58) north, range numbered seventeen (17) west of the Fourth Principal Meridian, according to the United States Government survey thereof,
Applicant,
vs.
Amelia C. Buck, Poca Iron Company, Moon and Kerr Lumber Company, William F. Lardner, as assignee of William McKinley, and all other persons or parties unknown, claiming any right, title, estate, lien or interest in the real estate described in the application herein,
Defendants.

The State of Minnesota to the above named Defendants:

You are hereby summoned and required to answer the application of the applicant in the above entitled proceeding, and to file your answer to the said application in the office of the Clerk of said Court, in said County, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service, and if you fail to answer the said application within the time aforesaid, the applicant in this proceeding will apply to the Court for the relief demanded therein.

Witness, J. P. Johnson, Clerk of said Court, and the seal thereof, at Duluth, in said County, this 11th day of May, A. D. 1911.

J. P. JOHNSON,
Clerk.
By B. G. RILLING,
Deputy.

(Seal of District Court, St. Louis Co., Minn.)
ALFORD & HUNT,
Attorneys for Applicant.

JOHN W. GATES TELLS OF MOORE AND FRICK LOSING ONE MILLION

Carnegie Gainer in Big Deal in Steel in 1897.

Conception of United States Steel Corporation Also Related.

Financier Is Witness Before Congressional Committee.

Washington, May 27.—How W. H. Moore and H. C. Frick lost $1,000,000 to Andrew Carnegie in 1897 through the forfeiture of an option on the Carnegie Steel works, and the manner in which J. P. Morgan, Charles M. Schwab and himself conceived the idea of the United States Steel corporation in 1899 to head off Mr. Carnegie from engaging in the rail and tube manufacturing business, were revealed today by John W. Gates before the house "steel trust" investigating committee.

Is the First Witness.

Washington, May 27.—John W. Gates, who today appeared as the first witness before the special elected house committee investigating the steel trust, declared that the accumulation by the Trust Company of America of New York, in 1907, of a great block of the collateral of the Tennessee Coal & Iron company made possible the acquisition of that company by the United States Steel corporation. Mr. Gates said he regarded the transaction as a forced sale.

Hearings before the committee are to determine whether the United States Steel corporation is operating in violation of the Sherman anti-trust law, the interstate commerce laws or the national banking laws.

Intend Thorough Work.

The members of the committee unanimously have expressed the determination to go into every phase of the gigantic industry that can have any bearing on the questions at issue. John W. Gates was called especially to enlighten the committee regarding the amalgamation of the United States Steel corporation and the Tennessee Coal & Iron company, but the committee also proposed questioning Mr. Gates concerning the steel corporation's relations with the American Steel & Wire company.

Measure of Relief.

Asked by Representative Stanley of Kentucky, chairman of the committee, if the deal with the United States Steel corporation was not prompted by the embarrassment of the Trust Company of America, Mr. Gates declared he had heard that J. P. Morgan had suggested the transaction to relieve a distressed condition of a banking house.

"It has been stated on apparently good authority," said Mr. Stanley, "that at the time the Tennessee Coal & Iron company was acquired by the United States Steel corporation, a cer-

TRACE UNCLE SAM'S MONEY

House Committees Inquire Into Expenditures By Government.

Berger Gets McNamara Case Aired Before Congressmen.

Washington, May 27.—With the house of representatives in adjournment until next Tuesday, other various committees had much work before them. One of these was the committee on expenditures in the state department. The committee on expenditures in the department of justice was busy with its inquiry into the affairs of the attorney general's office, as was that making the investigation of the post-office department.

The arrest of J. J. McNamara of Indianapolis, in connection with the Los Angeles Times building explosion, received official cognizance through consideration by the committee on rules of a resolution by Representative Berger of Wisconsin, providing that the house conduct an inquiry into the arrest and extradition of the prisoner. A meeting was called for today by Representative Henry of Texas, chairman, to hear Mr. Berger.

South Dakotans Heard.

The senate rested from its labor, having adjourned until Monday. The senate finance committee, however, still had before it the Canadian reciprocity bill. A number of farmers from South Dakota today opposed the measure.

MADERO'S MAN MADE GOVERNOR

Legislature of Coahuila Elects Carranza to Avoid Armed Attack.

Juarez, Mex., May 27.—Venustiano Carranza today was named governor of the state of Coahuila in accordance with the wishes of Francisco I. Madero, Jr. In this action the legislature forestalled a threatened march against Saltillo, the state capital.

A message received today from the secretary of the legislature of Coahuila at Saltillo stated that that body was disposed to name Carranza, and begging that no attack on the town be made, and a few minutes later notification was received from the legislature that the legislature "has just named as governor of the state of Coahuila, Venustiano Carranza, who has already been notified. We beg of you to give orders immediately suspending the attack on this place and ordering, for the sake of convenience and good order, the peaceful entrance of the insurrectos. A special committee has been appointed to see your chiefs to transmit your orders and tell them of the naming of Carranza."

Senor Madero was visibly pleased at the action of the Coahuila legislature, declaring it an index of the course of legislatures in other states.

Francisco I. Madero, Jr., today received a message from President De La Barra, urging him to come to City of Mexico as soon as possible. He inquired also if Dr. Vasquez Gomez had started for the capital and the probable time of his arrival. Dr. Gomez already is en route to the capital.

BASEBALL MEN PLEAD NOT GUILTY

Higgins Denies Assault and Schmidt Denies Stealing Suits.

Des Moines, May 27.—John F. Higgins, owner of the Des Moines Western league baseball club, when arraigned in police court today, pleaded not guilty to a charge of assaulting Shortstop Walter Schmidt in a local hotel here last night. Schmidt, who was arraigned on a charge of larceny preferred by Higgins, also pleaded not guilty. Both cases were set for trial Monday.

Schmidt claims he was assaulted during a quarrel over the alleged disappearance of five baseball suits belonging to the local club. Higgins swore out the warrant charging Schmidt with larceny.

STATE PLANS MANY SUITS

One Hundred Freight Line Companies Fail to Report Earnings.

Sums Due Range From 3 Cents to $2,736.66—Total $8,000.

St. Paul, Minn., May 27.—(Special to The Herald.)—Suits against 100 freight line companies for failing to report to the state auditor their gross earnings in the state during 1910, will be instituted within the next few weeks, if settlement of accounts is not made.

The state tax commission certified to the auditor's office today accounts aggregating approximately $8,000, in sums ranging from 3 cents to $2,736.66. This last named sum is claimed to be due from a line of cars owned by the Knickerbocker Trust company. The Union Tank line is charged with $1,761.98.

RAMSEY COUNTY MORE HEALTHY THAN HENNEPIN.

St. Paul, Minn., May 27.—(Special to The Herald.)—Ending a controversy which has existed between St. Paul and Minneapolis as to which is the more healthful city, the state board of health today gave out figures showing that the total deaths in Hennepin county from preventable diseases in 1910 were 1,864. In Ramsey county the total was 1,271. Deaths in St. Paul and Minneapolis are included in these figures.

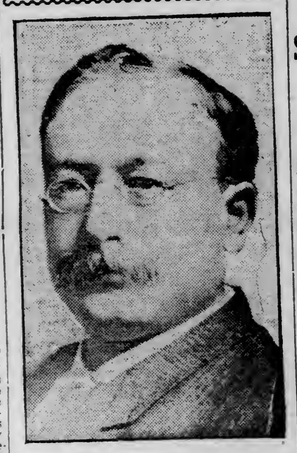
TAKES M'NAMARA CASE BEFORE CONGRESS



VICTOR L. BERGER,
Socialist Member of Congress From the Fifth District of Wisconsin.

RACE IN AIR 1,300 MILES

Twenty-One Aeroplanes Enter Paris-to-Rome Event.

Vedrine and Weymann, an American, Among the Entries.

Paris, May 27.—In order to prevent all possibility of a repetition of the accident of last Sunday at the start of the Paris-to-Madrid race, in which Minister of War Berteaux was killed, no strangers will be allowed on the aviation field during the commencement tomorrow of the great air race of 1,300 miles from Paris to Rome and thence to Turin.

The flight, which has been organized by the Paris Petit Parisien, will mean to the winner prizes aggregating $100,000. The start will be made from the aerodrome at Buc, two miles from Versailles.

Aviation officials were busy today examining and stamping the machines of the competitors, of which there are twenty-one.

Vedrine to Compete.

First and foremost among the contestants is Pierre Vedrine, who distinguished himself yesterday by winning the 721-mile Paris-to-Madrid race in the actual flying time of 12 hours 18 minutes, or at the average rate of sixty miles an hour. The other entries include such flying experts as Jean Bielouvucci of Peru; Maurice Tabateau, who won the Michelin cup for 1910; Henry Weymann, the American, and Roland Garros, who, after making many plucky efforts to finish

(Continued on page 7, third column.)

FOUR INCENDIARY FIRES IN DUBUQUE

Standard Lumber Company Has Loss of Half Million.

Dubuque, Iowa, May 27.—A large tract of yards of the Standard Lumber company was destroyed last night by a fire believed to have been of incendiary origin. The loss will aggregate $500,000. For hours while the fireman battled with the flames, it was feared that the mill and every foot of lumber would be destroyed, entailing a loss of several million dollars.

The fire was the most spectacular ever witnessed in the city. In the midst of the burning lumber district stood a shot tower nearly 200 feet high. This early took fire and flames burst from every window.

Three Other Fires.

The fire at the Standard lumber yards followed three other fires, all of an apparently incendiary nature, earlier in the evening. Revised losses of all fires today are:

Standard Lumber company, $500,000; Carr, Ryder & Adams company, sash factor, $2,000; Flick Box factory, $500; Key City Furniture company, $300.

This was the third fire at the Standard Lumber company yards in eighteen months, the total losses aggregating about $800,000.

HEAT CAUSES MANY DEATHS

Seventeenth Fatality From Hot Wave Reported in Chicago.

Cincinnati, Toledo and St. Louis Have Unseasonable Weather.

Chicago, May 27.—With five deaths and ten other heat prostrations reported by noon today, the third of the record-breaking days of a long heat spell was ushered in today, but promise of relief was made by the weather bureau for tomorrow.

Seventeen deaths have resulted from the unprecedented heat wave, which has been almost unbroken for nearly two weeks. Yesterday and the day before all records were broken, the thermometer registering 94.2 on each day.

Tomorrow the forecast was for cooler weather and brisk northwest winds.

The thermometer registered 92 at noon.

Even the parks and bathing beaches offer little relief to the crowds that flock to them. Many whole families spent most of last night in the open air, and as darkness came on the parks and beaches of lake shore were crowded.

In the poorer districts the suffering was greater. Thousands of pounds of

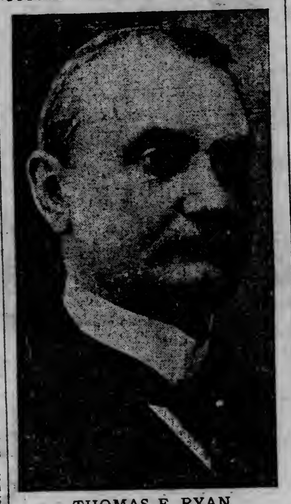
SENSATION STARTS FROM BOIL ON HIS LEG



THOMAS F. RYAN,
New York Financier, Whose confinement to the House Caused Rumors of Serious Illness.

"DREAMLAND," CONEY ISLAND, IS TOTALLY WIPED OUT BY FIRE

Loss Is Close to $3,000,000 in the Whole Burned Area.

One Man Is Missing and Ninety-Two Animals Are Dead.

Wild Beasts, Crazed By Fright, Rush Through the Crowd.

New York, May 27.—Coney Island, the playground of New York, suffered the worst fire disaster of its history early today. Dreamland, the largest of the amusement parks, was wiped out and about four blocks adjoining, covered with booths, restaurants, hotels, moving picture theaters and resorts of various types, were destroyed.

The fire broke out at 2 o'clock in the morning and was not under control until three hours and a half later. The loss will amount to between $2,000,000 and $3,000,000.

In all about 200 buildings were burned down and perhaps 2,000,000 persons—concessionaires and employes—were turned into the streets homeless and penniless.

There were several narrow escapes among employes and performers who were in their beds when the fire started, but all were accounted for this morning with the exception of a property man named Rosso, connected with Ferrari's animal show. Rosso alone is missing.

Started in "Hell Gate."

The fire was discovered, a tiny blaze, in the tarred scaffolding of "Hell Gate," a scenic railway close to the entrance to Dreamland. Twenty minutes after a frightened watchman had turned in three alarms, all Dreamland—ten acres of gaudy, closely packed buildings—was ablaze.

Close to "Hell Gate" was the Ferrari (formerly Bostock's) animal show, and nearer yet the infant incubator, a charity nursery in which were six wee infants and their attendants. The children were taken out in their little

(Continued on page 7, fourth column.)

TAKES JOEL COOK'S PLACE IN CONGRESS

WILLIAM STUART REYBURN.

Philadelphia, Pa., May 27.—William Stuart Reyburn, son of Mayor Reyburn, was elected to congress over his democratic opponent, Henry Baur, by a majority of 11,124, in the Second Congressional district to succeed Joel Cook, deceased. He will resign his seat in the legislature at once. He is 27 years old and will be the youngest congressman. It is said he will ally himself with the "regular" Republicans.

DIAZ'S TRAIN IS ATTACKED

Ex-President of Mexico Has Left the Capital City.

Will Go to Live in Spain, It Is Said—Madero Makes Merry.

Juarez, Mex., May 27.—A message to Francisco I. Madero late last night from Senor Cardan at Jalapa, Mex., stated that the train bearing ex-President Diaz to Vera Cruz was attacked at Tepechualce. No further details were given.

Stole From the Capital.

City of Mexico, May 27.—Porfirio Diaz, for whom during thirty years all Mexico has stood to one side hat in hand, stole from the capital with great secrecy at 2 o'clock yesterday morning. Only a few devoted friends whom he dared to trust, followed him to the station. He was bound for Vera Cruz to take a ship for Spain. In the distance he could hear the voices of a few of the more enthusiastic celebrants who were still acclaiming the new president, Francisco De La Barra and shouting "Viva Madero."

So carefully were the arrangements made for the ex-president's escape, that details could not be confirmed until late Friday afternoon. Secrecy was due less to apprehension of a popular outburst here than to a desire to reach Vera Cruz without the fact being known to marauding bands along the route.

Has Reached Vera Cruz.

Private telegrams received here report the arrival of Gen. Diaz at Vera Cruz.

Gen. Diaz, still feeble from his illness and far from being a well man, left his home at 2 o'clock in the morning. A more dreary leave-taking could scarcely be imagined. Rain fell early in the night, and by the time the ex-president emerged from his house the air was chilly. He was closely muffled, and to aid in the disguise, a borrowed automobile was used. The route to the San Lazaro station had been mapped out over unfrequented streets.

By a pre-arranged scheme, at the last moment, police were scattered

(Continued on page 4, fourth column)

BRITISH WARSHIPS HAVE COLLISION

Bellerophon and Inflexible, Commanded By Brothers, Come Together.

Portland, England, May 27.—The British battleship Bellerophon and the cruiser Inflexible were in collision today outside of Portland harbor. The Inflexible was struck on the starboard bow, where a seven-foot hole was made below the water line. Two of her compartments are flooded. The vessel is now in this harbor making preparations for docking.

Capt. Trevylyan D. W. Napier of the Bellerophon and Capt. Charles L. Napier of the Inflexible are brothers.

The armored cruiser Inflexible, which was launched in 1907, has a displacement of 17,250 tons, is 530 feet long, has 78½ feet beam, and draws 26 feet of water. She carried eight 12-inch and sixteen 4-inch guns and is fitted with five torpedo tubes.

PRENDERGAST AN ARCHBISHOP

Auxiliary Bishop of Philadelphia Takes Ryan's Place.

Rome, May 27.—Right Rev. Edmund Prendergast, auxiliary bishop of Philadelphia, it was announced at the vatican today, has been appointed archbishop of Philadelphia in succession to the late Most Rev. Patrick John Ryan, who died Friday, Feb. 11, last.

BOIL ON LEG ALL THAT AILS RYAN

Alarming Reports of Illness Set at Rest By Secretary.

New York, May 27.—Alarming reports regarding the illness of Thomas F. Ryan were set at rest today by the following bulletin issued by his secretary:

"Mr. Ryan has been suffering from a boil on the leg which prevented him getting around. It has been opened, and he will be out shortly. There is absolutely no evidence of any kidney or constitutional trouble.

"WILLIAM H. ROCKWELL, M. D.,
"GEORGE D. STEWARD, M. D."

According to Secretary McGlone, the boil appeared on Mr. Ryan's leg last April. Last night the boil was lanced.

NO LOCUSTS IN MINNESOTA

Seventeen-Year Pest Will Not Appear Here This Year.

St. Paul, Minn., May 27.—(Special to The Herald.)—There will be no 17-year locusts in Minnesota this year, according to Prof. Washburn, state entomologist. The locusts will invade the Southern Mississippi valley this year and come to Wisconsin two years from now, but not to Minnesota.

"They really are not locusts at all," Mr. Washburn says, "but cicada, a smaller insect. They take seventeen years to grow from the egg to maturity, when they roam the earth to the disgust of the fruit gardener, living only one season, but long enough to perpetuate their species."

Washington, May 27.—Seventeen-year locusts are said to be due to ravage vegetation in the Eastern states this summer. The vanguard of the invaders is reported to have appeared in Alexandria county, Virginia, and the prediction is made that within a week or so the pests will be common.

SAYS AMERICAN CROPS COST MORE

Prof. Chamberlain of South Dakota Opposes Canadian Agreement.

Washington, May 27.—In opposing the Canadian reciprocity agreement before the senate finance committee today, Prof. A. E. Chamberlain of South Dakota, by an elaborate array of statistics, sought to show that the cost of production of a bushel of wheat in the United States was 57 cents and in Canada 40 cents. He declared that the South Dakota farmers could not compete with the Canadians in producing other staple crops.

Powerful corporations, the professor said, favored reciprocity in order that they may sell at fancy prices great stretches of land. He declared the Hudson Bay company, which he said, was controlled by Wall Street, owns 7,500,000 acres, and the Canadian railroads control an empire that would become highly valuable if the tariff bars were lowered.

BOY BEGS TO GO BACK TO RED WING SCHOOL.

St. Paul, Minn., May 27.—(Special to The Herald.)—Nick Phill, a 15-year-old St. Paul boy, likes the state training school for boys at Red Wing. Nick was paroled about eight months ago and went out into the busy world. But outside did not sit just right and a few days ago he applied to Assistant Supt. A. C. Dorr for readmission.

"Very well," Mr. Dorr replied, "run right along over to your family."

And in five minutes Phill had registered at his old home and was out with the boys playing ball. The story of his return was told to M. C. Cutter, purchasing agent with the board of control, this morning.

Hudson Man Takes His Life.

Hudson, Wis., May 27.—W. J. Johnson, aged about 50, shot himself through the head with a revolver Thursday morning and died at 5 p. m. that afternoon. Mr. Johnson was a liveryman. He leaves a family.

FOLLOW THE GANG!

Be Sure and Come to Duluth's Development Association Convention June 1st and 2nd.

DUCKS NUMEROUS.

There are more ducks on the bay this year than usual, according to the statement of some of the tugmen, whose duties take them around the upper bay.

While not very many ducks are seen around the lower harbor, the tugmen say they are numerous around different points of the upper bay, much more so than in former years.

This is taken to mean that there will be a very good fall season around the head of the Lakes.

Rolla, N. D., Livery Burns.

Rolla, N. D., May 27.—Joseph Lambert had just succeeded in driving twenty horses out of the W. J. Jolliffes livery barn, the structure being in flames, when the entire roof fell in. The blaze had its start from some unknown cause. The livery barn and an adjoining building were destroyed, the total loss being about $6,500, with only $2,000 insurance.

WEATHER—Probably thunderstorms tonight or Sunday; cooler tonight; moderate to brisk southwest to west winds.

COURTROOM A PLAYGROUND

Children Chatter While Parents Fight Legal Battle for Their Custody.

Mother Claims Father Kidnaped Them—Court Decides in Her Favor.

While the mother and father were fighting before Judge Dibell of the district court this morning for their custody, Lillian and Dorcas Lawrence, aged 5 and 4 years, were playing about the courtroom and running from the father to the mother, their childish chatter arising above the voices of the attorneys.

The case was that of Minnie Lawrence, 29, against William Lawrence also 29 years old. The wife had brought habeas corpus proceedings for the recovery of the children who were in the possession of the father. She claimed that he had taken them from the home of her mother by force. The divorce action of the same title is still pending and will not be heard until the September term of court. Judge Dibell decided that the mother should have the children until the divorce action had been tried.

Totally innocent of what the court proceedings meant to them the two young children played about the room unrestrained by the court or the court officers. They ran from the father to the mother and from the mother to the father's sister and from her to the mother's mother. They are both bright, pretty children and those in the court room paid a deal more attention to thei ractions than they did to the proceedings.

Tag Behind Judge.

In childish glee they played tag about the judge's chair and laughingly hid from one another under the long tables. When the mother's voice faltered as she told her story on the stand, they stopped for a moment to watch her with amazement. When she recovered herself, they continued their play. No attempt was made to stop them by the court officers who enjoyed having them in the room for it is not often that the proceedings in district court are held in other than the most dignified and august manner.

After hearing both sides of the case, Judge Dibell decided that the mother should have the children until the divorce case is heard. He stated that he thought the children should be kept together as much as possible.

Mrs. Lawrence introduced evidence to show that her husband has not been in the habit of providing for the family and her mother testified to the effect that her daughter and the children had come to her home hungry.

The children have been with the father for the last two weeks. When the mother took them this morning both voiced their disapproval by crying long and loudly. There are four children in the family. Lucille, a baby, but 2 years old and Ebener, 6 years old, are also at home with their mother. It was to secure the custody of Lillian and Dorcas that she brought the habeas corpus proceedings in district court this morning.

In her divorce action which will be tried in September, the complaint in which was recently filed, Mrs. Lawrence claims cruel and inhuman treatment. She states that her husband has driven her from the house, that on one occasion he drew a razor and threatened to take her life; that he has an ungovernable temper and that at one time he gave vent to his feelings by tearing the telephone from the wall. She also claims that she was not properly supported. She states also that he used profane language in talking to her and that he called both her and the children vile names.

WASTE BASKET BOUGHT FOR $35

House Committee Hears of Some Postoffice Expenses.

Washington, May 27.—After listening to stories of $35 waste baskets, circassian walnut and mahogany panelled rooms and bright red carpets in the postoffice department, the members of the house committee investigating that department determined today to make a personal inspection of the office of Postmaster General Hitchcock.

The committee interrogated Chief Weed today. Mr. Weed said the repanelling of Mr. Hitchcock's private office cost $4,000, but the refitting of the "small red room" and the "large brown room" of the suite cost less, being finished in mahogany. He said the cost of rehabilitation was not excessive for the office of a member of the cabinet.

The committee will resume its examination of Mr. Weed on Monday, with special reference to the institution of the postal savings department.

CENTENNIAL OF PERRY'S VICTORY

Ships of Commodore's Fleet Will Be Reproduced in 1913.

Clyde W. Kelly of Duluth, lieutenant in the Minnesota naval militia, has been appointed a member of the Minnesota commission of the Perry Centennial celebration.

The commission, which consists of five members, will work with the commissioners appointed by other lake states, in making arrangements for a celebration in 1913 to commemorate Perry's victory on Lake Erie. The sum of $500,000 is being raised for a memorial at Put-in-Bay, the scene of Perry's victory.

The other members of the Minnesota commission are W. H. Wescott of Rosemount, J. E. Meyers of Minneapolis, T. L. Kingsbury of St. Paul and William P. Windom of Washington, D. C. At a meeting of the commissioners in Minneapolis this week, Mr. Meyers was named to represent Minnesota at a meeting of the commissions of the lake state at Cleveland, July 6.

It is planned in connection with the victory to reproduce the ships of Perry's fleet, and to bring torpedo boat destroyers and such other small craft of the navy as can make the channels to the Great Lakes to take part in a naval pageant. It is planned, after the celebration, to have the ships visit various points on the Great Lakes.

WILL PLAY HAND ORGAN ON STREETS OF ROCHESTER

C. O. OPPLEHAGEN, DON COLE, A. F. M. CUSTANCE, DON GEARHART AND A. R. BJORQUIST.

This is the Masonic quartette which will be taken to Rochester, N. Y., by the members of Aad Temple, the local shrine on the occasion of the big convention in July.

It is safe to say that they will give Duluth some good advertising for many unique performances have been arranged by A. F. M. Custance.

The quartette will have a hand organ which Mr. Custance will play and the members of the quartette will sing to its music on the street corners and in the hotels.

Col. F. E. Resche will again be in command of the patrol. There will be fifty patrols in the annual competition for the prize for the best drilled patrol and while the local patrol has won the prize a number of times, it is out after it harder than ever this year.

they have found the ideal spot for their camp. There will be about thirty boys in the Flickertail party.

THE SHRINERS' MINSTRELETTE

Big Show Will Take Place at Lyceum Thursday Evening.

Among the entertainments of the coming week will be the Shriners Minstrelette, to be given under the auspices of Aad Temple, at the Lyceum theater, Thursday evening, June 1. The preparations for this interesting event have been going forward for some time under the direction of Prof. A. F. M. Custance and a most pleasing program is promised, including a number of special features, clever stunts by some of the city's best talent and catchy songs.

In the first part of the program will occur the original educational stunt "Teaching the Young Idea to Shoot," which will be participated in by a cast of about fifty characters.

Part two of the program includes the musical melange "Metropolitan Four," with Louis La Valle, grand opera baritone, "Lessons in Education," and a new edition of the old favorite, "Uncle Tom's Cabin."

Another feature will be a drill by Aad Temple patrol, in command of Capt. F. E. Resche.

Memorial Day Concert

Don't miss the Annual Memorial Day Concert by the First Norwegian Lutheran Choir, Corner First avenue east and Third street, Tuesday Evening, May 30th. Admission, 25c. See program on another page.

IRONWOOD COMMENCEMENT.

Fred Kheeler of Lansing to Deliver Commencement Address.

Ironwood, Mich. May 27.—(Special to The Herald.)—Fred Kheeler of Lansing, Mich., will deliver the commencement address for the graduating exercises of the Luther L. Wright school this year, and Rev. W. B. Coumbe, pastor of the First M. E. church, will deliver the baccalaureate sermon on Sunday, June 18. The class and faculty will attend in a body.

Automobile and Fishing Parties!
Island Lake Inn now open for the season.

Lots of fish and good boats.
Fish and chicken dinners our specialty.
ISLAND LAKE INN CO.

Victim of Gangrene.

Williston, N. D., May 27.—Gangrene caused the death of Fred Durkin of Alexander, brought to this city for treatment. Durkin received a bullet wound in the arm several days previous to his death, but failed to secure early enough medical treatment and gangrene set in with fatal results. The body was shipped to Heithsburg Ill., for burial.

Boys at Gnat Lake.

Grand Forks, N. D., May 27.—(Special to The Herald.)—Gnat lake in Minnesota has been selected by the boys' department of the Grand Forks Y. M. C. A. as the place for the annual encampment of the boys, June 17 to 27, being the dates determined upon. The boys of the local association have been making annual outings to Northern Minnesota, and at Gnat lake they believe they have found the ideal spot for their camp. There will be about thirty boys in the Flickertail party.

WAS KICKED IN THE FACE

Badly Battered Woodsman Has His Alleged Assailant Arrested.

John Ratayck was brought into the police station last night with one side of his face looking like a piece of raw beefsteak and one eye closed. He was unable to tell what had happened to him, his mouth being so badly smashed that he couldn't talk. This morning he had recovered sufficiently from his injuries to tell what had happened to him. He alleged that one Walter Tadejic had knocked him down with his fist and then kicked him while he was on the floor. Tadejic was arrested this morning on a warrant issued for him and he was booked on a charge of assault in the third degree. He entered a plea of not guilty and his trial was set for Wednesday morning. Ratayck was picked up by the police in a helpless condition by the police on the sidewalk in front of 1816 West Michigan street. He pleaded guilty to being drunk this morning and got $3 or three days.

A. O. U. W.
All members of Fidelity Lodge, No. 105, are requested to attend the funeral of our late brother, James McDowell, Tuesday, May 30. Funeral from Lester Park Methodist church, at 2:30 p. m. By order of
M. COSSI, Master Workman.
A. E. PEIRING, Recorder.

RAILROADS

MEDIATORS TO TAKE UP SOUTHERN TROUBLE.

Washington, May 27.—The dispute between the Southern railway and its firemen will be referred to the board of mediation under the Erdman act.

This decision was reached today after it seemed that a strike was inevitable. The firemen's representatives yesterday flatly refused a proposal to arbitrate, but today agreed to submit the matter to disinterested third parties.

Judge Martin A. Knapp of the court of commerce, and Dr. Charles P. Neill, commissioner of labor, mediators under the Erdman act, have been called in. The negotiations will begin at once.

ATTENTION
All Spanish War Veterans
You are earnestly requested to meet at Memorial hall, Courthouse, at 9 a. m., Memorial day, to participate in parade.
W. L. PEIRCE, Commander.

JOHN W. GATES TELLS OF MOORE AND FRICK LOSING ONE MILLION

(Continued from page 1.)

tain business firm, the name not given, would have failed if help had not been given, and that this firm had among its assets the majority of the stock of the Tennessee Coal & Iron company, and that advances were made to the United States Steel corporation to purchase this stock in order to avert a panic.

"Not a Dollar Changed Hands."

"In the exchange of this stock," Mr. Gates replied, "not a dollar changed hands. No bank gained any assets by it."

"Did any member of a firm or a bank make a proposition to the United States Steel corporation to accept the Tennessee Coal & Iron company as a comparatively worthless property?" asked Mr. Stanley.

"There are a great many underground wires in New York," Mr. Gates replied. "I was told that a certain bank, in November, 1903, applied to the clearing house for assistance. A committee examined its assets and discovered several millions of the bank's funds out on stock of the Tennessee company, reporting to the clearing house that too much had been loaned on Tennessee Coal & Iron collateral.

What Brokers Said.

"Stock brokers told me Mr. Morgan suggested to him that to relieve the situation the United States Steel corporation might acquire he Tennessee Coal & Iron company. That led to the negotiations afterward concluded."

He outlined at length the sale of stock to the United States Steel corporation. He said that in 1904 or 1905, during his absence in Texas a syndicate was formed and managed by Grant B. Schley and Charles S. Guthrie, then president of the Republic Iron & Steel company, which purchased the stock of the Tennessee Coal & Iron company. He said Mr. Guthrie died soon afterward and S. C. Hanna, brother of Former United States Senator Hanna, had been made associate manager.

"In November, 1907, when the panic was on, I met Mr. Schley at his office as soon as I returned from Europe and found negotiations going on between Mr. Schley, Mr. Hanna and their associates and Judge Gary, Mr. Frick and Mr. Morgan.

First Terms Not Satisfactory.

"The terms proposed were that for each ten shares of Tennessee Coal & Iron stock we were to get one United States Steel second five mortgage bond. I said it was not enough and held out until we made a trade on the basis of 119¾ in United States Steel sinking fund 5's. The next day I insisted that the minority stockholders be given the same terms and the deal was made."

"Mr. Schley," suggested Mr. Stanley, "has declared that the sale of Tennessee Coal & Iron was a forced sale. Do you so consider it."

"I regarded it as a forced sale," said Mr. Gates.

"Did Mr. Morgan have a decided influence over the bank" persisted Mr. Stanley.

"I don't know," said Mr. Gates. "It is difficult to tell where a man's influence starts or ends in Wall Street."

Mr. Gates said that the bank in question, the Trust Company of America, wanted $10,000,000, "and," he added, "they got it."

GRAVEL OR ASPHALT?

East Fifth Street Owners Will Decide Question Monday Night.

The question as to whether East Fifth street from Fifteenth avenue east to Woodland avenue should be graded and graveled or paved with asphalt, will come before the council Monday night. The cost of the gravel will be approximately $16,000 and of the asphalt, $25,000. If the former is put down the residents will get a rebate. The indications are that gravel will be used, as it seems to be favored by a majority of the property owners along the street. The matter came before the council last Monday, but it was laid over at the request of those who favored asphalt.

It is expected that complaints will be lodged before the aldermen against the Canadian Northern for putting posts in Fifty-fourth avenue west. The part of the avenue is a stub end about half a block long between Grand avenue and the Northern Pacific tracks and is unimproved.

The question of transferring the saloon license of Dunlap & Thatcher, 228 Lake avenue south, is also scheduled for action. The council has already refused to revoke the license on the recommendation of the mayor.

KNOWS OF NO PRIZE FIGHT

"What Can We Do?" Says Governor Eberhart's Secretary.

"I have no knowledge of a prize-fight in my county.—J. R. MEINING, sheriff."

"What can we do? The sheriff knows of no prize fight.—RALPH WHEELOCK, secretary to the governor."

The foregoing statements tell of the efforts to probe the prize fight alleged to have taken place in Duluth a few days ago.

The first is a message from the sheriff of St. Louis county, and the last the comment of the governor's private secretary. So far as the governor's office is concerned, the matter probably will be dropped.

It was claimed by Mr. Wheelock that the only information he had received that a fight took place was in newspapers and it did not constitute sufficient evidence to warrant other action than was taken.

MRS. McVEY SPEAKS.

Wife of President of North Dakota U Addresses Women.

Larimore, N. D., May 27.—(Special to The Herald.)—Mrs. Frank L. McVey, wife of Dr. McVey, president of the University of North Dakota, made her first appearance before the Federated Women's Clubs of North Dakota here today, when she read a paper on "Life of the Girls at the University."

Mrs. J. M. Gillette, wife of the head of the department of sociology at the university, was also one of the principal speakers. Her paper dealt with what the Women's Civic league had done for Grand Forks.

The meeting will come to a close this evening and has been the most successful ever held.

Mammoth Cannon Castings.

A single steel ingot, cast for one of the new 12-inch guns for a battleship, weighed 273,500 pounds, and from it the big rifle will have to be bored and turned. Large as this ingot was, it would take nearly its weight to make the stoppers used in one year in supplying the people with golden grain belt beers. So rapidly have they made friends everywhere that six carloads of corks were used in 1910 and a rush order had to be filled. Order of your nearest dealer or be supplied by duluth branch minneapolis brewing company.

Lighting Talks

NUMBER 16 DULUTH, MAY 27, 1911

Theory or FACTS?

Theoretically the idea of a Municipal Lighting Plant for Duluth appeals to some people as being altogether advisable. Some good people have dreamed about this so much that they paint imaginary pictures most beautifully roseate and glowing of the wonderful benefits a Municipal Plant would bring.

But, do any of these good people speak from experience? Do they base their predictions and vicarious promises on FACTS?

The Duluth-Edison Electric Company has had 23 years' experience in this Electric Lighting business, and in that school of struggle and hard knocks we have learned a few plain, practical FACTS.

This Company offers Duluth a better bargain in Electric Light than can be found in any other city in the world, so far as we know.

As we have shown you in these "Lighting Talks" by quoting the prices paid today in 148 leading American cities, the average of all those prices is $68.41 per arc light per year.

Our offer is: To light Duluth for ONLY $45 PER ARC LIGHT PER YEAR, and to give the City $1,500 worth of Electric Light a year FREE, and to give every customer FREE renewals of all carbon and gem filament lamps (up to 32-c. p.).

Such an offer as this was utterly impossible when this business was started here 23 years ago. Such an EXTREMELY LOW PRICE was impossible only five years ago. It would have been just as impossible if the City had owned the lighting system—for, mark you, IF THE CITY OF DULUTH HAD BUILT THIS LIGHTING SYSTEM, IT WOULD HAVE COST THE CITY JUST AS MUCH AS IT COST US. (Incidentally, we may remark that this company is paying taxes as shown by the Assessor's records on an actual valuation of $1,187,900).

Now, if a Municipal plant is built, each arc light supplied thereby will cost the taxpayers a great deat deal more than $45 a year. That is a FACT that can't be dreamed away or honestly disputed.

A Municipal Electric Plant would bring demoralizing competition, not only with us (for this company cannot be driven out, or sold out, or confiscated), but also with the City's own Gas Department; and the lower the rates were made THE DEEPER THE TAXPAYERS WOULD HAVE TO GO INTO THEIR POCKETS TO MAKE UP THE LOSSES.

Should this important question of a Municipal Lighting Plant be decided by theorizing, or by sound reasoning from the plain, practical, real FACTS?

What do YOU think about it? Read the next "Lighting Talk," in next Tuesday's Herald.

ON THE IRON RANGES

PAIR OF WOMEN AIR TROUBLES

Difficulty Between Hibbing Females Resulted in Their Arrest.

Hibbing, Minn., May 27.—(Special to The Herald.)—The police station was the scene of excitement last night when a couple of Italian women were brought in and forthwith proceeded to finish their dispute on the premises. Mrs. John claimed that Mrs. Catterlina Callyer called her names, while Mrs. Callyer contended that the other had struck her. Finally the contestants were interrupted long enough to gain some details of their story and after each putting up $5 bail they were allowed their liberty. The final act of the little comedy drama will be enacted today in the municipal court.

A man giving the name of Geareatti Laduza was arrested last night charged with theft of a window from the Oliver Iron Mining company.

TO BUILD LINE TO PLATT MINE

Ole Erickson of Cloquet Has Important Contract at Nashwauk.

Nashwauk, Minn., May 27.—(Special to The Herald.)—Ole Erickson, a railroad contractor of Cloquet, was awarded a contract yesterday by the Great Northern Railway company and will start working on a line to be built to the Platt mine, about half a mile from town. Mr. Erickson arrived yesterday morning with sixteen teams of horses and is busy building camps and other equipment, preparatory to the starting of the construction work. The Platt mine is an underground proposition and will be operated as soon as the railroad is completed. This mine will mean a great deal toward the prosperity of this village.

The Royal Neighbors ball was well attended Thursday night and the crowd enjoyed dancing until midnight, when a delicious supper was served.

TWO SUPERIOR BOYS CAUGHT AT HIBBING

Youths Had Run Away From Home and Were Doing the Iron Range.

Hibbing, Minn., May 27.—(Special to The Herald.)—Walter Hilland and Harry Reinwand, two youths living at Superior, who ran away from home to see the sights of the range were apprehended here by the police, to whom they told of their desire to see things.

Their parents in the Wisconsin city were notified and the boys returned home.

YOUTHS DAMAGE THE MAIL BOXES

Eveleth Boys of Destructive Turn Are Being Sought After.

Eveleth, Minn., May 27.—(Special to The Herald.)—Many postoffice patrons have encountered much difficulty in getting their mail out of the postoffice boxes, because of the work of young boys, who have twisted off the handles to many of the boxes. The culprits are being searched for and arrests may follow.

The local carriers have been equipped with mail sacks.

EVELETH TEAM BOLTS.

Drags Hitching Post Along and Driver Is Injured.

Eveleth, Minn., May 27.—(Special to The Herald.)—Ben Kaner was slightly bruised about the arms in a runaway down Pierce street yesterday afternoon, while trying to halt the horses attached to his wagon. While tied to the post in front of a harness shop, his team became frightened and bolted, carrying the post and all down the street. Mr. Kaner grabbed the reins and while trying to halt the horses was dragged, sustaining injuries to his arm. His team was stopped on Grant avenue by policemen.

Peculiar to Itself

Hood's Sarsaparilla Has No Equal as a Blood Medicine.

"I think there is no other blood medicine equal to Hood's Sarsaparilla. I have a family of five little ones, and have used it every spring for twelve years. There is something about Hood's Sarsaparilla which other medicines lack. My husband was bothered with boils. He was so bad he could scarcely get around. He took Hood's Sarsaparilla, and it cured him." Mrs Lillian Dixson, Pike, Ohio.

MERCHANTS URGED TO CLOSE PLACES

Executive Committee of Hibbing Memorial Celebration Makes Request.

Hibbing, Minn., May 27.—(Special to The Herald.)—That all of the employes of local stores may participate in the Memorial day observation next Tuesday morning, the executive committee of the affair has issued the following request that business houses be closed:

"Tuesday, May 30th, being Decoration day, a day set apart in memory of the men who had served their country in time of war and who are now in their final resting place; it is proper that we, the citizens of Hibbing, as a mark of the respect that we have for those gallant old soldiers, should set aside, for a few hours at least, our business cares and attend the memorial services.

"We, therefore, earnestly request the business men of this village to close their places of business between the hours of 9 and 12 o'clock in the forenoon of that day and by their presence at the services to lend encouragement and example to the younger generation in continuing this beautiful custom."

WILL PREACH TO WAR VETERANS

Rev. Mr. Oadams of Two Harbors to Give Memorial Services.

Two Harbors, Minn., May 27.—(Special to The Herald.)—The G. A. R., Sons of Veterans, Veterans of the Spanish-American war, with the John A. Logan Ladies Circle will attend the First Methodist church tomorrow morning. The pastor, Rev. T. Stanley Oadams, will preach the memorial sermon and special music will be rendered by the choir.

Rev. T. S. Oadams delivered his popular lecture on "Norway to the North Cape" in the First Methodist Episcopal church last night to a large and appreciative audience. The lecture was illustrated with seventy-five lime-light views of the wonderful scenery for which Norway is famous. The lecture was given in connection with the picture sermon series which are given in the church every Sunday evening. Tomorrow evening the theme will be "Dreams and Duties" illustrated by fifty views of Bible scenes and incidents of the Civil war.

TWO HARBORS GRADUATES GO TO CHURCH SUNDAY.

Two Harbors, Minn., May 27.—(Special to The Herald.)—The baccalaureate sermon for the high school graduating class will be preached tomorrow evening in the Presbyterian church by the Rev. J. F. McLeod. The class of 1911 will attend in a body. Included in the class is the debating team which won the state championship this year, Messrs. Bigelow, Strand and Olson.

Miss Florence Oadams and her class from the Hiawatha school had their annual picnic today at Flood Bay. The youngsters had a delightful time.

CHISHOLM WILL SEND DELEGATES TO DULUTH.

Chisholm, Minn., May 27.—(Special to The Herald.)—The Commercial club has decided to send a representative delegation to the Northern Minnesota Development meet at Duluth next week.

A committee to urge Congressman Miller to have free delivery inaugurated here was appointed: Edward Freeman, C. T. Knapp, J. E. Arneson. A Fourth of July committee was also appointed: E. C. Hackett, E. A. Monroe and J. E. Arneson.

Blind-Pigger Appeals.

Tony Pogereles was convicted in municipal court on a charge of running an unlicensed drinking place and fined $50 and costs. An appeal was immediately taken and his bail placed at $150, which was furnished.

HIBBING PERSONALS.

Hibbing, Minn., May 27.—(Special to The Herald.)—Clinton and Russell Barrett went to Sturgeon Lake yesterday afternoon to the family summer cottage. Mr. and Mrs. W. C. Barrett will join the two sons on Sunday, going out by auto.

R. W. Hitchcock, publisher of the Tribune, returned yesterday from Duluth.

Miss Esther Cook and Miss Hilda Anta have returned from Virginia, where they went on Sunday on a visit.

W. C. Strobel, who has been visiting with Mr. and Mrs. Fletcher Benham of the Barrett block, has returned to Chicago.

W. L. Winans of the Itasca Bazaar company did not return today and will remain in Duluth for a few days longer and will join a theater party this evening at teh Lyceum.

Miss Ella Casey will leave shortly for a two weeks' vacation to her home in Northern Michigan.

EVELETH BARBER BREAKS LEG IN SALOON ROW.

Eveleth, Minn., May 27.—(Special to The Herald.)—Two barbers had a quarrel in a local saloon, Thursday. One fell on the floor but no notice was taken of his condition. Yesterday morning he awoke to find that he had a broken leg, and is now being treated at a local hospital.

CURRENT ZIM NOTES.

Zim, Minn., May 27.—(Special to The Herald.)—Mr. and Mrs. John Yrve of Cambridge are visiting relatives here.

S. W. Levin transacted business in Duluth Wednesday.

Miss Hannah Johnson returned home Thursday from Eveleth, where she has been visiting friends.

Mrs. C. A. Carlson spent Sunday in Eveleth.

Mrs. Per Peterson, who has been seriously ill, is convalescent.

Helmer Gradine left Thursday evening for Buhl.

The ladies' aid society met Thursday afternoon at the home of Mrs. W. S. Johnson.

Rev. Mr. Gramness of Virginia held services at the church here Thursday evening.

Miss Emma Willner left Wednesday for Duluth, where she will spend the summer.

Miss Freda Olson left for Hibbing Tuesday morning.

Miss Sadie Kenworthy returned home from Eveleth Sunday.

Mrs. Ole Olson visited her sister, Mrs. Charles Peterson of Hibbing, Wednesday.

GREATER BIWABIK BEING DISCUSSED

Mayor Hill Desires to Annex Forty Just West of Village.

Biwabik, Minn., May 27.—(Special to The Herald.)—W. L. Hill, president of the Biwabik village council, desires to increase the village limits by annexing the forty acres immediately west of the original townsite.

This land belongs to the Irondale Land company, and from conversations with some of the officials the mayor believes that the concern can be induced to permit the annexation. The plan of Mr. Hill is then to open Main street through this tract and connect it with the McKinley county road.

Rev. A. Dodds, who recently came here from Nashwauk, has been assigned to Bagley, and will shortly leave Biwabik to take up his work there. Sunday evening Rev. Mr. Dodds will preach his farewell sermon to the local members of his church.

The married and single men played baseball Thursday afternoon. Once more the singles were not in the game. The score was 15 to 8 in favor of the married men.

The business men on the south side of Main street have challenged those on the north side for a game of baseball, to be played any time next week.

The Norwegian Ladies' aid met Wednesday afternoon at the home of Mrs. Christ Henderson. A large crowd was in attendance and a fine lunch was served by the hostess.

Play "Mr. Bob."

"Mr. Bob" was the title of the play given by the senior class of the Biwabik high school Wednesday evening. Not only was the attendance large but the students acquitted themselves in a creditable manner.

Services will be held in the Congregational church on Sunday at 10:45 a. m. and 7:30 p. m. At the morning service the pastor will preach a memorial sermon and in the evening will give a discourse upon a live theme in which all are interested. The Sunday school will meet at 12 noon.

All grocery dealers in Biwabik this week agreed to early closing, the new order to go into effect June 1.

The Ladies' Missionary society met Friday afternoon at the home of Mrs. William Carmichael.

STRIKE IRON ORE IN SWIFT COUNTY

Ledge of Ore Assaying Way Up Reported Found Near Appleton.

Appleton, Minn., May 27.—(Special to The Herald.)—This section is liable to come to the front as an iron ore producer as results have just been received from the state geologist of an assay made of ore found in a well-defined ledge, two miles from Appleton. His report was received here this week and the ore, which is the red or the Bessemer ore, assayed 46 per cent iron. This ore is a reddish sand but there is also rock ore which it is thought will assay about 65 per cent.

The parties upon whose land the ore was found will now determine the extent of the iron bearing dirt. The place where it crops out is surrounded by lands the subsoil of which is quick sand and it is thought the ledge extends for miles under this. This sand has prevented the discoverey of the ore for the reason that good water has always been found in this stratum, making it unnecessary to go deeper.

HIBBING PRESBYTERIANS HAVE ENDEAVOR SOCIETY.

Hibbing, Minn., May 27.—(Special to The Herald.)—The Hibbing Presbyterian church now has a Christian Endeavor society, as one was recently organized as an auxiliary to the church with a membership of twenty-eight. The following officers were elected to serve: President, Prof. Rodgers; vice president, Mr. Martin; secretary, Mr. Johnson; treasurer, Emil Miller. The committees are headed by the following chairmen: prayer meeting, Miss Stiles; lookout, Prof. Alexander and social, Mrs. Orton.

Hibbing Militiamen Dance.

Hibbing, Minn., May 27.—(Special to The Herald.)—The armory offered a superb scene of brilliancy Thursday evening when Company M, Third regiment, Minnesota National Guards, gave their closing dance of a series of eight.

Eveleth Teachers Granted Leaves.

Eveleth, Minn., May 27.—(Special to The Herald.)—Miss G. Sherman, who has been teaching languages at the high school for the past four years, has been granted a year's leave of absence. She resides at Marquette, Mich. Miss Cora Fromm of Herman, Minn., who is teaching in the grades, was also granted a year's leave of absence.

COMMENCEMENT AT PROCTOR JUNE 1

Commencement address ..... Class of 1911.
Presentation of diplomas ..... G. W. Ross.

The members of the class are as follows: Constance Anderson, Walter Ashbeck, Gertrude Adams, Alva Asher, Ethel Barncard, Elmer Beldin, Norbert Brannan, Walter Brown, Harold Bunce, Harold Carruthers, Bernard Diers, David Engelbritson, Martin Fusfeld, Allene Greene, Iva Holmes, Carmen Hendricson, Anna Johnson, Mary Johnson, Agnes Keating, Eva Lemay, Mary McCabe, William McMurtrie, Anton Shornhorst, Eunice Speck, Selah Stewart, Evelyn Sundstrom, Pearl Hatch.

The Sixth and Seventh grades of the local schools held a picnic at the ball grounds, Thursday afternoon, chaperoned by their teachers, Miss Sullivan and Miss Wiltse. In the ball game between the boys of the grades, the Sixth grade came out victorious, the score being 7 and 6. Prof. Hodapp umpired the game. The Fifth grade, with Miss Cary in charge, also picnicked near the ball ground.

Fire Team is Practicing.

The candidates of the running team of the Proctorknott fire department were out Thursday evening for their first practice. The boys expect to secure their share of the prizes this year.

The annual banquet given by the high school in honor of the Eighth grade class of the Proctor public schools held at the village hall last Saturday evening was thoroughly enjoyed.

The banquet was served promptly at 7:30 o'clock with covers laid for fifty-two.

A baseball special will leave Proctor at 7 a. m. on Sunday for all those who wish to take in the game between the Proctor Juniors and the Grand Rapids Juniors on Sunday afternoon. There will be busses waiting at Coleraine to take all to Grand Rapids returning immediately after the game.

Mr. and Mrs. M. Klosowsky entertained at dinner Sunday in honor of her brother Fred Martini of Spirit Lake, Idaho, who visited here on his way to the air brake convention in Chicago. Their guests included friends from Duluth and Superior.

Born to Mr. and Mrs. Andres Nelson on Sunday, May 21st a daughter.

Mrs. C. B. Gilbert entertained the teachers of the public schools on Wednesday evening in honor of her sister Miss Hazel Hopkins. Miss Hopkins expects to leave for Silver City, N. M., June 8th where she has been engaged to teach the next term of school.

The little girl of Mr. and Mrs. Bert Davis who was quite ill with pneumonia is well again.

Born to Mr. and Mrs. Walter H. Smith on Sunday, May 21, a baby girl.

DIAZ'S TRAIN IS ATTACKED

(Continued from page 1.)

along the line. At certain points the close friends of the former chief executive, including those who are to accompany him across the Atlantic, fell in behind his automobile. Three trains were used, the first acting as pilot. The Diaz special followed and some time later a third train, occupied by a detachment of the Twenty-fifth infantry set out. The cars of the fugitive special were occupied by the family and close friends of Diaz.

Will Live In Spain.

Just when, or on what ship Gen. Diaz will sail, is a matter of conjecture. Gen. Diaz undoubtedly will make his home in Spain, probably at Madrid. During the recent centennial, King Alfonso conferred upon him a title and made him an honorary general of the Spanish army. Senora Diaz was made a lady in waiting to the Spanish queen.

Madero Makes Merry.

Juarez, Mex., May 27—Relieved of the dignity of the office of provisional president, which he resigned formally yesterday afternoon, Francisco I. Madero, Jr., in the new character of private citizen, waltzed merrily in his spacious home here last night at the first social function celebrated since the revolution was commenced. The ball was given by the women's clubs of the city, in honor of the successful outcome of the insurrection, and was attended by Senor Madero, his military staff and scores of his other officers.

Madero, in a manifesto to the people of Mexico, resigned the position of provisional president conferred upon him by a convention of the revolutionists at the city of San Luis Ptosi last October, and called upon all Mexicans to support Senor De La Barra as the sole executive of Mexico.

Senor Madero places his forces at the disposal of Senor De La Barra and pays tribute to the character of the new executive, pointing out that he may well be considered "one of us."

The manifesto was Senor Madero's last act as provisional president. The post, he believed, did not permit him to enter the American territory.

Round of Festivities.

From now on, it is expected, Senor Madero will participate in a continuous round of festivities. Monday night he will be the guest of the city of El Paso at a reception and banquet. Tuesday night he will attend a dinner given in his honor, along with Col. Steever, commanding the Fourth United States cavalry, and Col. Sharpe of the Twenty-third infantry.

An owner in a large railroad and lumber syndicate in Chihuahua cabled from London today to his agent here to employ as many of the discharged insurrectos as wanted jobs whether there was work enough for all or not, pointing out the necessity of getting employment for those who might create trouble if they remained idle. He suggested, too, that if the duty on corn and beans were removed by the government, he would arrange to have the railroad with which he is connected transport food to the interior and sell it to the inhabitants at cost.

Visits Cloquet Indian School.

Cloquet, Minn., May 27.—(Special to The Herald.)—Supervisor Pierce of Minneapolis, who has the oversight of all the Indian schools in the Fifth congressional district, spent a few hours in the city yesterday, calling at the local Indian office. Mr. Pierce's territory covers most of the Indian schols in Northeast Minnesota.

Foley Kidney Pills take hold of your system and help you to rid yourself of your dragging backache, dull headache, nervousness, impaired eyesight, and of all the ills resulting from the impaired action of your kidneys and bladder. Remember it is Foley Kidney Pills that do this. For sale by all druggists.

WAS DEFENDING HIS PROPERTY

Vorbanich Not a Criminal, Says Speaker at Trades Assembly.

Former State Labor Commissioner William E. McEwen, was the principal speaker at the regular meeting of the trades and labor assembly, held last evening at the Kalamazoo hall. He touched on local labor conditions, the McNamara case and the recent arrest of Peter Vorbanich, the settler, who was taken only after a hard fight with two deputy sheriffs recently, near Virginia.

Mr. McEwen stated that he had personally known McNamara for many years and that he appeared to be a man above reproach. "He is a student of the law, who has worked himself up from the ranks of the laboring man and is devoting his life to uplifting the working man's condition," he said.

Mr. McEwen referred to the recent arrest of Vorbanich at Virginia: "This case is in many ways similar to that of John Dietz in Wisconsin," said he. "The lumber trust wishes to get through his property, destroys his crops and land; he objects; a warrant charging him with assault is issued; the sheriff serves it and in doing so gets into trouble with the family with the result that more serious charges rest against the victim. Is the man a criminal because he tries to protect his property? This man goes into the backwoods, thirty-six miles from nowhere, to tear up stumps in order that the ground might yield a living. Criminals usually do not go so far from civilization. No, he with his wife were trying to make an honest living and his family were at honest work when found by the deputies who held his warrant."

THIRTY-EIGHT GRADUATES

This Year From Ellendale, N. D., State Normal School.

Ellendale, N. D., May 27.—(Special to The Herald.)—Thirty-eight will be graduated from the Ellendale state normal-industrial school in this city, the commencement exercises opening June 4 and continuing till June 8. Dr. C. C. Creegan of Fargo will deliver the baccalaureate sermon on June 4; the annual oratorical and declamatory contest takes place June 5; the annual school concert is scheduled for June 6; the annual field meet is on the card for June 7, and on June 8 the commencement exercises and reception to graduates takes place. The graduates are the following: Blanch I. Bjornstad, Herbert J. Goddard, Mae Daulton, Mary E. Mills, Effie L. Myers, Laura McCulloch, Osa M. Olmstad, Harriett A. Van Meter, Lola M. Prevey, Ellen J. Shimmin, Caston T. Herbert, La Delle Briggle, Minnie M. Blumer, Vernie E. Davis, Glen V. Dille, Imogene Dunton, Mamie A. Elden, Emma L. Farrand, Adah E. Flemington, Mabel B. Geer, Ross J. Hutsenpiller, Ruth F. Kellogg, Leslie B. Knapp, Howard Leston, E. Lloyd Marsh, Bertha S. Peck, Josephine C. Morgan, Glenn K. Morrison, A. Leigh Porter, William L. Shimmin, Clarence L. Tracy, Claus C. Tomsen, Peter E. Erickson, Elmor O. Thompson, Leah A. Telchman, Ernest A. McEachran, H. Albert Smimmin and Lorenz H. Ziegler.

FIRE VICTIMS' MEMORIAL.

Spooner and Baudette Will Pay Tribute to Those Who Perished.

Baudette, Minn., May 27.—(Special to The Herald.)—The citizens of Baudette and Spooner will pay respect to their honored dead at the Elm Park cemetery Sunday next, when memorial services will be held at the big grave in which twenty-eight victims of last October's disaster are sleeping. All civic and local organizations will take part. The procession will start from the Baudette school ground and on arrival at the cemetery songs will be sung and addresses made. Rev. T. W. Howard will deliver the address of the day and Hoelscher's orchestra will furnish the music for the occasion.

MENOMINEE CONDUCTOR SAVES DROWNING MAN.

Menominee, Mich., May 27.—(Special to The Herald.)—Joseph Kellnar, a street car conductor on the Ogden avenue line, stopped his car long enough to rescue a man who was drowning in the Menominee river. Seeing the man struggling in the water, Kellnar climbed down on the abutments of the bridge, leaped from there to a log in the water below and threw a rope to the drowning man. After rescuing the man the conductor was in such a hurry to get back to his car that he did not stop for thanks or learn the name of the man whose life he had saved.

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

R. B. Postal, Highland avenue, Duluth Heights, Duluth, Minn., says: "I have taken Doan's Kidney Pills at different times in the past eight years and they have always given me relief from backache and other symptoms of kidney complaint. I am willing to recommend this remedy, for I have been given the best of proof that it is a good one. I keep Doan's Kidney Pills in the house most of the time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

CLOQUET NEWS NOTES.

Field Secretary of Christian Endeavorers to Speak Tuesday.

Cloquet, Minn., May 27.—(Special to The Herald.)—Rev. H. H. Rotterman of Minneapolis, field secretary of the Christian Endeavor societies of Minnesota, will be here next Tuesday. In the afternoon he will give a talk to the Junior society, illustrated by stereopticon views, and in the evening will lecture to the senior Christian Endeavorers. A banquet will be served in the parlors of the First Presbyterian church at 6 o'clock.

Charles Deming has sold his residence property on Fourth street to L. E. Kennedy, and has gone to Chicago with his wife and daughter. They will locate on a farm either in Wisconsin or Michigan. Mr. and Mrs. Deming are old residents of Cloquet and the Deming place is well known in the city.

Rose Campbell of Cloquet is among the students of the state university who are ill with diphtheria. He is the son of J. C. Campbell, a well known lumberman of Cloquet.

ROCHESTER, MINN., WILL UNVEIL TWO MONUMENTS.

Rochester, Minn., May 27.—The celebration of Memorial day here promises to be a notable occasion. In addition to the regular customary exercises held by the Grand Army and the Women's Relief Corps, two beautiful marble statues in Mayo park, one of George Washington, the other of Abraham Lincoln, will be unveiled and presented to the city.

The statues are the gifts of Doctors William J. and Charles H. Mayo to Rochester, and were ordered by them when Dr. William Mayo was in Italy. The marble of which they are sculptured came from the quarries in Italy, from which came the art and architecture of the ancient Roman period. The work on the statues was done by Antonio Frilli, a noted Italian artist, the designs being furnished by the Leland Stanford university of California. The memorials occupy a commanding position at the entrance of Mayo park. Upon the base of each is inscribed, "Presented to the City of Rochester by the Mayo family, Nov. 30, 1910."

Next Tuesday these beautiful works of art will be formally presented to the city. Mayor Richardson will make the speech of acceptance, and present them to the city park board.

MUCH PIKE SEIZED.

Game Warden Confiscates Four Barrels at Boy River, Minn.

Walker, Minn., May 27.—(Special to The Herald.)—A wholesale fishing camp of rather an elaborate magnitude was routed by Game Warden Spencer this week when he confiscated four barrels of pike on the railroad platform at Boy River Station. The fish were all ready for shipment, but instead of going to the metropolitan fish market they were billed instead to the state game and fish commission.

Mr. Spencer then visited the camp of the fisherman and found three more barrels which he seized, and brought two young men before Justice Foote of Boy River, charged with illegal fishing. The boys were employed by Eber Smith and were given a fine of $25 and costs, which they were unable to furnish and consequently were brought down to Walker. A warrant was sworn out for Mr. Smith but at this writing he had not been located.

The fishing camp was located up Boy river, near Skelly lake, and was equipped for business on a large scale.

ISANTI COUNTY HAS SELECTED DELEGATES.

Cambridge, Minn., May 27.—(Special to The Herald.)—The Isanti county delegates to the Northern Minnesota Development meeting at Duluth next week are: G. G. Goodwin, Charles Patsol, D. O. Anderson, Erick Beckline, J. A. Stoneberg.

Cass County Delegates.

Walker, Minn., May 27.—(Special to The Herald.)—Cass county will send a good delegation to the development meeting at Duluth next month. John King and Charles Kinkele will head the Walker delegation.

THEY COME HUNDREDS OF MILES TO SEE HIM

NOTHING SO WONDERFUL IN THE DAYS OF SPECIALISM

DR. REA

The success of Dr. Rea is attributed to his special study of specialism. Dr. Rea, student, philanthropist and man of wide reputation, having given his entire time and practice to a line of special diseases, which enables him from long experience in handling these troubles to certainly come forward as a master specialist. His faculty for mastering disease, his ability to diagnose, and his plan of treatment is not to be excelled by few other physicians. Dr. Rea, although a young man in life, a plain man, and one who is used to the ups and downs of life, puts himself on a level with his patients, and does not profess or pretend to practice the old plan or fashion, which is to look wise and say nothing. He knows disease; he knows how to explain the symptoms of disease; he knows where to look for disease, and the spot where located, and most of all he knows from experience, from what he has done in the past, he can certainly do for others in the future. It is said by Dr. Rea's friends that he can diagnose a disease of any patient without asking them a single question; that being the case, he is not likely to doctor them for the wrong ailment; he will not take an incurable disease and lead the patients to believe that he can cure them when there is really no hope for them. His business is large and he has plenty to do, even, at times, more than he can do, without taking incurable diseases and deceiving his patients. Dr. Rea is a graduate from one of the best English universities, as well as being a graduate from two of the best schools in America. He has practiced his profession in some of the principal hospitals in this country. His specialty comprises that class of diseases which the ordinary home doctor fails to cure. His practice is mostly among the plain, hard-working people, who are unable to come to his city office for treatment; he is reasonable in his charges and very lenient with those who are unable to pay. He is charitable, and it is said has never been known to refuse to treat a patient who is worthy and in need. A number of important cases that we hereby take the liberty to publish, which might be of interest to some who wish to know more of Dr. Rea's great work.

Anton Simonson, girl, Wahpeton, N. D. Cured of chronic catarrh and discharging ears.

Mrs. Michael Murphy, Emmetsburg, Iowa. Cured of chronic blood disease, that other doctors had all failed to cure, even after years of experimenting with her.

Oscar Morks, 609 W. Superior St., Duluth, Minn. Cured of chronic dyspepsia, bowel troubles.

Wm. F. Myer, Dexter, Minn. Cured of chronic stomach and bowel troubles by Dr. Rea's Cascarine treatment.

Oscar Halstein, Fargo, N. D. Cured of consumption. Mr. Halstein had doctored with a number of other doctors before treating with Dr. Rea.

Mike Curren, Minto, N. D. Says Dr. Rea's treatment worked wonders on him; after taking it a short time felt better than he had for years.

Mrs. G. W. Varco, Austin, Minn. Cured of a large cancer of the breast without cutting or without the plaster. Cured with Dr. Rea's new plan of treatment, which is one of the grandest discoveries the world has ever known for completely curing cancer, so that it never returns again.

A. C. Meyer, Ormsby, Minn. Cured of bad cancer of the lip in two treatments. Cured by the injection plan.

Mrs. N. F. Johnson, Morton, N. D. Cured of nervous prostration and epilepsy, after all other treatments had failed.

Mrs. Martha Murphy, St. Cloud, Minn. Says Dr. Rea saved my life. He was the doctor who knew where to look for disease, where to find it and to cure it after it was found.

A. Fullwhiler, Round Lake, Minn. Cured of chronic Bright's Disease.

Edgar Putnam, Weaver, Minn. Cured of a bad case of eczema of the skin.

Mrs. H. C. Dorman, Miniski, Minn. Cured of bad case of protruding piles.

Mrs. B. A. Moore, near Grantsburg, Wis. Cured of floating kidney that had almost taken her life.

Mrs. Christ Wethal, 3821 Halifax St., West Duluth, Minn., cured of cross eyes in five minutes.

Mrs. Alexander Swanson, Oakes, N. D., cured of bad cancer of the face. Had had it cut out and it came back. Three of Dr. Rea's injection treatments cured her.

S. M. Moore, Gladstone, N. D., writes: "Dr. Rea, you cured my son over a year ago. I have another sick boy, and want you to doctor him."

Fred L. Dicker, Gilby, N. D., cured of disease of the kidney. Was very bad: A few months' treatment completely cured him.

Mrs. Maurice Miller, Beaver, Minn., cured of epilepsy.

Mrs. N. C. Olson, East Grand Forks, Minn., cured of big knee, varicose vein and rheumatism.

O. H. Larson, Bue, N. D., cured of chronic rheumatism.

Miss Emma Geving, McIntosh, Minn., cured of consumption.

W. H. Nulph, Wyndmere, N. D., cured of cancer of the face in two treatments.

Martha Wilheim, Rt. No. 5, Minneapolis, Minn., cured of long standing epilepsy.

Joe McGowan, St. Anthony Park, Minn., cured of gall stones of the liver. Doctors said he would die. Dr. Rea cured him in three months.

Charles Grondysee, Slayton, Minn., cured of consumption by Dr. Doran with Dr. Rea's celebrated cure for consumption.

Mrs. Nels Carlson, Buffalo, Minn., cured of large cancer of the breast. Cured by the hypodermic injection plan discovered by Dr. Rea. There is no failing with this treatment.

SPECIAL TO THE HERALD:—Dr. Rea announces the date of his next regular professional visit to Duluth, at the St. Louis Hotel, on Saturday, June the 3rd, from 9 A. M. to 8 P. M.

These continued visits of Dr. Rea for year in and year out for the last ten years, is evidence that Dr. Rea's practice is in keeping with that of the Physician-Specialists throughout the land.

THE LIQUOR HABIT CURE

God's True Root Discovered by John B. Fisete. The Only Sure and Permanent Cure for the Liquor Habit.

Prof. J. B. Fisete of Duluth is in town at 114 Lake street, Chisholm, Minn. He has a well-known and reliable cure for the liquor habit and guarantees to cure the worst cases in two weeks. Hundreds who have been cured can testify to this fact. No matter how far gone a man may be or how desperate a case, even when there seems to be no hope for saving the man. I can positively cure him in two weeks and make a new man of him, both mentally and physically. If you have tried other cures and have gone back to the liquor habit again, I will guarantee to cure you in two weeks and turn your taste against intoxicating liquors or refund you your money. Prices reasonable. Here are some testimonials from those who have been benefited; $500 reward will be paid any one who can prove that they haven't been cured by my wonderful remedy

J. B. FISETE.
Chisholm, Minn., May 18, 1911.

I certify that after drinking intoxicating liquor for twenty years and I could not control myself, I tried to stop several times, but it was impossible until I took Prof. J. B. Fisete's treatment for two weeks and I am completely cured and have no desire for liquor of any kind.

I recommend it for the best medicine out. Yours truly,

JOS. FEURCOTT.
Duluth, Minn., Feb. 20, 1908.

To whom It May Concern: This is to certify that I have taken treatment from Prof. John B. Fisete for the Liquor Habit. I can say that I am entirely cured. I advise all sufferers to take the treatment. Yours truly,

CHAS. OLIVER, 14 East Fourth Street.

THE FINISHING DEPARTMENT.

LOGGING ROAD MAY BE SAVED FOR THE SETTLERS

Duluth Men Willing to Take Lease on the Property.

Will Be Handled in Connection With Land Development Plan.

Testimony of Both Sides Presented—Arguments to Be Heard Later.

The Minnesota & North Wisconsin railroad will be saved to become a potent factor in the development of the country around Duluth, if the testimony given at the hearing yesterday and the arguments which will later be submiteed are sufficient to convince the members of the state railroad and warehouse commision that they should not allow the road to be abandoned, or should at least postpone final action until the plans for the retention and operation of the road may be worked out and tested. The taking of testimony was completed last evening and the arguments will be heard at a later date.

N. J. Upham and C. P. Craig spoke for the business interests of Duluth at the hearing yesterday afternoon. Mr. Upham said that he had been working on the proposition and had been given a hearing by a number of Duluth men who are willing to put money into a combined railroad and development proposition. He said that he could organize a syndicate that will take a lease on the railroad and build a short branch from Duluth Heights to the nearest point on the line of railroad. He said the syndicate would operate the road, pay the railroad company interest on the valuation of the line, and give the settlers an adequate service.

Mr. Upham said that the company should not be allowed to tear up the line, as that would do irreparable injury to the hope of developing the country. If the railroad company has the obligation to operate the road, he said, it should be willing to give a lease at a fair rate of interest, the syndicate to assume the burden of operation.

Mr. Craig also spoke strongly against the abandonment of the road. He said that the business interests of Duluth have an interest in the matter, as the development of the country north of Duluth is of the greatest importance to this city. He said that some plan could be worked whereby the road could be operated in connection with a land development plan, and that time at least should be given to allow the people interested to work out their plans.

The plan as outlined would include an extension of the road to Cloquet and the building of the proposed spur from the nearest point on the line to Duluth Heights. That would increase the field from which passenger traffic might be drawn, and would also allow the transportation of small lots of freight. Heavier freight could be moved to Duluth around by way of Scanlon.

Never Looked for Traffic.

The burden of the settlers' testimony yesterday afternoon was that the railroad company never looked for traffic, never encouraged the transportation of freight over the line, and that the freight charges were such that they amounted to a discouragement of traffic. One settler, when asked if he had ever asked the railroad company to transport freight for him, said that he would have had to pay 75 cents each way to go to Scanlon to ask the company, and he couldn't see that that was a good business proposition. He said that the company had no traffic man out looking up business and that the company took the attitude that the handling of freight traffic was an accommodation.

Everything now depends on the decision of the railroad and warehouse commission. If the permission to tear up the road is denied, or deferred for a time to allow the working out of pending plans, it is believed that satisfactory arrangements can be made for the continued operation of the road. That will entail the bringing together of the various interests, whose aims are not now entirely in common. Members of the proposed syndicate, railroad officers, settlers and land owners will have to go in together to operate the railroad and a land development plan as correlative propositions. A land development plan without the railroad would certainly be a failure, and the success of the operation of the railroad without efforts also being made to colonize the land is very doubtful.

At the conclusion of the hearing yesterday, the commissioners announced that oral arguments on the proposition would be heard at some future date, very probably as soon as the testimony can be transcribed. The commissioners will make another trip to Duluth to hear the arguments.

H. B. FRYBERGER, THE CINCINNATUS OF THE WEST, WHILE JOHN A. KEYES REPRESENTS "SOULLESS CORPORATIONS"

"Curses, we are betrayed!"

"Oh, that I should have lived to behold this day!"

"Sh-h-h, let us avaunt."

If you want to you can picture to yourself three members of that exclusive club, the Common People, looking in at the hearing before the state railroad and warehouse commission, in which the Duluth & Northern Minnesota was fighting for the privilege of tearing up its tracks, after having denuded its land of timber. The request was opposed by the Duluth Commercial club, citizens of Duluth and farmers living along the railroad.

Let your fancy depict three honest wage earners looking in at the hearing in the Commercial club, gazing terrifiedly then sadly at the sinister spectacle. For there, where all men might see, sat John A. Keyes, corporation counsel, attorney for the Duluth & Northern Minnesota railroad, legal adviser to a big soulless thing that is first cousin to Ed Hines' lumber trust.

There he sat, unterrified and unafraid, John A. Keyes, member of the national committee of the Socialist party from Minnesota; the friend of the people, the pillar of smoke by day and the column of fire by night for every good Socialist within 100 miles of the Manhattan building.

There he sat, John A. Keyes, who writes the Socialist measures that are introduced in the Minnesota house of representatives, who wears a red tie and sleepes in crimson pajamas, who even refuses to despoil the red jacket of the succulent radish before he inserts it between his lips.

Betrayed? The three honest workers rubbed the grime of toil from their knarled and knotted hands and slunk away. As they fled from the fateful spot they bumped into three capitalists with silk hats who were peering into the hall of justice. The shiny tiles trembled as the knees of predatory wealth knocked together and the paunches of capitalistic opulence heaved with emotion unsuppressed.

"Curses, we are betrayed!"

"Oh, that I should have lived to behold this day!"

"Sh-h-h, let us avaunt."

Three silk hats, insignia of eminent respectability, seemed to rise into space and roll ignominiously into the dust. The scant locks of predatory wealth perpendicularly pierced the atmosphere. Cheeks healthily upholstered, blanched and grasping hands of special privilege were shaken by the tremor born of a deadly fear and those soft, stained digits played an obligato on the ambient.

Ah, yes, for look who was there. Have another look. Take three or four if you like. There in the forum towered the champion of the people, H. B. Fryberger, dauntlessly fingering the wooden gauntlet, (get that?) challenge to a free and unthrottled, untrampled, undefiled and unterrified people. Ah, yes, that's the way he looked. Cincinnatus leaving his plow and his homecrofting had nothing on H. B. Fryberger. There he stood, Defender of the Faith and Liberator of the People.

"Should the honest tiller of the soil be defrauded of the hard wrung fruits of his perspiring labor? Should he not have the right to come eighteen miles to Duluth to telephone Scanlon to find "when in blank that train was coming after my potatoes that I called up about two weeks ago, Saturday? Well, I guess yes. For H. B. Fryberger, Champion of the Oppressed, Scourge of Capitalism, was on the job."

Betrayed? The three silk hatted gents gazed sadly at H. B. Fryberger, counsel for railroad lines, lumber concerns and corporations of every description and variety—H. B. Fryberger. The three silk tiles were recovered from the dust. Three gentlemen who live in that plane to which the ordinary man may not aspire, rubbed the dust of gold from their moist hands and slunk away.

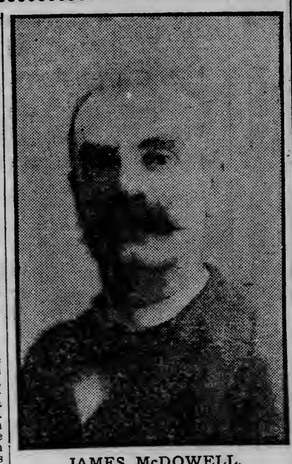
VETERAN PRINTER HEARS CALL OF "THIRTY" FROM THE GREAT FOREMAN

Death handed James McDowell, veteran printer, his last "take," and "thirty" came for him about 5 o'clock yesterday afternoon at St. Mary's hospital.

Mr. McDowell, 57 years of age, had been an employe of The Herald for the last twenty-four years and was second oldest man in point of service on the paper. He died yesterday afternoon shortly before 5 o'clock at St. Mary's hospital of heart disease. He was taken to the institution a week ago last evening.

Mr. McDowell was one of the best known printers and one of the most prominent men in labor circles in the city. He was formerly a member of the city board of fire commissioners, president of the typographical union, president of the trades' assembly, a past master workman of the A. O. U. W., and a member of the I. O. F. He has a host of friends and acquaintances throughout the city who will be grieved to hear of his death.

Having learned the printing trade at Glasgow he came direct to Duluth from his former home in Scotland, where he was born. He secured a position on The Herald and has been a member of the mechanical force since. He worked first as a typesetter. When the linotype machines came into use he became an operator, working in that capacity until about two years ago, when he assumed the duties of proof reading. He was known as one of the most faithful and steady members of the local typographical union, and always took a deep interest in the affairs of the city, doing all in his power to forward its welfare. He was one of the firmest believers in the future of Duluth, declaring that it was destined to be one of the foremost municipalities in the country.



JAMES McDOWELL.

Mr. McDowell is survived by his wife, one son, Herbert, and two daughters, Elizabeth and Marie, with whom he made his home at 5022 East Superior street, Lakeside.

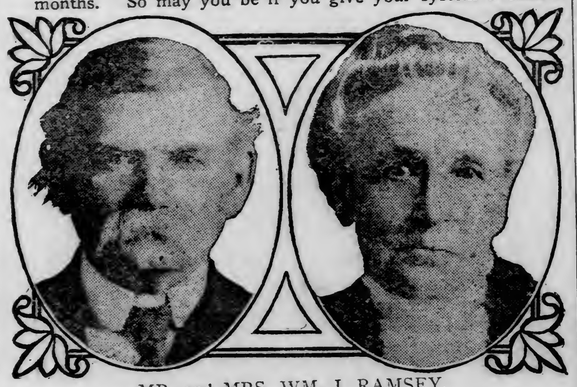
Open from 8:30 a. m. to 7 p. m. Sundays, 10 to 1.

Strong and Active at 81 Years of Age

Dear Mrs. Ramsey, who is known and beloved by all her town folk, has been restored to health and vigor after an illness of several months. So may you be if you give your system a chance.



MR. and MRS. WM. J. RAMSEY.

"My wife was taken sick last fall and I called in our doctor. He tended her for two months but did not help her in any way. I saw Duffy's Pure Malt Whiskey advertised in our paper and after reading what it had done for others I bought a bottle. She commenced taking it at once and grew better from the start. She is now strong and able to do her housework as well as ever and she is 81 years old. We would not be without it. I advise all old people to try it because what it has done for us it will do for them."—Wm. J. Ramsey, Matamoras, Pa.

Duffy's Pure Malt Whiskey

STANDARD OF PURITY AND EXCELLENCE SINCE 1860

If every man and woman in the United States would only appreciate what this great family medicine does toward building up the system, driving out the disease germs by strengthening the digestive organs and quickening the circulation so as to prevent a cold or other form of congestion from becoming deep rooted, ninety per cent of the illness would be avoided. When people get sick they blame different causes but if they would only stop and think the chief cause is the system is allowed to run down; the blood becomes thin, the digestive organs are not strong enough to do their work properly, the tissues become weakened, the kidneys are unable to carry off the waste matter. The result is pains, aches and all kinds of troubles. Just give your system a chance; build it up by taking Duffy's Pure Malt Whiskey as directed; it will build new tissue, help the stomach digest the food, strengthen the heart action, enrich the blood and invigorate the body, brain and nerves.

Duffy's Pure Malt Whiskey is the only whiskey that was taxed by the Government as a medicine during the Spanish-American war.

Sold in SEALED BOTTLES ONLY by druggists, grocers and dealers, or direct, $1.00 a large bottle. Our doctors will send you advice free, together with a valuable illustrated medical booklet on application. The Duffy Malt Whiskey Co., Rochester, N. Y.

LAST ADDRESS IN ZENITH CITY

At the Memorial day concert, which will be given Tuesday evening at the First Norwegian Lutheran church by the choir of that church, Rev. N. B. RELIEF CORPS WILL VISIT THE GOPHER.

The members of the Woman's Relief corps will meet at the Memorial hall of the courthouse, Tuesday, Memorial day, at 2:30 sharp and go from there to the foot of Fifth avenue west to board the Steamer Gopher for the services upon the water in memory of sailors who fought in the war.

The members of the corps wish to invite any visiting members of their order in the city to join them in this service and ask them to be at the courthouse at the appointed time.

Marquette Hotel Man Dies.

Marquette, Mich., May 27.—(Special to The Herald.)—Daniel Sullivan, aged 57, leaving a wife and son and one of the well known hotel men of the Upper Peninsula is dead here. He dropped dead yesterday at the Clifton hotel which he ran here.

A NERVE TONIC.

Horsford's Acid Phosphate

Recommended for relief of insomnia, impaired nerve force and fatigue. Invigorates the entire system.

COPPERS STEADY; UNDERTONE FIRM

Values Advance Slightly in a Dull Session—Traders Apathetic.

The copper market today was dull and trades assumed a waiting attitude in expectation of a decision from the United States supreme court in the American Tobacco case on Monday. There was little buying power in the market, neither was there any pressure. A few shorts covered causing a firm undertone. There is a considerable short interest in existence and it may be a determining factor in the market. The metal market is firm.

Amalgamated sold at $67 to $67.25 to $67, Butte Coalition at $19.50 to $19.75, Calumet & Arizona at $56.50 to $56.75, Giroux at $6.93¾, $6.68¾ and $6.75, Greene at $7.06¼, $6.93¾ and $7, North Butte at $33.25 to $33.75, Superior & Pittsburg at $16.

Warren sold at $2.25, Keating at $4, Tuolumne at $4.87½ to $4.75.

* * *

The recent strike at the Superior & Boston was on the same vein as the Arizona Commercial, and the ore looks almost the same. It is 250 feet further east than the Superior & Boston ever had ore before, is 475 feet from the Arizona Commercial end line, and is 1,400 feet from the ore that the Arizona Commercial is working on, on the same 1,000-foot level.

SLAYER OF BALLOONIST FACES MURDER TRIAL.

Denver, Colo., May 27.—Frank H. Henwood, who killed Sylvester L. Von Phul, amateur balloonist and wine salesman, in the barroom of the Brown Palace hotel after a quarrel over a woman, must stand trial for murder. A coroner's jury late yesterday afternoon found that he shot Von Phul "with felonious intent."

Soon after the verdict was returned Henwood was taken from the city jail, where he has been confined since midnight Wednesday, to the county jail and placed in murders' row.

That Henwood's and Von Phul's paths had frequently crossed of late in their attentions to women developed at the inquest. Two photographs of Henwood which he had presented to a prominent Denver banker and horse breeder and to his wife, a former St. Louis woman, had been removed from their apartments. These photographs, torn in pieces, were found in the pockets of Von Phul.

COUPLE HELD ON MURDER CHARGE

Carlton and Wife Bound Over at Park Rapids for Killing Relative.

Park Rapids, Minn., May 27.—(Special to The Herald.)—Mr. and Mrs. Lloyd Carlton were arrested by Sheriff Petrie last Monday, brought here and bound over to the grand jury, charged with the murder of Peter O. Neste. Last March Peter O. Neste, who is the father-in-law of Lloyd Carlton, disappeared. Suspicion was aroused by his continued absence and a search of the premises revealed several articles which it is claimed belonged to Neste, and the left foot and other bones supposed to be human.

Great preparations are being made for the outing of the Northern Editorial association to be held at Park Rapids and Itasca State park, June 8, 9 and 10.

Thursday was the 70th birthday of Dr. P. D. Winship, one of the pioneers of Hubbard county and a veteran of the Civil war. Scores of his old comrades and friends gathered at his home on South Main street to greet him and congratulate him. Among the valuable presents were a diamond pin valued at $200, a souvenir solid silver spoon of Masonic design, a birthday cake by Mrs. E. K. Nickols of Staples, many boxes of cigars and seventy birthday cards.

Mrs. C. W. Benham and daughter Zoe, left Monday morning for their new home in Idaho. Mr. Benham had preceded them and had gone with his car of stock.

Mrs. Elmer Wright of Hubbard went to Rochester with her sister, Mrs. D. Mow, Tuesday morning, where Mrs Mow will consult the Mayo brothers.

Ora Knoblock returned to her home in North Dakota, this week. She has been here for some time attending her sister, who was dangerously sick but as now fully recovered.

The district convention of the Rebekah lodge, I. O. O. F., was held here last Friday. A large delegation was present from neighboring towns.

Gud Todd, the soldier, who was brought home from Texas a few weeks ago, was taken to St. Luke's hospital, St. Paul, Tuesday. His case is a most puzzling one. He with many others was vaccinated against typhoid fever, by the United States medical staff, instead of preventing typhoid he was attacked by typhoid and complications of the head and brain. He has not improved and it was thought best to have him placed in a hospital for better observation.

Eat What You Will, Food Makes Not Fat

It is a mistaken theory that food makes fat. It is not the food you eat but the way it is digested that makes fat. Your system produces digestive juices that turn good food into poor flesh and fat. Stop those juices from being made by your body and you stop making fat. The famous Marmola prescription which has created so much comment in our cities has been prepared in tablet form for the convenience of those who do not desire to take the liquid prescription. These little tablets when they reach the stomach stop the juices from working the wrong way. They renew those fluids and at once your food gives your body just what it wants and only what it needs. This is the secret of Marmola tablets. They will reduce the fat that is now on your person at the rate of from 12 to 15 ounces a day and they will not cause you the least inconvenience or worry. You may eat early or late, you may sit still or run about, it will not make any difference. Just put a tablet in your purse or your pocket when you go out to a dinner. After each meal take one of the Marmola tablets and rest assured that the meal will not harm you or make you grow more stout. There will be no large wrinkles after your fat has fled. Your skin will be smooth and regular. These little tablets are sold at every drug store, or if your modesty will not permit you to ask for them at your druggist's you may receive a package from the makers. The Marmola Company, 491 Farmer Bldg., Detroit, Mich. The price per large case of the Marmola tablets is 75 cents.

INDIAN PLAYER WEDS.

Walker Ball Tosser Marries Belle of Chippewa Tribe.

Walker, Minn., May 27.—(Special to The Herald.)—Tom Reed, the Indian ball player, has taken a position in De Lury's tailor shop and will remain in Walker this season. Mr. Reed was married this week to Miss Mary Munnell, the belle of the Chippewa tribe of the Leech lake reservation.

Miss Henratty escorted a class of young people to Cass Lake Friday evening, where they will take first communion before Father Kornburst.

A Zne Memorial program will be rendered at the opera house Sunday evening. The music will be in charge of the Leech lake band.

Miss Emma Garmache and John Wenzler, both of Cass Lake were married Wednesday by Judge Jamison. They will make Cass Lake their future home.

Miss Katie Gtisbeck has been visiting this week with relatives at Royalton, having been called there by sickness.

A cement walk is being laid in front of the courthouse grounds this week.

Mrs. George Pippen of Mandan, N. D., is visiting this week with her brother, Archie La Vigne.

Mrs. M. J. Quam very pleasantly entertained in honor of Mrs. Macneil of Winnipeg on Wednesday. Mrs. Macneil left for Canada on the following day.

Mr. and Mrs. F. A. Dare visited relatives in St. Paul Sunday.

Herman Anway is now located in the state of Washington.

Dr. Wilcox has engaged his launch, the Barbara Jane, with a six-horse power Gray engine and is now churning the waters of Leech lake at a ten mile an hour clip.

Roy Still, Elmer Kulander and Harry Bright have been elected delegates to the state firemen's tournament at Owatonna.

Improvements to residence property on Cleveland boulevard are under way at the homes of Treasurer McKeown, Editor Dare, Chris Swenson and J. B. Spencer.

Mrs. Howard Anway and son Grafton have gone to Ortonville where they expect to spend the summer.

Mrs. Odin Naustvold enjoyed a visit from her mother Mrs. Larson of Brainerd this week. Mrs. Larson returned home Thursday.

Mrs. Edward Rogers left for Minneapolis Wednesday, having received word that her sister, Miss Flossie Balton, was dangerously ill.

George Hamann of Chisholm was here this week to look after his residence property.

Miss Gertrude Jamison, clerk in the probate office, is visiting at Staples this week with her cousin Miss Thomson who graduates from the Staples high school.

There will be Catholic services in the old school house building next Wednesday morning and on the evening previous.

Joe Robert, who lost a hand last week while working in the government planink mill, is out of the hospital. His right hand was taken off at the wrist.

MORE DELEGATES SELECTED.

Koochiching and Cass Counties to Be Represented at Duluth.

International Falls, Minn., May 27.—(Special to The Herald.)The following delegates from Koochiching county to the Northwestern Development meeting at Duluth next week have been selected: F. J. McPartlin, A. F. Brown, G. P. Watson, International Falls; Charles S. Jameson, Littlefork; Franz, Jevne Big Falls; William Durrin, Northome.

BATESTOWN WOMAN FOLLOWED RELATIVES

To the United Doctors for Treatment and Was Relieved of Her Disease.

One of the reasons for the extensive and every growing practice of the United Doctors who have their Duluth institute located on the third floor of the Columbia building, is the fact that they refuse to treat any case unless they feel sure that their treatment will relieve the trouble. Thus every patient they treat is reasonably sure to be well satisfied with the treatment, and every satisfied patient is a living advertisement and sends many other sufferers to these great specialists.

An example of how one cured patient sends them is the following:

"Batestown, Ill., April 17, 1911.

"To the Public—For the past twenty years I have been a constant sufferer from female and lung trouble. Winter and summer, whenever the atmosphere was heavy and damp, my lungs ached and pained until breathing was most painful and it became impossible for me to do all of my housework because of the weakened condition of my system brought on by my other nerve-racking trouble.

"For years this had continued until in October of the past year I suffered a complete collapse in every way, and it is my firm belief that I could not have lived two weeks longer in that condition.

"Some time before this my daughter and her husband's father and mother had heard of the United Doctors and had begun treating with them for different ailments. At this time they were all gaining so steadily and were so well pleased with the specialists in every way that I decided to consult with them about myself. Accordingly I called at their office and was assured I could be helped and began treatment at once.

"I am writing this to state to other ailing people that I have had the same wonderfully satisfactory results as was experienced by the other members of my family. There was a noticeable improvement in my condition after the first few weeks' treatment and I have so far gained that I have been doing all of my own work with ease, except in one or two instances where I lifted too heavy an article, and as for my lungs, they are practically well. I would not, for any amount, be without this treatment which is proving in its results the truth of all that was claimed for it. My address is Batestown, Ill., or Danville, Ill., R. R. 1.

MRS. J. ROSE."

LIQUID CURES ECZEMA WHERE SALVES FAIL

In regard to skin diseases, medical authorities are now agreed on this:

Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.

A simple wash: A compound of Oil of Wintergreen, Thymol, and other ingredients as combined in the D. D. D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done.

A 25 cent trial bottle will start the cure, and give you instant relief.

Wm. A. Abbett, 205 West Superior street, 932 East Second street and 101 West Fourth street.

BABY'S FACE ALL BROKEN OUT AND RED

Eczema First Came in Little Pimples. Itched, and Pained Him So Badly Mother Could Not Rest.

Used Cuticura Soap and Ointment and Eczema Disappeared.

"I must say I shall never be without a box of Cuticura Ointment, and keep it in the house, for a mother does not know the valuation of it — Cuticura Ointment and Cuticura Soap also. For my baby had a very bad face, all broken out and red, and the second application made an improvement, and before I had used half a box my baby's face looked splendid. I told my neighbors about it, and they were taken by surprise at the wonderful work the Cuticura Ointment did, and all said his face is fine. One box cured baby's face and his body which was all broken out with the disease. It first came in little pimples like heat, and after, formed one mass, which gradually spread over his face and body, and it caused itching, and pained baby so badly that I could not rest, so I wanted to go to the doctor's, but the Cuticura Ointment was recommended to me, and I am very glad I heard of it, for it saved me a doctor's bill. During the day the heat would make it more painful, but would rest better at night, and since I used the Cuticura Ointment I had better rest. After a few applications the face began to peel, now the eczema has disappeared.

"I highly recommend the Cuticura Ointment and Soap for their wonderful work. I must say mothers should not be without them, for they give quick relief and healing to a suffering child, and the mother who is all worn out for the want of sleep and rest. I highly recommend the Cuticura Ointment for eczema, rash, etc., for a speedy cure, for my child suffered very badly of the nasty disease." (Signed) Mrs. Dora C. Flutka, Specutla Island, Harford Co., Md., Sept. 25, 1910.

Cuticura Soap and Ointment sold throughout the world. Potter Drug & Chem. Corp., sole props., 139 Columbus Ave., Boston.

Mailed free, samples of Cuticura Soap and Ointment, with 32-p. book on skin treatment.

Moderate ..... 15 to 25
Brisk ..... 25 to 35
High ..... 35 to 50
Gale ..... 50 to 65
Hurricane ..... 65 and above
H. W. RICHARDSON, Local Forecaster.

At last a little sunshine in the midst of gloom. The weather man is showing us today what he can do when he is in the mood. He sent along a real spring day to end a rather dismal, chilly week, however, he doesn't intend to stay in the amiable mood very long. He promises thunder storms for tonight or tomorrow, and lower temperatures to top it off. He sure is in an awful peeve these May days.

Fair weather prevailed a year ago today.

The sun rose this morning at 4:19 and it will set at 7:50 this evening, giving fifteen hours and thirty-one minutes of sunlight.

Mr. Richardson makes the following comment on weather conditions:

"The storm now centered over Manitoba caused light to heavy rains over Southern Saskatchewan, Manitoba, Western Ontario, Northern and Western Minnesota, The Dakotas, Eastern Montana, Wyoming, Central Nebraska, Western Kansas and Oklahoma during the last twenty-four hours. Very warm weather continues in the Mississippi and Ohio valleys and greater part of the Lake region except near Lake Superior. Cooler temperatures prevail over the Rocky Mountains and from North Dakota southward to Oklahoma in connection with a sharp rise in barometric pressure. At the Head of the Lakes conditions favor thunder storms during either tonight or Sunday."

General Forecasts.

Chicago, May 27. — Forecasts for twenty-four hours ending at 7 p. m. Sunday:

Upper Michigan—Thunder storms tonight or Sunday; cooler Sunday and in west and central portions tonight.

Wisconsin—Unsettled and probably showers in north and west portions tonight or Sunday; cooler Sunday and in north and west portions tonight.

Minnesota and Iowa — Unsettled weather and probably showers tonight or Sunday; cooler tonight and in east portion Sunday.

North Dakota—Generally fair tonight and Sunday; probably frost tonight.

South Dakota—Generally fair tonight and Sunday; cooler in east portion tonight.

Montana—Generally fair tonight and Sunday; probably frost tonight; warmer in west portion Sunday.

Upper Lakes—Moderate to brisk southwest winds, shifting to west winds; thunder storms tonight or Sunday.

SUMMER HOTEL AT ISLAND LAKE

Auto owners and sportsmen will be pleased to learn that a hotel and resort for their special accommodation is being erected at Island lake, the only genuine fishing and hunting district within convenient distance of Duluth.

An effort was made some time ago by the automobile club to induce the Weyerhaeuser interests to permit the use of their old camps on the lake for a clubhouse, but the effort failed for some reason. A few of the enterprising sportsmen of the club have now undertaken to supply their wants, and the new hotel will provide all accommodations, including room and meals, boats and bait for fishing, making a specialty of serving game and fish dinners in season, a competent chef being employed for this purpose.

Island lake, on the Cloquet, has for years been famous as a fishing resort. Its waters teem with wall-eyed pike, bass, croppies, muscallonge, perch and pickerel. The fact that the small streams off the lake are the favorite spawning grounds of the larger fish, guarantees a supply of all these species for the future. As a matter of interest, larger catches have been made during the past two seasons than the older fishermen made fifteen or twenty years ago. Logging on the river has been almost completed, so that there are now no log jams to disturb the unimpeded march of the sportsman and prevent him from frequenting the favorite nooks of the fish, as there were several years ago.

Surrounding the lake are some of the most beautiful stretches of wooded scenery to be found anywhere in Northern Minnesota, and as the name indicates, the lake has two or three wooded islands, which are favorite camping grounds for the sportsmen. Every Sunday during the summer a score or two of autos and other conveniences may be found on the roads surrounding the lake, but all have been handicapped because no suitable place was provided at which to obtain a meal or put up for the night, if the excursionist wanted to. The supply of boats and bait for fishing was limited, so that the trip, as far as fishing was concerned, was a disappointment to some. The erection of the summer hotel will provide these accommodations for everybody, so that all will come back without any disappointment.

And when the fishing season is over, this locality provides other entertainment, for it is one of the finest partridge and deer localities to be found in the Northern woods. People who go there during the deer season say it is nothing unusual to see 75 to 100 deer and a dozen or more moose become the prey of the big game hunters each season, and hundreds of partridges have been known to come from this territory during the month of October each year. A few bears and a good many wolves are also known to frequent this territory, and the howls of the latter can be distinctly heard during the night along the shores of the lake.

The Rice Lake road is one of the very best auto roads out of Duluth, there being but one or two bad pieces of road between Duluth and the lake; but County Commissioner Tischer has promised the automobile club to make the necessary repairs at once at those points on the road. Beyond the lake is a stretch of the most beautiful auto road in the county, what was, until recently, the roadbed of the Duluth & Northeastern, used by the Weyerhaeuser interests as a logging road, and from which the steel has been removed, since the logging has been completed in this district. Last year, however, two or three of the wooden bridges at the other end of this road were burned by the forest fires in this territory. If a little repairing were done on these bridges, autos could have an uninterrupted run to the old Camp 4, a distance of thirty-five miles from Duluth.

Daniel Horgan of the Palmer house has for years maintained a commodious cabin on the Cloquet river near Island lake, known as Newport cottage, at which he spends with his friends the greater part of the summer, and this year several other prominent citizens are planning the erection of similar cottages for their families, some having already selected their sites on choice knolls overlooking the lake. The hotel will be ready to receive guests on Decoration day.

HEAT CAUSES MANY DEATHS

(Continued from page 1.)

ice were distributed by the city and county and by relief associations. The police were kept busy taking cases of prostrations to the hospitals.

Two Deaths in Cincinnati.

Cincinnati, Ohio, May 27.—Two deaths and a dozen prostrations were the result of the second day of sweltering weather that has visited Cincinnati. The thermometer registered 94 deg.

Ninety-nine in Kiosk.

St. Louis, Mo., May 27.—Friday was the hottest May day locally since the establishment of the United States weather bureau, the government thermometer registering 94 deg., while the mercury in a government kiosk on the street level climbed to 99 deg.

One death due to heat and seven prostrations were reported. On account of the excessive heat all public houses were closed after noon.

One Man Overcome.

Toledo, Ohio, May 27.—Heat records in this city for the last thirty years were broken Friday afternoon at 3:30 o'clock when the mercury reached 93 deg. A switchman in the employ of the Lake Shore was overcome by the heat and is at one of the local hospitals in an unconscious condition.

RACE IN AIR 1,300 MILES

(Continued from page 1.)

in the Paris-to-Madrid flight, was forced by a series of mishaps to abandon the race.

In addition to the actual participants of tomorrow's flight, Lieut. Fequant and eight other officers of the French army are under orders from the ministry of war to fly over the first stage of the course from Paris to Nice.

Have Until June 15.

The event, strictly speaking, is not a race, as the aviators have from May 28 until June 15 to accomplish the distance of 2,095 kilometers (1,300 miles.) The airmen are at liberty to start when they please and to land as often as they deem it necessary, provided they report at certain fixed points.

In the first stage—Paris to Nice—a distance of 865 kilometers (537 miles), the recording stations are the cities of Dijon, Lyons and Avigon.

The registering stations in the second stage—Nice to Rome—distance 600 kilometers (372) miles are at Genoa and Pisa.

On the last peg—Rome to Turin—a distance of 630 kilometers, (391 miles) the official stopping places are Florence and Bologna.

WANTED! R. J. HAYES,

Son of T. J. Hayes, who died last December at Bartholdi, N. D., is wanted at Minot, N. D., for the probation of his father's estate.

"DREAMLAND," CONEY ISLAND, IS TOTALLY WIPED OUT BY FIRE

(Continued from page 1.)

glass houses and rushed out of danger by the police.

Man-Eaters Taken Out.

Then came the work of taking out the animals, a costly collection including several dangerous man-eaters. The animals were insane through terror. Their roaring could be heard for many blocks, above the crackling of the flames and the throbbing of the engines.

The trainers lost no time. While policemen with drawn revolvers stood at the entrance to guard the crowd in the streets against any beasts that might escape, the attendants drove their charges from the cages down the runways into the emergency vans which are always ready.

Lion Dives Into Crowd.

All went well until the transfer was nearly concluded. Then the largest of the lions, in panic, broke from his bonds, smashed his way through the barriers and leaped into the street, already packed by a throng of spectators. He dived straight into the middle of the throng.

Consternation seized the multitude and the crowd rushed pell mell in all directions. A mounted police came at the crouching beast in the center of the wide avenue with drawn revolver. Twice he shot and missed, the lion backing away from the glare and noise of the explosions. Then six more mounted policemen lined up in front of the crowd and opened a fusilade.

Backing away, snarling and leaving a trail of blood from many wounds, the lion made his way across the avenue into the dark wooden tunnels of "The Rocky Road to Dublin." In a black corner beneath painted scenery of equatorial Africa he made his last stand. Three final volleys were required to finish him and he sank to the ground, riddled like a sieve.

Tore Carcass for Souvenirs.

As soon as the crowd was assured that the lion was no more, they rushed in and literally tore the carcass to bits for souvenirs. The first man on the scene took the tasseled tail, the three next divided the long mane, and fifty men fought among themselves for the honor of possessing one of his teeth.

The area burned over extends from Third to Tenth streets and from Surf avenue to the sea, and equals about eight city blocks. The management of Dreamland places its loss at $2,000,000, and that on the other buildings and amusement enterprises will be about $1,000,000 more. The animals burned to death were valued at fully $100,000. The Balmer baths were destroyed. Twenty-four individual shows were burned besides a number of restaurants and smaller enterproses.

Thirteen Animals Saved.

The only animals saved from Ferrari's shows were two lions, a leopard, two llamas, two monkeys and six ponies. The other ninety-two, including six lions, twenty-four monkeys, eight leopards, a baby elephant, pounies, bear cubs and llamas, were so terrified by the flames that they refused to let their keepers drive them into the fifteen wheeled cages kept on hand for such shifts.

In addition to "Black Prince," the lion that died pierced by a hundred bullets, a leopard and a baboon escaped from their cages and ran among the crowds. Policemen shot them before they had injured anyone.

The cause of the fire will probably never be definitely determined. The firemen had no information except that the first blaze was in the "Hell Gate's" scenic railway, where men with tar pails were smearing the causeways to protect the scaffolding against the weather. It is supposed, of course, that the fire had its origin from the hot tar.

Only $500,000 Insurance.

William H. Reynolds, a former state senator, was the principal owner of Dreamland. When notified of the fire he said:

"We have been afraid of this for seven years, and doing our best to ward it off. It is the toughest piece of news I ever heard. Dreamland is worth $2,500,000 and there is less than $500,000 insurance."

Coney Island has been swept more or less by fires ever since it became a great popular amusement place. The most disastrous blaze was one which started in the "Cave of the Winds" in Steeple Chase park on the morning of July 28, 1907. This fire swept some thirty-five acres clean and caused a loss of $1,500,000. The last big fire at Coney Island was on July 8, 1908, which destroyed two hotels, with a loss of over $200,000.

Today's fire swept over an area approximately a quarter of a mile square.

TONIGHT'S ATTRACTIONS.

LYCEUM—Madame Sherry.
ORPHEUM—Vaudeville.
EMPRESS—Vaudeville.
ODEUM and LYRIC—Photoplay.

"MADAME SHERRY" AT THE LYCEUM

Much Discussed Musical Success Is Received With Open Arms.

Every little patron had a whistle of his own last evening when the biggest audience of the season filed out of the Lyceum after witnessing the opening production of the much discussed "Madame Sherry."

One strain runs through "Madame Sherry" and crops up every few moments, and it's catchier than the German measles. Miss Mary Quive and her pupils at the dancing school get first crack at the "Every Little Movement" theme, and then everybody including the chorus, and last but not least, the audience, gets into the game. The audience has the last chance at it, and goes out whistling or humming the air.

But while this popular and familiar strain is the main theme of the production, it is not the only musical number. There are twenty or more in all, in this big vaudeville show, and some others are interpolated for the third act which represents an impromptu evening's entertainment presented by the guests on board the yacht of Theophilus Sherry.

"Madame Sherry" is plentifully supplied with prima donnas. There are four of them, including dainty little Tessa Kosta, as Yvonne Sherry; Miss Mary Quive, sister of Grace Von Studiford, with a Von Studiford voice, and a plump but girlish beauty, as Lulu the actress; Miss Lottie Kendall, with a beautiful pair of generously shown shoulders, as Pepita, and Cheridan Simpson, who, with increasing embonpoint, has forsaken straight prima donna roles for character parts, and is doing very nicely as "Madame Sherry," the title part but not the principal role.

Then for good measure the producers threw in Oscar Figman as chief comedian.

It comes pretty close to being an all-star cast, with no less than five people in the company who have headed musical productions as stars.

And the honors were pretty equally divided among the five stars. Miss Kosta, as Yvonne was graeful and attractive as the little convent girl and her several numbers were well handled.

Miss Quive's voice would carry a much less attractive presence than hers If the prima donna honors were awarded for singing alone, there would be no question as to the award. Miss Quive also makes a very pretty and wholesome looking Lulu.

Miss Lottie Kendall with her Spanish glide, a dagger in her garter, most impetuous manners, and nearly a whole gown, made a very fascinating Pepita.

Cheridan Simpson in the title role of "Madame Sherry," who graduated to the position temporarily from her humble duties as maid of all work to Edward Sherry, found a role to her liking. She knows how to sing a ragtime song, and is a clever and entertaining comedian. She left a better impression last evening than she did when she was here several years ago in the role of "Red Feather," and the character work brings out her abilities as a fun maker.

He's the same Oscar Figman that Duluth has learned to like from former musical comedies, and he got a big hand when he appeared last evening. The role of Theophilus Sherry, millionaire connoisseur of Greek art, fits his lean and lank figure and his lugubrious expression, and he provided the greater art of the comedy element of the production.

William Cameron made a very satisfactory Frenchman, as Phillippe, the real husband of "Madame Sherry," and helped out with a whirlwind dance, assisting the bedaggered Spanish beauty, Pepita.

Harry Benham as Edward Sherry and Harold J. Rehill as Leonard Gomez, had the two "straight" male roles, and filled them acceptably. Mr. Benham has a very fair baritone voice, and the demands on Mr. Rehill's tenor voice were not more than it could stand.

The chorus is remarkably good to look upon, and the scenic equipment is first-class, the setting for the third act being especially good. It is placed on board a yacht, and the lights of New York and Coney Island are seen in the distance.

"Madame Sherry" will close its engagement here Sunday night.

ARMSTRONG EXTRADITED.

Minneapolis Minn., May 27.—After a legal battle lasting three weeks, Gov. Johnson of California has signed an order for the extradition to Minnesota of James Caddigan, alias John Armstrong, accused of swindling H. F. Chaffee of Amenia, N. D., out of $25,000 in a "gold" brick deal in Minneapolis, 18 months ago.

Caddigan was arrested in California, and his capture is said to have been effected principally through the efforts of a corps of private detectives employed by his victim. Strongly denying his guilt, the prisoner vigorously fought extradition, and arguments in the case were made several times in the California courts. Detective Howard of the Minneapolis police force has been in Sacramento for several weeks waiting the granting of extradition papers to bring Caddigan to Minneapolis.

MURDOCK DENOUNCES OIL TRUST DECISION.

Chicago, May 27.—Victor Murdock, Republican congressman from Kansas and leader of the house insurgents, attacked the recent supreme court decision in the Standard Oil case in a speech before the Atlas club here last night. He commended Associate Justice Harlan for the dissenting opinion filed by him. He said:

"The newly discovered rule of reason applied by the supreme court will not bring peace. It will bring confusion. Years ago Justice Harlan dissented from the decree which emasculated part of the original interstate commerce act. Time has proved him right in that dissent. Time will prove him right in this."

Hardware Men Pick Boston.

Detroit, Mich., May 27.—Boston will entertain the members of the American Iron, Steel & Heavy Hardware association next year and in 1915 the convention will be held in San Francisco during the Panama canal exposition. The second annual convention, in session since Wednesday, adjourned yesterday.

The Duluth Herald accepts advertising contracts with the distinct guarantee that it has the largest circulation of any newspaper published in Minnesota outside the Twin Cities. Its value as an advertising medium is apparent.

Knowledge and timber shouldn't be used much till they are seasoned.
Oliver Wendell Holmes.

POLITICS AND THE N. M. D. A.

Says the Sauk Center Herald: "The Northern Minnesota Development association, an organization with a most worthy end in view, offers unlimited possibilities to the scheming politician to manipulate things, and he is letting no opportunity slip to do that very thing. The movement has been hampered in that way ever since its inception. The Duluth convention will do well to hang millstones about the necks of the most obstreperous of the manipulators, and gently but firmly lower them into Lake Superior."

This touches us of the Northern Minnesota Development association on a tender spot. If there is one thing above all others that the association has been successful in doing, and that it deserves credit for, it is steering clear of the rocks of personal and party politics. Politicians of all stripes and sorts have been keenly aware of the possibilities referred to by the Sauk Center paper, but so have the members of the association. In no case have political advances been successful. In no case has any political manipulator been able to do his will with the N. M. D. A. It has kept its skirts clear of political mud puddles, and it proposes to continue keeping them clear. That is why it has flourished, and that is why it will continue to flourish.

WHY IT LOST MONEY.

The proprietors of the Brooks-Scanlon railroad, to support their request that they be permitted to abandon their line, testified before the railroad and warehouse commission yesterday that it is losing money—that it lost something like $3,000 in nine months, and is losing all the time.

Then, very largely through information brought out by cross-examination, they showed why their road is losing money. It is losing money because it is making no effort to make money.

It has no regular trains, no regular stops, no equipment, no stations, no suitable tariffs. It has nothing that is necessary to money-making in the railroad business except a track, a couple of locomotives and some employes.

Nor is this condition unnatural in the circumstances. The proprietors of the road, though it is a public thoroughfare, built it and operated it solely as an adjunct to their logging business. Logging traffic having ceased, they gave no heed to the possibilities of profit in hauling minor timber products, farm produce and passengers.

The opposition to the abandonment of the road, in our opinion, made a pretty strong case. Coupled with the announcement that plans are practically completed for taking over the road and making it a useful adjunct to the development of this section, it is a case that the commission can scarcely ignore.

SEX IN MORAL STANDARDS.

Society would be a good deal better off if it were not so ridiculously and hypocritically squeamish about certain vitally important things. For one thing, false modesty about sex problems gives them a wholly artificial air of mystery that piques the curiosity of the young, and leads them to inquiries and investigations that are almost certainly harmful if not fatal in their results, because the attitude of the respectable mature is such that the young are practically forbidden to inquire in any direction except those in which they most distinctly ought not to go.

If these matters could be considered in as matter of fact and commonplace a light as they should be, because they are, after all, very matter of fact and very commonplace, that deadly atmosphere of piquant mystery which is the undoing of so many would be stripped away. The best way to get at it, of course, is for every parent to bring his or her children to their necessary knowledge of these things along a sensible pathway that will show them as they are.

Dr. Ethel M. Hurd of Minneapolis, one of the speakers at the Bemidji meeting of the Ninth district auxiliary of the Minnesota Federation of Women's Clubs, touched candidly and without fear upon one great evil that is based on a false conception of moral standards—the idea that there is one moral standard for men and another for women. Her thought-compelling address was reported in The Herald last evening, and it was well worth reading.

"We want to educate the woman and the rising generation of womankind to demand a single standard of morality," she said. "We urge them to ostracize the fallen man to the same degree that they ostracise his paramour. It seems to me that something must be done when we consider that 50,000 women die annually of disease for which men are to blame. Of all the operations upon women 75 per cent are due to the same cause. Fifty per cent of all cases of locomotor ataxia, general paresis, brain tumor and many others are due to these diseases also. The greatest psychological characteristic of women is the consideration for the welfare of her offspring and for this to become effective social purity must prevail. It will never prevail until it is demanded by women, and the women will never demand it until they realize fully the conditions that exist."

It isn't pleasant to talk about such things. It is much easier to let them fester in darkness until they infect the entire body of society than it is to drag them, unclean, unwholesome and unsightly as they are, out into the fierce light of publicity. Yet publicity is their own cure.

The demand for a single moral standard is a right and a just demand. To consent to a double standard is monstrous. The fallen man is as evil as the fallen woman; yet hers is the blame and the punishment in most cases because society's ideas on the subject are shamefully distorted. The man walks freely among his fellows, often honored. The woman is an outcast, kicked ever deeper into the abyss. Yet the degrees of dishonor are often proportioned between them about as they are proportioned between murderer and victim.

There is but one standard of physical and moral health. There should be but one social standard of morality. The clean man and the clean woman belong in one class. The unclean man and the unclean woman belong in another.

THE LEGISLATURE'S MISDEEDS.

The Minnesota legislature has been abundantly abused since it was kind enough to adjourn when the Constitution forced it to adjourn, and no doubt it deserves most of it.

Still, we can't help thinking that there is much to the contention of those who have arisen to remark that the people elected the legislature, that the responsibility for its acts rests with those who created it, and that if the people were more careful in their selection of legislative timber the results would be vastly better.

While the average of the last legislature was about the average of most previous legislatures, there were more really good and strong men in it than there has been in the Minnesota legislature for some time. Conditions, too, were more favorable to progress than they ever have been. Former facilities for throttling legislation in committee were lacking. Old organizations for the control of legislation in behalf of special interests were utterly shattered. The senate organization was openly and somewhat famously "packed' for the people. The house organization, under Speaker H. H. Dunn, was subjected to severe attack, but the fact remains that Speaker Dunn was eminently fair to all interests, and that if he had not been so fair in his treatment of the so-called "progressives," more and better legislation might have been accomplished. The "progressives" were well meaning, undoubtedly, but singularly ineffective and prone to think of personalities rather than principles. They got in each other's way and in the way of legislation.

In the past much mischief has come from the practice of smothering popular legislation in committees. There was none of that, or practically none, this time. In both houses rules were adopted putting a reasonable limit on the time any committee could consume in the consideration of a bill. Few or no bills were killed unfairly in committee. In fact general orders and the calendar, largely because of this rule, were cluttered up with an abnormally large amount of measures at a comparatively early date. What delayed important legislation was the enormous quantity of unimportant legislation that incumbered the order of business, and the absurd amount of time spent in fighting committee reports, in squabbling about the organization, and in the consideration of purely personal matters which were propelled into the forum to the neglect of things that really mattered.

The legislature was distinctly not representative of the caliber and capacity of the state; but then no legislature ever has been that, and no legislature ever will be that until the people carefully pick their best men for that highly important office. One of the most amazing experiences to one associated with the legislature is to judge from the representative from a district that that district must be made up largely of numbskulls and hoodlums, and then to find that district composed of a very admirable constituency, the equal of any in the land, but too busy or too thoughtless to pick out really representative citizens for the legislature.

There is a considerable outcry at this time about certain revelations regarding the amazing quantity of pocketknives and fountain pens and other plunder consumed by the legislature. Undoubtedly, the legislature uses more of these articles than it needs, several times over, and no doubt it is very naughty for the legislature to do this. Certainly it is childish and petty. It is an ancient custom, however, and no new thing. In fact abuses of this character probably were much less gross at the recent session than at any previous session. It is simply one of the absurd and petty customs that have grown up, and while it is extravagant and wrong, it is being given an undue importance.

There are many more important evils about the legislature, and evils that go far deeper, than its abuse of the pocket knife privilege. When those deeper defects are eradicated, the little defects like four pocket knives to a member will vanish of their own accord.

THE BOOKS YOUR CHILDREN READ.

What kind of books do your children read?

Do you know?

Or do you care?

You ought both to care and to know, for the books your children are reading are bound to have a large and permanent effect upon the characters and personalities that are being formed, either for good or for evil.

If you are careless about the books you read yourself, very likely you are careless about the books your children read. No doubt you are very careful about their playmates. You will not let them play with bad children on any account; yet in your own home you may be letting them associate with bad book companions that will have an influence more powerful for evil than the worst associates they could pick up among their child neighbors.

For the bad boy or girl in your neighborhood bears his or her badness right on the surface, and your bad book may conceal its harmful effects under an attractive and fascinating exterior.

It is a familiar spectacle, these days, to see young girls absorbed in current novels treating subjects that, at best, should be reserved for the consideration of mature minds. The country is flooded twice a year with the spring and fall freshets of new novels, not one in ten of which is worth reading, and not one in a hundred of which gives anything like a true and wholesome picture of life. The young people seem to be helping themselves to this turgid and muddy flood of literary refreshment as freely as grown folks.

In telling your children what they should read there is danger, of course, that you will set them against the really good books by telling them that they are good for children to read. It is quite natural for the child to resist being compelled to read "what is good for them," just as natural as it is for them to prefer cake and candy to simple, wholesome food. There are ways of going about it, however, that are much more tactful than those usually employed, and they will occur to anybody who looks back into his own youthful experience and remembers how much he hated reading books that he ought to read and how much he wanted to read books that he knew he oughtn't to read.

Don't tell the children that this book is bad for them and that book is good for them. It is just as easy to give them to understand that they wouldn't be interested in the bad books, and to explain to them the interest and beauty of the good books.

To do that, as you will see, it will be a pretty good idea for you to get acquainted with the good books so that you will know how to talk about them to the children. And that, you may be sure, will not hurt you in the slightest degree.

You should be quite as careful about the book companions your children associate with as you are about the boy and girl companions they affect. You should know what your children are reading, and you should see that they read the good, strong, wholesome, helpful books. They needn't be the work of old Dryasdust, either; there isn't the slightest reason why books worth while should be dry and prosy. In point of fact the good books are vastly more entertaining than the bad books, if reading taste is rightly directed and that is your responsibility toward your children.

WHY NOT GIVE IT A TRIAL?

Some farmers really think that reciprocity would hurt them. We still believe that, though evidences are piling up that not nearly so many farmers feel that way as some folks would like to make out. The delegation of "farmers" from Minnesota which appeared before the senate committee turned out to be mostly editorial farmers and lawyer-lobbyist farmers, and the funds that sent them there proved to have been furnished largely by bankers and farmers of the farmers. Nevertheless, we still believe that there are farmers—real farmers, too—in the Northwest who have been convinced that reciprocity would injure them, and that therefore they should make common cause with the lumber trust, the paper trust and other fat beneficiaries of the tariff special privilege in fighting the proposed invasion of the sacred schedules of the Aldrich-Payne-Taft tariff bill.

We think that these farmers are mistaken. We do not believe that reciprocity with Canada will hurt a single farmer, and we do believe that it will benefit everybody, the farmer no less than the city consumer. If we did not believe that we should oppose the treaty, for it isn't possible to hurt the farmers without hurting everybody. Their industry is the foundation of the national prosperity, and anybody knows what happens to the structure when the foundation is undermined.

But if reciprocity, upon trial, proves hurtful to the farming industry, it can be dropped any minute.

And you would better believe that it will be dropped the moment it becomes clear that it is hurting the farmers.

Why, then, should the Northwestern farmer pull the chestnuts of Special Privilege out of the fire by refusing to give reciprocity a trial?

By standing out against reciprocity the farmer is joining in the defense of the Aldrich-Payne tariff law. He is climbing over the battlements of the tariff Special Privilege, against which he was lately laying seige, and is enlisting in the army of sycophants and paid retainers that is engaged in the defense. He is cheered and encouraged by the lumber trust, the paper trust, the woolen trust, the coal trust, the oil trust, and by every special interest which profits by the infamous schedules in which the reciprocity treaty makes the first invasion.

The farmer has supported the protective tariff for a generation because he has been made to believe that the "protection" it offered his products benefited him. When the Aldrich-Payne law was attacked on the ground that its infamous schedules would increase the cost of living, President Taft in his Winona speech made it very clear that the tariff couldn't possibly affect the price of food products—products of the farm—in a country which is the greatest exporter of such products in the world. The tariff affects the cost of the things we buy. It cannot affect the cost of the things we sell. President Taft made it plain that the farmer has been fooled when he was made to believe that the protection given him was any compensation for the tribute he was forced to pay on the protected commodities he buys.

Since reciprocity can be and will be terminated the moment it is proved to be hurtful to the American farmer, and since the arguments for it are so overwhelming, why should anybody, except those who naturally resist any invasion whatever of the sacred schedules, oppose giving it a trial?

JAMES M'DOWELL.

In the death of James McDowell, for twenty-four years a resident of Duluth and an employe of The Herald, Duluth loses a staunch and useful citizen and The Herald a valued and well beloved associate. In his quiet, genial, efficient way he has done his part as a worker and a citizen all these years, and now that "30" has been written at the end of his life's story, it will be the wish of his colleagues that "Mac," as he was best known, has found the sweet rest that should be the final portion of those who have labored faithfully and well. As a printer, as a citizen, as a lodge member, as a public official, as a leader among organized labor, James McDowell acted well his part. Seeking no honors, he did honorably that which it fell to his lot to do, and so earned the respect and affection of those about him.

THE OPEN COURT

(Readers of The Herald are invited to make free use of this column to express their ideas about the topics of general interest. Letters should not exceed 300 words—the shorter the better. They must be written on one side of the paper only, and they must be accompanied in every case by the name and address of the writer, though these need not be published. A signed letter is always more effective, however.)

PROVIDE SEATS FOR VETERANS.

To the Editor of The Herald:

As there are active preparations being made for Memorial day, I would like to offer one suggestion, and that is, that some provision be made for a comfortable conveyance to the cemetery when the old veterans go to decorate the graves. Last year they had to stand all the way out there and back, while the seats were monopolized by children. Could not a special car be provided or some way be found that they need not give up what they consider a solemn duty, decorating the graves of their dead comrades. I hope the Citizens Staff, or other organizations interested will consider this thought of a

PATRIOTIC WOMAN.

Duluth, May 26.

SOCIALISM.

To the Editor of The Herald:

This is an epoch in which events are rapidly shaping themselves for a great and decided change. Crimes are being committed in the name of Liberty. Labor is being robbed in the name of Peace. Virtue sacrificed upon the altar of wanton lust. Men sentenced for crimes they never committed by one court and released by another. Churches turned into lobby chambers for the use of those whose aims are unholy, and it seems that they have written contracts with Satan that he will protect them in their every act that is against the welfare of mankind.

And to what end? Down lower and lower de we fall into that colorless pit of want. The workingman's condition becoming worse, the business man with his plea that he is being forced out. The bankers and trust magnates being ordained as the high priests and lords of all that is sacred. Men being trained to become food for the cannon, children taught to become the slaves of the factories, and women reared that they may become the toys of hands that have never worked. All this we plainly see. But what is to be done? Are we to try longer to bust the trusts? How many have been busted since T. Roosevelt became president, and yet he was to break them all. But where are the wrecks? Still doing business at the old stand, Washington, D. C. And they will continue to do so as long as we are the dupes, that give them the power, and then squeal that the game is not being played fair.

The enemies to be feared are not those who own the trusts, so much as those who are the greatest aids of the trusts, the political failures, the men who have lost out in the game of politics, but having knowledge of the game are induced by the lords to become their aids in the scheme of conquest.

Man has the God-given right to live. This law can never be abridged and still have man retain his fredom as a human being. What is to be done? That question you must answer for yourselves. But it appears to remain within the bounds of logic to say, that if the trust as organized today can produce so much cheaper than could be done by the hand process, and as all the people are dependent upon the trust for employment and their products that sustain life, an as the trusts will not operate their factories only a portion of the time, and as the wages earned will only buy back a portion of that which is produced, it seems there is but one thing to do and that is to own the trusts, the same as we own the schools.

These are the aims of Socialism. To own collectively the tools of production; to surround men, women and children with conditions and an environment that will conduce to their well being and happiness. That will allow them time to study God's handiwork painted upon nature's canvas, and allow them to breathe the air of Freedom stirred by the wings of the bird of Liberty, as he soars in the ether above whispering words of good cheer and peace unto all mankind.

A dream, do you say? Well, if so, it is one that must come true.

P. G. PHILLIPS.

Duluth, May 26.

In Kentucky.

The moonlight falls the softest
In Kentucky:
The summer days come oftest
In Kentucky:
Friendship is the strongest,
Love's light glows the longest;
Yet wrong is always wrongest
In Kentucky.

Life's burdens bear the lightest
In Kentucky:
The home fires burn the brightest
In Kentucky:
While players are the keenest,
Cards come out the meanest,
The pocket empties cleanest
In Kentucky:

The sun shines ever brightest
In Kentucky:
The breezes whisper lightest
In Kentucky:
Plain girls are the fewest,
Maidens' eyes the bluest,
Their little hearts the truest
In Kentucky:

Orators are the grandest
In Kentucky:
Officials are the blandest
In Kentucky:
Boys are all the fliest,
Danger ever nighest,
Taxes are the highest
In Kentucky:

The bluegrass waves the bluest
In Kentucky:
Yet bluebloods are the fewest (?)
In Kentucky:
Moonshine is the clearest,
By no means the dearest,
And yet it acts the queerest
In Kentucky:

The dove notes are the saddest
In Kentucky:
The streams dance on the gladdest
In Kentucky:
Hip pockets are the thickest,
Pistol hands the quickest,
The cylinder turns quickest
In Kentucky:

The song birds are the sweetest
In Kentucky:
The thoroughbreds are the fleetest
In Kentucky:
Mountains tower the proudest,
Thunder peals the loudest,
The landscape is the grandest—
And politics—the damnedest
In Kentucky:

—J. H. Mulligan.

Sagacity.

Lippincott's Magazine: One would have it that a collie is the most sagacious of dogs, while the other stood up for the setter.

"I once owned a setter," declared the latter, "which was very intelligent. I had him on the street one day, and he acted so queerly about a certain man we met that I asked the man his name, and—"

"Oh, that's an old story!" the collie's advocate broke in sneeringly. "The man's name was Partridge, of course, and because of that the dog came to a set. Ho, ho! Come again!"

"You're mistaken," rejoined the other suavely. "The dog didn't come quite to a set, though almost. As a matter of fact, the man's name was Quayle, and the dog hesitated on account of the spelling."

Reflections of a Bachelor.

New York Press: When slander is denied is the time it really gets busy.

Marriage is a dream that very easily becomes a nightmare.

The best treatise that can be written on how to manage a husband is a good cookbook.

A man regards himself as a patriot for abusing other nations he doesn't know anything about.

Anybody likes to make out he has more money than he has except to his borrowing friends and the tax collector.

A MOMENT WITH THE WITS.

Life: "How it it, Pat, that your friend Murphy is out of jail?"

"Faith, an' the man that he killed got well."

Toledo Blade: "Why does the audience encore that fierce song?"

"The audience wants to finish its private conversation."

Washington Herald: "My good man, how did you happen to be thrown out of work?"

"I got out," replied Weary Wombat, with dignity. "I didn't hafter be thrown out."

Buffalo Express: "What does your friend do, Kate?"

"He's interested in shipping."

"Do you mean that he stands around on the wharves watching the boats or that he sits in an office and gives the boats their orders?"

Washington Star: "You had to refuse the request of those men?"

"Yes," replied Senator Sorghum.

"Were they angry?"

"Not at all. I showed so much grief at not being able to oblige them that they went away sympathizing with me."

Punch: Robinson (of the city)—"What a modest man Maddox-Jones is. I've known him for years, and never knew till he told me just now that he exhibits at the Royal Academy."

Burne - Brown (of Chelsea)—"He never knew either—till a day or two ago!"

Baltimore American: "I've been warning Clara Skeggs about allowing her husband to play so much baseball. Now, it's made her a widow."

"What are you talking about? Nothing's the matter with Skeggs."

"I tell you it's finished him. I saw myself in the paper where Bill Skeggs was playing a game and died on the base."

Wrecks of Journalism.

Des Moines Register and Leader: When men venture as publishers on the sea of journalism they venture where waters are deep, where storms menace, and where rocks abound. Its shores are strewn with wrecks.

Two notable publication enterprises, each of which started out with plenty of money and enthusiasm, but which came to a disastrous end, well illustrate the trials of the publishing business. The one, Human Life, was a monthly magazine published at Boston; the other, the Spokane Inland Herald, was a daily and Sunday newspaper published at Spokane, Wash.

Human Life was started some five or six years ago. It employed a capable staff, it had capable men in the business departments, and it had money behind it. The other day it was sold at referee's sale for a meager $2,500—this publication with a circulation of more than 75,000 and into which more than $300,000 had been put in the few years of its existance to make it a paying enterprise.

The Inland Herald was founded only a little more than a year ago by a successful newspaper man. It had originally a capital of $30,000, which was increased by the sale of bonds from time to time to the amount of $250,000 more, by various private donations from politicians, railroads, business men, contractors and others to the sum of another $50,000, and by various other sums put in by the original owners, making it in all an investment of something like $400,000 cash. Just a year after it was founded the Inland Herald went into the hands of the receiver. Then it was reorganized, more money was put in to the extent of approximately $100,000 in the hope that the business might be pulled through. But that hope was vain. Not quite two weeks ago the publishers gave up the ship and suspended publication for good. The wreck was complete.

Very evidently something more than money is needed to make a publication a success, and something more than a fancied opening for it. There must be a field for any new publication that is proposed, whether it be magazine or daily newspaper, and it must be an ample field and a real field. There must be a demand for it—a strong, insistent demand that springs from the people who are to support the publication, and not merely from the inner fancies of the men who establish it. There is such a multiplicity of newspapers and magazines already in the field that new enterprises must have every condition in their favor to sail along safely and successfully.

The Unemployed.

"See the unemployed!"

"I do. What a bedraggled, spiritless, sodden-looking crowd they are, to be sure. Can not something be done for their relief, O Sage?"

"Most assuredly, something can be done for their relief, but, as you well know, to do the sensible thing would not be desirable."

"I know nothing of the sort. The sensible thing is to put them at work at reasonable wages, and I can think of nothing more desirable than that men who wish to work should be allowed to work."

"I am surprised at your ignorance. The unemployed are absolutely necessary to civilization."

"I am sure you are wrong for once, O Sage."

"Let us see. If all men were employed, then there would be no unemployed. Am I right?"

"Obviously."

"And if there were no unemployed there would be no strikebreakers when men went out on strike. Is it not so?"

"And, accordingly, when men struck, the employer would either have to concede the demands of the workmen or close their plants."

"Yes."

"And as a small profit is better than no profit at all, employers would not close their shops except as a very last resort."

"Surely."

"And so employes would become as arrogant as employers are now and employers would become as meek as employes are now. Do you follow me?"

"I think I do. That would be a terrible state of affairs, wouldn't it?"

"Yes, for the employers."—Life.

Pointed Paragraphs.

Chicago News: When women compliment each other every boost is a slap.

An old bachelor says flattery is merely deodorized slander.

Every man wants his innings—likewise also an occasional outing.

If they don't hurt us, we can afford to laugh at the mistakes of other people.

Some men are too lazy to make anything but tracks toward the infirmary.

There's nothing less free than free lunch when you haven't the price of a drink.

Nothing is so wearing as an effort to get along with people who grate on your nerves.

Beware of the noisy man who shouts his patriotism from the housetops. It's a safe bet that he's a tax dodger.

It takes a woman to rub it in on another by saying to others: "Her furniture all looks as though she got it with trading stamps."

What He Would Do.

London Answers: He was a huge man of the navvy species, and as he stood in the witness box counsel eyed him dubiously. He knew he would be a hard nut to crack—a very hard nut, indeed.

"What we want to get at," he began, "is who was the aggressor."

"Eh?" said the witness, puzzled.

"Let me illustrate my meaning," said counsel. "Supposing that I should meet you in the street and strike you in the face. I would be the aggressor."

"You'd be a fool!" said the witness, with growing emphasis.

"No—no!" said counsel, with heightened color. "I was speaking only in abstract. Suppose we met, and without provocation I struck you. I should be committing an act of aggression."

The navvy hunched his huge shoulders.

"You'd be committing suicide, mister," he remarked grimly.

"You may sit down!" snapped counsel.

SATURDAY NIGHT TALK

Fifty Years Ago and Now.

The fact that just half a century has elapsed since the North and South first locked arms in deadly combat will give special distinction and lend a peculiar tenderness to this year's observance of Memorial day. Already we are having many reminders of a revival of stirring and inspiring memories. Anniversaries of the departures of the first volunteers are being held. Bronzed veterans who in those days were but beardless boys are being pictured in the newspapers and their personal reminiscences are eagerly sought. The school children are fortunate who can hear their modest, but thrilling story of their campaigns, their imprisonments and their escapes. Not too much can be made of these relatively few survivors, none of whom will be here to celebrate the centennial of the beginning of the war. Give them the right-of-way in assemblies, positions of honor on the platforms, and lift the hat to them on Memorial day as they walk with bowed figures and something suggestive of a limp in their gait.

But if this commemoration season ended in a string of reminiscences, it would fail to accomplish its largest good. What we want is to recover, if possible, the influence that made those days in the early 60s great and glorious, to feel the throb of the love of country as it touched young life at the plow or the forge, behind the counter or in the school room. War is a terrible thing, but there is some compensation for all its horrors in its appeal to that which is highest and most heroic in the human breast. Those long, four, weary, bloody years witnessed a tremendous subtraction of energy from commercial undertakings. The nation was poorer financially for it, the development of the country in certain directions was impeded and delayed; but over against this fact we place the glorious record of daring assaults upon the enemy's entrenchments, of patient picket duty, of uncomplaining endurance of privations and loneliness in camp and on the field, and of the knitting of the country together so that a sense of national unity at last emerged from the conflict stronger than ever before, so that today Massachusetts and Virginia, Maine and South Carolina are one in their devotion to the flag.

Behind all this was the energizing spirit of a great and unselfish consecration. They were ordinary young men, averaging perhaps no worse or no better than the same number of young men would today; they were far from perfect, but they have to their everlasting credit the fact that when the crisis came and a chance to do the heroic thing came, they did not stop to consider whether the proposed course of conduct was physically safe or commercially prudent, or whether they would get something out of the transaction. Their one desire was to show themselves loyal, to meet the country's need, whatever the personal issue.

That spirit is not dead among us. To be sure the chances are quite slim that any young man today will be called upon to take up arms against the foreign invader. Half a century hence may see all wars beyond the bound of possibility. But does not a field remain in which ardent, high-minded youth can find a chance for that which is noblest in them? Those were troublous times, but as Maj. Henry L. Higginson said in a recent address to Harvard students. "All times are, in a sense, troublous." Times of peace may be times of moral enervation, of community deterioration, of personal retrogression. Those glad inspiring words, honor, duty, service, which rang in the ears of the boys in blue fifty years ago, have not lost their eternal significance. It is true that no glamor attaches to the performance of the every-day, ordinary duties and that a man may some times rise to the emergency of a great opportunity, who will let pass the average chance to show himself pure, true, brave and sacrificial, but the patriotism that requires for its expression the handling of powder and bullets, the sword and the battle-ax, is far inferior to the patriotism that scruples not to do the steady, day-by-day work of a good citizen.

To secure righteous laws, to see that they are properly administered, to provide safeguards for young life in the way of parks and playgrounds, to fight tuberculosis and bad air, to see that men and women who toil in factories are not in daily jeopardy of their lives through the possibility of fire or disaster that might be avoided—such commonplace service as this is just the kind of work that will keep the country free to prevent whose enslavement and disunion our fathers freely and gladly poured out their blood. If as the poet has said, "Death for noble ends makes dying sweet," living for noble ends makes living sweet.

THE PARSON.

Decoration Day.

Hushed the cannon's mocking sound,
and hushed the clank of swords—
I hear no shouts, no battle cry, from
lusty soldier hordes.
No inspiration comes from fife and
drum upon the air,
I see no gleam of bayonets and hear
no trumpets blare.
I see no marching columns with the
rhythmic swing of feet,
And I hear no cry of "charge" nor do
I hear the word "retreat."

They march today, these soldiers gray,
Who suffered, fought, and bled,
And go to lay a wreath or spray
Of blossoms on their dead.

I see no form of battle with the
shrieking shell and shot,
And I smell no fumes of powder where
the firing line is hot;
No wounded lay upon the sod, their
life blood ebbing fast—
From blackened mouths of hell no
hurtling demons now are cast.
I hear no cheers of victory, no wailing
of defeat—
No campfires burn on yonder hill, beyond the village street.

Down the street with feeble feet
I see the heroes come—
A gray array, they march today
With softened, muffled drum.

I see no lines of cavalry get ready for
the fray,
I see no sodden fields of red when
smoke has cleared away;
There comes no clash of sabers nor
the muskets' rattling sound—
I hear no ping of lead that lays its
harvest to the ground.
I see no cities desolate nor devastated
farms—
I hear no call for sturdy youth to answer war's alarms!

They march today, these soldiers gray,
With "Glory" at their head—
They go to lay a wreath or spray
Of blossoms on their dead.

—Will F. Griffin, in Milwaukee Sentinel.

Sayings of Famous Men.

Chicago Tribune: Achilles—I'm a pretty tough citizen, that's a fact.

William Penn—Honest Injun, that's all I can afford to pay!

Rip Van Winkle—Chee! Vot a goot time I must haff had lasd nighdt!

Moses—Plague take those Egyptians!

Tom Moore—Everything I wrote went for a song.

Sir Francis Drake—I'll have to duck; there's a squall coming.

Her "H."

Philadelphia Record: The check which the comely young German woman handed in at the window of a savings fund the other day was made payable to Gretchen H. Schmidt, and she had indorsed it simply Gretchen Schmidt. The man at the receiving teller's window called her back just as she was turning away to rectify the mistake.

"You don't deposit this quite this way," he explained. "See, you have forgotten the H."

The young woman looked at her check and blushed a rosy red.

"Ach, so I haf," she murmured, and wrote hurriedly: "Age 23."

TWENTY YEARS AGO

Taken From the Columns of The Herald of This Date, 1891.

•••President R. O. Sweeney of the state fish commission says: "Owing to the cold up north and the freezing solid of the small streams every winter, I don't believe brook trout would thrive anywhere north of the Mesaba range. The government will do no planting there."

•••The Duluth, Missabe & Northern Railway company filed articles of incorporation with the secretary of state yesterday. The capital stock is $5,000,000. The company proposes to build a line from Duluth to some point on the northern boundary of the state to be determined hereafter. The incorporators are K. D. Chase of Faribault, J. T. Hale, S. R. Payne, Roswell H. Palmer, Alfred Merritt, A. E. Merritt, C. C. Merritt, Leonidas Merritt and N. B. Merritt, all of Duluth.

•••Today Capt. J. H. Triggs closed a deal for the purchase of $40,000 worth of property on the upper side of Superior street just west of Third avenue east. He has for several years owned the corner and has now bought from J. C. Hunter a triangular piece that gives him a frontage of 175 feet on Superior street and 140 feet on Third avenue, which is said to be the largest connected piece of Superior street property owned by one individual. Capt. Triggs expects to build on this property very soon, but he has not yet decided on the class of buildings.

•••Col. Robert G. Ingersoll, who will lecture at the Temple this evening on "Shapespeare," is at the Spalding, accompanied by Mrs. Ingersoll and Miss Maud Ingersoll. Alderman C. A. Long, an old acquaintance of the Ingersoll family at Peoria, took the party for a drive over the boulevard this morning.

•••F. C. Stamon has resigned his position as leader of the cornet brass band at West Duluth, and E. F. Lyons has been elected to succeed him.

•••Mrs. Joseph Stanton, whose husband was at one time an employe of The Herald, but who is now of Springdale, Wash., is here on a visit to Mr. and Mrs. James Ready.

•••Chris J. Benson from Jamestown; N. D., has leased the Fuller building at Lakeside and will open a grocery store.

•••Mrs. H. N. Timolat of Lakeside is slowly recovering from a long siege of sickness.

•••A. W. Kuehnow and F. S. Drake of this city, Capt. Anderson and Charlie Anderson of Knife River and Dr. Budd of Two Harbors started for Isle Royale from Knife River yesterday in a sailboat. They will devote four or five days along the shore to fishing.

•••Thompson & Bros., from Thomson, Minn., have bought the hay and feed store at 1823 West Superior street.

RECIPROCITY AND THE FARMER

By SAVOYARD.

There is no lobby here such as there would be if it were understood that the senate intends tinkering with the "pop-gun" bills of the Clark-Underwood regime, that has made a surrender, so far as relates to wool, which the mighty Ajax of protection, Nelson W. Aldrich, says is "the crux of the tariff question." Those Democrats who assent to or tolerate a tariff on wool are doing precisely what Cannon and Dalzell would have them do and thus they confess that their party cannot make a tariff without a duty on wool. The day congress met in extra session last month the present attitude of Clark and Underwood would have been repudiated by nine of every ten Democratic members.

And if it were wool alone it would be brushed aside with no sort of ceremony. But every other interest is to the rescue—lumber, mica, wood pulp, the meat trust, the butter trust, rubber and various other things throw themselves into the breach to save wool, and when wool is saved all is saved. And thus the Democratic party will have to gain another overwhelming victory at the polls before we get real tariff reform, and we will not get it then unless we set real tariff reformers to do the job. That is the situation in this town the middle of May. What it will be next week nobody knows.

• • •

Canadian reciprocity passed the house of representatives by a tremendous majority, though many voted for it who would love to see it throttled in the senate and they would put the knife to its throat in the senate if the president were not heartily for it. For example, Boss Penrose cannot get along at all without federal patronage. If deprived of the postmasters and things his machine would go to pot and the plum tree become barren. He is only one of many. If Jim Sherman were president reciprocity would not stand the slightest chance in the senate.

And it is not at all certain that reciprocity will pass the senate with Taft supporting it. That body is the last ditch in which monopoly makes its stand, and the "hearings" given by the committee on finance indicate that the senate is hot foot after an excuse to smash this slice of free trade. It was amusing to see that farmer squad that came here to expound the thing. They "put up" at the Willard. They looked sumptuous and seemed awful oilified for men who followed the plow. They brought their wives and daughters with them and they, too, were arrayed in gorgeous attire and dazzling jewels. The newspapers said this town never before saw a lot of farmers like those. Senator Stone sought to find out who footed the bill and caught red handed sundry bankers and the butter trust.

• • •

One of the most effective speeches ever made in congress was that of Claude Kitchin, delivered April 15, opening the debate in behalf of reciprocity. It carried dismay into the quarters of the protectionists and the "near" protectionists. It inspirited every true Democrat that heard it and it encourages every true Democrat who reads it. A holy terror in a political melee, the young son of the Old North state had the standpatters on the rack for three hours. He knew his subject from beginning to ending and in my time I have not known a readier man in debate. A Democrat from skin to core, he cannot be cajoled by the specious pleadings, nor brow-beaten by the truculent threats, of the myrmidons of predatory wealth. He sees in reciprocity an assault on the "protective principle," as they call it, and that is why he is for it. Those Republicans who favor reciprocity do so in the hope that this concession will preserve what is left of the dogma; but according to Kitchin it is the opening skirmish of a glorious war for honest and Constitutional taxation.

Here is a passage from Kitchin's speech that every Democrat ought to read:

"Who is right, 'Zeb' Vance or these anti-reciprocity Democrats? I venture the statement that whenever you see a good Democrat against this reciprocity bill you must scratch a little deeper than corn, rye, barley, oats, livestock, and so forth, to find the real reason for the opposition. (Applause). "Scratch a little and you will find lumber reduction (laughter and applause), and a little deeper and you will find wood pulp reduction, and the biggest wood pulp plant south of the Potomac is in North Carolina; scratch a little deeper and you will find some mica reduction, and there is some mica made in North Carolina. (Applause and laughter). Now, when a Republican president and many Republicans here are willing to concede that they have been fooling the farmers for thirty years about the tariff on their products, some of our Democrats come along and say, 'Do not admit that, for we want to fool the farmer as you have been doing, and get protection for lumber in our state, for wood pulp and mica in our districts.'"

• • •

When one of those professional farmers, a Mr. Gardner of Massachusetts, was telling the awful things reciprocity would do for the farmers in general, Joseph W. Bailey interposed this profundity:

"But I am convinced that there is a deliberate and systematic propaganda now being conducted in this country for that sort of tariff revision that takes the duty off of everything the farmer sells to the city folks and still leaves a duty on practically everything the city folks sell to the farmer."

Now, if that is not a miserable piece of degrading and contemptible demagogy—and quite likely that is all it is—Mr. Bailey sought to convey the idea that the tariff protects the farmer.

• • •

If that be so the Democratic party has been wrong on the tariff every moment of its existence. Of course your Republican believes the tariff protects the farmer, and as long as your protection baron can find Democrats to preach as Bailey does in the foregoing he feels absolutely secure of his graft in the tariff for private purposes mainly. If Bailey is right in his suggestion that the tariff protects the farmer, then Allen G. Thurman, Daniel W. Voorhees, Michael C. Kerr, William R. Morrison, George G. Vest, Augustus H. Garland, Richard Coke, Roger Q. Mills, Isaac P. Gray, H. G. Worthington, Zebulon B. Vance, Charles F. Crisp, James B. Beck, John G. Carlisle, J. Proctor Knott and hundreds of other great Democrats, including Grover Cleveland and William Bryan, preached heresy and inculcated error in this behalf.

To borrow a thought from a debate in the British parliament long ago, Mr. Bailey must first make me as assured of his infallibility as he himself is before I reject the teachings of the great Democrats I have named to follow him into the camp of the enemy.

• • •

No, the farmer is brought into this investigation to lend some sort of respectability to monopoly's opposition to reciprocity. I'll tell you the farmer it hurts—the Kirby lumber trust and its biggest stockholder, the Frisco railroad. Another is the paper trust. If reciprocity did not threaten the ill-got gains of these gentry there would have been no professional farmers here to protect and defend the party's strictly Democratic antecedents and it would have been passed last congress without the slightest opposition in either house.

I doubt if there is a real farmer in America who will not be benefited by this Canadian reciprocity if it becomes the law. Every farmer is a user of timber, either the raw material, as lumber for a barn or dwelling, or any house, or other outbuilding, or as wood in the finished product, such as plows, thrachers, rakes, and other utensils and machinery. The fierce opposition of the lumber trust to reciprocity shows—it demonstrates—that wood and lumber will be cheaper to the consumer. Nor is that all. Paper of all kinds will be cheaper—books, newspapers, magazines, wrapping paper, and so on. By the way, Mr. Bailey seems not to have heard that books, newspapers and magazines are sold by the city to the farm, and the "propaganda" he talks of would reduce the price of those, now become, necessaries to the farm. I undertake to say that the advantage to letters and to morals implied in free print paper will be enormous. And that reminds me that the paper trust sought to deceive Minority Leader James R. Mann of the house of representatives, and it takes a man as credulous as Joseph W. Bailey to believe what they tell the finance committee of the senate.

• • •

Some half a century ago in the days of Know-Nothingism scurvy politicians told most excellent folk of Kentucky that the pope of Rome designed their massacre, and sensible men double-locked their doors at night, double-loaded their guns, and retired to bed in fear and trembling lest the most beneficent and harmless old man then living might murder them. And our farmers of 1911 are in about the same danger from Canadian reciprocity as the Kentucky Baptist or Methodist of 1856 was from Pope Plus IX. Why, a man who has no more gumption than to think reciprocity would damage the farmer can be persuaded that you can protect the Mammoth Cave of Kentucky by levying a tariff duty on the pauper caves of Europe to prevent some speculator from importing one and setting it down in Edmonson county in competition with our home-made Mammoth cave.

No, no, no, scratch the real opposition to Canadian reciprocity and you will dig up a henchman of monopoly.

PARTNERSHIP OF DIRT AND DISEASE

False Notions of Municipal Economy—How We Manufacture Disease—Price Paid for Our Slums.

By LAWRENCE VEILLER,
Secretary and Director National Housing Association.

(Exclusive Service the Survey Press Bureau.)

Dirt and disease have gone hand in hand too long. As modern surgery owes its rapid strides to the banishment of dirt from the operating room, so modern medicine is to come into its own through the banishment of dirt from our communal life. The slum, the mother of disease, is doomed. From ocean to ocean there is a newly awakened perception of our inherent right to decent conditions of living.

We have paid dear for our slums and have given hostages to fortune, leaving a heavy debt for posterity. No one has attempted to estimate the cost to the nation of our bad housing conditions, because it is impossible. Who can say how many of the industrially inefficient are so because of lowered physical vitality caused by disadvantageous living conditons? Despite our vaunted civilization, our material prosperity, our diffusion of education, our greatly increased culture, we are still in some respects "barbarous America."

In most of our cities we are still in that rudimentary state of sanitary knowledge where we know no better than to surround ourselves with the vilest elements of human waste which we allow to remain near the homes of the poor, turning living places into disease factories. We still suffer to remain even in crowded quarters of our cities, thousands of vile privies, vaults, sinks, cesspools and outdoor closets. "Baltimore has 70,000 earth closets and is only now installing a system of public sewers. St. Louis can still show 12,000 privy vaults. Philadelphia, Chicago, Indianapolis, Milwaukee, Pittsburg, Cleveland, Cincinnati, Nashville, Birmingham, all have to admit the presence of these ancient evils. Hardly a city in America is free from this blight.

Just because these evils have been removed from our immediate sight, we have foolishly fancied ourselves secure. But the "mighty misasmatic breath blown from the slums" penetrates to all parts of the town. The effect upon health is direct and intimate. To the debilitating influence of the noisome odors in the hot summer weather may be traced much of the illness of the poor. Myriads of flies feed on the contents of the vaults and then proceed to infect the food supply in the neighboring stores.

Few cities have dealt effectively with this situation but we are passing beyond the stage where the representative men deprecate the discussion of these conditions on the ground that it is "bad for business." For seeing men realize that a low death rate and a well earned reputation as a "city of homes" is a good asset for a community.

Democracy itself seems to be an obstacle to sanitary progress. It is in those cities where there are miles and miles of small houses owned by workingmen in which there is the greatest difficulty in meeting health needs. A low tax rate becomes in them a fetich, and every public expenditure is scrutinized most closely so that the public officials are loath to take any action that imposes upon the electorate additional expense.

The false cry for "economy" which is so popular, and which is usually a cry for false economy, threatens to set back most seriously sanitary and social progress. It is due largely to these conditions that we have in no city dealt effectively with our alley problem. The alley is both a blessing and a curse. As a means of letting light and air into the interior of city blocks, it is a gain but generally it is an evil. As a minor street hidden away the alley becomes the dumping ground for the cast-off material of humanity. The privies are generally close to it and surface drainage covers the alley with slime. Often it is the sole outlook upon life that the poor get from the windows of their homes.

The alley must be treated as a street. It must be paved, cleaned, lighted and policed and not left to the dare of the abutting property owners. The city must assume official responsibility for it.

Tuberculosis is thought to be about to vanish, but sober vision indicates that it will be years before we see it disappear. Although we have been taught that tuberculosis is a "house disease", which thrives in dark, unventilated rooms, and that the germs cannot live in strong sunlight, yet in how few cities is the speculative builder restrained from adding new dark rooms. In growing Western cities, where space is plentiful and land cheap, new tenement houses are built with half the rooms dark. In no city have we progressed so far as to prohibit in private dwellings and public buildings rooms with direct outside light and air.

It seems premature, therefore, to talk of estabishing "garden cities" and "zone systems." These ideals must wait until we can bring ourselves to attend to the elementary principles of sanitation and community living. It is as if the doctor attending a patient desperately ill with typhoid were to concern himself before the crisis had passed with the patient's diet during the convalescent stage.

Underlying all of these evils is our failure to develop sanitary inspection as a vital adjunct of municipal administration. In most cities it is still unexplored territory. With two exceptions, New York and Chicago, no city in America has as yet evolved a system of inspection worthy of the name. In practically all our health departments we placidly await as we did years ago, citizens' complaints, assuming that by attending to these we shall have done all that is needed. With the mass of our working population made up, more and more of the peasantry of Europe, ignorant of our language and customs and living in foreign "colonies" we can no longer look to any such methods for discovering and remedying sanitary evils whatever may have been the case when we were a homogeneous nation of American citizens.

Many of the poor in our large cities do not know that there is a board of health. Even if they know where to find its offices and can afford the time to travel to them to complain, for the great mass are too illiterate to send written complaints, they know from bitter experience that if the source of the complaint is discovered eviction by the landlord is sure to follow. So the worst conditions remain undisclosed. Coupled with inspection to discover sanitary evils there should go a system of "instructive sanitary inspection" by trained women. Though it sounds paternalistic, the inhabitants of our large foreign "colonies" must be taught how to live. They often fail to realize that the methods of waste disposal which were satisfactory to them in sparsely settled country districts of rural Europe may not be safely followed in our urban communities.

Why should American cities be so far behind the enlightened standards of sanitary science? Partly because we have drifted along choosing the line of least resistance. The more fundamental cause, however, is that we have hitherto not been civilized enough or intelligent enough to be willing to spend money for the preservation of health. In hundreds of cities, still, the health commissioner receives no compensation. In every city the health department is terribly undermanned. The health officials have done their part as best they could, but we have been so stupid and careless that although we grant annually large sums for the support of police and fire departments to protect property, we have grudged mere pittances to our health officers for the protection of human life.

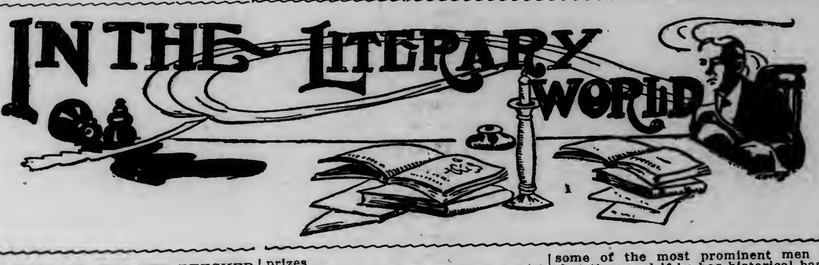
IN THE LITERARY WORLD



THE LIFE OF HARRIET BEECHER STOWE. By Charles Edward Stowe, her son, and Lyman Beecher Stowe, her grandson. Boston: Houghton Mifflin company. $1.50 net.

Next month will come the hundredth anniversary of the birth of the author of "Uncle Tom's Cabin," and this volume is therefore timely. Beyond that, it is complete, intimate and interesting. There is a full account of the writing of "Uncle Tom's Cabin," the event in Mrs. Stowe's life which is of chief interest to the reader, and of the real people from whom many of the characters were drawn. It is interesting to learn that the inspiration of the book came from a sister-in-law, excited over the outrages committed under the Fugitive Slave Law, who wrote that if she were Harriet she would "write something that would make this whole nation feel what an accursed thing slavery is." We are told: "Rising from her chair and, clutching the letter in her hand, she exclaimed, with an expression on her face that stamped itself permanently on the minds of her children: 'God helping me, I will write something. I will if I live.'"

For some time Mrs. Stowe had no idea of what this writing was to be. Then, in church, "suddenly like the unrolling of a picture scroll, the scene of the death of Uncle Tom seemed to pass before her. At the same time, the words of Jesus were sounding in her ears: 'Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me.'" Thus was conceived the book that was to make history.

So much of the story is in the quoted words of Mrs. Stowe herself that it is almost an autobiography. Also, it gives an intimate view of the wonderful Beecher family. It is a good biography and it is good reading.

THE COMPLETE POEMS OF EDGAR ALLAN POE. Edited by J. H. Whitty. Boston: Houghton Mifflin company. $2 net.

This volume is, as the publishers announce it, to be "not the final and definitive text" of the poetic works of this poor, tragic figure, whose surpassing genius not all the silly calumny of generations of Pharisees can conceal. When Poe was in the office of the Richmond Examiner in 1849, a few weeks before his death, he had all his major poems and several of his minor ones put into type, and revised them more or less extensively. Changes in punctuation have been made in almost all. In two instances several lines have been added, and two poems were entirely re-written. On Poe's death these revised proofs came into the possession of a member of the editorial staff of the Examiner, who, in turn, committed them to his successor, Mr. Whitty. Several supposedly final texts have been found by him for his variorum in the appendix, and half a dozen authentic and hitherto uncollected poems have been discovered from manuscript sources and included in this volume. Mr. Whitty has also written a biographical memoir of eighty-odd pages, in which he makes a number of important corrections as to certain curious episodes of Poe's life. Altogether, it makes a volume of uncommon interest and importance.

THE BOY GARDENERS. Dayton, Ohio: The Boys' Garden Company. 15 cents.

This little booklet has unique interest, especially in view of the revival of public concern in agriculture and its association with efforts to benefit the boys of the street. On the title page is this naive explanation of the appearance of the volume: "We had this book printed to answer questions about our work. Also to sell and make money." As is the Boy Gardener and their affairs, curiosity on that subject could not be answered better than by the first article in the booklet, which is by the president of the Boys' Garden company:

"My name is Wilbur Geiger. I am 12 years old. I am president of the Boys' Garden company. We raise all kinds of vegetables on a piece of ground known as the Boys' Gardens. They were started in 1897 in the south part of Dayton, Ohio. It was known as 'Slidertown.' People said that all bad things slid down there. They had the grave yard, the pest house and a lot of bad boys. These boys threw stones and broke windows. They ran across yards and tore up flowers and broke down fences. They smoked, called people names, and swore. It was so bad that nobody wanted to live there. People did not want to build houses there. Some of the foremen in the shop lived a mile away.

"The people tried to find out how to stop this. They thought they would give the boys something to do. If they were at work they would not be doing these other things. So the ground was plowed and the boys put to work. At first they did not like it. They laughed about it. But when the sprouts came up they were glad. Then the plants came up. Later on the vegetables came. The boys like it now and they told others about it. Soon forty boys were at work.

"Somebody offered prizes for the best gardens. This made the boys work harder. They tried to win the prizes.

"At first nearly everything raised was used in our homes; later we began to sell some of it.

"The neighborhood is now called 'South Park' instead of 'Slidertown.' People like to live there now. The boys are always glad when spring comes and when it is time to plant the gardens again."

That piece of eloquent writing tells the whole story. It is a lecture, a sermon, on city-making, on boy-making, on civilization building. We are glad we got this book. We hope others will get it.

BRAIN POWER OF BUSINESS MEN. By Annie Payson Call, author of "Power Through Repose," "Nerves and Common Sense," etc. Boston: Little, Brown & Co. 75 cents net.

The trouble with the business man who finds his nerves going ballywhack and his efficiency greatly lessened thereby is that he wastes nerve force through leaks. Worry is a great leak. Inability to rest by dropping care is another great leak. Miss Call's book contains simple and common sense advice about how business men can save their nervous force, get rid of nervous strain, and thus regain their lost poise and power. The author shows that she is conversant with business methods, and she distinguishes those which drain the vitality from those which really renew the strength. She plainly points out the power of the more wholesome methods for training men's minds in a way to bring them intelligent freedom and more life.

• • •

TO LOVE AND TO CHERISH. By Eliza Calvert Hall, author of "Aunt Jane of Kentucky," etc. Boston: Little, Brown & Co. $1 net.

There is interest and charm in this little story of a conflict between ambition and duty in the mind of a Kentucky mountaineer lawyer before whom opens the path of political glory. His wife, though beautiful and sweet, is a plain mountain woman who realizes that she has neither the education nor the training to enable her to rise with him in his flight. The problem in this situation forms the thread of an enthralling story.

• • •

HURD'S IRON ORE MANUAL. A general reference, guide and handbook of the Lake Superior district. By Rukard Hurd, C. E., secretary of the Minnesota Tax Commission. St. Paul: Published by the author. $7.50.

It is strange indeed that up to this time the iron and steel trade has been without a reference book. It has one now, and a good one; and it is a Minnesota product. Mr. Hurd's work, which has been thoroughly approved by experts, would prove highly valuable to all concerned in the iron trade. It includes the values of iron ores and the methods of determining them, Minnesota methods of taxing iron ores, shipments, prices, transportation, net values with cost of production and delivery, the rule for determining present value of iron ore royalties, prices and production of pig iron, geology and mineralogy, the iron ore reserves of the United States, and much other interesting and valuable matter, all brought down to date.

• • •

THE CAPTAIN OF THE "S. I. G'S." By Etta Anthony Baker. Boston: Little, Brown & Co. $1.50.

Mrs. Baker, who is the author of a number of very popular books for girls, with this volume begins a new series of boys' books. The "S. I. G." are the "Staten Island Giants," a boys' club organized for baseball and other sports. They are by no means young heroes, but just real, good-natured boys. Besides engaging in their various sports they organize a boys' brigade, assume Indian costumes, are by turns mischievous and adventurous, win in athletics and are exposed to actual peril. The well-told story winds up with a merry Christmas.

• • •

TEXTBOOK OF TRUE TEMPERANCE. Edited by M. Monahan. Second edition. Revised and enlarged. New York: The United States Brewers' association.

This book preaches the doctrine of temperance as opposed to the intemperateness of prohibition and other sumptuary laws. It advocates beer as a temperance beverage, as opposed to the more ardent liquors. It quotes many authorities, medical and otherwise, to prove its case. In this edition it is brought up-to-date, and about a hundred pages have been added to its contents.

• • •

THE PATH OF GLORY. By Paul L. Haworth. Boston: Little, Brown & Co. $1.25 net.

Everybody is familiar with the story of the capture of Quebec—how Wolfe, as he stood in his boat on the way to the pass by which he was to lead his army to the Plains of Abraham, recited the "Elegy in a Country Churchyard" and declared he would rather have written that poem than capture Quebec. Mr. Haworth has taken that incident as the text and almost as the climax for his story. He gives some rather vivid pictures of Colonial life in the years preceding and during the French and Indian war, and brings into the narration the man who afterward became the first president of the United States. The author takes great liberties with some of the most prominent men of that time, and if he has historical basis for some of the conversations and situations into which he introduces his characters he has made a valuable addition to the national library of historical fiction. In any event, he has given us a readable novel, with enough action, adventure and romance to suit the most exacting reader, and with sufficient literary skill to "get by" in safety. It is a little hard to see just how the title fits the case of the hero, who wins glory without thereby forfeiting the reward of a true leading man, but perhaps, after all, one should not too particular so long as the title sounds good and the book will do.

• • •

JOYCE OF THE NORTH WOODS. By Harriett T. Comstock. New York: Doubleday, Page & Co. $1.20.

It appears to be a favorite axiom of novel-writers that the most out-of-the-way places can and do produce the most incongruous characters. That is thereby is that he wastes nerve force through leaks. Worry is a great leak. Inability to rest by dropping care is another great leak. Miss Call's book contains simple and common sense advice about how business men can save their nervous force, get rid of nervous strain, and thus regain their lost poise and power. The author shows that she is conversant with business methods, and she distinguishes those which drain the vitality from those which really renew the strength. She plainly points out the power of the more wholesome methods for training men's minds in a way to bring them intelligent freedom and more life.

Morgan Scott. New York: Hurst & Co. 60 cents.

This is the second volume of the Oakdale Academy series, and it furnishes additional proof that Morgan Scott is an author who is well able to write on school sports, so dear to every healthy boy. These stories, while in no way sensational, are highly interesting from start to finish. The latest volume deals with winter sports—snowshoeing, skating, rabbit hunting. In the tale, Rodney Grant, a young Texas cowboy, appears at Oakdale and attends the academy, being adjudged an imposter by the New England lads, who entertain a mistaken notion that all Texans swagger and bluster and talk in the verracular. As Grant is quiet and gentlemanly in his bearing and will not, for some mysterious reason, take part in certain violent sports, they erroneously imagine him to be a coward; but eventually, through the demands of necessity and force of circumstances, the fellow from Texas is led to prove himself, which he does in a most effective manner, becoming, for the time being, at least, the hero of the village.

• • •

THE BOY SCOUTS OF THE EAGLE PATROL. By Lieut. Howard Payson. New York: Hurst & Co. 50 cents.

This is the first volume of a brand new series of Boy Scout stories, which will be welcomed by boys who demand modern entertaining books. It is not necessary to be a Boy Scout to enjoy this story, as it will hold the interest of any boy from start to finish. While there is plenty of life in the story, it is not of the sensational order but is good and wholesome.

Of Books and Writers.

"The Miller of Old Church" is the title of Ellen Glasgow's forthcoming novel which Doubleday, Page & Co. will have ready for the public the last of the month.

Mr. and Mrs. Montague Glass are to sail for Italy where they will spend the summer. While abroad Mr. Glass will be at work upon a novel for his publishers, Doubleday, Page & Co. A new volume of Potash and Perlmutter stories, to be called "Abe and Mawrus" will be published in the fall by the same house.

• • •

A book and an author about which the press and the magazines seem never to tire of writing are "The Promise of American Life" (Macmillan) and Herbert Croly. A recent article in the Metropolitan Magazine is devoted exclusively to Mr. Croly and his work. After an elaborate statement of the way in which he came to write the book and the merits of the completed work, which have been recognized in this country and abroad by the best economists and political students, Jesse Lynch Williams, who wrote the article, gives the following summary of Mr. Croly's career: "Who Herbert Croly is may be answered briefly. He is the son of the late David Goodman Croly, formerly editor of the World and the Graphic in New York. His mother was Jennie C. Croly ('Jennie June'). He began life as a philosopher. That is, when he went to Harvard in 1886 it was with a view to becoming a teacher of philosophy. His father, to whose memory the book is dedicated, besides being a successful editor and publisher, was deeply interested in philosophy. But the son soon lost interest in the subject as a life work, and without waiting to get his doctor's degree he took a job on the Architectural Record. This he kept until 1905, when "The Promise of American Life" took such absorbing possession of him that he threw over everything else in order to do it right. That is the brief history of Mr. Croly's career."

• • •

E. B. Dewing's "A Big Horse to Ride," (Maomillan), a story of a fascinating dancer, is to be published early next month. Miss Dewing, it will be remembered, is the author of that most unusual novel "Other People's Houses," the title of which aroused so much discussion at the time of the book's publication. Miss Dewing has a faculty for securing unusual and at the same time particularly suggestive titles and it is safe to assume that the meaning of the phrase "A Big Horse to Ride" will be found quite as fertile a field for those who puzzle over the meanings of words as was the former title.

• • •

Within less than a week after the publication of Mary S. Watts's new novel "The Legacy," the first edition was exhausted and the second on sale. This is a very interesting fact when it is recalled that "Nathan Burke," the author's previous book which ultimately proved one of the season's biggest sellers, was somewhat slow in starting. To be sure when it did begin to move, it moved rapidly, but it took some time to arouse the public's interest in it. That "The Legacy" at once attracts attention is due probably not alone to the very evident merit of the story, but to the pleasant impression which yet lingers in everyone's mind whenever the author of "Nathan Burke" is thought of.

The vaudeville monologist was springing some old jokes. Harold McGrath sat in the front row. He had heard 'em all before. And maybe he looked bored. Not knowing who he was (this was in MacGrath's home town) the monologist pointed down at him after the laughter. "This young man doesn't seem to appreciate these jokes."

"Oh, yes I do," MacGrath came back. "I appreciated 'em ten years ago . . . when I wrote 'em!"

Yells from the audience who knew that MacGrath had once been a newspaper humorist.

KLAUS HINRICH BAAS. By Gustav Frenssen. New York: The Macmillan company. $1.50.

A translation of one of the well-known German story writer's works. The story is that of a boy who, born in a village in the interior of Germany, of a mother noted for a quick temper and a sharp tongue and tireless industry, and a father who somehow never seems to "get along," is taken to Hamburg by his parents while yet below his teens. In Hamburg he finds himself in new surroundings, in school and in everyday life. He finds some work to do outside of school hours, a circumstance that is made all the more necessary by the deaths, first of his oldest sister and then of his father. The lad drifts from one thing to another, but somehow is remarkably slow in developing, if one is to judge by the progress of the average American boy placed in similar circumstances.

In the multiplicity of incident there is a kind of interest aroused, but the handling of the incidents is not very well done. There is little more stress laid on the critical events in the Boy's life than there is on the most trivial ones. It is much like the day-to-day relation of events that might appear in a diary—and indeed the style might almost have been borrowed from the immortal Samuel Pepys—a plain relation of fact without apparent knowledge that the event related was to bear an influence on those to follow. And yet, the diary comparison is not accurate, for the chronology in the novel is not well maintained, and sometimes events that, in the way they are narrated, appear to be in immediate sequence, are found later to have occurred some days or longer apart.

If "Klaus Hinrich Baas" has any real value, it must be a picture of life in the surroundings in which the central character moves. Whether these are acourate it is too much to guess. If they are, the picture they present is well worth studying from a social standpoint. If they are not accurate, the translation very evidently was a sad waste of time and effort.

• • •

THE AIRSHIP IN FINANCE, OR THE FLIGHT OF THE FLYING COW. By H. L. Sayler. Chicago: Ed Reilly & Britton company. $1.

This is another of the thrilling stories written by Mr. Sayler, which deal with the wonderful new science of aerial navigation. The "airship boys" are now so well known that every fresh addition to the stories of their doings and adventures is eagerly awaited. In "The Airship in Finance" the boys have proved, with the aid of a placid old cow and the falls of Niagara, that they have fully solved the problem of safe and sane aerial navigation. The circumstances connected with the solution of this problem and how they incidentally made $1,000,000 make very interesting reading.

• • •

THROW AWAY JOKE GAME

Rochester Takes Laugh Contest By the Score of 14 to 8.

White Sox Errors Contribute Directly to the Loss of Opener.

The less said regarding yesterday's game, the better. The score was 14 to 8 in favor of the invaders, and it might be said right here that the game was presented to them on a silver platter, all rigged out with a nice white linen covering and all the courtesies of the season.

Some of the most wierd playing that has been seen on the local grounds for many days, was pulled yesterday. The day was cold and the ball hard to handle; this is stated in the way of a palliation for the grave and numerous sins of commision. Outside of that fact some very grotesque ball was played.

Smiling Al Cummings was on the mound for the locals. He didn't have a thing but his hands on the ball, but at that would have won the game with any kind of support at all.

Messrs. Hardgrove and Altermott seemed affected with the nerves. Col. Altermott seemed to have his mind on something else, while the chucking of the ball by Mister Hardgrove was something sad and pathetic; quite as sad indeed as anything that has ever been written by a young spring poet over the death of a cat that has been in the family for years.

Little Eva Leber and Chesty Holstrom contributed the other bungles. The boys of Rochester sure did act as if the name Lunatics had been rightly bestowed. Some of the wierdest fielding that has been permitted to run wild on a local lot, was turned out to graze yesterday.

The Lunatics couldn't give the game to us, for you can't give a man anything when he won't take it. That old saying about leading the horse to the trough, gets into the conversation at this stage.

Darby O'Brien was injured in sliding to the plate in the eighth and may be out of the game for several days, or more. It is quite hard enough to lose a game like the soiree of yesterday, without having a player injured in the bargain.

It is quite unnecessary to go into dismal detail. Rochester scored two on the second to start the merriment, and we came back and registered four in the third. The enemy added one in their fourth and we also dittoed with another. In the sixth Mister Hardgrove uncorked his wild heave over third which scored two runs, and Holstrom's error let another across. We scored one in the seventh and two in the eighth, while those hated Lunatics scored three in the sixth, two in the eighth and six in the ninth. Oh how jolly.

Mix up hitting and errors and you can imagine perfectly well how the runs were made. Rain came in at times and added to the general unpleasantness of the matinee. Between the rain drops, of which we are all more or less familiar in the poetry of young men who find no throbs in the commercial life, the game was dragged along until the 6 o'clock whistle warned the players that they were violating union hours by remaining in the vineyard.

Umpire Schuler had his petty troubles. After the game several kids of the tender and tough age of 11 years, threatened to lynch him, also, Heaven forbid, punch him in the nose. Outside of these little sidelights, the day wore itself to a feverish rest.

The characters are mentioned below in the order of their entrance:

WINONA DROPS FIRST GAME TO EAU CLAIRE.

Eau Claire, Wis., May 27.—Eau Claire defeated Winona by the score of 8 to 3 here yesterday. Wagner was hit hard from the start, Chappelle getting two triples and a single. Chief Chase was strong at all times and received errorless support. The fielding of the Pirates was ragged at times

Score: R. H. E.
Winona .....000000300—3 7 4
Eau Claire.....10101500x—8 12 0

Batteries—Wagner and Killian; Chase and Benrud.

LUMBERJACKS WIN FROM THE LOWLY OUTCASTS.

Wausau, Wis., May 27.—The Lumberjacks took the opening game from the Outcasts, hitting Wegman at opportune times. The score of 9 to 5 represents the difference in the playing of the two teams, La Crosse playing a ragged game in the field. Score:

	R.	H.	E.
Wausau 150001111x	9	8	3
La Crosse .....200030000—5	8	4	

Batteries—Baker and Stark; Wegman and Safford.

PIRATES LOSE THEIR FIRST GAME AT HOME.

Pittsburg, May 27.—Pittsburg lost at home for the first time this season, being beaten by Cincinnati 4 to 3. Frank Smith pitched for the visitors and was effective, especially with men on bases. Smith, whose home is in Pittsburg, was presented with a gold watch by his friends and neighbors.

Score: R. H. E.
Pittsburg .....002000001—3 9 0
Cincinnati .....102000010—4 8 2

Batteries—Adams and Ferry and Gibson; Smith and Clarke. Umpires—Klem and Doyle.

BOSTON TAKES EARLY LEAD AND WINS.

Boston, May 27.—Securing a lead of two runs in the first inning, Boston won from Brooklyn 7 to 2. Curtis kept the visitors' hits well scattered and was given good support. Steinfeldt proved a great improvement at third. Score:

	R.	H.	E.
Boston .....20300200x—7	10	1	
Brooklyn .....010000100—2	5	1	

Batteries—Curtis and Graham; Berger and Erwin. Umpires—O'Day and Brennan.

NEW YORK IS BACK IN FIRST PLACE.

New York, May 27.—The New Yorks are back in first place, recovering the position by the defeat of the Philadelphias 5 to 3 in a brilliant battle yesterday in which four pitchers loomed large. Mathewson acted as Raymond's rescuer, stopping Philadelphia's attack with the assistance of a double play started by Devore. The fielding of Devore was sensational and the batting of Snodgrass timely, his fourth hit winning the game. Score: R. H. E.

Philadelphia ....001000020—3	6	4	
New York .....10100102x—5	9	2	

Batteries—Burns and Alexander and Doolin, Raymond, Mathewson and Meyers and Wilson. Umpires—Finneran and Rigler.

EVERY HIT MEANT A RUN FOR KANSAS CITY.

Columbus, Ohio, May 27.—Every Kansas City hit meant a run, as the six drives were good for a total of sixteen bases. Hyatt's home run was inside the field and Corridon's over the right field fence. By making it two out of three in the series, Kansas City tied Columbus for first place. Score:

	R.	H.	E.
Columbus .....010000000—1	6	3	
Kansas City ...2030010 00—6	6	1	

Batteries — Liebhardt, Cook and Bemis; Maddox and O'Connor. Umpires—Hayden and Eddinger.

INDIANS TAKE TWO FROM THE MILLERS.

Indianapolis, Ind., May 27.—Five singles, a hit batsman and an error in the seventh inning, scored four runs and allowed Indianapolis to make it two out of three from Minneapolis, 6 to 5. Essick was taken out of the box in the seventh and Waddell, who took his place on the mound, was hit for three of the four runs. Score: R. H. E.

Indianapolis ....1 1 0 0 0 0 4 0 x—6	12	2	
Minneapolis ....0 1 2 0 1 0 0 0 1—5	11	4	

Batteries—Link and Walsh; Essick, Waddell and Owens. Umpires—Owens and Handiboe.

LOUISVILLE TAKES LAST GAME OF THE SERIES.

Louisville, Ky., May 27.—Louisville defeated Milwaukee yesterday in the last game of the series. Cheney allowed the visitors but five hits and was complete master from start to finish. Nicholson lasted only one and two-third innings and was relieved by McGlynn, who celebrated his thirty-ninth birthday with a warm reception from the locals. Grimshaw's all-around work was the feature. The Louisville club released Pitcher Bob Wicker unconditionally and suspended Pitcher Selby until he gets into condition.

Score:	R.	H.	E.
Louisville .....02200110x—6	10	2	
Milwaukee .....00000100—1	5	3	

Batteries — Cheney and Orendorff; Nicholson, McGlynn and Marshall. Umpires—Chill and Ferguson.

SAINTS DEFEATED IN THRILLING GAME.

Toledo, Ohio, May 27.—The St. Paul and Toledo clubs engaged in another thriller here yesterday afternoon, the locals winning out, 5 to 4, in the tenth inning. After a double steal had scored Bronkie with the tieing run, Hinchman was hit in the tenth, Flick sacrificed and Hohnhorst's single counted the manager. Viebahn made his association debut, pitching great ball for six innings. Score: R. H. E.

Toledo .....3000000011—5	10	2	
St. Paul .....0000002200—4	6	1	

Batteries — Viebahn, Baskette and Brennan; Stieger, Chech and Spencer. Umpires—Weddidge and Bierhalter.

De Oro Beats Own Record.

New York, May 27.—Alfred De Oro, the world's champion pool player, broke his own world's record high run of 81 in defeating Charles Weston, the cowboy, here last night, 600 to 377.

De Oro closed last night's play with an unfinished string of 58 and in beginning play ran 38, a total run of 96. Last night's block stood De Oro 193; Weston, 169.

THOMAS HAS "COME BACK"

THOMAS
Of Philadelphia.

Ira Thomas, the giant catcher on the staff of the Philadelphia Athletics, looks better this season than he ever did. He started his baseball career in Hartford. From Hartford he went to Newark and from Newark to Providence. He was drafted from Providence by the New York Americans. He then went to Detroit and caught the only game in the world's series which the Tigers won from the Cubs. His arm went back on him and he was purchased by Connie Mack on the chance that he would recover the use of his arm. His work since joining the Athletics shows that his arm is in good shape.

THEATER TEAMS PLAY BALL GAME

Orpheum Nine Claims a One-Sided Victory Over the Empress.

The Orpheum and Empress theater ball teams met yesterday on a muddy diamond. The Herald sporting edltor wasn't there, and has to take the word of the contestants. The Orpheum manager sent in a statement, which is herewith published. He has a reputation for truthfulness, but baseball is a great destroyer of character. If the Empress manager has another version The Herald sporting columns are open to him. The Orpheum team manager's statement follows:

"Yesterday the Orpheum ball team met the Empress team and administered a crushing defeat. The much touted Empress stars viz: Maitland and "Kelley," were noticeably absent, and therefore, were spared the humiliation of sharing their club's defeat.

"The common theory is that these two Ty Cobbs couldn't obtain overshoes to fit them, although there is an insinuation that they are resorting to the threadbare old gag of having been doped.

Be that as it may; the score remains: Orpheum, 15, Empress, 5. Features of the game were the patient chasing of balls by the Empress, after the Orpheum had batted them; homeruns by Schmaltzz and Quandt; three hits by Pierong; the work of the battery (Jones and Bradbury); the caution at the bat by Gustin and so many other brilliant plays by the Orpheum that space will not permit their recounting.

"There is a rumor that the Empress requests a return match. This they can obtain only by playing the various picture houses and gaining a reputation."

LIGHTWEIGHTS IN FINE FORM

Both Wolgast and Burns Are Confident; Many Bets Being Made.

San Francisco, May 27.—Champion Ad Wolgast of Cadillac, Mich., and Frankie Burns of Oakland, the youthful challenger, who are to battle for the world's lightweight championship in an open-air arena here today, rested on their oars yesterday after an irksome siege of training. The eve of the contest finds both eager to begin the twenty-round journey. Jack Welsh will referee.

Lack of condition will not be offered as an excuse by the loser.

Confidence in the outcome is a drug on the market, particularly on the part of Burns. He is on the short end of a 10 Hto 4 book, while even money that Wolgast will win in ten rounds found a ready market.

Wolgast has placed commissions to be wagered on himself at any price while Burns and his manager are reported to have staked much on the outcome. Wolgast believes he will win by a knockout. Burns says he is not worrying.

COLLEGE MEN HAVE TRIALS

Yale Seems to Be Strong and Cornell Stock Goes Down.

Craig, the Michigan Runner, Shows Wonderful Form in Trial Events.

Cambridge, Mass., May 27.—Followers of the various colleges who had hoped that yesterday's preliminary trials would definitely indicate the probable winner of the thirty-sixth annual meeting of the intercollegiate amateur athletic association of America to be held in Harvard stadium today, were disappointed. Pennsylvania and Yale qualified fourteen men each in the sprints, hurdles, middle distance runs and field events and the experts would regard the finals as a duel between these two universities were it not for the fact that Cornell is admittedly strong in the long distance runs.

Eight sturdy athletes from Michigan also came through the afternoon with preliminary honors, especially R. R. Craig, the lightning sprinter, who won his trial heat with his head turned toward his followers. As the little sprinter from Michigan seemed to pause in both these events, yet made them both in fast time, some wonderful running is expected of him today. But the chances of Michigan for championship honors are not regarded as being bright. Princeton beat out Harvard for fifth place by a single man, the former getting seven men to the Crimson's six, while Dartmouth was seventh with four men left in the running.

No records were broken in the eleven events of the day. The surprises were the strength of Yale and the failure of Cornell to come up to expectations. The Yale athletes were regarded as strong in the field events, but when three of them qualified in the furlong, two in the 100-yard dash and three in the hurdles, Yale stock took a jump, while Cornell's was depressed.

The colleges qualified as follows:

Pennsylvania, 14 men; Yale, 14; Cornell, 10; Michigan, 8; Princeton, 7; Harvard, 6; Dartmouth, 4; Williams and Rutgers, 2 each; Wesleyan, Pennsylvania state, New York university, Massachusetts Technical, Brown, Amherst and Columbia, 1 each.

THE "WHITE HOPE" TOURNAMENT

Twenty-Three Heavyweights Try for Bout With Jack Johnson.

New York, May 27.—Of twenty-three heavyweights from all over the country who entered the "white hope" tournament at the National Sporting club last night, eleven men tried to show their fitness to challenge Jack Johnson for the world's championship. Johnson watched the bouts and said he was ready to meet all comers.

Al Palzer was uncovered as the "white hope." He is a New Yorker, whom Tom O'Rourke, manager of the tourney, has been touting as the one man fit to meet Jeffries' conqueror. In the finals he won from Sailor White of Newark in a four-round bout, according to the decision of the judges, which was allowed under amateur rules.

Palzer was a bit slow, but his redeeming features were his gameness and dangerous left.

It did not look dangerous to Johnson. He said he was ready to meet anybody, even Langford, who would put up the money, and that he was ready to cover any amount at a moment's notice. He said he was ready to fight at any time and hoped that the next man he met would be worthy of the fight for the championsip.

GOPHERS WIN TENNIS MATCH

University of Minnesota Defeats Harvard in a Dual Meet.

Cambridge, Mass., May 27.—University of Minnesota defeated Harvard in a dual tennis match yesterday, 2 to 1.

The Westerners won the only double event in an extra set and shared the singles. Summary: Singles—W. B. Frazer-Campbell, Harvard, defeated J. W. Adams, Minnesota, 7-5, 6-3.

L. Armstrong, Minnesota, defeated C. A. Cutting, Harvard, 7-5, 6-3.

Doubles—Adams and Armstrong, Minnesota, defeated Frazier-Campbell and J. E. Pratt, Harvard, 5-7, 6-3, 6-3.

Flynn vs. Morris.

Tulsa, Okla., May 27.—Jim Flynn and Carl Morris finally signed articles here yesterday to fight fifteen rounds here on the afternoon of July 4.

COMMENTS AND OPINIONS ON THE SPORTING PARADE

"Bill" Talks on Champions and What Makes Them Different From Other Men

(BY BRUCE.)

BILL was seated in one of the local lobbies, a New York sporting sheet in his hand, a cigar with a stonrg cimstitution in his mouth, and one of these half lighted expressions in his eyes; the look of a man whose mind half sleeps and half dreams of events of the past. The cigar had gone out and seemed to share in the gentle and uninterrupted reminiscences of the past.

We approached, sat down, and waited for the old boy to speak. Men of the age of Bill form habits that are settled and hard to discourage. In his day Bill had been a rough and ready mixer. He was a man who was genial if he had his own way, and was what Gen. Sherman said about war, if you butted in and disturbed him. His old eyes could still shoot fire from under those shaggy, heavy brows, and his strong chin and resolute mouth denoted a certain hardness that every leader of men possesses, be he a general or a petty ward heeler.

"Men is funny animals," suddenly blurted out the old fellow. "Human nature is the greatest study in this mundane resting joint we pass our lives in. Watch men and you come to the conclusion, my boy, that the creator sure did have lots of imagination and was plum versatile.

"Sometimes I see a little shrimp of a man and I am about to say in my mind. 'That guy is as weak as the coffee they sold us in Carson City, when Fitz and Corbett fought.' Then I swing over and say to myself, 'Bill you never kin tell.'

"I was a sitting the other day and saw that Hines chap go by. He is as small as a horse thief's conscience, and yet if he had been trained proper like in his early days he would have made a great lightweight. I can tell by a man's movements when he has that something doctors tell us is nerves and vitality. I ain't never read much history, but from what Dick Schell and I hev discussed about that Napoleon feller, I would hev gone strong on him for a rattling good feather, later graduating into the lightweight class.

"You never saw a great man without them nerves and something that gives them natural fighting powers. Some young fellows is born with a lot of money their daddies made. Some of them ain't got nothing but foolish dispositions, and die even before they can spend all that has been left them. They are made to feel they are great by some of the frumps they is spendin' all that dirty stuff on; but they ain't.

"Now I hev seed Bob Fitzsimmons sit down in Tony Faust's in old Saint Loole, and drink whisky and beer and eat salad and then drink highballs and eat more disturbin' stuff and get up the next morning and state as how he was bloody foine.' Some may hav said he didn't drink; he did. Most of 'em do. But they stand it; stand what would kill the average man who moves around in a little community and hits the hay every night at 9:30, feelin' bad next day if he don't; stand it, me boy, and go out and win world's championships afterward.

Ketchel's Career.

"Has the world ever stopped to think what a wonderful young feller that Ketchel was? No; not one guy in ten. He had what them doctors call iron nerves and then something else that I once saw in a bull dog that was being chewed to death without ever letting loose a yelp.

"In little communities they often hev good boys. Then the rubes call him the comin' champ. Say, a champion of the world has what one guy in 10,000 hasn't.

"That is why he is the champ. His nerves, his heart and his muscles is different. That's back to my argument. He might look skinny, and he might be knock-kneed, like Fitzsimmons; but if he is champ, he has something that you ain't got, for the good Lord built him different.

"That's why I say that a guy who gits to the top and stands up there and keeps kickin' you and in the face as you try to pull him down, is built different, and has nerves and that something else, even if he looks as hopeless as one of them Arizona farmers, after a sand storm has blown everything off'n his poor, weak and measly plantation.

"I hev followed this Ketchel's career, because he is one of the most wonderful physical studies that ever flitted across the pugilistic path. He was a bell boy at the Thornton hotel in Butte when that city was a bed for the 'snow eaters' and the boy who smoked the hop. When a bell boy this Ketchel learned to smoke hop and he never stopped until the day of his death.

"Imagine, me boy, a kid just about 16 years of age, smoking hop, and drinking, and possessed of every habit that tears the very vitals out of a human being, being the champion of the world almost before he was 20 years of age.

"He was a bouncer in one of 'em tough saloons in Butte and he wasn't slow in takin' drinks. He was a rounder, boozer and a hop hitter—and last, but by no wise least, he was champeen of the world and one of the greatest fighters the world has ever seen.

"I takes my dicer off to Bill Papke. He is one of the greatest of fighters, and is what I says about being a physical specimen in 10,000 souls; and yet this Ketchel was two moves ahead of him, wonderful as Papke was and is, and was going the pace all the time.

"'Is fellows on the inside, fer I still hear from me old friends, know that Ketchel was not training right for that second Papke fight. He was actually smokin' dope in his trainin'. The very first blow that was struck, poor Ketchel was laid out, almost cold. Did he quit? That punch would hev put you or me out for a day. He lays there fer a second or two, never movin' then he moves one leg, moves his head, and at the count of nine pulls himself up by the ropes. He knew nothing but fight, and them ere nerves the doctors speak 'bout, and that something else that won't break, or give way, clamored for him to go on.

"He was knocked down again, and again he faces the man who has him beaten already and fights like only a natural born fighter can. Maybe you read of that fight. It was one of the last I saw. Ketchel couldn't see along toward the end. They pushed him from his corner and he stood there like a martyr waitin' for Papke to hit him, holdin' his hand ready to flail out at where he thought Papke was.

"'His seconds was human, maybe nothin' more, for there is little huhanity around a prize ring, and they begged him to quit. He told them he would die right in the ring first, and he would. His face was a terrible sight even for grim old sports. Beaten bloody, he fought on to the very end.

"That was from a man who had dissipated from early boyhood; a foolish youngster who had fought booze and dope like he fought kids and toughs in saloons. He was given something by the creator that a million years of trainin' couldn't hev given him, and he threw it all away, like a darn yap.

The Johnson Fight.

"Two or three nights afore he fought Johnson he was a tearin' around 'Frisco in one of 'em buzz wagons. He was with fluffy ladies, and he was never particular of the company he kept. If it hasn't been that 'Frisco loves to see fights, and Ketchel was booked to fight Johnson, he would have been jugged that night for reckless driving. 'Frisco's tenderloin saw about as much of Ketchel, afore that tilt with Johnson, as his trainin' quarters did.

"Durin' that fight they had to give him a lot of stuff. I hev heard as how they gave him enough strychnine to kill all the men you and I ken see right here. Well when he was told to double cross the dinge and sneak one over that would do the business, the world was treated to the sight of a poor little kid, 23 years of age, sick, untrained, just missin' killin' a monster black man, about forty pounds heavier, because his blow went about an inch or two wild.

"That was one of the greatest blows ever hit in a ring, and that mind you, from a man who had been doped, who was almost a wreck. Had it hit that coon on the jaw he would have never come to for an hour.

"I hev always figured that the world never knew, and of course never will know, what a great fighter that kid might hev been. He went plum against every physical law there is, and died a wreck when only 23; and yet he was one of the greatest fighters who ever scraped his hoof in resin. He had something other men hadn't, and only a bullet drove the fighting spirit out of that abused body of his. Dope, booze, and all of those other things couldn't do it.

"I always figured great men in a class by themselves. Napoleon could keep them lamps of his open for more'n forty-eight hours on one beat and never bat one of 'em. Old Gen. Grant was one of my favorites. He could hit those black cigars all day and all night and the next morning tell the boys of some plan to hand a knockout punch to the enemy.

"That Alexander boy must hev been a great hiker, and Dick Schell tells me that O. Cromwell was a great two-fisted fighter and could chase an idea three nights without sitting down for a bird or small bottle. Those great men has somethin' in their systems that made the Creator smile when he put it there, and most of 'em was champeens from the day they was born."

MILWAUKEE FANS SEE SLOW MILL

Jack Sullivan and "Porky" Flynn Fight Draw in Ten Rounds.

Milwaukee, May 27.—Jack (Twin) Sullivan and "Porky" Flynn boxed ten rounds to a draw before the new Star A. C., last week. Both men finished strong.

The bout was a rather tame affair, both the contestants emerging without a scratch.

The first three rounds were without any particular incident. In the fourth Sullivan drove a hard right to Porky's mouth and later landed an uppercut which jolted Flynn. Porky's blows were directed to the body. The next five rounds were confined to in-fighting and stalling without any damage being inflicted.

The concluding session was the fastest of all the periods in which there was an even exchange of blows to head and body. Sullivan showed himself to be more clever than his opponent. The spectators yelled in disapproval several times throughout the contest.

MAY YET STAGE AMATEUR BOUTS

English Champions Will Meet Best Amateur Boxers in America.

New York, May 27.—Another attempt will be made tonight to finish the international amateur boxing tournament which was stopped by the police last week because they said that the promoters did not comply with the state boxing law. The English amateur champions who were brought here under a large guarantee will meet the best men in their class from this country and Canada, including Tommy Regan of Boston, the American 115-pound champion; Frank Hufnagel of Brooklyn, the national 125-pound champion, and Nap Boutiller of Boston, who claims the national supremacy at 158 pounds; also Alfred Roife of Toronto and A. W. Saunders, Canadian champions, respectively, in the 125 and 158-pound classes.

AMERICAN LEAGUE BATTING AVERAGES

Below will be found the batting records to date of the twenty leading hitters in the American league, also the hitting of the eight clubs of the American.

A mere glance at the percentage figures of the batters shows how hard the ball is being hit. It may be the lively ball, and again it may be that the pitchers are not going good.

It will be found that those old pill-pounders, Cobb, Collins and Lajoie are right up in front. Jackson, the wonder of the Clevelands, is also going great, and there are many who predict that he will give Cobb, Collins and the big Frenchman a great run for bingle honors.

It also might be noticed that ancient Jimmy Callahan of the Chicago White Sox is right up at the top. If he can keep up his hitting stride, he will be at least one athlete to come back.

IN THE MOTOR WORLD

ALL IS READY FOR BIG RACE

Memorial Day Auto Event at Indianapolis Chief Attraction of Day.

Bob Burman Will Try to Lower His Former Records.

Indianapolis, Ind., May 27. — "King Bob" Burman, holder of the world's straightaway records for the kilometer, mile and two-mile distances is after another wreath of victory to add to his collection. This time Burman will seek the speedway records for the kilometer, quarter and half miles and the mile. He has chosen the two-and-one-half-mile brick track at Indianapolis for the trials and will thrill the monster crowd gathered to witness the 500-mile International Sweepstakes race at the speedway next Memorial day, with his daring dashes.

The speedway management was notified that Burman would make the trials in the Blitzen Benz, recently driven by Barney Oldfield, if allowed to try for the marks before the start of the long race. The time was set at 9 o'clock in the morning and the race starts at 10 o'clock. The wires for the electrical timing instrument have been set in place and the big Benz is at the Indianapolis track.

The half-mile record of 14.08 seconds as well as the kilometer record of 17.76 seconds is held by Victor Hemery who made his time in a Benz on the Brookland track in England. Oldfield never was able to bring the marks to America, but Burman has out-driven Barney in the big car and believes he can wrest the mark away from the German. The mile mark is held by Oldfield, made on the Indianapolis speedway in 1910. The time for the mile is 35.53 seconds.

Burman has a hard task before him, but has sent on word that he will be able to make good and bring the existing marks as well as that for the quarter-mile to the speedway. The Michigan dare-devil will have a rough day of it on May 30, for in attempting for the world's records he will pilot a Benz car though the 500-mile race. He has a new car recently imported from the Benz factory at Manheim, Germany. Along with Billy Knipper at the wheel of another of the Teuton masterpieces he will try to annex the big race. The wiry gritty Burman has been severely tried before and has proved the equal of any task imposed. The question of his ability to break records and win the greatest race in history all in one day is questioned, however. He has shown his willingness to battle wheel to wheel with the others however, which is by far more than former world's record holders have been willing to do to any great extent.

The gates to the big speedway open at 6:30 o'clock in the morning. Two miles a minute on a speedway is faster time than ever has been conceived, but Burman believes he can come close to that mark.

Just after Burman's trials the forty-six cars and drivers who are to try for the $25,000 purse in the 500-mile event will travel around the track at twenty miles an hour and receive an introduction to the throng gathered to witness the classic. Each man will be announced as he passes the stands and the public will be given an opportunity to see every car while it travels at a low rate of speed.

Then the monster field will come in line and after taking one lap behind President Carl G. Fisher of the speedway, as pacemaker, at forty miles an hour, the timers will start to work, the starter will give the word, the big starting bomb will break 300 feet up in the air, unfurling a huge American flag and the greatest race of all time will be on.

THIRTY-FOUR HAVE QUALIFIED

Ten More Cars Have Yet to Take Elimination Test.

Motor Speedway, Indianapolis, Ind., May 27.—Thirty-four cars qualified yesterday, two were withdrawn and ten remain to make the elimination speed trials for the 500-mile automobile race to be held here on Memorial day. Specification tests will be given these ten remaining cars on Monday morning. It now seems certain that there will be more than forty starters in the big race.

The large size of the field of starters is giving the speedway managers much concern. The largest field ever before started on the Indianapolis speedway contained twenty-six cars. With this number nearly doubled, the chances for accidents are made manifold.

With more than 10,000 visitors at the track and the cafes on the grounds, unopened farm houses within a radius of several miles became extremely popular with the hungry, thirsty throngs and many a thrifty housewife reaped a harvest before nightfall.

The following officials of the American Automobile association directed the qualification trials: S. M. Butler, chairman of the racing board; A. R. Pardington, referee; G. H. Warner, timer and Fred Wagner, starter.

The drivers of the various cars were not told of the time made nor were they apprised of the distance to be covered to qualify. Each car was sent around but one lap and during that lap was required to attain a speed of not less than 75 miles an hour. The officials took the time at a certain half mile stretch of the two and one-half mile course. The only announcement made was when a car had qualified. No announcement was made of the time.

Pointers for Motorists.

To secure the best possible service from his tires, the motorist must care for them properly and nothing is of greater importance than prompt repairing of small cuts in the treads.

It is impossible to avoid these cuts as small stones and other sharp objects are bound to come in contact with the tread. Sometimes these cuts are small and seem insignificant but damage results from neglecting them. In fact, unless repaired promptly they will eventually bring about the complete destruction of the envelope. Stones, dust and dirt work in and under the tread, raising blisters and separating the rubber from the canvas. Moisture also gets in and quickly rots the fabric and disintegration follows.

Immediately on discovery of cuts the edges and interior should be thoroughly cleaned with gasoline, separating the edges with a match or small stick to expose the inside. All foreign matter must be removed and when the cut is perfectly clean, the interior and edges should be coated with cement. After allowing the first coat to dry, apply another and while still "tacky," knead with the fingers sufficient mastic and force it into the cuts, pressing it firmly into every crevice. When the cut is properly filled, hold the edges together firmly for a few moments until the mastic sets. The repair should then be allowed to stand six hours or more if possible, allowing the mastic to harden properly. Mastic is a plastic cement sold at nearly all garages. It is very useful and a small can for the tool box is a good investment.

The Michelin Tire company of Milltown, New Jersey, is publishing two books of instruction on the proper care and repair of tires. Any motorist can secure both volumes free on request.

Motorcycle Notes.

Women are not only becoming converted to the use of the motorcycle, but they are joining and forming motorcycle clubs, and in this way doing much to add pleasure to club events.

At a recent meeting of the San Jose, Cal., Motorcycle club, eight women—Mrs. Frances Reade, Mrs. Emile Agraz, Mrs. Lillian Crofoot, Mrs. May L. Sweeney, Mrs. Beatrice Rollison, Mrs. Martha Partlow, Mrs. Zettie and Mrs. Hearman—were admitted to membership.

The modern motorcycle is such that it can be operated in safety and absolute comfort even by women, and they have not been slow in availing themselves of its pleasures.

• • •

Sandusky, Ohio, will have a big motorcycle meet on Memorial day.

• • •

Four boys—members of the Elwood, Ind., Motorcycle club, have started to Pitsburg on their motorcycles, expecting to ride much of the distance at night.

• • •

Many motorcyclists will ride from all parts of the country to Indianapolis for the big automobile races at the Indianapolis Motor Speedway, May 30.

• • •

The Jamestown Jockey club track at Jamestown, Va., will be the scene of several thrilling races May 26 and 27.

• • •

The students of Indiana university, at Bloomington, Ind., have organized a motorcycle club and are having weekly runs into the surrounding country. It helps them with their studies by adding to their health. They say so.

• • •

The Rockford and Ideal Motorcycle clubs at Rockford, Ill., have consolidated as the Rockford Motorcycle club. They will purchase a club house.

DULUTH ATHLETIC CLUB ENTERING LOCAL FIELD.

W. F. Steele has secured the entire floor space of the quarters formerly occupied by the Duluth Athletic club and on the first of the month will enlarge his gynasium, that at the present time is being run under the auspices of the reorganized Duluth Athletic club.

The club has been organized for the promotion of clean sports, and under the supervision of Mr. Steele some very clever athletic sports have been pulled off.

The gymnasium is open to the club members at all times and some of the representative business men of the city have joined it.

There are a number of fast boxers working out at the club and also some of the wrestlers of the city. At some of the private entertainments of the club, which are open to the club members, some very clever contests have been staged, wrestling, bag punching and general athletic exhibitions, being on the program.

If the membership keeps increasing Mr. Steele plans to put a strong athletic team in the field and also will take steps to organize a baseball team.

St. Yves Wins Run.

Glen Falls, N. Y., May 27.—Henri St. Yves ran twelve miles here last night in 1:10:04 winning from Ted Crook of Fall River, Mass., and Johnny Sullivan of Woodbridge, N. J., who finished in the order named.

Tobacco Warehouses Burn.

Paducah, Ky., May 27.—Fire starting in the tobacco warehouse occupied jointly by W. A. Martin and A. J. Campbell shortly before midnight spread to the Dickerson Tobacco company's warehouse, completely destroying both places and burning up several hundred hogsheads of tobacco. The Gardner & Co. also was damaged. The total loss is placed at $300,000. Tobacco stored in the Dickerson warehouse alone was estimated worth $250,000.

PEPER'S
TRUE SMOKE
TOBACCO.
A man who smokes True Smoke eats better, thinks better, sleeps better—that's true.

DULUTH MOTORISTS

ARGUMENT IS REFUTED

Costs Less to Break Land in Colorado Than in Canada.

Experiences of Duluth Men Show Error of Reciprocity's Opponents.

One of the arguments advanced by advocates of reciprocity is the relative cheapness of new land in prairie provinces of Canada compared with the price of new and old land in the United States and the low cost of breaking ground in Canada compared with the high cost of breaking ground in this country.

J. F. McCarthy, vice president of McCarthy Bros., grain merchants, and W. C. Mitchell, president of Randall, Gee & Mitchell, compared experiences the other day and found that new land is cheaper in the United States than in Canada and the cost of breaking the soil much less.

Mr. Mitchell is breaking a large acreage in Southern Alberta. His costs run more than $2 an acre and he pays higher wages than farm employes and traction engineman obtain in the United States. Land in the prairie provinces of Canada within twenty miles of a railroad, said Mr. Mitchell, costs from $15 to $20 an acre.

In Eastern Colorado, where land is in the same relative position as in the prairie provinces of Canada, so far as its newness is concerned, land is selling at from $10 to $15 an acre, said Mr. McCarthy. Alberta land will grow wheat, linseed and some of the coarse grains. Colorado land will produce all of these, corn, beets, every kind of grass and fodder, fruits and all sorts of vegetables.

Mr. McCarthy is vice president of the Cheyenne County Development company, which is the owner of 20,000 acres and has an option on 70,000 acres of virgin soil in Eastern county. Most of it is in Cheyenne county on the lines of the Union Pacific and the Rock Island. The land is adaptable to farming without irrigation.

The company is breaking this year 3,000 acres which will be put under wheat. The cost of breaking the land with steam plows does not exceed $1 an acre. Under the old methods it costs from $3 to $6 an acre to cultivate land in a similar position. Traction engines are used for plowing, discing, seeding and packing.

Foley's Kidney Remedy Acted Quickly.

M. N. George, Irondale, Ala., was bothered with kidney trouble for many years. "I was persuaded to try Foley's Kidney Remedy, and before taking it three days I could feel its beneficial effects. The pain left my back, my kidney action cleared up, and I am so much better I do not hesitate to recommend Foley Kidney Remedy." For sale by all druggists.

LIFE SENTENCE FOR FORMER POLICE CHIEF.

Clinton, Ky., May 27.—Lee Carter, formerly chief of police at Fulton, Ky., was sentenced to life imprisonment for the murder of Frank Baucombe, son of a Seattle millionaire. Baucombe left for school at the University of Illinois and started for New Orleans. When at Fulton he became engaged in a quarrel with Carter and was stabbed to death.

Stimulating Effects of Intoxicants Deceptive

Periods of Depression Certain to Follow Periods of Exhilaration.

THE GREAT THREE-DAY LIQUOR CURE

The Neal Treatment Points to the Sure Road to Rescue.

NO HYPODERMIC INJECTIONS---NO INJURY TO HEALTH

Stimulants afford only temporary relief to tired nerves. When a man gets to the point where he begins to feel that he needs a bracer before he tackles his job he ought to regard that as a danger signal. The effect of the bracer passes away. The craving grows on what it feeds on. Depression is sure to follow. Next time the drink will be bigger; then it will take two and next three to brace up the system to the sticking point. The drink habit once acquired soon becomes the master of its victim. His friends fall from him as he goes downward. The road down hill is easy. It leads to unhappiness, to pauperism and to crime.

BUT—The habit can be cured. The poison can be eradicated from the system. Instead of a craving for liquor, a revulsion against it and a loathing for it may be set up. This has been demonstrated in the cases of over three thousand patients who have taken the Neal Treatment. The Neal Cure is not a gold cure. It does not involve hypodermic injections which leave the limbs discolored, swollen and scarred. No opiates or other power drugs are used. The Neal Cure is absolutely harmless and the Neal Cure is a sure cure. It never fails. It cures in just Three Days. It makes no difference whether the patient is a habitual drinker, whether his sprees are continuous or periodical, whether the habit is of long standing or whether he is merely in the first stages of alcoholism, in either case the Neal Cure eradicates the poison from the system. It sets the man who takes it on his feet. It makes him the master of the liquor habit instead of its slave. It is the greatest discovery of the age—a message of good cheer to men disheartened and to women hoping against hope for the victim whose weakness is destroying their happiness.

If you are afflicted with the drink habit and really want to be cured or if you are interested in a friend or relative who needs treatment, write to the Neal Institute company, corner Belknap and Seventh streets, Superior, Wis., for their free booklet giving full information and a copy of their contract. It will be mailed to you under a plain sealed envelope and everything will be strictly confidential. You can be treated at the Superior Institute, or at the St. Paul, Minn., Institute, 676 Dayton avenue, or the Minneapolis, Minn., Institute, corner Fourth avenue south and Seventh street, whichever happens to be the most convenient to you.

IS REVIVING HIS YOUTH

Lord Morley of Blackburn Throws Off Mask of Age.

Fills Two Offices and Also Leads House of Lords.

London, May 27.—While the stress of politics in recent months has claimed many victims among the leaders of the parties it is amazing to find the oldest of them all, Viscount Morley of Blackburn, reviving his youth and assuming duties which his juniors in years have had to abandon on account of illnesses brought on by overwork. When John Morley, a Radical among Radicals, was raised to the peerage in 1908 and the Conservatives chaffed him on entering a chamber, which he had attacked as useless, the government organs explained that his advancing years—he was then 73—made it necessary, if he was to continue as secretary of state for India, that he should be transferred to the upper house, where he would not be called upon to take the active part in politics that members of the cabinet in the commons necessarily do. Later his age was again given as the cause for his retiring from the secretary of statesship and his assumption of the office of president of the council to which no arduous duties are attached.

With the, at least temporary, retirement of his successor, Earl Crewe, as a result of serious illness, Viscount Morley is found again assuming the burdens of the Indian office and besides that the leadership of the house of lords and for a few weeks, during the absence of Sir Edward Grey, the position of secretary of state for foreign affairs. For younger men, even one secretary of statesship is not considered a very easy role to fill but Viscount Morley, throwing off the mask of age, entered heartily into the work of his triple office and form the front bench led the little party of Liberal peers and answered questions about India and the foreign policy af the government as though he enjoyed it.

• • •

Hon. Richard B. Haldane, secretary of state for war, was raised to the peerage to assist Viscount Morley, but thus far the newest Liberal viscount has found that the affairs of the war office occupy most of his time. When the parliament bill reaches the house of lords, however, Viscount Haldane will take a leading part in supporting the government's policy. He had a way in commons of overcoming the opposition of the government's critics and had a reputation of getting his way more often than any other member of the cabinet. This characteristic will make smoother his progress in the upper chamber.

Viscount Haldane's ambition is to become lord chancellor. If the extreme Radicals had their way he would be given that position immediately. Lord Loreburn, the present occupant of the position, an old-time and still staunch Radical in most respects, has given offense to the Liberal members of rural districts, by the persistency with which he appoints Conservatives to the magisterial bench, ignoring the claims of Liberals to those positions, which are greatly coveted by the country magnates. The government appointed committees in the various counties to advise the lord chancellor on these appointments, but despite this more Conservatives found their way to the bench than did Liberals.

Hon. Neil Primrose, the younger son of Lord Rosebery, is leading the attack on Lord Loreburn and has been trying to get the premier to appoint a day for the discussion of the whole question. The lord chancellor has created a rather uncomfortable position for the government, by, in his usual brusque way, declaring that the appointment of magistrates is the business of his office and practically intimating that if the Radicals are displeased they have the privilege of trying to dislodge him. This is the aim of Mr. Primrose and the anti-Loreburn party.

• • •

In England particularly, but in the other parts of the kingdom as well, the great theme of politicians during the annual fall campaign, will be home rule. The Unionists are preparing to impress upon the people the arguments against the granting of home rule to Ireland.

The Irish Unionist Alliance and the Ulster Unionist council are working in conjunction with the Unionist League of Great Britain and a large number of speakers have proffered their services. On the other hand, the Liberals are organizing a counter campaign and the whole of the Nationalist party have placed their services at the disposal of the ministerialists. Already 5,000 meetings have been arranged.

• • •

Labor members of parliament, following the example of John Burns, the first labor leader to become a British cabinet minister, have started a temperance campaign among the workers. The campaign was opened with a series of meetings at Browning hall, Walworth, addressed by ten Labor members. Incidentally, the speakers expressed a hope that the Anglo-American arbitration treaty would be concluded.

Foley Kidney Pills are a true medicine. They are healing, strengthening, antiseptic and tonic. They act quickly. For sale by all druggists.

WARNS AGAINST THE MONROE DOCTRINE.

Nashville, Tenn., May 27.—Judge John W. Judd, who was sent to Porto Rico to investigate the laws and conditions in the island by the war department, made a sensational speech before the Tennessee Bar association yesterday, in which he urged that this nation drop the Philippines and beware of the Monroe doctrine as it is now understood.

Judge Judd said there is no telling where the Monroe doctrine will lead us, and intimated that eventually war would grow out of our efforts to enforce it.

A paper on Porto Rico and the Porto Ricans was to have been read to the convention by Judge Judd, but he stated that while the paper had been prepared, he could not read it, as the authorities at Washington had asked him not to give it to the public, asserting it would cause embarrassment in diplomatic relations with other countries.

Local Round Trip Excursion Fares for Decoration Day May 30. Four Spring Excursions to Detroit, Buffalo, etc., connecting with steamers of D. & C. Line leaving St. Ignace June 10th, 14th, 17th and 19th. Limit three weeks.

Watch for announcement of other excursions. For reservation and particulars apply to A. J. Perrin, General Agent, 430 West Superior street, Duluth, Minn.

AT THE THEATRES

AT THE LYCEUM

Mme. Bernhardt will present "L'Aiglon" at the Lyceum theater on Monday night, May 29.

"L'Aiglon," by Edmond Rostand, was written expressly for Mme. Sarah Bernhardt, and to her interpretation and inspiration the play owes much of its greatness and popularity.

"L'Aiglon" is an epic, in historic monologue, whose dramatic force is in the memories it inspires, whose action is that of an imprisoned hero, a captive eaglet; the melancholy combat and failure of a frail son of genius, who dies at last "a hostage for all the sons whose blood has stained Napoleon's battlefields."

The great play has for its setting a royal palace of Austria; in 1832 is the year of its enactment, and it is here that L'Aiglon (The Eaglet), Francois Charles Joseph Bonaparte, son of Napoleon I., Duke of Reichstadt and grandson of the Austrian emperor, is seen. The play is divided into six acts. There is neither love nor comedy in any of them.

The first act shows the lightness and gaiety of Maria Louisa and the court of Francois, which surrounded the young duke, the object of their vigilant attention, and left him no liberty but to grieve and despair. Two Bonapartist conspirators are introduced as a couturiere and a tailor, filling an order from the empress for Paris fashions, and at the same time bearing to the duke a plan for his escape.

The second and third acts are at Schoenbrunn in the lacquer room "whose somber walls only emphasize the brilliant Austrian uniform of L'Aiglon." Flambeau, one of Napoleon's grenadiers, is admitted to the palace in the guise of a valet and made to spy upon the movement of a noble prisoner. Instead he reveals his identity to the young Bonaparte and pleads with him to risk his safety for the sake of France. He pleads all the courage and force, the loyalty and untiring energy of the thousands who, like himself, moved as one man at the signal of the "petit Caporal." In these two acts Marchal Marmot represents Napoleon's faithless followers; Metternich typified the Austrian hatred of Napoleon, the vindictive and cruel meanness by which L'Aiglon is surrounded. Francois is the vain father who gave his daughter to a Corsican whom he despised because he was the emperor of France, and who, in a moment of weakness yields to L'Aiglon's entreaties that he may be made L'Empereur des Francais.

During the fourth act a plot to liberate the young prince is matured in the gardens of Schoenbrunn at a masked ball where disguise favors intrigue; but, in their flight, L'Aiglon and Flambeau are overtaken upon the battlefield of Wagram, in the fifth act. Flambeau stabs himself rather than give up to the enemy, and L'Aiglon in an ecstacy invokes Napoleon's victory at Wagram, while Flambeau, dying at his feet, lives it over again. Alone in the dark night with the grenadier, his last bond with France, his final tie with the glorious past, now dead by his side, L'Aiglon hears the myriad voices of soldiers from the battlefield, their moans and supplications, their shouts of triumph of "Vive l'Empereur!" which gradually die away before the rhythmic music of the Austrian guards, the duke of Reichstadt's regiment who come to claim their colonel.

In the sixth act death gains its mastery over L'Aiglon, the son of Napoleon I., emperor of the French, king of Rome, who might have been everything and who was nothing.

L'Aiglon is essentially French. The pitiful struggle between force and frailty, the surrender which brings Napoleon's son to the ground, sobbing on the field of Wagram: "Au secours, mon pere, au secours!" this emblem of a swift decadence makes a strong appeal to humanity at large. As a work of art the piece is powerful, melancholy, delicate, tender, passionate, superb.

* * *

Olga Nethersole will be seen at the Lyceum in June in her latest play, "The Redemption of Helen Vaudray."

* * *

"Mrs. Bumpstead-Leigh," which Mrs. Fiske brings to the Lyceum soon fresh from its Broadway success, is a sort of feminized "Mr. Hopkinson," with Mrs. Fiske as the "bounder" who attempts to force herself into society. Her schemes, her trials and tribulations with a sister who "wants to tell the truth," and with a mother who, despite her daughter's efforts, still reeks with the airs and manners of a small Indiana town, are carried through three acts that are brimful of amusing situations and clever lines. Mrs. Fiske's impersonation of "Mrs. Bumpstead-Leigh" is cast in a mold that will at first seem strange, but will prove that her talent for comedy is not confined to that of the higher order, but that she can be just as convincing in comedy so broad that it is practically farce.

AT THE ORPHEUM

The closing week promises to be the climax to the Orpheum season in Duluth.

Next week's bill will be the last bill of the season for the Duluth theater. On Saturday, June 3, the Duluth theater will be closed for the summer, and will not reopen until early in August.

During the summer months the theater will be thoroughly renovated, although few repairs are necessary as the theater is less than a year old.

The season has been a successful one for the Duluth house, and a still more successful year is looked forward to when the house reopens.

The booking department has evidently planned to give the local house an exceptional bill for the closing week. During the last few weeks some remarkably strong bills have been presented, but the closing week's bill promises to be the best of the series, and one of the very best bills of the year.

Featuring the show will be the Four Huntings. This is one of the standard headline acts of the circuit, and one of the most popular feature acts on the circuit.

The Four Huntings have an act which they call "The Fool House" and it is unique in the vaudeville field, being a difficult act to describe. It is a merry tomfoolery consisting of comedy, singing and dancing. The four people in the act are three brothers and a sister, Lew, Mollie, Tom and John. They have all been stars in the so-called "legitimate" field, and have returned to their first love, vaudeville. They have become almost as noted in vaudeville as the Four Cohans were before they devoted their attention to musical comedy. Incidentally the Four Cohans also played the Orpheum circuit only a few years ago.

There have been many acrobatic acts on the circuit this year, but by far the largest and most pretentious is reserved for the closing week of the season. The Lorch family consists of eleven members. They also carry two ponies and a donkey with the act, making what is claimed to be the largest acrobatic act in vaudeville. Also it is claimed to be one of the most sensational.

Previous to their notable engagement in this country with the Ringling circus, in which organization the Lorch family was strongly featured, the troupe won fame as one of the most unusual acrobatic companies of the British Isles.

The eleven members of the company have reached that perfection of gymnastic skill which enables them to present a continuous performance without any waits between acts, and with such a large troupe they are able to give an act which lasts about twenty minutes and which is said to be a whirlwind of action from start to finish. The act is elaborately staged, picturing the interior of the Plaza de Toros, with the eleven members of the company dressed as Castilians. In addition to their feats of strength they present risley work, acrobatics, dancing and some tricks with the ponies and the cleverly trained little donkey. With the eleven people and three animals and their big equipment of scenery, the act is more expensive to transport than the average dramatic troupe, and it is one of the most expensive acts on the Orpheum circuit. It is easily the most pretentious vaudeville act the circuit boasts, and those who remember the company with the Ringling circus will need no further recommendation.

Welch, Mealy and Montrose will present an act which ought to be a big hit with all the baseball fans next week. It is entitled "Play Ball" and it illustrates the humorous side of the strife between the New York Giants and the Chicago Cubs. There is a lot of additional nonsense thrown in, and it is said to be a melange of fun and wit, with plenty of baseball slang and "atmosphere." The act ends like many real ball games end—in a riot. This act is expected to be one of the big comedy hits of the bill, and should give the Four Huntings a close run for first place in the comedy line.

Fresh from European triumphs, the famous Empire Comedy Four will appear in the fourth position on next week's bill. In spite of the fact that this act has headlined many an Orpheum bill. It is doubtful if the Empire Four has been as far down as fourth on an Orpheum bill this season, but the three acts ahead of them are all feature acts. This quartet of musicians and comedians has appeared before royalty in St. Petersburg, Vienna, Berlin and London. The four men in the company present a miniature musical comedy called "What's the Answer?" They are singers, instrumentalists and comedians, and their act is said to be vaudeville of the best type.

Leo Carillo will have a real novelty in his Chinese stories. This young man is also a cartoonist, although he does not utilize this talent in his act. He first made his vaudeville reputation with his Chinese stories, told in the dialect which is so rarely properly used. His act doesn't consist entirely of Chinese stories, however. He also tells other dialect stories, and gives imitations of birds, animals and familiar sounds, and presents an amusing monologue.

Carillo made his reputation as a cartoonist for "Variety," which is the official paper of the vaudeville profession.

Sixth on the bill will be Miss Corinne Francess, known as "The Sunny Singer," and said to be one of the best gowned and most attractive young women on the circuit. She has a collection of popular songs, a bigger collection of pretty gowns, and a good soprano voice, and a knowledge of how to sing a popular song in a way to please a vaudeville audience, according to her press agent and these should be sufficient qualifications to enable her to hold her own on next week's bill.

The seventh act on the bill will be presented by Vittoria and Georgetto, who are known as "the upside down boys." They not only walk and dance on their hands, but they fasten boxing gloves to their feet and present a little boxing bout while walking about on their hands, which is said to be very amusing. For another feature of their act one of the performers harnesses himself to a buggy and draws the other man around the stage, walking on his hands between the shafts.

The orchestra will present its last overture for the season and will try to give something out of the ordinary for the week. The moving pictures, as usual, will close the show, and the local management has the pick of all the films on the circuit. The bill will continue all week with a daily matinee, and next Saturday night the last performance of the season will be given in the Duluth house.

MME. BERNHARDT,
In "L'Aiglon."

AT THE EMPRESS

The bill of vaudeville which comes to the Empress commencing Sunday matinee, is one that is making a big hit on its trip over the circuit.

The big feature attraction for the week will be Edouard Jose and company in the dramatic tabloid, "Father." Special interest surrounds the announcement of the visitation of this distinguished French character. Mr. Jose comes to America direct from great European successes and for his initial American vaudeville tour, he has selected an adaption of Henri Bernstein's great French play, "Father," which is spoken of as a one-act drama of tremendous strength, pathos and heart appeal and bears strong resemblance to David Belasco's notable play, "The Music Master," although many years older than this drama. "Father" tells a tragic and gripping story of an old Frenchman's search for his long lost daughter and his final discovery that she has become a stage star. In a dramatic and powerful rehearsal scene the aged and broken-hearted father reveals his identity to his daughter. "So quaint, so lovable, so touchingly, so tender and above all so appealingly human is Mr. Jose's characterization of the 'Father' that it can be unquestionably stamped as one of the greatest hits of character acting that has graced vaudeville in years," says a Milwaukee critic.

"Mr. Jose has surrounded himself with a superb cast which interprets the little masterpiece in an artistic and finished manner. Mr. Jose's playing not only reveals an art mellowed by years of experience, but it strikes genuine dramatic fire in its emotional strength, the electrical something which brings a responsive thrill from the spectator, and the playlet itself is a capitally wrought piece of dramatic workmanship."

Mr. Jose's support includes Miss Celia Van Biene, Clay Clement, Jr., son of the late Clay Clement, and F. Boughton.

The following is a notice from the Cincinnati Inquirer: "The bill at the Empress this week is especially good and is well worth seeing. The tender dramatic playlet, 'Father,' as presented by Edward Jose and company was easily the hit of the bill at last evening's performance. This little drama is full of pathos and real heart interest and tells its story in a clever manner. The character work of Mr. Jose is about the best ever seen at the Empress and several times during the action of the piece, he moved the audience to tears. There is something about the work of Jose that cannot be described but there is a charm about it that reminds one of that great actor, David Warfield. Mr. Jose's support is exceptionally good and there is not a detail lacking which would tend to make 'Father,' a success."

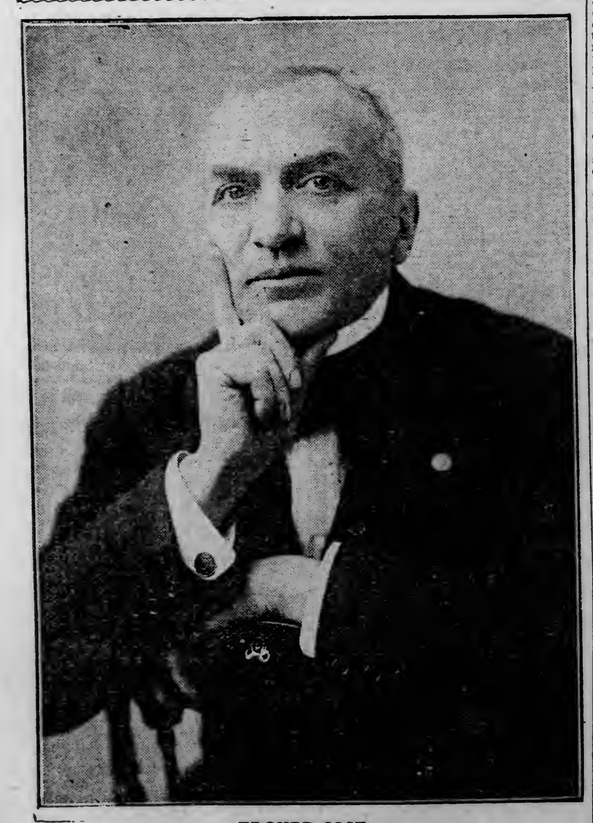
A special musical attraction for the week will be the Berrens. Europe's latest musical sensation. These artists are making their first American tour and come direct from the Conservatory of Music, Paris. The Berrens are really wonderful musicians and their engagement at the Empress is one of the big musical events of the season. These artists are proteges of Prof Leschitsky of Vienna and have studied under such noted musicians as Franz Knelsel, Joachon and the renowned master, Rafael Jeseffy. They have made great impressions in the musical circles of Europe and have the indorsement of the crowned heads of many foreign countries, before whom they have appeared. For the engagement in vaudeville the Berrens will render selections on the violin and piano which will include some of the most brilliant of their wonderful repertoire. These remarkable musicians come to Duluth through the efforts of the booking managers of the Sullivan & Considine circuit and the engagement of artists of their rank is worthy of the attention of every theatergoer and music lover of Duluth and a rare treat is promised all who hear them.

Comedians who can sing and dance are a rarity but Watson and Dwyer are not only comedians of rare ability but are claimed to be also past masters at the art of dancing and both possess very good singing voices. They will be remembered as stars of "The Red Mill," in which they made an enviable reputation for themselves, and since their appearance in vaudeville, they have added greatly to their laurels. Their act is just intended to amuse and this they do to the highest degree. "They have a peculiar method of working that begets laughter and makes their offering a success from the start," says a Minneapolis critic.

Ever alert for new novelties, the booking managers of the Sullivan & Considine circuit have discovered somewhat of a sensation in the comedy gymnastic line, in Robinson and La Favor. These daring young men have a barrel jumping act. They introduce some new and original feats in this line. In addition to their wonderful barrel-jumping, Robinson and La Favor present a line of comedy that never fails to produce a great deal of laughter. Their act has been a big hit all over the circuit and will, no doubt, meet with the same success during their engagement in this city.

The added attraction for the week will be the Makarenko Trio, a foreign importation, which comes to Duluth for the first time from the Imperial theater, St. Petersburg, Russia. These artists will contribute a gorgeous singing spectacle. They will also present their native "Khalda" dance, which is a whirlwind creation that arouses great excitement. Indeed nothing similar in the dancing line has ever been witnessed in Duluth. The costumes worn by this trio are very gorgeous and the setting for their act is one of the most elaborate ever used at the Empress. This spectacular feature is coming direct from European triumphs and has also been presented before the czar, receiving special commendation. All three of the artists possess wonderful voices, it is said, which they use to advantage in the rendition of several of their native songs, and, also, one or two of this country. The Makarendo Trio has been secured at great expense and is another sample of the class of acts that Sullivan & Conidine are booking into the Empress.

The moving pictures for the week will be the best obtainable and will close the bill. A matinee is given daily at 2:45 and evening performances at 8 and 9:30. Seats may be reserved one week in advance by either telephone. A special school children's matinee is given every Saturday at 2:30. All students under 14 years of age are admitted for 5 cents. Special attention is paid to the comfort and entertainment of ladies and children at all times.



EDOURD JOSE,
At the Empress Next Week.

NEW PROGRAMS OF PHOTOPLAY

Some of Films to Be Shown at Odeum and Lyric.

New programs of photoplay will be presented at the Odeum and Lyric theaters next week.

Following is a brief synopsis of some of the films shown:

"The Baby of the Boarding House." In a modest boarding house, kept by a widow with a small baby, there are among other boarders, two young men, one a steady and industrious worker and the other an idler, a sort of good-for-nothing "four-flusher," who, by some "hook or crook" manages to wear good clothes, but never pays for anything. By his persistency and boldness he works himself into the good graces of the industrious young man's sweetheart and succeeds in making quite an impression on the young lady as well as her parents, who extend an invitation to him to attend the theater, which, of course, he accepts.

The next evening, just as he is getting ready to dress for the theater party, the widow who keeps the boarding house compels him to mind her baby while she does some marketing. Being indebted to her for a considerable sum of money he cannot very well refuse, and the poor "four-flusher" has an awful time of it, trying to shave himself and pacify the squalling baby at the same time.

Meanwhile the young lady and her parents, tired of waiting, come to his lodgings to ascertain the cause of his delay. They arrive just in time to hear the widow berating him, not only for being so far in arrears, but for abusing the baby as well, and accordingly he shows him the door. The young lady's parents, learning the true state of affairs, quickly decide that he would never do for their son-in-law, and the industrious young man quickly finds favor in their eyes and is made happy by having his sweetheart restored to his arms again.

This comedy film contains some side-splitting situations and a very good moral as well.

"Prejudice of Pierre Marie."—Jean and Pierre are rivals for the hand of Babette. Jean is a mild, good natured fellow, while Pierre is more rugged, quick tempered and stolid. Of the two one would select Jean as a more desirablelike partner, but unaccountably Babette accepts Pierre for her husband. Jean is fond of music; he plays the bridal music at the wedding of Pierre and Babette, and, while he loves the girl, the magnanimity of his own soul will not permit him to wish his fortunate rival anything but well.

Babette loves music and Jean is always a welcome visitor to her home; she delights to hear him play his accordion; not so with her husband, for he has grown jealous of Jean and orders him from the house.

Pierre, who is more or less a soldier of fortune, under the cover of darkness or when he thinks there is no danger of discovery, ventures on smuggling trips to derelict ships. In other words, he is not above thievery when the coast is clear. On one of these expeditions the officers on a revenue cutter catch him at his work and in his attempts to escape is shot and fatally wounded. Before the officers can reach the shore and catch up with him, he reaches home, where Jean happens to be at the time of the smuggler's entrance, and he shows his loyalty and friendship to the man who has mistrusted him by hiding the unfortunate man beneath a pile of fishing nets until the pursuers, who have come to the house in search of their quarry, have gone. Pierre's wife is distressed and can do little to comfort her husband, but Jean tries to stop the flow of blood from the dying man's wounds and in every way administers to his comfort. It is of no avail, however, as Pierre dies in Babette's arms.

NELSON'S PAVILION WILL OPEN SUNDAY.

Nelson's pavilion at Lester Park will open Sunday afternoon. The pavilion is for the shelter and accommodation of picnic parties and ice cream, candies, lunches, soft drinks and picnic dinners are served.

OPENING AT LESTER PARK.

The grand opening of the new pavilion at Lester Park will be held Tuesday, May 30.

The pavilion is operated under the management of the Duluth Amusement company and there will be dancing every afternoon and evening, with music by La Brosse's orchestra. A promenade dance will be given every Wednesday and Friday evening, but on other evenings the hall may be rented for private dancing parties.

ELBERT HUBBARD ON VAUDEVILLE

In the June number of "The Fra," Elbert Hubbard devotes a great deal of space to "My Lady Vaudeville."

The sage of East Aurora waxes most enthusiastic over the million people he has met in vaudeville theaters of the Orpheum circuit, the management of the circuit, the vaudeville actor and all the phases of vaudeville.

He treats the subject from a philosophical standpoint, from a commercial standpoint, from an artistic standpoint and always interestingly.

In his Hubbardesque way, he tells about the audiences of vaudeville theaters, "human beings," "folks." It would seem they had entertained him quite as much as he had them.

He has discovered rare characters among the stage hands. He paints brilliant little pen sketches of the others on the bill.

He points out the possibilities of vaudeville as a channel through which the people may be reached. He hints that no less a person than "Uncle Joe" Cannon will reach these people from the vaudeville stage.

The discourse of Fra Elbertus on vaudeville is one of the most interesting and lucid pictures of this popular phase of entertainment that has ever been drawn. It holds equal enjoyment for the manager of the great vaudeville enterprises and for the people who go once a week to the two-a-day theater in quest of amusement.

The Lyceum has several open dates in June available for rentals.

ROLLER SKATING IS POPULAR

New Auditorium Is Crowded Nightly With Duluth Enthusiasts.

No better or more popular place of amusement can be found in Duluth these days than the large Auditorium on Third avenue east and First street. The roller skating fad has more than made good with the lovers of good, clean and healthful exercise and the large spacious rink is crowded nightly.

The patronage of the Auditorium is of the best and the management reserves the right to refuse admission to any objectionable persons.

The members of the "Smart Set" are going in for the sport with great energy. This is especially so with the ladies. Roller skating is a mild form of exercises and is one of the most healthful of sports, but like all other good things it can be overdone. To guard gainst this the management has arranged to give the floor to the ladies for ten minutes, then ten minutes are allowed to the men and then ten minutes to those wishing to skate in couples.

Three sessions are given daily, morning 10 to 12 o'clock for beginners, afternoon 2 to 5 and in the evening 8 to 11. Good music is furnished and competent instructors are always in attendance.

GOSSIP OF THE RIALTO

Sothern and Marlowe will play a two weeks' engagement in San Francisco.

• • •

Grace Elkins is to go into vaudeville with a sketch called "A Christmas gift."

• • •

Adeline Genee will appear in coronation week performances in London.

• • •

The new play in which Robert Hilliard is to appear is called "The Seventh Noon."

• • •

Julia Hay will be a member of Frank McIntyre's company in George Bronson Howard's play, "The Snobs."

• • •

The theater in which Margaret Anglin will play in New York next season will be called "The Anglin" in her honor.

• • •

Margaret Mayo is writing a new play for Charles Dillingham, and is also turning "Baby Mine" into a novel.

• • •

"The White Sister," Viola Allen's success, will be used by stock companies this summer.

• • •

A stock company in Providence will have as stock stars Eugenie Blair, Mildred Holland and Isabelle Evesson.

• • •

Eleanor Kent is making her first appearance in vaudeville in a one-act operetta called "Love via Aeroplane."

• • •

Julian L'Estrange, leading man with Billie Burke, is next season to play the the role of Niclas in "Thais."

• • •

Henry Miller is to play a short engagement in vaudeville in "Frederic Le Maitre," supported by Laura Hope Crewe.

• • •

Several companies will be organized in New York late in August to play "Over Night" on the road next season.

• • •

Robert T. Haines closed the first week of his stock company in New York with gratifying success.

• • •

It is said that Fay Templeton will return to the stage next season under the management of George A. Lederer.

• • •

Anna Held is to become a manager, as she has the rights to a play by the author of "Madame X."

• • •

Wallace Munro has joined the David Belasco forces, and is working on the Pacific coast.

• • •

Louis Mann is to appear in a play called "On Easy Terms," under the management of W. A. Brady.

• • •

Lillian Russell, having closed her regular season, is announced for a spring season in vaudeville.

• • •

Gertrude Elliott is to produce a play by Joseph Medill Patterson called "Rebellion," in Jersey City.

• • •

Julia Dean, who was obliged by illness to retire from the cast of "The Lily," has recovered and is again in her former part.

• • •

Every night before the curtain is rung up W. T. Hodge inspects the settings of the scenes and placements of the various "properties."

• • •

J. E. Dodson has a play in which he will star, under the management of Cohan & Harris, called "Gauntlet's Pride." It is by J. Hartley Manners.

• • •

"Seven Sisters" bids fair to have a long run in Chicago, as press and public have taken a liking to the bright and wholesome little comedy.

• • •

Clifton Crawford, the star of "Three Twins," is to appear next season in a new musical play called "The Middy," under the management of Joseph M. Gaites.

• • •

Alexandre Bisson, the famous French dramatist, had a conference in Paris with Porter Emerson Browne with the idea of adapting the latter's plays for the French stage.

• • •

Katherine Kaelred, who has made a hit in London as the Vampire in "A Fool There Was," is to be starred by Herbert Sleath in a comedy at the close of the run of the former play.

• • •

William H. Crane is to have a new play next season, adapted from the down East stories of Joseph C. Lincoln, in which his character will be a down Easter, something on the order of David Harum.

• • •

Marie Cahill has been suffering with such a severe cold that she has been compelled to cancel some of her bookings.

• • •

Percy Leach finished the regular season with Charles Frohmann's "Arcadians" Saturday night, and is to act as stage director for the summer season with the Worcester Stock company, Worcester, Mass.

• • •

"The End of Eustace Ede," a play of mystery, by George Pleynell, was given last week in Boston, with Tully Marshall and Ida Conquest in the principal parts. The play turns on the murder of Eustace Ede, and contains a big surprise.

• • •

The opening of the new play, "The Lady From Oklahoma," by Elizabeth Jordan, in which Herbert Kelcey and Effie Shannon are to be starred by A. G. Delamater, has been arranged to take place at Atlantic City tomorrow night.

• • •

Helen Lowell is to be starred in a new Western comedy by Rida Johnson Young, which, though in rehearsal, has not yet been named. The supporting company will include Earle Browne, Ben Johnson, Eleanor Moretti and William Roselle. Miss Lowell will be remembered as the Lizzie of "The Lottery Man."

• • •

Christian Hansen studied Italian operas at Milan under Rossi, and it was there he met Henry Russell, who engaged him for the Boston Opera company, with which he made his initial American appearance as Rhadames in "Aida," afterward singing the leading tenor roles in "Lohengrin," "Madame Butterfly" and "I Pagliacci."

• • •

John Cort is making elaborate preparations for his revival of the Augustus Thomas comedy, "The Earl of Pawtucket," in which Lawrence D'Orsay will appear next season under his management. The tour will include an early trip to the Pacific coast through Canada. After the Christmas holidays Mr. D'Orsay's New York engagement will begin.

• • •

William Collier has closed his first season at William Collier's theater, where he is now appearing in a revival of Richard Harding Davis' play, "The Dictator." Mr. Collier will reopen at William Collier's Comedy theater in "I'll Be Hanged If I Do," the new farce which served as his vehicle this season up to the revival of "The Dictator." After a tour of leading cities he will again return to William Collier's Comedy theater with another new farcical production.

• • •

George Tyler has changed the name of the New Theater to that of the Century. At the present time he is in Biskra on a hunt for "color" with which to embellish "The Garden of Allah," the first play to be produced at the Century under his management. With him are Robert Hichens, the author; Hugh Ford, the general stage director for Liebler & Co., and Edward Morange, a scenic artist. Mr. Tyler hopes to bring the Desert of Sahara to the very doorsteps of the Century.

• • •

Liebler & Co. have acquired the production rights to a dramatization of the late David Graham Phillips' successful novel, "White Magic." Whether the masterful painter, or the willful girl who subdues the artist and later her irate plutocratic parent, will be made the central figure of the play is not announced.

• • •

Mrs. Leslie Carter has arranged to sail for Europe at the close of the tour in "Two Women" about June 1. It is her intention to spend a part of her summer in Paris and London, and then return to her summer home near New Rochelle. John Cort will send Mrs. Carter West next season in the Rupert Hughes' play, and in addition will probably give her productions of "Hamlet" and "La Tosca," in the title roles of which she will occasionally appear.

• • •

As the result of an order from the home office, James T. Powers, in "Havana," will end his tour in Altoona, Pa., on Saturday night. Powers and his company expected to remain on tour for several weeks longer.

• • •

The glory of all the high-sounding pathos of melodrama is not to go to "The Lights o' London," for "The White Slave" also is to be revived. It is Mr. Campbell's son Robert, now manager of the Berkeley theater, who thinks it high time to cast them again. "The White Slave" has not been presented on the boards for seven years. The revival will take place at the Lyceum theater, Pittsburg, on Aug. 5. The piece will then be sent on tour.

• • •

The opening attraction at David Belasco's Republic theater in the fall will be "The Woman." The play was presented on tour for two weeks lately.

• • •

Mr. Belasco's attraction, "Nobody's Widow," has closed at the Hudson. Blanche Bates, its star, is preparing for a motoring trip to San Francisco as a part of her summer vacation.

• • •

Julian Mitchell, general stage director for F. Ziegfeld, Jr., who has been confined at his room at the Lambs' club for the past ten days with pneumonia, is reported to be in a greatly improved condition. It is now believed that he will be well enough at least to supervise rehearsals of the "Follies of 1911" that is scheduled to open at the Jardin de Paris atop the New York theater next month.

• • •

Mlle. Emma Trentini sailed for her home in Italy this week by the North German Lloyd line. Mlle. Trentini will return to America in September in ample time to make ready for the tour next season of "Naughty Marietta." This opens at the Montauk theater in Brooklyn on Oct. 2.

• • •

Louise Dresser has written a musical play that she will keep on the shelf until she and her husband, Jack Gardner, may appear in it as joint stars.

MOLLIE HUNTING,
Of "The Four Huntings" at the Orpheum Next Week.

HIGH SCHOOL NOTES

Decoration Day Exercises—Dr. Seymour Lectures on "Joan of Arc"—Zenith Out June 5—Class Night Program Improving—Considerable Interest Centered in Duluth-Pine City Debate—Baseball Team at Cloquet—Arrangements Being Made for Parties.

Two veterans of the Civil war featured the Memorial day exercises, which were held in chapel Friday. Many parents of the students, as well as a large number of the alumni, attended the exercises.

The talks of the veterans, Col. Cleveland and Capt. La Vaque, impressed the students. Capt. La Vaque pictured to the minds of the high school students the scenes of the Indian rebellion on teh Minnesota frontier and the final submission of the Indians. Col. Cleveland read a short poem of the Civil war time.

Another interesting speaker was Charles Williams, a son of a Civil war veteran, who took this opportunity to honor the memory of his father and his father's comrades.

Mr. Young also impressed the students by the sincerity of his words and urged all the high school pupils to join the Memorial day parade.

The musical part of the program arranged by Mr. Instance and sung by Miss Myrtle Hobbs, Miss Frances Burris and Charles Helmer surpassed any musical program given this year at the high school. The following program was given:

"Decoration Day March" .....
Miss Myrtle Hobbs.
"Star Spangled Banner" .....
Choir.
"Soldiers' Chorus" .....Faust
Choir.
Sneech .....
Mr. Young.
"Marching Through Georgia" .....
Choir.
Speech .....
Col. Cleveland.
"Tramp, Tramp" .....
Choir.
Speech .....
Capt. La Vaque.
"Call to Battle" ..... Aida
Choir.
Speech .....
Charles Williams.
"Let Me Like a Soldier Fall" .....
Choir.
Speech .....
Mr. Dunnig of the Citizens' staff.
"Taps" .....Arranged by Custance
Solo, Francis Burris; cornet obligato, Charles Helmer.

• • •

Prof. Seymour gave the second of a series of three lectures to the high school students during the chapel exercises Monday morning. Prof. Seymour spoke upon "Joan of Arc" and pictured to the minds of his listeners the story of this simple peasant girl from her childhood to her tragic end. Prof. Seymour will give the last of his lectures next week.

• • •

The 1911 Zenith is due a week from Monday. The 1911 publication is interesting from several unusual points of view. The dedication has been kept a secret and many opinions have been given around the high school as to which member of the faculty the honor will fall to. Another interesting phase of this publication will be the kodak pictures, and it is more than possible that many of the students have been anxious to learn whether they are among the lucky ones to have their pictures in the Zenith.

Considerable time, thought and labor have been put on the book and the editors will vouch for the worth of the 1911 Zenith.

• • •

Stanley Lamb reported yesterday that the rehearsals for the senior class night were improving and the dancing, singing and other numbers of the program are being well taken care of by the seniors. The 1911 class night promises to be an enjoyable one for those who will be present.

• • •

Never has so much enthusiasm been shown before a debate at the Central high school as has been shown the past week. Duluth met the Pine City debating team last night. During the week all the teachers and the members of the forum canvassed the school selling admittance ribbons and met with encouraging success.

• • •

The baseball team left this morning for Cloquet, where it will play the Cloquet high school this afternoon. Those who made the trip are: Harold Kelly, c.; Morrey Harris, p.; Ralph Waldron, 1b.; Joe Boyle, ss.; "Heine" Nolte, 2b.; Ward Brown, 3b.; Eben Spencer, rf.; Sigrud Duclett, cf.; William Lundberg, lf., and Mel MacLaren. Mr. Colby accompanied the team on the trip.

• • •

The ladies of the Pilgrim Congregational church have been serving lunches to the high school students the past week.

• • •

The invitations for the junior-senior were sent out this week. The commitee is hard at work on the affair.

• • •

The senior farewell committee is working on the spread and arrangements for the dance which will be given June 10.

BUSINESS SITUATION IS BETTER

New York, May 27.—R. G. Dun & Co.'s Weekly Review of Trade today says:

The business situation as a whole presents a number of elements of improvement, and while actual transactions are very slow and in some places not discernible in any appreciable degree, an advance has undoubtedly been made.

The lower prices on steel bars was the sign of recent development in iron and steel, although the action taken was not wholly unexpected. Quotations of pig iron also turn more sharply in the consumer's favor, all markets showing a declining tendency and sellers being reported as willing to accept orders on the new basis for delivery well into the second half of the year.

Some very low figures are being named on structural steel, which is only active.

Agricultural interests are shortly expected to recover their acquirements.

More active retail buying has been accompanied by broader purchasing in the primary markets for spot and future delivery of cotton goods for converting and manufacturing purposes. Prices on gray band bleached cottons are advancing in a steady way, many well-known marks being from 1/8 @ 1/4c per yard higher. That prices are still below producing costs, is indicated by the large measure of restriction of the output that is announced. Export sales and shipments are ahead of last year in the cotton goods division. In dress goods the trend toward rough effects is marked and woolen mills are getting the benefit as against worsted mills. There is a very active demand for men's wearing serges, which had disclosed a paucity of stocks in second hands.

The footwear situation shows improvement and a larger volume of fall orders are received from traveling salesmen. Contracts now in the hands of New England manufacturers are much larger than a year ago. The leather markets improved and sole leather in all is well established at the 1-cent advance. Domestic hides continue higher with moderate sales of most varieties. Decided strength is noted in calfskins both domestic and foreign.

SAGE AND SULPHUR CURES DANDRUFF

Restores Faded and Gray Hair to Natural Color—Itching Scalp Quickly Stopped.

This applies to Wyeth's Sage and Sulphur Hair Remedy, for if it does not do exactly what is claimed for it, the sales would naturally drop off. However, Wyeth's Sage and Sulphur Hair Remedy does "make good," as evidenced by its daily increasing sales. Druggists say that this preparation gives the best satisfaction of any hair remedy ever sold. Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It removes dandruff, strengthens the hair, gives new life to dull or parched hair, and gradually restores gray hair to natural color.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Special agent, Max Wirth, 13 West Superior street.

Warning to Railroad Men.

E. S. Bacon, 11 Bast street, Bath, Me., sends out this warning to railroaders: "A conductor on the railroad, my work caused a chronic inflammation of the kidneys, and I was miserable and all played out. A friend advised Foley Kidney Pills and from the day I commenced taking them, I began to regain my strength. The inflammation cleared and I am far better than I have been for twenty years. The weakness and dizzy spells are a thing of the past and I highly recommend Foley Kidney Pills." For sale by all druggists.

WILSON AT LINCOLN.

New Jersey Governor Spends Day in Nebraska Capital.

Lincoln, Neb., May 27.—Governor Woodrow Wilson of New Jersey was the guest yesterday of Lincoln business men and educational interests and put in a busy day from the time of his arrival early in the afternoon until he left for the south late at night. He was the chief speaker at the annual banquet of the Lincoln Commercial club.

He spoke briefly at the University of Nebraska, and paid a short visit to the Fairview home of W. J. Bryan, calling on his way to visit his old friend, Benjamin Andrews, former chancellor of the University of Nebraska, who is recuperating in a suburban sanitarium.

Asked to state his attitude concerning the presidency, with which his name has been connected, Governor Wilson replied:

"That is a matter which others mention to me now and then, but my own attitude is that I do not discuss it at all."

He said he believed Democratic prospects in the coming national campaign would be good.

In his speech at the Commercial club banquet Governor Wilson discussed the relations of the states and their laws to those of the national government.

AMERICAN MONEY ORDERS IN THAMES.

London, May 27.—A tin biscuit box containing thirty American and international money orders, ranging in amounts from $5 to $150, was picked up in the Thames by the master of a barge which arived at Rochester, near London, yesterday afternoon. A letter with the orders, signed J. H. Rosene and addressed to August O Rosene at Paulpietersburg, referred to the sums of money inclosed in the letter. None of the money orders have been cancelled, so evidently they have not been cashed.

STATE MAY RAISE OVER $200,000 WORTH OF CROPS

About 3,000 Acres Are Tilled at the State Institutions.

St. Paul, Minn., May 27.—According to estimates given the board of control, there will be approximately 3,000 acres of corn, oats, potatoes, fodder, alfalfa, garden stuffs and miscellaneous cereals farmed at the state institutions during 1911. So far as is known at the offices of the board, the commonwealth will be the most extensive single operator within its borders, and if the crops turn out favorably the harvest will be worth more than $200,000.

Careful estimates of the value of crops in previous years show that as a farmer the commonwealth of Minnesota is a careful operator. In 1909 cereals, potatoes and hay were raised which aggregated in value more than $171,000. In 1910 the crop was worth $187,000, notwithstanding the fact that a severe drouth was suffered. This year, with crop conditions as bright as they are, it is believed the total will exceed $200,000 in value.

Corn Acreage Biggest.

Corn will have the biggest acreage, oats next, potatoes third and garden vegetables fourth. The following table shows the acreage of principal crops at the institutions:

	Corn.	Potatoes.	Rye.	Oats.	Fodder.	Hay.	Garden truck.
State training school, Red Wing	14	20	..	20	28	..	25
Public school, Owatonna	57	9½	..	24	..	23	10
State hospital, St. Peter	..	..	10	125	..	28	..
State hospital, Fergus Falls	140	30	60	108	..	..	22
State hospital, Rochester	141	110	25½	110	..	17	50
State asylum, Anoka	105	60	..	50	85	..	35
State asylum, Hastings	50	47	..	115	15	118	50
School for the deaf, Faribault	..	4½	..	....	..	..	1½
School for the feeble minded, Faribault	71	96	..	132	..	..	..
Reformatory, St. Cloud	175	50	80	...	..	12	55
Total	753	477	175½	684	78	193	248

Only Part of Crop.

The foregoing are the standard products, but they constitute only a part of the entire crop. For instance, twenty acres of barley has been planted at Hastings and fifty acres at the St. Peter state hospital. At the Fergus Falls hospital eighty-five acres of barley is in. Ten acres of beans have been planted at the Anoka asylum, five acres at the school for the feebleminded, fifteen and one-third acres at the state reformatory and ten acres at the Rochester hospital. The Hastings institution also has twenty acres in beans and the Rochester institution thirty-six and one-half acres. Hastings also registers ten acres of buckwheat and the school for the feeble-minded at Faribault has fourteen acres of wheat—the only wheat crop grown at any of the state institutions.

Truck Farm at Prison.

The state prison farming is confined almost entirely to garden truck. A fourth of an acre each is planted in beets, carrots, cucumbers, beans and celery. Then there are one and a half acres of cabbages, four and a half acres of green corn, ten acres of potatoes, two acres of onions, one acre of rutabagas, one-half acre of muskmelons, one acre of strawberries, besides beds of lettuce, rhubarb, radishes, parsnips, turnips and other garden vegetables. There are thirty-five acres in the state prison garden. The state sanatorium in Cass county has planted six acres to corn and five acres to potatoes.

There is plenty of room at most of the state institutions for farming on a broad scale. According to the reports submitted to M. C. Cutter, purchasing agent for the board of control, there are 115 acres in cultivation at the state training school for boys at Red Wing; 123 at the public school in Owatonna; 215 at the St. Peter hospital; 295 at the Anoka asylum; 440 at the Hastings asylum; 495 at the Fergus Falls hospital; 500 at the Rochester hospital; 6 at the school for the deaf; 324 at the school for the feeble minded; 415 at the reformatory; 35 at the state prison and 11 at the state sanatorium, making a total of 2,974.

Had a Lay Spuds.

"Failure of the potato crop last year forced us to buy about $10,000 worth of spuds," Mr. Cutter said, in discussing the crop outlook today. "This season, we expect to get about $18,000 worth of them from our various farms. Most of the work at the institutions is done by inmates, although we employ teamsters, barn hands and the like at practically all. At the reformatory, the inmates who work are allowed 63 cents a day for their labor and an allowance of some kind probably will be made at the state's prison soon."

Arrangements are being made to raise the standard of cattle at the various institutions. Some pure-blood stock is already owned by the state, and more is to be bought. The board bought one pure-blood Holstein for the reformatory at St. Cloud, about a year ago, for $150. There is a standing offer for this cow now of $500.

IN THE DAY'S WORK AT WASHINGTON

Washington, May 27.—After devoting practically the entire session yesterday to discussion of the proposed reinvestigation of the election of Senator Lorimer, the senate adjourned without action, determined to proceed again with the question at its next sitting on Monday. Senator La Follette concluded his four-day speech and announced that when the voting stage is reached he will so change his resolution as to provide that the senate shall elect an investigating committee of five from among the new senators.

Senator Borah supported the La Follette proposition and Senators Bailey and Dillingham opposed it.

In his remarks, Mr. La Follette attacked caucus rule and denounced the practice of selecting standing committees by caucuses as un-American. He predicted that the day would come when the senate would dispense entirely with these caucuses, and prophesied the general adoption of the initiative, referendum and recall.

"Lorimer to Resign."

In the cloak rooms of the senate there was much discussion of a persistent rumor that Senator Lorimer might resign before the new inquiry is actually authorized, in order to protect his friends from the attacks of those seeking to unseat him. Neither his colleague, Senator Cullom, nor any of the members of the Illinois delegation in the house would admit they had any knowledge of such an intention on the part of Mr. Lorimer.

As to Reciprocity.

Vice President Sherman, a White House caller, declared he expected a report to be made on the Canadian reciprocity bill to the senate by June 15 and said he would not be surprised to see congress adjourn long before October. Mr. Sherman did not say whether he expected the reciprocity bill to pass.

The vice president's optimism as to an early vote on reciprocity is not shared by a number of senators. President Taft told callers that while he still is of the opinion that the bill will pass, he is not counting on a vote as soon as June 15.

Fund for Steel Probe.

The house authorized $25,000 for the expenses of the "steel trust' investigation committee. The committee will begin open hearings by quering John W. Gates regarding the taking over of the Tennessee Coal & Iron company by the steel corporation, Mr. Gates having been heavily interested in the coal and iron company.

The Mississippi Levees.

The Mississippi river commission is empowered and directed, in a resolution introduced by Representative Broussard of Louisiana, to investigate and report as to the advisability of congress taking charge of the levee system of the Mississippi river, to aid and improve navigation of the river and to prevent inundation of the Mississippi valley.

Capitol Police Lose Jobs.

The house passed a resolution by Representative Roddenberry of Georgia, chopping off the official heads of thirty-five guardians of the capitol. The policemen look to the senate to save them and it is believed it will.

Wool Bill Friday.

The house adjourned until Tuesday. As that is Memorial day, no business will be done, and another adjournment will be taken until next Friday, when the wool tariff revision bill probably will be ready. The measure will be considered by the Democratic caucus Thursday.

Arm High School Cadets.

Representative Pepper of Iowa introduced a resolution authorizing the secretary of var to issue government arms and ammunition to high school cadets throughout the country. Under the resolution the schools would be required to give bonds covering the value of the property. The resolution is being considered by the committee on military affairs.

AGED AUTHORESS IS KILLED BY MOTORCYCLE.

New York, May 27.—Mrs. Platt Parmalee, authoress and historian, was run down and killed last night by a motorcycle at Sixth avenue and Forty-ninth street, within a block of her home. William Herrman, rider of the machine, gave first aid to the dying woman and was paroled to await the action of an inquest. Mrs. Parmalee, who was 68 years old, had visited a drygoods store and had started across the street on her return home when she was run down. Her skull was fractured and she died before medical aid reached her.

NOTICE!

All Grocers and Merchants of Duluth are herewith warned to refrain from opening their stores on Sunday, and selling therein the goods whose sale on Sunday is prohibited by law.

DULUTH RETAIL GROCERS' ASSOCIATION

Attest: Geo. M. Peterson, Sec'y.

ATTACK WHITE SLAVE LAW.

Attorneys for Chicago Couple Denied Habeas Corpus.

Chicago, May 27.—The first attack on the United States act prohibiting traffic in women and known as the Mann act, was made here yesterday when counsel for Charles M. Wilson and "Zoo" Willard asked Judge George A. Carpenter in the United States district court for a writ of habeas corpus. The writ was denied by Judge Carpenter and an appeal taken to the United States supreme court. Wilson and the Willard woman are under arrest charged with bringing two Wisconsin girls to Chicago for immoral purposes.

Counsel for the defense argued that the act was unconstitional in that it sought to regulate something over which the state alone had jurisdiction and had the power to control the morals of its citizens.

Judge Upholds the Law.

"It is clear that congress had the power to pass the bill," said Judge Carpenter. "It is also clear that congress had the right to regulate interstate commerce. The law does not attempt to regulate morals nor encroach on the powers of the state to regulate vice. It simply seeks to prevent the use of interstate commerce as a means of bringing immoral women from one state to another."

The fate of Edward S. Nichols and Aluuvino Mazzone, serving 10-year terms in the federal prison at Leavenworth, depends on the outcome of the litigation.

ELECTIONS IN GERMANY

Now Expected to Be Held at Late Date in January.

Various Parties Are Nominating Candidates and Arranging Alliances.

Berlin, May 27.—The reichstag which resumed its sessions this month is still busy with important legislation, including the bill to consolidate the three systems of workmen's insurance which was taken up on second reading after a long year in committee. The forthcoming elections, however, overshadow every other interest and deliberations are being conducted and speeches made, according to the German phrase, "through the windows," with reference to their effect on the impending struggle. The elections, which a few months ago were promised for this spring, have been repeatedly put off and according to present intimations will now be held at the latest possible date late in January, the present reichstag being permitted to live out its entire constitutional term. It has had a most checkered career, beginning its existence under the auspices of the Liberal-Conservative "Unholy Alliance" of Conservatives, Anti-Semites and National Liberals, devised by Prince von Buelow to oppose the long dominant clerical center, and carried on, after the collapse of this block upon the financial legislation of 1909 and the fall of Buelow, by the chancellor, von Bethmann-Hollweg, with a loosely-jointed coalition of Conservatives, Clericals and Anti-Semites. This arrangement worked fairly well, in spite of predictions of an early break-down and dissolution two years ago.

For several months, the various parties have been nominating their candidates and arranging alliances with other organizations. The National Liberals and the Radical Progressive party have arranged to support common candidates in the greater part of the empire, and to make their fight on the so-called "two-front" basis—in other words, opposing the Conservatives and Clericals in one direction, and the Socialists in the other. The Conservatives and Clericals will pull together, avoiding useless nominations where they can secure the election of the other party's candidate by assistance on the first ballot. Bebel has announced the policy of the Socialists to be the nomination of a candiate in every district, in order to get as imposing a general vote as possible, but in reballots his party will evidently assist the Liberals as against the government parties. It will be a hotly contested election.

• • •

Leonard Digges, an Englishman, and not Galileo nor any of the Dutch claimants, is put forward as the real inventor of the telescope by Count Carl von Klinckowstroem, a Munich scholar, in a report just published. In it he gives quotations from a manuscript, discovered by him in the British museum, written by the mathematician William Bourne, about 1575 and citing quotations showing that Digges made use of the telescope at least forty years before Galileo or the Holland scientists. Bourne cites a lost treatise, published at London in 1571, entitled "A Geometric Practise, Named Pantometria," in which a full description of the lenses used by Digges is given.

• • •

In order to solve or make less vexing, the household servant problem, in Berlin, a composite committee representative of the interests of mistress and maid has been selected under municipal auspices at a mass meeting. It will draw up a formal agreement to serve as a general basis for the relations between employer and employe. Some of the questions usually leading to strife which are to be dealt with are those of wages, payment of board during employer's absence, hours of liberty, compulsory references, summer vacations, treatment during illness and the settlement of state insurance dues.

Changes in Train Service on the North Western Line.

Commencing Sunday, May 28, the Chicago Local Train No. 95 will leave Duluth at 8:15 p. m. instead of 3:30 p. m.; Superior, 8:30 p. m. instead of 3:50 p. m., arriving Chicago 11:59 a. m., Milwaukee 10:50 a. m., and will leave Chicago at 10:10 p. m., arriving Duluth 12:40 p. m. and Superior 12:20 p. m. Through sleeper between Duluth and Superior and Chicago.

Twilight Limited, Train No. 63, will leave Duluth at 4:15 p. m. instead of 4:35 p. m., Superior 4:35 p. m. instead of 4:55 p. m., arriving at St. Paul 9:50 p. m., Minneapolis 10:25 p. m., making stops at Solon Springs and Gordon. No change in time northbound.

Chicago Limited leaving Duluth 6:15 p. m., Superior 6:35 p. m., will not be changed.

For detailed information call at ticket offices, 302 West Superior street, Duluth, or 910 Tower avenue, Superior.

MRS. LAUGHLIN DENIES SHE IS TO MARRY BUTT.

New York, May 27.—"Why, I hardly know Major Butt, and I have not seen him for a year," said Mrs. Thomas Laughlin, President Taft's sister-in-law, when she arrived from Europe yesterday on the Steamer Cleveland. Mrs. Laughlin denied that she was engaged to the president's aide, a rumor which Maj. Butt already has said was without foundation.

HANDSOME PROFITS ARE DUE TO CONSOLIDATION

Anaconda Makes Big Reduction in Cost of Operating Expenses.

Sum of $5,000,000 Cash Was Paid for the Clark Properties.

Butte, Mont., May 27.—(Special to The Herald.)—The Anaconda Copper Mining company's annual report brought to the attention of the stockholders and the general public several matters of interest bearing on the production of copper under market conditions of a not very favorable character. In the first place the report showed that the merger had brought about a most desirable result in the cost of operating expenses and enabled the company, with the red metal under 13 cents a pound, in the last six months of the year to show profits of $4,214,013.22. This handsome showing is the result of the consolidation of the various companies operating in this district, and is the more important, when it is considered that all the mines are working under the curtailment agreement. So far as the mines are concerned they could easily double their output if the market demanded such a course, and between the smelters at Anaconda, Great Falls and Tooele all the ore could be cared for, but it is a question if ever the time will come when it will be necessary to send ore outside of the state as, if required, the Clark Reduction works could be brought into commission with the expenditure of a small sum of money. The report states that the inventory on Dec. 31 last, shows a larger stock of metals on hand than at the same time on the previous year and points out that all profits are figured on metals not only sold but actually delivered before the closing of the books, and as all inventories of copper on hand are taken at cost, a profit which should have been realized during the year 1910, provided the deliveries had equaled the production, will not appear until 1911. It is further stated that the benefits of consolidation, so far as costs are concerned, were not felt during the first six months of the year, but that in the last six months they played an important part in the earnings.

The report sets at rest the question as to what conditions and under what circumstances the Clark mines were taken over. It will be remembered that, ever since the sale, there have been various statments put in circulation as to the amount paid for the mines, but all have been very wide of the mark. In some cases it was stated that the Amalgamated company paid as high as $10,000,000 for the properties. The report shows that but $5,000,000 was paid. The purchase was made by the Anaconda company and the latter gave 115,500 shares of capital stock for the same. This carries out the statement of Mr. Clark that he sold for cash. It was generally stated at the time that the former United States senator had accepted part payment in stock. It is stated that the stock agreed on to be given to the Amalgamated Copper company for the Clark property has not yet been formally issued, but that it stands as an obligation upon the books of the company.

In speaking of the merger and the benefits to be derived by the same, it is stated that many of the economies which it was expected would be gained by purchase and consolidation have been made effective, and many more will be brought about within the next two years, and in addition the question of ownership of certain ore bodies which it was hitherto impossible to determine, has been settled.

The report states that during the past year the mining operations have been carried on under four different departments designated as the Anaconda department, Boston & Montana department, Butte & Boston department and the Parrot department. In reference to the latter department it is explained that on account of the location of the West Stewart, a former Clark property, the Anaconda company decided to attach it to the Parrot department. No ore had been hoisted through the Stewart shaft for several months previous to taking over the property by the Anaconda company, the ore being brought to the surface throught the Original shaft. This system has been discontinued and the West Stewart shaft is again in operation. The ore from the Clear Grit and the Little Mina is being hoisted through the shaft and the Little Mina shaft has been abandoned, except for use as an air shaft. Connections have been made with the Original shaft on the 2,300-foot level and drifts are being carried in an easterly direction with the intention of handling through this shaft any ores that may be encountered on the western end of the Parrot property. The Stewart vein was disclosed by the crosscut on the 2,300-foot level, showing a strong vein carrying good values.

The amount of development work done in the different mines during the past year may be realized from the fact that a little over thirty-three miles of ground was gone over in the form of drifts, cross-cuts, upraises, winzes and shafts. A very heavy tonnage of ore, in excess of the amount extracted, was added to the ore reserves. The shafts of the different mines were sunk to additional depths aggregating 3,765 feet.

During the past year the mines of the Anaconda company produced 3,326,227.01 tons of ore and 4,413.19 tons of precipitates, or a total of 3,330,640.20 tons.

Hoisting by Compressed Air.

The experimental stage of hoisting ore by the compressed air plant, operated by electricity brought in by a pole line from Gerat Falls a distance of 125 miles, has passed and the plant is now operating as smoothly as the most sanguine could expect. At an immense expense the Anaconda company nearly two years ago commenced preparations for the installation of this plant. The pole line for carrying the electricity from Great Falls to this city was started and about the same time the Nordberg company was given the order for the necessary machinery, while the construction of the necessary buildings for the plant was commenced soon after. Last July the buildings were completed and the machinery commenced to arrive. A little over two months ago the Mountain View mine was closed down for the purpose of equipping the engine with the new cylinders required and today everything is working with the regularity of a clock. Before the actual hoisting of ore was commenced experimental work was carried on for more than a week to make sure that there would not be the slightest hitch when the ore was loaded on. The Mountain View is today bringing to the surface from 1,000 to 1,200 tons of ore a day by the air plant operated by electricity. While compressed air has been used to a very limited extent for hoisting purposes the Anaconda company enjoys the honor of being the first big mining company in America to operate the system on such a large scale. Some people had little faith in the successful working of the new system, but the officials of the Anaconda company and the Nordberg never had any doubt as to its success. The plant consists of three Nordberg direct connected variable capacity air compressors, each of a capacity of 7,5$$ cubic feet of free air per minute. When operated at full capacity the power required to drive these compressors is 3,600-horse power. They are of the latest type intercooler design. They are of the most efficient compressors ever constructed by the Nordberg company and have both high and low pressure cylinders. They are self-starting and start as a compound engine, the air first entering the high pressure cylinder, from which it is exhausted into the low pressure cylinder, and from the low pressure it is exhausted into the atmosphere. When the compressor attains its normal speed the current is thrown on, the valve gear is reversed and the machine is at once converted into an air compressor. The fly wheel of each of the three compressors is 25 feet in diameter and weighs 25 tons. It is keyed on to the main shaft, which is 22 inches in diameter and weighs 14 tons. It is direct driven by a "sinkless" motor of the Westinghouse manufacture. The flywheels make 75 revolutions a minute. Piston rods extend through the cylinders and travel on tail carriers, which relieve the bottoms of the cylinders from pressure and consequent friction. The compressors are provided with an automatic system of oiling. In the process of compression the air is cooled between the low and high pressure cylinders, the cylinders being water jacketed. The water for the cooling jackets is received from a tower some distance away from the compressor room, on an elevation, where it is cooled by means of electrically driven fans. There is no doubt the whole plant is the most extensive of its kind ever constructed, and the fact that it has been put into commission after a few preliminary tests is a source of great gratification not only to the builders, but to the officials of the company. Now that the Mountain View is in successful working order the Diamond mine has been closed down and the new system installed. The next to be equipped will be the High Ore. In time it is intended to install the equipment in every mine owned by the company. Only a rough estimate can yet be given as to the saving expected to be brought about by the substitution of air for steam, but it is generally believed that it will amount to about 1 cent a pound in the cost of the production of copper.

It is also the intention of the Anaconda company to bring about a further saving by installing electrically driven pumps in the mines and by dodriven all underground hauling by electricity.

High Ore Resumes.

The High Ore mine, which has been closed down for several months in consequence of a fire, has again resumed operations, mining about half its capacity, which is all that is required under the allotment out put among the different mines in operation.

North Butte.

Another rich body of ore has been uncovered in the North Butte. The vein cut some time ago on the 1,600-foot level, has been opened on the 2,200-foot level.

GOOD PROGRESS AT PILOT-BUTTE

Surface Is Being Prepared for Active Development Work.

Butte, Mont., May 27.—Excellent progress is being made with the work of preparing the surface of the Pilot claim for active development of the property. The old buildings have been removed and the material is on the ground for larger and more suitable buildings, and the hoist and boilers will be moved on to their new foundations as soon as possible. It is probable that he work of unwatering the old Vulture mine in the Wickenburg district is crushing 100 tons of ore every twenty-four hours.

The Black River Mining & Smelting company recently encountered a streak of rose quartz that assays $80,000 in gold to the ton in its mine at Turkey, Yavapai county.

The official report of the Superior & Pittsburg Copper company for the year 1910, as filed with the county assessor of Cochise county, shows that its total production for that year was $3,569,667. The output of the Calumet & Arizona for the year was valued at $3,521,256 and that of the Shattuck-Arizona Copper company at $1,878,982.

JOHN LIND HAS ARIZONA MINES

Bonds the Goodrich-Gardner Properties in Mohave County.

Bisbee, Ariz., Aug. 27.—Former Governor John Lind of Minnesota and associates have bonded the Goodrich-Gardner mines in Mohave county and started development work.

The Frisco Mines & Power company is installing another standard tube mill and making other improvements at its Tragedy mine in Mohave county.

The Twin Peaks Mining & Milling company is down 200 feet in the development work upon its claims in the Twin Peaks district. It will sink the shaft to 400 feet. The company bought a milling plant at a cost of $50,000 some time ago.

The Miami Copper company has suspended churn drill operations temporarily. The company had expended on the first of the year about $1,000,000 in development work and $2,310,000 in construction. The concentrator cost $1,205,000, the power plant $512,000 and the pipe line and water development $248,000. The holdings of the company embrace 1,122 acres, of which 222 are mineral bearing.

The new twenty-stamp mill at the

SHOWING IS VERY STRONG

Algomah Strikes Further Copper Ground in the No. 5 Drill Hole.

Ojibway Will Begin Production at Not Very Far Distant Date.

Houghton, Mich., May 27.—(Special to The Herald.) — The Algomah Mining company engaged in diamond drill exploratory work in the probable horizon of the Lake lode, has encountered further copper ground in the No. 5 drill hole. The second disclosure in this hole came at a depth of 1932 feet. It is on unusually strong showing. Its position approximately 200 feet below the first discovery in this hole would indicate that it is a continuation of one of the South Lake lodes of which there are four and one of which will likely prove to be identical with the famous Lake bed. Operations in the Algomah ore body continue centered in drifting with no material change in conditions. The drift at the 104-foot level has attained a length of 1,350 feet, the entire distance with exception of short stretches being through copper ore of direct melting grade with an additional of leaner ore that should prove amenable to concentration.

Mohawk.

The Mohawk Mining company is developing better ground in its south territory command by shafts Nos. 5 and 6. The situation in No. 5 shaft has shown improvement for some time past and already is far ahead of the general situation noted in the north end workings which contiues poor. The No. 5 shaft is the banner producer on the Mohawk acreage, but will have a worthy rival in the No. 6 shaft which is just now coming into its own and still limited in production. In this shaft drifting is in progress both ways on the fifth, sixth and seventh levels below which latter the shaft is sinking. The entire distance drifted at the seventh, a growing proportion of the sixth level and the ends of the fifth level are in copper ground of exceptional quality. The south laterals at depth in No. 6 shaft disclose ground that can be described only as without comparison elsewhere in the Mohawk workings. The average yield has improved nearly two pounds fine copper per ton rock milled and for April stood at slightly over sixteen pounds refined.

Ojibway.

The Ojibway Mining company is stoping on three levels in the No. 1, or north shaft for the purpose of determining the general character and minming width of the Kearsarge lode at this point. This work will incidentally prepare this ground for production, though just when this will be begun has not been definitely decided. The time, however, is not very far distant and will probably be stlled upon at the annual meeting in June. The management has opened a very creditable amount of ground in the time operations have been carried on, and has given the property a first-class surface equipment. Development continues without interruption and is attended with generally good results in the No. 1 shaft territory which has also received the bulk of attention. The No. 2 shaft territory has not been opened to the extent that No. 1 has, and with openings limited to three levels does not offer much for inspection. The lowest lateral openings in both shafts are at the 1,500-foot level, below which both shafts are sinking, the deeper shaft being nearly 400 feet below this depth. They will be sunk to 2,000 feet and there temporarily bottomed.

St. Louis.

The St. Louis Copper company, a Calumet & Hecla subsidiary, has a small force of men at work engaged in surface trenching in the horizon of the copper bearing lode disclosed in the diamond drill exploratory campaign made last year. The property comprises 800 acres formerly known as the Washington, and lies directly east of the Laurium mine and south of the Old Colony in a horizon which has given this district no mines to date. A shaft was sunk on the contact with the Kearsarge Eastern sandstone many years ago by former owners, but nothing further was done and the property has lain idle for a great many years.

New Baltic.

The New Baltic Copper company has temporarily ceased shaft sinking and is now engaged in cross-cutting at the 360-foot level for the purpose of exploring the copper bearing fomation previously disclosed in diamond drilling. The cross-cut will enter the formation at about the depth and around 150 feet north of the point from which a very rich core of copper rock was extracted by the diamond drill. The shaft is sunk in the foot wall trap rock and twenty-five feet distant from the copper bearing ground which, due to rolls in the fomation, several times made its appearance in the shaft in the course of sinking. The property is equipped with a small air compressor, a steam hoist good for depth of about 1,500 feet, and a temporary wooden shaft house all of which must eventually be replaced, but at the present and for some time to come of adequate capacity to permit a thorough examination and demonstration of this deposit.

CONCENTRATOR IS BEING INSTALLED

Development Work at Calumet & Sonora Curtailed at Present.

Nacozari, Mex., May 27—The Calumet & Sonora property is being meagerly developed at this time, as all efforts are concentrating on the installation of the electrostatic concentrating plant which will be of fifty tons capacity. The shaft is being sunk all the way. J. N. Houser is manager, Charles Strachan assistant, and R. S. Davis chief engineer. The ore is galena, sphalerite, chalcopyrite. It is probably a crush deposit, redeposition being in the crushed section. The country is andesite, and the ore is disseminated through it. This is a triangular block of ground, with innumerable faults. The formation was tilted and twisted, and the latter left the ground open to mineralization. The high grade follows the original lines of the different flows, but below the 400-foot level it is much more evenly mineralized.

The Nacoari Consolidated properties are in shape now for the extensive development campaign to be forwarded. The King Nos. 1 and 2 claims are in the Pilares fault district and have exceptional showings. A short tunnel was driven in the ground, giving good results, but as it was through leached ground and no timbering done it has caved very badly. A new tunnel was then started some distance away, which when completed will tap the ore bodies at 500 feet. Machine drills are being installed, and every modern method inaugurated. The property is under the management of W. A. Alexander, the principal owner, and has indications for good things.

ORE OUTPUT CURTAILED

Reduced Production Is the Order in Lake Superior Iron Region.

Another Attempt to Develop Mine at the Jack Pot Property.

Because there is too much ore in stock at the mines, at the lower lake docks and at the furnaces, curtailment of production is the order in the Lake Superior iron region generally. Practically all the leading operators have adopted a policy of retrenchment. All districts are not affected alike—a large number of mines are, indeed, still being wrought on a normal bisis—but the output of the region as a whole will show a very material reduction from that of a year ago, when the combined shipments from the five ranges, aggregating 43,350,000 tons, established a new high record. There is some expectation that the iron and steel market will show an improvement the latter part of the season of navigation, but at the moment the conditions are not particularly favorable.

The United States Steel corporation is the operating interest most recently to scale down production; and because of its commanding position in the trade its action is looked upon with especial significance. The company has added no mines to the idle list, but it has cut down outputs, notably in the Ishpeming district of the Marquette range and the Ironwood district of the Gogebic range. Pickands, Mather & Co., and Oglebay, Norton & Co., both of Cleveland, have closed a number of properties; the Cleveland firm of Corrigan-McKinney & Co. is operating even less actively than last season, when half of its shifts on the older ranges were out of commission; Ferdinand Schlesinger of Milwaukee has reduced his working forces twenty-five per cent., and the Republic Iron & Steel company, the Cambria Steel company, Jones & Laughlin and other producers are employing fewer men than a year ago. In no instance have wages been pared, however, and wherever possible mine workers with families have been retained on the payrolls.

Night Shifts Taken Off.

Night shift work at the Steel corporation's Norrie, East Norrie, Aurora, Pabst and Puritan mines, on the Gogebic range, has been suspended. Four hundred men have been laid off and those retained will work only nine days every two weeks. There has been no curtailment at the Tilden and Atlantic mines or at the New Davis, Genieva and Plummer explorations. Practically all the ore in stock at the Gogebic properties of the Steel corporation will be shipped this season, as will that in stock at Ferdinand Schlesinger's big Newport mine. It has been rumored that the Newport, which recently trimmed down its working force from 1,500 to approximately 1,100 men, contemplated a still further reduction, but this is denied by General Manager F. E. Woodbury. The Newport will continue mining operations on the present basis, at least during the summer season.

While the force of employes at the Steel corporation's Ishpeming properties have not been cut down, the men are working only four days each week. Night shift work has been abandoned. The mines affected are the Section Sixteen, the Hematite and the Hard Ore properties. All told they employ 450 men. There has been no curtailment by the company elsewhere on the Marquette range. These latter properties embrace the Regent group at Negaunee, the Stegmiller at Swanzy, the Champion at Beacon and the Section Twenty-one at Winthrop, none of which, however, have latterly been operated with particular vigor. No underground work, has, indeed, been in progress at the Section Twenty-one for a considerable time past; the Stegmiller is in a development stage, and operations at the Champion the past few years have been largely confined to explorations, in which some half a hundred men are engaged. The Regent group is employing 360 men, a comparatively small force considering the extent of the workings.

The Cleveland Cliffs Iron company, the largest operator on the Marquette range, has made no recent reduction in its number of employes. None of its properties are being wrought at the maximum rate, however, and with large stockpiles at the various mines it is not at all likely that working forces will be increased for some months yet. The Cambria Steel company's Republic mine has dispensed with the services of 100 men and has still further trenched by putting the force retained on a five-day-a-week basis. Contrary to the general tendency in the Lake Superior region, the Breitung interests of Marquette are enlarging their mining operations. The properties in this group are the Mary Charlotte, Breitung, Hematite and Milwaukee-Davis at Negaunee and the Baron at Humbolt, Marquette range. The Baron is now being developed and as yet is a comparatively small mine. The same applies to tthe Milwaukee-Davis. The other two properties are important producers. The company has made large sales of ore and it will ship heavier this season than it did last year. One hundred men were added to the forces at Negaunee early in April and now 150 others are being taken on. This will increase the crews to 650 men, all of whom will be retained throughout the season.

The Jack Pot Property.

The Jones & Laughlin Steel company has decided to make another attempt to develop a mine at its Jack Pot property in the Bessemer district of the Gogebic range. The Jack Pot has been closed a number of years. It adjoins the Yale mine, where a large and valuable deposit of ore has been found and is being developed by the Lake Superior Iron & Chemical company, and it is the belief that this game deposit will be discovered in the Jones & Laughlin tract. The exploration was not carried deep enough, it appears, and now machinery will be installed and the old workings unwatered at once. The Jones & Laughlin company is operating ten mines at present, seven of which are on the Mesaba range and three—the Lake Angeline, Rolling Mill and Mitchell—in the Marquette district. In the neighborhood of 1,800 men are employed at the various properties. The Lake Angeline, with a production of 8,500,000 tons to date, has seen its best days; the Rolling Mill is a fine new property, and the Mitchell, is in a stage of development and is employing only a small force. Two diamond drills are in commission at this latter tract, searching for additional ore bodies, and two others are operating at Iron Mountain lake, in the same portion of the range. The company latterly has turned its attention to the Menominee range, with the result that it is now preparing to open a mine in the Iron River district. The work of sinking a shaft will be started at once. The property to be developed is in section 14, just north of the village of Iron River. It has been tested by diamond drills and has been found valuable. The overburden is 135 feet in depth. Sinking thus will be difficult and will be accomplished, it is planned, by the drop shaft method.

The men employed in the reconstruction work at the Cleveland-Cliffs Iron company's Maas mine shaft at Negaunee are now each working only three hours out of the twenty-four.

It is at this property that the unstable portion of the shaft, that part extending from the surface to the rock ledge, a distance of nearly 200 feet, is being provided with thick walls of concrete. The work has progressed to a point where a heavy air pressure must be applied and it is impossible for the men to work more than one and one-half hours at a time, expert as they are in sub-aqueous construction.

Star West to Ship.

While the Star West mine of Corrigan, McKinney & Co. still remains idle, as has been the case for years, at least 5,000 tons of ore are to be shipped from that property this season. The ore is now going forward to Escanaba. The Star West is in the Cascade district of the Marquette range. Its product is a silicious material, and until this spring none had been shipped since 1900. There are about 10,000 tons in stock. At Corrigan, McKinney & Co.'s Baker mine, in the Iron River country, the erection of a "dry" or miners' change house has been started. The building will be 80 by 60 feet, two stories high, and will be constructed largely of concrete and steel. It will be thoroughly modern in all particulars. Accommodations will be provided for 200 men. A prospective mine in the Iron River district is the Aronson property. The tract is being tested by the Geary-Powers Exploring company of Hibbing, Minn. A diamond drill is employed. It is the intention to drive a number of holes to a depth of 1,000 feet. Ore has been encountered, and as the land adjoins Pickands, Mather & Co.'s Kaseco property, a proved proposition, the operators have confidence a mine exists in their tract also. The Steel corporation, which recently started the exploration of Michigan Land & Iron company lands in that corner of Marquette county, Mich., close to Dickinson and Iron counties, now has four drills at work in that locality. Two are operating east of Witch lake and two west of Witbeck. There is great interest in the outcome of this work, as the field is one not heretofore systematically tested. The country is traversed by the Chicago, Milwaukee & St. Paul railroad.

That portion of the Milwaukee road extending north from Iron Mountain, Menominee range, to Channing, whence the ore trains proceed over Senator Isaac Stephenson's Escanaba & Lake Superior line to the Chicago, Milwaukee & St. Paul dock at North Escanaba, is practically being rebuilt. The ralls are being replaced with much heavier steel, and for the most part are being laid on new ties. All the Menominee range ore handled by the Milwaukee is hauled over the long stretch of track being improved, and it is largely for this reason the betterment is being made. The Chicago & Northwestern is improving its Gogebic range line. A double-track steel and concrete bridge had been built across Bad river, at Odanah, and a similar structure is being erected at Ironwood and Hurley, where it will span the Montreal river.

MINING IN THE BLACK HILLS

Ruby Company Resumes Work on Property in Bear Gulch.

Deadwood, S. D., May 27.—President William Bell of the Ruby Mining company, whose property is located in Bear gulch, north of here, came up last week to purchase some drills, as the company has resumed work. The Ruby has a shaft down 300 feet and this is to be continued to the quartzite, which will require about fifty feet further sinking. A diamond drill hole has been sunk to the contact, passing through an ore shoot twelve feet thick, which gives assay returns of better than $25 to the ton. An air compressor has been installed for the development of this shoot.

Grading is completed for the concentration plant being erected by the Gilt Edge Consolidated Mines company at Galena and construction of the plant begun. It is to be completed when the Danckwardt smelter at Galena is ready to blow in, some time next month, the Gilt Edge operating up a ninety-six foot ledge of sulphide ores to supply the smelter. It is expected the big dredge of the Castle Creek Hydraulic Placer Mining company, which is being constructed on Castle creek, near Mystic, will soon be in operation. The power plant near it is completed and is now undergoing tests. The dredge, which is costing approximately $100,000, is the first to be operated in the Black Hills.

Another dredge scheme somewhat similar but costing less is to be installed on Rapid creek below Pactola by Charles Sherman, who has secured Pennsylvanian and Canadian capital to work the old Magpie ground, which was also an early day placer.

The Continental Copper company has resumed operations on its property near Sheridan, in Pennington county, after a ten months' shut down which followed an attempt by the Western Federation of Miners to organize the camp. The company is adopting the card system and only non-union men will be employed. Prior to the shutdown it was an open camp. The company has a 500-foot shaft, which is to be sunk to 1,000 feet depth, where it is expected to open up a good grade copper ore which was disclosed by the diamond drill. The ore is a sulphide. The company has expended over $1,000,000 in developing the property.

HISTORICAL SOCIETY

SOCIETY

THE program for the week has been a pretty full one for Duluth society. It opened with the military ball Monday evening at the Spalding and during the week several delightful events have taken place.

The banquet served Tuesday evening at the Endion Methodist Episcopal church by the members of the Women's Guild for the members of the Men's club was one of the leading events of the week. Covers were laid for nearly 200 at many small tables and a delicious turkey dinner was served in courses. The decorations were carried out in yellow large bowls of cowslips adding their brightness and yellow shaded candles in brass candle sticks shed their light upon the tables.

J. B. Cotton presided as toastmaster and toasts were responded to by F. W. Brewer, president of the Men's club, Rev. John Walker Powell, pastor of the church and Miss Post of the Normal school. The members of the Endion choir sang beautifully several numbers. The personel of the choir is Mrs. Mark Baldwin, soprano; Mrs. James F. Walsh, alto; George Suffel, basso, and John Koneczny, tenor. Mr. Koneczny also added a delightful solo to the program. This was his first public appearance since his return from New York where he has been spending the winter studying with Victor Morrell. Miss Carlotta Simonds accompanied.

During gthewe ek many benefit parties for the tuberculosis sanitarium were given, and next week promises to bring out several more, as the number of women who have pledged themselves to enter for this cause is rapidly growing.

The wedding of Miss Annie White, daughter of Mr. and Mrs. William White of 1718 East Superior street, and A. C. Gillette, which will take place Monday, June 5, at the home of the bride's parents, is the center of much interest.

Mrs. Heber L. Hartley was hostess at an informal afternoon tea Wednesday at her home, 1032 East First street, in compliment to Miss White. About twenty-five guests called during the receiving hours and were received by Mrs. Hartley, assisted by Mrs. Morton Miller, Mrs. Ward Ames, Jr., and Mrs. Harvey Smith. Gladiolas formed the floral decorations.

Miss Rachel St. Clair gave a daintily appointed luncheon yesterday at her home, 1125 East Superior street, for her. Covers were laid for:

Mesdames—
E. W. Warner of Cleveland, Ohio, Ward Ames, Jr.

Misses—
Jessica Marshall, Julia Hunter,
Marjorie Congdon, Isabel Patrick,
Barbara Rupley, Helen Ostrom.

Next week Mrs. Morton Miller will give a dinner on Wednesday evening at her home, 2104 East Superior street, in compliment to Miss White and Mr. Gillette, and Saturday evening Miss White's sister, Mrs. Ward Ames, Jr., will be hostess at a dinner in their honor.

The wedding is to be a quiet home affair to which only relatives and Miss White's intimate friends of the younger set have been invited. The service will be read at 8:30 by Rev. Robert Yost of the First Presbyterian church. The matrons of honor will be Mrs. Ward Ames, Jr., and Mrs. Morton Miller and William White, Jr., will be best man. Little Mary and Josephine Cotton will act as ribbon bearers.

After a wedding tour, Mr. and Mrs. Gillette will reside at 1810 Jefferson street.

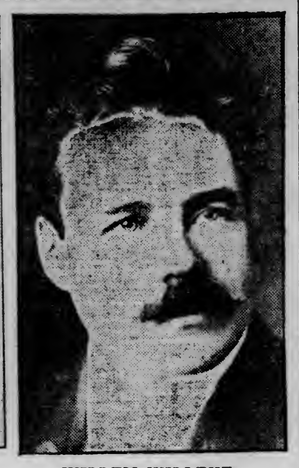
The wedding of Miss Helen Ostram and Seth Marshall will be an event of the early fall.

The Y. W. C. A., too, has offered two very pretty events during the week. Yesterday afternoon at the home of Mrs. C. A. Congdon a delightful musicale was given for the benefit of the institution. A large number of guests were received by Mrs. Congdon, assisted by the following members of the board of directors of the Y. W. C. A., Mesdames A. C. Taylor, W. H. Cole, T. J. Davir, Watson S. Moore, E. J. Watterworth, Edward Florado, W. C. Agnew, George H. Claypool and Fred White. Roses, carnations and tulips were used about the rooms with charming effect. The program by Mrs. Mark Baldwin, Mrs. Robert Bruce Liggett and Miss Seyer Bradshaw was excellent.

This afternoon and evening the apple blossom festival at Hunter's Park drew a large attendance. It was held in the apple orchard at the home of R. M. Hunter. A program of dances by children, maypole dance and an archer's drill were interesting features.

Miss Kneisel Will Wed Cellist of Her Father's Famous Quartet

VICTORIA KNEISEL.



WILLEM WILLEKE.

On May 29 Victoria Kneisel will marry Willem Willeke. He is the cellist of the quartet of which Mr. Kneisel is the founder and head. Mr. Willeke was brought to America by Franz Kneisel a few years ago to replace Alwyn Schroeder as cellist of the famous Kneisel quartet. He was a Hollander, educated at The Hague, and afterward a member of the Vienna Philharmonic orchestra. It was through his association with her father's musical work that Miss Kneisel met Mr. Willeke and her interest in him determined her to give up her career as a pianist and devote herself to married life. Miss Kneisel's mother had the same experience. She was a violinist of promise when she decided to marry Kneisel.

Events of Interest

Full dress military uniforms, bright pretty gowns, brilliant lights and American flags combined to make the big military ball, given at the Spalding hotel Monday evening, one of the biggest social successes of the season. The ball was given by the officers of the National Guard of the city of Duluth, and it is to be an annual affair. Owing to the weather the attendance was not as large as it otherwise would have been, but about fifty couples danced to a delightful program played by the Third Regiment orchestra, a large number of the dances being military music.

The guests were received informally by the members of the reception committee composed of: Mayor and Mrs. M. B. Cullum, Maj. and Mrs. H. V. Eva, Lieut. and Mrs. S. S. Williamson, Mr. and Mrs. Bentley P. Nefl, Mr. and Mrs. M. Bunnell, Col. and Mrs. F. E. Resche, Col. and Mrs. T. H. McGilvray, Mr. and Mrs. W. I. Prince.

Governor A. O. Eberhart and staff were unable to come on account of a speaking engagement at Detroit, but Adjt. Gen. Fred B. Wood of St. Paul and his staff, Col. J. U. Sebenius of Duluth, Maj. Gus Carlson of Duluth, Capt. Eahler and Capt. Carl C. Weaver of St. Paul, and Lieutenant C. Briand, U. S. A., were present.

Among the dancers were:
Lieut. Col. and Mrs. F. E. Resche, Maj. and Mrs. H. V. Eva, Capt. and Mrs. K. A. Franklin, Capt. and Mrs. G. W. Stiles, Capt. and Mrs. W. O. Flodin, Lieut. F. L. Chisholm, Lieut. R. M. Weaver, Lieut. and Mrs. F. E. Smith, Lieut. R. K. Lee, Lieut. R. A. Westberg, Lieut. and Mrs. A. C. Baumgartner, Lieut. and Mrs. A. W. Friegal of Superior, Lieut. S. P. Clemens of Superior, Miss Stewart of Superior, Miss E. Lorraine of Minneapolis, Mr. and Mrs. M. B. Cullum, Mr. and Mrs. W. I. Prince, Mr. and Mrs. A. E. McManus, Miss McManus, Mr. and Mrs. C. F. MacDonald, Mr. and Mrs. E. F. Burg, F. L. Ryan, Mr. and Mrs. J. H. Madden, Mr. and Mrs. E. S. Oakley, Mr. and Mrs. C. L. Rakowsky, Mr. and Mrs. D. L. Fairchild, Mr. and Mrs. J. R. Young, Mr. and Mrs. Otto Stein, Mr. and Mrs. Louis Koehler, Miss Anderson, Miss Wartel, Miss Nelson, Miss Larson, Miss Maloy, Mrs. M. E. Chisholm, Mr. and Mrs. C. H. Thornton, Miss Jeronimus, Mr. and Mrs. L. C. Harris, C. H. Brown, Fred Koehler, H. K. Wheaton, Bardler, Powers and A. Wheaton.

The committee in charge of the affair was composed of Capt. W. O. Flodin, Capt. G. W. Stiles and Lieut. R. M. Weaver.

Mrs. D. L. Fairchild of 1432 East First street was hostess at luncheon Tuesday at the Commercial club, in compliment to her guest, Mrs. Richard A. Swain of Minneapolis. Pink roses made pretty appointments, and covers were laid for:

Mesdames—
E. F. Burg, A. E. McManus,
H. J. Madden, F. G. Bradbury,
W. A. Eaton, Ned Smith,
L. S. Loeb, Fairchild.
R. A. Swain,
Miss Virginia Keating.

Mrs. Parker Paine of 1720 East Superior street was hostess at an informal tea Wednesday afternoon at her home as her link in the chain of teas which are being given for the benefit of the new tuberculosis hospital which is to be built soon. Her guests who will in turn entertain ten other guests for the benefit of the same institution were:

Mesdames—
L. E. Biebermann, A. H. Brocklehurst,
E. A. Forsythe, L. L. Culbertson,
T. F. McCarthy, W. C. Baldwin,
M. W. Lepp, J. B. Hanson,
A. C. Pearson, Miss Mars,
J. S. Pardee.

Mrs. G. W. Preston entertained the members of the Five Hundred club Tuesday afternoon at her home. Mrs. Charles Young and Mrs. Walter Thompson won the card prizes.

Miss Hazel Dreier entertained at a supper Monday evening at her home, 106 South Fifteenth avenue east, in honor of Miss Ella Baker, who became the bride of Forest D. Pease Tuesday evening. The rooms were prettily decorated in ferns and sweet peas, and covers were laid for:

Misses—
Marjorie Wonderly, Pauline Labod,
Sadie Boyce, Helen Mee,
Leda Altenburg, Elizabeth Sullivan,
Mabel Johnson, Lillian Dyser,
Tess McDermid, Sybil Burnside,
Margaret Sullivan, Ella Baker,
Clara Mecalson, Hazel Dreier.

The members of the Jefferson club of Lakeside entertained at a dancing party Tuesday evening at the Lester Park pavilion. The hall was prettily decorated with flags and streamers of bunting and palms and about 150 people were present. This party was the first of a series to be given by the club during the summer.

Miss Nellie Sinclair was hostess at an informal afternoon tea Wednesday for her guest, Miss Marguerite Jenne of Minneapolis. Only a few friends were entertained.

Mrs. E. H. Reed of 4121 McCulloch street was hostess Wednesday afternoon at her home in honor of her son, Reginald, who graduates from the eighth grade of the Lakeside school this year. The affair was in the nature of a surprise to him and the guests were the teachers under whom he has received his instruction since entering the kindergarten at that school. A delightful luncheon was served and the decorations were carried out in the school colors, dark blue and white, ribbons and cherry blossoms being used. The guests were:

Misses—
Brooks, Lena Brown,
Halling, Rudolph.
Owens,

Mrs. L. Brandy was pleasantly surprised at her home, 2012 West Sixth street Wednesday afternoon by a number of her friends. The guest of honor was presented with a pretty gift and an informal afternoon was enjoyed by the following guests:

Mesdames—
S. J. Olson, Charles Anderson,
J. K. Backman, Charles Lindstrom,
E. Englund, J. Tronsdal,
John Anderson, Charles Swanson,
A. Mehling, J. P. Jenson.
G. Strand,

Mrs. O. G. Twedt was pleasantly surprised Wednesday afternoon at her home by a number of her friends. A dainty luncheon was served and the guest of honor was presented with many pretty presents. Those present were:

Mesdames—
E. Twedt, Seashore,
Modin, Bryctol,
Peterson, Ascar Mork,
Milligan, George Olson,
Ferguson, E. Olson,
S. O. Twedt, Oswald G. Twedt,
R. Schaffer, James Bradley.
F. Schaffer,
Miss Cole.

The fourth annual ball given by the Order of Railway Conductors Wednesday evening at the new Auditorium was a very pretty affair. A large number of dancers enjoyed the delightful program played by La Brosse's orchestra and the hall was artistically decorated with bunting, flowers and palms.

Mayor Cullum, other city officials and a number of railroad officials were among the guests. Those in charge of the function were:

Arrangement—Theo. Harris, J. H. O'Brien, F. C. Blair, J. M. McNaughton and D. Williams.

Reception—All members Division 336.

Floor—G. F. Ayers, B. F. Hiem, T. J. Feathers, W. A. Nichols, J. C. McGreevy, A. J. Gladman, M. B. Nichols and W. H. Farrell.

Door—L. E. Bieberman, W. H. Denny, H. P. Morin, D. A. McCarthy and R. J. Kelly.

The members of Garfield circle, No. 4, Ladies of the G. A. R., entertained Wednesday afternoon in honor of their two department officers, Mrs. Emma J. Wicks, department president, and Mrs. May A. Dennis, department secretary, at their rooms in Memorial hall. Music and speeches formed the entertainment and lunch was served at 5 o'clock. Mr. Dalley, custodian at the G. A. R. hall presented the two guests of honor with handsome bouquets of roses and carnations.

Mrs. E. A. Forsythe of Lakeside was hostess yesterday afternoon at an informal afternoon tea at her home for the benefit of the tuberculosis sanitarium fund. Tulips were the flowers used about the rooms and the guests spent the afternoon hemming towels for the sanitarium. Among the guests were:

Mesdames—
H. R. Spencer, H. E. Webster,
J. W. Richards, C. D. Richards,
Roulo, H. C. Mooney,
George Gamble, Parker Paine,
W. E. Magner, Holmes,
R. J. Davis, E. G. Church.
John Jenswold,

Mrs. J. C. H. Engel was hostess at a children's party this afternoon at her home, 2105 East Fifth street for her daughter Miss Dorothea in celebration of her eleventh birthday anniversary. Pink and white decorations were effectively carried out with carnations as the floral note. The guests were:

Misses:
Hazel Appleby, Henrietta Nesbitt,
Jean McFadden, Florence Helmick,
Virginia Warner, Charlotte Warner,
Eleanor Keyes, Loie Howard,
Norma Howard, Anna McEwen.
Hortense Spiegel,

Mrs. A. Segers entertained the Jolly Twelve Cinch club Thursday afternoon at the last party of the year. The prizes were won by Mrs. A. Segers and Mrs. E. Stebner. The players were:

Mesdames—
W. H. Elliott, A. Evenson,
C. D. Frain, T. G. Frerker,
J. D. McClouch, William O'Malley,
James Lockheart, C. Armstead,
C. G. Knox,
J. Kennell, A. Segers.
E. Stebner,

Edward Walsh was tendered a pleasant surprise Monday evening at his home, 6 West Fifth street. Games and music furnished the evening's amusement and among those present were: Misses Edith Gilhaus, Ethel Williams, Jessie Newcomb, Gertrude Newcomb, Emma Williams, Genevieve Knight, Fern Wonderly, Jessie Gilhaus; Messrs. William Walsh, Edward Wood, Louis Longtin, Louis Fillatrault, James Noll, Roy Bakken, Ray Mapp, Ray Newcomb, Percy Ableson and Edward Walsh.

Miss Burnetta Pierson of 1709 East South street was pleasantly surprised by the Bachelors and Bachelor Maids last Wednesday evening. An enjoyable evening was spent playing games, after which a dainty luncheon was served. Those present were:

Nels Pierson, Sam Bush,
Esther Anderson, Adam Graines,
Lulu Miller, Henry Machin,
Susan Foley, Paul Larson,
Mary Johnson, George Holt,
Stella Miller, Arthur Fearns,
Lulu Peterson, Alex Duncalt,
Theresa Pierson, George Foley,
Nora Dowers, Willie Pierson,
Lulu Haynes, Charley Anderson

Mrs. Edward Totman entertained at bridge yesterday afternoon at her home as her part in the contribution to the tuberculosis sanitarium fund. Mrs. Patton won the favor. The players were:

Mesdames:
Hubert Eva, Edward Wilcuts,
F. J. Patton, Henry Nesbitt,
Goldberg, George McDonald
James Fisher, William Eden,
William Jones, Charles Campbell.
Stewart Collins,
Jesse Norton,

Mrs. E. F. Burg of 213 West Third street was hostess at dinner and a theater party at the Lyceum last evening in compliment to Mrs. R. A. Swain of Minneapolis, who is the guest of Mrs. D. L. Fairchild. There were eight in the party.

The Rajahs entertained at an informal dancing party last evening at the Lester park pavilion. La Brosse's orchestra played a delightful program, which was enjoyed by a large number of dancers. The members of the club are: Messrs. Franklin E. Smith, A. Taraldson, Edward Fisher, Guy W. McCue, Albert Wheaton, R. B. Henson, Edward Goillinger, Alton Palmer, H. J. Oppel, W. J. Beatty, L. R. Behnke.

Mrs. L. S. Loeb of 1123 East Superior street entertained at luncheon Thursday noon at the Panton & White tea-room for Mrs. R. A. Swain of Minneapolis, Mrs. D. L. Fairchild's guest.

The centerpiece was of dark red peonies, and covers were laid for eight. After the luncheon the guests played bridge, the card prize going to Mrs. Edward Windom and the guest prize to Mrs. Swain.

Mrs. C. F. Barncard of 2723 West Fourth street entertained at cards Thursday afternoon at her home, four tables being used. The prizes were won by Mrs. Hiets, Mrs. Warner, Mrs. L. Ramsted, Mrs. Yax and Mrs. Cadott. The other players were:

Mesdames—
R. Mitchell, L. Ebner,
J. Peer, R. W. Smith,
A. McDonald, R. W. Stebens,
J. Shumacker, Milligan,
Cossi, Waldren,
Banker, Knutson.
Miss Margaret Cadott.

Miss Pearl Despin was pleasantly surprised by a number of her friends Thursday evening at her home, 530 Twelfth avenue east. The evening was spent with games and music and refreshments were served. Among those present were:

Misses—
Marion McDonald, Geraldine Black,
Agnes Blanch, Mildred Kelly,
Meldeent Despin, Pearl Despin.
Messrs—
James Smith, Paul Miller,
Bernard McDonald, John Murey,
Charles Curn, Philip White.

Mrs. M. F. Beaudoin of 311 East Sixth street was hostess at dinner Thursday evening at her home, in compliment to Miss Theresa Beaudoin. Pink and white was the color scheme carried out with carnations, and eight covers were laid.

Weddings

The wedding of Miss Grace M. De War and Harold S. Amos took place Monday morning at the St. Clement's church. Father Gustifson performed the ceremony. Miss De War was attended by her cousin, Katherine McInnis. Mr. Amos was attended by Max Klien.

Mr. and Mrs. Amos left for Virginia.

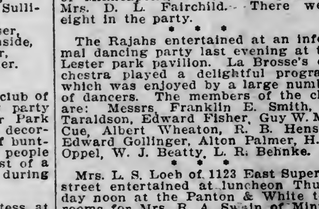
At a pretty home wedding Tuesday evening Miss Verna M. Roberge, daughter of Mrs. E. O. McCorison of 924 East Seventh street, became the bride of Raymond C. Rieth, also of this city. Rev. J. E. Shewell of the St. John's English Lutheran church read the service at 9 o'clock in the presence of about twenty-five friends and relatives.

The bride was prettily gowned in white all-over lace made over pale blue silk and she carried blush roses. Her maid of honor, Miss Ethel Carroll, wore white crepe and carried American beauties.

The rooms were pretty with bouquets of pink carnations.

Mr. and Mrs. Rieth are at home to their friends at 515 East Fourth street.

Miss Ella-Marie Baker, daughter of Mr. and Mrs. Joseph A. Baker, No. 2 Munger row, was married Tuesday at 5 o'clock at her home to Forrest Delbert Pease. The ceremony was performed by Rev. Father Lynch. Immediately after the ceremony Mr. and Mrs. Pease left for their future home in Glendive, Mont.



The Nipple Can't Collapse on the "TEARLESS" NURSING BOTTLE

This ridge, on side of neck absolutely prevents it, by allowing air to enter under nipple, as milk is drawn out.

Prevents Colic—Baby has no chance to swallow air.

Easily Cleaned—Owing to the shape of bottle, and the wide mouth.

Any Good Nipple fits it.
Full directions with every bottle. See that you get them.

10c Each—At All Druggists.

F. H. RHENO COMPANY,
3109 Fifth Avenue, Chicago, Ill.

Forbes Robertson and Gertrude Elliott Return to England

MR. AND MRS. FORBES-ROBERTSON.

Forbes Robertson and his beautiful wife, Gertrude Elliott, have just sailed for England, after a most successful season in America. Mr. Robertson and his beautiful wife are among the few English actors who, today, find it profitable to tour America every winter. This may be because Mrs. Robertson is American born. She is a sister of Maxine Elliott, the American beauty, at one time the wife of Nat Goodwin.

Personal Mention

Mr. and Mrs. M. H. Alworth and son, R. D. Alworth, of 1928 East First street have returned from Tarpon Springs, Fla., where they have been spending the past ten weeks.

Mrs. F. W. Paine of 1007 London road has left for the East, where she will visit for a while before sailing for a trip abroad.

Mrs. Percy Anneke, Miss Margaret Anneke and Mrs. Margaret Lawitzsky, who have been spending several months in California, are expected home June 1.

Mr. and Mrs. Frank M. Warren of Minneapolis spent the week-end here as the guests of relatives.

Miss Jessica Marshall of 2605 Greysolon road will leave tomorrow for a week's visit in New York city.

Mrs. F. L. Barrows of 12 North Nineteenth avenue east will leave the first of next week for a six weeks' visit in the East. She will go to Dwight college to attend the graduating exercises, as her daughter, Miss Margaret, is a member of the graduating class this year.

Mrs. Albert Baldwin and children of 1529 East Second street have returned from Tryon, N. C., where they have been spending a month.

Mrs. E. H. Pugh of 2330 East Third street and Mrs. Charles Neimeyer of Lakeside returned Tuesday afternoon from Cawker, Kan., where they were called two weeks ago by the serious illness of their sister, Mrs. Manuel Boyer, who died before they reached there.

Mr. and Mrs. G. A. St. Clair of East Superior street left Tuesday evening for a visit in New York.

Mr. and Mrs. John McAlpine of 1610 East First street, have returned from Chicago, where they spent the last week on their way home from a ten weeks' stay in California.

Mrs. F. E. Kennedy and Miss Katherine Kennedy returned Wednesday from a visit with friends in Mankato and Minneapolis for a short time.

John Koneczny, who has been studying vocal music this winter with Victor Morrell in New York city, has returned to Duluth for the summer.

Miss Margaret Clark of Hunter's Park returned Monday from Minneapolis, where she has been visiting at the home of her sister, Mrs. W. J. Ryan.

Miss Dale Montgomery of this city has been chosen queen of the May day festivities of the Grinnell college in Iowa. Over two-thirds of the girls of the school will be participants in the affair, for which elaborate preparations are being made.

Mrs. Mary L. Gorton and little daughters Helen and Grace of 1826 London road returned Tuesday morning from a two months' visit at Ackley, Iowa.

Miss Julia A. Carter of 1432 London road returned the first of the week from an outing at Gordon, Wis.

Mrs. W. B. Phelps of Park Point has returned from a two weeks' visit with her mother in Chatfield, Minn.

Rev. and Mrs. R. E. Sayles of the Berkshire apartments are in the East. Mrs. Sayles is visiting relatives in Toronto, Ont., and Rev. Mr. Sayles has gone to Boston to attend the annual international Baptist May meeting.

Miss Lucille Albachten of 621 East First street returned Monday from St. Paul, where she was the guest of Miss Ruth Crowley for the past ten days.

Mrs. A. C. Albachten of 621 East First street left Tuesday morning for the Cass county state sanitarium, near Walker, Minn., where she will spend a few days with her son, Hubert Albachten.

Mrs. J. A. Mellin of 421 West Third street has returned from Minneapolis, where she was the guest of her sister.

E. Williams of 1709 West Second street went to Chicago the first of the week to be present at the commencement exercises at the Armour Institute of Technology, from which his son, Guy E. Williams, graduated Thursday, from the electrical engineering course.

Miss Flo Flett has returned to her home, 422 Sixth avenue east, after spending a short time with friends at Chicago, Lake Minnetonka and Minneapolis, on her way home from Florida where she spent the winter.

Mrs. A. M. Hunter of 408 East Fifth street has gone to Hibbing, Minn., where she will visit her son.

Miss Ella Stringer has gone to Detroit, Mich., to attend the funeral of her aunt, Miss Maria Stringer, a sister of the late D. J. Stringer.

Mrs. L. C. Harris left Monday for a month's visit in Philadelphia and New York.

Miss Ethel Ruggles of Geneseo, Ill., is visiting her sisters, Mrs. H. McKenzie and Mrs. F. H. Hamm, of 4722 Fitt street, Lakeside.

Miss Hannah Lee of 1119 East Third street left Monday for a month's visit in Iowa.

Mrs. E. H. Spalding of East Fourth street has returned from a two weeks' visit in the Twin Cities and Southern Minnesota.

Mrs. Laura McCarthy and daughter, Mardell, of 215 North Twenty-fourth avenue west returned Monday evening from a week's visit in the Twin Cities. Mrs. McCarthy went as a delegate from Pearl Hive No. 4, L. O. T. M., to the convention of that order held in St. Paul May 18 and 19.

Miss Alice Gould has returned from Portage, La Prairie, Man., where she has been visiting for the last four months. Her sister, Mrs. R. A. Stimers, and two sons came to Duluth with her to visit her mother for a few weeks.

Arthur Spear returned Tuesday from Chicago Lake, where he spent the week-end with his mother, who remained there this week.

Mrs. W. P. Lardner of 1901 East Superior street returned Sunday from a two weeks' trip to Niles, Mich., and Chicago. Her mother, Mrs. Finley, of the former city, returned with her. In Chicago Mrs. Lardner spent several days with Mr. and Mrs. Jay Quigley, who were formerly in stock work here at the Lyceum theater. Mrs. Quigley has been very ill, but is improving now and Mr. Quigley is with Ethel Barrymore and has been offered the position as understudy to her leading man.

Miss Sophia Munson of St. Paul is the guest of Mr. and Mrs. L. D. Stickles of Lakeside.

Mr. and Mrs. A. C. Weiss will leave tomorrow for a few days' visit with relatives in Redwood Falls, Minn.

Mrs. George Logan of East Third street left today for a several weeks' visit in Ohio.

Mrs. C. D. Trott of 6 South Fifteenth avenue east has gone to St. Paul for a few weeks.

Mrs. Fitzjames Hill, 2116 East Third street, leaves in the near future for Los Angeles and other Pacific coast cities for the summer.

Mrs. J. J. Palmer and mother, Mrs. Schmahl, will leave next week for a visit with Mrs. Schmahl's son, Julius Schmahl, at St. Paul, the present secretary of state. Before returning home they will visit relatives in Redwood Falls, Minn.

Mrs. C. B. Smythe and son of the Barrington apartments are the guests of Mr. and Mrs. L. S. Meeker of St. Paul.

Mr. and Mrs. H. L. Chase and son Fred of Lakeside, who have been spending the winter months in Florida on their farm, returned this morning.

F. E. House sailed yesterday from New York city for a month's visit with his family, who are sojourning in Europe. Mrs. House plans to return to the city the latter part of August.

Mrs. James Madden is in Chicago spending a few days.

HAWAIIAN PRINCESS TO THE CORONATION

PRINCESS KAWANAKOA.

The handsomest woman on board the George Washington, which sailed from New York last week, was the Princess Kawanakoa of Hawaii, the daughter of Col. James Campbell, deceased, and the widow of the late Prince Kawanakoa, who was the brother of Queen Liliuokalani, last of the royal rulers of the Hawaiian Islands. The princess is going to attend the coronation, where she will wear, over a black satin gown, her famous and priceless feather cloak, made of countless tiny yellow tufts plucked from the head and crest of a bird now extinct.

A Skin of Beauty is a Joy Forever.

DR. T. FELIX GOURAUD'S Oriental Cream or Magical Beautifier.

Removes Tan, Pimples, Freckles, Moth Patches, Rash and Skin Diseases, and every blemish on beauty, and defies detection. It has stood the test of 64 years, and is so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the haut ton (a patient): "As you ladies will use them, I recommend 'GOURAUD'S CREAM' as the least harmful of all the skin preparations." For sale by all druggists and Fancy Goods Dealers in the United States, Canada and Europe.

CLUBS AND MUSICAL

HAPPENINGS IN CLUBDOM AND MUSICAL CIRCLES

Interest in Minneapolis Symphony Concerts Exceeds All Former Years — The Students' Recital.

DULUTH'S interest in the coming of the Minneapolis Symphony orchestra was evidenced yesterday when the sale opened for the advance subscribers. From the time the box office opened in the morning the line of music lovers waiting to choose their seats for the crowning musical event of the year was a long one. Today the sale for the general public opened and the people who had neglected to take advantage of the advance subscriptions were in line to secure their seats.

The festival which will be given Friday and Saturday of next week will be from all indications the most brilliant series of concerts that Duluth has enjoyed. The Minneapolis orchestra has established itself as one of the foremost art organizations of America and Mr. Oberhoffer has selected a group of soloists in keeping with the high standard of his orchestra.

The opening concert will be children's matinee, Friday afternoon, June 2 at which only the school children of the city are eligible to attend. The children's matinee has been made a special feature in Duluth and this year Mr. Oberhoffer has selected an exquisite program to be presented to his young admirers in this city.

The first formal concert of the series will be presented Friday evening when the feature of the concert will be Beethoven's great Symphony No. 2.

A popular matinee will be presented Saturday afternoon and the concluding concert of the series will be given Saturday evening when selections from German, French and Italian operas will be given.

The orchestra is accompanied on its tour this year by a group of assisting soloists who are well known in the concert and oratorio field. They are Lucille Tewksbury, soprano; Mme. Staberg-Hall, soprano; Genevieve Wheat, contralto; Charles Hargreaves, tenor, and Marcus Kellerman, basso.

EMIL OBERHOFFER, Conductor.

GENEVIEVE WHEAT, Contralto.

Genevieve Wheat, by reason of an exceptional voice, careful training and an experience and musicianship more than usual, has attained a prominent position among the leading contraltos of the country. During a six years' residence in New York and Pittsburg she filled several important church positions and was a most successful concert and oratorio singer, being in constant demand throughout the East and Middle West. She has appeared as soloist with the Brooklyn Choral society, Oberlin Musical Union, Musical Art Society of Pittsburg, Mount Vernon, N. Y., Choral society and many other prominent musical organization, and made two festival tours with the Pittsburg orchestra and one with the Theodore Thomas orchestra, meeting with flattering success.

Miss Wheat has a voice of splendid range and quality and her clear enunciation adds much to the enjoyment of her singing.

No singer has impressed the public or corps of music critics to a greater extent in so short a time than Marcus Kellerman, the remarkable bass-baritone.

Barely 30 years of age, Kellerman is a native American, having been born in Cincinnati. Some of his most pronounced successes occurred in Germany, where he sang leading baritone roles for three years at the Berlin Royal opera. Although his contract called for a five-years' engagement, Kellerman abandoned his brilliant, promising operatic career to engage in lieder and oratorio singing.

Kellerman's musical training has been unusually thorough and complete, beginning with his study of the organ. It was during his work as an organist that he discovered his remarkable voice, and appreciating that increased opportunities offered in the field of song, he prepared himself for the task, finishing his preparation abroad in a manner that brought the approval of the composer, Richard Strauss, through whose efforts he was secured for the opera at Berlin.

The first concert for the public will be presented Friday evening, June 2. A popular matinee will be given Saturday afternoon, and Saturday evening will be operatic night, with selections from German, French and Italian opera.

The Head of the Lakes tour has been extended to include Superior, and two concerts will be given at the Grand Theater in that city the Monday following the Duluth engagement. As the programs will be different in detail, many Duluthians are planning to also attend the Superior concerts.

A committee, of which Miss Carlotta Simonds is chairman, is arranging the details for the children's matinee to be given Friday afternoon at 4 o'clock.

Students' Recital.

STUDENTS at the Flaaten Conservatory will appear in a recital Wednesday evening, May 31, at the Y. M. C. A. auditorium at 8 o'clock. A program of merit has been prepared as follows:

FIX UP SIBLEY HOUSE AT ONCE

D. A. R. Will Put All Its Historical Relics in the Place.

St. Paul, Minn., May 27.—(Special to The Herald.)—Historical old Sibley House at Mendota—former home of Minnesota's first territorial governor—will be repaired at once by the D. A. R., who now own it. The legislature appropriated $1,500 for the work, and with a few hundred dollars the association has raised from other sources, the work will be started.

Experienced decorators will plan a harmonious restoration of each room in the house to correspond with the period in which it was built and occupied. As soon as the floors, woodwork and walls have been finished, the association will move to the house all the furniture, relics and antiques it has collected.

MARCUS KELLERMAN, Bass.

FORMER PASTOR IS CONVICTED SWINDLER.

St. Louis, Mo., May 27.—Aaron Donaldson, a mining promoter and formerly a minister of the gospel, was found guilty late yesterday by a jury in the circuit court of obtaining money under false pretenses and his punishment fixed at three years in the penitentiary. A motion for a new trial was made and Donaldson got a new bond for $5,000.

The charge against Donaldson was that he obtained under false pretenses a note of $8,000 from James H. Downs, a wealthy farmer of Assumption, Ill., in payment for mining stock. Mrs. Ora Belle Ridgeley, a divorcee and daughter of Downs, who like her father, claimed to have been defrauded, testified that Donaldson, though married, courted her and proposed marriage.

Sunday Services in Duluth Churches

Rev. Robert Yost, D. D., pastor of the First Presbyterian church of the city, will preach a special sermon for young people next Sunday evening at 7:45 p. m. The service is to be primarily for the young men of the city although young women are also invited.

The sermon is the outcome of an idea in the minds of the young men, who are members of the Young Men's Bible class of this church, which was organized shortly after the arrival of Dr. Yost. The young men desire every young man in the city to hear their pastor, who has been well known in his former pastorates, especially at his last charge which was in Joliet, Ill., for his work among men.

• • •

Body of Bert Tendell Found in Six Inches of Water.

Meets Death By Drowning in Shallow West End Creek.

Bert Tendell, aged 29, laborer, was drowned in six inches of water in a small stream near the bay front last evening

His body was found at 5:10 o'clock this morning, head down with his face lying in a creek at Twenty-third avenue west and about a block below West Michigan street. The discovery was made by Nels Sanzik, engineer at the Scott-Graff lumber mill.

Not more that six inches of water has been flowing through the creek within the past few days. From the position in which the body was found. Indications are that Tendell fell into the stream, and drowned before he could pull himself out.

A post mortem was conducted at the Olson & Crawford undertaking rooms, 2118 West First street, this morning by Drs. Braden and Haney and the cause of death pronounced as accidental drowning. No funeral arrangements have been made.

Tendell was employed by the Barnett & Record company and boarded at 2221 West Michigan street. He is supposed to have left his room at 11 o'clock and to have started towards the Scott-Graff mill, presumably to visit some acquaintances employed there. On his way, he stumbled into the creek.

Tendell is survived by relatives in Ashland, Wis. He has two sisters and two brothers living there. The brothers are James Tendell and William Tendell. Both are expected here today to make arrangements for the funeral.

Quarterly Meeting.

The Women's Auxiliary of St. Peter's Episcopal church held its quarterly meeting yesterday afternoon at the guild rooms of the church, Twenty-eighth avenue west and First street. Mrs. H. M. Herschler, Mrs. Edward Gray and Mrs. W. E. Harmann were hostesses. A program was given. Miss Gladys Barley and Sheldon Johnson gave selections on the piano and Mrs. E. W. Barley and Mrs. William Drummond sang.

Memorial Festival.

A Memorial day festival will be held under the auspices of the Parthenol Society of the Swedish Mission church, Twenty-first avenue west and Second street, Tuesday evening.

The program follows:

Piano duet—"Witches' Flight" ..... Russell
Misses Esther Ekholm and Anna Wester.
Invocation .....
Miss Lena Peterson.
Song—"The Star Spangled Banner" ..... F. P. Key
Ladies' chorus.
Recitation—"The Revolutionary Rising" .....
Miss Marion Lawloss.
Violin solo—Selected .....
Miss Valborg Gunderson.
Recitation—"Mine Eyes Have Seen the Glory" ..... Julia Ward Howe
Miss Eugenia Ostlund.
Song—"I'm a Pilgrim, I'm a Stranger" ..... Marston
Ladies' octette.
Address—"A Tribute of Love to the Memory of a Friend" .....
Rev. Malcolm Magnusson of Chicago.
Song—"Blomman" ..... Reiser
Ladies' octette.
Vocal solo—"Forever With the Lord" ..... Gounod
Mrs. J. J. Daniels.
Violin solo—Selected .....
Miss Valborg Gunderson.
Song—"I Waited For the Lord" .... Mendelssohn
Ladies' chorus.
"America" .....
Chorus and audience.

Following the program refreshments will be served.

West End Briefs.

Mrs. E. A. Smith of 2311 West Third street has as her guests at a week-end party, the Misses Alma Penock, Gertrude Boase, Harriet Levin and Aurora Wiley, all school teachers at Aurora, Minn.

The funeral of Ernest Raymond, 17-year-old son of Mr. and Mrs. P. L. Morterud of 2626 West Fifth street, who died yesterday at the home of his parents of heart trouble, will be held Monday afternoon at 2 o'clock from the First Norwegian-Danish M. E. church, Twenty-fourth avenue west and Third street to Scandia cemetery. Rev. Edward Erickson will officiate.

The Salvation Army corps, Scandinavian branch, will celebrate Oecoration day with a festival Tuesday evening at the Army hall, 1631 West Superior street. The concert will be given under the direction of Adjutant Wallen. Captains Carlson and Nelson will give the principal speeches and the Misses Westerlund and Larson will sing.

At the Swedish Mission church, Twenty-first avenue west and Second street, tomorrow, Rev. J. J. Daniels will preach at the 10:30 service on "The Promise of The Comforter." Rev. Malcolm Magnuson of Chicago will talk on "The Inner Circle" at the young people's meeting at 4 p. m. and in the evening there will be a song service at 7:30 o'clock. After the song service, Rev. Mr. Magnuson will preach on "Absurd Excuses."

$12.50 to Detroit, Mich., and Return.
Via "The South Shore" and the D. & C. steamers, leaving Duluth June 9, 13, 16, 18. Rate to Toledo, $13; Cleveland, $14; Buffalo, $14.50. Limit three weeks. For reservation and further particulars apply to A. J. Perrin, general agent, 430 West Superior street, Duluth, Minn.

A PAGE OF FUN

THE EXCEPTION.

Fred—The fish was four feet long. What I say is true. You know seeing is believing.

Maud—Not always.

Fred—No?

Maud—No. I can see you, for instance.

He Can't Keep Away.

JAMES," said the head of the firm as he called one of the salesmen into the office, "I spoke to you some time ago about your craze for baseball."

"Yes, sir."

"If I advance your salary ten dollars per can you keep away from the games?"

"No, sir, I can't," was the reply.

"I—had thought of giving you an interest in the business."

"But I'd have to go to the games just the same."

"You and Ethel are such good friends that—that—"

"I love Ethel, sir, but between Ethel's love and baseball I must choose the latter."

"In case of your marriage I could give Ethel a check for $20,000."

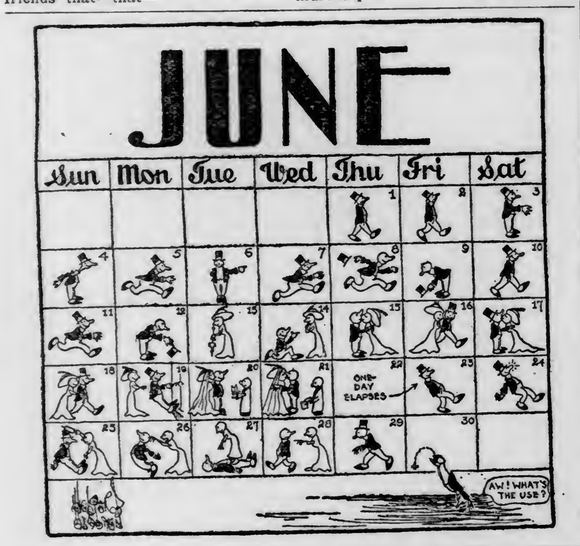
"No use, sir."

"And I would board you both free of cost for ten years."

"Very handsome of you, sir, but baseball for me."

"James, is there no consideration—no offer I can make you—no sentiment I can appeal to?"

"No, sir. The game begins at two o'clock, and it's one-thirty now. I must skip!" JOE KERR.



His Mistake.

WELL, we've got spring at last," said the short, fat man as he waited on the corner with the tall, thin man.

No reply.

"I said we had spring at last."

Still no reply.

"I said we had——."

"See here," said the tall, thin man as he turned on him, "you began speaking about spring away along last January, and have had something to say about it every time we met."

"I know, sir," was the reply.

"But why have you done it? What's your object?"

"Why, sir, you looked so malancholy while the weather was cold that I feared you might commit suicide. I was encouraging you to think that spring would come at last."

"And see what you've done by it. In winter I'm right as a trivet, but with the first hot wave of spring I load my old shotgun to shoot myself. I can't stand the heat, sir. I want the winter, sir. And, sir, if you can't encourage me to believe that next winter will begin in September and be the coldest we ever had you can go to thunder, sir—yes, sir, to thunder and blazes, sir!"

JOE KERR.

PLENTY.

"Did he have any luck on his fishing trip?

"Enough to keep him in conversation for several weeks."

TRUE ENOUGH.

Teacher (severely)—Do you know what becomes of boys who run away from school every afternoon to play ball?

Small Truant—Some of 'em gets into the big leagues.

Memorial Day Girl

FOR she is virile and living,
Radiant, beautiful, strong,
Expressing all of our reverence
In wordless but palpitant song.

SHE seems to embody the spirit
To which all of us homage pay;
In her graver mood she's the essence,
The heart of Memorial Day.

That Was Different.

MOTHER, do you love me?" asked the shy young daughter as she knelt at the maternal knee.

"What an absurd question, Gladys!" was replied.

"But you do love me, don't you?"

"With all my heart."

"And you want me to be happy."

"Surely I do."

"Then—then——"

"Then don't say you don't want to marry Count Frazzle. My heart is set on your becoming a Countess."

"But, mother—"

"He loves you."

"But, you see—."

"And I can buy him for a son-in-law for half a million."

"Mother, dear—"

"And the wedding day must be named. You will never have another such chance."

"But I shall, mother—I shall. I know I shall."

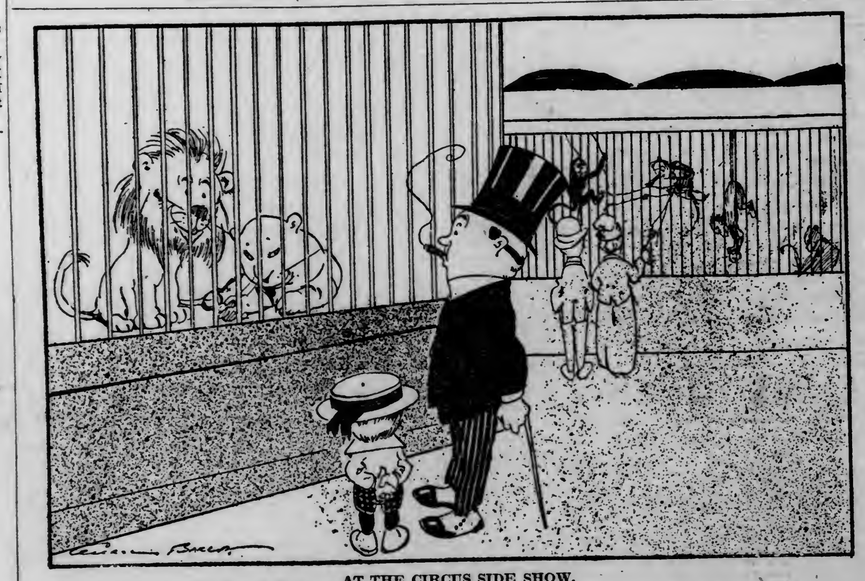
"Gladys!"

"The crack pitcher of one of the greatest baseball nines in the world is in love with me!"

"You don't tell me!"

"He is, and if I know anything about the rules of the game he will propose in a week!"

"That is the Count's ring, my dear. Tell James to inform him that the deal is off and he needn't bother to call again!" JOE KERR.



AT THE CIRCUS SIDE SHOW.

What are those animals in the heavy cage, paw?

A lion and his mate, my son.

Is a man's wife called his mate, paw?

Not always, son. For instance, your mother is the captain and I'm the mate.

INVISIBLE.

How's your garden, old man?

It's simpy out of sight.

That's good.

It's anything but good. The grass and weeds are a foot high all over it.

Take No Chances.

WELL, I suppose your Sunday Schools are holding picnics in the woods about now?" he said to the Vermont farmer he met on a railroad train.

"Well, no, not jest now," was the reply."

"Don't you believe in them?"

"Oh, yes we jest dote on picnics."

"But the spring farm work prevents?"

"No, I can't jest say as it does. No, I wouldn't want to say it does."

"Then what is the trouble?"

"No trouble at all, mister. We arjest waiting."

"Oh."

"Jest waiting for August. You see we are short of snowshovels in my county, and we don't want to go out on a picnic and get snowed in and have nothing but hayforks to dig ourselves out with. That's the way we've built up our State — taking no chances!" JOE KERR.

TOO EARLY YET.

"Cheer up, there are plenty of men in the world."

"Yes, but not at this summer resort."

They Knew.

QUEER about Boston, isn't it? he said to the man on the car beside him.

"I've heard they were rather odd."

"Odd? That doesn't begin to express it. Say, the other day when I was there I saw a man with a fish-pole on his shoulder."

"Nothing queer about that."

"But he was carrying a big fish in his hand."

"I've seen that done."

"But he knew everybody. I saw dozens of men speaking to him."

"Still, I don't see anything queer."

"But not a blamed man asked him where he caught the fish or how much it weighed. Now do you see my point?"

"No, sir. There was no need to ask questions. They all knew he got that fish at the market and he knew they knew it." JOE KERR.

Wayside Wisdom.

Idle hands still find work for Satan to do.

A man with a grievance never lacks a topic of conversation.

Nothing will keep you from leaping like looking before you do it.

Some men resent no blow so fiercely as when an idea strikes them.

Sometimes it is easier to weep over a man's jokes than over his troubles.

Maybe the iceman won't get a chance to deliver any ice in the next world.

The groom doesn't take a very prominent place in a wedding until after it is over.

The average man always thinks he can improve his own reputation by spoiling somebody else's.

What hurts about being swindled is that you were generally just about to do it to the other fellow yourself.

Even Solomon with a thousand wives must have wondered at times if he wouldn't have been happier if he had married somebody else.

EXCUSED.

Jack—I thought you told me hobble skirts were worn in this town? That isn't one.

Fred—Oh, that is the dressmaker. She can't wear one because she has to chase after the others to collect her bills.

UP IN THE AIR.

He: Say you'll be mine, darling! and spare me this suspense!

HIS CHIEF RELIANCE.

Professor (to graduating class in college)—Young men, there is one more question I would like to ask, and that is, what books have helped you most in your struggles for an education?

Young Reggy (promptly speaking up from the foot of the class)—Dad's check-book has helped me about as much as any of 'em so far.

WEST DULUTH NEWS

BRANCH OFFICES:
A. Jensen, 830 North 57th Ave. W. J. J. Moran, 316½ North Central Ave.

DELEGATES TO N. M. D. CONGRESS

President Barnes Appoints Representatives for West Duluth Club.

Following a resolution passed last evening at the meeting of the West Duluth Commercial club, President L. A. Barnes today announced the appointment of the delegates to the annual meeting of the Northern Minnesota Development association, which will be held next week at the Duluth Commercial club.

The delegates are as follows: A. G. Macauley, W. B. Getchell, M. J. Murray, G. M. Cruikshank, C. C. Salter, C. M. Brooks, J. J. Frey, J. A. Scott, C. F. W. Korth, David Sang, Emil Zauft, P. H. Martin, Thomas Olafson, J. B. Flack and A. H. Merriman.

The club passed a resolution to join with the Duluth Commercial club in extending to the Christian Endeavor societies of the state an invitation to hold their next state convention in Duluth.

The Fourth of July association was granted the privilege of using the clubrooms after 9 o'clock next Friday evening, when a merchants' meeting to arouse enthusiasm for the affair will be held.

Rev. S. A. Jamieson, pastor-at-large for the Duluth presbytery, who resigned recently and who will leave in a few days for Portland, Or., gave the members of the club a farewell talk last evening.

The club asked the Eight ward aldermen to take steps to have Fifty-fourth avenue opened up and a right-of-way condemned across the Northern Pacific track. The club also severely scored the Canadian Northern road for placing posts in the street.

SAY AVENUE IS POORLY SPRINKLED.

Central avenue business men are much dissatisfied with the way the thoroughfare is sprinkled.

"If it is a cloudy day and looks like rain," said one busines man today, "the street sprinkler will be very noticeable, but on a warm day, when it is needed the most it never comes around."

Some of the merchants made a complaint this morning. It was claimed that the street was only sprinkled once during the forenoon and that was before 8 o'clock.

Card of Thanks.

We wish to extend our most sincere thanks to our friends and neighbors for their many acts of kindness, floral offerings, and expressions of sympathy tendered us during our late sad bereavement, the loss of our dearly beloved mother.

THE DOYLE FAMILY.

West Duluth Briefs.

A program will be given by the Epworth League of Bethany Norwegian-Danish M. E. church, Sixty-fifth avenue west and Polk street, Tuesday evening.

Rev. Israel Bergstrom will occupy the pulpit of the West Duluth Baptist church, Fifty-ninth avenue west and Grand avenue tomorrow at both services.

The Plymouth Home and Foreign Missionary society has postponed its entertainment which was planned for next Friday evening until June 9. The affair will be held at Plymouth Congregational church, Fifty-fourth avenue west and Bristol street.

Mrs. Anna Nord yesterday underwent an operation for appendicitis at the Duluth hospital. Her condition is reported as improved.

A daughter was born today to Mr. and Mrs. Leander Johnson of 208 South Seventieth avenue west.

Stanley Gilpin left yesterday for Minneapolis on a visit with friends.

For picnics, parties, socials, dinners, you will want Non-Excelled ice cream.

Watch repairing. Hurst. W. Duluth.

Trianon Diary Offers Three Very Fine Bull Calves

One thoroughbred Guernsey at $75.00 and two high grade Guernseys at $25.00 each.

On account of lack of room we offer this high class young stock for sale. This stock cannot be excelled in the country and is from cows producing 7,000 lbs milk per year, with high butter fat test. This stock is offered for the benefit of the breeders in this section of the country and if not sold within a week or ten days these calves will be sent to St. Paul and Southern Minnesota. For further information regarding breeding and records, address, Trianon Dairy, Duluth.

Dancing every Tuesday, Thursday and Saturday evenings.

For terms and dates, apply to

CARL MAINELLA, Manager.
Zenith Phone, Lincoln, 51.

"TWO TO DULUTH" IS THE LATEST

Zenith City Gets Into the Limelight in New Musical Comedy.

Milwaukee, Wis., May 27.—(Special to The Herald.)—"Two To Duluth" is the new "She Sells Sea Sheels" of musical comedy. Johnny Fogarty comes to bat with it in the second act of "The Heart Breakers," running its premiere week at the Alhambra here, previous to being taken to Chicago for the summer. "Two To Duluth" proves a shibboleth that leaves no doubt as to Fogarty's unfamiliarity with the Zenith City of the Unsalted Seas. His tongue twists until his teeth seem awash on a succulent Manhattan somewhere between the bicuspids and the medulla oblongata. Here's the song:

"I've a story sad to tell, which will illustrate quite well,
You must be very careful what you say;
For the language that we speak often sounds a lot like Greek,
When words get twisted in a funny way.
Once a lady went insane, simply trying to take a train
To Duluth, in Minnesota, so they say;
For as soon as she began to inform the ticket man
What she wished, the conservation went this way:

(Chorus.)
"'Two to Duluth,' said the lady to the youth,
Who was selling tickets for the train;
'Tum, tiddle tum,' he replied, and then was mum,
For he thought she had water on the brain.
'Two to Duluth,' yelled the lady to the youth;
'Tiddle dumpty tiddle dum,'' she heard him shout.
'To Duluth,' the lady cried, 'Tiddle dumpty,'' he replied,
While the train——pulled——out.

"So they kept it up that way, the remainder of the day,
Until the lady really lost her sense;
But to tell the bitter truth, if you've ever seen Duluth,
You'll know she was insane when she commenced.
All the people standing by laughed until they though they'd die
At the chatter of the lady and the youth,
And for days and nights to come, ev'ry street car seemed to hum,
"Tiddle dumpt tiddle dum—two to Duluth.'"

The show is by Hough and Adams, staged by Ned Wayburn, with music by Harold Orlob and Melville Gideon.

DULUTH TEAM WINS DEBATE

High School Orators Finally Get Revenge on Pine City.

The debating team of the Duluth Central high school won the contest with the Pine City, Minn., debaters, which was held in the high school assembly hall last evening on the question: "Resolved, That the Cities of Minnesota Should Adopt the Commission Form of Government."

The visitors had the affirmative and the Duluth team upheld the negative. It was one of the best debates held in the city this winter.

There was a musical program before the debate and after it the students entertained the Pine City team at a luncheon.

Alexander G. McKnight acted as chairman of the meeting and the judges were John Dwan of Two Harbors, H. E. Flynn of Two Harbors and Archie McKay of Superior.

The Pine City team was composed of the following:

Miss Lillie Pork, James Clark and Miss Eleanor Clark. The Duluth team was composed of Nathan Cohen, Fred Weinberg and Roger Lerch.

FORMER MINNESOTAN

Mentioned as a North Dakota Gubernatorial Candidate.

Grand Forks, N. D., May 27.—(Special to The Herald.)—George P. Jones of Edgeley, N. D., who first came to public notice some eleven years ago, when, in a Minnesota state Democratic convention he arose to address the body, announcing himself as "Jones of Rock," is looked to by the Democrats of North Dakota as the strongest possibility today in the gubernatorial race of 1912, to succeed John Burke.

The picture shows the safe family boat, 18 x22 feet, seating capacity 8 or 12 people, equipped with a 4-cycle engine, so simple that a small boy or lady can run it.

Do not fail to come and see it.

DULUTH GAS ENGINE WORKS

10th Street and Minnesota Ave., Park Point.

Business established about 6 years, does all kinds of repair work, brass and aluminum castings, makes solid and reversible speed propellers of bronze and aluminum.

THIRTEEN WILL COMPLETE THEIR COURSE AT THE IRVING HIGH SCHOOL THIS YEAR

—Photo by Feuney.

PUPILS OF THE IRVING HIGH SCHOOL.

About 125 students are now enrolled at the Duluth Industrial high school in the Irving school building, Fifty-seventh avenue west and Nicollet street. The high school is finishing its fourth year this spring and the graduation class will number thirteen.

At the Duluth Industrial high special attention is paid to the domestic science and manual training courses. No pains have been spared to make the equipment as nearly complete as possible and it is has only been recently that a new course in iron work was introduced.

The senior class this year will consist of seven girls and six boys. It has elected the following officers: Fred Mattson, president; Florence Meiln, vice president; Ruth RenneH, secretary, and Victor Dash, Jr., treasurer. The other members of the class are Irvin Amundson, Emma Anderson, Joseph Clark, Helen Grimes, Lester Whalen, Esther Johnson, Fred Johnson, Anna Nelson and Eva Ketchum.

Plans for graduation week have not been completed. The class play, which will be given prior to the graduation exercises, has already been selected, the seniors picking a three-act comedy, "Oh! Susannah." No date for the play has been set. It will probably be given in the school auditorium. There are twelve in the cast.

Prof. S. A. Foster of the Irving grade is also principal of the Duluth Industrial high.

CAMP MAJOR DIGGLES ATTENTION!

Comrades will assemble at Memorial Hall, Sunday morning at 10 a. m. sharp, to attend Memorial services, and at 9 a. m. Tuesday morning to participate in parade.

C. G. HOWARD, Commander.

ALL WILLING TO SIGN PETITION

West End Hillsiders Expect to Get Water Main Extension.

The members of the committee of the West End Improvement club, consisting of Ole Kinn, F. W. Norquist, John Youngberg and George Strand, which was in charge of the petition to secure signatures for the Western Hillside extension, state that they wish to thank all those who have aided them, including the residents, the water and light board and the manager of the board.

Special mention is made of Alderman Borgstrom, who voluntarily offered his services as notary public, which entailed considerable work, as it was necessary to go from house to house to secure acknowledgments of the signatures. The necessary guarantee, approximating $1,150 was secured in the remarkably short time of two weeks.

After the residents had been assured that the water mains would be laid along the upper route from the Boulevard to Diamond avenue and Thirteenth street, from Thirteenth street to Piedmont avenue and down Piedmont avenue to Seventh street, no difficulty was experienced in getting their signatures, with the necessary guarantee. The proposed extension will probably be brought up in the council meeting Monday night, and there is practically no doubt but what the aldermen will indorse the action of the water and light board in this regard.

LATE SENATOR JOHNSON'S PIONEER FRIEND DEAD.

Petersburg, N. D., May 27.—(Special to The Herald.)—L. H. Peterson of this city, former president of the local bank, and who came to North Dakota in 1882 as the companion of the late United States Senator Martin N. Johnson, is dead. Messrs. Peterson and Johnson came to North Dakota together nearly thirty years ago, Mr. Peterson homesteading the land that is now platted as the townsite of Petersburg, while Senator Johnson had a homestead adjoining it on the north. They both came from Racine, Wis.

Probate Calendar.

The probate court calendar for next week follows:

Appointments of administrator — In estates of Nicola Garcea, Samuel Nelson, Charles Makale, Oscar Paanonen, Joseph Zadolnik, Lavina M. Clark, Tom Hendricksen, Jovo Vranes, Zioko Kandrich.

Proofs of will — Ole B. Knutsen, Joseph Breole.

Orders to examine accounts—Knute Stahl, Bernhard Launa, P. H. Scanlon, Sarah C. Wheeler, John Todoroff, Paul Sharvey.

Petition to sell land—David Kangas.

Hearing on claims—John Stordahl, Jeremiah Halseth.

Determination of descent of land—Anna Cargill.

Alleged Horsethief's Trial.

Lo Moure, N. D., May 27.—(Special to The Herald.)—L. H. Carter, captured at Pense, Canada, and returned to La Moure county charged with horse-stealing, will be tried in the district court at the September term. Carter in the preliminary hearing, was bound over with his bonds being fixed at $2,000, which amount he has not been able to furnish. Carter is accused of stealing horses near Delsem, this county, and the chase and subsequent capture were extremely exciting, with Pinkerton detectives being called into the play by the county authorities.

Ironwood Funeral.

Ironwood, Mich., May 27.—(Special to The Herald.)—Patrick Noonan, son of Mr. and Mrs. John Noonan, died at the home of his parents in Jessieville of tuberculosis brought on by an injury received some time ago. Deceased was 23 years of age and unmarried. The funeral services were held this morning from St. Ambrose church, Rev. Father Bucholtz officiating. Interment at Riverside cemetery.

BASEBALL

TOMORROW AT 3 P. M.
DULUTH vs. ROCHESTER
Sure to be a corking game.
ATHLETIC PARK.

PRESBYTERIANS CLOSE SESSIONS

Brown Heresy Cases Are Dropped By the General Assembly.

Atlantic City, N. J., May 27.—The Presbyterian general assembly prepared this morning to adjourn finally this afternoon. Practically all commissioners who can reach their homes without traveling Sunday have departed. Others compelled to remain here for the final sessions will not leave until Monday.

The heresy case against Rev. Dr William Adams Brown, a professor in Union Theological seminary, was dropped by the assembly. After Prof. Brown and President Francis Brown of Union Seminary had been found to have done nothing that was unorthodox, Rev. Edwin J. Reinke of Philadelphia presented a resolution admonishing Prof. William Adams Brown to desist from presenting views contrary to doctrinal teachings. Later Dr. Reinke presented a substitute resolution in which Prof. Brown's name was not mentioned, stating "that all ministers had been admonished to avoid any utterances calculated to disturb the peace of the church." The motion was adopted.

ADDITIONAL SPORTS

HARVARD AND CORNELL MEET ON CAYUGA LAKE.

Ithaca, N. Y., May 27.—The annual dual boat race between the Cornell and Harvard crews on Cayuga lake, this afternoon coupled with the other combined navy and spring day events, brought close to 15,000 visitors to Ithaca today. The boat race is scheduled to begin at about 6 o'clock.

Harvard has won only one race since the dual meets between the two colleges began and coach Wray has made a special effort to defeat Courtney's men today. Both coaches say their men are in good form but neither will predict a victory.

GOOD CONTESTS IN SIGHT IN MISSOURI VALLEY MEET.

Des Moines, Iowa, May 27.—With Kansas leading in the list of entrants in the various events in the Missouri Valley Intercollegiate Athletic association track meet this afternoon, Nebraska close up and Missouri with an entry in each event, the outlook early in the day was indicative of the most spirited contest ever witnessed in Missouri valley athletics.

Chief interest, prior to the opening of the meet, centered in the 220-yard hurdles, in which Kansas and Missouri seemed to have the advantage in point of material entered.

AMERICAN SECOND IN LONDON MARATHON.

London, May 27.—The Polytechnic Harriers' Marathon, Sporting Life cup, was run here today and won by Harry Green of the Surrey Athletic club. Michael Ryan of the Irish-American A. C. of New York, but who was entered from Hamilton, Ont., finished second. The race was started from the grounds at Windsor castle and ended at Stamford bridge.

Army vs. Navy.

West Point, N. Y., May 27.—With high officials in both the army and navy interested inspectors, the Annapolis "middies" and the West Point cadets were ready for their annual baseball game today. The teams appeared to be evenly matched. In the matter of games the army leads, having won six out of nine games played since 1901.

IS FORGING TO THE FRONT

Northern Manufacturing Company's Duluth-Made, Union-Made Goods.

Among the Duluth manufacturing industries that has been steadily forging to the front within the past few years is the Northern Manufacturing company, manufacturers of Duluth-made goods for men, in the Christie building, Fourth avenue west.

On page five of The Herald today occurs a full page advertisement with views of the various departments in the company's modern factory.

Not only is the factory equipped with the very best machines and facilities for the purposes desired, but it employs a small army of Duluth young women and girls as operators in the manufacture of mackinaws, shirts, pants and overalls.

The Northern Manufacturing company's products are sold not only in Duluth but all over the ranges, Northern Minnesota, Wisconsin and the Dakotas, in fact the territory is steadily reaching westward.

The company is featuring the Duluth brand pants, Gold Seal brand pants, Duluth brand overalls and Duluth brand mackinaws. A strong point in its favor is the fact that all the goods are union made, of the best grade materials and the workmanship is of the highest grade.

WANTS $30,150 FOR INJURIES

Claiming that by jerking himself back to avoid being run over by a street car, he sustained severe and permanent abdominal injuries, H. E. Speakes of Superior has filed suit in United States court against the Duluth Street Railway company for $30,150 damages.

The accident is alleged to have occurred Feb. 16, 1910. Mr. Speakes says he left a Tower avenue car at Seventeenth street and crossed behind it to cross the other track. Another car, coming in the opposite direction, failed to stop or give warning, he says, and it rushed down on him at a rate of more than twenty miles an hour. He alleges that the quick move necessary to save himself from being run down was responsible for his injury.

Mr. Speakes sues for $30,000 general damages and $150, which he claims was the expense of surgical services.

HUSBAND AND WIFE ARE BOTH FINED.

Wilson Knight and his wife, Mary Knight, were found guilty of disorderly conduct after a trial in police court yesterday afternoon. Knight was fined $10 and costs, amounting to $22.22, and his wife, $25 and costs, totaling $37.22.

It seemed that Knight and Charles Carlson, a neighbor residing at Twenty-first avenue west and Water street, had a difficulty over some live stock which it was said Knight allowed to run at large. When the two met it appeared that Knight struck Carlson, and that Carlson threw Knight to the ground, whereupon Mrs. Knight and one of their children came to his assistance. Several witnesses stated that Mrs. Knight beat Carlson over the head with a stone, aided by her son. Carlson was severely injured and had some bad marks on his head and face when he appeared at the police station to swear out the warrant for the arrest of Mr. and Mrs. Knight. The latter formerly resided in the West end.

WILL AWARD CONTRACTS

The board of public works will probably award the contract, Monday morning, for the paving of Wyoming street between Fifty-fourth and Sixtieth avenues east to E. A. Dahl for tarcon on a concrete base, the bid price of which is $6,276.

Bids were also received for crushed rock macadam, but as the property owners prefer the other, it will likely be laid. Dahl was also low on the bid for the sanitary sewer in East Superior street between Twenty-sixth and Thirty-second avenues, his price being $3,316. He will get the contract.

Friday, bids will be opened for the concrete culvert on Sixth avenue east between Sixth and Seventh streets and for the paving of Tenth avenue east between Fourth and Sixth streets, with a storm sewer.

WATCH FOR WHITE BADGE

Nearly 1,000 Visitors Are Expected in Duluth Next Week.

Twenty-five Delegates Are Coming From Polk County Alone.

Wearers of white badges will own Duluth next Thursday and Friday. Every loyal Duluthian will have a glad hand for the men with white ribbons on their coats, for every loyal Duluthian will be anxious to show his hospitality to the delegates to the fourth convention of the Northern Minnesota Development association, which will open Thursday morning.

Secretary W. R. Mackenzie is having a supply of the white badges printed and each delegate will be provided with a ribbon showing not only that he is a delegate to the convention, but what county he comes from. The white badges should be very conspicuous in Duluth Thursday and Friday, for it is expected that nearly 1,000 visitors will be here for the convention, and they should be able to make a showing in the ordinary Duluth crowd.

Mr. Mackenzie received a letter from J. W. Wheeler of Crookston today, in which Mr. Wheeler stated that Polk county will be represented by about twenty-five delegates at the convention. As Polk county is on the western border of the state, an attendance of twenty-five delegates would be a remarkable showing of interest. If other counties send a crowd as representative, Mr. Mackenzie's estimate of attendance will not fall short.

There is little doubt but that all of the counties making up the association will be well represented. The addresses on the program are upon subjects of vital importance to Northern Minnesota at this time. The officers of the association are anxious that the meeting be thoroughly representative, in order that the stand taken on reapportionment and other subjects may carry the weight it should as an expression of the sentiment of all of Northern Minnesota. The different organizations realize that fact, and there is a general purpose evident to make the meeting a big Northern Minnesota gathering, to place in concrete form Northern Minnesota sentiment on matters of great importance to this part of the state.

DEAD MAN IS NOT FULLY IDENTIFIED.

The man who was killed by the Great Northern train near Brevator, Minn., yesterday morning is supposed to be Gus Schultz, from a name which was printed on the sack which he was carrying. The body was taken to the undertaking rooms of Flood & Horgan, but up to noon no one had appeared who was able to positively identify the body. He stepped from one track to avoid an approaching train and went directly in front of another on the opposite track, being killed instantly.

Capt. John Wilcox Dies.

Capt. John Wilcox, an old resident, died early this morning at St. Luke's hospital, following a long illness of Bright's disease. He was 54 years old.

Capt. Wilcox, a number of years ago, ran a tug in the local harbor, and he is well known in local marine circles. For a number of years he made his home at 14 Fourth avenue east.

Capt. Wilcox is survived by his wife and two sons, all residents of Duluth.

He has made his home in this city for about the last twenty years. Last summer he was in charge of a ferry boat running between Duluth and Superior. Previous to that he commanded the tug Richardson, operated for the Duluth Marine Supply company and the Rathbun Grocery company.

DESERVING OF PROMOTION.

Cleveland Leader: Sol Gage, superintendent of transportation, recently recommended a man in the Lake Shore's employ for an increase in pay. Mr. Gage and this employe engaged in some correspondence over a technical detail of some transportation regulation. In reply to Mr. Gage's third letter this letter came:

"Instead of clarifying the situation your letter of yesterday serves rather to obfuscate it."

"Any servant of a great corporation who can use the word 'obfuscate,' and use it right, deserves more than $60 a month, and I am going to see that he gets it," says Mr. Gage.

The Time to Save Money is All the Time!

Summer or winter you should make a cast-iron rule to add something to the Savings Account each pay day. It is keeping everlastingly at it that wins out. Apportion your income so that the bank gets its share—and be sure that it gets it.

We pay 3 per cent compound interest on savings accounts computed twice a year.

Savings department open every Saturday night in the year from 6 to 8 o'clock.

(Copyright, 1911, by Associated Literary Press.)

Are you without a college degree, too deeply involved in the business of living to get one by the prescribed scholastic methods and still obsessed by a strong yearning to possess one? Take heart, if such be your longing. There is no final reason why your ambition should not be suffered to expand. Even without those academic qualifications which you realize never can be yours there remains a possibility.

It is not a question of books and the burning of the midnight oil. In your case, it is a matter of compelling force. Do something worth while, so convincing that the whole world accepts it, and all the well established seats of higher learning in the country will solicit the privilege of putting you on their honorary lists. Doesn't it stimulate you to recall that in 1833 Harvard conferred the doctorate in laws on Andrew Jackson? Old Hickory had no record of literary attainment to offer the Harvard dons. It was his favorite among those personal revelations which he loved to make that up to the time he went into the White House he had read only one book from cover to cover —"The Vicar of Wakefield."

Of course, it was not this colossal indifference to letters that inspired the keepers of the closely-guarded Harvard honor to proffer it to Gen. Jackson. It was, rather, the graceful acknowledgment of a succession of deeds which had made the old fighter a popular hero and had swept him into the presidency. The guardians of these academic honors at the present day are not less willing to bestow them whenever the distinction can be made reciprocal. That this happy mutuality of distinction is of frequent possibility in these days is apparent from the number of well-known non-graduate Americans who have been "recognized" by universities and colleges.

How Andrew Carnegie Was Trapped Into an LL. D.

There is Andrew Carnegie, for example, who for so many years held out firmly against all overtures from the university men, only to fall a victim to the canny Scotsmen at the University of St. Andrews. Few of the truly great American seats of higher learning had neglected to make it clear to him that the best within their gift might be had for the asking, but he was not tempted. It was a case in which partiality would have precipitated an academic riot, and the shrewd iron master steered clear of the difficulty until he could choose without offensive discrimination.

Despite all his caution, he was captured and by his own countrymen, when, in 1903, he permitted the governing board of the quaint old University of St. Andrews to make him its lord rector, he did not know that he was putting his head into the collegiate noose. Two years after he had been made ruler of this little mediaeval university at the fountain head of golf, he was visited by a deputation of university dons garbed in their academic robes, which are especially brilliant at St. Andrews. "My lord rector," began the dean of the theological school, who was spokesman, "in behalf of the board of governors I have a communication to"

"Is it a dormitory or a new links?" laughed the lord rector encouragingly.

"It is neither, my lord rector," replied the dean soberly. "It is to notify you that at the end of the college year we shall confer the doctorate in laws upon you."

"But, my dear doctor, I have been dodging the honor for I don't know how many years!" exclaimed the unwilling Mr. Carnegie.

"In this case acceptance is peremptory," declared the dean. "It has never been omitted in the history of the foundation. The university traditions are all to that effect. To have been governed by a lord rector who was not a doctor of laws would be regarded as an unwarrantable innovation."

Since there seemed to be no other way out of the difficulty the out-generaled lord rector submitted, but he has never exposed himself to a similar danger.

Some Financiers Who Bear Honorary Decrees.

Why John Pierpont Morgan began his career without a college diploma has always been a matter of conjecture to those who knew him when he was the most studious and best-informed pupil at the Boston English high school as well as to those who were aware of the high standing he attained afterward at the University of Gottingen. There is no question that he might have come home from Germany with the doctor's degree in philosophy had he been so minded, and he has never given any reason why he did not accept it. Throughout his entire career he has exhibited an interest in educational matters that has amounted almost to enthusiasm, and his activity in college enterprise of practically every description would have brought him abundant public recognition long ago from those college authorities who attend to the distribution of such honors had it not been for his lack of cooperation in that direction. Three years ago, however, Yale won his half-hearted consent to enroll his name among its doctors of laws.

Frank A. Vanderlip is another man of finance to whom academic honors came long years after he had put Horace and Homer aside forever. In his case the failure to secure his degree before leaving college was due to lack of opportunity and not to a want of appreciation of the value of a college diploma. It was only six years ago, after he had arrived at notable financial and political eminence, that his college, the University of Illinois, woke to its opportunity and made him honorary master of arts. When Mr. Vanderlip was private secretary to Lyman J. Gage, secretary of the treasury in 1897, the latter received notice one day from the trustees of Beloit college that he would be given the degree of doctor of laws at the coming commencement. Secretary Gage was pleased over the announcement and made no attempt to conceal his jubilation.

"Pretty good for a youngster of 61 who never went to college a day in his life, isn't it, Frank," he laughed, tossing the notice to his secretary.

"I should say so," admitted the future capitalist. "I shall be satisfied to do the same trick at your age, and I have been to college."

Few American Senators On the Exclusive List.

As the record shows, politics has not always proved to be a certain stepping stone to collegiate distinction. A very large majority of the members of the American senate are not college-bred men, and our institutions of learning have done little toward repairing the omission on their part to secure degrees in the orthodox way by making the honorary tender. When Winthrop Murray Crane, junior senator from Massachusetts, was elected governor, in 1897, the discovery that he had never been a college man, and that in consequence he bore no degree, was so contrary to the Bay State practice that Williams college enrolled him as an honorary master of arts and six years later Harvard equipped him with the LL. D., which enabled him to rank scholastically with his fellow solon, Henry Cabot Lodge, albeit the latter won his doctorate after the more strenuous academic method.

Senator William A. Smith of Michigan was so actively engaged in the problem of maintaining physical existence during those early years when otherwise he might have been laying the foundation of a brilliant college career that he had no opportunity to win the sheepskin which, according to his own confession, he always coveted. "I was a messenger boy in Grand Rapids when I began to long for college honors," he says, "and although I longed as ardently as any boy in my condition could, it never came to pass in the accepted storybook fashion. By the time I was ready to undertake it, my opportunity had passed me by." Thus it was that Senator Smith could not divide the honor of his rise to fame and prosperity with any college, but ten years ago Dartmouth was lucky enough to corral him with an honorary A. M.

Senator William J. Stone of Missouri did not finish his college course, but the University of Missouri made him an LL. D., 1893. Senator Francis G. Newlands of Nevada came so close to getting his bachelor's diploma in the usual way that in view of the fact that he had reached his senior year when the interruption came Yale gave him an honorary A. M., but not until a steady upward climb of thirty-two years had made the honors equal. In 1885, being in a mood to honor some one who bade fair to return the compliment at an early day, Dartmouth made Jacob H. Gallinger an honorary A. M. When, six years later, this Dartmouth son by adoption went into the United States senate the old college realized it had made no mistake, but with characteristic Granite State conservatism, it still withheld its LL. D. Over in the neighboring state of Vermont Norwich university bore witness to its faith in the ability of the man who, fourteen years later, became United States senator by making it possible for him to enter that august assembly as Carroll S. Page, LL. D.

Senator Shelby M. Cullom has been a doctor of laws of the University of Illinois since 1903, although during all of the 73 years of his life before that period he had been without defined scholastic standing. Senator Albert B. Cummins of Iowa had lived 58 years and had won both position and a competence before it occurred to the trustees of the little university at Waynesburg, Pa., his birthplace, that it might launch a double honor by creating the brilliant statesman a doctor of laws. A year later its good judgment was confirmed and its good example followed by Cornell college, Iowa.

The only member of the cabinet who went without a college degree until long after he had demonstrated the fact that he was of genuine college caliber by holding a porfessorship in an agricultural college and in various other ways that took him to the head of the department of agriculture is Secretary James Wilson, who, as late as 1904, was created LL.D. by the University of Wisconsin. George W. Wickersham, Mr. Taft's attorney general, is also a somewhat belated degree holder, having been made master of arts by the University of Pennsylvania in 1901 and doctors of laws by Lehigh university eight years later.

Ex-Senator Eugene Hale, who has managed to accumulate more wisdom than becomes the personal property of most men who have devoted long years to the public service, was given an honorary master's degree by Bowdoin in 1869, two years after he made his appearance in the Maine house of representatives. Immediately after he was elected United States senator, Bates college went a step further and made him LL. D., and after a decent interval of two years Colby did likewise, Bowdoin hesitating until 1896.

Luther Burbank's Theory of Study.

Asked recently why it was that he did not go to college, Luther Burbank answered promptly and laconically: "Never had time—too busy."

"Too busy at what, Mr. Burbank?"

"Why, studying, of course."

"Isn't that a trifle hard on the colleges, Mr. Burbank?"

"Well," laughed the naturalist, "perhaps it is, but I didn't mean it that way. What I mean is that I never could make up my mind to give so much time to what, after all, must be only a sort of preparation study. I wanted to get down to the real thing without wasting years over what some other man had done. Nature second hand doesn't amount to a great deal; it doesn't satisfy. It's all a matter of taste and temperament, I suppose. As long as I am more interested in thornless opuntias than in philology what is the use for me to spoil my eyesight over Sanskrit?"

And that is why Mr. Burbank assumed the role of an original investigator without taking the colleges into his confidence. His success has been so notable that the colleges themselves have not resented his independence. One of them—Tufts in 1905—made him a doctor of science.

Three American musicians have made themselves so distinctive—each in his own convincing way—that our colleges have taken notice. One of them, Horatio W. Parker, recent successful competitor for the prize offered by the Metropolitan opera directors for the best American opera, was made an honorary A. M. by Yale in 1892, and he has been professor of the theory of music at that institution since 1894. Frank H. Damrosch, who has accomplished so much toward popularizing classical music in New York city by his system of public and practically free instruction, is an honorary Mus. Doc. of Yale university of the vintage of 1904. Henry E. Krehbiel, who has devoted his whole life thus far to musical criticism, and especially to the elucidation of the Wagnerian music-drama, was honored by Yale with the master's degree in arts in 1909.

Frau Wagner's Idea of the American Musical Understanding.

It is apropos of Mr. Krehbiel and his Wagnerian apostolate in America that an amusing anecdote is current in musical circles both here and abroad, but more especially at Bayreuth, the home of Wagnerism and of the widow of the great composer. As is well known by those who have had occasion to do business with her, Frau Wagner is keen in her scent for a bargain, and never permits her devotion to the cult of her late husband and his works to obscure the market value of the latter. This propensity to realize from the commercial exploitation of the genius of Richard Wagner has come to the front on so many occasions that the thrifty widow has been made the victim of more than one practical joke on its account.

One day a waggish caller at the beautiful Wagner home. Wahnfried, roused all of Frau Cosima's indignation and business alertness by telling her that over in America a certain person was reaping a golden harvest by means of his public interpretations of the theories of Wagner. "Who is the scoundrel?" she demanded in high dudgeon.

"His name is Krehbiel, and he has set all America talking about the 'leit motiv.'"

"What does he know about the 'leit motiv,' and what fools Americans must be to spend their dollars on something they can never understand!" Then she fell into a deep abstraction, presently rousing herself to declare: "I shall go to America myself and put a stop to this fine swindle. I shall bring the 'leit motiv' business to a speedy end. I shall offer the American people something they can really understand. Who is more capable than I to speak of my husband?"

"Shall you tell of his musical theories?"

"No. I shall tell of the socks he wore!" rasped Frau Cosima triumphantly.

Literary Bearers of Academic Honors.

One day shortly after James T. Fields had assumed the editorship of the Atlantic Monthly he was visited by Dr. Oliver Wendell Holmes and James Russell Lowell, whom he had succeeded in the conduct of the magazine. Fields asked permission to read aloud a couple of manuscript poems which had been submitted to him that day and when he had finished reading them he solicited the opinions of his distinguished literary friends.

"Before I commit myself," said Dr. Holmes with mock caution, "I should like to know who the author is. For aught I know, Lowell may have written these verses, although I do not recall anything of his that suggests such a probability."

"Precisely what I had in mind about you, doctor," declared Lowell, "only it struck me that you must be picking up a little in your English."

After the laugh was over, Mr. Fields informed them that the poems were written by a young man from Ohio, whose only education had been obtained in the office of a small country newspaper, on which he had spent several years as compositor and editor.

"Well," said Dr. Holmes, "I don't care especially for the verse, but I don't mind saying that whenever a man who is able to write such English as that comes over to the medical school he will receive the best treatment we are able to give him."

"And when he comes over to the college—if there is enough left of him after that visit to the medical school—we will clap an A. M. on him before he has a chance to protest," laughed Lowell.

Of course the object of all this intellectual pleasantry was William Dean Howells, and when, in 1867, he took Mr. Fields' place as editor of the Atlantic, Harvard turned Lowell's humor into sober fact. This was followed by a veritable epidemic of honorary degrees, which in time crossed the ocean and made its victim a Litt. D. of Oxford.

James Whitcomb Riley had been the holder of the brevet of popular appreciation long years before Yale made him an honorary A. M., "in spite of his bad spelling," as a Hoosier wit observed. At a modest celebration in honor of the academic distinction which had come to him all unsolicited, one of the party who was a master of arts in the regular way congratulated the newborn son of Old Eli on having secured without effort what he had labored several years to obtain.

"Say, rather," advised the poet, "that it has taken me half a century to gain but the shadow of the substance which became yours after a five-year job." Two years later, in 1904, the University of Pennsylvania made Riley a Litt. D. and in 1907 the university of his own state of Indiana requested that in future he would affix its own brand of LL. D. to his signature.

There is at least one doctor of laws in America who is under no obligation to any academic body for the honor. At the age when he should have been storing up the booklore which is the conventional foundation of scholastic honors Edward W. Bok was editor of the Brooklyn Magazine. Only a dozen years prior to this he had landed on American shores with no language at his command save his native Dutch, and that he made himself master of the equipment of a magazine editor in so short a period entitled him to a degree in the College of Hard Knocks, if not from an institution of more restricted charter privileges. Although American colleges have not availed themselves of the opportunity to put a premium on merit of such unique proportions, Pope Pius X has taken the initiative. In 1907 he conferred the honorary degree of doctor of laws on Mr. Bok.

An editor whom American colleges seem anxious to honor with their postmeridian favors is St. Clair McKelway, who made himself a scholar without the aid of academic boosting. In 1883 Colgate enrolled him among her honorary masters of arts, Syracuse followed with an LL. D., the University of Missouri contributed a like distinction and Princeton made 1904 still more memorable by prolonging and extending the honor. Union had already, in 1897, varied the monotony by making it L. H. D. and St. Lawrence, in 1898, with a D. C. L.

Gutzon Borglum's Earliest Missionary Effort.

A man whose achievement as a practical printer has brought his collegiate recognition is Theodore L. DeVinne, made honorary master of arts by Columbia and Yale in 1901. An American sculptor on whom Princeton conferred the degree of A. M. two years ago is Gutzon Borglum, whose work on the Cathedral of St. John the Devine has advanced him to the front rank of "carvers in imperishable stone." Thirty years ago Borglum was a pupil at the Jesuit college at St. Mary's of the Pottawotomies in the Kansas river valley, where his facility with chalk and charcoal was a matter of deep concern to the community. He will never forget a certain day in that quiet retreat which brought him to the notice of the superior in a way that was far from agreeable. In a moment of forgetfulness his artistic propensities had led him to decorate the outside of the door of the parish church with a series of heroic figures in charcoal that were Greek and Roman, but not the fugitive dwellers in the catacombs.

"My dear child," remonstrated the old Jesuit as mildly as the circumstances of the case would permit, "don't you understand that a Christian temple must not be desecrated with figures of Zeus and other disreputable dwellers on Mount Olympus? What you must do is to get as much charcoal off the door as you can and then cover the whole with a coat of paint. Now it is too late to do that today, so what you must do first is to put some clothes on those dreadful creatures and when you have done that you are to label them with the names of the saints. You would better make Zeus into St. Sebastian and the others I leave to your own skill. Do this at once, for fear that some of our Indians should discover your mischief and ask me to explain."

To make sure that his instructions were followed promptly the superior accompanied the boy to the scene of classic exploitation and satisfied himself that the drapery with which the young artist converted the mythological worthies into respectable martyrs was sufficiently ample. When the job was completed, the old missionary's sense of humor got the better of him for an instant and he observed dryly: "If ever you go to convert the heathen, my child, remember that the first step is to put clothes on them."

Others to Whom Academic Honors Came Late in Life.

Two of the greatest living inventors, George Westinghouse and Thomas A. Edison, received the degree of doctor of philosophy from Union college long years after their school days were over. Alexander Graham Bell, practical scientist, did not secure a degree in early life, but the great institutions of America and Europe have repaired the omission bravely. At its five hundredth anniversary the University of Heidelberg made the inventor of the telephone an honorary M. D., and both St. Andrews and Oxford have admitted him to the doctorate in science.

Ex-Postmaster General Thomas L. James obtained his education in a newspaper office, and by the time he had reached the age of 33 Hamilton college discovered that he was worthy of an honorary A. M. After he had retired from his position in President Garfield's cabinet, three institutions—Madison university, St. John's college and St. Francis Xavier's college—enrolled him among their doctors of laws. George F. Peabody, banker and railroad promoter, in his early life in Georgia, had no opportunity to win a college degree, but in 1903 Harvard made him an A. M., Washington and Lee added an LL.D. and, three years later, the university of his native state of Georgia duplicated the latter distinction.

Ex-Congress William P. Hepburn of Iowa was 71 when he received his first degree, LL.D., from Cornell college, Ex-Governor Myron T. Herrick of Ohio accepted an honorary A. M. from Ohio Wesleyan university in 1899. Ex-Senator Julius C. Burrows of Michigan is an honorary LL.D. of his home university at Kalamazoo. George W. Cable had made such a literary reputation at the age of 39 that Yale gave him an honorary A. M., which was supplemented by LL.D. in 1901. Horace Fletcher made himself so conspicuous as the inventor of "Fletcherism" that he became a sort of peripatetic professor in various colleges and in recognition of his researches in human nutrition and vital economics was given an honorary A. M. by Dartmouth.

Benjamin B. Odell, Jr., was admitted to the doctorate in laws by Columbia university while he was serving his first term as governor. Dr. Robert Collyer received a like distinction from the University of Leeds, long after he had convinced the world of his scholarship and power as a preacher. George F. Baer, capitalist and railroad promoter, was learning the printer's trade in Somerset county, Pa., when he should have been acquiring the classical equipment which leads to academic distinction, but Franklin and Marshall college went to his rescue in 1875 with an honorary A. M., and, ten years later, added an LL.D.

Last June Columbia university bestowed an honorary A. M. on Mrs. Marlana G. Van Rensselaer, whose "History of the City of New York in the Seventeenth Century" would have entitled her to collegiate distinction had she never written entertainingly on various art topics.

Miss Helen M. Gould was made L. H. M. by the University of New York at the completion of the Hall of Fame on the campus of that institution.

"What a Relief!"

Only the woman who has tried knows what comfort and relief a New Perfection Oil Cook-stove brings into the kitchen.

It is not only that the New Perfection cooks so well. It saves so much work in other ways. There are no ashes to clean up before going to bed; no fire to bank for the night. Everything is ready for cooking in the morning at a touch of a match.

You are saved from an overheated kitchen; saved from soot and dirt; saved from chopping wood and carrying coal. In the kitchen or the laundry, for the lightest or the most elaborate meal, you will find the New Perfection stove with the New Perfection oven is the best and most convenient.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

Dealers everywhere; or write for descriptive circular to the nearest agency of the

New Perfection WICK BLUE FLAME Oil Cook-stove

Standard Oil Company (Incorporated)

COPENHAGEN SNUFF

GUARANTEE OF QUALITY AND PURITY

Copenhagen Snuff is made of the best, old, rich, high-flavored leaf tobacco, to which is added only such ingredients as are component parts of natural leaf tobacco and absolutely pure flavoring extracts. The Snuff Process retains the good of the tobacco and expels the bitter and acid of natural leaf tobacco.

AMERICAN SNUFF COMPANY, 111 Fifth Avenue, New York, N. Y.

SOCIAL and OTHER NEWS of our NEIGHBORS

DEERWOOD

Deerwood, Minn., May 27.—(Special to The Herald.)—The senior class of the Brainerd high school visited Deerwood Wednesday afternoon and enjoyed a pleasant outing on Serpent lake. They were chaperoned by Miss Millicent Mahlum.

Roger R. Hill, secretary of the C. M. Hill Lumber company was a visitor on the Cuyuna range Thursday afternoon, being taken to Crosby, Ironton and other points and to the drilling camps by B. Magoffin, Jr., in his new automobile.

The new store of A. S. Nygord is about completed. Painters are putting on the outside coats of paint. It is a frame structure two stories in height and as soon as finished will be occupied by Mr. Nygord with a new stock of flour, feed, groceries, etc.

A cement sidewalk is being laid around the First National bank corner.

All stores will close in Deerwood on Decoration day.

John A. Nelson of Duluth has purchased two lots near Mrs. Barten's hospital and has commenced to build a residence.

Ernest Haglund has purchased a beautiful home on Serpent lake with pleasant grounds and is now established in his residence. It is situated near the Ingalls Motor Boat company landing and dock.

John Dower, president of the Dower Lumber company, was at Deerwood, Crosby and Cuyuna today inspecting the branches of his company. He was at Brainerd on Tuesday.

James Elder and Munroe Elder, Mr. and Mrs. Ike Bresle of Owensboro, Ky., were guests of Mr. Elder today, who took the party to Deerwood in his automobile to visit the Misses Bishop, his nieces.

The Augsburg society of young people gave a concert at Deerwood on Thursday evening. The Bethlehem male quartet of Brainerd took part and came in an automobile.

Miss Margaret Torgerson has been sick several days.

Miss Esther Theorin and her brother-in-law, Arthur Brandt, took a trip to Minneapolis in the automobile of E. T. Buxton, which Mr. Brandt brought down for repairs.

Mr. and Mrs. A. M. Opsahl and Miss Marie O. Opsahl were Deerwood visitors today and also took a trip by carriage to Crosby.

William Seafield is at Buhl on business connected with the Helmer Exploration company.

At the last meeting of the village council the matter of having a health officer was attended to and Dr. William Reid was appointed at a salary of $75.

J. A. Obers, agent of Harms, was paid $20 as rent for building used during quarantine. The cattle ordinance, No. 9, received its second reading

TWIG

Twig, Minn., May 27.—(Special to The Herald.)—Hammond & Anderson have their shingle mill running in first class shape and are turning out a large amount of fine shingles every day. They are employing about ten men now and expect to have enough material on hand to run all summer.

Stephen Peterson and Gust R. Wester were in Duluth on business last Tuesday.

Members of the Grand Lake brass band held an informal band concert at Peterson's store last Tuesday night.

The recent rains have made all the crops look very good here and the farmers feel sure now of fine crops.

Miss Ethel Wallin of Duluth is spending her vacation with relatives here.

Miss Emily Newberg of Proctor spent Sunday here with friends.

The dance given by the Twig baseball team last Saturday evening at the town hall was a success.

Mrs. Louisa Helgemoe has been spending the last two weeks with friends in Duluth.

Frank Peterson left here last Monday for Duluth, where he will be employed for some time.

CLOQUET

Cloquet, Minn., May 27.—(Special to The Herald.)—Dr. Farr of Minneapolis motored to Cloquet Thursday for a few days' stay at the W. H. Farr home.

City Attorney J. A. Fesenbeck and City Engineer E. S. Spencer were in St. Paul Wednesday.

Word has been received from the former Indian farmer of the Fond du Lac reservation that he is in Klammath Valley, Or., and his health is much improved.

Supervisor Pierce of the Indian schools of the Fifth district was in Cloquet between trains Wednesday.

Mrs. Orlo B. Elfes, Misses Gunnell Huseby and Margaret Huseby and Miss Ruby Brower went to Thomson Thursday and took supper at the Brower home.

Mrs. M. McGuiney and Frank Kavanaugh of Ottawa, Can., are guests at the John McDonald home. Miss Lila McGuiney, who has been attending school in Cloquet, will return to Ottawa with Mrs. McGuiney when the latter's visit is completed.

Mrs. Victor Nelson was operated upon at the hospital in Duluth Wednesday for appendicitis.

Miss Jessie M. Hawkins, the eighth grade teacher at the Garfield, was called to Minneapolis the fore part of the week.

Miss Maude Seely is spending the week-end in Coleraine, the guest of Miss Julia Nolan.

Ross Campbell, a son of J. W. Campbell of this city, is among the students at the university who are ill with diphtheria.

Charles Deming has sold his home on Fourth street to L. E. Kennedy and with his wife and daughter has gone to Chicago. They will locate on a farm either in Michigan or Wisconsin.

Mrs. Peter Olesen and daughter, Mary, leave next week for Waterville, to visit Mrs. Olesen's parents, Louis Dickie, who has been attending school here will accompany them.

Mrs. C. L. Dixon entertained Wednesday afternoon at bridge in honor of her guest, Mrs. Taylor of Stillwater, and for Mrs. J. De Lescaille of Davenport, Iowa.

Miss Mann of Milwaukee, Wis., is a guest at the Hugo Schlenk home.

Mr. and Mrs. James Peacha entertained at bridge Tuesday evening. There were ten tables.

BEMIDJI

Bemidji, Minn., May 26.—(Special to The Herald.)—Mrs. H. Wood and two children went to Brainerd last Saturday for a visit at the home of Mrs. Woods' parents. Mr. and Mrs. Woods formerly resided at Brainerd.

Sam Simpson, the Minneapolis logger and lumberman, who has many interests in Northern Minnesota, was a business visitor here recently.

R. E. Keck of St. Paul, traveling claim agent for the Great Northern Railway company, visited here recently.

E. D. Alger and wife were in the city from their home at Tenstrike.

John McCarthy, one of the laboring men who made Bemidji their home, paid a fine of $10, having pleaded guilty to catching pike that were not of the regulation lawful length, according to the statutes made and provided.

E. F. Miskella of Cass Lake was a visitor here recently.

M. M. Nygaard of Park Rapids, register of deeds of Hubbard county, accompanied Sheriff Petrie in the latter's investigations in the Lloyd Carlton case this week.

Allan Benner, ex-chief of Bemidji police, was in the city the first of the week from Baudette, where he is now engaged in business.

Henry Dahlstul of Blackduck was a Bemidji visitor Monday.

A. Kaiser, cashier of the First National bank of Bagley, made Bemidji a business visit Monday. Mr. Kaiser says that Bagley is progressing and that the farmers and dairymen of Clearwator county are enthusiastic over the indications for large agricultural returns and the advancement of dairying in that section.

J. N. Gayner of Litchfield, a former deputy public examiner, was in Bemidji the first of the week. Mr. Gaynor was accompanied by T. Hollihan, also of Litchfield, and they looked over some land in this vicinity which they may purchase. They were well pleased with what they saw.

Ex-State Senator A. D. Stephens of Crookston, while in Bemidji Tuesday, stated that he intended to go to St. Paul at once and take charge of the presenting of the charges against F. A. Whittier, superintendent of the Red Wing training school.

A. B. Harris, a Crookston cigar man, a brother of A. E. Harris of this city, came to town the first of the week with a fine auto, which he is using to advertise his business.

BROOKSTON

Brookston, Minn., May 27.—(Special to The Herald.)—Deputy Sheriff King was up from Duluth Wednesday, subpoenaing a number of witnesses for the case of the state against Alex Shacdock, who has been held on a charge of perjury.

The basket social and dance, given for the benefit of the local baseball team last Saturday evening, was a huge success both socially and financially. The sum of $47 was derived from the sale of baskets.

F. E. Johnson, the Superior architect and superintendent, spent Sunday with his family, who are visiting at the Eklund home.

Eugene Ullmann, a former resident of this village, spent Sunday with his friends here. It is about five years since Mr. Ullmann left here, and during that time he resided in Montana. He recently sold his holdings in the Western state, and will probably again locate in this neighborhood.

Master Clifford Keable suffered a bad cut on his leg Saturday afternoon while he was whittling. The knife slipped and a deep cut resulted. The wound bled profusely for a few moments, but he did not suffer any severe consequences and he was able to be around again the next day.

Nels Hector, who had charge of the construction of the Great Northern water tank here last summer, arrived from Miles City, Mont., Monday, and is making some repairs to the tank. Among the improvements being made is the erection of a standpipe between the eastbound track and the passing track. This will do away with a great deal of the congestion of engines at the tank.

The members of the state railroad and warehouse commission passed through here Wednesday morning on their way to Poupore siding, where a hearing was held regarding station facilities. At a hearing last fall the commissioners ordered a station erected there, but since that time the railroad company has made known its intention of erecting a depot at Congo, a mile and a half east of Poupore, and the officials of the company are against having their stations so close together. However, it is hardly probable that the railroad and warehouse commissioners will change the decision handed down last fall, as the country surrounding both Poupore and Congo is being rapidly settled up and there is need for station facilities at both points.

Quite a number of Brookston people, both young and old, went to Poupore siding Thursday to attend the picnic, which was given in honor of the closing of the school there. The feature of the day was the ball game between the Brookston Bloomers and the school children's team from Poupore.

Miss Gertrude Wentzell, local school teacher, arrived from Duluth, Wednesday, for the purpose of conducting the state examination.

Mrs. Mary Garland has been confined to her bed by illness this week.

A petition will be presented to the county board of education praying for the erection of an addition to the local school building. After the terms of school the building has proven to be entirely too small to accommodate the children, and it will be necessary to have larger quarters before the commencement of the fall term.

FOND DU LAC

Fond du Lac, Minn., May 27.—(Special to The Herald.)—Mr. and Mrs. A. L. Marvin and their daughter spent Saturday at their summer cottage here.

Mrs. F. A. Trolander was a Duluth caller Wednesday.

Mr. and Mrs. Hans Skar entertained a few friends at their home Thursday evening. Music was the chief amusement, which was rendered by F. T. Myklebye and George Lind.

CASS LAKE

Cass Lake, Minn., May 27.—(Special to The Herald.)—Game Warden J. B. Spencer came from Walker Tuesday, and in company with County Attorney Funck and Deputy Sheriff Kennedy of this place, went to Boy River, where the game warden had suspicions of some one breaking the fish laws of the state. Reuben Smith and John Woods were found just as they were shipping four barrels of fish to a Twin City commission house. Their tents, cooking outfit and three boats were also confiscated, besides the fish. A hearing was held before Justice Foote at Boy River and the illegal fishermen were sentenced to the county jail for thirty days.

H. N. Harding is at Remer this week looking after the construction of the new brick bank building for the First State bank, in which he is a stockholder. Contractor Ring of Minneapolis arrived Wednesday and has already commenced work on the building.

John Taylor has opened a tailor shop in a building opposite the Endion hotel.

Postmaster Grady is spending the week with friends at Minneapolis.

Special services will be held at the St. Charles Catholic church on Sunday, May 28, when a large class of children, forty-seven in number, and residing in Cass Lake and Walker, will receive their first holy communion. Early mass will be held at 7 a. m.; solemn high mass at 9 a. m., during which time the children will receive their communion; solemn reception into the archon fraternity of the scapulary, with sermon and benediction, at 7:30 p. m. In the afternoon, from 3 o'clock on, the Catholic ladies will serve ice cream and cake at the parsonage.

Judge Foote of Boy River was here over Thursday evening.

Mrs. Joseph Donnery of Onigum spent several days here this week visiting relatives.

J. F. Fennessy met with a near-fatal accident last Saturday evening at the rear of the Dugas hardware store. He was walking around in the dark, when he fell into the opening leading into the basement, striking his head along the edge of the stone wall and receiving several bad cuts.

Miss Anderson and Miss Hart were Bemidji visitors last Saturday.

W. C. Hart of Nashwauk spent a few days here with his parents before going to Michigan on an extended business trip.

County Attorney Funck and Deputy Sheriff Mack Kennedy left yesterday for Red Wing, taking with them two young boys of Walker who have been committed to the training school.

J. R. Swann of Madison, Minn., is spending a few days here this week visiting with his friend, M. N. Koll.

Mr. and Mrs. L. F. Miskella left Wednesday to take up their residence on a homestead a short distance out from Little Fork.

Mrs. D. V. Wardner returned Tuesday from the Twin Cities, where she attended the state convention of the L. O. T. M. as a delegate from the local tent.

The dance which was to have been given last Monday evening for the benefit of the little Gamache boy was postponed on account of the weather, and will be held on Monday evening, June 5.

The baseball boys go to Deer River for a return game Sunday afternoon. The Deer River team will make an extra effort to even up for the crushing defeat handed them at the hands of Cass Lake last Sunday.

Next Tuesday, May 30, the locals will take on the strong Akeley team on the Cass Lake grounds. Akeley has been playing regularly the past four weeks and their team is in good condition to put up a stiff game.

FLOODWOOD

Floodwood, Minn., May 27.—(Special to The Herald.)—Mrs. P. Berg visited Saturday and Sunday with her daughter at Superior.

Misses Emma Johnson and Margaret Brown entertained the M. E. ladies aid society Saturday.

M. J. Coolidge of Minneapolis was in the village Tuesday looking after his business interests here.

Mrs. Arthurs and little child of Cloquet visited over Sunday with Mrs. Amos Garrett.

Jack Hakala, a former resident of Chisholm, arrived in the village with his family last week and in the future will be a resident of this community, having purchased a farm about six miles from town on which he expects to erect extensive buildings the coming summer. At the present they are domiciled at the farm home of Mrs. Hakala's parents, Mr. and Mrs. Matt Wiita.

Miss Herriet Pehl a former telephone operator at this place, the past year employed at Deer River, called on friends in the village Wednesday while on her way to her home at Mazeppa.

F. A. Brubaker, who has been teaching the past year at Embarrass, arrived in the village Wednesday with his family for a vacation visit at the home of his wife's parents, Mr. and Mrs. Carl Sandboe.

Miss Ethel Gourley visited at the J. D. Moore farm Wednesday.

Mrs. J. D. Moore went to Bemidji Thursday with her daughter Maggie, where the latter will take treatment at the hospital.

A party of young folks gathered at the Alhambra hotel last Saturday evening to surprise Miss Julia Alberg. The large dining room was cleared of the furniture and the young people spent the evening in dancing and general sociability. A dainty lunch was served at the close of the gaities.

Mrs. J. C. Arnold who has been spending a month visiting her daughter Mrs. Ullan of Duluth, returned home Sunday.

Mrs. J. E. Brandmier went to Bemidji Thursday for a few days' treatment at the hospital. During her absence the children will visit with their grandparents at Grand Rapids.

John Mustonen who recently sold his livery business at Buhl, Minn., this week purchased the Felix Rahja farm and will make this his future home.

Misses Julia Alberg and Hazel Wolfe and Mr. W. Elson visited with friends in Brookston Sunday.

M. H. Schussler of Minneapolis was in the village Friday looking after his business interests here.

Mr. and Mrs. M. W. Hingeley returned from Duluth and the Vermilion range Tuesday from a few days' outing.

TOWER

Tower, Minn., May 27.—(Special to The Herald.)—John Talle, wife and two children came from Biwabik in their automobile Thursday for a short visit with relatives.

C. L. Gates and mother, residents of Tower several years ago when O. A. Gates was superintendent of the Vermilion Lake Indian school, are expected here June 1 from California to visit old friends.

Robert Zollensber and C. J. Emerson of St. Paul, who are engaged in making a survey of the Vermilion river were in town this week.

Mrs. Ed Mahar and infant daughter, and Mrs. John Pfeffer, Jr., and infant daughter, have returned to Virginia after a visit of several days at the home of Mr. and Mrs. John Pfeffer.

A large party of Tower young people spent the week-end at Gold Island, returning Sunday night about midnight in Goodwill's launch.

Edward Pauna, 12 years old, has returned to Virginia after a three months' stay at the Soudan hospital. He underwent an operation for tuberculosis of the elbow and is now cured.

A camping party came up from Virginia Monday and have taken one of the cottages at Gold Island.

There is every indication that the blueberry crop in this section will be the largest in years.

The Ladies' Aid Society of the St. James Presbyterian church held a public tea at the home of Mrs. John Schmid Wednesday afternoon. A fine lunch was served and a large number were present.

Miss Anna Collins, who has made her home for the past year with Mr. and Mrs. J. N. Burgess left Sunday for Chicago, where she expects to enter the Cook county hospital to study nursing. Miss Ethel Burgess, who accompanied her as far as Duluth has returned home.

The 4-year-old daughter of Mrs. Hannah Hill of Soudan is seriously ill with infantile paralysis.

The Tower and Soudan baseball teams played an exciting game of ball on the Tower grounds Saturday, Tower winning by a score of 5 to 6.

Charles A. Kolb has returned to his home in Pittsburg, after a brief visit with his brother, Ferd E. Kolb, manager of the Vermilion hotel.

The last dance of the season will take place at the Vermilion opera house, Monday evening, May 29. An orchestra of five pieces has been engaged and it is expected there will be a large attendance.

Mrs. O. W. Akerson and children are expected home June 1 from Long Beach, Cal., where they have been spending the winter.

The rectory of St. Mary's Episcopal church has been sold to George Kilto, who will move his family thereto within a short time. Mr. Kilto will make a number of needed repairs.

Frank Smiley, who resided here several years ago, was killed in Minneapolis recently by being struck with a street car.

Mrs. John Owen of Ely is at the Soudan hospital recovering nicely from an operation for appendicitis.

A. T. Johnson, an old resident of Tower has purchased property in Duluth and will move his family there soon.

Mrs. J. E. Robertson arrived home from Minneapolis Saturday, where she has been visiting relatives for the past three weeks.

Mr and Mrs. John Hickey's little daughter, Fern, who has been dangerously ill the past two weeks with brain fever, is much improved.

J. S. Merrill, who underwent an operation at the Soudan hospital is gradually improving.

MEADOWLANDS

Meadowlands, Minn., May 27.—(Special to The Herald.)—Sam Fredrickson and family of West Duluth arrived here this week. They intend working their farm east of town.

W. J. Marvin of the land department of the Duluth & Iron Range was here Saturday.

Thomas Ademitz of South Bend, Ind., arrived Sunday evening to visit his brother, Izndore Ademitz.

Lawrence Coplous of Staples came here Sunday to look over land with the intention of buying a farm and locating here.

Anton Olson of Osceola, Wis., was here Sunday on a visit with his son Sanders.

Joe Dardis of Duluth arrived here Monday evening looking after a contract to clear land for the Duluth & Iron Range land department.

E. C. Eppard and Andrew Nelson were in Duluth Tuesday.

M. J. McGovern of Hibbing was here this week and sold three lots while in town.

E. J. Bunker of the firm of E. J. Bunker Lumber company of Duluth was here Friday looking over the town.

William Compton bought two lots in Meadowlands this week and has ordered his lumber to erect a dwelling house.

Mrs. J. N. Tidd went to Duluth Wednesday.

Miss Lydia McCarthy was very sick during the past week, but is getting better.

Otto H. Lemberg is putting up an addition to his hardware store.

Charles Worthing has traded his lot for another more suitable for his business.

Dr. McKay of Duluth was here Tuesday looking after some stock at the demonstration farm.

Frank L. Young, an architect, was here Thursday with plans of the new schoolhouse.

The ladies' aid met with Mrs. D. Kelly Thursday afternoon. A large number were present.

Charles Alenius went to Duluth Friday on business.

Dr. Glyer of Marble was here Wednesday on a sick call.

HERMANTOWN

Hermantown, Minn., May 27.—(Special to The Herald.)—A dance was held at the Hans Ugstad home last Saturday evening. Many of the young folks attended.

Mrs. Bessie Giddings of Hermantown is visiting friends and relatives of Duluth this week.

Miss Olga Rose of Duluth is spending her summer vacation with her parents of Solway.

Misses Ellen Fagerstrom and Opal Wiltse of Solway visited with friends of Pike lake, Sunday, May 21.

Commissioner Al. Overton passed through Hermantown Thursday.

Miss Leonoca Ulsrud, teacher of the Adolph school, is giving the state high school examination to the children of District No. 6 this week and next.

Christ Peterson who has been visiting his brother, Nels P. Johnson of Five Corners for a few weeks, returned to Duluth last Thursday.

Miss Alma Ulsrud and Miss Alma Wentzlaff visited the latter's home a few days last week.

Miss Ellen Fagerstrom entertained Thursday evening for Miss Opal Wiltse. Games and dancing furnished the amusements of the evening. Refreshments were served, violets forming the floral decorations. Those present were: Misses Bertha Wargin, Adelphine Wentzlaff, Olga Rose, Opal Wiltse, Viola Wentzlaff, Martha Schilling, Edla Dahlen and Etta Gustafson; Messrs Nicholas Wargin, Erwin Wentzlaff, Emrey Fagerstrom, Joseph Wargin, Herbert Dahlen, Arthur Pearson, Fritz Gustafson, Herbert Wentzlaff, Leo Wiltse and Carl Larson.

Mrs. Joseph La Fortune and son Leo visited friends and relatives of West Duluth this week.

A dance will be

NEWS OF THE NORTHWEST

GRAND FORKS TO BE BUSY

Fourteen State Conventions and Annual Associations Meet in June.

G. A. R., Masons, Elks, Eagles and Other State Organizations to Meet.

Grand Forks, N. D., May 27.—(Special to The Herald.)—Fourteen state conventions and annual association meetings or conferences is the program here next month.

The meetings will open next Sunday when the North Dakota Episcopalian meets, continuing till Tuesday. After the Episcopalians adjourn, the grand lodge of Odd Fellows will meet June 6 and 7; the Rebekah lodge, June 6 and 7, and the grand encampment of the Odd Fellows, June 8.

On June 13 two conventions will be opened, the North Dakota Opticians' association and the North Dakota Jewelers' association, and continue three days.

G. A. R. Meeting.

The second day of these two conventions will see two other encampments commence, June 14, the Grand Army of the Republic and the Women's Relief corps, and be in session two days. Both of these bodies will bring a large number of people to the city.

Eagles of the state are coming to town. A parade and a picnic are two of the big features proposed.

On June 21 the Elks will take possession of the city, the occasion being the first annual meeting of the North Dakota Elks' association. There are nine lodges in the state and each proposes to send large delegations. The Crookston lodge will be represented, while there will be other visitors from over Northern Minnesota.

Masonic Meetings.

On June 26 the Kem Temple Shriners hold forth for their ceremonial, the fourth since institution. It will bring a large caravan to the city with Shriners in attendance from all points of the compass. The next day the grand lodge of the Masonic order will be called, continuing two days, being followed by the grand chapter of Masons. Simultaneously the grand chapter, Order of Eastern Star, holds forth in its annual conclave, so that the four days, June 26 to 29, inclusive, will be filled with activities.

There will also be the commencement exercises at the University of North Dakota, at Wesley college, St. Bernard's academy and the local public high schools.

GETTING READY FOR THE FOURTH

East Grand Forks Elects Officers to Arrange for Celebration.

East Grand Forks, Minn., May 27.—(Special to The Herald.)—Preparations for the big Fourth of July celebration to be held in this city are now in the hands of special officers and committees, elected at a mass meeting of citizens held yesterday afternoon.

The officers and committee chairman are: Ed Lodgord, president; H. E. Grappote, secretary; executive committee, Hugh Thompson, J. W. Kearns, and L. O. Lystad; finance, H. P. Gies; reception, T. A. Sullivan; printing, D. J. McDonald; advertising, J. H. McNicol; music, George Brown; floats, William Boeger; sports, Neil Kelleher. Attorney G. A. E. Finlayson was elected master of ceremonies, and D. J. McDonald as marshal of the day while the judges of the parade will be F. C. Massee, L. Kingman, John Gally, Charles Ryan and William Rasmussen.

GOVERNOR JOHN BURKE HAS MADE SOME APPOINTMENTS.

Bismarck, N. D., May 27.—Governor Burke has made the following appointments:

State board veterinary medical examiners—Dr. W. S. Stinson, Grafton, one year; Dr. C. H. Babcock, New Rockford, two years; Dr. F. B. Farmer, Wahpeton, three years.

State pardon board—S. A. Fisher, Strassburg; H. S. Rearick, Cooperstown. These members succeed Charles Wing and W. A. Faulkerson.

Delegate national board of charities and corrections, meeting at Boston, June 7-14—Miss Lilliam Topping, Fargo.

Delegates to the American Prisons association meeting, Omaha, Oct. 14-19—F. E. Packard, Valley City; Rev. George N. Newcomb, Bismarck; Max Schultze, New Salem.

SAVE THE HAIR

Newbro's Herpicide Will Do It

No woman should have poor, thin, scraggy hair, and no man need become bald. Poor hair and final baldness are due to the dandruff germ.

Newbro's Herpicide will destroy this little germ and stop the hair from falling. Further evidence of this is found in a letter from Mrs. F. Neilsen, of Tomah, Wis. She says: "I fought the worst kind of dandruff for nine years. I have been using Herpicide now one week, and my scalp is healthy, the dandruff has gone and the itching has stopped. It is the best remedy for scalp diseases I ever saw, and I have seen many."

Don't subject yourself to disappointment and expense by accepting something claimed to be "just as good" as Newbro's Herpicide. These off brands may possibly be good, but why take chances? The genuine and original dandruff germ destroyer can always be obtained. If your own druggist has nothing but "just as good" articles, go to Lyceum Pharmacy or Lenox Drug Store, who will furnish you with Newbro's Herpicide and guarantee one dollar size bottles. It stops itching of the scalp almost instantly.

Send 10c in postage or silver for sample and booket to The Herpicide Co., Dept. R., Detroit, Mich.

Applications at good barber shops.

NORTH DAKOTA IS GETTING SOAKING

More Rain, So Fargo-Grand Forks Auto Run Is Abandoned.

Fargo, N. D., May 27.—(Special to The Herald.)—Showers last night made the total precipitation for the past twenty-four hours seventy-hundredths of an inch. The entire state had a good soaking and more showers are predicted during today.

Abandon Auto Trip.

The Fargo Automobile club has called off the annual run to Grand Forks today and it will occur next Saturday. The recent rains over the state and in the Red River valley made the roads too heavy for the run.

WORRALL'S DEATH STILL MYSTERY

Neche, N. D., Continues Mystified By Death of Insane Man.

Neche, N. D., May 27.—(Special to The Herald.)—With no report forthcoming as yet from the coroner's jury that investigated into the circumstances surrounding the death of Phillip Worrall, it is believed that some new features have been unearthed that will result in sensational developments shortly. Worrall was the insane man held at the immigration detention building, who suddenly disappeared and whose skeleton was recently found near the city. The jury completed its inquest last week but has not yet made any report of a verdict and it was announced today that it was not known just when a verdict would be given out. There is reason to suspect that Worrall was murdered and that an attempt was made to hide his body by burial, only partially completed at the time, over two years ago.

NEGAUNEE MAN FATALLY SHOT

James Gaffney, Saloon Keeper, Is Murdered By Spanish War Veteran.

Negaunee, Mich., May 27.—(Special to The Herald.—John McAuliffe, aged 32, a veteran of the Spanish-American war and a well known resident of Negaunee is under arrest charged with murder, while James Gaffney, a saloon keeper, is dead, a victim of McAuliffe's bullet. The shooting took place in Gaffney's saloon about 9:20 o'clock Thursday evening and Gaffney died yesterday. The tragedy is believed to have been the outcome of an old grudge. Mr. Gaffney and his bartender and two or three other men were in the room when Mr. McAuliffe entered. Almost immediately a shot cracked out and Mr. Gaffney fell to the floor, the result of a bullet fired by Mr. McAuliffe from a 38-caliber revolver. The ball penetrated the abdomen. Medical aid was summoned and as soon as possible the wounded man was conveyed to Dr. Robbins' hospital. He was aged 42, is married and has a number of children, the oldest a boy of 18.

Apparently Premeditated.

The action of Mr. McAuliffe appears to have been premeditated. With the alleged remark that "he had gotten even," the assailant left the place and started down the street. He told a number of persons what he had done, and then returned to the saloon. Marshal R. W. Jackson had been at Teal lake on official duty and was on his way back to the business district when informed of the shooting. He went to the saloon and Mr. McAuliffe at once surrendered to him. The prisoner was taken to the city jail.

WILL MINE COAL NEAR NORTH POLE

Longyear Interests Send Marquette, Mich., Man to Far Off Spitzbergen.

Marquette, Mich., May 27.—(Special to The Herald.)—With Spitzbergen as his destination, John M. Longyear of Marquette and Brookline, Mass., will sail from New York city, June 10. He will go to the Arctic region to look over a coal mine developed within 700 miles of the pole and in which he is heavily interested. He will sail from New York to England and thence to Tromso, in the northern part of Norway. From Tromso the trip to Spitzbergen, a distance of 500 miles will be made in the Longyear company's own steamer, a vessel formerly engaged in the whaling trade.

The Longyear interests, organized as the Arctic Coal company, have control of several hundred square miles in four different tracts on the islands of Spitzbergen, a very large part of which has not been explored. The islands are rich in coal and in places the geology suggests the presence of gold and iron ore. Some ore has been found, in fact, but how extensive or how valuable the deposits may be is as yet all guesswork. No gold has been discovered.

Up to the present time the Longyear company has opened one coal mine, which is expected to produce 50,000 tons next year and 200,000 tons when fully opened up, this latter being the capacity with the power installation so far provided.

BOYS EXCEED GIRLS IN WILLISTON GRADUATES.

Williston, N. D., May 27.—(Special to The Herald.)—The Williston high school will graduate a class of fifteen this year, nine boys and six girls in the class, a condition that is not usual. Commencement exercises will be held Friday, June 2. John Hartar is president of the class, Mabel Eldsness is vice president, Nellie Larson is valedictorian and Carl Granthier is salutatorian, while the other graduates of the school are Elmer Halvorsen, Kenneth Irving, Colin Kerr, Floyd Stewart, Mildred Trumbo, Florence Taylor, Frank Shaver, Hilda Hayden, Frank Chisholm and Leslie Wilde.

WAITER GUILTY IN LIQUOR CASE

Supreme Court Says Chop Suey Slinger Sold the Booze.

St. Paul, Minn., May 27.—(Special to The Herald.)—Under a decision handed down by the supreme court, sale of beer or other liquors in a chop suey house which holds no license, is illegal, and a waiter who accepts money for drinks in such a place must have ample proof that he went outside for the beverage, or he, himself—not the proprietor—is liable to a fine or imprisonment.

This opinion came in the decision of a case wherein Ben Ito, a Minneapolis Chinaman, was arrested for procuring beer for William P. Mealey and Grant Baker, city detectives. The plain clothes men went in a Mill City chop suey joint, ordered a meal and a bottle of beer. They gave the celestial $1 with which to buy some beer, and he returned within four or five minutes "suds." Evidently the supreme court believes Ito—the waiter—did not have time enough in four or five minutes to go outside for the drink, hence it affirmed his conviction.

Justice Bunn and Brown dissented.

MANY SEEKING PAPERS.

Applications for Citizenship to Be Heard on Certain Days.

Minot, N. D., May 27.—(Special to The Herald.)—So many applicants for citizenship have been found in the Eighth judicial district that Judge K. E. Leighton of the district has fixed upon a regular schedule of dates for the various counties on which he will be present for the purpose of grinding out new citizens. This schedule follows: Minot, first Tuesday in February, and third Tuesday in July; Bowbells, first Tuesday in July and second Tuesday in January;; Mohall, fourth Tuesday in June and fourth Tuesday in January; Crosby, second Tuesday in June and third Tuesday in January.

INTERNATIONAL FALLS MEMORIAL DAY PLANS.

International Falls, Minn., May 27.—(Special to The Herald.)—Memorial day exercises will be held at the city hall at 10 a. m. Tuesday, when the following program will be rendered: Song, "Battle Hymn of the Republic," public school pupils; invocation, Rev. E. A. Lindgren; song, "Columbia, the Gem of the Ocean," girls; song, "Many Flags" address, F. J. McPartlin; song, "My Own United States" (the new national anthem), Florence Morrison; piano solo, Patricia Lynch; song, "America," audience.

The veterans of the Spanish-American war have been invited to participate.

The Victoria day exercises at Fort Frances were attended by a large number of our local citizens.

GOING TO EUROPE TO STUDY SCHOOL WORK.

Ellendale, N. D., May 27.—(Special to The Herald.)—For the purpose of making a study into conditions and methods of work surrounding the schools of Europe, President Wm. Kern of the Ellendale normal industrial school in this city has been granted a leave of absence of one year by the board of trustees. President Kern proposes to spend a considerable portion of his time in Dresden studying the conditions in the Kingdom of Saxony. Industrial education will be the subject into which he expects to delve most.

MINOT NORMAL SCHOOL SITE FINALLY CHOSEN.

Minot, N. D., May 27.—The Olson-Grow site on the south hill has chosen as the site for the new Minot $200,000 normal school by the state normal board after a hard fight among the owners of the various sites during the last sixty days.

The site selected is sixty acres and is west of the fair grounds.

The board will meet at Mayville on June 27 to pass on the plans being prepared by Haxby & Gillespie of Fargo and the contract for the buildings will be let about Aug. 1.

Marries Soldier in Montana.

Missoula, Mont., May 27. — Bertha Louis Babbitt of Beloit, daughter of the late Clinton Babbitt of Beloit, former congressman, was married here to Edward M. Ranler of Bayfield, Wis., a private in Company I, Fourteenth infantry, U. S. A. Miss Babbitt came West several months ago for her health.

Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is regarded as a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers.

Mother's Friend

BRADFIELD REGULATOR CO., Atlanta, Ga

CASS COUNTY'S GROWTH SHOWN

Over 22,000 Acres of Land Placed on Tax Roll During Past Year.

Walker, Minn., May 27.—(Special to The Herald.)—Over 22,000 acres of land were placed on the county tax roll last year, according to figures given by Auditor Byhre. Mr. Byhre further states that the enrollment for the ensuing year will be fully as much if not more than the year previous. These figures show something of the remarkable growth of Cass county and is good news to the county tax payers as this constant settling up will have a tendency year by year to reduce the tax levy as it throws the burden on more shoulders. This increase of taxable acres is the result of state land sales and government homestead lands which heretofore were of no benefit to the county from the standpoint of taxation. With its agricultural possibilities and great iron prospects, the future of Cass county seems assured.

WOMEN ARE GIVEN THRILLING TRIP

Launch Ride on Rainy River Exciting Because of Low Water.

International Falls, Minn., May 27.—(Special to The Herald.)—A delegation of women who came here Sunday from Hibbing where they attended the district meeting of women's federation clubs had a thrilling experience when they joined a party that tried a launch ride on the launch Koochiching on Rainy river.

Because of the low stage of water the trip proved an eventful one. Rainy Lake city was the objective point, and after the excursionists had spent a short time there very pleasantly, the boat pulled out and was safely past a dangerous reef of rock, when it was discovered that several passengers had been left behind. As the boat again left the dock she landed hard upon the reef and could not be released by the small launches at hand, which tugged at her without avail. Some of the passengers hired the smaller boats to bring them to the city but those remaining did not reach home until long after midnight, when they were brought down by the Rainy Lake, which was sent to their relief by the passengers who arrived on the smaller boats early in the evening. The passengers on one of the smaller boats had an additional thriller by seeing three men struggling in the water in the rapids below the bridge rescued by the crew of the launch. They were fishermen who had been overturned while trying to navigate the rapids.

To Celebrate Fourth.

A meeting was held Wednesday to prepare for a celebration of the Fourth. O. J. Masters was chosen chairman, while Frank Green was secretary. After much discussion and many suggestions, the chair was authorized to name committees on general arrangements and finance, which he did, as follows: General arrangements—C. B. Kinney, John Berg and F. J. Dudley. Finance—Henry Ottow, John Infelt and M. Burton.

The committees will have a joint meeting next Monday, when all preliminary matters will be disposed of and following which the framing up of the program for the big day will be started.

W. V. Kane is erecting an office building on the Third street corner business lot which he recently purchased. It will be 24 by 24.

Personal Notes.

J. J. Thomas of Tracy is here visiting his brother, J. B. Thomas. These gentlemen have considerable property in International Falls and Fort Frances.

R. E. Workman of St. Paul is spending some time in the county looking over his timber land holdings.

R. L. Washburn of Leo, So. D., and C. J. Lenander of Bancroft, Iowa, are here preparing to build a hunting lodge on an island in Namakan lake, which they own.

Bishop McGolrick of Duluth is to make his first visit to this city on Sunday, June 11, when he will administer confirmation to a class at Holy Apostles' Catholic church.

A son was recently born to Mrs. Gardner of Blackduck.

Editor John Wilm of the Northome Record was here this week.

Dr. Henrik Nissen has returned to Minneapolis after making preliminary arrangements for the opening of his summer home on an island in Rainy lake.

Dr. Mary Ghostley is home from Minneapolis, where she underwent an operation for appendicitis.

Miss Katherine Rile of Hibbing has come to make her home with her sister, Mrs. John Infelt, and to accept the cashiership of the Infelt grocery and meat market.

W. E. Lawrence was called to Brainerd this week by the serious illness of his father.

Miss Lois Bennett of St. Paul is a guest at the home of her sister, Mrs. O. C. Helele.

Dr. Dunsmoor of Minneapolis was here this week looking after his summer home property up the lake, which his family will occupy the first of June.

Ex-Senator A. D. Stephens of Crookston spent Sunday in town with Mrs. Stephens, who was among the Minnesota Federation of Women's Clubs members who visited here Sunday and Monday. He spent Monday looking after his banking institution at Littlefork, after which he returned to Crookston.

H. Lord is visiting at Grand Rapids and from there will go to Wisconsin and Michigan points on a like mission.

ARRESTS HIMSELF.

Comes Into Court After Whipping Adversary and Admits Guilt.

Williston, N. D., May 27.—(Special to The Herald.)—Era Bond appeared before Justice Smith of this city, ordered himself arrested and paid a fine of $15, just for the pleasure of assaulting James Lippen, to whom he had sold a horse. When the deal fell through, after the injection of a few features that were not to the liking of Bond, he used his fists on Lippen. Afterwards he went directly to the office of a peace justice, declared that he had violated the law, wanted to pay a fine, and did so.

WISCONSIN BANKERS SCORE LAW-MAKERS.

La Crosse, Wis., May 27.—(Special to The Herald.)—Speakers at the convention of Group 7 of the Wisconsin State Bankers' association here characterized members of the legislature as mischief makers and said they kept the bankers' committee busy preventing the enactment of destructive legislation.

Officers elected: President, A. W. Barney, Sparta; vice president, E. B. Knuteson, Coon Valley; secretary and treasurer, E. J. Wiles, Bangor; executive committee, Anton D. Melby, Whitehall, and W. W. Warren, Tomah.

MINNESOTA BRIEFS

Princeton—Under the personal supervision of W. T. Kerr splendid work is being done on the Germany road. The long sandy hill, which commences at the village limits, will no longer be a terror to teamsters and automobilists—it has been rendered as hard and solid as a macadamized road.

Grand Marais—County Superintendent Clinch has started a potato growing contest for boys between 8 and 16 years of age, attending the schools of Cook county. Prizes of $3.00 and $2.00 are offered for the largest and next largest yields of potatoes, irrespective of the size of the potatoes.

Detroit—The Detroit Telephone company has a crew of men at work stringing nearly a mile of new cable in the southeastern portion of the city. Later a number of farm line extensions will be made at Detroit, Callaway and Mahnomen.

Milaca—A summer school for the counties of Mille Lacs and Kanabec county teachers will be held at Milaca, beginning June 19. This school will be of six weeks duration and will be supplied with the best of instructors.

Motley—The Morrison county agricultural society, recently organized here has purchased ten acres of ground near one of the main streets of the village on which the buildings for the fair are to be erected.

St. Cloud—The case of the state vs. J. C. Boehm for arson in the second degree was continued in district court Thursday by order of Judge C. A. Nye of Moorhead, until the December term of court. Three doctors testified that Mrs. Boehm's condition at the present time was very serious and if the case was brought to trial the resulting nervous strain would lessen her chances for recovery.

Crookston—George O'Rielly died on Thursday and will be buried Saturday. Deceased was 51 years of age and had been a resident of Crookston for twelve years, coming here from Fisher. Prior to that he was located at Portland, N. D., and came originally from Smith's Falls, Ont., Canada, in 1880.

Moorhead—T. B. Bancroft, a silver haired veteran of the Civil war, who enjoyed the personal friendship of Abraham Lincoln spoke Thursday morning to about 300 pupils of the upper grades and high school. Mr. Bancroft was in Kansas as a young boy in the troublous early days of that state and when the war broke out he went to Washington, where he met Mr. Lincoln. He enlisted and served with distinction.

Little Fork—Brush fires started on Henry Forrer's place, fanned by the high wind of Thursday last, ran across Ole Olson's cutting and again threatened the Allen & Keiver mill property. The barn was in the greatest danger and caught fire several times, but a large force of citizens manned the village pump and saved the buildings.

Fergus Falls—The Fergus Falls woolen mill has received a carload of machinery from Providence, R. I. The mill is now employing between fifty and sixty people, outside and inside, and with the addition of new machinery will greatly increase its output and will also increase the number of employes.

Hinckley—The annual meeting of the school boards of Pine county will be held at Hinckley, Saturday, June 10. J. G. Schultz, state superintendent of schools; Wm. F. Kunze of Minneapolis, a prominent educator, and Supt. McAdam of Pine City will address the meeting and discuss "Industrial Education."

Stillwater—William B. Hall, a former well known resident of this city, some thirty odd years ago, and whose first wife was a well known Stillwater girl, committed suicide in New York on Friday afternoon, May 19, 1911.

WISCONSIN BRIEFS

Ashland—The Ashland city team and the Ironwood ball team will play at Fairmount park in this city next Sunday. This is the opening game of the season on the local grounds.

Madison—The Western Intercollegiate magazine, published here by Marc Boguslawsky and edited by H. G. Arnsdorf, has been formally merged with the College World, published in New York city. The staff at Wisconsin will be disbanded, but Boguslawsky will be retained to look after the advertising and circulation.

Oshkosh—The twelfth triennial reunion and convention of the Wisconsin Association of the Deaf, which is the alumni association of the state school for the deaf at Delavan, will be held at Oshkosh from June 30 to July 5.

Platteville—D. B. Winters, who was arrested two months ago, charged with forging a note at Cassville and who has been awaiting trial in the county jail, made his escape from the sheriff at Lancaster Thursday morning.

Neenah—While John Porsche, Joseph Currey and sister were driving home from a dance a lightning bolt hit the buggy top and ripped off the leather. The occupants were rendered speechless for several hours. Porsche had a cedar silver three inches long driven into his face. The horse was knocked down but not injured.

Marinette—It is believed that the man wanted for the forgery of a check cashed at Watson Bros. store is in the tolls. A man named James Berkee has been arrested at Baraboo, charged with working a raised check in the same manner Watson Bros. were defrauded, and Chief Cook has wired the authorities there to hold the alleged forger.

Milwaukee—The drowning of a baby girl seated in a go-cart near the lake in Mitchell park was only avoided by the presence of mind of Miss Olive Acee, who happened along and jumped into the lake and effected the rescue.

Eau Claire—Dr. J. J. Selbach was stricken by illness Thursday afternoon and taken to Sacret Heart hospital. He died suddenly Thursday of heart trouble. He leaves a wife, four daughters and two sons. One of the sons, not knowing his father was seriously ill, was singing in the Elk's opera at the moment of his father's death.

PENINSULA BRIEFS

Norway—William Gornall died recently of heart failure. He was 71 years of age and is survived by his wife and one daughter, Mrs. Thomas Welch. Mr. Gornall was born in Bradford, Yorkshire, England, and came to Norway with his family twenty-seven years ago and soon after moved to Metropolitan, where he was injured in a mine accident, rendering him a cripple for life.

Calumet—The Calumet & Hecla park has been decided upon as the meeting place for the county reunion of the tents of the K. O. T. M. M., on June 10.

Rockland—Louis Gagnoun, janitor of the Rockland school, met death in an accident while at work on the roof of the school Wednesday. Mr. Gagnoun slipped from the bell tower of the school, falling to the ground, where he landed on a pile of rock and sustained a badly fractured skull. Death resulted before Dr. Cox, who was summoned from the Victoria mine to attend the man, arrived.

Hancock—The Hibernian Rifles have accepted the invitation recently extended to them to parade with the military organizations of the Portage Lake towns on Memorial day.

Calumet—All arrangements have been completed for the Memorial day exercises in Calumet next Tuesday under the auspices of the G. A. R., Camp Petermann, Spanish-American war veterans, and Company A, Engineers. Both Rev. Father Herculean and Rev. R. W. Farquhar have accepted invitations to give the Decoration day address.

Marquette—Thursday evening Col. Marshall and Maj. Morton of the Salvation Army corps of Minneapolis were at Marquette, and assisted by the officers of the Ishpeming organization and the local officers, held a special meeting at the army hall on Washington street.

Laurium—William Parsons, aged 72 years and 7 months, a Copper country pioneer, died at the home of his son Richard C. Parsons, Wednesday evening, following an illness of about two weeks' duration. Senile decay was the cause of his demise. The deceased was born at Roach, England, and came to America fifty-two years ago, locating at Copper Harbor.

Houghton—H. F. Henderson of Houghton, who is lay commissioner from the Lake Superior presbytery to the Presbyterian general assembly now in session at Atlantic City, N. J., has been named on one of the most important committees of the assembly, that on Presbyterian brother work.

Negaunee—A retaining wall is being constructed on the south side of the South Shore track, in the Jackson cut. A considerable portion of the embankment was removed last year to make room for the Northwestern track, leading from the diamond crossing to the new station.

Ishpeming—The work of removing the bodies from the old cemetery, which has been in progress for the past week or ten days, will be discontinued the last of the month. It will be resumed again in the fall.

Marquette—The semi-annual ceremonial session of Ahmed temple, Nobles of the Ancient Order of the Mystic Shrine, will be held in Marquette June 7, and it is expected that a large class will be initiated.

DAKOTA BRIEFS

Kulm, N. D.—With serious burns about the face and hands Frank Davidson is suffering much pain as the result of the exploding of a gas tractor while he was making repairs on it. The cause for the explosion is unknown but was one of terrible force. The injured man was rushed to the city in an automobile and is resting as well as could be expected.

Fargo, N. D.—C. H. Haggart of this city was Wednesday appointed to the position of deputy United States marshal to fill the place that has been made.

Minot, N. D.—Dewey Dorman, a Minot aviator, has received by express a 50-hors. power Bierlot monoplane, in which he will give several exhibitions in North Dakota and the Northwest during the summer. The machine is the first owned by a North Dakota man.

Fargo, N. D.—Mr. and Mrs. Charles E. Webster and daughter, Miss Florence, left Monday for Annapolis, Md., to attend the graduating exercises of the class of 1911 of the United States Naval academy, to be held in the capital of the oriole state this week.

Minot, N. D.—Edgar A. Fisher, the 21-year-old son of C. A. Fisher of Minot, has received notice of his appointment as a cadet at the United States Military academy at West Point.

Fargo, N. D. — The Young Men's Christian association in Fargo will be twenty-five years old next month. Extensive preparations are being made to make the celebration of the event a large affair, June 15 and 16.

Grand Forks, N. D.—Dinnie Bros. of this city landed the contract for the construction of the new domestic science hall at the Valley City normal school for $26,700, the contract being awarded by the state board of normal trustees.

Devils Lake, N. D.—Representatives from Chicago met here with co-operative elevator men of this state and organized a State Co-Operative Elevator association, which has for its purpose the education of farmers in the better handling of their grain.

Bismarck, N. D.—In the district court Wednesday afternoon the jury in the case of Higgins & Hedmark, charged with running a place where intoxicating liquor was sold in violation of the prohibitory law, brought in a verdict of not guilty. The is the first case the state has lost during the present term of court.

WEEKLY SURVEY OF REAL ESTATE DEVELOPMENTS

Difficulty in Getting Parties to Deals Together—Steel Plant Excursion Is Great Educator—Agricultural Development—Weekly Meetings of Real Estate Exchange.

THE Duluth real estate market is still in the peculiar position of having a wealth of inquiry, a good tone and a general optimistic feeling among the real estate men, and still a dearth of deals shows up in the week's business. There is no apparent reason for the difficulty the agents are experiencing in getting the parties to deals together, but the difficulty remains and unless there is a decided improvement in that respect during the month of June, the market will be a disappointment to those who have had the greatest hopes.

Many real estate men believe that the month of June will be the big month of the year in the real estate market. The market had promising prospects all along, but the prospects have not developed into realities as well as those who were following the market had hoped. There was a disposition on the part of prospective buyers to hang back, and when deals progressed to the closing stage, their further progress was slow.

The condition was attributed to the general hesitation business showed while the Standard Oil decision was pending before the supreme court. That decision has been handed down, business has received it favorably, and if there was any influence on the real estate market from that source, the cause for it has disappeared.

While the investment market has been slow, the market for residence lots and speculative propositions in new additions has held up well. It is a market that attracts the big investor not so much as the small investor, with a few hundreds of dollars to put into a safe, conservative proposition. There has never been such an opportunity for that class of investors in Duluth as there is today, and hundreds of the little fellows are laying the foundation for future fortunes by putting their savings into lots that are cheap now, but that should greatly appreciate in value in the next few years.

The speculative interest is taking hold in Duluth this year better than it has for some years past. It is a good healthy speculative interest extending over a broad field and it promises to be the salvation of the local market this year. Even if the big capitalists do not feel like assuming new obligations and remain out of the field more or less this year, the aggregate of business will not suffer if the interest now shown by the small investors and speculators be sustained.

* * *

THE excursion to the steel plant site Wednesday was a great educator. That Duluth business men are alive to the development of their city is shown by the fact that nearly 700 of them left their business for an afternoon to see just what the United States Steel corporation is doing on the shore of St. Louis river. No matter how busy any man who made that trip may have been, he didn't lose anything by leaving his business for the afternoon. What he learned on the trip will be invaluable to him in his business, and the education of that number of business men into the magnitude of the steel plant project will be of great benefit to Duluth.

There have been too many skeptics on this steel plant project all the way through. They were skeptical when the plans of the Steel corporation were first announced; they were still more skeptical when the beginning of work at the site of the plant was delayed; they were even skeptical when work was begun. They had a charge of "I told you so" missiles laid up for immediate distribution when the occasion they expected arrived. Some of the skeptics were on the train Wednesday and they are no longer skeptics.

There is no room for skepticism in Duluth's estimate of the steel plant work now. It is a bigger project than the wildest dreams of anybody who was not in direct touch with the plans of the Steel corporation as they were formed. Its magnitude is staggering to the man who does not know the scale on which the Steel corporation goes into such projects. It would have been better for Duluth if 70,000 instead of 700 Duluthians had visited the plant Wednesday. Every man, woman and child in Duluth should take the first opportunity of visiting the site of the plant and observing the work.

The steel plant means development for the city; development means a greater population with home requirements, which naturally leads to the conclusion that real estate values will go up and the city will extend its bounds to take in new territory. There is already a pronounced activity in the lots in the vicinity of the steel plant, but the present activity is a mere ripple in comparison with what will develop when the people begin to awaken to the opportunities awaiting them.

* * *

THE earnestness with which people are setting about the development of the agricultural resources around Duluth was never better shown than at the hearing before the railroad and warehouse commission yesterday on the proposed abandonment of the Brooks-Scalon railroad. The settlers were out in great numbers to declare their belief in the agricultural possibilities of the section around Duluth and their intention to go into farming on a more extensive scale if given the opportunity. The business men of Duluth were out to declare that they believe the development of agricultural possibilities and the growth of a great producing region around the city is necessary to the continued growth and prosperity of the city.

It was a meeting that showed business men and settlers working together for one end, the development of the land, with consequent reduction of the cost of living in the city by production of food near the market.

* * *

THE plan of holding weekly meetings of the Real Estate exchange for the discussion of business was inaugurated last Monday, and the officers of the exchange believe it will be a success. Instead of being compelled to travel from office to office looking for a apiece of property of a given kind, or seeking a purchaser for a property handled by him, he will have an opportunity of meeting the other real estate men each week and talking business. It is believed the plan will be a time-saver and a great stimulant to business, and fits in well with the listing plan adopted at the first of the year.

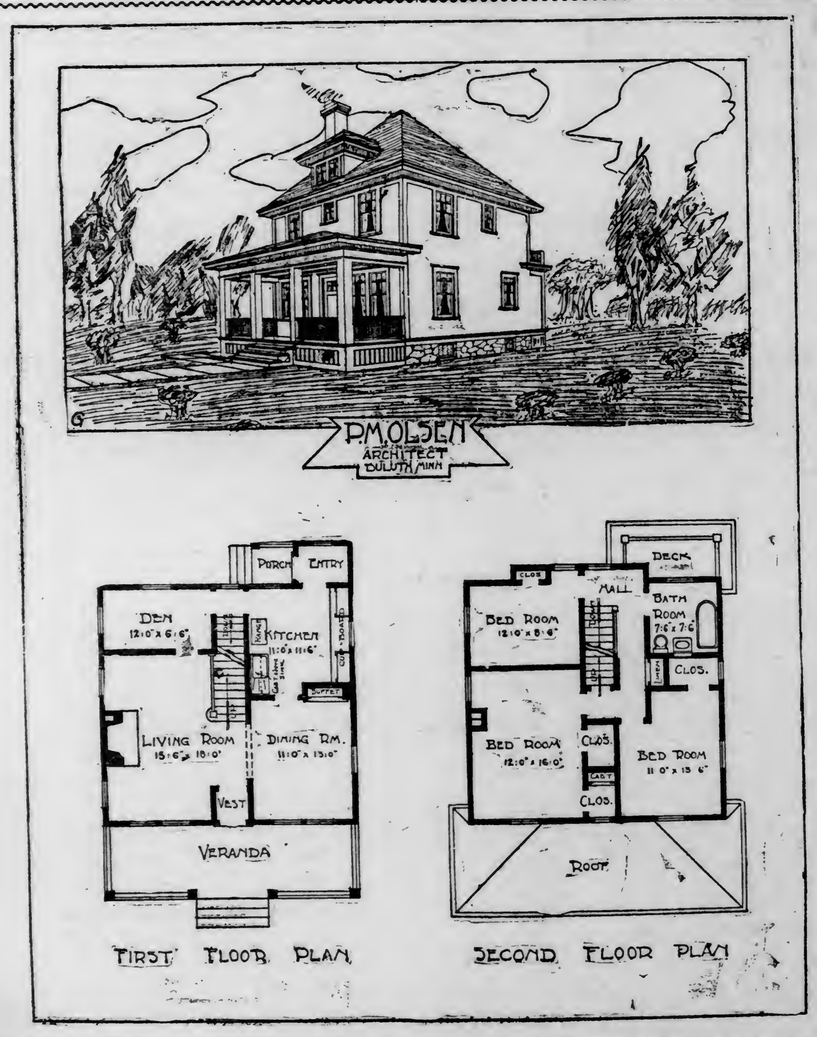
COMFORTABLE HOME WHICH WOULD COST $4,000 TO BUILD IN DULUTH



The above sketch is of a seven-room frame dwelling, of a popular design, which can be built at a very moderate cost.

The large living room with its open fire place is entered from the veranda, through the vestibule. One of the main features of this room is the wide, open stair case leading to the second floor. To the living room is also connected the den, which could be used as either den or sewing room.

The dining room is of medium size and well lighted. It is furnished with a large built-in buffet.

The kitchen is very conveniently arranged. The large cupboard eliminates the necessity of a pantry and is found much more convenient and satisfactory.

The bedrooms on the second floor are sufficiently large for the ordinary family. They are particularly well supplied with closets, the largest bedroom or owner's room having two closets. The bathroom, also on the second floor, is unusually large for this size house. A linen closet opens into the hall.

A stairway from the second floor hall is also provided, leading to the attic. The attic is left unfinished, but there is sufficient space there for two fairly good sized rooms.

The dining room, living room and den on the first floor, are finished in oak. The kitchen is finished in Southern pine, stained natural. The second floor is finished in pine, painted white.

The dimensions, exterior, are 28 by 26; basement, 7 feet; first floor, 9 feet; second floor, 8 feet 6 inches.

This building can be built in Duluth and vicinity, at a cost of $4,000, including plumbing, heating and electric wiring.

P. M. OLSON,
Architect.

BUILDINGS ARE PLANNED

Hotel Will Be Erected on Michigan Street By Joseph Rich.

New Hotel Is Also Planned for West First Street Property.

J. J. Wangensteln is receiving bids on a three-story brick building to be erected for Joseph Rich at the corner of Michigan street and Eleventh avenue west. The building will have a fifty-foot frontage on Michigan street and will be arranged for stores on the ground floor and hotel rooms on the two upper floors.

Mr. Wangenstein is also preparing plans for a new hotel building to be erected on West First street. The building will front sixty-five feet on the upper side of First street between Sixth and Seventh avenues west and will be built in two sections. The front section will be 66 by 65 feet and will be arranged for stores on the ground floor and hotel rooms above. The rear section will be 32 by 65 feet. The buildings will be of brick, three stories in height, and the two will be connected on the two upper floors, so that the two upper floors of the rear section may be used in connection with the hotel, while the lower floor will be divided into apartments. The hotel will have seventy-five guest rooms.

* * *

F. L. Young & Co. are preparing plans for rebuilding a frame school building at Neenah, a settlement about sixteen miles north of Duluth. The work will call for an expenditure of about $2,000. The same firm is preparing plans for remodeling the residence of W. E. Holmes at London road and Fifty-seventh avenue west.

* * *

Mrs. R. R. Smith of Jamestown, N. D., has come to Duluth for the plans for a residence she is to have built in her home town. E. S. Radcliffe is preparing the plans for a modern frame residence to cost about $5,000.

* * *

Kelly & Lignell are preparing plans for a modern brick school building to be erected at Brooten on the Soo Line extension. The building will cost about $12,000.

* * *

Read The Herald Wants

ACTIVITY AT STEEL PLANT

Companies Preparing for Campaign of Lot Selling This Year.

Transfers Recorded at Office of the Register of Deeds This Week.

The largest transfer recorded at the office of the register of deeds this week was the sale by L. S. Loeb to James F. Walsh of Mr. Loeb's former residence at 1106 East Superior street for $12,000. The deal was made about a year ago under contract and Mr. Walsh has been living in the house, but the matter was just closed up this week and the deed placed on file. The property consists of a fifty-foot lot fronting on the lower side of Superior street, and a modern residence.

* * *

The companies that have property for sale near the steel plant are preparing for a selling campaign. A number of buildings have already been erected on the various divisions around the plant. A. C. Volk & Co. are selling a few lots for immediate improvement, but are deferring their general selling campaign a little longer. They have the townsite of Gary adjoining the plant. Richardson, Day & Harrison and A. W. Kuehnow, who are handling the Northern Steel Plant division, report a steady sale of lots and a great volume of inquiry from outside the city. A. H. Burg & Co., who are handling Spirit Lake townsite, also report a steady sale and a volume of inquiry which promises greater activity in the very near future. The New Duluth Land company is doing considerable grading and other preparatory work and is also figuring in the general inquiry in regard to lots in that vicinity, while Ironton is also coming in for consideration. The speculative interest which has developed in the last year, is centered on the property near the steel plant, that fact being the natural outgrowth of the belief that the greatest opportunities for big returns are offered in that district.

* * *

F. C. Smith has sold to Theodore T. Simon a property fronting twenty-five feet on the upper side of Fourth street between Twenty-first and Twenty-second avenues west, for $3,000.

* * *

HERE IS YOUR CHANCE FOR
FINE BUILDING LOTS
Before buying building lots anywhere in the city, be sure to see us and the fine, smooth lots we are offering within one to two blocks from proposed street car extensions for this fall on East Ninth street.
The Popular Payment Plan—No Mortgage—No Interest—See Us.
L. A. LARSEN COMPANY
213-214-215 Providence Building.

MEADOWLANDS TRUCK GROWERS
GET THE RIBBONS---THE BIG BLUE ONES THAT SAY "FIRST PRIZE"
The MEADOWLANDS soil produces the Blue Ribbon Quality. The short distance from market and the splendid rail road facilities enable growers to place their products on the market in prime condition, which attracts the consumer and GETS THE MONEY.
Meadowlands is building a four-room graded school. The railroad company is clearing and breaking 500 acres for truck farms. These 10-acre pieces are selling faster than we can get them cleared. We have a few choice pieces left near the depot. Get in and make your selection NOW, while you have the choice of location. Ten acres of Rich Soil, cleared and ready for crop on long time and easy payments.

Big snap in finest lots on London road. Lots in Lakeside for $250 to $3,000; easy payments.

OFFICIAL BRITISH CATS.

John Bull employs a large number of cats—exactly how many it would be impossible to say, but if we include those in the various government offices, barracks, prisons, docks and workshops the number cannot fall far short of 2,000.

These animals work solely for the British government, says a writer in The World Today, and for their services are duly rewarded with a liberal supply of food and cosey quarters.

The principal governments of the world acknowledge the business ability of cats by placing under their surveillance mail bags, grain bags, army stores and other goods belonging to the various departments.

All casts in the service of the British government are on the payroll, each receiving as a general rule 25 cents a week. Should any of them fall ill the head of the department to which the animal belongs is at liberty to call in a veterinary and charge the government with his services.

In the home office is a cat rejoicing in the name of Toby, who is constantly in the doctor's hands. He suffers from asthma and positively dreads the advent of London's cold and foggs. He is 11 years of age and is a great favorite with every one. Although he suffers so much in the region of his windpipe he still is a great hunter and has a record for killing sixteen mice in a single week.

Joe is at the head of the board of education. Two summers only have passed over his head, yet Joe is an old hand at catching mice, rats, pigeons and sparrows. In catching pigeons he resorts to several ingenious devices.

He has been detected carrying newspapers to a spot frequented by pigeons, hiding beenath it and thus awaiting his opportunity to seize an unwary bird. His record for pigeon catching is six a week, but frequently he has captured two in an hour.

Trillie is an important member of the war office staff. She receives a grant from the British government of 25 cents a week, has miles of corridors to roam over and is friends with scores of high personages who never tease her. For hours she paces the cold dark corridors in the basement and chases away the vermin that attack the thousands of old documents which until a few months ago were stacked there.

RAPACITY OF THE PIKE.

London Globe: The pike has the reputation of being particularly cruel and voracious, hence one of its appellations the "water wolf," but the probability is that many of the sea fish are equally if not a good deal more rapacious and fond of attacking, causing pain to and making a meal off their own species.

Large dogfish (they of course are related to the shark tribe), congers, pollack, cod and bass are especially ferocious, while halibut will frequently seize and kill other large fish, as anglers can aver from personal experience. It is only a few weeks back that while a London angler was "playing" a large conger a huge halibut swam up to and savagely bit at it, an operation which eventually cost it its own life, for on making for the wounded conger a second time the boatmen contrived to gaff and haul it aboard.

There have been many instances of pike being found dead, choked by their own species, and these fish not infrequently attack another pike which has been hooked by an angler. The action of a pike at times closely resembles a cat when it plays with a mouse. The pike seizes the angler's bait and keeps dropping and allowing it to escape—one can picture its delight in the terror of its victim—but does not forget to leave the marks of its teeth behind when it eventually makes off.

Lately many fine cod hooked on the long lines off Deal and Dover have been found bitten in half, while only the heads of some have been left, thus showing that they have been preyed upon by some cruel and voracius fish, only too glad to have such a favorable chance of killing and eating them.

TOO LATE TO CLASSIFY

BROTHERHOOD OF RAILWAY TRAINMEN.

HIBBING MAN FRACTURES HIS SKULL IN AUTO WRECK

Fred M. Smith Is Probably Fatally Injured Near Virginia.

Dr. Butchart of Hibbing, Also in Wreck, Slightly Hurt.

Virginia, Minn., May 27.—(Special to The Herald.)—Fred M. Smith, an automobile dealer of Hibbing, is at the Lenont hospital here suffering from a fractured skull sustained in an automobile wreck near here this afternoon and may die. Smith, Dr. J. L. Butchart of Hibbing, Dr. Butchart's 13-year-old son and M. Bofsch, the chauffeur, were coming down the Eveleth hill near here about 1 o'clock this afternoon in a big automobile when they turned out for a team, the machine slewed and threw the occupants into a ditch. Smith was rendered unconscious and the others were more or less bruised. Smith was hurried to the Lenont hospital, and at last accounts he had not regained consciousness and it was feared he would die.

DULUTH MEN WILL SPEAK

Will Deliver Memorial Day Addresses at Eveleth, Virginia and Two Harbors.

Duluth orators will speak at several points on the range Memorial day.

Assistant County Attorney Warren E. Greene will be speaker of the day at the Eveleth celebration; Rev. M. S. Rice will deliver the oration of the day at Virginia, Minn., and William E. McEwen, former state labor commissioner, will address the mass meeting to be held at Two Harbors.

SOME FINE BARGAINS IN CARLTON COUNTY LANDS

An improved farm at Midway. Five acre tracts at Proctor.

CONTRACT FOR SUPERSTRUCTURE

American Bridge Company Will Build Open Hearth Furnaces.

The American Bridge company has received contracts from the Minnesota Steel company for the steel work in superstructure for the open hearth furnaces which will be erected at the steel plant now building in this city. The cement foundations have been completed, and the steel for the superstructure is now on its way to Duluth.

The auxiliary buildings for the new plant, including machine shops, power house, and other units are practically completed.

The contract for the blast furnaces has not yet been awarded. The bids are in and are now being considered in New York. The foundations for the blast furnaces have also been completed.

SUMMER SCHOOL OF BUSINESS
Opens June 5, at
PARSON'S BUSINESS UNIVERSITY,

Board of Trade, Superior Wis. Individual instruction. Graduates are Experts and hold the best positions. Sessions Day and Evening. A. C. PARSONS, A. M., LL. B., Pres.

ORGAN RECITAL FOR TEACHERS

An organ recital was given in the Masonic temple Second street and Lake avenue, this morning by T. F. Hugo. It was an instructive feature incident to the series of concerts which will be given here next week by the Minneapolis Symphony orchestra.

Miss Thomas gave a description of the selections. R. E. Denfeld, superintendent of schools, introduced Miss Thiele, the visiting nurse employed recently by the Scottish Rite Masons. The hall was completely filled.

This morning's program follows:
Symphony No. 3 (Erolca) First Movement, Allegro con brio.....Beethoven
"Wotan's Farewell and Magic Fire Spell." ("Die Walkuere").....Wagner
Symphonic Poem: "Danse Macabre"..... Saint-Saens
Ballet Suite, from "Le Cid"....Massenet
a—Castilane,
b—Aragonaise,
c—Aubade,
d—Madrilene,
e—Navaraise.
Andante Cantabile, from Fifth Symphony.....Tschalkowsky
"Espana" (Spanish Rhapsody)..... Chabrier

AAD TEMPLE SHRINER'S MINSTRELETTE!

Lyceum theater, Thursday evening, June 1. Direction of Prof. A. F. M. Castnance; large cast, special features, clever stunts, catchy songs. Tickets on sale at Reinhardt's Jewelry store, 7 East Superior street. Exchange tickets at Lyceum Box Office, May 29, 10 a. m.

THE HANDKERCHIEF CAME FROM ITALY.

London Globe: A writer in a French review points out that the handkerchief does not come to us from China, as has been generally received, but from Italy. It is only 360 years ago that the handkerchief of a Venetian lady was considered a great curiosity. The handkerchief crossed the Alps and was received with great favor at the court of France.

Handkerchiefs were then made of cambric or lawn and bordered with Venetian or Alencon lace. Under Henry III of France the sachet was introduced. The handkerchief was taken into Germany a little later and was known as the "fazelletin," after its Italian name. Only persons of quality used it and an edict in 1505 was published at Dresden interdicting the use of the handkerchief among the trading classes.

CITY BRIEFS

Printing and Bookbinding
Thwing-Stewart Co. Both 'phones, 114.

Delegates to Columbus.
A. B. Wegener, physical director of the Y. M. C. A. and Edward Rank of the secretarial force, will represent the Duluth association at a convention of the paid workers of the association at Columbus, Ohio. Mr. Wegener left yesterday and Mr. Rank will follow him Monday. Mr. Wegener will read a paper on the methods of physical culture used in the local gynasium. The paid workers meet to exchange ideas which may be of mutual benefit, but have nothing to do with managing the affairs of the association.

Case is Dismissed.
The case against W. E. Devaney, charged with violating the blasting ordinance, was dismissed in police court yesterday afternoon. It was shown that he had no direct connection with the blast which hurled a stone through the residence of George Smith at 1824 East Fourth street, seriously injuring a relative.

For Rent.
Leon Solomon, 519 West Superior street, has the only store in that vicinity for rent. The store is suitable for restaurant, moving picture show, etc.

Police Recover Bicycle.
The police have a bicycle which was left by a stranger at the second-hand store of G. Shapiro of West Superior street between Seventh and Eighth avenues yesterday. It is supposed to have been stolen several days ago. The man tried to sell it, and when told that someone would have to identify him, went out and did not return. The bicycle is practically new and is said to be worth from $40 to $50.

People Know Where to Go.
This is the time of year when the attention of the home builder or the home owner is directed to the need of roofing, tin work, cornice work on the outside of the house and to the repairing of the furnace which has been in service during the past winter in the house. Whenever anything along this line is needed it has come to be the natural thing for Duluth people to call on Holthan & Milostan, 401 East First street, a firm long established and whose first-class work has established an enviable reputation among home builders and home owners. The firm has furnished the roofing, cornice and tin work not only on houses all over the city, but on a great many of the largest store and office buildings.

Saloons Will Close.
Mayor Marcus B. Cullum today issued a proclamation directing that the saloons of the city be closed Tuesday, Memorial day, from 10 o'clock in the morning until 3 o'clock in the afternoon. The Decoration day exercises will be held between those hours, as it is decreed by the state law that the saloons be closed that length of time.

Failed to Get Permit.
J. J. Dewey of West Duluth pleaded guilty to violating the plumbing ordinance in municipal court yesterday afternoon. It was claimed that he had made a connection with a sewer without having secured a permit. The case was continued until June 10 with the understanding that he would comply with the ordinance.

Ford City Man Coming.
Rev. L. W. Linder of Ford City, Iowa, will speak tomorrow at the Bethel Swedish Baptist church, corner Ninth avenue east and Third street, at the morning and evening services. Rev. Linder has been called to the pastorate of the church, but has not yet accepted the call.

Duluth Man on Board.
A. W. Lindgren of the Northern Electric company, has been appointed a member of the state electrical board. Mr. Lindgren has been a resident of Duluth for many years and is well known here.

Haywood Will Speak.
William D. Haywood, one of the foremost labor leaders of the country, will deliver an address this evening at the Lincoln Park auditorium. Mr. Haywood was formerly secretary of the Western Federation of Miners and came into national prominence at the time of the Moyer-Haywood troubles in Colorado and Idaho. He recently returned to this country from a lecturing tour of Europe, where he packed the biggest halls on the other side of the water.

Northland Printery.
Good Printing. Call Zenith 494.

J. Brodie of Virginia is at the Spalding.

Rural Carrier at Milaca.
Washington, May 27.—(Special to The Herald.)—Edward B. Johnson was today appointed rural carrier and A. F. Johnson substitute on route No. 4 at Milaca, Minn.

A LIFE FOR A LIFE.

Everywhere in New Guinea the traveler is continually brought face to face with death, and the natives are devoid of the slightest pity or respect for the dead or dying, although after a death they will often wail and mourn for a considerable time.

Murder is an everyday occurrence, and nothing could be worse than the morals of the natives. In fact, they have none, they thieve and lie with a persistence and cunning which is surprising.

The Papuans have a cheerful custom which demands a life for a life. Should anyone die, at the first opportunity they kill someone—they are not very particular whom—to make up for it. "While we were in Humboldt Bay," says Prof. Pratt in the Wide World Magazine, "a Malay died of dropsy; he was the first Malay who had ever come to that part, and the Papuans greatly respected him.

"'Very well,' they said, 'we must shoot a Malay with our bows and arrows to pay for his death.' And sooner or later some innocent person would be killed to square the account, when everybody—except, presumably, the victim's friends—would be satisfied."

EXODUS OF IDLE POOR

Tramps "Hit the Road" With Arrival of Warm Weather.

Saloon Loungers Scarce and Cheap Lodging Houses Nearly Deserted.

With the coming of summer many of the "bums," fake beggars, men who seek cheap rooms in the cheaper class of lodging houses, and others who believe that real thrift is a waste of energy and, that work is like the smallpox, something to be avoided, have left the city.

The streets have been emptied of the men who would live without real exertion of mind or body. With the coming of the warm weather, comparatively speaking that is, the man with shady temperament and shabby clothes and frayed habits, has sought other fields of idleness and not usefulness.

Managers of lodging houses, if some of the cheaper class of Duluth10, 15 and 25-cent lodging houses can properly be said to be managed, state that there is less demand for beds, and that in many cases some of their choicest rooms have been empty these past nights.

Two weeks ago the streets of Duluth were crowded with men. Today they are comparatively deserted of that class of men who spend what little money they have earned, in the saloons. There are fewer men on the street seeking "touches," and the police station sleeping room has been comparatively free of human driftwood that in the cold nights of winter's discontent seeks the shelter of the tramp room.

Have Hit the Road.
Down on the docks these sunny mornings, though it might be better to put that this sunny morning, for there have been few of them, one can see a few men sleeping on the docks. But they are few. Many of them have hit the road. The brakebeam and the empty freight cars have carried many men from the city.

The woods and gentle streams, though that may sound terribly poetic, will get some of the hoboes whose natures run to temperament as well as waste. The "pot boilers" are those who gang it in the woods and forage for food and then stew the stuff in a large pot. With them existence is a mere joy and romp, compared to that of wrinkled Willie with the coal bin and cross creditor.

And the saloon hangeron has vamoosed. In the winter he lives to be warm, for he is a creature with thin blood. Therefore he hugs the stove in the Bowery saloon, his person becoming saturated with stagnant odor and his stomach meeting during the day various "flies," which are not classed in entomology, but are merely empty, or near-empty beer glasses that have been left standing on the bar.

The summer finds him hiking out, for the man with idle habits and undisciplined purpose is a rover by disposition as well as fate. It is in the winter when coal is high that the saloon keeper is confronted with the problem of the house bum, or the stove-sticker; in the summer he departs and the saloon man has the honestly thirsty ban, made thristy by Sol's torrid smile, to cool with his suds.

Duluth will have the transient bum and man who would have to be served with a subpoena to make him work. They will drift in and also out. Travel is easy in the warm weather, and they will not remain.

There has been a general shifting of the idle population. This is not including the idle rich. The man who would look serious if he lost a nickel and has forgotten the last hard day's work he did, is not an asset, and his going makes the civic problem easier and the city more sanitary.

Spring is for housecleaning, and one of the benefits that spring confers upon a city, as a rule, is to send forth a horde of parasites who live upon the work of others; who regard a bath like the average citizen regards a trip to the dentist; who associate with others of their class and are often found of collecting insects, who are as a rule nerveless, effortless and only show a spark of passing interest when someone says, "I'll buy."

Many of these men have gone forth and the hum of commercial activity goes on quite unabated.

A MENNONITE CUSTOM.

Seneca Trifoine: When a young man reaches the marriageable age and shows those well known symptoms the elders of the church hold a meeting. They decide if he is honest and reliable to buy him a farm, usually an eighty. Into the farm he puts his savings, and then members of the congregation raise the rest of the funds to pay for the land.

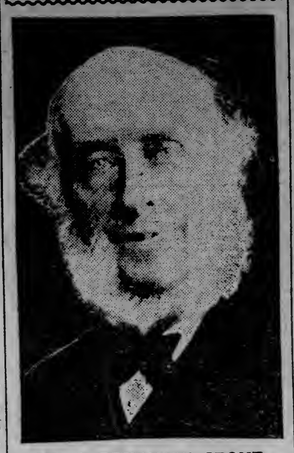
This amount the young man must pay back with a small rate of interest. Thus by example and material assistance they bind him by the strongest bonds, that of debtor to the church. They know full well that nothing can be lost, for the land is always worth what it will cost. After the young people are located on their farm the elders assist with advice and help. Do you wonder that this thrifty people are gradually buying the finest of all Kansas land and the best part of the nicest little city within the borders of that great state?

SUCCEEDS MAHLER IN NEW YORK ORCHESTRA

JOSEF STRANSKY.

New York, May 27.—Josef Stransky is the young musician who will conduct the New York Philharmonic orchestra succeeding the late Gutasy Mahler. Mahler was expected to return next season but his last year in New York proved too great a strain on his delicate constitution and he returned to Vienna a very sick man and died there a few day ago. Stransky, who takes his place next year, has been conducting the Bluthner concerts in Berlin for two seasons. He has made a sensational success in the German capital and it is hoped that he will prove equally successful in this country. Report says that he has not only youth, skill and a magnetic personality but sound musicianship.

OFFICIAL PHOTOGRAPHER FOR THE CORONATION



SIR J. BENJAMIN STONE.

London, May 27.—The coronation is to have an official photographer. He is Sir J. Benjamin Stone, the head of the National Photographic Society of Great Britain. Sir Benjamin has been an enthusiastic amateur photographer for many years. He took 800 photographs inside Wesminster Abbey. This year he expects to get pictures of the actual crowning—the first photographs of a coronation ceremony that have ever been made. Sir Benjamin is a son of Benjamin Stone and a graduate of Birmingham grammar school. He has written many books about his travels in Japan, Russia, etc. He is a scientist of note. His last visit to the United States was as a commissioner to the exposition at St. Louis.

OBITUARY

Brig.-Gen. John L. Bliss, U. S. A., retired, died at the post hospital at Fort Sam Houston May 26 following a stroke of apoplexy. He was 70 years of age.

Charles H. Shattuck, reputed to have been the wealthiest citizen of Parkersburg, W. Va., died at his home there May 27, after a long illness. He was the head of the local traction company and president of the Citizens' National bank. He was 77 years old.

LEFT HANDED BARBERS.

New York Sun: "Are there any left handed barbers? Why, certainly," said the boss. "Aren't some of the greatest baseball pitchers left handed? I have personally known two, and they were both excellent workmen.

"One of these men always stropped a razor with his left hand, but he shaved with his right, and then he cut hair with his left. The other man used his left hand throughout, in stropping, shaving and hair cutting.

"You might think that being left handed would be an inconvenience to a barber because it would make him work differently from other barbers who are right handed. You see the right handed barber always begins to shave a man on the right side of his face. I suppose there are scientific men who could tell us why he does this. I don't know the explanation myself, but I do know that the right handed barber begins work naturally on the right side of the face, while the left handed barber naturally begins on the left side.

"You might think that this would make a difference to the left handed barber for the reason that it would make him get in the way of the barber on the next chair or make that barber get in his way, but really it makes no difference whatever.

"If all the chairs in a shop were occupied by a dozen of men who had sat down at precisely the same time, all wanting to be shaved and who might therefore be all in the same stage of shaving at the same time, why, then it might make a difference; then the left handed barber might find himself in the way of the barber on the next chair who shaved right handed, but this is very unlikely to happen.

"In the first place customers don't come in that way, filling all the chairs at the same moment and all for the same job; they string along that way and they have different things done; and then some barbers are quicker than others, and the work would never progress exactly the same in all the chairs; and then the chairs themselves are adjustable for that matter, and the barber himself can suit his work to the circumstances. So the fact is that the left handed barber doesn't get in anybody's else way and nobody gets in his; he just goes ahead about his work, and his being left handed is no more of a handicap to him than it would be to any other man in any employment if he was a good workman."

NEW SUPERINTENDENT OF NEW YORK BANKS

GEORGE VAN TUYL, JR.

New York, May 27.—George Van Tuyl, Jr., president of the Albany Trust company has been sworn in as superintendent of banks of the state of New York. Under the instructions of Governor Dix he will investigate the banking department immediately. One of the first acts of Supt. Van Tuyl will be to transfer the securities of his department from the capital to the modern vaults of a safe depository. Since the Albany capitol fire the department's safe has not been considered sufficiently secure.

WOMEN IN WALL STREET.

Women speculators have a habit of giving to brokers orders "with a string attached to them," says a writer in the Strand. A woman who owned some bank stock asked a broker to sell it at $250 if he thought she could not get any more for it.

The market in this stock had been inactive for months, and $250 was the highest price ever recorded for it. The next day the broker had a chance to sell the stock for $250.

It so happened that on the same day a lively demand for this bank stock developed, and before the day was over it was selling for $300.

The broker wrote to his woman customer that he had sold her stock for $250 a share, and would she send her certificate to him for delivery to the purchaser. She refused to deliver the stock.

"You ought to have known better than to sell it for $250," she remonstrated. "I am going to sell it today myself for $300."

It was not until the broker appealed to the courts that he succeeded in getting the stock from the woman.

Here is another sample of the way women play the market. A woman customer of a Wall street brokerage house telephoned the manager one day:

"How is Pennsylvania?"

"It's selling at 132."

"Well, I wish you would sell my fifty shares at 132½. But if it looks strong at 132½ don't sell it."

When Pennsylvania touched 132½ it did not look unusually strong, and the broker sold the woman's shares. Later in the day she telephoned:

"How is Pennsylvania now?"

"It's up to 134."

"Then don't sell mine until it touches 135."

"But I've already sold it at 132½."

"How stupid of you! I told you not to sell if it was strong."

"But it wasn't very strong at that time."

"It must have been or it wouldn't have gone up. I'm going to take my account out of your office."

The broker gave a long, grateful sigh.

Therefore the dictum of Wall street is that women are good winners, but bad losers. It is difficult to reason about money and business with an angry or weeping woman. Her view of Wall street and all its works suddenly becomes entirely emotional, and only a broker with an infinite patience can calm her. Many a time a stock exchange house has taken a woman customer's loss rather than face her tears.

"SHE BURNS GREEN."

Although the prospector is generally supposed to be associated with the search for precious metal his attention is by no means confined to that. A writer in the Los Angeles Times tells of a group of valuable claims in the Silver Mountain mining district, which includes the whole of Black mountain.

It was long considered worthless until an up to date prospector recognized it as "cement rock," the principal ingredient from which Portland cement is made.

Another example is furnished by the discovery of boraz in Death Valley, one of the most valuable strikes every made in California. The discoverer, Aaron Winters, was at that time living in a lonely little shack on the Arinagosa flats at the south end of the valley.

Thither, attracted by the light, came one night a vagrant prospector from Nevada. He had with him a sample of borax brought from a small deposit across the border. This Winters instantly recognized as the same curious stuff which he had seen lying in great beds in Death Valley, but of which he had never known the name.

Adroitly questioned, the wanderer explained to Winters the simple but little known test for borax. No sooner was their visitor safely gone than Winters and his wife, carrying food and water, a pick, a saucer and a bottle of alcohol, set out on foot northward into the valley. At nightfall the next day they arrived at the first of the strange beds.

Without even waiting to moisten his parched throat Winters fell upon it with pick and bare hands till a little of the surface crust was removed. He scraped up a handful of the loose stuff, piled it in the saucer, moistened it with alcohol and struck a match. An instant later he hurled his hat in one direction, his pick in another, and seizing his wife, waltzed that astonished lady round the strange, flickering flame, whooping:

"She burns green, Rosie; She burns green!"

Winters realized a fortune from his discovery. Even today the man of the valley lighting upon something new heralds his find with the classic yell, "She burns green!"

PRIMITIVE SCHOOL BOOKS.

London Globe: The horn book invented in 1450 and used considerably up to the close of the eighteenth century, was the usual text book of the elementary school. A thin slab of hard wood was covered with parchment, on which were printed the capital and small letters, numerals and some elementary syllables and words.

Over this a thin sheet of transparent cow's horn was placed and firmly bound so that no moisture could penetrate. To this the Bible and the sampler on which little girls painfully stitched the letters of the alphabet, some "Godly saying" and a border of herring stitch, or some conventional pattern of impossible flowers and foliage and the legend "Mary Smith her sampler," or the like, were about all that the children used up to the beginning of the eighteenth century.

INVENTOR OF BAROMETER.

T. P.'s Weekly: Toricelle invented the barometer in the seventeenth century. It was a tube of mercury then; in many cases it is a tube of mercury still. The tube is a yard long and about half an inch in diameter. It is open at one end and closed at the other, and is partly filled with mercury. The open end dips into a little through of mercury or is bent slightly upward in the form of a tiny cup. The top of the mercury column is exposed to view and by means of a scale alonside of the column its height is reached. These are the essentials in the construction of the ordinary instrument.

What is known as the wheel barometer, so often met with in houses, is an ingenius variation of Torricelli's idea. This barometer was invented by Robret Hooke, probably the greatest philosophical mechanic of his day. It is intended to indicate the weather without observing the mercury itself. There is the usual tube, but bent at the bottom into a short leg. In this leg a little glass float rests upon the surface of the mercury. A cord attached to the float passes over a pulley. The pulley is furnished with a pointer which moves round the dial, the moving agency being the rising or falling mercury, which lifts or lowers the float.

As regards modern barometers, everybody is familiar with the aneroid—a very beautiful, portable and accurate instrument independent of a column of mercury and the danger to which it is liable from spilling. The aneroid consists of a metal box partly filled with air. One face of the box is corrugated and so thin that it yields to the variations of the atmospheric pressure. Then there is the self-registering barometer, which writes its record on paper wound on a drum. The drum revolves by clockwork. A pencil connected with the barometer presses upon the revolving paper and rises and falls with the mercury. When the mercury falls the line drawn by the pencil slopes down; when it rises the line slopes up.

THE HERALD IS DULUTH'S GREAT WANT AD MEDIUM

MOISTURE IS BEAR FACTOR

Values Recede—Showers in Northwest—Rain in Eastern Nebraska.

July Deal Puts May in Shadow—Market Weather Affair—Linseed Up.

Duluth Board of Trade, May 27.—Wheat declined today. Trading was more active than for some time. May lost ⅞c, July ⅝c and September ½c. Cash wheat was ½c over July but there was no demand. Flour business was slow. Oats lost ¼c on profit taking. Consumption is heavy and the Southwestern situation is bullish although the plant in the Northwest is in good shape. Rye was unchanged. The Northwestern rye crop is coming along in splendid condition. Durum wheat lost ¼c for July.

Linseed gained 2½c for July and May. September lost 1c and October declined 3c. There is no crushing support and it is not expected that the leading crushers will enter the market for two months unless some unexpected calamity to the crop makes them apprehensive and forces them into the market. Plata seed at Antwerp for May-June closed at $2.126 a bu including 4 per cent for impurities.

Indian shipments of linseed have broken the back of the foreign markets. Argentina is also shipping more heavily than was expected, Argentina, however, can be eliminaed as a factor. Reports to the writer from Antwerp indicate that the Russian acreage is larger than last year although not as great as was expected. The high prices of wheat have stimulated the Russian acreage and linseed will not receive the widespread attention that was expected.

Liverpool wheat cables were unchanged to slightly higher. Shorts were nervous on account of less favorable advices from this side. Foreign crop advices are generally good. World's shipments this week promise to be smaller than were expected.

The wheat market is a weather affair. There were scattered showers in Kansas, Texas and Oklahoma and little real rains in scattered areas in the Northwest. A heavy rain fell in Eastern Nebraska this morning and showers in Kansas. Cooler weather is predicted for the Southwest. The presence of moisture in both the Southwest and Northwest and expected cooler temperatures had a depressing effect on wheat and caused some profittaking. The rally at the close was indicative of the strong undertone to wheat and the active hidden forces working on the bull side.

Reciprocity a Factor.

A bullish feature that may make its appearance about the time the July deal is being worked up to a climax is the reciprocity agreement between Canada and the United States. There seems less probability of the agreement being ratified than at any time since the negotiations were in progress. Private advices from Washington indicate that a bitter fight will be made in the senate and that the agreement will be riddled with amendments which will have the effect of destroying its power even if it is passed as a concession to the president. Reciprocity rumors were partly responsible for a drop of about 10 cents in wheat last fall and there is no reason to believe that its defeat or partial destruction will not have an opposite effect.

In considering the wheat market each option must be studied in its individual relation to the market on account of the widely divergent factors which bear especially on some deliveries while not affecting others directly. The May deal may be regarded as having been a fizzle. At one time the bull holdings amounted to about 35,000,000 bu. The short interest has been greatly reduced in the last few days, but there is still an open account that may cause trouble. The May deal has been disastrous to everybody connected with it in the last two or three months. The longs have lost enormously and the shorts in a majority of instances have been severely punished but their losses have been heavy. In this respect the May deal of this year is unique as, with a few exceptions, it has not made anybody any money.

July Bullish.

The July delivery, for the next two weeks at the least, will be a weather affair. The action of that delivery will depend, also, upon the amount of grain that can be rushed to the Chicago market. The Southwestern crop is comparatively early, but it is questionable if receipts at Chicago will be larger than usual for delivery on July contracts. There is a large short interest in the Chicago July. Not only have millers hedged heavily in that option, but a leading long in the May has taken unto himself a heavy short line in July in an attempt to reduce his losses in the current delivery.

The leading July bulls are not entirely those who have been behind the May deal. Their financial resources have not been seriously affected by losses in May, because they were not heavily interested in it, comparatively. That they have built a fire under the July shorts cannot be denied. If hot temperatures materialize in the Southwest within the next two weeks and moisture is deficient, the July shorts may be blown skyward. Bullish sentiment is stronger now than at any time this spring. The present scare is the first affecting the winter wheat crop that has had a tangible basis. For that reason it may be more potent than any other crop scare of the current year. It comes at a time, also, when the timid bears are ready to espouse the bull side after having unsuccessfully attempted to make money on the short side.

The holders of cash wheat undoubtedly will endeavor to support a bull market in an attempt to make a place where they can unload an unwieldy "corpse" on belated longs or panic stricken shorts. This picture, of course, is at present only imaginary, but the bullish position of the July delivery can hardly be overemphasized if the prevailing hot weather in the Southwest continues or is repeated within the next two weeks.

The September Option.

On the other hand the September delivery, so far as the distant future is concerned, can be regarded as bearish. This statement does not take into consideration any sympathetic advance in the next month or two. By August the bulk of the winter crop movement will be in full swing in the face of a big caary-over. Assuming that no calamity blights the growing spring wheat crop a big yield may be expected. The maintenance of high prices for winter wheat on account of a problematical July deal would make export business of the winter article out of the question and would throw into the next crop year the supplies that might be exported if prices declined to a favorable level. In getting rid of the big surplus of the winter and spring wheat crops it is not likely that this country could digest both the supplies of old wheat and the large holdings of new wheat. In the face of this condition a bear market similar to that of last year might be expected.

Of course this hypothesis falls flat if a disaster overtakes the spring wheat crop. It might be severely punctured, also, by serious damage to growing crops abroad, which are now in excellent condition. It is simply given for what it is worth at the present time.

Receipts—Wheat, 75,894 bu, last year 20,792 bu; oats, 11,167 bu, last year 25,273 bu; linseed, 756 bu, last year 7,624 bu.

Shipments—Wheat, 186,105 bu, last year 5,150 bu; oats, 2,964 bu, last year, 4,479 bu.

MARKET GOSSIP

McPherson, Kansas, wired: "Three days of fierce winds have played havoc with Ellsworth, Rice and Salina wheat fields. McPherson, lower altitude, wheat looking better but also suffering. Corn in the same; clouding up to the west. Even with rains can hardly raise more than last year. Raining now in Iowa and Fort counties.

Cars of wheat received:

	Today.	Last Year.
Duluth	75	18
Minneapolis	184	206
Chicago	263	19
St. Louis, bu.	53,000	13,000
Kansas City	47	50
Winnipeg	91	81

Cars of linseed received:

	Today.	Last Year.
Duluth	none	21
Minneapolis	2	12
Winnipeg	2	1

Minneapolis wired: Cash demand slow. Big mills are very limited buyers. The holiday Tuesday is partly responsible for the restricted buying, as a number of mills will close down tonight and not reopen until Wednesday.

B. W. Snow wired: The season to date in the Ohio, Middle Mississippi and Lower Missouri valleys has been unfavorable for a vigorous oats growth. Seeding began early in April but was interfered with by rain and cold weather and dragged over a months' time, and was never entirely completed according to original intention in the Ohio and Missouri valleys. The lack of seasonable rainfall so far this spring, coupled with two weeks of unusually high mid-May temperatures, caught the crop at its most critical stage of development, when the head was in the short blade and the result is very short heading. The acreage is unquestionably materially reduced and the present condition of plant is low in Ohio, Indiana, Illinois, Missouri, Kansas, Oklahoma and Texas. In Iowa and the Northwest the prospect is better, because the plant is less advanced, but even there it is rapidly coming to its critical stage with a serious moisture deficiency, which would lower prospects quickly if high temperatures are experienced.

Kansas City reports wheat samples there all headed out, looking fine and inucative of large yields. These samples are from Missouri, where harvest will begin in central and southern counties in two or three weeks.

Chicago Tribune: "Shorts in July wheat are sitting on top of a speculative volcano," said a big local professional trader. "In the first place, wheat in this country from a supply and demand standpoint is legitimately worth $1. Canadian reciprocity talk knocked from 10 to 15 cents off the price, and now it is not at all certain that the treaty will be ratified. The leading bulls have complete control of the less fancy lots, but not as brisk a demand as yesterday at that. Closing: Cash—No. 2 hard, 99¾c; No. 1 northern, 98⅞@98¾c; to arrive, 96⅞@98⅞c; No. 2 northern, 94⅝@97⅛c; No. 3 wheat, 92⅜@95⅜c; No. 1 durum, 88c; No. 3 yellow corn, 52c; No. 3 white oats, 33½@34c; No. 2 rye, 90c.

Millstuffs—Shipments, 1,584 tons. The tone of the market is easy and prices lack firmness. Bran in 100-pound sacks, $20.50@21.00.

Flour—Shipments, 42,532 bbls. Trade is reported worse than ever, demand having diminished to still smaller proportions. First patents in wood, f. o. b., Minneapolis, ——; second patents, $460@$4.90; first celars, $2.20@$2.85.

Flax—Receipts, 2 cars, against 12; shipments, 4. The market was dull. The close was higher in line with the option No. 1 flax $2.25.

Barley—Receipts, 32 cars against 50; shipments, 3. A typical Saturday market; slow and draggy. More than half the receipts, or 18 cars, was in California barley. Malting barley 75@94c; feed barley, 60@75c.

Corn and Wheat Bulletin.

CHICAGO MARKET.

Wheat Turns Weak on Account of Southwestern Rains.

Chicago, May 27.—Wheat showed weakness this morning on account of rains in Kansas and Nebraska. The map northwest was also a wet one, and there was a sudden withdrawal of the buying based on drouth conditions and the hot weather. Apparently the big shorts had covered, and were ready for a fresh attempt to drive prices downward. The market, however, was steadied somewhat by signs of smaller world shipments than a week ago. Opening prices were ⅛@⅜c lower. July started at 89¼c to 89⅜c, a drop of ⅛c to ⅜c and declined further to 88⅞@89c.

Lightness of offerings later led to a rally. The close was firm with July a shade up at 89⅛@89⅜c.

Corn eased off through lack of support. Cash houses were the chief sellers. July opened a shade to ¼@⅜c down at 53⅞c to 54⅛c and fell to 53¾c. The market afterward recovered a trifle in sympathy with wheat. The close was steady at 53⅞c for July, a net loss of ¼@⅜c.

Promised relief from the hot wave let oats work lower. July started ⅛c to ⅜c under last night at 35⅝c to 35⅞c and seemed inclined to keep within that range.

Scattered buying held provisions firm. The motive force was from an advance at the yards. Trade in hogs was unchanged to 2½c up with July delivery $15.00 for pork, $8.25 for lard, and $8.00 for ribs.

Articles.	Receipts	Shipments.

MINNEAPOLIS MARKET.

Southwest Crop Outlook Is Chief Influence on Wheat.

Minneapolis, Minn., May 27.—The Southwest, which was the bull influence yesterday, had a more encouraging crop outlook today in consequence of rains last night, lower temperatures and the prospect of a cool Sunday. Rains came down last night in the country north and west of Minneapolis. Wheat is 12 to 15 inches high near St. Cloud and practically all the crop news is good. May opened 95¾c; high, 95⅞c; low, 95¼c; closed, 95⅛c. July opened 96¾@96⅞c; high, 96⅞c; low, 96¼c; closed, 96⅜c. September opened, 91¾c; high, 91¾c; low, 91¼c; closed, 91⅝c. December closed 91⅝c.

Cash wheat was very slow and 2c over July was the best for the choice North Dakota lots and except a few cars to go out at 2½c over. Premiums of ½c over were paid by elevators for cables than due, and of reports of a further improvement in the demand for cotton goods. Crop advices, however, were favorable. It was rumored that the National Ginners' association made the condition of the crop over 85 per cent. There seemed to be no aggressive support of old crop positions except on breaks and the market during the middle of the morning was weak and unsettled at a net decline of 4@6 points under commission house liquidation and local selling.

Futures closed very steady; bids: May, 16.48; June, 15.54; July, 15.61; August, 14.99; September, 13.50; October, 13.04; November, 12.97; December, 12.97; January, 12.96; March, 13.04.

Spot closed quiet, 10 points lower; middling uplands, 16.70; middling gulf, 15.95; no sales.

London Stocks.

London, May 27.—American securities opened quiet on the stock exchange here today and about unchanged from yesterday's New York closing. Later United States Steel gained ⅛ point and the rest of the list hardened in sympathy. The closing was steady.

New York Money.

New York, May 27.—Money on call nominal. Time loans dull; 60 days, 2½@2¾ per cent; 90 days, 3¾ per cent; six months, 3¼@3½ per cent.

South St. Paul Livestock.

South St. Paul, Minn., May 27.—Cattle—Receipts, 200; slightly weaker; unchanged. Hogs—Receipts, 2,500; market 5c to 10c higher. Range, $5.50@6.00; bulk of sales, $5.80@5.85. Sheep — Receipts, 200; closed steady; sheep and lambs quoted as unchanged.

DULLNESS IN STOCKS

Purchases Small Aside From the Movements in a Few Specialties.

Grain Roads Higher on Favorable Outlook for Increased Tonnage.

New York, May 27.—Small gains were in a majority in the first sales of stocks today. The movement, however, was slight and trading was dull. American Beet Sugar gained ⅝ and Erie and Northern Pacific ½. American Agricultural Chemical declined ½.

Purchases of stocks were on a light scale, aside from the movements in a handful of specialties. All of the grain carrying railroads ruled higher on the favorable outlook for increased tonnage in various sections. Canadian Pacific, American Beet Sugar and International Harvester advanced 1, Westinghouse Electric 1¼ and Western Union 1⅛.

The market closed steady. Extreme dullness ruled in the final hour with some slight improvement in the active issue, part of which was later lost. Westinghouse Electric and American Beet Sugar increased their gains 2 points.

REMARKS—Light to heavy showers fell over the Dakota, Nebraska, Kansas and Oklahoma. Very warm weather prevailed Friday except in the Northwest.

H. W. RICHARDSON, Local Forecaster.

T—Indicates inappreciable rainfall. a—Maximum for yesterday. †—Minimum for twenty-four hours, ending at 8 a. m. 75th meridian time. ‡—Minimum temperature for 12-hour period ending at 8 a. m.

NOTE—The average maximum and minimum temperatures are made up at each center from the actual number of reports received, and the average rainfall from the number of stations reporting .1 inch or more. The "state of weather" is that prevailing at time of observation.

###

PRESIDENT VINCENT OF UNIVERSITY ADDRESSES GRADUATES OF THE STAPLES, MINN., HIGH SCHOOL

GRADUATING CLASS OF THE STAPLES HIGH SCHOOL.

First Row, Reading From Right to Left: Florence Sharkey, Mildred M. Hubbell, Clara M. Barrett, Genevieve Arundel, Grace M. Winkelmeyer, Ella C. Kirchgessner, Mildred McMay. Second Row: Amy E. Frazier, Harry W. Lindsay, H. S. Degnan, Earl Thompson, Elmer Wicklund, Jennie Warden. Top Row: Florence Thompson, Bessie Dower, Ruth Sanborn.

Staples, Minn., May 27.—(Special to The Herald. — The largest graduating class in the history of the Staples high school received diplomas Thursday evening. President Vincent of the state university delivered the address to the class at the opera house, and his first address to a class of graduates in the state. He spoke to an audience of 600 persons. His subject was "Education and Efficiency."

Dr. Vincent discredited the old commencement day orator, who spoke of the wisdom of the graduates, who were supposed to be willing encyclopedias capable of giving reliable information on every topic under the sun. The well read man came in for a share of his censure, because of the mania for the collection of miscellaneous information of "no use to himself or any one else."

Efficiency is secured when a person has a well- trained mind, one that can marshal facts and make use of them in the accomplishment of some end. That is organization, and the problems of life can be solved only by such a mind, Dr. Vincent said.

President Vincent was entertained on his arrival by a luncheon given by the alumni of the state university at a hotel. In the afternoon he addressed the pupils of the high school, and he was tendered a 5 o'clock dinner by the members of the Commercial club, to whom he made a brief address.

MARINE

ORE FROM CUYUNA.

First Shipment From New Range Is Sent Down the Lakes.

Ore shipments down the lakes from the Cuyuna range were started today when the steamer Alva took 3,500 tons from the Soo dock at Superior. Other cargoes will follow next week. All of the ore shipped from the new range as yet has come from the Kennedy mine.

Departures: Rochester, package freight; Roman, Samuel Morse, J. J. Hill, C. H. Bradley, Wickwire, Jenny, Alva, Bessemer, Constitution, Victory, ore; Argo, lumber.

SUPERIOR

SWITCHMAN IS KILLED IN YARDS

J. C. Walker Meets Instant Death While Coupling Freight Cars.

J. C. Walker, a Great Northern railway switchman was killed yesterday afternoon in the Superior yards while attempting to make a coupling. The body was badly crushed and death was almost instantaneous. Walker resided at 127 North Twenty-seventh avenue west.

Walker is survived by a wife, but leaves no children. His parents and two brothers reside at Stillwater, Minn., and he also has one sister, Mrs. King, residing at Cloquet. The body was taken to the Le Sage undertaking rooms in Superior from which the funeral will probably be held Monday.

Walker had been employed by the Great Northern railway for a number of years. He was a member of the Superior local of the Switchmen's union, under whose auspices the funeral will be held.

"HOUSE WARMING" AT NEW COMMERCIAL CLUB ROOMS.

The "house warming" held last evening at the Superior Commercial club rooms was attended by a large crowd. The handsome new quarters of the club in the Board of Trade building were thrown open to the general public and during the evening there were several hundred visitors.

Whitney was chairman of the reception committee. Col. George's orchestra furnished the music.

NEW PASTOR WILL BE FORMALLY INSTALLED.

Rev. Harry H. Burns will be formally installed Wednesday, as pastor of Pilgrim Congregational church. The ceremony will take place at the church at 2:30 o'clock in the afternoon and in the evening at 7:30 o'clock. Among the visiting clergymen at the affair will be Rev. Alexander Milne of Duluth and Rev. F. M. Sheldon of Madison, general superintendent of the Wisconsin Congregational association.

VICTIM OF AUTO ACCIDENT.

Dr. P. J. McGill of the health department broke two ribs and sustained several bruises in an automobile accident this afternoon on the Twenty-first street viaduct, when his machine struck an angle arm and turned over.

Mrs. McGill and children were also in the car but escaped serious injury. Dr. McGill was driving the car.

Seniors Give Play.

The senior class of the Nelson Dewey high school last evening presented the three-act comedy, "Mrs. Wiggs," before a large crowd in the East End school building. Miss Frances Donohue and Edward Hart made the hits of the evening in the leading roles. Saxby's orchestra furnished the musical program.

Declamatory Contest.

Miss Agnes Akin won the annual declamatory contest last evening at the Superior Normal school. Miss Yvenne Duplaise was awarded second and Miss Evanda Becker was given third. There were several other contestants. W. C. Lounsbury, Mrs. H. F. Burns and Mrs. W. H. Gable acted as judges.

CUMMINS ATTACKS GREAT CORPORATIONS.

Washington, May 27.—The great corporations, which he declared have "hurt the natural law of competition" and created a spirit of discontent in the nation, were assailed last night by Senator Albert B. Cummins of Iowa, who made the graduation address at the Washington college of law. A peaceable adjustment of the law or a revolution was foreseen by the senator.

The senator said that business was being concentrated into the hands of a few. The law of competition was in danger of disappearing. But two remedies would exist when the mighty combinations should come in control of the wealth of the country—the fixing of prices on all commodities by the government, or the judicial restoration of the creed of competition.

LIEUTENANT GOVERNOR TO BE WITH SCRIBES.

Bemidji, Minn., May 27.—(Special to The Herald.)—Lieut.-Governor Sam Y. Gordon of Brown's Valley, in a letter to Secretary A. G. Rutledge of the Northern Minnesota Editorial association, says he will attend the gathering of the editors at Park Rapids on June 9, but that it will be impossible for him to be there in time to perform the important but hazardous duties as umpire in a game of baseball between the newspaper men June 8. Governor Eberhart is to umpire for the "leans," and it had been hoped that the lieutenant governor would act for the "corpulent" aggregation.

O'BRIEN WILL NOT SEEK MAYORALTY OF ST. PAUL.

St. Paul, Minn., May 27.—(Special to The Herald.)—Efforts to induce T. D. O'Brien, former associate justice of the supreme court, to run on the Democratic ticket for the St. Paul mayoralty have proven unavailing. Furthermore, Mr. O'Brien has announced his retirement, in the following language:

"I will not be a candidate for the office of mayor under any possible condition or combination of circumstances. I don't intend to enter politics in any form, but of all possible positions I consider that of mayor the most perplexing and unsatisfactory."

NUDE CORPSE IN CHAPEL DEMORALIZES COLLEGE.

Alfred, N. Y., May 27.—The placing of a naked human corpse on a piano stool in the chapel of Alfred university has so upset the faculty and student body that the program prepared for the last of the college year has been postponed.

For several days the students have been in sullen mood over the suspension of the entire baseball team which played a game recently without permission. A raid was made on an undertaking room in the town and a body was carried away. The corpse, nude, was placed in a sitting position on the piano stool and was discovered by Prof. Annas of the music department in the chapel.

Woman Mining Engineer.

Rolla, Mo., May 27.—Miss Eva Endurance Hirdler of St. Louis was graduated yesterday with a class of forty-five men in mining from the Missouri School of Mines and Metallurgy. She is believed to be the only woman who has received a diploma as a mining engineer.

CITY NOTICES.

CONTRACT WORK—
Office of Board of Public Works,
City of Duluth, Minn., May 26, 1911.

Sealed bids will be received by the Board of Public Works in and for the corporation of the City of Duluth, Minnesota, at their office in said city, at ten o'clock a. m., on the second day of June, A. D. 1911, for the construction of a concrete culvert in Sixth avenue east in said city between Sixth and Seventh streets according to plans and specifications on file in the office of said Board.

A certified check for ten per cent of the amount of the bid, payable to the order of the Treasurer of the City of Duluth, must accompany each proposal.

The Board reserves the right to reject any and all bids.

OLOF G. OLSON,
President.

Official:
R. MURCHISON,
Clerk, Board of Public Works.
(Seal, Board of Public Works, Duluth, Minn.)
D. H., May 26, 27, 1911. D 684.

LEGAL NOTICES.

ORDER TO EXAMINE FINAL ACCOUNT—
State of Minnesota, County of St. Louis. —ss.

In Probate Court.

In the Matter of the Estate of William Meier, Decedent.

THE PETITION OF Amanda Meier as representative of the above named decedent, together with her final account of the administration of said estate, having been filed in this court, representing, among other things, that she has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the Court, and that the Court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto, and for the discharge of the representative and the sureties on her bond.

IT IS ORDERED, That said petition be heard, and said final account examined, adjusted and allowed by the Court, at the Probate Court Rooms in the Court House, in the City of Duluth in said County, on Monday, the 19th day of June, 1911, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in The Duluth Herald, according to law.

Dated at Duluth, Minn., May 27th, 1911.

By the Court.
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
BALDWIN & BALDWIN,
Attorneys.
D. H., May 27, June 3 and 10, 1911.

ORDER OF HEARING ON PETITION FOR LICENSE TO SELL, MORTGAGE OR LEASE LAND—
State of Minnesota, County of St. Louis.—ss.

In Probate Court.

In the matter of the Estate of George Bjorn, Martha and Agnes Ostby, Wards.

THE PETITION OF August Ostby, as representative of the above named wards, having been filed in this Court, representing, among other things, that for reasons stated in said petition, it is necessary and for the best interests of the estate of said wards, and of all persons interested therein, to sell certain lands of said wards in said petition described and praying that license be to Augusta Ostby guardian, granted to sell the said land:

IT IS ORDERED, That said petition be heard before this Court, at the Probate Court Rooms in the Court House, in Duluth in said County on Monday, the 19th day of June, 1911, at ten o'clock A. M. and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in The Duluth Herald, according to law.

Dated at Duluth, Minnesota, this 12th day of May, A. D. 1911.

By the Court,
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
D. H., May 13, 20, 27, 1911.

ORDER OF HEARING ON PETITION FOR PROBATE OF FOREIGN WILL—
State of Minnesota, County of St. Louis.—ss.

In Probate Court.

In the matter of the estate of Howard Colburn, Decedent.

Certain instruments purporting to be authenticated copies of the last will and testament of Howard Colburn, and of the probate thereof in the Probate Court in and for the County of Norfolk, State of Massachusetts, having been presented to this court, and the petition of Don Gleason Hill being filed herein, representing, among other things, that said decedent, then being a resident of the Town of Westwood, Norfolk County, State of Massachusetts, died testate in the County of Norfolk, State of Massachusetts on the 28th day of September, 1907, leaving estate in the County of St. Louis, State of Minnesota, and that said instrument has been allowed and admitted to probate as his will in the Court above named, and praying that said will be allowed and admitted to probate in this state, and that letters testamentary be issued thereon to Don Gleason Hill.

IT IS ORDERED, That said petition be heard before this court, at the Probate Court Rooms in the Court House, in Duluth in said County, on Monday, on the 12th day of June, 1911, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in The Duluth Herald, according to law, and that a copy of this order be served on the County Treasurer of St. Louis County not later than ten days prior to said day of hearing.

Dated at Duluth, Minn., May 20th, 1911.

By the Court.
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
D. H., May 20, 27, and June 3, 1911.

ORDER OF HEARING ON PETITION FOR DETERMINATION OF DESCENT OF LAND—
State of Minnesota, County of St. Louis.—ss.

In Probate Court.

In the Matter of the Estate of George Emerson Roscoe, Decedent.

THE PETITION OF Josiah R. Roscoe having been filed in this Court representing, among other things, that the above named decedent died more than five years prior to the filing of said petition, and that no Will of decedent has been proved nor administration granted on his estate in this State; that said petitioner has, and claims to have, an interest in certain real estate of decedent lying and being in the County of St. Louis, State of Minnesota, described in said petition, and praying that the descent of said real estate be determined by this Court, and the same assigned to the persons thereunto entitled.

IT IS ORDERED, That said petition be heard before this Court, at the Probate Court Rooms in the Court House, in the City of Duluth, in said County, on Monday, the 19th day of June, 1911, at ten o'clock A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

ORDERED FURTHER, That this order be served by publication in The Duluth Herald, according to law.

Dated at Duluth, Minn., May 26th, 1911.

By the Court.
S. W. GILPIN,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)
D. H., May 27, June 3, 10, 1911.

Notice to Contractors

Sealed proposals will be received by Adolph Colem, Clerk of School District No. 32, Minnesota, up till ten o'clock, Saturday morning, June 3, 1911, for raising, turning around, providing a basement, remodelling, and building additions to a certain school building located on the N. W. one acre of the N. E. ¼ of the N. W. ¼, Section 21, Township of Normanna Town 52, Range 13 West of the Fourth Principal Meridian, according to drawings and specifications prepared for same by Frank L. Young & Co., Architects, 33-34 Masaba block, Duluth, Minn.

Sealed bids to be made upon the forms provided by the Clerk of said District.

The School Board reserves the right to reject any or all bids.

The successful bidder will be required to deposit bonds with the clerk of said school district within ten days of award of contract, in the full amount of the contract price, and in terms to be approved by the said School Board, with either a reputable bonding company as surety or two citizens satisfactory to the said Board.

Signed,
ADOLPH SOLEM,
Clerk, District No. 32, St. Louis County.
Dated at the residence of the clerk, this 20th day of May, 1911.
R. F. D. No. 3, Duluth, Minn.
